- Complete ECO 3203 and 1 additional 3000/4000 level Economics course
- 2.0 UF GPA required

**SEMIESTER 7**
- Complete 2 additional 3000/4000 level Economics courses
- 2.0 UF GPA required

---

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education course (typically, GE-C, H, or S).

FIN 3403, AEB 3450, AEB 4931, and GEO 3502, if taken, do not also count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

---

### Academic Learning Compact

This major teaches students the skills used to understand how households, firms and governments make economic decisions and the implications of those decisions for resource allocation, pricing, the distribution of income and macroeconomic variables.

### Before Graduating Students Must

- Take the Economics Field Test conducted by the ETS. This test will be 10% of the student’s grade in ECO 3203. The goal of the Department of Economics is that each student’s average score exceeds the national average of 154; however, a score of 154 is not a graduation requirement.
- Students who want to graduate *magna cum laude* or *summa cum laude* must propose and defend an honors thesis before the department’s undergraduate committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify indifference curves as representations of consumer preferences, and to evaluate these indifference curves in the context of preference relations.

Critical Thinking
2. Model and analyze unfamiliar social interactions using a formal economic framework.

Communication
3. Communicate effectively the concept of opportunity costs and tradeoffs.

Economics Minor

Through the study of Economics, students learn how to look at a complex world and make sense of the wide variety of behaviors they observe. Students minoring in economics are introduced to the analytical skills used to understand how households, firms, and governments make economic decisions, comparing costs and benefits in an effort to maximize their own well-being or social objectives.

About this Program
• College: Liberal Arts and Sciences (p. 1034)
• Credits: 22-23 | Completed with minimum grades of B for ECO 2013 and ECO 2023, minimum grades of C for remaining courses, and no optional S/U

Department Information
The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad.

Curriculum
• Combination Degrees
• Economics
• Economics Minor
The Economics minor is a suitable option for students of all undergraduate majors. Students minoring in economics can, for example, pursue coursework in managerial decision-making, international development, and quantitative methods.

### Required Courses

<table>

</table>

Total Credits: 22-23

1 Upper-division; any 3,000 or 4,000 level course with an ECO, ECP, or ECS prefix (not including ECO 3101, ECO 3203, ECO 4905, ECO 4941), and one of AEB 3450, FIN 3403, or GEO 3502.

---

### English

Undergraduate study in English prepares students for diverse careers in law, publishing, advertising, media and business, teaching, and advanced degree work.

#### About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Degree:** Bachelor of Arts
- **Specializations:** Models of Study
- **Credits for Degree:** 120
- **More Info**

**To graduate with this major, students must complete all university, college, and major requirements.**

#### Department Information

The Department of English fosters a dynamic nexus of critical thinking, writing, and making. English offers students innovative opportunities for individual and collaborative learning through BA, MFA, and PhD programs. Students work with a variety of materials, including: global Anglophone literature, African-American literature, children's literature, comics, critical theory, digital modes, film and media. In-house journals and media reflect the scholarly, creative, and interdisciplinary work done by the department. Active across campus through its affiliations, English produces next-generation arts and humanities.

Website ([https://english.ufl.edu/](https://english.ufl.edu/))

#### CONTACT

Email (murchek@ufl.edu) | 352.392.6650 (tel) | 352.392.0860 (fax)

P.O. Box 117310
4008 TURLINGTON HALL
GAINESVILLE FL 32611-7310
Map ([http://campusmap.ufl.edu/#/index/0267](http://campusmap.ufl.edu/#/index/0267))

#### Curriculum

- English
- English Minor

Courses offered by the department introduce students to a world of experiences that cannot be exhausted in the brief span of a college education; new authors, new works, new media, and new tools for understanding continually enlarge and transform the world. With the help of faculty advisors, undergraduate majors in English select from courses in various forms, periods and approaches. In addition, students may develop special expertise in one of several models; for example, communication and creative writing, theory of media, literary study, or cultural studies.

#### Coursework for the Major

Students pursuing the B.A. in English must take ten courses offered by the English department. These courses must be 3000 level or above, of no fewer than three credits each and completed with minimum grades of C. (The requirement is ten courses, not 30 credits).
Prerequisite to all 3000/4000-level courses are six credits of English at the 1000/2000 level or department permission. Students must take at least five of their 3000-level or above English courses at UF. Of 3000-level courses with an ENC prefix, only the following apply to the English major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENC 3250</td>
<td>Professional Communication</td>
<td>3</td>
</tr>
<tr>
<td>ENC 3310</td>
<td>Advanced Exposition</td>
<td>3</td>
</tr>
<tr>
<td>ENC 3312</td>
<td>Advanced Argumentative Writing</td>
<td>3</td>
</tr>
<tr>
<td>ENC 3414</td>
<td>Hypermedia</td>
<td>3</td>
</tr>
</tbody>
</table>

Of 4000-level courses with an ENC prefix, only the following apply:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENC 4212</td>
<td>Professional Editing</td>
<td>3</td>
</tr>
<tr>
<td>ENC 4260</td>
<td>Advanced Professional Writing</td>
<td>3</td>
</tr>
</tbody>
</table>

The student is responsible for consulting an advisor and preparing a plan of study.

**Course Details**

Because English majors will not be tracked for a specific set of courses, but must meet the ten-course requirement described above, there are no particular English courses that majors must take on a semester-by-semester basis.

The only prerequisite for most 3000/4000-level English courses is earning six credits of lower-division English course credit by coursework or placement (refer to Placement Section below). The classes that may have additional prerequisites are 3000/4000-level creative-writing (CRW) workshops, 4000-level film and video production workshops (ENG 4136 and ENG 4146), 3000/4000-level advanced writing (ENC) courses, department seminars (ENG 4953), honors seminars (ENG 4936), and the department’s internship course (ENG 4940). Refer to the catalog’s course descriptions to view the prerequisites for these courses.

As students try to decide which 3000/4000-level courses to take, they should not be concerned about differences between the two levels. The higher-level courses are not more difficult, except in the rare cases where the 4000-level course has 3000-level prerequisites. Course numbers are not created by the English Department but by a statewide course numbering system. Students can gauge a course’s level of difficulty by reviewing the department’s detailed course descriptions.

The majority of the department’s upper-division courses are variable or rotating topics courses, many of which can be repeated for credit given a change in topic. The only way to discover what the actual course topics will be in a specific semester is to consult the department’s course descriptions, which explain topics and approaches, and generally give some idea of the texts and assignments. These descriptions are usually posted online three to four weeks before advance registration so that students have ample time to consult them before registering.

**Specializations | Models of Study**

The department encourages students to follow models of study to help them create coherent patterns of focus and breadth in their coursework. Models of study range from traditional courses of study such as British and American Literature, through film and media studies, creative writing and studies in theory, to cultural studies, postcolonial studies and studies in feminisms, genders and sexualities.

Models of study do not have tracking status. Students will never be monitored, electronically or otherwise, for completion of models of study. The models identify to English majors the faculty’s enthusiastic recommendations about coursework distributions for various interests they might want to pursue. Department advisors also can recommend which models of study seem most appropriate for particular post-undergraduate career and educational goals.

- Advanced Writing
- African-American/African Diaspora Studies
- American Literature
- British Literature
- Children’s Literature
- Creative Writing
- Cultural Studies
- Drama/Theatre
- Feminisms, Genders and Sexualities
- Film and Media Studies
- Postcolonial Studies
- Studies in Theory

Because the models of study do not have tracking status, students do not need to declare their intention to follow models of study with the department. Models of study structure the coursework, but students do not have to take specific courses to complete degree requirements for the major, and they can modify or combine models of study. While the department understands that students may be disappointed if they are unable to
take specific courses relevant to their models of study, the demand for seats in courses is very high and the department is not able to accommodate all course requests.

**Placement**

Scores on the verbal portion of the SAT or scores on the AICE, AP, IB or CLEP tests will determine the appropriate composition course. Refer to the charts in the Academic Advising section (p. 1771) for course equivalency and placement information.

The department recommends that all students take one 2000-level English department course (without duplicating any course for which they have received placement credit) before moving on to 3000/4000-level coursework. Courses taught at the university level are bound to differ from those taught at the high school level, no matter how enriched the high school curriculum may have been.

Freshmen who intend to major in English should consult a department advisor as soon as possible. Students who intend to establish an emphasis in film studies should take ENG 2300. Creative writing students should take CRW 1101 or CRW 1301.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=230101&track=01) may be used for transfer students.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- 2.1 UF GPA required

**Semester 3**

- Complete 1 English department course at the 2000 level or higher
- 2.3 UF GPA required

**Semester 4**

- Complete 1 additional English department course at the 2000 level or higher with a 2.5 critical-tracking GPA

**Semester 5**

- Complete 1 additional English department course (1 of the 3 courses must be at the 3000 level) with a 2.5 critical-tracking GPA
- 2.5 UF GPA required

**Semesters 6 – 8**

- Complete a total of 10 English courses at 3000/4000 level. English does not require a certain number of courses per each semester for these two years. However, it is strongly recommended that students take at least two courses per semester.
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

---

**Academic Learning Compact**

Home to UF’s programs in Creative Writing and Film and Media Studies, The Center for Children’s Literature and Culture, and The Institute for the Psychological Study of the Arts, the Department of English bridges traditional literary studies with new critical and theoretical disciplines. These include: critical theory and cultural studies; creative writing; rhetoric and composition; children’s and young adult literature; contact period studies; postcolonial and/or diasporic studies; film studies/film and video production; gender studies and feminist theory; new media; psychology and literature; and imagetext studies.

Individualized programs balance focus with a flexible curriculum that spans periods, genres and media, and fosters careful analysis across disciplines and methodologies. Received traditions are renovated and new intersections of critical and literary practice are fostered within the framework of the Context Model system. Students are encouraged to define and pursue original work and/or creative work.
The study of English is vitally concerned with the texts and contexts of public culture. The department’s curriculum cultivates a responsible understanding of the cultural and material conditions that shape historical and contemporary texts, and instructs students in the communication skills necessary to produce materials that disseminate new thought and knowledge by engaging with “fundamental questions” in the arts and humanities.

**Before Graduating Students Must**

- Complete ten English courses (3000 or above) that demonstrate proficiency in the student learning outcomes; assessments will be graded according to an evaluation rubric during the student’s inaugural and final semesters in the major.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify materials, terminologies, methodologies and theories within one or more context models:
   - a. Advanced Writing
   - b. African-American/African Diaspora Studies
   - c. American Literature
   - d. British Literature
   - e. Children’s Literature
   - f. Creative Writing
   - g. Cultural Studies
   - h. Drama/Theater
   - i. Feminisms, Genders and Sexualities
   - j. Film and Media Studies
   - k. Medieval/Early Modern Studies
   - l. Postcolonial Studies
   - m. Studies in Theory

**Critical Thinking**

2. Communicate knowledge, ideas and reasoning effectively in written, oral or other forms appropriate to the context model(s).

**Communication**

3. Evaluate cultural narratives and/or objects, employing methodologies and criteria appropriate to the context model(s).

**Curriculum Map**

*I = Introduced; R = Reinforced; A = Assessed*

<table>
<thead>
<tr>
<th>Courses</th>
<th>SLO 1</th>

</tr>
<tr>
<td>Assessment 2 (Final/graduating semester)</td>
<td>A</td>
<td>A</td>
<td>A</td>
</tr>
</tbody>
</table>

1 Course selection and sequence vary by student choice and courses can be affiliated with multiple context models.

**Assessment Types**

- Instructors rely on course assignments, most often critical essays, as prescribed by context models and as assessed the inaugural and final semesters of the student’s enrollment in the upper-division major.

**English Minor**

The English minor provides the opportunity to study literature, rhetoric, creative writing or film and media, while gaining critical, analytical, and intellectual skills.
Environmental Justice and Policy Minor

The Environmental Justice and Policy minor offers an interdisciplinary framework for examining how disparities of class, race, gender, and organizational capacity interact with access to a safe and healthy environment.
About this Program

• **College:** Liberal Arts and Sciences (p. 1034)

  • **Credits:** 15 | Completed with minimum grades of C and no optional S-U | 9 must be at the 3000-level or above

Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department’s faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

• Combination Degrees

  • Criminology

  • Criminology UF Online

  • Sociology

  • Sociology Minor

  • Sociology Minor UF Online

  • Sociology of Social Justice and Policy Minor

  • Sociology UF Online

Sociology offers broad theoretical perspectives and rigorous methodologies to analyze how and why such inequalities are produced and maintained locally, nationally, and globally. Students pursuing an EJP minor explore the impact of environmental hazards on the health and economic opportunities of vulnerable and marginalized populations; the mechanisms by which environmental conflicts are managed at the local, state, national and global levels; the real-world implications of issues such as climate change, food security, public health and hazard exposure; the spatial dimensions of environmental inequalities and how they are experienced; the strategies and tactics of social movement organizations seeking environmental justice; and how environmental justice is addressed in public policies. The EJP minor introduces students to environmental scholars across the campus community, expanding networking and mentoring opportunities, exposing students to diverse ideas, methods, and theories in the area of environmental justice, and teaching fundamental skills and competencies for careers related to policy making and research in the environmental sphere.

REQUIREMENTS

• Students must complete a minimum of nine credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors or certificates.

  • Students must complete at least three courses at the 3000 level or higher and each must be at least three credits.

  • A minimum of 9 credits must be from Sociology courses (i.e., courses with the prefix SY).

  • Minimum 3 credits from Category A courses focusing on Theories of Social Inequality, Difference and Power.

  • Minimum 3 credits from Category B courses focusing on Issues of Environmental Justice, Research and Policy.

  • At least one course from Category A or Category B must be Sociology (SY).

  • With the approval of the undergraduate coordinator for Sociology, students may petition to have other, relevant classes approved as substitutes within each category of electives within the minor. Such courses could include department special topics offerings with numbers like 3930 or 4930.

  • No more than three credits of independent study (SYA 4905), research (SYA 4911) or internship (SYA 4941) may count toward the minor.

  • All courses must be completed with minimum C grades.

  • The EJP minor is not available to Sociology majors.

Ethics and Society Certificate

The Ethics and Society certificate trains students in the ethical analysis of problems in public life and the professions. Learn about major theories and issues in ethics as a scholarly field and have the opportunity to gain specialized knowledge in areas such as medical, engineering, business, or environmental ethics.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Credits**: 12 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Contemporary public discourse is teeming with issues of urgent moral concern. From climate change to police violence, artificial intelligence to health care access, we face complex challenges that have ethical problems at their core. It is not always easy, however, to think through these challenges in a responsible and productive way. The Ethics and Society certificate teaches students to understand and analyze the moral dimensions of contemporary issues in public life and the professions. These topics are relevant for students in diverse majors, including professional schools as well as the liberal arts and sciences. Required courses in philosophical and religious ethics will provide students with the necessary skills to conceptualize ethical issues, providing an intellectual foundation for the analysis of applied and professional problems.

Admission Requirements

Current UF undergraduates in any major with a 2.0 GPA. Students minoring in Religion or Philosophy are eligible for the certificate so long as no more than one of their certificate courses are counted towards their minor.

- POS 3263 Policy, Ethics and Public Leadership
- POS 4264 Ethics in American Politics
- POT 3503 Environmental Ethics and Politics
- WST 3930 Special Interdisciplinary Topics in Women's Studies

Total Credits 12

The certificate adviser may approve other relevant ethics courses for the certificate (e.g., a course taught under a special topic number).
European Jewish Studies Certificate

The European Jewish Studies certificate is an interdisciplinary, individualized, and experiential study of European Jewry, including comparison with North African and Middle Eastern populations outside and sometimes within continent's borders.

About this Program

Center Information

The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center's curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

- Hebrew
- Hebrew Minor

Open to all students enrolled in an undergraduate degree program at the University of Florida.

Offered by the Center for Jewish Studies in cooperation with the Center for European Studies and participating UF units, the certificate in European Jewish Studies is designed to familiarize students with key issues in the Jewish experience in Europe, including relations with other groups; the trajectory of Jewish integration in European societies and cultures; representations of the Jew within European cultures; and comparisons with North African and Middle Eastern populations outside and within the continent's borders.

The EJS certificate provides students with multiple opportunities for concentrated and experiential areas of study. It allows students to work closely with their EJS faculty advisor to develop targeted, individualized areas of expertise from an array of specialists and perspectives to complement their majors and/or to prepare them for careers in governmental and non-governmental organizations, education, international business and politics, museums, festivals, libraries, Jewish associations and foundations. Students may specialize in national contexts or comparative and transnational cases, events and issues.

Requirements

Requirements consist of EJS approved individual study plans of 15 credit hours and attendance at a minimum of five relevant public lectures sponsored or co-sponsored by the Center for Jewish Studies and the Center for European Studies. Since availability of courses varies from year to year and new courses are often added, students should consult with a faculty adviser to determine which courses are approved for the certificate.

## Approved Experiential Capstone

Select one:
- Director-approved courses with completion of a faculty approved assessment (research project).
- Approved faculty-guided research in EJS (including approved JST 4905), with assessment
  - JST approved study abroad

### CERTIFICATE WITH HONORS

Students may also participate in approved experiential learning projects, approved USP funded EJS research, and Honors theses in European Jewish Studies to receive certificate with Honors.

### European Union Studies Certificate

The European Union Studies certificate provides the opportunity to gain multidisciplinary expertise in EU-related affairs.
About this Program

• **College:** Liberal Arts and Sciences (p. 1034)
• **Credits:** 12 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Center Information

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

European Union Studies Minor

The European Union Studies minor provides multidisciplinary expertise and hands-on practical experience in EU-related affairs through coursework, internships, and study abroad opportunities.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 18 | Completed with minimum grades of C

Center Information

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Curriculum

- /UGRD/colleges-schools/UGLAS/IDS_BA_BS/IDS_BA17/
- East-Central European Studies Minor
- European Union Studies Certificate
- European Union Studies Minor

*This minor is open to all undergraduates.*

To be eligible, students must have a minimum overall 2.5 GPA and a 3.0 GPA in their major. The combined GPA for all coursework applied toward the minor must be a minimum 3.0.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Completion of the minor requires participation in an EU-related internship or CES study abroad or preapproved alternative with substantive EU content.

Foreign Languages and Literatures

The major provides a foundation for graduate work in Foreign Languages and Literatures or allied fields (anthropology, art history, history, linguistics, political science, religion). A Foreign Languages and Literatures major is excellent general preparation for entry to professional schools (business, journalism, law, and medicine) or careers in foreign service, diplomacy, translation, commerce, business, import and export of information and culture, museums and libraries, and tourism.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Foreign Languages and Literatures Specializations
• African Languages
• Arabic
• Chinese
• Dual Languages
• French and Francophone Studies
• German
• Hebrew
• Italian
• Japanese
• Russian

Academic Learning Compact
The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must
• Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
• Complete requirements for the baccalaureate degree, as determined by faculty.
• Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

- Japanese
- Russian

**Dual Language Specialization**

The Dual Language specialization of the Foreign Languages and Literature major offers students the opportunity to specialize in two of the languages offered by the Department of Languages, Literatures and Cultures (LLC). Students can combine any of the languages offered as specializations and/or they can combine any of these languages with a specialization in Haitian Creole or Vietnamese.

Students who choose this track will develop proficiency in two languages as well as acquire cultural knowledge of more than one language area. Dual language majors will be specially poised to make both broad and deep linguistic and cultural comparisons and to build cross-cultural and cross-linguistic connections, skills that will prepare them to operate and work in multi-lingual and multi-cultural societies as well as across various complex regions of the world. Further, dual language majors will be able to apply the language-learning skills gained in the study of one language of specialization to reinforce their acquisition of a second language of specialization.

In the Dual Language specialization, students will complete two years of study of a principal language of specialization and two years of study of a second language taught in LLC. Students will also complete advanced coursework in the languages, their literatures and cultures, as well as a critical concentration.

There are a number of possibilities inherent in the Dual Language major. The following are some potential paths of study:

1. Dual Language: Haitian Creole with French and Francophone Studies
2. Dual Language: Vietnamese with Chinese

Students interested in the dual language specialization should consult with the undergraduate coordinator to determine the best course of study and to discuss practical and intellectually advantageous language pairings.

**Coursework for the Major**

The Dual Language specialization consists of two years of study of two languages. The 33 credits required includes 6 credits earned at the intermediate level in the second language, 18 credits of study in language, literature, and culture at the 3000 level or higher, and the 9 credit critical concentration. Students select a principal language of specialization and combine it with any of the other languages taught in the Department of Languages, Literatures, and Cultures. Course selections for the 18 credits of advanced electives will reflect the literature and culture of either language of specialization.

*All coursework for the major must be completed with minimum grades of C.*
Required Foundation Coursework  
(not included in the 33 credits for the major)

**Advanced Elective Coursework**

18 credits of advanced language and culture study with at least 6 credits at the 4000 level

Specific course offerings in this section will depend on the language(s) selected, but these courses should be selected from the advanced elective offerings (3000/4000 level courses) associated with either language of specialization. Selections should include at least two courses at the 4000 level. Students should consult with the undergraduate coordinator to develop the best course of study.

**Critical Concentration**

9 credits from one of the following concentrations

*Although courses may appear in more than one group they may be counted toward only one group*
• Comparative Cultural Studies
• Film and Visual Culture
• Intensive Area Studies: Specific course offerings in this section will depend on the languages selected, but these courses should be selected from the advanced elective offerings (3000/4000 level courses) associated with the first and second language of specialization and their broader geographical area of cultural influence.
• Literary Studies
• Medieval and Early Modern Studies

A maximum of 15 credits non-UF overseas study credit may apply to the major. Students must have all overseas study credit that will transfer to the major approved by their major advisor.

**Overseas Study**

The department recommends no more than 12-15 credits from overseas study, depending on the requirements of the language specialization and in consultation with the appropriate Undergraduate Coordinator.

**Placement**

Students with previous training in their language of specialization as well as those with heritage background in that language should consult with the LLC undergraduate coordinator in order to have their level assessed before enrolling in any language course.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

**Semester 1**
• 2.0 UF GPA required

**Semester 2**
• 2.0 UF GPA required

**Semester 3**
• Complete Language A: Semester 1 or higher-level Language A course with a minimum grade of C
• 2.0 UF GPA required

**Semester 4**
• Complete Language A: Semester 2 or higher-level Language A course with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

**Semester 5**
• Complete Language A: Semester 3 or higher-level Language A course and Language B: Semester 1 with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

**Semester 6**
• Complete Language A: Semester 4 or a higher-level Language A course
• Complete Language B: Semester 2 or a higher-level Language B course
• Complete 2 Advanced elective courses
• 2.0 UF GPA required

**Semester 7**
• Complete Language B: Semester 3 or a higher-level Language B course
• Complete Advanced elective courses at the 4000 level
Complete 2 Critical Concentration courses
• 2.0 UF GPA required

Semester 8
• Complete Language B: Semester 4 or a higher-level Language B course
• Complete 2 Advanced elective courses
• Complete 1 Critical Concentration course
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact
The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.
Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types
- Proficiency exams
- Term papers or final projects
- Oral presentations

French and Francophone Studies
Foreign Languages and Literatures
French is considered a strategic language for global communications in matters of security, health, business, and cultural exchange. It is the key language to understanding the culture and history of the Francophone world. A specialization in French and Francophone Studies offers the linguistic, cultural, and intellectual training students need for an increasingly globalized future. In addition, the specialization forges links between the present and the past, as it encourages students to explore the exceptionally rich humanistic tradition of France and the Francophone world from the Middle Ages through the modern period.

About this Program
- College: Liberal Arts and Sciences (p. 1034)
- Degree: Bachelor of Arts
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Curriculum
- African Languages
- Arabic
- Arabic Language and Literature Minor
The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

A French and Francophone studies specialization of the Foreign Languages and Literatures major provides students with a strong command of the French language and an understanding of the cultures of the Francophone world. The specialization gives a foundation in the French Language, including speaking, reading, writing, and listening. Our emphasis on communicative approaches and linguistic and cultural competencies trains our students to compete in an increasingly globalized workforce. In addition, the major develops skills in critical thinking and research through in-depth study of the exceptionally rich humanistic tradition of France and the Francophone world throughout history. The program allows each student the flexibility to explore a variety of disciplines within the specialization and to design an individual course of study to reflect a particular interest in linguistics, literatures, cinema, cultural production, or other fields.

The specialization offers an excellent base for diverse careers including diplomacy, international relations, journalism, translation, education, global health, banking, and business. Many of our students choose to combine the French and Francophone specialization with another field of study, including majors in physical sciences and engineering.

### Coursework for the Major

The French and Francophone studies specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

## Advanced Coursework

### Culture
Select one:
- FRE 3500: France through the Ages
- FRE 3502: Francophone Cultures
- FRE 3564: Contemporary French Culture

### Literature
FRW 3100: Introduction to French Literature 1
- or FRW 3101: Introduction to French Literature 2

### Linguistics
Select one:
- FRE 4780: Introduction to French Phonetics and Phonology
- FRE 4822: Sociolinguistics of French
- FRE 4850: Introduction to the Structure of French
- FRE 4501: The French Language in the Americas

### Senior Seminar
FRW 4932: Senior Seminar in French Literature
- 3 credits

### 4000-level Electives
Select 6 credits:
- FRE 4501: The French Language in the Americas
- FRE 4780: Introduction to French Phonetics and Phonology
- FRE 4822: Sociolinguistics of French
- FRE 4850: Introduction to the Structure of French
- FRE 4501: The French Language in the Americas
- FRE 4780: Introduction to French Phonetics and Phonology
- FRE 4822: Sociolinguistics of French
- FRE 4850: Introduction to the Structure of French
- FRE 4906: Honors Thesis
- FRE 4930: Revolving Topics in French Studies
- FRT 4523: European Identities, European Cinemas
- FRW 4212: Readings in 17th Century French Prose
- FRW 4273: Readings in 18th Century French Literature
- FRW 4281: Readings in the 20th Century French Novel
- FRW 4324: Readings in 20th Century French Theatre
- FRW 4391: Concepts of French Cinema
- FRW 4532: Survey of French Romantic Literature
- FRW 4552: Introduction to Realism and Naturalism
- FRW 4762: Readings in Francophone Literatures and Cultures (excluding the Caribbean and Sub-Saharan Africa)
- FRW 4770: African and Caribbean Literatures

### Critical Concentration
Select 9 credits from one of the following concentrations (although courses may appear in more than one group they may be counted toward only one group):
- Intensive Area Studies: French and Francophone Studies (recommended for those planning to pursue careers requiring advanced level skills in French or graduate work in French and Francophone studies)
- Comparative Cultural Studies
- Film and Visual Culture
- Literary Studies
- Medieval and Early Modern Studies

### Overseas Studies
Students specializing in French and Francophone studies are encouraged to study abroad for a summer or a semester. Students regularly participate in UF Programs in Paris or UF-approved study-abroad programs in other regions of France or in the Francophone world. Students also can consider the opportunities offered with UF’s reciprocal exchange agreements with Rennes II and Sciences Po. Students in approved overseas study programs can earn up to 15 credits beyond the 120 credits required for graduation. Refer to UF International Center information and contact a department advisor.

More Info (https://internationalcenter.ufl.edu/study-abroad/)

### Placement
Students with previous training should speak with the department before registering.

- Students with previous study or experience in French should enroll in FRE 1134 or use standardized French examination scores (AICE, AP, CLEP or IB) to determine their appropriate placement in a higher-level course. Such students cannot enroll in FRE 1130 or FRE 1131.
• Any student who has lived in a French-speaking country for more than a year or who is francophone must consult a department advisor before enrolling in any FRE course.

Research
Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation. Students planning to specialize in French and Francophone studies should see a department advisor before registering.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160901&track=01) may be used for transfer students.

SEMMESTER 1
• 2.0 UF GPA required

SEMMESTER 2
• Complete FRE 1130 or a higher-level French language course with a minimum grade of C
  • 2.5 critical-tracking GPA
  • 2.0 UF GPA required

SEMMESTER 3
• Complete FRE 1131 or FRE 1134 or a higher-level French language with a minimum grade of C
  • 2.5 critical-tracking GPA
  • 2.0 UF GPA required

SEMMESTER 4
• Complete FRE 2220 or a higher-level French language course with a minimum grade of C
  • 2.5 critical-tracking GPA
  • 2.0 UF GPA required

SEMMESTER 5
• Complete FRE 2221 with a minimum grade of C
  • 2.5 critical-tracking GPA
  • 2.0 UF GPA required

SEMMESTER 6
• Complete FRE 3300
• Complete 1 Critical Concentration course
• Complete 1 Culture elective such as FRE 3500 or FRE 3502 or FRE 3564
• Complete 1 Literature elective: FRW 3100 or FRW 3101
  • 2.0 UF GPA required

SEMMESTER 7
• Complete FRE 3320
• Complete 2 Critical Concentration courses
  • 2.0 UF GPA required

SEMMESTER 8
• Complete 1 Linguistics elective: FRE 4501 or FRE 4780 or FRE 4850 or FRE 4822
• Complete 2 4000-level electives
• Complete FRW 4932
• 2.0 UF GPA Required

## Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of French may count toward the 3000 level or above electives outside of the major.

Beginning language is best started semester 1 and absolutely no later than semester 3, but study abroad or accredited intensive summer courses can be used to fall in with an ideal semester progression.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

</table>

| Total Credits | 120 |

1  Freshmen entering with previous studies in French will begin at a more advanced level. Refer to the academic advising section for placement information. Students, who by virtue of their placement examinations are enrolled in a course higher than their standing, are exempt from the requirements of that particular plan.

2  One of these courses must be a UF Quest 2 course

### Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

### Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

### Students in the Major Will Learn to

**Student Learning Outcomes (SLOs)**

#### Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

#### Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

#### Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.

4. Display oral and written proficiency in language(s) of specialization.

### Curriculum Map

*I = Introduced; R = Reinforced; A = Assessed*

<td></td>
</tr>
</tbody>
</table>

¹ Courses focus on the acquisition of the language(s) of specialization at the advanced level.

² Courses address literary, cultural, cinematic, historical, and/or social questions.

### Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations
French and Francophone Studies Minor

French is considered a strategic language for global communications in matters of security, diplomacy, health, business, and cultural exchange. A minor in French and Francophone Studies enhances language skills and cultural competency and complements majors from the humanities to the sciences, engineering, business, and the arts.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 16 | Completed with minimum grades of C
- **Contact:** 301 Pugh Hall (http://campusmap.ufl.edu/?loc=0072)

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

- Russian Minor

The minor is open to all UF undergraduates with a minimum overall 2.0 GPA.

- At least three courses (none can be individual work) of no fewer than three credits each must be at the 3000 level or above.
- Of the total credits, no more than three may be individual work.
- A minimum of nine credits must be completed at UF.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Geography

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Degrees:** Bachelor of Arts (p. 1281) | Bachelor of Science (p. 1287)
- **Specializations:** Environmental Geosciences (BA) (p. 1293) | Geographical Science and Sustainability (p. 1299) | Medical Geography in Global Health (BA) (p. 1304) | Medical Geography in Global Health (BS) (p. 1310)
- **Credits for Degree:** 120
- **Contact:** Email (liangmao@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

Contact Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

- Combination Degrees
- Geographical Science and Sustainability | BA
- Geography
- Geography Minor
- Geography Minor UF Online
- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.
Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

Bachelor of Arts in Geography

Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

Bachelor of Arts in Environmental Geosciences

A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Bachelor of Science in Geography

Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

Bachelor of Arts in Medical Geography in Global Health

Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Bachelor of Science in Medical Geography in Global Health

Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

---

**Academic Learning Compact**

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to
apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

**Before Graduating Students Must**
- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

**Critical Thinking**
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

**Communication**
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Total Credits 33-39

The same course may not be used to satisfy requirements for more than one bulleted group.

Transfer coursework is considered on a case-by-case basis. Upper division transfer courses with no UF equivalent will be substituted as GEO 4938.

Related Coursework

- STA 2023

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.
Semester 1  
• 2.0 UF GPA required

Semester 2  
• 2.0 UF GPA required

Semester 3  
• Complete 1 geography course (GEA 1000 not acceptable)  
• 2.0 UF GPA required

Semester 4  
• Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA  
• 2.0 UF GPA required

Semester 5  
• Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA  
• 2.0 UF GPA required

Semester 6  
• Complete a GIS 3000/4000 technique course.  
• 2.0 UF GPA required

Semester 7  
• Complete 1 additional geography technique course (GEO or GIS 4000 level)  
• 2.0 UF GPA required

Semester 8  
• Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses  
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

---

1 One General Education option taken this term must be a Quest 2 course.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

---

**Academic Learning Compact**

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.
Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

Critical Thinking
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

- Capstone exam
- Portfolio

Bachelor of Science

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Degrees:** Bachelor of Arts (p. 1281) | Bachelor of Science (p. 1287)
- **Specializations:** Environmental Geosciences (BA) (p. 1293) | Geographical Science and Sustainability (p. 1299) | Medical Geography in Global Health (BA) (p. 1304) | Medical Geography in Global Health (BS) (p. 1310)
- **Credits for Degree:** 120
- **Contact:** Email (liangmao@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.
Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Curriculum

- Combination Degrees
- Geographical Science and Sustainability | BA
- Geography
- Geography Minor
- Geography Minor UF Online
- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this
requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

**Bachelor of Arts in Geography**
Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

**Bachelor of Arts in Environmental Geosciences**
A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

**Bachelor of Arts in Medical Geography in Global Health**
Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

**Bachelor of Science in Medical Geography in Global Health**
Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

**Bachelor of Science in Geography**
The Bachelor of Science in geography requires 30-32 credits of geography coursework and 24-25 credits of related coursework in physics, chemistry, geology, and soil science. Students must earn a minimum grade of C in all coursework for the major.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- 2.0 UF GPA required

**Semester 3**

- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required
Semester 4
• Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete a GIS 3000/4000 technique course.
• 2.0 UF GPA required

Semester 7
• Complete 1 geography (GEO, GIS, or MET) 3000/4000 systematic course
• 2.0 UF GPA required

Semester 8
• Complete all remaining geography (GEO or GIS) 3000/4000 courses
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

| Total Credits | 120 |

1 One General Education option taken this term must be a Quest 2 course.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

### Academic Learning Compact

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

### Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

Critical Thinking
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Environmental Geosciences | BA

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degrees**: Bachelor of Arts (p. 1281) | Bachelor of Science (p. 1287)
- **Specializations**: Environmental Geosciences (BA) (p. 1293) | Geographical Science and Sustainability (p. 1299) | Medical Geography in Global Health (BA) (p. 1304) | Medical Geography in Global Health (BS) (p. 1310)
- **Credits for Degree**: 120
- **Contact**: Email (liangmao@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Website (https://geog.ufl.edu/)
Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.
**Bachelor of Arts in Geography**

Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

**Bachelor of Arts in Environmental Geosciences**

A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

**Bachelor of Science in Geography**

Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

**Bachelor of Arts in Medical Geography in Global Health**

Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

**Bachelor of Science in Medical Geography in Global Health**

Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

---

**Bachelor of Arts: Environmental Geosciences**

The Bachelor of Arts in environmental geosciences requires a minimum of 35 credits of coursework, plus 3 credits of Statistics. Students must earn a minimum grade of C in all coursework for the major.

### Related Coursework

- STA 2023

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

#### Semester 1

- 2.0 UF GPA required

#### Semester 2

- Complete 1 critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

#### Semester 3

- Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

#### Semester 4

- Complete STA 2023 and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

#### Semester 5

- Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA. Recommended GLY courses include GLY 2100C or GLY 3105C. Recommended GEO courses include GEO 3250, GEO 3280, GEO 3315, GEO 3341, GEO 3352, GEO 3372, or MET 3503.
- 2.0 UF GPA required

#### Semester 6

- Complete 1 geography 3000/4000 elective course.
- 2.0 UF GPA required

#### Semester 7

- Complete 1 additional geography and 1 additional geology elective courses
- 2.0 UF GPA required

#### Semester 8

- Complete all remaining geography and geology 3000/4000 courses
- 2.0 UF GPA required
Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

3000 level or above Geology courses count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

A major in geography enables students to know the earth’s physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

**Content**

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

**Critical Thinking**

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

**Communication**

3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

**Curriculum Map**

**Overview**

The Bachelor of Arts in Geography in Geographical Science and Sustainability is a joint program (specialization) co-offered by Geography and Sustainability Studies, and is intended for students interested in using geospatial technologies to advance sustainability. Students in this
specialization learn modern geospatial technologies, such as geographical information system, remote sensing and spatial analysis, and use them to
maintain ecological and environmental health, create economic welfare, and pursue social justice in a changing world.

**Coursework for the major**

This specialization under the Bachelor of Arts in Geography requires a major coursework of 43 credits from the geography program and sustainability studies program, and 3 additional credits of STA2023. Students must earn a minimum grade of C in all coursework for the major.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

**SEMESTER 1**
- 2.0 UF GPA required

**SEMESTER 2**
- Complete either one geography fundamental course or one sustainability fundamental course (recommended GEO 2200 & GEO 2200L or IDS 2154) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 3**
- Complete the other fundamental course that is not taken in Semester 2 (recommended GEO 2200 & GEO 2200L or IDS 2154) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 4**
- Complete one additional geography fundamental course (recommended GEO 2351), and STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 5**
- Complete one additional geography fundamental course, one additional sustainability fundamental course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 6**
- Complete all geography and sustainability fundamental courses
- Complete a GIS 3000/4000 technique course.
- 2.0 UF GPA required

**SEMESTER 7**
- Complete 1 additional geography technique course (GEO or GIS 4000 level)
- 2.0 UF GPA required

**SEMESTER 8**
- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Recommended Outside Major Electives

18 credits of upper division (3000 and 4000-level) electives outside the major are required. These courses would strongly complement the BA track in geographical sciences for sustainability in both the Geography and Sustainability Studies majors.

Academic Learning Compact

A major in geography enables students to know the earth’s physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

Critical Thinking
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Assessment Types

- Capstone exam
- Portfolio

Medical Geography in Global Health | BA

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degrees**: Bachelor of Arts (p. 1281) | Bachelor of Science (p. 1287)
- **Specializations**: Environmental Geosciences (BA) (p. 1293) | Geographical Science and Sustainability (p. 1299) | Medical Geography in Global Health (BA) (p. 1304) | Medical Geography in Global Health (BS) (p. 1310)
- **Credits for Degree**: 120
- **Contact**: Email (liangmao@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Curriculum
• Combination Degrees
• Geographical Science and Sustainability | BA
• Geography
• Geography Minor
• Geography Minor UF Online
• Geography UF Online
• Geospatial Information Analysis Certificate
• Medical Geography Certificate
• Medical Geography in Global Health Minor
• Meteorology and Climatology Certificate

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major
The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography’s undergraduate coordinator for information and curriculum planning.

Required Coursework
All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.
Bachelor of Arts in Geography
Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

Bachelor of Arts in Environmental Geosciences
A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Bachelor of Science in Geography
Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

Bachelor of Arts in Medical Geography in Global Health
Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Bachelor of Science in Medical Geography in Global Health
Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Bachelor of Arts: Medical Geography in Global Health
The Bachelor of Arts in medical geography in global health requires a minimum of 33 credits of coursework, plus 3 credits of Statistics. Students must earn a minimum grade of C in all coursework for the major.

**Total Credits**: 33-37

_The same course may **not** be used to satisfy requirements for more than one bulleted group._

Transfer coursework is considered on a case-by-case basis. Upper division transfer courses with no UF equivalent will be substituted as GEO 4938.

**Related Coursework**
- STA 2023

**Critical Tracking**
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

_For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree._

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- 2.0 UF GPA required
Semester 3
• Complete 1 geography course (GEA 1000 not acceptable)
• 2.0 UF GPA required

Semester 4
• Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete 1 geography technique course.
• 2.0 UF GPA required

Semester 7
• Complete 1 geography elective course
• 2.0 UF GPA required

Semester 8
• Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

---

**Academic Learning Compact**

A major in geography enables students to know the earth’s physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

**Before Graduating Students Must**

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

Critical Thinking
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Medical Geography in Global Health | BS

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program
- **College**: Liberal Arts and Sciences (p. 1034)
- **Degrees**: Bachelor of Arts (p. 1281) | Bachelor of Science (p. 1287)
- **Specializations**: Environmental Geosciences (BA) (p. 1293) | Geographical Science and Sustainability (p. 1299) | Medical Geography in Global Health (BA) (p. 1304) | Medical Geography in Global Health (BS) (p. 1310)
- **Credits for Degree**: 120
- **Contact**: Email (liangmao@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Curriculum
• Combination Degrees
• Geographical Science and Sustainability | BA
• Geography
• Geography Minor
• Geography Minor UF Online
• Geography UF Online
• Geospatial Information Analysis Certificate
• Medical Geography Certificate
• Medical Geography in Global Health Minor
• Meteorology and Climatology Certificate

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major
The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography’s undergraduate coordinator for information and curriculum planning.

Required Coursework
All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.
**Bachelor of Arts in Geography**
Best suited for students interested in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

**Bachelor of Arts in Environmental Geosciences**
A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

**Bachelor of Science in Geography**
Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

**Bachelor of Arts in Medical Geography in Global Health**
Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

**Bachelor of Science in Medical Geography in Global Health**
Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

---

### Bachelor of Science: Medical Geography in Global Health

The Bachelor of Science in medical geography in global health requires a minimum of 34 credits of geography coursework and 19 credits of related coursework in biology, chemistry, and statistics. Students must earn a minimum grade of C in all coursework for the major.

*The same course may not be used to satisfy requirements for more than one bulleted group.*

### Related Coursework

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

*For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.*

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.
Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete 1 geography course (GEA 1000 not acceptable)
• 2.0 UF GPA required

Semester 4
• Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete 1 medical geography core course and 1 geography technique course.
• 2.0 UF GPA required

Semester 7
• Complete 1 additional geography technique course and 1 geography elective course
• 2.0 UF GPA required

Semester 8
• Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Geography Minor**

Geography is the science of place, space, and environment. It is an interdisciplinary field investigating topics of environmental and social significance through data collection, use of computer-based tools, and field studies. A Geography minor complements majors in agricultural sciences, business, environmental sciences, geology, health sciences, international studies, journalism, social sciences, and travel and tourism.

**Geography Minor UF Online**

Geography is the science of place, space, and environment. It is an interdisciplinary field investigating topics of environmental and social significance through data collection, use of computer-based tools, and field studies. A Geography minor complements majors in agricultural sciences, business, environmental sciences, geology, health sciences, international studies, journalism, social sciences, and travel and tourism.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Credits**: 15 | Completed with minimum grades of C
Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Geography UF Online

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socio-economic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Degree:** Bachelor of Arts (p. 1321)
- **Specializations:** Environmental Geosciences (p. 1326)
- **Credits for Degree:** 120
To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

- Geography
- Geography Minor
- Geography Minor UF Online
- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

**Coursework for the Major**

The UF Online Geography major has two different programs: the Bachelor of Arts and the Bachelor of Arts in Environmental Geosciences (a joint program with the Department of Geological Sciences). Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.
**Required Coursework**

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

**Bachelor of Arts in Geography**

Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

**Bachelor of Arts in Environmental Geosciences**

A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

**Academic Learning Compact**

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

**Before Graduating Students Must**

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

**Critical Thinking**

1. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

**Communication**

1. Interpret and effectively communicate information spatially, graphically and/or with statistics.

# Related Coursework
STA 2023  

Introduction to Statistics 1  

Total Credits 39-41

Upper division transfer courses with no UF equivalent will be substituted as GEO 4938.

Transfer coursework is considered on a case-by-case basis.  

The same course may not be used to satisfy requirements for more than one bulleted group.

Related Geography Programs

- Bachelor of Science or Bachelor of Arts in Geography (p. 1279)
- Geography minor (p. 1316)
- Geography minor, UF Online (p. 1317)
- Geospatial Information Analysis certificate (p. 1356)
- Medical Geography certificate (p. 1469)
- Meteorology and Climatology certificate (p. 1471)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- 2.0 UF GPA required

Semester 3
- Complete 1 geography course
- 2.0 UF GPA required

Semester 4
- Complete 1 additional geography course (1 of the 2 must be GEO 2200) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6
- Complete 1 GIS 3000/4000 technique course
- 2.0 UF GPA required

Semester 7
- Complete 1 additional geography technique course (GEO or GIS 4000 level)
- 2.0 UF GPA required

Semester 8
- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required
Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

### Environmental Geosciences

Environmental Geosciences is an interdisciplinary curriculum integrating physical, chemical and biological aspects of the environment and environmental systems. There remains a huge demand for scientists with quantitative, interdisciplinary training in environmental geosciences to address, mitigate, and manage a multitude of complex environmental problems facing society.

### About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Arts (p. 1321)
- **Specializations**: Environmental Geosciences (p. 1326)
- **Credits for Degree**: 120
- **Contact**: 1.855.99GATOR | Email (liangmao@ufl.edu)
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

### Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

### Semester 1
- 2.0 UF GPA required

### Semester 2
- Complete 1 critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Semester 3
- Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Semester 4
- Complete STA 2023 and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Semester 5
- Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA. Recommended GLY courses include GLY 2100C or GLY 3105C. Recommended GEO courses include GEO 3250, GEO 3280, GEO 3315, GEO 3341, GEO 3352, GEO 3372, or MET 3503.
- 2.0 UF GPA required

### Semester 6
- Complete 1 geography 3000/4000 elective course.
- 2.0 UF GPA required

### Semester 7
- Complete 1 additional geography and 1 additional geology elective courses
- 2.0 UF GPA required

### Semester 8
- Complete all remaining geography and geology 3000/4000 courses
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

3000 level or above Geology courses count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Total Credits 120

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.
Academic Learning Compact

The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

Before Graduating Students Must

• Pass GLY 4155C according to the department grading rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

Critical Thinking
1. Interpret geologic maps and cross sections.
2. Interpret results using the scientific method.

Communication
1. Produce a clearly and effectively written synthesis of data collected in the field.
2. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Geological Sciences Certificate

The Geological Sciences certificate offers coursework relevant to environmental policy and law, resource economics, teaching, regional planning, building construction, and related fields. The certificate program includes courses required to take the professional geologist licensure exam.

About this Program

• College: Liberal Arts and Sciences (p. 1034)
• Credits: 16-17 | Completed with minimum grades of C
• Contact: Email (jmeert@ufl.edu) | 352.846.2414

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Geology

A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today’s job market. The Geology graduate will have a detailed understanding of climate change, sustainability of the Earth’s resources, and the close interplay between human activity and the environment.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degrees**: Bachelor of Arts (p. 1334) | Bachelor of Science (p. 1339)
- **Specializations**: Environmental Geosciences (BA) (p. 1345)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Website (http://geology.ufl.edu/)
Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth’s physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Coursework for the Major

The geology major has three different specializations: the Bachelor of Arts, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geography), and the Bachelor of Science. Students who are uncertain which program best suits them should consult the Department of Geology’s undergraduate coordinator for information and guidance on curriculum planning.

Bachelor of Arts

This degree is the most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences

Co-offered by the Department of Geography, this specialization is designed for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science

This degree is designed for students planning to take the professional geology (PG) licensure exam and/or to continue on to graduate study in geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Relevant Minors and/or Certificates

UF Teach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UF Teach program. UF Teach students can complete the UF Teach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (http://education.ufl.edu/uf-teach/)

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department’s laboratories regardless of their honors status.
Academic Learning Compact

Bachelor of Arts
The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

Before Graduating Students Must
• Pass GLY 4155C Geology of Florida according to the department grading rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

Critical Thinking

UFTeach students can complete the UFTeach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info ([http://education.ufl.edu/uf-teach/](http://education.ufl.edu/uf-teach/))

**Research**

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department’s laboratories regardless of their honors status.

**Bachelor of Arts**

The geology B.A. requires a minimum of 32 credits of coursework in the major. At least 23 credits must be GLY-prefixed courses at the 3000 level or above, excluding GLY 3105C. Students must earn a minimum grade of C for coursework to count toward the major.

Total Credits  32-36

1 Excluding GLY 3105C; minimum 17 credits.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400601&track=1/2) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete one General Education Mathematics course
• Complete 1 of 3 critical-tracking courses with a 2.5 critical-tracking GPA. Choose one from a general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE, or ESC course), a historical geology course (GLY 3105C or GLY 2100C), or a 3000-level geology course.

GLY 2010C or GLY 2030C is recommended as one of these is prerequisite to many upper-level courses.
• 2.0 UF GPA required

Semester 4
• Complete one additional critical-tracking course with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete all tracking courses with a 2.5 critical-tracking GPA; one general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE, or ESC course), one historical geology course (GLY 3105C or GLY 2100C), and one 3000-level geology course.
• 2.0 UF GPA required

Semester 6
• Complete 1 GLY elective 3000 level or above (3-4 credits)
• 2.0 UF GPA required

Semester 7
• Complete 2 additional GLY electives 3000 level and above (6-8 credits)
• 2.0 UF GPA required

Semester 8
• Complete any remaining GLY electives 3000 level and above
• Complete GLY 4155C (Capstone) Geology of Florida
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

---

### Bachelor of Arts

The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

#### Before Graduating Students Must

- Pass GLY 4155C Geology of Florida according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

#### Students in the Major Will Learn to

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

**Critical Thinking**

4. Interpret geologic maps and cross sections.
5. Interpret results using the scientific method.

**Communication**

6. Produce a clearly and effectively written synthesis of data collected in the field.
7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

### Bachelor of Science

The Bachelor of Science in geology provides knowledge of the basic concepts, theories, observational findings related to earth materials and processes, minerals and rocks, geologic time, stratigraphy and landforms. Through laboratory and field-based exercises, students will learn how to analyze data in the published literature, synthesize analog and digital datasets to produce geological maps, and understand the application of the scientific method to solve geological problems in teams and individually.

#### Before Graduating Students Must

- Pass GLY 4790 Summer Field Camp according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

**Content**
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Identify and describe minerals and rocks.
3. Define geologic time, stratigraphy and landforms.

**Critical Thinking**
4. Analyze data in the published literature.
5. Synthesize analog and digital datasets to produce geologic maps.
6. Apply the scientific method to the analysis of published and self-generated data.

**Communication**
7. Use computers for the presentation of geologic maps and data.
8. Solve geologic problems in teams and present the result of such collaboration effectively.

**Assessment Types**
- Six weeks of practical field exercises and mapping, including observation and data collection in New Mexico and the western USA

**Bachelor of Science**

A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today’s job market. The Geology graduate will have a detailed understanding of climate change, sustainability of the Earth’s resources, and the close interplay between human activity and the environment.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 1034)
- **Degrees:** Bachelor of Arts (p. 1334) | Bachelor of Science (p. 1339)
- **Specializations:** Environmental Geosciences (BA) (p. 1345)
- **Credits for Degree:** 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

**Department Information**

The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Curriculum

- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth's physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Coursework for the Major

The geology major has three different specializations: the Bachelor of Arts, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geography), and the Bachelor of Science. Students who are uncertain which program best suits them should consult the Department of Geology's undergraduate coordinator for information and guidance on curriculum planning.

Bachelor of Arts

This degree is the most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences

Co-offered by the Department of Geography, this specialization is designed for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science

This degree is designed for students planning to take the professional geology (PG) licensure exam and/or to continue on to graduate study in geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (http://education.ufl.edu/uf-teach/)

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

Bachelor of Science

The professional degree is for students who want to pursue graduate school and careers in geosciences and/or environmental science. The major is extremely flexible and allows specialization in a number of subdisciplines (geochemistry, geophysics, geobiology, and hydrogeology).

The major requires 39-40 credits of geology coursework. Students must earn minimum grades of C for coursework to count toward the major.

Specific courses selected from among the alternatives listed above will depend upon the student’s primary interest.

Students interested in graduate school are urged to take a year of chemistry, calculus and physics. Students should contact a departmental advisor as early as possible.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400601&track=01) may be used for transfer students.
Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete one general introductory course (GLY 2010C Physical Geology, GLY 2030C Environmental and Engineering Geology, or any 1000-2000
level GLY, OCE, or ESC course).
  GLY 2010C is recommended as it is a prerequisite for many upper-level courses.
• 2.0 UF GPA required

Semester 4
• Complete historical geology course (GLY 2100C or GLY 3105C) or GLY 3000-level geology course.
• Complete one related coursework requirement (CHM 2045/CHM 2045L, MAC 2311, or PHY 2004/PHY 2048/PHY 2053 and associated lab)
  2.5 Critical Tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete one 3000-level geology course (or historical geology course if not taken in semester 4)
• Complete one additional related coursework requirement (CHM 2045/CHM 2045L, MAC 2311, or PHY 2004/PHY 2048/PHY 2053 and associated lab)
  2.5 Critical Tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete GLY 4310C or GLY 4400C
• 2.0 UF GPA required

Semester 7
• Complete GLY 4750L and GLY 4552C
• 2.0 UF GPA required

Semester 8
• Complete any remaining GLY required courses and electives required for GLY 4790 (Capstone)

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete
the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C,
H, or S). MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, and PHY 2054L may count towards 3000 level or above electives outside of the major
if taken.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the
terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's
academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Bachelor of Arts

The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

Before Graduating Students Must
- Pass GLY 4155C Geology of Florida according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

Critical Thinking
4. Interpret geologic maps and cross sections.
5. Interpret results using the scientific method.

Communication
6. Produce a clearly and effectively written synthesis of data collected in the field.
7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Bachelor of Science

The Bachelor of Science in geology provides knowledge of the basic concepts, theories, observational findings related to earth materials and processes, minerals and rocks, geologic time, stratigraphy and landforms. Through laboratory and field-based exercises, students will learn how to analyze data in the published literature, synthesize analog and digital datasets to produce geological maps, and understand the application of the scientific method to solve geological problems in teams and individually.

Before Graduating Students Must
- Pass GLY 4790 Summer Field Camp according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Identify and describe minerals and rocks.
3. Define geologic time, stratigraphy and landforms.

Critical Thinking
4. Analyze data in the published literature.
5. Synthesize analog and digital datasets to produce geologic maps.
6. Apply the scientific method to the analysis of published and self-generated data.

Communication
7. Use computers for the presentation of geologic maps and data.
8. Solve geologic problems in teams and present the result of such collaboration effectively.

- Six weeks of practical field exercises and mapping, including observation and data collection in New Mexico and the western USA

Environmental Geosciences | BA

A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today’s job market. The Geology graduate will have a detailed understanding of climate change, sustainability of the Earth’s resources, and the close interplay between human activity and the environment.

About this Program
- **College:** Liberal Arts and Sciences (p. 1034)
- **Degrees:** Bachelor of Arts (p. 1334) | Bachelor of Science (p. 1339)
- **Specializations:** Environmental Geosciences (BA) (p. 1345)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Curriculum
• Combination Degrees
• Geological Sciences Certificate
• Geology
• Geology Minor
• Geology UF Online

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth's physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Coursework for the Major
The geology major has three different specializations: the Bachelor of Arts, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geography), and the Bachelor of Science. Students who are uncertain which program best suits them should consult the Department of Geology’s undergraduate coordinator for information and guidance on curriculum planning.

Bachelor of Arts
This degree is the most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences
Co-offered by the Department of Geography, this specialization is designed for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science
This degree is designed for students planning to take the professional geology (PG) licensure exam and/or to continue on to graduate study in geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Relevant Minors and/or Certificates
UFTeach Program
There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Research
Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department’s laboratories regardless of their honors status.

Bachelor of Arts: Environmental Geosciences
This specialization is well-suited for students interested in environmental science, environmental policy, Earth science teaching, or environmental law and offers a unique interdisciplinary perspective between geology and geography. The major requires a minimum of 40 credits of coursework and is a joint offering between the Department of Geological Sciences and Department of Geography. Students must earn a minimum grade of C for coursework to count toward the major.

Total Credits: 37-42

**Related Coursework**

- STA 2023

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- Complete one critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 3**

- Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required
Semester 4
• Complete STA 2023 and maintain a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA. (GLY 2100C or GLY 3105C recommended)
• 2.0 UF GPA required

Semester 6
• Complete GLY 3202C
• 2.0 UF GPA required

Semester 7
• Complete GEO level 3000 or above elective (3-4 credits)
• Complete GLY level 3000 or above elective (3-4 credits)
• 2.0 UF GPA required

Semester 8
• Complete GLY 4155C (Capstone)
• Complete any remaining GEO and GLY level 3000 or above electives
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). 3000 level or above Geography courses may count towards 3000 level electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Geology Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400601&track=1/2) may be used for transfer students.

### Semester 1

- 2.0 UF GPA required

### Semester 2

- 2.0 UF GPA required

### Semester 3

- Complete one General Education Mathematics course
- Complete 1 of 3 critical-tracking courses with a 2.5 critical-tracking GPA. Choose one from a general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), a historical geology course (GLY 3105C or GLY 2100C), or a 3000-level geology course.
GLY 2010C or GLY 2030C is recommended as one of these is prerequisite to many upper-level courses.

- 2.0 UF GPA required

### Semester 4
- Complete one additional critical-tracking course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Semester 5
- Complete all tracking courses with a 2.5 critical-tracking GPA; one general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), one historical geology course (GLY 3105C or GLY 2100C), and one 3000-level geology course.
- 2.0 UF GPA required

### Semester 6
- Complete 1 GLY elective 3000 level or above (3-4 credits)
- 2.0 UF GPA required

### Semester 7
- Complete 2 additional GLY electives 3000 level and above (6-8 credits)
- 2.0 UF GPA required

### Semester 8
- Complete any remaining GLY electives 3000 level and above
- Complete GLY 4155C (Capstone)
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

---

### Academic Learning Compact

The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

### Before Graduating Students Must

- Pass GLY 4155C according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

**Critical Thinking**

4. Interpret geologic maps and cross sections.
5. Interpret results using the scientific method.
Communication
6. Produce a clearly and effectively written synthesis of data collected in the field.
7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Capstone

Assessment Types
- Lab assignments
- Projects
- Exams

Geospatial Information Analysis Certificate
Geospatial Information Analysis is used increasingly in both research and practice with job opportunities expected to grow 29% from 2014 to 2024.

About this Program
- College: Liberal Arts and Sciences (p. 1034)
- Credits: 11-12 | Completed with minimum average grade of 2.67
- Contact: Email (liangmao@ufl.edu) | 352.294.7516

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information
The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.
Website (https://geog.ufl.edu/)

- Geographical Science and Sustainability | BA
- Geography
- Geography Minor
- Geography Minor UF Online
- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
• Medical Geography in Global Health Minor
• Meteorology and Climatology Certificate

Covers a variety of geospatial technologies and analytical methods such as digital mapping, geographic information system (GIS), and remotely sensed image processing, aiming to develop spatial thinking ability for students. Lab-based applications emphasize hands-on experiences of these technologies.

Open to all currently enrolled undergraduate students. At least nine credits of coursework must be unique to the Geospatial Information Analysis certificate out of all other certificates and minors.

German

**Foreign Languages and Literatures**

German studies encompasses the works of German literature, the culture of the Middle Ages, German cinema, writings of ethnic minorities in German-speaking countries, economics, and the European Union. By acquiring proficiency in the German language, students learn the most widely spoken language in Europe and join a community of more than 130 million speakers of German around the world.

**About this Program**

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

[Website](https://languages.ufl.edu/)
The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The German specialization of the Foreign Languages and Literatures major is not limited to knowing the language, but instead helps the student achieve multiple literacies. In the major, the study of language merges with the study of culture and includes:

- The works of German literature as well as German culture and civilization from the Middle Ages through the end of the 20th and the beginning of the 21st century
- German cinema
- The writings of ethnic minorities in German-speaking countries
- The terminology of business, economics, and the European Union
- Summer studies or full-semester studies at a German or Austrian university.

For many students, the curriculum is an enriching discovery of their own past: more than 60 million Americans are at least partly of German heritage. More Americans can trace their ancestry to Germany than to any other foreign country, and since the middle of the 20th century more Americans have lived and worked in Germany than in any other foreign country.

Coursework for the Major

The German specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).
All coursework for the major must be completed with minimum grades of C.

Ordinarily, students will need to have completed GER 2200 Intermediate German 1 by their fifth semester at UF to be able to complete the German major.

Required Foundation Coursework | 16 Credits

Critical Concentration

Although courses may appear in more than one group they may be counted toward only one group

Select 9 credits from one concentration:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
</table>

Intensive Area Studies: German (Recommended for those planning to pursue careers requiring advanced level skills in German or graduate work in German Studies)

Comparative Cultural Studies

Film and Visual Culture

Literary Studies

Medieval and Early Modern Studies

Total Credits | 33

Up to 15 credits of 3000/4000-level classes can be transferred from another institution.
No more than 3 credits can be earned in independent studies courses such as GEW 4905.

**Overseas Study**

The program recommends its summer program in Mannheim, Germany. Students can complete nine credits at the intermediate or advanced level depending on prerequisites met.

**Placement**

Students without prior German should take the GER 1130 and GER 1131 sequence (five credits each). An alternative manner of completing the basic language sequence in a single year is by taking the online German sequence GER 1125 and GER 1126, Discover German. These 10 credit sequences fulfill the college’s language requirement.

Students with previous training in one of the languages should speak with the department.

---

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- Complete GER 1125 or GER 1130 or higher-level German course
- 2.0 UF GPA required

**Semester 3**

- Complete GER 1126 or GER 1131 or higher-level German course with a minimum grade of C
- 2.0 UF GPA required

**Semester 4**

- Maintain completion of GER 1131 or GER 1126 or higher-level German course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 5**

- Complete GER 2200 or any 2000-level German course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 6**

- Complete GER 2240 or a higher-level German language course with a minimum grade of C
- Complete 2 Advanced Elective courses with minimum grades of C
- 2.0 UF GPA required

**SEMESTER 7**

- Complete GER 3234, GER 3300, GER 3413, or GER 3470 with a minimum grade of C
- Complete 2 Advanced Elective courses with minimum grades of C
- Complete 1 Critical Concentration course with a minimum grade of C
- 2.0 UF GPA required
SEMESTER 8

- Complete 2 Advanced Elective courses with minimum grades of C
- Complete 2 Critical Concentration courses with minimum grades of C
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of German may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

**Academic Learning Compact**

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

**Before Graduating Students Must**
- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

**Critical Thinking**
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

**Communication**
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

**Curriculum Map**

\[I = Introduced; \ R = Reinforced; \ A = Assessed\]

<td></td>
</tr>
</tbody>
</table>

\(^1\) Courses focus on the acquisition of the language(s) of specialization at the advanced level.

\(^2\) Courses address literary, cultural, cinematic, historical, and/or social questions.

**Assessment Types**
- Proficiency exams
- Term papers or final projects
- Oral presentations

**German Minor**

This minor provides a linguistic foundation in the German language equivalent to the B1-B2 level according to the Common European Framework of Reference for Languages, and practical experience with different kinds of texts, films, and cultural issues important to speakers of German.

**About this Program**
- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 15 | Completed with minimum grades of C

**Department Information**

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

[Website](https://languages.ufl.edu/)
Students cannot transfer more than six credits toward the minor. No more than three credits can be Individual Work (GEW 4905).

One German course taught in English (GET prefix) can count toward the minor and can be taken concurrently with the basic language sequence.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Credits**: 15-19 | Completed with minimum grades of C

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum

- Classical Studies
- Classical Studies Minor
- Greek Studies Minor

A maximum of six credits of Beginning Modern Greek 1 and 2 can apply to this minor. A minimum of nine credits must be at the 3000 level or above.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Of the total credits, no more than three may be individual work.

Health Disparities in Society Minor

Health disparities describe the disproportionate burden of disease, lack of access to health care, and poorer health outcomes found among members of socially disenfranchised populations. Health disparities exist at multiple levels of society (global, national, institutional, local, and personal) and among people of diverse geographic locations, linguistic groups, socioeconomic status, and sociocultural groups. Housed in the Center for Gender, Sexualities, and Women's Studies Research (CGSWSR), the Health Disparities in Society (HDS) minor provides an interdisciplinary, intersectional framework to examine how multiple social identities (e.g., race, gender, sexual orientation, and socioeconomic status) intersect to reveal interlocking inequalities and preventable disparities in health.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 15 | Completed with minimum grades of C and no optional S/U | 9 must be at the 3000-level or above

Center Information

The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people's lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

**Curriculum**

- Combination Degrees
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Women's Studies
- Women's Studies Minor

**Requirements**

- No more than three credits of independent study may count toward the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.
- Students must complete at least three courses at the 3000 level or higher and each must be at least three credits.
- Although students must complete WST 2322 before enrolling in WST 4941C, they may take the elective courses in any order at any time (i.e., before, during, or after taking the two required courses).
Students are encouraged to indicate their intention to enroll in WST 4941C as soon as they commit to the minor, by completing this form (https://wst.ufl.edu/files/4941C-Intent-to-Complete-Form.pdf).

Sometimes, and with the approval of the undergraduate coordinator for Women's Studies, students may petition to have other, relevant classes approved as substitutes within each category of electives within the minor. Such courses could include department special topics offering with numbers like 3930, 4930.

Each semester, courses offered for this minor are listed on the Women's Studies courses website.

Hebrew

Foreign Languages and Literatures

By assuming an interdisciplinary approach to Hebrew language and culture, students acquire knowledge of the close relationship between politics, history, religions, arts and cultures in Israel. In addition to working toward proficiency in Hebrew, students will develop close reading and critical thinking skills. Students graduating with this major will find job opportunities in Jewish community organizations, the government, and consulting. In addition, due to the interdisciplinary nature of the major, students will be well prepared for the rigor of graduate studies in the humanities.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills, and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Coursework for the Major

The Hebrew specialization of the Foreign Languages and Literatures major consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

### Required Foundation Coursework | 18 Credits

### Critical Concentration

Although courses may appear in more than one group, they may be counted toward only one group

Select 9 credits from one area:

- Comparative Cultural Studies
- Film and Visual Culture
- Literary Studies
- Medieval and Early Modern Studies

| Total Credits | 33 |

### Placement

In all languages, students with either a native background in the language or prior study in that language, might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.
Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://dlss.flvc.org/pbhs/ULe4z16deG03frpwE3/actionHandler.jsp/doc.pdf) may be used for transfer students.

Semester 1

• 2.0 UF GPA required

Semester 2

• 2.0 UF GPA required

Semester 3

• Complete HBR 1130 or higher-level Hebrew Language course with a minimum grade of C
• 2.0 UF GPA required

Semester 4

• Complete HBR 1131 or higher-level Hebrew Language course with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5

• Complete HBR 2220 or a higher-level Hebrew Language course with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

SEMESTER 6

• Complete HBR 2221 or a higher-level Hebrew Language course with a minimum grade of C
• Complete 2 Advanced Elective courses
• Complete 1 Critical Concentration course
• 2.0 UF GPA required

SEMESTER 7

• Complete HBR 3410 or a higher-level Hebrew Language course with a minimum grade of C
• Complete 2 Advanced Elective courses
• Complete 1 Critical Concentration course
• 2.0 UF GPA required

SEMESTER 8

• Complete HBR 3411 or a higher-level Hebrew Language course with a minimum grade of C
• Complete 2 Advanced Elective courses at the 4000 level
• Complete 1 Critical Concentration course
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

$^1$ Courses focus on the acquisition of the language(s) of specialization at the advanced level.

$^2$ Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Hebrew Minor

UF offers a number of new courses on Hebrew, Israeli, and Yiddish language and culture. These include language and content courses, advanced seminars, and a reading honors course. This complete program takes students from the Hebrew alphabet into contemporary Israeli and Jewish culture.
About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Credits**: 15 | Completed with minimum grades of C

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Hispanic and Latin American Languages, Literatures and Linguistics

Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Degree:** Bachelor of Arts
- **Specializations:** Spanish (p. 1586) | Portuguese (p. 1522) | Spanish and Portuguese (p. 1381)
- **Credits for Degree:** 120
- **Contact**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

Curriculum

- Combination Degrees
- Hispanic and Latin American Languages, Literatures and Linguistics
- Portuguese
- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate

Related Programs

- Latin American Studies Certificate
- Latin American Studies Minor

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

Coursework for the Major

The different specializations within the Hispanic and Latin American Languages, Literatures and Linguistics major require different coursework, depending on the student focus.

Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Critical Thinking

2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Communication

3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

Coursework for the Major
The different specializations within the Hispanic and Latin American Languages, Literatures and Linguistics major require different coursework, depending on the student focus.

### Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cid=160905&track=01) may be used for transfer students.

The combined track is designed for students who already possess some proficiency in one or both languages and do not need to begin with beginning coursework in both. The more common case of previous coursework in Spanish is represented in the critical tracking, but student who have prior knowledge of Portuguese and need to start with basic Spanish should consult with the undergraduate advisors.

**Semester 1**
- Complete POR 1130 if needed
- Complete SPN 2200
- 2.0 UF GPA required

**Semester 2**
- Complete POR 1131 (or POR 3010)
- Complete SPN 2200
- 2.0 UF GPA required

**Semester 3**
- Complete POR 3242
- Complete SPN 2240 or SPN 2340
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required
Semester 4
• Complete one additional POR 3XXX course
  • 2.5 critical-tracking GPA required
  • 2.0 UF GPA required

Semester 5
• Complete SPN 3300 or SPN 3350
  • 2.5 critical-tracking GPA required
  • 2.0 UF GPA required

Semester 6
• Complete 2 of the remaining SPN/SPW/POR/POW 3XXX/4XXX required courses
  • 2.5 critical-tracking GPA required
  • 2.0 UF GPA required

Semester 7
• Complete 2 of the remaining SPN/SPW/POR/POW 3XXX/4XXX required courses
  • 2.5 critical-tracking GPA required
  • 2.0 UF GPA required

Semester 8
• Complete all remaining SPN/SPW/POR/POW 4XXX required courses
  • 2.5 critical-tracking GPA required
  • 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Critical Thinking
2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Communication
3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.

4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

Assessment Types
- Written paper
- Oral presentation/discussion

History
The history department fosters a learning experience that stands apart from newer modes of instruction at large universities. Amid the shift to larger classes, televised lectures and machine-gradable exams, history faculty have chosen to follow a more traditional path. The department’s emphasis on small courses, analytical reading, lively debate, and interpretative writing offers committed students unique rewards. It also comes with high expectations.

About this Program
- College: Liberal Arts and Sciences (p. 1034)
- Degree: Bachelor of Arts (p. 1388)
- Specialization: Legal History (p. 1392)
- Credits for Degree: 120

Department Information
Undergraduate students in the Department of History have a number of ways of enhancing their experience: from completing a senior thesis in conjunction with our Honors Program (https://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/), or by participating in a study abroad program (https://history.ufl.edu/undergraduate-studies/study-abroad-and-language-training/) The graduate program is home to a number of fields: African History, European History, Latin American History, and United States History.
The history major focuses on the development of three related skill sets critical to professional success in today's complex world:

**Writing**

History is a writing-intensive discipline. Although assignments vary by course, students will be taught a set of critical skills and research techniques that will help them gather and analyze sources and then marshal the evidence in the presentation of coherent historical arguments.

**Critical Analysis**

In the typical upper-division course, students read an average of 75 to 125 pages each week. Students will be expected to synthesize the material effectively and come to class prepared to discuss the readings.

**Oral Communication**

Rather than merely recounting facts from readings and lectures, students will develop their own interpretations of historical events and ideas and discuss them with their peers and professor. They will be expected to contribute actively in the classroom and will on occasion lead discussions and give short reports.

**Coursework for the Major**

**Required Coursework**

All history majors must complete a minimum of 36 credits in history with minimum grades of C. Majors must take a minimum of 21 credits of history at UF. History majors may enroll in a maximum of three history courses per semester.

Requirements include:

- HIS 3942, a methodological introduction to the study of history, should be taken in the first year in the major and it must be taken no later than Semester 5.
- AMH 4930 / AFH 4930 / ASH 4930 / EUH 4930 / HIS 4930 / LAH 4930 / WOH 4930 is the capstone course of the major and normally taken in the senior year, although students who plan to write an honors thesis are encouraged to take the course as juniors. In this seminar, students produce a substantial research paper based on primary source research. Enrollment in the research seminar is restricted to majors. The History Research Seminar must be taken at UF.
- 30 additional credits of history courses:
  - at least 21 of the 30 credits must be at the 3000/4000 level
  - At least 9 credits (three courses) in American history (AMH) and European history (EUH), with at least one course in AMH, one course in EUH, and one course in AMH or EUH
  - At least 9 credits (three courses) in AFH, ASH, LAH, or WOH, with a maximum of two courses under any one prefix.
  - The history research seminar may count toward the regional distribution, depending on the prefix of the course taken (AFH, AMH, ASH, EUH, LAH, or WOH).

Prior to graduating, history majors complete an online exit survey.

Only exam (AICE, AP, CLEP, or IB) credits with course equivalencies for UF courses count toward the requirements for the major and then only at the 2000 level. AMH 0301, EUH 0301, and WOH 0301 do not count toward the major.
Recommended Coursework
Majors are encouraged, but not required, to take a total of nine credits at the introductory 2000 level, including one course in American history (AMH), one course in European history (EUH), and one course in African, Asian, Latin American, or World history (AFH, ASH, LAH, WOH courses).

Combination Degree Program
Majors who are interested in advanced training are encouraged to consider the 4/1 combination degree program. More Info (http://history.ufl.edu/undergraduate-studies/41-program/)

Research
Majors are encouraged to consider advanced research opportunities in history. The department places special emphasis on participation in the history honors program. More Info (http://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/)

Academic Learning Compact
The history major exposes students to key issues in the history of the United States, Europe and areas of Africa, Asia and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

Before Graduating Students Must
• Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
• Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
• Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Acquire and apply basic research skills learned through use of print and electronic resources of the library and web.

Critical Thinking
2. Critically assess and interpret primary and secondary sources.
3. Identify a historical research topic related to the focus of the research seminar, develop knowledge of the topic through research, and create historical arguments using evidence effectively with clear purpose.

Communication
4. Produce an effectively written analytical research paper based in research of primary sources, framed within the secondary literature and offering a coherent historical argument supported by evidence.

Coursework for the Major

Required Coursework

All history majors must complete a minimum of 36 credits in history with minimum grades of C. Majors must take a minimum of 21 credits of history at UF. History majors may enroll in a maximum of three history courses per semester.

Requirements include:

- HIS 3942, a methodological introduction to the study of history, should be taken in the first year in the major and it must be taken no later than Semester 5.
- AMH 4930 / AFH 4930 / ASH 4930 / EUH 4930 / HIS 4930 / LAH 4930 / WOH 4930 is the capstone course of the major and normally taken in the senior year, although students who plan to write an honors thesis are encouraged to take the course as juniors. In this seminar, students produce a substantial research paper based on primary source research. Enrollment in the research seminar is restricted to majors. The History Research Seminar must be taken at UF.
- 30 additional credits of history courses:
  - at least 21 of the 30 credits must be at the 3000/4000 level
  - At least 9 credits (three courses) in American history (AMH) and European history (EUH), with at least one course in AMH, one course in EUH, and one course in AMH or EUH
  - At least 9 credits (three courses) in AFH, ASH, LAH, or WOH, with a maximum of two courses under any one prefix.
  - The history research seminar may count toward the regional distribution, depending on the prefix of the course taken (AFH, AMH, ASH, EUH, LAH, or WOH).

Prior to graduating, history majors complete an online exit survey.

Only exam (AICE, AP, CLEP, or IB) credits with course equivalencies for UF courses count toward the requirements for the major and then only at the 2000 level. AMH 0301, EUH 0301, and WOH 0301 do not count toward the major.

Recommended Coursework

Majors are encouraged, but not required, to take a total of nine credits at the introductory 2000 level, including one course in American history (AMH), one course in European history (EUH), and one course in African, Asian, Latin American, or World history (AFH, ASH, LAH, WOH courses).

Combination Degree Program

Majors who are interested in advanced training are encouraged to consider the 4/1 combination degree program.

More Info (http://history.ufl.edu/undergraduate-studies/41-program/)

Research

Majors are encouraged to consider advanced research opportunities in history. The department places special emphasis on participation in the history honors program.

More Info (http://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/)

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=540101&track=01) may be used for transfer students.

Students are advised to take HIS 3942 in their first year as a history major, and it must be taken no later than Semester 5.

Semester 1

- 2.0 UF GPA required
Semester 2
• Complete 1 history course at the 2000 level or above
• 2.0 UF GPA required

Semester 3
• Complete 1 additional history course at the 2000 level or above with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 4
• Complete 1 additional history course at the 3000 level or above (recommended) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• By the end of semester 5, students must have completed 4 history courses: HIS 3942, two history courses at the 2000 level or above and one history course at the 3000 level or above
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete 1 distribution course (prefix of LAH, AFH, WOH, or ASH)
• 2.0 UF GPA required

Semester 7
• Complete 1 distribution course (prefix of AMH or EUH)
• 2.0 UF GPA required

Semester 8
• Complete XXX 4930 research seminar
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The history major exposes students to key issues in the history of the United States, Europe and areas of Africa, Asia and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

Before Graduating Students Must

- Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
- Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
Legal History

- Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Acquire and apply basic research skills learned through use of print and electronic resources of the library and web.

**Critical Thinking**

**Assessment Types**
- Skills-set exam
- Capstone statement for final project

**Legal History**

The history department fosters a learning experience that stands apart from newer modes of instruction at large universities. Amid the shift to larger classes, televised lectures and machine-gradable exams, history faculty have chosen to follow a more traditional path. The department’s emphasis on small courses, analytical reading, lively debate, and interpretative writing offers committed students unique rewards. It also comes with high expectations.

**About this Program**
- **College:** Liberal Arts and Sciences (p. 1034)
- **Degree:** Bachelor of Arts (p. 1388)
- **Specialization:** Legal History (p. 1392)
- **Credits for Degree:** 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*
Department Information
Undergraduate students in the Department of History have a number of ways of enhancing their experience: from completing a senior thesis in conjunction with our Honors Program (https://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/), or by participating in a study abroad program. (https://history.ufl.edu/undergraduate-studies/study-abroad-and-language-training/) The graduate program is home to a number of fields: African History, European History, Latin American History, and United States History.

Curriculum
• Combination Degrees
• History
• History Minor
• Legal History Certificate

The history major focuses on the development of three related skill sets critical to professional success in today’s complex world:

Writing
History is a writing-intensive discipline. Although assignments vary by course, students will be taught a set of critical skills and research techniques that will help them gather and analyze sources and then marshal the evidence in the presentation of coherent historical arguments.

Critical Analysis
In the typical upper-division course, students read an average of 75 to 125 pages each week. Students will be expected to synthesize the material effectively and come to class prepared to discuss the readings.

Oral Communication
Rather than merely recounting facts from readings and lectures, students will develop their own interpretations of historical events and ideas and discuss them with their peers and professor. They will be expected to contribute actively in the classroom and will on occasion lead discussions and give short reports.

Coursework for the Major
Required Coursework
All history majors must complete a minimum of 36 credits in history with minimum grades of C. Majors must take a minimum of 21 credits of history at UF. History majors may enroll in a maximum of three history courses per semester.

Requirements include:

• HIS 3942, a methodological introduction to the study of history, should be taken in the first year in the major and it must be taken no later than Semester 5.
• AMH 4930 / AFH 4930 / ASH 4930 / EUH 4930 / HIS 4930 / LAH 4930 / WOH 4930 is the capstone course of the major and normally taken in the senior year, although students who plan to write an honors thesis are encouraged to take the course as juniors. In this seminar, students produce a substantial research paper based on primary source research. Enrollment in the research seminar is restricted to majors. The History Research Seminar must be taken at UF.
• 30 additional credits of history courses:
  • at least 21 of the 30 credits must be at the 3000/4000 level
  • At least 9 credits (three courses) in American history (AMH) and European history (EUH), with at least one course in AMH, one course in EUH, and one course in AMH or EUH
  • At least 9 credits (three courses) in AFH, ASH, LAH, or WOH, with a maximum of two courses under any one prefix.
  • The history research seminar may count toward the regional distribution, depending on the prefix of the course taken (AFH, AMH, ASH, EUH, LAH, or WOH).

Prior to graduating, history majors complete an online exit survey.
Only exam (AICE, AP, CLEP, or IB) credits with course equivalencies for UF courses count toward the requirements for the major and then only at the 2000 level. AMH 0301, EUH 0301, and WOH 0301 do not count toward the major.

**Recommended Coursework**

Majors are encouraged, but not required, to take a total of nine credits at the introductory 2000 level, including one course in American history (AMH), one course in European history (EUH), and one course in African, Asian, Latin American, or World history (AFH, ASH, LAH, WOH courses).

**Combination Degree Program**

Majors who are interested in advanced training are encouraged to consider the 4/1 combination degree program.

More Info (http://history.ufl.edu/undergraduate-studies/41-program/)

**Research**

Majors are encouraged to consider advanced research opportunities in history. The department places special emphasis on participation in the history honors program.

More Info (http://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/)

---

**Legal History**

The History Department also offers a specialization in Legal History. The specialization is open to majors (non-majors may obtain a certificate in Legal History). To successfully complete the specialization in Legal History, students are required to complete 9 credit hours.

One course must be selected from Group A and one course must be selected from the courses listed in Group B. The third course may be selected from either Group A or B. Students must pass each course taken for the certificate with a grade of C or higher.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

*For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.*

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=540101&track=01) may be used for transfer students.

*Students are advised to take HIS 3942 in their first year as a history major, and it must be taken no later than Semester 5.*

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- Complete 1 history course at the 2000 level or above
- 2.0 UF GPA required

**Semesters 3-4**

- Complete 1 history course at the 3000 level or above with a 2.5 critical-tracking GPA (this course may be a course from Group A or B if it is passed with a 2.0 GPA or above)
- 2.5 GPA in critical-tracking history courses
- 2.0 UF GPA required

**Semesters 5-6**

- Complete 1 history course at the 3000 level or above with a 2.5 critical-tracking GPA (this course may be a course from Group A or B if it is passed with a 2.0 GPA or above)
- 2.5 GPA in critical-tracking history courses
- 2.0 UF GPA required
Semesters 7-8

- By the end of semester 8, students seeking the Legal History Specialization must have completed 3 courses toward the specialization (either from the approved list or with the approval of the undergraduate coordinator) as follows: 1 from Group A, 1 from Group B, and 1 from either Group A or B with a 2.0 GPA or higher
- 2.5 GPA in critical-tracking history courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

In addition to the above courses, the undergraduate coordinator may authorize other legal history courses for the specialization.

Academic Learning Compact

The history major exposes students to key issues in the history of the United States, Europe and areas of Africa, Asia and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

Before Graduating Students Must

- Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
- Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
- Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

1 If AMH 2020 not taken in Semester two or three.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Acquire and apply basic research skills learned through use of print and electronic resources of the library and web.

Critical Thinking
2. Critically assess and interpret primary and secondary sources.
3. Identify a historical research topic related to the focus of the research seminar, develop knowledge of the topic through research, and create historical arguments using evidence effectively with clear purpose.

Communication
4. Produce an effectively written analytical research paper based in research of primary sources, framed within the secondary literature and offering a coherent historical argument supported by evidence.

Holocaust Studies Certificate

The Holocaust Studies certificate provides students from any undergraduate major with an interdisciplinary concentration that focuses on intellectual approaches to the Holocaust, other human rights catastrophes, and their representation.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Credits**: 18 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Center Information

The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center’s curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

- Hebrew Minor

The Holocaust is the greatest crime in human history. It has spawned international libraries of historical studies, religious and philosophical treatises, social science studies in psychology and other fields, novels, poems, and films to say nothing of art, monuments, and architecture.

In and of itself, the Holocaust is critical for an understanding of the depths of human experience through a variety of disciplines. But it also provides a way for understanding how practitioners of different disciplines, from history to anthropology to literature to film, approach the human experience through a crucial common theme.

The certificate provides social science and humanities majors with additional background for a number of career choices ranging from the study of law to human rights work to work in NGOs to library or museum employment or even international business.

Required Courses

Course substitutions are possible at the discretion of the director of the Center for Jewish Studies.

Innovation Minor

The Innovation minor provides undergraduates in the Innovation Academy an overview of the major functional elements of innovation — creativity, entrepreneurship, ethics, and leadership — and an opportunity to apply them in a multidisciplinary project.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 15-17 | Completed with minimum grades of C and no S/U

IA Information

The Innovation Academy (IA) equips students with the 21st-century skills needed to thrive in an innovative culture. IA is a living-learning community embedded within the traditional University of Florida experience. Students select from over 25 UF majors and earn their degree with a minor in Innovation. The IA academic calendar operates on a Spring-Summer schedule, giving students the opportunity to enjoy Fall co-curricular activities, pursue internships, study abroad, or enjoy the break at home.

Interdisciplinary Studies | CLAS

The College of Liberal Arts and Sciences recognizes that students’ academic and professional interests may include more than one discipline and that some majors are not formally available at the university. Because interdisciplinary approaches, research, and curricular activities are becoming increasingly appropriate and valuable within the liberal arts and sciences and other fields, UF students have the option to develop and pursue interdisciplinary (IDS) majors that cross the boundaries of numerous disciplines.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Degree:** Bachelor of Arts | Bachelor of Science
- **Credits for Degree:** 120
- **More info**

IDS is a limited-access major in CLAS that requires a minimum 3.0 UF GPA. Students must select two tenured or tenure-accruing faculty members who agree to work with them from the planning stages to completion of the thesis research proposal. At least one faculty advisor must be a member of CLAS; faculty advisors cannot be from the same department.
Students should begin planning early. They should declare a related CLAS major and then apply to IDS as early as semester four or at the latest by semester five. Transfer students must complete their first semester with a UF GPA of 3.0 before they can apply to this program. Late application may result in denial of admission to the program. Students interested in pursuing an interdisciplinary major should contact the director of the particular specialization listed below or view the IDS information on the college’s website.

Each applicant and their interdisciplinary program must be approved by the inter-college Committee on Interdisciplinary Studies and include at least 20 credits of 3000/4000-level coursework taken in two or more departments. All other CLAS degree requirements (e.g., foreign language, basic distribution, electives, etc.) must be met. The student must also take at least seven credits of IDS 4906 (or equivalent courses) under the direction of one or both of the supervisory faculty members and produce a senior thesis.

Interdisciplinary majors may also graduate with honors recognition. Requirements are the same as for department majors, with the additional provision that magna cum laude or summa cum laude recognition must be recommended by two members of the student’s supervisory committee (including the principal supervisor), who will affirm that the student conducted an individual project in IDS 4906 (or equivalent).

Students in science tracks who are enrolled in IDS 4905 work 3-4 hours per week in the laboratory for each credit earned.

All students with IDS majors are required to complete Quest 1 and Quest 2 coursework in their first four semesters.

In addition to the ten established concentrations, students may design a customized course of study in consultation with faculty advisors relevant to the interdisciplinary thesis project. If interested in this option, students should first contact the associate dean for IDS majors.

## American Indian and Indigenous Studies | IDS

The College of Liberal Arts and Sciences recognizes that students’ academic and professional interests may include more than one discipline and that some majors are not formally available at the university. Because interdisciplinary approaches, research, and curricular activities are becoming increasingly appropriate and valuable within the liberal arts and sciences and other fields, UF students have the option to develop and pursue interdisciplinary (IDS) majors that cross the boundaries of numerous disciplines.

### Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines — biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic — because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural (http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/), archaeological (http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/), biological (http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/) and linguistic (http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/) anthropology.

- Anthropology
- Anthropology Minor
- Anthropology Minor UF Online
- Anthropology UF Online
- Medical Anthropology Certificate
The Department of Anthropology and the College of Liberal Arts and Sciences have established a concentration in American Indian and Indigenous Studies (IDS-AIIS). The AIIS concentration is an extension of the minor and is open to all students with an interest in American Indian topics.

The concentration offers courses which cut across all disciplines, including anthropology, botany, geology, history, Latin American studies, religion, and wildlife studies. This concentration deals with the issues and concerns of indigenous peoples. Students will have the opportunity to pursue research, write a senior thesis and prepare themselves for graduate work in the field of American Indian and/or indigenous studies.

### Academic Learning Compact

The interdisciplinary studies major with a concentration in American Indian and indigenous studies provides students with knowledge of the issues and concerns of indigenous peoples of the Western hemisphere. Students will be able to identify and conduct research or field work and understand historical, political, social and religious structures from an indigenous perspective. Students will evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also be able articulate the results of research clearly and effectively.

### Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Identify, describe and define major issues of indigenous peoples and conduct research in any of the disciplines which incorporate American Indian topics.

**Critical Thinking**

2. Integrate different sources and types of knowledge into holistic perspectives about indigenous peoples.

3. Evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.

**Communication**

4. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

---

**Biochemistry and Molecular Biology | IDS**

The College of Liberal Arts and Sciences recognizes that students’ academic and professional interests may include more than one discipline and that some majors are not formally available at the university. Because interdisciplinary approaches, research, and curricular activities are becoming increasingly appropriate and valuable within the liberal arts and sciences and other fields, UF students have the option to develop and pursue interdisciplinary (IDS) majors that cross the boundaries of numerous disciplines.

### About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Science
The Department of Chemistry is a comprehensive department granting bachelor’s, master’s, and Ph.D. degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in Ph.D. production (http://pubs.acs.org/cen/acs/8747news1.pdf) and is among the top 20 in bachelor’s graduates.

Website (https://www.chem.ufl.edu/)

Curriculum

- Chemistry Minor
- Chemistry | Biochemistry

Applicants with a strong background in basic chemistry and biology can pursue advanced-level work, including required courses in the Department of Biochemistry and Molecular Biology, research in biochemistry and molecular biology and other electives in biochemistry and molecular biology, botany, chemistry, microbiology, neuroscience, pharmacology, and zoology.

Graduates will have excellent backgrounds for research in a variety of the basic medical sciences and are qualified for graduate and professional school programs.

Academic Learning Compact

This interdisciplinary studies major in biochemistry and molecular biology provides students with an understanding of and competence in biochemistry, molecular biology and molecular cell biology. Students will understand and use the scientific approach to gather and verify knowledge. They will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. Students will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and to apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

- **More Info**

This program provides a broad program in biological illustration to students preparing to work with museums, university botany, zoology, entomology, anthropology or medical departments and botanical gardens or research organizations.

Enrollment is restricted because of the tutorial nature of much of the instruction. The program admits only a few well-qualified students each year.

For this specialization only, students need to apply in their second semester at UF.

---

### Academic Learning Compact

The interdisciplinary studies major in biological illustration provides knowledge of and competence in biology, structural botany and structural zoology. Students will know and use the scientific approach to gather and verify knowledge. Students will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. They will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and to apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

**Before Graduating Students Must**

Related Programs

- **English**

The interdisciplinary B.A., with a concentration in film and media studies, enables students to pursue a liberal arts approach to audio-visual studies. The courses offered provide a range of training from professional and applied (anthropology, architecture, education and theatre) to historical and experimental (art, English, Germanic, Slavic and Romance languages).

The film and media studies major encourages students to integrate these offerings by working in both theory and production. For the senior thesis, a student may choose an essay, a film script, a short film or video, or work in a related medium.

The major requires 27 credits minimum, 20 credits of core courses and seven credits from IDS 4906 senior independent work. Majors should take ENG 3115, because it serves as the prerequisite for ENG 4136. Students and sponsors select courses for CLAS electives.

Because many of the courses in the departments of Art, English and Theatre have prerequisites, students should plan their freshman and sophomore work with the major in mind. Under certain circumstances, instructors will waive some prerequisites for IDS majors, but with space at a premium (especially in studio and production classes), students should not try to avoid any requirements. Students may, however, use up to nine credits of 2000-level prerequisites as electives.

Early preparation for the major should include ENG 2300. Other useful courses are:

The major is selective, requiring a 3.0 minimum GPA, two sponsors chosen from faculty in the program and approval of the Interdisciplinary Studies Committee. The application form and information are available online.
Academic Learning Compact

The interdisciplinary studies major in film and media studies provides students with knowledge of film in its diversity and through its techniques. Students will learn film theory and criticism and implement these ideas in the practice of viewing and/or making films. Students will also present ideas clearly and effectively in writing and/or in film/video format as an optional ability.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain film in its diversity and through its techniques.

Critical Thinking
2. Identify and examine film and/or media theory and criticism and implement these ideas in the practice of viewing and/or making films.

Communication
3. Present ideas clearly and effectively in a well-argued essay.

Curriculum
- Combination Degrees
- Latin American Studies Certificate
- Latin American Studies Minor
- Latin American Studies | IDS

Related Programs
- Latin American Studies Certificate

The UF Center for Latin American Studies was founded in 1930 and is one of the largest and most prestigious institutions of its kind in the United States. UF has approximately 180 faculty members whose teaching and research focus to a significant extent is on Latin America and the Caribbean. The Latin American Collection of the George A. Smathers Library is one of few stand-alone collections in the United States and features extraordinary holdings on Brazil, the Caribbean and other areas of Latin America.

This program is built upon the social sciences, humanities, languages and area studies. It requires 21 credits of 3000/4000-level coursework in Latin American and Caribbean area courses, intermediate proficiency in a language of Latin America and the Caribbean (typically Spanish, Portuguese or Haitian Creole), a senior thesis and at least seven credits of IDS 4906.

Academic Learning Compact

The interdisciplinary major in Latin American studies provides students with broad knowledge of contemporary and historical issues relevant to Latin America. The program offers training in areas such as the geography, history, society, economy, politics, religion, arts and culture of Latin America. Students will demonstrate or otherwise acquire proficiency in at least one major Latin American language and will learn how to identify and conduct relevant research or field work on a Latin America-related topic.

Upon completion of the program, students should be able to evaluate the significance, quality and veracity of information gathered from scholarly sources and to apply it effectively. They also will be able to construct analytical arguments and communicate their perspective confidently in spoken and written form.

Before Graduating Students Must
- Demonstrate satisfactory proficiency in a major Latin American language as determined by successful course completion, adequate score on the AP or SAT II exams or individual oral examination (for native speakers).
- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Conduct interdisciplinary research on a Latin American topic and articulate research results clearly.

Critical Thinking
2. Critically evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.

Communication
3. Communicate effectively in spoken and written formats.

Related Programs

- Medieval and Early Modern Studies Minor

This major focuses on medieval and early modern European culture and its influences on the modern world. Students examine the distinctive forms of cultural organization in these periods, obtain knowledge about medieval and early modern communities (monastic, chivalric, peasant, early urban), and familiarize themselves with some of the world’s greatest literature.

Students are encouraged to seek historical perspectives that can contribute to current discussions about ethnicity and nationality, colonialism, technologies and their effects, gender and sexuality and the characteristics of historical and fictional narratives. This IDS major involves critical thinking, textual analysis and creativity, and is excellent preprofessional preparation for careers in law, journalism, government services, medicine, library science, international work and teaching.

Academic Learning Compact

The interdisciplinary studies major in medieval and early modern studies provides students with knowledge of the key issues, figures, social and cultural trends and basic chronology of the period or field studied. Students will be able to evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also articulate the results of research clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Related Programs
- Psychology

This major focuses on the characteristics and functions of the nervous system. Core courses ensure that students acquire a background in basic sciences, biology and brain science. Through elective courses and completion of an independent research project, supervised by one of the 45 faculty within the Center for Neurobiological Sciences, students can specialize in area(s) of particular interest to them. These areas can include neurochemistry, neurophysiology, neuroembryology, neuroplasticity, and brain/behavior relations. Concentrations are available in behavioral neurobiology, cellular and molecular neurobiology, and cognitive neuroscience.

Many graduates continue their study in neural sciences, including graduate school, professional school in health sciences, and the pharmaceutical industry.

Academic Learning Compact

The interdisciplinary studies major in neurobiological sciences provides students with an understanding of and competence in the neurobiological sciences. Students will understand and use the scientific approach to gather and verify knowledge. They will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. Students will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and to apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

Subfield courses

Main subfields of international relations courses (3000 level) 9
Advanced subfield course (4000 level)  3  

Total Credits  18

While successful completion of this 18-credit program will qualify students for the certificate, most graduate programs, foreign service organizations, and private corporations will be looking for individuals with broader training. Therefore, students are encouraged to pursue related study in other political science fields and other departments. Students interested in U.S. foreign policy, for example, should consider taking courses in American government. Likewise, students interested in international trade or finance would do well to pursue coursework in economics.

In addition, students interested in the international relations of a particular geographical region would benefit from learning about the comparative domestic political systems and/or cultures of those regions and may find courses in comparative politics, geography, anthropology or foreign languages and literatures helpful. Many other opportunities for enrichment through interdisciplinary work are available on campus.

International Studies

The International Studies interdisciplinary program provides knowledge of major international or global issues including regional and global political economies; comparative cultural and political systems; ethnicity, identity and belief systems; peace, conflict and wars; gender, culture and politics; and environment, health, and science issues.

About this Program

• Sustainability Studies Minor

Students acquire proficiency in a modern foreign language, and knowledge of at least one major region of the world and significant global issues; are encouraged to experience living and studying abroad or working with an international organization focused on international issues; and conduct research on a global issue in conjunction with a senior research seminar, study abroad experience, or relevant internship or service learning opportunity.

The major provides cross-cultural and interdisciplinary training that prepares students for graduate study or international careers as specialists in international relations, international development, communications and media, education, business, global health, sustainability, public affairs, government foreign service, export sales, and international research.

Coursework for the Major

Students are required to designate a region of the world on which to focus. This region then determines the courses appropriate for the major’s primary requirements (Category A) as well as the major’s foreign language requirement.
The major requires 36 credits of coursework in addition to the language requirement. All courses must be completed with minimum grades of C. A minimum of 15 credits of Category A and/or B courses must be completed at UF.

### Required Coursework

- INS 3004
- INS 4930

With prior approval, students may substitute:
- Study abroad with a research project; internship or work experience abroad with a research project; international studies research poster with presentation; international studies-related service learning with a research project; or independent study course with a research project. Students pursuing any of these alternatives must still register for 3 credits of coursework to replace INS 4930. All research papers will be graded by a common grading rubric. S/U grades are acceptable for these alternatives to INS 4930 with prior approval and successful completion of the research project.
- Category A: 15 credits of international studies-approved courses in social science, humanities or professional courses that focus on the region of the world selected by the student: Africa, Asia, Europe, Latin America and the Caribbean, or the Middle East.
- Twelve credits of Category A coursework must be at the 3000/4000 level.
- Category B: 15 credits of international studies-approved courses in social science, humanities, or professional courses that focus on regions of the world other than the student’s regional focus and/or focus on global issues.
- Nine credits of Category B coursework must be at the 3000/4000 level. (These 9 credits of 3000/4000-level Category B courses will be accepted toward the CLAS 3000-level elective requirement. INT majors still will need to take 9 additional credits of 3000-level electives from courses NOT approved for any INT category.)
- Four semesters minimum (0-20 credits) of a single modern foreign language or demonstrated proficiency equivalent to completion of the intermediate level. The language for which proficiency is demonstrated must be logically linked to the selected primary region of focus (Category A).

### Region Focus

The links below determine the region courses appropriate for Category A and Category B requirements as well as the region's foreign language requirement.

- Africa ([https://bobgrahamcenter.ufl.edu/academics/international-studies-major/africa-international-studies-program/](https://bobgrahamcenter.ufl.edu/academics/international-studies-major/africa-international-studies-program/))

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1044).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=302001&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=302001&track=01)) may be used for transfer students.

**Semester 1**

- Complete 1 international studies course from Category A or Category B at the 2000-level or higher with a 2.0 critical-tracking GPA
- 2.0 UF GPA required

**Semester 2**

- Complete 1 international studies course from Category A or Category B at the 2000-level or higher with a 2.5 critical-tracking GPA
- 2.0 UF GPA required
- Students must have at least one Category A and one Category B class completed by the end of Semester 2

**Semester 3**

- Complete 1 foreign language course from the selected region and 1 additional international studies course from Category B at the 2000-level or higher with a 2.75 critical-tracking GPA
• 2.0 UF GPA required
• Students should take INS 3004 as soon as they have completed three Category courses. For many students, this will be either semester 3 or 4

Semester 4
• Complete 1 additional foreign language course from the selected region with a 3.0 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete INS 3004 International Studies Perspectives and one additional international studies course from Category A at the 3000-level or higher with a 3.0 critical-tracking GPA
• 2.0 UF GPA required
• By the end of Semester 5, students must complete two Category A classes, two Category B classes, one year of a relevant foreign language, and INS 3004.

Semester 6
• Take 2 major classes at the 3000-level or above (may be any mixture of Category A and/or Category B)
• Students should have completed at least 21 credits of the 36 total (excluding language) required for the major

Semester 7
• Complete 2 major classes at the 3000-level or above (may be any mixture of Category A, Category B, and/or INS 4930 or pre-approved alternative)
• Complete Foreign Language Intermediate 1
• Students should have completed at least 27 credits of the 36 total (excluding language) required for the major

Semester 8
• Complete 3 major courses at the 3000-level or above (may be any mixture of Category A, Category B, and/or INS 4930 or pre-approved alternative)
• Complete Foreign Language Intermediate 2
• By the end of semester 8, students must complete a minimum of 15 credits of Category A coursework, 15 credits of Category B coursework, INS 3004, INS 4930 or pre-approved alternative, and the intermediate level or equivalent of a foreign language relevant to the primary region of study.

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Nine credits of 3000 level or above Category B courses count towards the 3000 level or above electives outside of the major.

Depending upon the international studies courses chosen, students may meet some of their GE-H, GE-S and GE-N requirements through courses for the major. In that case, the student can substitute general elective credit.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1. One of these General Education courses must be a Quest 2 course.
2. Majors are encouraged to use some of their electives to pursue a minor, combination degree, dual degree, or double major.

---

**Academic Learning Compact**

The international studies major provides knowledge of major international issues. Students will be able to identify and conduct internationally relevant research. They will evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also be able articulate the results of research clearly and effectively.

---

**Before Graduating Students Must**

- Complete requirements for the baccalaureate degree, as determined by faculty.

---

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe, explain and apply basic knowledge of the modern history, culture, politics, geography, economy or sociology of one major region of the world (Africa, Asia, Europe, Latin America or the Middle East).

**Critical Thinking**

2. Use analytical intellectual tools to examine global issues.

**Communication**

3. Interpret and effectively communicate about global issues.

---

**Curriculum Map**

_I = Introduced; R = Reinforced; A = Assessed_

1. **Category A**: Students focus on a region of the world, taking 15 credits of approved courses in social science, humanities or professional courses that deal with the region chosen.

2. **Category B**: Students take 15 credits of approved courses that deal with regions of the world other than the region chosen in Category A.

3. **Foreign Language**: Students take a minimum of four semesters of a single modern foreign language linked to their focus region, or demonstrate intermediate level-proficiency.

---

**Assessment Types**

- Direct assessment of research paper
Italian

Foreign Languages and Literatures

The Italian specialization in Foreign Languages and Literatures provides the linguistic and cultural knowledge students need to understand and appreciate the language, literature, cinema, history, and society of the Italian peninsula. Courses reflect the complex cultural traditions of this Mediterranean nation from the Middle Ages and the Renaissance to the modern period.

About this Program

- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture.
and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Italian specialization of the Foreign Languages and Literatures major offers a basis for a broad variety of careers including arts and culture, fashion, business, international law, education, diplomacy, international relations, and journalism. The program also constitutes a strong foundation for graduate work in Italian Studies or related fields, allowing students to develop strengths in fields such as film studies, medieval studies, Mafia studies, Modernism, detective fiction, theater studies, Dante studies, and Animal Studies. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Coursework for the Major

The Italian specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

### Critical Concentration

Although courses may appear in more than one group, they may be counted toward only one group

Select 9 credits from one area:

Intensive Area Studies: Italian Studies (Recommended for those planning to pursue careers requiring advanced level skills in Italian or graduate work in Italian studies)
Overseas Study

Students specializing in Italian are encouraged to participate in a study abroad for a summer or an entire semester. Students regularly participate in UF Programs in Rome or UF-approved study-abroad programs in other Italian cities or regions. Refer to UF International Center information and contact a department advisor for study abroad recommendations.

More Info ([https://internationalcenter.ufl.edu/](https://internationalcenter.ufl.edu/))

Placement

In all languages, students with either a native background in the language or prior study in that language might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.

Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01)) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- 2.0 UF GPA required

**Semester 3**
- Complete ITA 1130 or higher-level Italian Language course with a minimum grade of C
- 2.0 UF GPA required

**Semester 4**
- Complete ITA 1131 or higher-level Italian Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 5**
- Complete ITA 2220 or a higher-level Italian Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 6**
- Complete ITA 2221
- Complete 1 Critical Concentration course
- 2.0 UF GPA required
SEMESTER 7

• Complete ITA 3420
• Complete 2 ITA/ITW 3xxx/4xxx advanced electives
• Complete 2 Critical Concentration courses
• 2.0 UF GPA required

SEMESTER 8

• Complete ITA 3564
• Complete all remaining FLL-Italian 3xxx/4xxx advanced electives
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of Italian may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Italian Studies Minor

An Italian Studies minor complements any major in any discipline. A concentration in Italian language, literature, culture, and civilization can also become the basis for graduate studies in Italian.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Credits**: 19 | Completed with minimum grades of C and no optional S-U
- **Contact**: Email (dambers@ufl.edu)

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Website ([https://languages.ufl.edu/](https://languages.ufl.edu/))
Japanese Specialization in Foreign Languages and Literatures

The Japanese specialization in Foreign Languages and Literatures develops proficiency in the Japanese language and acquaints students with the literature and cultural history of Japan. Courses are also available for those interested in business Japanese, classical Japanese, film, and women's studies.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Japanese specialization of the Foreign Languages and Literatures major provides a foundation for graduate-level work in East Asian studies or allied fields (anthropology, art history, history, linguistics, political science, and religion). The specialization is excellent general preparation for entry to professional schools (business, journalism, law, and medicine) or careers in foreign service, commerce, diplomacy, translation, business, import and export of information and culture, museums, libraries, and tourism.

Coursework for the Major
The Japanese specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

### Critical Concentration

Although courses may appear in more than one group they may be counted toward only one group

Select 9 credits from one area: 9

- Intensive Area Studies: Japanese (Recommended for those planning to pursue careers requiring advanced level skills in Japanese or graduate work in Japanese studies)
- Contemporary Cultural Studies
- Film and Visual Culture
- Literary Studies
- Medieval and Early Modern Studies

**Total Credits** 33

All languages offered through this department may fulfill college language requirements. Students pursuing the Japanese specialization in Foreign Languages and Literatures are not allowed to minor in Asian studies (either option 1 or 2).

## Transfer Students Interested in Majoring in Japanese

If a student's current institution does not offer Japanese and the student has no previous knowledge of Japanese, it's recommended that they take the following Summer Intensive Beginning Japanese program:

Summer A: JPN 1130. A minimum grade C is required to advance to the next level course.
Summer B: JPN 1131.

**Overseas Study**

Two year-long study abroad programs are available in Japan. The Asian Studies Program at Kansai Gaidai University in Osaka, Japan is specifically designed for international students for an academic year program of study abroad. The program offers courses in Japanese language (all levels) and area studies focusing on Japan and its international role. Another academic year study abroad program at Aoyama Gakuin, Tokyo, offers students the challenge of taking courses in the target language, thus it is limited to those who have completed three years of language study at UF, or the equivalent. These two programs also offer the option of one semester of study abroad.

There is a one or two semester study abroad program at Shimane University in Matsue, Japan. This program focuses on Japanese language, culture, history and environment, and is limited to students who have completed three years of language study at UF, or the equivalent. There is a one or two semester study abroad program at Nagoya University in Nagoya. This program is open to students with no previous study of Japanese language, and is ideal for students from a variety of majors including the STEM majors as it offers a broad-based English-language curriculum in international studies, biological and physical sciences, and engineering, in addition to courses in Japan studies.

A maximum of 15 credits non-UF overseas study credit may apply to the major. Students must have all overseas study credit that will transfer to the major approved by their major advisor. JPT 3500 must be taken at UF. No substitution is allowed for JPT 3500.

**Placement**

Students with previous training in Japanese, as well as those with heritage background in these languages, should consult the undergraduate coordinator or the language coordinator of the Japanese specialization before enrolling in any JPN or JPW course. Placement tests are given at the start of each semester; refer to the Department of Languages, Literatures and Cultures for location and times.

---

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cid=160399&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- 2.0 UF GPA required

**Semester 3**

- Complete JPN 1130 or higher level language course with a minimum grade of C
- 2.0 UF GPA required

**Semester 4**

- Complete JPN 1131 or higher level with a minimum grade of C and 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 5**

- Complete JPN 2230 or higher level language course with a minimum grade of C and 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 6**

- Complete JPN 2231 or higher level language course with a minimum grade of C
- 2.0 UF GPA required
SEMMESTER 7
- Complete JPN 3410 or higher course with a minimum grade of C
- Complete JPT 3500 with a minimum grade of C
- 2.0 UF GPA required

SEMMESTER 8
- Complete JPN 3411 or higher course with a minimum grade of C
- 2.0 UF GPA required

Model Semester Plan
Actual courses may be different depending on language preparation and availability of courses. In particular, beginning language is best started semester 1 and no later than semester 3, but study abroad or accredited intensive summer courses can be used to catch up.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Several courses in this major count for GE-H and N or GE-S and N requirements. 3000 level or above critical concentration courses outside of Japanese may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

### Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

**Critical Thinking**

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

**Communication**

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.

4. Display oral and written proficiency in language(s) of specialization.

#### Curriculum Map

</table>

\(^1\) Courses focus on the acquisition of the language(s) of specialization at the advanced level.

\(^2\) Courses address literary, cultural, cinematic, historical, and/or social questions.
Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Jewish Studies

The Center for Jewish Studies offers a Bachelor of Arts in Jewish Studies, a minor, and two certificate programs. A strong interdisciplinary curriculum with a language requirement provides a basis for understanding the broad spectrum of Jewish cultures, languages, and histories.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

Center Information

The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center’s curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

Curriculum

- European Jewish Studies Certificate
- Holocaust Studies Certificate
- Jewish Studies
- Jewish Studies Minor

Related Programs

- [UGRD/colleges-schools/UGLAS/IDS_BA_BS/IDS_BA14_15/](https://jst.ufl.edu)
- Hebrew
- Hebrew Minor

The Center for Jewish Studies fosters the academic study of Jewish cultures, languages, history, society and religion for all students at the University of Florida. Students are expected to develop as critical thinkers, aware of the diversity and complexity of the field. The center promotes a broad and interdisciplinary approach including the arts, social sciences, and textuality. The curriculum emphasizes historical transformations and comparative frameworks among various Jewish communities and with other groups and religions. Courses draw upon a variety of theoretical approaches to the study of class, ethnicity, gender, race, and sexuality with methodologies that are both textual and performance oriented.

The program may serve as preparation for graduate work in Jewish studies, as background for a career in Jewish education or community service or as an area of special interest that will enrich the undergraduate experience. Students often combine the JST major or minor with other majors and go on to careers in law, medicine, journalism, business, or other professions.

Coursework for the Major

The major requires a minimum of 27 credits in Jewish studies and related courses with minimum grades of C. In addition, one year of Hebrew or equivalent language with significant Jewish culture production is required. A minimum of 15 credits for the major must be taken at the University of Florida. Students should consult the undergraduate coordinator in 201 Walker Hall.
Required Coursework
- JST 2930 Introduction to Jewish studies or an introduction to Jewish culture or, Jewish history or a survey course in Jewish studies (3 credits)
- Senior seminar, generally offered every other spring, or an approved equivalent JST course requiring a comprehensive research paper
- Minimum 21 credits at the 3000 level or above

Special topics courses in other departments may be counted toward the major provided they include substantial coverage of material relevant to Jewish studies. Individual work (JST 4905), which also fulfills requirements for the major, is also available for independent study and special projects. No more than six credits of independent study (JST 4905) will be counted toward the minimum. Normally, no more than 12 credits of the minimum may be transfer credit; however, all transfer credits in JST-related courses from UF-approved programs abroad will apply toward the major.

Course Details
Most JST courses are listed in the schedule of courses under Jewish Studies. Related courses offered by other departments are listed in departments of Anthropology, English, History, Languages, Literatures and Cultures, Political Science, Religion, and Sociology. A list of courses is available in the center each semester before advance registration.

Specializations
- European Jewish Studies
- Holocaust Studies
- Israel Studies

Honors
Honors in Jewish studies can be earned by students who have at least a 3.5 GPA in their upper-division work and a 3.5 GPA in the major. Students who seek honors are required to complete an honors project, with a grade of A or B, under the guidance of a Jewish studies faculty member. In their senior year, honors students should register for JST 4970, a 2-3 credit course.

Internship in Jewish Communal Services
Students can gain practical experience as an undergraduate through the internship option of JST 4940. The goal of this program is both to expose the student to the opportunities for service in the world of organized Jewry and to provide a means for students to understand how Jewish values are propagated in organized settings. Students earn credit for volunteer work and training in applied settings such as Jewish family and social services agencies, community centers, federations, educational institutions, museums, newspapers, denominational organizations, public affairs groups, synagogues, Hillel or equivalent institutions. To qualify for JST credit, the organization must have an explicit public tie to Judaism and be approved for internship credit by the Center for Jewish Studies.

Overseas Study
The Center for Jewish Studies provides counsel regarding study abroad at the Hebrew University of Jerusalem, Tel Aviv University, Haifa University, and Ben-Gurion University of the Negev. The overseas programs at these Israeli universities offer summer, one semester and full-year courses of study. Information is available in 201 Walker Hall and at the UF International Center, 170 Hub.

Scholarships are available. Travel restriction updates are available on the department website.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=380206&track=01) may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- 2.0 UF GPA required
Semester 3
• Complete HBR 1130
• 2.0 UF GPA required

Semester 4
• Complete HBR 1131 and one Jewish studies course with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete all critical-tracking courses with a 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete 2 of the remaining Jewish Studies courses
• 2.0 UF GPA required

Semester 7
• Complete 2 of the remaining Jewish Studies courses
• 2.0 UF GPA required

Semester 8
• Complete all remaining Jewish Studies major requirements
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

---

One general education option taken this term must be a Quest 2 course.

---

**Academic Learning Compact**

This major familiarizes students with the aspects of Jewish history, religion, languages and cultures. Emphasis is placed on basic language acquisition, analysis and critical evaluation of texts and contexts, integration of cultural data with disciplinary concerns outside of Jewish studies and comparative frameworks among different Jewish groups and with co-territorial non-Jews.

---

**Before Graduating Students Must**

- Satisfactory evaluation of paper written for the CJS capstone course, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

---

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Demonstrate knowledge of and competence in the Jewish experience, including minority and diasporic communities within a comparative framework.

2. Demonstrate knowledge of transformations of Jewish communities over time and space.

**Critical Thinking**

3. Understand the significance of language in assessing Jewish culture(s).

4. Evaluate and apply effectively the significance, quality and veracity of information (both primary and secondary) in the literature.

**Communication**

5. Articulate research results clearly and effectively in an accepted style of presentation.

---

Latin American Studies Certificate

The Center for Latin American Studies, in cooperation with the colleges of Liberal Arts and Sciences, Agricultural and Life Sciences, Business, Design, Construction and Planning, Education, Fine Arts, and Journalism and Communications, offers a certificate in Latin American Studies for undergraduate students. Through special arrangements, students in other colleges also may obtain the certificate.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Credits**: 21 | Completed with minimum grades of C
- **Contact**: Email (nochoa@latam.ufl.edu) | 318 Grinter Hall (http://campusmap.ufl.edu/?loc=0002) | 352.273.4715
- **More Info**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Center Information

The Center for Latin American Studies advances knowledge about Latin America and the Caribbean and its peoples throughout the Hemisphere, enhances the scope and quality of research, teaching, and outreach in Latin American, Caribbean and Latinx Studies.

319 GRINTER HALL
GAINESVILLE FL 32611-5530
Map (http://campusmap.ufl.edu/#/index/0002)
Curriculum

• Combination Degrees
• Latin American Studies Certificate
• Latin American Studies Minor
• Latin American Studies | IDS

The program is designed to supplement a major with broad cultural and language training appropriate for graduate work or a Latin America-related career in business, government or teaching. In general, it is for students who plan to live in Latin America, work with Latin Americans, or interpret Latin American culture to others.

The certificate program is open to all undergraduates. Students may earn either the Latin American Studies certificate or minor but not both.

Required Courses

21 credits with Latin American content, distributed as follows:

• Three credits of LAS 4935, the undergraduate seminar in Latin American studies. Students may repeat LAS 4935 for an additional six credits if the topics vary.
• Six credits of courses outside the student’s major with 100% Latin American content (designated by a C in the LAS course guide).
  More Info (http://www.latam.ufl.edu/academics/courses/)
• Twelve credits of additional courses with Latin American content, including courses in the student’s major; at least three credits must be core courses (with 100% Latin American content, designated by a C in the LAS course guide); up to nine credits may be electives with at least 25% Latin American content (designated by an E in the LAS course guide).
• Only courses at 2000 level or above will count toward the certificate. Advanced Placement credits do not count. Overseas study credits can count as core or elective courses pending review of the undergraduate advisor at the Center for Latin American Studies.

In addition, the student must demonstrate high-intermediate proficiency in a Latin American language through coursework (Spanish, SPN 2240; Portuguese, POR 3242; Haitian Creole, HAI 2200) or examination (Advanced Placement scores of 4-5 plus approval or an SAT 2 score of 700). Language courses at the 3000 level can count as core courses.

Students with prior knowledge of a Latin American or Caribbean language must demonstrate proficiency through a written placement test (SAT 2 test for Spanish) or oral examination for speakers of Portuguese or Haitian Creole. Courses in a second Latin American language at or above the 3000 level may count toward the certificate if these courses are not used to meet the language requirement.

Latin American Studies Minor

The Latin American Studies minor is an excellent option for those who wish to concentrate their work in a specific discipline yet maintain a Latin American focus in their coursework. Students can take courses with Latin American content in the fields of anthropology, economics, politics, geography, history, mass communication, music, women’s studies, and more. Students who pursue the minor will enhance their career prospects through their knowledge of Latin American languages and cultures.

High-Intermediate Language Proficiency

Select one:

- SPN 2240 Intensive Communication Skills
- POR 3242 Oral and Written Practice
- HAI 2200 Intermediate Haitian Creole ¹
- Language courses in Spanish, Portuguese or Haitian Creole (3000 level) ⁴
- Proficiency through written or oral examination ⁵

Total Credits 15

1. LAS 6938 may be substituted with the approvals of the instructor and undergraduate coordinator.
2. A student may take LAS 4935 up to three times if the subject matter varies. The first Seminar will count toward the Seminar requirement, the second and third may count toward the Approved courses with 100% Latin American or Caribbean content.
3. As listed in the Latin American Studies course guide (http://www.latam.ufl.edu/academics/courses/).
4. Language courses above the 3000 level can count toward the minor if they are not used to meet the language requirement.
5. Students with prior knowledge of a Latin American or Caribbean language must demonstrate proficiency through a written placement test (SAT II for Spanish) or oral examination for speakers of Portuguese or Haitian Créole.

Candidates for the minor are encouraged to spend a summer, a semester or an academic year studying in a Latin American country. UF sponsors study abroad programs in Argentina, Brazil, Costa Rica, Chile, Dominican Republic, Guatemala, Mexico, Panama, and Peru. For more information, contact Study Abroad Services in the UF International Center.

More Info (https://internationalcenter.ufl.edu/study-abroad/)

Legal History Certificate

The Legal History certificate considers how law works around the world by studying legal histories outside of the U.S. This historical exploration introduces the ways in which law influences society and the ways in which society influences law.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 9 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

Undergraduate students in the Department of History have a number of ways of enhancing their experience: from completing a senior thesis in conjunction with our Honors Program (https://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/), or by participating in a study abroad program (https://history.ufl.edu/undergraduate-studies/study-abroad-and-language-training/) The graduate program is home to a number of fields: African History, European History, Latin American History, and United States History.

Website (https://history.ufl.edu/)
The certificate is open to non-majors while majors may obtain a specialization in legal history. Students minoring in history are eligible for the certificate so long as none of their certificate courses are counted towards their minor.

**Total Credits**: 9

In addition to these courses, the undergraduate coordinator may authorize substitute courses.

1 Course not previously taken.

---

### Linguistics

Language is a form of communication shared by all humans across the globe. Linguistics is the scientific study of language in all its forms. It is a set of disciplines that investigates the structure, meaning, and use of human languages using a range of approaches.

### About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

### Department Information

The Linguistics Department offers the Ph.D., M.A. (both thesis and non-thesis), B.A., and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level, and a SLAT (Second Language Acquisition and Teaching) certificate at the graduate level. We currently have almost 30 faculty (combining budgeted and affiliated personnel), well over 100 undergraduate majors, and approximately 40 graduate students.

[Website](https://lin.ufl.edu/)
Linguists study one of the central aspects of being human: the ability to communicate through language. Language shapes and is used in our societies in fundamental and profound ways. Linguists systematically examine a range of questions that help build scientific knowledge and address practical matters in our societies relating to language. How linguists study human language is varied, from multiple theoretical perspectives to diverse research methods. While the traditional core includes investigating the sounds, structure, and semantics of human languages, linguistics also investigates how people acquire language and use language in context, how languages are processed in the brain, how languages can be documented and revitalized, and how computers can be trained to understand and use language. The diversity of the field of linguistics is appealing due to the ability to study deeply within one area or broadly across several.

**Coursework for the Major**

Students must earn minimum grades of C within two attempts in a minimum of 33 credits.

### Required Coursework

<table>

Select 15 credits from linguistics electives (3000/4000 level)

Select 9 credits from approved electives from a combination of the following options:

- Additional Linguistics electives at the 3000/4000-level
- Linguistics electives offered by other departments
- Language-related courses OR a two-semester sequence of a non-Romance or non-Germanic language

<table>
<thead>
<tr>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>33</td>
</tr>
</tbody>
</table>

1. Up to 6 of the 9 credits may come from language-related courses OR a two-semester sequence of a non-Romance or non-Germanic language.

(No more than six 6 language credits will apply to the major.)

Consult the undergraduate coordinator or program director for emphasis areas and electives. Courses must be completed at UF; if taken at another accredited university, they must be approved by the department.

OR

**Foreign Language Courses**

A two-semester sequence of a non-Romance/non-Germanic language. ¹

¹ Students must complete two consecutive semesters of the same language for the courses to count towards the major. Appropriate languages include: Akan, American Sign Language, Amharic, Arabic, Czech, Chinese, Greek, Hebrew, Hindi, Hungarian, Japanese, Korean, Lingala, Polish, Russian, Swahili, Turkish, Vietnamese, Wolof, Xhosa, and Yoruba.
Combination Degree Program

Linguistics offers a combination-degree program that allows students to obtain a B.A. and an M.A. in five years.

Students enroll in four graduate courses in their senior year that count toward both the B.A. and M.A. degrees:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

<td>Morphology 1</td>
<td>3</td>
</tr>
<tr>
<td>LIN 6501</td>
<td>Syntax 1</td>
<td>3</td>
</tr>
</tbody>
</table>

Students need to apply by February 15 of the spring semester of their junior year.

- Combination Degrees

Course Details

Linguistics offers a variety of courses and students are free to pick any combination. Suggested specializations within the major include:

- Theoretical linguistics, covering the theory of sounds (phonology), word structure (morphology), sentences (syntax), and meaning (semantics):

<table>
<thead>
<tr>

Overseas Studies

Some study abroad programs that offer linguistics courses are the University of Mannheim (Germany), University of Haifa (Israel), University of Madrid (Spain), and the University of Utrecht (The Netherlands). For more information and programs, contact the linguistics undergraduate advisor.

Relevant Minors and/or Certificates

Linguistics students may want to consider a minor (p. 1617) or certificate (p. 1616) in Teaching English as a Second Language. More Info (http://lin.ufl.edu/undergraduate/minor/)

Research

Students are encouraged to engage in individual study with a faculty member or to volunteer in a laboratory. More Info (http://lin.ufl.edu/undergraduate/major/)

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160102&track=01) may be used for transfer students.
Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete 1 foreign language or linguistics course (LIN 3010 recommended) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 4
• Complete 1 additional foreign language or linguistics course with a 2.75 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete LIN 3010 and maintain a 2.75 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete LIN 3201 or LIN 3460
• Complete at least 3 of the remaining LIN 3000/4000 required courses
• 2.0 UF GPA required

Semester 7
• Complete one of the following: LIN3201 or LIN3460
• Complete at least 3 LIN department electives or approved linguistics-related electives
• 2.0 UF GPA required

Semester 8
• Complete all remaining LIN department electives and approved linguistics-related electives
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

3000 level or above approved Language Related Courses may apply towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

---

**One General Education option taken this term must be a Quest 2 course.**

---

**Academic Learning Compact**

The Bachelor of Arts in linguistics provides students with the ability to analyze language structure and use on multiple levels and to apply knowledge, concepts and skills developed from previous research. The major emphasizes students' ability to analyze patterns in language in terms of the sound system (phonetics and phonology) and word and sentence structure (morphology and syntax), to present and justify these analyses and to apply linguistic knowledge and analytical skills to the study of language use, learning, teaching, processing and change.

### Before Graduating Students Must

- Achieve a minimum grade of C on the critical assignment from LIN 3201, graded according to department rubric.
- Achieve a minimum grade of C on critical assignments from LIN 3460, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the concepts related to phonetics and phonology (sounds and sound systems).
2. Examine and explain the concepts related to morphology and syntax (word and sentence structures).

Critical Thinking
3. Analyze linguistic data by applying concepts and knowledge from phonetics and phonology.
4. Analyze linguistic data by applying concepts and knowledge from morphology and syntax.

Communication
5. Articulate research results clearly and effectively in an accepted style of presentation.

Linguistics Minor
Language is a means of communication and a unique property of the human mind. Linguistics is the scientific study of language: a set of disciplines that investigates the structure, meaning, and use of language using descriptive, theoretical, computational, and experimental approaches.

About this Program
- College: Liberal Arts and Sciences (p. 1034)
- Credits: 15 | Completed with minimum grades of C

Department Information
The Linguistics Department offers the Ph.D., M.A. (both thesis and non-thesis), B.A., and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level, and a SLAT (Second Language Acquisition and Teaching) certificate at the graduate level. We currently have almost 30 faculty (combining budgeted and affiliated personnel), well over 100 undergraduate majors, and approximately 40 graduate students.

Curriculum
- Combination Degrees
- Linguistics
- Linguistics Minor
- Teaching English as a Second Language Certificate
- Teaching English as a Second Language Minor
To be eligible for this minor, students must have a minimum 2.75 overall GPA.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

### Marine Sciences | CLAS

Oceans are an important facet of our global environment: covering more than 70 percent of the Earth’s surface, oceans provide us with food, transport, and resources and they play a significant role in controlling climate. However, the world’s oceans remain largely unexplored below the surface, making them one of the last great frontiers for scientific discovery. Marine environments are inherently dynamic and governed by a broad suite of interactive biological, chemical, and physical processes.

### About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Science
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

### Related Programs

- Fisheries and Aquatic Sciences Minor

The university promotes an integrated approach to marine science education and research to prepare students for rewarding academic and professional careers. This major, offered cooperatively with the College of Agricultural and Life Sciences, lets students tailor a curriculum that suits their interests and career goals.

The curriculum provides the core scientific and quantitative skills necessary for success. Lower-division courses build a strong foundation in basic sciences and math while upper-division courses provide opportunity for specialization. Students in the College of Liberal Arts and Sciences (CLAS) complete an upper-division core that integrates the physical and biological sciences, mathematics, and engineering. They work closely with a faculty advisor to create an individualized curriculum of at least 12 credits of approved electives; this plan must be approved by the program’s undergraduate coordinator before the student has earned 70 credits.

### Coursework for the Major

The major requires 63-67 credits of coursework completed with minimum grades of C. At least 30 credits of coursework in the major must be completed at UF.

**Total Credits**  
62-66

1. 12 credits of approved marine sciences electives, approved by the undergraduate coordinator before the student has earned 70 credits. Electives may be chosen from the Approved Electives tab.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

For the purposes of critical-tracking, associated lecture and lab courses are considered one critical-tracking course (e.g., BSC 2010/BSC 2010L = 1 critical-tracking course).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=309999&track=01) may be used for transfer students.

**Semester 1**

- Complete OCE 1001 and 1 critical-tracking course from BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2053/PHY 2053L (or PHY 2048/PHY 2048L), PHY 2054/PHY 2054L (or PHY 2049/PHY 2049L)
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**

- Complete 1 additional critical-tracking course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 5
- Complete all 8 critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete FAS 4270 or PCB 4460
- 2.0 UF GPA required

Semester 7
- Complete General Education course
- 2.0 UF GPA required

Semester 8
- Complete all remaining General Education requirements
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

This major provides integrative understanding of the basic concepts, theories and observational findings related to marine materials and processes, geologic time, the diversity of marine life, the structure and function of marine organisms and ecosystems and marine resource management.

The marine sciences major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and utilizes faculty, courses and resources of the Fisheries and Aquatic Sciences Program (CALS), the Department of Geological Sciences (CLAS), the Department of Biology (CLAS), and the Department of Civil and Coastal Engineering (Herbert Wertheim College of Engineering).

Before Graduating Students Must

- Achieve a passing score on the subject test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the analytical skills test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the bioethics quiz. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the scientific literacy paper. This paper is assessed using a rubric that has been reviewed and approved by the Marine Sciences Committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Demonstrate competence in the basic terminology, concepts, methodologies and theories used within the marine sciences.

Critical Thinking
2. Analyze information in the marine sciences and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in written or oral forms appropriate to the marine sciences.

Mathematics

Studying Mathematics develops such skills as critical thinking, oral and written communication, arguing logically and rigorously, thinking abstractly, formulating and solving problems, analyzing data, analyzing mathematical models, quantitative and computer proficiency, and the ability to work in groups. Employers value these skills; consequently, Mathematics majors find themselves in demand by employers for careers in a wide spectrum of fields.

About this Program
- **College**: Liberal Arts and Sciences (p. 1034)
- **Degrees**: Bachelor of Arts (p. 1455) | Bachelor of Science (p. 1461)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

Website ([https://math.ufl.edu/](https://math.ufl.edu/))

CONTACT

Email (undergraduatecoordinator@math.ufl.edu) | 352.294.2350

358 LITTLE HALL
GAINESVILLE FL 32611
The Department of Mathematics offers two undergraduate degree programs in mathematics:

**Bachelor of Arts**
Intended for students who wish to pursue a career in a mathematical field or to teach mathematics at the secondary-school level, but who do not currently contemplate graduate study in mathematics.

**Bachelor of Science**
Intended for students who wish to pursue graduate study in mathematics as well as for other strong students with a deep interest in mathematics.

**Coursework for the Major**

Students are required to take eight core courses, providing a broad base in mathematics, and four electives chosen from a list of approved courses. All but two of the core courses are the same for both degrees. Students pursuing the B.A. degree have greater flexibility in their choice of electives, facilitating the possibility of a double-major with another scientific discipline.

A minimum of 39 credits of mathematics and mathematics-approved electives is required for each degree. All coursework for the major must be completed with minimum grades of C, with the exception of MAS 4105 for students in the B.S. specialization, which requires a minimum grade of B.

**Relevant Minors and/or Certificates**

Mathematics majors are encouraged to consider taking a minor in computer science, industrial and systems engineering, physics, or statistics. The Department of Statistics offers a minor in actuarial science. In addition, the UFTeach program offers a minor in mathematics teaching.

**UFTeach Program**

There is a severe shortage of qualified high school mathematics teachers in Florida and nationwide. Students interested in entering this high-demand profession should see a departmental advisor about the UFTeach program. Mathematics majors in this program complete the requirements for the UFTeach minor in mathematics, as well as those for the B.A. or B.S. in mathematics. These students graduate with all the coursework and preparation the State of Florida requires for professional certification as a high school mathematics teacher.

**Research**

Research and scholarly opportunities are described on the mathematics website under Opportunities for Undergraduates.

**Combination Degree Programs**

Mathematics majors who complete the requirements for major by the end of the junior year are eligible for the combination-degree program. Students in this program take the graduate sequences MAA 5228 and MAA 5229 and MAS 5311 and MAS 5312 in their senior year. These 12 credits, which apply toward the undergraduate degree, will then also apply toward a master's degree in mathematics if the student is admitted to the graduate program. The student should successfully complete this degree with one full-time year of graduate school following receipt of a bachelor's degree.

**Before Graduating Students Must**

- Be evaluated on your responses to certain examination questions in upper-division courses that are required for your degree.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
   Bachelor of Science: Explain conceptual and computational competency in core mathematics: calculus, differential equations, advanced calculus, linear algebra and abstract algebra.

Critical Thinking
2. Identify correct mathematical arguments in abstract mathematical systems.
3. Develop and analyze mathematical models of scientific problems.

Communication
4. Develop and write correct mathematical arguments.

Select four electives, 12 credits minimum, from the approved electives; at least one must be a course offered by the Department of Mathematics at the 4000 level or above.

**Total Credits**

<table>
<thead>
<tr>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>39</td>
</tr>
</tbody>
</table>

The mathematics major is expected to take the following upper-division core courses at UF: Linear Algebra, Abstract Algebra, Advanced Calculus 1 and 2, and either Advanced Calculus 1 and 2 or Advanced Calculus for Engineers and Physical Sciences 1 and 2. A combination of MAA 4211 and MAA 4103 is permissible for students in the B.A. track.

These courses are common to all math majors and most clearly define the experience of the mathematics major at UF.

**Recommended Coursework for Both Degrees**

All math majors are encouraged to meet the college distribution requirement in the physical sciences with the sequence PHY 2048/PHY 2049 or the sequence PHY 2060/PHY 2061. Math majors should also take no mathematics course at the 3000 level or below that is not on the lists of core courses or approved electives, except with advisor approval. Students who want to pursue careers in applied mathematics are urged to take STA 4321/STA 4322 and learn a scientific programming language.

**Recommended Coursework for B.A.**

B.A. students can use their electives choices creatively. By choosing courses in statistics, computer science, physics, and industrial engineering from the list below, math B.A. majors can enhance their career prospects in applied math, data analysis, information technology and operations research.

Math majors who plan to teach secondary-school mathematics should investigate the UFTeach program (http://education.ufl.edu/uf-teach/) and they should include MTG 3212, MAA 4402 and STA 4321 among their electives.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270101&track=01) may be used for transfer students.

**Semester 1**

- Complete MAC 2311
- 2.0 UF GPA required

**Semester 2**

- Complete MAC 2312
- 2.0 UF GPA required

**Semester 3**

- Complete MAC 2313
- 2.0 UF GPA required

**Semester 4**

- Complete MHF 3202 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 5
- Complete MAS 4105 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete at least 1 3000/4000 mathematics elective
- 2.0 UF GPA required

Semester 7
- Complete MAA 4102
- Complete at least 2 3000/4000 mathematics electives
- 2.0 UF GPA required

Semester 8
- Complete all remaining mathematics major requirements
- 2.0 UF GPA required

Model Semester Plan

The semester plans below are sample programs; they may be adjusted to reflect background and goals. Students should consult a department advisor in 358 Little Hall early to plan their programs.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

### Academic Learning Compact

The major in mathematics enables students to develop proficiency in calculus, differential equations, advanced calculus, linear algebra and abstract algebra, and expose them to several other mathematical areas beyond these core fields. Students will learn to read and to construct mathematical proofs, to reason in abstract mathematical systems and to use mathematical models. Students will also acquire the ability to read new mathematics and to formulate mathematical models and arguments.

### Before Graduating Students Must

- Be evaluated on your responses to certain examination questions in upper-division courses that are required for your degree.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

   
   Bachelor of Science: Explain conceptual and computational competency in core mathematics: calculus, differential equations, advanced calculus, linear algebra and abstract algebra.

2. Identify correct mathematical arguments in abstract mathematical systems.
3. Develop and analyze mathematical models of scientific problems.

**Critical Thinking**

4. Develop and write correct mathematical arguments.

**Communication**

5. Explain solutions to problems in clear and concise language.

Assessment Types

- Exams

Bachelor of Science

Studying Mathematics develops such skills as critical thinking, oral and written communication, arguing logically and rigorously, thinking abstractly, formulating and solving problems, analyzing data, analyzing mathematical models, quantitative and computer proficiency, and the ability to work in groups. Employers value these skills; consequently, Mathematics majors find themselves in demand by employers for careers in a wide spectrum of fields.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degrees**: Bachelor of Arts (p. 1455) | Bachelor of Science (p. 1461)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

GAINESVILLE FL 32611
Map (http://campusmap.ufl.edu/#/index/0655)

Curriculum
- Combination Degrees
- Mathematics
- Mathematics Minor

The Department of Mathematics offers two undergraduate degree programs in mathematics:

**Bachelor of Arts**

Intended for students who wish to pursue a career in a mathematical field or to teach mathematics at the secondary-school level, but who do not currently contemplate graduate study in mathematics.

**Bachelor of Science**

Intended for students who wish to pursue graduate study in mathematics as well as for other strong students with a deep interest in mathematics.

Coursework for the Major

Students are required to take eight core courses, providing a broad base in mathematics, and four electives chosen from a list of approved courses. All but two of the core courses are the same for both degrees. Students pursuing the B.A. degree have greater flexibility in their choice of electives, facilitating the possibility of a double-major with another scientific discipline.

A minimum of 39 credits of mathematics and mathematics-approved electives is required for each degree. All coursework for the major must be completed with minimum grades of C, with the exception of MAS 4105 for students in the B.S. specialization, which requires a minimum grade of B.

Relevant Minors and/or Certificates

Mathematics majors are encouraged to consider taking a minor in computer science, industrial and systems engineering, physics, or statistics. The Department of Statistics offers a minor in actuarial science. In addition, the UFTeach program offers a minor in mathematics teaching.
Bachelor of Science

UFTeach Program

There is a severe shortage of qualified high school mathematics teachers in Florida and nationwide. Students interested in entering this high-demand profession should see a departmental advisor about the UFTeach program. Mathematics majors in this program complete the requirements for the UFTeach minor in mathematics, as well as those for the B.A. or B.S. in mathematics. These students graduate with all the coursework and preparation the State of Florida requires for professional certification as a high school mathematics teacher.

More Info (http://education.ufl.edu/uf-teach/)

Research

Research and scholarly opportunities are described on the mathematics website under Opportunities for Undergraduates.

More Info (http://www.math.ufl.edu/mathematics-major/opportunities-for-undergraduates/)

Combination Degree Programs

Mathematics majors who complete the requirements for major by the end of the junior year are eligible for the combination-degree program. Students in this program take the graduate sequences MAA 5228 and MAA 5229 and MAS 5311 and MAS 5312 in their senior year. These 12 credits, which apply toward the undergraduate degree, will then also apply toward a master's degree in mathematics if the student is admitted to the graduate program. The student should successfully complete this degree with one full-time year of graduate school following receipt of a bachelor's degree.

More Info (https://math.ufl.edu/mathematics-major/combined-degree/)

Bachelor of Science

The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in mathematics as well as for other strong students with a deep interest in mathematics.

Selected four electives, 12 credits minimum, from the approved electives; at least three must be a course offered by the Department of Mathematics at the 4000 level or above 12

Total Credits 39

1 Students must earn a minimum grade of B in MAS 4105 before taking MAA 4211.

The mathematics major is expected to take the following upper-division core courses at UF: Linear Algebra, Abstract Algebra, and either Advanced Calculus 1 and 2 or Advanced Calculus for Engineers and Physical Sciences 1 and 2. A combination of MAA 4211 and MAA 4103 is permissible for students in the B.A. track.

These courses are common to all math majors and most clearly define the experience of the mathematics major at UF.

Recommended Coursework for Both Degrees

All math majors are encouraged to meet the college distribution requirement in the physical sciences with the sequence PHY 2048/PHY 2049 or the sequence PHY 2060/PHY 2061. Math majors should also take no mathematics course at the 3000 level or below that is not on the lists of core courses or approved electives, except with advisor approval. Students who want to pursue careers in applied mathematics are urged to take STA 4321/STA 4322 and learn a scientific programming language.
Recommended Coursework for B.S.

Students who want to pursue graduate study in a Ph.D. program in mathematics should complete MAS 4301 and MAA 4211/MAA 4212 by the end of their junior year. They should include MAS 5311 and MAA 4226 among their electives, and they are encouraged to take more than four electives.

Graduate tuition fees will apply for MAS 5311.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270101&track=01) may be used for transfer students.

Semester 1
- Complete MAC 2311
- 2.0 UF GPA required

Semester 2
- Complete MAC 2312
- 2.0 UF GPA required

Semester 3
- Complete MAC 2313
- 2.0 UF GPA required

Semester 4
- Complete MHF 3202 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete MAS 4105 with a minimum grade of B and a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete at least 1 3000/4000 mathematics elective
- 2.0 UF GPA required

Semester 7
- Complete MAA 4211 or MAA 4226
- Complete at least 2 3000/4000 mathematics electives
- 2.0 UF GPA required

Semester 8
- Complete all remaining mathematics major requirements
- 2.0 UF GPA required

Model Semester Plan

The semester plans below are sample programs; they may be adjusted to reflect background and goals. Students should consult a department advisor in 358 Little Hall early to plan their programs.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

- PHY 4222: Mechanics 2
- PHY 4324: Electromagnetism 2
- PHY 4424: Optics 1
- PHY 4523: Statistical Physics
- PHY 4604: Introductory Quantum Mechanics 1
- PHY 4605: Introductory Quantum Mechanics 2
- STA 4210: Regression Analysis
- STA 4211: Design of Experiments
- STA 4321: Introduction to Probability
- STA 4322: Introduction to Statistics Theory
- STA 4853: Introduction to Time Series and Forecasting

**Academic Learning Compact**

The major in mathematics enables students to develop proficiency in calculus, differential equations, advanced calculus, linear algebra and abstract algebra, and expose them to several other mathematical areas beyond these core fields. Students will learn to read and to construct mathematical proofs, to reason in abstract mathematical systems and to use mathematical models. Students will also acquire the ability to read new mathematics and to formulate mathematical models and arguments.
Before Graduating Students Must

- Be evaluated on your responses to certain examination questions in upper-division courses that are required for your degree.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

   Bachelor of Science: Explain conceptual and computational competency in core mathematics: calculus, differential equations, advanced calculus, linear algebra and abstract algebra.

Critical Thinking

2. Identify correct mathematical arguments in abstract mathematical systems.
3. Develop and analyze mathematical models of scientific problems.

Communication

4. Develop and write correct mathematical arguments.

Mathematics Minor

The Mathematics minor complements and enhances a wide variety of undergraduate majors by providing students with significant mathematical skills and a perspective on the discipline. Students take foundational courses in calculus, differential equations, and linear algebra. For the remaining requirements, students choose courses from a wide array of mathematics electives that can complement any major or field of interest.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 23-24 | Completed with minimum grades of C

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

Curriculum
• Combination Degrees
• Mathematics
• Mathematics Minor

Open to students not majoring in mathematics.

The linear algebra course and three 4000-level electives must be taken from the UF Department of Mathematics; no substitutions from other institutions or departments are allowed.

A prerequisite for admission to the minor is prior completion of one of these 4000-level courses with a minimum grade of C+.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

1 Three courses at the 4000 level or above, excluding MAS 4105; all three courses must be taken at UF.

Medical Anthropology Certificate

The Medical Anthropology certificate provides an intensive foundation in medical anthropology for undergraduate anthropology and non-anthropology majors. Courses emphasize the role that biology, culture, language, and prehistory play in human health, and the experience of healing across cultures.

About this Program
• College: Liberal Arts and Sciences (p. 1034)
• Credits: 12 | Completed with a 3.0 GPA average in all attempted courses

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural (http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/), archaeological (http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/), biological (http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/) and linguistic (http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/) anthropology.
The Medical Anthropology certificate provides the opportunity to intensively investigate medical and life science problems through a social science framework which integrates the major elements of anthropology:

- biological anthropology
- forensic anthropology
- archeology
- cultural anthropology
- linguistics

## Prerequisites

- Undergraduate student in good standing
- Department faculty and college dean approval
- Successful completion of at least one of the following courses:

Medieval and Early Modern Studies Minor

The Medieval and Early Modern Studies minor focuses on medieval and early modern European culture and its influences on the modern world. Students acquire historical perspectives that contribute to current discussions about ethnicity and nationality, colonialism, technologies and their effects, gender and sexuality, and the characteristics of historical and fictional narratives.

About this Program

Requirements

Of the required credits, at least six credits must be at the 3000 level and at least three credits must be at the 4000 level. An additional 3-credit requirement is completion of a 2000-level foreign language course.

Courses (http://mems.center.ufl.edu/mems-courses/)

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Meteorology and Climatology Certificate

The Meteorology and Climatology certificate provides a working knowledge of atmospheric processes across spatial and temporal scales. This certificate is applicable to many disciplines in the physical sciences and enables students to supplement their majors with an understanding and awareness of the societal impacts of natural hazards and climate change.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Credits**: 12 | Completed with minimum grades of B- in each course
- **More Info**

### Microbiology and Cell Science | CLAS

The Bachelor of Science in Microbiology and Cell Science offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology, and the biomolecular sciences. Emphasizes application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students learn to evaluate hypotheses, to interpret experimental data, and to communicate results effectively.

### About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Science
- **Credits for Degree**: 120
To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Microbiology and Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school or public health degrees. B.S. degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the M.S. and Ph.D. degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

**Curriculum**

- Bioinformatics Minor
- Combination Degrees
- Microbiology and Cell Science UF Online
- Microbiology and Cell Science | CALS
- Microbiology and Cell Science | CLAS
- Pathogenesis Minor

This major prepares students for entry into professional programs in medicine, dentistry, and veterinary medicine and provides a strong foundation for graduate studies in microbiology, cell biology, and related cellular and biomedical sciences. The major also provides a background for entry into government, industrial research, and diagnostic laboratories.

The curriculum develops fundamental knowledge of prokaryotic and eukaryotic cells and viruses. Courses include the physiology and genetics of microorganisms, mechanisms of pathogenesis and innate immunity systems, astrobiology, bacterial and genome sequencing and bioinformatics. More Info [http://microcell.ufl.edu/undergraduate-programs/](http://microcell.ufl.edu/undergraduate-programs/)

**Coursework for the Major**

All majors must complete 28 credits: 18 credits of core requirements, at least 6 credits of department electives, and 3 credits for the quantitative requirement. A minimum of one credit in an advanced laboratory is required in addition to the 6 department-elective credits. In addition, students must complete 35-38 hours of required foundation coursework.

Minimum grades of C within two attempts, including withdrawals, are required in all critical-tracking courses, major courses, department core requirements, department electives and the quantitative requirement. Second attempts must be completed the next semester of enrollment. A cumulative 2.0 GPA is also required.

**Required Foundation Coursework**

Total Credits 21

If students take both "or" classes, one will count as a core course and the other will roll over into the 10-credit department elective requirement.

**Department Elective Requirement**

A total of 6 credits of approved department electives, and additionally one credit in an advanced lab, are required. The list of approved department electives is available on the department website.

**Programming or Biostatistics Requirement**

A total of 3 credits of approved courses meets this requirement. Select from BSC 2891, MCB 4325C, or an equivalent biostatistics programming class. Several of these courses are also department electives and cannot be used to fulfill both the quantitative and the department elective requirements. No overlap is allowed. STA 2023 will not fulfill this requirement.

**Course Details**

MCB 4911 may be taken for a maximum of three credits per semester and six credits total. This policy also applies to microbiology and cell science majors registered for undergraduate research in other departments’ undergraduate research courses, such as BCH 4905, BMS 4905, ZOO 4911, etc.

MCB 4934 is often used for TA positions as “Supervised Teaching.” TA positions may be repeated for a total of two semesters.

Enrollment in MCB 4911, MCB 4905 and MCB 4934 (Supervised Teaching) will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

**Combination Degree Program**

A Bachelor of Science and Master of Science (non-thesis) program is offered by the College of Agricultural and Life Sciences. Microbiology majors in both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences are eligible for admission to the Combination Degree Program. Other combination programs are available. For more information, please speak with an advisor.

- Combination Degrees
Relevant Minors and/or Certificates

The Microbiology and Cell Science Department also offers an undergraduate minor in bioinformatics to students majoring in any biology-related subject, including and not limited to microbiology, biology, or biochemistry.

So integrated is bioinformatics with biology that it is difficult to find an active research program that does not rely on bioinformatic analysis to achieve results. Unfortunately, the integration of bioinformatic and traditional methods is not stressed in many undergraduate programs, leaving the next generation of biologists without the skills they need to succeed in tomorrow’s research environment. The undergraduate minor in bioinformatics provides this critical training to future professionals in the biological disciplines.

Research

A majority of majors are actively involved in undergraduate research for credit with mentors throughout the university. Preprofessional and graduate school-bound majors are encouraged to do a minimum of two semesters of undergraduate research. The department has a comprehensive list of mentors across campus who allow undergraduate students to do valuable research under their guidance. Please refer to the department website for more information on undergraduate research, finding a mentor and a contact list of UF faculty who have worked with microbiology and cell science majors.

Enrollment in MCB 4911 will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260503&track=01) may be used for transfer students.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Semester 1

- Complete CHM 1025 or CHM 2045/CHM 2045L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete MCB 3023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
• Semester 7
  • Complete MCB 4203 (Fall) or PCB 4233 (Spring) or PCB 3134 (Fall/Spring) or MCB 4403 (Fall)
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

• Semester 8
  • Complete MCB 4034L
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Microbiology electives outside of the department do not count towards the 3000 level or above electives outside of the major. CHM 2211, CHM 2211L, BCH 4024, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1044).

### Total Credits

120

---

1 MCB 4203 is taught only in fall; PCB 4233 is taught only in spring.

---

### Academic Learning Compact

The Bachelor of Science in microbiology and cell science, offered by both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences, offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology and the biomolecular sciences. Emphasis will be placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students will learn to evaluate hypotheses, to interpret experimental data and to communicate results effectively.

---

### Before Graduating Students Must

Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Describe fundamental concepts, skills and processes in microbiology, molecular biology and in host/pathogen interactions.
2. Apply fundamental concepts, skills and protocols used to conduct research in fields of microbiology, molecular biology and in host/pathogen.

Critical Thinking
3. Evaluate information and data in the general areas of microbiology and the cellular and molecular biological sciences.
4. Solve typical problems that are encountered in general areas of microbiology and cellular and molecular biological sciences.

Communication
5. Communicate effectively in written form in a manner appropriate in microbiology and the cellular and molecular biological sciences.
6. Communicate orally (including visual aids) in an effective manner appropriate in microbiology and the cellular and molecular biological sciences.

Philosophy

Philosophy addresses the most fundamental problems that arise when reflecting on the nature of the world and our place in it. Philosophers ask questions such as: What can we know? What are the general features of reality? What is the relation between mind and body? How should one live?

About this Program
- College: Liberal Arts and Sciences (p. 1034)
- Degree: Bachelor of Arts
- Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Philosophy addresses foundation questions. These are questions the answers to which inform our basic understanding of one or another domain of inquiry, or some fundamental aspect of the world or ourselves or our relation to the world.

Website (http://phil.ufl.edu)

CONTACT
Email (dept@phil.ufl.edu) | 352.392.2084 (tel) | 352.392.5577 (fax)

P.O. Box 118545
330 Griffin-Floyd Hall
Philosophical problem examination is primarily conceptual rather than empirical, in that philosophers seek to develop conceptual accounts adequate to the phenomena they want to understand. The study of philosophy equips one to address difficult issues with critical thinking and sound reasoning, skills essential to effective thought and communication.

This major is excellent preparation for professional schools in law, business, medicine and journalism, and for careers in the private and public sector. More Info (https://phil.ufl.edu/what-is-philosophy/)

### Coursework for the Major

The major requires 33 credits of coursework in philosophy with minimum grades of C.

#### Required Coursework

</tr>
</tbody>
</table>

- At least six credits must be at the 4000 level or above, excluding the following:
  - PHH 4911, Undergraduate Research in History of Philosophy: 3 credits
  - PHI 4905, Individual Work: 1-3 credits
  - PHI 4912, Honors Project: 3 credits

(To enroll in a 4000-level course, a student must complete a 3000-level philosophy course or receive instructor permission.)

- At least 27 of the 33 credits must be at the 3000 level or above.

No more than 15 credits of transfer credit can count toward the degree and no more than three credits of individual work (PHH 4911, PHI 4905 or PHI 4911) can count toward the required minimum. Prior to advance registration each semester, the department makes available on its website customized descriptions of its undergraduate courses offered in the upcoming semester.

#### Course Details

- Fall course information (http://www.phil.ufl.edu/courses/fall/latest/)
- Spring course information (http://www.phil.ufl.edu/courses/spring/latest/)

#### Research

It is possible to write an honors thesis, which involves independent research under the supervision of a faculty director. This is usually a two-semester process in the final year. More Info (http://www.phil.ufl.edu/ugrad/ugrad-major.html)

#### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=380101&track=01) may be used by transfer students.
**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- Complete 1 philosophy course
- 2.0 UF GPA required

**Semester 3**
- Maintain coursework from semester 2
- 2.0 UF GPA required

**Semester 4**
- Complete 1 additional philosophy course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMIESTER 6**
- Complete 1 additional philosophy course (1 of the 4 courses must be taken from PHH 3100, PHH 3400, PHI 3130, PHI 3650, and either PHI 3300 or PHI 3500)

**SEMIESTER 7**
- Complete 3 additional upper division philosophy courses (2 of the 7 courses must be taken from PHH 3100, PHH 3400, PHI 3130, PHI 3650, and either PHI 3300 or PHI 3500)

**SEMIESTER 8**
- Complete 2 additional upper division philosophy courses (4 of the 9 courses must be taken from PHH 3100, PHH 3400, PHI 3130, PHI 3650, and either PHI 3300 or PHI 3500)

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Generally, it is a good idea to take the area requirement courses as early as possible; in particular, PHI 3130 is best taken earlier rather than later.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Academic Learning Compact

The major in philosophy provides a thorough knowledge of philosophical problems and arguments as well as critical thinking skills applicable to a wide variety of intellectual areas. Students will become familiar with key positions in the history of Western philosophy, learn how to navigate the contemporary philosophical terrain and acquire a working knowledge of formal logic. They will learn how to represent complex arguments in a clear
and fair fashion, to evaluate them for cogency and to construct arguments of their own. Finally, students will become practiced in writing about abstract and elusive topics in a critical and compelling manner.

Before Graduating Students Must

- Earn minimum grades of C in all courses satisfying the major’s distribution requirements, thereby demonstrating achievement of SLOs 1-3.
- Complete a model paper in a 4000-level philosophy class with a minimum grade of B, thereby demonstrating achievement of SLOs 4-7.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the major questions addressed, the range of answers offered and the methods employed in the history of Western philosophy.
2. Identify, describe and explain the major arguments and options in core areas of contemporary philosophy, such as ethics, epistemology and metaphysics.
3. Employ the fundamental tools of formal logic, including the propositional and predicate calculus.

Critical Thinking
4. Discern the structure of arguments, to represent them fairly and clearly and to evaluate them for cogency.
5. Formulate original arguments, anticipating objections and responding in a conscientious fashion.

Communication
6. Read and discuss complex philosophical texts from both historical sources and contemporary works.
7. Speak and write clearly and persuasively about abstract and conceptually elusive matters.

Physics

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and expertise applying these laws, as well as hands-on experience building electronic equipment and performing experiments, allowing them to pursue a wide range of educational and employment opportunities after graduation.

Curriculum
- Combination Degrees
- Physics
- Physics Minor

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

Bachelor of Arts
The B.A. degree program is for students who want to major in physics but are not presently contemplating graduate studies in physics. It provides a good foundation in the fundamentals while offering increased flexibility in the major, through fewer required courses and more electives, and opportunity for parallel studies in another discipline and/or preprofessional studies.

Bachelor of Science
The B.S. degree program is intended for students planning to do graduate work in physics or related science and engineering disciplines. The B.S. requires a minimum of 41 credits in Physics plus 28 credits of related coursework. Minimum grades of C are required for coursework counted toward the major.

In addition to the Physics BA and BS degrees, there are three optional specializations for the Physics BS degree. Each specialization consists of a specific choice of the 4000 level Physics elective plus three courses in other departments.

Medical Physics
Medical physics applies the principles and experimental techniques of physics to medical problems. A common example is the use of different forms of radiation in medical diagnosis and treatment. This specialization will help prepare students for a graduate program in medical physics.

Nanoscience
Nanoscience is the study of extremely small things – only 10 to 100 atoms wide. It is an interdisciplinary field involving physics, chemistry, and many engineering disciplines. This specialization helps prepare students for careers in industry and graduate school in engineering as well as physics.

Optics
There are applications of optics and photonics in consumer equipment, telecommunications, medicine, construction, aviation, and many more fields. This broad field involves both physics and engineering. The optics specialization will prepare students for graduate programs in optics as well as employment in industry.

Coursework for the Major
Coursework for the major will depend upon the degree program chosen.

Courses for the B.S. or B.A. degree include four pairs of alternative courses:
In each case, the second course includes selected advanced topics not covered in the first. While both courses prepare students for upper-level physics classes, students should see a department advisor to determine which course meets their needs.

Required coursework for each degree can be found below in the Critical Tracking section. Transfer students must take a minimum of 15 credits of required physics courses at UF.

**Course Details**

Several courses meet the criteria for the general education physical sciences (P) requirement. Some mathematical training (indicated in parentheses) is desirable or required for many of these courses. Of the courses below, only PHY 2048/PHY 2049 count toward the major.

**Placement**

Students with Advanced Placement credit should consult the catalog’s Academic Advising section for course equivalencies. Sequences for advanced students are available from any physics advisor or the department website.

**Research**

All undergraduate majors are encouraged to participate in research activities. Many physics majors participate in research during the academic year and/or through summer research programs. Advanced students may also be eligible to enroll in certain graduate courses, thereby accelerating their education. Physics majors are urged to confer with a department advisor as early as possible and especially as their educational goals evolve.

**Before Graduating Students Must**

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

1 Select a course beyond MAP 2302. Certain computer science courses may substitute for the math elective.

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1044).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

**Semester 1**
- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

**Semester 2**
- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

**Semester 3**
- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

**Semester 4**
- Complete MAP 2302 with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

**Semester 5**
- Complete the remaining required 3000-level physics courses with minimum grades of C
- 2.0 UF GPA required
Semester 7
• Complete 2 required 4000-level physics courses with minimum grades of C
• 2.0 UF GPA required

Semester 8
• Complete the remaining required 4000-level physics courses with minimum grades of C
• 2.0 UF GPA required

Model Semester Plan
This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department’s website.
More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

**Before Graduating Students Must**

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

Curriculum
• Combination Degrees
• Physics
• Physics Minor

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

Bachelor of Arts
The B.A. degree program is for students who want to major in physics but are not presently contemplating graduate studies in physics. It provides a good foundation in the fundamentals while offering increased flexibility in the major, through fewer required courses and more electives, and opportunity for parallel studies in another discipline and/or preprofessional studies.

Bachelor of Science
The B.S. degree program is intended for students planning to do graduate work in physics or related science and engineering disciplines. The B.S. requires a minimum of 41 credits in Physics plus 28 credits of related coursework. Minimum grades of C are required for coursework counted toward the major.

In addition to the Physics BA and BS degrees, there are three optional specializations for the Physics BS degree. Each specialization consists of a specific choice of the 4000 level Physics elective plus three courses in other departments.

Medical Physics
Medical physics applies the principles and experimental techniques of physics to medical problems. A common example is the use of different forms of radiation in medical diagnosis and treatment. This specialization will help prepare students for a graduate program in medical physics.

Nanoscience
Nanoscience is the study of extremely small things – only 10 to 100 atoms wide. It is an interdisciplinary field involving physics, chemistry, and many engineering disciplines. This specialization helps prepare students for careers in industry and graduate school in engineering as well as physics.

Optics
There are applications of optics and photonics in consumer equipment, telecommunications, medicine, construction, aviation, and many more fields. This broad field involves both physics and engineering. The optics specialization will prepare students for graduate programs in optics as well as employment in industry.

Coursework for the Major
Coursework for the major will depend upon the degree program chosen.

Courses for the B.S. or B.A. degree include four pairs of alternative courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2048</td>
<td>Physics with Calculus 1</td>
<td>3</td>
</tr>
<tr>
<td>or PHY 2060</td>
<td>Enriched Physics with Calculus 1</td>
<td></td>
</tr>
<tr>
<td>PHY 2049</td>

<td>Introduction to Theoretical Physics</td>
<td></td>
</tr>
</tbody>
</table>

In each case, the second course includes selected advanced topics not covered in the first. While both courses prepare students for upper-level physics classes, students should see a department advisor to determine which course meets their needs.

Required coursework for each degree can be found below in the Critical Tracking section. Transfer students must take a minimum of 15 credits of required physics courses at UF.
Course Details

Several courses meet the criteria for the general education physical sciences (P) requirement. Some mathematical training (indicated in parentheses) is desirable or required for many of these courses. Of the courses below, only PHY 2048/PHY 2049 count toward the major.

1 MAC 1147 provides mathematical training desirable or required for this course.
2 Students should check the prerequisites carefully before enrolling in a general physics course.

Placement

Students with Advanced Placement credit should consult the catalog’s Academic Advising section for course equivalencies. Sequences for advanced students are available from any physics advisor or the department website.

Research

All undergraduate majors are encouraged to participate in research activities. Many physics majors participate in research during the academic year and/or through summer research programs. Advanced students may also be eligible to enroll in certain graduate courses, thereby accelerating their education. Physics majors are urged to confer with a department advisor as early as possible and especially as their educational goals evolve.

Bachelor of Science

The B.S. degree program is intended for students planning to do graduate work in physics or related science and engineering disciplines. The B.S. requires a minimum of 41 credits in Physics plus 28 credits of related coursework. Minimum grades of C are required for coursework counted toward the major.

1 Select a course beyond MAP 2302. Certain computer science courses may substitute for the math elective.

Minimum grades of C for coursework counted toward the major.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045, or PHY 2048 or PHY 2060; and a MAC course
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

Semester 3

- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 4

- Complete MAP 2302 with a with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 5

- Complete the remaining required 3000-level physics courses with minimum grades of C
- 2.0 UF GPA required

Semester 6

- Complete PHY 4802L or PHY 4803L
- Complete 2 required 4000-level physics courses in addition to PHY 4802L with minimum grade of C
- 2.0 UF GPA required
Bachelor of Science

Semester 8

- Complete the remaining 4000-level physics courses required for Physics Majors with minimum grades of C
- Complete one 4000-level or higher Physics Elective with a minimum grade of C
- 2.0 UF GPA required

Model Semester Plan

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available from the department.
More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and upper-division math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact
The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

Before Graduating Students Must
•  Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

<table>

•  Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Identify, define and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics and quantum mechanics.
2. Identify, define and explain experimental physics and data analysis.
Critical Thinking
3. Formulate, solve problems and draw conclusions from data.

Communication
4. Effectively and clearly communicate ideas in speech and in writing in an accepted style.

Medical Physics

Medical physics applies the principles and experimental techniques of physics to medical problems. A common example is the use of different forms of radiation in medical diagnosis and treatment. This specialization prepares students for a graduate program in medical physics.

About this Program

- College: Liberal Arts and Sciences (p. 1034)
- Degrees: Bachelor of Arts (p. 1486) | Bachelor of Science (p. 1492)
- Specializations: Medical Physics (BS) (p. 1498) | Nanoscience (BS) (p. 1503) | Optics (BS) (p. 1508)
- Credits for Degree: 120
- Contact: Email (advising@phys.ufl.edu?Subject=Physics%20Major)
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

Medical Physics

The Physics B.S specialization in Medical Physics requires a minimum of 41 credits in Physics including a specific Physics elective, 3 specific courses outside of Physics (9-11 credits), and 28 other credits of related coursework. Minimum grades of C are required for coursework counted toward the major. The coursework is listed below in three different categories: Physics Required Coursework, Required Electives for the Medical Physics specialization, and Related Coursework required for all Physics B.S. degrees.

### Related Coursework

- Three semesters of Calculus (MAC 2311, MAC 2312, MAC 2313; 12 credits)
- One year of college-level general chemistry, including one chemistry laboratory course (CHM 2045 and CHM 2046, CHM 2045L; 7 credits)
- Differential Equations MAP 2302 (3 credits)
- Six credits minimum in approved math courses beyond MAP 2302 Differential Equations.
- Certain computer science courses may substitute for one of the math electives.
- Minimum grades of C for coursework counted toward the major
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1044).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

**Semester 1**
- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

**Semester 2**
- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

**Semester 3**
- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

**Semester 4**
- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

**Semester 5**
- Complete the remaining required 3000-level physics courses with minimum grades of C
- Complete 1 of 4 courses required for the Medical Physics specialization
- 2.0 UF GPA required

**Semester 6**
- Complete the remaining required 4000-level physics courses with minimum grades of C
- Complete 1 non-physics elective with a minimum grade of C
- Complete all 4 courses required for the Medical Physics specialization
- 2.0 UF GPA required

**Model Semester Plan**
This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.
Additional sample schedules are available on the department’s website. More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

Before Graduating Students Must

• Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

Nanoscience
Nanoscience is the study of extremely small things – only 10 to 100 atoms wide. It is an interdisciplinary field involving physics, chemistry, and many engineering disciplines. This specialization prepares students for careers in industry and graduate school in engineering as well as physics.

About this Program
• College: Liberal Arts and Sciences (p. 1034)
• Degrees: Bachelor of Arts (p. 1486) | Bachelor of Science (p. 1492)
• Specializations: Medical Physics (BS) (p. 1498) | Nanoscience (BS) (p. 1503) | Optics (BS) (p. 1508)
• Credits for Degree: 120
• Contact: Email (advising@phys.ufl.edu?Subject=Physics%20Major)
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Curriculum
• Combination Degrees
• Physics
• Physics Minor

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

Nanoscience
The Physics B.S. specialization in Nanoscience requires a minimum of 41 credits in Physics including a specific Physics elective, 3 specific courses outside of Physics (9-11 credits), and 28 other credits of related coursework. Minimum grades of C are required for coursework counted toward
the major. The coursework is listed below in three different categories: Physics Required Coursework, Required Electives for the Nanoscience specialization, and Related Coursework required for all Physics B.S. degrees.

**Total Credits** 13-14

**Related Coursework**

- Three semesters of Calculus (MAC 2311, MAC 2312, MAC 2313; 12 credits)
- One year of college-level general chemistry, including one chemistry laboratory course (CHM 2045 and CHM 2046, CHM 2045L; 7 credits)
- Differential Equations MAP 2302 (3 credits)
- Six credits minimum in approved math courses beyond MAP 2302 Differential Equations.
- Certain computer science courses may substitute for one of the math electives.
- Minimum grades of C for coursework counted toward the major

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1044).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

**Semester 1**

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required
Semester 2
• Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
• 2.0 UF GPA required

Semester 3
• Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
• 2.0 UF GPA required

Semester 4
• Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 5
• Complete MAP 2302 with a minimum grade of C
• Complete 2 required 3000-level physics courses with minimum grades of C (upper-division tracking)
• 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete the remaining required 3000-level physics courses with minimum grades of C
• Complete 1 of 4 courses required for the Nanoscience specialization
• 2.0 UF GPA required

Semester 7
• Complete PHY 4802L or PHY 4803L
• Complete 2 required 4000-level physics courses with minimum grades of C in addition to PHY 4802L
• Complete 2 of 4 courses required for the Nanoscience specialization
• 2.0 UF GPA required

Semester 8
• Complete the remaining required 4000-level physics courses with minimum grades of C
• Complete 1 4000-level or higher physics elective with a minimum grade of C
• Complete all 4 courses required for the Nanoscience specialization
• 2.0 UF GPA required

Additional sample schedules are available on the department's website. More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Optics

There are applications of optics and photonics in consumer equipment, telecommunications, medicine, construction, aviation, and many more fields. This broad field involves both physics and engineering. The optics specialization prepares students for graduate programs in optics as well as employment in industry.

- Physics
- Physics Minor

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

Optics

The Physics B.S. specialization in Optics requires a minimum of 41 credits in Physics including a specific Physics elective, 3 specific courses outside of Physics (9-11 credits), and 28 other credits of related coursework. Minimum grades of C are required for coursework counted toward the major. The coursework is listed below in three different categories: Physics Required Coursework, Required Electives for the Optics specialization, and Related Coursework required for all Physics B.S. degrees.

Related Coursework

- Three semesters of Calculus (MAC 2311, MAC 2312, MAC 2313; 12 credits)
- One year of college-level general chemistry, including one chemistry laboratory course (CHM 2045 and CHM 2046, CHM 2045L; 7 credits)
- Differential Equations MAP 2302 (3 credits)
- Six credits minimum in approved math courses beyond MAP 2302 Differential Equations.
- Certain computer science courses may substitute for one of the math electives.
- Minimum grades of C for coursework counted toward the major

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required
Semester 4
• Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
  • 2.5 critical-tracking GPA required
  • 2.0 UF GPA required

Semester 5
• Complete MAP 2302 with a minimum grade of C
  • Complete 2 required 3000-level physics courses with minimum grades of C (upper-division tracking)
  • 2.5 critical-tracking GPA
  • 2.0 UF GPA required

Semester 6
• Complete the remaining required 3000-level physics courses with minimum grades of C
  • Complete 1 of 4 courses required for the Optics specialization
  • 2.0 UF GPA required

Semester 7
• Complete PHY 4802L or PHY 4803L
  • Complete 2 required 4000-level physics courses with minimum grades of C in addition to PHY 4802L
  • Complete 2 of 4 courses required for the Optics specialization
  • 2.0 UF GPA required

Semester 8
• Complete the remaining required 4000-level physics courses with minimum grades of C
  • Complete 1 4000-level or higher physics elective with a minimum grade of C
  • Complete all 4 courses required for the Optics specialization
  • 2.0 UF GPA required

Model Semester Plan
This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department’s website.
More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Total Credits**

| Credits | 120 |

1 Minimum grade of C required.
**Academic Learning Compact**

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

**Before Graduating Students Must**

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2060</td>
<td>Enriched Physics with Calculus 1</td>

<td>3</td>
</tr>
<tr>
<td>PHY 4802L</td>
<td>Laboratory Physics 1</td>
<td>3</td>
</tr>
</tbody>
</table>

- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, define and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics and quantum mechanics.
2. Identify, define and explain experimental physics and data analysis.

**Critical Thinking**

3. Formulate, solve problems and draw conclusions from data.

**Communication**

4. Effectively and clearly communicate ideas in speech and in writing in an accepted style.

**Curriculum Map**

**Physics Minor**

The Physics minor consists of the complete sequence in general physics, modern physics, and two 3000/4000-level courses in the Physics major course sequence. Students should consult a physics advisor and obtain the required approval no later than the beginning of the junior year.
About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 17 | Completed with minimum grades of C

Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Gainesville FL 32611-8545

Curriculum

- Combination Degrees
- Physics
- Physics Minor

All 3000/4000-level courses must be taken from the UF Department of Physics. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Students pursuing an astronomy major must complete six credits of physics coursework beyond what is required for the astronomy major before they will be approved for the physics minor.

The following cannot count toward this minor:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

**Option A**

- PHY 2048 & 2048L: Physics with Calculus 1 and Laboratory for Physics with Calculus 1
- PHY 2049 & 2049L: Physics with Calculus 2 and Laboratory for Physics with Calculus 2

**Option B**

- PHY 2048L: Laboratory for Physics with Calculus 1
- PHY 2049L: Laboratory for Physics with Calculus 2
- PHY 2060: Enriched Physics with Calculus 1
- PHY 2061: Enriched Physics with Calculus 2
- PHY 3063: Enriched Modern Physics or PHY 3101: Introduction to Modern Physics
- Two 3000/4000-level courses in the physics major course sequence: 6

Total Credits: 17

Political Campaigning Certificate

Political science and non-major students may pursue undergraduate training in campaigns and elections, earning a Political Campaigning certificate. The certificate is designed for students who may pursue careers in practical politics, including campaign management, lobbying, and issue advocacy.
About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 18 | Completed with minimum grades of C
- **Contact**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Political Science provides a high quality educational program for undergraduate students as well as a rigorous honors program (http://sites.clas.ufl.edu/polisci/undergraduate/programs/undergraduate-honors/). The department also offers a highly selective graduate education ranging from innovative M.A. programs to a comprehensive Ph.D. program.

Students may petition the director of the political campaigning program for permission to substitute one other course for one of the courses in the electives list.

**Political Science**

The Political Science major prepares students for a wide range of careers in government, non-governmental organizations, politics, law, and the private sector. Students take coursework in areas as diverse as American and comparative politics, political theory, international relations, public policy, and public administration.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 1034)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

**Department Information**

The Department of Political Science provides a high quality educational program for undergraduate students as well as a rigorous honors program (http://sites.clas.ufl.edu/polisci/undergraduate/programs/undergraduate-honors/). The department also offers a highly selective graduate education ranging from innovative M.A. programs to a comprehensive Ph.D. program.

P.O. Box 117325
234 ANDERSON HALL
GAINESVILLE FL 32611-7325

Map (http://campusmap.ufl.edu/#/index/0007)

**Curriculum**

- Combination Degrees
- International Relations Certificate
- Political Campaigning Certificate
- Political Science
- Public Affairs Certificate

Political science majors are encouraged to serve in a political internship and participate in an overseas studies program. There are also numerous opportunities for students to conduct independent research with faculty. Recent graduates serve throughout federal, state and local government, attend law and graduate school, and work in the non-profit and private sectors.

Students leave the major with an understanding of how politics and government operate, an appreciation for the values governments pursue, and the critical and analytic skills necessary for understanding the empirical and normative dimensions of the political world.

**Coursework for the Major**

Majors must complete 30 credits of political science coursework, plus STA 2023, all with minimum grades of C. A minimum of 15 credits of political science courses (of the 30 required) must be completed at UF, per the department’s residency requirement.

**Required Coursework**

- 30 credits of political science coursework, including 3 of these 4 core courses:

<table>

- The remaining political science courses may include:
• No more than three additional credits of 1000/2000-level courses
• Additional courses at the 3000 level or higher, including
  • No more than three credits of POS 4905
  • No more than three credits of POS 4940 (graded S/U)

**Required Coursework**
• STA 2023

**Recommended Coursework**
The following centers and programs are affiliated with the Department of Political Science. Many of them offer minors and/or certificates that complement a degree in political science.

**The Bob Graham Center for Public Service**
A community of students, scholars and politically engaged citizens devoted to enhanced citizenship; the training of current and future public and civic leaders who can identify problems and spearhead change; and the development of policy on issues of importance to Florida, the United States and the global community. The center offers a minor in public leadership (p. 1554), an interdisciplinary program of study that provides students with the skills and knowledge critical to serving as effective and ethical public leaders.

**More Info**
The Bob Graham Center was established in 2006 with the goal of creating a community of students, scholars, and citizens who share a commitment to revitalizing the civic culture of Florida and the nation. Former Governor and U. S. Senator Bob Graham founded the Center as a place where students acquire the skills and knowledge to become informed citizens, with the expressed purpose of strengthening the nation's democratic institutions.

**Curriculum**
• Public Leadership Minor

**The Center for African Studies**
Promotes excellence in teaching and research on Africa in all disciplines at the University of Florida. In addition to undergraduate education, the center promotes and supports graduate studies as essential for the development of a continuing community of Africanist scholars. The center has over 100 affiliated teaching and research faculty in a variety of fields, including languages, the humanities, the social sciences, agriculture, business, engineering, education, fine arts, environmental studies and conservation, journalism, and law. The center offers an African studies minor that provides a multidisciplinary grounding in an important world area for those who want to pursue careers in a range of professions as well as for those who intend to go on to graduate school.

**More Info**
As a National Resource Center for African Studies, the mission of the center is to promote excellence in teaching and research on Africa in all the disciplines at the University of Florida. The Center for African Studies also disseminates knowledge about Africa to the wider community through an integrated outreach program to schools, colleges, community groups, and businesses.

**Website** ([https://africa.ufl.edu/](https://africa.ufl.edu/))

**Curriculum**
• African Studies Minor

**The Center for European Studies**
Designed to assist in the development of area and language skills among students through fostering rich academic and cultural environments, including broad language and areas studies courses, degree options, and study abroad opportunities. It also fosters greater international awareness in
the broader community through educational programs for state and local government, business organizations, K-12 students and teachers, the media and the general public. The center offers a

- European Union studies certificate (p. 1254) and minor (p. 1256), which are designed to give students the opportunity to gain European Union expertise through multidisciplinary coursework.
- East-Central European studies certificate (p. 1236) and minor (p. 1237), which give students the opportunity to study Eastern and Central Europe from an interdisciplinary perspective that incorporates both area and language studies.

**More Info**

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

**The Center for Jewish Studies**

Provides an undergraduate, interdepartmental curriculum that serves as a basis for understanding the broad spectrum of Jewish culture, religion, and civilization. The center offers both a major and minor (p. 1437) through the College of Liberal Arts and Sciences. These may serve as preparation for graduate work in Jewish studies and the rabbinate, as background for a career in Jewish education or community service, or as an area of special interest which enriches the undergraduate experience.

**More Info**

The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center’s curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

**The Center for Latin American Studies**

Advances knowledge about Latin America and the Caribbean and enhances the scope and quality of Latin American studies at the University of Florida. The center administers an interdisciplinary graduate and undergraduate academic program in Latin American studies as well as a minor (p. 1439) and certificate (p. 1438).

**More Info**

The Center for Latin American Studies advances knowledge about Latin America and the Caribbean and its peoples throughout the Hemisphere, enhances the scope and quality of research, teaching, and outreach in Latin American, Caribbeans and Latinx Studies.
The Center for Gender, Sexualities, and Women's Research

An interdisciplinary forum for the study of gender and sexualities, their intersections with race/ethnicity, class, and other sociocultural systems. The Center’s core faculty members have expertise in gender, race/ethnicity, and sexualities/LGBTQ+ studies; feminist intersectional analysis; transnational and postcolonial feminist analysis; Chicana/o, Latina/o, Afro-Latino Studies, Haitian and Caribbean studies; and cultural and literary studies. They apply this expertise in the study of critical domains such as collective identity and activism, health and medicine, law and politics, immigration, work, leadership and business, history, literatures and cultures, media and art, and social movements. In addition, the Center has over 100 affiliate faculty members with wide-ranging expertise and course offerings. Besides the major (p. 1620) in Women's Studies, students may pursue one of three minors: Women's Studies (p. 1625), Theories and Politics of Sexuality (p. 1618), and Health Disparities in Society (p. 1369).

More Info

The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people's lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

Combination Degree Program

The combination bachelor's/master's degree program is designed for superior students who have the ability to pursue an accelerated program in political science leading to the Master of Arts in political science. This program is not generally recommended for students considering a Ph.D. program in political science at UF. Admission to the combination-degree program is highly competitive and therefore very limited numbers of students are approved for this program.

Students in the combination program may pursue the general M.A. in political science or certificates in public affairs or political campaigning. Up to 12 semester credits of approved graduate-level political science courses can be used as dual credit for both degrees. All other requirements for the bachelor's and the master's degrees must be satisfied. For more application process information, contact the undergraduate and graduate coordinators in the Department of Political Science.

- Combination Degrees
Overseas Studies
Majors are encouraged to seek out opportunities for international study, during the summer or for the academic year. The credit generally will be applied toward the major and the degree. Contact the undergraduate coordinator about credit for study abroad. Visit the UF International Center in room 170 of the Hub for more information.

Relevant Minors and Certificates

International Relations Certificate
Political science and non-major students who are interested in international relations can pursue undergraduate training in two ways: through an interdisciplinary major in International Studies that includes courses on comparative politics and international relations or through a certificate in international relations. Credits earned toward the certificate also count toward the political science major. More information can be found under interdisciplinary studies majors listing and certificate programs.

- International Relations Certificate

Political Campaigning Certificate
The Department of Political Science offers a certificate in political campaigning to its undergraduate majors. The certificate is designed for students who may wish to consider pursuing careers in practical politics, including campaign management, lobbying, issue advocacy, and others. Credits earned toward the certificate also count toward the political science major. Additional information is available on the department website.

- Political Campaigning Certificate

Public Affairs Certificate
The certificate in public affairs is designed for those students interested in a career in or near government. Students take courses in public administration, policy process, policy analysis and one or more substantive policy courses in foreign policy, education, health, immigration, civil rights, welfare, or environmental protection. Credits earned toward the certificate also count toward the political science major. The certificate is open to non-political science majors as well. Additional information is available on the department website.

- Public Affairs Certificate

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=451001&track=01) may be used for transfer students.

Semester 1
- Complete 1 of 4 political science critical-tracking courses: CPO 2001, INR 2001, POS 2041, or POT 2002
- 2.0 UF GPA required

Semester 2
- Complete 1 additional political science critical-tracking course or STA 2023 with a 2.25 critical-tracking GPA
- 2.0 UF GPA required

Semester 3
- Complete 1 additional political science critical-tracking course or STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4
- Complete 3 of 4 political science critical-tracking courses and STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required
Semester 5
• Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 7
• Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 8
• Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Because a large number of political science courses are approved for general education social and behavioral sciences, the plan below assumes students will take at least 9 credits of GE-S courses. Students should monitor their progress toward general education in their degree audit to ensure they meet the GE-S requirement.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

---

1. If POS 2041 not taken previously.
2. One General Education option taken this term must be a Quest 2 course.
3. Students are encouraged to use some electives to pursue a minor.

---

**Academic Learning Compact**

The major in political science provides an understanding of how government and politics operate in the U.S. and elsewhere. Students will develop the critical analytic and research skills to study government and politics and be able to articulate information and ideas about government and politics.

**Before Graduating Students Must**

- Complete 30 credits of political science coursework with minimum grades of C, including a minimum of 18 credits at the 3000/4000 levels.
- Complete an introductory statistics course.
- Complete two 3000/4000-level political science courses with a writing component, graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, describe and define basic factual information and analytical concepts concerning political systems.
Critical Thinking
2. Analyze political issues and phenomena using political science concepts, theories and methods through internships and research projects.

Communication
3. Use argument and evidence effectively to communicate original analysis of political phenomena.

Portuguese

Hispanic and Latin American Languages, Literatures and Linguistics

Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Arts
- **Specializations**: Spanish (p. 1586) | Portuguese (p. 1522) | Spanish and Portuguese (p. 1381)
- **Credits for Degree**: 120
- **Contact**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

Website ([http://spanishandportuguese.ufl.edu/undergraduate-programs/](http://spanishandportuguese.ufl.edu/undergraduate-programs/))

Curriculum
- Combination Degrees
- Hispanic and Latin American Languages, Literatures and Linguistics
- Portuguese
- Portuguese Minor
- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate

Related Programs
- Latin American Studies Certificate
- Latin American Studies Minor

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

B.A. in Portuguese

The major requires 33 credits, beginning with foundational work in Portuguese and then moving on to more advanced coursework in language, culture and literature.

Students must earn minimum grades of C for coursework to count toward the major.

POR 3010 is an accelerated course for speakers of Spanish (or French). It fulfills the CLAS foreign language requirement but it does not count as a 3000-level course for the major requirements. POR 3010 will satisfy the same requirement as the POR 1130/POR 1131 sequence.

Required Coursework
- POR 3242
- 30 additional hours of POR or POW courses at the 3000 and 4000 levels.
  - A minimum of 12 credits must be at the 4000 level.
- Only one class in English (PRT) can count towards the major, substituting for POR/POW.
- Classes must be passed with a grade of C or better in order to be counted for the major.
- Two Individual Work courses (POW 4905) may be accepted as part of the major’s requirements.
- Select courses outside the department may also count toward the major under special conditions.

Overseas Study

The university sponsors a reasonably priced summer B program in Rio de Janeiro, Brazil. Majors and minors are encouraged to participate at the 3000/4000 level, where they will earn six credits. The program also fulfills the summer residency requirement.

Placement

See the undergraduate coordinator for placement information, especially for transfer students and heritage speakers.

Relevant Minors and/or Certificates

Majors may want to pursue a certificate in Latin American Studies.
Research
Students who wish to complete a senior thesis for honors should consult Portuguese faculty at least two semesters in advance of graduation.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160904&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete POR 1130
• 2.0 UF GPA required

Semester 4
• Complete POR 1131
• 2.0 UF GPA required

Semester 5
• Complete POR 3242 and one additional Portuguese course with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete 3 of the remaining 3XXX/4XXX required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 7
• Complete 3 of the remaining 3XXX/4XXX required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 8
• Complete all remaining 4XXX required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

POR 3010 satisfies the CLAS language requirement, and satisfies the same requirement as the POR 1130/POR 1131 sequence.

One General Education option taken this term must be a Quest 2 course.

### Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

### Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

##### Content

1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

##### Critical Thinking

2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

##### Communication

3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.

4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

Portuguese Minor

The Portuguese minor offers excellent career preparation for a wide variety of fields, including tourism, business, journalism, telecommunications, law, health fields, and education.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Credits**: 15 | Completed with minimum grades of C and no optional S/U

Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

- Latin American Studies Minor

To earn a minor in Portuguese, students must complete 15 credits of coursework at the 3000/4000 level with a POR/POW/PRT prefix. Two of the courses must be taken at the 4000 level.

Students cannot apply POR 3010 toward the minor.

A minimum of nine credits must be completed at UF. Students can apply up to three credits of POW 4905 toward the minor and they must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Psychology

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Science
• **Specializations:** General Psychology (p. 1542) | Behavior Analysis (p. 1531) | Behavioral and Cognitive Neuroscience (p. 1536)

• **Credits for Degree:** 120

• **Contact:** Email (psych-advising@ufl.edu?Subject=Psychology%20Major)

• **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

Website ([https://psych.ufl.edu/](https://psych.ufl.edu/))

**CONTACT**

GAINESVILLE FL 32611-2250
Map ([http://campusmap.ufl.edu/#/index/0749](http://campusmap.ufl.edu/#/index/0749))

**Curriculum**

• Psychology

• Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

**Coursework for the Major**

A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

**Required Coursework**

Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

**Recommended Coursework**

In addition to regularly scheduled courses, the department offers six individual work courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PCO 4911</td>
<td>Undergraduate Research in Psychology of Health Disparities</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4911</td>
<td>Undergraduate Research in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4905</td>
<td>Individual Work</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4940</td>
<td>Introduction to Teaching in Psychology</td>
<td>3</td>
</tr>
</tbody>
</table>

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major.
Research

Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

Academic Learning Compact

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students’ understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

Critical Thinking
3. Review, interpret and analyze the literature in psychological science.

Communication
4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Curriculum Map

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

Curriculum

- Psychology
- Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

Required Coursework

Students in the behavior analysis specialization are required to complete 36 credits of psychology coursework with minimum grades of C. At least 30 of the 36 credits must be at the 3000-level or above.

- 3 credits, introductory level: PSY 2012 (or equivalent, such as a general psychology course taken elsewhere or credit by exam for PSY 2012 via AP, IB, AICE).
- 12 credits, behavior analysis courses:
  - EAB 3002
  - EAB 3764
• EAB 4184
• EAB 4930
• 3 credits, laboratory course: PSY 3213L
• 4 credits, laboratory course: EAB 4714C
• 14 credits additional psychology courses: Students must choose additional 3000/4000-level psychology courses to meet the 36-credit minimum requirement (with the exception that three credits of 2000-level courses can count toward this requirement). In addition, up to nine credits of individual work courses will count toward the 36-credit minimum requirement. Students can also take designated courses in the Women’s Studies as part of the 14 elective credits (WST 3323, WST 3371, WST 4704).

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Related Coursework

Statistics
STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it also counts toward the CLAS requirement of 3000-level electives not in the major.

Mathematics
Proficiency through precalculus is required. MAC 1147 (or higher course) will meet this requirement. The combination of MAC 1114 and MAC 1140 may be substituted for MAC 1147.

Biological Science
BSC 2005 or BSC 2010 is required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome. Advising office hours (http://www.psych.ufl.edu/%7EUndergrad/)

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

The following critical-tracking courses are required:

• BSC 2005 or BSC 2010
• MAC 1147 or MAC 1140 and MAC 1114
• PSY 2012
• PSY 3213L
• STA 2023

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

Semester 1
• Complete MAC 1140 or MAC 1147
• 2.4 UF GPA required

Semester 2
• Complete PSY 2012; if MAC 1140 is taken in semester 1, MAC 1114 must be taken semester 2
• 2.6 UF GPA required
Semester 3
• Complete 2 critical-tracking courses from BSC 2005 or BSC 2010, STA 2023 or PSY 3213L with a 2.6 critical-tracking GPA
  Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.
• 2.7 UF GPA required

Semester 4
• Complete BSC 2005 or BSC 2010 and STA 2023 (if not previously taken) with a 2.75 critical-tracking GPA
• 2.8 UF GPA required

Semester 5
• Complete PSY 3213L (if not previously taken) with 2.75 critical-tracking GPA. Additional Psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
• 2.8 UF GPA required

Semester 6
• Complete two of the remaining EABxxx/4xxx required courses
• Complete STA 3024

Semester 7
• Complete two of the remaining EABxxx/4xxx required courses

Semester 8
• Complete all remaining EAB 4xxx required courses

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students’ understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

### Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

Critical Thinking
1. Review, interpret and analyze the literature in psychological science.

Communication
1. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Curriculum Map
All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

I = Introduced; R = Reinforced; A = Assessed

### Behavioral and Cognitive Neuroscience

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

#### About this Program
- **College:** Liberal Arts and Sciences (p. 1034)
- **Degree:** Bachelor of Science
- **Specializations:** General Psychology (p. 1542) | Behavior Analysis (p. 1531) | Behavioral and Cognitive Neuroscience (p. 1536)
- **Credits for Degree:** 120
- **Contact:** Email (psych-advising@ufl.edu?Subject=Psychology%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

#### Department Information
The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

**Website** ([https://psych.ufl.edu/](https://psych.ufl.edu/))

**CONTACT**
Email (psych-advising@ufl.edu) | 352.392.0601 (tel) | 352.392.7985 (fax)

P.O. Box 112250
The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

**Coursework for the Major**

A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

**Required Coursework**

Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

**Recommended Coursework**

In addition to regularly scheduled courses, the department offers six individual work courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PCO 4911</td>
<td>Undergraduate Research in Psychology of Health Disparities</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4911</td>
<td>Undergraduate Research in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4905</td>
<td>Individual Work</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4940</td>
<td>Introduction to Teaching in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4949</td>
<td>Internship in Psychology</td>
<td>1-3</td>
</tr>
</tbody>
</table>

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLP 3911</td>
<td>Introduction to Clinical Research</td>
<td>1-3</td>
</tr>
<tr>
<td>PCO 4911</td>
<td>Undergraduate Research in Psychology of Health Disparities</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4911</td>
<td>Undergraduate Research in Psychology</td>
<td>0-3</td>
</tr>
<tr>
<td>PSY 4905</td>
<td>Individual Work</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4940</td>
<td>Introduction to Teaching in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4949</td>
<td>Internship in Psychology</td>
<td>0-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
</tbody>
</table>

**Research**

Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.
Behavioral and Cognitive Neuroscience

Required Coursework

Students in the behavioral and cognitive neuroscience specialization are required to complete 36 credits of coursework with minimum grades of C. At least 22 credits must be taken in psychology.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 2012</td>
<td>General Psychology (or its equivalent, such as a general psychology course taken elsewhere or credit by exam for this course via AP, IB, AICE, etc.)</td>
<td>3</td>
</tr>
</tbody>
</table>

Foundation core

Each is an introduction to the substantive areas of behavioral and cognitive neuroscience. Select one course from each area: 6

| Biological Bases                  |                                      |   |
|---                                | Title                                |   |
| PSB 3340                          | Behavioral Neuroscience              |   |

| Learning and Cognition            |                                      |   |
|---                                | Title                                |   |
| EXP 3604                          | Cognitive Psychology                 |   |

Laboratory courses

PSY 3213L Laboratory Methods in Psychology

Select one specialized psychology laboratory course: 4

| EAB 4714C                         | Laboratory in Applied Behavior Analysis |   |
| EXP 4174C                         | Laboratory in Sensory Processes         |   |
| PSB 4343C                         | Laboratory in Cognitive Neuroscience    |   |
| PSY 4905                          | Individual Work                        |   |

Psychology courses

4000-level psychology courses with a PSB or EXP prefix or approval of the undergraduate coordinator. These courses must be taken in addition to the required laboratory course and individual work courses. 6

Additional courses

Psychology courses or approved neuroscience-relevant courses outside psychology to meet the 36-credit minimum requirement 1 14

Total Credits 36

1. 3 credits may be at the 2000 level or higher
2. The remaining 11 or more credits must be at the 3000/4000 level
3. Any neuroscience-relevant courses outside psychology must be approved by a psychology advisor before enrollment

Students may not take both PSB 3002 and PSB 3340 under any circumstances.

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Related Coursework

Statistics

STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it counts as a 3000+ level elective not in the major.

Mathematics

Proficiency is required. MAC 2311 meets this requirement.

Biological Science

BSC 2010 and BSC 2011 are required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome.

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.
These critical-tracking courses are required: BSC 2010, MAC 2311, PSY 2012, PSY 3213L, PSB 3340, and STA 2023.

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

**Semester 1**
- Complete MAC 1147 or MAC 2311
- 2.4 UF GPA required

**Semester 2**
- Complete MAC 2311
- Complete PSY 2012
- 2.6 UF GPA required

**Semester 3**
- Complete 2 of the following critical-tracking courses with a 2.6 critical-tracking GPA: BSC 2010, PSB 3340, or PSY 3213L
  - Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.
- 2.7 UF GPA required

**Semester 4**
- Complete 1 tracking course from BSC 2010, PSB 3340, PSY 3213L or STA 2023 with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

**Semester 5**
- Complete the final tracking course (BSC 2010, PSB 3340, PSY 3213L or STA 2023) with a 2.75 critical-tracking GPA. Additional psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

**Semester 6**
- Complete 2 of the remaining PSY 3XXX/4XXX required courses
- Complete STA 3024

**Semester 7**
- Complete 2 of the remaining PSY 3XXX/4XXX required courses
- Complete neuroscience lab: PSB 4343C, EAB 4714C, EXP 4174C

**Semester 8**
- Complete all remaining PSY 3XXX/4XXX required courses and/or neuroscience relevant courses.

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). STA 3024 and approved 3000 level or above neuroscience-relevant courses outside the psychology department may count towards the 3000 level or above electives outside of the major. To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

**Total Credits**: 120

---

1. Take MAC 1147, if needed.
2. Must be Quest 2 if not taken Semester 2 or 3.
3. Counts as a 3000-level or above elective, not in the major.
Academic Learning Compact

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students’ understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

Critical Thinking

3. Review, interpret and analyze the literature in psychological science.

Communication

4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Curriculum Map

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

General Psychology

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

Assessment Types
- Exams
- Papers

About this Program
- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Science
  - **Specializations**: General Psychology (p. 1542) | Behavior Analysis (p. 1531) | Behavioral and Cognitive Neuroscience (p. 1536)
To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

Curriculum

• Psychology
• Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

Coursework for the Major

A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

Required Coursework

Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

Recommended Coursework

In addition to regularly scheduled courses, the department offers six individual work courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PCO 4911</td>
<td>Undergraduate Research in Psychology of Health Disparities</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4911</td>
<td>Undergraduate Research in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4905</td>
<td>Individual Work</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
</tbody>
</table>

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLP 3911</td>
<td>Introduction to Clinical Research</td>
<td>1-3</td>
</tr>
<tr>
<td>PCO 4911</td>
<td>Undergraduate Research in Psychology of Health Disparities</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4911</td>
<td>Undergraduate Research in Psychology</td>
<td>0-3</td>
</tr>
</tbody>
</table>
Research

Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

General Psychology

Required Coursework

Students in the general psychology specialization are required to complete 36 credits of psychology coursework with minimum grades of C. At least 30 of the 36 credits must be at the 3000-level or above.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 2012</td>
<td>General Psychology (or equivalent, such as a general psychology course taken elsewhere or credit by exam for this course via AP, IB, AICE.)</td>
<td>3</td>
</tr>
</tbody>
</table>

Foundation level core

Each of the four foundation areas is an introduction to a substantive area of psychology. Select at least one course from each:

1. Biological Bases
   - CBH 3003 Comparative Psychology
   - EXP 3104 Sensory Processes
   - PSB 3002 Physiological Psychology
   - PSB 3340 Behavioral Neuroscience

2. Developmental Changes
   - DEP 3053 Developmental Psychology

3. Learning and Cognition
   - EAB 3002 Principles of Behavior Analysis
   - EAB 3764 Applied Behavior Analysis
   - EXP 3604 Cognitive Psychology

4. Sociocultural / Individual Differences Approaches
   - CLP 3144 Abnormal Psychology
   - PPE 3003 Psychology of Personality
   - SOP 3004 Social Psychology

Laboratory course

- PSY 3213L Laboratory Methods in Psychology

Psychology courses

- 4000-level courses (does not count individual work courses)

Additional Psychology courses

- 3000/4000-level courses to meet the 36-credit minimum requirement (with the exception that three credits of 2000-level courses can count toward this requirement)

Total Credits 36

---

1. Students may not take both PSB 3002 and PSB 3340 under any circumstances.
2. In addition, up to nine credits of individual work courses will count toward the 36-credit minimum requirement.
3. Two courses from the Women's Studies department can also be utilized as part of the 12 additional psychology credits (WST 3371; WST 4704, WST 3323, WST 4XXX).

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Related Coursework

Statistics

STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it also counts toward the CLAS requirement of 3000-level electives not in the major.
Mathematics
Proficiency through precalculus is required. MAC 1147 (or higher course) will meet this requirement. The combination of MAC 1114 and MAC 1140 may be substituted for MAC 1147.

Biological Science
BSC 2005 or BSC 2010 is required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome.

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

Related Psychology Programs
- Bachelor of Arts in Psychology, UF Online (p. 1549)

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

The following critical-tracking courses are required: BSC 2005 or BSC 2010, MAC 1147 or MAC 1140 and MAC 1114, PSY 2012, PSY 3213L, and STA 2023.

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

Semester 1
- Complete MAC 1140 or MAC 1147
- 2.4 UF GPA required

Semester 2
- Complete PSY 2012; if MAC 1140 is taken in semester 1, MAC 1114 must be taken semester 2
- 2.6 UF GPA required

Semester 3
- Complete 2 critical-tracking courses from BSC 2005 or BSC 2010, STA 2023 or PSY 3213L with a 2.6 critical-tracking GPA
  Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.
- 2.7 UF GPA required

Semester 4
- Complete BSC 2005 or BSC 2010 and STA 2023 (if not previously taken) with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

Semester 5
- Complete PSY 3213L (if not previously taken) with 2.75 critical-tracking GPA. Additional Psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

Semester 6
- Complete 2 of the remaining PSY 3XXX/4XXX required courses
- Complete STA 3024

Semester 7
- Complete 2 of the remaining PSY 3XXX/4XXX required courses
General Psychology

Semester 8
• Complete all remaining PSY 3XXX/4XXX required courses

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Arts in psychology are widely sought in business, education, and certain mental health fields. For a professional career in psychology, a graduate degree is needed.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **Contact**: 1.855.99GATOR | Email (psych-advising@ufl.edu)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

### Department Information

The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

Website (https://psych.ufl.edu/)

### Curriculum

- Psychology
- Psychology UF Online

The psychology curriculum provides a strong background to pursue careers in psychology, business, education, or health-related fields. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science. The B.A. in psychology requires courses in four core areas within the discipline as well as elective psychology courses.

### Coursework for the Major

A B.A. in psychology consists of a minimum of 30 credits in psychology plus related coursework in biological science, mathematics, and statistics. At least 18 of the 30 credits must be taken at UF, and at least 24 of the 30 credits must be at the 3000-level or above. Courses used toward the major must be earned with minimum grades of C.

Total Credits  
40-47

1 In addition, up to six credits of individual work courses will count toward the 30-hour minimum requirement.

2 In addition to regularly scheduled courses, the department offers four individual work courses, three involving research (PSY 4911, PSY 4905, and PSY 4970) and one involving community work (PSY 4949). Students may enroll in these courses by permission of relevant faculty supervisors.

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

The following critical-tracking courses are required:

• BSC 2005
• MAC 1147 or MAC 1140 and MAC 1114
• PSY 2012
• PSY 3213L
• STA 2023

Semester 1

• Complete MAC 1140 or MAC 1147
• 2.2 UF GPA required

Semester 2

• Complete PSY 2012; if MAC 1140 is taken in semester one, MAC 1114 must be taken semester two
• 2.3 UF GPA required

Semester 3

• 2.4 UF GPA required
• Complete 2 critical-tracking courses from BSC 2005, STA 2023 or PSY 3213L with a 2.5 critical-tracking GPA

Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.

Semester 4

• Complete BSC 2005 and STA 2023 (if not previously taken) with a 2.5 critical-tracking GPA
• 2.5 UF GPA required
### Semester 5
- Complete PSY 3213L (if not previously taken) with 2.5 critical-tracking GPA
- 2.5 UF GPA required

### Semester 6
- Complete 2 of the remaining PSY 3XXX/4XXX required courses

### Semester 7
- Complete 2 of the remaining PSY 3XXX/4XXX required courses

### Semester 8
- Complete all remaining PSY 3XXX/4XXX required courses

---

#### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

**Academic Learning Compact**

The Bachelor of Arts in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students’ understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

**Before Graduating Students Must**
- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

**Critical Thinking**
3. Review, interpret and analyze the literature in psychological science.

**Communication**
4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

**Curriculum Map**

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

Public Affairs Certificate

The Public Affairs certificate is for those interested in government careers and requires courses in public policy and public administration.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 15 | Completed with minimum grades of C
- **More Info**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Political Science provides a high quality educational program for undergraduate students as well as a rigorous honors program (http://sites.clas.ufl.edu/polisci/undergraduate/programs/undergraduate-honors/). The department also offers a highly selective graduate education ranging from innovative M.A. programs to a comprehensive Ph.D. program.

</tbody>
</table>

Select three 3000/4000-level courses from one of the following:

- The policy process (e.g., bureaucratic politics)
- A substantive policy area (e.g., health politics and policy or politics and ecology)

Total Credits: 15

Students are encouraged to serve an internship in government and to complete an honors thesis in the area of public affairs.

Public Leadership Minor

The interdisciplinary Public Leadership minor, offered by the Bob Graham Center for Public Service, is for students interested in careers in the public and private sectors and those interested in acquiring skills to develop as civically responsible citizens. Through coursework and practical experience, students gain the skills and knowledge necessary for effective and ethical leadership careers. The minor complements a variety of majors, including the natural sciences, humanities, social sciences, journalism, and business.
About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 21 | Completed with a minimum cumulative 3.0 GPA
- **More Info**

Center Information

The Bob Graham Center was established in 2006 with the goal of creating a community of students, scholars, and citizens who share a commitment to revitalizing the civic culture of Florida and the nation. Former Governor and U. S. Senator Bob Graham founded the Center as a place where students acquire the skills and knowledge to become informed citizens, with the expressed purpose of strengthening the nation's democratic institutions.

Map ([http://campusmap.ufl.edu/#/index/0072](http://campusmap.ufl.edu/#/index/0072))

Curriculum

- Public Leadership Minor

Students pursuing the minor are expected to engage in the intellectual life of the Bob Graham Center for Public Service by participating in public lectures, workshops, seminars, and civic engagement opportunities the Center offers.

Students must have a 2.75 GPA for admission to the minor, and should normally apply during the sophomore or junior year, though they may apply later as long as they will still be able to complete all requirements for the minor within a timely manner that does not delay graduation. Students should apply by completing the standard Application to Add or Cancel an Undergraduate Minor form.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors.

Religion

Events at home and abroad show that religion continues to be a powerful force, with both positive and negative consequences. An undergraduate major in Religion provides students with the basic tools to understand the diversity of religious phenomena throughout the world in their proper historical, socio-political, psychological, cultural, and philosophical contexts.

About this Program

• College: Liberal Arts and Sciences (p. 1034)
• Degree: Bachelor of Arts
• Credits for Degree: 120
• Contact: Email (info@religion.ufl.edu?Subject=Religion%20Major)
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

107 ANDERSON HALL
GAINESVILLE FL 32611-7410
Map (http://campusmap.ufl.edu/#/index/0030)

Curriculum

• Combination Degrees
• Religion
• Religion Minor

Students majoring in religion receive truly interdisciplinary training and many pursue advanced degrees in the humanities, social sciences, law, education, journalism, and social services. Religion majors have also gone on to work in non-governmental organizations, private companies, and religious communities. The religion program complements many other programs at the University of Florida, including Latin American studies, sustainability studies, Jewish studies, African studies, and Asian studies.

Coursework for the Major

The program consists of 10 courses (30 credits). These must include:

• REL 3931
• One course in three of the following four areas (9 credits)
  • Asian Traditions
  • Biblical Scripture, Judaism, and Christianity
  • Islamic Traditions
  • Religion and ethics in contemporary society
• REL 4933
• At least one other 4000 level class (3 credits)

Of the 30 total credits, no more than 9 can be at the 2000 level. In addition, the 10 courses (30 credits) for the undergraduate major in religion must be completed with minimum grades of C.

**Total Credits** 24

- Majors cannot count more than three introductory courses (2000-level, 9 credits) toward the 30 credits.
- No more than three courses (9 credits) can be in approved cognate courses from other departments.
- No more than four courses (12 credits) can be transferred from another institution.
- Every two semesters all majors must consult the undergraduate advisor.

There are no prerequisites for 2000-level courses. Detailed descriptions of current and prospective courses are available in 107 Anderson Hall and from faculty members before registration.

**Overseas Studies**

The department encourages study abroad. Overseas Studies, within the UF International Center (UFIC), offers the opportunity to study in a wide range of academic and cultural settings. The office coordinates 32 semester and yearlong programs and 28 summer programs in 24 countries. Study abroad programs satisfy the general education international and diversity requirements and also may fulfill requirements for a major or minor, as well as
basic distribution area requirements and UF summer residency. Interested students should contact the UF International Center in 170 Hub or the undergraduate coordinator.
More Info (http://www.ufic.ufl.edu/)

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=380201&track=01) may be used for transfer students.

### Semester 1
- 2.0 UF GPA required

### Semester 2
- 2.0 UF GPA required

### Semester 3
- Complete 1 religion course
- 2.0 UF GPA required

### Semester 4
- Complete 1 additional religion course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Semester 5
- Complete 1 additional religion course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Semester 6
- Completed 2 of the remaining REL 3XXX/4XXX required courses
- 2.0 UF GPA required

### Semester 7
- Completed 2 of the remaining REL 3XXX/4XXX required courses
- 2.0 UF GPA required

### Semester 8
- Completed all remaining REL 3XXX/4XXX required courses
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

1 One General Education option taken this term must be a Quest 2 course.

**Academic Learning Compact**

The major in religion examines religion as a significant and pervasive element in human culture. Through study of a variety of religious traditions, students learn about the history, beliefs and practices of the world’s religions. Emphasis on method and theory and religion’s comparative dimensions enables students to read and analyze current literature. Students will be able to locate and use reference tools and demonstrate the ability to communicate independent, critical perspectives.
Before Graduating Students Must

- Achieve satisfactory evaluation of assignment from REL 3931.
- Achieve satisfactory evaluation of assignment from REL 4933.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain religion as a significant and pervasive element in human culture.

Critical Thinking
2. Read and analyze current literature on method and theory in a study of religion.
3. Read and analyze current literature on comparative religion.

Communication
4. Effectively communicate, in speech and in writing, and disseminate the results of research in a coherent and organized manner.

Religion Minor

The Religion minor provides the opportunity to explore various religions around the world: their scriptures, histories, beliefs, rituals, and communities.

A minor in Religion provides students with tools to understand the diversity of religious phenomena throughout the world in their proper historical, socio-political, psychological, cultural, and philosophical contexts.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 15 | Completed with minimum grades of C
- **More Info**

### Russian

#### Foreign Languages and Literatures

Students who major in Russian graduate with a solid working knowledge of the language and a thorough understanding of Russian culture and everyday life.

#### About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

#### Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

### Curriculum

- African Languages
- Arabic
- Arabic Language and Literature Minor
- Chinese
- Combination Degrees
- Dual Languages
- East Asian Languages and Literatures Minor
The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills, and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Foreign Languages and Literatures Options (p. 1257)

Students can tailor their program of study to fit their personal and career goals, be it reading Tolstoy in the original or tapping into one of the hottest emerging global markets. Majors also receive priority placement in our popular study-abroad programs in Moscow.

Completed alone or in combination with a second major, the Russian specialization of the Foreign Languages and Literatures major prepares students for a variety of careers, including law, government, national security, international relations, business, education and graduate programs in the humanities and social sciences. Beyond this, it equips students with analytical skills essential for performing effectively in today’s multicultural world.

Small class sizes and an outstanding professional teaching staff ensure that students have every opportunity to learn and excel.

Students who intend to pursue the Russian specialization or a Russian minor should consult the undergraduate coordinator for Russian studies as soon as possible.

Coursework for the Major

The Russian specialization in Foreign Languages and Literatures consists of preparatory language study at the beginning and Intermediate levels and 33 hours of advanced language, literature, and culture study in the upper division, at least 30 of which must be at the 3000/4000 level. Majors may take one 3 credit course at a lower level in Russian Literature and Culture in English with the approval of the undergraduate coordinator.

All coursework for the major must be completed with minimum grades of C.

**Critical Concentration**

Select 9 credits from one concentration:

1. Intensive Area Studies: Russian
2. Comparative Cultural Studies
3. Film and Visual Culture
4. Literary Studies
5. Medieval and Early Modern Studies

**Total Credits:** 33

---

1. Although courses may appear in more than one group they may be counted toward only one group.

2. Recommended for those planning to pursue careers requiring advanced level skills in Russian or graduate work in Russian Studies.

**Overseas Study**

Students are encouraged to consider the UF summer program in Russian language and culture at Moscow State University in Russia.
**Research**

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

---

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160402&track=01) may be used for transfer students.

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course. 3000 level or above critical concentration courses outside of Russian may count toward the 3000 level or above electives outside of the major.

Beginning language is best started semester 1 and absolutely no later than semester 3, but study abroad or accredited intensive summer courses can be used to fall in with an ideal semester progression.
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

**Before Graduating Students Must**

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

</table>

1. Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2. Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types
- Proficiency exams
- Term papers or final projects
- Oral presentations

Russian and East-European Area Studies Certificate

The Russian and East-European Area Studies certificate provides a foundation for graduate work in the field of and careers in government service. The program is based on a major in economics, foreign languages, geography, history, philosophy, political science, or religion.

About this Program
- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 24 | Completed with minimum grades of C
- **More Info**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Center Information
The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

OR

Demonstrate an equivalent reading knowledge in Russian or an East-European area language

Relevant courses (approved by the program advisor) 14

Total Credits 24

Students are encouraged to include at least one course in economics, history, political science, and Russian or East-European culture or literature to diversify their program, or to participate in an overseas study program.

Russian Minor

This minor provides foundational proficiency in Russian language and culture for work in international relations, national security, global business, finance, journalism, education, and NGOs.

About this Program

• College: Liberal Arts and Sciences (p. 1034)
• Credits: 15 | Completed with minimum grades of C

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Related Programs

- Russian and East-European Area Studies Certificate

For the minor, students must complete at least five Russian courses beyond the 1000 level. Up to six credits transferred from another institution may be applied toward the minor.

Students are required to take RUS 2220 and one 3000/4000 level RUT course. The remaining credits should be RUS and RUW-prefixed courses at the 3000/4000 level.

Students who place out of RUS 2220 and RUS 3240 (without transfer credits) can apply up to nine credits of RUT courses toward the minor. No more than three credits of RUS 4905 can apply.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Sociology

Sociology is the study of social life, including the significance of social relationships and institutions, the impact of social change on individuals, groups and the environment, and the causes and consequences of inequalities and disparities of all kinds. Sociology majors examine current research and public policy pertaining to healthcare, the environment, families, employment, housing, the community, education, politics, criminal justice, and the law. Upon graduation, sociology majors are skilled in evidence-based problem solving, collecting, analyzing, and presenting data, communicating and collaborating in diverse groups, thinking critically, and writing effectively.
About this Program
• College: Liberal Arts and Sciences (p. 1034)
• Degree: Bachelor of Arts
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department’s faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

• Sociology UF Online

The Sociology major offers broad theoretical perspectives and rigorous methodologies to study social life and to analyze the causes and consequences of human behavior. In particular, sociologists examine how race, ethnicity, gender, sexual orientation, age, class, ability, geography, and other identities are used to create and maintain barriers to access, participation, opportunity, and outcome across all social institutions. Our faculty teach and conduct research on social justice and systemic inequalities; health disparities in physical and mental well-being; environmental justice and natural resource management; deviance, social control, and conflict management; gender, families, and sexualities; social and political movements; nationalism, migration, and ethnic conflict; and culture, technology, and media. Students examine the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues.

Coursework for the Major
Majors are required to complete 32 credits of coursework in sociology and 3 credits of statistics with minimum grades of C. At least 23 credits of sociology must be in courses numbered 3000 or higher and at least 18 credits must be completed at UF.

To graduate, students must also pass a department exam covering fundamental sociological concepts developed by the sociology faculty.

Additional sociology coursework 21

Total Credits 32

* STA 2023 is a prerequisite for SYA 4300.

Students select additional sociology courses to complete the 32-credit minimum by matching interests in different substantive areas.
Majors can only apply two other 2000-level courses besides SYG 2000, for a maximum of nine credits at the 2000 level. There are no prerequisites for 2000-level courses.

**Related Coursework**
In addition to the 32 credits of sociology coursework, majors are required to complete STA 2023 Introduction to Statistics 1 with a minimum grade of C. STA 2023 must be taken no later than the end of the third semester.

**Course Details**
All majors should review the department’s guidelines or visit the Sociology Undergraduate Coordinator for information about the major, the plan of study worksheet, an informational handout, descriptions of current and prospective courses and other information.

**OVERSEAS STUDIES**
Majors are encouraged to seek out opportunities for international study, during the summer or for the academic year. The credit generally will be applied toward the major and the degree. Contact the undergraduate coordinator about credit for study abroad. Visit the UF International Center (https://internationalcenter.ufl.edu/) in room 170 of the Hub for more information.

**RELEVANT MAJORS, MINORS AND/OR CERTIFICATES**
With approximately 600 majors and minors in both Residential and UF Online degree programs, Sociology is one of the largest undergraduate programs at UF. Many of our majors pursue dual degrees, double majors, minors, and certificates in related disciplines, including Psychology, Criminology & Law, Political Science, Anthropology, Sustainability, History, Gender, Sexualities and Women's Studies, Latin American Studies, African American Studies, Non-Profit Organizational Leadership, Advertising, Marketing, and various foreign languages.

**EXPERIENTIAL LEARNING AND CAREER READINESS**
Sociology majors participate in community internships, collaborate on faculty projects, and conduct research independently on senior thesis projects. These experiential learning opportunities prepare our graduates to embark upon a wide range of career paths including those in public health, government, research, teaching, and community affairs. Sociology graduates pursue careers in law, medicine, and business. Others work as public policy analysts researching issues related to health and aging; social justice, environmental sustainability, and resource management; urban and community development; crime and delinquency; families and communities; and racial, ethnic, and international relations. Many seek advanced degrees in sociology, psychology, counseling, law, and business.

**Combination Degrees**
The Department of Sociology and Criminology offers a combination B.A./M.A. degree to eligible undergraduate students. Please see the graduate coordinator for more information regarding this degree option. Sociology majors may also consider various combination degrees with other departments and colleges. For example, a Master of Science in Business Administration with a concentration in management is offered through the Warrington College of Business to eligible students who have majored in sociology. Please see the undergraduate coordinator for more information about such degree options.

- Combination Degrees

**Research**
The department encourages students to engage in the research process, either by conducting their own projects in collaboration with a sociology faculty member or by working with sociology faculty on their current research. These opportunities may be pursued by conducting a senior honors thesis or registering for SYA 4911 Undergraduate Research credit. Please see the undergraduate coordinator for more information and eligibility requirements.

**Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=451101&track=01) may be used for transfer students.**

**Semester 1**
- 2.0 UF GPA required
### Semester 2
- Complete 1 sociology course
- 2.0 UF GPA required

### Semester 3
- Complete 1 additional sociology course (1 of the 2 courses must be SYG 2000)
- Complete STA 2023
- 2.75 GPA required for all 3 critical-tracking courses
- 2.0 UF GPA required

### Semester 4
- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 5
- Complete 1 additional sociology course (1 of the 3 must be at the 3000/4000 level)
- 2.75 GPA required for all 5 critical-tracking courses
- 2.0 UF GPA required

### Semester 6
- Complete SYA 4300 or SYA 4110
- Complete 1 additional 2000 level or above sociology course (maximum of 2 sociology electives at the 2000 level)
- 2.0 UF GPA required

### Semester 7
- Complete 2 additional 3000/4000 level sociology courses
- 2.0 UF GPA required

### Semester 8
- Complete SYA 4110
- Complete all remaining 3000/4000 level sociology courses (7 total sociology elective courses/21 SY elective credits required)
- 2.0 UF GPA required

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

**Academic Learning Compact**

The Bachelor of Arts in sociology provides students with knowledge of the basic concepts in the field, sociological perspectives on social structure, process and institutions and sociological perspectives on the relationship between individuals and society. Emphasis is on the ability to understand, analyze and interpret the sociological literature and on effectively communicating sociological concepts and research in the accepted style of presentation.

**Before Graduating Students Must**

- Pass a department exam developed by the sociology faculty that covers fundamental sociological concepts.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, explain and apply basic concepts in sociology.

Critical Thinking
2. Analyze, critique and interpret the sociological literature.
3. Define, classify and compare sociological perspectives on social structure, processes and institutions.
4. Define, classify and compare sociological perspectives on the relationship between individuals and society.

Communication
5. Effectively communicate in speech and in writing sociological concepts and research.

Sociology Minor

The Sociology minor offers broad theoretical perspectives and rigorous methodologies for studying social life and the causes and consequences of human behavior. Coursework examines current research and public policy pertaining to social justice and systemic inequalities; health disparities in physical and mental well-being; environmental justice and natural resource management; deviance, social control, and conflict management; gender, families, and sexualities; employment, housing, and communities; social and political movements; nationalism, migration, and ethnic conflict; and culture, technology, and media. Students analyze the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues. Students’ enhanced communication and analytical skills, appreciation for diversity, and ability to work collaboratively provide a competitive edge in today’s global marketplace and information society.

• Sociology of Social Justice and Policy Minor
• Sociology UF Online

The sociological lens offers broad theoretical perspectives and rigorous methodologies to analyze how, why and with what consequence systemic inequalities are produced, maintained, and reproduced locally, nationally and globally. Students pursuing an SJP minor explore the impact of systemic racism in the criminal justice and legal systems; the consequences of unequal access to health care on physical and mental well-being; the impact of environmental hazards on the health and economic opportunities of vulnerable and marginalized populations; the causes and consequences of
disparities in access to equal and quality public education; and the dynamics of structural and organizational impediments to enacting change. The SJP minor introduces students to social justice scholars across the campus community, expanding networking and mentoring opportunities, exposing students to diverse ideas, methods, and theories in the area of social justice, and teaching fundamental skills and competencies for careers related to policy-making, advocacy, and research dedicated to social justice issues.

**REQUIREMENTS**

- Students must complete a minimum of 9 credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors.
- Students must complete at least 5 courses at the 3000 level or higher and each must be at least three credits.
- A minimum of 9 credits (3 courses) must be from Sociology courses (i.e., courses that begin with the prefix SY), other than SYA4941 Internships in Sociology.
- With the approval of the Sociology Undergraduate Coordinator, students may petition to have other, relevant classes approved as substitutes within each category of electives within the minor. Such courses could include department special topics offerings with numbers like 3930 or 4930.
- No more than three credits of independent study (SYA 4905), research (SYA 4911) or internship (SYA 4941) may count toward the minor.

The SJP minor is not available to Sociology majors.

Sociology UF Online

Sociology is the study of social life, including the significance of social relationships and institutions, the impact of social change on individuals, groups, and the environment, and the causes and consequences of inequalities and disparities of all kinds. Sociology majors examine current research and public policy pertaining to healthcare, the environment, families, employment, housing, the community, education, politics, criminal justice, and the law. Upon graduation, sociology majors are skilled in evidence-based problem solving, collecting, analyzing, and presenting data, communicating, and collaborating in diverse groups, thinking critically, and writing effectively.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Arts

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department’s faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

Sociology Minor UF Online

Sociology of Social Justice and Policy Minor

Sociology UF Online

The Sociology major offers broad theoretical perspectives and rigorous methodologies to study social life and to analyze the causes and consequences of human behavior. In particular, sociologists examine how race, ethnicity, gender, sexual orientation, age, class, ability, geography, and other identities are used to create and maintain barriers to access, participation, opportunity, and outcome across all social institutions. Our faculty teach and conduct research on social justice and systemic inequalities; health disparities in physical and mental well-being; environmental justice and natural resource management; deviance, social control, and conflict management; gender, families, and sexualities; social and political movements; nationalism, migration, and ethnic conflict; and culture, technology, and media. Students examine the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues.

Coursework for the Major

Majors are required to complete 32 credits of coursework in sociology and 3 credits of statistics with minimum grades of C. At least 23 credits of sociology must be in courses numbered 3000 or higher and at least 18 credits must be completed at UF.

To graduate, students must also pass a department exam covering fundamental sociological concepts developed by the sociology faculty.

Total Credits 35

1. Majors can only apply two other 2000-level courses besides SYG 2000, for a maximum of nine credits at the 2000 level. There are no prerequisites for 2000-level courses.
2. STA 2023 is a prerequisite for SYA 4300.
3. Students select additional sociology courses to complete the 32-credit minimum by matching interests in different substantive areas.

Course Details

All majors should review the department’s guidelines (http://soccrim.clas.ufl.edu/undergraduate/sociology/academics/requirements/) for information about the major, the plan of study worksheet, an informational handout, descriptions of current and prospective courses, and other information.

EXPERIENTIAL LEARNING AND CAREER READINESS

Sociology majors participate in community internships, collaborate on faculty projects, and conduct research independently on senior thesis projects. These experiential learning opportunities prepare our graduates to embark upon a wide range of career paths including those in public health, government, research, teaching, and community affairs. Sociology graduates pursue careers in law, medicine, and business. Others work as public policy analysts researching issues related to health and aging; social justice, environmental sustainability and resource management; urban and community development; crime and delinquency; families and communities; and racial, ethnic, and international relations. Many seek advanced degrees in sociology, psychology, counseling, law, and business.

RESEARCH

The department encourages students to engage in the research process, either by conducting their own projects in collaboration with a sociology faculty member or by working with sociology faculty on their current research. These opportunities may be pursued by conducting a senior honors thesis or registering for SYA 4911 Undergraduate Research credit. Please contact the undergraduate coordinator for more information and eligibility requirements.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=451101&track=01) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- Complete 1 sociology course
- 2.0 UF GPA required

**Semester 3**
- Complete 1 additional sociology course (1 of the 2 courses must be SYG 2000)
- Complete STA 2023
- 2.75 GPA required for all 3 critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete 1 additional sociology course (1 of the 3 must be at the 3000/4000 level)
- 2.75 GPA required for all 5 critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete SYA 4300 or SYA 4110
- Complete 1 additional 2000 level or above sociology course (maximum of 2 sociology electives at the 2000 level)
- 2.0 UF GPA required

**Semester 7**
- Complete 2 additional 3000/4000 level sociology courses
- 2.0 UF GPA required

**Semester 8**
- Complete SYA 4110 or SYA 4300
- Complete all remaining 3000/4000 level sociology courses (7 total sociology elective courses/21 SY elective credits required)
- 2.0 UF GPA required

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

1 In addition to SYG 2000 (Gen Ed Social and Behavioral Sciences), the remaining six credits of GE-S can be satisfied by sociology or non-sociology Gen Ed Social and Behavioral Sciences courses.

**Academic Learning Compact**

The Bachelor of Arts in sociology provides students with knowledge of the basic concepts in the field, sociological perspectives on social structure, process and institutions and sociological perspectives on the relationship between individuals and society. Emphasis is on the ability to understand, analyze and interpret the sociological literature and on effectively communicating sociological concepts and research in the accepted style of presentation.
Before Graduating Students Must

- Pass a department exam developed by the sociology faculty that covers fundamental sociological concepts.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, explain and apply basic concepts in sociology.

Critical Thinking
2. Analyze, critique and interpret the sociological literature.
3. Define, classify and compare sociological perspectives on social structure, processes and institutions.
4. Define, classify and compare sociological perspectives on the relationship between individuals and society.

Communication
5. Effectively communicate in speech and in writing sociological concepts and research.

Assessment Types

- Exit exam

Spanish

Hispanic and Latin American Languages, Literatures and Linguistics

Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Arts
- **Specializations**: Spanish (p. 1586) | Portuguese (p. 1522) | Spanish and Portuguese (p. 1381)
- **Credits for Degree**: 120
- **Contact**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate

**Related Programs**
- Latin American Studies Certificate
- Latin American Studies Minor

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

**B.A. in Spanish**

The major requires 33 credits, beginning with foundational work in Spanish and then moves on to introductory coursework in culture, literature and linguistics. Pre-foundational coursework required to prepare the student for SPN 2240 or SPN 2340 depends on the student's background in Spanish and an appropriate placement score.

Students must earn minimum grades of C for coursework to count toward the major.

Additionally, there are separate courses designed students who speak Spanish as a heritage language (i.e., who grew up hearing or using Spanish at home).

**Required Coursework**
- SPN 2240 and SPN 3300 (non-bilingual track) or SPN 2340 and SPN 3350 (bilingual track)
- SPN 3700
- At least one SPW 3000-level course, 3 credits
- An additional 21 credits of Spanish courses at the 3000/4000 levels
  - At least 12 of the 21 credits must be at the 4000 level (four courses total)
- Students who transfer credits toward the Spanish major must take at least four 4000-level courses in Spanish at UF
- No more than 3 credits of SPN 4905 may count toward the major

**Recommended Coursework**

Students who have studied six semesters of Spanish or who have equivalent fluency may enroll in one-credit Spanish discussion sections that accompany selected Latin American studies courses in anthropology, art, business, philosophy, religion, sociology, etc. A maximum of three such courses may be credited toward the Spanish major and minor. Refer to the course description for SPN 3224.

More Info (http://spanishandportuguese.ufl.edu/undergraduate-programs/)

- SPN 3301 is the prerequisite for SPN 4420
- SPN 3700 is the prerequisite for 4000-level SPN linguistics courses
- SPN 4780 is the prerequisite for SPN 4840
- The prerequisite for 4000-level SPW courses is one SPW 3000-level course.
Concentrations
After completing the introductory courses (SPN 3700 and SPW 3xxx), students may choose to complete their remaining upper division coursework in Hispanic Literatures or Hispanic Linguistics, or a combination of the two. Courses in the literature concentration (indicated with the prefix SPW) focus on the reading, contextualization and critical analysis of literary texts from across the Spanish-speaking world and including a wide range of periods and genres. Courses in the linguistics concentration (indicated with the prefix SPN) focus on the scientific study of the Spanish language and its structures, such as morphology, phonetics, phonology and syntax; as well as more applied linguistic areas such as psycholinguistics, bilingualism, and language acquisition.

Overseas Study
Students pursuing a major or a minor in Spanish are strongly encouraged to spend a summer, a semester, or an academic year in a Spanish-speaking country. UF programs are encouraged because they allow for easy transfer of UF credits and courses or course equivalencies. Most financial aid applies in this case as well. Interested students should contact the undergraduate coordinator and the UF International Center, 170 Hub.

Placement
Students with no previous study or experience in Spanish will need to complete the beginning language sequence (SPN 1130-SPN 1131) and the intermediate language sequence (SPN 2200-SPN 2201) to prepare for SPN 2240.

Students with prior study or knowledge of Spanish who wish to enroll in a Spanish course can present dual enrollment, AP, IB, or AICE scores, or can take the WebCAPE online placement test (http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/spanish-placement/).

Any student who has lived in a Spanish-speaking country for more than a year or who has significant Spanish-speaking experience at home or in a community must consult the coordinator of the bilingual program before enrolling in any SPN language, literature, or culture course. Heritage speakers not planning to take Spanish who wish to show proficiency should consult the Department for information on how to fulfill their foreign language proficiency requirement.

Research
Students who wish to complete a senior thesis for honors should consult Spanish faculty at least two semesters in advance of graduation.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160905&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• Complete SPN 1130 or a higher-level Spanish course
• 2.0 UF GPA required

Semester 3
• Complete SPN 1131 or a higher-level Spanish course
• 2.0 UF GPA required

Semester 4
• Complete SPN 2200 or continue taking higher-level Spanish coursework with a 2.5 critical-tracking GPA
• 2.0 UF GPA required
Semester 5
• Complete SPN 2201 or a higher-level Spanish course with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete 3 of the remaining SPANISH 3xxx/4xxx required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 7
• Complete 3 of the remaining SPANISH 3xxx/4xxx required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 8
• Complete all remaining SPANISH 4xxx required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Semester Six Credit 15

| SPN 3700 | Introduction to Hispanic Linguistics *(Critical Tracking)* | 3 |
| SPW course (3000 level)* | 3 |
| SPN or SPW course *(Critical Tracking)*; 3000 level | 3 |
| Elective (3000 level or above, not in major) | 3 |
| Gen Ed Physical Sciences | 3 |

### Semester Seven Credits 15

| SPN or SPW courses *(Critical Tracking)*; 3000/4000 level | 6 |
| SPN or SPW courses *(Critical Tracking)*; 4000 level | 3 |
| Electives (3000 level or above, not in major) | 6 |

### Semester Eight Credits 15

| SPN or SPW courses *(Critical Tracking)*; 4000 level | 9 |
| Electives (3000 level or above, not in major) | 6 |

Total Credits 120

1. One General Education option taken this term must be a Quest 2 course.
2. SPN 2240 (or SPN 2340) is the first course that earns credit toward the major or minor. SPN 3300 can be taken concurrently with SPN 2240.
3. Some Spanish courses may also fulfill the H and N general education requirements: SPW 3030, SPW 3031, SPW 3100 and SPW 3101, SPN 3510, and SPN 3520; SPN 3440 fulfills the S and N general education categories.

---

**Academic Learning Compact**

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

**Before Graduating Students Must**

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

**Critical Thinking**

2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.
Communication
3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

Spanish for the Professions Certificate
The Spanish for the Professions certificate provides the linguistic skills and cultural knowledge necessary for working in our increasingly global community, focusing specifically on the Spanish-speaking world. Coursework builds cultural background and communicative proficiency, while providing profession-specific language and experience.

About this Program
- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 12 | Completed with minimum grades of C
- **Contact:** Email (moreland@ufl.edu?Subject=Spanish%20for%20the%20Professions%20Certificate)
- **More Info**

*Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*

Department Information
The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

Statistics
Statistics, the science of learning from data, has become increasingly important as scientists, businesses, and governments rely more and more on data-driven decision-making. Statisticians work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for statisticians and their expertise in the collection and analysis of data.

About this Program
• College: Liberal Arts and Sciences (p. 1034)
• Degrees: Bachelor of Arts (p. 1596) | Bachelor of Science (p. 1601)
• Credits for Degree: 120
• Contact: Email (dathien@stat.ufl.edu?Subject=Statistics%20Major)
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Website (https://stat.ufl.edu/)
Statistics majors learn how to design studies that effectively address the purpose of a research project and how to properly analyze the data collected in such studies. Core courses cover statistical methods applicable in a wide variety of settings (e.g., regression and design of experiments) as well as the conceptual and mathematical foundations of statistics. Other courses explore specific data types often encountered in practical settings. Statistics majors have the option to minor in actuarial science, a profession involving the statistical and financial practices of insurance.

Students who wish to major in statistics must consult a department advisor early in their programs.

**Degrees**

The College of Liberal Arts and Sciences offers the Bachelor of Science and the Bachelor of Arts in statistics.

**Bachelor of Arts**

Intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

**Bachelor of Science**

Intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

**Coursework for the Major**

**Required Coursework for Both Degrees**

The B.A. in statistics requires a minimum of 42 credits in statistics and related coursework. The B.S. in statistics requires a minimum of 49 credits in statistics and related coursework. It is important that the prerequisites of each class are met before the class is attempted.

Students must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 12 credit elective requirement, with the exception of MAC 2312 and MAC 2313 where students must receive a minimum grade of B-.

Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313, in which students must receive a minimum grade of B-. A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and 2.67 on MAC 2312 and MAC 2313. The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA. A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

³ Students must receive a minimum grade of B- in this course.
STA 4222  Sample Survey Design  
STA 4241  Statistical Learning in R  
STA 4273  Statistical Computing in R  
STA 4502  Nonparametric Statistical Methods  
STA 4702  Multivariate Statistical Methods  
STA 4712  Introduction to Survival Analysis  
STA 4821  Stochastic Processes  
STA 4853  Introduction to Time Series and Forecasting  
STA 4930  Special Topics  

Total Credits 33

1. The course sequences, STA 4210-STA 4211 and STA 4321-STA 4322 should be completed by the end of the junior year.
2. Prerequisite: STA 4210.
3. Prerequisite: STA 4321.
4. Students pursuing the major must enroll in the restricted to STA majors only section of STA 4211.

Combination Degree Program

Superior students can earn both the bachelor's and master's degrees in a shorter time than typically would be possible by counting up to 12 credits of approved graduate courses toward both degrees. For information and application, contact the undergraduate or graduate coordinator.

Relevant Minors and/or Certificates

Statistics majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies.

Academic Learning Compact

The statistics major enables students to achieve proficiency in the fundamentals of statistical reasoning. Through study of both theoretical and applied statistics and through data analysis projects, students will gain knowledge in problem solving, statistical applications and data-based inferences. Emphasis is on developing the ability to approach real world problems and through the use of statistical methods to be able to analyze and to draw valid scientific inferences.

Before Graduating Students Must

- Complete an exam on the fundamentals of statistics, which will be 5% of your grade in STA 4211.
- Complete a data analysis project, which will be 10% of your grade in STA 4211.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, define and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

Critical Thinking
2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

Communication
3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270501&track=01) may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- Complete MAC 1147 or higher-level calculus
- 2.0 UF GPA required

Semester 3
- Complete MAC 2311
- 2.0 UF GPA required

Semester 4
- Complete MAC 2312 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required
Semester 5

- Complete MAC 2313 and a programming elective or any STA course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete Programming elective and MAS 3114 and STA 4210 and STA 4321
- 2.0 UF GPA required

Semester 7

- Complete STA 4211 and STA 4322
- 2.0 UF GPA required

Semester 8

- Complete STA 4504 and all remaining Statistics and Math and Sciences electives
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

MAC 2312, MAC 2313, MAS 4105, and the math elective count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The statistics major enables students to achieve proficiency in the fundamentals of statistical reasoning. Through study of both theoretical and applied statistics and through data analysis projects, students will gain knowledge in problem solving, statistical applications and data-based inferences. Emphasis is on developing the ability to approach real world problems and through the use of statistical methods to be able to analyze and to draw valid scientific inferences.

Before Graduating Students Must

• Complete an exam on the fundamentals of statistics, which will be 5% of your grade in STA 4211.
• Complete a data analysis project, which will be 10% of your grade in STA 4211.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, define and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

Critical Thinking
2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

Communication
3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

- Written and oral presentations

### Bachelor of Science
Statistics, the science of learning from data, has become increasingly important as scientists, businesses, and governments rely more and more on data-driven decision-making. Statisticians work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for statisticians and their expertise in the collection and analysis of data.

### About this Program
- **College**: Liberal Arts and Sciences (p. 1034)
- **Degrees**: Bachelor of Arts (p. 1596) | Bachelor of Science (p. 1601)
- **Credits for Degree**: 120
- **Contact**: Email (dathien@stat.ufl.edu?Subject=Statistics%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

### Department Information
The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

### Curriculum
- Actuarial Science Minor
- Combination Degrees
- Data Science
- Statistics
- Statistics Minor

Statistics majors learn how to design studies that effectively address the purpose of a research project and how to properly analyze the data collected in such studies. Core courses cover statistical methods applicable in a wide variety of settings (e.g., regression and design of experiments) as well as the conceptual and mathematical foundations of statistics. Other courses explore specific data types often encountered in practical settings. Statistics majors have the option to minor in actuarial science, a profession involving the statistical and financial practices of insurance.

Students who wish to major in statistics must consult a department advisor early in their programs.
Degrees

The College of Liberal Arts and Sciences offers the Bachelor of Science and the Bachelor of Arts in statistics.

Bachelor of Arts
Intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

Bachelor of Science
Intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

Coursework for the Major

Required Coursework for Both Degrees

The B.A. in statistics requires a minimum of 42 credits in statistics and related coursework. The B.S. in statistics requires a minimum of 49 credits in statistics and related coursework. It is important that the prerequisites of each class are met before the class is attempted.

Students must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 12 credit elective requirement, with the exception of MAC 2312 and MAC 2313 where students must receive a minimum grade of B-. Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313, in which students must receive a minimum grade of B-. A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and 2.67 on MAC 2312 and MAC 2313. The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA. A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

1. The course sequences, STA 4210-STA 4211 and STA 4321-STA 4322 should be completed by the end of the junior year.
2. Prerequisite: STA 4210.
3. Prerequisite: STA 4321.
4. Students pursuing the major must enroll in the restricted to STA majors only section of STA 4211.

Combination Degree Program

Superior students can earn both the bachelor’s and master’s degrees in a shorter time than typically would be possible by counting up to 12 credits of approved graduate courses toward both degrees. For information and application, contact the undergraduate or graduate coordinator.
Relevant Minors and/or Certificates
Statistics majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies.

Bachelor of Science
The B.S. is intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

\(^1\) Prerequisite: MHF 3202.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270501&track=01) may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- Complete MAC 1147 or higher-level calculus
- 2.0 UF GPA required

Semester 3
- Complete MAC 2311
- 2.0 UF GPA required

Semester 4
- Complete MAC 2312 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required
Semester 5
- Complete MAC 2313 and a programming elective or any STA course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6
- Complete Programming elective and MHF 3202 and STA 4210 and STA 4321
- 2.0 UF GPA required

Semester 7
- Complete MAS 4105 and STA 4211 and STA 4322
- 2.0 UF GPA required

Semester 8
- Complete STA 4504 and all remaining Statistics and Math and Sciences electives
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

MAC 2312, MAC 2313, MAS 4105, and the math elective count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Sustainability Studies

A Sustainability Studies major prepares students for global citizenship with a firm grounding in the natural sciences, the social sciences, and the humanities. Students in the major explore how to maintain ecological and environmental health, create economic welfare, and pursue social justice in a changing world. Sustainability studies students gain understanding of the ways in which these three goals are interdependent and explore how they best can be pursued over the long term on local, national, and global levels.

#### About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **Contact**: Email (advisor@advising.ufl.edu?Subject=Sustainability%20Studies%20Major)

To graduate with this major, students must complete all university, college, and major requirements.

#### Department Information

Sustainability Studies prepares students for global citizenship while providing a broad foundation of sustainability knowledge and professional skill sets. Students gain experience and put their learning to work in the capstone internship course, Sustainability in Action.

[Website](https://sustainability.clas.ufl.edu/)

### Curriculum

- Sustainability Studies
- Sustainability Studies Minor

Sustainability studies investigates the means to maintain environmental health, create economic welfare, and pursue social justice in a changing world. Students gain an understanding of the ways in which these three goals are interdependent and explore how they can best be pursued in the long term at local, national, and global levels.
Coursework

Students are required to complete 33 credits of sustainability studies coursework; 15 of these 33 credits must be at the 3000/4000 level. All courses must be completed with minimum grades of C and a minimum of 15 credits of sustainability studies courses must be completed at UF.

For more information about Sustainability Studies and listings of newly available Core Courses and Cluster Courses, please visit the program website. More Info (https://sustainability.clas.ufl.edu/)

Cluster Courses

Select six cluster courses with at least one course chosen from each of the four clusters:

- Cluster A: Ethics, Culture and Human Behavior
- Cluster B: Economics, Law and Policy
- Cluster C: Production Systems and the Built Environment
- Cluster D: Ecology and Environmental Stewardship

Total Credits 33

1 Four of the six courses (12 credits) must be taken at the 3000 level or higher

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1044).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=303301&track=01) may be used for transfer students.

Five courses required by the end of the fifth semester, selected from:

- IDS 2154; required in either semester 1 or 2
- 3 Sustainability Studies Core courses; one from each of the disciplinary areas
- 2 Sustainability Studies Cluster courses; one at the 3000 level or higher
Semester 1
• Complete IDS 2154 or one critical-tracking course
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete IDS 2154 or one critical-tracking course
• 2.0 GPA required for all critical-tracking courses
• 2.5 UF GPA required

Semester 3
• Complete 1 additional critical-tracking course
• 2.0 GPA required for all critical-tracking courses
• 2.75 UF GPA required

Semester 4
• Complete 1 additional critical-tracking course
• 2.0 GPA required for all critical-tracking courses
• 3.0 UF GPA required

Semester 5
• Complete 1 additional critical-tracking course
• 2.0 GPA required for all critical-tracking courses
• 3.0 UF GPA required

Semester 6
• Complete 1 additional critical-tracking course

Semester 7
• Complete 2 additional Cluster courses

Semester 8
• Complete 1 Cluster course
• Complete IDS 4942

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

| Total Credits | 120 |

1 Depending on the course(s) taken, the sustainability studies core courses and cluster courses may also meet the following general education categories: biological sciences, humanities, international, physical sciences, or social and behavioral sciences. If a general education category is met through a core or cluster course, the student may substitute elective credit where the GE requirement is listed in the model semester plan.

2 If BSC 2862 taken as natural science core course for major

3 If ECO 2013 not taken.

4 If GLY 2038 taken as natural science core course for major

Academic Learning Compact

The Bachelor of Arts in sustainability studies requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.
Before Graduating Students Must

- Complete a capstone or independent research project, present your results to a committee of the program’s faculty and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Define and explain sustainability scholarship, including natural scientific, social scientific and humanistic approaches.
2. Define and explain the relationship of sustainability to ethics, culture and human behavior; economics, law and policy; production systems and the built environment; ecology and environmental stewardship.

Critical Thinking
3. Critically assess sustainability principles and practices.

Communication
4. Effectively write and/or orally communicate a range of approaches, frameworks, principles and practices of sustainability.

Sustainability Studies Minor

The interdisciplinary Sustainability Studies minor benefits from the teaching and research of faculty in multiple departments and colleges, and complements any major.

About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 18 | Completed with minimum grades of C

Department Information

Sustainability Studies prepares students for global citizenship while providing a broad foundation of sustainability knowledge and professional skill sets. Students gain experience and put their learning to work in the capstone internship course, Sustainability in Action.

Select five approved electives with at least one from each cluster.  

- Cluster A: Ethics, Culture and Human Behavior
- Cluster B: Economics, Law and Policy
- Cluster C: Production Systems and the Built Environment
- Cluster D: Ecology and Environmental Stewardship

Total Credits: 18

1 A minimum of three courses of no fewer than three credits each must be at the 3000 level or above.

Students may apply to enroll in IDS 4942, a 3-credit capstone course that has a service learning, internship, or integrative research project component. If accepted into this capstone course students need only complete four cluster courses (12 credits), one from each of the four clusters.

Approved Cluster Courses

Courses for each cluster include those listed as approved cluster courses (p. 1034) for the sustainability studies major, plus the following options:

<table>

Teaching English as a Second Language Certificate

The Teaching English as a Second Language (TESL) certificate is for students who want to teach English as a second language to adults, overseas or in the US.

About this Program
- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 18 | Completed with minimum grades of C
- **More info**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Linguistics Department offers the Ph.D., M.A. (both thesis and non-thesis), B.A., and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level, and a SLAT (Second Language Acquisition and Teaching) certificate at the graduate level. We currently have almost 30 faculty (combining budgeted and affiliated personnel), well over 100 undergraduate majors, and approximately 40 graduate students.
Curriculum
- Combination Degrees
- Linguistics
- Linguistics Minor
- Teaching English as a Second Language Certificate
- Teaching English as a Second Language Minor

The certificate is open to students in any undergraduate program.

Students may earn either the TESL certificate or minor but not both.

## Required Courses

<table>

</tr>
</tbody>
</table>

Total Credits: 18

$^1$ Linguistics majors may count LIN 3010 and LIN 4721 toward both the major in linguistics and the TESL certificate.

$^2$ Prerequisite: completion of at least four of the courses above. Fifth course must be taken simultaneously with TSL 4940.

---

### Teaching English as a Second Language Minor

The Teaching English as a Second Language (TESL) minor is intended for undergraduates who might want to work in English language programs in the United States or abroad.

#### About this Program

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 15 | Completed with minimum grades of C
- **More Info**

#### Department Information

The Linguistics Department offers the Ph.D., M.A. (both thesis and non-thesis), B.A., and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level, and a SLAT (Second Language Acquisition and Teaching) certificate at the graduate level. We currently have almost 30 faculty (combining budgeted and affiliated personnel), well over 100 undergraduate majors, and approximately 40 graduate students.

Website ([https://lin.ufl.edu/](https://lin.ufl.edu/))
Theories and Politics of Sexuality Minor

Theories and Politics of Sexuality minor is useful for anyone who is curious about the place of sexuality and the institutions and practices organized around it (marriage, reproduction, the law, etc.) in life and culture.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Credits**: 18 | Completed with minimum grades of C

Center Information

The Center for Gender, Sexualities, and Women’s Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people’s lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

Curriculum

- Combination Degrees
- Linguistics
- Linguistics Minor
- Teaching English as a Second Language Certificate
- Teaching English as a Second Language Minor

Students pursuing the women's studies major are not eligible to receive the minor in theories and politics of sexuality (TPS).

- 18 credits of approved coursework
  - 3 credits of either WST 3603 or ENG 4844 (If a student wants to take both classes, one can count as an elective)
  - 15 credits of TPS approved electives as designated on the Women’s Studies website. See the Courses ([https://wst.ufl.edu/courses/](https://wst.ufl.edu/courses/)) page for listings each semester.
  - Students may count three credits of WST 2611 or WST 2612 or select Quest courses towards their elective credits for the minor; the remaining 15 credits must be at the 3000-level or above.

---

All work must be completed at UF. Only LIN 3010 and LIN 4721 may count toward both a linguistics major and a TESL minor. Students may earn either the TESL certificate or minor but not both.
• No more than three credits of independent study may apply to the minor.
• All courses must be passed with minimum grades of C except internships, which are taken S/U.
• Six transfer credits can apply toward the minor.
• Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Each semester, classes approved for this minor will be listed on the Women's Studies courses webpage and flagged TPS.

1. 3 credits of WST 2611 or WST 2612 may be substituted for one 3 credit 3000-level approved elective.

**Translation Studies Certificate**

The Translation Studies certificate prepares students with advanced foreign language proficiency to use these skills in the global marketplace. Learn the foundations of translation theory, and apply an array of tools, methods, and approaches to translation of a variety of texts. In the capstone project, the student translates a text in their area of expertise under the supervision of area, translation, and language specialists.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 1034)
- **Credits:** 12 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**Admission Requirements**

- An A- or higher in 3rd-year (advanced) language courses in Classics, LLC or SPS
  - OR: high score of proficiency on a standardized language exam or equivalent
- At least one writing enhanced course
- Informal recommendation from language instructor willing to oversee capstone project
- Informal recommendation from instructor in student’s major willing to oversee capstone project

Women's Studies

Women's Studies explores the ways gender impacts people's lives as it intersects with other systems of power such as race, class, and sexuality. The program draws on interdisciplinary scholarship to promote equity and social justice while deepening students' critical thinking and analytical skills. Students take courses taught by award-winning faculty in the Center for Gender, Sexualities, and Women's Studies Research, and may take approved courses offered in departments across the university as electives. There are also opportunities to engage in experiential learning through internships and mentored research.

About this Program
- College: Liberal Arts and Sciences (p. 1034)
- Degree: Bachelor of Arts
- Concentrations: General Concentration | International Perspectives on Gender | Theories and Politics of Sexuality
- Credits for Degree: 120
- More info

To graduate with this major, students must complete all university, college, and major requirements.

Center Information
The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people's lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

CONTACT
Email (undergrad@wst.ufl.edu) | 352.392.3365 (tel) | 352.392.4873 (fax)
Students may elect to follow the general concentration in the major or choose one of the specialized concentrations: International Perspectives on Gender or Theories and Politics of Sexuality. Minors are available in Women's Studies, Theories and Politics of Sexuality, and Health Disparities in Society. All the courses of study offer a rigorous academic curriculum, along with exciting experiential learning opportunities. The major culminates in an independent capstone project.

Women's Studies majors complete their degrees ready to make competitive applications to graduate and professional school, or to pursue careers in a wide variety of fields, including education, journalism, community activism, arts and entertainment, international relations, and the helping professions. Students should refer to the department website and contact the Women's Studies undergraduate coordinator (undergrad@wst.ufl.edu) for a complete course listing.

Prereq.: WST 3015

A minimum of 18 credits for the major must be taken at UF.

Combination Degree Programs

Women's studies is an interdisciplinary field. The undergraduate and masters level programs provide general training in critical thinking, written and oral communication, and specific training in analysis of gender and interlocking systems of oppression including race, class, and sexualities. The combination B.A./M.A. degree offers a useful program for well-qualified students who may want careers in social service, law, business, education, policy planning, government and nongovernment organizations, and international development. Some MA recipients also choose to pursue further studies in a Ph.D. program once they graduate.

More info (http://wst.ufl.edu/undergraduate-studies/bama-degree/)
Concentrations

General Concentration

Students in the general concentration tailor their coursework for maximum exposure to the various issues covered by Women's Studies scholarship. In addition to the core requirements, students take nine credits of approved electives focused on humanities, nine credits of approved electives focused on social science, and three credits of a gender and science-focused course or an internship (WST 4940).

International Perspectives on Gender

This concentration emphasizes the experiences of people around the globe, with an eye to achieving a cross-cultural perspective on gender, race, nation, power, sexuality, and the way social and cultural changes impact gender relations. In addition to the core requirements, students must take at least 21 credits from an approved list of IPG electives available on the Women's Studies website, updated each semester.

More Info (https://wst.ufl.edu/courses/)

Theories and Politics of Sexuality

This concentration introduces students to new ways of theorizing sex, sexual identities, and the significance of sexualities in social organization as they intersect with race and other systems of power. In addition to taking the three core requirements, students take a required three-credit sexualities course, either ENG 4844 or WST 3603. The remaining 18 credits are drawn from an approved list of TPS electives available on the Women's Studies website, updated each semester.

More Info (https://wst.ufl.edu/courses/)

Course Details

The core courses in women's studies give coherence to the plan of study that individual students devise.

- WST 3015 Interdisciplinary Perspectives in Women's Studies draws on various materials and methodologies to explore the social construction of gender as it intersects with other forms of power, primarily with a U.S. focus.
- WST 3415 Transnational Feminism introduces theories of gender and social change engendered by women in diverse national and international contexts. Contemporary economic development, reproductive politics, women's health, and migration are among the examined topics.
- WST 4935 Capstone Seminar is taken in the final year and allows students to reflect on their experience in the major and carry their interests forward through structured independent research tied to their scholarly or career interests.
- Students in the Theories and Politics of Sexualities concentration take an additional core course (WST 3603 or ENG 4844) that introduces them to key issues in contemporary Sexualities Studies.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=050207&track=01) may be used for transfer students.

Women's studies is a flexible major without a specific gateway course or prerequisites for upper-division courses. In addition to maintaining a 2.0 overall UF GPA and a 2.5 critical-tracking GPA, students should have four women's studies courses (three at the 3000 level) completed by the fifth semester. It is required that one of these 3000-level courses be WST 3015 or WST 3415, and it is highly recommended that students take WST 3015 or WST 3415 in semester 4. Additionally, it is highly recommend that students complete both WST 3015 and WST 3415 by semester 5.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one women's studies course
- 2.0 UF GPA required
Semester 4
• Complete 1 additional women's studies course at the 3000 level (WST 3015 or WST 3415 recommended) with a 2.5 critical-tracking GPA
  • 2.0 UF GPA required

Semester 5
• Complete 2 additional women's studies courses at the 3000 level, including WST 3015 or WST 3415, with a 2.5 critical-tracking GPA. At least three of the four courses taken must be at the 3000 level or higher.
  • 2.0 UF GPA required

Semester 6
• Complete 2 additional women's studies courses at the 3000 or 4000 level (recommendations: remaining 3000-level core course if not taken yet, WST 4940 or Gender and Science designated course). At least five of the six courses taken must be at the 3000-level or higher.
  • 2.0 UF GPA required

Semester 7
• Complete 2 additional women's studies courses at the 3000 or 4000 level (recommendations: remaining 3000-level core course if not taken yet, WST 4940 or Gender and Science designated course). At least seven of the eight courses taken must be at the 3000-level or higher.
  • 2.0 UF GPA required

Semester 8
• Complete 2 additional women's studies courses at the 3000 level, (this must include any remaining core courses: WST 3015, WST 3415, WST 4940 or alternate, WST 4935, and any remaining Women's Studies humanities or social science electives). At least nine of the ten courses taken must be at the 3000-level or higher.
  • 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S).

Approved Women's Studies and gender-related courses may not count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Arts in women and gender studies provides knowledge of the core concepts of the interdisciplinary fields of gender and women's studies. It offers insights into gender's role in shaping human experience in U.S. and international contexts. Students will learn the theories behind gender and women's studies and how to interpret texts in light of those theories. They will also learn the field's research methods and they will demonstrate the ability to communicate critical perspectives in the field.

Before Graduating Students Must

• Satisfactorily complete an internship with an outside agency, a service learning course or a research-based project submitted for evaluation to core or affiliated women's studies faculty. Assessment will be based on SLOs 1-3.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify the terminology and concepts central to the interdisciplinary field of gender and women's students.
Critical Thinking
2. Examine and interpret material using the theory and research methods of gender and women's studies and apply these ideas to current social issues.

Communication
3. Present ideas concerning gender and women's studies in spoken and written form.

Women's Studies Minor
Women's Studies explores the ways gender impacts people's lives as it intersects with other systems of power such as race, class, and sexuality. The minor draws on interdisciplinary scholarship to promote equity and social justice while deepening students' critical thinking and analytical skills. Students take courses taught by award-winning faculty in the Center for Gender, Sexualities, and Women's Studies Research, and may take approved courses offered in departments across the university as electives. There are also opportunities to engage in experiential learning through internships and mentored research. The minor is open to students from across the university, including those outside the College of Liberal Arts and Sciences.

About this Program
- College: Liberal Arts and Sciences (p. 1034)
- Credits: 18 | Completed with minimum grades of C

Center Information
The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people's lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems

Curriculum
- Combination Degrees
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Women's Studies
- Women's Studies Minor
Requirements

- No more than three credits of independent study or internship may apply to the minor.
- All courses must be completed with minimum grades of C except internships, which are taken S/U.
- Six transfer credits can apply toward the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Each semester, classes approved for this minor will be listed on the Women's Studies courses webpage.

1 3 credits of WST 2611 or WST 2612 or approved Quest courses may be substituted for one 3 credit 3000-level approved elective.

Zoology

Zoology majors focus on the study of individual organisms and populations, as well as their relationships to each other and the environment, with the core foundation of evolution and ecology. Courses also emphasize the disciplines of anatomy, behavior, genetics, physiology, and other specialized fields.

About this Program

- **College**: Liberal Arts and Sciences (p. 1034)
- **Degree**: Bachelor of Science
- **Credits for Degree**: 120
- **More info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

- Zoology Minor
Courses introduce zoology majors to a wide variety of topics while allowing individual interests to be pursued. Advanced undergraduate students are encouraged to participate in research with faculty.

Most career opportunities require advanced studies beyond the bachelor's degree. This includes preparation for graduate studies or employment in disciplines such as zoology, ecology, conservation, and biology research; preparation for medical, dental, or veterinary programs; or preparation for secondary-school teaching.

Ultimately, the undergraduate degree in zoology will be shaped by students’ coursework, laboratory experience, field work, and the instructors they encounter. These experiences will help to shape their goals as biologists with a focus on zoology.

Majors should work both with a department advisor and a CLAS advisor. CLAS advisors will assist with degree requirements, university and college policy and course selection. Department advisors will help students select appropriate graduate programs, guide them in the admissions process, and help identify appropriate career choices.

More Info (https://biology.ufl.edu/undergraduates/zoology/)

## Coursework for the Major

A zoology major consists of a minimum of 32 credits of core zoology coursework plus a minimum of 31 credits of foundation coursework in chemistry, physics, and mathematics/statistics. Courses used toward the major must be completed with minimum grades of C.

<table>

Zoology or zoology-related electives | 20 |

Select at least three courses in zoology:

- BSC 3402 | Theory and Practice in the Biological Sciences | 4 |
- BSC 4936 | Critical Analysis of Biological Research | 4 |
- PCB 4043C | General Ecology | 4 |
- PCB 4674 | Evolution | 4 |
- PCB 4723C | Physiology and Molecular Biology of Animals | 4 |
- PCB 5415C | Behavioral Ecology | 4 |

Additional zoology courses (minimum) | 11 |

**Total Credits**: 83-87
Students may not apply ZOO 4232, ZOO 4905, ZOO 4911, or ZOO 4940 toward this requirement.

Including up to two zoology major-approved biological science courses (https://biology.ufl.edu/undergraduates/approvedcourses/) (3000/5000 level) outside of zoology.

Up to six credits of Individual Studies in Zoology will count toward this requirement:

• BOT 4911
• BSC 4910
• BSC 4912
• ZOO 4905
• ZOO 4911

Students should begin the chemistry and math sequences as soon as possible. A full year of calculus and a course in statistics (such as STA 2023) are highly recommended.

Transfer students must take at least three courses from the Department of Biology (excluding ZOO 4905, ZOO 4911, and ZOO 4940) at the University of Florida as part of the requirements for the major.

### Additional Zoology Courses

<table>

<td>3</td>
<td></td>
</tr>
<tr>
<td>BSC 3911</td>
<td>Entering Research in Biology</td>
<td>1</td>
</tr>
</tbody>
</table>

Up to six credits of Individual Studies in Zoology will count toward this requirement:

• BOT 4911
• BSC 4910
• BSC 4912
• ZOO 4905
• ZOO 4911

Students may not apply ZOO 4232 or ZOO 4940 toward this requirement.

### Relevant Minors and/or Certificates

Majors in zoology can minor in most other disciplines, and this is a good way to organize students’ electives around areas of interest. For instance, a zoology major can earn a minor in chemistry by adding just two chemistry courses: CHM 3400, CHM 3610, or any 4000-level CHM course. Students could also consider language and humanities minors. Note that zoology majors cannot minor in biology, nor can biology majors minor in zoology (the curricula for the zoology and biology majors are too similar).

Zoology students might want to consider the UFTeach Program. There is a severe shortage of qualified high school science teachers in Florida and nationwide. Students interested in the high-demand teaching profession should see a biology department advisor or the UFTeach advisor. Students who complete the UFTeach minor in science teaching and a B.S. in zoology will have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (https://education.ufl.edu/uf-teach/)

### Research

All zoology majors are strongly encouraged to participate in research. Research experience is valuable on many levels: it diversifies your college experience; it teaches you how scientists apply the knowledge gained in the classroom to real-world questions; it gives you the opportunity to work with and get to know researchers who are the best in their field; it introduces you to cutting-edge scientific questions and techniques; it enhances your resume/CV if you apply to graduate or professional school; and finally, it is essential in helping you determine if science is a good career choice for you.

More Info (https://biology.ufl.edu/undergraduates/research/)

CLAS zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, HHMI Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Please visit Undergraduate Research for more information regarding course credit. Students who plan to enroll for course credit must contact potential research mentors before the end of drop/add. If they miss the drop/add window, they should still contact potential research mentors, if only to discuss upcoming opportunities.

More Info (https://cur.aa.ufl.edu/)
Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260701&track=01) may be used for transfer students.

Semester 1

- Complete one of the following in BSC, CHM, or MAC: BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1114, MAC 1140, MAC 1147, or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete at least one 3000/4000 level course towards the required core coursework (3000/4000 level ZOO course, PCB 3063, BSC 3402, PCB 4043C, PCB 4674, PCB 5415C, PCB 4723C, or approved biological science course)
- 2.0 UF GPA required

Semester 7

- Complete Physics I requirement: PHY 2053 PHY 2053L or PHY 2048/PHY 2048L
- Complete at least two 3000/4000 level courses towards the required core coursework
- 2.0 UF GPA required

Semester 8

- Complete all remaining major course requirements.
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Approved Zoology electives outside of the department may not count towards the 3000 level or above elective outside of the major requirement. CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 Select CHM 2211 if CHM 2210 was taken Semester 3.

Academic Learning Compact
The Bachelor of Science in zoology offers students an education in the life sciences with an emphasis on animal systems. Students gain knowledge about the diversity of life (its evolution and significance) and about the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). They will learn about the scientific method and how it facilitates the discovery of new knowledge in zoology and biology. This includes how to critically evaluate hypotheses and conclusions in science using verifiable data and how to clearly and effectively communicate the major concepts and hypotheses in zoology and biology and in an appropriate style of presentation.

Before Graduating Students Must
- Pass an assessment in the two or three 3000/5000-level zoology courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

**Total Credits**

17-18
Minimum of three courses and nine credits; must include at least one ZOO course. Not all PCB and ZOO courses are offered by the Department of Biology. Students should search “Zoology” or “Biological Sciences” on https://one.uf.edu/soc/ to ensure that their desired courses are in the correct department. Excluding PCB 1050, PCB 1051, PCB 2050, PCB 2441, PCB 3134, PCB 3601C, PCB 4233, PCB 4522, PCB 4917, ZOO 4232, and any other courses not offered by the Department of Biology.

### Natural Resources and Environment, School of

The School of Natural Resources and Environment provides interdisciplinary environmental degree programs and develops leaders with integrated thinking about natural and social systems. The school's undergraduate curriculum spans the range of human knowledge needed to solve complex environmental problems not amenable to narrowly based solutions.

### Contact

103 Black Hall

### Established

1995

### Degrees

Bachelor of Science in environmental science with specializations in environmental science and natural resource management, and a Bachelor of Arts in environmental science with specializations in environmental education, environmental policy and environmental policy and business.

### Internships and Career Guidance

The dean's office maintains a list of potential sources of internships. The school grants course credit for internships (S-U grades, 1-3 credits, one per semester up to a maximum of three semesters) to enable maintenance of student status.

### Programs

The school operates horizontally across UF’s structure of academic disciplines, offering more than 200 courses taught in 50 departments. Faculty members from these departments are affiliated with the school.

### Scholarships

General financial aid information is available from the Office of Student Financial Affairs. Students are eligible for scholarships awarded by the College of Agricultural and Life Sciences. [More Info](http://cals.ufl.edu/students/scholarships.php)

### Helpful Links

- School Website ([http://snre.ufl.edu/](http://snre.ufl.edu/))
- Combination Degrees (p. 1747)
- Computer Requirement ([http://www.it.ufl.edu/policies/student-computing-requirements/](http://www.it.ufl.edu/policies/student-computing-requirements/))

### Academic Policies

### Admission Requirements

Admission requirements for freshmen and students other than first-semester freshmen are found in the College of Agricultural and Life Sciences’ Academic Policies.
School Requirements and Regulations

Students admitted to the school have full responsibility for registering for appropriate courses and fulfilling school and university requirements. During their first term in the school, students must obtain academic advising and a plan of study worksheet from 103 Black Hall.

Students should review the relevant information in this catalog each term to track and plan the progress of their academic work. Failure to understand and follow these guidelines could cause unnecessary hardship, delay and expense.

Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Probation

Refer to the College of Agricultural and Life Sciences' Academic Policies.

Degree Requirements

Graduation requires satisfactory completion of 120 credits for the B.S. or B.A. degree and a cumulative 2.00 GPA in both the upper-division and the overall UF GPA.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

Programs

MAJORS

• Combination Degrees
• Environmental Science

MINORS

• Environmental Science Minor

Combination Degrees

Eligible seniors in the School of Natural Resources and Environment can also participate in a combination degree that combines a B.A./B.S. in environmental science with a Master of Science in interdisciplinary ecology.

More Info (p. 1747)

Environmental Science

Environmental Science is the study of people's role in our natural systems. Using an interdisciplinary approach, the Environmental Science program approaches complex environmental issues across multiple perspectives. Environmental Science students study ecology, soil and water sciences, and natural resource management as well as environmental ethics, economics, policy, and law.

About this Program

• **College**: Agricultural and Life Sciences (p. 113)
• **School**: Natural Resources and Environment (p. 1633)
• **Degrees**: Bachelor of Arts (p. 1638) | Bachelor of Science (p. 1645)
• **Credits for Degree**: 120
• **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.

Website (http://snre.ifas.ufl.edu/)

CONTACT

Email (kbray@ufl.edu) | 352.392.9230

P.O. Box 116455
103 BLACK HALL
The environmental science degree approaches complex environmental issues with reliable knowledge and interdisciplinary perspectives, and provides the full range of knowledge relevant to complex environmental problems. This includes biological and physical sciences, ethics, economics, policy and law.

The degree prepares graduates for jobs in environmental consulting companies, government environmental offices or land and water management agencies, or non-government organizations. About one-third of environmental science students advance to graduate or professional degree programs. The combination of the school’s broad undergraduate degree with a subsequent degree is highly marketable.

The school also offers a combination-degree program offering a bachelor’s degree in environmental science and a Master of Science in interdisciplinary ecology.

**Core Requirements for Both Degrees**

Students take a core of courses, including a general course in environmental science and courses in ethics, ecology, chemistry, earth science, global science, hydrologic systems, and policy and natural resource management.

The core provides 31-32 credits of coursework in physical, biological and social sciences. The B.S. and B.A. tracks are similar. The B.S. includes one course in policy and one in organic chemistry; the B.A. includes two policy courses and no organic chemistry.

Beyond the core requirement, each student selects 21-27 additional credits from electives for the major. During the fourth year, all students take a capstone course where critical thinking skills are developed.

The freshmen and sophomore years lay a foundation of coursework for building later expertise. Students need to know the natural sciences of physics, chemistry and biology, with laboratory experience in each area. Study of microeconomics and macroeconomics is required to understand the human economy. Introductory statistics empowers students to independently evaluate sets of numbers. College algebra and an introduction to calculus enable students to work with rates of change, the heart of ecological science.

Coursework in the core of the major provides a base of common knowledge and experience in subjects essential to environmental science. Then students diverge into electives chosen according to individual interest. Senior-year students return to a common course that develops critical-thinking skills by confronting conflicts of ecological and economic paradigms, synthesizing across physical, biological and social systems, and engaging diverse knowledge and views to help resolve key environmental problems.

The preprofessional courses for the Bachelor of Science prepare students for a more science-oriented major. The requirements for the Bachelor of Arts include less chemistry, physics and mathematics, in preparation for a major that is more focused on the sociopolitical aspects of environmental science.

---

1 If taken from one group, this course does not satisfy the requirement for a course from the other group.

---

**Preprofessional Requirements for Both Degrees**

Each student must fulfill preprofessional requirements that differ slightly for the B.S. and B.A. degrees. These consist of courses in chemistry, physics, biology, calculus, statistics and economics, totaling 39-46 (typically 43) credits for the B.S. and 31-39 (typically 34) credits for the B.A.

In addition to the preprofessional requirements, all students are responsible for completing the university's general education and the writing requirement.
Certain preprofessional requirements simultaneously satisfy 18-21 credits (depending on courses selected) of the general education mathematics, physics, biology, and social and behavioral science. Remaining general education requirements include 15-18 credits (depending on preprofessional courses taken) in composition, humanities and social and behavioral sciences.

The 12 credits of writing requirements include 3-12 credits taken for general education and preprofessional requirements, depending on selections. The six credits of math requirements are satisfied by preprofessional requirements.

For efficiency, freshmen should seek to maximize overlap of preprofessional requirements with general education and the writing requirement, as outlined below:

- Science preprofessional requirements satisfy up to 12 credits of physical and biological sciences (the basic nine-credit requirement plus the variable three credits from a category). Students should allocate the variable three credits to physical and biological sciences to reduce the humanities requirement from nine to six credits.
- Economics preprofessional requirements satisfy up to eight of the nine-credit social and behavioral sciences requirement (eight if satisfied with ECO 2013 and ECO 2023; four if satisfied with AEB 3103).
- Policy preprofessional requirement (POS 2041) for B.A. students satisfies the remaining social and behavioral sciences requirement. B.S. students can satisfy the remaining social and behavioral sciences requirement with certain core courses, under ethics (AEB 4126) and policy.
- Satisfying the preceding requirements leaves 18 credits: six for humanities, three for composition and nine for writing.
- Students should take humanities, composition and writing courses that also satisfy the three-credit international studies requirement, such as LIT 2110 or LIT 2120, and the three-credit diversity requirement with a REL 2388 or WST 2611 overlap.

Academic Learning Compact

Environmental science is the science of humanity’s role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.

Before Graduating Students Must

- Complete at least one course in each of the foundation areas.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Acquire knowledge and demonstrate understanding of basic terminology, concepts, methodologies and theories in the physical and biological sciences that describe environmental systems.
2. Acquire knowledge of essential concepts in the social sciences that describe human activity in the environment.

Critical Thinking

3. Apply the scientific method to develop reasoned solutions to environmental problems.

Communication

4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in both written and oral forms.

1. If taken from one group, this course does not satisfy the requirement for a course from the other group.

### Preprofessional Requirements for Both Degrees

Each student must fulfill preprofessional requirements that differ slightly for the B.S. and B.A. degrees. These consist of courses in chemistry, physics, biology, calculus, statistics and economics, totaling 39-46 (typically 43) credits for the B.S. and 31-39 (typically 34) credits for the B.A.

In addition to the preprofessional requirements, all students are responsible for completing the university's general education and the writing requirement.

Certain preprofessional requirements simultaneously satisfy 18-21 credits (depending on courses selected) of the general education mathematics, physics, biology, and social and behavioral science. Remaining general education requirements include 15-18 credits (depending on preprofessional courses taken) in composition, humanities and social and behavioral sciences.

The 12 credits of writing requirements include 3-12 credits taken for general education and preprofessional requirements, depending on selections. The six credits of math requirements are satisfied by preprofessional requirements.

For efficiency, freshmen should seek to maximize overlap of preprofessional requirements with general education and the writing requirement, as outlined below:

- Science preprofessional requirements satisfy up to 12 credits of physical and biological sciences (the basic nine-credit requirement plus the variable three credits from a category). Students should allocate the variable three credits to physical and biological sciences to reduce the humanities requirement from nine to six credits.
- Economics preprofessional requirements satisfy up to eight of the nine-credit social and behavioral sciences requirement (eight if satisfied with ECO 2013 and ECO 2023; four if satisfied with AEB 4126) and policy.
- Policy preprofessional requirement (POS 2041) for B.A. students satisfies the remaining social and behavioral sciences requirement. B.S. students can satisfy the remaining social and behavioral sciences requirement with certain core courses, under ethics (AEB 4126) and policy.
- Satisfying the preceding requirements leaves 18 credits: six for humanities, three for composition and nine for writing.
- Students should take humanities, composition and writing courses that also satisfy the three-credit international studies requirement, such as LIT 2110 or LIT 2120, and the three-credit diversity requirement with a REL 2388 or WST 2611 overlap.

### Bachelor of Arts

The Bachelor of Arts degree in environmental science focuses on the social sciences that connect the natural sciences and engineering to society.

Electives in the areas of policy, law, public administration and resource economics make this the preferred specialization for students interested in advancing to law school or to the policy aspects of environmental consulting and public agency work.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030104&track=01) may be used for transfer students.

Semester 1

- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 9 critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete at least 2 core classes
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete at least 2 core classes
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete EVS 4021 (capstone) and the remaining courses for the degree
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

If students take MAC 1140 and MAC 1114 in place of MAC 1147, the extra credits count toward the degree as electives.

If CHM 1025 was taken in preparation for CHM 2045, the extra credits count toward the degree.

These courses may be used as substitutes:
- PHY 2053 for PHY 2020 or PHY 2004.

From master list.

### Approved Electives

**9 courses | 27 credits**

Students can substitute appropriate graduate courses for electives, with approval of the school and permission of the instructor. To substitute a 5000-level course or higher, the student must have senior standing and a minimum junior/senior-level GPA of 3.0.

\(^1\) If this course was taken to fulfill the core requirement, it cannot fulfill the elective requirement. Students must select a substitution from the electives for the major.

---

**Academic Learning Compact**

Environmental science is the science of humanity’s role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.
Before Graduating Students Must
• Complete at least one course in each of the foundation areas.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Acquire knowledge and demonstrate understanding of basic terminology, concepts, methodologies and theories in the physical and biological sciences that describe environmental systems.
2. Acquire knowledge of essential concepts in the social sciences that describe human activity in the environment.

Critical Thinking
3. Apply the scientific method to develop reasoned solutions to environmental problems.

Communication
4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in both written and oral forms.

Bachelor of Science
Environmental Science is the study of people’s role in our natural systems. Using an interdisciplinary approach, the Environmental Science program approaches complex environmental issues across multiple perspectives. Environmental Science students study ecology, soil and water sciences, and natural resource management as well as environmental ethics, economics, policy, and law.

About this Program
• College: Agricultural and Life Sciences (p. 113)
• School: Natural Resources and Environment (p. 1633)
• Degrees: Bachelor of Arts (p. 1638) | Bachelor of Science (p. 1645)
• Credits for Degree: 120
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

School Information
The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.

Website (http://snre.ifas.ufl.edu/)
The environmental science degree approaches complex environmental issues with reliable knowledge and interdisciplinary perspectives, and provides the full range of knowledge relevant to complex environmental problems. This includes biological and physical sciences, ethics, economics, policy and law.

The degree prepares graduates for jobs in environmental consulting companies, government environmental offices or land and water management agencies, or non-government organizations. About one-third of environmental science students advance to graduate or professional degree programs. The combination of the school’s broad undergraduate degree with a subsequent degree is highly marketable.

The school also offers a combination-degree program offering a bachelor’s degree in environmental science and a Master of Science in interdisciplinary ecology.

Core Requirements for Both Degrees

Students take a core of courses, including a general course in environmental science and courses in ethics, ecology, chemistry, earth science, global science, hydrologic systems, and policy and natural resource management.

The core provides 31-32 credits of coursework in physical, biological and social sciences. The B.S. and B.A. tracks are similar. The B.S. includes one course in policy and one in organic chemistry; the B.A. includes two policy courses and no organic chemistry.

Beyond the core requirement, each student selects 21-27 additional credits from electives for the major. During the fourth year, all students take a capstone course where critical thinking skills are developed.

The freshmen and sophomore years lay a foundation of coursework for building later expertise. Students need to know the natural sciences of physics, chemistry and biology, with laboratory experience in each area. Study of microeconomics and macroeconomics are required to understand the human economy. Introductory statistics empowers students to independently evaluate sets of numbers. College algebra and an introduction to calculus enable students to work with rates of change, the heart of ecological science.

Coursework in the core of the major provides a base of common knowledge and experience in subjects essential to environmental science. Then students diverge into electives chosen according to individual interest. Senior-year students return to a common course that develops critical-thinking skills by confronting conflicts of ecological and economic paradigms, synthesizing across physical, biological and social systems, and engaging diverse knowledge and views to help resolve key environmental problems.

The preprofessional courses for the Bachelor of Science prepare students for a more science-oriented major. The requirements for the Bachelor of Arts include less chemistry, physics and mathematics, in preparation for a major that is more focused on the sociopolitical aspects of environmental science.

</table>

**Total Credits:** **28-38**

¹ If taken from one group, this course does not satisfy the requirement for a course from the other group.
Preprofessional Requirements for Both Degrees

Each student must fulfill preprofessional requirements that differ slightly for the B.S. and B.A. degrees. These consist of courses in chemistry, physics, biology, calculus, statistics and economics, totaling 39-46 (typically 43) credits for the B.S. and 31-39 (typically 34) credits for the B.A.

In addition to the preprofessional requirements, all students are responsible for completing the university's general education and the writing requirement.

Certain preprofessional requirements simultaneously satisfy 18-21 credits (depending on courses selected) of the general education mathematics, physics, biology, and social and behavioral science. Remaining general education requirements include 15-18 credits (depending on preprofessional courses taken) in composition, humanities and social and behavioral sciences.

The 12 credits of writing requirements include 3-12 credits taken for general education and preprofessional requirements, depending on selections. The six credits of math requirements are satisfied by preprofessional requirements.

For efficiency, freshmen should seek to maximize overlap of preprofessional requirements with general education and the writing requirement, as outlined below:

- Science preprofessional requirements satisfy up to 12 credits of physical and biological sciences (the basic nine-credit requirement plus the variable three credits from a category). Students should allocate the variable three credits to physical and biological sciences to reduce the humanities requirement from nine to six credits.
- Economics preprofessional requirements satisfy up to eight of the nine-credit social and behavioral sciences requirement (eight if satisfied with ECO 2013 and ECO 2023; four if satisfied with AEB 3103).
- Policy preprofessional requirement (POS 2041) for B.A. students satisfies the remaining social and behavioral sciences requirement. B.S. students can satisfy the remaining social and behavioral sciences requirement with certain core courses, under ethics (AEB 4126) and policy.
- Satisfying the preceding requirements leaves 18 credits: six for humanities, three for composition and nine for writing.
- Students should take humanities, composition and writing courses that also satisfy the three-credit international studies requirement, such as LIT 2110 or LIT 2120, and the three-credit diversity requirement with a REL 2388 or WST 2611 overlap.

Bachelor of Science

The Bachelor of Science degree in environmental science emphasizes the applied sciences and the basic sciences from which they derive. The track is designed to prepare for employment or for graduate or professional school.

Elective courses required beyond the core requirements are distributed among four categories: physical sciences, biological sciences, human dimensions and additional skills and concepts. For advice on choice of electives, consult the advisor in 103 Black Hall. Students pursuing the Bachelor of Science who want more environmental policy electives can substitute them for the courses in human dimensions.

Courses taken to fulfill the core requirements cannot fulfill elective requirements. Students can substitute graduate courses for electives, with approval of the school and permission of the instructor. To substitute a 5000-level course or higher, the student must have senior standing and a junior/senior-level GPA of at least 3.0.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030104&track=01) may be used for transfer students.

Semester 1

- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 3 additional courses of the 11 critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 3
• Complete 3 additional critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 3 additional critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete all 11 critical-tracking courses, including labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required
• 2.0 upper division GPA required

Semester 6
• Complete at least 2 core classes
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 7
• Complete EVS 4021 (capstone)
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 8
• Complete the remaining core classes
• 2.0 upper division GPA required
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

<td>14</td>
</tr>
</tbody>
</table>

### Total Credits

| Credits | 120 |

1. If CHM 1025 was taken in preparation for CHM 2045, the extra credits count toward the degree.
2. If students precede this sequence with MAC 1114 and MAC 1140 or MAC 1147, the extra credits count as electives toward the degree. Students can substitute MAC 2233 and MAC 2234 for MAC 2311 and MAC 2312, but this may preclude access to certain courses.
3. These courses may be used as substitutes:
   - PHY 2053 and PHY 2053L for PHY 2004 and PHY 2004L;
   - PHY 2054 and PHY 2054L for PHY 2005 and PHY 2005L.
4. From master list.

*Students preparing for science modeling in graduate school should take MAP 2302 as an elective.*
## Approved Electives

### Select According to Concentrations

#### No Concentration | 21 credits

If the course was taken to fulfill the core requirement, it cannot fulfill the elective requirement.

Academic Learning Compact

Environmental science is the science of humanity’s role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.

Before Graduating Students Must

- Complete at least one course in each of the foundation areas.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Acquire knowledge and demonstrate understanding of basic terminology, concepts, methodologies and theories in the physical and biological sciences that describe environmental systems.

2. Acquire knowledge of essential concepts in the social sciences that describe human activity in the environment.
Critical Thinking
3. Apply the scientific method to develop reasoned solutions to environmental problems.

Communication
4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in both written and oral forms.

Environmental Science Minor

The Environmental Science minor is intended for majors in science, engineering or business, providing exposure to the major subject areas of the environmental core.

About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **School:** Natural Resources and Environment (p. 1633)
- **Credits:** 15-17 | Completed with minimum grades of C

School Information

The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.

[Website](http://snre.ifas.ufl.edu/)

Curriculum

- Combination Degrees
- Environmental Science
- Environmental Science Minor

Students outside the School of Natural Resources and Environment can apply for admission to the minor as long as they earn 45 credits before applying. The application is available in 2020 McCarty Hall D. Students first must obtain their college’s approval before submitting the completed form for processing.
Transfer work will be accepted only for PCB 4043C and an earth and soil systems course (refer to core requirements for the major). Admission consideration requires a minimum overall 2.0 GPA on all UF coursework attempted.

### Required Courses

Nursing, College of

The College of Nursing is recognized nationally and internationally for innovative education, dynamic programs of research and creative approaches to practice. Gator Nurses are prepared for leadership as clinicians, scientists and educators who reflect and care for a diverse society; foster interdisciplinary collaboration; and improve the health of individuals, families and communities.

Health Science Center, University of Florida
Gainesville, FL 32611-5703

Established

1956

Accredited

Degree programs approved by the Florida State Board of Nursing and accredited by the Commission on Collegiate Nursing Education.

Academic Advising

Students interested in a career in nursing should contact the Office of Student Affairs for advising before they submit an application for admission.

Degrees

Bachelor of Science in Nursing (BSN) with three track options: traditional, accelerated, and RN-BSN. The college also offers a Doctor of Nursing Practice (DNP) and a Doctor of Philosophy (PhD) in nursing science.

Training Opportunities

The colleges of the Health Science Center and their associated healthcare delivery networks provide students access to an integrated system of community hospitals and clinics, statewide home health care, a veterans’ health system and UF Health Shands Hospital. The College of Nursing maintains and participates in nursing and interdisciplinary care across the lifespan including women, children, adults, and the elderly with special emphasis on under-served and rural populations.

Academic Policies

Admission to the College

More Info (https://admissions.nursing.ufl.edu/)

Students planning to enter the Traditional BSN program must complete general education and pre-professional requirements by the end of spring semester of the sophomore year. Standards for continuation are established for nursing majors and continuing students are monitored by the college.
Degree audits identify progress toward the degree and are posted on ONE.UF (https://one.uf.edu/) after the fall and spring semesters. Critical-tracking criteria are outlined in the curriculum plans.

Students who desire to change their major to nursing should do so by the completion of their first academic year.

The college's online application for admission to upper-division coursework must be made by the March 1 deadline. Students will be admitted after spring grades have been posted.

Admission evaluation factors include, but are not limited to, academic record, cumulative grade point average, performance in pre-professional courses, the extent to which the applicant exceeds minimum requirements, relevant student attributes, experiences, and career goals.

Students begin upper-division nursing studies in the fall semester of the junior year.

**Limited-Access Program**

The University of Florida's baccalaureate nursing curriculum is a high-demand, limited-access program. Enrollment is limited because of the high cost for program delivery as well as limited availability of clinical learning facilities and limited availability of qualified faculty necessary to maintain appropriate faculty-to-student ratios in all clinical areas. Because of limited enrollment and the number of applications, many qualified applicants are unable to be admitted to the College of Nursing's upper-division nursing courses.

**Minimum Application Requirements for Native UF Students**

- Completed 60 credits of required preprofessional and general education courses by the end of the spring semester prior to admission
- Minimum GPA of 3.0 (on a 4.0 scale) overall and for preprofessional courses
- Minimum grades of C in all required preprofessional courses
- Satisfactory completion of communication and computations requirement (Gordon Rule).
- Completion of the HESI Academic Assessment (A2) Test

**Minimum Application Requirements for Transfer Students**

For application information, all transfer students should refer to the admission as a transfer student section of the catalog. Transfer applicants must meet all university and college-specific admission requirements. Applicants from other institutions who have satisfied minimum requirements will be considered for admission at the junior level on a space-available basis.

**Students from Florida Public Colleges**

- Associate of Arts degree by the end of springs semester prior to admission
- Completed 60 credits of required preprofessional and general education courses by the end of the spring semester prior to admission
- Completed two sequential courses of foreign language in secondary school or 8-10 semester credits at the postsecondary level, or document an equivalent level of proficiency
- Minimum overall 3.0 GPA (4.0 scale) and a 3.0 GPA on all preprofessional courses
- Completion of required prerequisite courses with a grade of C
- Completion of the HESI Academic Assessment (A2) Test, application requirement

**Students from Other Universities**

- Completed 60 credits of required preprofessional and general education courses by the end of the spring semester prior to admission
- Completed two sequential courses of foreign language in secondary school or 8-10 semester credits at the post-secondary level, or document an equivalent level of proficiency
- Minimum overall 3.0 GPA (4.0 scale) and a 3.0 GPA on all preprofessional courses
- Minimum grades of C in all required preprofessional courses
- Completion of the HESI Academic Assessment (A2) Test, application requirement

**College Regulations, All Students**

**Before Enrolling in Nursing Courses**

- Compliance with university, college and agency health policy requirements and immunizations
- Certification in basic cardiopulmonary resuscitation (CPR) for healthcare providers
- Proof of current health insurance coverage
- Criminal Background Check and Drug Screen
Expenditures
Expenditures specific to nursing courses include, but are not limited to, specialized equipment, uniforms, laboratory fees for clinical courses and transportation for off-campus experiences.

Health Policy
The college requires specific immunizations and periodic health screenings. Compliance with health policies is required for clinical coursework. Students are expected to be physically and mentally able to perform the essential functions of the nursing curriculum and may be requested to provide appropriate medical documentation.

Degree Requirements
For graduation from the BSN program:

- **Traditional Track**: Completion of 120 credits, including 60 junior/senior-level credits
- **Accelerated Track**: Completion of 60 credits, post-baccalaureate
- **RN-BSN Track**: Completion of 60 credits, post AA degree or 60 transferable semester credits
- A minimum grade of C in each nursing course.
- Adherence to the standards of acceptable conduct as outlined in the American Nurses Association Code of Ethics, the Florida Nurse Practice Act, the university's Student Guide and the Undergraduate Catalog.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

Licensure
Upon satisfactory completion of the baccalaureate curriculum, the graduate will be awarded the Bachelor of Science in Nursing and is academically eligible to apply for the NCLEX-RN examination for state licensure as a registered nurse.

Accelerated Baccalaureate Degree Program
The College of Nursing offers an accelerated course of study for a baccalaureate degree in nursing. This program is for students with a baccalaureate or higher degree in another field.

The accelerated baccalaureate curriculum begins each summer and is completed in four consecutive semesters of fulltime study. More Info (https://admissions.nursing.ufl.edu/)

Minimum Application Requirements
- A baccalaureate or higher degree from a nationally accredited college or university in a field other than nursing
- 3.0 GPA (on 4.0 scale), calculated on the most recent 60 credits taken toward the bachelor's degree or a cumulative 3.0 GPA toward a masters or doctoral degree
- Required prerequisite course must have been completed within the past seven years with a minimum grade of C. No more than two prerequisite courses can be in progress during the spring semester prior to admission
- 1 academic letter of reference and 1 personal letter of reference
- Resume / curriculum vitae
- Essay that responds to questions specified on the NursingCAS site

Before Enrolling in Nursing Courses
- Compliance with college health policy requirements and immunizations
- Criminal Background Check and Drug Screen
- Certification in basic cardiopulmonary resuscitation (CPR) for healthcare providers
• Proof of current health insurance coverage
• Criminal Background Check and Drug Screen

Expenditures
Expenditures specific to nursing courses include, but are not limited to, specialized equipment, uniforms, laboratory fees for clinical courses and transportation for off-campus experiences.

Health Policy
The college requires specific immunizations and periodic health screenings. Compliance with health policies is required for clinical coursework. Students are expected to be physically and mentally able to perform the essential functions of the nursing curriculum and may be requested to provide appropriate medical documentation.

Nursing

The junior/senior-level Traditional BSN program is four semesters long and provides learning experiences in a variety of clinical settings. The Accelerated BSN program (https://admissions.nursing.ufl.edu/) prepares students with a baccalaureate degree in another field for entrance into the nursing profession with a BSN. The RN to BSN program prepares those current Registered Nurses who have previously earned an associate degree.
About this Program

- **College:** Nursing (p. 1657)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The nursing education programs offered at UF address gaps in the health care system, as do the college's innovations in technological resources and initiatives linking students to diverse and international populations. The College of Nursing has a history of pioneering leadership in nursing education, having offered Florida's first nurse practitioner programs and first PhD in Nursing Science program.

Curriculum

- **Nursing**
- **Nursing | RN to BSN UF Online**

The College of Nursing prepares baccalaureate nurses to care, lead and inspire. Nursing courses include classroom and laboratory activities correlated with supervised clinical experiences. Students may be required to travel outside of Gainesville for selected clinical experiences.

The curriculum is logically organized from simple to complex so that students acquire the cognitive, affective, and technical competencies of a professional nurse. Students are required to demonstrate competence at each semester in sequence to progress to more advanced concepts and skills. Knowledge from general education courses, nursing pre-professional courses, and introductory nursing courses is integrated and refined as student progress through increasingly complex theoretical nursing content and clinical application courses.

Courses in the first two semesters focus on foundational knowledge and principles of personalized nursing care. Students gain an understanding of the context of contemporary nursing practice, the meaning of professionalism, ethical and legal guidelines, professional values, and standards of professional nursing practice. Course content and concepts are aligned with clinical experiences to develop beginning clinical reasoning. Students acquire the knowledge, skills, and attitudes to provide evidence-based, safe, cost-effective quality care to achieve optimal health outcomes.

Courses in the final two semesters build upon prior learning and are characterized by increased complexity in content and outcomes. Students enhance clinical reasoning and critical thinking through nursing practice in a variety of settings for individuals across the lifespan, families and other groups, and communities. Learning experiences are designed to enable students to demonstrate leadership, interprofessional collaboration, and advocacy skills that improve the health of diverse individuals and populations. In the final semester, students participate in a project to develop an innovative solution for a problem or issue relevant to professional nursing.

Progression

Students must earn minimum grades of C in all required nursing courses and maintain a minimum 2.0 GPA every semester while enrolled. Students may repeat only one required nursing course. Students earning less than a C in any required nursing course may repeat that course only once and on a space-available basis. Students who do not achieve a passing grade on their second attempt in a course will be dismissed from the nursing program. Students may withdraw only once from any required nursing course.

Students are expected to comply with college health policy requirements.

Students in the health professions are held to standards of conduct that exceed those usually expected of university students. Consequently, nursing students are required to demonstrate safe practice in the care of patients and to exercise appropriate judgment as beginning-level professionals, including appropriate demeanor and appearance. Students must adhere to the standards of conduct outlined in the American Nurses Association Code of Ethics and the Florida Nurse Practice Act in addition to the University of Florida College of Nursing handbook. Students can be removed from the nursing curriculum, and/or any college-sponsored programs or organizations, based on violation of professional conduct.

Bachelor of Science

The junior/senior-level Traditional BSN program is four semesters long and provides learning experiences in a variety of clinical settings.
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=513801&track=01) may be used for transfer students.

The following recommended curriculum plan enables students to satisfy university-wide general education requirements and required preprofessional courses. The plan includes the courses and academic standards (overall GPA and preprofessional GPA) required each semester for continuation in the pre-nursing program and application for admission to the nursing major.

Semester 1
- Complete 2 critical-tracking courses with minimum grades of C: APK 2100C, APK 2105C, DEP 3053 or EDF 3110 (recommended), HUN 2201, MCB 2000/MCB 2000L, STA 2023, 3 credits of social and behavioral science (with PSY, SOP or SYG prefix), and 3 credits of physical or biological sciences (with BSC, CHM or PHY prefix)
- 3.0 GPA required for all critical-tracking courses
- 3.0 overall GPA on work from all institutions

Semester 2
- Complete 2 additional critical-tracking courses with minimum grades of C
- 3.1 GPA required for all critical-tracking courses
- 3.1 overall GPA on work from all institutions

Semester 3
- Complete 2 additional critical-tracking courses with minimum grades of C
- 3.2 GPA required for all critical-tracking courses
- 3.2 overall GPA on work from all institutions

Semester 4
- Complete all critical-tracking courses with minimum grades of C
- Complete writing requirement
- Complete all general education coursework with minimum grades of C
- Complete a total of 60 credits
- 3.3 GPA required for all critical-tracking courses
- 3.3 overall GPA on work from all institutions

Semester 5
- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 3066C

Semester 6
- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 3227C

Semester 7
- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing exit examination in NUR 4768C

Semester 8
- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing exit examination in NUR 4766C
# Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The major in nursing prepares graduates as generalists to provide holistic care that addresses the healthcare needs of diverse individuals, families, communities and populations across the lifespan. Nursing practice is built on nursing knowledge, theory and research. Graduates will translate, integrate and apply knowledge that leads to improvements in patient outcomes.

Before Graduating Students Must

- Achieve a passing grade of C or higher in all required courses.
- Pre-licensure student must achieve a score of 850 on the Health Education Systems Incorporated (HESI) RN Exit Examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply critical thinking to synthesize knowledge grounded in liberal education and nursing, in the practice of professional nursing in the global community.
2. Utilize knowledge of health care regulation to advocate for policy change to improve health care systems and professional nursing practice.
3. Utilize health promotion, health maintenance, and disease prevention strategies across settings to improve the health of diverse individuals and populations across the lifespan.

Critical Thinking
4. Integrate evidence-based findings in decision-making in the practice of professional nursing.
5. Appraise current evidence to evaluate health care safety and quality improvement initiatives for individuals and groups.
6. Analyze information from health care technology systems to apply evidence that will guide nursing practice.
7. Illustrate the importance of advocacy in the improvements in nursing practice and throughout the healthcare system.
8. Demonstrate professional competence and values reflective of professional nursing standards and mutual respect within a global society.

Communication
9. Collaborate with the healthcare team and clients to provide safe and cost effective high quality health care.
10. Demonstrate professional communication, collaboration and documentation with healthcare teams to support improvement in patient health outcomes.
11. Build therapeutic alliance with patients and families to provide personalized care.

- Passing score on the National Council Licensure Examination

Nursing | RN to BSN UF Online

The College of Nursing’s RN to BSN program enables current RNs who have previously earned an associate degree to earn a baccalaureate degree in nursing. The program is designed for working nurses and can be completed in 5 semesters of primarily online part-time study.

About this Program

- **College**: Nursing (p. 1657)
- **Credits for Degree**: 120
- **Contact**: 1.855.99GATOR
- **More Info**

Department Information

The nursing education programs offered at UF address gaps in the health care system, as do the college's innovations in technological resources and initiatives linking students to diverse and international populations. The College of Nursing has a history of pioneering leadership in nursing education, having offered Florida's first nurse practitioner programs and first PhD in Nursing Science program.

Curriculum

- Nursing
- Nursing | RN to BSN UF Online

The baccalaureate prepared nurse is equipped to manage complex and changing healthcare environments. Coursework focuses on development of problem solving that will broaden and strengthen the registered nurse student’s preparation for professional nursing practice.

Admission

Students must be accepted into the RN to BSN program, which is competitive. The online application for admission must be submitted by the posted deadline.

Minimum Application Requirements

- Associate of Science degree in nursing from an ACEN (formerly NLNAC) accredited program.
- Active, unencumbered Florida RN license.
- An overall GPA of at least 2.8.
- A minimum grade of C in all required pre-professional courses.
- Resume/curriculum vita.
- Two professional reference from persons familiar with the applicant’s recent work.
A statement of intent, not to exceed two typed double-spaced pages, which discusses the applicant’s expectations of the BSN program and the student’s career goals.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=513801&track=01) may be used for transfer students.

**Semester 1**
- Complete NUR 3066C

**Semester 2**
- Complete NUR 3123

**Semester 3**
- Complete NUR 3169

**Semester 4**
- Complete NUR 4636C

**Semester 5**
- Complete NUR 4815

### Model Semester Plan

**Degree Requirements**
- Completion of 120 credits, including 60 junior/senior-level credits
- A minimum grade of C in each nursing course
- RN to BSN students will be awarded 30 upper-level credit hours based upon current RN licensure and by satisfying the professional portfolio
- Adherence to the standards of acceptable conduct as outlined in the American Nurses Association Code of Ethics, the Florida Nurse Practice Act, the University’s Student Guide and the undergraduate catalog

Academic Learning Compact

The major in nursing prepares graduates as generalists to provide holistic care that addresses the healthcare needs of diverse individuals, families, communities and populations across the lifespan. Nursing practice is built on nursing knowledge, theory and research. Graduates will translate, integrate and apply knowledge that leads to improvements in patient outcomes.

Before Graduating Students Must

- Achieve a rating of satisfactory in all courses, graded according to College of Nursing rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Integrate knowledge, skills and values derived from a solid base in liberal education to deliver quality care to individuals and groups across the lifespan and across healthcare environments.

Critical Thinking

2. Provide leadership in the delivery of safe, high-quality healthcare to diverse individuals and groups across the lifespan and across healthcare environments.

3. Utilize current evidence to improve healthcare outcomes for clients.

4. Utilize information management and healthcare technology to improve the quality of care.

5. Analyze processes through which healthcare policies are developed and changed to influence professional nursing practice and healthcare systems.

6. Utilize wellness promotion and illness prevention strategies with individuals and groups to improve population health outcomes across the lifespan.

7. Integrate professional values in the delivery of safe, culturally-sensitive care to clients across the lifespan.

Communication

8. Communicate and collaborate as members of interprofessional teams to deliver safe, high-quality healthcare.

- Educational Benchmarking Assessment, Inc. (EBI) exit survey score of 5.0 or above

Public Health and Health Professions, College of

The college offers a diverse variety of degree programs — two bachelor's, seven master's, eight Ph.D. and three professional degrees, as well as several certificate programs. By combining the population perspective of public health with the patient focus of our health professions disciplines, the continuum of care is covered, from prevention and treatment to rehabilitation that supports the health and well-being of communities and individuals.

Established

1958 as the first college of health professions in the United States; renamed Public Health and Health Professions in 2003

Location

Health Professions/Nursing/Pharmacy Complex (HPNP)
1225 Center Drive
Gainesville, FL 32610
Map (http://campusmap.ufl.edu/?loc=0212)

Rankings

Eight programs are ranked in the Top 20 among AAU public universities, according to U.S. News & World Report.

Accredited

The college is accredited by the Council on Education for Public Health. In addition, all clinical programs are accredited by the appropriate national organization.

Degrees

The college offers a Bachelor of Health Science in Communication Sciences and Disorders or Health Science, and a Bachelor of Public Health degree. The Public Health program is designed to provide students with foundational skills for both individual and community based health care. The Health Science program is designed to provide students with knowledge and skills to pursue careers in medicine, rehabilitation, therapeutic care, and communication sciences. Health Science specializations include: general health science, pre-occupational therapy, occupational therapy accelerated, pre-physical therapy, and pre-professional.

Doctor of Occupational Therapy (OTD)

The University of Florida's Doctor of Occupational Therapy (OTD) program prepares students to become professional-level OT practitioners who are leaders in the rapidly changing and dynamic contemporary health and human services delivery systems. The program will facilitate students' clinical knowledge and skills, professional development, leadership and advocacy skills, and advanced knowledge base to inform high quality, evidence-informed practice in occupational therapy. Students will engage in projects and leadership activities that will improve practice quality and advance evidence-based clinical practice.

Academic Policies
Admission
Admission requirements vary for the different majors; therefore, applicants should contact an academic advisor in the college to ensure appropriate academic planning.

In addition to specific GPA and coursework requirements, applicants should have evidence of service through volunteer experiences. Additional admission information may be found on the college's undergraduate programs (https://undergrad.phhp.ufl.edu/) page.

Application Deadlines
Application deadlines and instructions may be found on the college's undergraduate program (https://undergrad.phhp.ufl.edu/) page.

Student Selection
Undergraduate programs are limited access. Admission to the college at the junior level is limited and selective. Satisfaction of minimum GPA and course requirements does not guarantee admission to the junior level. A student’s total record, including educational objectives, courses completed, quality of academic record and application essay are considered when evaluating an applicant for admission.

Native UF Student Admission
Freshmen and Sophomores
Students can declare a major in one of the college's undergraduate programs upon admission to the university. However, continued progress as a junior in the major is contingent upon selection and requires completion of an application process. Progression standards include courses completed, cumulative and tracking GPAs, and academic conduct. Students apply for junior level limited access admission in their sophomore year.
Juniors Level Admission

A formal application process is required for admission consideration. STUDENTS MUST SUBMIT an online program application for the major/specialization of interest and should carefully follow the instructions for the particular specialization.

Students eligible for admission consideration at the junior level must

- Earn at least 60 semester credits of acceptable college credit with a minimum overall 3.0 GPA for all majors for all college/university-level course work.
- Complete all critical-tracking coursework with the required GPA. (Critical-tracking courses are listed in the semester plans under Majors in this catalog.)
- Fulfill the general education requirements described in the Academic Advising section of this catalog. Specific course sequences for each program of study indicate how to fulfill these requirements while planning careers in public health and/or discipline-specific health professions.
- Complete all writing requirements.
- Submit a completed program application (https://undergrad.phhp.ufl.edu/admissions/) to the College of Public Health and Health Professions.
- Complete all requirements by the end of spring for Summer B admission consideration or by the end of Summer A for fall admission consideration.

Transfer Student Admission

Meeting minimum standards as freshmen and sophomores does not guarantee admission to the junior year within the college because space is limited.

Application Materials

Non-UF students must apply to the University of Florida and to the College of Public Health and Health Professions for admission consideration at the junior year. These are separate applications. Students with questions should speak with a college advisor 352.273.6400, option 1.

Florida public college students must have:

- Received the A.A. degree.
- Completed all critical-tracking coursework with the required GPA.
- Completed 60 semester credits of transferable college-level credit with a minimum overall GPA of 3.0.
- Submitted a transfer application (http://www.admissions.ufl.edu/start.html) to UF.
- Submitted a program application to the College of Public Health and Health Professions.

PHHP Academic Policies

Double Majors

PHHP does not offer a double major; however, students in this college can pursue an additional degree outside of the college. Students from other colleges can also consider a dual degree within PHHP. Permission of both colleges is required. Students are eligible to apply for a dual degree after they have completed 45 credits and before completion of 96 credits. Students must meet all requirements for both degrees.

Minors

The college offers four minors:

- communication sciences and disorders
- deaf and hearing sciences
- disability science
- health science
- public health

These minors are open to students in other colleges who meet the prerequisite and GPA requirements. The minor form and course information are available from the college website. (https://undergrad.phhp.ufl.edu)

Specific minors are available to PHHP juniors and seniors based on the student's specialization, as noted below.

Communication Sciences and Disorders Students: deaf and hearing sciences, health science, disability science and public health minors.

Health Science Students: communication sciences and disorders and public health minors.

Public Health Students: communication sciences and disorders minors.

S/U Option

The S/U option is not permitted for prerequisite or major courses; however, it can be used for electives.
Academic Performance

Juniors and Seniors

Students must receive minimum grades of C in all courses required for the major. Unsatisfactory grades, defined as grades lower than a C or grades of unsatisfactory in classes graded S/U, are grounds for probation and/or dismissal from the college. In addition, dismissal from the college can result from honor code violations.

If a student in the college receives one grade of C- or lower in a college course, the student is placed on academic probation. Faculty will provide an opportunity for the student to make up material (e.g., through independent study, repeating the course, etc.). If the student receives at least a C in the course for which probation was implemented, the student will return to good academic standing. If the student receives a C- or lower while on probation, the student must withdraw from the program unless the college determines mitigating circumstances warrant a probationary extension. If a student receives the first and second C- or lower in the same term, the college has the right to dismiss the student without first offering probation.

If a student receives a C- or lower in a second college course, regardless of whether this occurs in the same term or a different term as the first C- or lower, the student can be required to withdraw from the program. The student has the right to petition this decision.

In order to petition the faculty committee, the student must provide the program director with a letter stating the reasons that the student should be allowed to remediate their academic performance. Upon successful petition and on a space-available basis, the student will be placed on academic probation and allowed to make up material in an appropriate manner determined by the instructor and program director (e.g., via independent study, course repetition, etc.)

If the student successfully completes the remediation requirements and receives a minimum course grade of C, the student can continue in the program. However, if the student again receives a C- or lower, the student must withdraw from the program. The college will help the student choose another major at UF, if desired, if they withdraw from a college major.

In the first two cases above, the individual instructor is responsible for assigning student grades. The program director, in consultation with the instructor and program faculty as needed, is responsible for determining if a student who appeals a dismissal will be placed on academic probation or dismissed from the program. The student will be notified in writing of the director's decision concerning academic probation or dismissal.

If the student is placed on probation, the letter will include the activities that the student must successfully complete to remedy the academic deficiencies and the timeframe in which these activities must be completed. Failure to adhere to or to meet the terms of the letter constitutes grounds for dismissal from the program. The student will be offered assistance, if desired, to select a different major.

If the student disagrees with the director's decision regarding dismissal or the terms of the probation letter, the student may appeal in writing within one week to the associate dean overseeing academic affairs. The associate dean will review both the director's decision and the student's concerns and make a determination about academic probation/dismissal. Both the student and director have the right to further appeal to the dean, who will review the case in its entirety and make the final decision.

Changing Majors

Freshmen and sophomores wishing to change majors must contact a college advisor in the new major. Juniors and seniors wishing to change majors in the college must contact the program director. If a student withdraws from the major, specific permission from the program and the college must be given at the time of withdrawal for the student to be eligible to re-enter the college.

Health Policy

The college requires evidence of ability to meet the physical and academic requirements of the program. Personnel in the Department of Student Health will test each student for sensitivity to tuberculosis. The Department of Student Health will verify immunization against diphtheria, rubella (German measles) and tetanus.

All students must be immunized against Hepatitis B and varicella (chicken pox) or provide the Student Health Center with medical documentation that they have had chicken pox. All students must participate in annual bloodborne pathogen training, repeat their TB test annually if observing in a clinical setting, and be HIPAA compliant.

Students registered in clinical courses must have hospitalization insurance. Full-time students are eligible for the health insurance plans sponsored by Student Government. Twelve-month coverage may be purchased at the time of registration.

Expenses

Required immunizations and other expenses are the student’s responsibility.

Degree Requirements

Students must satisfy all college and university degree requirements for their major and specialization.

College requirements include:

- Completion of 120 semester credits with a 2.0 GPA, including 60 hours of upper division college credit
- Completion of all core courses with minimum grades of C
Satisfactory completion of all approved college and general electives
Completion of a PHHP degree candidate exit survey

To graduate in the desired term, students must submit by the deadline a completed degree application to the Office of University Registrar. More Info (http://www.registrar.ufl.edu/currents/degreeapp.html)

Dean’s List
The dean's list recognizes outstanding academic achievement at the completion of each semester. Students receiving a final grade of U or a failing grade may not be considered for the dean's list, regardless of overall grade point average. Students may request a letter confirming dean's list status from the college's dean's office. More Info (p. 1732)

Graduating with Honors
More Info (p. 1732)

Postbaccalaureate students are not eligible to receive honors recognition. Guidelines for completion of honors program requirements (http://www.bahealthsci.phhp.ufl.edu/) to graduate magna cum laude or summa cum laude.

Curriculum

• Communication Sciences and Disorders
• Communication Sciences and Disorders Minor
• Communication Sciences and Disorders UF Online
• Deaf and Hearing Sciences Minor

Students should follow the plan below for course choices.

The undergraduate program exposes students to information about

1. normal aspects of speech, language, and hearing as they relate to human communication, and
2. introductory concepts pertaining to the nature, assessment, and treatment of communication disorders.

Students complement the core major courses with various elective courses that align with their academic and career interests.

Upon successful completion of the major, students receive the Bachelor of Health Science degree. The majority of undergraduate students pursue graduate or professional training in a health field (e.g., speech language pathology, audiology or other graduate degree program); however, some students seek employment immediately after completing the BHS degree program, usually in organizations with either a health or education component.

Certified clinicians (graduate degree required) often on a team that may include psychologists, teachers, families, physical and occupational therapists, physicians, nurses, dietitians and social workers to screen, diagnose and treat individuals ranging from infants to the elderly. Professionals typically work in schools, clinics, hospitals, other health organizations and/or private practice. Communication sciences and disorders professions offer a high degree of satisfaction to their practitioners by making a significant impact on people’s lives. Both speech-language pathology and audiology are growing professions with competitive salaries.

Course Requirements and Sequence

By the End of Semester Four

To be considered for admission at the junior level, students must complete these requirements:

• Minimum overall and prerequisite GPAs of 3.0
• For transfer students, AA degree or 60 transferrable credits (including general education and major prerequisites)
• 18,000 words of the writing requirement
• These courses (or their equivalents) with minimum grades of C:
  • BSC 2005 or higher
  • Additional biological science (3 credits); APK 2105C is highly recommended
• other preferred courses include those with BSC or MCB prefix
• Physical science (3 credits); must be physics or chemistry
• Science lab (1 credit)
• PSB 3002 or DEP 3053 or CLP 3144; PSB 3002 is recommended strongly
• PSY 2012
• STA 2023

By the End of Semester Five
Students must also have completed:

• EEX 3093 with a minimum grade of C (satisfies general education diversity)
• SPA 3003

By the End of the Senior Year
Students must have completed:

• 120 credits, including all prerequisites
• 30 credits of core SPA coursework with minimum grades of C
• ENC 3254 with minimum grade of C; satisfies 6000 words of writing requirement
• PHC 4101 with minimum grade of C
• 12 credits of electives at the 3000/4000 level
• 9 credits of PHHP electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510204&track=01) may be used for transfer students.

Semester 1

• Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
• Complete 9 credits of general education courses
• 2.3 GPA on all college-level coursework from all institutions

Semester 2

• Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
• Complete 12 additional credits of general education courses for a total of 18 credits
• 2.7 GPA on all college-level coursework from all institutions

Semester 3

• Complete STA 2023 with minimum grade of C
• Complete 1 additional tracking psychology course (PSB 3002, DEP 3053 or CLP 3144) or 3 credits of physical science (CHM 2045 or PHY 2004 recommended) with minimum grade of C
• SPA 3003 recommended this semester if available, with minimum grade of C
• Complete science lab with minimum grade of C or S
• Complete 9 additional credits of general education courses for a total of 30 credits
• 3.0 GPA on all college-level coursework from all institutions

Semester 4

• Complete all critical-tracking courses with minimum grades of C
• Complete all general education courses except diversity
• Complete the 18,000 words of the writing requirement
• 3.0 critical-tracking GPA based on all attempts
• 3.0 GPA on all college-level coursework from all institutions

**Semester 5**
• Complete EEX 3093, SPA 3003, SPA 3011, SPA 3032, and SPA 3101
• 3.0 prerequisite and overall GPA on college-level coursework from all institutions
• Complete five CMS 3000 required courses
• 2.0 UF GPA required

**Semester 6**
• Complete ENC 3254, SPA 4004, SPA 4104, and SPA 4302
• Complete four of the remaining CMS 3000/4000 required courses
• 2.0 UF GPA required

**Semester 7**
• Complete SPA 4250 and SPA 4321
• Complete 2 of the remaining CMS 4000 required courses
• 2.0 UF GPA required

**Semester 8**
• Complete SPA 4050 and SPA 4400
• Complete 3 of the remaining CMS 4000 required courses
• 2.0 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

The undergraduate program provides an understanding of the expected processes involved in human communication so that students will be prepared for graduate programs where they will be immersed in dealing with atypical or pathological conditions related to speech, language, swallowing and/or hearing.

Before Graduating Students Must

- Pass the undergraduate CSD written examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Explain fundamental theories and principles of basic acoustics, psychoacoustics, (neuro)anatomy and (neuro)physiology as they pertain to the normal development of speech, language and hearing.
2. Explain key concepts that pertain to the etiology and characteristics of speech, language and auditory disorders.
3. Describe basic concepts that pertain to the assessment and treatment of speech, language and auditory disorders.
4. Explain fundamental concepts that pertain to professional practice patterns and ethical standards.
5. Explain fundamental concepts that pertain to the relationship between aging and communication, the effect of culture on communication and modalities of communication.
6. Transcribe normal and disordered speech phonetically.
7. Explain the impact of disease and disability on the health of populations.

Critical Thinking
8. Apply clinical problem-solving skills to defend assessment and treatment choices.

Communication
9. Present information accurately and effectively during an oral presentation on a topic related to communication sciences or disorders.
10. Write a coherent analytical essay on a topic related to communication sciences or disorders.

- Additional assessments include:
  - A summative assessment
  - The undergraduate alumni survey

Communication Sciences and Disorders Minor
The Communication Sciences and Disorders minor is appropriate for students with majors in computer science, education, engineering, health professions, linguistics, music, psychology, and special education.
About this Program

- **College**: Public Health and Health Professions (p. 1668)
- **Credits**: 15 | Completed with minimum grades of C and no S/U

**Department Information**

The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.

[Website](https://slhs.phhp.ufl.edu/)

**CONTACT**

**Curriculum**

- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

The minor is open to all students except those majoring in communication sciences and disorders.

Courses that are required for the CSD major do not count toward a minor in CSD if the courses are required by the student's home department.

Students applying for the minor should have a minimum 3.0 GPA and should plan the minor in consultation with the undergraduate coordinator.

**Communication Sciences and Disorders UF Online**

The Communication Sciences and Disorders major includes didactic and experiential activities for students to learn foundational skills necessary for success in professions such as speech-language pathology, audiology and communication sciences, all of which require graduate degrees.

**About this Program**

- **College**: Public Health and Health Professions (p. 1668)
- **Degree**: Bachelor of Health Science
- **Credits for Degree**: 120
To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.

Curriculum
- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

Students should follow the plan below for course choices.

The undergraduate program exposes students to information about:

1. normal aspects of speech, language, and hearing as they relate to human communication, and
2. introductory concepts pertaining to the nature, assessment, and treatment of communication disorders.

Students complement the core major courses with various elective courses that align with their academic and career interests.

Upon successful completion of the major, students receive the Bachelor of Health Science degree. The majority of undergraduate students pursue graduate or professional training in a health field (e.g., speech language pathology, audiology or other graduate degree program); however, some students seek employment immediately after completing the BHS degree program, usually in organizations with either a health or education component.

Certified clinicians (graduate degree required) often on a team that may include psychologists, teachers, families, physical and occupational therapists, physicians, nurses, dietitians and social workers to screen, diagnose and treat individuals ranging from infants to the elderly. Professionals typically work in schools, clinics, hospitals, other health organizations and/or private practice. Communication sciences and disorders professions offer a high degree of satisfaction to their practitioners by making a significant impact on people’s lives. Both speech-language pathology and audiology are growing professions with competitive salaries.

Course Requirements and Sequence
To be considered for admission at the junior level, students must complete these requirements:

- Minimum overall and pre-requisite GPAs of 3.0
- For transfer students, AA degree or 60 transferrable credits (including general education and major prerequisites)
- 18,000 words of the writing requirement

These courses (or their equivalents) with minimum grades of C:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BSC 2005</td>
<td>Biological Sciences</td>
<td>3</td>
</tr>
<tr>
<td>APK 2105C</td>
<td>Applied Human Physiology with Laboratory</td>
<td>4</td>
</tr>
<tr>
<td>Physical science (must be physics or chemistry)</td>

<td>3</td>
<td></td>
</tr>
<tr>
<td>PSB 3002</td>
<td>Physiological Psychology (strongly recommended)</td>
<td></td>
</tr>
</tbody>
</table>
By the end of semester five, all students must also have completed:

- EEX 3093 with a minimum grade of C
- SPA 3003 with a minimum grade of C

By the end of the senior year, students must have completed:

- 120 credits, including all prerequisites
- 30 credits of core SPA coursework with minimum grades of C
- ENC 3254 with minimum grade of C; satisfies 6000 words of writing requirement
- PHC 4101 with minimum grade of C
- 12 credits at the 3000/4000 level
- 9 credits of PHHP electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=510204&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=510204&track=01)) may be used for transfer students.

#### Semester 1
- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 credits of general education courses
- 2.3 GPA on all college-level coursework from all institutions

#### Semester 2
- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 12 additional credits of general education courses for a total of 18 credits
- 2.7 GPA on all college-level coursework from all institutions

#### Semester 3
- Complete STA 2023 with minimum grade of C
- Complete 1 additional tracking psychology course (PSB 3002, DEP 3053 or CLP 3144) or 3 credits of physical science (CHM 2045 or PHY 2004 recommended) with minimum grade of C
- SPA 3003 recommended this semester if available, with minimum grade of C
- Complete science lab with minimum grade of C or S
- Complete 9 additional credits of general education courses for a total of 30 credits
- 3.0 GPA on all college-level coursework from all institutions

#### Semester 4
- Complete all critical-tracking courses with minimum grades of C
- Complete all general education courses except diversity
- Complete the 18,000 words of the writing requirement
- 3.0 critical-tracking GPA based on all attempts
- 3.0 GPA on all college-level coursework from all institutions
Semester 5
- Complete EEX 3093, SPA 3003, SPA 3011, SPA 3032, and SPA 3101
- 3.0 prerequisite and overall GPA on college-level coursework from all institutions
- Complete five CMS 3000 required courses
- 2.0 UF GPA required

Semester 6
- Complete ENC 3254, SPA 4004, SPA 4104, and SPA 4302
- Complete four of the remaining CMS 3000/4000 required courses
- 2.0 UF GPA required

Semester 7
- Complete SPA 4250 and SPA 4321
- Complete 2 of the remaining CMS 4000 required courses
- 2.0 UF GPA required

Semester 8
- Complete SPA 4050 and SPA 4400
- Complete 3 of the remaining CMS 4000 required courses
- 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

#### Semester Four
- **Credits:** 16
- **Electives:** 4
- **Gen Ed Humanities:** 3

### Semester Five
- **Credits:** 15
- **EEN 3254:** Professional Writing in the Discipline (Critical Tracking)
- **SPA 4003:** Phonetic Theory and Transcription (Critical Tracking; if not taken previously)
- **SPA 3011:** Speech Acoustics (Critical Tracking)
- **SPA 3032:** Fundamentals of Hearing (Critical Tracking)
- **SPA 3101:** Speech Anatomy and Physiology (Critical Tracking)
- **Elective (3000 level or above):** 3

### Semester Six
- **Credits:** 15
- **SPA 4400:** Introduction to Language Disorders (Critical Tracking)
- **SPA 4321:** Audiologic Rehabilitation (Critical Tracking)
- **Elective (college-approved; 3000 level or above):** 3
- **Electives (3000 level or above):** 6

### Semester Seven
- **Credits:** 15
- **PHC 4101:** Public Health Concepts (Critical Tracking)
- **SPA 4050:** Clinical Observations in Speech-Language Pathology and Audiology (Critical Tracking)
- **SPA 4250:** Introduction to Speech Disorders (Critical Tracking)
- **Electives (college-approved; 3000 level or above):** 6

### Semester Eight
- **Credits:** 15
- **SPA 4250:** Introduction to Speech Disorders (Critical Tracking)
- **Electives (college-approved; 3000 level or above):** 6

#### Total Credits
- **120**

---

### Academic Learning Compact
The undergraduate program provides an understanding of the expected processes involved in human communication so that students will be prepared for graduate programs where they will be immersed in dealing with atypical or pathological conditions related to speech, language, swallowing and/or hearing.

### Before Graduating Students Must
- Pass the undergraduate CSD written examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Explain fundamental theories and principles of basic acoustics, psychoacoustics, (neuro)anatomy and (neuro)physiology as they pertain to the normal development of speech, language and hearing.
2. Explain key concepts that pertain to the etiology and characteristics of speech, language and auditory disorders.
3. Describe basic concepts that pertain to the assessment and treatment of speech, language and auditory disorders.
4. Explain fundamental concepts that pertain to professional practice patterns and ethical standards.
5. Explain fundamental concepts that pertain to the relationship between aging and communication, the effect of culture on communication and modalities of communication.

---

1. Or higher level course.
6. Transcribe normal and disordered speech phonetically.
7. Explain the impact of disease and disability on the health of populations.

**Critical Thinking**
8. Apply clinical problem-solving skills to defend assessment and treatment choices.

**Communication**
9. Present information accurately and effectively during an oral presentation on a topic related to communication sciences or disorders.
10. Write a coherent analytical essay on a topic related to communication sciences or disorders.

**Assessment Types**
- Clinical analysis
- Case management reviews
- Exams
- Papers
- Presentations
- Additional assessments include:
  - A summative assessment
  - The undergraduate alumni survey

**Deaf and Hearing Sciences Minor**
The Deaf and Hearing Sciences minor includes language classes in American Sign Language and classes to deepen awareness of the impact of hearing loss on everyday life and function. Students also gain an appreciation of the anatomy and physiology of the ear and rehabilitation approaches for individuals with hearing loss.

**About this Program**
- **College:** Public Health and Health Professions (p. 1668)
- **Credits:** 17

**Department Information**
The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.

Disability Science Minor

The Disability Science minor provides a basic scientific foundation to understand the impact of disability on physical and psychosocial health.

About this Program

- **College**: Public Health and Health Professions (p. 1668)
- **Credits**: 17 | Completed with minimum grades of C

This minor is available to all juniors and seniors in PHHP's communication sciences and disorders major and to students in other colleges who meet the prerequisites. The minor is not available to Bachelor of Health Science students in health science, pre-OT or pre-public health specializations.

All credits toward the minor must be completed at the 3000/4000-level. As long as the program director approves, the student can use up to three credits of relevant 3000-level or higher transfer coursework or electives outside the health science program to fulfill elective credits. Lower-division transfer credit is not accepted.

Prerequisites

- Junior standing (60+ credits)
- Overall 2.75 GPA
- 2.75 prerequisite GPA based on general college biology, general psychology, abnormal/developmental/physiological psychology, physiology, and statistics (STA 2023).

**Option B**

- OTH 4418 & 4418L: The Nervous System and Disorders and The Nervous System and Disorders Laboratory
- CLP 4420: Introduction to Neuropsychology

**Total Credits**: 17
Health Science

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College:** Public Health and Health Professions (p. 1668)
- **Degree:** Bachelor of Health Science
- **Specializations:** General Health Science (p. 1687) | Occupational Therapy Accelerated (p. 1692) | Pre-Occupational Therapy (p. 1697) | Pre-Physical Therapy (p. 1702) | Pre-Professional (p. 1707)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Curriculum

- Disability Science Minor
- Health Science
- Health Science Minor

Related Programs

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Pre-Occupational Therapy

Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.
Pre-Professional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

Before Graduating Students Must

• Receive a satisfactory grade (S) in the BHS capstone portfolio.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

Critical Thinking
6. Develop and apply critical analysis skills to contemporary health issues.

Communication
7. Apply effective basic communication skills for health professionals.

General Health Science

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College**: Public Health and Health Professions (p. 1668)
- **Degree**: Bachelor of Health Science
  - **Specializations**: General Health Science (p. 1687) | Occupational Therapy Accelerated (p. 1692) | Pre-Occupational Therapy (p. 1697) | Pre-Physical Therapy (p. 1702) | Pre-Professional (p. 1707)
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

General Health Science
The general specialization is designed to accommodate students interested in diverse health care fields (e.g., health administration, nursing, clinical psychology).

To be on-track for the junior year, students must meet the critical-tracking criteria listed below, beginning with the first fall or spring term.

To be considered for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester:

<table>

</table>
• The online application to the BHS program goes live as a link on the BHS website (http://bhs.phhp.ufl.edu/) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

Semester 1

• Complete ENC 1101 or ENC 1102 with a minimum grade of C
• Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
• 2.3 cumulative GPA on work from all institutions

Semester 2

• Complete STA 2023 with a minimum grade of C
• Complete PSY 2012 with a minimum grade of C
• Complete 9 additional credits of general education courses for a total of 18, including the university writing requirement
• 2.7 cumulative GPA on work from all institutions

Semester 3

• Complete BSC 2005 or BSC 2010 with minimum grade of C
• Complete CLP 3144 or DEP 3053 with a minimum grade of C
• Complete STA 2023 with minimum grades of C
• Complete 9 additional credits of general education courses for a total of 27
• 3.0 GPA required for all critical-tracking courses, based on all attempts
• 3.0 cumulative GPA on work from all institutions

Semester 4

• Complete all general education courses, including IDS 1161 and all state core courses
• Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
• Complete APK 2105C with a minimum grade of C
• Complete 60 cumulative credits
• 3.0 GPA required for all critical-tracking courses and minimum grades of C on all critical-tracking courses, based on all attempts
• 3.0 cumulative GPA on work from all institutions

Semester 5

• Complete HSA 3111 with a minimum grade of C
• Complete HSC 3502 with a minimum grade of C
• Complete PHC 4101 with a minimum grade of C

Semester 6

• Complete HSC 3057 with a minimum grade of C
• Complete HSC 4558 with a minimum grade of C
• Complete OTH 3416 with a minimum grade of C
• Complete 3 credits of College Approved Electives
### Semester 7
- Complete HSC 3661 with a minimum grade of C
- Complete RCS 4415L with a minimum grade of C
- Complete HSC 4184 with a minimum grade of C

### Semester 8
- Complete HSC 4608L with a minimum grade of C
- Complete HSC 4652L with a minimum grade of C
- Complete HSC 4008 with a Satisfactory grade
- Complete 9 credits of College Approved Electives

### Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated.

### Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

### Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

**Critical Thinking**

6. Develop and apply critical analysis skills to contemporary health issues.

**Communication**

7. Apply effective basic communication skills for health professionals.

### Curriculum Map

- The Bachelor of Health Science (BHS) capstone exam in the final semester
- The degree candidate’s exit survey

Occupational Therapy Accelerated

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College**: Public Health and Health Professions (p. 1668)
- **Degree**: Bachelor of Health Science
- **Specializations**: General Health Science (p. 1687) | Occupational Therapy Accelerated (p. 1692) | Pre-Occupational Therapy (p. 1697) | Pre-Physical Therapy (p. 1702) | Pre-Professional (p. 1707)
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Curriculum

- Disability Science Minor
- Health Science
- Health Science Minor

Related Programs

- Public Health
The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

**General Health Science**
For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

**Occupational Therapy Accelerated**
A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

**Pre-Physical Therapy**
Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

**Pre-Occupational Therapy**
Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

**Pre-Professional**
For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

**Course Sequence**
While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

**Occupational Therapy Accelerated**
Occupational therapy is a professional program. The Occupational Therapy Accelerated Program gives students the opportunity to learn core health science content while simultaneously completing the first-year professional-level coursework required for the doctor of occupational therapy program at UF.

Competitive applicants to the Occupational Therapy Accelerated Program will have met the following requirements:

- Applicants must be accepted into the Bachelor of Health Science Program.
- Applicants must have completed all 2000-level prerequisites required for the professional program in occupational therapy.
- A minimum cumulative 3.8 GPA for lower division (freshman and sophomore level) undergraduate college coursework.
- A minimum 3.7 GPA for all prerequisite courses with no grade lower than a C.
- All applicants are required to complete a total of 30 hours of observational hours in at least two diverse OT settings. Diverse settings are settings that service clientele are significantly different; inpatient, outpatient, long term care, school-based, elders, pediatrics, orthopedics, rehabilitation, etc.
• Applicants must submit three recommendations. One of the recommendations must be from a professional level OT. The other two should be from professionals, such as a present or former faculty member, academic advisor, or employer.
• Applicants must submit a personal statement that addresses why they selected OT as a career and how an Occupational Therapy degree relates to their immediate and long-term professional goals. They must describe how their personal, educational, and professional background will help achieve their goals.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

Semester 1
• Complete BSC 2005 and BSC 2005L with minimum grades of C
• Complete ENC 1101 or ENC 1102 with a minimum grade of C
• Complete sociology or anthropology with a minimum grade of C
• Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
• 3.2 cumulative GPA on work from all institutions

Semester 2
• Complete ENC 1102 with a minimum grade of C
• Complete HSC 2000 with a minimum grade of C (recommended)
• Complete PSY 2012 and HSC 3537 with minimum grades of C
• Complete 9 additional credits of general education courses for a total of 18
• Complete 28 cumulative credits
• 3.4 cumulative GPA on work from all institutions

Semester 3
• Complete 3 additional critical-tracking courses: APK 2100C or APK 2105C, CLP 3144 and STA 2023 with minimum grades of C
• Complete 9 additional credits of general education courses for a total of 27
• Complete ENC 3453 or a substitution approved by a PHHP advisor
• Complete 42 cumulative credits
• 3.6 GPA required for all critical-tracking courses, based on all attempts
• 3.6 cumulative GPA on work from all institutions

Semester 4
• Complete all laboratories
• Complete all general education courses, including IDS 1161 and all state core courses
• Complete the university writing requirement
• Complete 60 cumulative credits
• Complete all critical-tracking courses with no grade below C and with a 3.7 critical-tracking GPA
• 3.8 cumulative GPA on work from all institutions

Semester 5
• Complete HSC 3502
• Complete HSA 3111
• Complete OTH 6002
• Complete OTH 6209

Semester 6
• Complete PHC 4101
• Complete HSC 4558
• Complete HSC 3057
• Complete HSC 4652L
• Complete OTH 6539

**Semester 7**
• Complete HSC 4184
• Complete HSC 3661
• Complete RCS 4415L
• Complete OTH 6008C
• Complete OTH 6419

**Semester 8**
• Complete HSC 4608L
• Complete OTH 6242
• Complete OTH 6423
• Complete OTH 6722

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

_This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply._

</tbody>
</table>

1. Minimum grade of C required.
2. Minimum grade of B required.

Students can complete missing coursework in the summer, but all first-year tracking criteria must be completed by the end of the summer term.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated, with the exception of Introduction to Statistics, which must be completed by the end of spring term of the junior year.

---

**Academic Learning Compact**

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

**Before Graduating Students Must**

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

**Critical Thinking**
6. Develop and apply critical analysis skills to contemporary health issues.

**Communication**
7. Apply effective basic communication skills for health professionals.

**Curriculum Map**

Related Programs
• Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

General Health Science
For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated
A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy
Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Pre-Occupational Therapy
Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

Pre-Professional
For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

Course Sequence
While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Pre-Occupational Therapy
Occupational therapy is a graduate-level program. The preprofessional OT track within the health science program gives students the opportunity to learn core health science content while simultaneously completing 3000/4000-level prerequisite coursework required for the graduate-level occupational therapy program at UF.
To be admitted to the pre-OT track, students must have completed all 2000-level prerequisites required for the master’s program in occupational therapy and have a minimum 3.0 GPA. Students who make satisfactory academic progress in their health science and pre-OT coursework receive the Bachelor of Health Science and, while admission to the OT program is not guaranteed, students in the pre-OT track have priority for admission to the graduate-level OT program.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

Semester 1

- Complete BSC 2005 and BSC 2005L with minimum grades of C
- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete sociology or anthropology with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

Semester 2

- Complete ENC 1102 with a minimum grade of C
- Complete HSC 2000 with a minimum grade of C (recommended)
- Complete PSY 2012 and HSC 3537 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 18
- Complete 28 cumulative credits
- 2.7 cumulative GPA on work from all institutions

Semester 3

- Complete 3 additional critical-tracking courses: APK 2100C or APK 2105C, CLP 3144 and STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- Complete ENC 3453 or a substitution approved by a PHHP advisor
- Complete 42 cumulative credits
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Semester 4

- Complete all laboratories
- Complete all general education courses, including Quest 1, Quest 2 and all state core courses
- Complete the university writing requirement
- Complete 60 cumulative credits
- Complete all critical-tracking courses with no grade below C and with a 3.7 critical-tracking GPA
- 3.0 cumulative GPA on work from all institutions

Semester 5

- Complete PHC 4101
- Complete HSC 3502
- Complete HSA 3111

Semester 6

- Complete OTH 3416
- Complete HSC 4558
- Complete HSC 3057
- Complete a minimum of 3 total credits of college approved electives
Semester 7
- Complete HSC 4184
- Complete HSC 3661
- Complete RCS 4415L

Semester 8
- Complete HSC 4608L
- Complete HSC 4652L
- Complete a minimum of 9 total credits of college approved electives
- Completion of all coursework with a minimum of 2.0 overall GPA

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

| Total Credits | 120 |

1. Minimum grade of C required.

Students can complete missing coursework in the summer, but all first-year tracking criteria must be completed by the end of the summer term.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated, with the exception of Introduction to Statistics, which must be completed by the end of spring term of the junior year.

---

**Academic Learning Compact**

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

**Before Graduating Students Must**

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.
Critical Thinking
6. Develop and apply critical analysis skills to contemporary health issues.

Communication
7. Apply effective basic communication skills for health professionals.

Assessment Types
- Assignment
- The Bachelor of Health Science (BHS) capstone exam in the final semester
- The degree candidate’s exit survey

Pre-Physical Therapy

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program
- **College:** Public Health and Health Professions (p. 1668)
- **Degree:** Bachelor of Health Science
- **Specializations:** General Health Science (p. 1687) | Occupational Therapy Accelerated (p. 1692) | Pre-Occupational Therapy (p. 1697) | Pre-Physical Therapy (p. 1702) | Pre-Professional (p. 1707)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Curriculum
- Disability Science Minor
- Health Science
- Health Science Minor

Related Programs
- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

General Health Science
For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated
A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy
Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Pre-Occupational Therapy
Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

Pre-Professional
For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

Course Sequence
While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Pre-Physical Therapy
Physical therapy is a doctoral-level program. Listed below is the suggested undergraduate prerequisite course sequence. For a description of the program and additional information, please refer to the Department of Physical Therapy.
Course Sequence

The following course sequence permits completion of general education requirements and UF health science and physical therapy prerequisites.

To be admitted to the pre-PT track, students must meet the health science critical-tracking criteria each semester, beginning with the first fall or spring term.

To be considered for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester:

The online application to the BHS program goes live as a link on the BHS website (http://bhs.phhp.ufl.edu/) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

Semester 1

- Complete ENC 1101 or ENC 1102
- Complete MAC 1140 or MAC 1147 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 GPA on work from all institutions

Semester 2

- Complete ENC 1102 with a minimum grade of C
- Complete BSC 2010 with a minimum grade of C
- Complete STA 2023 or DEP 3053 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18
- 2.7 GPA on work from all institutions

Semester 3

- Complete APK 2105C, BSC 2010, DEP 3053, STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Semester 4

- Complete HSC 2000 with a minimum grade of C (recommended)
- Complete all general education courses, including IDS 1161 and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
• Complete 60 cumulative credits
• Complete all critical-tracking courses with no grades below C and with a 3.0 critical-tracking GPA
• 3.0 cumulative GPA on work from all institutions

**Semester 5**

- Complete HSA 3111 with a minimum grade of C
- Complete HSC 3502 with a minimum grade of C
- Complete PHC 4101 with a minimum grade of C

**Semester 6**

- Complete HSC 3057 with a minimum grade of C
- Complete HSC 4558 with a minimum grade of C
- Complete OTH 3416 with a minimum grade of C
- Complete 3 credits of College Approved Electives

**Semester 7**

- Complete HSC 3661 with a minimum grade of C
- Complete RCS 4415L with a minimum grade of C
- Complete HSC 4184 with a minimum grade of C

**Semester 8**

- Complete HSC 4608L with a minimum grade of C
- Complete HSC 4652L with a minimum grade of C
- Complete HSC 4008 with a Satisfactory grade
- Complete 9 credits of College Approved Electives

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Pre-Professional
The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program
- **College**: Public Health and Health Professions (p. 1668)
- **Degree**: Bachelor of Health Science
  - **Specializations**: General Health Science (p. 1687) | Occupational Therapy Accelerated (p. 1692) | Pre-Occupational Therapy (p. 1697) | Pre-Physical Therapy (p. 1702) | Pre-Professional (p. 1707)
- **Credits for Degree**: 120

*To graduate with this major, students must complete all university, college, and major requirements.*

Department Information
The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

[Website](https://bhs.phhp.ufl.edu/)
The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

**General Health Science**
For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

**Occupational Therapy Accelerated**
A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

**Pre-Physical Therapy**
Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

**Pre-Occupational Therapy**
Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

**Pre-Professional**
For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g., occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

**Course Sequence**
While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs
may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

**Preprofessional**

Students interested in health careers requiring strong basic science backgrounds, such as medicine and physician assistant programs, should enroll in the pre-professional specialization.

To be on track for the junior year, students must meet the critical-tracking criteria listed below, beginning with the first fall or spring term.

To be considered for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BSC 2010</td>
<td>Integrated Principles of Biology 1</td>
<td>3</td>
</tr>
<tr>
<td>PSY 2012</td>
<td>General Psychology</td>
<td>3</td>
</tr>
<tr>
<td>STA 2023</td>
<td>Introduction to Statistics 1</td>
<td>3</td>
</tr>
<tr>
<td>CLP 3144</td>
<td>Abnormal Psychology</td>
<td>3</td>
</tr>
<tr>
<td>or DEP 3053</td>
<td></td>
<td></td>
</tr>
<tr>
<td>APK 2105C</td>
<td>Applied Human Physiology with Laboratory</td>
<td>4</td>
</tr>
<tr>
<td>ENC 3453</td>
<td>Writing in the Health Professions</td>
<td>3</td>
</tr>
<tr>
<td>or ENC 2210</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The online application to the BHS program goes live as a link on the BHS website ([http://bhs.phhp.ufl.edu/](http://bhs.phhp.ufl.edu/)) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01)) may be used for transfer students.

**Semester 1**

- Complete PSY 2012, and ENC 1101 or ENC 1102 with minimum grades of C
- Complete 9 credits of general education courses, including ENC 1101 or ENC 1102, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

**Semester 2**

- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18
- 2.7 cumulative GPA on work from all institutions

**Semester 3**

- Complete BSC 2010 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

**Semester 4**

- Complete DEP 3053 or CLP 3144 with a minimum grade of C
- Complete APK 2105C with a minimum grade of C
- Complete all general education courses, including IDS 1161 and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete 60 cumulative credits
• Complete all critical-tracking courses with no grades below C and with a 3.0 critical-tracking GPA
• 3.0 cumulative GPA on work from all institutions

Semester 5
• Complete HSA 3111 with a minimum grade of C
• Complete HSC 3502 with a minimum grade of C
• Complete PHC 4101 with a minimum grade of C

Semester 6
• Complete HSC 3057 with a minimum grade of C
• Complete HSC 4558 with a minimum grade of C
• Complete OTH 3416 with a minimum grade of C
• Complete 3 credits of College Approved Electives

Semester 7
• Complete HSC 3661 with a minimum grade of C
• Complete RCS 4415L with a minimum grade of C
• Complete HSC 4184 with a minimum grade of C

Semester 8
• Complete HSC 4608L with a minimum grade of C
• Complete HSC 4652L with a minimum grade of C
• Complete HSC 4008 with a Satisfactory grade
• Complete 9 credits of College Approved Electives

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated.

The health science program requires 120 credits for degree. Students following the preprofessional guidelines will require more than 120 credits and includes all preprofessional coursework.

Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

Critical Thinking
6. Develop and apply critical analysis skills to contemporary health issues.

Communication
7. Apply effective basic communication skills for health professionals.

- The degree candidate’s exit survey

Health Science Minor
The Health Science minor provides foundational knowledge and skills in the changing healthcare delivery system.

About this Program
- **College:** Public Health and Health Professions (p. 1668)
- **Credits:** 15 | Completed with minimum grades of C

Department Information
The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Curriculum
- Disability Science Minor
- Health Science
- Health Science Minor

Related Programs
- Public Health

The minor is open to all juniors and seniors with majors outside the College of Public Health and Health Professions who meet the prerequisites. It is also open to communication sciences and disorders students.

Prerequisites include junior standing (60+ credits), a 3.0 overall GPA and a 3.0 prerequisite GPA based on general college biology, general psychology, abnormal/developmental/physiological psychology, physiology and statistics (STA 2023). Students can transfer up to three credits of approved coursework.

Interested students should obtain an application and a list of current coursework.

Required Courses
*Complete the first three courses before taking electives.*

### Public Health

The Bachelor of Public Health (BPH) program prepares students for advanced education in public health or related fields. It also provides students with foundational public health skills to succeed in the dynamic public health workforce.

### About this Program

- **College**: Public Health and Health Professions (p. 1668)
- **Degree**: Bachelor of Public Health
- **Credits for Degree**: 120

*To graduate with this major, students must complete all university, college, and major requirements.*

### Department Information

- **Website**: [https://publichealth.phhp.ufl.edu/](https://publichealth.phhp.ufl.edu/)

### Related Programs

- Health Science
- Health Science Minor

---

A primary goal of the public health bachelor's degree program is to prepare students for advanced (master's) training in the health professions and in public health specifically, considered the entry level degree for the field. Students interested in a specific area of public health have the opportunity to organize some of their electives around a cohesive public health topic. In addition, interested students have the opportunity to explore a combination-degree program in public health.

Upon successful completion of the public health program, students receive the Bachelor of Public Health degree. While the majority of students pursue graduate or professional training in public health or a related field, some students seek employment in not-for-profit and for-profit agencies, or related community health organizations after completing the B.P.H.

### Course Sequence

The public health program is designed primarily for students who want to pursue advanced degree work in public health or a related field. It is also appropriate for those who want to acquire foundational public health knowledge before continuing to graduate or professional school or who will work in a health-care setting after graduation. In order to be on track for pre-public health at the junior level, students must meet the critical-tracking criteria listed below, beginning with their first fall or spring term.

*To be considered for admission at the junior level, students must:*
Complete these prerequisites:

<table>
<thead>
<tr>

</table>

- 3.0 overall GPA and 3.0 prerequisite GPA
- AA degree or 60 transferable college level credits
- Completion of all general education and university writing requirements
- Apply formally to the college by February 1. The college application packet (https://bph.phhp.ufl.edu/resources-for-prospective-students/application/) is available online. Transfer students must apply separately to UF and to the college so they must submit two different applications.

AP, IB, or AICE credit is accepted for any prerequisite course. Students must earn a minimum of C in any BPH prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BPH prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Students must apply by February 1 for Summer B and fall admission. All prerequisites must be completed by the end of Summer.

Critical Tracking

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

Semester 1
- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

Semester 2
- Complete STA 2023 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18, and including the university writing requirement
- 2.7 cumulative GPA on work from all institutions

Semester 3
- Complete BSC 2005 or BSC 2010 with minimum grade of C
- Complete Social and Behavioral Sciences (GE-S) with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Semester 4
- Complete all general education courses, including IDS 1161 GE-B/P, GE-S, and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete Physical or Biological Science (GE-P or B) with a minimum grade of C
- Complete 60 cumulative credits
- 3.0 critical tracking GPA and minimum grades of C on all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions
SEMESTER 5
- Complete PHC 4101 with a minimum grade of C
- Complete PHC 4094 with a minimum grade of C
- Complete PHC 3603 with a minimum grade of C
- Complete HSC 3502 with a minimum grade of C
- Complete HSA 3111 with a minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

SEMESTER 6
- Complete HSC 4558 with a minimum grade of C
- Complete HSC 3057 with a minimum grade of C
- Complete PHC 3440 with a minimum grade of C
- Complete 1 Approved college elective with a minimum grade of C
- Complete 1 Specialty elective (3000/4000) with a minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

SEMESTER 7
- Complete PHC 4943 with a minimum grade of C
- Complete PHC 4117 with a minimum grade of C
- Complete 1 Specialty elective (3000/4000) with a minimum grade of C
- Complete General electives (3000/4000) with a minimum grade of C
- Complete a minimum of 6 college approved electives
- Complete 1 Specialty elective (3000/4000) with a minimum grade of C
- Complete 1 Specialty elective (3000/4000) with a minimum grade of C
- Complete 3.0 GPA required for all critical-tracking courses, based on all attempts
- Complete 3.0 cumulative GPA on work from all institutions

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Total Credits** 120

1 Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term and order indicated.

---

**Academic Learning Compact**

Students graduating with a Bachelor of Public Health will be prepared for careers in health care systems or organizations addressing the health or more general human service needs of communities and populations. They will learn the foundational skills necessary to enter post baccalaureate academic programs in public health or complementary fields and success in the dynamic public health workforce.
Before Graduating Students Must

- Earn minimum grades of C in all public health core courses.
- Pass a BPH capstone exam and service learning experience.
- Complete requirements for the post baccalaureate degree, as determined by the faculty and the university.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Explain the five major areas of public health (biostatistics, environmental health services, epidemiology, health services administration, and social behavioral science), and each area's contribution to public health.

2. Identify, describe, and explain the ways that social determinants of health impact disability, disease and illness in populations.

Critical Thinking

3. Identify, critically evaluate, and propose solutions to public health challenges.

Communication

4. Communicate in oral and written forms public health concepts and their relationship to policy, communities, organizations, interpersonal dynamics and individual perspectives.

Public Health Minor

The Public Health minor enables preprofessional students to acquire public health knowledge that complements their career paths. The minor is designed for students going into careers other than public health who can benefit from public health knowledge in the delivery of their services. A few examples of these careers include anthropology, dentistry, environmental engineering, health education, medicine, nursing, nutritional sciences, occupational therapy, physician assistant, and psychology.

About this Program

Curriculum
• Public Health
• Public Health Minor

Related Programs
• Health Science
• Health Science Minor

Students interested in public health careers should consider a combination-degree program rather than this minor.

For students in the College of Public Health and Health Professions, successful completion of this minor satisfies the 9-credit college elective requirement and six credits of general elective credit. Therefore, no additional credits beyond 120 are required for graduation with a minor in public health.

Students must have completed the prerequisites for the BPH program with minimum grades of C to be considered for a minor. Prerequisites include:

• Junior status (60+ credits)
• 3.0 overall GPA
• 3.0 prerequisite GPA
• Completion of the following:

Students may transfer up to three credits of approved coursework toward the minor. All remaining credits must be taken from the course list below.

Interested students should submit the required UF application to add or cancel a minor. Students also must submit a proposed plan of study that includes courses for the minor.

More Info (http://bhs.phhp.ufl.edu/forms-2/)

Application materials should be submitted to the Bachelor of Public Health office in the College of Public Health and Health Professions, HPNP 4150. Minors are considered on a space-available basis. Students within the Bachelors of Health Science program are only able to apply one of their core curriculum courses towards the public health minor.

The communication sciences and disorders program and health science program also offers minors.

Counting Credits for Undergraduate or Graduate Degrees
Undergraduates who are interested in public health as a career path, but do not want to pursue the Bachelors of Public Health, should consider the Bachelors/MPH Combination Degree. This would allow courses taken in a student’s senior year to count toward an MPH degree.
More Info (http://mph.ufl.edu/)

Majors
Index of all Majors (http://catalog.ufl.edu/UGRD/programs/#filter=filter_22)
An academic major represents each student’s principal interest and the majority of their efforts during their undergraduate studies. Each major’s core curriculum covers a range of subjects that provide the student with a solid foundation in their chosen field of study.

Declaring a Major
Upon entering UF as a freshman, students are encouraged to declare the major that they are most likely to pursue. Students may declare Exploratory if they are unsure. In their first few terms, students should take courses to explore multiple academic areas. Many students have varied interests and will graduate with minors, certificates, double majors, dual degrees and/or combination degrees.

Exploring Areas of Interest
Exploring areas of interest early helps students determine whether they want to pursue additional academic programs. In addition, quite a few students change majors in their first or second year, so exploring multiple areas early helps students to confirm their choice of major or identify a more desirable major.
More Info (https://www.advising.ufl.edu/exploratory/)

Declaring an Exploratory Category
First-year students with no major preference can declare one of three exploratory categories (humanities and letters, social and behavioral sciences, or science and engineering) for the first three fall/spring terms. Exploratory students are advised by the Academic Advising Center and affiliated with the College of Liberal Arts and Sciences. Exploratory students should be purposeful in all of their decisions, particularly when it comes to choosing classes for each semester to be sure they are taking courses to explore potential majors. They must also actively work to narrow down UF majors to one that fits their aspirations and abilities.

Changing Majors
It’s not unusual for students to change their minds about majors and career paths as they gain educational and practical experience. To help ensure that students make the best choices regarding their major and degree, UF provides guidance, information, and technical assistance. Students should proactively determine their major to obtain the degree that fits them best instead of being forced to select a major due to pending academic deadlines.

There is often little relationship between undergraduate degrees and specific types of employment. A specific major does not guarantee employment in a specific field, nor does a specific major limit employment to a specific field.

Ways to Explore Areas of Study at UF
Review the Undergraduate Majors
Students should search for majors that interest them and explore required courses; they should also speak to faculty or advisors in those departments.

Use ONE.UF to Explore Majors by Subject Area, College, or Major
Current students can use What-If reports in ONE.UF (https://one.uf.edu/) to discover if coursework they have taken applies toward a given major’s requirements. For additional information, students should contact the department offering the degree or the advising office of the appropriate college.
More Info (https://one.uf.edu/)

Meet with an Academic Advisor
Students can discuss majors and career options with an advisor in the college affiliated with their interests.
More Info (http://www.ufadvising.ufl.edu/)
Utilize the Exploratory Website

Students who are considering different majors can review advising suggestions, an exploratory timeline, resources, and tips on choosing a major. More Info ([https://www.advising.ufl.edu/exploratory/](https://www.advising.ufl.edu/exploratory/))

Visit the Career Connections Center

The Career Connections Center located on the first floor of the J. Wayne Reitz Union helps students make choices about their major and career. In addition to providing individual and group career counseling, the Career Connections Center library covers everything from accounting to zoology. Many other resources to explore careers are available through the website ([https://career.ufl.edu/career-action-plan/learn-about-yourself/](https://career.ufl.edu/career-action-plan/learn-about-yourself/)), including information about career planning and numerous helpful exercises. After a tentative decision is made, the Career Connections Center helps students test their choice by participating in externships, internships, co-ops, and career fairs. More Info ([https://career.ufl.edu/](https://career.ufl.edu/)) Map ([http://campusmap.ufl.edu/?loc=0686](http://campusmap.ufl.edu/?loc=0686))

Talk to a College or Department Representative

Students should be sure to discuss various academic programs and their potential career implications. Websites and contact information for each major can be found on its major page.

Minors

Index of all Minors ([http://catalog.ufl.edu/UGRD/programs/#filter=filter_23](http://catalog.ufl.edu/UGRD/programs/#filter=filter_23))

The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. Students can follow-up on long-time personal interests, satisfy intellectual curiosity generated by introductory courses, differentiate their program of study from those of fellow students or enhance their opportunities for employment or for admission to graduate or professional schools.

Applying for a Minor

Students should review the information about their minor of interest in this catalog. In general, each minor page explains which students are eligible to pursue the minor, any qualifications or prerequisites necessary to be eligible for the minor and the requirements to complete the minor. Students are also encouraged to discuss the minor with the offering department.

Students interested in pursuing a minor must complete an application. Students will not be able to earn a minor if an application has not been submitted and approved. The application requires the approval of the student's college as well as the college offering the minor. Students may apply using the link below. The approval process can take some time so students are strongly encouraged to apply to pursue a minor early.

Apply for a Minor ([https://registrar.ufl.edu/assets/pdfs/minorform.pdf](https://registrar.ufl.edu/assets/pdfs/minorform.pdf))

Certificates

Index of all Certificates ([http://catalog.ufl.edu/UGRD/programs/#filter=filter_24](http://catalog.ufl.edu/UGRD/programs/#filter=filter_24))

Each certificate program must have at least nine credits that are distinct from every other certificate or minor. That is, certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors. All courses required must be completed with minimum grades of C or S in each course. The undergraduate certificate does not require completion of graduate courses.

Applying for a Certificate Program

Students should review the information about their certificate of interest in this catalog. In general, each certificate page explains which students are eligible to pursue the certificate, any qualifications or prerequisites necessary to be eligible for the certificate and the requirements to complete the certificate. Students are also encouraged to discuss the certificate with the offering department.

Students interested in pursuing a certificate must first apply for program admission. After being admitted and completing the requirements, students will be able to apply to be granted the certificate through ONE.UF ([https://one.uf.edu/](https://one.uf.edu/)). Students who are about to graduate and who have already completed all the requirements for the certificate still must apply for admission using the button below before applying to be granted the certificate through ONE.UF. The certificate approval process can take some time so students are strongly encouraged to apply to pursue a certificate early.

Apply for a Certificate Program ([http://www.admissions.ufl.edu/start.html](http://www.admissions.ufl.edu/start.html))
Academic Advising

Mission
The university is committed to quality academic advising for all students. The academic advising mission is to assist students in attaining their educational goals. New students are required to attend, and will receive advising during Preview, UF’s new student orientation. After Preview, student advising is handled by college and departmental advisors.

University Responsibilities
The Academic Advising Center in Farrior Hall is responsible for certain university advising functions: coordinating academic advising during Preview, advising exploratory students, and providing resources and information to students interested in post-baccalaureate professional programs such as dentistry, law, medicine, and veterinary medicine.
Map (http://campusmap.ufl.edu/?loc=0019) More Info (http://www.advising.ufl.edu/)

College/School and Department Responsibilities
The dean of each college or school ultimately is responsible for ensuring that academic advising is available and accessible to all students within the college or school. Some colleges’ advisors are located in college-level offices, while others are located in departmental offices.

Academic Advising Contacts at UF (http://www.ufadvising.ufl.edu/)

Student Academic Responsibilities
To graduate, students are responsible for knowing and fulfilling all university, college, and major requirements.

All students must:

• Complete the Preview orientation program to receive academic advising before their first term of enrollment
• Maintain a GatorLink email address and read official university correspondence sent to this address
• Meet with an advisor in the appropriate college/major upon entrance to a major
• Confer with an advisor on a regular basis about options for a major if the student is undecided about a major
• Review the degree audit each semester to ensure they fully understand their remaining degree requirements
• Seek advising when experiencing academic difficulty to avoid, if possible, academic probation or off-track status, or to understand their options if on probation or off-track
• Maintain their own personal academic records, including transcripts, degree audits, evaluation of transfer work, and notes from previous advising sessions.

Students who at any time are confused about academic requirements or their progress toward a degree are encouraged and expected to meet with an advisor.

Academic Progress

Universal Tracking

Universal Tracking is the university's monitoring system that assesses progress toward the student's degree requirements. It provides feedback on the student's progress in a major, helping them find the best academic path to complete their degree. For each major, there is a model semester plan which represents an example progression for completing the degree in a timely fashion.

Each semester, students are reminded via GatorLink email and Registration Prep in ONE.UF to review their degree audit before registration for the next term. The audit fits the student's courses and grades into the degree requirements for their major, indicating the requirements that have been completed as well as showing which requirements have yet to be completed.
Students Who Enroll During the Fall and Spring Semesters

Progress toward a degree is monitored in those semesters to ensure that students are on track. For these students, the summer terms may provide opportunities to catch up on critical-tracking courses or to improve their GPA.

Students Who Enroll Only in the Spring and Summer Semesters

Innovation Academy Students

Progress toward a degree is monitored in those semesters to ensure that students are on track. For these students, the fall semester may provide opportunities to catch up on critical-tracking courses or to improve their GPA.

Critical-Tracking Criteria

Critical-tracking criteria usually include a minimum GPA (UF or overall, depending on the academic program), completion of certain courses toward the major (critical-tracking or preprofessional courses), and a minimum GPA in the critical-tracking courses (tracking or preprofessional GPA). The critical-tracking criteria are listed on the Critical Tracking tab for each major. For many majors, critical-tracking courses are bolded in the semester plan.

Minimum Academic Progress Under Universal Tracking During Semesters 1-5

- Students do not have to complete all of the courses in the model plan each semester to remain on track; they simply have to meet certain minimum requirements known as critical-tracking criteria.
- In the degree audit, a summary of critical-tracking criteria for the first five semesters as well as an area that tracks your progress through all eight semesters appears near the top of the audit.
- The critical-tracking criteria are minimum requirements for progression; students should consult their degree audit and their advisor to ensure they meet all requirements for graduation.
- All students admitted as freshmen are monitored in their first semester for the Semester 1 critical-tracking criteria, regardless of the number of credits they have earned through dual enrollment and credit by examination.
- A student may have a hold placed on their registration to require a meeting with an advisor to discuss the student’s progress. This enables the student to determine what is necessary to get back on track, or to change to a more appropriate major.
- If a student is off-track for two consecutive terms in the first five critical tracking semesters, they must change to a major more appropriate to their skills, goals, and performance. Once the student selects a new major, they should contact the college offering that major to schedule an appointment with an advisor to discuss changing majors.

Off-Track Notification During Semesters 1-5

Student progress toward tracking is assessed twice a semester. An analysis of whether the student will be on track at the end of the term (predictive analysis) occurs in the fourth week. If a student is predicted to be off-track at the end of the term, a hold is placed on their registration requiring the student meet with an advisor to make a plan to get back on track or change majors.

If a student is predicted to be on-track during the term, but ends up off-track at the end of term, they should meet with an advisor in their college/major before the end of drop/add for the next term to make a plan to get on track or change majors.

Students should review any holds on ONE.UF (http://one.uf.edu/) when planning their registration for the next semester.

How Tracking Holds affect a Student

- Holds applied before advance registration prevent students from registering until they consult an advisor to develop an academic plan to complete the critical-tracking courses for the current major or identify a more appropriate major.
- Holds applied at the end of the semester for failure to be on track for two consecutive semesters require students to see an advisor before the next term of enrollment to select a new major and to avoid cancellation of enrollment.

Minimum Academic Progress Under Universal Tracking During Semesters 6-8

- In the degree audit, critical-tracking criteria for semesters six through eight will appear in the “Critical Tracking Progress” area near the top of the audit only if the student has a critical tracking term of six through eight.
- The critical-tracking criteria are minimum requirements for progression; students should consult their degree audit and their advisor to ensure they meet all requirements for graduation.
- During the critical tracking semesters six through eight, an off-track student may have a hold placed on their record requiring them to formulate a plan for getting on track and preparing for graduation in a timely manner.
- If a student is off-track for two consecutive terms in during critical tracking semesters six through eight, they will be required to revise their graduation plan and undergo more intensive academic counseling to ensure they meet all academic requirements for timely graduation.
Off-Track Notification During Semesters 6-8

Student progress toward tracking is assessed twice a semester. An analysis of whether the student will be on track at the end of the term ('predictive' analysis) occurs in the fourth week. If a student is predicted to be off-track at the end of the term, a hold may be placed on their registration requiring the student meet with an advisor to make a plan to get back on track.

Academic Probation and Dismissal

Academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable adherence to the program of study.

A minimum grade point average of 2.0 is required to graduate from any UF undergraduate degree program. Any college may specify additional academic standards and students are responsible for observing these regulations.

Additional Information

- Probation (p. 1784)
- Dismissal (p. 1784)
- Changing Majors (p. 1720)

Academic Support Programs

Academic Support, Office of | 105 CLASsroom Building (CBD)

The Office of Academic Support (OAS) for Undergraduate Affairs, in collaboration with faculty, staff, and our campus partners, provides programs and services to enrich the experience of UF students. Our mission is to offer supportive resources and opportunities that help students thrive and grow professionally. OAS is committed to creating an encouraging and inclusive learning community that challenges our students to achieve academic excellence. Our comprehensive academic support includes peer coaching, tutoring, general advising, and other resources to promote students' empowerment and growth as scholars. We help students set and achieve academic goals to persist, graduate, and advance in their careers.

Map (http://campusmap.ufl.edu/?loc=0655) More Info (http://oas.aa.ufl.edu/)

Career Connections Center | Level Two Reitz Union

The Career Connections Center (Career Center) provides events and services to help students develop and implement their Career Action Plan to realize their next steps. Students can work with Career Center staff to clarify their interests and abilities, select a major, develop professionally, build experience, and prepare for future internship, graduate school, or employment searches.

Students should activate their Gator CareerLink account to learn about the range of in-person and online career planning services available to them, and to see which employers are actively recruiting University of Florida candidates.

The Career Connections Center hosts hundreds of employers annually as they attend a variety of career events, hold on-campus interviews, present information sessions, and interact informally with students.

Map (http://campusmap.ufl.edu/?loc=0686) More Info (http://www.crc.ufl.edu/)

Center for Undergraduate Research | 202 Newell Hall

The Center for Undergraduate Research (CUR) is committed to fostering a culture of research that encourages students in all levels and disciplines to include a research component as a critical part of their undergraduate experience. CUR provides guidance to students interested in pursuing research opportunities and coordinates campus undergraduate research activities. CUR also works to expand undergraduate research opportunities across campus.

Map (http://campusmap.ufl.edu/?loc=0013) More Info (http://cur.aa.ufl.edu/)

Collegiate Veterans Success Center | 4th Floor Yon Hall

The Collegiate Veterans Success Center serves over 2,000 student Veterans, Active Duty Service members, and military families at UF by providing a designated location on campus for student Veterans to study, meet with on and off campus resources, and to spend time with and support each other in a fun and relaxing space. The Collegiate Veterans Success Center at UF is also one of ninety-four universities to host the U.S. Department of Veterans Affairs’ VetSuccess on Campus Counselor (VSOC). The VSOC Program serves as the on-campus face for the U.S. Department of Veterans Affairs. UF has been honored for its support services for student Veterans, Active Duty Service members, and military families.

- UF is ranked 1st out of 63 colleges and universities in Florida for Veteran friendliness (by College Factual);
- UF is ranked 4th out of 1,751 colleges and universities for Veteran friendliness (by College Factual);
- UF is ranked in the Top Ten of Tier One research institutions with outstanding programs and support for our nation’s Veterans and their Families (Military Friendly 2019); and
- UF was awarded a Best For Vets college award for excellent academic support of military students (Military Times 2019).
Academic Advising

Dean of Students Office Care Area | 202 Peabody Hall
Professionals in the Dean of Students Office work with students, their families, and campus and community resources to develop success plans and provide ongoing support for students in distress dealing with a variety of issues.

Disability Resource Center | Reid Hall and Cypress Hall
The Disability Resource Center (DRC) in the Division of Student Affairs, celebrates disability identity as a valued aspect of diversity. We champion a universally accessible campus community that supports the holistic advancement of students with disabilities.

The DRC serves more than 4,000 registered students to provide access within the academic and housing environment. This may be done through academic accommodations as well as collaborating with faculty and staff across the University to proactively address barriers. Students are able to register online by visiting our website (https://disability.ufl.edu/). DRC staff are available to consult with faculty and staff on how to best support the access needs of gators with disabilities. Students and their families can schedule an inquiry appointment to learn more about the DRC. They can do this by visiting our online appointment scheduling page: https://disability.ufl.edu/about/drc-appointments/. Please feel free to call the DRC at 352.392.8565 for any questions.

Graduate Diversity Initiatives, Office of | 123 Grinter Hall
The Office of Graduate Diversity Initiatives (OGDI) is a function of the Graduate School dedicated to the recruitment and retention of underrepresented graduate students. This includes increasing the number of UF graduate students from underrepresented ethnic/racial populations, low-income or first-generation college students, as well as advancing and promoting professional development for all graduate students at the University of Florida. OGDI strives to provide currently enrolled graduate students with programs and services to assist and support the pursuit of a successful graduate education. OGDI provides students with social, informational, referral, mentoring, and, in some cases, financial support. Additionally, OGDI maintains partnerships with administrative offices, academic units, research centers, student services, and organizations across campus to help students with the graduate experience. OGDI accomplishes its mission through several programs held throughout the academic year.

Office of Graduate Diversity Initiatives
123 Grinter Hall
Gainesville, FL 32611

International Center | 170 Hub
The UF International Center (UFIC) supports and promotes international education and research across the university and provides valuable support services for all students and faculty at UF through its various units. International Student Services provides immigration and support services to international students throughout their studies at UF. Exchange Visitor Services provides administrative support for international scholars at UF. The Office for Global Learning supports integrative global opportunities for faculty and staff to facilitate global learning courses and experiences. The Office for Global Research supports faculty development of international research and training programs.

Study Abroad Services develops, administers, and coordinates study abroad programs, which are offered during spring break, summer, semester, and the entire academic year. Students can live and study abroad while fulfilling UF degree requirements. Exchange programs enable students to pay UF tuition while studying at an international partner institution. Scholarships and financial aid can help to finance the international academic experience. Study abroad advisors work with students to find a program that fits both their personal and academic needs.

McNair Scholars Program | 319 Infirmary Building
The Ronald E. McNair Scholars Achievement Program encourages undergraduate students to pursue advanced studies at the Ph.D. level. This intense academic research program, one of the most prestigious in the country, is designed for first-generation and low-income college students, as well as...
students from groups underrepresented at the graduate level. There are 187 McNair programs nationally, which are funded by Federal TRIO Program grants from the U.S. Department of Education.

New scholars begin the program in the summer with an intensive research internship, which includes a three-credit Research Methods and Writing course, GRE preparation, and workshops on the graduate school application process and other topics related to graduate study at the doctoral level.

McNair Scholars receive mentoring, academic support, faculty-guided research experience, a research stipend of up to $2,800, and travel funding to present at professional conferences and visit prospective graduate programs. Application information (http://mcnair.aa.ufl.edu/application.aspx). Map (http://campusmap.ufl.edu/?loc=0018) More Info (http://mcnair.aa.ufl.edu/)

**Teaching Center**

The Teaching Center offers various academic resources to help students succeed in their studies. All of our tutoring services are free to current students. The following tutoring services are available:

- Drop-in tutoring: best for students who have a few questions or want a place to study with the opportunity to ask questions of a tutor.
- Appointment tutoring: best for students who want to meet regularly with a tutor for an entire class period. These appointments meet at the same time each week of the term.
- Study Groups / SI: group tutoring which allows students to work together with a peer leader. In SI students actively process concepts through social interaction.
- Test Reviews: large auditorium tutoring is great for an overall review of what to expect on upcoming course exams. GRE preparation workshops are also available each semester.
- Video Resources: features tutors explaining how they think about concepts and how they approach problem solving. These online resources are available any time.

A study skills/learning strategies improvement program is also available. Students may work individually with a learning strategist or participate in workshops covering a variety of topics. Study skills videos are available online as well.

The Teaching Center is a certified Prometric, Pearson Vue Select, and NCTA Testing Center, and also provides test proctoring for distance education courses and CLEP exams. There is a fee for test proctoring/administration, however. Please be aware that CLEP exams must be taken and scores reported to UF before the end of the first semester of enrollment (or Fall semester for students entering Summer B).

The Teaching Center also provides tutoring in satellite centers (mathematics through Calculus 1 in LIT 215 and chemistry in TUR 1315). Tutoring schedules may be found on the website.

More Info (https://teachingcenter.ufl.edu/)

**University of Florida Libraries**

All seven of the libraries on campus serve the entire community, and each has a special mission to be the primary support of specific colleges and degree programs. The Libraries home page (https://uflib.ufl.edu) offers a wealth of information about the Libraries and links to a vast array of resources.

The Marston Science Library and Library West are the largest libraries on campus. In Marston, the first floor Collaboration Commons has 21 group study rooms and a multipurpose conference room featuring a multi-touch visualization wall. The first floor is also home to MADE@UF, a collaboration space created by the Libraries and Academic Technology with equipment, software and training for virtual reality and augmented reality applications. A 3D printing lab is located on the second floor and includes 3D scanners and printers available for lending.

Library West (Humanities and Social Sciences) offers 18 group study rooms, a graduate student floor, graduate student/faculty study carrels, and the Scott Nygren Scholars Studio, an emerging community center for digital humanities and digital scholarship. The One Button Video Recording Studio is available for student and faculty checkout. Six ProctorU testing carrels are available by reservation. Library West also has a Tutoring Center, Accessibility Studio and FitDesk study bikes.

Other campus libraries include the Health Science Center Library, Education Library, Architecture & Fine Arts Library, Smathers Library (special and area studies) and the Legal Information Center.

More Info (https://uflib.ufl.edu)

**University Multicultural Mentor Program**

The University Multicultural Mentor Program is an opportunity open to incoming students from underrepresented populations. The program pairs each participant with a faculty/staff mentor to assist with the students’ transition to college. Mentoring programs have a dramatic and positive effect on student retention, graduation rates, and faculty-student relations. This program lasts the full duration of the student’s first year at UF and is administered by the Department of Multicultural and Diversity Affairs within the Division of Student Affairs. For more information, email ummp@ufsa.ufl.edu.

More Info (https://multicultural.ufl.edu/programs/ummp/)
University Writing Program | 2215 Turlington Hall

The University Writing Program (UWP) offers writing-intensive courses, workshops, and tutorial support to students and faculty. Instruction is based on the premise that writing is a transferable skill necessary for success in all academic and professional fields.

The University Writing Program also provides one-on-one consultations on any topic related to writing in the Writing Studio. Students can make an appointment online or by contacting the UWP office.

Courses taught by writing program faculty include:

Academic Honors

Honors Program

The mission of the University of Florida Honors Program is to connect, nurture, and engage the next generation of scholars who change the world. The program does this by recruiting high achieving students from around the world; inspiring curiosity, intellectual daring and creativity; and building a lifelong community of high-achieving peers, top-notch faculty and supportive staff. The Honors Program values the power of opportunity, the strength in community, and the love of a challenge.

More Info (http://www.honors.ufl.edu/)

There are two pathways to admission / participation in the Honors Program.

First-Year Honors Program

The First-Year Honors Program (FHP) is open to high school seniors who are entering UF as incoming freshmen.

More Info (http://www.honors.ufl.edu/admissions/first-year-honors-program-fhp/)

Members of the First-Year Honors Program must earn at least a 3.5 cumulative UF GPA and take at least 2 credits of Honors courses (earned with a B or higher) during their first year. The first year includes Summer B, Fall, and Spring, but not the following summer. Students who enter the FHP starting in Summer B 2021 or later will be required to take the Honors version of their Quest 1 requirement in addition to the 2 credits of Honors courses. Students who complete these requirements will move automatically into University Honors for the remainder of their time at UF.

University Honors Program

The University Honors Program (UHP) is open to sophomores through seniors. Members of the First-Year Honors Program are automatically advanced to University Honors if they complete the FHP. Currently enrolled freshmen who are not members of FHP may apply to UHP at the conclusion of their first year at UF; provided they have met the lateral admissions criteria.

More Info (http://www.honors.ufl.edu/admissions/university-honors-program-uhp/)

To complete the University Honors Program, students must graduate with honors in their major, complete Honors Quest 1 and 2, and earn 8 additional academic and 6 enrichment points through various activities. Students who meet the UHP completion requirements will receive a notation on their official UF transcript and a medallion to wear at commencement.

More Info (http://www.honors.ufl.edu/info-for/current-students/completion-requirements/)

Students in the Honors Program have access to:

- Specialized honors courses (http://www.honors.ufl.edu/academics/courses/)
- Housing in the Honors Residential College at Hume Hall (https://www.housing.ufl.edu/housing/hume-hall/)
- Holistic academic advising and coaching (http://www.honors.ufl.edu/academics/advising/)
- Honors student involvement opportunities (http://www.honors.ufl.edu/student-life/)

In addition, students in the Honors Program have early course registration for their first 10 credits each semester. Early registration privileges are limited to students in good standing with either the FHP or UHP.

Honor Roll

Students will appear on the President’s Honor Roll if they achieve a perfect 4.0 GPA with at least 15 credits of graded academic course work (no S/U) in the fall or spring semester, or at least 12 credits of graded coursework in the summer semester (consisting of any combination of credits earned in Summer A, B, or C). This achievement will appear on the student’s transcript as a permanent record. Students with questions about the President’s Honor Roll should contact the Office of the University Registrar in 222 Criser Hall.

Map (http://campusmap.ufl.edu/#/index/0031) Email (help@registrar.ufl.edu)

Students registered with the Disability Resource Center may be allowed to vary the number of credits required, but not the GPA requirement, following certification by the DRC.

Dean’s List

Students will appear on their college’s Dean’s List if they meet the requirements. In addition, please note the following conditions:

- S/U and internship courses are not counted in the GPA calculation for Dean’s List.
- GPA value is determined to the hundredths place and cannot be rounded up (e.g., 3.495 = 3.49).
- Grades of I, NG, I* or N* cannot be calculated into the GPA.
- Students registered with the Disability Resource Center may be allowed to vary the number of credits required, but not the GPA requirement, following certification by the DRC.
- Students are eligible to earn the Dean’s List designation only once for the entire summer semester.
• In all colleges except Public Health and Health Professions, the credits in the Summer Requirements column can be earned in any combination of Summer A, B, or C courses. For Public Health and Health Professions, the six credits may be earned in either Summer A or Summer B, but not Summer C, and those students can only appear on their Dean's List once for the summer semester.

Graduating With Honors

The university offers three levels of honors: **cum laude**, **magna cum laude** and **summa cum laude**.

Please be aware that:

- GPA value is determined to the hundredths place (e.g., 3.495 = 3.49)
- Transfer credits and S/U option credits are excluded
- Postbaccalaureate students are not eligible for honors recognition
- Honors recognition is printed on the university diploma
- Students should check with an academic advisor for complete details

Statistics
Cum Laude
Student must write a thesis that fulfills the standards as specified in the department’s honors guidelines.  

Magna Cum Laude
Student must satisfy the B.S. degree requirements and write a thesis that fulfills the standards as specified in the department’s honors guidelines.

Summa Cum Laude

Sustainability Studies
Cum Laude
Student must complete a thesis, which may be written for independent study credit in the primary supervisor’s department (but not for cluster credit). The student, in consultation with the director, must secure primary and secondary faculty supervisors associated with the major (one from CLAS). Distinction of magna cum laude will be given upon recommendation of both supervisors after evaluation of the thesis. Distinction of summa cum laude will be given upon recommendation of both supervisors and an oversight board reader, designated by the director, after evaluation of the thesis.

Magna Cum Laude
Student must complete a thesis, which may be written for independent study credit in the primary supervisor’s department (but not for cluster credit). The student, in consultation with the director, must secure primary and secondary faculty supervisors associated with the major (one from CLAS). Distinction of magna cum laude will be given upon recommendation of both supervisors after evaluation of the thesis. Distinction of summa cum laude will be given upon recommendation of both supervisors and an oversight board reader, designated by the director, after evaluation of the thesis.

Summa Cum Laude

Women’s Studies
Cum Laude
Student must enroll in WST 4970 and complete an honors thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

Magna Cum Laude
Student must enroll in WST 4970 and complete an honors thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

Summa Cum Laude

Zoology
Cum Laude
Student must complete at least six credits of ZOO 4911, BSC 4910, BSC 4912, or BOT 4911, complete a thesis research project and submit an honors thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

Magna Cum Laude
Student must complete at least six credits of ZOO 4911, BSC 4910, BSC 4912, or BOT 4911, complete a thesis research project and submit an honors thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

---

**Academic Terminology**

|------------|------------|------------|------------|------------|------------|------------|---|-----------|---|---|------------|------------|---|------------|------------|---|------------|------------|---|------------|------------|

**A**

- **A.A. Degree**
  Associate of Arts degree, awarded upon satisfactory completion of 60 credits (at least 36 at UF) with an overall C (2.0) average, including the general education requirement, foreign language competency, the civic literacy requirement, and the writing requirement.
  More Info (p. 1789)

- **Academic Learning Compact | ALC**
  UF's definition for each major of the minimum communication skills, critical thinking skills and content knowledge appropriate for that major.

- **Academic Year**
  The annual cycle of academic terms: Summer B, Fall, Spring, Summer A, Summer C.
  More Info (p. 1808)

- **Admission Requirements**
  The necessary minimum criteria every applicant must have to be admitted to UF. Many majors have additional requirements for admission as a junior.
  More Info (p. 29)

- **Admitted**
  Term used to describe students who have applied and have been accepted to the university in a degree-seeking status. Admission is not validated until the student registers for and attends classes.
  More Info (p. 29)

- **Audit**
  Permission to attend and to participate in a course without benefit of a grade or credit. Continuing education units (CEUs) may be awarded at the discretion of the instructor.
  More Info (p. 1808)
B

• Baccalaureate
  Bachelor’s degree, the traditional undergraduate degree. B.A. is the Bachelor of Arts degree and B.S. is the Bachelor of Science degree. It is awarded upon satisfactory completion of at least 120 credits with an overall C (2.0) average.

C

• Calendar, University
  An annual publication listing all official dates and deadlines for the academic year.
  More Info (p. 1808)

• Catalog Year
  The year during which the regulations published in a specific edition of the undergraduate catalog apply. A student’s catalog year determines their academic requirements for completing a degree based upon the requirements published in the catalog in effect at the time the student begins degree-seeking enrollment.
  More Info (p. 1789)

• Certificate
  An organized concentration of study in an approved subject area. University-approved certificate programs began appearing on the student transcript in Spring 2012. Non-university approved certificate programs are not recognized on a student transcript although individual courses are reflected.
  More Info (p. 1721)

• Classification/College
  A code indicating a student’s academic level (year) and college affiliation.
  More Info (p. 1807)

• Combination Degrees
  Combination degrees allow students to double count graduate credits toward their bachelor’s degree at no loss of integrity or quality of either degree.
  More Info (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees/)

• Common Course Numbering System
  A statewide system of course prefixes and numbers developed to facilitate the transfer of credit by identifying equivalent courses.
  More Info (http://scns.fldoe.org/)

• Continuing Education Unit | CEU
  Courses taken to maintain licensure in professions that require a state or professional board license.

• Continuous Enrollment
  Undergraduate students who enroll for at least one course in one term in an academic year are continuously enrolled.
  More Info (p. 1789)

• Corequisite
  Two courses that must be taken concurrently.

• Course Sequence
  The specified order of enrollment for a series of courses; e.g., SPN 1130, SPN 1131, SPN 2200, SPN 2201.

• Credit
  Every course taught is designated a total number of credits. The number of credits for a class reflects approximately the total hours a student spends per week in class.

• Critical Tracking Criteria
  The courses required for progression in a major. These courses are in bold or otherwise noted in the undergraduate catalog and on the degree audit.
  More Info (p. 1722)

• Cum Laude
  Graduating with honors.
  More Info (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonortext)
• **Deficit Record**
  A combination of UF cumulative credits and UF cumulative grade point average, where the UF cumulative GPA falls below a 2.0.
  More Info (p. 1785)

• **Degree Audit**
  A computerized evaluation of a student’s progress towards completion of a degree. See ONE.UF.
  More Info (https://one.uf.edu/dashboard/)

• **Dismissal**
  Academic dismissal from the university denies registration privileges to students who have a cumulative GPA at or below the standard required for their cumulative UF credit hours carried. The student will be dismissed from the university and any advance registrations will be cancelled.
  More Info (p. 1784)

• **Drop**
  To drop a single course from a given term after the drop/add period. Students are liable for fees for a dropped course and a W is posted to the student’s transcript.
  More Info (p. 1791)

• **Drop/Add**
  A period of time beginning with the first day of classes when students can adjust schedules by dropping or adding courses or changing sections of a course. Courses dropped by 11:59 p.m. on the last day of drop/add are not subject to fees.
  More Info (p. 1791)

• **Dual Enrollment**
  Simultaneous registration at two educational institutions.
  More Info (p. 1761)

• **Electives**
  Any course not required as part of a student’s degree requirements, but applying to the minimum credits for the degree.

• **Enrollment**
  Registration for coursework and payment of fees constitutes official enrollment.

• **Excess Hours**
  Credits exceeding a state-specified threshold of credits taken toward the degree requirements. Additional tuition is assessed for credits exceeding this threshold.
  More Info (p. 1793)

• **FERPA**
  The Family Educational Rights and Privacy Act, which affords students certain rights with respect to their education records.
  More Info (p. 1799)

• **Flexible Learning**
  Division of Continuing Education course offerings. Consult the college dean’s office for restrictions and limitations.
  More Info (p. 1770)

• **GatorLink**
  A student’s computer identity at UF, which consists of a username and password to allow access to secure UF sites. It also includes official UF email service, usually in the format of username@ufl.edu. All students are required to sign up for a GatorLink account and email service because official university communications are sent to this email address.
  More Info (p. 1819)
• Gator 1 Card
  UF’s official university photo identification. All enrolled students must have a university ID card.
  More Info (p. 1819)

• General Education Requirement
  University-wide requirement of basic studies that form the foundation of all undergraduate degree programs.
  More Info (p. 86)

• Good Standing
  Eligible to continue to register for university coursework.
  More Info (p. 1784)

• Grade Point Average | GPA
  The ratio of grade points earned to semester credits carried. The UF GPA is computed on University of Florida coursework only. The UF GPA is displayed to the hundredths place and not rounded up (i.e. 3.528 = 3.52).
  More Info (p. 1801)

• Grade Points
  The number of points attributed to a grade (A=4, B=3, etc.) times the number of credits in the course.
  More Info (p. 1801)

• Graduate Student
  A student who has earned a baccalaureate degree and who has been admitted to the Graduate School to pursue a graduate degree program (master’s, specialist, engineer, doctorate).
  More Info (http://www.graduateschool.ufl.edu/)

• Graduation Requirements
  University-wide, college- and major-specific requirements that must be met for graduation from UF.
  More Info (p. 1789)

I

• Individual Students Assessments | ISA
  The different ways in which UF will measure whether students have successfully completed the learning outcomes for a particular major. These may include a passing score on a particular test, a final project, term paper, portfolio and so on.

• Innovation Academy | IA
  A unique undergraduate program experience, IA creates a small-college experience that focuses on delivering innovation, creativity, entrepreneurship, ethics, and leadership. IA students take courses on campus during the spring and summer, leaving the fall term free for online courses, study abroad, internships, research, community service, and/or employment. IA students follow this spring-summer on campus schedule throughout their entire degree program.
  More Info (https://innovationacademy.ufl.edu/)

L

• Learning Outcomes
  What students are expected to learn by completing a particular major.

M

• Magna Cum Laude
  Graduating with high honors.
  More Info (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorsertext)

• Major
  A subject of academic study chosen as a field of specialization.
  More Info (p. 1720)

• Matriculation
  Initial term of enrollment and attendance at UF. Can be as an admitted, degree-seeking student or as a non-degree student.
  More Info (https://care.dso.ufl.edu/medical-withdrawal-process/)

• Medical Withdrawal
  Student withdraws from all courses in a given term based on medical documentation. Fees for the semester will be refunded if a successful petition is filed within six months of given term.
  More Info (https://care.dso.ufl.edu/medical-withdrawal-process/)
• Minor
An officially recognized secondary concentration of study in an approved subject area, consisting of at least 15 credits of appropriate coursework. Minors are optional.
More Info (p. 1721)

• Ombuds
The university ombuds assists all members of the university community to solve problems and conflicts. They will listen, discuss issues, answer questions, interpret policies, provide information and referrals, and help develop options for problem resolution. The ombuds serves as an advocate for fairness for all members of the university community.
More Info (p. 1784)

• On-track or Off-track
On-track refers to students who are meeting progress requirements each term, according to their majors’ critical tracking plans. Off-track refers to students who are not progressing toward their degree requirements each term.
More Info (p. 1784)

• ONE.UF
Enables students to access and manage their records online.
More Info (https://one.uf.edu/)

• Overall GPA
Cumulative GPA of UF coursework. GPA’s are displayed to the hundredths place and not rounded up.
More Info (p. 1801)

• PaCE | Pathway to Campus Enrollment
PaCE offers degree programs through a combination of online and residential or campus-based learning options.
More Info (http://www.admissions.ufl.edu/pace/)

• Permanent Academic Record
The complete list of a student’s courses attempted, grades and credit earned, degrees awarded and any other pertinent academic information.

• Petition
A written request seeking a waiver of or an exception to a university regulation, policy or deadline. Petitions may be considered if the circumstances are beyond the student’s control.
More Info (p. 1784)

• Postbaccalaureate
A student who has earned a baccalaureate degree and been admitted for continued study but who has not been admitted as a graduate or professional student.

• Preprofessional GPA
The grade point average achieved in the specific courses required for admission to a major (a.k.a. tracking GPA); these courses generally are completed in the first two years of study and the required GPA is often higher than 2.0.

• Prerequisite
A condition that must be met to establish eligibility to enroll in a program or course.

• Prerequisite Courses
The courses students must take and successfully complete before they can enroll in a subsequent course.

• Probation, Academic
Any undergraduate with less than a 2.0 cumulative UF GPA shall be placed on academic probation while a grade point deficit exists. Refer to deficit points.
More Info (p. 1784)

• Professional Student
A student who is admitted to pursue a Doctor of Dental Medicine, Juris Doctor, Doctor of Medicine, Doctor of Nursing Practice, Doctor of Pharmacy, Doctor of Physical Therapy, Physician Assistant or Doctor of Veterinary Medicine degree.
R

• Readmission
The procedure for a previously enrolled UF student to re-enroll in a degree-seeking status after a break in enrollment of more than three terms; a readmission fee is required.
More Info (p. 32)

• Registration
The process by which a student officially selects and enrolls in university coursework.
More Info (p. 1805)

• Residence
A student’s tenure within the university and/or a specific college or school in campus-based learning opportunities.
More Info (p. 1789)

• Residency
Classification of students as Florida residents or non-Florida residents for tuition purposes.
More Info (p. 33)

S

• Schedule Adjustment
A period of time following registration before the beginning of classes when students can adjust their course schedules.

• Schedule of Courses
A listing of courses offered by semester.
More Info (https://registrar.ufl.edu/soc/)

• Semester
A standard academic term (fall, spring, or summer). Refer to term.
More Info (p. 1808)

• Student
Any individual who is attending or has attended a postsecondary educational agency or institution that maintains academic records.

• Specialization
A detailed set of courses and/or semester plan for graduation for an emphasis of study within a major.

• Student Learning Outcomes | SLOs
What students are expected to learn by completing a particular major.

• Summa Cum Laude
Graduating with highest honors.
More Info (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonortext)

• S/U Option
A provision by which a student may elect, with college approval, to enroll in a course, the grade for which is not computed in the grade point average. Grades awarded are S (satisfactory) or U (unsatisfactory). The S grade is equivalent to a grade of C (2.0) or better. A grade of U does not grant credit for the course.
More Info (p. 1801)

• SUS
The State University System of Florida. The University of Florida is one of the state-supported universities and colleges in the SUS.
More Info (http://www.flbog.edu/)

T

• Term
A period of instruction. During the fall and spring, the term is a standard 16-week semester. During the summer, various shorter length periods of instruction are offered: Summer A and Summer B are six-week terms; Summer C is a 12-week term.
More Info (p. 1808)

• Textbook Adoption
The process by which textbook requirements are submitted by faculty and displayed online for students to see and to purchase for their courses.
Accelerated Degrees

- **Transcript**
  An official copy of the student's complete coursework, grades, credit and degrees earned at the University of Florida.
  More Info [here](https://registrar.ufl.edu/services/transcripts.html)

- **Transfer Credit**
  Coursework completed at another institution that is accepted at the University of Florida and which may be applicable toward a specific major, minor, or degree.
  More Info (p. 32)

- **Transient Student**
  A student of another accredited institution who receives permission to register (for one term) as a non-degree-seeking student to earn credit to transfer back to their parent institution.

**U**

- **UFID**
  A unique eight-digit number that serves as the primary identifier for all university records and transactions. No two people have the same number and each person has only one UFID.
  More Info (p. 1819)

- **UF Online**
  Bachelor degrees and minors offered exclusively through distance learning.
  More Info [here](http://ufonline.ufl.edu/)

- **Unit**
  An alternate term for credit. One unit equals one credit.

- **Universal Tracking System and Audits**
  UF's academic monitoring system, feature semester-by-semester plans for each major.
  More Info (p. 1722)

**W**

- **What-If Report**
  Exploring possible majors to determine a student's interest and to estimate whether the coursework they have completed meets any of the degree requirements for a specific major.

- **Withdraw**
  To drop all courses for a given term. Students are liable for fees and a grade of W will appear on the transcript for each course.
  More Info (p. 1791)

- **Writing Requirement**
  The University of Florida requires all students to complete courses that involve substantial writing and meet specific criteria for a total of 24,000 words. Courses are identified by category in the schedule of courses.
  More Info (p. 1778)

---

**Accelerated Degrees**

**College of Dentistry's Honors Combination B.S./D.M.D. Program**

Incoming freshmen who intend to pursue a career in dentistry can, through a cooperative agreement between the College of Agricultural and Life Sciences and the College of Dentistry, qualify for provisional admission to the preprofessional program leading to the D.M.D. This honors program helps highly motivated students complete a B.S. degree in Nutritional Sciences or Microbiology and Cell Science and the D.M.D. degree.

More Info [here](http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program/)

Admission Criteria [here](http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program/)

Contact: 352.273.5955

**Medical Honors Program**

An accelerated path to medical school. Students apply to this highly competitive program in the second semester of the second year of undergraduate study. If selected, they begin coursework for medical school in the third year and enter the M.D. program in the fourth year. After completion of the first year of medical school, students earn their B.S. degrees.
More Info (http://jhmp.med.ufl.edu/)

Admission Criteria: Apply during sophomore year
Contact: Email (med-admissions@ufl.edu) | 352.273.7990

Master of Agribusiness (MAB)
A professional degree for students who desire careers in marketing and management in agriculture, food processing and distribution, forest products and related industry where there has been strong demand for MAB graduates. Offered by the Department of Food and Resource Economics (FRE), the MAB can be completed in three semesters (fall, spring and summer). A bachelor’s degree in economics or business is not required.
More Info (http://www.fred.ifas.ufl.edu/graduate/mab/)

Admission Criteria: Competitive GRE or GMAT score; 3.0 upper-division GPA
Contact: Email (fregradprogram@ifas.ufl.edu) | 352.273.7990

Master of Science in Management (MSM)
Provides non–business majors with the opportunity to combine the knowledge gained from other academic disciplines with functional business applications to create a dynamic skill set that is in demand by employers.
More Info (https://warrington.ufl.edu/master-of-science-in-management/)

Admission Criteria: Refer to website for next information session.
Contact: Email (msm@cba.ufl.edu) | 352.273.0344.

Master of Public Health
This degree offers diverse career opportunities, including identifying and tracking biohazards, keeping communities safe, investigating disease outbreaks, creating community health promotion programs and measuring the impact of health policy on access to care.
More Info (http://mph.ufl.edu/)

Students are admitted to one of six concentrations:
- Biostatistics
- Environmental Health
- Epidemiology
- Public Health Management and Policy
- Public Health Practice
- Social and Behavioral Sciences

Admission Criteria: 1000 GRE and a 3.0 GPA for last 60 hours of undergraduate coursework.
Contact: Email (shanson@phhp.ufl.edu) | 352.273.6379

Combination Degrees
The Combination Degree program allows undergraduate students who qualify academically to obtain both a bachelor’s and master’s degree. Minimum qualifications for many programs include a 3.2 GPA and a competitive GRE score for admission to graduate school.

Combination degree programs allow students to get a head start on their graduate education by taking graduate courses throughout the junior and senior undergraduate years. In most programs, 12 credit hours of graduate work will also count toward an undergraduate degree, thus reducing the time it takes to get both degrees. Students should consult their department advisors to determine whether the department offers combination degree programs and whether they qualify.

There are a number of financial considerations to keep in mind. Students are responsible for paying the difference between undergraduate and graduate tuitions. Florida Prepaid College Tuition Program participants will receive funding for the first 120 credit hours. The program will fund graduate courses taken toward the undergraduate degree at the undergraduate level. Financial aid may be available to assist with the graduate degree portion of the program.

Advantages
- Combination degrees allow students to double count graduate credits toward their bachelor’s degree at no loss of integrity or quality of either degree.
- Qualified students can obtain an undergraduate and a graduate degree in much less time than two separate degrees.
- The cost of both degrees is reduced, since at least 12 credits apply toward both degrees.
• Students have time to decide whether to pursue further graduate or professional study.
• A student’s marketability is greatly enhanced; many professions now require a master’s degree for entry-level positions.

Combination Degrees by College

Accounting, Fisher School of

Any Undergraduate Degree and Biostatistics | MS
The Biostatistics Bachelors/MS program allows qualified students to earn a bachelor’s degree from any degree program at UF and a master’s of science degree in Biostatistics. This allows the master’s degree to be attained within one year (two semesters, 24 credits). The master’s of science degree in Biostatistics is designed to facilitate students’ development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.

Overlapping Credits: 12

Admission Criteria: Must have at least junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; completion of 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.

Contact: 352.294.5926 | Email (http://catalog.ufl.edu/mailtto:kcason@ufl.edu)

Accounting | 3/2 MAcc/BSAc
Non-thesis only
This is an integrated, five-year, 150-hour program that leads to the joint award of a Bachelor of Science in Accounting and a Master of Accounting. Students may pursue a general accounting curriculum, or select an auditing or taxation concentration. This program is for students seeking a professional accounting career. Completion fulfills the state's requirements to take the CPA examination to practice in Florida.

Admission Criteria
Contact: 352.273.0200 | Email (FSOA@warrington.ufl.edu)
More Info (https://warrington.ufl.edu/3-2-bsac-macc/)

Agricultural and Life Sciences, College of

Any Undergraduate Degree and Biostatistics | MS
The Biostatistics Bachelors/MS program allows qualified students to earn a bachelor’s degree from any degree program at UF and a master’s of science degree in Biostatistics. This allows the master’s degree to be attained within one year (two semesters, 24 credits). The master’s of science degree in Biostatistics is designed to facilitate students’ development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.

Arts in Medicine is a diverse, multidisciplinary and rapidly expanding field dedicated to transforming health and the healthcare experience through the arts. Today, artists are working at approximately half of hospitals in the US, as well as in community programs that enhance health and well-being.

The Bachelor of Science and Master of Arts in Arts in Medicine Combination Program allows pre-health students (majoring in Public Health, Biology, Microbiology, Chemistry or Psychology) to begin completing requirements towards a master’s degree (MA) in Arts in Medicine while completing their undergraduate degree (BS/BAS).

Admission Criteria: Completed GRE; 3.2 GPA on all upper-division courses
Contact: Email (camadmissions@arts.ufl.edu)

**Business, Warrington College of**

**Any Undergraduate Degree and Biostatistics | MS**

The Biostatistics Bachelors/MS program allows qualified students to earn a bachelor’s degree from any degree program at UF and a master’s of science degree in Biostatistics. This allows the master’s degree to be attained within one year (two semesters, 24 credits). The master’s of science degree in Biostatistics is designed to facilitate students’ development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.

Overlapping Credits: 12

Admission Criteria: Must have at least junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; completion of 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.

**Business Administration, Major in Entrepreneurship | MSE**

Overlapping Credits: 2-10

Through a stimulating curriculum and transformational experiential learning opportunities, this one-year, intensive program equips promising entrepreneurs with the skills and savvy to plan, launch and sustain innovative ventures on their terms.

Admission Criteria: Adequate GMAT score; 3.2 minimum GPA
Contact: 352.273.0337 | Email (MSE@warrington.ufl.edu)

More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees/)

**Business Administration, Major in Management | MSM**

Overlapping Credits: 2-12

This degree provides nonbusiness majors the opportunity to combine knowledge from other academic disciplines with functional business applications to create a dynamic skillset in demand by employers in business and nonbusiness industries.

Admission Criteria: Competitive GMAT or GRE score; 3.2 minimum GPA
Finance, Master of Science | MSF
Overlapping Credits: 2-12
Students have the opportunity to study finance at the second-year MBA level. Courses cover nearly all areas of finance, including derivative securities, fixed income markets, equity valuation, international finance and real estate finance. With early application students can receive their undergraduate and graduate degrees in four years. The best time to apply is two years before the undergraduate degree would be received.
Admission Criteria: 465 GMAT (650+ average); 3.0 GPA (3.5+ average)
Contact: 352.392.9249 | Email (kelly.herring@warrington.ufl.edu)

Information Systems | BS/MS
Non-thesis only
Overlapping Credits: 12-16
This program develops the computing, quantitative and applications skills vital to a business problem-solving setting.
Admission Criteria: Competitive GMAT or GRE score; 3.0 GPA
Contact: 352.846.1370 | Email (chandra.hardy@warrington.ufl.edu)
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees/)

Master of International Business | MIB
Overlapping Credits: 2-12
This one-year degree allows UF business majors or minors to enhance their undergraduate business education with an in-depth study of global business issues and trends. The MIB program allows curriculum flexibility and incorporates practical global business components with a required one-week Global Immersion Experience course abroad and optional participation in an international exchange program.
Admission Criteria: Competitive GMAT or GRE score; 3.2 minimum GPA
Contact: 352.273.0343 | Email (mib@warrington.ufl.edu)
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees/)

Real Estate, Master of Science | MSRE
Non-thesis only
Overlapping Credits: 2-12
The MSRE thrives on innovation, a dynamic student body and significant interaction with high-level working professionals and nationally recognized professors. The program is a unique combination of theory and practice that will enhance the student's commercial real estate education and develop professional skills. Undergraduate students from any college/major may apply. Prior coursework in accounting, business, economics, finance or statistics is preferred but not required.
Admission Criteria: 465 GMAT (600+ average); 3.0 GPA (3.4+ average). Admission is based on a number of factors, including GMAT and academic record.

Economics | BA/MA

This program complements undergraduate training in economics by providing more robust training with economic analysis and econometric methods. It is intended for students who wish to build strong quantitative reasoning skills and develop technical data analytic tools before pursuing a professional career. The graduate portion of this combined degree program should be viewed as a professional master's in economics. This is not a Ph.D. preparatory program.

Overlapping Credits: 12

Admission Criteria: Competitive GRE score; 3.25 cumulative GPA; completion of 105 credits, 12 of which must be Economics courses (i.e., ECO, ECP, or ECS prefix) taken at UF. Students are encouraged to complete ECO 4421 or STA 4210 before beginning graduate coursework.

Public Health and Health Professions, College of
Any Undergraduate Degree and Biostatistics | MS
The Biostatistics Bachelor’s/MS program allows qualified students to earn a bachelor’s degree from any degree program at UF and a master’s of science degree in Biostatistics. This allows the master’s degree to be attained within one year (two semesters, 24 credits). The master's of science degree in Biostatistics is designed to facilitate students' development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.
Overlapping Credits: 12
Admission Criteria: Must have at least junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; completion of 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.
Contact: 352.294.5926 | Email (http://catalog.ufl.edumailtto:kcason@ufl.edu)

Biostatistics | Bachelors/MS
Overlapping credits: 12
Qualified students with any undergraduate major can pursue a Master of Science degree in Biostatistics. The Master of Science degree in Biostatistics is designed to facilitate students' development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.
Admission Criteria: Junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; Completion of the following 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.

Contact: 352.294.5926 | Email (kcason@ufl.edu)

Public Health | Any Bachelor's Degree/MPH

Overlapping credits: 15

Qualified students with any undergraduate major can pursue a master's degree in public health. Students complete 15 credits of public health core courses as an undergraduate and then complete the remaining 33 credits after admission to graduate school. Students select a concentration in public health management and policy, social and behavioral sciences, epidemiology, biostatistics or environmental health.

Admission Criteria: Competitive GRE score; 3.2 GPA; completion of APK 2105C, BSC 2005 or BSC 2010, PSY 2012, STA 2023, advanced psychology (abnormal or developmental) and any additional prerequisites (depends on concentration).

Contact: 352.273.6377 | Email (m.nappy@phhp.ufl.edu)

Public Health | BS and Arts in Medicine | MA

The Bachelor of Science in Public Health and Master of Arts in Arts in Medicine combination degree enables pre-health students to begin completing requirements towards a master's degree in Arts in Medicine while completing their undergraduate BS degree.

Overlapping Credits: 12

More Info (http://www.admissions.ufl.edu/pdf/combdegreerequest.pdf)

Applying

Meet with an academic advisor to determine the most-appropriate combination degree option. Qualified students can pursue the graduate degree outside the undergraduate major or department. Application normally occurs in the junior or senior year. If accepted, students must take the GRE the first semester of their senior year.

More Info (http://www.admissions.ufl.edu/pdf/combdegreerequest.pdf)

Financial aid is available for the graduate portion of the program. Undergraduate degree costs should be satisfied with existing financial aid such as Bright Futures and Prepaid Tuition. Bright Futures can cover the undergraduate costs of up to 12 hours of graduate courses that apply to the undergraduate degree. Each student is responsible for the difference in tuition between the undergraduate and graduate course rates. If available, the Florida Prepaid Tuition Program can fund the first 120 hours. Graduate courses that apply toward the undergraduate degree are funded at the undergraduate rate, and the student is responsible for the difference.

FAQ

What is a combination bachelor's and master's degree program?
Combination degrees allow students to double count graduate credits toward their bachelor's degree at no loss of integrity or quality of either degree. A combination degree program allows students to complete a specific number of graduate-level credits while enrolled as an undergraduate.

Why should I participate in a combination degree program?
The program allows students to take graduate coursework before they make a decision to complete a graduate degree. If the student continues in a graduate program, they'll save at least one full semester of graduate enrollment.

At what point in the undergraduate program should I apply?
Students can apply as early as the second semester of their sophomore year or as late as their senior year depending upon the combination degree program.

At what point do I enroll in graduate courses?
If approved, students can take graduate courses during their junior and senior years as specified by the particular combination degree program.

What is required for approval?
As an undergraduate applying for entry into a combination degree program, students must have a minimum cumulative 3.2 UF GPA (some majors require a higher GPA) and have completed all critical-tracking requirements to enroll in graduate coursework while they are completing their undergraduate degree. After students apply for admission to the Graduate School, however, they must meet the minimum cumulative GPA requirement and GRE/GMAT score the particular master program requires.

What is required so that 12 to 21 hours of graduate coursework (depending on the major) can also count toward my master's degree?
To apply the graduate credit to both degrees, students must be admitted to the Graduate School and receive a grade of B or higher in each course. A graduate coordinator can provide the admission requirements for a particular department.

If I do not continue in graduate school, can the graduate coursework I complete still be used to satisfy my undergraduate degree requirements?
Yes.
What about my financial aid?
Bright Futures and/or the Florida Prepaid Tuition Program will pay the undergraduate tuition rate for the graduate courses students take; each student will have to pay the difference between undergraduate and graduate course costs.

Why would I want to pay additional tuition to enroll in graduate courses?
If a student continues to graduate school, they will save on the tuition costs for the 12 to 21 graduate credits (depending on the major) taken while still classified as an undergraduate. Remember that graduate course costs will be partially paid by the student’s undergraduate financial aid.

How do I apply?
Contact an undergraduate advisor and complete the combination degree application. Students will need the approval of the undergraduate coordinator, the graduate coordinator, and the dean’s office of their undergraduate college.

What do I do if I want to create my own combination degree program?
Students should contact the coordinator in the graduate department of the new combination degree program.

Are there other accelerated degree programs available other than combination degrees?
Yes, there are several accelerated degree programs available.
More Info (p. 1746)

Dual Enrollment Credit
In general, you may transfer up to 60 credits from public/state colleges as part of the credits needed for your UF degree, regardless when these credits are earned, but subject to university and college degree requirements. It is the prerogative of your college to determine how transfer credit satisfies a specific degree’s course requirements.

Students are required to submit to the Office of Admissions final official transcripts from all institutions attended before or during their enrollment at UF.
More Info (p. 1806)

Credit from Florida Public Colleges and State Universities
Courses from Florida public colleges and State University System schools generally adhere to the Statewide Course Numbering System. If the prefix (first three letters) and the last three digits of the course number are the same, the courses are considered equivalent.
More Info (p. 1824)

Equivalent courses will generally fulfill the same requirements (e.g., general education) that the UF course fulfills, including the Writing Requirement, provided the UF equivalent course awards Words towards the Writing Requirement.
More Info (p. 1780)

Courses from Private or Out-of-State Institutions
College credit from private or out-of-state institutions earned through a dual-enrollment program may transfer to UF, but must be evaluated by your college to determine if courses completed will fulfill specific requirements.

Exam Credit

Award of Incoming Credits
- Credit will be awarded only once for the same course, whether from credit by examination, dual enrollment, transfer credit, or UF course credit.
- UF course credit takes precedence over all other forms of credit for the same course.
- Credit awarded for acceptable dual enrollment or transfer courses takes precedence over credit by examination.
- If duplicate credit exists among AICE, AP, CLEP, or IB, the exam yielding the most credit will be awarded.

Guidelines for Credit Awarded by AICE, AP, CLEP, DLPT, DSST, IB, or UExcel Examinations
- A maximum of 45 credit hours may be granted by combining AICE, AP, CLEP, DLPT, DSST, IB, or UEXCEL credit.
- Students beginning in the fall or spring term must have taken the exams and have their scores reported to the university before the end of their first term of enrollment at UF.
- Students who begin in the Summer A term must have taken the exam(s) and had their scores reported to the university before the end of their first Summer B/C term.
- Students who begin in the Summer B term must have taken the exam(s) and had their scores reported to the university before the end of their first fall term.
- If a student submits appropriate scores, UF will grant credit for the UF course(s) that most closely match the content of the exam as determined by the State of Florida. The transcript will reflect the course(s) with grades of P (for Pass). P grades will not be calculated into the student’s GPA.
- Equivalent courses earned by examination generally fulfill the same requirements that the UF course fulfills.

## Exam Credit

Students completing approved AICE examinations with scores of A-E will earn UF credit.

Scores of E or higher on AICE French Language, German, Latin Language, and Spanish Language examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and B.A. programs in the College of the Arts.

The chart specifies which UF course credit students will earn depending on their score on each exam and whether the credit earned will count for general education (p. 89) and the writing requirement (p. 1778) (6,000 words).

**AP Exam Credit**

Students completing approved AP examinations with scores of three or higher will earn UF credit.

Scores of three or higher on AP Chinese, French, German, Italian, Japanese, Latin, Russian, and Spanish language examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and B.A. programs in the College of the Arts.

AP Calculus Placement Scores More AP Information (http://www.collegeboard.com/student/testing/ap/about.html)

The UF course credit that students earn depends on their score on each AP exam and whether the credit earned will count for general education (p. 89) and the writing requirement (p. 177) (6,000 words).

1. The L000 course number has no UF course equivalent. The credit applies to the minimum credits for the degree but does not provide general education credit or count toward the major.

2. Writing requirement (6000 words).

### DSST Examination

DSST (formerly DANTES Subject Standardized Tests) are credit-by-examination tests originated by the United States Department of Defense’s Defense Activity for Non-Traditional Education Support (DANTES) program.

The chart specifies which UF course credit students will earn depending on their score on each DSST exam and whether the credit earned will count for general education (p. 89) requirements.

*Students may be awarded a maximum of 30 credit hours for DSST exams.*

1 The L000 course number has no UF course equivalent. The credit applies to the minimum credits for the degree but does not provide credit toward general education, writing requirement, or count toward the major.

2 XUF is a prefix designated for non-UF courses that may fulfill general education or other degree requirements.

### IB Exam Credit

Students will receive credit for scores of 4 or higher on both higher-level and standard-level examinations.

Scores of 4 or higher on IB French B, German B, Italian B, Latin, and Spanish B examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and B.A. programs in the College of the Arts.

The chart specifies which UF course credit students will earn depending on their score on each IB exam and whether the credit earned will count for general education (p. 89) and the writing requirement (p. 1778) (6,000 words).

**Flexible Learning**

**Distance and Continuing Education**

Distance & Continuing Education (DCE) offers fully online undergraduate courses for college credit through UF Flexible Learning.

The primary purpose of this program is to provide high-quality flexible educational opportunities for students in the State University System, Florida College System, and beyond who are not currently enrolled at UF and:

- Have conflicting schedules
- Need to meet general education or writing requirement
- Need to meet course prerequisites
- Want personal enrichment

Students who are not enrolled at UF should consult an academic advisor at their institution prior to enrolling in courses to ensure transfer of the credit. DCE is not responsible for ensuring that any credit received is transferable.

UF students interested in taking a Flexible Learning course must first consult with their academic advisor. UF students may apply up to two (2) Flexible Learning courses toward a degree and must seek college dean’s office approval to exceed this limit. Advisors and the DCE office will approve access to a Flexible Learning course if the student is below the two (2) course limit and meets at least one (1) of the following criteria:

- The student has a health concern
- There are circumstances preventing the student from physically being on campus and the course is not offered online
- The student requires off-calendar, flexible format solution required for scholarship, tracking, and/or graduation requirements

Students can register for these courses online.

More Info (http://flexible.dce.ufl.edu/)

Enrolling in Flexible Learning courses does not require a transcript of previous academic work, nor are students required to apply for, or to be admitted, to the University of Florida to earn college credit. These courses operate on an open enrollment policy and do not follow UF’s academic calendar. Registrations are processed and accepted Monday-Friday, excluding UF holidays.

UF Flexible Learning courses are self-paced, allowing students to complete coursework more quickly than typical online or residential courses. Students have a maximum of sixteen (16) weeks to complete their course, but in many courses, may take as few as four (4) weeks. If the on-campus academic semester changes during this time, a non-punitive deferred grade of H will appear on the student’s transcript.

When the registration process has been finalized, UF Flexible Learning will send students their expiration date. Students should take note of this date and plan their work accordingly. Any coursework not completed by this date may result in grade penalties.

If students make significant progress in their coursework, but are unable to complete it due to extenuating circumstances, they are expected to contact instructor about receiving an incomplete grade.

Complete Course Listing (http://flexible.dce.ufl.edu/courses/)
Placement

Placement is an assessment of a student’s level of preparation in a subject. The purpose of placement is to help students enroll in the courses in which they are most likely to be successful.

- Incoming Credit and Credit by Examination Information (p. 1761)

English Composition

Unless students already have college credit for an English Composition course, they need to review placement requirements for these courses.

Students will be placed based on their SAT or ACT verbal score, unless they already have college credit for an English composition course.

- Students with a 640 (or lower) on the verbal portion of the SAT and/or a 28 (or lower) on the verbal portion of the ACT must enroll in ENC 1101.
- Students with a 650 (or higher) on the verbal portion of the SAT or a 29 (or higher) on the verbal portion of the ACT may enroll in any 1000/2000-level composition course beyond ENC 1101. These students should not enroll in ENC 1101.
- Students with college credit for English Composition (from AICE, AP, CLEP, IB, or dual enrollment) should consult an advisor to determine which, if any, additional courses are needed to meet degree requirements.

Mathematics

If a student intends to pursue a science or engineering major or intends to go on to a health profession after completing the bachelor’s degree, they should take these algebra, precalculus, and calculus courses. A number of business and technical majors require specific math courses. Students should check the information on their majors and health professions of interest to determine if algebra/precalculus/calculus are required.

More Info (p. 1720)

Placement is used for the following MAC courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAC 1105</td>
<td>Basic College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MAC 1140</td>
<td>Precalculus Algebra (^1)</td>
<td>3</td>
</tr>
<tr>
<td>MAC 1147</td>
<td>Precalculus Algebra and Trigonometry (a fast-paced review of both areas)</td>
<td>4</td>
</tr>
<tr>
<td>MAC 2233</td>
<td>Survey of Calculus 1</td>
<td>3</td>
</tr>
<tr>
<td>MAC 2311</td>
<td>Analytic Geometry and Calculus 1 (typically recommended for pre-health students)</td>
<td>4</td>
</tr>
</tbody>
</table>

\(^1\) The sequence MAC 1140 and MAC 1114 covers the same material as MAC 1147, but at a slower pace.

The math course(s) you take will depend on what your major requires (or if you are pre-health), whether you have incoming math credit, the math course you took last year and whether you were able to use a calculator during exams, whether you want to strengthen your foundation before moving on to new material, and your ALEKS placement score.

To determine which math course (if any) is required for a major, please check the requirements for that major (p. 1720). If a student's major requires MAC 2234 or MAC 2312 or higher, they must have credit for the prerequisite course. If a student has credit via exam or dual enrollment, consult with an academic advisor. General guidelines for using AP scores for placement appear below.

Some graduate programs in the health professions such as pharmacy, optometry, and veterinary medicine may require calculus as a prerequisite to admission. Consult the Pre-Health Pre-Requisite Course Chart ([https://www.advising.ufl.edu/pre-health/apply/prepare/academic-preparation/] for more information.

- If a major requires no particular math course, students may take Gen Ed math courses such as MGF 1106 or MGF 1107 without any placement.
- If a student needs one of the MAC courses listed above and doesn't have incoming credit, they should take the ALEKS placement exam, and then discuss which math course should be taken with an advisor.
- If a student has incoming math credit, they may use that as placement into MAC courses if the credit appears on their UF transcript or the student provides proof of credit. However, the ALEKS placement is the best predictor of success in UF MAC courses. Even if a student has credit, they are strongly encouraged to take ALEKS. Taking ALEKS will assess a student’s current knowledge base and its fit with the UF curriculum. After taking ALEKS, the student should discuss which math course they should take with an advisor.

It can be helpful for students to take a lower course or even retake a course to strengthen their foundation before moving on to a higher class. A student’s ALEKS score can help assess their current preparation. Consult with an academic advisor if unsure.
ALEKS

Placement via ALEKS Score

Majors that Require MAC 1105, MAC 1140, MAC 1147, or MAC 2311; or for Pre-Health

<table>
<thead>
<tr>
<th>ALEKS Score</th>
<th>May begin with the course in bold (or a lower course)</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 – 45%</td>
<td>MAC 1105; MAC 1140; MAC 1114; MAC 2311</td>
</tr>
<tr>
<td>46 – 60%</td>
<td>MAC 1140; MAC 1114; MAC 2311</td>
</tr>
<tr>
<td>61 – 75%</td>
<td>MAC 1147; MAC 2311</td>
</tr>
<tr>
<td>76% and Above</td>
<td>MAC 2311</td>
</tr>
</tbody>
</table>

Majors that Require MAC 2233

<table>
<thead>
<tr>
<th>ALEKS Score</th>
<th>May begin with the course in bold (or a lower course)</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 – 45%</td>
<td>MAC 1105; MAC 1140; MAC 2233</td>
</tr>
<tr>
<td>46 – 60%</td>
<td>MAC 1140; MAC 2233</td>
</tr>
<tr>
<td>61% and Above</td>
<td>MAC 2233</td>
</tr>
</tbody>
</table>

Incoming Credit

Placement via Incoming Credit

If a student has earned credit with a C or better for:

- MAC 1105: take MAC 1140 (if needed)
- MAC 1140: take MAC 1114 or MAC 2233 (if needed, course depends on major requirements)
- MAC 1147 (or both MAC 1140 and MAC 1114): take MAC 2311 if needed. *Credit must be in progress at UF, completed and on the student’s UF transcript or the student must provide proof of incoming credit.*
- It may be helpful for students to retake a course to strengthen their foundation before moving on to a higher class. This is especially true if the incoming credit course was taken more than one year ago or if the student earned a grade lower than B. A student’s ALEKS score can help assess their current preparation. Consult with an academic advisor if unsure.

AICE, AP, or IB Exam Credit

Refer to award of incoming credits to see which courses earn credit. For courses through MAC 2311, ALEKS is still the best predictor of success in MAC courses at UF, so students are encouraged to take ALEKS and follow the score guidelines. General guidelines for using AP scores for placement appear below.

Transfer Credit

Earning the minimum grades in prerequisite courses does not guarantee success in the next math course. The Department of Mathematics encourages students to take the ALEKS exam even if they have credit for a MAC course. Quite often, a student’s skills may need review and placement assessment can provide information and specific areas for additional study.

Please read the complete information about the mathematics placement exam (https://registrar.ufl.edu/courses/aleks.html).

AP Scores for Calculus

Placement via AP Scores for Calculus

UF offers two introductory calculus courses: MAC 2233 and MAC 2311 as well as subsequent courses in both sequences. Students should consult the majors (p. 1720) section to determine which calculus course(s) may be required for their major.

Calculus AB or BC

<table>
<thead>
<tr>
<th>AP Exam Score</th>
<th>Register in</th>
<th>Additional Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 or 2</td>
<td>MAC 1105 or MAC 1140 or MAC 1147</td>
<td>Students with a score of 1 or 2 on an AP Calculus exam must take the ALEKS placement exam (<a href="https://registrar.ufl.edu/courses/aleks.html">https://registrar.ufl.edu/courses/aleks.html</a>) to determine the course for which they are prepared. Then consult the Algebra/Precalculus placement information to determine the correct course.</td>
</tr>
</tbody>

</tbody>
</table>

¹ Course descriptions (p. 1824)

### General Chemistry

*If a student intends to pursue a science or engineering major or intends to go on to a health profession after completing the bachelor’s degree, they should take these general chemistry courses. Students should check the information on their majors of interest to determine if general chemistry is required.*

The general chemistry sequence CHM 2045/CHM 2045L and CHM 2046/CHM 2046L meets the preprofessional requirements for many science and engineering majors. CHM 2095/CHM 2095L and CHM 2096/CHM 2096L is an alternate general chemistry sequence specifically for engineering majors.

**Placement into CHM 2045 or CHM 2095 Requires**

- Successful completion with a grade of C or better of MAC 1147 (or both MAC 1140 and MAC 1114) or higher

**AND**

- Successful completion with a grade of C or better of CHM 1025
  - OR
    - a 76% on the ALEKS math placement exam.

If a student enrolls in and successfully completes CHM 1025 and MAC 1147 (or MAC 1140 and MAC 1114), they can enroll in CHM 2045 or CHM 2095 the next semester. Students who enroll in CHM 1025 but do not successfully complete with a C or better cannot place into CHM 2045 using an ALEKS score of 76%. Such students will need to repeat CHM 1025 and earn a C or better to go on to CHM 2045.

**Students with credit for CHM 2045** via AP and IB scores or dual enrollment (with a minimum grade of C) should discuss their next chemistry course with an advisor. Students who wish to repeat CHM 2045, take CHM 2095 or go on to CHM 2046/CHM 2096 must have successfully completed MAC 1147, MAC 1140 and MAC 1114, or higher or the equivalent as determined by the Mathematics Department.

Students who wish to enroll in CHM 2047, the one-semester General Chemistry, and its co-requisite laboratory CHM 2047L, must meet the following conditions:
• AICE, AP, or IB credit for at least CHM 2045 and laboratory
• Approval of the Honors Program office or the Department of Chemistry.

### Foreign Languages

College-level foreign language is required by several programs: Liberal Arts and Sciences and the B.A. programs in the College of the Arts have a proficiency requirement; students in Journalism and Communications may choose between foreign language proficiency or a quantitative option. Construction management majors must complete one semester of Spanish.

#### French

- Students with no prior study of French or a maximum of French 1 on their high school transcript may enroll directly in FRE 1130. No placement exam is required.
- Students with French 2 on their high school transcript may enroll directly in FRE 1134. No placement test is required.
- Students with French 3 or 4 on their high school transcript may enroll directly in FRE 2220, but are encouraged to take the WebCAPE placement test for French (https://languages.ufl.edu/academics/llc-languages/french-studies/webcape-french-placement-test/).
- Students who speak French at home may take the WebCAPE placement test for French (https://languages.ufl.edu/academics/llc-languages/french-studies/webcape-french-placement-test/) and/or speak with the undergraduate coordinator about placement.
- Students who have taken French exams via Advanced International Certificate of Education (AICE), Advanced Placement (AP), College Level Examination Program (CLEP), or International Baccalaureate (IB), should consult the French Placement and Course Equivalency (http://languages.ufl.edu/files/french-placement-handout-2019-revised.pdf) page to determine whether they have received credit for a French course and which course to take next.

- Students who wish to demonstrate proficiency in French in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or B.A. in the College of the Arts (FA) degree requirements must do one of the following:
  - Complete the terminal course in the Beginning French sequence (or higher) with a satisfactory grade
  - Earn sufficient scores on an AICE, AP, CLEP, or IB exam.
  - Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe/)

#### Spanish

Students with any prior study or knowledge of Spanish who wish to enroll in a Spanish course are required to take the WebCAPE online placement test (http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/spanish-placement/), which is designed to help them determine the best course based on their background.

- Students who took a language other than Spanish in high school are not required to take this test. They may enroll in SPN 1130.
- Students who have taken Spanish exams via Advanced International Certificate of Education (AICE), Advanced Placement (AP), College Level Examination Program (CLEP), or International Baccalaureate (IB) are encouraged but not required to take the WebCAPE and should consult the Spanish Placement and Course Equivalency (http://spanishandportuguese.ufl.edu/files/SPNPlacementEquivalencyCharts.pdf) page to determine whether they have received credit for a Spanish course and which course to take next.
- Students who wish to demonstrate proficiency in Spanish in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or B.A. in the College of the Arts (FA) degree requirements must do one of the following:
  - Complete the terminal course in the Beginning Spanish sequence (or higher) with a satisfactory grade
  - Earn sufficient scores on an AICE, AP, CLEP or IB exam.
  - Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe/)

Anyone with any prior study or knowledge of Spanish MUST provide a test score to register for a Spanish course.

A passing grade in SPN 1131 or a higher level SPN courses successfully fulfills the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications and B.A. programs in the College of the Arts. Students wishing to satisfy the foreign language proficiency requirement by examination must do so through the appropriate AP, IB, or AICE Spanish scores. WebCAPE is only a placement exam.

### Other Languages

Students with a prior background in languages other than French or Spanish should consult with the department regarding placement. Students who wish to demonstrate proficiency in that language in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or B.A. in the College of the Arts (FA) degree requirements must do one of the following:

- Complete the terminal course in the Beginning sequence (or higher) of that language with a satisfactory grade
- Earn sufficient scores on an AICE, AP, CLEP or IB exam.
• Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe/)
• Consult the department regarding proficiency for languages not offered by the FLPE.

## Preprofessional Advising

### Pre-Health

The Pre-Health Advising Office offers resources and information to students from all UF majors who intend to pursue a graduate program in the health professions, such as medical, dental, veterinary, pharmacy, physician assistant, optometry, physical therapy, and/or occupational therapy school. Pre-health students may choose almost any major they are interested in pursuing. Pre-health students should review the detailed information on the pre-health advising website to explore and keep track of necessary steps to take throughout their time at UF in order to become competitive applicants for the professional programs to which they plan to apply.

All pre-health students are encouraged to enroll in Pre-Health Essentials, a free, non-graded Canvas course offered by the Pre-Health Advising Office. Pre-Health Essentials offers workshops and resources for pre-health students to explore and prepare for a healthcare profession.

### Pre-Health Students

Plan to complete the following courses, which are the basic prerequisites for many pre-professional graduate programs. Some health professions do not require all of these courses, and some may require more. Requirements vary from program to program, so you should carefully investigate the requirements of the institutions to which you plan to apply.

Students can find pre-health Suggested Course Timelines on the pre-health website Forms & Handouts page (https://www.advising.ufl.edu/pre-health/pre-health-resources/forms-handouts/). These timelines outline required and recommended pre-requisite courses for each health profession.

### Mathematics

At least two semesters of college-level mathematics; one semester of statistics (STA 2023) is required. Calculus (MAC 2311 or MAC 3472) is recommended for pre-medical students, and required for pre-pharmacy and pre-optometry students.

Student Responsibilities

Academic Honesty

In 1995 the UF student body enacted an honor code and voluntarily committed itself to the highest standards of honesty and integrity. When students enroll at the university, they commit themselves to the standard drafted and enacted by students.

More Info (https://sccr.dso.ufl.edu/students/student-conduct-code/)

Preamble

In adopting this honor code, the students of the University of Florida recognize that academic honesty and integrity are fundamental values of the university community. Students who enroll at the university commit to holding themselves and their peers to the high standard of honor required
by the honor code. Any individual who becomes aware of a violation of the honor code is bound by honor to take corrective action. The quality of a
University of Florida education is dependent upon community acceptance and enforcement of the honor code.

The Honor Pledge
We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.

On all work submitted for credit by students at the university, the following pledge is either required or implied: On my honor, I have neither given nor
received unauthorized aid in doing this assignment.

The university requires all members of its community to be honest in all endeavors. A fundamental principle is that the whole process of learning and
pursuit of knowledge is diminished by cheating, plagiarism and other acts of academic dishonesty. In addition, every dishonest act in the academic
environment affects other students adversely, from the skewing of the grading curve to giving unfair advantage for honors or for professional or
graduate school admission. Therefore, the university will take severe action against dishonest students. Similarly, measures will be taken against
faculty, staff and administrators who practice dishonest or demeaning behavior.

Student Responsibility
Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean, Student Honor Council or Student
Conduct and Conflict Resolution in the Dean of Students Office.

Faculty Responsibility
Faculty members have a duty to promote honest behavior and to avoid practices and environments that foster cheating in their classes. Teachers
should encourage students to bring negative conditions or incidents of dishonesty to their attention. In their own work, teachers should practice the
same high standards they expect from their students.

Administration Responsibility
As highly visible members of our academic community, administrators should be ever vigilant to promote academic honesty and conduct their lives in
an ethically exemplary manner.

Student Conduct Code
Students enjoy the rights and privileges that accrue to membership in a university community and are subject to the responsibilities that accompany
that membership. For a system of effective campus governance, it is incumbent upon all members of the campus community to notify appropriate
officials of any violations of regulations and to assist in their enforcement. The university’s conduct regulations, available to all students, are set forth
in Florida administrative code. Questions can be directed to the Dean of Students Office.

More Info (https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/)

Alcohol and Drugs
The use of alcohol and other drugs can have a negative impact on judgments and reactions, health and safety, and may lead to legal complications as
well.

The university’s principal role is to engage in education that leads to high standards and respectful conduct. When those are compromised, the
university will take disciplinary action against organizations and individuals violating either the law or the unreasonable use of alcohol. It also must
provide help for students who are alcohol-dependent. The university will deal severely with students convicted of the illegal possession, use or sale of
drugs.

What the University Community Can Do to Prevent Alcohol Abuse and Drug Use
Students can help control substance abuse by declining to use or to condone the use of drugs and by insisting that organizations and individuals use
alcohol within the bounds of the law and reasonable conduct. Students should make an effort to prevent persons who have abused alcohol or used
drugs from harming themselves or others, especially while driving a motor vehicle. They should encourage those needing professional help to seek it.
The same standards and regulations apply equally to faculty, staff and administration.

Relations between People and Groups
One of the major benefits of higher education and membership in the university community is greater knowledge of and respect for other religious,
racial and cultural groups. Indeed, genuine appreciation for individual differences and cultural diversity is essential to the environment of learning.
Another major aspect of university life involves sexual relationships. Sexual attitudes or actions that are intimidating, harassing, coercive or abusive,
or that invade the right to privacy of the individual are not acceptable. Only in an atmosphere of equality and respect can all members of the university
community grow.
Service to Others

An important outcome of a University of Florida education should be a commitment to serving other people. This sense of service should be encouraged throughout the institution by faculty, administration, staff and students. Through experience in helping individuals and the community, students can put into practice the values they learn in the classroom.

Standard of Ethical Conduct

Honesty, integrity and caring are essential qualities of an educational institution, and the concern for values and ethics is important to the whole educational experience. Individual students, faculty and staff members, as well as the university’s formal organizations, must assume responsibility for these qualities. The concern for values and ethics should be expressed in classes, seminars, laboratories and in all aspects of university life. By definition, the university community includes members of the faculty, staff and administration as well as students.

Education at the University of Florida is not an ethically neutral experience. The university stands for, and seeks to inculcate, high standards. Moreover, the concern for values goes well beyond the observance of rules.

A university is a place where self-expression, voicing disagreement and challenging outmoded customs and beliefs are prized and honored. However, all such expressions need to be civil, manifesting respect for others.

As a major sector in the community, students are expected to follow the university’s rules and regulations that, by design, promote an atmosphere of learning. Faculty, staff and administrators are expected to provide encouragement, leadership and example. While the university seeks to educate and encourage, it also must restrict behavior that adversely affects others. The Standard of Ethical Conduct summarizes what is expected of the members of the university community.

Study Abroad Opportunities

Study Abroad Services offers students the opportunity to study overseas in a wide range of academic and cultural settings. The office coordinates numerous year-long, semester, summer and short-term programs in more than 80 countries on all seven continents.

Credits earned in study abroad programs may count toward a major or minor and can satisfy general education, language and summer residency requirements.

Writing Requirement

The University of Florida requires all students to complete a writing requirement. AICE, AP, CLEP, and IB examination credit (p. 1761) as well as dual enrollment or transfer credit may count toward this requirement.

To graduate, students must complete courses that involve substantial writing for a total of 24,000 words.

Courses that count toward this requirement will be in one of three categories:

- 2: Coursework with at least 2,000 words
- 4: Coursework with at least 4,000 words
- 6: Coursework with at least 6,000 words

Some sections of qualified courses may not offer substantial writing in a particular term. In the schedule of courses (http://www.registrar.ufl.edu/soc/), the course sections and amount of writing credit awarded (2, 4, or 6 thousand) are identified for a given term.

The writing course grade assigned by the instructor has two components: the writing component and a course grade. Therefore, to receive writing credit, students must satisfactorily complete the writing component and receive a minimum grade of C (2.0) for the course. It is possible to not meet the writing requirement and still earn a minimum grade of C in a class, so students should review their degree audit after receiving their grade to verify receipt of credit for the writing component.

Courses intended to satisfy the writing requirement may not be taken S-U.
The writing must be evaluated on content, organization and coherence, effectiveness, style, grammar, and punctuation. Assignments must be returned to students with a grade and comments that address the students’ writing skills. Consequently, feedback on all assignments should be provided by the last day of class, or if provided electronically, by the end of finals.

Evaluation of writing is based on individual work. Class notes, quizzes and in-class writing assignments or essay examinations may not be counted. Team-written documents may not be counted for credit unless clear individual sections are identified for grading, such that an individual student’s writing may be evaluated and graded. Drafts cannot be counted separately from final drafts as part of the total number of words completed during the course.

Students may not take the same course multiple times to meet the writing requirement, unless the course allows for multiple registration based upon rotating course content.

All courses that require writing will not necessarily count toward the writing requirement. In writing requirement courses, students will be evaluated as described above.

1 Except those transferring to UF with an A.A. degree from a Florida public college or an A.A. certificate from a Florida public state university.

Academic Progress Policies

Regulations for academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable conformance to a program of study.

A minimum grade point average of 2.0 is required to graduate from any UF undergraduate degree program. Any college may specify additional academic standards and students are responsible for observing these regulations.

The probation and dismissal regulations that apply to undergraduate students also apply to postbaccalaureate students. Notations on the student’s academic record shall reflect all actions taken to enforce these regulations; some of these notations can be permanent.

Academic Standing

The University of Florida considers students to be in good standing if they are eligible to continue or to re-enroll at the university, even if on probation.

Colleges may choose not to consider students for admission and may deny continuation in a degree program if the student fails to maintain reasonable academic progress, as specified by the college or department.

Policies on academic standing, probation and dismissal are based on the possibility that a student can overcome academic difficulty and make appropriate progress toward a degree.

Petitions

Students may file a petition for a waiver of a deadline or regulation if they can document extenuating circumstances that led to their failure to meet or conform to the deadline/regulation.

In general, petitions for waiver of an academic regulation for the current term should be directed to the school or college in which the student is enrolled. For example, petitions to drop or add after the drop/add period should be presented to the school or college. Exceptions to the course load regulation are to be presented to the school or college. Petitions approved by the school or college must be reported to the Office of the University Registrar before the action is official.

All other petitions should be presented to the Office of the University Registrar, which will refer them to the University Student Petitions Committee. Petitions pertaining to academic records approved by the committee will be reflected on the student’s transcript.

Per BOG Regulation 7.002(11), all requests for a refund of fees must be submitted to the university within six months of the close of the semester to which the refund is applicable. Any request for a refund of fees submitted outside this timeframe will not be reviewed.

Detailed information on petition procedures is available from the student’s college or the Office of the University Registrar.

More Info (http://www.registrar.ufl.edu/currents/petitioninstructs.html)

A student seeking waiver of a regulation through petition must remember that no petitions committee can direct an instructor to change a grade, nor can the University Student Petitions Committee require any college or school to grant a degree by waiving any regulation.

Probation

The intent of academic probation is to serve formal notice that a student may not be making satisfactory progress. The conditions of academic probation are intended to specify the achievement standards required to graduate, to identify unsatisfactory academic performance at an early date, to provide occasion for counseling, and to give students whose ultimate success is in question further opportunity to demonstrate their ability to meet academic expectations.

Academic probation can occur for the following reasons:

• Students may be placed on probation by their college for failure to maintain normal academic progress in their degree program. College probation will be removed when the college determines that satisfactory academic progress has been demonstrated.
• Undergraduate students with less than a 2.0 cumulative grade point average for University of Florida coursework.
• Academic probation will be continued for all undergraduate students as long as they have less than a 2.0 cumulative grade point average. It will be removed when the grade point average becomes 2.0 or higher. Should the grade point average fall far enough, the student will be dismissed based on Dismissal policy.

More Info (p. 1785)
Dismissal and Suspension

Academic dismissal from the university denies registration privileges to students who have a cumulative GPA at or below that listed below (given their UF Cumulative Credits). The student will be dismissed from the university and any advance registrations will be cancelled.

- Students who are dismissed will not be permitted to enroll again unless they complete an application for readmission by the application deadline, and the college approves readmission. A student who is readmitted after academic dismissal will be dismissed again if their grade point average is at or below the corresponding GPA (given their UF Cumulative Credits) indicated in the table at the end of any term.
- UF Cumulative Credits only include credits taken toward the GPA and do not include credits for courses taken S/U, credits dropped/withdrawn resulting in a W on the transcript, or credits not counting in the UF Cumulative GPA due to repeat or non-degree policy.
- An undergraduate student under any kind of dismissal or suspension at the University of Florida may earn credit toward a degree at the University of Florida by taking courses at another institution. Upon the student’s reinstatement to the University of Florida, the University will accept credit from courses that fall under the Florida statewide course numbering system. A reinstated student may follow standard practice of consulting the student’s degree-granting unit to consider whether credit for courses not under the state course numbering system and earned while dismissed or suspended will be accepted. Credits earned at another institution and accepted by the University of Florida will not count towards the UF GPA calculation but will factor into the student’s total credit hour count towards excess hours.

University Ombuds

When an academic regulation appears to result in undue hardship, students may petition for waiver of the regulation. If a student wishes to appeal a decision of the University Student Petitions Committee, the student must contact the Office of the Ombuds.

More Info (http://www.ombuds.ufl.edu/)

Attendance Policies

Absences

Students are responsible for satisfying all academic objectives as defined by the instructor. Absences count from the first class meeting.

In general, acceptable reasons for absence from or failure to participate in class include illness, serious family emergencies, special curricular requirements (e.g., judging trips, field trips, professional conferences), military obligation, severe weather conditions, religious holidays, and participation in official university activities such as music performances, athletic competition or debate. Absences from class for court-imposed legal obligations (e.g., jury duty or subpoena) must be excused. Other reasons also may be approved.

Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.

Students cannot participate in classes unless they are registered officially or approved to audit with evidence of having paid audit fees. The Office of the University Registrar provides official class rolls to instructors.

If a student does not participate in at least one of the first two class meetings of a course or laboratory in which they are registered, and they have not contacted the department to indicate their intent, the student can be dropped from the course. Students must not assume that they will be dropped, however. The department will notify students if they have been dropped from a course or laboratory.
The university recognizes the right of the individual professor to make attendance mandatory. After due warning, professors can prohibit further attendance and subsequently assign a failing grade for excessive absences.

### Religious Holidays

At the University of Florida, students and faculty work together to allow students the opportunity to observe the holy days of their faith. A student should inform the faculty member of the religious observances of their faith that will conflict with class attendance, with tests or examinations, or with other class activities prior to the class or occurrence of that test or activity. The faculty member is then obligated to accommodate that particular student's religious observances. Because students represent a myriad of cultures and many faiths, the University of Florida is not able to assure that scheduled academic activities do not conflict with the holy days of all religious groups. Accordingly, individual students should make their need for an excused absence known in advance of the scheduled activities.

The Florida Board of Education and state law govern university policy regarding observance of religious holidays.

**The following guidelines apply:**

- Students, upon prior notification to their instructors, shall be excused from class or other scheduled academic activity to observe a religious holy day of their faith.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.
- Students shall not be penalized due to absence from class or other scheduled academic activity because of religious observances.

If a faculty member is informed of or is aware that a significant number of students are likely to be absent from class because of a religious observance, the faculty member should not schedule a major exam or other academic event at that time.

A student who is to be excused from class for a religious observance is not required to provide a second party certification of the reason for the absence. Furthermore, a student who believes that they have been unreasonably denied an education benefit due to religious beliefs or practices may seek redress through the student grievance procedure.

### Illness Policy

If a student is absent from classes or examinations because of illness, they should contact their instructors. Students should contact their college by the deadline to drop a course for medical reasons. Students can petition the Dean of Students Office (https://www.dso.ufl.edu/) to drop a course for medical reasons. The university's policy regarding medical excuse (http://shcc.ufl.edu/forms-records/excuse-notes/) from classes is maintained by the Student Health Care Center.

Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.

### Twelve-Day Rule

Students who participate in university-sponsored athletic or scholarly activities are permitted to be absent 12 scholastic days per semester without penalty. A scholastic day is any day on which regular class work is scheduled as defined in the approved university calendar.

More Info (p. 1808)

The student or student’s advisor must notify the instructor as early as possible prior to the anticipated absence to allow ample time for accommodations. Instructors must be flexible and not penalize students when re-scheduling during-term and final exams, class assignments, and other required activities and must follow the UF Attendance Policy herein and UF Examination Policies. As noted in the UF Examination Policies, during-term exams should be re-scheduled no later than before the end of the semester, while final exams no later than 90 days after the originally scheduled exam time. However, instructors are encouraged to re-schedule final and during-term exams, assignments, and other activities as soon as possible after the last day of the absence and must not penalize the student in any way.

More Info (p. 1792)

A group's schedule that requires absence of more than 12 scholastic days should be adjusted so that no student is absent from campus more than 12 scholastic days. Students who previously have been warned in writing by their instructor about the impact of absences on their individual class performance should not incur additional absences, even if they have not been absent 12 scholastic days. The student is responsible to maintain satisfactory academic performance and attendance.

---

**Civic Literacy Requirement**

Effective Fall 2021, all students who enroll at a Florida Public Postsecondary Institution (Florida College System or State University System) after high school are required to demonstrate competency in U.S. Civic Literacy to obtain a degree.

These competencies include:
• Understanding of the basic principles of American democracy and how they are applied in our republican form of government;
• Understanding of the U.S. Constitution;
• Knowledge of the founding documents and how they have shaped the nature and functions of our institutions of self-governance; and
• Understanding of landmark Supreme Court cases and their impact on law and society.

As set out in Florida statute 1007.25, and clarified in Board of Governor’s Regulation 8.006, these competencies must be met in one of the following ways:

• Completion of AP American History in high school with a score of 4 or higher on the AP exam.
• Completion of AP American Government in high school with a score of 3 or higher on the AP exam.
• Completion of the CLEP American Government exam with a score of 50 or higher.
• Completion of POS2041 or AMH2020 at a Florida Public Postsecondary institution along with completion of the Florida Civic Literacy Exam with a score of 60 or higher (taken in High School or at a Florida Public Postsecondary Institution).
• Completion of AS Level AICE US History with a score of A-E on the AICE exam along with completion of the Florida Civic Literacy Exam with a score of 60 or higher (taken in High School or at a Florida Public Postsecondary Institution).
• Completion of IB History of America with a score of 5-7 on the IB exam along with completion of the Florida Civic Literacy Exam with a score of 60 or higher (taken in High School or at a Florida Public Postsecondary Institution).

Up-to-date information on the Civic Literacy Requirement, including how to take the exam.
More Info (http://undergrad.aa.ufl.edu/for-students/civic-literacy-requirement/)

Degree and Graduation Policies

Degree Application

Undergraduates must submit an application for a degree by the application deadline with the Office of the University Registrar via ONE.UF (https://one.uf.edu/). To submit an application, select Degree/Certificate Application from the Academics section in the left menu.

Students must apply in the term in which they expect to graduate, regardless of applications in previous terms. If the student has completed all the requirements for degree, they will be required to graduate. Degree application deadlines are available under Dates and Deadlines.
More Info (p. 1808)

Associate of Arts Degree

Although not required, students may receive an A.A. degree, which is awarded by the College of Liberal Arts and Sciences. The degree must be awarded prior to or at the same time as the bachelor’s degree. The application is available on ONE.UF (https://one.uf.edu/).

The Associate of Arts degree will be awarded upon satisfactory completion of:

• 60 credits; at least 36 of these credits must have been completed at UF
• General education requirements; 36 credits in communication, mathematics, social sciences, humanities, and natural sciences.
• Foreign language competence as described in Rule 6A-10.02412, F.A.C.
  The rule can be obtained from:
  
  Office of Articulation
  Florida Department of Education
  325 West Gaines Street
  Tallahassee, Florida 32399

• An overall UF GPA of 2.0 (C)
• Writing requirement courses
• Civic Literacy requirement (http://undergrad.aa.ufl.edu/for-students/civic-literacy-requirement/)
Degree and Graduation Policies

Catalog Year
UF operates on a semester system. There are two semesters averaging 15 weeks of instruction, plus a week of final examinations and two six-week summer terms. Semesters begin in August, January and May. The summer term is offered as a full term as Term C, or in two sessions as half-terms, with Term A beginning in May and Term B beginning in June.

Catalog year determines the set of academic requirements that must be fulfilled for completion of a certificate or to graduate from a degree-granting program. Students complete a program under the catalog in effect at the time of their initial enrollment as a certificate or degree-seeking student at UF, a Florida public college or other Florida state institution, provided they maintain continuous enrollment (enrolling for at least one course in one term in an academic year). Students pursuing minors, dual degrees or double majors must have the same catalog year for each program. Students pursuing certificates may have separate catalog years for their certificate(s) and degree-seeking programs.

Students who do not maintain continuous enrollment will be assigned the catalog in effect at the time they resume enrollment. With the approval of the student’s college dean’s office, they may choose to graduate under the requirements of a later catalog, but the student must fulfill all graduation requirements from that alternative catalog year.

The university will make every reasonable effort to honor the curriculum requirements appropriate to each student’s catalog year. However, courses and programs will sometimes be discontinued and requirements may change as a result of curricular review or actions by accrediting associations and other agencies.

College Dean’s Certification
Students who have completed all requirements for their degree will be required to graduate. The dean certifies that all requirements have been completed and that the student has been recommended by the faculty for graduation.

Completion Deadline to Receive a Degree
All work must be completed by the end of the final exam period for the fall and spring terms and by the last day of classes for the summer terms. A minimum UF cumulative grade point average of 2.0 must be earned for award of an undergraduate degree.

Continuous Enrollment
Undergraduate students who enroll for at least one course in one term in an academic year are continuously enrolled.

Curriculum Requirements
Students must complete all degree requirements established by the university, their college, their major and minor (if applicable); this includes completion of general education, writing requirement and the summer term enrollment requirements.

Minors are awarded only in conjunction with the receipt of a baccalaureate degree. To determine program requirements, refer to the academic advising (p. 1722) and majors (p. 1720) sections.

Degree Certification and Graduation Date
All colleges, excluding professional programs in the colleges of Dentistry, Law, Medicine and Veterinary Medicine, will certify their graduates the Tuesday following the last day of classes for the summer terms or the Tuesday following the end of the final exam period for the fall and spring terms. This certification date will appear on the transcript and the diploma as the official date of graduation. Professional programs in the aforementioned colleges will use the date of their official commencement ceremony as the date of graduation. This date will appear on both the transcript and diploma as the official date of graduation, as required by professional accreditation guidelines.

Diploma Replacement
Each diploma ordered subsequent to the student’s initial degree application can result in a diploma replacement charge.

Dual Degrees and Multiple Majors
At the discretion of UF colleges and schools, students can be permitted to pursue multiple degrees or majors.

- A student completing major and college requirements in two or more different colleges at the same time will receive two or more degrees. The transcript will list each degree and the appropriate majors.
- A student completing major and college requirements in one college and major requirements only in another college will receive a degree from the first college. The transcript will list the degree and each major.
- A student completing multiple majors that have the same degree, i.e., Bachelor of Arts or Bachelor of Science, will receive a single degree. The transcript will list the degree and each major.
Foreign Language Requirement
As a condition of admission to the university, students must complete two sequential courses of a foreign language in secondary school, 8-10 semester credits at the postsecondary level or document an equivalent level of proficiency.

Some degrees also have additional, specific foreign language requirements. To earn a UF degree, students must meet the requirements of their major and college in addition to the university’s foreign language requirement for admission.

Pending Charge of Academic Dishonesty or Conduct Violation
No degree will be conferred if a charge of academic dishonesty or student conduct violation is pending and the penalty could be dismissal, expulsion, failing grade or any combination of the above, until the charge is resolved and degree requirements are met.

Residence Requirements
The minimum residence requirement for the baccalaureate degree is two semesters.

- Students are required to complete the last 25% of the credits needed to satisfy the requirements of their major by taking UF courses.

Summer Term Enrollment
Students who enter a state university in Florida with fewer than 60 credits must earn at least nine credits before graduation during summer terms at State University System (SUS) institutions (http://www.flbog.edu/universities/). However, students who earn six credits through UF-sponsored, UF exchange or UF-approved SUS study-abroad programs during one or two summer terms completely satisfy the summer-term enrollment requirement. Students who bring 60 or more transfer credits to UF, regardless of institution, will be exempt from completing the summer requirement at UF.

Dropping Courses and Withdrawals

Dropping Courses
Dropping is defined as dropping an individual course or courses but not all courses in a term. Failure to attend a class does not constitute a drop.

During Drop/Add
- Courses can be dropped or added during drop/add without penalty.
- Classes that meet for the first time after drop/add closes can be dropped without penalty or fee liability if the request is submitted by the end of the next business day after the first class meeting. Students first must drop the course with their college advising office and then submit a written explanation to the Office of the University Registrar. This does not apply to laboratory sections.

After Drop/Add but Prior to the Drop Deadline
After drop/add, students may drop a course with the approval of their college until the drop deadline listed in the academic calendar. A grade of W will appear on the transcript, and students are liable for course fees.

All drops after drop/add must be completed by the drop deadline with the student's college advising office and are subject to the following restrictions:
- Students get two drops in their first 60 credits attempted at UF. Credits attempted are defined as:
  - Credits carried excluding credits taken prior to the first term of degree-seeking enrollment, plus S/U credits, and repeats of satisfactory grades.
  - Full-term withdrawals from all courses and dropped courses do not count in credits carried.
- Students get two additional drops in the second 60 credits attempted. Unused drops do not carry over from the first 60 credits attempted to the second 60 credits attempted.
- Students entering UF as transfer students with an A.A. degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops.
- Students with disabilities who need to drop a course due to disability-related reasons are allowed to petition for additional drops. More information is available from the Disability Resource Center. More Info (https://disability.ufl.edu/)
- Students who can document extenuating circumstances may petition their college for additional drops.
- Approval to drop a course must be obtained from the student's college.

After the Drop Deadline
- After the deadline and before the last day of classes, students may petition their college. Typically, they will need to demonstrate an extenuating circumstance justifying approval of a drop after the deadline.
After the last day of classes, students would need to complete a University Petition Request for a Retroactive Drop. More Info (http://www.registrar.ufl.edu/currents/petitioninstructs.html)

Withdrawals
Withdrawal is defined as dropping all courses, not individual courses, in a term. Students who leave UF without withdrawing formally will receive failing grades for all courses.

Students should read the withdrawal instructions carefully before submitting their withdrawal online. More Info (http://registrar.ufl.edu/services/withdrawals.html)

During Drop/Add
• Students may withdraw from all courses during drop/add without penalty.

After Drop/Add but Prior to the Withdrawal Deadline
• Students who withdraw after drop/add and before the withdrawal deadline will receive a grade of W for all courses.
• Students on university academic probation who withdraw before the Withdrawal Deadline will continue on probation until their UF cumulative GPA becomes a 2.0 or greater. Students on Admissions Committee probation must meet the terms of their probation. Students on college probation should check with their college/departmental advisor about college-specific requirements.
• Students considering petitioning for a medical withdrawal or retroactive medical withdrawal should contact the Dean of Students Office for additional information about the process. More Info (https://care.dso.ufl.edu/medical-petition-portal/)

After the Withdrawal Deadline
• Students who wish to withdraw after the withdrawal deadline and before the last day of classes may petition their college. Typically, the student will need to demonstrate an extenuating circumstance justifying approval of a withdrawal after the deadline.
• After the last day of classes, students would need to complete a University Petition Request for a Retroactive Withdrawal. More Info (http://www.registrar.ufl.edu/currents/petitioninstructs.html)

Withdrawal Due to Military Service
Per Florida Statute 1004.07, any student enrolled in a postsecondary course or courses at a state university shall not incur academic or financial penalties by virtue of performing military service on behalf of our country. These students shall be permitted the option of completing the course(s) at a later date without penalty or withdrawing from the course(s) with a full refund of fees paid. (Refer to refund of fees (p. 1793) information in the fees and fiscal section.) If the student chooses to withdraw, the record shall reflect that the withdrawal is due to active military service.

National Guard Troops Ordered into Active Service
Per Florida Statute 250.482, if a member of the Florida National Guard is ordered into active service, no private or public employer and no employing or appointing authority of this state, its counties, municipalities, political subdivisions, public colleges or universities shall discharge, reprimand or in any other way penalize such member because of their absence by reason of state active duty.

Examination Policies and Reading Days

Final Exams
Final exams are determined by course meeting times, except for certain large courses.

• No student is required to take more than three final exams in one day.
• If two exams are scheduled at the same time, assembly exams take priority over time-of-class exams.
• When two assembly exams or two time-of-class exams conflict, the course with the higher number will take priority. Instructors giving make-up exams will make the necessary adjustments.
• Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a final exam is within 60 days of the originally scheduled final exam date; however, students in their graduation semester may require expedited accommodations to ensure graduation as scheduled.

During Term Exams
• During-term examinations are held during regular class times or during assembly exam periods, which are Monday-Friday from 8:20 - 10:10 p.m. (periods E2-E3) for the fall and spring terms and Monday-Friday from 7:00 - 9:45 p.m. (periods E1-E2) for the summer terms.
• If other classes are scheduled during an exam time, instructors must provide make-up class work for students who miss class because of an assembly exam.

• When two exams conflict, assembly exams (multiple sections and/or enrollment over 300) take precedence over non-assembly exams (single sections and/or enrollment under 300). If two assembly exams conflict, the course with the higher number will take priority. Likewise, if two non-assembly exams conflict, the higher number will again take priority. Instructors giving make-up exams will make the necessary adjustments.

• Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a during-term exam is before the end of the semester in which the student is enrolled in the class.

### Reading Days

The two days before the start of examinations in the fall and spring semesters, generally a Thursday and Friday, are designated reading days. No classes or exams are held on these days; instead, students are encouraged to use these days for study and review.

There are no reading days in the summer terms because examinations are given during regular class periods.

### Excused Absences

Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. For assignments and during-term exams, a reasonable amount of time is within the term in which the student is enrolled in the class. For final exams, a reasonable amount of time is within 60 days after the originally scheduled final exam date; however, students in their graduation semester may require expedited accommodations to ensure graduation as scheduled.

### Fees and Fiscal Information

#### Admission Tuition Deposit

The $200 admission deposit (UF-3.0376 Regulations of the University of Florida) paid by the individual shall be applied toward payment of that individual's tuition upon enrollment. The admission deposit shall not be reimbursed to an individual who does not enroll in the term offered for admission and who does not withdraw their acceptance of admission prior to the applicable deadline as published in the University Record. The deposit is waived for those individuals who have provided documentation that they have received an application fee waiver because of economic need as determined by the College Board, American College Testing Program, Law School Admissions Council, the American Association of Medical Colleges Fee Assistance Program or the American Association of Dental Schools Application Service.

#### Registration and Tuition and Fees Liability

Registration shall be defined as consisting of two components (UF-3.037 Regulations of the University of Florida):

1. formal enrollment in one or more credit courses approved and scheduled by the university; and
2. tuition and fee payments, or other appropriate arrangements for tuition and fee payment (deferment or third-party billing) for the courses in which the student is enrolled as of the end of the drop/add period.

Registration must be completed on or before the date specified in the university calendar. Students are not authorized to attend class unless they are on the class roll or have been approved to audit. Unauthorized class attendance will result in fee liability.

#### Fee Liability

All students are liable for all tuition and fees associated with all courses for which the student is registered at the end of the drop/add period (UF-3.037 Regulations of the University of Florida). The fee payment deadline is 3:30 p.m. of the last day of the second week of classes.

#### Assessment of Tuition and Fees

Tuition shall be assessed to students for enrollment in credit courses (UF-3.0375 Regulations of the University of Florida).

Students can calculate and pay their own tuition and fees on the secure ONE.UF portal.

More Info ([https://one.uf.edu/dashboard/](https://one.uf.edu/dashboard/))

Students can estimate their tuition and fees on the University Bursar website.

More Info ([http://www.fa.ufl.edu/bursar/current-students/](http://www.fa.ufl.edu/bursar/current-students/))

Lack of written notification of the tuition and fee debt does not negate the student's responsibility to pay by the published deadline.

For purposes of discussion, the word term refers to the fall semester, the spring semester and any of the summer semesters.
Assessment of Student Fees

Activity and Service Fee
All students must pay an activity and service fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0372, Regulations of the University of Florida)

Athletic Fee
All students must pay an athletic fee that is assessed on a per credit-hour or semiannual basis. Half-time graduate research and teaching assistants enrolled for eight (8) or more credit hours during the Fall or Spring Semester and all other students enrolled for nine (9) or more credit hours are eligible to purchase football tickets at the student rate. (UF-3.0372, Regulations of the University of Florida)

Audit Fee
Tuition and fees for audited courses are assessed at the applicable resident or non-resident per credit-hour cost. (UF-3.0376, Regulations of the University of Florida)

Diploma Replacement Fee
Each diploma ordered after a student’s initial degree application can result in a diploma replacement charge, variable, not to exceed $10.00 per item. (UF-3.0376, Regulations of the University of Florida)

Distance Learning Fee
Online courses may be assessed a per credit hour amount. (1009.24, Florida Statutes)

Health Fee
All students must pay a health fee that is assessed on a per credit-hour or semiannual basis. The health fee is not part of any health insurance a student may purchase. (UF-3.0372, Regulations of the University of Florida.)

Material and Supply and Equipment Use Fee
Material and supply fees are assessed for certain courses to offset the cost of materials or supply items consumed in the course of instruction. A list of approved courses and fees is published in the Schedule of Courses each semester. (UF-3.0374 Regulations of the University of Florida)

More Info (http://www.registrar.ufl.edu/soc/)

The equipment use fee program allows units to charge for courses that use equipment in the educational process, which is used to prepare students for their careers or professions and is used for instructional purposes only with direct use by students. Material and supply and equipment use fee information is available from the academic departments or from the schedule of courses (Florida Statutes 1009.24).

Off-Campus Educational Activities
The president or the president’s designee will establish fees for off-campus course offerings when the location results in specific identifiable increased costs to the university. These fees will be in addition to the regular tuition and fees charged to students enrolling in these courses on campus. The additional fees charged are for the purpose of recovering the increased costs resulting from off campus vis-a-vis on campus offerings. As used herein, off campus refers to locations other than main campus, branch campuses and centers. (UF-3.0376, Regulations of the University of Florida)

Registration for Zero Credits
The student is assessed the applicable resident or non-resident per credit-hour cost as set forth in Regulation UF-3.0375, for one credit hour. (UF-3.0376, Regulations of the University of Florida)

Technology Fee
All students must pay a technology fee that is assessed on a per credit-hour or semiannual basis. (UF-3.3075, Regulations of the University of Florida)

Transcript Fee
An official transcript may be purchased on the Registrar website or your ONE.UF (https://one.ufl.edu/) account for a charge. (UF-3.0376. Regulations of the University of Florida)

More Info (https://registrar.ufl.edu/services/transcripts/)

Transportation Access Fee
All students must pay a transportation access fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0372, Regulations of the University of Florida)

All charges may be subject to change without notice.
Repeat Course Fee
Beginning Fall 1997, any undergraduate course numbered 1000-4999 at the university for which a student registers three or more times will be subject to a repeat course fee at 100 percent of the full cost of instruction, calculated annually. (Section 1009.285, Florida Statutes)

All students, regardless of classification or residency status, will be assessed the fee in addition to the tuition costs. (UF-3.0375, Regulations of the University of Florida)

Excess Hours Fee
All credit hours for courses taken at the state university from which the student is seeking a baccalaureate degree. (UF-3.0375, Regulations of the University of Florida)

Pursuant to Section 1009.286, Florida Statutes, an additional student payment for credit hours exceeding baccalaureate degree program completion requirements at state universities.

Payment of Tuition and Fees
Tuition and fees are payable on the dates listed in the academic calendar. Deadlines are enforced.

More info (p. 1808)

Tuition and fee payments are processed by University Bursar. Payments sent via U.S. mail must be received in the university cashier's office by the established fee payment deadline. An on time payment for the tuition and fees deadline date is a receipt date, not a postmark date.

More Info (http://www.fa.ufl.edu/bursar/current-students/payments/)

According to university policy, university cashiers will accept checks only for the amount due in payment of tuition and fees, accounts receivable, loans and other student debts. Checks from international countries must be payable through a United States bank in U.S. dollars. The university can refuse two-party checks, altered checks and checks that will not photocopy. The university does not have the authority to waive late payment fees unless extraordinary circumstances warrant such a waiver or the university is primarily responsible for the delinquency. (UF 3.0022, University of Florida Regulations)

Pay for tuition and fees and other charges at ONE.UF.

More Info (https://one.ufl.edu/dashboard/)

Payment Options
- Electronic check; there is no service charge for the electronic check payments.
- Credit and debit cards: MasterCard, Discover, American Express, or Visa will include a 2.6 percent service charge for tuition and fees and accounts receivable charges (e.g., laser print, library fines, parking decals, etc.).
- International Payment via Western Union is a wire transfer; provides a competitive rate of exchange for many international currencies.
- In person payments: check, money order, or cashier's check. International paper checks or demand drafts must be drawn on a U.S. bank in U.S. dollars and amounts cannot be greater than the amount due. Any payment that is more than the amount due will not be refunded and will automatically be applied to a future debt.
- Cash is not an available payment options.

Returned Payments
Returned electronic checks or paper checks will be charged a service fee of $25.00 if the returned payment is less than $50.00; $30.00 if the returned payment is $50.01 - $299.99 and $40.00 if the returned payment is $300.00 or more. Payments for returned electronic check payments, returned paper checks and the returned service fee must be paid by money order or cashier's check.

A $10.00 service fee will be charged if the bank information provided for the electronic check payment is inaccurate for electronic funds transfer. Payment for this type of return does not require a money order or a cashier's check.

All financial obligations to the university will be applied on the basis of age of the debt. The oldest debt will be paid first.

Late Registration and Late Payment Fees
Late Registration Fee
Any student who fails to register prior to the late registration date published in the academic calendar will be subject to the late registration fee of $100.00. (UF-3.037, Regulations of the University of Florida)

More Info (p. 1808)
Late Payment Fee
Any student who fails to pay all tuition and fees due or to make appropriate arrangements for tuition and fee payment (deferment or third party billing) by the fee payment deadline published in the academic calendar will be subject to a late payment fee of $100.00. (UF-3.037, Regulations of the University of Florida)

Waiver of Late Fees
A student who believes that a late fee should not be assessed because of university error or extraordinary circumstances that prevented all conceivable means of compliance by the deadline may petition for a waiver. Late registration fee: Office of the University Registrar; Late payment fee: University Bursar. The university reserves the right to require documentation to substantiate these circumstances.

Deferment of Tuition and Fees
Deferment extends the deadline for payment of tuition and fees for a specific term. A tuition and fee deferment is granted based on information from Student Financial Affairs (financial aid deferments) or the Office of the University Registrar (veterans). Refer questions on eligibility to the appropriate office. A tuition and fee deferment must be established by the tuition fee payment deadline for each term. A tuition and fee deferment is provided to students in the following circumstances:

- Students receiving benefits from state or federal financial assistance programs (1009.27, Florida Statutes).
- Students receiving veterans or other educational benefits under Chapter 30, Chapter 31, Chapter 32, Chapter 33, Chapter 34, Chapter 35, Chapter 106 or Title 10, U.S.C.; or
- Students for whom formal arrangements have been made with the university for payment by an acceptable third-party sponsor.

A $100.00 late payment fee will be assessed if a student fails to pay all tuition and fees due by the deferment deadline.

Deadlines
*Deadlines are enforced.*

The university does not have the authority to waive late payment fees unless extraordinary circumstances warrant such waiver or the university is primarily responsible for the delinquency.

Waiver or Exemption of Tuition and Fees
UF may waive tuition and fees as follows:

- Any dependent child of a special risk member killed in the line of duty, pursuant to Chapter 112.19, Florida Statutes.
- A student enrolled through the Florida Linkage Institutes Program is entitled to a waiver of the non-resident tuition and fees pursuant to 288.8175 Florida Statutes.
- Intern supervisors for institutions within the State University System may be given one non-transferable certificate (fee waiver) for each full academic term during which the person serves as an intern supervisor, pursuant to 1009.26, Florida Statutes.
- Persons 60 years of age or older who are Florida residents, pursuant to Chapter 1009.26, Florida Statutes.
- A student who is or was at the time he or she reached 18 years of age in the custody of a relative or non-relative under s. 39.5085 or s. 39.6225 or who was adopted from the Department of Children and Families after May 5, 1997. Such exemption includes fees associated with enrollment in applied academics for adult education instruction. The exemption remains valid until the student reaches 28 years of age after May 5, 1997, pursuant to Chapter 1009.25, Florida Statutes.
- A student who lacks a fixed, regular, and adequate nighttime residence or whose primary nighttime residence is a public or private shelter designed to provide temporary residence, a public or private transitional living program, or a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings. This includes a student who would otherwise meet the requirements of this paragraph, as determined by a college or university, but for his or her residence in college or university dormitory housing.
- Purple Heart recipients pursuant to Chapter 1009.26, Florida Statutes.
- Apply for enrollment in an institution of higher education within 24 months after high school graduation; and submit an official Florida high school transcript as evidence of attendance and graduation, may have the non-Florida resident fee waived as provided by Chapter 1009.26, Florida Statutes.
- Non-Florida resident fee for a veteran; C.W. "Bill" Young Veteran Tuition Waiver, pursuant to Chapter 1009.26, Florida Statutes.
- Active-duty military, pursuant to sections 1009.2(10) and 1009.26(14), Florida Statutes.

The non-Florida student financial aid fee may not be waived for students receiving an out-of-state tuition and fee waiver.

Non-Payment of Tuition and Fees
The university shall temporarily suspend further academic progress of any student who has not paid the entire balance of their tuition and fee liability by the established deadlines. This will be accomplished by placing a financial hold on the student's record, which will prevent the student...
from receiving grades, transcripts and/or diploma, and the student’s registration will be denied for future terms until the account has been satisfied. (UF-3.037 Regulations of the University of Florida)

Students who have not paid any portion of their tuition and fee liability by the established university payment deadline will be withdrawn from all courses. Students will continue to be held fee liable for these courses, but will not be allowed to attend these courses until payment is made in full and the student has been re-registered.

To re-register for courses, students must submit a Current Term Re-Enrollment Request petition to the Office of the University Registrar. Students who re-register after being withdrawn for non-payment of tuition and fees will be subject to both late registration and late payment fees.

Refund of Tuition and Fees

The following circumstances may constitute a tuition and fees refund (UF 3.0371 Regulations of the University of Florida):

- If notice of withdrawal from the University is approved prior to the end of the drop/add period and written documentation is received from the student
- Credits dropped during drop/add period
- Courses cancelled by the university
- Involuntary call to active military duty
- Death of the student or member of the immediate family (parent, spouse, child, sibling)
- Illness of the student of such severity or duration, as confirmed in writing by a physician, that completion of the semester is precluded
- Exceptional circumstances, upon approval of the university president or his designee

A refund of 25 percent of the total fees paid (less late fees) is available for withdrawal of enrollment of all courses from the university prior to the deadlines listed in the academic calendar.

More Info (p. 1808)

Refunds are issued by University Bursar and will be applied against any university debts. The university reserves the right to set minimum amounts for which refunds will be produced for overpayments on student accounts.

Tuition refunds due to cancellation, withdrawal or termination of attendance for students receiving financial aid will first be refunded to the appropriate financial aid programs. If the student is a recipient of federal financial aid, such as Grad Plus Loan, Pell Grant, TEACH Grant, Supplemental Educational Opportunity Grant (SEOG), Perkins Loan, Federal Direct Stafford Loans or PLUS loans, federal rules require that any unearned portion of the federal aid must be returned to the U.S. Department of Education.

Direct Deposit Requirement

Due to the university’s continuing support for sustainable practices, as well as the costs associated with producing, mailing, and tracking undelivered checks, direct deposit is now required for the delivery of refunds, whether financial aid or student overpayments. This electronic method will deposit any overpayments to the student’s checking account. Students must give authorization on ONE.UF (https://one.uf.edu/dashboard/), select the Campus Finances (Bursar) card > Related Links > Sign up for Direct Deposit to have financial aid or overpayments electronically credited to a U.S. bank or other U.S. financial institution checking account.

Florida Prepaid Tuition College Program

The Florida Prepaid College Program is a state of Florida administered program that provides Florida families affordable means to save for their children’s future college education.

At the University of Florida, students with a Florida Prepaid account will not have to show their Florida Prepaid documentation. University Bursar works directly from an electronic file provided by the Florida Prepaid College Program. University Bursar matches that file to the names and social security numbers of enrolled UF students to determine eligibility and available credits that can be billed to the program. If Prepaid is not showing on the student's ONE.UF record the first week of classes, contact the University Bursar at 352.392.9545.

More Info (https://one.uf.edu/dashboard/)

University Bursar will automatically bill the Florida Prepaid Program for the tuition and applicable fees of eligible students. The program will be billed each term that a student is registered at UF and continues to have credits available.

Florida Prepaid Program has a variety of plans. However, no plan pays 100 percent of tuition and fees. Listed below are fees that are not covered by a prepaid plan and must be paid by the fee payment deadline each term to avoid assessment of a $100.00 late payment fee:

- Distance learning fees
- Equipment fees
- Excess credit hour surcharge fees
- Late payment fees
Fees and Fiscal Information

- Late registration fees
- Material and supply fees
- Repeat course surcharge
- Transportation access fees
- Test fees
- Technology fees

**Opting out of Florida Prepaid**

Eligible students can choose to decline the use of the prepaid plan online for a fall, spring, or summer term.

Opt out of Florida Prepaid at ONE.UF.
More Info (https://one.uf.edu/dashboard/)

The option to opt out online for the current term must be completed prior the day prior to the tuition deadline. The online opt out option is not available on the fee payment deadline day; therefore, students choosing to opt out on the deadline day or those who need to cancel an online selection must contact the University Bursar at 352.392.9545 or Ask Bursar Help (https://uf.tfaforms.net/125/).

*Students must opt out each term they decline to use their prepaid plan. Only one academic term will be available online to opt out any given time.*

**Florida Prepaid and Financial Aid**

Students participating in the Florida Prepaid College Program who are also expecting to receive financial aid (i.e., Bright Futures, Pell, student loans, other scholarships/grants) will have the Florida Prepaid applied first to tuition and applicable fees. Financial aid received will be disbursed and applied to outstanding charges, which may include tuition and fees not covered by the program. Any excess financial aid that remains after debts have been paid will be refunded to the student or if there is a Plus loan this will be refunded to the student or parent.

**Study Abroad Programs and Distance Learning**

Students participating in any study abroad program or receiving instruction through flexible learning, also can bill the Florida Prepaid College Program.

Students must contact the following departments for assistance with billing the Florida Prepaid program:

**Study Abroad Programs**

UF International Center, Study Abroad Services
170 HUB Stadium Road
Gainesville, FL 32611

352.273.1539

**Flexible Learning Courses**

**General Fiscal Information**

Students can pay on their ONE.UF account the exact amount of tuition and fees and/or other amounts owed the university. The online payment system accepts the following payment methods: American Express, MasterCard, Discover, or Visa credit cards and electronic checks from checking accounts and international payments via wire transfer.
More Info (https://one.uf.edu/dashboard/)

Students can also pay at the University Bursar office with personal checks, cashier’s checks and money orders, which can be placed in the 24-hour drop box located outside 113 Criser Hall. Payments on all financial obligations to the university will be applied on the basis of age of the debt. The oldest debt will be paid first.

*University Bursar does not accept cash or debit card payments and does not cash checks or make cash refunds.*

It is the student’s responsibility to maintain a correct current address in the UF directory.
Address changes should be made online at ONE.UF.
More Info (https://one.uf.edu/dashboard/)

**Past-Due Student Accounts**

All student accounts are payable at the University Bursar office or on ONE.UF at the time such charges are incurred. Graduating students with outstanding financial obligations will have a hold placed on their records withholding release of a diploma, transcript and other university services until the debt is satisfied.
More Info (https://one.uf.edu/dashboard/)

University regulations prohibit the following for any student whose account with the university is delinquent until the debt has been satisfied:

- Registration
- Release of transcript, diploma, grades or schedules
- Loans
- The use of UF facilities and/or services
- Admission to UF functions and athletic events

Delinquent accounts, including those debts for which the student’s records have a financial hold, may require payment by cashier’s check or money order.

Delinquent debts may be placed with a billing agent, reported to a credit bureau and referred to collection agencies without further notice or litigated, at which time additional collection costs will be assessed in accordance with UF-3.0376, Regulations of the University of Florida. All payments received are applied to the oldest debt first.

**FERPA and Confidentiality of Student Records**

The university ensures the confidentiality of student records in accordance with the provisions of various federal, state, and university regulations, including the Family Educational Rights and Privacy Act of 1974 (FERPA), as amended, also known as the Buckley Amendment. The statutes and regulations also provide certain rights to students concerning their education records.

**FERPA Student Rights**

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. **The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access.** A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. **The right to request the amendment of the student’s education records that the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.** A student who wishes to ask the University to amend a record should write the University official responsible for the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. **The right to provide written consent before the University discloses personally identifiable information from the student’s education records, except to the extent that FERPA authorizes disclosure without consent.** FERPA authorizes disclosure without consent in several situations, including but not limited to the following: A) The University may disclose education records without a student’s prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisor, academic or research, or support staff position; a person or entity with whom the University has contracted as its agent to provide a service instead of using University employees or officials; a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibilities for the University. B) Upon request, the University may disclose education records without consent to an official of another school in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student’s enrollment or transfer. C) Directory information (https://directory.ufl.edu/) may be released freely unless the student files the appropriate form requesting that certain public information not be released. This form is available in the Office of the University Registrar.

4. **The right to file a complaint with the U. S. Department of Education concerning alleged failures by the University of Florida to comply with the requirements of FERPA.**
The name and address of the office that administers FERPA is:

US Department of Education
Student Privacy Policy Office
400 Maryland Avenue, SW
Washington, DC 20202-8520

Release of student record information is generally not permitted at the University of Florida without the express, written consent of the student. There are, however, some important exceptions.

**Directory Information** is defined as the student’s name, class and college, local and permanent addresses, listed telephone number, email address, enrollment status, most recent previous educational institution attended, dates of attendance at the University of Florida, majors, minors, certificates, concentrations and degrees earned, nature and place of employment at the University, honors and awards received, publication titles, participation in officially recognized or registered activities and sports, and weight and height of members of athletic teams.

Under FERPA, the university may release directory information without a student’s prior consent, unless the student tells the university not to release this information, by placing what is known as a privacy hold. Please note that selecting the “Do not publish” option in the UF directory is not the same as placing a privacy hold under FERPA. In order to place a privacy hold, the student must complete a Request for Restriction of Directory Information (Full Privacy Hold). This form is available by contacting the Office of the University Registrar by phone (352.392.1374) or email (help@registrar.ufl.edu).

Two important details regarding placing a privacy hold on a student’s record:

- The university receives many inquiries for directory information from a variety of sources outside the institution, including friends, parents, relatives, prospective employers, the news media, honor societies, and other members of the public. A privacy hold will preclude the release of such information, even to those people.
- A privacy hold applies to all elements of directory information in a student’s student record. The Office of the University Registrar does not apply the privacy hold differentially to the various directory information data elements. A request for a privacy hold will result in all data elements being withheld. Changes made by the online student directory will not be reflected on the student’s academic record.

A copy of FERPA, more details (http://www.registrar.ufl.edu/ferpa.html) about student rights and any university policies related to the FERPA are available from the Office of the University Registrar. Please refer any questions concerning FERPA to that office in 222 Criser Hall, 352.392.1374.

---

**Confidentiality of Student Records**

**Directory Information** that can be released to the public is limited to:

- Student name
- Class and college
- Local and permanent addresses
- Listed telephone number
- Email address
- Enrollment status
- Most recent previous educational institution attended
- Dates of attendance at the University of Florida
- Majors
- Minors
- Certificates
- Concentrations
- Degree earned
- Nature and place of employment at the university
- Honors and awards received
- Publication titles
- Participation in officially recognized or registered activities and sports
- Weight and height of university athletes

The Office of the University Registrar routinely releases directory information to the public. Directory information may also be released by other university departments and/or employees. Currently enrolled students who want to restrict directory information must contact the Office of the University Registrar (https://registrar.ufl.edu/contact/) for assistance.
Student educational records may be released without the student’s consent to school officials who have a legitimate educational interest in accessing the records. School officials shall include:

- An employee, agent or officer of the university or State University System of Florida in an administrative, supervisory, academic, research or support staff position;
- Persons serving on university committees, boards and/or councils; and
- Persons employed by or under contract to the university to perform a special task, such as an attorney or an auditor.

Legitimate educational interest shall mean any authorized interest or activity undertaken in the name of the university for which access to an educational record is necessary or appropriate to the operation of the university or to the proper performance of the educational mission of the university.

The university also may disclose information from the student’s educational record without their consent to individuals or entities permitted such access under applicable federal and state law.

Students have the right to review their own educational records for information and to determine accuracy. A photo I.D., other equivalent documentation or personal recognition by the custodian of record will be required before access is granted. Parents of dependent students, as defined by the Internal Revenue Service, have these same rights upon presentation of proof of the student’s dependent status. Each spring when the catalog is published, students are notified of their FERPA rights.

If a student believes their educational record contains information that is inaccurate, misleading or in violation of their rights, they can ask the institution to amend the record. The UF Student Guide outlines the procedures for challenging the content of a student record, as well as the policies governing access to and maintenance of student records.

More Info (https://sccr.dso.ufl.edu/students/student-conduct-code/)

If a student believes the university has not maintained the confidentiality of their educational record as required by law, they may file a complaint by contacting:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue SW
Washington, D.C. 20202-5901

---

**Grades and Grading Policies**

**Grades and Grade Points**

The Office of the University Registrar records student grades.

The word *credit* refers to one semester hour, generally representing one hour per week of lecture or two or more hours per week of laboratory work.

**Passing Grades and Grade Points**

Credit Earned Prior to May 11, 2009 - Summer A

</tr>
</tbody>
</table>
Definitions

E  Failure
H  Deferred grade assigned only in approved sequential courses or flexible learning
I* / I  Incomplete
N* / NG  No grade reported
S  Satisfactory
U  Unsatisfactory
W  Withdraw
WF  Withdrawn failing

I*, N* and I, NG Grades

I* or N* grades recorded on the student record indicate the non-punitive initial-term receipt of an I or NG. A grade of I* or N* is not considered a failing grade for the term in which it is received, and it is not computed in the grade point average. However, if the I* or N* has not been changed after 150 days, it will be counted as a failing grade and used in computation of a student's grade point average.

For purposes of determining grade point average after the initial receipt of an I* or N* grade, the three summer terms are considered collectively as a single term. I* and N* grades are not assigned to graduating students; they receive failing grades of I or NG.

An incomplete grade may be assigned at the discretion of the instructor as an interim grade for a course in which the student has completed a major portion of the course with a passing grade, been unable to complete course requirements before the end of the term because of extenuating circumstances, and obtained agreement from the instructor and arranged for resolution of the incomplete grade. Instructors are not required to assign incomplete grades.

If make-up work requires classroom or laboratory attendance in a subsequent term, students must not register for the course again. Instead, they should audit the course and pay course fees.

If the make-up work does not require classroom or laboratory attendance, the student and their instructor should decide on an appropriate plan and deadline for completing the course.

When the course is completed, the instructor will initiate the change of grade. These procedures cannot be used to repeat a course for a different grade. An I grade should not be assigned to a student who never attended class; instead, instructors should assign a failing grade.

W and WF Grades

Courses dropped after drop/add and before the withdrawal deadline will be graded W. WF grades are no longer issued by the university, but in previous years they reflect courses dropped after the withdrawal deadline.

More Info (p. 1791)

Satisfactory/Unsatisfactory Grade Option (S/U)

Subject to college degree program and department guidelines, students can take elective coursework and earn grades of S (satisfactory) or U (unsatisfactory). A grade of S is equal to a C (2.0) or better. Grades earned under the S/U option do not carry grade point values and are not computed in the University of Florida grade point average. Courses with a grade of S will count as credits earned in a degree program. Such grades are included in the student's permanent academic record and are reflected on the transcript. After the S/U option is approved, the grade cannot revert to a letter grade.

Other academic institutions and agencies may interpret a grade of U as a failing grade.

If a student chooses the S/U option they must be in good standing and not on university academic probation. To elect the S/U option, students must obtain the approvals indicated on the form. Students can elect the S/U option for one course only each term; this option is in addition to courses that are taught only on an S/U basis. Courses taken to fulfill the general education and the writing requirement cannot be taken S/U.
Grades and Grading Policies

For fall, spring and summer C terms, the S/U option deadline is Friday of the third week of classes. For summer A and summer B terms, the deadline is Wednesday of the second week of classes.

H Grades

An H grade, which signifies a deferred grade assignment, is normally assigned at the end of a term when a specific course's class calendar differs from the traditional course calendar. Now that UF flexible learning courses have been incorporated into the student records system, H grades will also be assigned to students who cannot complete their flexible learning course requirements before the end of the traditional grade cycle.

While H grades for traditional courses become punitive at a date determined by the college, H grades for flexible learning coursework generally become punitive 32 weeks after course enrollment. However, any grade of H received by a degree candidate will become punitive (and calculated as a failing grade) at degree certification.

Grading Policies

Grade Point Averaging

The term *average* refers to the grade point average (GPA) for work completed in the current or most recent academic program attended at the University of Florida. Grades received at other institutions are NOT averaged with grades received at the University of Florida for the purpose of meeting university GPA requirements. Other agencies and honorary societies will compute averages in accordance with their own standards and policies. Averages are determined by computing the ratio of grade points to semester credits attempted.

Dismissal for Insufficient GPA

Just as a sufficient GPA is critical for academic success, an insufficient GPA could lead to dismissal from the university. Students must maintain a minimum GPA based on their cumulative UF credits to avoid dismissal and cancellation of advanced registrations.

To see calculations based upon former grade values, please refer to the 2009-10 undergraduate catalog (http://www.registrar.ufl.edu/catalog0910/policies/regulationgrades.html).

Repeat Coursework

University of Florida coursework that is repeated is counted in the computation of your UF grade point average as many times as grades for that course are recorded, although credits will be awarded only once.

When you earn a C (2.0) or higher in a course, you will not be allowed to repeat that course. Any exceptions to this policy must be made via an approved petition to the student's college.

If you entered UF with credit for Advanced Placement (AP) or International Baccalaureate (IB) courses and you then repeat and pass the equivalent course at UF, you will receive a grade for the UF course and no credit for the prior work.
Grades received at other institutions will not be averaged with grades received at the University of Florida. Repeat coursework taken at the University of Florida will result in calculation of the UF grade in the UF grade point average only, with credit earned only once.

**Outcomes when Repeated Coursework involves Transfer Coursework**

**Coursework taken at another institution, then repeated at UF**  
Only UF grade computed in GPA; credit earned only once.

**Coursework taken at UF, then repeated at another institution**  
Only UF grade computed in GPA; credit earned only once.

**Coursework taken and repeated at another institution**  
No grades will be calculated into the UF GPA and credit is awarded only once.

Repeat course equivalencies are identified based on the state's common course taxonomy. Refer to the statewide course numbering system (p. 1824) for the definition of course equivalencies.

Colleges may not accept grade points and credits earned from lower level courses if they are taken after the student has received credit/grades for advanced courses or exam credit in the same field.

**Grade Changes**

Grade changes will be accepted and processed by the Office of the University Registrar for one calendar year after the term in which the course was attempted.

Any grade changes submitted after the deadline must be accompanied by additional supporting information or documentation justifying the extension and submitted to the appropriate college dean. If the dean approves the exception, they will forward an authorized grade change form to the Office of the University Registrar.

One calendar year is specified as the published grades due date of the same semester in the following year.

This policy does not apply to grades of I or I*, which designate a grade of incomplete.

**Registration Policies**

**Course Load Requirements**

The minimum full-time load for undergraduate students is 12 credits, including summer term. Postbaccalaureate students are considered undergraduates.

*Students with disabilities who are registered with the Disability Resources Center are eligible for full-time status and all the benefits thereof at or below 12 credits.*  
More Info (https://disability.ufl.edu/)

The minimum load for full-time undergraduate student benefits from the Veterans Administration is 12 credits for fall, spring, and summer terms. The minimum load for full-time undergraduate student benefits from the Social Security Administration is 12 credits per semester; a full-time load for graduate students is 9 credits. Inquiries related to Social Security benefits should be directed to the student's local Social Security Office.

The Office of the University Registrar will complete enrollment certificates issued by the Social Security Administration for students eligible to receive educational benefits, as long as the student is a full-time undergraduate. Students receiving financial aid and students with disabilities should refer to Financial Aid’s enrollment requirements for complete information.

More Info (http://www.sfa.ufl.edu/receiving/enrollment-requirements/)

University regulations allow a maximum load of 18 credits. Some colleges have differing maximum loads; refer to the college sections for specific information.

With college approval you may register for less than the minimum or more than the maximum load. After late registration, you cannot drop below the minimum load without successfully petitioning your college dean.

Simultaneous enrollment in flexible learning courses or extension work at another college or university is counted when computing the maximum course load but not the minimum course load.
Non-Degree Registration

Non-degree enrollment is restricted to participants in special programs, off-campus programs, online course offerings, university-affiliated exchange programs, and high school/college dual-credit enrollment. Special regulations govern high school/college dual enrollment for academically advanced students in Florida high schools. Non-degree enrollment is generally limited to the summer terms.

More Info (http://www.registrar.ufl.edu/registration/transients.html)

Undergraduate students who have been denied admission to UF for any term are not eligible for non-degree registration. If you previously have attended UF in a degree-seeking status and did not subsequently earn a bachelor's degree, you are not eligible for non-degree registration.

Non-degree enrollment is subject to the availability of faculty, space and facilities. No application for admission is required.

UF Students Attending Other Schools

Normally, UF students are not permitted to register at another institution for a course or its equivalent that is offered at UF.

Visiting Students Attending UF

Undergraduate students in good standing at another accredited collegiate institution can enroll full time at UF as non-degree transient students to complete work to transfer back to the parent institution.

UF will not evaluate work previously completed, and it is the student's responsibility to secure approvals required by the parent institution. Certification to Social Security and Veterans Administration programs also is the responsibility of the student, who must request each institution to furnish records.

Non-degree students are subject to the following restrictions:

- Non-degree students must meet state of Florida immunization requirements.
- Course enrollment requires the approval of the college at the beginning of each term. The college of enrollment has the authority to terminate a non-degree enrollment before registration for any term. Generally, non-degree registration is for one term only.
- Registration is not permitted until the last three days of the fall/spring drop/add period and must be completed by the end of drop/add; failure to register by that deadline will result in a late registration fee.
- Registration is not permitted until the first day of the summer drop/add period and must be completed by the end of drop/add; failure to register by that deadline will result in a late registration fee.
- The same grading system is applicable to degree and non-degree students. Non-degree credit may be applicable to a UF degree upon subsequent admission to degree status and determination of appropriate application of such credit in the student's degree program. Authorization to enroll as a non-degree student in no way implies future approval for admission as a degree-seeking student.
- Non-degree enrollment status will be denied to any student under suspension or dismissal from a postsecondary institution or not in good standing at any institution previously enrolled, including UF, even if the student has subsequently attended another institution. Non-degree students are subject to other regulations and restrictions imposed by the college or department in which they wish to enroll.
- Non-degree students taking courses at the university will be required to register for and to attend classes under the university calendar. Non-degree students must pay appropriate UF fees based on course level, number of credits and residency status.

Auditing Courses

Auditing a course is approved on a space-available basis. In addition to paying tuition and fees, the student must obtain approvals from both the instructor and dean of the college offering the course. Immunizations also are required.

More Info (https://registrar.ufl.edu/registration/audit/)

Audited courses are reflected on the academic transcript with a grade value of AUD.

Students auditing a course to complete course requirements should refer to Grades and Grading Policies.

More Info (p. 1801)

Transfer Credit

Credit is awarded for college-level coursework completed at a U.S. institution of higher education accredited by one of the following institutional accreditors or its equivalent from a foreign institution:

- Western Association of Schools and Colleges, Accrediting Commission for Community and Junior Colleges (ACCJC)
- New England Commission of Higher Education (NECHE)
- Higher Learning Commission (HLC)
- Middle States Commission on Higher Education (MSCHE)
- Northwest Commission on Colleges and Universities (NWCCU)
Courses must be similar in nature and content to courses in our undergraduate curriculum to be transferred. Courses that are remedial, technical, vocational, or doctrinal in nature are not transferable to an undergraduate degree. It is the prerogative of the student’s UF college to determine how transfer credits apply to a degree. Students should expect to receive 60 transfer credits with an AA degree from a Florida public community/state college.

Junior/senior-level (courses numbered 3000-4000) course requirements for the major must be completed at UF or, with permission of the student's UF college, at another accredited baccalaureate degree-granting institution. Refer to Residence Requirements for additional policy regarding graduation requirements.

More Info (p. 1789)

Students are required to submit final official transcripts from all institutions attended before or during their enrollment at UF.

Failure to declare attendance at another institution can invalidate admission to UF and any credits or degrees earned.

### Transcript Policies

The Office of the University Registrar maintains all students’ academic records. At the end of each term of enrollment, students can view their grades, cumulative credits earned, grade points, probationary status and degrees earned, if any, on ONE.UF.

More Info (https://one.uf.edu/)

The University of Florida transcript is the comprehensive record of courses taken at UF, credit earned by examination, university-level honors, certifications and certificates, and degrees awarded. The student’s name will appear on the transcript as it appears on their university record.

Transcripts can be ordered online on ONE.UF. Payment must accompany each transcript order; transcripts cannot be ordered by telephone, fax or email. Current and former students will need a valid GatorLink account (with an active username and password) to order an official transcript or to view and print an unofficial copy of their UF transcripts on ONE.UF. The unofficial copy of the UF transcript may not be accepted by other institutions or potential employers.

More Info (https://one.uf.edu/)

The university maintains the right to withhold release of a transcript if a student has an outstanding financial obligation to the university. To reflect a complete academic record for undergraduate, graduate and professional students, the university will issue complete transcripts only. Transcripts do not differentiate between degrees or courses taken in a classroom or online format.
## Dates and Deadlines

All deadlines are effective at 5:00 p.m. on the last date unless indicated otherwise. Forms should be submitted to the appropriate office by 5:00 p.m. unless indicated otherwise. If submitting a form to the Office of the University Registrar, use the Secure Upload Portal at https://registrar.ufl.edu/forms/.

*All dates and deadlines may be subject to change.*

Previous Catalogs’ Dates and Deadlines (p. 2373)

Student Life

Student Services

Division of Student Affairs

The University of Florida Division of Student Affairs creates a signature student experience, developing bold and highly effective graduates. We take pride in guiding the university’s efforts for students centered on: Health and Wellness, Leadership, Success Services, and Career Readiness.

The Office of the Vice President for Student Affairs, located in 135 Tigert Hall, has administrative responsibility for the Career Resource Center, Counseling and Wellness Center, Dean of Students Office, First Generation Student Success, GatorWell Health Promotion Services, Housing and Residence Education, J. Wayne Reitz Union, Machen Florida Opportunity Scholars Program, Multicultural and Diversity Affairs, Recreational Sports, Student Activities and Involvement, and Student Legal Services.

More Info (http://www.ufsa.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0026)

Campus Facilities

On 2,000 acres, most of it within the limits of a 125,000-population urban area, the university operates out of close to 1,000 buildings, almost 200 of them equipped with classrooms and laboratories. Facilities are valued at more than $1.5 billion. Notable among these are the Brain Institute, the physics building, University Art Gallery, a microkelvin laboratory capable of producing some of the coldest temperatures in the universe, a 100-kilowatt training and research nuclear reactor, the second largest academic computing center in the South, and a self-contained intensive-care hyperbaric chamber for treating near-drowning victims.

Ben Hill Griffin Stadium

Ben Hill Griffin Stadium, or The Swamp, is widely recognized as one of the toughest environments for a visiting team in all of college football. Several facelifts after the stadium’s original construction in 1930 have made Florida Field at Ben Hill Griffin Stadium a state-of-the-art facility. The Swamp is the largest stadium in the state of Florida.

Florida Museum of Natural History

The Florida Museum of Natural History is the largest natural history/anthropology museum in the Southeast and one of the top 10 in the nation. Its research collections contain nearly 6.5 million specimens.

More Info (http://www.flmnh.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0181)

Harn Museum of Art

The Samuel P. Harn Museum of Art, with 18,000 square feet of exhibit space, is one of the largest museums in the Southeast. The Curtis M. Phillips Center for the Performing Arts attracts world-class symphony orchestras, Broadway plays, operas, and large-scale ballet productions to Gainesville.

More Info (http://harn.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0309)

Newell Hall

Originally built in 1909, Newell Hall is the 3rd oldest building on campus. The facility was completely repurposed to create an active learning environment for both undergraduate and graduate students. It provides a high-tech, collaborative environment with open plan study rooms to foster a creative environment focused on innovation, flexibility, and accessibility.

Map (http://campusmap.ufl.edu/?loc=0013)

O’Connell Center

The Stephen C. O’Connell Center covers three acres and is used by the university for classes, intercollegiate sports, general recreation, and a variety of other entertainment events. An Olympic-sized swimming pool, dance studio, gymnastics studio, martial arts room, free style weight room, Nautilus center, track, badminton, volleyball courts, and practice basketball court are located in and around the perimeter of the 12,000 seat main arena. The versatility of this facility permits as many as eight recreational activities to be conducted simultaneously. All recreational, educational and entertainment facilities within the O’Connell Center have been designed to accommodate persons with disabilities.
Reitz Student Union

The newly expanded J. Wayne Reitz Student Union provides space for a myriad of student and faculty activities. More than 20,000 people use the Reitz Union daily for various activities, including shopping, dining, student organizations and hotel services.

More Info (https://www.union.ufl.edu/default/) Map (http://campusmap.ufl.edu/?loc=0686)

Campus Safety and Security

Contact: Email (wbarber@ufl.edu?Subject=Campus%20Safety%20and%20Security) | 352.273.3309

The University of Florida is one of the largest institutions of higher education in the nation. The university community is not unlike many other municipalities, and as such, has the same safety and security concerns as Anytown, USA.

The University of Florida Police Department (UFPD) recognizes that it must maintain the safest and most secure environment possible for all students, faculty and staff, and campus visitors. The UFPD has the utmost concern for personal and property safety, but with an open campus environment, safety becomes a shared responsibility.

The UFPD is a state of Florida and nationally accredited law enforcement agency. There are more than 90 fully certified and sworn officers who patrol the UF campus and its surrounding properties 24 hours per day, every day. The department has its own Criminal Investigations Division employing highly trained detectives to investigate any reported crime on campus. The officers of the Uniformed Patrol Division are highly trained campus law enforcement professionals who are equipped with the most contemporary crime-fighting techniques and tools. The Community Services Division is proactive in providing everyone in the campus community with the very latest information regarding personal and property protection through classes, programs and documents.

More Info (http://www.police.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0027)

Career Connections Center

The Career Connections Center (Career Center) provides events and services to help students develop and implement their Career Action Plan to realize their next steps. Students can work with Career Center staff to select a major, clarify their interests and abilities, develop professionally, build experience, and prepare for future internship, graduate school, or employment searches.

Students should activate their Gator CareerLink account to learn about the range of in-person and online career planning services available to them and see which employers are actively recruiting University of Florida candidates.

The Career Connections Center hosts hundreds of employers annually as they attend a variety of career events, hold on-campus interviews, and present information sessions and informal interactions with students.

More Info (https://career.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0686)

Visit the Career Connections Center to:
- Assess skills and interests to help choose a major (https://career.ufl.edu/students/explore-majors-careers/choose-or-change-a-majorcareer/)
- Explore various career options (http://ufl.myplan.com/)
- Secure internships and other work experience (https://career.ufl.edu/engage/) before graduating
- Conduct mock interviews (https://career.ufl.edu/excel/)
- Prepare for graduate school (https://career.ufl.edu/explore/)
- Start a full-time job search (https://career.ufl.edu/engage/)
- Create a Gator CareerLink to find internships and full-time positions

Counseling and Wellness Center

As the primary provider of mental health services on campus, the Counseling and Wellness Center offers high quality counseling and psychiatric case as well as developmental and preventative services to UF students.

The Counseling and Wellness Center at 3190 Radio Road provides counseling, consultation and crisis intervention services to currently enrolled undergraduate and graduate students and their spouses/partners. These services include individual, couples and group counseling; outreach programs and consultations; classes/guest lectures and research; and an extensive professional training program for mental health professionals. All of the Center’s programs and services are designed to help students develop the personal awareness and skills necessary to take advantage of the educational opportunities at the university.

More Info (http://www.counseling.ufl.edu/cwc/) Map (http://campusmap.ufl.edu/?loc=0081)

Dean of Students

The Dean of Students Office in 202 Peabody Hall provides programs and services to support students' academic success and personal development.

More Info (http://www.dso.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0004)
U Matter, We Care
At UF, every Gator counts. U Matter, We Care serves as UF’s umbrella program for UF’s caring culture and provides students in distress with support and coordination of the wide variety of appropriate resources. Families, faculty and students can contact U Matter, We Care seven days a week for assistance for students in distress.
Email (umatter@ufl.edu)

Emergency Response
Coordinates the university’s response to student emergencies and crises. Assistance for students in distress is available 7 days a week.

New Student and Family Programs
Organizes first-year experience and new student programs including new student orientation.

Student Conduct and Conflict Resolution
Administers the university's student conduct code and academic honesty guidelines.

Medical Withdrawals
Conducts the petitions process for students who withdraw from the university for medical reasons.

Collegiate Veterans Success Center
As a Veteran Friendly Campus, it is important to provide a place for student veterans where veterans can meet, study, and spend time in a safe and relaxing environment. Ranked among the top centers for veterans in the country, the veteran's success center looks to provide ongoing support for those who have served in our armed forces.

Disability Resource Center
Contact: Email (DRCaccessuf@ufsa.ufl.edu) | 352.392.8565
The Disability Resource Center (DRC) in the Dean of Students Office utilizes knowledge and expertise in the fields of disability and higher education to create an inclusive environment by:

• Acting as a resource for students with physical, learning, sensory, or psychological disabilities;
• Facilitating and providing support for reasonable accommodations for students in order to afford equal access to academic courses, programs, and activities;
• Providing services to address the impact of disabilities on student performance and success in and out of the classroom;
• Empowering students to articulate their strengths and advocate for their accommodations; and
• Creating opportunities to educate the campus community on disability laws, trends, universal design, programs, and services.

The DRC serves more than 2,300 registered students through classroom accommodations, support groups, a testing center that proctors 10,000 tests annually, and one-to-one skills coaching. DRC staff are available to provide individual strategy sessions and consultation with students, faculty, and families. Email accessuf@dso.ufl.edu or call to schedule an appointment.
More Info (https://www.dso.ufl.edu/drc/) Map (http://campusmap.ufl.edu/?loc=0020)

Gator Dining Services
Gator Dining is the official food service provider for the university. There are more than 45 dining locations on campus, including many national franchises like Subway, Chick-fil-A, and Starbucks. There are also nutritious and vegetarian options as well as special treats like yogurt smoothies, gourmet coffees, and chocolate chip cookies.

Gator Dining Services offers two types of meal plans (http://gatordining.com/meal-plan-information/): the all campus meal plan and the regular declining balance account.

All students must maintain and regularly check their GatorLink email as this is where all official university communications are sent.

Gator 1 Card
The Gator 1 card is the official university photo ID. The ID Card Services office is located on the ground floor of the UF Bookstore and Welcome Center complex on Museum Road.
More Info (http://www.gator1card.ufl.edu/Gator1C_info.asp)
All enrolled students, faculty and staff must have this card to:

- Enter CIRCA computer labs, university libraries, the infirmary, recreation centers.
- Sign up for intramural sports activities.
- Participate in the textbook deferment program at the UF Bookstore.
- Purchase tickets to university events.
- Vote in student government elections.
- Purchase food on campus with a Gator Dining or prepaid vending account.
- Use laundry facilities in some residence halls.
- Use as an ATM/debit card when activated through Wells Fargo Bank.

More Info [here](https://www.wellsfargo.com/student/banking/campuscard/)

**UFID**

UFID is an eight-digit number that serves as the primary identifier for all university records and transactions. Similar to a social security number, no two people will have the same number, and each person has only one. The UFID is assigned by the university, not chosen like a PIN. All students, faculty and staff have UFIDs, and the number is printed on the Gator 1 card.

More Info [here](http://identity.it.ufl.edu/process/uf-identifier/)

**Housing and Residence Education**

Welcome to #WhereGatorsLive at the University of Florida. On-campus living means students are in on all the action and seconds away from everything as they get involved, build the path to their successful future, and make connections that will last a lifetime. UF Housing offers 26 different residence halls for undergraduate students and 6 different villages for graduate students and their families. Explore the options.

More Info [here](http://www.housing.ufl.edu/) Map [here](http://campusmap.ufl.edu/?loc=0753)

**Beginning Freshmen**

Freshmen entering the university will be offered a housing agreement based on the term they were admitted. Residence hall contracts are available for the academic year (summer B/fall/spring, fall/spring, spring/summer, and the summer terms).

Applying for campus housing does not guarantee an offer of residence hall space. If space is available, admitted students will receive an email link to the online residence hall contract process. To secure campus housing, the student must complete a contract, sign it and submit the advance rent payment by the deadline.

- Residence Halls [here](https://www.housing.ufl.edu/housing/)
- Apply for Housing [here](http://www.housing.ufl.edu/apply/)
- Transfer Student Information [here](https://housing.ufl.edu/living-options/apply/incoming-students/)
- Villages [here](http://www.housing.ufl.edu/gfh/choices/)
- Off-campus Housing Information [here](http://www.offcampus.ufl.edu/)

**Student Financial Affairs**

The Office for Student Financial Affairs (SFA) in 107 Criser Hall administers financial aid programs and provides financial assistance and counseling. SFA awards aid according to financial need (the difference between current educational costs and what the individual student can pay toward these costs).

More Info [here](http://www.sfa.ufl.edu/) Map [here](http://campusmap.ufl.edu/?loc=0031)

**Financial Aid**

Financial aid is money provided to students and their families as gift aid (scholarships, grants) or self-help programs (loans and/or work) to help pay college costs. Financial aid can be awarded singly (one type of aid) or as a package.

More Info [here](http://www.sfa.ufl.edu/programs/)

**Grants**

Grants are awarded for financial need. The largest grant program at UF is the Federal Pell Grant. Other grants include Federal Supplemental Educational Opportunity Grants, Federal Academic Competitiveness Grants, National SMART Grants, the Teacher Education Assistance for College and Higher Education (TEACH) Grant, Florida Student Assistance Grants, Turner Grants and UF Graduate Grants.

More Info [here](http://www.sfa.ufl.edu/programs/grants/)

**Scholarships**

Scholarships are awarded based on academic performance and financial need. Most academic scholarships are awarded through the UF Office of Admissions and individual UF colleges. SFA administers a limited number of scholarships from private donors.

More Info [here](http://www.sfa.ufl.edu/programs/scholarships/)
**Student Employment**

Federal Work-Study jobs may be awarded by SFA to students with demonstrated financial need as part of an aid package. Other job programs, such as OPS employment, do not require financial need and are open to any student with the desire to work who meets the basic criteria of half-time enrollment and a 2.0 GPA. Student jobs usually are 15-20 hours a week and pay at least minimum wage.

**Loans**

Loan programs for undergraduates include: Federal Direct Stafford loans, Federal Direct Unsubsidized Stafford loans, Federal Direct Graduate PLUS loans, Federal Perkins Loans and UF institutional loans. These programs offer long-term, low-interest loans that must be repaid when the borrower graduates, withdraws or drops to less than half-time enrollment. Parents of dependent undergraduate students can take out educational loans through the Federal Direct PLUS loan program. Graduate students can take out educational loans through the Federal Grad PLUS loan program.

**When to Apply**

Applications are available January 1 each year. Although SFA cannot award financial aid until students have been admitted to UF, they should apply for aid as soon as possible after January 1. Students are considered for aid according to the date their aid file is complete. Federal Pell Grants, Federal Academic Competitiveness Grants (ACG), Federal SMART Grants, Federal Direct Stafford Loans and OPS employment are open throughout.

March 15 is UF’s on-time deadline for financial aid application. SFA must receive students’ application information from the federal need analysis processor by March 15 in order to be considered for Federal Work Study, Federal Perkins loans, Federal Supplemental Educational Opportunity Grants, Turner Grants and institutional (UF) loans. Financial aid at UF is awarded first-come, first-served. Students missing the deadline will only be considered for aid remaining after on-time students have received their awards.

- How to Apply for Financial Aid ([http://www.sfa.ufl.edu/applying/](http://www.sfa.ufl.edu/applying/))
- Enrollment Requirements for Financial Aid ([http://www.sfa.ufl.edu/receiving/enrollment-requirements/](http://www.sfa.ufl.edu/receiving/enrollment-requirements/))
- How to Apply for Student Employment ([http://www.sfa.ufl.edu/programs/employment/](http://www.sfa.ufl.edu/programs/employment/))

**Financial Aid Academic Progress Requirements**

UF students receiving financial aid are required to be in good standing and to maintain satisfactory academic progress.

More Info ([http://www.sfa.ufl.edu/additional/academic-progress/](http://www.sfa.ufl.edu/additional/academic-progress/))

**Recreational Sports**

With an active student body and an abundance of Florida sunshine, recreations is a big part of life on campus. The university offers more than 60 intramural and club sports, personal training, a midnight fun run, a lake and one of the best fitness facilities in the country. So no matter a student’s interest or skill level, there’s always a great way to get involved with other Gators.

RecSports offers experiences that enrich the lives of University of Florida students through excellence in facilities, fitness, sport, adventure and play. RecSports is committed to fostering leaders, encouraging lifelong healthy lifestyles and maintaining welcoming and safe environments, including student activities and programs, campus recreation facilities, aquatics, Lake Wauburg and more.

**Student Health Care Center**

**General Information and Helpful Links**

Appointments, Hours and Locations, Excuse Notes, Fees for Services, etc.

The Student Health Care Center (SHCC), established in 1906, is an accredited outpatient clinic staffed by licensed, board-certified medical providers who pride themselves on keeping UF’s students, faculty and staff healthy through a variety of primary and specialty care services, including general medical care, immunizations, dermatology, massage therapy, nutrition, occupational medicine, physical therapy, sports medicine, travel, women’s health and workers compensation. The SHCC also conducts the annual campus flu shot campaign.

All registered UF students paying the tuition-included health fee may access SHCC services. If a student takes time off (for example, no summer classes), they must pay the per-semester optional health fee to receive care, which covers the costs associated with most SHCC office visits, but is not considered health insurance. Items not covered by the health fee that patients are financially responsible for include, but are not limited to health insurance, hospital visits, external community providers/facilities, physicals, procedures, X-rays, lab tests, medical equipment, prescriptions, non-prescription medications, vaccinations, massage and physical therapy.

In addition to university-sponsored insurance plans, the SHCC can direct-bill many private insurance companies for covered medical charges. Visit the SHCC’s Health Insurance Options for more information on private insurance usage and verification, as well as current university-sponsored insurance details.

UF Bookstore and Welcome Center
The University of Florida Bookstores are located in the UF Welcome Center on Museum Road just next to the student union, in the Health Science Center and in the College of Veterinary Medicine. UF Bookstores offer new and used textbooks, school supplies, gifts and clothing. Bookstore programs include textbook reservations and a 50% guaranteed book buyback.
)
More Info (http://www.bsd.ufl.edu/bookstore/) Map (http://campusmap.ufl.edu/?loc=0886)

UF Welcome Center is within the main UF Bookstore next to the Reitz Union. The Welcome Center is maintained by the Office of Admissions and is the university’s front door to visitors, providing weekday and Saturday information sessions and walking tours of campus.

Statewide Course Numbering System

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida's Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and 27 participating non-public institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions.

More Info (http://scns.fldoe.org/)

Each participating institution controls the title, credit and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated numbers is referred to as the SCNS taxonomy. Descriptions of the content of courses are referred to as statewide course profiles.

### Example of Course Identifier

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Level Code (1st digit)</th>
<th>Century Digit (2nd digit)</th>
<th>Decade Digit (3rd digit)</th>
<th>Unit Digit (4th digit)</th>
<th>Lab Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENC</td>
<td>Lower (Freshman) Level at this institution</td>
<td>1</td>
<td>0</td>
<td>1</td>
<td>No laboratory component in this course</td>
</tr>
<tr>
<td></td>
<td>English Composition</td>
<td>Freshman Composition Skills</td>
<td>Freshman Composition Skills 1</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and the same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in Exceptions to the General Rule for Equivalency.

For example, a freshman composition skills course is offered by 59 different postsecondary institutions. Each institution uses ENC_101 to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, ENC means English Composition, the century digit 1 represents Freshman Composition, the decade digit 0 represents Freshman Composition Skills and the unit digit 1 represents Freshman Composition Skills 1.

In the sciences and certain other areas, a C or L after the course number is known as a lab indicator. The C represents a combined lecture and laboratory course that meets in the same place at the same time. The L represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at the community college is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101.

Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent.

Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter hours often transfers as 2.67 semester hours.
About the Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states: Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions.

Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions and participating non-public postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or non-public control of the previous institution.

The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

- Courses not offered by the receiving institution
- For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question
- Courses in the _900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses and Dissertations.
- College preparatory and vocational preparatory courses
- Graduate courses
- Internships, apprenticeships, practica, clinical experiences and study abroad courses with numbers other than those ranging from 900-999.
