### Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

### Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

**Critical Thinking**

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

**Communication**

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.

4. Display oral and written proficiency in language(s) of specialization.

German Minor

This minor provides a linguistic foundation in the German language equivalent to the B1-B2 level according to the Common European Framework of Reference for Languages, and practical experience with different kinds of texts, films, and cultural issues important to speakers of German.

About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

About this Program

• College: Liberal Arts and Sciences (p. 646)
• Credits: 15-19 | Completed with minimum grades of C

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum

• Classical Studies
• Classical Studies Minor
• Greek Studies Minor

A maximum of six credits of Beginning Modern Greek 1 and 2 can apply to this minor. A minimum of nine credits must be at the 3000 level or above.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Of the total credits, no more than three may be individual work.

Health Disparities in Society Minor

Health disparities describe the disproportionate burden of disease, lack of access to health care, and poorer health outcomes found among members of socially disenfranchised populations. Health disparities exist at multiple levels of society (global, national, institutional, local, and personal) and among people of diverse geographic locations, linguistic groups, socioeconomic status, and sociocultural groups. Housed in the Center for Gender, Sexualities, and Women’s Studies Research (CGSWSR), the Health Disparities in Society (HDS) minor provides an interdisciplinary, intersectional framework to examine how multiple social identities (e.g., race, gender, sexual orientation, and socioeconomic status) intersect to reveal interlocking inequalities and preventable disparities in health.

About this Program

• **College:** Liberal Arts and Sciences (p. 646)
• **Credits:** 15 | Completed with minimum grades of C and no optional S/U | 9 must be at the 3000-level or above

Center Information

The Center for Gender, Sexualities, and Women’s Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people’s lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

Curriculum

• Combination Degrees
• Health Disparities in Society Minor

Requirements

• No more than three credits of independent study may count toward the minor.
• Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.
• Students must complete at least three courses at the 3000 level or higher and each must be at least three credits.
• Although students must complete WST 2322 before enrolling in WST 4941C, they may take the elective courses in any order at any time (i.e., before, during, or after taking the two required courses).
• Students are encouraged to indicate their intention to enroll in WST 4941C as soon as they commit to the minor, by completing this form [https://wst.ufl.edu/files/4941C-Intent-to-Complete-Form.pdf](https://wst.ufl.edu/files/4941C-Intent-to-Complete-Form.pdf).
• Sometimes, and with the approval of the undergraduate coordinator for Women’s Studies, students may petition to have other, relevant classes approved as substitutes within each category of electives minor within the minor. Such courses could include department special topics offering with numbers like 3930, 4930.

Each semester, courses offered for this minor are listed on the Women’s Studies courses website.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills, and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Coursework for the Major

The Hebrew specialization of the Foreign Languages and Literatures major consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Advanced Elective Coursework

Select 18 credits (at least 6 credits at the 4000 level): 18

- HBT 3100 Introduction to Israeli Culture
- HBT 3233 Israeli History and the Contemporary Novel
- HBT 3563 Women in Modern Hebrew Fiction
- HBT 3564 Motherhood in Modern Hebrew Literature
- HBR 3440 Translation in Israeli Media
- HBR 3443 Hebrew News and Media
- HBR 4930 Special Topics
- HMW 4200 Readings in Modern Hebrew Literature 1
- HMW 4201 Readings in Modern Hebrew Literature 2

Critical Concentration

Although courses may appear in more than one group, they may be counted toward only one group.

Select 9 credits from one area:
- Comparative Cultural Studies
- Film and Visual Culture
- Literary Studies
- Medieval and Early Modern Studies

Total Credits 33

Placement

In all languages, students with either a native background in the language or prior study in that language, might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://dlss.flyvc.org/pbhs/ULe4z16deG03frpwE3/actionHandler.jsp/doc.pdf) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete HBR 1130 or higher-level Hebrew Language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete HBR 1131 or higher-level Hebrew Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete HBR 2220 or a higher-level Hebrew Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 6

- Complete HBR 2221 or a higher-level Hebrew Language course with a minimum grade of C
- Complete 2 Advanced Elective courses
- Complete 1 Critical Concentration course
- 2.0 UF GPA required

SEMESTER 7

- Complete HBR 3410 or a higher-level Hebrew Language course with a minimum grade of C
- Complete 2 Advanced Elective courses
- Complete 1 Critical Concentration course
- 2.0 UF GPA required

SEMESTER 8

- Complete HBR 3411 or a higher-level Hebrew Language course with a minimum grade of C
- Complete 2 Advanced Elective courses at the 4000 level
- Complete 1 Critical Concentration course
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

2021-2022 UG PDF 859
The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).
Before Graduating Students Must

• Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
• Complete requirements for the baccalaureate degree, as determined by faculty.
• Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

• Proficiency exams
• Term papers or final projects
• Oral presentations

Hebrew Minor

UF offers a number of new courses on Hebrew, Israeli, and Yiddish language and culture. These include language and content courses, advanced seminars, and a reading honors course. This complete program takes students from the Hebrew alphabet into contemporary Israeli and Jewish culture.

About this Program

• College: Liberal Arts and Sciences (p. 646)
• Credits: 15 | Completed with minimum grades of C

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

- Portuguese
- Portuguese Minor
- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate

**Related Programs**

- Latin American Studies Certificate
- Latin American Studies Minor

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portuguese and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

**Coursework for the Major**

The different specializations within the Hispanic and Latin American Languages, Literatures and Linguistics major require different coursework, depending on the student focus.
Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Critical Thinking
2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Communication
3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

Coursework for the Major
The different specializations within the Hispanic and Latin American Languages, Literatures and Linguistics major require different coursework, depending on the student focus.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160905&track=01) may be used for transfer students.

The combined track is designed for students who already possess some proficiency in one or both languages and do not need to begin with beginning coursework in both. The more common case of previous coursework in Spanish is represented in the critical tracking, but student who have prior knowledge of Portuguese and need to start with basic Spanish should consult with the undergraduate advisors.

Semester 1
• Complete POR 1130 if needed
• Complete SPN 2200
• 2.0 UF GPA required

Semester 2
• Complete POR 1131 (or POR 3010)
• Complete SPN 2200
• 2.0 UF GPA required

Semester 3
• Complete POR 3242
• Complete SPN 2240 or SPN 2340
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 4
• Complete one additional POR 3XXX course
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 5
• Complete SPN 3300 or SPN 3350
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 6
• Complete 2 of the remaining SPN/SPW/POR/POW 3XXX/4XXX required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 7
• Complete 2 of the remaining SPN/SPW/POR/POW 3XXX/4XXX required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 8
• Complete all remaining SPN/SPW/POR/POW 4XXX required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

- Oral presentation/discussion

### History

The history department fosters a learning experience that stands apart from newer modes of instruction at large universities. Amid the shift to larger classes, televised lectures and machine-gradable exams, history faculty have chosen to follow a more traditional path. The department's emphasis on small courses, analytical reading, lively debate, and interpretative writing offers committed students unique rewards. It also comes with high expectations.

### About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Arts (p. 868)
- **Specialization**: Legal History (p. 870)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

### Department Information

Undergraduate students in the Department of History have a number of ways of enhancing their experience: from completing a senior thesis in conjunction with our Honors Program (https://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/), or by participating in a study abroad program. (https://history.ufl.edu/undergraduate-studies/study-abroad-and-language-training/) The graduate program is home to a number of fields: African History, European History, Latin American History, and United States History.

### Curriculum

- Combination Degrees
- History
- History Minor
- Legal History Certificate

The history major focuses on the development of three related skill sets critical to professional success in today's complex world:

### Writing

History is a writing-intensive discipline. Although assignments vary by course, students will be taught a set of critical skills and research techniques that will help them gather and analyze sources and then marshal the evidence in the presentation of coherent historical arguments.

### Critical Analysis

In the typical upper-division course, students read an average of 75 to 125 pages each week. Students will be expected to synthesize the material effectively and come to class prepared to discuss the readings.

### Oral Communication

Rather than merely recounting facts from readings and lectures, students will develop their own interpretations of historical events and ideas and discuss them with their peers and professor. They will be expected to contribute actively in the classroom and will on occasion lead discussions and give short reports.

### Coursework for the Major

#### Required Coursework

All history majors must complete a minimum of 36 credits in history with minimum grades of C. Majors must take a minimum of 21 credits of history at UF. History majors may enroll in a maximum of three history courses per semester.

Requirements include:

- HIS 3942, a methodological introduction to the study of history, should be taken in the first year in the major and it must be taken no later than Semester 5.
- AMH 4930 / AFH 4930 / ASH 4930 / EUH 4930 / HIS 4930 / LAH 4930 / WOH 4930 is the capstone course of the major and normally taken in the senior year, although students who plan to write an honors thesis are encouraged to take the course as juniors. In this seminar, students produce a substantial research paper based on primary source research. Enrollment in the research seminar is restricted to majors. The History Research Seminar must be taken at UF.
- 30 additional credits of history courses:
• at least 21 of the 30 credits must be at the 3000/4000 level
• At least 9 credits (three courses) in American history (AMH) and European history (EUH), with at least one course in AMH, one course in EUH, and one course in AMH or EUH
• At least 9 credits (three courses) in AFH, ASH, LAH, or WOH, with a maximum of two courses under any one prefix.
• The history research seminar may count toward the regional distribution, depending on the prefix of the course taken (AFH, AMH, ASH, EUH, LAH, or WOH).

Prior to graduating, history majors complete an online exit survey.

Only exam (AICE, AP, CLEP, or IB) credits with course equivalencies for UF courses count toward the requirements for the major and then only at the 2000 level. AMH 0301, EUH 0301, and WOH 0301 do not count toward the major.

Recommended Coursework
Majors are encouraged, but not required, to take a total of nine credits at the introductory 2000 level, including one course in American history (AMH), one course in European history (EUH), and one course in African, Asian, Latin American, or World history (AFH, ASH, LAH, WOH courses).

Combination Degree Program
Majors who are interested in advanced training are encouraged to consider the 4/1 combination degree program.

More Info (http://history.ufl.edu/undergraduate-studies/41-program/)

Research
Majors are encouraged to consider advanced research opportunities in history. The department places special emphasis on participation in the history honors program.

More Info (http://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/)

Academic Learning Compact
The history major exposes students to key issues in the history of the United States, Europe and areas of Africa, Asia and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

Before Graduating Students Must
• Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
• Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
• Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Acquire and apply basic research skills learned through use of print and electronic resources of the library and web.

Critical Thinking
2. Critically assess and interpret primary and secondary sources.
3. Identify a historical research topic related to the focus of the research seminar, develop knowledge of the topic through research, and create historical arguments using evidence effectively with clear purpose.

Communication
4. Produce an effectively written analytical research paper based in research of primary sources, framed within the secondary literature and offering a coherent historical argument supported by evidence.

Bachelor of Arts

The history department fosters a learning experience that stands apart from newer modes of instruction at large universities. Amid the shift to larger classes, televised lectures and machine-gradable exams, history faculty have chosen to follow a more traditional path. The department’s emphasis on small courses, analytical reading, lively debate, and interpretative writing offers committed students unique rewards. It also comes with high expectations.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Arts (p. 868)
- **Specialization**: Legal History (p. 870)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Undergraduate students in the Department of History have a number of ways of enhancing their experience: from completing a senior thesis in conjunction with our Honors Program (https://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/), or by participating in a study abroad program. (https://history.ufl.edu/undergraduate-studies/study-abroad-and-language-training/) The graduate program is home to a number of fields: African History, European History, Latin American History, and United States History. Website (https://history.ufl.edu/)

Curriculum

- **Combination Degrees**
- **History**
- **History Minor**
- **Legal History Certificate**

The history major focuses on the development of three related skill sets critical to professional success in today’s complex world:

Writing

History is a writing-intensive discipline. Although assignments vary by course, students will be taught a set of critical skills and research techniques that will help them gather and analyze sources and then marshal the evidence in the presentation of coherent historical arguments.

Critical Analysis

In the typical upper-division course, students read an average of 75 to 125 pages each week. Students will be expected to synthesize the material effectively and come to class prepared to discuss the readings.

Oral Communication

Rather than merely recounting facts from readings and lectures, students will develop their own interpretations of historical events and ideas and discuss them with their peers and professor. They will be expected to contribute actively in the classroom and will on occasion lead discussions and give short reports.

Coursework for the Major

Required Coursework

All history majors must complete a minimum of 36 credits in history with minimum grades of C. Majors must take a minimum of 21 credits of history at UF. History majors may enroll in a maximum of three history courses per semester.

Requirements include:

- **HIS 3942**, a methodological introduction to the study of history, should be taken in the first year in the major and it must be taken no later than Semester 5.
- **AMH 4930** / **AFH 4930** / **ASH 4930** / **EUH 4930** / **HIS 4930** / **LAH 4930** / **WOH 4930** is the capstone course of the major and normally taken in the senior year; although students who plan to write an honors thesis are encouraged to take the course as juniors. In this seminar, students produce a substantial research paper based on primary source research. Enrollment in the research seminar is restricted to majors. The History Research Seminar must be taken at UF.
- **30 additional credits of history courses**: at least 21 of the 30 credits must be at the 3000/4000 level
- At least 9 credits (three courses) in American history (AMH) and European history (EUH), with at least one course in AMH, one course in EUH, and one course in AMH or EUH
- At least 9 credits (three courses) in AFH, ASH, LAH, or WOH, with a maximum of two courses under any one prefix.
- The history research seminar may count toward the regional distribution, depending on the prefix of the course taken (AFH, AMH, ASH, EUH, LAH, or WOH).

Prior to graduating, history majors complete an online exit survey. Only exam (AICE, AP, CLEP or IB) credits with course equivalencies for UF courses count toward the requirements for the major and then only at the 2000 level. AMH 0301, EUH 0301, and WOH 0301 do not count toward the major.

Recommended Coursework

Majors are encouraged, but not required, to take a total of nine credits at the introductory 2000 level, including one course in American history (AMH), one course in European history (EUH), and one course in African, Asian, Latin American, or World history (AFH, ASH, LAH, WOH courses).

Combination Degree Program

Majors who are interested in advanced training are encouraged to consider the 4/1 combination degree program. More Info (http://history.ufl.edu/undergraduate-studies/41-program/)

Research

Majors are encouraged to consider advanced research opportunities in history. The department places special emphasis on participation in the history honors program.
Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=540101&track=01) may be used for transfer students.

Students are advised to take HIS 3942 in their first year as a history major, and it must be taken no later than Semester 5.

Semester 1
- 2.0 UF GPA required

Semester 2
- Complete 1 history course at the 2000 level or above
- 2.0 UF GPA required

Semester 3
- Complete 1 additional history course at the 2000 level or above with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4
- Complete 1 additional history course at the 3000 level or above (recommended) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5
- By the end of semester 5, students must have completed 4 history courses: HIS 3942, two history courses at the 2000 level or above and one history course at the 3000 level or above
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete 1 distribution course (prefix of LAH, AFH, WOH, or ASH)
- 2.0 UF GPA required

Semester 7
- Complete 1 distribution course (prefix of AMH or EUH)
- 2.0 UF GPA required

Semester 8
- Complete XXX 4930 research seminar
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The history major exposes students to key issues in the history of the United States, Europe and areas of Africa, Asia and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

Before Graduating Students Must

- Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
- Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
- Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Coursework for the Major**

**Required Coursework**

All history majors must complete a minimum of 36 credits in history with minimum grades of C. Majors must take a minimum of 21 credits of history at UF. History majors may enroll in a maximum of three history courses per semester.

Requirements include:

- HIS 3942, a methodological introduction to the study of history, should be taken in the first year in the major and it must be taken no later than Semester 5.
- AMH 4930 / AFH 4930 / ASH 4930 / EUH 4930 / HIS 4930 / LAH 4930 / WOH 4930 is the capstone course of the major and normally taken in the senior year, although students who plan to write an honors thesis are encouraged to take the course as juniors. In this seminar, students produce a substantial research paper based on primary source research. Enrollment in the research seminar is restricted to majors. The History Research Seminar must be taken at UF.
- 30 additional credits of history courses:
  - at least 21 of the 30 credits must be at the 3000/4000 level
  - At least 9 credits (three courses) in American history (AMH) and European history (EUH), with at least one course in AMH, one course in EUH, and one course in AMH or EUH
  - At least 9 credits (three courses) in AFH, ASH, LAH, or WOH, with a maximum of two courses under any one prefix.
  - The history research seminar may count toward the regional distribution, depending on the prefix of the course taken (AFH, AMH, ASH, EUH, LAH, or WOH).

Prior to graduating, history majors complete an online exit survey.

Only exam (AICE, AP, CLEP, or IB) credits with course equivalencies for UF courses count toward the requirements for the major and then only at the 2000 level. AMH 0301, EUH 0301, and WOH 0301 do not count toward the major.

**Recommended Coursework**

Majors are encouraged, but not required, to take a total of nine credits at the introductory 2000 level, including one course in American history (AMH), one course in European history (EUH), and one course in African, Asian, Latin American, or World history (AFH, ASH, LAH, WOH courses).

**Combination Degree Program**

Majors who are interested in advanced training are encouraged to consider the 4/1 combination degree program.

More Info (http://history.ufl.edu/undergraduate-studies/41-program/)

**Research**

Majors are encouraged to consider advanced research opportunities in history. The department places special emphasis on participation in the history honors program.

More Info (http://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/)
Legal History

The History Department also offers a specialization in Legal History. The specialization is open to majors (non-majors may obtain a certificate in Legal History). To successfully complete the specialization in Legal History, students are required to complete 9 credit hours.

One course must be selected from Group A and one course must be selected from the courses listed in Group B. The third course may be selected from either Group A or B. Students must pass each course taken for the certificate with a grade of C or higher.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=540101&track=01) may be used for transfer students.

Students are advised to take HIS 3942 in their first year as a history major, and it must be taken no later than Semester 5.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 history course at the 2000 level or above
- 2.0 UF GPA required

Semesters 3-4

- Complete 1 history course at the 3000 level or above with a 2.5 critical-tracking GPA (this course may be a course from Group A or B if it is passed with a 2.0 GPA or above)
- 2.5 GPA in critical-tracking history courses
- 2.0 UF GPA required

Semesters 5-6

- Complete 1 history course at the 3000 level or above with a 2.5 critical-tracking GPA (this course may be a course from Group A or B if it is passed with a 2.0 GPA or above)
- 2.5 GPA in critical-tracking history courses
- 2.0 UF GPA required

Semesters 7-8

- By the end of semester 8, students seeking the Legal History Specialization must have completed 3 courses toward the specialization (either from the approved list or with the approval of the undergraduate coordinator) as follows: 1 from Group A, 1 from Group B, and 1 from either Group A or B with a 2.0 GPA or higher
- 2.5 GPA in critical-tracking history courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

2. Critically assess and interpret primary and secondary sources.
3. Identify a historical research topic related to the focus of the research seminar, develop knowledge of the topic through research, and create historical arguments using evidence effectively with clear purpose.

Communication

4. Produce an effectively written analytical research paper based in research of primary sources, framed within the secondary literature and offering a coherent historical argument supported by evidence.

In addition to the above courses, the undergraduate coordinator may authorize other legal history courses for the specialization.

Academic Learning Compact

The history major exposes students to key issues in the history of the United States, Europe, and areas of Africa, Asia and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

Before Graduating Students Must

- Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
- Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
- Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Acquire and apply basic research skills learned through use of print and electronic resources of the library and web.

Critical Thinking

2. Critically assess and interpret primary and secondary sources.
3. Identify a historical research topic related to the focus of the research seminar, develop knowledge of the topic through research, and create historical arguments using evidence effectively with clear purpose.

Communication

4. Produce an effectively written analytical research paper based in research of primary sources, framed within the secondary literature and offering a coherent historical argument supported by evidence.

History Minor

This minor provides a solid foundation in the study of history, while enhancing a range of skills including critical thinking, historical analysis, persuasive writing, and oral communication.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 15 | Completed with minimum grades of C and no optional S/U

Department Information

Undergraduate students in the Department of History have a number of ways of enhancing their experience: from completing a senior thesis in conjunction with our Honors Program (https://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/), or by participating in a study abroad program. (https://history.ufl.edu/undergraduate-studies/study-abroad-and-language-training/) The graduate program is home to a number of fields: African History, European History, Latin American History, and United States History. Website (https://history.ufl.edu/)

Holocaust Studies Certificate

The Holocaust Studies certificate provides students from any undergraduate major with an interdisciplinary concentration that focuses on intellectual approaches to the Holocaust, other human rights catastrophes, and their representation.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 18 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Center Information

The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center’s curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities. Website (https://jst.ufl.edu/)

- Hebrew Minor

The Holocaust is the greatest crime in human history. It has spawned international libraries of historical studies, religious and philosophical treatises, social science studies in psychology and other fields, novels, poems, and films to say nothing of art, monuments, and architecture.

In and of itself, the Holocaust is critical for an understanding of the depths of human experience through a variety of disciplines. But it also provides a way for understanding how practitioners of different disciplines, from history to anthropology to literature to film, approach the human experience through a crucial common theme.

The certificate provides social science and humanities majors with additional background for a number of career choices ranging from the study of law to human rights work to work in NGOs to library or museum employment or even international business.

Required Courses
Course substitutions are possible at the discretion of the director of the Center for Jewish Studies.

Innovation Minor

The Innovation minor provides undergraduates in the Innovation Academy an overview of the major functional elements of innovation – creativity, entrepreneurship, ethics, and leadership – and an opportunity to apply them in a multidisciplinary project.

About this Program
- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 15-17 | Completed with minimum grades of C and no S/U

IA Information
The Innovation Academy (IA) equips students with the 21st-century skills needed to thrive in an innovative culture. IA is a living-learning community embedded within the traditional University of Florida experience. Students select from over 25 UF majors and earn their degree with a minor in Innovation. The IA academic calendar operates on a Spring-Summer schedule, giving students the opportunity to enjoy Fall co-curricular activities, pursue internships, study abroad, or enjoy the break at home.

Interdisciplinary Studies | CLAS

The College of Liberal Arts and Sciences recognizes that students' academic and professional interests may include more than one discipline and that some majors are not formally available at the
American Indian and Indigenous Studies | IDS

The College of Liberal Arts and Sciences recognizes that students’ academic and professional interests may include more than one discipline and that some majors are not formally available at the university. Because interdisciplinary approaches, research, and curricular activities are becoming increasingly appropriate and valuable within the liberal arts and sciences and other fields, UF students have the option to develop and pursue interdisciplinary (IDS) majors that cross the boundaries of numerous disciplines.

About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Arts | Bachelor of Science
- **Credits for Degree:** 120
- **More info**

**Overviews**

IDS is a limited-access major in CLAS that requires a minimum 3.0 UF GPA. Students must select two tenured or tenure-accruing faculty members who agree to work with them from the planning stages to completion of the thesis research proposal. At least one faculty advisor must be a member of CLAS; faculty advisors cannot be from the same department.

Students should begin planning early. They should declare a related CLAS major and then apply to IDS as early as semester four or at the latest by semester five. Transfer students must complete their first semester with a UF GPA of 3.0 before they can apply to this program. Late application may result in denial of admission to the program. Students interested in pursuing an interdisciplinary major should contact the director of the particular specialization listed below or view the IDS information on the college’s website.

Each applicant and their interdisciplinary program must be approved by the inter-college Committee on Interdisciplinary Studies and include at least 20 credits of 3000/4000-level coursework taken in two or more departments. All other CLAS degree requirements (e.g., foreign language, basic distribution, electives, etc.) must be met. The student must also take at least seven credits of IDS 4906 (or equivalent courses) under the direction of one or both of the supervisory faculty members and produce a senior thesis.

Interdisciplinary majors may also graduate with honors recognition. Requirements are the same as for department majors, with the additional provision that magna cum laude or summa cum laude recognition must be recommended by two members of the student’s supervisory committee (including the principal supervisor), who will affirm that the student conducted an individual project in IDS 4906 (or equivalent).

Students in science tracks who are enrolled in IDS 4905 work 3-4 hours per week in the laboratory for each credit earned.

All students with IDS majors are required to complete Quest 1 and Quest 2 coursework in their first four semesters.

In addition to the ten established concentrations, students may design a customized course of study in consultation with faculty advisors relevant to the interdisciplinary thesis project. If interested in this option, students should first contact the associate dean for IDS majors.

American Indian and Indigenous Studies Minor

The Department of Anthropology and the College of Liberal Arts and Sciences have established a concentration in American Indian and Indigenous Studies (IDS-AIIS). The AIIS concentration is an extension of the minor and is open to all students with an interest in American Indian topics.
The concentration offers courses which cut across all disciplines, including anthropology, botany, geology, history, Latin American studies, religion, and wildlife studies. This concentration deals with the issues and concerns of indigenous peoples. Students will have the opportunity to pursue research, write a senior thesis and prepare themselves for graduate work in the field of American Indian and/or indigenous studies.

**Academic Learning Compact**

The interdisciplinary studies major with a concentration in American Indian and indigenous studies provides students with knowledge of the issues and concerns of indigenous peoples of the Western hemisphere. Students will be able to identify and conduct research or field work and understand historical, political, social and religious structures from an indigenous perspective. Students will evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also be able articulate the results of research clearly and effectively.

**Before Graduating Students Must**

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, describe and define major issues of indigenous peoples and conduct research in any of the disciplines which incorporate American Indian topics.

**Critical Thinking**

2. Integrate different sources and types of knowledge into holistic perspectives about indigenous peoples.
3. Evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.

**Communication**

4. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

**Curriculum**

- Chemistry Minor
- Chemistry | Biochemistry

Applicants with a strong background in basic chemistry and biology can pursue advanced-level work, including required courses in the Department of Biochemistry and Molecular Biology, research in biochemistry and molecular biology and other electives in biochemistry and molecular biology, botany, chemistry, microbiology, neuroscience, pharmacology, and zoology.

Graduates will have excellent backgrounds for research in a variety of the basic medical sciences and are qualified for graduate and professional school programs.
Academic Learning Compact
This interdisciplinary studies major in biochemistry and molecular biology provides students with an understanding of and competence in biochemistry, molecular biology and molecular cell biology. Students will understand and use the scientific approach to gather and verify knowledge. They will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. Students will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and to apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

Before Graduating Students Must
• Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Identify, describe and explain biochemistry, molecular biology and molecular cell biology.
2. Draw appropriate conclusions and inferences from properly conducted laboratory research.

Critical Thinking
3. Evaluate the significance, quality and veracity of information gathered via experiment and literature and apply them effectively.

Communication
4. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

This program provides a broad program in biological illustration to students preparing to work with museums, university botany, zoology, entomology, anthropology or medical departments and botanical gardens or research organizations.

Enrollment is restricted because of the tutorial nature of much of the instruction. The program admits only a few well-qualified students each year.

For this specialization only, students need to apply in their second semester at UF.

Academic Learning Compact
The interdisciplinary studies major in biological illustration provides knowledge of and competence in biology, structural botany and structural zoology. Students will know and use the scientific approach to gather and verify knowledge. Students will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. They will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and to apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

Before Graduating Students Must
• Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

- **More Info**

Related Programs
- **English**

The interdisciplinary B.A., with a concentration in film and media studies, enables students to pursue a liberal arts approach to audio-visual studies. The courses offered provide a range of training from professional and applied (anthropology, architecture, education and theatre) to historical and experimental (art, English, Germanic, Slavic and Romance languages).

The film and media studies major encourages students to integrate these offerings by working in both theory and production. For the senior thesis, a student may choose an essay, a film script, a short film or video, or work in a related medium.

The major requires 27 credits minimum, 20 credits of core courses and seven credits from IDS 4906 senior independent work. Majors should take ENG 3115, because it serves as the prerequisite for ENG 4136. Students and sponsors select courses for CLAS electives.

Because many of the courses in the departments of Art, English and Theatre have prerequisites, students should plan their freshman and sophomore work with the major in mind. Under certain circumstances, instructors will waive some prerequisites for IDS majors, but with space at a premium (especially in studio and production classes), students should not try to avoid any requirements. Students may, however, use up to nine credits of 2000-level prerequisites as electives.

Early preparation for the major should include ENG 2300. Other useful courses are:

The major is selective, requiring a 3.0 minimum GPA, two sponsors chosen from faculty in the program and approval of the Interdisciplinary Studies Committee. The application form and information are available online.

Academic Learning Compact
The interdisciplinary studies major in film and media studies provides students with knowledge of film in its diversity and through its techniques. Students will learn film theory and criticism and implement these ideas in the practice of viewing and/or making films. Students will also present ideas clearly and effectively in writing and/or in film/video format as an optional ability.

Before Graduating Students Must
- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain film in its diversity and through its techniques.

Critical Thinking
2. Identify and examine film and/or media theory and criticism and implement these ideas in the practice of viewing and/or making films.

Communication
3. Present ideas clearly and effectively in a well-argued essay.

Latin American Studies | IDS

The UF Center for Latin American Studies was founded in 1930 and is one of the largest and most prestigious institutions of its kind in the United States. UF has approximately 180 faculty members whose teaching and research focus to a significant extent is on Latin America and the Caribbean. The Latin American Collection of the George A. Smathers Library is one of few stand-alone collections in the United States and features extraordinary holdings on Brazil, the Caribbean and other areas of Latin America.

This program is built upon the social sciences, humanities, languages and area studies. It requires 21 credits of 3000/4000-level coursework in Latin American and Caribbean area courses, intermediate proficiency in a language of Latin America and the Caribbean (typically Spanish, Portuguese or Haitian Creole), a senior thesis and at least seven credits of IDS 4906.

Assessment Types

- Direct assessment of project: essay, new media work, or film or video.

Academic Learning Compact

The interdisciplinary major in Latin American studies provides students with broad knowledge of contemporary and historical issues relevant to Latin America. The program offers training in areas such as the geography, history, society, economy, politics, religion, arts and culture of Latin America. Students will demonstrate or otherwise acquire proficiency in at least one major Latin American language and will learn how to identify and conduct relevant research or field work on a Latin America-related topic.

Upon completion of the program, students should be able to evaluate the significance, quality and veracity of information gathered from scholarly sources and to apply it effectively. They also will be able to construct analytical arguments and communicate their perspective confidently in spoken and written form.

Before Graduating Students Must

- Demonstrate satisfactory proficiency in a major Latin American language as determined by successful course completion, adequate score on the AP or SAT II exams or individual oral examination (for native speakers).
- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Conduct interdisciplinary research on a Latin American topic and articulate research results clearly.

Critical Thinking

2. Critically evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.

Communication

3. Communicate effectively in spoken and written formats.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed
Students will be able to evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also articulate the results of research clearly and effectively.

**Before Graduating Students Must**
- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

---

**Medieval and Early Modern Studies | IDS**

The College of Liberal Arts and Sciences recognizes that students’ academic and professional interests may include more than one discipline and that some majors are not formally available at the university. Because interdisciplinary approaches, research, and curricular activities are becoming increasingly appropriate and valuable within the liberal arts and sciences and other fields, UF students have the option to develop and pursue interdisciplinary (IDS) majors that cross the boundaries of numerous disciplines.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** Email (hasty@ufl.edu) | 263 Dauer Hall (http://campusmap.ufl.edu/?loc=0111) | 352.392.2101
- **More Info**

**Related Programs**

- Medieval and Early Modern Studies Minor

This major focuses on medieval and early modern European culture and its influences on the modern world. Students examine the distinctive forms of cultural organization in these periods, obtain knowledge about medieval and early modern communities (monastic, chivalric, peasant, early urban), and familiarize themselves with some of the world’s greatest literature.

Students are encouraged to seek historical perspectives that can contribute to current discussions about ethnicity and nationality, colonialism, technologies and their effects, gender and sexuality and the characteristics of historical and fictional narratives. This IDS major involves critical thinking, textual analysis and creativity, and is excellent preprofessional preparation for careers in law, journalism, government services, medicine, library science, international work and teaching.

**Academic Learning Compact**

The interdisciplinary studies major in medieval and early modern studies provides students with knowledge of the key issues, figures, social and cultural trends and basic chronology of the period or field studied.

---

**Neurobiological Sciences | IDS**

The College of Liberal Arts and Sciences recognizes that students’ academic and professional interests may include more than one discipline and that some majors are not formally available at the university. Because interdisciplinary approaches, research, and curricular activities are becoming increasingly appropriate and valuable within the liberal arts and sciences and other fields, UF students have the option to develop and pursue interdisciplinary (IDS) majors that cross the boundaries of numerous disciplines.

Related Programs

• Psychology

This major focuses on the characteristics and functions of the nervous system. Core courses ensure that students acquire a background in basic sciences, biology and brain science. Through elective courses and completion of an independent research project, supervised by one of the 45 faculty within the Center for Neurobiological Sciences, students can specialize in area(s) of particular interest to them. These areas can include neurochemistry, neurophysiology, neuroembryology, neuroplasticity, and brain/behavior relations. Concentrations are available in behavioral neurobiology, cellular and molecular neurobiology, and cognitive neuroscience.

Many graduates continue their study in neural sciences, including graduate school, professional school in health sciences, and the pharmaceutical industry.

Academic Learning Compact

The interdisciplinary studies major in neurobiological sciences provides students with an understanding of and competence in the neurobiological sciences. Students will understand and use the scientific approach to gather and verify knowledge. They will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. Students will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and to apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

Before Graduating Students Must

• Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

International Relations Certificate

The International Relations certificate is for those who are interested in international affairs and who are considering careers in this field (e.g., working for the U.S. government’s foreign policy or intelligence agencies; foreign policy think tanks; international non-governmental organizations).

About this Program

• College: Liberal Arts and Sciences (p. 646)
• Credits: 18 | Completed with minimum grades of C
• More Info

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Political Science provides a high quality educational program for undergraduate students as well as a rigorous honors program (http://sites.clas.ufl.edu/polisci/undergraduate/programs/undergraduate-honors/). The department also offers a highly selective graduate education ranging from innovative M.A. programs to a comprehensive Ph.D. program.

- Sustainability Studies Minor

Students acquire proficiency in a modern foreign language, and knowledge of at least one major region of the world and significant global issues; are encouraged to experience living and studying abroad or working with an international organization focused on international issues; and conduct research on a global issue in conjunction with a senior research seminar, study abroad experience, or relevant internship or service learning opportunity.

The major provides cross-cultural and interdisciplinary training that prepares students for graduate study or international careers as specialists in international relations, international development, communications and media, education, business, global health, sustainability, public affairs, government foreign service, export sales, and international research.

Coursework for the Major
Students are required to designate a region of the world on which to focus. This region then determines the courses appropriate for the major’s primary requirements (Category A) as well as the major’s foreign language requirement.

The major requires 36 credits of coursework in addition to the language requirement. All courses must be completed with minimum grades of C. A minimum of 15 credits of Category A and/or B courses must be completed at UF.

Required Coursework
- INS 3004
- INS 4930

**With prior approval,** students may substitute:
- Study abroad with a research project; internship or work experience abroad with a research project; international studies research poster with presentation; international studies-related service learning with a research project; or independent study course with a research project. Students pursuing any of these alternatives must still register for 3 credits of coursework to replace INS 4930. All research papers will be graded by a common grading rubric. S/U grades are acceptable for these alternatives to INS 4930 with prior approval and successful completion of the research project.

- Category A: 15 credits of international studies-approved courses in social science, humanities or professional courses that focus on the region of the world selected by the student: Africa, Asia, Europe, Latin America and the Caribbean, or the Middle East.
  - Twelve credits of Category A coursework must be at the 3000/4000 level.
- Category B: 15 credits of international studies-approved courses in social science, humanities, or professional courses that focus on regions of the world other than the student’s regional focus and/or focus on global issues.

The international relations certificate requires a combined 3.0 GPA for all certificate coursework.

The certificate program is open to all undergraduates.

### Subfield courses

- **Main subfields of international relations courses (3000 level)**: 9 credits
- **Advanced subfield course (4000 level)**: 3 credits

**Total Credits**: 18

While successful completion of this 18-credit program will qualify students for the certificate, most graduate programs, foreign service organizations, and private corporations will be looking for individuals with broader training. Therefore, students are encouraged to pursue related study in other political science fields and other departments. Students interested in U.S. foreign policy, for example, should consider taking courses in American government. Likewise, students interested in international trade or finance would do well to pursue coursework in economics.

In addition, students interested in the international relations of a particular geographical region would benefit from learning about the comparative domestic political systems and/or cultures of those regions and may find courses in comparative politics, geography, anthropology or foreign languages and literatures helpful. Many other opportunities for enrichment through interdisciplinary work are available on campus.
• Nine credits of Category B coursework must be at the 3000/4000 level. (These 9 credits of 3000/4000-level Category B courses will be accepted toward the CLAS 3000-level elective requirement. INT majors still will need to take 9 additional credits of 3000-level electives from courses NOT approved for any INT category.)

• Four semesters minimum (0-20 credits) of a single modern foreign language or demonstrated proficiency equivalent to completion of the intermediate level. The language for which proficiency is demonstrated must be logically linked to the selected primary region of focus (Category A).

Region Focus
The links below determine the region courses appropriate for Category A and Category B requirements as well as the region’s foreign language requirement.

• Africa (https://bobgrahamcenter.ufl.edu/academics/international-studies-major/africa-international-studies-program/)
• Asia (https://bobgrahamcenter.ufl.edu/academics/international-studies-major/asia-international-studies/)
• Europe (http://instudies.program.ufl.edu/academic-program/europe/)
• Latin America and the Caribbean (http://instudies.program.ufl.edu/academic-program/latin-america-and-the-caribbean/)
• Middle East (https://bobgrahamcenter.ufl.edu/academics/international-studies-major/middle-east-international-studies/)

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 654).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=302001&track=01) may be used for transfer students.

Semester 1
• Complete 1 international studies course from Category A or Category B at the 2000-level or higher with a 2.0 critical-tracking GPA
• 2.0 UF GPA required

Semester 2
• Complete 1 international studies course from Category A or Category B at the 2000-level or higher with a 2.5 critical-tracking GPA
• 2.0 UF GPA required
• Students must have at least one Category A and one Category B class completed by the end of Semester 2

Semester 3
• Complete 1 foreign language course from the selected region and 1 additional international studies course from Category B at the 2000-level or higher with a 2.75 critical-tracking GPA
• 2.0 UF GPA required

• Students should take INS 3004 as soon as they have completed three Category courses. For many students, this will be either semester 3 or 4

Semester 4
• Complete 1 additional foreign language course from the selected region with a 3.0 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete INS 3004 International Studies Perspectives and one additional international studies course from Category A at the 3000-level or higher with a 3.0 critical-tracking GPA
• 2.0 UF GPA required
• By the end of Semester 5, students must complete two Category A classes, two Category B classes, one year of a relevant foreign language, and INS 3004.

Semester 6
• Take 2 major classes at the 3000-level or above (may be any mixture of Category A and/or Category B)
• Students should have completed at least 21 credits of the 36 total (excluding language) required for the major

Semester 7
• Complete 2 major classes at the 3000-level or above (may be any mixture of Category A, Category B, and/or INS 4930 or pre-approved alternative)
• Complete Foreign Language Intermediate 1
• Students should have completed at least 27 credits of the 36 total (excluding language) required for the major

Semester 8
• Complete 3 major courses at the 3000-level or above (may be any mixture of Category A, Category B, and/or INS 4930 or pre-approved alternative)
• Complete Foreign Language Intermediate 2
• By the end of semester 8, students must complete a minimum of 15 credits of Category A coursework, 15 credits of Category B coursework, INS 3004, INS 4930 or pre-approved alternative, and the intermediate level or equivalent of a foreign language relevant to the primary region of study.

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Nine credits of 3000 level or above Category B courses count towards the 3000 level or above electives outside of the major.

Depending upon the international studies courses chosen, students may meet some of their GE-H, GE-S and GE-N requirements through courses for the major. In that case, the student can substitute general elective credit.
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Total Credits**

1. One of these General Education courses must be a Quest 2 course.
2. Majors are encouraged to use some of their electives to pursue a minor, combination degree, dual degree, or double major.

### Academic Learning Compact

The international studies major provides knowledge of major international issues. Students will be able to identify and conduct internationally relevant research. They will evaluate the significance,
quality and veracity of information gathered in the literature and to apply it effectively. Students will also be able articulate the results of research clearly and effectively.

Before Graduating Students Must
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe, explain and apply basic knowledge of the modern history, culture, politics, geography, economy or sociology of one major region of the world (Africa, Asia, Europe, Latin America or the Middle East).

Critical Thinking
2. Use analytical intellectual tools to examine global issues.

Communication
3. Interpret and effectively communicate about global issues.

¹ Category A: Students focus on a region of the world, taking 15 credits of approved courses in social science, humanities or professional courses that deal with the region chosen.

² Category B: Students take 15 credits of approved courses that deal with regions of the world other than the region chosen in Category A.

³ Foreign Language: Students take a minimum of four semesters of a single modern foreign language linked to their focus region, or demonstrate intermediate level-proficiency.

Assessment Types
• Direct assessment of research paper

Italian

Foreign Languages and Literatures

The Italian specialization in Foreign Languages and Literatures provides the linguistic and cultural knowledge students need to understand and appreciate the language, literature, cinema, history, and society of the Italian peninsula. Courses reflect the complex cultural traditions of this Mediterranean nation from the Middle Ages and the Renaissance to the modern period.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies.
major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Italian specialization of the Foreign Languages and Literatures major offers a basis for a broad variety of careers including arts and culture, fashion, business, international law, education, diplomacy, international relations, and journalism. The program also constitutes a strong foundation for graduate work in Italian Studies or related fields, allowing students to develop strengths in fields such as film studies, medieval studies, Mafia studies, Modernism, detective fiction, theater studies, Dante studies, and Animal Studies. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

**Coursework for the Major**

The Italian specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

**Overseas Study**

Students specializing in Italian are encouraged to participate in a study abroad for a summer or an entire semester. Students regularly participate in UF Programs in Rome or UF-approved study-abroad programs in other Italian cities or regions. Refer to UF International Center information and contact a department advisor for study abroad recommendations. More Info (https://internationalcenter.ufl.edu/)

**Placement**

In all languages, students with either a native background in the language or prior study in that language might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.

**Research**

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- 2.0 UF GPA required

**Semester 3**
- Complete ITA 1130 or higher-level Italian Language course with a minimum grade of C
- 2.0 UF GPA required

**Semester 4**
- Complete ITA 1131 or higher-level Italian Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 5**
- Complete ITA 2220 or a higher-level Italian Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMIESTER 6**
- Complete ITA 2221
- Complete 1 Critical Concentration course
- 2.0 UF GPA required

**SEMIESTER 7**
- Complete ITA 3420
- Complete 2 ITA/ITW 3xx/4xx advanced electives
- Complete 2 Critical Concentration courses
- 2.0 UF GPA required

**SEMIESTER 8**
- Complete ITA 3564
- Complete all remaining FLL-Italian 3xx/4xx advanced electives
- 2.0 UF GPA required

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of Italian may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

Critical Thinking

1. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.
Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types
- Proficiency exams
- Term papers or final projects
- Oral presentations

Italian Studies Minor
An Italian Studies minor complements any major in any discipline. A concentration in Italian language, literature, culture, and civilization can also become the basis for graduate studies in Italian.

About this Program
- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 19 | Completed with minimum grades of C and no optional S-U

Japanese

Foreign Languages and Literatures
The Japanese specialization in Foreign Languages and Literatures develops proficiency in the Japanese language and acquaints students with the literature and cultural history of Japan. Courses are also available for those interested in business Japanese, classical Japanese, film, and women's studies.

About this Program
- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.
The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Japanese specialization in Foreign Languages and Literatures major provides a foundation for graduate-level work in East Asian studies or allied fields (anthropology, art history, history, linguistics, political science, and religion). The specialization is excellent general preparation for entry to professional schools (business, journalism, law, and medicine) or careers in foreign service, commerce, diplomacy, translation, business, import and export of information and culture, museums, libraries, and tourism.

Coursework for the Major

The Japanese specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Critical Concentration

Although courses may appear in more than one group they may be counted toward only one group

Select 9 credits from one area:

Intensive Area Studies: Japanese (Recommended for those planning to pursue careers requiring advanced level skills in Japanese or graduate work in Japanese studies)
All languages offered through this department may fulfill college language requirements. Students pursuing the Japanese specialization in Foreign Languages and Literatures are not allowed to minor in Asian studies (either option 1 or 2).

Transfer Students Interested in Majoring in Japanese
If a student's current institution does not offer Japanese and the student has no previous knowledge of Japanese, it's recommended that they take the following Summer Intensive Beginning Japanese program:

Summer A: JPN 1130. A minimum grade C is required to advance to the next level course.

Summer B: JPN 1131.

Overseas Study
Two year-long study abroad programs are available in Japan. The Asian Studies Program at Kansai Gaidai University in Osaka, Japan is specifically designed for international students for an academic year program of study abroad. The program offers courses in Japanese language (all levels) and area studies focusing on Japan and its international role. Another academic year study abroad program at Aoyama Gakuin, Tokyo, offers students the challenge of taking courses in the target language, thus it is limited to those who have completed three years of language study at UF, or the equivalent. These two programs also offer the option of one semester of study abroad.

There is a one or two semester study abroad program at Shimane University in Matsue, Japan. This program focuses on Japanese language, culture, history and environment, and is limited to students who have completed three years of language study at UF, or the equivalent. There is a one or two semester study abroad program at Nagoya University in Nagoya. This program is open to students with no previous study of Japanese language, and is ideal for students from a variety of majors including the STEM majors as it offers a broad-based English-language curriculum in international studies, biological and physical sciences, and engineering, in addition to courses in Japan studies.

A maximum of 15 credits non-UF overseas study credit may apply to the major. Students must have all overseas study credit that will transfer to the major approved by their major advisor. JPT 3500 must be taken at UF. No substitution is allowed for JPT 3500.

Placement
Students with previous training in Japanese, as well as those with heritage background in these languages, should consult the undergraduate coordinator or the language coordinator of the Japanese specialization before enrolling in any JPN or JPW course. Placement tests are given at the start of each semester; refer to the Department of Languages, Literatures and Cultures for location and times.
requirements concurrently with another general education requirement (typically, GE-C, H, or S). Several courses in this major count for GE-H and N or GE-S and N requirements. 3000 level or above critical concentration courses outside of Japanese may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Course Title Credits

#### Semester One
- **JPN 1130** Beginning Japanese 1 (Critical Tracking) 5
- State Core Gen Ed Biological or Physical Sciences (p. 53) 3
- State Core Gen Ed Composition (p. 53); Writing Requirement 3
- State Core Gen Ed Social and Behavioral Sciences (p. 53) 3

**Credits:** 14

#### Semester Two
- **JPN 1131** Beginning Japanese 2 (Critical Tracking) 5
- Quest 1 (Gen Ed Humanities) 3
- Science laboratory (Gen Ed Physical or Biological Sciences) 1
- State Core Gen Ed Mathematics (p. 53) 3
- Gen Ed Physical Sciences 3

**Credits:** 15

#### Semester Three
- **JPN 2230** Intermediate Japanese 1 (Critical Tracking) 5
- State Core Gen Ed Humanities (p. 53) 3
- Gen Ed Mathematics 3
- Gen Ed Biological or Physical Sciences (area not taken in semester) 3
- Gen Ed Social and Behavioral Sciences 3

**Credits:** 17

#### Semester Four
- **JPN 2231** Intermediate Japanese 2 (Critical Tracking) 5
- JPT 3500 Japanese Culture (Critical Tracking; Gen Ed Humanities and International)
- Gen Ed Social and Behavioral Sciences and Diversity 3
- Elective (3000 level or above; in the major) 3
- Elective (3000 level or above; not in major) 3

**Credits:** 17

#### Semester Five
- **JPN 3410** Advanced Japanese 1 (Critical Tracking) 3
- LIN 3010 Introduction to Linguistics 3
- Gen Ed Biological Sciences 3
- Gen Ed Composition; Writing Requirement 3
- Elective (3000 level or above; in the major) 3

**Credits:** 15

#### Semester Six
- **JPN 3411** Advanced Japanese 2 (Critical Tracking) 3
- Critical concentration course 3
- Elective (3000 level or above; in the major) 3
- Elective (3000 level or above; not in major) 3
- Elective 3

**Credits:** 15

#### Semester Seven
- Critical concentration course 3
- Elective (4000 level or above; in the major) 3

**Credits:**

#### Semester Eight
- Critical concentration course 3
- Elective (4000 level or above; in the major) 3
- Electives (3000 level or above; not in major) 6

**Credits:** 15

### Concentration Courses

**CRITICAL CONCENTRATION COURSES | 9 CREDITS FROM ONE CONCENTRATION**

Although courses may appear in more than one group they may be counted toward only one group.

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

</tr>
</tbody>
</table>

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Jewish Studies

The Center for Jewish Studies offers a Bachelor of Arts in Jewish Studies, a minor, and two certificate programs. A strong interdisciplinary curriculum with a language requirement provides a basis for understanding the broad spectrum of Jewish cultures, languages, and histories.

About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Arts
The major requires a minimum of 27 credits in Jewish studies and related courses with minimum grades of C. In addition, one year of Hebrew or equivalent language with significant Jewish culture production is required. A minimum of 15 credits for the major must be taken at the University of Florida. Students should consult the undergraduate coordinator in 201 Walker Hall.

**Required Coursework**
- JST 2930 Introduction to Jewish studies or an introduction to Jewish culture or, Jewish history or a survey course in Jewish studies (3 credits)
- Senior seminar, generally offered every other spring, or an approved equivalent JST course requiring a comprehensive research paper
- Minimum 21 credits at the 3000 level or above

Special topics courses in other departments may be counted toward the major provided they include substantial coverage of material relevant to Jewish studies. Individual work (JST 4905), which also fulfills requirements for the major, is also available for independent study and special projects. No more than six credits of independent study (JST 4905) will be counted toward the minimum. Normally, no more than 12 credits of the minimum may be transfer credit; however, all transfer credits in JST-related courses from UF-approved programs abroad will apply toward the major.

**Course Details**
Most JST courses are listed in the schedule of courses under Jewish Studies. Related courses offered by other departments are listed in departments of Anthropology, English, History, Languages, Literatures and Cultures, Political Science, Religion, and Sociology. A list of courses is available in the center each semester before advance registration.

**Specializations**
- European Jewish Studies
- Holocaust Studies
- Israel Studies

**Honors**
Honors in Jewish studies can be earned by students who have at least a 3.5 GPA in their upper-division work and a 3.5 GPA in the major. Students who seek honors are required to complete an honors project, with a grade of A or B, under the guidance of a Jewish studies faculty member. In their senior year, honors students should register for JST 4970, a 2-3 credit course.

**Internship in Jewish Communal Services**
Students can gain practical experience as an undergraduate through the internship option of JST 4940. The goal of this program is both to expose the student to the opportunities for service in the world of organized Jewry and to provide a means for students to understand how Jewish values are propagated in organized settings. Students earn credit for volunteer work and training in applied settings such as Jewish family and social services agencies, community centers, federations, educational institutions, museums, newspapers, denominational organizations, public affairs groups, synagogues, Hillel or equivalent institutions. To qualify for JST credit, the organization must have an explicit public tie to Judaism and be approved for internship credit by the Center for Jewish Studies.

**Overseas Study**
The Center for Jewish Studies provides counsel regarding study abroad at the Hebrew University of Jerusalem, Tel Aviv University, Haifa University, and Ben-Gurion University of the Negev. The overseas programs at these Israeli universities offer summer, one semester and full-year courses of study. Information is available in 201 Walker Hall and at the UF International Center, 170 Hub.
Scholarships are available. Travel restriction updates are available on the department website.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=380206&track=01) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- 2.0 UF GPA required

**Semester 3**
- Complete HBR 1130
- 2.0 UF GPA required

**Semester 4**
- Complete HBR 1131 and one Jewish studies course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 5**
- Complete all critical-tracking courses with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete 2 of the remaining Jewish Studies courses
- 2.0 UF GPA required

**Semester 7**
- Complete 2 of the remaining Jewish Studies courses
- 2.0 UF GPA required

**Semester 8**
- Complete all remaining Jewish Studies major requirements
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Total Credits 120

1. One general education option taken this term must be a Quest 2 course.

Academic Learning Compact

This major familiarizes students with the aspects of Jewish history, religion, languages and cultures. Emphasis is placed on basic language acquisition, analysis and critical evaluation of texts and contexts, integration of cultural data with disciplinary concerns outside of Jewish studies and comparative frameworks among different Jewish groups and with co-territorial non-Jews.

Before Graduating Students Must

- Satisfactory evaluation of paper written for the CJS capstone course, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate knowledge of and competence in the Jewish experience, including minority and diasporic communities within a comparative framework.
2. Demonstrate knowledge of transformations of Jewish communities over time and space.

Critical Thinking

3. Understand the significance of language in assessing Jewish culture(s).
4. Evaluate and apply effectively the significance, quality and veracity of information (both primary and secondary) in the literature.

Communication

5. Articulate research results clearly and effectively in an accepted style of presentation.

Assessment Types

- Direct assessment of essays and final tests (by track: Holocaust studies, Israel studies, general studies)

Jewish Studies Minor

The Center for Jewish Studies offers a minor with similar parameters to the major though with fewer credit requirements. Students are also encouraged to pursue one of two existing certificate programs that dovetail with disciplinary interests beyond Jewish Studies.

About this Program

- College: Liberal Arts and Sciences (p. 646)
- Credits: 25 | Completed with minimum grades of C
- Contact: Email (center@jst.ufl.edu) | 201 Walker Hall (http://campusmap.ufl.edu/?loc=0003) | 352.392.9247
- More Info

Center Information

The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center’s curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

Latin American Studies Certificate

The Center for Latin American Studies, in cooperation with the colleges of Liberal Arts and Sciences, Agricultural and Life Sciences, Business, Design, Construction and Planning, Education, Fine Arts, and Journalism and Communications, offers a certificate in Latin American Studies for undergraduate students. Through special arrangements, students in other colleges also may obtain the certificate.

About this Program
• College: Liberal Arts and Sciences (p. 646)
• Credits: 21 | Completed with minimum grades of C
• Contact: Email (nochoa@latam.ufl.edu) | 318 Grinner Hall (http://campusmap.ufl.edu/?loc=0002) | 352.273.4715

Map (http://campusmap.ufl.edu/#/index/0002)

Curriculum
• Combination Degrees
• Latin American Studies Certificate
• Latin American Studies Minor
• Latin American Studies | IDS

The program is designed to supplement a major with broad cultural and language training appropriate for graduate work or a Latin America-related career in business, government or teaching. In general, it is for students who plan to live in Latin America, work with Latin Americans, or interpret Latin American culture to others.

The certificate program is open to all undergraduates. Students may earn either the Latin American Studies certificate or minor but not both.

Required Courses

21 credits with Latin American content, distributed as follows:

• Three credits of LAS 4935, the undergraduate seminar in Latin American studies. Students may repeat LAS 4935 for an additional six credits if the topics vary.
• Six credits of courses outside the student's major with 100% Latin American content (designated by a C in the LAS course guide).
• Twelve credits of additional courses with Latin American content, including courses in the student's major; at least three credits must be core courses (with 100% Latin American content, designated by a C in the LAS course guide); up to nine credits may be electives with at least 25% Latin American content (designated by an E in the LAS course guide).
• Only courses at 2000 level or above will count toward the certificate. Advanced Placement credits do not count. Overseas study credits can count as core or elective courses pending review of the undergraduate advisor at the Center for Latin American Studies.

In addition, the student must demonstrate high-intermediate proficiency in a Latin American language through coursework (Spanish, SPN 2240; Portuguese, POR 3242; Haitian Creole, HAI 2200) or examination (Advanced Placement scores of 4-5 plus approval or an SAT 2 score of 700). Language courses at the 3000 level can count as core courses.

Students with prior knowledge of a Latin American or Caribbean language must demonstrate proficiency through a written placement test (SAT 2 test for Spanish) or oral examination for speakers of Portuguese or Haitian Creole. Courses in a second Latin American language at or above
the 3000 level may count toward the certificate if these courses are not used to meet the language requirement.

**Latin American Studies Minor**

The Latin American Studies minor is an excellent option for those who wish to concentrate their work in a specific discipline yet maintain a Latin American focus in their coursework. Students can take courses with Latin American content in the fields of anthropology, economics, politics, geography, history, mass communication, music, women’s studies, and more. Students who pursue the minor will enhance their career prospects through their knowledge of Latin American languages and cultures.

**High-Intermediate Language Proficiency**

Select one:

- SPN 2240 Intensive Communication Skills
- POR 3242 Oral and Written Practice
- HAI 2200 Intermediate Haitian Creole 1

Language courses in Spanish, Portuguese or Haitian Creole (3000 level)

Proficiency through written or oral examination

**Total Credits**

1 | LAS 6938 may be substituted with the approvals of the instructor and undergraduate coordinator.
2 | A student may take LAS 4935 up to three times if the subject matter varies. The first Seminar will count toward the Seminar requirement, the second and third may count toward the Approved courses with 100% Latin American or Caribbean content.
3 | As listed in the Latin American Studies course guide (http://www.latam.ufl.edu/academics/courses/).
4 | Language courses above the 3000 level can count toward the minor if they are not used to meet the language requirement.
5 | Students with prior knowledge of a Latin American or Caribbean language must demonstrate proficiency through a written placement test (SAT II for Spanish) or oral examination for speakers of Portuguese or Haitian Creole.

Candidates for the minor are encouraged to spend a summer, a semester or an academic year studying in a Latin American country. UF sponsors study abroad programs in Argentina, Brazil, Costa Rica, Chile, Dominican Republic, Guatemala, Mexico, Panama, and Peru. For more information, contact Study Abroad Services in the UF International Center.

More Info (https://internationalcenter.ufl.edu/study-abroad/)

**Legal History Certificate**

The Legal History certificate considers how law works around the world by studying legal histories outside of the U.S. This historical exploration introduces the ways in which law influences society and the ways in which society influences law.

**About this Program**

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 9 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**Department Information**

Undergraduate students in the Department of History have a number of ways of enhancing their experience: from completing a senior thesis in conjunction with our Honors Program (https://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/), or by participating in a study abroad program. (https://history.ufl.edu/undergraduate-studies/study-abroad-and-language-training/) The graduate program is home to a number of fields: African History, European History, Latin American History, and United States History.

Website (https://history.ufl.edu/)
The certificate is open to non-majors while majors may obtain a specialization in legal history. Students minoring in history are eligible for the certificate so long as none of their certificate courses are counted towards their minor.

#### Foreign Language Courses

A two-semester sequence of a non-Romance/non-Germanic language.  

### Combination Degree Program

Linguistics offers a combination-degree program that allows students to obtain a B.A. and an M.A. in five years.

Students enroll in four graduate courses in their senior year that count toward both the B.A. and M.A. degrees:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LIN 6084</td>
<td>Introduction to Graduate Research</td>
<td>3</td>
</tr>
<tr>
<td>LIN 6323</td>
<td>Phonology 1</td>
<td>3</td>
</tr>
<tr>
<td>LIN 6402</td>
<td>Morphology 1</td>
<td>3</td>
</tr>
<tr>
<td>LIN 6501</td>
<td>Syntax 1</td>
<td>3</td>
</tr>
</tbody>
</table>

Students need to apply by February 15 of the spring semester of their junior year.

- Combination Degrees
Course Details
Linguistics offers a variety of courses and students are free to pick any combination. Suggested specializations within the major include:

• Theoretical linguistics, covering the theory of sounds (phonology), word structure (morphology), sentences (syntax), and meaning (semantics):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LIN 4320</td>
<td>Introduction to Phonology</td>
<td>3</td>

</tr>
</tbody>
</table>

Overseas Studies
Some study abroad programs that offer linguistics courses are the University of Mannheim (Germany), University of Haifa (Israel), University of Madrid (Spain), and the University of Utrecht (The Netherlands). For more information and programs, contact the linguistics undergraduate advisor.

Relevant Minors and/or Certificates
Linguistics students may want to consider a minor (p. 1012) or certificate (p. 1011) in Teaching English as a Second Language. More Info (http://lin.ufl.edu/undergraduate/minor/)

Research
Students are encouraged to engage in individual study with a faculty member or to volunteer in a laboratory. More Info (http://lin.ufl.edu/undergraduate-major/)

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160102&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete 1 foreign language or linguistics course (LIN 3010 recommended) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 4
• Complete 1 additional foreign language or linguistics course with a 2.75 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete LIN 3010 and maintain a 2.75 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete LIN 3201 or LIN 3460
• Complete at least 3 of the remaining LIN 3000/4000 required courses
• 2.0 UF GPA required

Semester 7
• Complete one of the following: LIN3201 or LIN3460
• Complete at least 3 LIN department electives or approved linguistics-related electives
• 2.0 UF GPA required

Semester 8
• Complete all remaining LIN department electives and approved linguistics-related electives
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

3000 level or above approved Language Related Courses may apply towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Total Credits 120

1 One General Education option taken this term must be a Quest 2 course.

Academic Learning Compact

The Bachelor of Arts in linguistics provides students with the ability to analyze language structure and use on multiple levels and to apply knowledge, concepts and skills developed from previous research. The major emphasizes students’ ability to analyze patterns in language in terms of the sound system (phonetics and phonology) and word and sentence structure (morphology and syntax), to present and justify these analyses and to apply linguistic knowledge and analytical skills to the study of language use, learning, teaching, processing and change.

Before Graduating Students Must

- Achieve a minimum grade of C on the critical assignment from LIN 3201, graded according to department rubric.
- Achieve a minimum grade of C on critical assignments from LIN 3460, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the concepts related to phonetics and phonology (sounds and sound systems).
2. Examine and explain the concepts related to morphology and syntax (word and sentence structures).

Critical Thinking
3. Analyze linguistic data by applying concepts and knowledge from phonetics and phonology.
4. Analyze linguistic data by applying concepts and knowledge from morphology and syntax.

Communication
5. Articulate research results clearly and effectively in an accepted style of presentation.

Assessment Types
- Exams
- Language project

Linguistics Minor

Language is a means of communication and a unique property of the human mind. Linguistics is the scientific study of language: a set of disciplines that investigates the structure, meaning, and use of
language using descriptive, theoretical, computational, and experimental approaches.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 15 | Completed with minimum grades of C

Department Information

The Linguistics Department offers the Ph.D., M.A. (both thesis and non-thesis), B.A., and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level, and a SLAT (Second Language Acquisition and Teaching) certificate at the graduate level. We currently have almost 30 faculty (combining budgeted and affiliated personnel), well over 100 undergraduate majors, and approximately 40 graduate students.

Curriculum

- Combination Degrees
- Linguistics
- Linguistics Minor
- Teaching English as a Second Language Certificate
- Teaching English as a Second Language Minor

To be eligible for this minor, students must have a minimum 2.75 overall GPA.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Marine Sciences | CLAS

Oceans are an important facet of our global environment: covering more than 70 percent of the Earth’s surface, oceans provide us with food, transport, and resources and they play a significant role in controlling climate. However, the world’s oceans remain largely unexplored below the surface, making them one of the last great frontiers for scientific discovery. Marine environments are inherently dynamic and governed by a broad suite of interactive biological, chemical, and physical processes.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Science
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs

- Fisheries and Aquatic Sciences Minor

The university promotes an integrated approach to marine science education and research to prepare students for rewarding academic and professional careers. This major, offered cooperatively with the College of Agricultural and Life Sciences, lets students tailor a curriculum that suits their interests and career goals.

The curriculum provides the core scientific and quantitative skills necessary for success. Lower-division courses build a strong foundation in basic sciences and math while upper-division courses provide opportunity for specialization. Students in the College of Liberal Arts and Sciences (CLAS) complete an upper-division core that integrates the physical and biological sciences, mathematics, and engineering. They work closely with a faculty advisor to create an individualized curriculum of at least 12 credits of approved electives; this plan must be approved by the program’s undergraduate coordinator before the student has earned 70 credits.

Coursework for the Major

The major requires 63-67 credits of coursework completed with minimum grades of C. At least 30 credits of coursework in the major must be completed at UF.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

For the purposes of critical-tracking, associated lecture and lab courses are considered one critical-tracking course (e.g., BSC 2010/BSC 2010L = 1 critical-tracking course).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=309999&track=01) may be used for transfer students.

Semester 1

• Complete OCE 1001 and 1 critical-tracking course from BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2053/PHY 2053L (or PHY 2048/PHY 2048L), PHY 2054/PHY 2054L (or PHY 2049/PHY 2049L)
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 2

• Complete 2 additional critical-tracking courses
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 3

• Complete 1 additional critical-tracking course
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 4

• Complete 2 additional critical-tracking courses
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

This major provides integrative understanding of the basic concepts, theories and observational findings related to marine materials and processes, geologic time, the diversity of marine life, the structure and function of marine organisms and ecosystems and marine resource management.

The marine sciences major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and utilizes faculty, courses and resources of the Fisheries and Aquatic Sciences Program (CALS), the Department of Geological Sciences (CLAS), the Department of Biology (CLAS), and the Department of Civil and Coastal Engineering (Herbert Wertheim College of Engineering).

Before Graduating Students Must

- Achieve a passing score on the subject test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the analytical skills test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the bioethics quiz. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the scientific literacy paper. This paper is assessed using a rubric that has been reviewed and approved by the Marine Sciences Committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Demonstrate competence in the basic terminology, concepts, methodologies and theories used within the marine sciences.

Critical Thinking
2. Analyze information in the marine sciences and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in written or oral forms appropriate to the marine sciences.

Mathematics

Studying Mathematics develops such skills as critical thinking, oral and written communication, arguing logically and rigorously, thinking abstractly, formulating and solving problems, analyzing data, analyzing mathematical models, quantitative and computer proficiency, and the ability to work in groups. Employers value these skills; consequently, Mathematics majors find themselves in demand by employers for careers in a wide spectrum of fields.

About this Program

- College: Liberal Arts and Sciences (p. 646)
- Degrees: Bachelor of Arts (p. 911) | Bachelor of Science (p. 914)
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

CONTACT

Email (undergraduatecoordinator@math.ufl.edu) | 352.294.2350
The Department of Mathematics offers two undergraduate degree programs in mathematics:

**Bachelor of Arts**  
Intended for students who wish to pursue a career in a mathematical field or to teach mathematics at the secondary-school level, but who do not currently contemplate graduate study in mathematics.

**Bachelor of Science**  
Intended for students who wish to pursue graduate study in mathematics as well as for other strong students with a deep interest in mathematics.

**Coursework for the Major**

Students are required to take eight core courses, providing a broad base in mathematics, and four electives chosen from a list of approved courses. All but two of the core courses are the same for both degrees. Students pursuing the B.A. degree have greater flexibility in their choice of electives, facilitating the possibility of a double-major with another scientific discipline.

A minimum of 39 credits of mathematics and mathematics-approved electives is required for each degree. All coursework for the major must be completed with minimum grades of C, with the exception of MAS 4105 for students in the B.S. specialization, which requires a minimum grade of B.

**Relevant Minors and/or Certificates**

Mathematics majors are encouraged to consider taking a minor in computer science, industrial and systems engineering, physics, or statistics. The Department of Statistics offers a minor in actuarial science. In addition, the UTeach program offers a minor in mathematics teaching.

**UTeach Program**

There is a severe shortage of qualified high school mathematics teachers in Florida and nationwide. Students interested in entering this high-demand profession should see a departmental advisor about the UTeach program. Mathematics majors in this program complete the requirements for the UTeach minor in mathematics, as well as those for the B.A. or B.S. in mathematics. These students graduate with all the coursework and preparation the State of Florida requires for professional certification as a high school mathematics teacher.

**Research**

Research and scholarly opportunities are described on the mathematics website under Opportunities for Undergraduates.

**Combination Degree Programs**

Mathematics majors who complete the requirements for major by the end of the junior year are eligible for the combination-degree program. Students in this program take the graduate sequences MAA 5228 and MAA 5229 and MAS 5311 and MAS 5312 in their senior year. These 12 credits, which apply toward the undergraduate degree, will then also apply toward a master’s degree in mathematics if the student is admitted to the graduate program. The student should successfully complete this degree with one full-time year of graduate school following receipt of a bachelor’s degree.

**Academic Learning Compact**

The major in mathematics enables students to develop proficiency in calculus, differential equations, advanced calculus, linear algebra and abstract algebra, and expose them to several other mathematical areas beyond these core fields. Students will learn to read and to construct mathematical proofs, to reason in abstract mathematical systems and to use mathematical models. Students will also acquire the ability to read new mathematics and to formulate mathematical models and arguments.

**Before Graduating Students Must**

- Be evaluated on your responses to certain examination questions in upper-division courses that are required for your degree.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

   
   Bachelor of Science: Explain conceptual and computational competency in core mathematics: calculus, differential equations, advanced calculus, linear algebra and abstract algebra.

**Critical Thinking**

2. Identify correct mathematical arguments in abstract mathematical systems.

3. Develop and analyze mathematical models of scientific problems.

**Communication**

4. Develop and write correct mathematical arguments.

**Curriculum Map**

I = Introduced; R = Reinforced; A = Assessed

<td>Introduction to Advanced Calculus for Engineers and Physical Scientists 1 and Introduction to Advanced Calculus for Engineers and Physical Scientists 2</td>
</tr>
<tr>
<td>MAA 4211 &amp; MAA 4212</td>
<td>Advanced Calculus 1 and Advanced Calculus 2</td>
</tr>
</tbody>
</table>

Select four electives, 12 credits minimum, from the approved electives; at least one must be a course offered by the Department of Mathematics at the 4000 level or above 12

Total Credits 39

The mathematics major is expected to take the following upper-division core courses at UF: Linear Algebra, Abstract Algebra, Advanced Calculus 1 and 2, and either Advanced Calculus 1 and 2 or Advanced Calculus for Engineers and Physical Sciences 1 and 2. A combination of MAA 4211 and MAA 4103 is permissible for students in the B.A. track.

These courses are common to all math majors and most clearly define the experience of the mathematics major at UF.

### Recommended Coursework for Both Degrees

All math majors are encouraged to meet the college distribution requirement in the physical sciences with the sequence PHY 2048/PHY 2049 or the sequence PHY 2060/PHY 2061. Math majors should also take no mathematics course at the 3000 level or below that is not on the lists of core courses or approved electives, except with advisor approval. Students who want to pursue careers in applied mathematics are urged to take STA 4321/STA 4322 and learn a scientific programming language.

### Recommended Coursework for B.A.

B.A. students can use their electives choices creatively. By choosing courses in statistics, computer science, physics, and industrial engineering from the list below, math B.A. majors can enhance their career prospects in applied math, data analysis, information technology and operations research.

Math majors who plan to teach secondary-school mathematics should investigate the UFTeach program (http://education.ufl.edu/uf-teach/) and they should include MTG 3212, MAA 4402 and STA 4321 among their electives.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

### For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270101&track=01) may be used for transfer students.

#### Semester 1

- Complete MAC 2311
- 2.0 UF GPA required

#### Semester 2

- Complete MAC 2312
- 2.0 UF GPA required

#### Semester 3

- Complete MAC 2313
- 2.0 UF GPA required

#### Semester 4

- Complete MHF 3202 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 5

- Complete MAS 4105 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 6

- Complete at least 1 3000/4000 mathematics elective
- 2.0 UF GPA required

#### Semester 7

- Complete MAA 4102
- Complete at least 2 3000/4000 mathematics electives
- 2.0 UF GPA required

#### Semester 8

- Complete all remaining mathematics major requirements
- 2.0 UF GPA required

### Model Semester Plan

The semester plans below are sample programs; they may be adjusted to reflect background and goals. Students should consult a department advisor in 358 Little Hall early to plan their programs.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Bachelor of Science

Studying Mathematics develops such skills as critical thinking, oral and written communication, arguing logically and rigorously, thinking abstractly, formulating and solving problems, analyzing data, analyzing mathematical models, quantitative and computer proficiency, and the ability to work in groups. Employers value these skills; consequently, Mathematics majors find themselves in demand by employers for careers in a wide spectrum of fields.

About this Program

- College: Liberal Arts and Sciences (p. 646)
- Degrees: Bachelor of Arts (p. 911) | Bachelor of Science (p. 914)
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

Map (http://campusmap.ufl.edu/#/index/0655)

Curriculum

- Combination Degrees
- Mathematics
- Mathematics Minor

The Department of Mathematics offers two undergraduate degree programs in mathematics:

Bachelor of Arts

Intended for students who wish to pursue a career in a mathematical field or to teach mathematics at the secondary-school level, but who do not currently contemplate graduate study in mathematics.

Bachelor of Science

Intended for students who wish to pursue graduate study in mathematics as well as for other strong students with a deep interest in mathematics.

Coursework for the Major

Students are required to take eight core courses, providing a broad base in mathematics, and four electives chosen from a list of approved courses. All but two of the core courses are the same for both degrees.
Students pursuing the B.A. degree have greater flexibility in their choice of electives, facilitating the possibility of a double-major with another scientific discipline.

A minimum of 39 credits of mathematics and mathematics-approved electives is required for each degree. All coursework for the major must be completed with minimum grades of C, with the exception of MAS 4105 for students in the B.S. specialization, which requires a minimum grade of B.

**Relevant Minors and/or Certificates**
Mathematics majors are encouraged to consider taking a minor in computer science, industrial and systems engineering, physics, or statistics. The Department of Statistics offers a minor in actuarial science. In addition, the UFTeach program offers a minor in mathematics teaching.

**UFTeach Program**
There is a severe shortage of qualified high school mathematics teachers in Florida and nationwide. Students interested in entering this high-demand profession should see a departmental advisor about the UFTeach program. Mathematics majors in this program complete the requirements for the UFTeach minor in mathematics, as well as those for the B.A. or B.S. in mathematics. These students graduate with all the coursework and preparation the State of Florida requires for professional certification as a high school mathematics teacher.

More Info (http://education.ufl.edu/uf-teach/)

**Research**
Research and scholarly opportunities are described on the mathematics website under Opportunities for Undergraduates.

More Info (http://www.math.ufl.edu/mathematics-major/opportunities-for-undergraduates/)

**Combination Degree Programs**
Mathematics majors who complete the requirements for major by the end of the junior year are eligible for the combination-degree program. Students in this program take the graduate sequences MAA 5228 and MAA 5229 and MAS 5311 and MAS 5312 in their senior year. These 12 credits, which apply toward the undergraduate degree, will then also apply toward a master’s degree in mathematics if the student is admitted to the graduate program. The student should successfully complete this degree with one full-time year of graduate school following receipt of a bachelor’s degree.

More Info (https://math.ufl.edu/mathematics-major/combined-degree/)

**Bachelor of Science**
The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in mathematics as well as for other strong students with a deep interest in mathematics.

| MAA 4211 | Advanced Calculus 1 | 6 |
| & MAA 4212 | and Advanced Calculus 2 | 12 |

Select four electives, 12 credits minimum, from the approved electives; at least three must be a course offered by the Department of Mathematics at the 4000 level or above.

Total Credits 39

1 Students must earn a minimum grade of B in MAS 4105 before taking MAA 4211.

The mathematics major is expected to take the following upper-division core courses at UF: Linear Algebra, Abstract Algebra, and either Advanced Calculus 1 and 2 or Advanced Calculus for Engineers and Physical Sciences 1 and 2. A combination of MAA 4211 and MAA 4103 is permissible for students in the B.A. track.

These courses are common to all math majors and most clearly define the experience of the mathematics major at UF.

**Recommended Coursework for Both Degrees**
All math majors are encouraged to meet the college distribution requirement in the physical sciences with the sequence PHY 2048/PHY 2049 or the sequence PHY 2060/PHY 2061. Math majors should also take no mathematics course at the 3000 level or below that is not on the lists of core courses or approved electives, except with advisor approval. Students who want to pursue careers in applied mathematics are urged to take STA 4321/STA 4322 and learn a scientific programming language.

**Recommended Coursework for B.S.**
Students who want to pursue graduate study in a Ph.D. program in mathematics should complete MAS 4301 and MAA 4211/MAA 4212 by the end of their junior year. They should include MAS 5311 and MAA 4226 among their electives, and they are encouraged to take more than four electives.

Graduate tuition fees will apply for MAS 5311.

**Critical Tracking**
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270101&track=01) may be used for transfer students.

**Semester 1**
- Complete MAC 2311
- 2.0 UF GPA required
Semester 2
• Complete MAC 2312
• 2.0 UF GPA required

Semester 3
• Complete MAC 2313
• 2.0 UF GPA required

Semester 4
• Complete MHF 3202 with a 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete MAS 4105 with a minimum grade of B and a 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete at least 1 3000/4000 mathematics elective
• 2.0 UF GPA required

Semester 7
• Complete all remaining mathematics major requirements
• 2.0 UF GPA required

Model Semester Plan
The semester plans below are sample programs; they may be adjusted to reflect background and goals. Students should consult a department advisor in 358 Little Hall early to plan their programs.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 One General Education option taken this term must be a Quest 2 course.
use mathematical models. Students will also acquire the ability to read new mathematics and to formulate mathematical models and arguments.

### Before Graduating Students Must
- Be evaluated on your responses to certain examination questions in upper-division courses that are required for your degree.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**
   Bachelor of Science: Explain conceptual and computational competency in core mathematics: calculus, differential equations, advanced calculus, linear algebra and abstract algebra.

**Critical Thinking**
2. Identify correct mathematical arguments in abstract mathematical systems.
3. Develop and analyze mathematical models of scientific problems.

**Communication**
4. Develop and write correct mathematical arguments.

### Assessment Types
- Exams

### Mathematics Minor

The Mathematics minor complements and enhances a wide variety of undergraduate majors by providing students with significant mathematical skills and a perspective on the discipline. Students take foundational courses in calculus, differential equations, and linear algebra. For the remaining requirements, students choose courses from a wide array of mathematics electives that can complement any major or field of interest.
About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 23-24 | Completed with minimum grades of C

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

Curriculum

- Combination Degrees
- Mathematics
- Mathematics Minor

Open to students not majoring in mathematics.

The linear algebra course and three 4000-level electives must be taken from the UF Department of Mathematics; no substitutions from other institutions or departments are allowed.

A prerequisite for admission to the minor is prior completion of one of these 4000-level courses with a minimum grade of C+.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

---

Medical Anthropology Certificate

The Medical Anthropology certificate provides an intensive foundation in medical anthropology for undergraduate anthropology and non-anthropology majors. Courses emphasize the role that biology, culture, language, and prehistory play in human health, and the experience of healing across cultures.

About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 12 | Completed with a 3.0 GPA average in all attempted courses

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural ([http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/](http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/)), archaeological ([http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/](http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/)), biological ([http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/](http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/)) and linguistic ([http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/](http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/)) anthropology.

Medical Geography Certificate

The world faces a pressing need for geographic theories, methods, and techniques to address global health issues. The Medical Geography certificate provides training in spatial disease ecology, global health, and essential geostatistical approaches to public health. Hands-on experiences of geospatial analysis are emphasized through lab-based applications.

**About this Program**

**Medieval and Early Modern Studies Minor**

The Medieval and Early Modern Studies minor focuses on medieval and early modern European culture and its influences on the modern world. Students acquire historical perspectives that contribute to current discussions about ethnicity and nationality, colonialism, technologies and their effects, gender and sexuality, and the characteristics of historical and fictional narratives.

**About this Program**

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 18 | Completed with minimum grades of C

- **More Info**

**Related Programs**

- Medieval and Early Modern Studies | IDS

**Requirements**

Of the required credits, at least six credits must be at the 3000 level and at least three credits must be at the 4000 level. An additional 3-credit requirement is completion of a 2000-level foreign language course. Courses ([http://mems.center.ufl.edu/mems-courses/](http://mems.center.ufl.edu/mems-courses/))

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

---

**Meteorology and Climatology Certificate**

The Meteorology and Climatology certificate provides a working knowledge of atmospheric processes across spatial and temporal scales. This certificate is applicable to many disciplines in the physical sciences and enables students to supplement their majors with an understanding and awareness of the societal impacts of natural hazards and climate change.

**About this Program**

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 12 | Completed with minimum grades of B- in each course
- **More Info**

### About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Science
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

### Department Information

The Department of Microbiology and Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school or public health degrees. B.S. degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the M.S. and Ph.D. degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

### Curriculum

- Bioinformatics Minor
- Combination Degrees
- Microbiology and Cell Science UF Online
- Microbiology and Cell Science | CALS
- Microbiology and Cell Science | CLAS
- Pathogenesis Minor

This major prepares students for entry into professional programs in medicine, dentistry, and veterinary medicine and provides a strong foundation for graduate studies in microbiology, cell biology, and related cellular and biomedical sciences. The major also provides a background for entry into government, industrial research, and diagnostic laboratories.

The curriculum develops fundamental knowledge of prokaryotic and eukaryotic cells and viruses. Courses include the physiology and genetics of microorganisms, mechanisms of pathogenesis and innate immunity systems, astrobiology, bacterial and genome sequencing and bioinformatics.

### Coursework for the Major

All majors must complete 28 credits: 18 credits of core requirements, at least 6 credits of department electives, and 3 credits for the quantitative requirement. A minimum of one credit in an advanced laboratory is required in addition to the 6 department-elective credits. In addition, students must complete 35-38 hours of required foundation coursework.

Minimum grades of C within two attempts, including withdrawals, are required in all critical-tracking courses, major courses, department core
requirements, department electives and the quantitative requirement. Second attempts must be completed the next semester of enrollment. A cumulative 2.0 GPA is also required.

**Required Foundation Coursework**

**Total Credits** 36-38

All majors must complete the biology and general chemistry sequences and calculus by the end of the sophomore year. Organic Chemistry, CHM 2210, must be completed by the end of tracking term five. To continue in the major, students must attain a cumulative GPA in these graded courses of no less than 2.5 and with no grade lower than a C.

**Core Requirements**

**Including quantitative requirement**

Similar Programming or Biostatistics course

**Total Credits** 21

If students take both “or” classes, one will count as a core course and the other will roll over into the 10-credit department elective requirement.

**Department Elective Requirement**

A total of 6 credits of approved department electives, and additionally one credit in an advanced lab, are required. The list of approved department electives is available on the department website.

**Programming or Biostatistics Requirement**

A total of 3 credits of approved courses meets this requirement. Select from BSC 2891, MCB 4325C, or an equivalent biostatistics programming class. Several of these courses are also department electives and cannot be used to fulfill both the quantitative and the department elective requirements. No overlap is allowed. STA 2023 will not fulfill this requirement.

**Course Details**

MCB 4911 may be taken for a maximum of three credits per semester and six credits total. This policy also applies to microbiology and cell science majors registered for undergraduate research in other departments’ undergraduate research courses, such as BCH 4905, BMS 4905, ZOO 4911, etc.

MCB 4934 is often used for TA positions as “Supervised Teaching.” TA positions may be repeated for a total of two semesters.

Enrollment in MCB 4911, MCB 4905 and MCB 4934 (Supervised Teaching) will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

**Combination Degree Program**

A Bachelor of Science and Master of Science (non-thesis) program is offered by the College of Agricultural and Life Sciences. Microbiology majors in both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences are eligible for admission to the Combination Degree Program. Other combination programs are available. For more information, please speak with an advisor.

- Combination Degrees

**Relevant Minors and/or Certificates**

The Microbiology and Cell Science Department also offers an undergraduate minor in bioinformatics to students majoring in any biology-related subject, including and not limited to microbiology, biology, or biochemistry.

So integrated is bioinformatics with biology that it is difficult to find an active research program that does not rely on bioinformatic analysis to achieve results. Unfortunately, the integration of bioinformatic and traditional methods is not stressed in many undergraduate programs, leaving the next generation of biologists without the skills they need to succeed in tomorrow’s research environment. The undergraduate minor in bioinformatics provides this critical training to future professionals in the biological disciplines.

**Research**

A majority of majors are actively involved in undergraduate research for credit with mentors throughout the university. Preprofessional and graduate school-bound majors are encouraged to do a minimum of two semesters of undergraduate research. The department has a comprehensive list of mentors across campus who allow undergraduate students to do valuable research under their guidance. Please refer to
the department website for more information on undergraduate research, finding a mentor and a contact list of UF faculty who have worked with microbiology and cell science majors.

Enrollment in MCB 4911 will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260503&track=01) may be used for transfer students.

### Semester 1

- Complete CHM 1025 or CHM 2045/CHM 2045L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 5

- Complete CHM 2210
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 6

- Complete MCB 3023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 7

- Complete MCB 4203 (Fall) or PCB 4233 (Spring) or PCB 3134 (Fall/Spring) or MCB 4403 (Fall)
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 8

- Complete MCB 4034L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

## Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Microbiology electives outside of the department do not count towards the 3000 level or above electives outside of the major requirement. CHM 2211, CHM 2211L, BCH 4024, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

### Degree Requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 654).

Credits 13-14

Total Credits 120

1 MCB 4203 is taught only in fall; PCB 4233 is taught only in spring.

Academic Learning Compact

The Bachelor of Science in microbiology and cell science, offered by both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences, offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology and the biomolecular sciences. Emphasis will be placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students will learn to evaluate hypotheses, to interpret experimental data and to communicate results effectively.

Before Graduating Students Must

Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe fundamental concepts, skills and processes in microbiology, molecular biology and in host/pathogen interactions.

2. Apply fundamental concepts, skills and protocols used to conduct research in fields of microbiology, molecular biology and in host/pathogen.

Critical Thinking

3. Evaluate information and data in the general areas of microbiology and the cellular and molecular biological sciences.

4. Solve typical problems that are encountered in general areas of microbiology and cellular and molecular biological sciences.

Communication

5. Communicate effectively in written form in a manner appropriate in microbiology and the cellular and molecular biological sciences.

6. Communicate orally (including visual aids) in an effective manner appropriate in microbiology and the cellular and molecular biological sciences.

Philosophy
Philosophy addresses the most fundamental problems that arise when reflecting on the nature of the world and our place in it. Philosophers ask questions such as: What can we know? What are the general features of reality? What is the relation between mind and body? How should one live?

About this Program
• College: Liberal Arts and Sciences (p. 646)
• Degree: Bachelor of Arts
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Philosophy addresses foundation questions. These are questions the answers to which inform our basic understanding of one or another domain of inquiry, or some fundamental aspect of the world or ourselves or our relation to the world.

GAINESVILLE FL 32611-8545
Map (http://campusmap.ufl.edu/#/index/0010)

Curriculum
• Combination Degrees
• Philosophy
• Philosophy Minor

Philosophical problem examination is primarily conceptual rather than empirical, in that philosophers seek to develop conceptual accounts adequate to the phenomena they want to understand. The study of philosophy equips one to address difficult issues with critical thinking and sound reasoning, skills essential to effective thought and communication.

This major is excellent preparation for professional schools in law, business, medicine and journalism, and for careers in the private and public sector.

More Info (https://phil.ufl.edu/what-is-philosophy/)

Coursework for the Major
The major requires 33 credits of coursework in philosophy with minimum grades of C.

Required Coursework

</tr>
</tbody>
</table>

(To enroll in a 4000-level course, a student must complete a 3000-level philosophy course or receive instructor permission.)

• At least 27 of the 33 credits must be at the 3000 level or above.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

More Info (http://www.phil.ufl.edu/ugrad/ugrad-major.html)

Research
It is possible to write an honors thesis, which involves independent research under the supervision of a faculty director. This is usually a two-semester process in the final year.

More Info (http://www.phil.ufl.edu/ugrad/ugrad-major.html)

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=380101&track=01) may be used by transfer students.
Semester 1
• 2.0 UF GPA required

Semester 2
• Complete 1 philosophy course
• 2.0 UF GPA required

Semester 3
• Maintain coursework from semester 2
• 2.0 UF GPA required

Semester 4
• Complete 1 additional philosophy course with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

SEMESTER 6
• Complete 1 additional philosophy course (1 of the 4 courses must be taken from PHH 3100, PHH 3400, PHI 3130, PHI 3650, and either PHI 3300 or PHI 3500)

SEMESTER 7
• Complete 3 additional upper division philosophy courses (2 of the 7 courses must be taken from PHH 3100, PHH 3400, PHI 3130, PHI 3650, and either PHI 3300 or PHI 3500)

SEMESTER 8
• Complete 2 additional upper division philosophy courses (4 of the 9 courses must be taken from PHH 3100, PHH 3400, PHI 3130, PHI 3650, and either PHI 3300 or PHI 3500)

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Generally, it is a good idea to take the area requirement courses as early as possible; in particular, PHI 3130 is best taken earlier rather than later.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The major in philosophy provides a thorough knowledge of philosophical problems and arguments as well as critical thinking skills applicable to a wide variety of intellectual areas. Students will become familiar with key positions in the history of Western philosophy, learn how to navigate the contemporary philosophical terrain and acquire a working knowledge of formal logic. They will learn how to represent complex arguments in a clear and fair fashion, to evaluate them for cogency and to construct arguments of their own. Finally, students will become practiced in writing about abstract and elusive topics in a critical and compelling manner.

Before Graduating Students Must

- Earn minimum grades of C in all courses satisfying the major’s distribution requirements, thereby demonstrating achievement of SLOs 1-3.
- Complete a model paper in a 4000-level philosophy class with a minimum grade of B, thereby demonstrating achievement of SLOs 4-7.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the major questions addressed, the range of answers offered and the methods employed in the history of Western philosophy.
2. Identify, describe and explain the major arguments and options in core areas of contemporary philosophy, such as ethics, epistemology and metaphysics.
3. Employ the fundamental tools of formal logic, including the propositional and predicate calculus.

Critical Thinking

4. Discern the structure of arguments, to represent them fairly and clearly and to evaluate them for cogency.
5. Formulate original arguments, anticipating objections and responding in a conscientious fashion.

Communication

6. Read and discuss complex philosophical texts from both historical sources and contemporary works.
7. Speak and write clearly and persuasively about abstract and conceptually elusive matters.

Philosophy Minor

The Philosophy minor allows exploration of a variety of areas in the field, as well as complementing studies in other disciplines with a philosophically informed perspective.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 15 | Completed with minimum grades of C
- **More Info**

Department Information

The Department of Philosophy addresses foundation questions. These are questions the answers to which inform our basic understanding of one or another domain of inquiry, or some fundamental aspect of the world or ourselves or our relation to the world.

Physics

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and expertise applying these laws, as well as hands-on experience building electronic equipment and performing experiments, allowing them to pursue a wide range of educational and employment opportunities after graduation.

About this Program

- College: Liberal Arts and Sciences (p. 646)
- Degrees: Bachelor of Arts (p. 930) | Bachelor of Science (p. 933)
- Specializations: Medical Physics (BS) (p. 937) | Nanoscience (BS) (p. 940) | Optics (BS) (p. 944)
- Credits for Degree: 120
- Contact: Email (advising@phys.ufl.edu?Subject=Physics%20Major)
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Gainesville FL 32611-8545

Curriculum

- Combination Degrees
- Physics
- Physics Minor

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

Bachelor of Arts

The B.A. degree program is for students who want to major in physics but are not presently contemplating graduate studies in physics. It provides a good foundation in the fundamentals while offering increased flexibility in the major, through fewer required courses and more electives, and opportunity for parallel studies in another discipline and/or preprofessional studies.

Bachelor of Science

The B.S. degree program is intended for students planning to do graduate work in physics or related science and engineering disciplines. The B.S. requires a minimum of 41 credits in Physics plus 28 credits of related coursework. Minimum grades of C are required for coursework counted toward the major.

In addition to the Physics BA and BS degrees, there are three optional specializations for the Physics BS degree. Each specialization consists of a specific choice of the 4000 level Physics elective plus three courses in other departments.

Medical Physics

Medical physics applies the principles and experimental techniques of physics to medical problems. A common example is the use of different forms of radiation in medical diagnosis and treatment. This specialization will help prepare students for a graduate program in medical physics.

Nanoscience

Nanoscience is the study of extremely small things – only 10 to 100 atoms wide. It is an interdisciplinary field involving physics, chemistry, and many engineering disciplines. This specialization helps prepare
students for careers in industry and graduate school in engineering as well as physics.

**Optics**

There are applications of optics and photonics in consumer equipment, telecommunications, medicine, construction, aviation, and many more fields. This broad field involves both physics and engineering. The optics specialization will prepare students for graduate programs in optics as well as employment in industry.

**Coursework for the Major**

Coursework for the major will depend upon the degree program chosen.

Courses for the B.S. or B.A. degree include four pairs of alternative courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2048</td>
<td>Physics with Calculus 1</td>
<td>3</td>
</tr>
<tr>
<td>or PHY 2060</td>
<td>Enriched Physics with Calculus 1</td>
<td></td>
</tr>
<tr>
<td>PHY 2049</td>
<td>Physics with Calculus 2</td>
<td>3</td>
</tr>
<tr>
<td>or PHY 2061</td>
<td>Enriched Physics with Calculus 2</td>
<td></td>
</tr>
<tr>
<td>PHY 3101</td>
<td>Introduction to Modern Physics</td>
<td>3</td>
</tr>
<tr>
<td>or PHY 3063</td>
<td>Enriched Modern Physics</td>
<td></td>
</tr>
<tr>
<td>PHY 3221</td>
<td>Mechanics 1</td>
<td>3</td>
</tr>
<tr>
<td>or PHZ 3113</td>
<td>Introduction to Theoretical Physics</td>
<td></td>
</tr>
</tbody>
</table>

In each case, the second course includes selected advanced topics not covered in the first. While both courses prepare students for upper-level physics classes, students should see a department advisor to determine which course meets their needs.

Required coursework for each degree can be found below in the Critical Tracking section. Transfer students must take a minimum of 15 credits of required physics courses at UF.

**Course Details**

Several courses meet the criteria for the general education physical sciences (P) requirement. Some mathematical training (indicated in parentheses) is desirable or required for many of these courses. Of the courses below, only PHY 2048/PHY 2049 count toward the major.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

1 MAC 1147 provides mathematical training desirable or required for this course.
2 Students should check the prerequisites carefully before enrolling in a general physics course.

**Placement**

Students with Advanced Placement credit should consult the catalog’s Academic Advising section for course equivalencies. Sequences for advanced students are available from any physics advisor or the department website.

**Research**

All undergraduate majors are encouraged to participate in research activities. Many physics majors participate in research during the academic year and/or through summer research programs. Advanced students may also be eligible to enroll in certain graduate courses, thereby accelerating their education. Physics majors are urged to confer with a department advisor as early as possible and especially as their educational goals evolve.

**Academic Learning Compact**

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

**Before Graduating Students Must**

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:
  
<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, define and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics and quantum mechanics.
2. Identify, define and explain experimental physics and data analysis.

**Critical Thinking**

3. Formulate, solve problems and draw conclusions from data.

**Communication**

4. Effectively and clearly communicate ideas in speech and in writing in an accepted style.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 654).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/
displayRecord.jsp?cip=400801&track=01 may be used for transfer students.

**Semester 1**
- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

**Semester 2**
- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

**Semester 3**
- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

**Semester 4**
- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

**Semester 5**
- Complete MAP 2302 with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 6**
- Complete the remaining required 3000-level physics courses with minimum grades of C
- 2.0 UF GPA required

**Semester 7**
- Complete 2 required 4000-level physics courses with minimum grades of C
- 2.0 UF GPA required

**Semester 8**
- Complete the remaining required 4000-level physics courses with minimum grades of C
- 2.0 UF GPA required

**Model Semester Plan**

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Bachelor of Science
The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and expertise applying these laws, as well as hands-on experience building electronic equipment and performing experiments, allowing them to pursue a wide range of educational and employment opportunities after graduation.

About this Program
- College: Liberal Arts and Sciences (p. 646)
- Degrees: Bachelor of Arts (p. 930) | Bachelor of Science (p. 933)
• **Specializations:** Medical Physics (BS) (p. 937) | Nanoscience (BS) (p. 940) | Optics (BS) (p. 944)
• **Credits for Degree:** 120
• **Contact:** Email (advising@phys.ufl.edu?Subject=Physics%20Major)
• **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Gainesville FL 32611-8545

**Curriculum**

• Combination Degrees
• Physics
• Physics Minor

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

** Bachelor of Arts**

The B.A. degree program is for students who want to major in physics but are not presently contemplating graduate studies in physics. It provides a good foundation in the fundamentals while offering increased flexibility in the major, through fewer required courses and more electives, and opportunity for parallel studies in another discipline and/or preprofessional studies.

** Bachelor of Science**

The B.S. degree program is intended for students planning to do graduate work in physics or related science and engineering disciplines. The B.S. requires a minimum of 41 credits in Physics plus 28 credits of related coursework. Minimum grades of C are required for coursework counted toward the major.

In addition to the Physics BA and BS degrees, there are three optional specializations for the Physics BS degree. Each specialization consists of a specific choice of the 4000 level Physics elective plus three courses in other departments.

**Medical Physics**

Medical physics applies the principles and experimental techniques of physics to medical problems. A common example is the use of different forms of radiation in medical diagnosis and treatment. This specialization will help prepare students for a graduate program in medical physics.

**Nanoscience**

Nanoscience is the study of extremely small things – only 10 to 100 atoms wide. It is an interdisciplinary field involving physics, chemistry, and many engineering disciplines. This specialization helps prepare students for careers in industry and graduate school in engineering as well as physics.

**Optics**

There are applications of optics and photonics in consumer equipment, telecommunications, medicine, construction, aviation, and many more fields. This broad field involves both physics and engineering. The optics specialization will prepare students for graduate programs in optics as well as employment in industry.

**Coursework for the Major**

Coursework for the major will depend upon the degree program chosen.

Courses for the B.S. or B.A. degree include four pairs of alternative courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2048</td>
<td>Physics with Calculus 1</td>
<td>3</td>
</tr>
<tr>
<td>or PHY 2060</td>
<td>Enriched Physics with Calculus 1</td>
<td></td>
</tr>
<tr>
<td>PHY 2049</td>
<td>Physics with Calculus 2</td>
<td>3</td>
</tr>
<tr>
<td>or PHY 2061</td>
<td>Enriched Physics with Calculus 2</td>
<td></td>
</tr>
<tr>
<td>PHY 3101</td>
<td>Introduction to Modern Physics</td>
<td>3</td>
</tr>
<tr>
<td>or PHY 3063</td>

<tr>
<td>PHY 3221</td>
<td>Mechanics 1</td>
<td>3</td>
</tr>
<tr>
<td>or PHZ 3113</td>
<td>Introduction to Theoretical Physics</td>
<td></td>
</tr>
</tbody>
</table>

In each case, the second course includes selected advanced topics not covered in the first. While both courses prepare students for upper-level physics classes, students should see a department advisor to determine which course meets their needs.

Required coursework for each degree can be found below in the Critical Tracking section. Transfer students must take a minimum of 15 credits of required physics courses at UF.

**Course Details**

Several courses meet the criteria for the general education physical sciences (P) requirement. Some mathematical training (indicated in parentheses) is desirable or required for many of these courses. Of the courses below, only PHY 2048/PHY 2049 count toward the major.

<table>
<thead>
<tr>

</table>
Select one general physics sequence:\(^2\)

PHY 2048 & PHY 2049 & PHY 2053 & PHY 2054

- Physics with Calculus 1 & Physics 1 & Physics & Physics 2
- or Physics with Calculus 2

1 MAC 1147 provides mathematical training desirable or required for this course.
2 Students should check the prerequisites carefully before enrolling in a general physics course.

**Placement**

Students with Advanced Placement credit should consult the catalog’s Academic Advising section for course equivalencies. Sequences for advanced students are available from any physics advisor or the department website.

**Research**

All undergraduate majors are encouraged to participate in research activities. Many physics majors participate in research during the academic year and/or through summer research programs. Advanced students may also be eligible to enroll in certain graduate courses, thereby accelerating their education. Physics majors are urged to confer with a department advisor as early as possible and especially as their educational goals evolve.

**Bachelor of Science**

The B.S. degree program is intended for students planning to do graduate work in physics or related science and engineering disciplines. The B.S. requires a minimum of 41 credits in Physics plus 28 credits of related coursework. Minimum grades of C are required for coursework counted toward the major.

Approved math courses (minimum): 6

**Total Credits**: 28

1 Select a course beyond MAP 2302. Certain computer science courses may substitute for the math elective.
  - Minimum grades of C for coursework counted toward the major

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

**Semester 1**

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course
- 2.0 UF GPA required

**Semester 2**

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

**Semester 3**

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

**Semester 4**

- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

**Semester 5**

- Complete MAP 2302 with a with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 6
• Complete the remaining required 3000-level physics courses with minimum grades of C
• 2.0 UF GPA required

Semester 7
• Complete PHY 4802L or PHY 4803L
• Complete 2 required 4000-level physics courses in addition to PHY 4802L with minimum grade of C
• 2.0 UF GPA required

Semester 8
• Complete the remaining 4000-level physics courses required for Physics Majors with minimum grades of C
• Complete one 4000-level or higher Physics Elective with a minimum grade of C
• 2.0 UF GPA required

Model Semester Plan

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available from the department. More info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and upper-division math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

Before Graduating Students Must

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:
<table>

Medical Physics

Medical physics applies the principles and experimental techniques of physics to medical problems. A common example is the use of different forms of radiation in medical diagnosis and treatment. This specialization prepares students for a graduate program in medical physics.

About this Program

- College: Liberal Arts and Sciences (p. 646)
- Degrees: Bachelor of Arts (p. 930) | Bachelor of Science (p. 933)
- Specializations: Medical Physics (BS) (p. 937) | Nanoscience (BS) (p. 940) | Optics (BS) (p. 944)
- Credits for Degree: 120
- Contact: Email (advising@phys.ufl.edu?Subject=Physics%20Major)
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Website (https://www.phys.ufl.edu/wp/)
A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

**Medical Physics**

The Physics B.S specialization in Medical Physics requires a minimum of 41 credits in Physics including a specific course outside of Physics (9-11 credits), and 28 other credits of related coursework. Minimum grades of C are required for coursework counted toward the major. The coursework is listed below in three different categories: Physics Required Coursework, Required Electives for the Medical Physics specialization, and Related Coursework required for all Physics B.S. degrees.

### Related Coursework

- Three semesters of Calculus (MAC 2311, MAC 2312, MAC 2313; 12 credits)
- One year of college-level general chemistry, including one chemistry laboratory course (CHM 2045 and CHM 2046, CHM 2045L; 7 credits)
- Differential Equations MAP 2302 (3 credits)
- Six credits minimum in approved math courses beyond MAP 2302 Differential Equations.
- Certain computer science courses may substitute for one of the math electives.
- Minimum grades of C for coursework counted toward the major

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 654).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

### Semester 1

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

### Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

### Semester 3

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

### Semester 4

- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

| PHY 3513 | Thermal Physics 1 (Critical Tracking; Gen Ed Physical Sciences) | 3 |

Additional sample schedules are available on the department's website. More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
Before Graduating Students Must

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, define and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics and quantum mechanics.
2. Identify, define and explain experimental physics and data analysis.

**Critical Thinking**

3. Formulate, solve problems and draw conclusions from data.

**Communication**

4. Effectively and clearly communicate ideas in speech and in writing in an accepted style.

- **Credits for Degree:** 120

---

**Academic Learning Compact**

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

**Before Graduating Students Must**

- 2.0 UF GPA required
**Semester 2**
- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

**Semester 3**
- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

**Semester 4**
- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

**Semester 5**
- Complete MAP 2302 with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C (upper-division tracking)
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 6**
- Complete the remaining required 3000-level physics courses with minimum grades of C
- Complete 1 of 4 courses required for the Nanoscience specialization
- 2.0 UF GPA required

**Semester 7**
- Complete PHY 4802L or PHY 4803L
- Complete 2 required 4000-level physics courses with minimum grades of C in addition to PHY 4802L
- Complete 2 of 4 courses required for the Nanoscience specialization
- 2.0 UF GPA required

**Semester 8**
- Complete the remaining required 4000-level physics courses with minimum grades of C
- Complete 1 4000-level or higher physics elective with a minimum grade of C
- Complete all 4 courses required for the Nanoscience specialization
- 2.0 UF GPA required

**Model Semester Plan**

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department’s website.

More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

### Before Graduating Students Must

- **Complete requirements for the baccalaureate degree, as determined by faculty.**

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Identify, define and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics and quantum mechanics.

2. Identify, define and explain experimental physics and data analysis.

**Critical Thinking**

3. Formulate, solve problems and draw conclusions from data.

**Communication**

4. Effectively and clearly communicate ideas in speech and in writing in an accepted style.

### Curriculum Map

• Presentation

Optics
There are applications of optics and photonics in consumer equipment, telecommunications, medicine, construction, aviation, and many more fields. This broad field involves both physics and engineering. The optics specialization prepares students for graduate programs in optics as well as employment in industry.

About this Program
• College: Liberal Arts and Sciences (p. 646)
• Degrees: Bachelor of Arts (p. 930) | Bachelor of Science (p. 933)
• Specializations: Medical Physics (BS) (p. 937) | Nanoscience (BS) (p. 940) | Optics (BS) (p. 944)
• Credits for Degree: 120
• Contact: Email (advising@phys.ufl.edu?Subject=Physics%20Major)
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields. Website (https://www.phys.ufl.edu/wp/)

Curriculum
• Combination Degrees
• Physics
• Physics Minor

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

Optics
The Physics B.S. specialization in Optics requires a minimum of 41 credits in Physics including a specific Physics elective, 3 specific courses outside of Physics (9-11 credits), and 28 other credits of related coursework. Minimum grades of C are required for coursework counted toward the major. The coursework is listed below in three different categories: Physics Required Coursework, Required Electives for the Optics specialization, and Related Coursework required for all Physics B.S. degrees.

Related Coursework
• Three semesters of Calculus (MAC 2311, MAC 2312, MAC 2313; 12 credits)
• One year of college-level general chemistry, including one chemistry laboratory course (CHM 2045 and CHM 2046, CHM 2045L; 7 credits)
• Differential Equations MAP 2302 (3 credits)
• Six credits minimum in approved math courses beyond MAP 2302 Differential Equations.
• Certain computer science courses may substitute for one of the math electives.
• Minimum grades of C for coursework counted toward the major
Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 654).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

Semester 1
- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

Semester 2
- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

Semester 3
- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

Semester 4
- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 5
- Complete MAP 2302 with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C (upper-division tracking)
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6
- Complete the remaining required 3000-level physics courses with minimum grades of C
- Complete 1 of 4 courses required for the Optics specialization
- 2.0 UF GPA required

Semester 7
- Complete PHY 4802L or PHY 4803L
- Complete 2 required 4000-level physics courses with minimum grades of C in addition to PHY 4802L
- Complete 2 of 4 courses required for the Optics specialization
- 2.0 UF GPA required

Semester 8
- Complete the remaining required 4000-level physics courses with minimum grades of C
- Complete 1 4000-level or higher physics elective with a minimum grade of C
- Complete all 4 courses required for the Optics specialization
- 2.0 UF GPA required

Model Semester Plan

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department’s website. More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Physics Minor
The Physics minor consists of the complete sequence in general physics, modern physics, and two 3000/4000-level courses in the Physics major course sequence. Students should consult a physics advisor and obtain the required approval no later than the beginning of the junior year.

About this Program
- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 17 | Completed with minimum grades of C

Department Information
The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Gainesville FL 32611-8545

Curriculum
- Combination Degrees
- Physics
- Physics Minor

All 3000/4000-level courses must be taken from the UF Department of Physics. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Students pursuing an astronomy major must complete six credits of physics coursework beyond what is required for the astronomy major before they will be approved for the physics minor.

The following cannot count toward this minor:

<table>
<thead>
<tr>

Required Courses

Select one option: 8

**Option A**
- PHY 2048 & 2048L Physics with Calculus 1 and Laboratory for Physics with Calculus 1
- PHY 2049 & 2049L Physics with Calculus 2 and Laboratory for Physics with Calculus 2

**Option B**
- PHY 2048L Laboratory for Physics with Calculus 1
- PHY 2049L Laboratory for Physics with Calculus 2
- PHY 2060 Enriched Physics with Calculus 1
- PHY 2061 Enriched Physics with Calculus 2
- PHY 3063 or PHY 3101 Enriched Modern Physics
  - Introduction to Modern Physics
- Two 3000/4000-level courses in the physics major course sequence

Total Credits 17

Political Campaigning Certificate
Political science and non-major students may pursue undergraduate training in campaigns and elections, earning a Political Campaigning certificate. The certificate is designed for students who may pursue careers in practical politics, including campaign management, lobbying, and issue advocacy.

About this Program
- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 18 | Completed with minimum grades of C
- **Contact**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information
The Department of Political Science provides a high quality educational program for undergraduate students as well as a rigorous honors program (http://sites.clas.ufl.edu/polisci/undergraduate/programs/undergraduate-honors/). The department also offers a highly selective graduate education ranging from innovative M.A. programs to a comprehensive Ph.D. program.

Map (http://campusmap.ufl.edu/#/index/0007)

Curriculum
- Combination Degrees
- International Relations Certificate
- Political Campaigning Certificate
- Political Science
- Public Affairs Certificate

Political science majors are encouraged to serve in a political internship and participate in an overseas studies program. There are also numerous opportunities for students to conduct independent research with faculty. Recent graduates serve throughout federal, state and local government, attend law and graduate school, and work in the non-profit and private sectors.

Students leave the major with an understanding of how politics and government operate, an appreciation for the values governments pursue, and the critical and analytic skills necessary for understanding the empirical and normative dimensions of the political world.

Coursework for the Major

Majors must complete 30 credits of political science coursework, plus STA 2023, all with minimum grades of C. A minimum of 15 credits of political science courses (of the 30 required) must be completed at UF, per the department’s residency requirement.

Required Coursework
- 30 credits of political science coursework, including 3 of these 4 core courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CPO 2001</td>

</tr>
<tr>
<td>INR 2001</td>
<td>Introduction to International Relations (Gen Ed Social and Behavioral Sciences and International)</td>
<td>3</td>
</tr>
</tbody>
</table>
The remaining political science courses may include:
- No more than three additional credits of 1000/2000-level courses
- Additional courses at the 3000 level or higher, including
  - No more than three credits of POS 4905
  - No more than three credits of POS 4940 (graded S/U)

**Recommended Coursework**
- STA 2023

**Recommended Coursework**
The following centers and programs are affiliated with the Department of Political Science. Many of them offer minors and/or certificates that complement a degree in political science.

**The Bob Graham Center for Public Service**
A community of students, scholars and politically engaged citizens devoted to enhanced citizenship, the training of current and future public and civic leaders who can identify problems and spearhead change; and the development of policy on issues of importance to Florida, the United States and the global community. The center offers a minor in public leadership (p. 973), an interdisciplinary program of study that provides students with the skills and knowledge critical to serving as effective and ethical public leaders.

**More Info**
The Bob Graham Center was established in 2006 with the goal of creating a community of students, scholars, and citizens who share a commitment to revitalizing the civic culture of Florida and the nation. Former Governor and U. S. Senator Bob Graham founded the Center as a place where students acquire the skills and knowledge to become informed citizens, with the expressed purpose of strengthening the nation's democratic institutions.

- Public Leadership Minor

**The Center for African Studies**
Promotes excellence in teaching and research on Africa in all disciplines at the University of Florida. In addition to undergraduate education, the center promotes and supports graduate studies as essential for the development of a continuing community of Africanist scholars. The center has over 100 affiliated teaching and research faculty in a variety of fields, including languages, the humanities, the social sciences, agriculture, business, engineering, education, fine arts, environmental studies and conservation, journalism, and law. The center offers an African studies minor (p. 663) that provides a multidisciplinary grounding in an important world area for those who want to pursue careers in a range of professions as well as for those who intend to go on to graduate school.

**More Info**
As a National Resource Center for African Studies, the mission of the center is to promote excellence in teaching and research on Africa in all the disciplines at the University of Florida. The Center for African Studies also disseminates knowledge about Africa to the wider community through an integrated outreach program to schools, colleges, community groups, and businesses.

**Curriculum**
- African Studies Minor
- East-Central European Studies Minor

**The Center for European Studies**
Designed to assist in the development of area and language skills among students through fostering rich academic and cultural environments, including broad language and areas studies courses, degree options, and study abroad opportunities. It also fosters greater international awareness in the broader community through educational programs for state and local government, business organizations, K-12 students and teachers, the media and the general public. The center offers a European Union studies certificate (p. 785) and minor (p. 786), which are designed to give students the opportunity to gain European Union expertise through multidisciplinary coursework.
- East-Central European studies certificate (p. 773) and minor (p. 774), which give students the opportunity to study Eastern and Central Europe from an interdisciplinary perspective that incorporates both area and language studies.

**More Info**
The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Latin American Studies

The Center for Latin American Studies

Advances knowledge about Latin America and the Caribbean and enhances the scope and quality of Latin American studies at the University of Florida. The center administers an interdisciplinary graduate and undergraduate academic program in Latin American studies as well as a minor (p. 901) and certificate (p. 900).

More Info

The Center for Latin American Studies advances knowledge about Latin America and the Caribbean and its peoples throughout the Hemisphere, enhances the scope and quality of research, teaching, and outreach in Latin American, Caribbean and Latinx Studies.

The Center for Jewish Studies

Provides an undergraduate, interdepartmental curriculum that serves as a basis for understanding the broad spectrum of Jewish culture, religion, and civilization. The center offers both a major and minor (p. 899) through the College of Liberal Arts and Sciences. These may serve as preparation for graduate work in Jewish studies and the rabbinate, as background for a career in Jewish education or community service, or as an area of special interest which enriches the undergraduate experience.

More Info

The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center's curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

The Center for Gender, Sexualities, and Women's Research

An interdisciplinary forum for the study of gender and sexualities, their intersections with race/ethnicity, class, and other sociocultural systems. The Center's core faculty members have expertise in gender, race/ethnicity, and sexualities/LGBTQ+ studies; feminist intersectional analysis; transnational and postcolonial feminist analysis; Chicana/o, Latina/o, Afro-Latino Studies, Haitian and Caribbean studies; and cultural and literary studies. They apply this expertise in the study of critical domains such as collective identity and activism, health and medicine, law and politics, immigration, work, leadership and business, history, literatures and cultures, media and art, and social movements. In addition, the Center has over 100 affiliate faculty members with wide-ranging expertise and course offerings. Besides the major (p. 1014) in Women's Studies, students may pursue one of three minors: Women's Studies (p. 1017), Theories and Politics of Sexuality (p. 1012), and Health Disparities in Society (p. 856).

More Info

The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people's lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

Combination Degree Program

The combination bachelor's/master's degree program is designed for superior students who have the ability to pursue an accelerated program in political science leading to the Master of Arts in political science. This program is not generally recommended for students considering a Ph.D. program in political science at UF. Admission to the combination-degree program is highly competitive and therefore very limited numbers of students are approved for this program.

Students in the combination program may pursue the general M.A. in political science or certificates in public affairs or political campaigning. Up to 12 semester credits of approved graduate-level political science courses can be used as dual credit for both degrees. All other requirements for the bachelor's and the master's degrees must be satisfied. For more application process information, contact the
undergraduate and graduate coordinators in the Department of Political Science.

• Combination Degrees

Overseas Studies
Majors are encouraged to seek out opportunities for international study, during the summer or for the academic year. The credit generally will be applied toward the major and the degree. Contact the undergraduate coordinator about credit for study abroad. Visit the UF International Center in room 170 of the Hub for more information.

Relevant Minors and Certificates

International Relations Certificate
Political science and non-major students who are interested in international relations can pursue undergraduate training in two ways: through an interdisciplinary major in International Studies that includes courses on comparative politics and international relations or through a certificate in international relations. Credits earned toward the certificate also count toward the political science major. More information can be found under interdisciplinary studies majors listing and certificate programs.

• International Relations Certificate

Political Campaigning Certificate
The Department of Political Science offers a certificate in political campaigning to its undergraduate majors. The certificate is designed for students who may wish to consider pursuing careers in practical politics, including campaign management, lobbying, issue advocacy, and others. Credits earned toward the certificate also count toward the political science major. Additional information is available on the department website.

• Political Campaigning Certificate

Public Affairs Certificate
The certificate in public affairs is designed for those students interested in a career in or near government. Students take courses in public administration, policy process, policy analysis and one or more substantive policy courses in foreign policy, education, health, immigration, civil rights, welfare, or environmental protection. Credits earned toward the certificate also count toward the political science major. The certificate is open to non-political science majors as well. Additional information is available on the department website.

• Public Affairs Certificate

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=451001&track=01) may be used for transfer students.

Semester 1
• Complete 1 of 4 political science critical-tracking courses: CPO 2001, INR 2001, POS 2041, or POT 2002
• 2.0 UF GPA required

Semester 2
• Complete 1 additional political science critical-tracking course or STA 2023 with a 2.25 critical-tracking GPA
• 2.0 UF GPA required

Semester 3
• Complete 1 additional political science critical-tracking course or STA 2023 with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 4
• Complete 3 of 4 political science critical-tracking courses and STA 2023 with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 7
• Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 8
• Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Because a large number of political science courses are approved for general education social and behavioral sciences, the plan below assumes students will take at least 9 credits of GE-S courses. Students
should monitor their progress toward general education in their degree audit to ensure they meet the GE-S requirement.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

</table>

1. If POS 2041 not taken previously.
2. One General Education option taken this term must be a Quest 2 course.
3. Students are encouraged to use some electives to pursue a minor.

### Academic Learning Compact

The major in political science provides an understanding of how government and politics operate in the U.S. and elsewhere. Students will develop the critical analytic and research skills to study government and politics and be able to articulate information and ideas about government and politics.

### Before Graduating Students Must

- Complete 30 credits of political science coursework with minimum grades of C, including a minimum of 18 credits at the 3000/4000 levels.
- Complete an introductory statistics course.
- Complete two 3000/4000-level political science courses with a writing component, graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Identify, describe and define basic factual information and analytical concepts concerning political systems.

**Critical Thinking**

2. Analyze political issues and phenomena using political science concepts, theories and methods through internships and research projects.

**Communication**

3. Use argument and evidence effectively to communicate original analysis of political phenomena.

### Portuguese

#### Hispanic and Latin American Languages, Literatures and Linguistics

Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

#### About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Arts
  - **Specializations**: Spanish (p. 992) | Portuguese (p. 953) | Spanish and Portuguese (p. 863)
- **Credits for Degree**: 120
- **Contact**

  To graduate with this major, students must complete all university, college, and major requirements.

#### Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

Website: [http://spanishandportuguese.ufl.edu/undergraduate-programs/](http://spanishandportuguese.ufl.edu/undergraduate-programs/)

### B.A. in Portuguese

The major requires 33 credits, beginning with foundational work in Portuguese and then moving on to more advanced coursework in language, culture and literature.

Students must earn minimum grades of C for coursework to count toward the major.

**POR 3010 is an accelerated course for speakers of Spanish (or French). It fulfills the CLAS foreign language requirement but it does not count as a 3000-level course for the major requirements. POR 3010 will satisfy the same requirement as the POR 1130/POR 1131 sequence.**

### Curriculum

- Combination Degrees
  - Hispanic and Latin American Languages, Literatures and Linguistics
  - Portuguese
  - Portuguese Minor
  - Spanish
  - Spanish and Portuguese
  - Spanish for the Professions Certificate

### Related Programs

- Latin American Studies Certificate
- Latin American Studies Minor

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.
Required Coursework

• POR 3242
• 30 additional hours of POR or POW courses at the 3000 and 4000 levels.
  • A minimum of 12 credits must be at the 4000 level.
• Only one class in English (PRT) can count towards the major, substituting for POR/POW.
• Classes must be passed with a grade of C or better in order to be counted for the major.
• Two Individual Work courses (POW 4905) may be accepted as part of the major's requirements.
• Select courses outside the department may also count toward the major under special conditions.

Overseas Study

The university sponsors a reasonably priced summer B program in Rio de Janeiro, Brazil. Majors and minors are encouraged to participate at the 3000/4000 level, where they will earn six credits. The program also fulfills the summer residency requirement.

Placement

See the undergraduate coordinator for placement information, especially for transfer students and heritage speakers.

Relevant Minors and/or Certificates

Majors may want to pursue a certificate in Latin American Studies.

Research

Students who wish to complete a senior thesis for honors should consult Portuguese faculty at least two semesters in advance of graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160904&track=01) may be used for transfer students.

Semester 1

• 2.0 UF GPA required

Semester 2

• 2.0 UF GPA required

Semester 3

• Complete POR 1130
• 2.0 UF GPA required

Semester 4

• Complete POR 1131
• 2.0 UF GPA required

Semester 5

• Complete POR 3242 and one additional Portuguese course with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6

• Complete 3 of the remaining 3XXX/4XXX required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 7

• Complete 3 of the remaining 3XXX/4XXX required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 8

• Complete all remaining 4XXX required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

- POR or POW or PRT 4000-level courses (Critical Tracking) 9
- Electives (3000 level and above, not in major) 6

**Credits** 15

**Total Credits** 120

1 POR 3010 satisfies the CLAS language requirement, and satisfies the same requirement as the POR 1130/POR 1131 sequence.
2 One General Education option taken this term must be a Quest 2 course.

---

**Academic Learning Compact**

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

**Before Graduating Students Must**

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

**Critical Thinking**
2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

**Communication**
3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

**Psychology**

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

**About this Program**
- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Science
- **Specializations:** General Psychology (p. 965) | Behavior Analysis (p. 958) | Behavioral and Cognitive Neuroscience (p. 961)
- **Credits for Degree:** 120
- **Contact:** Email (psych-advising@ufl.edu?Subject=Psychology%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**
The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

**Curriculum**
- Psychology
- Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis.

All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior...
honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

Coursework for the Major
A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

Required Coursework
Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

Recommended Coursework
In addition to regularly scheduled courses, the department offers six individual work courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PCO 4911</td>

</tbody>
</table>

Research
Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

Academic Learning Compact
The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students’ understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

Before Graduating Students Must
• Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

Critical Thinking
3. Review, interpret and analyze the literature in psychological science.

Communication
4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Curriculum Map
All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

Curriculum
  • Psychology
  • Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization
also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

**Required Coursework**

Students in the behavior analysis specialization are required to complete 36 credits of psychology coursework with minimum grades of C. At least 30 of the 36 credits must be at the 3000-level or above.

- 3 credits, introductory level: PSY 2012 (or equivalent, such as a general psychology course taken elsewhere or credit by exam for PSY 2012 via AP, IB, AICE).
- 12 credits, behavior analysis courses:
  - EAB 3002
  - EAB 3764
  - EAB 4184
  - EAB 4930
- 3 credits, laboratory course: PSY 3213L
- 4 credits, laboratory course: EAB 4714C
- 14 credits additional psychology courses: Students must choose additional 3000/4000-level psychology courses to meet the 36-credit minimum requirement (with the exception that three credits of 2000-level courses can count toward this requirement). In addition, up to nine credits of individual work courses will count toward the 36-credit minimum requirement. Students can also take designated courses in the Women's Studies as part of the 14 elective credits (WST 3323, WST 3371, WST 4704).

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

**Related Coursework**

**Statistics**

STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it also counts toward the CLAS requirement of 3000-level electives not in the major.

**Mathematics**

Proficiency through precalculus is required. MAC 1147 (or higher course) will meet this requirement. The combination of MAC 1114 and MAC 1140 may be substituted for MAC 1147.

**Biological Science**

BSC 2005 or BSC 2010 is required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome. Advising office hours (http://www.psych.ufl.edu/%7EUndergrad/)

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

---

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

The following critical-tracking courses are required:

- BSC 2005 or BSC 2010
- MAC 1147 or MAC 1140 and MAC 1114
- PSY 2012
- PSY 3213L
- STA 2023

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

**Semester 1**

- Complete MAC 1140 or MAC 1147
- 2.4 UF GPA required

**Semester 2**

- Complete PSY 2012; if MAC 1140 is taken in semester 1, MAC 1114 must be taken semester 2
- 2.6 UF GPA required

**Semester 3**

- Complete 2 critical-tracking courses from BSC 2005 or BSC 2010, STA 2023 or PSY 3213L with a 2.6 critical-tracking GPA
- Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.
- 2.7 UF GPA required

**Semester 4**

- Complete BSC 2005 or BSC 2010 and STA 2023 (if not previously taken) with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

**Semester 5**

- Complete PSY 3213L (if not previously taken) with 2.75 critical-tracking GPA
- Additional Psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

**Semester 6**

- Complete two of the remaining EABxxx/4xxx required courses
- Complete STA 3024
### Semester Seven
- Complete two of the remaining EABxxx/4xxx required courses

### Semester Eight
- Complete all remaining EAB 4xxx required courses

#### Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact
The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students’ understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

### Before Graduating Students Must
- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

Critical Thinking
1. Review, interpret and analyze the literature in psychological science.

Communication
1. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Curriculum Map
All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

I = Introduced; R = Reinforced; A = Assessed

Behavioral and Cognitive Neuroscience
Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

About this Program
- College: Liberal Arts and Sciences (p. 646)
- Degree: Bachelor of Science
- Specializations: General Psychology (p. 965) | Behavior Analysis (p. 958) | Behavioral and Cognitive Neuroscience (p. 961)
Coursework for each specialization can be found below. Required coursework will depend on the student chooses. Coursework for each specialization can be found below.

### Required Coursework

Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

### Recommended Coursework

In addition to regularly scheduled courses, the department offers six individual work courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PCO 4911</td>
<td>Undergraduate Research in Psychology of Health Disparities</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4911</td>
<td>Undergraduate Research in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4905</td>
<td>Individual Work</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
</tbody>
</table>

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLP 3911</td>
<td>Introduction to Clinical Research</td>
<td>1-3</td>

<tr>
<td>PSY 4949</td>
<td>Internship in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
</tbody>
</table>

### Research

Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

### Behavioral and Cognitive Neuroscience

#### Required Coursework

Students in the behavioral and cognitive neuroscience specialization are required to complete 36 credits of coursework with minimum grades of C. At least 22 credits must be taken in psychology.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 2012</td>
<td>General Psychology (or its equivalent, such as a general psychology course taken elsewhere or credit by exam for this course via AP, IB, AICE, etc.)</td>
<td>3</td>
</tr>
</tbody>
</table>

#### Foundation core

Each is an introduction to the substantive areas of behavioral and cognitive neuroscience. Select one course from each area:

- **Biological Bases**
  - PSB 3340  Behavioral Neuroscience
- **Learning and Cognition**
  - EXP 3604  Cognitive Psychology

#### Laboratory courses

- PSY 3213L  Laboratory Methods in Psychology  3
- Select one specialized psychology laboratory course:  4
- EAB 4714C  Laboratory in Applied Behavior Analysis
Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Related Coursework

Statistics
STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it counts as a 3000+ level elective not in the major.

Mathematics
Proficiency is required. MAC 2311 meets this requirement.

Biological Science
BSC 2010 and BSC 2011 are required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome.

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

These critical-tracking courses are required: BSC 2010, MAC 2311, PSY 2012, PSY 3213L, PSB 3340, and STA 2023.

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

Semester 1

• Complete MAC 1147 or MAC 2311
• 2.4 UF GPA required

Semester 2

• Complete MAC 2311
• Complete PSY 2012
• 2.6 UF GPA required

Semester 3

• Complete 2 of the following critical-tracking courses with a 2.6 critical-tracking GPA: BSC 2010, PSB 3340, or PSY 3213L

Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.
• 2.7 UF GPA required

Semester 4

• Complete 1 tracking course from BSC 2010, PSB 3340, PSY 3213L or STA 2023 with a 2.75 critical-tracking GPA
• 2.8 UF GPA required

Semester 5

• Complete the final tracking course (BSC 2010, PSB 3340, PSY 3213L or STA 2023) with a 2.75 critical-tracking GPA. Additional psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
• 2.8 UF GPA required

Semester 6

• Complete 2 of the remaining PSY 3XXX/4XXX required courses
• Complete STA 3024

Semester 7

• Complete 2 of the remaining PSY 3XXX/4XXX required courses
• Complete neuroscience lab: PSB 4343C, EAB 4714C, EXP 4174C

Semester 8

• Complete all remaining PSY 3XXX/4XXX required courses and/or neuroscience relevant courses.

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). STA 3024 and approved 3000 level or above neuroscience-relevant courses outside the psychology department may count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's
academic record and scheduling availability of courses. Prerequisites still apply.

General Psychology
Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

About this Program
• College: Liberal Arts and Sciences (p. 646)
• Degree: Bachelor of Science
  • Specializations: General Psychology (p. 965) | Behavior Analysis (p. 958) | Behavioral and Cognitive Neuroscience (p. 961)
• Credits for Degree: 120
• Contact: Email (psych-advising@ufl.edu?Subject=Psychology%20Major)
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

Curriculum
- Psychology
- Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

Coursework for the Major
A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

Required Coursework
Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

Recommended Coursework
In addition to regularly scheduled courses, the department offers six individual work courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PCO 4911</td>
<td>Undergraduate Research in Psychology of Health Disparities</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4911</td>
<td>Undergraduate Research in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4905</td>
<td>Individual Work</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
</tbody>
</table>

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLP 3911</td>
<td>Introduction to Clinical Research</td>
<td>1-3</td>
</tr>
<tr>
<td>PCO 4911</td>
<td>Undergraduate Research in Psychology of Health Disparities</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4911</td>
<td>Undergraduate Research in Psychology</td>
<td>0-3</td>
</tr>
<tr>
<td>PSY 4905</td>
<td>Individual Work</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4940</td>
<td>Introduction to Teaching in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4949</td>
<td>Internship in Psychology</td>
<td>0-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
</tbody>
</table>

Research
Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

General Psychology
Required Coursework
Students in the general psychology specialization are required to complete 36 credits of psychology coursework with minimum grades of C. At least 30 of the 36 credits must be at the 3000-level or above.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 2012</td>
<td>General Psychology (or equivalent, such as a general psychology course taken elsewhere or credit by exam for this course via AP, IB, AICE.)</td>
<td>3</td>
</tr>
</tbody>
</table>

Foundation level core
Each of the four foundation areas is an introduction to a substantive area of psychology. Select at least one course from each:

| Biological Bases
| CBH 3003 | Comparative Psychology     |
| EXP 3104 | Sensory Processes          |
| PSB 3002 | Physiological Psychology   |
| PSB 3340 | Behavioral Neuroscience    |

Developmental Changes
<table>
<thead>
<tr>
<th>DEP 3053</th>
<th>Developmental Psychology</th>
</tr>
</thead>
</table>

Learning and Cognition
| EAB 3002 | Principles of Behavior Analysis |
| EAB 3764 | Applied Behavior Analysis     |
| EXP 3604 | Cognitive Psychology         |

Sociocultural / Individual Differences Approaches
| CLP 3144 | Abnormal Psychology          |
| PPE 3003 | Psychology of Personality    |
| SOP 3004 | Social Psychology            |

Laboratory course
<table>
<thead>
<tr>
<th>PSY 3213L</th>
<th>Laboratory Methods in Psychology</th>
</tr>
</thead>
</table>

Psychology courses
4000-level courses (does not count individual work courses) 6

Additional Psychology courses
Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

The following critical-tracking courses are required: BSC 2005 or BSC 2010, MAC 1147 or MAC 1140 and MAC 1114, PSY 2012, PSY 3213L, and STA 2023.

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

3000/4000-level courses to meet the 36-credit minimum requirement (with the exception that three credits of 2000-level courses can count toward this requirement) .

| Total Credits | 36 |

1 Students may not take both PSB 3002 and PSB 3340 under any circumstances.

2 In addition, up to nine credits of individual work courses will count toward the 36-credit minimum requirement.

3 Two courses from the Women's Studies department can also be utilized as part of the 12 additional psychology credits (WST 3371; WST 4704, WST 3323, WST 4XXX).

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Related Coursework

Statistics
STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it also counts toward the CLAS requirement of 3000-level electives not in the major.

Mathematics
Proficiency through precalculus is required. MAC 1147 (or higher course) will meet this requirement. The combination of MAC 1114 and MAC 1140 may be substituted for MAC 1147.

Biological Science
BSC 2005 or BSC 2010 is required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome.

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

Related Psychology Programs

- Bachelor of Arts in Psychology, UF Online (p. 969)

Critical Tracking

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students’ understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

### Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.

2. Knowledge of the design, analysis and interpretation of psychological research.

**Critical Thinking**

3. Review, interpret and analyze the literature in psychological science.

**Communication**

4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

### Curriculum Map

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

</table>

In addition, up to six credits of individual work courses will count toward the 30-hour minimum requirement.

In addition to regularly scheduled courses, the department offers four individual work courses, three involving research (PSY 4911, PSY 4905, and PSY 4970) and one involving community work (PSY 4949). Students may enroll in these courses by permission of relevant faculty supervisors.

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

The following critical-tracking courses are required:

- BSC 2005
- MAC 1147 or MAC 1140 and MAC 1114
- PSY 2012
- PSY 3213L
- STA 2023

### Semester 1

- Complete MAC 1140 or MAC 1147
- 2.2 UF GPA required

### Semester 2

- Complete PSY 2012; if MAC 1140 is taken in semester one, MAC 1114 must be taken semester two
- 2.3 UF GPA required

### Semester 3

- 2.4 UF GPA required
- Complete 2 critical-tracking courses from BSC 2005, STA 2023 or PSY 3213L with a 2.5 critical-tracking GPA

Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.

### Semester 4

- Complete BSC 2005 and STA 2023 (if not previously taken) with a 2.5 critical-tracking GPA
- 2.5 UF GPA required

### Semester 5

- Complete PSY 3213L (if not previously taken) with 2.5 critical-tracking GPA
- 2.5 UF GPA required

### Semester 6

- Complete 2 of the remaining PSY 3XXX/4XXX required courses

### Semester 7

- Complete 2 of the remaining PSY 3XXX/4XXX required courses

### Semester 8

- Complete all remaining PSY 3XXX/4XXX required courses
Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Arts in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students’ understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

**Content**
1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

**Critical Thinking**
3. Review, interpret and analyze the literature in psychological science.

**Communication**
4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Curriculum Map

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.
I = Introduced; R = Reinforced; A = Assessed

**Public Affairs Certificate**

The Public Affairs certificate is for those interested in government careers and requires courses in public policy and public administration.

**About this Program**
- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 15 | Completed with minimum grades of C
- **More Info**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**Department Information**

The Department of Political Science provides a high quality educational program for undergraduate students as well as a rigorous honors program ([http://sites.clas.ufl.edu/polisci/undergraduate/programs/undergraduate-honors/](http://sites.clas.ufl.edu/polisci/undergraduate/programs/undergraduate-honors/)). The department also offers a highly selective graduate education ranging from innovative M.A. programs to a comprehensive Ph.D. program.

</tbody>
</table>

Select three 3000/4000-level courses from one of the following:

- A substantive policy area (e.g., health politics and policy or politics and ecology)
- The policy process (e.g., bureaucratic politics)

**Total Credits** 15

Students are encouraged to serve an internship in government and to complete an honors thesis in the area of public affairs.

### Public Leadership Minor

The interdisciplinary Public Leadership minor, offered by the Bob Graham Center for Public Service, is for students interested in careers in the public and private sectors and those interested in acquiring skills to develop as civically responsible citizens. Through coursework and practical experience, students gain the skills and knowledge necessary for effective and ethical leadership careers. The minor complements a variety of majors, including the natural sciences, humanities, social sciences, journalism, and business.

### About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 21 | Completed with a minimum cumulative 3.0 GPA
- **More Info**

### Center Information

The Bob Graham Center was established in 2006 with the goal of creating a community of students, scholars, and citizens who share a commitment to revitalizing the civic culture of Florida and the nation. Former Governor and U. S. Senator Bob Graham founded the Center as a place where students acquire the skills and knowledge to become informed citizens, with the expressed purpose of strengthening the nation’s democratic institutions.

### Curriculum

- Public Leadership Minor

Students pursuing the minor are expected to engage in the intellectual life of the Bob Graham Center for Public Service by participating in public lectures, workshops, seminars, and civic engagement opportunities the Center offers.

Students must have a 2.75 GPA for admission to the minor, and should normally apply during the sophomore or junior year, though they may apply later as long as they will still be able to complete all requirements for the minor within a timely manner that does not delay graduation. Students should apply by completing the standard Application to Add or Cancel an Undergraduate Minor form.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors.

[2021-2022 UG PDF 973]
Religion

Events at home and abroad show that religion continues to be a powerful force, with both positive and negative consequences. An undergraduate major in Religion provides students with the basic tools to understand the diversity of religious phenomena throughout the world in their proper historical, socio-political, psychological, cultural, and philosophical contexts.

About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** Email (info@religion.ufl.edu?Subject=Religion%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

107 ANDERSON HALL
GAINESVILLE FL 32611-7410
Map ([http://campusmap.ufl.edu/#/index/0030](http://campusmap.ufl.edu/#/index/0030))

Curriculum

- Combination Degrees
- Religion
- Religion Minor

Students majoring in religion receive truly interdisciplinary training and many pursue advanced degrees in the humanities, social sciences, law, education, journalism, and social services. Religion majors have also gone on to work in non-governmental organizations, private companies, and religious communities. The religion program complements many other programs at the University of Florida, including Latin American studies, sustainability studies, Jewish studies, African studies, and Asian studies.

Coursework for the Major

The program consists of 10 courses (30 credits). These must include:

- REL 3931
- One course in three of the following four areas (9 credits)
  - Asian Traditions
  - Biblical Scripture, Judaism, and Christianity
  - Islamic Traditions
  - Religion and ethics in contemporary society
- REL 4933
- At least one other 4000 level class (3 credits)

Of the 30 total credits, no more than 9 can be at the 2000 level. In addition, the 10 courses (30 credits) for the undergraduate major in religion must be completed with minimum grades of C.

- REL 2071 | Sustainability and Religion | 3 |
- REL 3076 | Cults and New Religious Movements | 3 |
- REL 3082 | Global Ethics | 3 |
- REL 3099 | Spirituality and Health Care | 3 |
- REL 3103 | Religion and Nature in North America | 3 |
- REL 3108 | Religion and Food | 3 |
- REL 3148 | Religion and Violence | 3 |
- REL 3171 | Ethics in America | 3 |
- REL 3492 | Religion Ethics and Nature | 3 |
- REL 4092 | Ethics, Utopias and Dystopias | 3 |
- REL 3931 | Junior Seminar (during the junior year) | 3 |

4000-level courses, one of which must be the following: 9

- REL 4933 | The Comparative Study of Religion | 9 |

Total Credits: 24

- Majors cannot count more than three introductory courses (2000-level, 9 credits) toward the 30 credits.
- No more than three courses (9 credits) can be in approved cognate courses from other departments.
- No more than four courses (12 credits) can be transferred from another institution.
- Every two semesters all majors must consult the undergraduate advisor.

There are no prerequisites for 2000-level courses. Detailed descriptions of current and prospective courses are available in 107 Anderson Hall and from faculty members before registration.
Overseas Studies

The department encourages study abroad. Overseas Studies, within the UF International Center (UFIC), offers the opportunity to study in a wide range of academic and cultural settings. The office coordinates 32 semester and yearlong programs and 28 summer programs in 24 countries. Study abroad programs satisfy the general education international and diversity requirements and also may fulfill requirements for a major or minor, as well as basic distribution area requirements and UF summer residency. Interested students should contact the UF International Center in 170 Hub or the undergraduate coordinator. More Info (http://www.ufic.ufl.edu/)

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=380201&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete 1 religion course
• 2.0 UF GPA required

Semester 4
• Complete 1 additional religion course with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete 1 additional religion course with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Completed 2 of the remaining REL 3XXX/4XXX required courses
• 2.0 UF GPA required

Semester 7
• Completed 2 of the remaining REL 3XXX/4XXX required courses
• 2.0 UF GPA required

Semester 8
• Completed all remaining REL 3XXX/4XXX required courses
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Religion Minor

Academic Learning Compact

The major in religion examines religion as a significant and pervasive element in human culture. Through study of a variety of religious traditions, students learn about the history, beliefs and practices of the world’s religions. Emphasis on method and theory and religion’s comparative dimensions enables students to read and analyze current literature. Students will be able to locate and use reference tools and demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

• Achieve satisfactory evaluation of assignment from REL 3931.
• Achieve satisfactory evaluation of assignment from REL 4933.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain religion as a significant and pervasive element in human culture.

Critical Thinking
2. Read and analyze current literature on method and theory in a study of religion.
3. Read and analyze current literature on comparative religion.

Communication
4. Effectively communicate, in speech and in writing, and disseminate the results of research in a coherent and organized manner.

Religion Minor

The Religion minor provides the opportunity to explore various religions around the world: their scriptures, histories, beliefs, rituals, and communities. A minor in Religion provides students with tools to understand the diversity of religious phenomena throughout the world in their proper historical, socio-political, psychological, cultural, and philosophical contexts.

Curriculum

• Combination Degrees
• Religion
• Religion Minor

The religion minor consists of five REL-prefixed religion courses. Three of these courses must be taken at the intermediate or advanced level at UF.

No more than three credits of REL 4905 will apply. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

1. No more than three credits of REL 4905.

Russian

Foreign Languages and Literatures

Students who major in Russian graduate with a solid working knowledge of the language and a thorough understanding of Russian culture and everyday life.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills, and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Foreign Languages and Literatures Options (p. 786)

Students can tailor their program of study to fit their personal and career goals, be it reading Tolstoy in the original or tapping into one of the hottest emerging global markets. Majors also receive priority placement in our popular study-abroad programs in Moscow.

Completed alone or in combination with a second major, the Russian specialization of the Foreign Languages and Literatures major prepares students for a variety of careers, including law, government, national security, international relations, business, education and graduate programs in the humanities and social sciences. Beyond this, it equips students with analytical skills essential for performing effectively in today's multicultural world.

Small class sizes and an outstanding professional teaching staff ensure that students have every opportunity to learn and excel.

Students who intend to pursue the Russian specialization or a Russian minor should consult the undergraduate coordinator for Russian studies as soon as possible.

Coursework for the Major

The Russian specialization in Foreign Languages and Literatures consists of preparatory language study at the beginning and Intermediate levels and 33 hours of advanced language, literature, and culture study in the upper division, at least 30 of which must be at the 3000/4000 level. Majors may take one 3 credit course at a lower level in Russian Literature and Culture in English with the approval of the undergraduate coordinator.

All coursework for the major must be completed with minimum grades of C.

### Required Core Coursework | 33 Credits

**Advanced Language**
- RUS 4501: Russian Studies Research Seminar 3
- RUS 4000: Advanced Russian 1 3
- RUS 4001: Advanced Russian 2 3

**Advanced Elective Coursework**

*Language, Literature, Culture in Russian*
Select 6 credits with at least 3 credits at the 4000 level:
- RUS 3240: Oral Practice in Russian 3
- RUS 4300: Advanced Grammar and Composition 3
- RUS 4411: Advanced Oral Practice 3
- RUS 4502: Language and Culture of the Russian Business World 3
- RUS 4503: Theory and Practice of Russian-English Translation 1 3
- RUS 4504: Theory and Practice of Russian-English Translation 2 3
- RUS 4700: Structure of the Russian Language 3
- RUS 4780: Corrective Phonetics and Intonation 3
- RUS 4905: Individual Work in Russian 3
- RUS 4911: Undergraduate Research in Russian Language 3
- RUS 4930: Special Topics in Russian 3
- RUS 4956: Overseas Studies 3
- RUW 3101: Reading Russian Literature 3
- RUW 4301: Russian Drama and Poetry 3
- RUW 4341: Russian Media Culture 3
- RUW 4370: Russian Short Prose 3
- RUW 4630: Reading Eugene Onegin: Pushkin and Nabokov 3
- RUW 4911: Undergraduate Research in Russian Studies, Target Language 3
- RUW 4932: Selected Readings in Russian 3

*Russian Literature and Culture in English*
Select 9 credits minimum:
- RUT 3101: Russian Masterpieces 3
- RUT 3441: Tolstoy and Dostoevsky 3
- RUT 3442: Themes from Russian Literature 3
- RUT 3443: War and Peace 3
- RUT 3452: Russian Literature of the Twentieth Century 3
- RUT 3500: Russian Cultural Heritage 3
- RUT 3501: Contemporary Russian Culture and Society 3
- RUT 3503: Violence and Terror in the Russian Experience 3
- RUT 3504: Russia Today 3
- RUT 3506: Creative Lives: Writers, Artists, and Extraordinary People 3
- RUT 3514: Russian Fairy Tales 3
- RUT 3524: Russia through Film 3

**Critical Concentration**
Select 9 credits from one concentration:

1. Intensive Area Studies: Russian
2. Comparative Cultural Studies
3. Film and Visual Culture
4. Literary Studies
5. Medieval and Early Modern Studies

**Total Credits**: 33

1. Although courses may appear in more than one group they may be counted toward only one group.
2. Recommended for those planning to pursue careers requiring advanced level skills in Russian or graduate work in Russian Studies.

### Overseas Study

Students are encouraged to consider the UF summer program in Russian language and culture at Moscow State University in Russia.

### Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160402&track=01) may be used for transfer students.

### Semester 1

- 2.0 UF GPA required

### Semester 2

- 2.0 UF GPA required

*Summer A – Moscow Summer Program (8 credit hours in advanced electives)* highly recommended any time after completing two semesters of Russian (RUS 1130/RUS 1131)
Semester 3
- Complete RUS 1130 or higher-level language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4
- Complete RUS 1131 or higher-level language course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5
- Complete RUS 2220 or higher-level language course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6
- Complete RUS 3400 or higher-level language course
- 2.0 UF GPA required

Semester 7
- Complete RUS 4000
- Complete RUS 4501
- 2.0 UF GPA required

Semester 8
- Complete RUS 4001
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course. 3000 level or above critical concentration courses outside of Russian may count toward the 3000 level or above electives outside of the major.

Beginning language is best started semester 1 and absolutely no later than semester 3, but study abroad or accredited intensive summer courses can be used to fall in with an ideal semester progression.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Students in the Major Will Learn to

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

**Critical Thinking**

2. Analyze, interpret, and evaluate texts according to their cultural, literary, and/or linguistic content.

**Communication**

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.

4. Display oral and written proficiency in language(s) of specialization.

**Curriculum Map**

*I* = Introduced; *R* = Reinforced; *A* = Assessed
Courses | SLO 1 | SLO 2 | SLO 3 | SLO 4
--- | --- | --- | --- | ---
Category A\(^1\) | I, R | I | I | I, R, A
Category B\(^2\) | I, R, A | I, R, A | I, R, A

\(^1\) Courses focus on the acquisition of the language(s) of specialization at the advanced level.

\(^2\) Courses address literary, cultural, cinematic, historical, and/or social questions.

**Assessment Types**
- Proficiency exams
- Term papers or final projects
- Oral presentations

---

**Russian and East-European Area Studies Certificate**

The Russian and East-European Area Studies certificate provides a foundation for graduate work in the field of and careers in government service. The program is based on a major in economics, foreign languages, geography, history, philosophy, political science, or religion.

**About this Program**
- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 24 | Completed with minimum grades of C
- **More Info**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**Center Information**

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

**OR**

Demonstrate an equivalent reading knowledge in Russian or an East-European area language

**Relevant courses (approved by the program advisor)** | 14

**Total Credits** | 24

Students are encouraged to include at least one course in economics, history, political science, and Russian or East-European culture or literature to diversify their program, or to participate in an overseas study program.

---

**Russian Minor**

This minor provides foundational proficiency in Russian language and culture for work in international relations, national security, global business, finance, journalism, education, and NGOs.

**About this Program**
- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 15 | Completed with minimum grades of C

**Department Information**

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Sociology
Sociology is the study of social life, including the significance of social relationships and institutions, the impact of social change on individuals, groups and the environment, and the causes and consequences of inequalities and disparities of all kinds. Sociology majors examine current research and public policy pertaining to healthcare, the environment, families, employment, housing, the community, education, politics, criminal justice, and the law. Upon graduation, sociology majors are skilled in evidence-based problem solving, collecting, analyzing, and presenting data, communicating and collaborating in diverse groups, thinking critically, and writing effectively.

About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department’s faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

- Sociology
- Sociology Minor
- Sociology Minor UF Online
- Sociology of Social Justice and Policy Minor
- Sociology UF Online

The Sociology major offers broad theoretical perspectives and rigorous methodologies to study social life and to analyze the causes and consequences of human behavior. In particular, sociologists examine
how race, ethnicity, gender, sexual orientation, age, class, ability, geography, and other identities are used to create and maintain barriers to access, participation, opportunity, and outcome across all social institutions. Our faculty teach and conduct research on social justice and systemic inequalities; health disparities in physical and mental well-being; environmental justice and natural resource management; deviance, social control, and conflict management; gender, families, and sexualities; social and political movements; nationalism, migration, and ethnic conflict; and culture, technology, and media. Students examine the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues.

Coursework for the Major

Majors are required to complete 32 credits of coursework in sociology and 3 credits of statistics with minimum grades of C. At least 23 credits of sociology must be in courses numbered 3000 or higher and at least 18 credits must be completed at UF.

To graduate, students must also pass a department exam covering fundamental sociological concepts developed by the sociology faculty.

Additional sociology coursework 21

Total Credits 32

1 STA 2023 is a prerequisite for SYA 4300.

Students select additional sociology courses to complete the 32-credit minimum by matching interests in different substantive areas.

Majors can only apply two other 2000-level courses besides SYG 2000, for a maximum of nine credits at the 2000 level. There are no prerequisites for 2000-level courses.

Related Coursework

In addition to the 32 credits of sociology coursework, majors are required to complete STA 2023 Introduction to Statistics 1 with a minimum grade of C. STA 2023 must be taken no later than the end of the third semester.

Course Details

All majors should review the department’s guidelines or visit the Sociology Undergraduate Coordinator for information about the major, the plan of study worksheet, an informational handout, descriptions of current and prospective courses and other information.

OVERSEAS STUDIES

Majors are encouraged to seek out opportunities for international study, during the summer or for the academic year. The credit generally will be applied toward the major and the degree. Contact the undergraduate coordinator about credit for study abroad. Visit the UF International Center (https://internationalcenter.ufl.edu/) in room 170 of the Hub for more information.

RELEVANT MAJORS, MINORS AND/OR CERTIFICATES

With approximately 600 majors and minors in both Residential and UF Online degree programs, Sociology is one of the largest undergraduate programs at UF. Many of our majors pursue dual degrees, double majors, minors, and certificates in related disciplines, including Psychology, Criminology & Law, Political Science, Anthropology, Sustainability, History, Gender, Sexualities and Women’s Studies, Latin American Studies, African American Studies, Non-Profit Organizational Leadership, Advertising, Marketing, and various foreign languages.

EXPERIENTIAL LEARNING AND CAREER READINESS

Sociology majors participate in community internships, collaborate on faculty projects, and conduct research independently on senior thesis projects. These experiential learning opportunities prepare our graduates to embark upon a wide range of career paths including those in public health, government, research, teaching, and community affairs. Sociology graduates pursue careers in law, medicine, and business. Others work as public policy analysts researching issues related to health and aging; social justice, environmental sustainability, and resource management; urban and community development; crime and delinquency; families and communities; and racial, ethnic, and international relations. Many seek advanced degrees in sociology, psychology, counseling, law, and business.

Combination Degrees

The Department of Sociology and Criminology offers a combination B.A./M.A. degree to eligible undergraduate students. Please see the graduate coordinator for more information regarding this degree option. Sociology majors may also consider various combination degrees with other departments and colleges. For example, a Master of Science in Business Administration with a concentration in management is offered through the Warrington College of Business to eligible students who have majored in sociology. Please see the undergraduate coordinator for more information about such degree options.

- Combination Degrees

Research

The department encourages students to engage in the research process, either by conducting their own projects in collaboration with a sociology faculty member or by working with sociology faculty on their current research. These opportunities may be pursued by conducting a senior honors thesis or registering for SYA 4911 Undergraduate Research credit. Please see the undergraduate coordinator for more information and eligibility requirements.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/)
displayRecord.jsp?cip=451101&track=01) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- Complete 1 sociology course
- 2.0 UF GPA required

**Semester 3**
- Complete 1 additional sociology course (1 of the 2 courses must be SYG 2000)
- Complete STA 2023
- 2.75 GPA required for all 3 critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete 1 additional sociology course (1 of the 3 must be at the 3000/4000 level)
- 2.75 GPA required for all 5 critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete SYA 4300 or SYA 4110
- Complete 1 additional 2000 level or above sociology course (maximum of 2 sociology electives at the 2000 level)
- 2.0 UF GPA required

**Semester 7**
- Complete 2 additional 3000/4000 level sociology courses
- 2.0 UF GPA required

**Semester 8**
- Complete SYA 4110
- Complete all remaining 3000/4000 level sociology courses (7 total sociology elective courses/21 SY elective credits required)
- 2.0 UF GPA required

---

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Sociology of Social Justice and Policy Minor

The SJP minor offers an interdisciplinary framework grounded in Sociology that allows students to examine systemic inequalities of race, gender, sexual orientation, ethnicity, class, age, mental and physical ability, geography, and other disparities as they occur across social institutions including health, law, criminal justice, families, employment, the environment, education, and housing.

About this Program

- Sociology of Social Justice and Policy Minor
- Sociology UF Online

The sociological lens offers broad theoretical perspectives and rigorous methodologies to analyze how, why and with what consequence systemic inequalities are produced, maintained, and reproduced locally.
nationally and globally. Students pursuing an SJP minor explore the impact of systemic racism in the criminal justice and legal systems; the consequences of unequal access to health care on physical and mental well-being; the impact of environmental hazards on the health and economic opportunities of vulnerable and marginalized populations; the causes and consequences of disparities in access to equal and quality public education; and the dynamics of structural and organizational impediments to enacting change. The SJP minor introduces students to social justice scholars across the campus community, expanding networking and mentoring opportunities, exposing students to diverse ideas, methods, and theories in the area of social justice, and teaching fundamental skills and competencies for careers related to policy-making, advocacy, and research dedicated to social justice issues.

**REQUIREMENTS**

- Students must complete a minimum of 9 credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors.
- Students must complete at least 5 courses at the 3000 level or higher and each must be at least three credits.
- A minimum of 9 credits (3 courses) must be from Sociology courses (i.e., courses that begin with the prefix SY), other than SYA4941 Internships in Sociology.
- With the approval of the Sociology Undergraduate Coordinator, students may petition to have other, relevant classes approved as substitutes within each category of electives within the minor. Such courses could include department special topics offerings with numbers like 3930 or 4930.
- No more than three credits of independent study (SYA 4905), research (SYA 4911) or internship (SYA 4941) may count toward the minor.

The SJP minor is not available to Sociology majors.

Sociology is the study of social life, including the significance of social relationships and institutions, the impact of social change on individuals, groups, and the environment, and the causes and consequences of inequalities and disparities of all kinds. Sociology majors examine current research and public policy pertaining to healthcare, the environment, families, employment, housing, the community, education, politics, criminal justice, and the law. Upon graduation, sociology majors are skilled in evidence-based problem solving, collecting, analyzing, and presenting data, communicating, and collaborating in diverse groups, thinking critically, and writing effectively.

About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **Contact**: 1-855-99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department's faculty are internationally known for their research in the areas of families, gender, and sexualities; criminology and criminal justice; and psychology and law. Our faculty teach and conduct research on social justice and systemic inequalities; health disparities in physical and mental well-being; environmental justice and natural resource management; deviance, social control, and conflict management; gender, families, and sexualities; social and political movements; nationalism, migration, and ethnic conflict; and culture, technology, and media. Students examine the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues.

Coursework for the Major
Majors are required to complete 32 credits of coursework in sociology and 3 credits of statistics with minimum grades of C. At least 23 credits of sociology must be in courses numbered 3000 or higher and at least 18 credits must be completed at UF.

To graduate, students must also pass a department exam covering fundamental sociological concepts developed by the sociology faculty.

Total Credits: 35

1. Majors can only apply two other 2000-level courses besides SYG 2000, for a maximum of nine credits at the 2000 level. There are no prerequisites for 2000-level courses.
2. STA 2023 is a prerequisite for SYA 4300.
3. Students select additional sociology courses to complete the 32-credit minimum by matching interests in different substantive areas.

Course Details
All majors should review the department’s guidelines (http://soccrim.clas.ufl.edu/undergraduate/sociology/academics/requirements/) for information about the major, the plan of study worksheet, an informational handout, descriptions of current and prospective courses, and other information.

EXPERIENTIAL LEARNING AND CAREER READINESS
Sociology majors participate in community internships, collaborate on faculty projects, and conduct research independently on senior thesis projects. These experiential learning opportunities prepare our graduates to embark upon a wide range of career paths including those in public health, government, research, teaching, and community affairs. Sociology graduates pursue careers in law, medicine, and business. Others work as public policy analysts researching issues related to health and aging; social justice, environmental sustainability and...
resource management; urban and community development; crime and delinquency; families and communities; and racial, ethnic, and international relations. Many seek advanced degrees in sociology, psychology, counseling, law, and business.

**RESEARCH**

The department encourages students to engage in the research process, either by conducting their own projects in collaboration with a sociology faculty member or by working with sociology faculty on their current research. These opportunities may be pursued by conducting a senior honors thesis or registering for SYA 4911 Undergraduate Research credit. Please contact the undergraduate coordinator for more information and eligibility requirements.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=451101&track=01) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- Complete 1 sociology course
- 2.0 UF GPA required

**Semester 3**
- Complete 1 additional sociology course (1 of the 2 courses must be SYG 2000)
- Complete STA 2023
- 2.75 GPA required for all 3 critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete 1 additional sociology course (1 of the 3 must be at the 3000/4000 level)
- 2.75 GPA required for all 5 critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete SYA 4300 or SYA 4110
- Complete 1 additional 2000 level or above sociology course (maximum of 2 sociology electives at the 2000 level)
- 2.0 UF GPA required

**Semester 7**
- Complete 2 additional 3000/4000 level sociology courses
- 2.0 UF GPA required

**Semester 8**
- Complete SYA 4110 or SYA 4300
- Complete all remaining 3000/4000 level sociology courses (7 total sociology elective courses/21 SY elective credits required)
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Assessment Types
• Exit exam

Spanish
Hispanic and Latin American Languages, Literatures and Linguistics

Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

About this Program
• College: Liberal Arts and Sciences (p. 646)
• Degree: Bachelor of Arts
  • Specializations: Spanish (p. 992) | Portuguese (p. 953) | Spanish and Portuguese (p. 863)
• Credits for Degree: 120
• Contact

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

Website (http://spanishandportuguese.ufl.edu/undergraduate-programs/)

Curriculum
• Combination Degrees
• Hispanic and Latin American Languages, Literatures and Linguistics
• Portuguese
Recommended Coursework

Students who have studied six semesters of Spanish or who have equivalent fluency may enroll in one-credit Spanish discussion sections that accompany selected Latin American studies courses in anthropology, art, business, philosophy, religion, sociology, etc. A maximum of three such courses may be credited toward the Spanish major and minor. Refer to the course description for SPN 3224. More Info (http://spanishandportuguese.ufl.edu/undergraduate-programs/)

- SPN 3301 is the prerequisite for SPN 4420
- SPN 3700 is the prerequisite for 4000-level SPN linguistics courses
- SPN 4780 is the prerequisite for SPN 4840
- The prerequisite for 4000-level SPW courses is one SPW 3000-level course.

Concentrations

After completing the introductory courses (SPN 3700 and SPW 3xxx), students may choose to complete their remaining upper division coursework in Hispanic Literatures or Spanish Linguistics, or a combination of the two. Courses in the literature concentration (indicated with the prefix SPN) focus on the reading, contextualization and critical analysis of literary texts from across the Spanish-speaking world and including a wide range of periods and genres. Courses in the linguistics concentration (indicated with the prefix SPN) focus on the scientific study of the Spanish language and its structures, such as morphology, phonetics, phonology and syntax; as well as more applied linguistic areas such as psycholinguistics, bilingualism, and language acquisition.

Overseas Study

Students pursuing a major or a minor in Spanish are strongly encouraged to spend a summer, a semester, or an academic year in a Spanish-speaking country. UF programs are encouraged because they allow for easy transfer of UF credits and courses or course equivalencies. Most financial aid applies in this case as well. Interested students should contact the undergraduate coordinator and the UF International Center, 170 Hub.

Placement

Students with no previous study or experience in Spanish will need to complete the beginning language sequence (SPN 1130-SPN 1131) and the intermediate language sequence (SPN 2200-SPN 2201) to prepare for SPN 2240.

Students with prior study or knowledge of Spanish who wish to enroll in a Spanish course can present dual enrollment, AP, IB, or AICE scores, or can take the WebCAPE online placement test (http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/spanish-placement/).

Any student who has lived in a Spanish-speaking country for more than a year or who has significant Spanish-speaking experience at home or in a community must consult the coordinator of the bilingual program before enrolling in any SPN language, literature, or culture course. Heritage speakers not planning to take Spanish who wish to show proficiency should consult the Department for information on how to fulfill their foreign language proficiency requirement. More Info (http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/)
Research

Students who wish to complete a senior thesis for honors should consult Spanish faculty at least two semesters in advance of graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160905&track=01) may be used for transfer students.

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

---

### Critical Thinking

2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

### Communication

3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.

4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

### Assessment Types

- Written paper
- Oral presentation/discussion

### Spanish for the Professions Certificate

The Spanish for the Professions certificate provides the linguistic skills and cultural knowledge necessary for working in our increasingly global community, focusing specifically on the Spanish-speaking world. Coursework builds cultural background and communicative proficiency, while providing profession-specific language and experience.

### Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

---

### Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

### Before Graduating Students Must

- One General Education option taken this term must be a Quest 2 course.
- SPN 2240 (or SPN 2340) is the first course that earns credit toward the major or minor. SPN 3300 can be taken concurrently with SPN 2240.
- Some Spanish courses may also fulfill the H and N general education requirements: SPW 3030, SPW 3031, SPW 3100 and SPW 3101, SPN 3510, and SPN 3520; SPN 3440 fulfills the S and N general education categories.
Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information
The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

Spanish Minor

The Spanish minor offers excellent preparation for a career in virtually any field, and especially in areas such as business, journalism, telecommunications, law, medicine, education, and tourism.

About this Program
- College: Liberal Arts and Sciences (p. 646)
- Credits: 18 | Completed with minimum grades of C

Department Information
The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

A minimum of nine credits must be completed at the University of Florida, including one 4000-level course. No more than three credits of SPN 4905 can apply.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Certain 3000/4000-level courses have prerequisites:
Statistics

Statistics, the science of learning from data, has become increasingly important as scientists, businesses, and governments rely more and more on data-driven decision-making. Statisticians work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for statisticians and their expertise in the collection and analysis of data.

About this Program

- **Contact**: Email (dathien@stat.ufl.edu?Subject=Statistics%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Map ([http://campusmap.ufl.edu/#/index/0010](http://campusmap.ufl.edu/#/index/0010))

Curriculum

- Actuarial Science Minor
- Combination Degrees

Statistics majors learn how to design studies that effectively address the purpose of a research project and how to properly analyze the data collected in such studies. Core courses cover statistical methods applicable in a wide variety of settings (e.g., regression and design of experiments) as well as the conceptual and mathematical foundations of statistics. Other courses explore specific data types often encountered in practical settings. Statistics majors have the option to minor in actuarial science, a profession involving the statistical and financial practices of insurance.

Students who wish to major in statistics must consult a department advisor early in their programs.

Degrees

The College of Liberal Arts and Sciences offers the Bachelor of Science and the Bachelor of Arts in statistics.

Bachelor of Arts

Intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

Bachelor of Science

Intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

Coursework for the Major

Required Coursework for Both Degrees

The B.A. in statistics requires a minimum of 42 credits in statistics and related coursework. The B.S. in statistics requires a minimum of 49 credits in statistics and related coursework. It is important that the prerequisites of each class are met before the class is attempted.

Students must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 12 credit elective requirement, with the exception of MAC 2312 and MAC 2313 where students must receive a minimum grade of B-. Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313, in which students must receive a minimum grade of B-. A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and 2.67 on MAC 2312 and MAC 2313. The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA. A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

- STA 4241 | Statistical Learning in R
- STA 4273 | Statistical Computing in R
- STA 4502 | Nonparametric Statistical Methods
- STA 4702 | Multivariate Statistical Methods
- STA 4712 | Introduction to Survival Analysis
- STA 4821 | Stochastic Processes
- STA 4853 | Introduction to Time Series and Forecasting
- STA 4930 | Special Topics

**Total Credits** | 33

---

1. The course sequences, STA 4210-STA 4211 and STA 4321-STA 4322 should be completed by the end of the junior year.
2. Prerequisite: STA 4210.
3. Prerequisite: STA 4321.
4. Students pursuing the major must enroll in the restricted to STA majors only section of STA 4211.

---

**Combination Degree Program**

Superior students can earn both the bachelor's and master's degrees in a shorter time than typically would be possible by counting up to 12 credits of approved graduate courses toward both degrees. For information and application, contact the undergraduate or graduate coordinator.

**Relevant Minors and/or Certificates**

Statistics majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies.

---

**Academic Learning Compact**

The statistics major enables students to achieve proficiency in the fundamentals of statistical reasoning. Through study of both theoretical and applied statistics and through data analysis projects, students will gain knowledge in problem solving, statistical applications and data-based inferences. Emphasis is on developing the ability to approach real world problems and through the use of statistical methods to be able to analyze and to draw valid scientific inferences.

**Before Graduating Students Must**

- Complete an exam on the fundamentals of statistics, which will be 5% of your grade in STA 4211.
- Complete a data analysis project, which will be 10% of your grade in STA 4211.
- Complete requirements for the baccalaureate degree, as determined by faculty.

---

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, define and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

**Critical Thinking**

2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

**Communication**

3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and 2.67 on MAC 2312 and MAC 2313. The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA. A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

Code | Core | Title | Credits
--- | --- | --- | ---

Select one:
- MAC 2311 Analytic Geometry and Calculus 1
- & MAC 2312 Analytic Geometry and Calculus 2
- & MAC 2313 Analytic Geometry and Calculus 3
- MAC 3472 Honors Calculus 1
- & MAC 3473 Honors Calculus 2
- & MAC 3474 Honors Calculus 3
选
- STA 4210 Regression Analysis
- STA 4211 Design of Experiments
- STA 4321 Introduction to Probability
- STA 4322 Introduction to Statistics Theory
- STA 4504 Categorical Data Analysis

Statistics Electives
Select two:
- STA 4222 Sample Survey Design
- STA 4241 Statistical Learning in R
- STA 4273 Statistical Computing in R
- STA 4502 Nonparametric Statistical Methods
- STA 4702 Multivariate Statistical Methods
- STA 4712 Introduction to Survival Analysis
- STA 4821 Stochastic Processes
- STA 4853 Introduction to Time Series and Forecasting
- STA 4930 Special Topics

Total Credits 33

1. The course sequences, STA 4210-STA 4211 and STA 4321-STA 4322 should be completed by the end of the junior year.
2. Prerequisite: STA 4210.
3. Prerequisite: STA 4321.
4. Students pursuing the major must enroll in the restricted to STA majors only section of STA 4211.

Combination Degree Program
Superior students can earn both the bachelor’s and master’s degrees in a shorter time than typically would be possible by counting up to 12 credits of approved graduate courses toward both degrees. For information and application, contact the undergraduate or graduate coordinator.

Relevant Minors and/or Certificates
Statistics majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies.
Bachelor of Arts

The B.A. is intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

Additional Required Coursework for B.A.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270501&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete MAC 1147 or higher-level calculus
- 2.0 UF GPA required

Semester 3

- Complete MAC 2311
- 2.0 UF GPA required

Semester 4

- Complete MAC 2312 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete MAC 2313 and a programming elective or any STA course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete Programming elective and MAS 3114 and STA 4210 and STA 4321
- 2.0 UF GPA required

Semester 7

- Complete STA 4211 and STA 4322
- 2.0 UF GPA required

Semester 8

- Complete STA 4504 and all remaining Statistics and Math and Sciences electives
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

MAC 2312, MAC 2313, MAS 4105, and the math elective count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

- Math science elective (Critical Tracking) 3
- STA elective (Critical Tracking) 3

### Academic Learning Compact
The statistics major enables students to achieve proficiency in the fundamentals of statistical reasoning. Through study of both theoretical and applied statistics and through data analysis projects, students will gain knowledge in problem solving, statistical applications and data-based inferences. Emphasis is on developing the ability to approach real world problems and through the use of statistical methods to be able to analyze and to draw valid scientific inferences.

### Before Graduating Students Must
- Complete an exam on the fundamentals of statistics, which will be 5% of your grade in STA 4211.
- Complete a data analysis project, which will be 10% of your grade in STA 4211.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

##### Content
1. Identify, define and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

##### Critical Thinking
2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

##### Communication
3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

### Bachelor of Science
Statistics, the science of learning from data, has become increasingly important as scientists, businesses, and governments rely more and more on data-driven decision-making. Statisticians work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever
more ubiquitous, further expanding the demand for statisticians and their expertise in the collection and analysis of data.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degrees**: Bachelor of Arts (p. 998) | Bachelor of Science (p. 1001)
- **Credits for Degree**: 120
- **Contact**: Email (dathien@stat.ufl.edu?Subject=Statistics%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Curriculum

- Actuarial Science Minor
- Combination Degrees
- Data Science
- Statistics
- Statistics Minor

Statistics majors learn how to design studies that effectively address the purpose of a research project and how to properly analyze the data collected in such studies. Core courses cover statistical methods applicable in a wide variety of settings (e.g., regression and design of experiments) as well as the conceptual and mathematical foundations of statistics. Other courses explore specific data types often encountered in practical settings. Statistics majors have the option to minor in actuarial science, a profession involving the statistical and financial practices of insurance.

Students who wish to major in statistics must consult a department advisor early in their programs.

Degrees

The College of Liberal Arts and Sciences offers the Bachelor of Science and the Bachelor of Arts in statistics.

Bachelor of Arts

Intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

Bachelor of Science

Intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

Coursework for the Major

Required Coursework for Both Degrees

The B.A. in statistics requires a minimum of 42 credits in statistics and related coursework. The B.S. in statistics requires a minimum of 49 credits in statistics and related coursework. It is important that the prerequisites of each class are met before the class is attempted.

Students must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 12 credit elective requirement, with the exception of MAC 2312 and MAC 2313 where students must receive a minimum grade of B-. Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313, in which students must receive a minimum grade of B-. A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and 2.67 on a minimum GPA of 2.0 must be achieved on all attempts of core and major requirements.

Students must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 12 credit elective requirement, with the exception of MAC 2312 and MAC 2313 where students must receive a minimum grade of B-. Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313, in which students must receive a minimum grade of B-. A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and 2.67 on a minimum GPA of 2.0 must be achieved on all attempts of core and major requirements.

Total Credits 16-17

1 Prerequisite: MHF 3202.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270501&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• Complete MAC 1147 or higher-level calculus
• 2.0 UF GPA required

Semester 3
• Complete MAC 2311
• 2.0 UF GPA required

Semester 4
• Complete MAC 2312 with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete MAC 2313 and a programming elective or any STA course with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete Programming elective and MHF 3202 and STA 4210 and STA 4321
• 2.0 UF GPA required

Semester 7
• Complete MAS 4105 and STA 4211 and STA 4322
• 2.0 UF GPA required

Semester 8
• Complete STA 4504 and all remaining Statistics and Math and Sciences electives
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

MAC 2312, MAC 2313, MAS 4105, and the math elective count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

**Total Credits:** 18

### Sustainability Studies

A Sustainability Studies major prepares students for global citizenship with a firm grounding in the natural sciences, the social sciences, and the humanities. Students in the major explore how to maintain ecological and environmental health, create economic welfare, and pursue social justice in a changing world. Sustainability studies students gain understanding of the ways in which these three goals are interdependent and explore how they best can be pursued over the long term on local, national, and global levels.

### About this Program
- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** Email (advisor@advising.ufl.edu?Subject=Sustainability%20Studies%20Major)

To graduate with this major, students must complete all university, college, and major requirements.

### Department Information
Sustainability Studies prepares students for global citizenship while providing a broad foundation of sustainability knowledge and professional skill sets. Students gain experience and put their learning to work in the capstone internship course, Sustainability in Action.

Website (https://sustainability.clas.ufl.edu/)

### CONTACT
- Email (Study-Sustainability@ufl.edu) | 352.273.2380

P.O. Box 117325
302 ANDERSON HALL
GAINESVILLE FL 32611-7325
Map (http://campusmap.ufl.edu/#/index/0007)
Sustainability studies investigates the means to maintain environmental health, create economic welfare, and pursue social justice in a changing world. Students gain an understanding of the ways in which these three goals are interdependent and explore how they can best be pursued in the long term at local, national, and global levels.

**Coursework**

Students are required to complete 33 credits of sustainability studies coursework; 15 of these 33 credits must be at the 3000/4000 level. All courses must be completed with minimum grades of C and a minimum of 15 credits of sustainability studies courses must be completed at UF.

For more information about Sustainability Studies and listings of newly available Core Courses and Cluster Courses, please visit the program website.

More Info [here](https://sustainability.clas.ufl.edu/)

</tr>
</tbody>
</table>

### Core Courses

Select one 2000-level core course from each disciplinary group:

| Humanities | AMH 2631 | History of Sustainability | 3 |
| Social Sciences | BSC 2862 | Global Change Ecology and Sustainability | 3 |
| Natural Sciences | GEO 2351 | Geographical Sciences and Sustainability | 3 |
| Social Sciences | ANT 2402 | Anthropology of Sustainability | 3 |
| Natural Sciences | ECO 2310 | Economics of Sustainability | 3 |
| Natural Sciences | PSY 3626 | Psychology of Sustainability | 3 |
| Natural Sciences | POS 2032 | Politics of Sustainability | 3 |

### Cluster Courses

Select six cluster courses with at least one course chosen from each of the four clusters:

- **Cluster A**: Ethics, Culture and Human Behavior
- **Cluster B**: Economics, Law and Policy
- **Cluster C**: Production Systems and the Built Environment
- **Cluster D**: Ecology and Environmental Stewardship

Each cluster course chosen from:

- Cluster A: Ethics, Culture and Human Behavior
- Cluster B: Economics, Law and Policy
- Cluster C: Production Systems and the Built Environment
- Cluster D: Ecology and Environmental Stewardship

Total Credits: 33

1. Four of the six courses (12 credits) must be taken at the 3000 level or higher

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 654).
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=303301&track=01) may be used for transfer students.

Five courses required by the end of the fifth semester, selected from:

- IDS 2154; required in either semester 1 or 2
- 3 Sustainability Studies Core courses; one from each of the disciplinary areas
- 2 Sustainability Studies Cluster courses; one at the 3000 level or higher

### Semester 1
- Complete IDS 2154 or one critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 2
- Complete IDS 2154 or one critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.5 UF GPA required

### Semester 3
- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.75 UF GPA required

### Semester 4
- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 3.0 UF GPA required

### Semester 5
- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 3.0 UF GPA required

### Semester 6
- Complete 1 additional tracking course

### Semester 7
- Complete 2 additional Cluster courses

### Semester 8
- Complete 1 Cluster course
- Complete IDS 4942

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1. Depending on the course(s) taken, the sustainability studies core courses and cluster courses may also meet the following general education categories: biological sciences, humanities, international, physical sciences, or social and behavioral sciences. If a general education category is met through a core or cluster course, the student may substitute elective credit where the GE requirement is listed in the model semester plan.

2. If BSC 2862 taken as natural science core course for major

3. If ECO 2013 not taken.

4. If GLY 2038 taken as natural science core course for major

Academic Learning Compact

The Bachelor of Arts in sustainability studies requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

Before Graduating Students Must

- Complete a capstone or independent research project, present your results to a committee of the program’s faculty and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Define and explain sustainability scholarship, including natural scientific, social scientific and humanistic approaches.
2. Define and explain the relationship of sustainability to ethics, culture and human behavior; economics, law and policy; production systems and the built environment; ecology and environmental stewardship.

Critical Thinking
3. Critically assess sustainability principles and practices.

Communication
4. Effectively write and/or orally communicate a range of approaches, frameworks, principles and practices of sustainability.

Sustainability Studies Minor
The interdisciplinary Sustainability Studies minor benefits from the teaching and research of faculty in multiple departments and colleges, and complements any major.

About this Program
• College: Liberal Arts and Sciences (p. 646)
• Credits: 18 | Completed with minimum grades of C

Department Information
Sustainability Studies prepares students for global citizenship while providing a broad foundation of sustainability knowledge and professional skill sets. Students gain experience and put their learning to work in the capstone internship course, Sustainability in Action.

Total Credits 18

1 A minimum of three courses of no fewer than three credits each must be at the 3000 level or above.

Students may apply to enroll in IDS 4942, a 3-credit capstone course that has a service learning, internship, or integrative research project component. If accepted into this capstone course students need only complete four cluster courses (12 credits), one from each of the four clusters.

Approved Cluster Courses
Courses for each cluster include those listed as approved cluster courses (p. 646) for the sustainability studies major, plus the following options:

Teaching English as a Second Language Certificate
The Teaching English as a Second Language (TESL) certificate is for students who want to teach English as a second language to adults, overseas or in the US.

About this Program
• College: Liberal Arts and Sciences (p. 646)
• Credits: 18 | Completed with minimum grades of C
• More info

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information
The Linguistics Department offers the Ph.D., M.A. (both thesis and non-thesis), B.A., and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level, and a SLAT (Second Language Acquisition and Teaching) certificate at the graduate level. We currently have almost 30 faculty (combining budgeted and affiliated personnel), well over 100 undergraduate majors, and approximately 40 graduate students.

Website (https://lin.ufl.edu/)
Teaching English as a Second Language Minor

The Teaching English as a Second Language (TESL) minor is intended for undergraduates who might want to work in English language programs in the United States or abroad.

About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 15 | Completed with minimum grades of C
- **More Info**

**Total Credits**: 18

1. Linguistics majors may count LIN 3010 and LIN 4721 toward both the major in linguistics and the TESL certificate.
2. Prerequisite: completion of at least four of the courses above. Fifth course must be taken simultaneously with TSL 4940.

Theories and Politics of Sexuality Minor

The Theories and Politics of Sexuality minor is useful for anyone who is curious about the place of sexuality and the institutions and practices organized around it (marriage, reproduction, the law, etc.) in life and culture.

About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 18 | Completed with minimum grades of C

Center Information
The Center for Gender, Sexualities, and Women’s Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people’s lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

1. 3 credits of WST 2611 or WST 2612 may be substituted for one 3 credit 3000-level approved elective.

Translation Studies Certificate

The Translation Studies certificate prepares students with advanced foreign language proficiency to use these skills in the global marketplace. Learn the foundations of translation theory, and apply an array of tools, methods, and approaches to translation of a variety of texts. In the capstone project, the student translates a text in their area of expertise under the supervision of area, translation, and language specialists.

Women's Studies

Women's Studies explores the ways gender impacts people's lives as it intersects with other systems of power such as race, class, and sexuality. The program draws on interdisciplinary scholarship to promote equity and social justice while deepening students' critical thinking and analytical skills. Students take courses taught by award-winning faculty in the Center for Gender, Sexualities, and Women's Studies Research, and may take approved courses offered in departments across the university as electives. There are also opportunities to engage in experiential learning through internships and mentored research.

About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Arts
- **Concentrations:** General Concentration | International Perspectives on Gender | Theories and Politics of Sexuality
- **Credits for Degree:** 120
- **More info**

To graduate with this major, students must complete all university, college, and major requirements.

Center Information

The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people's lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

P.O. Box 117352

Coursework for the Major

The major requires 30 credits of coursework in Women's Studies core and elective courses, at least 27 credits of which must be at the 3000/4000 level. All 30 credits must be completed with minimum grades of C. To ensure a good grasp of the content, theories and methods of Women's Studies scholarship, students have the option to take elective courses from a variety of departments in addition to those classes offered under the WST prefix designation.

Students are encouraged to fulfill some of the requirements with appropriate study-abroad courses and may petition the program to count courses outside of WST toward the major if they have significant (greater than 50 percent) gender and/or sexualities content. Because the major is so flexible, students should use the approved plan of study (http://wst.ufl.edu/undergraduate-studies/forms/) worksheets to plan and track their progress through the degree. Many courses offered in other departments are approved for Women's Studies credit.

1 Prereq.: WST 3015

A minimum of 18 credits for the major must be taken at UF.
Combination Degree Programs

Women's studies is an interdisciplinary field. The undergraduate and masters level programs provide general training in critical thinking, written and oral communication, and specific training in analysis of gender and interlocking systems of oppression including race, class, and sexualities. The combination B.A./M.A. degree offers a useful program for well-qualified students who may want careers in social service, law, business, education, policy planning, government and nongovernment organizations, and international development. Some MA recipients also choose to pursue further studies in a Ph.D. program once they graduate.

This accelerated program allows students to complete both the BA and the MA in 5 years, rather than the typical 6 if done separately. The program provides advanced training in research and analytic skills, which will be helpful for future employment and/or doctoral studies. Undergraduates enrolled in graduate courses will benefit from the more intense level of intellectual engagement involved in graduate training. More info (http://wst.ufl.edu/undergraduate-studies/bama-degree/)

Concentrations

General Concentration

Students in the general concentration tailor their coursework for maximum exposure to the various issues covered by Women's Studies scholarship. In addition to the core requirements, students take nine credits of approved electives focused on humanities, nine credits of approved electives focused on social science, and three credits of a gender and science-focused course or an internship (WST 4940).

International Perspectives on Gender

This concentration emphasizes the experiences of people around the globe, with an eye to achieving a cross-cultural perspective on gender, race, nation, power, sexuality, and the way social and cultural changes impact gender relations. In addition to the core requirements, students must take at least 21 credits from an approved list of IPG electives available on the Women's Studies website, updated each semester. More info (https://wst.ufl.edu/courses/)

Theories and Politics of Sexuality

This concentration introduces students to new ways of theorizing sex, sexual identities, and the significance of sexualities in social organization as they intersect with race and other systems of power. In addition to taking the three core requirements, students take a required three-credit sexualities course, either ENG 4844 or WST 3603. The remaining 18 credits are drawn from an approved list of TPS electives available on the Women's Studies website, updated each semester. More info (https://wst.ufl.edu/courses/)

Course Details

The core courses in women's studies give coherence to the plan of study that individual students devise.

- WST 3015 Interdisciplinary Perspectives in Women's Studies draws on various materials and methodologies to explore the social construction of gender as it intersects with other forms of power, primarily with a U.S. focus.
- WST 3415 Transnational Feminism introduces theories of gender and social change engendered by women in diverse national and international contexts. Contemporary economic development, reproductive politics, women's health, and migration are among the examined topics.
- WST 4935 Capstone Seminar is taken in the final year and allows students to reflect on their experience in the major and carry their interests forward through structured independent research tied to their scholarly or career interests.
- Students in the Theories and Politics of Sexualities concentration take an additional core course (WST 3603 or ENG 4844) that introduces them to key issues in contemporary Sexualities Studies.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.fldc.org/cpp/displayRecord.jsp?cip=050207&track=01) may be used for transfer students.

Women's studies is a flexible major without a specific gateway course or prerequisites for upper-division courses. In addition to maintaining a 2.0 overall UF GPA and a 2.5 critical-tracking GPA, students should have four women's studies courses (three at the 3000 level) completed by the fifth semester. It is required that one of these 3000-level courses be WST 3015 or WST 3415, and it is highly recommended that students take WST 3015 or WST 3415 in semester 4. Additionally, it is highly recommend that students complete both WST 3015 and WST 3415 by semester 5.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one women's studies course
- 2.0 UF GPA required

Semester 4

- Complete 1 additional women's studies course at the 3000 level (WST 3015 or WST 3415 recommended) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 2 additional women's studies courses at the 3000 level, including WST 3015 or WST 3415, with a 2.5 critical-tracking GPA. At least three of the four courses taken must be at the 3000 level or higher.
- 2.0 UF GPA required

Semester 6

- Complete 2 additional women's studies courses at the 3000 or 4000 level (recommendations: remaining 3000-level core course if not
taken yet, WST 4940 or Gender and Science designated course). At least five of the six courses taken must be at the 3000-level or higher.
• 2.0 UF GPA required

Semester 7

• Complete 2 additional women's studies courses at the 3000 or 4000 level (recommendations: remaining 3000-level core course if not taken yet, WST 4940 or Gender and Science designated course). At least seven of the eight courses taken must be at the 3000-level or higher.
• 2.0 UF GPA required

Semester 8

• Complete 2 additional women's studies courses at the 3000 level, (this must include any remaining core courses: WST 3015, WST 3415, WST 4940 or alternate, WST 4935, and any remaining Women’s Studies humanities or social science electives). At least nine of the ten courses taken must be at the 3000-level or higher.
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S).

Approved Women's Studies and gender-related courses may not count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 One general education option taken this term must be a Quest 2 course.

Academic Learning Compact

The Bachelor of Arts in women and gender studies provides knowledge of the core concepts of the interdisciplinary fields of gender and women’s studies. It offers insights into gender’s role in shaping human experience in U.S. and international contexts. Students will learn the theories behind gender and women's studies and how to interpret texts in light of those theories. They will also learn the field’s research methods and they will demonstrate the ability to communicate critical perspectives in the field.
Before Graduating Students Must

- Satisfactorily complete an internship with an outside agency, a service learning course or a research-based project submitted for evaluation to core or affiliated women's studies faculty. Assessment will be based on SLOs 1-3.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify the terminology and concepts central to the interdisciplinary field of gender and women's studies.

Critical Thinking
2. Examine and interpret material using the theory and research methods of gender and women's studies and apply these ideas to current social issues.

Communication
3. Present ideas concerning gender and women's studies in spoken and written form.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 18 | Completed with minimum grades of C

Center Information

The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people's lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

Curriculum

- Combination Degrees
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Women's Studies
- Women's Studies Minor

Requirements

- No more than three credits of independent study or internship may apply to the minor.
- All courses must be completed with minimum grades of C except internships, which are taken S/U.
- Six transfer credits can apply toward the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Each semester, classes approved for this minor will be listed on the Women's Studies courses webpage.

1 3 credits of WST 2611 or WST 2612 or approved Quest courses may be substituted for one 3 credit 3000-level approved elective.

Women's Studies Minor

Women's Studies explores the ways gender impacts people's lives as it intersects with other systems of power such as race, class, and sexuality. The minor draws on interdisciplinary scholarship to promote equity and social justice while deepening students' critical thinking and analytical skills. Students take courses taught by award-winning faculty in the Center for Gender, Sexualities, and Women's Studies Research, and may take approved courses offered in departments across the university as electives. There are also opportunities to engage in experiential learning through internships and mentored research. The minor is open to students from across the university, including those outside the College of Liberal Arts and Sciences.
Zoology

Zoology majors focus on the study of individual organisms and populations, as well as their relationships to each other and the environment, with the core foundation of evolution and ecology. Courses also emphasize the disciplines of anatomy, behavior, genetics, physiology, and other specialized fields.

About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Science
- **Credits for Degree**: 120
- **More info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences. Website (https://biology.ufl.edu/)

- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

Courses introduce zoology majors to a wide variety of topics while allowing individual interests to be pursued. Advanced undergraduate students are encouraged to participate in research with faculty.

Most career opportunities require advanced studies beyond the bachelor’s degree. This includes preparation for graduate studies or employment in disciplines such as zoology, ecology, conservation, and biology research; preparation for medical, dental, or veterinary programs; or preparation for secondary-school teaching.

Ultimately, the undergraduate degree in zoology will be shaped by students’ coursework, laboratory experience, field work, and the instructors they encounter. These experiences will help to shape their goals as biologists with a focus on zoology.

Majors should work both with a department advisor and a CLAS advisor. CLAS advisors will assist with degree requirements, university and college policy and course selection. Department advisors will help students select appropriate graduate programs, guide them in the admissions process, and help identify appropriate career choices. More Info (https://biology.ufl.edu/undergraduates/zoology/)

Coursework for the Major
A zoology major consists of a minimum of 32 credits of core zoology coursework plus a minimum of 31 credits of foundation coursework in chemistry, physics, and mathematics/statistics. Courses used toward the major must be completed with minimum grades of C.

Select one:

| Option A | | |
|PHY 2053 & 2053L | Physics 1 and Laboratory for Physics 1 | 8 |
|PHY 2054 & 2054L | Physics 2 and Laboratory for Physics 2 | 8 |

| Option B | | |
|PHY 2048 & 2048L | Physics with Calculus 1 and Laboratory for Physics with Calculus 1 | 8 |
|PHY 2049 & 2049L | Physics with Calculus 2 and Laboratory for Physics with Calculus 2 | 8 |

| **Required Core Coursework** | | |
|BSC 2010 & 2010L | Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 | 8 |
|BSC 2111 & 2111L | Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 | 8 |
|PCB 3063 | Genetics | 4 |
|Zoology or zoology-related electives | | 20 |

Select at least three courses in zoology: 9-10

- One or more 3000/4000-level ZOO course(s) offered through the Department of Biology
- BSC 3402 | Theory and Practice in the Biological Sciences |
- BSC 4936 | Critical Analysis of Biological Research |
- PCB 4043C | General Ecology |
- PCB 4674 | Evolution |
- PCB 4723C | Physiology and Molecular Biology of Animals |
- PCB 5415C | Behavioral Ecology |

| Additional zoology courses (minimum) | | 11 |
| | | |

Total Credits 83-87

1 Students may not apply ZOO 4232, ZOO 4905, ZOO 4911, or ZOO 4940 toward this requirement.

2 Including up to two zoology major-approved biological science courses (https://biology.ufl.edu/undergraduates/approvedcourses/) (3000/5000 level) outside of zoology.
Up to six credits of Individual Studies in Zoology will count toward this requirement:
- BOT 4911
- BSC 4910
- BSC 4912
- ZOO 4905
- ZOO 4911

Students should begin the chemistry and math sequences as soon as possible. A full year of calculus and a course in statistics (such as STA 2023) are highly recommended.

Transfer students must take at least three courses from the Department of Biology (excluding ZOO 4905, ZOO 4911, and ZOO 4940) at the University of Florida as part of the requirements for the major.

Additional Zoology Courses

<table>
<thead>
<tr>
<th>Code</th>

</tbody>
</table>

1. Up to six credits of Individual Studies in Zoology will count toward this requirement:
   - BOT 4911
   - BSC 4910
   - BSC 4912
   - ZOO 4905
   - ZOO 4911

2. Students may not apply ZOO 4232 or ZOO 4940 toward this requirement.

Relevant Minors and/or Certificates

Majors in zoology can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. For instance, a zoology major can earn a minor in chemistry by adding just two chemistry courses: CHM 3400, CHM 3610, or any 4000-level CHM course. Students could also consider language and humanities minors. Note that zoology majors cannot minor in biology, nor can biology majors minor in zoology (the curricula for the zoology and biology majors are too similar).

Zoology students might want to consider the UFTeach Program. There is a severe shortage of qualified high school science teachers in Florida and nationwide. Students interested in the high-demand teaching profession should see a biology department advisor or the UFTeach advisor. Students who complete the UFTeach minor in science teaching and a B.S. in zoology will have the coursework and preparation for professional teacher certification in Florida when they graduate. More Info (http://education.ufl.edu/uf-teach/)

Research

All zoology majors are strongly encouraged to participate in research. Research experience is valuable on many levels: it diversifies your college experience; it teaches you how scientists apply the knowledge gained in the classroom to real-world questions; it gives you the opportunity to work with and get to know researchers who are the best in their field; it introduces you to cutting-edge scientific questions and techniques; it enhances your resume/CV if you apply to graduate or professional school; and finally, it is essential in helping you determine if science is a good career choice for you.

More Info (https://biology.ufl.edu/undergraduates/research/)

CLAS zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, HHMI Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Please visit Undergraduate Research for more information regarding course credit. Students who plan to enroll for course credit must contact potential research mentors before the end of drop/add. If they miss the drop/add window, they should still contact potential research mentors, if only to discuss upcoming opportunities.

More Info (https://cur.aa.ufl.edu/)

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260701&track=01) may be used for transfer students.

Semester 1
- Complete one of the following in BSC, CHM, or MAC:
  - BSC 2010/2010L; CHM 1025 or CHM 2045/CHM 2045L;
  - MAC 1114, MAC 1140, MAC 1147, or MAC 2311
- 2.0 UF GPA required

Semester 2
- Complete CHM 2045/CHM 2045L; and BSC 2010/2010L or MAC 2311
- 2.0 UF GPA required

Semester 3
- Complete BSC 2010/2010L and MAC 2311 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4
- Complete CHM 2046/CHM 2046L and BSC 2011/2011L with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5
- Complete CHM 2210 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6
- Complete at least one 3000/4000 level course towards the required core coursework (3000/4000 level ZOO course, PCB 3063, BSC 3402,
PCB 4043C, PCB 4674, PCB 5415C, PCB 4723C, or approved biological science course)
- 2.0 UF GPA required

**Semester 7**
- Complete Physics I requirement: PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
- Complete at least two 3000/4000 level courses towards the required core coursework
- 2.0 UF GPA required

**Semester 8**
- Complete all remaining major course requirements.
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Approved Zoology electives outside of the department may not count towards the 3000 level or above elective outside of the major requirement. CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 Select CHM 2211 if CHM 2210 was taken Semester 3.
Academic Learning Compact

The Bachelor of Science in zoology offers students an education in the life sciences with an emphasis on animal systems. Students gain knowledge about the diversity of life (its evolution and significance) and about the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). They will learn about the scientific method and how it facilitates the discovery of new knowledge in zoology and biology. This includes how to critically evaluate hypotheses and conclusions in science using verifiable data and how to clearly and effectively communicate the major concepts and hypotheses in zoology and biology and in an appropriate style of presentation.

Before Graduating Students Must

• Pass an assessment in the two or three 3000/5000-level zoology courses.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Zoology Minor

The Zoology minor provides a solid foundation in the biology of animals, from the molecular to the organismal level, as well as their relationships to each other and the environment.

About this Program

• College: Liberal Arts and Sciences (p. 646)
• Credits: 17-18 | Completed with minimum grades C

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

1 Minimum of three courses and nine credits; must include at least one ZOO course.

Not all PCB and ZOO courses are offered by the Department of Biology. Students should search “Zoology” or “Biological Sciences” on https://one.uf.edu/soc/ to ensure that their desired courses are in the correct department.

Excluding PCB 1050, PCB 1051, PCB 2050, PCB 2441, PCB 3134, PCB 3601C, PCB 4233, PCB 4522, PCB 4917, ZOO 4232, and any other courses not offered by the Department of Biology.

Natural Resources and Environment, School of

The School of Natural Resources and Environment provides interdisciplinary environmental degree programs and develops leaders with integrated thinking about natural and social systems. The school’s undergraduate curriculum spans the range of human knowledge needed to solve complex environmental problems not amenable to narrowly based solutions.

Academic Advising

103 Black Hall
352.846.1634

Established

1995

Degrees

Bachelor of Science in environmental science with specializations in environmental science and natural resource management, and a Bachelor of Arts in environmental science with specializations in environmental education, environmental policy and environmental policy and business.

Internships and Career Guidance

The dean’s office maintains a list of potential sources of internships. The school grants course credit for internships (S-U grades, 1-3 credits, one per semester up to a maximum of three semesters) to enable maintenance of student status.

Programs

The school operates horizontally across UF’s structure of academic disciplines, offering more than 200 courses taught in 50 departments. Faculty members from these departments are affiliated with the school.

Scholarships

General financial aid information is available from the Office of Student Financial Affairs. Students are eligible for scholarships awarded by the College of Agricultural and Life Sciences.

Academic Policies

Admission Requirements

Admission requirements for freshmen and students other than first-semester freshmen are found in the College of Agricultural and Life Sciences’ Academic Policies.

School Requirements and Regulations

Students admitted to the school have full responsibility for registering for appropriate courses and fulfilling school and university requirements. During their first term in the school, students must obtain academic advising and a plan of study worksheet from 103 Black Hall.

Students should review the relevant information in this catalog each term to track and plan the progress of their academic work. Failure to understand and follow these guidelines could cause unnecessary hardship, delay and expense.

Dean’s List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Probation

Refer to the College of Agricultural and Life Sciences’ Academic Policies.

Degree Requirements

Graduation requires satisfactory completion of 120 credits for the B.S. or B.A. degree and a cumulative 2.00 GPA in both the upper-division and the overall UF GPA.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

Combination Degrees
Eligible seniors in the School of Natural Resources and Environment can also participate in a combination degree that combines a B.A./B.S. in environmental science with a Master of Science in interdisciplinary ecology. More Info (p. 1099)

Environmental Science
Environmental Science is the study of people’s role in our natural systems. Using an interdisciplinary approach, the Environmental Science program approaches complex environmental issues across multiple perspectives. Environmental Science students study ecology, soil and water sciences, and natural resource management as well as environmental ethics, economics, policy, and law.

About this Program

Map ([http://campusmap.ufl.edu/#/index/0724](http://campusmap.ufl.edu/#/index/0724))

Curriculum
- Combination Degrees
- Environmental Science
- Environmental Science Minor

The environmental science degree approaches complex environmental issues with reliable knowledge and interdisciplinary perspectives, and provides the full range of knowledge relevant to complex environmental problems. This includes biological and physical sciences, ethics, economics, policy and law.

The degree prepares graduates for jobs in environmental consulting companies, government environmental offices or land and water management agencies, or non-government organizations. About one-third of environmental science students advance to graduate or professional degree programs. The combination of the school’s broad undergraduate degree with a subsequent degree is highly marketable.

The school also offers a combination-degree program offering a bachelor’s degree in environmental science and a Master of Science in interdisciplinary ecology.

Core Requirements for Both Degrees
Students take a core of courses, including a general course in environmental science and courses in ethics, ecology, chemistry, earth science, global science, hydrologic systems, and policy and natural resource management.

The core provides 31-32 credits of coursework in physical, biological and social sciences. The B.S. and B.A. tracks are similar. The B.S. includes one course in policy and one in organic chemistry; the B.A. includes two policy courses and no organic chemistry.

Beyond the core requirement, each student selects 21-27 additional credits from electives for the major. During the fourth year, all students take a capstone course where critical thinking skills are developed.

The freshmen and sophomore years lay a foundation of coursework for building later expertise. Students need to know the natural sciences of physics, chemistry and biology, with laboratory experience in each area. Study of microeconomics and macroeconomics are required to understand the human economy. Introductory statistics empowers students to independently evaluate sets of numbers. College algebra and an introduction to calculus enable students to work with rates of change, the heart of ecological science.

Coursework in the core of the major provides a base of common knowledge and experience in subjects essential to environmental science. Then students diverge into electives chosen according to individual interest. Senior-year students return to a common course that develops critical-thinking skills by confronting conflicts of ecological and economic paradigms, synthesizing across physical, biological and social systems, and engaging diverse knowledge and views to help resolve key environmental problems.

The preprofessional courses for the Bachelor of Science prepare students for a more science-oriented major. The requirements for the Bachelor of Arts include less chemistry, physics and mathematics, in preparation for a major that is more focused on the sociopolitical aspects of environmental science.

Total Credits 28-38

¹ If taken from one group, this course does not satisfy the requirement for a course from the other group.

Preprofessional Requirements for Both Degrees

Each student must fulfill preprofessional requirements that differ slightly for the B.S. and B.A. degrees. These consist of courses in chemistry, physics, biology, calculus, statistics and economics, totaling 39-46 (typically 43) credits for the B.S. and 31-39 (typically 34) credits for the B.A.

In addition to the preprofessional requirements, all students are responsible for completing the university’s general education and the writing requirement.

Certain preprofessional requirements simultaneously satisfy 18-21 credits (depending on courses selected) of the general education mathematics, physics, biology, and social and behavioral science. Remaining general education requirements include 15-18 credits (depending on preprofessional courses taken) in composition, humanities and social and behavioral sciences.

The 12 credits of writing requirements include 3-12 credits taken for general education and preprofessional requirements, depending on selections. The six credits of math requirements are satisfied by preprofessional requirements.

For efficiency, freshmen should seek to maximize overlap of preprofessional requirements with general education and the writing requirement, as outlined below:

- Science preprofessional requirements satisfy up to 12 credits of physical and biological sciences (the basic nine-credit requirement plus the variable three credits from a category). Students should allocate the variable three credits to physical and biological sciences to reduce the humanities requirement from nine to six credits.
- Economics preprofessional requirements satisfy up to eight of the nine-credit social and behavioral sciences requirement (eight if satisfied with ECO 2013 and ECO 2023; four if satisfied with AEB 3103).
- Policy preprofessional requirement (POS 2041) for B.A. students satisfies the remaining social and behavioral sciences requirement. B.S. students can satisfy the remaining social and behavioral sciences requirement with certain core courses, under ethics (AEB 4126) and policy.
- Satisfying the preceding requirements leaves 18 credits: six for humanities, three for composition and nine for writing.
- Students should take humanities, composition and writing courses that also satisfy the three-credit international studies requirement, such as LIT 2110 or LIT 2120, and the three-credit diversity requirement with a REL 2388 or WST 2611 overlap.
**Academic Learning Compact**

Environmental science is the science of humanity’s role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.

**Before Graduating Students Must**
- Complete at least one course in each of the foundation areas.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Acquire knowledge and demonstrate understanding of basic terminology, concepts, methodologies and theories in the physical and biological sciences that describe environmental systems.
2. Acquire knowledge of essential concepts in the social sciences that describe human activity in the environment.

**Critical Thinking**
3. Apply the scientific method to develop reasoned solutions to environmental problems.

**Communication**
4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in both written and oral forms.

The Bachelor of Arts degree in environmental science focuses on the social sciences that connect the natural sciences and engineering to society.

Preprofessional Requirements for Both Degrees

Each student must fulfill preprofessional requirements that differ slightly for the B.S. and B.A. degrees. These consist of courses in chemistry, physics, biology, calculus, statistics and economics, totaling 39-46 (typically 43) credits for the B.S. and 31-39 (typically 34) credits for the B.A.

In addition to the preprofessional requirements, all students are responsible for completing the university’s general education and the writing requirement.

Certain preprofessional requirements simultaneously satisfy 18-21 credits (depending on courses selected) of the general education mathematics, physics, biology, and social and behavioral science. Remaining general education requirements include 15-18 credits (depending on preprofessional courses taken) in composition, humanities and social and behavioral sciences.

The 12 credits of writing requirements include 3-12 credits taken for general education and preprofessional requirements, depending on selections. The six credits of math requirements are satisfied by preprofessional requirements.

For efficiency, freshmen should seek to maximize overlap of preprofessional requirements with general education and the writing requirement, as outlined below:

- Science preprofessional requirements satisfy up to 12 credits of physical and biological sciences (the basic nine-credit requirement plus the variable three credits from a category). Students should allocate the variable three credits to physical and biological sciences to reduce the humanities requirement from nine to six credits.
- Economics preprofessional requirements satisfy up to eight of the nine-credit social and behavioral sciences requirement (eight if satisfied with ECO 2013 and ECO 2023; four if satisfied with AEB 3103).
- Policy preprofessional requirement (POS 2041) for B.A. students satisfies the remaining social and behavioral sciences requirement. B.S. students can satisfy the remaining social and behavioral sciences requirement with certain core courses, under ethics (AEB 4126) and policy.
- Satisfying the preceding requirements leaves 18 credits: six for humanities, three for composition and nine for writing.
- Students should take humanities, composition and writing courses that also satisfy the three-credit international studies requirement, such as LIT 2110 or LIT 2120, and the three-credit diversity requirement with a REL 2388 or WST 2611 overlap.

Bachelor of Arts

E范式定的他的学平的人象去的力面的环境科学关注于社会科学，将自然科学与工程学联系起来。

学面的文科学科

学的文科学科集中于社会科学，将自然科学与工程学联系起来。
### Semester 8
- Complete EVS 4021 (capstone) and the remaining courses for the degree
- 2.0 upper division GPA required
- 2.0 UF GPA required

#### Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 If this course was taken to fulfill the core requirement, it cannot fulfill the elective requirement. Students must select a substitution from the electives for the major.

---

**Academic Learning Compact**

Environmental science is the science of humanity's role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.

**Before Graduating Students Must**

- Complete at least one course in each of the foundation areas.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Acquire knowledge and demonstrate understanding of basic terminology, concepts, methodologies and theories in the physical and biological sciences that describe environmental systems.
2. Acquire knowledge of essential concepts in the social sciences that describe human activity in the environment.

Critical Thinking
3. Apply the scientific method to develop reasoned solutions to environmental problems.

Communication
4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in both written and oral forms.

Bachelor of Science

Environmental Science is the study of people's role in our natural systems. Using an interdisciplinary approach, the Environmental Science program approaches complex environmental issues across multiple perspectives. Environmental Science students study ecology, soil and water sciences, and natural resource management as well as environmental ethics, economics, policy, and law.

About this Program
- **College:** Agricultural and Life Sciences (p. 70)
- **School:** Natural Resources and Environment (p. 1022)
- **Degrees:** Bachelor of Arts (p. 1025) | Bachelor of Science (p. 1030)

- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.

Curriculum
- **Combination Degrees**
- **Environmental Science**
- **Environmental Science Minor**

The environmental science degree approaches complex environmental issues with reliable knowledge and interdisciplinary perspectives, and provides the full range of knowledge relevant to complex environmental problems. This includes biological and physical sciences, ethics, economics, policy and law.

The degree prepares graduates for jobs in environmental consulting companies, government environmental offices or land and water management agencies, or non-government organizations. About one-third of environmental science students advance to graduate or professional degree programs. The combination of the school's broad undergraduate degree with a subsequent degree is highly marketable.

The school also offers a combination-degree program offering a bachelor's degree in environmental science and a Master of Science in interdisciplinary ecology.

Core Requirements for Both Degrees

Students take a core of courses, including a general course in environmental science and courses in ethics, ecology, chemistry, earth science, global science, hydrologic systems, and policy and natural resource management.

The core provides 31-32 credits of coursework in physical, biological and social sciences. The B.S. and B.A. tracks are similar. The B.S. includes one course in policy and one in organic chemistry; the B.A. includes two policy courses and no organic chemistry.

Beyond the core requirement, each student selects 21-27 additional credits from electives for the major. During the fourth year, all students take a capstone course where critical thinking skills are developed.

The freshmen and sophomore years lay a foundation of coursework for building later expertise. Students need to know the natural sciences of physics, chemistry and biology, with laboratory experience in each area. Study of microeconomics and macroeconomics are required to understand the human economy. Introductory statistics empowers
students to independently evaluate sets of numbers. College algebra and
an introduction to calculus enable students to work with rates of change,
the heart of ecological science.

Coursework in the core of the major provides a base of common
knowledge and experience in subjects essential to environmental
science. Then students diverge into electives chosen according to
individual interest. Senior-year students return to a common course that
develops critical-thinking skills by confronting conflicts of ecological and
economic paradigms, synthesizing across physical, biological and social
systems, and engaging diverse knowledge and views to help resolve key
environmental problems.

The preprofessional courses for the Bachelor of Science prepare
students for a more science-oriented major. The requirements for the
Bachelor of Arts include less chemistry, physics and mathematics, in
preparation for a major that is more focused on the sociopolitical aspects
of environmental science.

Total Credits

28-38

1. If taken from one group, this course does not satisfy the requirement for a course from the other group.

Preprofessional Requirements for Both Degrees

Each student must fulfill preprofessional requirements that differ slightly
for the B.S. and B.A. degrees. These consist of courses in chemistry,
physics, biology, calculus, statistics and economics, totaling 39-46
(typically 43) credits for the B.S. and 31-39 (typically 34) credits for the
B.A.

In addition to the preprofessional requirements, all students are
responsible for completing the university’s general education and the
writing requirement.
Certain preprofessional requirements simultaneously satisfy 18-21 credits (depending on courses selected) of the general education mathematics, physics, biology, and social and behavioral science. Remaining general education requirements include 15-18 credits (depending on preprofessional courses taken) in composition, humanities and social and behavioral sciences.

The 12 credits of writing requirements include 3-12 credits taken for general education and preprofessional requirements, depending on selections. The six credits of math requirements are satisfied by preprofessional requirements.

For efficiency, freshmen should seek to maximize overlap of preprofessional requirements with general education and the writing requirement, as outlined below:

- Science preprofessional requirements satisfy up to 12 credits of physical and biological sciences (the basic nine-credit requirement plus the variable three credits from a category). Students should allocate the variable three credits to physical and biological sciences to reduce the humanities requirement from nine to six credits.
- Economics preprofessional requirements satisfy up to eight of the nine-credit social and behavioral sciences requirement (eight if satisfied with ECO 2013 and ECO 2023; four if satisfied with AEB 3103).
- Policy preprofessional requirement (POS 2041) for B.A. students satisfies the remaining social and behavioral sciences requirement. B.S. students can satisfy the remaining social and behavioral sciences requirement with certain core courses, under ethics (AEB 4126) and policy.
- Satisfying the preceding requirements leaves 18 credits: six for humanities, three for composition and nine for writing.
- Students should take humanities, composition and writing courses that also satisfy the three-credit international studies requirement, such as LIT 2110 or LIT 2120, and the three-credit diversity requirement with a REL 2388 or WST 2611 overlap.

**Bachelor of Science**

The Bachelor of Science degree in environmental science emphasizes the applied sciences and the basic sciences from which they derive. The track is designed to prepare for employment or for graduate or professional school.

Elective courses required beyond the core requirements are distributed among four categories: physical sciences, biological sciences, human dimensions and additional skills and concepts. For advice on choice of electives, consult the advisor in 103 Black Hall. Students pursuing the Bachelor of Science who want more environmental policy electives can substitute them for the courses in human dimensions. For advice on choice of elective courses required beyond the core requirements are distributed among four categories: physical sciences, biological sciences, human dimensions and additional skills and concepts. For advice on choice of electives, consult the advisor in 103 Black Hall. Students pursuing the Bachelor of Science who want more environmental policy electives can substitute them for the courses in human dimensions.

Courses taken to fulfill the core requirements cannot fulfill elective requirements. Students can substitute graduate courses for electives, with approval of the school and permission of the instructor. To substitute a 5000-level course or higher, the student must have senior standing and a junior/senior-level GPA of at least 3.0.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030104&track=01) may be used for transfer students.

**Semester 1**
- Complete 2 of 11 critical-tracking courses, excluding labs:
  - 2.0 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

**Semester 2**
- Complete 3 additional courses of the 11 critical-tracking courses, excluding labs
  - 2.0 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

**Semester 3**
- Complete 3 additional critical-tracking courses, excluding labs
  - 2.0 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

**Semester 4**
- Complete 3 additional critical-tracking courses, excluding labs
  - 2.0 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

**Semester 5**
- Complete all 11 critical-tracking courses, including labs
  - 2.0 GPA required for all critical-tracking courses
  - 2.0 UF GPA required
  - 2.0 upper division GPA required

**Semester 6**
- Complete at least 2 core classes
  - 2.0 upper division GPA required
  - 2.0 UF GPA required

**Semester 7**
- Complete EVS 4021 (capstone)
  - 2.0 upper division GPA required
  - 2.0 UF GPA required

**Semester 8**
- Complete the remaining core classes
  - 2.0 upper division GPA required
  - 2.0 UF GPA required

---

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.
Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Course | Title | Credits
---|---|---
**Semester One**
Quest 1 (Gen Ed Humanities) | 3
CHM 2045 & 2045L | General Chemistry 1 and General Chemistry 1 Laboratory (Critical Tracking: State Core Gen Ed Biological and Physical Sciences) | 4
MAC 2311 | Analytic Geometry and Calculus 1 (Critical Tracking: State Core Gen Ed Mathematics) | 4
Gen Ed Composition (according to placement) | 3

| Credits | 14 |

**Semester Two**
Quest 2 | 3
CHM 2046 & 2046L | General Chemistry 2 and General Chemistry 2 Laboratory (Critical Tracking: Gen Ed Physical Sciences) | 4
MAC 2312 | Analytic Geometry and Calculus 2 (Critical Tracking: Gen Ed Mathematics) | 4
STA 2023 | Introduction to Statistics 1 (Critical Tracking: Gen Ed Mathematics) | 3

| Elective | 2 |

| Credits | 16 |

**Semester Three**
BSC 2010 & 2010L | Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 (Critical Tracking: State Core Gen Ed Biological and Physical Sciences) | 4
ECO 2013 | Principles of Macroeconomics (Critical Tracking: State Core Gen Ed Social and Behavioral Sciences) | 4
PHY 2004 & 2004L | Applied Physics 1 and Laboratory for Applied Physics 1 (Critical Tracking: Gen Ed Biological Sciences and Physical Sciences) | 4

State Core Gen Ed Humanities with Diversity or International (p. 53) | 3

| Credits | 15 |

**Semester Four**
BSC 2011 & 2011L | Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (Critical Tracking: Gen Ed Biological Sciences and Physical Sciences) | 4
Select one:
ECO 2023 | Principles of Microeconomics (Critical Tracking: Gen Ed Social and Behavioral Sciences) | 4
Elective (Critical Tracking) | |
PHY 2005 & 2005L | Applied Physics 2 and Laboratory for Applied Physics 2 (Critical Tracking: Gen Ed Biological Sciences and Physical Sciences) | 4

| Credits | 15 |

- **State Core Gen Ed Composition (p. 53)** | 3
- **Semester Five**
  EVS 3000 & 3000L | Environmental Science and Environmental Science Laboratory | 4
  Ecology elective | 3-4
  Environmental ethics elective | 3
  Environmental policy elective | 3-4
  Organic chemistry elective | 3-4

| Credits | 16-19 |

- **Semester Six**
  Earth and soil science elective | 3-4
  Global systems elective | 3
  Hydrologic systems elective | 3-4
  Natural resource management elective | 3
  Elective for the major | 3

| Credits | 15-17 |

- **Semester Seven**
  EVS 4021 | Critical Thinking in Environmental Science (Critical Tracking) | 3
  Elective | 3
  Electives for the major | 9

| Credits | 15 |

- **Semester Eight**
  Biological sciences elective | 3
  Human dimensions elective | 3
  Physical sciences elective | 3
  Electives for the major (if needed) | 5

| Credits | 14 |

| Total Credits | 120 |

---

1. If CHM 1025 was taken in preparation for CHM 2045, the extra credits count toward the degree.
2. If students precede this sequence with MAC 1114 and MAC 1140 or MAC 1147, the extra credits count as electives toward the degree. Students can substitute MAC 2233 and MAC 2234 for MAC 2311 and MAC 2312, but this may preclude access to certain courses.
3. These courses may be used as substitutes:
   - PHY 2053 and PHY 2053L for PHY 2004 and PHY 2004L;
   - PHY 2054 and PHY 2054L for PHY 2005 and PHY 2005L.
4. From master list.

Students preparing for science modeling in graduate school should take MAP 2302 as an elective.

Approved Electives

Environmental Science Minor

Academic Learning Compact
Environmental science is the science of humanity's role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.

Before Graduating Students Must
• Complete at least one course in each of the foundation areas.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Acquire knowledge and demonstrate understanding of basic terminology, concepts, methodologies and theories in the physical and biological sciences that describe environmental systems.
2. Acquire knowledge of essential concepts in the social sciences that describe human activity in the environment.

Critical Thinking
3. Apply the scientific method to develop reasoned solutions to environmental problems.

Communication
4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in both written and oral forms.

Environmental Science Minor

The Environmental Science minor is intended for majors in science, engineering or business, providing exposure to the major subject areas of the environmental core.

About this Program
• College: Agricultural and Life Sciences (p. 70)
• School: Natural Resources and Environment (p. 1022)
• Credits: 15-17 | Completed with minimum grades of C

School Information
The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council. Website (http://snre.ifas.ufl.edu/)

Curriculum
• Combination Degrees
• Environmental Science
• Environmental Science Minor

Students outside the School of Natural Resources and Environment can apply for admission to the minor as long as they earn 45 credits before applying. The application is available in 2020 McCarty Hall D. Students first must obtain their college's approval before submitting the completed form for processing.

Transfer work will be accepted only for PCB 4043C and an earth and soil systems course (refer to core requirements for the major). Admission consideration requires a minimum overall 2.0 GPA on all UF coursework attempted.

Established

1956

Accredited

Degree programs approved by the Florida State Board of Nursing and accredited by the Commission on Collegiate Nursing Education.

Academic Advising

Students interested in a career in nursing should contact the Office of Student Affairs for advising before they submit an application for admission.

Degrees

Bachelor of Science in Nursing (BSN) with three track options: traditional, accelerated, and RN-BSN. The college also offers a Doctor of Nursing Practice (DNP) and a Doctor of Philosophy (PhD) in nursing science.

Training Opportunities

The colleges of the Health Science Center and their associated healthcare delivery networks provide students access to an integrated system of community hospitals and clinics, statewide home health care, a veterans’ health system and UF Health Shands Hospital. The College of Nursing maintains and participates in nursing and interdisciplinary care across the lifespan including women, children, adults, and the elderly with special emphasis on under-served and rural populations.

Academic Policies

Admission to the College

More Info (https://admissions.nursing.ufl.edu/)
Students planning to enter the Traditional BSN program must complete general education and pre-professional requirements by the end of spring semester of the sophomore year. Standards for continuation are established for nursing majors and continuing students are monitored by the college.

Degree audits identify progress toward the degree and are posted on ONE.UF (https://one.uf.edu/) after the fall and spring semesters. Critical-tracking criteria are outlined in the curriculum plans.

Students who desire to change their major to nursing should do so by the completion of their first academic year.

The college’s online application for admission to upper-division coursework must be made by the March 1 deadline. Students will be admitted after spring grades have been posted.

Admission evaluation factors include, but are not limited to, academic record, cumulative grade point average, performance in pre-professional courses, the extent to which the applicant exceeds minimum requirements, relevant student attributes, experiences, and career goals.

Students begin upper-division nursing studies in the fall semester of the junior year.

**Limited-Access Program**

The University of Florida's baccalaureate nursing curriculum is a high-demand, limited-access program. Enrollment is limited because of the high cost for program delivery as well as limited availability of clinical learning facilities and limited availability of qualified faculty necessary to maintain appropriate faculty-to-student ratios in all clinical areas. Because of limited enrollment and the number of applications, many qualified applicants are unable to be admitted to the College of Nursing’s upper-division nursing courses.

**Minimum Application Requirements for Native UF Students**

- Completed 60 credits of required preprofessional and general education courses by the end of the spring semester prior to admission
- Minimum GPA of 3.0 (on a 4.0 scale) overall and for preprofessional courses
- Minimum grades of C in all required preprofessional courses
- Satisfactory completion of communication and computations requirement (Gordon Rule).
- Completion of the HESI Academic Assessment (A2) Test

**Minimum Application Requirements for Transfer Students**

More Info (p. 15)

For application information, all transfer students should refer to the admission as a transfer student section of the catalog. Transfer applicants must meet all university and college-specific admission requirements. Applicants from other institutions who have satisfied minimum requirements will be considered for admission at the junior level on a space-available basis.

**Students from Florida Public Colleges**

- Associate of Arts degree by the end of springs semester prior to admission
- Completed 60 credits of required preprofessional and general education courses by the end of the spring semester prior to admission
- Completed two sequential courses of foreign language in secondary school or 8-10 semester credits at the postsecondary level, or document an equivalent level of proficiency
- Minimum overall 3.0 GPA (4.0 scale) and a 3.0 GPA on all preprofessional courses
- Completion of required prerequisite courses with a grade of C
- Completion of the HESI Academic Assessment (A2) Test, application requirement

**Students from Other Universities**

- Completed 60 credits of required preprofessional and general education courses by the end of the spring semester prior to admission
- Completed two sequential courses of foreign language in secondary school or 8-10 semester credits at the post-secondary level, or document an equivalent level of proficiency
- Minimum overall 3.0 GPA (4.0 scale) and a 3.0 GPA on all preprofessional courses
- Minimum grades of C in all required preprofessional courses
- Completion of the HESI Academic Assessment (A2) Test, application requirement

**College Regulations, All Students**

**Before Enrolling in Nursing Courses**

- Compliance with university, college and agency health policy requirements and immunizations
- Certification in basic cardiopulmonary resuscitation (CPR) for healthcare providers
- Proof of current health insurance coverage
- Criminal Background Check and Drug Screen

**Expenditures**

Expenditures specific to nursing courses include, but are not limited to, specialized equipment, uniforms, laboratory fees for clinical courses and transportation for off-campus experiences.

**Health Policy**

The college requires specific immunizations and periodic health screenings. Compliance with health policies is required for clinical coursework. Students are expected to be physically and mentally able to perform the essential functions of the nursing curriculum and may be requested to provide appropriate medical documentation.

**Degree Requirements**

For graduation from the BSN program:

- **Traditional Track**: Completion of 120 credits, including 60 junior/senior-level credits
- **Accelerated Track**: Completion of 60 credits, post-baccalaureate
- **RN-BSN Track**: Completion of 60 credits, post AA degree or 60 transferable semester credits
• A minimum grade of C in each nursing course.
• Adherence to the standards of acceptable conduct as outlined in the American Nurses Association Code of Ethics, the Florida Nurse Practice Act, the university’s Student Guide and the Undergraduate Catalog.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

Traditional Track Only

Licensure
Upon satisfactory completion of the baccalaureate curriculum, the graduate will be awarded the Bachelor of Science in Nursing and is academically eligible to apply for the NCLEX-RN examination for state licensure as a registered nurse.

Accelerated Baccalaureate Degree Program
The College of Nursing offers an accelerated course of study for a baccalaureate degree in nursing. This program is for students with a baccalaureate or higher degree in another field.

The accelerated baccalaureate curriculum begins each summer and is completed in four consecutive semesters of fulltime study.

More Info (https://admissions.nursing.ufl.edu/)

Minimum Application Requirements
• A baccalaureate or higher degree from a nationally accredited college or university in a field other than nursing
• 3.0 GPA (on 4.0 scale), calculated on the most recent 60 credits taken toward the bachelor's degree or a cumulative 3.0 GPA toward a masters or doctoral degree
• Required prerequisite course must have been completed within the past seven years with a minimum grade of C. No more than two prerequisite courses can be in progress during the spring semester prior to admission
• 1 academic letter of reference and 1 personal letter of reference
• Resume / curriculum vitae
• Essay that responds to questions specified on the NursingCAS site

Before Enrolling in Nursing Courses
• Compliance with college health policy requirements and immunizations
• Criminal Background Check and Drug Screen
• Certification in basic cardiopulmonary resuscitation (CPR) for healthcare providers
• Proof of current health insurance coverage
• Criminal Background Check and Drug Screen

Expenditures
Expenditures specific to nursing courses include, but are not limited to, specialized equipment, uniforms, laboratory fees for clinical courses and transportation for off-campus experiences.

Health Policy
The college requires specific immunizations and periodic health screenings. Compliance with health policies is required for clinical coursework. Students are expected to be physically and mentally able to perform the essential functions of the nursing curriculum and may be requested to provide appropriate medical documentation.

Curriculum

- Nursing
- Nursing | RN to BSN UF Online

The College of Nursing prepares baccalaureate nurses to care, lead and inspire. Nursing courses include classroom and laboratory activities correlated with supervised clinical experiences. Students may be required to travel outside of Gainesville for selected clinical experiences.

The curriculum is logically organized from simple to complex so that students acquire the cognitive, affective, and technical competencies of a professional nurse. Students are required to demonstrate competence at each semester in sequence to progress to more advanced concepts and skills. Knowledge from general education courses, nursing pre-professional courses, and introductory nursing courses is integrated and refined as student progress through increasingly complex theoretical nursing content and clinical application courses.

Courses in the first two semesters focus on foundational knowledge and principles of personalized nursing care. Students gain an understanding of the context of contemporary nursing practice, the meaning of professionalism, ethical and legal guidelines, professional values, and standards of professional nursing practice. Course content and concepts are aligned with clinical experiences to develop beginning clinical reasoning. Students acquire the knowledge, skills, and attitudes to provide evidence-based, safe, cost-effective quality care to achieve optimal health outcomes.

Courses in the final two semesters build upon prior learning and are characterized by increased complexity in content and outcomes. Students enhance clinical reasoning and critical thinking through nursing practice in a variety of settings for individuals across the lifespan, families and other groups, and communities. Learning experiences are designed to enable students to demonstrate leadership, interprofessional collaboration, and advocacy skills that improve the health of diverse individuals and populations. In the final semester, students participate in a project to develop an innovative solution for a problem or issue relevant to professional nursing.

Progression

Students must earn minimum grades of C in all required nursing courses and maintain a minimum 2.0 GPA every semester while enrolled. Students may repeat only one required nursing course. Students earning less than a C in any required nursing course may repeat that course only once and on a space-available basis. Students who do not achieve a passing grade on their second attempt in a course will be dismissed from the nursing program. Students may withdraw only once from any required nursing course.

Students are expected to comply with college health policy requirements.

Students in the health professions are held to standards of conduct that exceed those usually expected of university students. Consequently, nursing students are required to demonstrate safe practice in the care of patients and to exercise appropriate judgment as beginning-level professionals, including appropriate demeanor and appearance. Students must adhere to the standards of conduct outlined in the American Nurses Association Code of Ethics and the Florida Nurse Practice Act in addition to the University of Florida College of Nursing handbook. Students can be removed from the nursing curriculum, and/or any college-sponsored programs or organizations, based on violation of professional conduct.

Bachelor of Science

The junior/senior-level Traditional BSN program is four semesters long and provides learning experiences in a variety of clinical settings.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=513801&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=513801&track=01)) may be used for transfer students.

The following recommended curriculum plan enables students to satisfy university-wide general education requirements and required preprofessional courses. The plan includes the courses and academic standards (overall GPA and preprofessional GPA) required each semester for continuation in the pre-nursing program and application for admission to the nursing major.
**Semester 1**
- Complete 2 critical-tracking courses with minimum grades of C: APK 2100C, APK 2105C, DEP 3053 or EDF 3110 (recommended), HUN 2201, MCB 2000/MCB 2000L, STA 2023, 3 credits of social and behavioral science (with PSY, SOP or SYG prefix), and 3 credits of physical or biological sciences (with BSC, CHM or PHY prefix)
- 3.0 GPA required for all critical-tracking courses
- 3.0 overall GPA on work from all institutions

**Semester 2**
- Complete 2 additional critical-tracking courses with minimum grades of C
- 3.1 GPA required for all critical-tracking courses
- 3.1 overall GPA on work from all institutions

**Semester 3**
- Complete 2 additional critical-tracking courses with minimum grades of C
- 3.2 GPA required for all critical-tracking courses
- 3.2 overall GPA on work from all institutions

**Semester 4**
- Complete all critical-tracking courses with minimum grades of C
- Complete writing requirement
- Complete all general education coursework with minimum grades of C
- Complete a total of 60 credits
- 3.3 GPA required for all critical-tracking courses
- 3.3 overall GPA on work from all institutions

**Semester 5**
- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 3066C

**Semester 6**
- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 4768C

**Semester 7**
- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing exit examination in NUR 3168

**Semester 8**
- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing exit examination in NUR 4766C

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

Total Credits  120

1 BSC, CHM, or PHY prefix.
2 Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).
3 Requires External Nursing Skills Test exam score of 800 to pass the course.

Academic Learning Compact
The major in nursing prepares graduates as generalists to provide holistic care that addresses the healthcare needs of diverse individuals, families, communities and populations across the lifespan. Nursing practice is built on nursing knowledge, theory and research. Graduates will translate, integrate and apply knowledge that leads to improvements in patient outcomes.

Before Graduating Students Must
- Achieve a passing grade of C or higher in all required courses.
- Pre-licensure student must achieve a score of 850 on the Health Education Systems Incorporated (HESI) RN Exit Examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Before Graduating Students Must

2. Utilize knowledge of health care regulation to advocate for policy change to improve health care systems and professional nursing practice.
3. Utilize health promotion, health maintenance, and disease prevention strategies across settings to improve the health of diverse individuals and populations across the lifespan.

Critical Thinking
4. Integrate evidence-based findings in decision-making in the practice of professional nursing.
5. Appraise current evidence to evaluate health care safety and quality improvement initiatives for individuals and groups.
6. Analyze information from health care technology systems to apply evidence that will guide nursing practice.
7. Illustrate the importance of advocacy in the improvements in nursing practice and throughout the healthcare system.
8. Demonstrate professional competence and values reflective of professional nursing standards and mutual respect within a global society.

Communication
9. Collaborate with the healthcare team and clients to provide safe and cost effective high quality health care.
10. Demonstrate professional communication, collaboration and documentation with healthcare teams to support improvement in patient health outcomes.
11. Build therapeutic alliance with patients and families to provide personalized care.

Curriculum

• Nursing
• Nursing | RN to BSN UF Online

The baccalaureate prepared nurse is equipped to manage complex and changing healthcare environments. Coursework focuses on development of problem solving that will broaden and strengthen the registered nurse student’s preparation for professional nursing practice.

Admission

Students must be accepted into the RN to BSN program, which is competitive. The online application for admission must be submitted by the posted deadline.

Minimum Application Requirements

• Associate of Science degree in nursing from an ACEN (formerly NLNAC) accredited program.
• Active, unencumbered Florida RN license.
• An overall GPA of at least 2.8.
• A minimum grade of C in all required pre-professional courses.
• Resume/curriculum vita.
• Two professional reference from persons familiar with the applicant’s recent work.
• A statement of intent, not to exceed two typed double-spaced pages, which discusses the applicant’s expectations of the BSN program and the student’s career goals.

Degree Requirements

• Completion of 120 credits, including 60 junior/senior-level credits
• A minimum grade of C in each nursing course
• RN to BSN students will be awarded 30 upper-level credit hours based upon current RN licensure and by satisfying the professional portfolio
• Adherence to the standards of acceptable conduct as outlined in the American Nurses Association Code of Ethics, the Florida Nurse Practice Act, the University’s Student Guide and the undergraduate catalog

Semester Four

NUR 4108
Lead and Inspire 3: Policy and Change in Nursing Practice

Credits

3
The major in nursing prepares graduates as generalists to provide holistic care that addresses the healthcare needs of diverse individuals, families, communities and populations across the lifespan. Nursing practice is built on nursing knowledge, theory and research. Graduates will translate, integrate and apply knowledge that leads to improvements in patient outcomes.

Before Graduating Students Must

- Achieve a rating of satisfactory in all courses, graded according to College of Nursing rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Integrate knowledge, skills and values derived from a solid base in liberal education to deliver quality care to individuals and groups across the lifespan and across healthcare environments.

Critical Thinking

2. Provide leadership in the delivery of safe, high-quality healthcare to diverse individuals and groups across the lifespan and across healthcare environments.
3. Utilize current evidence to improve healthcare outcomes for clients.
4. Utilize information management and healthcare technology to improve the quality of care.
5. Analyze processes through which healthcare policies are developed and changed to influence professional nursing practice and healthcare systems.
6. Utilize wellness promotion and illness prevention strategies with individuals and groups to improve population health outcomes across the lifespan.

7. Integrate professional values in the delivery of safe, culturally-sensitive care to clients across the lifespan.

Communication

8. Communicate and collaborate as members of interprofessional teams to deliver safe, high-quality healthcare.

Assessment Types

- Faculty evaluation
- Educational Benchmarking Assessment, Inc. (EBI) exit survey score of 5.0 or above
Established
1958 as the first college of health professions in the United States; renamed Public Health and Health Professions in 2003

Location
Health Professions/Nursing/Pharmacy Complex (HPNP)
1225 Center Drive
Gainesville, FL 32610
Map (http://campusmap.ufl.edu/?loc=0212)

Rankings
Eight programs are ranked in the Top 20 among AAU public universities, according to U.S. News & World Report.

Accredited
The college is accredited by the Council on Education for Public Health. In addition, all clinical programs are accredited by the appropriate national organization.

Degrees
The college offers a Bachelor of Health Science in Communication Sciences and Disorders or Health Science, and a Bachelor of Public Health degree. The Public Health program is designed to provide students with foundational skills for both individual and community based health care. The Health Science program is designed to provide students with knowledge and skills to pursue careers in medicine, rehabilitation, therapeutic care, and communication sciences. Health Science specializations include: general health science, pre-occupational therapy, occupational therapy accelerated, pre-physical therapy, and pre-professional.

Doctor of Occupational Therapy (OTD)
The University of Florida's Doctor of Occupational Therapy (OTD) program prepares students to become professional-level OT practitioners who are leaders in the rapidly changing and dynamic contemporary health and human services delivery systems. The program will facilitate students’ clinical knowledge and skills, professional development, leadership and advocacy skills, and advanced knowledge base to inform high quality, evidence-informed practice in occupational therapy. Students will engage in projects and leadership activities that will improve practice quality and advance evidence-based clinical practice.

Academic Advising
Make an appointment with an academic advisor at 352.273.6400, option 1.

Libraries
In addition to the university's other libraries, students access the Health Science Center Libraries, one of the largest biomedical library systems in the country.

Internships and Career Guidance
College academic advisors and the Career Connections Center are available to help with career planning. Shadowing healthcare providers is also encouraged.

Academic Policies

Admission
Admission requirements vary for the different majors; therefore, applicants should contact an academic advisor in the college to ensure appropriate academic planning.

In addition to specific GPA and coursework requirements, applicants should have evidence of service through volunteer experiences. Additional admission information may be found on the college's undergraduate programs (https://undergrad.phhp.ufl.edu/) page.
Application Deadlines
Application deadlines and instructions may be found on the college's undergraduate program (https://undergrad.phhp.ufl.edu/) page.

Student Selection
Undergraduate programs are limited access. Admission to the college at the junior level is limited and selective. Satisfaction of minimum GPA and course requirements does not guarantee admission to the junior level. A student's total record, including educational objectives, courses completed, quality of academic record and application essay are considered when evaluating an applicant for admission.

Native UF Student Admission
Freshmen and Sophomores
Students can declare a major in one of the college’s undergraduate programs upon admission to the university. However, continued progress as a junior in the major is contingent upon selection and requires completion of an application process. Progression standards include courses completed, cumulative and tracking GPAs, and academic conduct. Students apply for junior level limited access admission in their sophomore year.

Juniors Level Admission
A formal application process is required for admission consideration. STUDENTS MUST SUBMIT an online program application for the major/ specialization of interest and should carefully follow the instructions for the particular specialization.

Students eligible for admission consideration at the junior level must

- Earn at least 60 semester credits of acceptable college credit with a minimum overall 3.0 GPA for all majors for all college/university-level course work.
- Complete all critical-tracking coursework with the required GPA. (Critical-tracking courses are listed in the semester plans under Majors in this catalog.)
- Fulfill the general education requirements described in the Academic Advising section of this catalog. Specific course sequences for each program of study indicate how to fulfill these requirements while planning careers in public health and/or discipline-specific health professions.
- Complete all writing requirements.
- Submit a completed program application (https://undergrad.phhp.ufl.edu/admissions/) to the College of Public Health and Health Professions.
- Complete all requirements by the end of spring for Summer B admission consideration or by the end of Summer A for fall admission consideration.

Transfer Student Admission
Meeting minimum standards as freshmen and sophomores does not guarantee admission to the junior year within the college because space is limited.

Application Materials
Non-UF students must apply to the University of Florida and to the College of Public Health and Health Professions for admission consideration at the junior year. These are separate applications. Students with questions should speak with a college advisor 352.273.6400, option 1.

Florida public college students must have:

- Received the A.A. degree.
- Completed all critical-tracking coursework with the required GPA.
- Completed 60 semester credits of transferable college-level credit with a minimum overall GPA of 3.0.
- Submitted a transfer application (http://www.admissions.ufl.edu/start.html) to UF.
- Submitted a program application to the College of Public Health and Health Professions.

PHHP Academic Policies
Double Majors
PHHP does not offer a double major; however, students in this college can pursue an additional degree outside of the college. Students from other colleges can also consider a dual degree within PHHP. Permission of both colleges is required. Students are eligible to apply for a dual degree after they have completed 45 credits and before completion of 96 credits. Students must meet all requirements for both degrees.

Minors
The college offers four minors:

- communication sciences and disorders
- deaf and hearing sciences
- disability science
- health science
- public health

These minors are open to students in other colleges who meet the prerequisite and GPA requirements. The minor form and course information are available from the college website. (https://undergrad.phhp.ufl.edu)

Specific minors are available to PHHP juniors and seniors based on the student's specialization, as noted below.

Communication Sciences and Disorders Students: deaf and hearing sciences, health science, disability science and public health minors.

Health Science Students: communication sciences and disorders and public health minors.

Public Health Students: communication sciences and disorders minors.

S/U Option
The S/U option is not permitted for prerequisite or major courses; however, it can be used for electives.

Academic Performance
Juniors and Seniors
Students must receive minimum grades of C in all courses required for the major. Unsatisfactory grades, defined as grades lower than a C or grades of unsatisfactory in classes graded S/U, are grounds for probation and/or dismissal from the college. In addition, dismissal from the college can result from honor code violations.

If a student in the college receives one grade of C- or lower in a college course, the student is placed on academic probation. Faculty will
provide an opportunity for the student to make up material (e.g., through independent study, repeating the course, etc.). If the student receives at least a C in the course for which probation was implemented, the student will return to good academic standing. If the student receives a C- or lower while on probation, the student must withdraw from the program unless the college determines mitigating circumstances warrant a probationary extension. If a student receives the first and second C- or lower in the same term, the college has the right to dismiss the student without first offering probation.

If a student receives a C- or lower in a second college course, regardless of whether this occurs in the same term or a different term as the first C- or lower, the student can be required to withdraw from the program. The student has the right to petition this decision.

In order to petition the faculty committee, the student must provide the program director with a letter stating the reasons that the student should be allowed to remediate their academic performance. Upon successful petition and on a space-available basis, the student will be placed on academic probation and allowed to make up material in an appropriate manner determined by the instructor and program director (e.g., via independent study, course repetition, etc.)

If the student successfully completes the remediation requirements and receives a minimum course grade of C, the student can continue in the program. However, if the student again receives a C- or lower, the student must withdraw from the program. The college will help the student choose another major at UF, if desired, if they withdraw from a college major.

In the first two cases above, the individual instructor is responsible for assigning student grades. The program director, in consultation with the instructor and program faculty as needed, is responsible for determining if a student who appeals a dismissal will be placed on academic probation or dismissed from the program. The student will be notified in writing of the director’s decision concerning academic probation or dismissal.

If the student is placed on probation, the letter will include the activities that the student must successfully complete to remedy the academic deficiencies and the timeframe in which these activities must be completed. Failure to adhere to or to meet the terms of the letter constitutes grounds for dismissal from the program. The student will be offered assistance, if desired, to select a different major.

If the student disagrees with the director’s decision regarding dismissal or the terms of the probation letter, the student may appeal in writing within one week to the associate dean overseeing academic affairs. The associate dean will review both the director’s decision and the student’s concerns and make a determination about academic probation/dismissal. Both the student and director have the right to further appeal to the dean, who will review the case in its entirety and make the final decision.

**Changing Majors**

Freshmen and sophomores wishing to change majors must contact a college advisor in the new major. Juniors and seniors wishing to change majors in the college must contact the program director. If a student withdraws from the major, specific permission from the program and the college must be given at the time of withdrawal for the student to be eligible to re-enter the college.

**Health Policy**

The college requires evidence of ability to meet the physical and academic requirements of the program. Personnel in the Department of Student Health will test each student for sensitivity to tuberculosis. The Department of Student Health will verify immunization against diphtheria, rubella (German measles) and tetanus.

All students must be immunized against Hepatitis B and varicella (chicken pox) or provide the Student Health Center with medical documentation that they have had chicken pox. All students must participate in annual bloodborne pathogen training, repeat their TB test annually if observing in a clinical setting, and be HIPAA compliant.

Students registered in clinical courses must have hospitalization insurance. Full-time students are eligible for the health insurance plans sponsored by Student Government. Twelve-month coverage may be purchased at the time of registration.

**Expenses**

Required immunizations and other expenses are the student’s responsibility.

**Degree Requirements**

Students must satisfy all college and university degree requirements for their major and specialization.

**College requirements include:**

- Completion of 120 semester credits with a 2.0 GPA, including 60 hours of upper division college credit
- Completion of all core courses with minimum grades of C
- Satisfactory completion of all approved college and general electives
- Completion of a PHHP degree candidate exit survey

To graduate in the desired term, students must submit by the deadline a completed degree application to the Office of University Registrar. More Info (http://www.registrar.ufl.edu/currents/degreeapp.html)

**Dean's List**

The dean’s list recognizes outstanding academic achievement at the completion of each semester. Students receiving a final grade of U or a failing grade may not be considered for the dean’s list, regardless of overall grade point average. Students may request a letter confirming dean’s list status from the college’s dean’s office. More Info (p. 1087)

**Graduating with Honors**

More Info (p. 1087)

Postbaccalaureate students are not eligible to receive honors recognition. Guidelines for completion of honors program requirements (http://www.bahealthsci.phhp.ufl.edu/) to graduate magna cum laude or summa cum laude.

**Programs**

**MAJORS**

- Combination Degrees
- Communication Sciences and Disorders
Students are encouraged to participate in organizations that will help them gain leadership and teamwork experience.

Examples of student organizations, include, but are not limited to:

- Student Occupational Therapy Association
- Health Science Student Organization
- Generational Relief in Prosthetics (GRiP)
- Multicultural Association of Pre-Health Students
- PHHP College Council

Communication Sciences and Disorders

The Communication Sciences and Disorders major includes didactic and experiential activities for students to learn foundational skills necessary for success in professions such as speech-language pathology, audiology and communication sciences, all of which require graduate degrees.

About this Program

- **College:** Public Health and Health Professions (p. 1044)
- **Degree:** Bachelor of Health Science
- **Credits for Degree:** 120
- **Contact:**
  - Junior/Senior | 2127 HPNP Complex (http://campusmap.ufl.edu/#/index/0212) | 352.294.8476
  - Freshman/Sophomore | Email (advising@phhp.ufl.edu) | G-205 HPNP Complex (http://campusmap.ufl.edu/#/index/0212) | 352.273.6400, option 1

To graduate with this major, students must complete all university, college, and major requirements.

**CURRICULUM**

- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

**Students should follow the plan below for course choices.**

The undergraduate program exposes students to information about

1. normal aspects of speech, language, and hearing as they relate to human communication, and
2. introductory concepts pertaining to the nature, assessment, and treatment of communication disorders.

Students complement the core major courses with various elective courses that align with their academic and career interests.

Upon successful completion of the major, students receive the Bachelor of Health Science degree. The majority of undergraduate students pursue graduate or professional training in a health field (e.g., speech language pathology, audiology or other graduate degree program); however, some students seek employment immediately after completing the BHS degree program, usually in organizations with either a health or education component.

Certified clinicians (graduate degree required) often on a team that may include psychologists, teachers, families, physical and occupational therapists, physicians, nurses, dietitians and social workers to screen, diagnose and treat individuals ranging from infants to the elderly. Professionals typically work in schools, clinics, hospitals, other health organizations and/or private practice. Communication sciences and disorders professions offer a high degree of satisfaction to their practitioners by making a significant impact on people's lives. Both speech-language pathology and audiology are growing professions with competitive salaries.

**Course Requirements and Sequence**

**By the End of Semester Four**

To be considered for admission at the junior level, students must complete these requirements:

- Minimum overall and prerequisite GPAs of 3.0
- For transfer students, AA degree or 60 transferrable credits (including general education and major prerequisites)
- 18,000 words of the writing requirement
- These courses (or their equivalents) with minimum grades of C:
• BSC 2005 or higher
• Additional biological science (3 credits); APK 2105C is highly recommended
• other preferred courses include those with BSC or MCB prefix
• Physical science (3 credits); must be physics or chemistry
• Science lab (1 credit)
• PSB 3002 or DEP 3053 or CLP 3144; PSB 3002 is recommended strongly
• PSY 2012
• STA 2023

By the End of Semester Five
Students must also have completed:

• EEX 3093 with a minimum grade of C (satisfies general education diversity)
• SPA 3003

By the End of the Senior Year
Students must have completed:

• 120 credits, including all prerequisites
• 30 credits of core SPA coursework with minimum grades of C
• ENC 3254 with minimum grade of C; satisfies 6000 words of writing requirement
• PHC 4101 with minimum grade of C
• 12 credits of electives at the 3000/4000 level
• 9 credits of PHHP electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510204&track=01) may be used for transfer students.

Semester 1
• Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
• Complete 9 credits of general education courses
• 2.0 UF GPA required

Semester 2
• Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
• Complete 12 additional credits of general education courses for a total of 18 credits
• 2.7 GPA on all college-level coursework from all institutions

Semester 3
• Complete STA 2023 with minimum grade of C
• Complete 1 additional tracking psychology course (PSB 3002, DEP 3053 or CLP 3144) or 3 credits of physical science (CHM 2045 or PHY 2004 recommended) with minimum grade of C
• Complete four of the remaining CMS 3000/4000 required courses
• 2.0 UF GPA required

Semester 4
• Complete all critical-tracking courses with minimum grades of C
• Complete all general education courses except diversity
• Complete 9 additional credits of general education courses for a total of 30 credits
• 3.0 GPA on all college-level coursework from all institutions

Semester 5
• Complete EEX 3093, SPA 3003, SPA 3011, SPA 3032, and SPA 3101
• 3.0 prerequisite and overall GPA on college-level coursework from all institutions
• Complete five CMS 3000 required courses
• 2.0 UF GPA required

Semester 6
• Complete ENC 3254, SPA 4004, SPA 4104, and SPA 4302
• Complete four of the remaining CMS 3000/4000 required courses
• 2.0 UF GPA required

Semester 7
• Complete SPA 4250 and SPA 4321
• Complete 2 of the remaining CMS 4000 required courses
• 2.0 UF GPA required

Semester 8
• Complete SPA 4050 and SPA 4400
• Complete 3 of the remaining CMS 4000 required courses
• 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Total Credits 120

Academic Learning Compact

The undergraduate program provides an understanding of the expected processes involved in human communication so that students will be prepared for graduate programs where they will be immersed in dealing with atypical or pathological conditions related to speech, language, swallowing and/or hearing.

Before Graduating Students Must
- Pass the undergraduate CSD written examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Explain fundamental theories and principles of basic acoustics, psychoacoustics, (neuro)anatomy and (neuro)physiology as they pertain to the normal development of speech, language and hearing.
2. Explain key concepts that pertain to the etiology and characteristics of speech, language and auditory disorders.
3. Describe basic concepts that pertain to the assessment and treatment of speech, language and auditory disorders.
4. Explain fundamental concepts that pertain to professional practice patterns and ethical standards.
5. Explain fundamental concepts that pertain to the relationship between aging and communication, the effect of culture on communication and modalities of communication.
6. Transcribe normal and disordered speech phonetically.
7. Explain the impact of disease and disability on the health of populations.

Critical Thinking
8. Apply clinical problem-solving skills to defend assessment and treatment choices.
Communication
9. Present information accurately and effectively during an oral presentation on a topic related to communication sciences or disorders.
10. Write a coherent analytical essay on a topic related to communication sciences or disorders.

Assessment Types
- Clinical analysis
- Case management reviews
- Exams
- Papers
- Presentations
- Additional assessments include:
  - A summative assessment
  - The undergraduate alumni survey

Communication Sciences and Disorders Minor
The Communication Sciences and Disorders minor is appropriate for students with majors in computer science, education, engineering, health professions, linguistics, music, psychology, and special education.

About this Program
- College: Public Health and Health Professions
- Credits: 15 | Completed with minimum grades of C and no S/U

Department Information
The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.

Communication Sciences and Disorders UF Online
The Communication Sciences and Disorders major includes didactic and experiential activities for students to learn foundational skills necessary for success in professions such as speech-language pathology, audiology and communication sciences, all of which require graduate degrees.

About this Program
- College: Public Health and Health Professions
- Degree: Bachelor of Health Science
- Credits for Degree: 120
- Contact: 1.855.99GATOR
- More Info

To graduate with this major, students must complete all university, college, and major requirements.
**Department Information**

The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.

**Curriculum**

- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

*Students should follow the plan below for course choices.*

The undergraduate program exposes students to information about:

1. normal aspects of speech, language, and hearing as they relate to human communication, and
2. introductory concepts pertaining to the nature, assessment, and treatment of communication disorders.

Students complement the core major courses with various elective courses that align with their academic and career interests.

Upon successful completion of the major, students receive the Bachelor of Health Science degree. The majority of undergraduate students pursue graduate or professional training in a health field (e.g., speech language pathology, audiology or other graduate degree program); however, some students seek employment immediately after completing the BHS degree program, usually in organizations with either a health or education component.

Certified clinicians (graduate degree required) often on a team that may include psychologists, teachers, families, physical and occupational therapists, physicians, nurses, dietitians and social workers to screen, diagnose and treat individuals ranging from infants to the elderly. Professionals typically work in schools, clinics, hospitals, other health organizations and/or private practice. Communication sciences and disorders professions offer a high degree of satisfaction to their practitioners by making a significant impact on people's lives. Both speech-language pathology and audiology are growing professions with competitive salaries.

**Course Requirements and Sequence**

To be considered for admission at the junior level, students must complete these requirements:

- Minimum overall and pre-requisite GPAs of 3.0
- For transfer students, AA degree or 60 transferrable credits (including general education and major prerequisites)
- 18,000 words of the writing requirement

These courses (or their equivalents) with minimum grades of C:

By the end of semester five, all students must also have completed:

- EEX 3093 with a minimum grade of C
- SPA 3003 with a minimum grade of C

By the end of the senior year, students must have completed:

- 120 credits, including all prerequisites
- 30 credits of core SPA coursework with minimum grades of C
- ENC 3254 with minimum grade of C; satisfies 6000 words of writing requirement
- PHC 4101 with minimum grade of C
- 12 credits at the 3000/4000 level
- 9 credits of PHHP electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=510204&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=510204&track=01)) may be used for transfer students.

**Semester 1**

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 credits of general education courses
- 2.3 GPA on all college-level coursework from all institutions

**Semester 2**

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 12 additional credits of general education courses for a total of 18 credits
- 2.7 GPA on all college-level coursework from all institutions
Semester 3
• Complete STA 2023 with minimum grade of C
• Complete 1 additional tracking psychology course (PSB 3002, DEP 3053 or CLP 3144) or 3 credits of physical science (CHM 2045 or PHY 2004 recommended) with minimum grade of C
• SPA 3003 recommended this semester if available, with minimum grade of C
• Complete science lab with minimum grade of C or S
• Complete 9 additional credits of general education courses for a total of 30 credits
• 3.0 GPA on all college-level coursework from all institutions

Semester 4
• Complete all critical-tracking courses with minimum grades of C
• Complete all general education courses except diversity
• Complete the 18,000 words of the writing requirement
• 3.0 critical-tracking GPA based on all attempts
• 3.0 GPA on all college-level coursework from all institutions

Semester 5
• Complete EEX 3093, SPA 3003, SPA 3011, SPA 3032, and SPA 3101
• 3.0 prerequisite and overall GPA on college-level coursework from all institutions
• Complete five CMS 3000 required courses
• 2.0 UF GPA required

Semester 6
• Complete ENC 3254, SPA 4004, SPA 4104, and SPA 4302
• Complete four of the remaining CMS 3000/4000 required courses
• 2.0 UF GPA required

Semester 7
• Complete SPA 4250 and SPA 4321
• Complete 2 of the remaining CMS 4000 required courses
• 2.0 UF GPA required

Semester 8
• Complete SPA 4050 and SPA 4400
• Complete 3 of the remaining CMS 4000 required courses
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Student Learning Outcomes (SLOs)

Students in the Major Will Learn to

Before Graduating Students Must

• Pass the undergraduate CSD written examination.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Explain fundamental theories and principles of basic acoustics, psychoacoustics, (neuro)anatomy and (neuro)physiology as they pertain to the normal development of speech, language, swallowing and/or hearing.
2. Explain key concepts that pertain to the etiology and characteristics of speech, language and auditory disorders.
3. Describe basic concepts that pertain to the assessment and treatment of speech, language and auditory disorders.
4. Explain fundamental concepts that pertain to professional practice patterns and ethical standards.
5. Explain fundamental concepts that pertain to the relationship between aging and communication, the effect of culture on communication and modalities of communication.
6. Transcribe normal and disordered speech phonetically.
7. Explain the impact of disease and disability on the health of populations.

Critical Thinking

8. Apply clinical problem-solving skills to defend assessment and treatment choices.

Communication

9. Present information accurately and effectively during an oral presentation on a topic related to communication sciences or disorders.
10. Write a coherent analytical essay on a topic related to communication sciences or disorders.

  • The undergraduate alumni survey

Deaf and Hearing Sciences Minor

The Deaf and Hearing Sciences minor includes language classes in American Sign Language and classes to deepen awareness of the impact of hearing loss on everyday life and function. Students also gain an appreciation of the anatomy and physiology of the ear and rehabilitation approaches for individuals with hearing loss.

About this Program

• College: Public Health and Health Professions (p. 1044)
• Credits: 17

Department Information

The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.
Disability Science Minor

The Disability Science minor provides a basic scientific foundation to understand the impact of disability on physical and psychosocial health.

About this Program

- **College**: Public Health and Health Professions (p. 1044)
- **Credits**: 17 | Completed with minimum grades of C

Open only to Seniors.

Total Credits 17

This minor is available to all juniors and seniors in PHHP’s communication sciences and disorders major and to students in other colleges who meet the prerequisites. The minor is not available to Bachelor of Health Science students in health science, pre-OT or pre-public health specializations.

All credits toward the minor must be completed at the 3000/4000-level. As long as the program director approves, the student can use up to three credits of relevant 3000-level or higher transfer coursework or electives outside the health science program to fulfill elective credits. Lower-division transfer credit is not accepted.

Prerequisites

- Junior standing (60+ credits)
- Overall 2.75 GPA
- 2.75 prerequisite GPA based on general college biology, general psychology, abnormal/developmental/physiological psychology, physiology, and statistics (STA 2023).
Curriculum

- Disability Science Minor
- Health Science
- Health Science Minor

Related Programs

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

General Health Science
For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated
A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy
Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Pre-Occupational Therapy
Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

Pre-Professional
For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

Course Sequence
While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Academic Learning Compact
The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

Critical Thinking
6. Develop and apply critical analysis skills to contemporary health issues.

Communication
7. Apply effective basic communication skills for health professionals.

- The Bachelor of Health Science (BHS) capstone exam in the final semester
- The degree candidate's exit survey

General Health Science

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College:** Public Health and Health Professions (p. 1044)
- **Degree:** Bachelor of Health Science
- **Specializations:** General Health Science (p. 1057) | Occupational Therapy Accelerated (p. 1060) | Pre-Occupational Therapy (p. 1064) | Pre-Physical Therapy (p. 1067) | Pre-Professional (p. 1070)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

**General Health Science**

The general specialization is designed to accommodate students interested in diverse health care fields (e.g., health administration, nursing, clinical psychology).

To be on-track for the junior year, students must meet the critical-tracking criteria listed below, beginning with the first fall or spring term.

To be considered for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester:

- The online application to the BHS program goes live as a link on the BHS website (http://bhs.phhp.ufl.edu/) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

**Semester 1**

- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

**Semester 2**

- Complete STA 2023 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18, including the university writing requirement
- 2.7 cumulative GPA on work from all institutions

**Semester 3**

- Complete BSC 2005 or BSC 2010 with minimum grade of C
- Complete CLP 3144 or DEP 3053 with a minimum grade of C
- Complete STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

**Semester 4**

- Complete all general education courses, including IDS 1161 and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete APK 2105C with a minimum grade of C
- Complete 60 cumulative credits
- 3.0 GPA required for all critical-tracking courses and minimum grades of C on all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

**Semester 5**

- Complete HSA 3111 with a minimum grade of C
- Complete HSC 3502 with a minimum grade of C
- Complete PHC 4101 with a minimum grade of C
Semester 6
- Complete HSC 3057 with a minimum grade of C
- Complete HSC 4558 with a minimum grade of C
- Complete OTH 3416 with a minimum grade of C
- Complete 3 credits of College Approved Electives

Semester 7
- Complete HSC 3661 with a minimum grade of C
- Complete RCS 4415L with a minimum grade of C
- Complete HSC 4184 with a minimum grade of C

Semester 8
- Complete HSC 4608L with a minimum grade of C
- Complete HSC 4652L with a minimum grade of C
- Complete HSC 4008 with a Satisfactory grade
- Complete 9 credits of College Approved Electives

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

| Total Credits | 120 |

1 Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated.
Academic Learning Compact
The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

Before Graduating Students Must
- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

Critical Thinking
6. Develop and apply critical analysis skills to contemporary health issues.

Communication
7. Apply effective basic communication skills for health professionals.

- The Bachelor of Health Science (BHS) capstone exam in the final semester
- The degree candidate's exit survey

Occupational Therapy Accelerated
The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program
- College: Public Health and Health Professions (p. 1044)
- Degree: Bachelor of Health Science
- Specializations: General Health Science (p. 1057) | Occupational Therapy Accelerated (p. 1060) | Pre-Occupational Therapy (p. 1064) | Pre-Physical Therapy (p. 1067) | Pre-Professional (p. 1070)
- Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Curriculum
- Disability Science Minor
- Health Science
- Health Science Minor

Related Programs
- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

General Health Science
For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.
Occupational Therapy Accelerated
A combination-degree program that allows students to take first-year
Doctor of Occupational Therapy (OTD) Program courses during their
junior and senior years in the health science program.

Pre-Physical Therapy
Offers a suggested prerequisite course sequence for students interested
in pursuing entry-level physical therapy education at the graduate/
professional level.

Pre-Occupational Therapy
Offers the core health science curriculum plus OT prerequisites
necessary for the Master of Occupational Therapy program at UF.

Pre-Professional
For students pursuing careers in fields such as medicine, physician
assistant and dentistry, all of which require significant basic science
prerequisites. This specialization is set up to integrate commonly
required pre-professional courses with requirements for the health
science major.

The general health science, pre-professional and pre-physical therapy
specializations collapse into one track beginning in the junior year and
follow the same core curriculum, focusing on the health care system,
different diseases and disabilities, the role of the health care provider
in prevention and treatment, research methods and understanding core
public health concepts. The senior year focuses on patient provider
communication, effective leadership and critical-thinking skills important
to clinical problem solving and the bioethical and legal issues impacting
health care.

Regardless of specialization selected, students complement core courses
with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students
receive the Bachelor of Health Science degree. While the majority of
students pursue graduate or professional training in a health field (e.g.
occupational therapy, physical therapy, medicine, physician assistant,
health administration, dentistry, public health), some students seek
employment in hospital or related community organizations after
completing the B.H.S.

Course Sequence
While all specializations are designed for students interested in health
care, students should select the specialization that most closely
approximates their career plans and overall academic performance.
Included in specific tracks are typical prerequisites for UF graduate and
professional programs.

All course specializations in the health science program require a
minimum 3.0 overall and prerequisite GPA for admission at the junior
level.

Each specialization incorporates general education math and writing
requirements and health science prerequisites. All specializations accept
AP IB, or AICE credit for any prerequisite course. Students must earn a
minimum of C in any BHS prerequisite course that is not satisfied by AP/
IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy
BHS prerequisites, students should be aware that graduate/professional
programs may not accept AP/IB/AICE credits in lieu of letter grades
for their respective prerequisites. Students should consult a college
advisor if they need assistance or have questions about a specific course
schedule.

Occupational Therapy Accelerated
Occupational therapy is a professional program. The Occupational
Therapy Accelerated Program gives students the opportunity to learn
core health science content while simultaneously completing the first-
year professional-level coursework required for the doctor of occupational
therapy program at UF.

Competitive applicants to the Occupational Therapy Accelerated Program
will have met the following requirements:

• Applicants must be accepted into the Bachelor of Health Science
  Program.
• Applicants must have completed all 2000-level prerequisites required
  for the professional program in occupational therapy.
• A minimum cumulative 3.8 GPA for lower division (freshman and
  sophomore level) undergraduate college coursework.
• A minimum 3.7 GPA for all prerequisite courses with no grade lower
  than a C.
• All applicants are required to complete a total of 30 hours of
  observational hours in at least two diverse OT settings. Diverse
  settings are settings that service clientele are significantly different;
  inpatient, outpatient, long term care, school-based, elders, pediatrics,
  orthopedics, rehabilitation, etc.
• Applicants must submit three recommendations. One of the
  recommendations must be from a professional level OT. The other
  two should be from professionals, such as a present or former faculty
  member, academic advisor, or employer.
• Applicants must submit a personal statement that addresses why
  they selected OT as a career and how an Occupational Therapy
  degree relates to their immediate and long-term professional goals.
  They must describe how their personal, educational, and professional
  background will help achieve their goals.

Critical Tracking
Critical Tracking records each student's progress in courses that
are required for entry to each major. Please note the critical-tracking
requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of
Florida Common Course Prerequisites (http://www.flvc.org/cpp/
displayRecord.jsp?cip=510000&track=01) may be used for transfer
students.

Semester 1
• Complete BSC 2005 and BSC 2005L with minimum grades of C
• Complete ENC 1101 or ENC 1102 with a minimum grade of C
• Complete sociology or anthropology with a minimum grade of C
• Complete 9 credits of general education courses, including ENC 1101
  or higher, with minimum grades of C
• 3.2 cumulative GPA on work from all institutions

Semester 2
• Complete ENC 1102 with a minimum grade of C
• Complete HSC 2000 with a minimum grade of C (recommended)
• Complete PSY 2012 and HSC 3537 with minimum grades of C
• Complete 9 additional credits of general education courses for a total of 18
• Complete 28 cumulative credits
• 3.4 cumulative GPA on work from all institutions

Semester 3
• Complete 3 additional critical-tracking courses: APK 2100C or APK 2105C, CLP 3144 and STA 2023 with minimum grades of C
• Complete 9 additional credits of general education courses for a total of 27
• Complete ENC 3453 or a substitution approved by a PHHP advisor
• Complete 42 cumulative credits
• 3.6 GPA required for all critical-tracking courses, based on all attempts
• 3.6 cumulative GPA on work from all institutions

Semester 4
• Complete all laboratories
• Complete all general education courses, including IDS 1161 and all state core courses
• Complete the university writing requirement
• Complete 60 cumulative credits
• Complete all critical-tracking courses with no grade below C and with a 3.7 critical-tracking GPA
• 3.8 cumulative GPA on work from all institutions

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Curriculum

- Disability Science Minor
- Health Science
- Health Science Minor

Related Programs

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Pre-Occupational Therapy

Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

Pre-Professional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college
advisor if they need assistance or have questions about a specific course schedule.

**Pre-Occupational Therapy**

Occupational therapy is a graduate-level program. The preprofessional OT track within the health science program gives students the opportunity to learn core health science content while simultaneously completing 3000/4000-level prerequisite coursework required for the graduate-level occupational therapy program at UF.

To be admitted to the pre-OT track, students must have completed all 2000-level prerequisites required for the master’s program in occupational therapy and have a minimum 3.0 GPA. Students who make satisfactory academic progress in their health science and pre-OT coursework receive the Bachelor of Health Science and, while admission to the OT program is not guaranteed, students in the pre-OT track have priority for admission to the graduate-level OT program.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

**Semester 1**
- Complete BSC 2005 and BSC 2005L with minimum grades of C
- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete sociology or anthropology with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

**Semester 2**
- Complete ENC 1102 with a minimum grade of C
- Complete HSC 2000 with a minimum grade of C (recommended)
- Complete PSY 2012 and HSC 3537 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 18
- Complete 28 cumulative credits
- 2.7 cumulative GPA on work from all institutions

**Semester 3**
- Complete 3 additional critical-tracking courses: APK 2100C or APK 2105C, CLP 3144 and STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- Complete ENC 3453 or a substitution approved by a PHHP advisor
- Complete 42 cumulative credits
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

**Semester 4**
- Complete all laboratories
- Complete all general education courses, including Quest 1, Quest 2 and all state core courses
- Complete the university writing requirement
- Complete 60 cumulative credits
- Complete all critical-tracking courses with no grade below C and with a 3.7 critical-tracking GPA
- 3.0 cumulative GPA on work from all institutions

**Semester 5**
- Complete PHC 4101
- Complete HSC 3502
- Complete HSA 3111

**Semester 6**
- Complete OTH 3416
- Complete HSC 4558
- Complete HSC 3057
- Complete a minimum of 3 total credits of college approved electives

**Semester 7**
- Complete HSC 4184
- Complete HSC 3661
- Complete RCS 4415L

**Semester 8**
- Complete HSC 4608L
- Complete HSC 4652L
- Complete a minimum of 9 total credits of college approved electives
- Completion of all coursework with a minimum of 2.0 overall GPA

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Course** | **Title** | **Credits**

1 Minimum grade of C required.

Students can complete missing coursework in the summer, but all first-year tracking criteria must be completed by the end of the summer term.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated, with the exception of Introduction to Statistics, which must be completed by the end of spring term of the junior year.

---

**Academic Learning Compact**

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

---

**Before Graduating Students Must**

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to Student Learning Outcomes (SLOs)**

**Content**

1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.
Critical Thinking
6. Develop and apply critical analysis skills to contemporary health issues.

Communication
7. Apply effective basic communication skills for health professionals.

Assessment Types

- Assignment
- The Bachelor of Health Science (BHS) capstone exam in the final semester
- The degree candidate's exit survey

Pre-Physical Therapy

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College:** Public Health and Health Professions (p. 1044)
- **Degree:** Bachelor of Health Science
- **Specializations:** General Health Science (p. 1057) | Occupational Therapy Accelerated (p. 1060) | Pre-Occupational Therapy (p. 1064) | Pre-Physical Therapy (p. 1067) | Pre-Professional (p. 1070)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Related Programs

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Pre-Occupational Therapy

Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

Pre-Professional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider...
communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

### Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

### Pre-Physical Therapy

Physical therapy is a doctoral-level program. Listed below is the suggested undergraduate prerequisite course sequence. For a description of the program and additional information, please refer to the Department of Physical Therapy.

### Course Sequence

The following course sequence permits completion of general education requirements and UF health science and physical therapy prerequisites.

To be admitted to the pre-PT track, students must meet the health science critical-tracking criteria each semester, beginning with the first fall or spring term.

To be considered for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BSC 2010</td>
<td>Integrated Principles of Biology 1</td>
<td>3</td>
</tr>
<tr>
<td>PSY 2012</td>
<td>General Psychology</td>
<td>3</td>
</tr>
<tr>
<td>STA 2023</td>
<td>Introduction to Statistics 1</td>
<td>3</td>
</tr>
<tr>
<td>CLP 3144</td>
<td>Abnormal Psychology</td>
<td>3</td>
</tr>
</tbody>
</table>

The online application to the BHS program goes live as a link on the BHS website (http://bhs.phhp.ufl.edu/) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

#### Semester 1

- Complete ENC 1101 or ENC 1102
- Complete MAC 1140 or MAC 1147 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 GPA on work from all institutions

#### Semester 2

- Complete ENC 1102 with a minimum grade of C
- Complete BSC 2010 with a minimum grade of C
- Complete STA 2023 or DEP 3053 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18
- 2.7 GPA on work from all institutions

#### Semester 3

- Complete APK 2105C, BSC 2010, DEP 3053, STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

#### Semester 4

- Complete HSC 2000 with a minimum grade of C (recommended)
- Complete all general education courses, including IDS 1161 and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete 60 cumulative credits
• Complete all critical-tracking courses with no grades below C and
with a 3.0 critical-tracking GPA
• 3.0 cumulative GPA on work from all institutions

Semester 5
• Complete HSA 3111 with a minimum grade of C
• Complete HSC 3502 with a minimum grade of C
• Complete PHC 4101 with a minimum grade of C

Semester 6
• Complete HSC 3057 with a minimum grade of C
• Complete HSC 4558 with a minimum grade of C
• Complete OTH 3416 with a minimum grade of C
• Complete 3 credits of College Approved Electives

Semester 7
• Complete HSC 3661 with a minimum grade of C
• Complete RCS 4415L with a minimum grade of C
• Complete HSC 4184 with a minimum grade of C

Semester 8
• Complete HSC 4608L with a minimum grade of C
• Complete HSC 4652L with a minimum grade of C
• Complete HSC 4008 with a Satisfactory grade
• Complete 9 credits of College Approved Electives

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Semester Eight

HSC 4008 Professional Development for the Health Sciences (Critical Tracking) 1 1 Credit
HSC 4608L Critical Thinking in Health Care (Critical Tracking) 1 4 Credits
HSC 4652L Ethical and Legal Issues in the Health Professions (Critical Tracking) 1 3 Credits
College Approved Electives (Critical Tracking) 1 6 Credits
Elective (3000/4000 level) 1 Credit

Total Credits 120 Credits

1 Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated.

Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

Before Graduating Students Must

• Receive a satisfactory grade (S) in the BHS capstone portfolio.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Student Learning Outcomes (SLOs)

Content
1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

Critical Thinking
6. Develop and apply critical analysis skills to contemporary health issues.

Communication
7. Apply effective basic communication skills for health professionals.

Pre-Professional

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

• College: Public Health and Health Professions (p. 1044)
• Degree: Bachelor of Health Science
• Specializations: General Health Science (p. 1057) | Occupational Therapy Accelerated (p. 1060) | Pre-Occupational Therapy (p. 1064) | Pre-Physical Therapy (p. 1067) | Pre-Professional (p. 1070)
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Curriculum

• Disability Science Minor
• Health Science
• Health Science Minor
Related Programs

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Pre-Occupational Therapy

Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

Pre-Professional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Preprofessional

Students interested in health careers requiring strong basic science backgrounds, such as medicine and physician assistant programs, should enroll in the pre-professional specialization.

To be on track for the junior year, students must meet the critical-tracking criteria listed below, beginning with the first fall or spring term.

To be considered for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester:

<table>

The online application to the BHS program goes live as a link on the BHS website (http://bhs.phhp.ufl.edu/) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

Semester 1
- Complete PSY 2012, and ENC 1101 or ENC 1102 with minimum grades of C
- Complete 9 credits of general education courses, including ENC 1101 or ENC 1102, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

Semester 2
- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18
- 2.7 cumulative GPA on work from all institutions

Semester 3
- Complete BSC 2010 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Semester 4
- Complete DEP 3053 or CLP 3144 with a minimum grade of C
- Complete APK 2105C with a minimum grade of C
- Complete all general education courses, including IDS 1161 and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete 60 cumulative credits
- Complete all critical-tracking courses with no grades below C and with a 3.0 critical-tracking GPA
- 3.0 cumulative GPA on work from all institutions

Semester 5
- Complete HSA 3111 with a minimum grade of C
- Complete HSC 3502 with a minimum grade of C
- Complete PHC 4101 with a minimum grade of C

Semester 6
- Complete HSC 3657 with a minimum grade of C
- Complete HSC 4558 with a minimum grade of C
- Complete OTH 3416 with a minimum grade of C
- Complete 3 credits of College Approved Electives

Semester 7
- Complete HSC 3661 with a minimum grade of C
- Complete RCS 4415L with a minimum grade of C
- Complete HSC 4184 with a minimum grade of C

Semester 8
- Complete HSC 4608L with a minimum grade of C
- Complete HSC 4652L with a minimum grade of C
- Complete HSC 4008 with a Satisfactory grade
- Complete 9 credits of College Approved Electives

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Curriculum

• Disability Science Minor
• Health Science
• Health Science Minor

Related Programs

• Public Health

The minor is open to all juniors and seniors with majors outside the College of Public Health and Health Professions who meet the prerequisites. It is also open to communication sciences and disorders students.

Prerequisites include junior standing (60+ credits), a 3.0 overall GPA and a 3.0 prerequisite GPA based on general college biology, general psychology, abnormal/developmental/physiological psychology, physiology and statistics (STA 2023). Students can transfer up to three credits of approved coursework.

Interested students should obtain an application and a list of current coursework.

Required Courses

Complete the first three courses before taking electives.

Public Health

The Bachelor of Public Health (BPH) program prepares students for advanced education in public health or related fields. It also provides students with foundational public health skills to succeed in the dynamic public health workforce.

About this Program

• College: Public Health and Health Professions (p. 1044)
• Degree: Bachelor of Public Health
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.
A primary goal of the public health bachelor's degree program is to prepare students for advanced (master's) training in the health professions and in public health specifically, considered the entry level degree for the field. Students interested in a specific area of public health have the opportunity to organize some of their electives around a cohesive public health topic. In addition, interested students have the opportunity to explore a combination-degree program in public health.

Upon successful completion of the public health program, students receive the Bachelor of Public Health degree. While the majority of students pursue graduate or professional training in public health or a related field, some students seek employment in not-for-profit and for-profit agencies, or related community health organizations after completing the B.P.H.

### Course Sequence

The public health program is designed primarily for students who want to pursue advanced degree work in public health or a related field. It is also appropriate for those who want to acquire foundational public health knowledge before continuing to graduate or professional school or who will work in a health-care setting after graduation. In order to be on track for pre-public health at the junior level, students must meet the critical-tracking criteria listed below, beginning with their first fall or spring term.

To be considered for admission at the junior level, students must:

- Complete these prerequisites:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

- 3.0 overall GPA and 3.0 prerequisite GPA
- AA degree or 60 transferable college level credits
- Completion of all general education and university writing requirements

- Apply formally to the college by February 1. The college application packet is available online. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

AP, IB, or AICE credit is accepted for any prerequisite course. Students must earn a minimum of C in any BPH prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BPH prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Students must apply by February 1 for Summer B and fall admission. All prerequisites must be completed by the end of Summer.

### Critical Tracking

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

#### Semester 1

- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

#### Semester 2

- Complete STA 2023 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18, and including the university writing requirement
- 2.7 cumulative GPA on work from all institutions

#### Semester 3

- Complete BSC 2005 or BSC 2010 with minimum grade of C
- Complete Social and Behavioral Sciences (GE-S) with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

#### Semester 4

- Complete all general education courses, including IDS 1161 GE-B/P, GE-S, and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete Physical or Biological Science (GE-P or B) with a minimum grade of C
• Complete 60 cumulative credits
• 3.0 critical tracking GPA and minimum grades of C on all critical-tracking courses, based on all attempts
• 3.0 cumulative GPA on work from all institutions

SEMMER 5
• Complete PHC 4101 with a minimum grade of C
• Complete PHC 4094 with a minimum grade of C
• Complete PHC 3603 with a minimum grade of C
• Complete HSC 3502 with a minimum grade of C
• Complete HSA 3111 with a minimum grade of C
• 3.0 GPA required for all critical-tracking courses, based on all attempts
• 3.0 cumulative GPA on work from all institutions

SEMMER 6
• Complete HSC 4558 with a minimum grade of C
• Complete HSC 3057 with a minimum grade of C
• Complete PHC 3440 with a minimum grade of C
• Complete 1 Approved college elective with a minimum grade of C
• Complete 1 Specialty elective (3000/4000) with a minimum grade of C
• 3.0 GPA required for all critical-tracking courses, based on all attempts
• 3.0 cumulative GPA on work from all institutions

SEMMER 7
• Complete PHC 4024 with a minimum grade of C
• Complete PHC 4320 with a minimum grade of C
• Complete 2 Approved college electives with a minimum grade of C
• Complete 1 Specialty elective (3000/4000) with a minimum grade of C
• 3.0 GPA required for all critical-tracking courses, based on all attempts
• 3.0 cumulative GPA on work from all institutions

SEMMER 8
• Complete PHC 4943 with a minimum grade of C
• Complete PHC 4117 with a minimum grade of C
• Complete 1 Specialty elective (3000/4000) with a minimum grade of C
• Complete General electives (3000/4000) with a minimum grade of C
• Complete a minimum of 6 college approved electives
• Complete 60 upper division credits
• 3.0 GPA required for all critical-tracking courses, based on all attempts
• 3.0 cumulative GPA on work from all institutions

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Total Credits  120

1 Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term and order indicated.

Academic Learning Compact

Students graduating with a Bachelor of Public Health will be prepared for careers in health care systems or organizations addressing the health or more general human service needs of communities and populations. They will learn the foundational skills necessary to enter post baccalaureate academic programs in public health or complementary fields and success in the dynamic public health workforce.

Before Graduating Students Must

• Earn minimum grades of C in all public health core courses.
• Pass a BPH capstone exam and service learning experience.
• Complete requirements for the post baccalaureate degree, as determined by the faculty and the university.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Explain the five major areas of public health (biostatistics, environmental health services, epidemiology, health services administration, and social behavioral science), and each area’s contribution to public health.
2. Identify, describe, and explain the ways that social determinants of health impact disability, disease and illness in populations.

Critical Thinking

3. Identify, critically evaluate, and propose solutions to public health challenges.

Communication

4. Communicate in oral and written forms public health concepts and their relationship to policy, communities, organizations, interpersonal dynamics and individual perspectives.

Public Health Minor

The Public Health minor enables preprofessional students to acquire public health knowledge that complements their career paths. The minor is designed for students going into careers other than public health who can benefit from public health knowledge in the delivery of their services. A few examples of these careers include anthropology, dentistry, environmental engineering, health education, medicine, nursing, nutritional sciences, occupational therapy, physician assistant, and psychology.

Curriculum

- Public Health
- Public Health Minor

Related Programs

- Health Science
- Health Science Minor

Students interested in public health careers should consider a combination-degree program rather than this minor.

For students in the College of Public Health and Health Professions, successful completion of this minor satisfies the 9-credit college elective requirement and six credits of general elective credit. Therefore, no additional credits beyond 120 are required for graduation with a minor in public health.

Students must have completed the prerequisites for the BPH program with minimum grades of C to be considered for a minor. Prerequisites include:

- Junior status (60+ credits)
- 3.0 overall GPA
- 3.0 prerequisite GPA
- Completion of the following:

Students may transfer up to three credits of approved coursework toward the minor. All remaining credits must be taken from the course list below.

Interested students should submit the required UF application to add or cancel a minor. Students also must submit a proposed plan of study that includes courses for the minor.

More Info (http://bhs.phhp.ufl.edu/forms-2/)

Application materials should be submitted to the Bachelor of Public Health office in the College of Public Health and Health Professions, HPNP 4150. Minors are considered on a space-available basis. Students within the Bachelor of Health Science program are only able to apply one of their core curriculum courses towards the public health minor.

The communication sciences and disorders program and health science program also offers minors.

Counting Credits for Undergraduate or Graduate Degrees

Undergraduates who are interested in public health as a career path, but do not want to pursue the Bachelor of Public Health, should consider the Bachelor/MPH Combination Degree. This would allow courses taken in a student's senior year to count toward an MPH degree.

More Info (http://mph.ufl.edu/)

Majors

Index of all Majors (http://catalog.ufl.edu/UGRD/programs/#filter=filter_22)

An academic major represents each student's principal interest and the majority of their efforts during their undergraduate studies. Each major's core curriculum covers a range of subjects that provide the student with a solid foundation in their chosen field of study.

Declaring a Major

Upon entering UF as a freshman, students are encouraged to declare the major that they are most likely to pursue. Students may declare Exploratory if they are unsure. In their first few terms, students should take courses to explore multiple academic areas. Many students have varied interests and will graduate with minors, certificates, double majors, dual degrees and/or combination degrees.

Exploring Areas of Interest

Exploring areas of interest early helps students determine whether they want to pursue additional academic programs. In addition, quite a few students change majors in their first or second year, so exploring multiple areas early helps students to confirm their choice of major or identify a more desirable major.

More Info (https://www.advising.ufl.edu/exploratory/)

Declaring an Exploratory Category

First-year students with no major preference can declare one of three exploratory categories (humanities and letters, social and behavioral sciences, or science and engineering) for the first three fall/spring terms. Exploratory students are advised by the Academic Advising Center and affiliated with the College of Liberal Arts and Sciences. Exploratory students should be purposeful in all of their decisions, particularly when it comes to choosing classes for each semester to be sure they are taking courses to explore potential majors. They must also actively work to narrow down UF majors to one that fits their aspirations and abilities.

Changing Majors

It's not unusual for students to change their minds about majors and career paths as they gain educational and practical experience. To help ensure that students make the best choices regarding their major and degree, UF provides guidance, information, and technical assistance. Students should proactively determine their major to obtain the degree
that fits them best instead of being forced to select a major due to pending academic deadlines.

There is often little relationship between undergraduate degrees and specific types of employment. A specific major does not guarantee employment in a specific field, nor does a specific major limit employment to a specific field.

Ways to Explore Areas of Study at UF

Review the Undergraduate Majors

Students should search for majors that interest them and explore required courses; they should also speak to faculty or advisors in those departments.

Use ONE.UF to Explore Majors by Subject Area, College, or Major

Current students can use What-If reports in ONE.UF (https://one.ufl.edu/) to discover if coursework they have taken applies toward a given major’s requirements. For additional information, students should contact the department offering the degree or the advising office of the appropriate college.

More Info (https://one.ufl.edu/)

Meet with an Academic Advisor

Students can discuss majors and career options with an advisor in the college affiliated with their interests.

More Info (http://www.ufadvising.ufl.edu/)

Utilize the Exploratory Website

Students who are considering different majors can review advising suggestions, an exploratory timeline, resources, and tips on choosing a major.

More Info (https://www.advising.ufl.edu/exploratory/)

Visit the Career Connections Center

The Career Connections Center located on the first floor of the J. Wayne Reitz Union helps students make choices about their major and career. In addition to providing individual and group career counseling, the Career Connections Center library covers everything from accounting to zoology. Many other resources to explore careers are available through the website (https://career.ufl.edu/career-action-plan/learn-about-yourself/), including information about career planning and numerous helpful exercises. After a tentative decision is made, the Career Connections Center helps students test their choice by participating in externships, internships, co-ops, and career fairs.

More Info (https://career.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0686)

Talk to a College or Department Representative

Students should be sure to discuss various academic programs and their potential career implications. Websites and contact information for each major can be found on its major page.

Minors

Index of all Minors (http://catalog.ufl.edu/UGRD/programs/#filter=filter_23)

The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. Students can follow-up on long-time personal interests, satisfy intellectual curiosity generated by introductory courses, differentiate their program of study from those of fellow students or enhance their opportunities for employment or for admission to graduate or professional schools.

Applying for a Minor

Students should review the information about their minor of interest in this catalog. In general, each minor page explains which students are eligible to pursue the minor, any qualifications or prerequisites necessary to be eligible for the minor and the requirements to complete the minor. Students are also encouraged to discuss the minor with the offering department.

Students interested in pursuing a minor must complete an application. Students will not be able to earn a minor if an application has not been submitted and approved. The application requires the approval of the student’s college as well as the college offering the minor. Students may apply using the link below. The approval process can take some time so students are strongly encouraged to apply to pursue a minor early.

Apply for a Minor (https://registrar.ufl.edu/assets/pdfs/minorform.pdf)

Certificates

Index of all Certificates (http://catalog.ufl.edu/UGRD/programs/#filter=filter_24)

Each certificate program must have at least nine credits that are distinct from every other certificate or minor. That is, certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors. All courses required must be completed with minimum grades of C or S in each course. The undergraduate certificate does not require completion of graduate courses.

Applying for a Certificate Program

Students should review the information about their certificate of interest in this catalog. In general, each certificate page explains which students are eligible to pursue the certificate, any qualifications or prerequisites necessary to be eligible for the certificate and the requirements to complete the certificate. Students are also encouraged to discuss the certificate with the offering department.

Students interested in pursuing a certificate must first apply for program admission. After being admitted and completing the requirements, students will be able to apply to be granted the certificate through ONE.UF (https://one.ufl.edu/). Students who are about to graduate and who have already completed all the requirements for the certificate still must apply for admission using the button below before applying to be granted the certificate through ONE.UF. The certificate approval process can take some time so students are strongly encouraged to apply to pursue a certificate early.
Apply for a Certificate Program (http://www.admissions.ufl.edu/start.html)

**Academic Advising**

**Mission**
The university is committed to quality academic advising for all students. The academic advising mission is to assist students in attaining their educational goals. New students are required to attend, and will receive advising during Preview, UF’s new student orientation. After Preview, student advising is handled by college and departmental advisors.

**University Responsibilities**
The Academic Advising Center in Farrior Hall is responsible for certain university advising functions: coordinating academic advising during Preview, advising exploratory students, and providing resources and information to students interested in post-baccalaureate professional programs such as dentistry, law, medicine, and veterinary medicine. Map (http://campusmap.ufl.edu/?loc=0019) More Info (http://www.advising.ufl.edu/)

**College/School and Department Responsibilities**
The dean of each college or school ultimately is responsible for ensuring that academic advising is available and accessible to all students within the college or school. Some colleges’ advisors are located in college-level offices, while others are located in departmental offices.

Academic Advising Contacts at UF (http://www.ufadvising.ufl.edu/)

**Student Academic Responsibilities**
To graduate, students are responsible for knowing and fulfilling all university, college, and major requirements.

**All students must:**

- Complete the Preview orientation program to receive academic advising before their first term of enrollment
- Maintain a GatorLink email address and read official university correspondence sent to this address
- Meet with an advisor in the appropriate college/major upon entrance to a major
- Confer with an advisor on a regular basis about options for a major if the student is undecided about a major
- Review the degree audit each semester to ensure they fully understand their remaining degree requirements
- Seek advising when experiencing academic difficulty to avoid, if possible, academic probation or off-track status, or to understand their options if on probation or off-track
- Maintain their own personal academic records, including transcripts, degree audits, evaluation of transfer work, and notes from previous advising sessions.

Students who at any time are confused about academic requirements or their progress toward a degree are encouraged and expected to meet with an advisor.

Universal Tracking is the university’s monitoring system that assesses progress toward the student’s degree requirements. It provides feedback on the student’s progress in a major, helping them find the best academic path to complete their degree. For each major, there is a model semester plan which represents an example progression for completing the degree path to complete their degree. For each major, there is a model semester plan which represents an example progression for completing the degree.

Each semester, students are reminded via GatorLink email and Registration Prep in ONE.UF to review their degree audit before registration for the next term. The audit fits the student’s courses and grades into the degree requirements for their major, indicating the requirements that have been completed as well as showing which requirements have yet to be completed.

### Academic Progress

#### Universal Tracking

Universal Tracking is the university’s monitoring system that assesses progress toward the student’s degree requirements. It provides feedback on the student’s progress in a major, helping them find the best academic path to complete their degree. For each major, there is a model semester plan which represents an example progression for completing the degree in a timely fashion.

Each semester, students are reminded via GatorLink email and Registration Prep in ONE.UF to review their degree audit before registration for the next term. The audit fits the student’s courses and grades into the degree requirements for their major, indicating the requirements that have been completed as well as showing which requirements have yet to be completed.

### Students Who Enroll During the Fall and Spring Semesters

Progress toward a degree is monitored in those semesters to ensure that students are on track. For these students, the summer terms may provide opportunities to catch up on critical-tracking courses or to improve their GPA.

### Students Who Enroll Only in the Spring and Summer Semesters

**Innovation Academy Students**

Progress toward a degree is monitored in those semesters to ensure that students are on track. For these students, the fall semester may provide opportunities to catch up on critical-tracking courses or to improve their GPA.

### Critical-Tracking Criteria

Critical-tracking criteria usually include a minimum GPA (UF or overall, depending on the academic program), completion of certain courses toward the major (critical-tracking or preprofessional courses), and a minimum GPA in the critical-tracking courses (tracking or preprofessional GPA). The critical-tracking criteria are listed on the Critical Tracking tab for each major. For many majors, critical-tracking courses are bolded in the semester plan.

### Minimum Academic Progress Under Universal Tracking During Semesters 1-5

- Students do not have to complete all of the courses in the model plan each semester to remain on track; they simply have to meet certain minimum requirements known as **critical-tracking criteria**.
- In the degree audit, a summary of critical-tracking criteria for the first five semesters as well as an area that tracks your progress through all eight semesters appears near the top of the audit.
- The critical-tracking criteria are minimum requirements for progression; students should consult their degree audit and their advisor to ensure they meet all requirements for graduation.
- All students admitted as freshmen are monitored in their first semester for the Semester 1 critical-tracking criteria, regardless of the number of credits they have earned through dual enrollment and credit by examination.
- During the first five critical tracking semesters, an **off-track** student will have a hold placed on their registration to require a meeting with an advisor to discuss the student’s progress. This enables the student to determine what is necessary to get back on track, or to change to a more appropriate major.
- If a student is **off-track for two consecutive terms** in the first five critical tracking semesters, they must change to a major more appropriate to their skills, goals, and performance. Once the student selects a new major, they should contact the college offering that major to schedule an appointment with an advisor to discuss changing majors.

### Off-Track Notification During Semesters 1-5

Student progress toward tracking is assessed twice a semester. An analysis of whether the student will be on track at the end of the term (‘predictive’ analysis) occurs in the fourth week. If a student is predicted to be off-track at the end of the term, a hold is placed on their registration requiring the student meet with an advisor to make a plan to get back on track or change majors.
If a student is predicted to be on-track during the term, but ends up off-track at the end of term, they should meet with an advisor in their college/major before the end of drop/add for the next term to make a plan to get on track or change majors.

Students should review any holds on ONE.UF (http://one.uf.edu/) when planning their registration for the next semester.

**How Tracking Holds affect a Student**
- Holds applied before advance registration prevent students from registering until they consult an advisor to develop an academic plan to complete the critical-tracking courses for the current major or identify a more appropriate major.
- Holds applied at the end of the semester for failure to be on track for two consecutive semesters require students to see an advisor before the next term of enrollment to select a new major and to avoid cancellation of enrollment.

**Minimum Academic Progress Under Universal Tracking During Semesters 6-8**
- In the degree audit, critical-tracking criteria for semesters six through eight will appear in the “Critical Tracking Progress” area near the top of the audit only if the student has a critical tracking term of six through eight.
- The critical-tracking criteria are minimum requirements for progression; students should consult their degree audit and their advisor to ensure they meet all requirements for graduation.
- During the critical tracking semesters six through eight, an off-track student may have a hold placed on their record requiring them to formulate a plan for getting on track and preparing for graduation in a timely manner.
- If a student is off-track for two consecutive terms in during critical tracking semesters six through eight, they will be required to revise their graduation plan and undergo more intensive academic counseling to ensure they meet all academic requirements for timely graduation.

**Off-Track Notification During Semesters 6-8**
Student progress toward tracking is assessed twice a semester. An analysis of whether the student will be on track at the end of the term (‘predictive’ analysis) occurs in the fourth week. If a student is predicted to be off-track at the end of the term, a hold may be placed on their registration requiring the student meet with an advisor to make a plan to get back on track.

**Academic Probation and Dismissal**
Academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable adherence to the program of study.

A minimum grade point average of 2.0 is required to graduate from any UF undergraduate degree program. Any college may specify additional academic standards and students are responsible for observing these regulations.

**Additional Information**
- Probation (p. 1125)
- Dismissal (p. 1125)
- Changing Majors (p. 1078)

---

**Academic Support Programs**

**Academic Support, Office of | 105 CLASroom Building (CBD)**
The Office of Academic Support (OAS) for Undergraduate Affairs, in collaboration with faculty, staff, and our campus partners, provides programs and services to enrich the experience of UF students. Our mission is to offer supportive resources and opportunities that help students thrive and grow professionally. OAS is committed to creating an encouraging and inclusive learning community that challenges our students to achieve academic excellence. Our comprehensive academic support includes peer coaching, tutoring, general advising, and other resources to promote students’ empowerment and growth as scholars. We help students set and achieve academic goals to persist, graduate, and advance in their careers.

Map (http://campusmap.ufl.edu/?loc=0655) More Info (http://oas.aa.ufl.edu/)

**Career Connections Center | Level Two Reitz Union**
The Career Connections Center (Career Center) provides events and services to help students develop and implement their Career Action Plan to realize their next steps. Students can work with Career Center staff to clarify their interests and abilities, select a major, develop professionally, build experience, and prepare for future internship, graduate school, or employment searches.

Students should activate their Gator CareerLink account to learn about the range of in-person and online career planning services available to them, and to see which employers are actively recruiting University of Florida candidates.

The Career Connections Center hosts hundreds of employers annually as they attend a variety of career events, hold on-campus interviews, present information sessions, and interact informally with students.

Map (http://campusmap.ufl.edu/?loc=0686) More Info (http://www.crc.ufl.edu/)

**Center for Undergraduate Research | 202 Newell Hall**
The Center for Undergraduate Research (CUR) is committed to fostering a culture of research that encourages students in all levels and disciplines to include a research component as a critical part of their undergraduate experience. CUR provides guidance to students interested in pursuing research opportunities and coordinates campus undergraduate research activities. CUR also works to expand undergraduate research opportunities across campus.

Map (http://campusmap.ufl.edu/?loc=0013) More Info (http://cur.aa.ufl.edu/)

**Collegiate Veterans Success Center | 4th Floor Yon Hall**
The Collegiate Veterans Success Center serves over 2,000 student Veterans, Active Duty Service members, and military families at UF by providing a designated location on campus for student Veterans to study, meet with on and off campus resources, and to spend time with and support each other in a fun and relaxing space. The Collegiate Veterans Success Center at UF is also one of ninety-four universities to host the
U.S. Department of Veterans Affairs’ VetSuccess on Campus Counselor (VSOC). The VSOC Program serves as the on-campus face for the U.S. Department of Veterans Affairs. UF has been honored for its support services for student Veterans, Active Duty Service members, and military families.

- UF is ranked 1st out of 63 colleges and universities in Florida for Veteran friendliness (by College Factual);
- UF is ranked 4th out of 1,751 colleges and universities for Veteran friendliness (by College Factual);
- UF is ranked in the Top Ten of Tier One research institutions with outstanding programs and support for our nation’s Veterans and their Families (Military Friendly 2019); and
- UF was awarded a Best For Vets college award for excellent academic support of military students (Military Times 2019).

Map (http://campusmap.ufl.edu/?loc=0158) More Info (https://www.dso.ufl.edu/veteran/)

**Dean of Students Office Care Area | 202 Peabody Hall**

Professionals in the Dean of Students Office work with students, their families, and campus and community resources to develop success plans and provide ongoing support for students in distress dealing with a variety of issues.

Map (http://campusmap.ufl.edu/?loc=0004) More Info (https://www.dso.ufl.edu/care/)

**Disability Resource Center | Reid Hall and Cypress Hall**

The Disability Resource Center (DRC) in the Division of Student Affairs, celebrates disability identity as a valued aspect of diversity. We champion a universally accessible campus community that supports the holistic advancement of students with disabilities.

The DRC serves more than 4,000 registered students to provide access within the academic and housing environment. This may be done through academic accommodations as well as collaborating with faculty and staff across the University to proactively address barriers. Students are able to register online by visiting our website (https://disability.ufl.edu/). DRC staff are available to consult with faculty and staff on how to best support the access needs of gators with disabilities. Students and their families can schedule an inquiry appointment to learn more about the DRC. They can do this by visiting our online appointment scheduling page: https://disability.ufl.edu/about/drc-appointments/. Please feel free to call the DRC at 352.392.8565 for any questions.

Map (http://campusmap.ufl.edu/?loc=0020) More Info (https://disability.ufl.edu/)

**Graduate Diversity Initiatives, Office of | 123 Grinter Hall**

The Office of Graduate Diversity Initiatives (OGDI) is a function of the Graduate School dedicated to the recruitment and retention of underrepresented graduate students. This includes increasing the number of UF graduate students from underrepresented ethnic/racial populations, low-income or first-generation college students, as well as advancing and promoting professional development for all graduate students at the University of Florida. OGDI strives to provide currently enrolled graduate students with programs and services to assist and support the pursuit of a successful graduate education. OGDI provides students with social, informational, referral, mentoring, and, in some cases, financial support. Additionally, OGDI maintains partnerships with administrative offices, academic units, research centers, student services, and organizations across campus to help students with the graduate experience. OGDI accomplishes its mission through several programs held throughout the academic year.

**Undergraduates Interested in Graduate School**

OGDI aims to improve our UF undergraduates’ access to information about graduate school opportunities and to assist graduate schools in identifying qualified underrepresented candidates interested in graduate studies. In this effort, OGDI maintains The University of Florida’s membership to the National Name Exchange Consortium (https://apps.grad.uw.edu/nne/). This consortium matches undergraduate underrepresented students interested in graduate studies to graduate schools across the nation. The name exchange seeks to increase the number of qualified minority students accepted into graduate school. OGDI also participates in several recruitment events throughout the state and beyond.

**Office of Graduate Diversity Initiatives**

**International Center | 170 Hub**

The UF International Center (UFIC) supports and promotes international education and research across the university and provides valuable support services for all students and faculty at UF through its various units. International Student Services provides immigration and support services to international students throughout their studies at UF. Exchange Visitor Services provides administrative support for international scholars at UF. The Office for Global Learning supports integrative global opportunities for faculty and staff to facilitate global learning courses and experiences. The Office for Global Research supports faculty development of international research and training programs.

Study Abroad Services develops, administers, and coordinates study abroad programs, which are offered during spring break, summer, semester, and the entire academic-year. Students can live and study abroad while fulfilling UF degree requirements. Exchange programs enable students to pay UF tuition while studying at an international partner institution. Scholarships and financial aid can help to finance the international academic experience. Study abroad advisors work with students to find a program that fits both their personal and academic needs.

Map (http://campusmap.ufl.edu/?loc=0032) More Info (https://internationalcenter.ufl.edu/)

**McNair Scholars Program | 319 Infirmary Building**

The Ronald E. McNair Scholars Achievement Program encourages undergraduate students to pursue advanced studies at the Ph.D. level. This intense academic research program, one of the most prestigious in the country, is designed for first-generation and low-income college
students, as well as students from groups underrepresented at the graduate level. There are 187 McNair programs nationally, which are funded by Federal TRIO Program grants from the U.S. Department of Education.

New scholars begin the program in the summer with an intensive research internship, which includes a three-credit Research Methods and Writing course, GRE preparation, and workshops on the graduate school application process and other topics related to graduate study at the doctoral level.

McNair Scholars receive mentoring, academic support, faculty-guided research experience, a research stipend of up to $2,800, and travel funding to present at professional conferences and visit prospective graduate programs. Application information (http://mcnair.aa.ufl.edu/application.aspx). Map (http://campusmap.ufl.edu/?loc=0018) More Info (http://mcnair.aa.ufl.edu/)

**Teaching Center**

The Teaching Center offers various academic resources to help students succeed in their studies. All of our tutoring services are free to current students. The following tutoring services are available:

- Drop-in tutoring: best for students who have a few questions or want a place to study with the opportunity to ask questions of a tutor.
- Appointment tutoring: best for students who want to meet regularly with a tutor for an entire class period. These appointments meet at the same time each week of the term.
- Study Groups / SI: group tutoring which allows students to work together with a peer leader. In SI students actively process concepts through social interaction.
- Test Reviews: large auditorium tutoring is great for an overall review of what to expect on upcoming course exams. GRE preparation workshops are also available each semester.
- Video Resources: features tutors explaining how they think about concepts and how they approach problem solving. These online resources are available any time.

A study skills/learning strategies improvement program is also available. Students may work individually with a learning strategist or participate in workshops covering a variety of topics. Study skills videos are available online as well.

The Teaching Center is a certified Prometric, Pearson Vue Select, and NCTA Testing Center, and also provides test proctoring for distance education courses and CLEP exams. There is a fee for test proctoring/administration, however. Please be aware that CLEP exams must be taken and scores reported to UF before the end of the first semester of enrollment (or Fall semester for students entering Summer B).

The Teaching Center also provides tutoring in satellite centers (mathematics through Calculus 1 in LIT 215 and chemistry in TUR 1315). Tutoring schedules may be found on the website. More Info (https://teachingcenter.ufl.edu/)

**University of Florida Libraries**

All seven of the libraries on campus serve the entire community, and each has a special mission to be the primary support of specific colleges and degree programs. The Libraries home page (https://uflib.ufl.edu) offers a wealth of information about the Libraries and links to a vast array of resources.

The Marston Science Library and Library West are the largest libraries on campus. In Marston, the first floor Collaboration Commons has 21 group study rooms and a multipurpose conference room featuring a multi-touch visualization wall. The first floor is also home to MADE@UF, a collaboration space created by the Libraries and Academic Technology with equipment, software and training for virtual reality and augmented reality applications. A 3D printing lab is located on the second floor and includes 3D scanners and printers available for lending.

Library West (Humanities and Social Sciences) offers 18 group study rooms, a graduate student floor, graduate student/faculty study carrels, and the Scott Nygren Scholars Studio, an emerging community center for digital humanities and digital scholarship. The One Button Video Recording Studio is available for student and faculty checkout. Six ProctorU testing carrels are available by reservation. Library West also has a Tutoring Center, Accessibility Studio and FitDesk study bikes.

Other campus libraries include the Health Science Center Library, Education Library, Architecture & Fine Arts Library, Smathers Library (special and area studies) and the Legal Information Center.

More Info (https://uflib.ufl.edu)

**University Multicultural Mentor Program**

The University Multicultural Mentor Program is an opportunity open to incoming students from underrepresented populations. The program pairs each participant with a faculty/staff mentor to assist with the students’ transition to college. Mentoring programs have a dramatic and positive effect on student retention, graduation rates, and faculty-student relations. This program lasts the full duration of the student’s first year at UF and is administered by the Department of Multicultural and Diversity Affairs within the Division of Student Affairs. For more information, email ummp@ufsa.ufl.edu.

More Info (https://multicultural.ufl.edu/programs/ummp/)

**University Writing Program | 2215 Turlington Hall**

The University Writing Program (UWP) offers writing-intensive courses, workshops, and tutorial support to students and faculty. Instruction is based on the premise that writing is a transferable skill necessary for success in all academic and professional fields.

The University Writing Program also provides one-on-one consultations on any topic related to writing in the Writing Studio. Students can make an appointment online or by contacting the UWP office.

Courses taught by writing program faculty include:

Academic Honors

Honors Program

The mission of the University of Florida Honors Program is to connect, nurture, and engage the next generation of scholars who change the world. The program does this by recruiting high achieving students from around the world; inspiring curiosity, intellectual daring and creativity; and building a lifelong community of high-achieving peers, top-notch faculty and supportive staff. The Honors Program values the power of opportunity, the strength in community, and the love of a challenge. More Info (http://www.honors.ufl.edu/)

There are two pathways to admission / participation in the Honors Program.
First-Year Honors Program
The First-Year Honors Program (FHP) is open to high school seniors who are entering UF as incoming freshmen.
More Info (http://www.honors.ufl.edu/admissions/first-year-honors-program-fhp/)

Members of the First-Year Honors Program must earn at least a 3.5 cumulative UF GPA and take at least 2 credits of Honors courses (earned with a B or higher) during their first year. The first year includes Summer B, Fall, and Spring, but not the following summer. Students who enter the FHP starting in Summer B 2021 or later will be required to take the Honors version of their Quest 1 requirement in addition to the 2 credits of Honors courses. Students who complete these requirements will move automatically into University Honors for the remainder of their time at UF.

University Honors Program
The University Honors Program (UHP) is open to sophomores through seniors. Members of the First-Year Honors Program are automatically advanced to University Honors if they complete the FHP. Currently enrolled freshmen who are not members of FHP may apply to UHP at the conclusion of their first year at UF, provided they have met the lateral admissions criteria.
More Info (http://www.honors.ufl.edu/admissions/university-honors-program-uhp/)

To complete the University Honors Program, students must graduate with honors in their major, complete Honors Quest 1 and 2, and earn 8 additional academic and 6 enrichment points through various activities. Students who meet the UHP completion requirements will receive a notation on their official UF transcript and a medallion to wear at commencement.
More Info (http://www.honors.ufl.edu/info-for/current-students/completion-requirements/)

Students in the Honors Program have access to:

- Specialized honors courses (http://www.honors.ufl.edu/academics/courses/)
- Housing in the Honors Residential College at Hume Hall (https://www.housing.ufl.edu/housing/hume-hall/)
- Holistic academic advising and coaching (http://www.honors.ufl.edu/academics/advising/)
- Honors student involvement opportunities (http://www.honors.ufl.edu/student-life/)

In addition, students in the Honors Program have early course registration for their first 10 credits each semester. Early registration privileges are limited to students in good standing with either the FHP or UHP.

Honor Roll
Students will appear on the President’s Honor Roll if they achieve a perfect 4.0 GPA with at least 15 credits of graded academic course work (no S/U) in the fall or spring semester, or at least 12 credits of graded coursework in the summer semester (consisting of any combination of credits earned in Summer A, B, or C). This achievement will appear on the student’s transcript as a permanent record. Students with questions about the President’s Honor Roll should contact the Office of the University Registrar in 222 Criser Hall.

Dean’s List
Students will appear on their college’s Dean’s List if they meet the requirements. In addition, please note the following conditions:

- S/U and internship courses are not counted in the GPA calculation for Dean’s List.
- GPA value is determined to the hundredths place and cannot be rounded up (e.g., 3.495 = 3.49).
- Grades of I, NG, I* or N* cannot be calculated into the GPA.
- Students registered with the Disability Resource Center may be allowed to vary the number of credits required, but not the GPA requirement, following certification by the DRC.
- Students are eligible to earn the Dean’s List designation only once for the entire summer semester.
- In all colleges except Public Health and Health Professions, the credits in the Summer Requirements column can be earned in any combination of Summer A, B, or C courses. For Public Health and Health Professions, the six credits may be earned in either Summer A or Summer B, but not Summer C, and those students can only appear on their Dean’s List once for the summer semester.

Graduating With Honors

The university offers three levels of honors: cum laude, magna cum laude and summa cum laude.

Please be aware that:

- GPA value is determined to the hundredths place (e.g., 3.495 = 3.49)
- Transfer credits and S/U option credits are excluded
- Postbaccalaureate students are not eligible for honors recognition

Cum Laude

Magna Cum Laude

Summa Cum Laude

Student must complete at least six credits of ZOO 4911, BSC 4910, BSC 4912, or BOT 4911, complete a thesis research project and submit an honors thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

Natural Resources and Environment, School of

Cum Laude

Magna Cum Laude

Summa Cum Laude

Refer to the College of Agricultural and Life Sciences.

Nursing, College of

Cum Laude

Magna Cum Laude

Summa Cum Laude

3.70-3.79 GPA in all upper-division nursing courses.

Students in all honors distinctions must satisfactorily complete the honors program.

Pharmacy, College of

Cum Laude

Magna Cum Laude

Summa Cum Laude

3.50 or higher GPA in required pharmacy courses and completion of all pharmacy coursework in the Doctor of Pharmacy curriculum.

Public Health and Health Professions, College of

Cum Laude

Magna Cum Laude

Summa Cum Laude

3.90-4.00 GPA in all upper-division nursing courses.

Students in all honors distinctions must satisfactorily complete the honors program.

the semester after accumulating 60 credits. Successful completion of HSC 4969 and 4970 including research poster presentation and thesis, or SPA 4931 including thesis and depending on BHS major, and no student conduct or honor code violations. Dean’s review of thesis designates honors level.

Academic Terminology

A

- A.A. Degree
  Associate of Arts degree, awarded upon satisfactory completion of 60 credits (at least 36 at UF) with an overall C (2.0) average, including the general education requirement, foreign language competency, the civic literacy requirement, and the writing requirement. More Info (p. 1129)

- Academic Learning Compact | ALC
  UF’s definition for each major of the minimum communication skills, critical thinking skills and content knowledge appropriate for that major.

- Academic Year
  The annual cycle of academic terms: Summer B, Fall, Spring, Summer A, Summer C. More Info (p. 1142)

- Admission Requirements
  The necessary minimum criteria every applicant must have to be admitted to UF. Many majors have additional requirements for admission as a junior. More Info (p. 15)

- Admitted
  Term used to describe students who have applied and have been accepted to the university in a degree-seeking status. Admission is not validated until the student registers for and attends classes. More Info (p. 15)

- Audit
  Permission to attend and to participate in a course without benefit of a grade or credit. Continuing education units (CEUs) may be awarded at the discretion of the instructor. More Info (p. 1140)

- Academic Years
  The annual cycle of academic terms: Summer B, Fall, Spring, Summer A, Summer C. More Info (p. 1142)
B • Baccalaureate
Bachelor’s degree, the traditional undergraduate degree. B.A. is the Bachelor of Arts degree and B.S. is the Bachelor of Science degree. It is awarded upon satisfactory completion of at least 120 credits with an overall C (2.0) average.

C • Calendar, University
An annual publication listing all official dates and deadlines for the academic year. More Info (p. 1142)

• Catalog Year
The year during which the regulations published in a specific edition of the undergraduate catalog apply. A student’s catalog year determines their academic requirements for completing a degree based upon the requirements published in the catalog in effect at the time the student begins degree-seeking enrollment. More Info (p. 1129)

• Certificate
An organized concentration of study in an approved subject area. University-approved certificate programs began appearing on the student transcript in Spring 2012. Non-university approved certificate programs are not recognized on a student transcript although individual courses are reflected. More Info (p. 1079)

• Classification/College
A code indicating a student’s academic level (year) and college affiliation. More Info (p. 1142)

• Combination Degrees
Combination degrees allow students to double count graduate credits toward their bachelor’s degree at no loss of integrity or quality of either degree. More Info (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees/)

• Common Course Numbering System
A statewide system of course prefixes and numbers developed to facilitate the transfer of credit by identifying equivalent courses. More Info (http://scns.fldoe.org/)

• Continuing Education Unit | CEU
Courses taken to maintain licensure in professions that require a state or professional board license.

• Continuous Enrollment
Undergraduate students who enroll for at least one course in one term in an academic year are continuously enrolled. More Info (p. 1129)

• Corequisite
Two courses that must be taken concurrently.

• Course Sequence
The specified order of enrollment for a series of courses; e.g., SPN 1130, SPN 1131, SPN 2200, SPN 2201.

• Credit
Every course taught is designated a total number of credits. The number of credits for a class reflects approximately the total hours a student spends per week in class.

• Critical Tracking Criteria
The courses required for progression in a major. These courses are in bold or otherwise noted in the undergraduate catalog and on the degree audit. More Info (p. 1080)

• Cum Laude
Graduating with honors. More Info (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

D • Deficit Record
A combination of UF cumulative credits and UF cumulative grade point average, where the UF cumulative GPA falls below a 2.0. More Info (p. 1126)

• Degree Audit
A computerized evaluation of a student’s progress towards completion of a degree. See ONE.UF. More Info (https://one.uf.edu/dashboard/)

• Dismissal
Academic dismissal from the university denies registration privileges to students who have a cumulative GPA at or below the standard required for their cumulative UF credit hours carried. The student will be dismissed from the university and any advance registrations will be cancelled. More Info (p. 1125)

• Drop
To drop a single course from a given term after the drop/add period. Students are liable for fees for a dropped course and a W is posted to the student’s transcript. More Info (p. 1130)

• Drop/Add
A period of time beginning with the first day of classes when students can adjust schedules by dropping or adding courses or changing sections of a course. Courses dropped by 11:59 p.m. on the last day of drop/add are not subject to fees. More Info (p. 1130)

• Dual Enrollment
Simultaneous registration at two educational institutions. More Info (p. 1108)

E • Early Admission
Admission as a freshman following completion of the junior year of high school. More Info (p. 16)

• Electives
Any course not required as part of a student’s degree requirements, but applying to the minimum credits for the degree.
• **Enrollment**
  Registration for coursework and payment of fees constitutes official enrollment.

• **Excess Hours**
  Credits exceeding a state-specified threshold of credits taken toward the degree requirements. Additional tuition is assessed for credits exceeding this threshold.
  More Info (p. 1132)

• **FERPA**
  The Family Educational Rights and Privacy Act, which affords students certain rights with respect to their education records.
  More Info (p. 1136)

• **Flexible Learning**
  Division of Continuing Education course offerings. Consult the college dean's office for restrictions and limitations.
  More Info (p. 1116)

• **GatorLink**
  A student’s computer identity at UF, which consists of a username and password to allow access to secure UF sites. It also includes official UF email service, usually in the format of username@ufl.edu. All students are required to sign up for a GatorLink account and email service because official university communications are sent to this email address.
  More Info (p. 1151)

• **Gator 1 Card**
  UF’s official university photo identification. All enrolled students must have a university ID card.
  More Info (p. 1151)

• **General Education Requirement**
  University-wide requirement of basic studies that form the foundation of all undergraduate degree programs.
  More Info (p. 51)

• **Good Standing**
  Eligible to continue to register for university coursework.
  More Info (p. 1125)

• **Grade Point Average | GPA**
  The ratio of grade points earned to semester credits carried. The UF GPA is computed on University of Florida coursework only. The UF GPA is displayed to the hundredths place and not rounded up (i.e. 3.528 = 3.52).
  More Info (p. 1138)

• **Graduate Student**
  A student who has earned a baccalaureate degree and who has been admitted to the Graduate School to pursue a graduate degree program (master’s, specialist, engineer, doctorate).
  More Info (http://www.graduateschool.ufl.edu/)

• **Graduation Requirements**
  University-wide, college- and major-specific requirements that must be met for graduation from UF.
  More Info (p. 1129)

• **Individual Students Assessments | ISA**
  The different ways in which UF will measure whether students have successfully completed the learning outcomes for a particular major. These may include a passing score on a particular test, a final project, term paper, portfolio and so on.

• **Innovation Academy | IA**
  A unique undergraduate program experience, IA creates a small-college experience that focuses on delivering innovation, creativity, entrepreneurship, ethics, and leadership. IA students take courses on campus during the spring and summer, leaving the fall term free for online courses, study abroad, internships, research, community service, and/or employment. IA students follow this spring-summer on campus schedule throughout their entire degree program.
  More Info (https://innovationacademy.ufl.edu/)

• **Learning Outcomes**
  What students are expected to learn by completing a particular major.

• **Magna Cum Laude**
  Graduating with high honors.
  More Info (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

• **Major**
  A subject of academic study chosen as a field of specialization.
  More Info (p. 1078)

• **Matriculation**
  Initial term of enrollment and attendance at UF. Can be as an admitted, degree-seeking student or as a non-degree student.

• **Medical Withdrawal**
  Student withdraws from all courses in a given term based on medical documentation. Fees for the semester will be refunded if a successful petition is filed within six months of given term.
  More Info (https://care.dso.ufl.edu/medical-withdrawal-process/)

• **Minor**
  An officially recognized secondary concentration of study in an approved subject area, consisting of at least 15 credits of appropriate coursework. Minors are optional.
  More Info (p. 1079)

• **Ombuds**
  The university ombuds assists all members of the university community to solve problems and conflicts. They will listen, discuss issues, answer questions, interpret policies, provide information and referrals, and help develop options for problem resolution. The
ombuds serves as an advocate for fairness for all members of the university community.
More Info (p. 1125)

- **On-track or Off-track**
  On-track refers to students who are meeting progress requirements each term, according to their majors’ critical tracking plans. Off-track refers to students who are not progressing toward their degree requirements each term.
  More Info (p. 1125)

- **ONE.UF**
  Enables students to access and manage their records online.
  More Info (https://one.uf.edu/)

- **Overall GPA**
  Cumulative GPA of UF coursework. GPA’s are displayed to the hundredths place and not rounded up.
  More Info (p. 1138)

- **PaCE | Pathway to Campus Enrollment**
  PaCE offers degree programs through a combination of online and residential or campus-based learning options.
  More Info (http://www.admissions.ufl.edu/pace/)

- **Permanent Academic Record**
  The complete list of a student’s courses attempted, grades and credit earned, degrees awarded and any other pertinent academic information.

- **Petition**
  A written request seeking a waiver of or an exception to a university regulation, policy or deadline. Petitions may be considered if the circumstances are beyond the student’s control.
  More Info (p. 1125)

- **Postbaccalaureate**
  A student who has earned a baccalaureate degree and been admitted for continued study but who has not been admitted as a graduate or professional student.

- **Preprofessional GPA**
  The grade point average achieved in the specific courses required for admission to a major (a.k.a. tracking GPA); these courses generally are completed in the first two years of study and the required GPA is often higher than 2.0.

- **Prerequisite**
  A condition that must be met to establish eligibility to enroll in a program or course.

- **Prerequisite Courses**
  The courses students must take and successfully complete before they can enroll in a subsequent course.

- **Probation, Academic**
  Any undergraduate with less than a 2.0 cumulative UF GPA shall be placed on academic probation while a grade point deficit exists. Refer to deficit points.
  More Info (p. 1125)

- **Professional Student**
  A student who is admitted to pursue a Doctor of Dental Medicine, Juris Doctor, Doctor of Medicine, Doctor of Nursing Practice, Doctor of Pharmacy, Doctor of Physical Therapy, Physician Assistant or Doctor of Veterinary Medicine degree.

- **Readmission**
  The procedure for a previously enrolled UF student to re-enroll in a degree-seeking status after a break in enrollment of more than three terms; a readmission fee is required.
  More Info (p. 18)

- **Registration**
  The process by which a student officially selects and enrolls in university coursework.
  More Info (p. 1140)

- **Residency**
  Classification of students as Florida residents or non-Florida residents for tuition purposes.
  More Info (p. 18)

- **Schedule Adjustment**
  A period of time following registration before the beginning of classes when students can adjust their course schedules.

- **Schedule of Courses**
  A listing of courses offered by semester.
  More Info (https://registrar.ufl.edu/soc/)

- **Semester**
  A standard academic term (fall, spring, or summer). Refer to term.
  More Info (p. 1142)

- **Student**
  Any individual who is attending or has attended a postsecondary educational agency or institution that maintains academic records.

- **Specialization**
  A detailed set of courses and/or semester plan for graduation for an emphasis of study within a major.

- **Student Learning Outcomes | SLOs**
  What students are expected to learn by completing a particular major.

- **Summa Cum Laude**
  Graduating with highest honors.
  More Info (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorscontent)

- **S/U Option**
  A provision by which a student may elect, with college approval, to enroll in a course, the grade for which is not computed in the grade point average. Grades awarded are S (satisfactory) or U
(unsatisfactory). The S grade is equivalent to a grade of C (2.0) or better. A grade of U does not grant credit for the course.

More Info (p. 1138)

- SUS
  The State University System of Florida. The University of Florida is one of the state-supported universities and colleges in the SUS.
  More Info (http://www.flbog.edu/)

- Term
  A period of instruction. During the fall and spring, the term is a standard 16-week semester. During the summer, various shorter length periods of instruction are offered: Summer A and Summer B are six-week terms; Summer C is a 12-week term.
  More Info (p. 1142)

- Textbook Adoption
  The process by which textbook requirements are submitted by faculty and displayed online for students to see and to purchase for their courses.

- Transcript
  An official copy of the student’s complete coursework, grades, credit and degrees earned at the University of Florida.

- Transfer Credit
  Coursework completed at another institution that is accepted at the University of Florida and which may be applicable toward a specific major, minor, or degree.
  More Info (p. 18)

- Transient Student
  A student of another accredited institution who receives permission to register (for one term) as a non-degree-seeking student to earn credit to transfer back to their parent institution.

- UFID
  A unique eight-digit number that serves as the primary identifier for all university records and transactions. No two people have the same number and each person has only one UFID.
  More Info (p. 1151)

- UF Online
  Bachelor degrees and minors offered exclusively through distance learning.
  More Info (http://ufonline.ufl.edu/)

- Unit
  An alternate term for credit. One unit equals one credit.

- Universal Tracking System and Audits
  UF’s academic monitoring system, feature semester-by-semester plans for each major.
  More Info (p. 1080)

W

- What-If Report
  Exploring possible majors to determine a student's interest and to estimate whether the coursework they have completed meets any of the degree requirements for a specific major.

- Withdraw
  To drop all courses for a given term. Students are liable for fees and a grade of W will appear on the transcript for each course.
  More Info (p. 1130)

- Writing Requirement
  The University of Florida requires all students to complete courses that involve substantial writing and meet specific criteria for a total of 24,000 words. Courses are identified by category in the schedule of courses.
  More Info (p. 1122)

Accelerated Degrees

College of Dentistry’s Honors Combination B.S./D.M.D. Program

Incoming freshmen who intend to pursue a career in dentistry can, through a cooperative agreement between the College of Agricultural and Life Sciences and the College of Dentistry, qualify for provisional admission to the preprofessional program leading to the D.M.D. This honors program helps highly motivated students complete a B.S. degree in Nutritional Sciences or Microbiology and Cell Science and the D.M.D. degree.

More Info (http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program/)

Admission Criteria (http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program/)

Contact: 352.273.5955

Medical Honors Program

An accelerated path to medical school. Students apply to this highly competitive program in the second semester of the second year of undergraduate study. If selected, they begin coursework for medical school in the third year and enter the M.D. program in the fourth year. After completion of the first year of medical school, students earn their B.S. degrees.

More Info (http://jhmp.med.ufl.edu/)

Admission Criteria: Apply during sophomore year
Contact: Email (med-admissions@ufl.edu) | 352.273.7990

Master of Agribusiness (MAB)

A professional degree for students who desire careers in marketing and management in agriculture, food processing and distribution, forest products and related industry where there has been strong demand for MAB graduates. Offered by the Department of Food and Resource Economics (FRE), the MAB can be completed in three semesters (fall, spring and summer). A bachelor's degree in economics or business is not required.

More Info (http://www.fred.ifas.ufl.edu/graduate/mab/)
Admission Criteria: Competitive GRE or GMAT score; 3.0 upper-division GPA
Contact: Email (fregradprogram@ifas.ufl.edu)

Master of Science in Management (MSM)
Provides non-business majors with the opportunity to combine the knowledge gained from other academic disciplines with functional business applications to create a dynamic skill set that is in demand by employers.
More Info (https://warrington.ufl.edu/master-of-science-in-management/)

Admission Criteria: Refer to website for next information session.
Contact: Email (msm@cba.ufl.edu) | 352.273.0344.

Master of Public Health
This degree offers diverse career opportunities, including identifying and tracking biohazards, keeping communities safe, investigating disease outbreaks, creating community health promotion programs and measuring the impact of health policy on access to care.
More Info (http://mph.ufl.edu/)

Students are admitted to one of six concentrations:
• Biostatistics
• Environmental Health
• Epidemiology
• Public Health Management and Policy
• Public Health Practice
• Social and Behavioral Sciences

Admission Criteria: 1000 GRE and a 3.0 GPA for last 60 hours of undergraduate coursework.
Contact: Email (shanson@phhp.ufl.edu) | 352.273.6379

Combination Degrees
The Combination Degree program allows undergraduate students who qualify academically to obtain both a bachelor's and master's degree. Minimum qualifications for many programs include a 3.2 GPA and a competitive GRE score for admission to graduate school.

Combination degree programs allow students to get a head start on their graduate education by taking graduate courses throughout the junior and senior undergraduate years. In most programs, 12 credit hours of graduate work will also count toward an undergraduate degree, thus reducing the time it takes to get both degrees. Students should consult their department advisors to determine whether the department offers combination degree programs and whether they qualify.

There are a number of financial considerations to keep in mind. Students are responsible for paying the difference between undergraduate and graduate tuitions. Florida Prepaid College Tuition Program participants will receive funding for the first 120 credit hours. The program will fund graduate courses taken toward the undergraduate degree at the undergraduate level. Financial aid may be available to assist with the graduate degree portion of the program.

Advantages
• Combination degrees allow students to double count graduate credits toward their bachelor's degree at no loss of integrity or quality of either degree.
• Qualified students can obtain an undergraduate and a graduate degree in much less time than two separate degrees.
• The cost of both degrees is reduced, since at least 12 credits apply toward both degrees.
• Students have time to decide whether to pursue further graduate or professional study.
• A student's marketability is greatly enhanced; many professions now require a master's degree for entry-level positions.

Combination Degrees by College Accounting, Fisher School of
Any Undergraduate Degree and Biostatistics | MS
The Biostatistics Bachelors/MS program allows qualified students to earn a bachelor's degree from any degree program at UF and a master's degree in Biostatistics. This allows the master's degree to be attained within one year (two semesters, 24 credits). The master's of science degree in Biostatistics is designed to facilitate students' development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.
Overlapping Credits: 12
Admission Criteria: Must have at least Junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; completion of 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.
Contact: 352.294.5926 | Email (http://catalog.ufl.edu/3-2-bsac-macc/)

Accounting | 3/2 MAcc/BSAc
Non-thesis only
This is an integrated, five-year, 150-hour program that leads to the joint award of a Bachelor of Science in Accounting and a Master of Accounting. Students may pursue a general accounting curriculum, or select an auditing or taxation concentration. This program is for students seeking a professional accounting career. Completion fulfills the state's requirements to take the CPA examination to practice in Florida.
Admission Criteria
Contact: 352.273.0200 | Email (FSOA@warrington.ufl.edu)
More Info (https://warrington.ufl.edu/3-2-bsac-macc/)

### Arts, College of the

#### Any Undergraduate Degree and Biostatistics | MS

The Biostatistics Bachelors/MS program allows qualified students to earn a bachelor’s degree from any degree program at UF and a master’s of science degree in Biostatistics. This allows the master’s degree to be attained within one year (two semesters, 24 credits). The master’s of science degree in Biostatistics is designed to facilitate students’ development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.

**Overlapping Credits:** 12  

**Admission Criteria:** Must have at least junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; completion of 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.  
**Contact:** 352.294.5926 | Email (kason@ufl.edu)

### BM in Music and MA in Arts in Medicine

**Overlapping Credits:** 12  

**Admission Criteria:** Competitive GRE score; 3.2 GPA on all upper-division courses  
**Contact:** Email (camadmissions@arts.ufl.edu)

**More Info** (https://arts.ufl.edu/academics/center-for-arts-in-medicine/programs/arts-in-medicine/ways-to-study/)

### BS Pre-Health and MA in Arts in Medicine

**Overlapping Credits:** 12  

**Admission Criteria:** Competitive GRE score; 3.2 GPA  
**Contact:** Email (camadmissions@arts.ufl.edu)

**More Info** (https://arts.ufl.edu/academics/center-for-arts-in-medicine/programs/arts-in-medicine/ways-to-study/)

The Bachelor of Science and Master of Arts in Arts in Medicine Combination Program allows pre-health students (majoring in Public Health) majoring in music. To be awarded the MA in Arts in Medicine, students must complete the following: 12 hours of credit in Arts in Medicine, 12 hours of credit in Public Health, and 12 hours of credit in other fields approved by the Arts in Medicine program director.
Health, Biology, Microbiology, Chemistry or Psychology) to begin completing requirements towards a master's degree (MA) in Arts in Medicine while completing their undergraduate degree (BS/BAS). **Admission Criteria:** Completed GRE; 3.2 GPA on all upper-division courses

**Contact:** Email (camadmissions@arts.ufl.edu) [More Info](https://arts.ufl.edu/academics/center-for-arts-in-medicine/programs/arts-in-medicine/ways-to-study/)

**Business, Warrington College of**

**Any Undergraduate Degree and Biostatistics | MS**
The Biostatistics Bachelor’s/MS program allows qualified students to earn a bachelor’s degree from any degree program at UF and a master’s of science degree in Biostatistics. This allows the master’s degree to be attained within one year (two semesters, 24 credits). The master’s of science degree in Biostatistics is designed to facilitate students’ development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.

**Overlapping Credits:** 12

**Admission Criteria:** Must have at least junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; completion of 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.

**Contact:** 352.294.5926 | Email(http://catalog.ufl.edu/mailto:kcason@ufl.edu)

**Business Administration, Major in Entrepreneurship | MSE**
Through a stimulating curriculum and transformational experiential learning opportunities, this one-year, intensive program equips promising entrepreneurs with the skills and savvy to plan, launch and sustain innovative ventures on their terms.

**Admission Criteria:** Adequate GMAT score; 3.2 minimum GPA

**Contact:** 352.273.0337 | Email (MSE@warrington.ufl.edu)

More Info [https://warrington.ufl.edu/undergraduate-academics/combined-degrees/](https://warrington.ufl.edu/undergraduate-academics/combined-degrees/)

**Business Administration, Major in Management | MSM**

**Overlapping Credits:** 2-12

This degree provides nonbusiness majors the opportunity to combine knowledge from other academic disciplines with functional business applications to create a dynamic skillset in demand by employers in business and nonbusiness industries.

**Admission Criteria:** Competitive GMAT or GRE score; 3.2 minimum GPA

**Contact:** 352.273.0344 | Email (jane.mcnullty@warrington.ufl.edu)

More Info [https://warrington.ufl.edu/undergraduate-academics/combined-degrees/](https://warrington.ufl.edu/undergraduate-academics/combined-degrees/)

**Finance, Master of Science | MSF**

**Overlapping Credits:** 2-12

Students have the opportunity to study finance at the second-year MBA level. Courses cover nearly all areas of finance, including derivative securities, fixed income markets, equity valuation, international finance and real estate finance. With early application students can receive their undergraduate and graduate degrees in four years. The best time to apply is two years before the undergraduate degree would be received.

**Admission Criteria:** 465 GMAT (650+ average); 3.0 GPA (3.5+ average)

**Contact:** 352.392.9249 | Email (kelly.herring@warrington.ufl.edu)

**Information Systems | BS/MS**

**Non-thesis only**

**Overlapping Credits:** 12-16

This program develops the computing, quantitative and applications skills vital to a business problem-solving setting.

**Admission Criteria:** Competitive GMAT or GRE score; 3.0 GPA

**Contact:** 352.846.1370 | Email (chandra.hardy@warrington.ufl.edu)

More Info [https://warrington.ufl.edu/undergraduate-academics/combined-degrees/](https://warrington.ufl.edu/undergraduate-academics/combined-degrees/)

**Master of International Business | MIB**

**Overlapping Credits:** 2-12

This one-year degree allows UF business majors or minors to enhance their undergraduate business education with an in-depth study of global business issues and trends. The MIB program allows curriculum flexibility and incorporates practical global business components with a required one-week Global Immersion Experience course abroad and optional participation in an international exchange program.

**Admission Criteria:** Competitive GMAT or GRE score; 3.2 minimum GPA

**Contact:** 352.273.0343 | Email (mib@warrington.ufl.edu)

More Info [https://warrington.ufl.edu/undergraduate-academics/combined-degrees/](https://warrington.ufl.edu/undergraduate-academics/combined-degrees/)

**Real Estate, Master of Science | MSRE**

**Non-thesis only**

**Overlapping Credits:** 2-12

The MSRE thrives on innovation, a dynamic student body and significant interaction with high-level working professionals and nationally recognized professors. The program is a unique combination of theory and practice that will enhance the student’s commercial real estate education and develop professional skills. Undergraduate students from any college/major may apply. Prior coursework in accounting, business, economics, finance or statistics is preferred but not required.

**Admission Criteria:** 465 GMAT (600+ average); 3.0 GPA (3.4+ average).

Admission is based on a number of factors, including GMAT and academic record.

Joint program in the colleges of Engineering and Liberal Arts and Sciences, coordinated by the Department of Computer and Information Science and Engineering. Students may combine either the B.S. in Computer Science offered through the College of Liberal Arts and Sciences or the B.S. in Computer Science offered through the College of Engineering with the M.S. in Computer Science (LS).

**Admission Criteria:** Junior status; Competitive GRE score; 3.3 GPA; completion of 3 of the 4: CDA 3101, CIS 3503, COP 3530, COT 3100.
**Contact:** CISE department | 352.392.1090
More Info (https://www.cise.ufl.edu/academics/undergrad/bsms/)

**Economics | BA/MA**
This program complements undergraduate training in economics by providing more robust training with economic analysis and econometric methods. It is intended for students who wish to build strong quantitative reasoning skills and develop technical data analytic tools before pursuing a professional career. The graduate portion of this combined degree program should be viewed as a professional master’s in economics. This is not a Ph.D. preparatory program.

**Overlapping Credits:** 12
**Admission Criteria:** Competitive GRE score; 3.25 cumulative GPA; completion of 105 credits, 12 of which must be Economics courses (i.e., ECO, ECP; or ECS prefix) taken at UF. Students are encouraged to complete ECO 4421 or STA 4210 before beginning graduate coursework.

Public Health and Health Professions, College of Any Undergraduate Degree and Biostatistics | MS
The Biostatistics Bachelors/MS program allows qualified students to earn a bachelor's degree from any degree program at UF and a master's degree in Biostatistics. This allows the master's degree to be attained within one year (two semesters, 24 credits). The master's degree in Biostatistics is designed to facilitate students’ development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.
Overlapping Credits: 12
Admission Criteria: Must have at least junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; completion of 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.
Contact: 352.294.5926 | Email (http://catalog.ufl.edu/mailto:kcason@ufl.edu)

Biostatistics | Bachelors/MS
Overlapping credits: 12
Qualified students with any undergraduate major can pursue a Master of Science degree in Biostatistics. The Master of Science degree in Biostatistics is designed to facilitate students’ development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.
Admission Criteria: Junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; Completion of the following 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.
Contact: 352.294.5926 | Email (kcason@ufl.edu)

Public Health | Any Bachelor's Degree/MPH
Overlapping credits: 15
Qualified students with any undergraduate major can pursue a master’s degree in public health. Students complete 15 credits of public health core courses as an undergraduate and then complete the remaining 33 credits after admission to graduate school. Students select a concentration in public health management and policy, social and behavioral sciences, epidemiology, biostatistics or environmental health.
Admission Criteria: Competitive GRE score; 3.2 GPA; completion of APK 2105C, BSC 2005 or BSC 2010, PSY 2012, STA 2023, advanced psychology (abnormal or developmental) and any additional prerequisites (depends on concentration).
Contact: 352.273.6377 | Email (m.nappy@phhp.ufl.edu)

Public Health | BS and Arts in Medicine | MA
The Bachelor of Science in Public Health and Master of Arts in Arts in Medicine combination degree enables pre-health students to begin completing requirements towards a master's degree in Arts in Medicine while completing their undergraduate BS degree.
Combination degrees allow students to double count graduate credits toward their bachelor’s degree at no loss of integrity or quality of either degree. A combination degree program allows students to complete a specific number of graduate-level credits while enrolled as an undergraduate.

Why should I participate in a combination degree program?
The program allows students to take graduate coursework before they make a decision to complete a graduate degree. If the student continues in a graduate program, they’ll save at least one full semester of graduate enrollment.

At what point in the undergraduate program should I apply?
Students can apply as early as the second semester of their sophomore year or as late as their senior year depending upon the combination degree program.

At what point do I enroll in graduate courses?
If approved, students can take graduate courses during their junior and senior years as specified by the particular combination degree program.

What is required for approval?
As an undergraduate applying for entry into a combination degree program, students must have a minimum cumulative 3.2 UF GPA (some majors require a higher GPA) and have completed all critical-tracking requirements to enroll in graduate coursework while they are completing their undergraduate degree. After students apply for admission to the Graduate School, however, they must meet the minimum cumulative GPA requirement and GRE/GMAT score the particular master program requires.

What is required so that 12 to 21 hours of graduate coursework (depending on the major) can also count toward my master’s degree?
To apply the graduate credit to both degrees, students must be admitted to the Graduate School and receive a grade of B or higher in each course. A graduate coordinator can provide the admission requirements for a particular department.

If I do not continue in graduate school, can the graduate coursework I complete still be used to satisfy my undergraduate degree requirements?
Yes.

What about my financial aid?
Bright Futures and/or the Florida Prepaid Tuition Program will pay the undergraduate tuition rate for the graduate courses students take; each student will have to pay the difference between undergraduate and graduate course costs.

Why would I want to pay additional tuition to enroll in graduate courses?
If a student continues to graduate school, they will save on the tuition costs for the 12 to 21 graduate credits (depending on the major) taken while still classified as an undergraduate. Remember that graduate course costs will be partially paid by the student’s undergraduate financial aid.

How do I apply?
Contact an undergraduate advisor and complete the combination degree application. Students will need the approval of the undergraduate coordinator, the graduate coordinator, and the dean’s office of their undergraduate college.

What do I do if I want to create my own combination degree program?
Students should contact the coordinator in the graduate department of the new combination degree program.

Are there other accelerated degree programs available other than combination degrees?
Yes, there are several accelerated degree programs available.

Dual Enrollment Credit
In general, you may transfer up to 60 credits from public/state colleges as part of the credits needed for your UF degree, regardless when these credits are earned, but subject to university and college degree requirements. It is the prerogative of your college to determine how transfer credit satisfies a specific degree’s course requirements.

Students are required to submit to the Office of Admissions final official transcripts from all institutions attended before or during their enrollment at UF.

Credit from Florida Public Colleges and State Universities
Courses from Florida public colleges and State University System schools generally adhere to the Statewide Course Numbering System.

If the prefix (first three letters) and the last three digits of the course number are the same, the courses are considered equivalent.

Equivalent courses will generally fulfill the same requirements (e.g., general education) that the UF course fulfills, including the Writing Requirement, provided the UF equivalent course awards Words towards the Writing Requirement.
More Info (p. 1124)

Courses from Private or Out-of-State Institutions

College of the Arts.
College of Journalism and Communications, and B.A. programs in the proficiency requirement for the College of Liberal Arts and Sciences, the and Spanish Language examinations fulfill the foreign language requirement for the UF. Students completing approved AICE examinations with scores of A-E will earn UF credit.

Exam Credit

Award of Incoming Credits

• Credit will be awarded only once for the same course, whether from credit by examination, dual enrollment, transfer credit, or UF course credit.
• UF course credit takes precedence over all other forms of credit for the same course.
• Credit awarded for acceptable dual enrollment or transfer courses takes precedence over credit by examination.
• If duplicate credit exists among AICE, AP, CLEP, or IB, the exam yielding the most credit will be awarded.

Guidelines for Credit Awarded by AICE, AP, CLEP, DLPT, DSST, IB, or UE Excel Examinations

• A maximum of 45 credit hours may be granted by combining AICE, AP, CLEP, DLPT, DSST, IB, or UE XCEL credit.
• Students beginning in the fall or spring term must have taken the exams and have their scores reported to the university before the end of their first term of enrollment at UF.
• Students who begin in the Summer A term must have taken the exam(s) and had their scores reported to the university before the end of their first Summer B/C term.
• Students who begin in the Summer B term must have taken the exam(s) and had their scores reported to the university before the end of their first fall term.
• If a student submits appropriate scores, UF will grant credit for the UF course(s) that most closely match the content of the exam as determined by the State of Florida. The transcript will reflect the course(s) with grades of P (for Pass). P grades will not be calculated into the student’s GPA.
• Equivalent courses earned by examination generally fulfill the same requirements that the UF course fulfills.

Exams

AICE Exam Credit

Students completing approved AICE examinations with scores of A-E will earn UF credit.

Scores of E or higher on AICE French Language, German, Latin Language, and Spanish Language examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and B.A. programs in the College of the Arts.

The chart specifies which UF course credit students will earn depending on their score on each exam and whether the credit earned will count for general education (p. 53) and the writing requirement (p. 1122) (6,000 words).

### AP Exam Credit

Students completing approved AP examinations with scores of three or higher will earn UF credit.

Scores of three or higher on AP Chinese, French, German, Italian, Japanese, Latin, Russian, and Spanish language examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and B.A. programs in the College of the Arts.

AP Calculus Placement Scores More AP Information (http://www.collegeboard.com/student/testing/ap/about.html)

The UF course credit that students earn depends on their score on each AP exam and whether the credit earned will count for general education (p. 53) and the writing requirement (p. 1122) (6,000 words).

### DLPT Exam Credit

As part of the Army Training and Doctrine Command, the Defense Language Institute Foreign Language Center (DLIFLC) provides resident instruction at the Presidio of Monterey in two dozen languages. The chart specifies which UF course credit students will earn depending on their score on each exam and whether the credit earned will count for general education (p. 51) and the writing requirement (p. 1122) (6000 words).

</table>
The L000 course number has no UF course equivalent. The credit applies to the minimum credits for the degree but does not provide general education credit or count toward the major.

Students may be awarded a maximum of 30 credit hours for DSST exams.

---

**DSST Examination**

DSST (formerly DANTES Subject Standardized Tests) are credit-by-examination tests originated by the United States Department of Defense’s Defense Activity for Non-Traditional Education Support (DANTES) program.

The chart specifies which UF course credit students will earn depending on their score on each DSST exam and whether the credit earned will count for general education (p. 53) requirements.

Students may be awarded a maximum of 30 credit hours for DSST exams.
Students will receive credit for scores of 4 or higher on both higher-level and standard-level examinations.

Scores of 4 or higher on IB French B, German B, Italian B, Latin, and Spanish B examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and B.A. programs in the College of the Arts.

More IB Information (http://www.ibo.org/)

The chart specifies which UF course credit students will earn depending on their score on each IB exam and whether the credit earned will count for general education or the writing requirement (p. 1122) (6,000 words).

Flexible Learning

Distance and Continuing Education

Distance & Continuing Education (DCE) offers fully online undergraduate courses for college credit through UF Flexible Learning.

The primary purpose of this program is to provide high-quality flexible educational opportunities for students in the State University System, Florida College System, and beyond who are not currently enrolled at UF and:

- Have conflicting schedules
- Need to meet general education or writing requirement
- Need to meet course prerequisites
- Want personal enrichment

Students who are not enrolled at UF should consult an academic advisor at their institution prior to enrolling in courses to ensure transfer of the credit. DCE is not responsible for ensuring that any credit received is transferable.

UF students interested in taking a Flexible Learning course must first consult with their academic advisor. UF students may apply up to two (2) Flexible Learning courses toward a degree and must seek college dean’s office approval to exceed this limit. Advisors and the DCE office will approve access to a Flexible Learning course if the student is below the two (2) course limit and meets at least one (1) of the following criteria:

- The student has a health concern
- There are circumstances preventing the student from physically being on campus and the course is not offered online
- The student requires off-calendar, flexible format solution required for scholarship, tracking, and/or graduation requirements

Students can register for these courses online. More Info (http://flexible.dce.ufl.edu/)

Enrolling in Flexible Learning courses does not require a transcript of previous academic work, nor are students required to apply for, or to be admitted, to the University of Florida to earn college credit. These courses operate on an open enrollment policy and do not follow UF’s academic calendar. Registrations are processed and accepted Monday-Friday, excluding UF holidays.

UF Flexible Learning courses are self-paced, allowing students to complete coursework more quickly than typical online or residential courses. Students have a maximum of sixteen (16) weeks to complete their course, but in many courses, may take as few as four (4) weeks. If the on-campus academic semester changes during this time, a non-punitive deferred grade of H will appear on the student’s transcript.

When the registration process has been finalized, UF Flexible Learning will send students their expiration date. Students should take note of this expiration date.
date and plan their work accordingly. Any coursework not completed by this date may result in grade penalties.

If students make significant progress in their coursework, but are unable to complete it due to extenuating circumstances, they are expected to contact instructor about receiving an incomplete grade.

**Contact**

Complete Course Listing (http://flexible.dce.ufl.edu/courses/)

---

**Placement**

Placement is an assessment of a student’s level of preparation in a subject. The purpose of placement is to help students enroll in the courses in which they are most likely to be successful.

- **Incoming Credit and Credit by Examination Information** (p. 1109)

---

**English Composition**

Unless students already have college credit for an English Composition course, they need to review placement requirements for these courses.

Students will be placed based on their SAT or ACT verbal score, unless they already have college credit for an English composition course.

- Students with a 640 (or lower) on the verbal portion of the SAT and/or a 28 (or lower) on the verbal portion of the ACT must enroll in ENC 1101.
- Students with a 650 (or higher) on the verbal portion of the SAT or a 29 (or higher) on the verbal portion of the ACT may enroll in any 1000/2000-level composition course beyond ENC 1101. These students should not enroll in ENC 1101.
- Students with college credit for English Composition (from AICE, AP, CLEP, IB, or dual enrollment) should consult an advisor to determine which, if any, additional courses are needed to meet degree requirements.

---

**Mathematics**

If a student intends to pursue a science or engineering major or intends to go on to a health profession after completing the bachelor’s degree, they should take these algebra, precalculus, and calculus courses. A number of business and technical majors require specific math courses. Students should check the information on their majors and health professions of interest to determine if algebra/precalculus/calculus are required. More Info (p. 1078)

Placement is used for the following MAC courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAC 1105</td>
<td>Basic College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MAC 1140</td>
<td>Precalculus Algebra ¹</td>
<td>3</td>
</tr>
<tr>
<td>MAC 1147</td>
<td>Precalculus Algebra and Trigonometry (a fast-paced review of both areas)</td>
<td>4</td>
</tr>
<tr>
<td>MAC 2233</td>
<td>Survey of Calculus 1</td>
<td>3</td>
</tr>
<tr>
<td>MAC 2311</td>
<td>Analytic Geometry and Calculus 1 (typically recommended for pre-health students)</td>
<td>4</td>
</tr>
</tbody>
</table>

¹ The sequence MAC 1140 and MAC 1114 covers the same material as MAC 1147, but at a slower pace.

The math course(s) you take will depend on what your major requires (or if you are pre-health), whether you have incoming math credit, the math course you took last year and whether you were able to use a calculator during exams, whether you want to strengthen your foundation before moving on to new material, and your ALEKS placement score.

To determine which math course (if any) is required for a major, please check the requirements for that major (p. 1078). If a student’s major requires MAC 2234 or MAC 2312 or higher, they must have credit for the prerequisite course. If a student has credit via exam or dual enrollment, consult with an academic advisor. General guidelines for using AP scores for placement appear below.

Some graduate programs in the health professions such as pharmacy, optometry, and veterinary medicine may require calculus as a prerequisite to admission. Consult the Pre-Health Pre-Requisite Course Chart (https://www.advising.ufl.edu/pre-health/apply/prepare/academic-preparation/) for more information.

- **If a major requires no particular math course**, students may take Gen Ed math courses such as MGF 1106 or MGF 1107 without any placement.
- **If a student needs one of the MAC courses listed above and doesn’t have incoming credit**, they should take the ALEKS placement exam, and then discuss which math course should be taken with an advisor.
- **If a student has incoming math credit**, they may use that as placement into MAC courses if the credit appears on their UF transcript or the student provides proof of credit. However, the ALEKS placement is the best predictor of success in UF MAC courses. Even if a student has credit, they are **strongly encouraged to take ALEKS**. Taking ALEKS will assess a student’s current knowledge base and its fit with the UF curriculum. After taking ALEKS, the student should discuss which math course they should take with an advisor.

It can be helpful for students to take a lower course or even retake a course to strengthen their foundation before moving on to a higher class. A student’s ALEKS score can help assess their current preparation. Consult with an academic advisor if unsure.

---

**ALEKS**

**Placement via ALEKS Score**

**Majors that Require MAC 1105, MAC 1140, MAC 1147, or MAC 2311; or for Pre-Health**

<table>
<thead>
<tr>
<th>ALEKS Score</th>
<th>MAC 1105; MAC 1140; MAC 1114; or MAC 2311</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 – 45%</td>
<td>MAC 1105; MAC 1140; MAC 1114; or MAC 2311</td>
</tr>
<tr>
<td>46 – 60%</td>
<td>MAC 1140; MAC 1114; or MAC 2311</td>
</tr>
<tr>
<td>61 – 75%</td>
<td>MAC 1147; MAC 2311</td>
</tr>
<tr>
<td>76% and Above</td>
<td>MAC 2311</td>
</tr>
</tbody>
</table>

**Majors that Require MAC 2233**

<table>
<thead>
<tr>
<th>ALEKS Score</th>
<th>MAC 2233</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 – 45%</td>
<td>MAC 1105; MAC 1140; MAC 2233</td>
</tr>
<tr>

<td>MAC 1140; MAC 2233</td>
</tr>
<tr>
<td>61% and Above</td>
<td>MAC 2233</td>
</tr>
</tbody>
</table>
Incoming Credit
Placement via Incoming Credit
If a student has earned credit with a C or better for:

- MAC 1105: take MAC 1140 (if needed)
- MAC 1140: take MAC 1114 or MAC 2233 (if needed, course depends on major requirements)
- MAC 1147 (or both MAC 1140 and MAC 1114): take MAC 2311 if needed. Credit must be in progress at UF, completed and on the student's UF transcript or the student must provide proof of incoming credit.
- It may be helpful for students to retake a course to strengthen their foundation before moving on to a higher class. This is especially true if the incoming credit course was taken more than one year ago or if the student earned a grade lower than B. A student's ALEKS score can help assess their current preparation. Consult with an academic advisor if unsure.

AICE, AP, or IB Exam Credit
Refer to award of incoming credits to see which courses earn credit. For courses through MAC 2311, ALEKS is still the best predictor of success in MAC courses at UF, so students are encouraged to take ALEKS and follow the score guidelines. General guidelines for using AP scores for placement appear below.

Transfer Credit
Earning the minimum grades in prerequisite courses does not guarantee success in the next math course. The Department of Mathematics encourages students to take the ALEKS exam even if they have credit for a MAC course. Quite often, a student's skills may need review and placement assessment can provide information and specific areas for additional study.

Please read the complete information about the mathematics placement exam (https://registrar.ufl.edu/courses/aleks.html).

Calculus AB or BC
Placement via AP Scores for Calculus
UF offers two introductory calculus courses: MAC 2233 and MAC 2311 as well as subsequent courses in both sequences. Students should consult the majors (p. 1078) section to determine which calculus course(s) may be required for their major.

<table>

Students who wish to enroll in CHM 2047, the one-semester General Chemistry, and its co-requisite laboratory CHM 2047L, must meet the following conditions:

- AICE, AP, or IB credit for at least CHM 2045 and laboratory
- Approval of the Honors Program office or the Department of Chemistry.

### Foreign Languages

College-level foreign language is required by several programs: Liberal Arts and Sciences and the B.A. programs in the College of the Arts have a proficiency requirement; students in Journalism and Communications may choose between foreign language proficiency or a quantitative option. Construction management majors must complete one semester of Spanish.

#### French

- Students with no prior study of French or a maximum of French 1 on their high school transcript may enroll directly in FRE 1130. No placement exam is required.
- Students with French 2 on their high school transcript may enroll directly in FRE 1134. No placement test is required.
- Students with French 3 or 4 on their high school transcript may enroll directly in FRE 2220, but are encouraged to take the WebCAPE placement test for French (https://languages.ufl.edu/academics/llc-languages/french-studies/webcape-french-placement-test/).
- Students who speak French at home may take the WebCAPE placement test for French (https://languages.ufl.edu/academics/llc-languages/french-studies/webcape-french-placement-test/) and/or speak with the undergraduate coordinator about placement.
- Students who have taken French exams via Advanced International Certificate of Education (AICE), Advanced Placement (AP), College Level Examination Program (CLEP), or International Baccalaureate (IB), should consult the French Placement and Course Equivalency (http://languages.ufl.edu/files/french-placement-handout-2019-revised.pdf) page to determine whether they have received credit for a French course and which course to take next.
- Students who wish to demonstrate proficiency in French in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or B.A. in the College of the Arts (FA) degree requirements must do one of the following:
  - Complete the terminal course in the Beginning French sequence (or higher) with a satisfactory grade
  - Earn sufficient scores on an AICE, AP CLEP or IB exam.
  - Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe/)

#### Spanish

Students with any prior study or knowledge of Spanish who wish to enroll in a Spanish course are required to take the WebCAPE online placement test (http://spanishandportuguese.ufl.edu/undergraduate-programs/ lower-division-spanish-program/spanish-placement/), which is designed to help them determine the best course based on their background.

- Students who took a language other than Spanish in high school are not required to take this test. They may enroll in SPN 1130.
- Students who have taken Spanish exams via Advanced International Certificate of Education (AICE), Advanced Placement (AP), College Level Examination Program (CLEP), or International Bridge Program (IB) are not required to take the placement test.
Preprofessional Advising

Pre-Health

The Pre-Health Advising Office offers resources and information to students from all UF majors who intend to pursue a graduate program in the health professions, such as medical, dental, veterinary, pharmacy, physician assistant, optometry, physical therapy, and/or occupational therapy school. Pre-health students may choose almost any major they are interested in pursuing. Pre-health students should review the detailed information on the pre-health advising website to explore and keep track of necessary steps to take throughout their time at UF in order to become competitive applicants for the professional programs to which they plan to apply.

All pre-health students are encouraged to enroll in Pre-Health Essentials, a free, non-graded Canvas course offered by the Pre-Health Advising Office. Pre-Health Essentials offers workshops and resources for pre-health students to explore and prepare for a healthcare profession.

Pre-Health Students

Plan to complete the following courses, which are the basic prerequisites for many pre-professional graduate programs. Some health professions do not require all of these courses, and some may require more. Requirements vary from program to program, so you should carefully investigate the requirements of the institutions to which you plan to apply.

Students can find pre-health Suggested Course Timelines on the pre-health website Forms & Handouts page (https://www.advising.ufl.edu/pre-health/pre-health-resources/forms-handouts/). These timelines outline required and recommended pre-requisite courses for each health profession.

Mathematics

At least two semesters of college-level mathematics; one semester of statistics (STA 2023) is required. Calculus (MAC 2311 or MAC 3472) is recommended for pre-medical students, and required for pre-pharmacy and pre-optometry students.

General Chemistry

Critical reading abilities, writing skills, oral communication and listening abilities, research skills, and organization and priority management skills. These skills can be attained through virtually any major in combination with a wide variety of complementary electives. There is no “pre-law” major at UF; students should choose a major in which they have a true interest and select a broad, diverse, and challenging array of courses from demanding instructors in order to prepare for success in law school.

**Pre-Law**

UF’s pre-law advisors offer students assistance as they explore their interest in law and provide guidance during the law school application process. Students are encouraged to utilize UF’s pre-law resources:

- **Pre-law Website**: Review pre-law tips, timelines and resources at [www.advising.ufl.edu/prelaw](http://www.advising.ufl.edu/prelaw/).
- **Pre-law Listserv**: Join the listserv to receive pre-law announcements and stay connected with UF’s abundant pre-law activities. Instructions are available at: [www.advising.ufl.edu/prelaw/pre-law-listserv/](http://www.advising.ufl.edu/prelaw/pre-law-listserv/).
- **Pre-law Advising**: Pre-law advisors are located in the College of Liberal Arts and Sciences Academic Advising Center in Farrior Hall. Students may call to make an appointment (352.392.1521) or come in as a walk-in. In addition, students may reach the pre-law advisors at prelaw@advising.ufl.edu.

**Choosing a Major**

Pre-law students must develop analytic and problem-solving skills, critical reading abilities, writing skills, oral communication and listening

- **MCB 3023 & 3023L**: Principles of Microbiology and Principles of Microbiology Laboratory

**Additional recommended courses**

- **MCB 3020 & 3020L**: Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms
- **MCB 3023 & 3023L**: Principles of Microbiology and Principles of Microbiology Laboratory

---

**Student Responsibilities**

**Academic Honesty**

In 1995 the UF student body enacted an honor code and voluntarily committed itself to the highest standards of honesty and integrity. When students enroll at the university, they commit themselves to the standard drafted and enacted by students. More Info ([https://sccr.dso.ufl.edu/students/student-conduct-code/](https://sccr.dso.ufl.edu/students/student-conduct-code/))

**Preamble**

In adopting this honor code, the students of the University of Florida recognize that academic honesty and integrity are fundamental values of the university community. Students who enroll at the university commit to holding themselves and their peers to the high standard of honor required by the honor code. Any individual who becomes aware of a violation of the honor code is bound by honor to take corrective action. The quality of a University of Florida education is dependent upon community acceptance and enforcement of the honor code.

**The Honor Pledge**

We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.

On all work submitted for credit by students at the university, the following pledge is either required or implied: On my honor, I have neither given nor received unauthorized aid in doing this assignment.

The university requires all members of its community to be honest in all endeavors. A fundamental principle is that the whole process of learning and pursuit of knowledge is diminished by cheating, plagiarism and other acts of academic dishonesty. In addition, every dishonest act in the academic environment affects other students adversely, from the skewing of the grading curve to giving unfair advantage for honors or for professional or graduate school admission. Therefore, the university will take severe action against dishonest students. Similarly, measures will be taken against faculty, staff and administrators who practice dishonest or demeaning behavior.
Student Responsibility

Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean, Student Honor Council or Student Conduct and Conflict Resolution in the Dean of Students Office.

Faculty Responsibility

Faculty members have a duty to promote honest behavior and to avoid practices and environments that foster cheating in their classes. Teachers should encourage students to bring negative conditions or incidents of dishonesty to their attention. In their own work, teachers should practice the same high standards they expect from their students.

Administration Responsibility

As highly visible members of our academic community, administrators should be ever vigilant to promote academic honesty and conduct their lives in an ethically exemplary manner.

Student Conduct Code

Students enjoy the rights and privileges that accrue to membership in a university community and are subject to the responsibilities that accompany that membership. For a system of effective campus governance, it is incumbent upon all members of the campus community to notify appropriate officials of any violations of regulations and to assist in their enforcement. The university's conduct regulations, available to all students, are set forth in Florida administrative code. Questions can be directed to the Dean of Students Office.

More Info (https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/)

Alcohol and Drugs

The use of alcohol and other drugs can have a negative impact on judgments and reactions, health and safety, and may lead to legal complications as well.

The university's principal role is to engage in education that leads to high standards and respectful conduct. When those are compromised, the university will take disciplinary action against organizations and individuals violating either the law or the unreasonable use of alcohol. It also must provide help for students who are alcohol-dependent. The university will deal severely with students convicted of the illegal possession, use or sale of drugs.

What the University Community Can Do to Prevent Alcohol Abuse and Drug Use

Students can help control substance abuse by declining to use or to condone the use of drugs and by insisting that organizations and individuals use alcohol within the bounds of the law and reasonable conduct. Students should make an effort to prevent persons who have abused alcohol or used drugs from harming themselves or others, especially while driving a motor vehicle. They should encourage those needing professional help to seek it. The same standards and regulations apply equally to faculty, staff and administration.

Relations between People and Groups

One of the major benefits of higher education and membership in the university community is greater knowledge of and respect for other religious, racial and cultural groups. Indeed, genuine appreciation for individual differences and cultural diversity is essential to the environment of learning. Another major aspect of university life involves sexual relationships. Sexual attitudes or actions that are intimidating, harassing, coercive or abusive, or that invade the right to privacy of the individual are not acceptable. Only in an atmosphere of equality and respect can all members of the university community grow.

Service to Others

An important outcome of a University of Florida education should be a commitment to serving other people. This sense of service should be encouraged throughout the institution by faculty, administration, staff and students. Through experience in helping individuals and the community, students can put into practice the values they learn in the classroom.

Standard of Ethical Conduct

Honesty, integrity and caring are essential qualities of an educational institution, and the concern for values and ethics is important to the whole educational experience. Individual students, faculty and staff members, as well as the university's formal organizations, must assume responsibility for these qualities. The concern for values and ethics should be expressed in classes, seminars, laboratories and in all aspects of university life. By definition, the university community includes members of the faculty, staff and administration as well as students.

Education at the University of Florida is not an ethically neutral experience. The university stands for, and seeks to inculcate, high standards. Moreover, the concern for values goes well beyond the observance of rules.

A university is a place where self-expression, voicing disagreement and challenging outmoded customs and beliefs are prized and honored. However, all such expressions need to be civil, manifesting respect for others.

As a major sector in the community, students are expected to follow the university's rules and regulations that, by design, promote an atmosphere of learning. Faculty, staff and administrators are expected to provide encouragement, leadership and example. While the university seeks to educate and encourage, it also must restrict behavior that adversely affects others. The Standard of Ethical Conduct summarizes what is expected of the members of the university community.

Study Abroad Opportunities

Study Abroad Services offers students the opportunity to study overseas in a wide range of academic and cultural settings. The office coordinates numerous year-long, semester, summer and short-term programs in more than 80 countries on all seven continents.

Credits earned in study abroad programs may count toward a major or minor and can satisfy general education, language and summer residency requirements.

Writing Requirement

The University of Florida requires all students\(^1\) to complete a writing requirement. AICE, AP, CLEP, and IB examination credit (p. 1109) as well as dual enrollment or transfer credit may count toward this requirement.

To graduate, students must complete courses that involve substantial writing for a total of 24,000 words.

Courses that count toward this requirement will be in one of three categories:

- 2: Coursework with at least 2,000 words
- 4: Coursework with at least 4,000 words
- 6: Coursework with at least 6,000 words

Some sections of qualified courses may not offer substantial writing in a particular term. In the schedule of courses (http://www.registrar.ufl.edu/soc/), the course sections and amount of writing credit awarded (2, 4, or 6 thousand) are identified for a given term.

The writing course grade assigned by the instructor has two components: the writing component and a course grade. Therefore, to receive writing credit, students must satisfactorily complete the writing component and receive a minimum grade of C (2.0) for the course. It is possible to not meet the writing requirement and still earn a minimum grade of C in a class, so students should review their degree audit after receiving their grade to verify receipt of credit for the writing component.

Courses intended to satisfy the writing requirement may not be taken S-U.

The writing must be evaluated on content, organization and coherence, effectiveness, style, grammar, and punctuation. Assignments must be returned to students with a grade and comments that address the students' writing skills. Consequently, feedback on all assignments should be provided by the last day of class, or if provided electronically, by the end of finals.

Evaluation of writing is based on individual work. Class notes, quizzes and in-class writing assignments or essay examinations may not be counted. Team-written documents may not be counted for credit unless clear individual sections are identified for grading, such that an individual student's writing may be evaluated and graded. Drafts cannot be counted separately from final drafts as part of the total number of words completed during the course.

Students may not take the same course multiple times to meet the writing requirement, unless the course allows for multiple registration based upon rotating course content.

All courses that require writing will not necessarily count toward the writing requirement. In writing requirement courses, students will be evaluated as described above.

\(^1\) Except those transferring to UF with an A.A. degree from a Florida public college or an A.A. certificate from a Florida public state university.

Academic Progress Policies

Regulations for academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable conformance to a program of study.

A minimum grade point average of 2.0 is required to graduate from any UF undergraduate degree program. Any college may specify additional academic standards and students are responsible for observing these regulations.

The probation and dismissal regulations that apply to undergraduate students also apply to postbaccalaureate students. Notations on the
student’s academic record shall reflect all actions taken to enforce these regulations; some of these notations can be permanent.

**Academic Standing**

The University of Florida considers students to be in good standing if they are eligible to continue or to re-enroll at the university, even if on probation.

Colleges may choose not to consider students for admission and may deny continuation in a degree program if the student fails to maintain reasonable academic progress, as specified by the college or department.

Policies on academic standing, probation and dismissal are based on the possibility that a student can overcome academic difficulty and make appropriate progress toward a degree.

**Petitions**

Students may file a petition for a waiver of a deadline or regulation if they can document extenuating circumstances that led to their failure to meet or conform to the deadline/regulation.

In general, petitions for waiver of an academic regulation for the current term should be directed to the school or college in which the student is enrolled. For example, petitions to drop or add after the drop/add period should be presented to the school or college. Exceptions to the course load regulation are to be presented to the school or college. Petitions approved by the school or college must be reported to the Office of the University Registrar before the action is official.

All other petitions should be presented to the Office of the University Registrar, which will refer them to the University Student Petitions Committee. Petitions pertaining to academic records approved by the committee will be reflected on the student’s transcript.

Per BOG Regulation 7.002(11), all requests for a refund of fees must be submitted to the university within six months of the close of the semester to which the refund is applicable. Any request for a refund of fees submitted outside this timeframe will not be reviewed.

Detailed information on petition procedures is available from the student’s college or the Office of the University Registrar.

More Info (http://www.registrar.ufl.edu/currents/petitioninstructs.html)

A student seeking waiver of a regulation through petition must remember that no petitions committee can direct an instructor to change a grade, nor can the University Student Petitions Committee require any college or school to grant a degree by waiving any regulation.

**Probation**

The intent of academic probation is to serve formal notice that a student may not be making satisfactory progress. The conditions of academic probation are intended to specify the achievement standards required to graduate, to identify unsatisfactory academic performance at an early date, to provide occasion for counseling, and to give students whose ultimate success is in question further opportunity to demonstrate their ability to meet academic expectations.

Academic probation can occur for the following reasons:

- Students may be placed on probation by their college for failure to maintain normal academic progress in their degree program. College probation will be removed when the college determines that satisfactory academic progress has been demonstrated.

- Undergraduate students with less than a 2.0 cumulative grade point average for University of Florida coursework.

- Academic probation will be continued for all undergraduate students as long as they have less than a 2.0 cumulative grade point average. It will be removed when the grade point average becomes 2.0 or higher. Should the grade point average fall far enough, the student will be dismissed based on Dismissal policy.

**Dismissal and Suspension**

Academic dismissal from the university denies registration privileges to students who have a cumulative GPA at or below that listed below (given their UF Cumulative Credits). The student will be dismissed from the university and any advance registrations will be cancelled.

- Students who are dismissed will not be permitted to enroll again unless they complete an application for readmission by the application deadline, and the college approves readmission. A student who is readmitted after academic dismissal will be dismissed again if their grade point average is at or below the corresponding GPA (given their UF Cumulative Credits) indicated in the table at the end of any term.

- UF Cumulative Credits only include credits taken toward the GPA and do not include credits for courses taken S/U, credits dropped/withdrawn resulting in a W on the transcript, or credits not counting in the UF Cumulative GPA due to repeat or non-degree policy.

- An undergraduate student under any kind of dismissal or suspension at the University of Florida may earn credit toward a degree at the University of Florida by taking courses at another institution. Upon the student’s reinstatement to the University of Florida, the University will accept credit from courses that fall under the Florida statewide course numbering system. A reinstated student may follow standard practice of consulting the student’s degree-granting unit to consider whether credit for courses not under the state course numbering system and earned while dismissed or suspended will be accepted. Credits earned at another institution and accepted by the University of Florida will not count towards the UF GPA calculation but will factor into the student’s total credit hour count towards excess hours.

**Grade Point Deficits**

Regarding observance of religious holidays. The Florida Board of Education and state law govern university policy. Activities. Their need for an excused absence known in advance of the scheduled days of all religious groups. Accordingly, individual students should make to assure that scheduled academic activities do not conflict with the holy days of all religious groups. Because students represent a myriad of cultures and many faiths, the University of Florida is not able to accommodate that particular student's religious observances. Because students represent a myriad of cultures and many faiths, the University of Florida is not able to assure that scheduled academic activities do not conflict with the holy days of all religious groups. Accordingly, individual students should make their need for an excused absence known in advance of the scheduled activities.

The Florida Board of Education and state law govern university policy regarding observance of religious holidays.
Civic Literacy Requirement

Effective Fall 2021, all students who enroll at a Florida Public Postsecondary Institution (Florida College System or State University System) after high school are required to demonstrate competency in U.S. Civic Literacy to obtain a degree.

These competencies include:

- Understanding of the basic principles of American democracy and how they are applied in our republican form of government;
- Understanding of the U.S. Constitution;
- Knowledge of the founding documents and how they have shaped the nature and functions of our institutions of self-governance; and
- Understanding of landmark Supreme Court cases and their impact on law and society.

As set out in Florida statute 1007.25, and clarified in Board of Governor’s Regulation 8.006, these competencies must be met in one of the following ways:

- Completion of AP American History in high school with a score of 4 or higher on the AP exam.
- Completion of AP American Government in high school with a score of 3 or higher on the AP exam.
- Completion of the CLEP American Government exam with a score of 50 or higher.
- Completion of POS2041 or AMH2020 at a Florida Public Postsecondary institution along with completion of the Florida Civic Literacy Exam with a score of 60 or higher (taken in High School or at a Florida Public Postsecondary Institution).
- Completion of AS Level AICE US History with a score of A-E on the AICE exam along with completion of the Florida Civic Literacy Exam with a score of 60 or higher (taken in High School or at a Florida Public Postsecondary Institution).
- Completion of IB History of America with a score of 5-7 on the IB exam along with completion of the Florida Civic Literacy Exam with a score of 60 or higher (taken in High School or at a Florida Public Postsecondary Institution).

Up-to-date information on the Civic Literacy Requirement, including how to take the exam.

More Info (http://undergrad.aa.ufl.edu/for-students/civic-literacy-requirement/)

Students with an interest in Civic Literacy are encouraged to visit the Bob Graham Center at the University of Florida. The Bob Graham Center was established in 2006 with the goal of creating a community of students, scholars, and citizens who share a commitment to revitalizing the civic culture of Florida and the nation. Former Governor and U. S. Senator Bob Graham founded the center as a place where students can acquire the skills and knowledge necessary to become informed citizens, with the expressed purpose of strengthening the nation's democratic institutions. Located in the middle of campus in Pugh Hall, the center stands at the cornerstone of the university's academic, intellectual, and civic life.

Degree and Graduation Policies

Degree Application

Undergraduates must submit an application for a degree by the application deadline with the Office of the University Registrar via ONE.UF (https://one.uf.edu/). To submit an application, select Degree/Certificate Application from the Academics section in the left menu.

Students must apply in the term in which they expect to graduate, regardless of applications in previous terms. If the student has completed all the requirements for degree, they will be required to graduate. Degree application deadlines are available under Dates and Deadlines.

More Info (p. 1142)

Associate of Arts Degree

Although not required, students may receive an A.A. degree, which is awarded by the College of Liberal Arts and Sciences. The degree must be awarded prior to or at the same time as the bachelor’s degree. The application is available on ONE.UF (https://one.uf.edu/).

The Associate of Arts degree will be awarded upon satisfactory completion of:

- 60 credits; at least 36 of these credits must have been completed at UF
- General education requirements; 36 credits in communication, mathematics, social sciences, humanities, and natural sciences.
- Foreign language competence as described in Rule 6A-10.02412, F.A.C.
- The rule can be obtained from:

  Office of Articulation
  Florida Department of Education
  325 West Gaines Street
  Tallahassee, Florida 32399
  • An overall UF GPA of 2.0 (C)
  • Writing requirement courses
  • Civic Literacy requirement (http://undergrad.aa.ufl.edu/for-students/civic-literacy-requirement/)

Catalog Year

UF operates on a semester system. There are two semesters averaging 15 weeks of instruction, plus a week of final examinations and two six-week summer terms. Semesters begin in August, January and May. The summer term is offered as a full term as Term C, or in two sessions as half-terms, with Term A beginning in May and Term B beginning in June.

Catalog year determines the set of academic requirements that must be fulfilled for completion of a certificate or to graduate from a degree-granting program. Students complete a program under the catalog in effect at the time of their initial enrollment as a certificate or degree-seeking student at UF, a Florida public college or other Florida state institution, provided they maintain continuous enrollment (enrolling for at least one course in one term in an academic year). Students pursuing minors, dual degrees or double majors must have the same catalog year for each program. Students pursuing certificates may have separate catalog years for their certificate(s) and degree-seeking programs(s).

Students who do not maintain continuous enrollment will be assigned the catalog in effect at the time they resume enrollment. With the approval
of the student’s college dean’s office, they may choose to graduate under the requirements of a later catalog, but the student must fulfill all graduation requirements from that alternative catalog year.

The university will make every reasonable effort to honor the curriculum requirements appropriate to each student’s catalog year. However, courses and programs will sometimes be discontinued and requirements may change as a result of curricular review or actions by accrediting associations and other agencies.

**College Dean’s Certification**

Students who have completed all requirements for their degree will be required to graduate. The dean certifies that all requirements have been completed and that the student has been recommended by the faculty for graduation.

**Completion Deadline to Receive a Degree**

All work must be completed by the end of the final exam period for the fall and spring terms and by the last day of classes for the summer terms. A minimum UF cumulative grade point average of 2.0 must be earned for award of an undergraduate degree.

**Continuous Enrollment**

Undergraduate students who enroll for at least one course in one term in an academic year are continuously enrolled.

**Curriculum Requirements**

Students must complete all degree requirements established by the university, their college, their major and minor (if applicable); this includes completion of general education, writing requirement and the summer term enrollment requirements.

Minors are awarded only in conjunction with the receipt of a baccalaureate degree. To determine program requirements, refer to the academic advising (p. 1080) and majors (p. 1078) sections.

**Degree Certification and Graduation Date**

All colleges, excluding professional programs in the colleges of Dentistry, Law, Medicine and Veterinary Medicine, will certify their graduates the Tuesday following the last day of classes for the summer terms or the Tuesday following the end of the final exam period for the fall and spring terms. This certification date will appear on the transcript and the diploma as the official date of graduation. Professional programs in the aforementioned colleges will use the date of their official commencement ceremony as the date of graduation. This date will appear on both the transcript and diploma as the official date of graduation, as required by professional accreditation guidelines.

**Diploma Replacement**

Each diploma ordered subsequent to the student’s initial degree application can result in a diploma replacement charge.

**Dual Degrees and Multiple Majors**

At the discretion of UF colleges and schools, students can be permitted to pursue multiple degrees or majors.

- A student completing major and college requirements in two or more different colleges at the same time will receive two or more degrees. The transcript will list each degree and the appropriate majors.

- A student completing major and college requirements in one college and major requirements only in another college will receive a degree from the first college. The transcript will list the degree and each major.

- A student completing multiple majors that have the same degree, i.e., Bachelor of Arts or Bachelor of Science, will receive a single degree. The transcript will list the degree and each major.

**Foreign Language Requirement**

As a condition of admission to the university, students must complete two sequential courses of a foreign language in secondary school, 8-10 semester credits at the postsecondary level or document an equivalent level of proficiency.

Some degrees also have additional, specific foreign language requirements. To earn a UF degree, students must meet the requirements of their major and college in addition to the university’s foreign language requirement for admission.

**Pending Charge of Academic Dishonesty or Conduct Violation**

No degree will be conferred if a charge of academic dishonesty or student conduct violation is pending and the penalty could be dismissal, expulsion, failing grade or any combination of the above, until the charge is resolved and degree requirements are met.

**Residence Requirements**

The minimum residence requirement for the baccalaureate degree is two semesters.

- Students are required to complete the last 25% of the credits needed to satisfy the requirements of their major by taking UF courses.

**Summer Term Enrollment**

Students who enter a state university in Florida with fewer than 60 credits must earn at least nine credits before graduation during summer terms at State University System (SUS) institutions (http://www.flbog.edu/universities/). However, students who earn six credits through UF-sponsored, UF exchange or UF-approved SUS study-abroad programs during one or two summer terms completely satisfy the summer-term enrollment requirement. Students who bring 60 or more transfer credits to UF, regardless of institution, will be exempt from completing the summer requirement at UF.

**Dropping Courses and Withdrawals**

### Dropping Courses

Dropping is defined as dropping an individual course or courses but not all courses in a term. Failure to attend a class does not constitute a drop.

### During Drop/Add

- Courses can be dropped or added during drop/add without penalty.
- Classes that meet for the first time after drop/add closes can be dropped without penalty or fee liability if the request is submitted by the end of the next business day after the first class meeting. Students first must drop the course with their college advising office.
and then submit a written explanation to the Office of the University Registrar. This does not apply to laboratory sections.

**After Drop/Add but Prior to the Drop Deadline**

After drop/add, students may drop a course with the approval of their college until the drop deadline listed in the academic calendar. A grade of W will appear on the transcript, and students are liable for course fees.

All drops after drop/add must be completed by the drop deadline with the student’s college advising office and are subject to the following restrictions:

- Students get two drops in their first 60 credits attempted at UF.
- Credits attempted are defined as:
- Credits carried excluding credits taken prior to the first term of degree-seeking enrollment, plus S/U credits, and repeats of satisfactory grades.
- Full-term withdrawals from all courses and dropped courses do not count in credits carried.
- Students get two additional drops in the second 60 credits attempted. Unused drops do not carry over from the first 60 credits attempted to the second 60 credits attempted.
- Students entering UF as transfer students with an A.A. degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops.
- Students with disabilities who need to drop a course due to disability-related reasons are allowed to petition for additional drops. More information is available from the Disability Resource Center. More Info (https://disability.ufl.edu/)
- Students who can document extenuating circumstances may petition their college for additional drops.
- Approval to drop a course must be obtained from the student’s college.

**After the Drop Deadline**

- After the deadline and before the last day of classes, students may petition their college. Typically, they will need to demonstrate an extenuating circumstance justifying approval of a drop after the deadline.
- After the last day of classes, students would need to complete a University Petition Request for a Retroactive Drop. More Info (http://www.registrar.ufl.edu/currents/petitioninstructs.html)

**Withdrawal Due to Military Service**

Per Florida Statute 1004.07, any student enrolled in a postsecondary course or courses at a state university shall not incur academic or financial penalties by virtue of performing military service on behalf of our country. These students shall be permitted the option of completing the course(s) at a later date without penalty or withdrawing from the course(s) with a full refund of fees paid. (Refer to refund of fees (p. 1132) information in the fees and fiscal section.) If the student chooses to withdraw, the record shall reflect that the withdrawal is due to active military service.

**National Guard Troops Ordered into Active Service**

Per Florida Statute 250.482, if a member of the Florida National Guard is ordered into active service, no private or public employer and no employing or appointing authority of this state, its counties, municipalities, political subdivisions, public colleges or universities shall discharge, reprimand or in any other way penalize such member because of their absence by reason of state active duty.

**Examination Policies and Reading Days**

**Final Exams**

Final exams are determined by course meeting times, except for certain large courses.

- No student is required to take more than three final exams in one day.
- If two exams are scheduled at the same time, assembly exams take priority over time-of-class exams.
• When two assembly exams or two time-of-class exams conflict, the course with the higher number will take priority. Instructors giving make-up exams will make the necessary adjustments.
• Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a final exam is within 60 days of the originally scheduled final exam date; however, students in their graduation semester may require expedited accommodations to ensure graduation as scheduled.

During Term Exams
• During-term examinations are held during regular class times or during assembly exam periods, which are Monday-Friday from 8:20 - 10:10 p.m. (periods E2-E3) for the fall and spring terms and Monday-Friday from 7:00 - 9:45 p.m. (periods E1-E2) for the summer terms.
• If other classes are scheduled during an exam time, instructors must provide make-up class work for students who miss class because of an assembly exam.
• When two exams conflict, assembly exams (multiple sections and/or enrollment over 300) take precedence over non-assembly exams (single sections and/or enrollment under 300). If two assembly exams conflict, the course with the higher number will take priority. Likewise, if two non-assembly exams conflict, the higher number will again take priority. Instructors giving make-up exams will make the necessary adjustments.
• Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a during-term exam is before the end of the semester in which the student is enrolled in the class.

Reading Days
The two days before the start of examinations in the fall and spring semesters, generally a Thursday and Friday, are designated reading days. No classes or exams are held on these days; instead, students are encouraged to use these days for study and review.

There are no reading days in the summer terms because examinations are given during regular class periods.

Excused Absences
Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. For assignments and during-term exams, a reasonable amount of time is within the term in which the student is enrolled in the class. For final exams, a reasonable amount of time is within 60 days after the originally scheduled final exam date; however, students in their graduation semester may require expedited accommodations to ensure graduation as scheduled.

Fees and Fiscal Information

Admission Tuition Deposit
The $200 admission deposit (UF-3.0376 Regulations of the University of Florida) paid by the individual shall be applied toward payment of that individual’s tuition upon enrollment. The admission deposit shall not be reimbursed to an individual who does not enroll in the term offered for admission and who does not withdraw their acceptance of admission prior to the applicable deadline as published in the University Record. The deposit is waived for those individuals who have provided documentation that they have received an application fee waiver because of economic need as determined by the College Board, American College Testing Program, Law School Admissions Council, the American Association of Medical Colleges Fee Assistance Program or the American Association of Dental Schools Application Service.

Registration and Tuition and Fees Liability
Registration shall be defined as consisting of two components (UF-3.037 Regulations of the University of Florida):
1. formal enrollment in one or more credit courses approved and scheduled by the university; and
2. tuition and fee payments, or other appropriate arrangements for tuition and fee payment (deferment or third-party billing) for the courses in which the student is enrolled as of the end of the drop/add period.

Registration must be completed on or before the date specified in the university calendar. Students are not authorized to attend class unless they are on the class roll or have been approved to audit. Unauthorized class attendance will result in fee liability.

Fee Liability
All students are liable for all tuition and fees associated with all courses for which the student is registered at the end of the drop/add period (UF-3.037 Regulations of the University of Florida). The fee payment deadline is 3:30 p.m. of the last day of the second week of classes.

Assessment of Tuition and Fees
Tuition shall be assessed to students for enrollment in credit courses (UF-3.0375 Regulations of the University of Florida).

Students can calculate and pay their own tuition and fees on the secure ONE.UF portal.
More Info (https://one.ufl.edu/dashboard/)

Students can estimate their tuition and fees on the University Bursar website.
More Info (http://www.fa.ufl.edu/bursar/current-students/)

Lack of written notification of the tuition and fee debt does not negate the student’s responsibility to pay by the published deadline.

For purposes of discussion, the word term refers to the fall semester, the spring semester and any of the summer semesters.

Assessment of Student Fees

Activity and Service Fee
All students must pay an activity and service fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0372, Regulations of the University of Florida)

Athletic Fee
All students must pay an athletic fee that is assessed on a per credit-hour or semiannual basis. Half-time graduate research and teaching assistants enrolled for eight (8) or more credit hours during the Fall or Spring Semester and all other students enrolled for nine (9) or more credit hours are eligible to purchase football tickets at the student rate. (UF-3.0372, Regulations of the University of Florida)
Audit Fee
Tuition and fees for audited courses are assessed at the applicable resident or non-resident per credit-hour cost. (UF-3.0376, Regulations of the University of Florida)

Diploma Replacement Fee
Each diploma ordered after a student’s initial degree application can result in a diploma replacement charge, variable, not to exceed $10.00 per item. (UF-3.0376, Regulations of the University of Florida)

Distance Learning Fee
Online courses may be assessed a per credit hour amount. (1009.24, Florida Statutes)

Health Fee
All students must pay a health fee that is assessed on a per credit-hour or semiannual basis. The health fee is not part of any health insurance a student may purchase. (UF-3.0372, Regulations of the University of Florida)

Material and Supply and Equipment Use Fee
Material and supply fees are assessed for certain courses to offset the cost of materials or supply items consumed in the course of instruction. A list of approved courses and fees is published in the Schedule of Courses each semester. (UF-3.0374 Regulations of the University of Florida)

Off-Campus Educational Activities
The president or the president’s designee will establish fees for off-campus course offerings when the location results in specific identifiable increased costs to the university. These fees will be in addition to the regular tuition and fees charged to students enrolling in these courses on campus. The additional fees charged are for the purpose of recovering the increased costs resulting from off campus vis-a-vis on campus offerings. As used herein, off campus refers to locations other than main campus, branch campuses and centers. (UF-3.0376, Regulations of the University of Florida)

Registration for Zero Credits
The student is assessed the applicable resident or non-resident per credit-hour cost as set forth in Regulation UF-3.0375, for one credit hour. (UF-3.0376, Regulations of the University of Florida)

Technology Fee
All students must pay a technology fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0375, Regulations of the University of Florida)

Transcript Fee
An official transcript may be purchased on the Registrar website or your ONE.UF (https://one.uf.edu/) account for a charge. (UF-3.0376, Regulations of the University of Florida)

More Info (https://registrar.ufl.edu/services/transcripts/)

Transportation Access Fee
All students must pay a transportation access fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0372, Regulations of the University of Florida)

All charges may be subject to change without notice.

Repeat Course Fee
Beginning Fall 1997, any undergraduate course numbered 1000-4999 at the university for which a student registers three or more times will be subject to a repeat course fee at 100 percent of the full cost of instruction, calculated annually. (Section 1009.285, Florida Statutes)

All students, regardless of classification or residency status, will be assessed the fee in addition to the tuition costs. (UF-3.0375, Regulations of the University of Florida)

Excess Hours Fee
All credit hours for courses taken at the state university from which the student is seeking a baccalaureate degree. (UF-3.0375, Regulations of the University of Florida)

Pursuant to Section 1009.286, Florida Statutes, an additional student payment for credit hours exceeding baccalaureate degree program completion requirements at state universities.

Payment of Tuition and Fees
Tuition and fees are payable on the dates listed in the academic calendar. Deadlines are enforced.

More info (p. 1142)

Tuition and fee payments are processed by University Bursar. Payments sent via U.S. mail must be received in the university cashier’s office by the established fee payment deadline. An on time payment for the tuition and fees deadline date is a receipt date, not a postmark date.

More Info (http://www.fa.ufl.edu/bursar/current-students/payments/)

According to university policy, university cashiers will accept checks only for the amount due in payment of tuition and fees, accounts receivable, loans and other student debts. Checks from international countries must be payable through a United States bank in U.S. dollars. The university can refuse two-party checks, altered checks and checks that will not photocopy. The university does not have the authority to waive late payment fees unless extraordinary circumstances warrant such a waiver or the university is primarily responsible for the delinquency. (UF 3.0022, University of Florida Regulations)

Pay for tuition and fees and other charges at ONE.UF.
More Info (https://one.uf.edu/dashboard/)

Payment Options
- Electronic check; there is no service charge for the electronic check payments.
- Credit and debit cards: MasterCard, Discover, American Express, or Visa will include a 2.6 percent service charge for tuition and fees and
accounts receivable charges (e.g., laser print, library fines, parking decals, etc.).

- International Payment via Western Union is a wire transfer; provides a competitive rate of exchange for many international currencies.
- In person payments: check, money order, or cashier’s check. International paper checks or demand drafts must be drawn on a U.S. bank in U.S. dollars and amounts cannot be greater than the amount due. Any payment that is more than the amount due will not be refunded and will automatically be applied to a future debt.
- Cash is not an available payment options.

Returned Payments

Returned electronic checks or paper checks will be charged a service fee of $25.00 if the returned payment is less than $50.00; $30.00 if the returned payment is $50.01 - $299.99 and $40.00 if the returned payment is $300.00 or more. Payments for returned electronic check payments, returned paper checks and the returned service fee must be paid by money order or cashier’s check.

A $10.00 service fee will be charged if the bank information provided for the electronic check payment is inaccurate for electronic funds transfer. Payment for this type of return does not require a money order or a cashier’s check.

All financial obligations to the university will be applied on the basis of age of the debt. The oldest debt will be paid first.

Late Registration and Late Payment Fees

Late Registration Fee

Any student who fails to register prior to the late registration date published in the academic calendar will be subject to the late registration fee of $100.00. (UF-3.037, Regulations of the University of Florida) More Info (p. 1142)

Late Payment Fee

Any student who fails to pay all tuition and fees due or to make appropriate arrangements for tuition and fee payment (deferment or third party billing) by the fee payment deadline published in the academic calendar will be subject to a late payment fee of $100.00. (UF-3.037, Regulations of the University of Florida) More Info (p. 1142)

Waiver of Late Fees

A student who believes that a late fee should not be assessed because of university error or extraordinary circumstances that prevented all conceivable means of compliance by the deadline may petition for a waiver. Late registration fee: Office of the University Registrar; Late payment fee: University Bursar. The university reserves the right to require documentation to substantiate these circumstances.

Deferment of Tuition and Fees

Deferment extends the deadline for payment of tuition and fees for a specific term. A tuition and fee deferment is granted based on information from Student Financial Affairs (financial aid deferments) or the Office of the University Registrar (veterans). Refer questions on eligibility to the appropriate office. A tuition and fee deferment must be established by the tuition fee payment deadline for each term. A tuition and fee deferment is provided to students in the following circumstances:

- Students receiving benefits from state or federal financial assistance programs (1009.27, Florida Statutes).
- Students receiving veterans or other educational benefits under Chapter 30, Chapter 31, Chapter 32, Chapter 33, Chapter 34, Chapter 35, Chapter 106 or Title 10, U.S.C.; or
- Students for whom formal arrangements have been made with the university for payment by an acceptable third-party sponsor.

A $100.00 late payment fee will be assessed if a student fails to pay all tuition and fees due by the deferment deadline.

Deadlines

Deadlines are enforced.

The university does not have the authority to waive late payment fees unless extraordinary circumstances warrant such waiver or the university is primarily responsible for the delinquency.

Waiver or Exemption of Tuition and Fees

UF may waive tuition and fees as follows:

- Any dependent child of a special risk member killed in the line of duty, pursuant to Chapter 112.19, Florida Statutes.
- A student enrolled through the Florida Linkage Institutes Program is entitled to a waiver of the non-resident tuition and fees pursuant to 288.8175 Florida Statutes.
- Intern supervisors for institutions within the State University System may be given one non-transferable certificate (fee waiver) for each full academic term during which the person serves as an intern supervisor, pursuant to 1009.26, Florida Statutes.
- Persons 60 years of age or older who are Florida residents, pursuant to Chapter 1009.26, Florida Statutes.
- A student who is or was at the time he or she reached 18 years of age in the custody of a relative or non-relative under s. 39.5085 or s. 39.6225 or who was adopted from the Department of Children and Families after May 5, 1997. Such exemption includes fees associated with enrollment in applied academics for adult education instruction. The exemption remains valid until the student reaches 28 years of age after May 5, 1997, pursuant to Chapter 1009.25, Florida Statutes.
- A student who lacks a fixed, regular, and adequate nighttime residence or whose primary nighttime residence is a public or private shelter designed to provide temporary residence, a public or private transitional living program, or a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings. This includes a student who would otherwise meet the requirements of this paragraph, as determined by a college or university, but for his or her residence in college or university dormitory housing.
- Purple Heart recipients pursuant to Chapter 1009.26, Florida Statutes.
- Apply for enrollment in an institution of higher education within 24 months after high school graduation; and submit an official Florida high school transcript as evidence of attendance and graduation, may have the non-Florida resident fee waived as provided by Chapter 1009.26, Florida Statutes.
- Non-Florida resident fee for a veteran; C.W. “Bill” Young Veteran Tuition Waiver, pursuant to Chapter 1009.26, Florida Statutes.
- Active-duty military, pursuant to sections 1009.2(10) and 1009.26(14), Florida Statutes.
The non-Florida student financial aid fee may not be waived for students receiving an out-of-state tuition and fee waiver.

**Non-Payment of Tuition and Fees**

The university shall temporarily suspend further academic progress of any student who has not paid the entire balance of their tuition and fee liability by the established deadlines. This will be accomplished by placing a financial hold on the student’s record, which will prevent the student from receiving grades, transcripts and/or diploma, and the student’s registration will be denied for future terms until the account has been satisfied. (UF-3.037 Regulations of the University of Florida)

Students who have not paid any portion of their tuition and fee liability by the established university payment deadline will be withdrawn from all courses. Students will continue to be held fee liable for these courses, but will not be allowed to attend these courses until payment is made in full and the student has been re-registered.

To re-register for courses, students must submit a Current Term Re-Enrollment Request petition to the Office of the University Registrar. Students who re-register after being withdrawn for non-payment of tuition and fees will be subject to both late registration and late payment fees.

**Refund of Tuition and Fees**

The following circumstances may constitute a tuition and fees refund (UF 3.0371 Regulations of the University of Florida):

- If notice of withdrawal from the University is approved prior to the end of the drop/add period and written documentation is received from the student
- Credits dropped during drop/add period
- Courses cancelled by the university
- Involuntary call to active military duty
- Death of the student or member of the immediate family (parent, spouse, child, sibling)
- Illness of the student of such severity or duration, as confirmed in writing by a physician, that completion of the semester is precluded
- Exceptional circumstances, upon approval of the university president or his designee

A refund of 25 percent of the total fees paid (less late fees) is available for withdrawal of enrollment of all courses from the university prior to the deadlines listed in the academic calendar. More Info (p. 1142)

Refunds are issued by University Bursar and will be applied against any university debts. The university reserves the right to set minimum amounts for which refunds will be produced for overpayments on student accounts.

Tuition refunds due to cancellation, withdrawal or termination of attendance for students receiving financial aid will first be refunded to the appropriate financial aid programs. If the student is a recipient of federal financial aid, such as Grad Plus Loan, Pell Grant, TEACH Grant, Supplemental Educational Opportunity Grant (SEOG), Perkins Loan, Federal Direct Stafford Loans or PLUS loans, federal rules require that any unearned portion of the federal aid must be returned to the U.S. Department of Education.

**Direct Deposit Requirement**

Due to the university’s continuing support for sustainable practices, as well as the costs associated with producing, mailing, and tracking undelivered checks, direct deposit is now required for the delivery of refunds, whether financial aid or student overpayments. This electronic method will deposit any overpayments to the student’s checking account. Students must give authorization on ONE.UF (https://one.uf.edu/dashboard/), select the Campus Finances (Bursar) card > Related Links > Sign up for Direct Deposit to have financial aid or overpayments electronically credited to a U.S. bank or other U.S. financial institution checking account.

**Florida Prepaid Tuition College Program**

The Florida Prepaid Tuition College Program is a state of Florida administered program that provides Florida families affordable means to save for their children’s future college education.

At the University of Florida, students with a Florida Prepaid account will not have to show their Florida Prepaid documentation. University Bursar works directly from an electronic file provided by the Florida Prepaid College Program. University Bursar matches that file to the names and social security numbers of enrolled UF students to determine eligibility and available credits that can be billed to the program. If Prepaid is not showing on the student’s ONE.UF record the first week of classes, contact the University Bursar at 352.392.9545.

More Info (https://one.uf.edu/dashboard/)

University Bursar will automatically bill the Florida Prepaid Program for the tuition and applicable fees of eligible students. The program will be billed each term that a student is registered at UF and continues to have credits available.

Florida Prepaid Program has a variety of plans. However, no plan pays 100 percent of tuition and fees. Listed below are fees that are not covered by a prepaid plan and must be paid by the fee payment deadline each term to avoid assessment of a $100.00 late payment fee:

- Distance learning fees
- Equipment fees
- Excess credit hour surcharge fees
- Late payment fees
- Late registration fees
- Material and supply fees
- Repeat course surcharge
- Transportation access fees
- Test fees
- Technology fees

**Opting out of Florida Prepaid**

Eligible students can choose to decline the use of the prepaid plan online for a fall, spring, or summer term.

**Opt out of Florida Prepaid at ONE.UF.**

More Info (https://one.uf.edu/dashboard/)

The option to opt out online for the current term must be completed prior the day prior to the tuition deadline. The online opt out option is not available on the fee payment deadline day; therefore, students choosing to opt out on the deadline day or those who need to cancel an online selection must contact the University Bursar at 352.392.9545 or Ask Bursar Help (https://uf.tfaforms.net/125/).

Students must opt out each term they decline to use their prepaid plan. Only one academic term will be available online to opt out any given time.
Florida Prepaid and Financial Aid

Students participating in the Florida Prepaid College Program who are also expecting to receive financial aid (i.e., Bright Futures, Pell, student loans, other scholarships/grants) will have the Florida Prepaid applied first to tuition and applicable fees. Financial aid received will be disbursed and applied to outstanding charges, which may include tuition and fees not covered by the program. Any excess financial aid that remains after debts have been paid will be refunded to the student or if there is a Plus loan this will be refunded to the student or parent.

Study Abroad Programs and Distance Learning

Students participating in any study abroad program or receiving instruction through flexible learning, also can bill the Florida Prepaid College Program.

Students must contact the following departments for assistance with billing the Florida Prepaid program:

Study Abroad Programs
UF International Center, Study Abroad Services
170 HUB Stadium Road
Gainesville, FL 32611
352.273.1593

Flexible Learning Courses
Distance Learning
2124 NE Waldo Road, Suite 1101
Gainesville, FL 32609
352.392.2137

Additional questions regarding the UF Florida Prepaid billing process? Call University Bursar at 352.392.9545 or Ask Bursar Help (https://uf.tfaforms.net/125/)

Questions about the Florida Prepaid Program? Call 1.800.552.4723 (552.GRAD)

General Fiscal Information

Students can pay on their ONE.UF account the exact amount of tuition and fees and/or other amounts owed the university. The online payment system accepts the following payment methods: American Express, MasterCard, Discover, or Visa credit cards and electronic checks from checking accounts and international payments via wire transfer. More Info (https://one.uf.edu/dashboard/)

Students can also pay at the University Bursar office with personal checks, cashier's checks and money orders, which can be placed in the 24-hour drop box located outside 113 Criser Hall. Payments on all financial obligations to the university will be applied on the basis of age of the debt. The oldest debt will be paid first.

University Bursar does not accept cash or debit card payments and does not cash checks or make cash refunds.

It is the student’s responsibility to maintain a correct current address in the UF directory. More Info (http://www.registrar.ufl.edu/directoryinfo.html)

Address changes should be made online at ONE.UF. More Info (https://one.uf.edu/dashboard/)

Past-Due Student Accounts

All student accounts are payable at the University Bursar office or on ONE.UF at the time such charges are incurred. Graduating students with outstanding financial obligations will have a hold placed on their records withholding release of a diploma, transcript and other university services until the debt is satisfied. More Info (https://one.uf.edu/dashboard/)

University regulations prohibit the following for any student whose account with the university is delinquent until the debt has been satisfied:

- Registration
- Release of transcript, diploma, grades or schedules
- Loans
- The use of UF facilities and/or services
- Admission to UF functions and athletic events

Delinquent accounts, including those debts for which the student’s records have a financial hold, may require payment by cashier’s check or money order.

Delinquent debts may be placed with a billing agent, reported to a credit bureau and referred to collection agencies without further notice or litigated, at which time additional collection costs will be assessed in accordance with UF-3.0376, Regulations of the University of Florida. All payments received are applied to the oldest debt first.

FERPA and Confidentiality of Student Records

The university ensures the confidentiality of student records in accordance with the provisions of various federal, state, and university regulations, including the Family Educational Rights and Privacy Act of 1974 (FERPA), as amended, also known as the Buckley Amendment. The statutes and regulations also provide certain rights to students concerning their education records.

FERPA Student Rights

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access. A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records if the student believes that the record is inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA. A student who wishes to ask the University to amend a record should write the University official responsible for the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the
University will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. **The right to provide written consent before the University discloses personally identifiable information from the student’s education records, except to the extent that FERPA authorizes disclosure without consent.** FERPA authorizes disclosure without consent in several situations, including but not limited to the following: A) The University may disclose education records without a student’s prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisor, academic or research, or support staff position; a person or entity with whom the University has contracted as its agent to provide a service instead of using University employees or officials; a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibilities for the University. B) Upon request, the University may disclose education records without consent to an official of another school in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student’s enrollment or transfer. C) Directory information (https://directory.ufl.edu/) may be released freely unless the student files the appropriate form requesting that certain public information not be released. This form is available in the Office of the University Registrar.

4. **The right to file a complaint with the U. S. Department of Education concerning alleged failures by the University of Florida to comply with the requirements of FERPA.**

The name and address of the office that administers FERPA is:

US Department of Education
Student Privacy Policy Office
400 Maryland Avenue, SW
Washington, DC 20202-8520

Release of student record information is generally not permitted at the University of Florida without the express, written consent of the student. There are, however, some important exceptions.

**Directory Information** is defined as the student’s name, class and college, local and permanent addresses, listed telephone number, email address, enrollment status, most recent previous educational institution attended, dates of attendance at the University of Florida, majors, minors, certificates, concentrations and degrees earned, nature and place of employment at the University, honors and awards received, publication titles, participation in officially recognized or registered activities and sports, and weight and height of members of athletic teams.

Under FERPA, the university may release directory information without a student’s prior consent, unless the student tells the university not to release this information, by placing what is known as a privacy hold. Please note that selecting the “Do not publish” option in the UF directory is not the same as placing a privacy hold under FERPA. In order to place a privacy hold, the student must complete a Request for Restriction of Directory Information (Full Privacy Hold). This form is available by contacting the Office of the University Registrar by phone (352.392.1374) or email (help@registrar.ufl.edu).

Two important details regarding placing a privacy hold on a student’s record:

- The university receives many inquiries for directory information from a variety of sources outside the institution, including friends, parents, relatives, prospective employers, the news media, honor societies, and other members of the public. A privacy hold will preclude the release of such information, even to those people.
- A privacy hold applies to all elements of directory information in a student's student record. The Office of the University Registrar does not apply the privacy hold differentially to the various directory information data elements. A request for a privacy hold will result in all data elements being withheld. Changes made by the online student directory will not be reflected on the student's academic record.

A copy of FERPA, more details (http://www.registrar.ufl.edu/ferpa.html) about student rights and any university policies related to the FERPA are available from the Office of the University Registrar. Please refer any questions concerning FERPA to that office in 222 Criser Hall, 352.392.1374.

**Confidentiality of Student Records**

**Directory Information** that can be released to the public is limited to:

- Student name
- Class and college
- Local and permanent addresses
- Listed telephone number
- Email address
- Enrollment status
- Most recent previous educational institution attended
- Dates of attendance at the University of Florida
- Majors
- Minors
- Certificates
- Concentrations
- Degree earned
- Nature and place of employment at the university
- Honors and awards received
- Publication titles
- Participation in officially recognized or registered activities and sports
- Weight and height of university athletes

The Office of the University Registrar routinely releases directory information to the public. Directory information may also be released by other university departments and/or employees. Currently enrolled students who want to restrict directory information must contact the Office of the University Registrar (https://registrar.ufl.edu/contact/) for assistance.

Student **educational records** may be released without the student’s consent to school officials who have a legitimate educational interest in accessing the records. **School officials** shall include:
Grades and Grading Policies

Grades

Grades and Grade Points

The Office of the University Registrar records student grades.

The word credit refers to one semester hour, generally representing one hour per week of lecture or two or more hours per week of laboratory work.

W
Withdrawn
WF
Withdrawn failing
I*, N* and I, NG Grades

I* or N* grades recorded on the student record indicate the non-punitive initial-term receipt of an I or NG. A grade of I* or N* is not considered a failing grade for the term in which it is received, and it is not computed in the grade point average. However, if the I* or N* has not been changed after 150 days, it will be counted as a failing grade and used in computation of a student’s grade point average.

For purposes of determining grade point average after the initial receipt of an I* or N* grade, the three summer terms are considered collectively as a single term. I* and N* grades are not assigned to graduating students; they receive failing grades of I or NG.

An incomplete grade may be assigned at the discretion of the instructor as an interim grade for a course in which the student has completed a major portion of the course with a passing grade, been unable to complete course requirements before the end of the term because of extenuating circumstances, and obtained agreement from the instructor and arranged for resolution of the incomplete grade. Instructors are not required to assign incomplete grades.

If make-up work requires classroom or laboratory attendance in a subsequent term, students must not register for the course again. Instead, they should audit the course and pay course fees.

If the make-up work does not require classroom or laboratory attendance, the student and their instructor should decide on an appropriate plan and deadline for completing the course.

When the course is completed, the instructor will initiate the change of grade. These procedures cannot be used to repeat a course for a different grade. An I grade should not be assigned to a student who never attended class; instead, instructors should assign a failing grade.

W and WF Grades

Courses dropped after drop/add and before the withdrawal deadline will be graded W. WF grades are no longer issued by the university, but in previous years they reflect courses dropped after the withdrawal deadline.

More Info (p. 1130)

Satisfactory/Unsatisfactory Grade Option (S/U)

Subject to college degree program and department guidelines, students can take elective coursework and earn grades of S (satisfactory) or U (unsatisfactory). A grade of S is equal to a C (2.0) or better. Grades earned under the S/U option do not carry grade point values and are not computed in the University of Florida grade point average. Courses with a grade of S will count as credits earned in a degree program. Such grades are included in the student’s permanent academic record and are reflected on the transcript. After the S/U option is approved, the grade cannot revert to a letter grade.

Other academic institutions and agencies may interpret a grade of U as a failing grade.

If a student chooses the S/U option they must be in good standing and not on university academic probation. To elect the S/U option, students must obtain the approvals indicated on the form. Students can elect the S/U option for one course only each term; this option is in addition to courses that are taught only on an S/U basis. Courses taken to fulfill the general education and the writing requirement cannot be taken S/U.

For fall, spring and summer C terms, the S/U option deadline is Friday of the third week of classes. For summer A and summer B terms, the deadline is Wednesday of the second week of classes.

H Grades

An H grade, which signifies a deferred grade assignment, is normally assigned at the end of a term when a specific course’s class calendar differs from the traditional course calendar. Now that UF flexible learning courses have been incorporated into the student records system, H grades will also be assigned to students who cannot complete their flexible learning course requirements before the end of the traditional grade cycle.

While H grades for traditional courses become punitive at a date determined by the college, H grades for flexible learning coursework generally become punitive 32 weeks after course enrollment. However, any grade of H received by a degree candidate will become punitive (and calculated as a failing grade) at degree certification.

Grading Policies

Grade Point Averaging

The term average refers to the grade point average (GPA) for work completed in the current or most recent academic program attended at the University of Florida. Grades received at other institutions are NOT averaged with grades received at the University of Florida for the purpose of meeting university GPA requirements. Other agencies and honorary societies will compute averages in accordance with their own standards and policies. Averages are determined by computing the ratio of grade points to semester credits attempted.

Dismissal for Insufficient GPA

Just as a sufficient GPA is critical for academic success, an insufficient GPA could lead to dismissal from the university. Students must maintain a minimum GPA based on their cumulative UF credits to avoid dismissal and cancellation of advanced registrations.

To see calculations based upon former grade values, please refer to the 2009-10 undergraduate catalog (http://www.registrar.ufl.edu/catalog0910/policies/regulationgrades.html).

Repeat Coursework

University of Florida coursework that is repeated is counted in the computation of your UF grade point average as many times as grades for that course are recorded, although credits will be awarded only once.

When you earn a C (2.0) or higher in a course, you will not be allowed to repeat that course. Any exceptions to this policy must be made via an approved petition to the student's college.

If you entered UF with credit for Advanced Placement (AP) or International Baccalaureate (IB) courses and you then repeat and pass the equivalent course at UF, you will receive a grade for the UF course and no credit for the prior work.

Grades received at other institutions will not be averaged with grades received at the University of Florida. Repeat coursework taken at the University of Florida will result in calculation of the UF grade in the UF grade point average only, with credit earned only once.

Outcomes when Repeated Coursework involves Transfer Coursework

Coursework taken at another institution, then repeated at UF
Only UF grade computed in GPA; credit earned only once.

Coursework taken at UF, then repeated at another institution
Only UF grade computed in GPA; credit earned only once.

Coursework taken and repeated at another institution
No grades will be calculated into the UF GPA and credit is awarded only once.

Repeat course equivalencies are identified based on the state’s common course taxonomy. Refer to the statewide course numbering system (p. 1155) for the definition of course equivalencies.

Colleges may not accept grade points and credits earned from lower level courses if they are taken after the student has received credit/grades for advanced courses or exam credit in the same field.

Grade Changes

Grade changes will be accepted and processed by the Office of the University Registrar for one calendar year after the term in which the course was attempted.

Any grade changes submitted after the deadline must be accompanied by additional supporting information or documentation justifying the extension and submitted to the appropriate college dean. If the dean approves the exception, they will forward an authorized grade change form to the Office of the University Registrar.

One calendar year is specified as the published grades due date of the same semester in the following year.

This policy does not apply to grades of I or I*, which designate a grade of incomplete.

Registration Policies

Course Load Requirements

The minimum full-time load for undergraduate students is 12 credits, including summer term. Postbaccalaureate students are considered undergraduates.

Students with disabilities who are registered with the Disability Resources Center are eligible for full-time status and all the benefits thereof at or below 12 credits.

More Info (https://disability.ufl.edu/)

The minimum load for full-time undergraduate student benefits from the Veterans Administration is 12 credits for fall, spring, and summer terms. The minimum load for full-time undergraduate student benefits from the Social Security Administration is 12 credits per semester; a full-time load for graduate students is 9 credits. Inquiries related to Social Security benefits should be directed to the student’s local Social Security Office.

The Office of the University Registrar will complete enrollment certificates issued by the Social Security Administration for students eligible to receive educational benefits, as long as the student is a full-time undergraduate. Students receiving financial aid and students with disabilities should refer to Financial Aid’s enrollment requirements for complete information.

More Info (http://www.sfa.ufl.edu/receiving/enrollment-requirements/)

University regulations allow a maximum load of 18 credits. Some colleges have differing maximum loads; refer to the college sections for specific information.

With college approval you may register for less than the minimum or more than the maximum load. After late registration, you cannot drop below the minimum load without successfully petitioning your college dean.

Simultaneous enrollment in flexible learning courses or extension work at another college or university is counted when computing the maximum course load but not the minimum course load.
Non-Degree Registration

Non-degree enrollment is restricted to participants in special programs, off-campus programs, online course offerings, university-affiliated exchange programs, and high school/college dual-credit enrollment. Special regulations govern high school/college dual enrollment for academically advanced students in Florida high schools. Non-degree enrollment is generally limited to the summer terms.

More Info (http://www.registrar.ufl.edu/registration/transients.html)

Undergraduate students who have been denied admission to UF for any term are not eligible for non-degree registration. If you previously have attended UF in a degree-seeking status and did not subsequently earn a bachelor's degree, you are not eligible for non-degree registration.

Non-degree enrollment is subject to the availability of faculty, space and facilities. No application for admission is required.

UF Students Attending Other Schools

Normally, UF students are not permitted to register at another institution for a course or its equivalent that is offered at UF.

Visiting Students Attending UF

Undergraduate students in good standing at another accredited collegiate institution can enroll full time at UF as non-degree transient students to complete work to transfer back to the parent institution.

UF will not evaluate work previously completed, and it is the student's responsibility to secure approvals required by the parent institution. Certification to Social Security and Veterans Administration programs also is the responsibility of the student, who must request each institution to furnish records.

Non-degree students are subject to the following restrictions:

• Non-degree students must meet state of Florida immunization requirements.

• Course enrollment requires the approval of the college at the beginning of each term. The college of enrollment has the authority to terminate a non-degree enrollment before registration for any term. Generally, non-degree registration is for one term only.

• Registration is not permitted until the last three days of the fall/spring drop/add period and must be completed by the end of drop/add; failure to register by that deadline will result in a late registration fee.

• Registration is not permitted until the first day of the summer drop/add period and must be completed by the end of drop/add; failure to register by that deadline will result in a late registration fee.

• The same grading system is applicable to degree and non-degree students. Non-degree credit may be applicable to a UF degree upon subsequent admission to degree status and determination of appropriate application of such credit in the student's degree program. Authorization to enroll as a non-degree student in no way implies future approval for admission as a degree-seeking student.

• Non-degree enrollment status will be denied to any student under suspension or dismissal from a postsecondary institution or not in good standing at any institution previously enrolled, including UF, even if the student has subsequently attended another institution.

Non-degree students are subject to other regulations and restrictions imposed by the college or department in which they wish to enroll.

• Non-degree students taking courses at the university will be required to register for and to attend classes under the university calendar.

Non-degree students must pay appropriate UF fees based on course level, number of credits and residency status.

Auditing Courses

Auditing a course is approved on a space-available basis. In addition to paying tuition and fees, the student must obtain approvals from both the instructor and dean of the college offering the course. Immunizations also are required.

More Info (https://registrar.ufl.edu/registration/audit/)

Audited courses are reflected on the academic transcript with a grade value of AUD.

Students auditing a course to complete course requirements should refer to Grades and Grading Policies.

More Info (p. 1138)

Transfer Credit

Credit is awarded for college-level coursework completed at a U.S. institution of higher education accredited by one of the following institutional accreditors or its equivalent from a foreign institution:

• Western Association of Schools and Colleges, Accrediting Commission for Community and Junior Colleges (ACCJC)

• New England Commission of Higher Education (NECHE)

• Higher Learning Commission (HLC)

• Middle States Commission on Higher Education (MSCHE)

• Northwest Commission on Colleges and Universities (NWCCU)

• Southern Association of Colleges and Schools Commission on Colleges (SACSCOC)

• WASC Senior College and University Commission

Courses must be similar in nature and content to courses in our undergraduate curriculum to be transferred. Courses that are remedial, technical, vocational, or doctrinal in nature are not transferable to an undergraduate degree. It is the prerogative of the student's UF college to determine how transfer credits apply to a degree. Students should expect to receive 60 transfer credits with an AA degree from a Florida public community/state college.

Junior/senior-level (courses numbered 3000-4000) course requirements for the major must be completed at UF or, with permission of the student's UF college, at another accredited baccalaureate degree-granting institution. Refer to Residence Requirements for additional policy regarding graduation requirements.

More Info (p. 1129)

Students are required to submit final official transcripts from all institutions attended before or during their enrollment at UF.

Failure to declare attendance at another institution can invalidate admission to UF and any credits or degrees earned.

## Transcript Policies

The Office of the University Registrar maintains all students’ academic records. At the end of each term of enrollment, students can view their grades, cumulative credits earned, grade points, probationary status and degrees earned, if any, on ONE.UF. More Info (https://one.ufl.edu/)

The University of Florida transcript is the comprehensive record of courses taken at UF, credit earned by examination, university-level honors, certifications and certificates, and degrees awarded. The student’s name will appear on the transcript as it appears on their university record.

Transcripts can be ordered online on ONE.UF. Payment must accompany each transcript order; transcripts cannot be ordered by telephone, fax or email. Current and former students will need a valid GatorLink account (with an active username and password) to order an official transcript or to view and print an unofficial copy of their UF transcripts on ONE.UF. The unofficial copy of the UF transcript may not be accepted by other institutions or potential employers.

The university maintains the right to withhold release of a transcript if a student has an outstanding financial obligation to the university. To reflect a complete academic record for undergraduate, graduate and professional students, the university will issue complete transcripts only. Transcripts do not differentiate between degrees or courses taken in a classroom or online format.

## Dates and Deadlines

All deadlines are effective at 5:00 p.m. on the last date unless indicated otherwise. Forms should be submitted to the appropriate office by 5:00 p.m. unless indicated otherwise. If submitting a form to the Office of the University Registrar, use the Secure Upload Portal at https://registrar.ufl.edu/forms (https://registrar.ufl.edu/forms/).

All dates and deadlines may be subject to change. Previous Catalogs' Dates and Deadlines (p. 1522)

# 2021 - 2022 Dates and Deadlines

All deadlines are effective at 5:00 p.m. on the last date unless indicated otherwise. Forms should be submitted to the appropriate office by 5:00 p.m. unless indicated otherwise. If submitting a form to the Office of the University Registrar, use the Secure Upload Portal at https://registrar.ufl.edu/forms (https://registrar.ufl.edu/forms/).

3. ONE.UF (https://one.uf.edu/dashboard/).
a 100-kilowatt training and research nuclear reactor, the second largest academic computing center in the South, and a self-contained intensive-care hyperbaric chamber for treating near-drowning victims.

Ben Hill Griffin Stadium
Ben Hill Griffin Stadium, or The Swamp, is widely recognized as one of the toughest environments for a visiting team in all of college football. Several facelifts after the stadium's original construction in 1930 have made Florida Field at Ben Hill Griffin Stadium a state-of-the-art facility. The Swamp is the largest stadium in the state of Florida. More Info (https://floridagators.com/facilities/?id=1) Map (http://campusmap.ufl.edu/?loc=0157)

Florida Museum of Natural History
The Florida Museum of Natural History is the largest natural history/anthropology museum in the Southeast and one of the top 10 in the nation. Its research collections contain nearly 6.5 million specimens. More Info (http://www.flmnh.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0181)

Harn Museum of Art
The Samuel P. Harn Museum of Art, with 18,000 square feet of exhibit space, is one of the largest museums in the Southeast. The Curtis M. Phillips Center for the Performing Arts attracts world-class symphony orchestras, Broadway plays, operas, and large-scale ballet productions to Gainesville. More Info (http://harn.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0309)

Newell Hall
Originally built in 1909, Newell Hall is the 3rd oldest building on campus. The facility was completely repurposed to create an active learning environment for both undergraduate and graduate students. It provides a high-tech, collaborative environment with open plan study rooms to foster a creative environment focused on innovation, flexibility, and accessibility. Map (http://campusmap.ufl.edu/?loc=0013)

O'Connell Center
The Stephen C. O'Connell Center covers three acres and is used by the university for classes, intercollegiate sports, general recreation, and a variety of other entertainment events. An Olympic-sized swimming pool, dance studio, gymnastics studio, martial arts room, free style weight room, Nautilus center, track, badminton, volleyball courts, and practice basketball court are located in and around the perimeter of the 12,000 seat main arena. The versatility of this facility permits as many as eight recreational activities to be conducted simultaneously. All recreational, educational and entertainment facilities within the O'Connell Center have been designed to accommodate persons with disabilities. More Info (http://oconnellcenter.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0094)

Reitz Student Union
The newly expanded J. Wayne Reitz Student Union provides space for a myriad of student and faculty activities. More than 20,000 people use the Reitz Union daily for various activities, including shopping, dining, student organizations and hotel services. More Info (https://www.union.ufl.edu/default/) Map (http://campusmap.ufl.edu/?loc=0686)

Campus Safety and Security
Contact: Email (wbarber@ufl.edu?Subject=Campus%20Safety%20and %20Security) | 352.273.3309
The University of Florida is one of the largest institutions of higher education in the nation. The university community is not unlike many other municipalities, and as such, has the same safety and security concerns as Anytown, USA.

The University of Florida Police Department (UFPD) recognizes that it must maintain the safest and most secure environment possible for all students, faculty and staff, and campus visitors. The UFPD has the utmost concern for personal and property safety, but with an open campus environment, safety becomes a shared responsibility.

The UFPD is a state of Florida and nationally accredited law enforcement agency. There are more than 90 fully certified and sworn officers who patrol the UF campus and its surrounding properties 24 hours per day, every day. The department has its own Criminal Investigations Division employing highly trained detectives to investigate any reported crime on campus. The officers of the Uniformed Patrol Division are highly trained campus law enforcement professionals who are equipped with the most contemporary crime-fighting techniques and tools. The Community Services Division is proactive in providing everyone in the campus community with the very latest information regarding personal and property protection through classes, programs and documents.

More Info (http://www.police.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0027)

**Career Connections Center**

The Career Connections Center (Career Center) provides events and services to help students develop and implement their Career Action Plan to realize their next steps. Students can work with Career Center staff to select a major, clarify their interests and abilities, develop professionally, build experience, and prepare for future internship, graduate school, or employment searches.

Students should activate their Gator CareerLink account to learn about the range of in-person and online career planning services available to them and see which employers are actively recruiting University of Florida candidates.

The Career Connections Center hosts hundreds of employers annually as they attend a variety of career events, hold on-campus interviews, and present information sessions and informal interactions with students. More Info (https://career.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0686)

**Visit the Career Connections Center to:**
- Assess skills and interests to help choose a major (https://career.ufl.edu/students/explore-majors-careers/choose-or-change-a-major/career/)
- Explore various career options (http://ufl.myplan.com/)
- Secure internships and other work experience (https://career.ufl.edu/engage/) before graduating
- Conduct mock interviews (https://career.ufl.edu/excel/)
- Prepare for graduate school (https://career.ufl.edu/explore/)
- Start a full-time job search (https://career.ufl.edu/engage/)
- Create a Gator CareerLink to find internships and full-time positions

**Counseling and Wellness Center**

As the primary provider of mental health services on campus, the Counseling and Wellness Center offers high quality counseling and psychiatric case as well as developmental and preventative services to UF students.

The Counseling and Wellness Center at 3190 Radio Road provides counseling, consultation and crisis intervention services to currently enrolled undergraduate and graduate students and their spouses/partners. These services include individual, couples and group counseling; outreach programs and consultations; classes/guest lectures and research; and an extensive professional training program for mental health professionals. All of the Center’s programs and services are designed to help students develop the personal awareness and skills necessary to take advantage of the educational opportunities at the university.

More Info (http://www.counseling.ufl.edu/cwc/) Map (http://campusmap.ufl.edu/?loc=0081)

**Dean of Students**

The Dean of Students Office in 202 Peabody Hall provides programs and services to support students’ academic success and personal development.

More Info (http://www.dso.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0004)

**U Matter, We Care**

At UF, every Gator counts. U Matter, We Care serves as UF’s umbrella program for UF’s caring culture and provides students in distress with support and coordination of the wide variety of appropriate resources. Families, faculty and students can contact U Matter, We Care seven days a week for assistance for students in distress.

Email (umatter@ufl.edu)

**Emergency Response**

Coordinates the university’s response to student emergencies and crises. Assistance for students in distress is available 7 days a week.

**New Student and Family Programs**

Organizes first-year experience and new student programs including new student orientation.

**Student Conduct and Conflict Resolution**

Administers the university’s student conduct code and academic honesty guidelines.

**Medical Withdrawals**

Conducts the petitions process for students who withdraw from the university for medical reasons.

**Collegiate Veterans Success Center**

As a Veteran Friendly Campus, it is important to provide a place for student veterans where veterans can meet, study, and spend time in a safe and relaxing environment. Ranked among the top centers for veterans in the country, the veteran’s success center looks to provide ongoing support for those who have served in our armed forces.

**Disability Resource Center**

Contact: Email (DRCaccessuf@ufsa.ufl.edu) | 352.392.8565

The Disability Resource Center (DRC) in the Dean of Students Office utilizes knowledge and expertise in the fields of disability and higher education to create an inclusive environment by:

- Acting as a resource for students with physical, learning, sensory, or psychological disabilities;
- Facilitating and providing support for reasonable accommodations for students in order to afford equal access to academic courses, programs, and activities;
• Providing services to address the impact of disabilities on student performance and success in and out of the classroom;

• Empowering students to articulate their strengths and advocate for their accommodations; and

• Creating opportunities to educate the campus community on disability laws, trends, universal design, programs, and services.

The DRC serves more than 2,300 registered students through classroom accommodations, support groups, a testing center that proctors 10,000 tests annually, and one-to-one skills coaching. DRC staff are available to provide individual strategy sessions and consultation with students, faculty, and families. Email accessuf@dso.ufl.edu or call to schedule an appointment.

More Info (https://www.dso.ufl.edu/drc/) Map (http://campusmap.ufl.edu/?loc=0020)

Gator Dining Services
Gator Dining is the official food service provider for the university. There are more than 45 dining locations on campus, including many national franchises like Subway, Chick-fil-A, and Starbucks. There are also nutritious and vegetarian options as well as special treats like yogurt smoothies, gourmet coffees, and chocolate chip cookies.

Gator Dining Services offers two types of meal plans (http://gatordining.com/meal-plan-information/): the all campus meal plan and the regular declining balance account.

More Info (http://wwwbsd.ufl.edu/dining/) Dining Locations (http://www.gatordining.com/mealplans/where-to-eat-map/)

GatorLink, Gator 1 Card, and UFID

GatorLink
GatorLink establishes a unique computer identity for every student. The GatorLink account provides access to all online services and creates the UF "username@ufl.edu" email address.

More Info (http://helpdesk.ufl.edu/self-help/new-gator-resources/gatorlink/)

All students must maintain and regularly check their GatorLink email as this is where all official university communications are sent.

Gator 1 Card
The Gator 1 card is the official university photo ID. The ID Card Services office is located on the ground floor of the UF Bookstore and Welcome Center complex on Museum Road.

More Info (http://www.gator1card.ufl.edu/Gator1C_info.asp)

All enrolled students, faculty and staff must have this card to:

• Enter CIRCA computer labs, university libraries, the infirmary, recreation centers.

• Sign up for intramural sports activities.

• Participate in the textbook deferment program at the UF Bookstore.

• Purchase tickets to university events.

• Vote in student government elections.

• Purchase food on campus with a Gator Dining or prepaid vending account.

• Use laundry facilities in some residence halls.

• Use as an ATM/debit card when activated through Wells Fargo Bank.

UFID
UFID is an eight-digit number that serves as the primary identifier for all university records and transactions. Similar to a social security number, no two people will have the same number, and each person has only one. The UFID is assigned by the university, not chosen like a PIN. All students, faculty and staff have UFIDs, and the number is printed on the Gator 1 card.

More Info (http://identity.it.ufl.edu/process/uf-identifier/)

Housing and Residence Education
Welcome to #WhereGatorsLive at the University of Florida. On-campus living means students are in on all the action and seconds away from everything as they get involved, build the path to their successful future, and make connections that will last a lifetime. UF Housing offers 26 different residence halls for undergraduate students and 6 different villages for graduate students and their families. Explore the options.

More Info (http://www.housing.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0753)

Beginning Freshmen
Freshmen entering the university will be offered a housing agreement based on the term they were admitted. Residence hall contracts are available for the academic year (summer B/fall/spring, fall/spring, spring/summer, and the summer terms).

Applying for campus housing does not guarantee an offer of residence hall space. If space is available, admitted students will receive an email link to the online residence hall contract process. To secure campus housing, the student must complete a contract, sign it and submit the advance rent payment by the deadline.

• Residence Halls (https://www.housing.ufl.edu/housing/)

• Apply for Housing (http://www.housing.ufl.edu/apply/)

• Transfer Student Information (https://housing.ufl.edu/living-options/apply/incoming-students/)

• Villages (http://www.housing.ufl.edu/gfh/choices/)

• Off-campus Housing Information (http://www.offcampus.ufl.edu/)

Student Financial Affairs
The Office for Student Financial Affairs (SFA) in 107 Criser Hall administers financial aid programs and provides financial assistance and counseling. SFA awards aid according to financial need (the difference between current educational costs and what the individual student can pay toward these costs).

More Info (http://www.sfa.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0031)

Financial Aid
Financial aid is money provided to students and their families as gift aid (scholarships, grants) or self-help programs (loans and/or work) to help pay college costs. Financial aid can be awarded singly (one type of aid) or as a package.

More Info (http://www.sfa.ufl.edu/programs/)

Grants
Grants are awarded for financial need. The largest grant program at UF is the Federal Pell Grant. Other grants include Federal Supplemental Educational Opportunity Grants, Federal Academic Competitiveness Grants, National SMART Grants, the Teacher Education Assistance for College and Higher Education (TEACH) Grant, Florida Student Assistance Grants, Turner Grants and UF Graduate Grants.
Scholarships
Scholarships are awarded based on academic performance and financial need. Most academic scholarships are awarded through the UF Office of Admissions and individual UF colleges. SFA administers a limited number of scholarships from private donors.

More Info (http://www.sfa.ufl.edu/programs/scholarships/)

Student Employment
Federal Work-Study jobs may be awarded by SFA to students with demonstrated financial need as part of an aid package. Other job programs, such as OPS employment, do not require financial need and are open to any student with the desire to work who meets the basic criteria of half-time enrollment and a 2.0 GPA. Student jobs usually are 15-20 hours a week and pay at least minimum wage.

More Info (http://www.sfa.ufl.edu/programs/employment/)

Loans
Loan programs for undergraduates include: Federal Direct Stafford loans, Federal Direct Unsubsidized Stafford loans, Federal Direct Graduate PLUS loans, Federal Perkins Loans and UF institutional loans. These programs offer long-term, low-interest loans that must be repaid when the borrower graduates, withdraws or drops to less than half-time enrollment. Parents of dependent undergraduate students can take out educational loans through the Federal Direct PLUS loan program. Graduate students can take out educational loans through the Federal Grad PLUS loan program.

More Info (http://www.sfa.ufl.edu/programs/loans/)

When to Apply
Applications are available January 1 each year. Although SFA cannot award financial aid until students have been admitted to UF, they should apply for aid as soon as possible after January 1. Students are considered for aid according to the date their aid file is complete. Federal Pell Grants, Federal Academic Competitiveness Grants (ACG), Federal SMART Grants, Federal Direct Stafford Loans and OPS employment are open throughout.

March 15 is UF’s on-time deadline for financial aid application. SFA must receive students’ application information from the federal need analysis processor by March 15 in order to be considered for Federal Work Study. Federal Perkins loans, Federal Supplemental Educational Opportunity Grants, Turner Grants and institutional (UF) loans. Financial aid at UF is awarded first-come, first-served. Students missing the deadline will only be considered for aid remaining after on-time students have received their awards.

• How to Apply for Financial Aid (http://www.sfa.ufl.edu/applying/)
• Enrollment Requirements for Financial Aid (http://www.sfa.ufl.edu/receiving/enrollment-requirements/)
• How to Apply for Student Employment (http://www.sfa.ufl.edu/programs/employment/)

Financial Aid Academic Progress Requirements
UF students receiving financial aid are required to be in good standing and to maintain satisfactory academic progress.

More Info (http://www.sfa.ufl.edu/additional/academic-progress/)

Recreational Sports
With an active student body and an abundance of Florida sunshine, recreations is a big part of life on campus. The university offers more than 60 intramural and club sports, personal training, a midnight fun run, a lake and one of the best fitness facilities in the country. So no matter a student’s interest or skill level, there’s always a great way to get involved with other Gators.

RecSports offers experiences that enrich the lives of University of Florida students through excellence in facilities, fitness, sport, adventure and play. RecSports is committed to fostering leaders, encouraging lifelong healthy lifestyles and maintaining welcoming and safe environments, including student activities and programs, campus recreation facilities, aquatics, Lake Wauburg and more.

More Info (http://www.recsports.ufl.edu/) Locations (http://recsports.ufl.edu/locations/)

Student Health Care Center
More Info (http://shcc.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0018)

General Information and Helpful Links
Appointments, Hours and Locations, Excuse Notes, Fees for Services, etc.

The Student Health Care Center (SHCC), established in 1906, is an accredited outpatient clinic staffed by licensed, board-certified medical providers who pride themselves on keeping UF’s students, faculty and staff healthy through a variety of primary and specialty care services, including general medical care, immunizations, dermatology, massage therapy, nutrition, occupational medicine, physical therapy, sports medicine, travel, women’s health and workers compensation. The SHCC also conducts the annual campus flu shot campaign.

More Info (http://shcc.ufl.edu/services/primary-care/flu/)

All registered UF students paying the tuition-included health fee may access SHCC services. If a student takes time off (for example, no summer classes), they must pay the per-semester optional health fee to receive care, which covers the costs associated with most SHCC office visits, but is not considered health insurance. Items not covered by the health fee that patients are financially responsible for include, but are not limited to health insurance, hospital visits, external community providers/facilities, physicals, procedures, X-rays, lab tests, medical equipment, prescriptions, non-prescription medications, vaccinations, massage and physical therapy.

In addition to university-sponsored insurance plans, the SHCC can direct-bill many private insurance companies for covered medical charges. Visit the SHCC’s Health Insurance Options for more information on private insurance usage and verification, as well as current university-sponsored insurance details.

More Info (http://shcc.ufl.edu/fees-and-insurance/health-insurance-options/)

UF Bookstore and Welcome Center
The University of Florida Bookstores are located in the UF Welcome Center on Museum Road just next to the student union, in the Health Science Center and in the College of Veterinary Medicine. UF Bookstores offer new and used textbooks, school supplies, gifts and clothing. Bookstore programs include textbook reservations and a 50% guaranteed book buyback.

More Info (http://www.bsd.ufl.edu/bookstore/) Map (http://campusmap.ufl.edu/?loc=0886)

UF Welcome Center is within the main UF Bookstore next to the Reitz Union. The Welcome Center is maintained by the Office of Admissions and is the university’s front door to visitors, providing weekday and Saturday information sessions and walking tours of campus.
Courses

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings. More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Statewide Course Numbering System

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida’s Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and 27 participating non-public institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions.

More Info (http://scns.fldoe.org/)

Each participating institution controls the title, credit and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated numbers is referred to as the SCNS taxonomy. Descriptions of the content of courses are referred to as statewide course profiles.

General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and the same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in Exceptions to the General Rule for Equivalency.

For example, a freshman composition skills course is offered by 59 different postsecondary institutions. Each institution uses ENC_101 to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, ENC means English Composition, the century digit 1 represents Freshman Composition, the decade digit 0 represents Freshman Composition Skills and the unit digit 1 represents Freshman Composition Skills 1.

In the sciences and certain other areas, a C or L after the course number is known as a lab indicator. The C represents a combined lecture and laboratory course that meets in the same place at the same time. The L represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at the community college is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101.

Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent.

Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

About the Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states: Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions.

Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions and participating non-public postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or non-public control of the previous institution.

The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.
Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

- Courses not offered by the receiving institution
- For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question
- Courses in the _900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses and Dissertations.
- College preparatory and vocational preparatory courses
- Graduate courses
- Internships, apprenticeships, practica, clinical experiences and study abroad courses with numbers other than those ranging from 900-999.
- Applied courses in the performing arts (Art, Dance, Interior Design, Music and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

Courses at Non-regionally Accredited Institutions

The SCNS makes available on its home page (in the Latest News box) a report entitled Courses at Non-regionally Accredited Institutions that contains a comprehensive listing of all non-public institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly. More Info (http://scns.fldoe.org/)

Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to the Office of Admissions in 201 Criser Hall or,

The Florida Department of Education
Office of Articulation
1401 Turlington Building
Tallahassee, Florida 32399-0400

Special reports and technical information may be requested by calling the SCNS office at 850-245-0427 or visiting scns.fldoe.org (http://scns.fldoe.org/).

Graduate Accounting Courses

Courses at the 5000 level are available to undergraduates who are admitted to the Fisher School of Accounting, who have met the admissions requirements for the Master of Accounting program and who have advisor approval. Prerequisites and graduate courses are listed in the graduate catalog.

More Info (http://gradcatalog.ufl.edu/)

Courses

ACG 2021 Introduction to Financial Accounting 4 Credits
Grading Scheme: Letter Grade
Conceptual introduction to financial accounting. Emphasis is placed on wealth and income measurement and the preparation and interpretation of conventional financial statements.
Prerequisite: sophomore standing or higher.

ACG 2071 Introduction to Managerial Accounting 4 Credits
Grading Scheme: Letter Grade
Accounting for cost reporting and control. Reports, statements and analytical tools used by management.
Prerequisite: ACG 2021.

ACG 3101 Financial Accounting and Reporting 1 4 Credits
Grading Scheme: Letter Grade
Covers the theoretical structure of financial accounting, required financial statements, revenue recognition, operating assets and current liabilities.
Prerequisite: ACG 2021 and ACG 2071 with minimum grades of B.
ACG 3401 Business Processes and Accounting Information System 4 Credits
Grading Scheme: Letter Grade
Examination of the accounting information systems in a business organization. Coverage extends over topics such as business processes, internal controls, and the fundamentals of accounting information systems analysis, design, implementation and control.
Prerequisite: (ACG 2021 and ACG 2071 with minimum grades of B) and (CGS 2531 or ISM 3013).

ACG 3802 Professional Speakers Series 1 Credit
Grading Scheme: S/U
To expose students to technical topics and emerging issues in accounting, business and related professions such as law. The course addresses career opportunities in the practice of public accounting, industry, financial services, government, and in business more generally. (S-U)

ACG 4111 Financial Accounting and Reporting 2-4 Credits
Grading Scheme: Letter Grade
Continuation of ACG 3101 and includes coverage of accounting for investments, non-current liabilities and equities, accounting for income taxes, derivatives, accounting changes, statement of cash flows and earnings per share.
Prerequisite: ACG 3101 with minimum grade of C and FIN 3403.

ACG 4341 Cost and Managerial Accounting 4 Credits
Grading Scheme: Letter Grade
Extends cost and managerial coverage beyond that covered in ACG 2071. Topics include quantitative cost estimation, standard costing, flexible budgets, inventory management, pricing decisions, balanced scorecard, costs of quality, capital budgeting, transfer pricing and performance evaluations.
Prerequisite: (ACG 3101 and ACG 3401 with minimum grades of C) and QMB 3250 and (MAC 2234 or MAC 2312).

ACG 4632 Introduction to Auditing 3 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts, principles and environment of financial statement auditing. The course emphasizes the audit decision-making process, researching audit standards, audit planning, evidence evaluation, audit reports, ethics and legal liability.
Prerequisite: ACG 4111 and ACG 4341 with minimum grades of C and AC classification.

ACG 4931 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.

ACG 4941 Supervised Accounting Internship 2-4 Credits
Grading Scheme: S/U
Applied work in professional accounting. Requires several papers and reports. (S-U)
Prerequisite: advanced permission of accounting internship coordinator.

ACG 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
The thesis must be submitted to the Fisher School no later than the published deadline and includes an abstract. (S-U)
Prerequisite: Minimum 3.6 overall and a minimum 3.6 accounting GPA is required to earn the magna cum laude distinction. Minimum 3.8 overall and a minimum 3.8 accounting GPA is required to earn the summa cum laude distinction.

TAX 4001 Introduction to Federal Income Tax 3 Credits
Grading Scheme: Letter Grade
Introduces federal income taxation to those who pursue careers in accounting; develops a basic understanding of the federal income tax laws relating to businesses and provides a framework for integrating income tax planning into the business decision-making process.
Prerequisite: ACG 4111 and ACG 4341 with minimum grades of C and Accounting major.

TAX 4930 Special Topics in Taxation 1-4 Credits
Grading Scheme: Letter Grade
Course provides an opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.
Prerequisite: Permission of school.

Advertising
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Curriculum
• Advertising
• Advertising | Persuasive Messaging UF Online
• Combination Degrees

Courses
ADV 2104C Advertising Writing 3 Credits
Grading Scheme: Letter Grade
Instruction and practice in writing for advertising. Emphasis on various types of writing in the field including creative briefs, copy and headlines.
Prerequisite: ENC 1102 and Journalism and Communications major.
ADV 3001 Advertising Strategy 3 Credits
Grading Scheme: Letter Grade
Overview of the strategic planning process required to develop a successful strategic, persuasive communication plan such as an advertising, integrated marketing communications, or social marketing campaign. Case studies and projects teach the skills needed to address a variety of communications management issues and engage audiences in diverse marketplaces.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and ADV major.

ADV 3008 Principles of Advertising 3 Credits
Grading Scheme: Letter Grade
Overview of the concepts, strategies, and tactics of modern advertising. Explores the role of advertising in society, culture, and economics, as well as the industry and its key organizations. Introduces specific practices used to develop, place, and evaluate both traditional and digital ads.
Prerequisite: sophomore standing or higher.

ADV 3303 Cross Media Selling 3 Credits
Grading Scheme: Letter Grade
Explore traditional and digital media landscapes as well as the fundamental ways to create client-centered, holistic solutions using cross media platform selling. This course will deep dive into real-life examples and scenarios as well as give students hands-on experience with this type of selling.
Prerequisite: ADV 3008 and MAR 3023 with minimum grades of C.

ADV 3310 Digital Media Sales 3 Credits
Grading Scheme: Letter Grade
Provides a solid understanding of digital media sales and the digital environment. Student will be able to identify explain key concepts related to sales efforts in digital and social media, implement digital and social media sales efforts, and justify integrated efforts with research, measurements and trends.
Prerequisite: ADV 3008 and MAR 3023 with minimum grades of C.

ADV 3403 Branding 3 Credits
Grading Scheme: Letter Grade
Principles of branding and brand strategy; learn to think creatively and critically about strategies and tactics applied to build and manage brands with insight into diverse audiences.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C.

ADV 3411 Multicultural Advertising in the U.S. 3 Credits
Grading Scheme: Letter Grade
A study of multicultural communities and the process of developing advertising, promotional, and media communication tactics. This course will explore the methods of utilizing insights, research, and audience segmentation for developing and evaluating campaign development, while understanding the social, psychological, and cultural framework of diverse audiences.
Prerequisite: ADV 3008 with a minimum grade of C and MAR 3023 with a minimum grade of C.

ADV 3420 Health Communication 3 Credits
Grading Scheme: Letter Grade
Overview of health communication in research, industry, and practice. Explore and better understand the role communication plays in health care delivery, health promotion, disease prevention, environmental and risk communication, media and mass communication, and technology.
Prerequisite: junior standing or higher.

ADV 3500 Digital Insights 3 Credits
Grading Scheme: Letter Grade
Acquiring, evaluating, and analyzing information for advertising decisions. Emphasizes understanding the scientific method, developing explicit and measurable research objectives, selecting appropriate methodologies, and analyzing data.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and ADV major.

ADV 3502 Advertising Sales 3 Credits
Grading Scheme: Letter Grade
Principles of selling media time and space to advertisers. An overview of sales opportunities and challenges in the various advertising media. How to prepare and deliver effective sales presentations.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and junior standing or higher in ADV.

ADV 3824 Advertising Strategy: Health / Social Influence Approach 3 Credits
Grading Scheme: Letter Grade
Learn the process of advertising and promotional strategy from a health/social marketing approach, which centers on global health issues. Learn to "sell science" and market public health messages to help change the world.
Prerequisite: (MAR 3023 and ADV 3008 with minimum grades of C) and ADV major.

ADV 3920C Professional Workshop in Advertising 1-3 Credits
Grading Scheme: Letter Grade
Short-term intensive workshops in selected areas of professional development, skills, and projects. Workshops taught by professionals and often occur over three-day weekend periods. Topics change from semester to semester, with a focus on industry skills and subjects learned best from within a professional context.
Prerequisite: ADV 3008 with a minimum grade of C.

ADV 3943 The Agency Immersion 0-3 Credits
Grading Scheme: Letter Grade
The Agency is an innovative, real-world advertising and public relations firm at the UF that offers students an opportunity to build their expertise and gain experience in a hands-on environment, working directly with clients and industry professionals. Real-world work in a diverse and inclusive team environment will help you gain relevant experience, hone your skills through through client feedback, gain industry access and perspective, and build a robust résumé and portfolio.
Prerequisite: ADV major and sophomore standing.

ADV 4101 Copywriting and Visualization 3 Credits
Grading Scheme: Letter Grade
Application of creative strategy/concepts, copywriting and design to the creation of advertising for traditional and nontraditional media. To evaluate and present creative work, create ads for multicultural audiences.
Prerequisite: Junior College of Journalism and Communications student; minimum grades of C or better in ENC 3252, ADV 3001 and VIC 3001.
Corequisite: ADV 3500.

ADV 4102 Advanced Copywriting 3 Credits
Grading Scheme: Letter Grade
Advanced course in the application of creative strategy for print and electronic media requiring preparation of advertisements. Emphasis placed on research, planning, development of creative concepts, writing and design.
Prerequisite: 4JM ADV, minimum grade of B in ADV 4101.
ADV 4200 Advertising Graphics and Production 3 Credits
Grading Scheme: Letter Grade
Designed to acquaint students with print production techniques. Emphasis is placed on techniques related to the advertising business. Lectures review specific uses of design, typography and print production with lab sessions dedicated to practicing layout and production techniques.
Prerequisite: 3JM ADV; minimum grades of C in ADV 3008 and VIC 3001.

ADV 4300 Media Planning 3 Credits
Grading Scheme: Letter Grade
Provides an in-depth overview of the media planning process. Emphasizes the value of various media channels and evaluation methods to design innovative and integrated media strategies to reach and engage diverse audiences.
Prerequisite: 3JM ADV; minimum grades of C in ADV 3001 and ADV 3500.

ADV 4302 Great Ideas in Marketplace Communications 3 Credits
Grading Scheme: Letter Grade
Focuses on two aspects of strategic communications. First: creating, developing and producing advertising and promotional content for real live case studies. Second: evaluating topical issues and industry innovation in media content innovation.
Prerequisite: ADV 3008 and ENC 3254 and junior standing or higher in ADV.

ADV 4400 International and Cross Cultural Advertising 3 Credits
Grading Scheme: Letter Grade
Major concepts and issues in international and cross cultural advertising campaign planning including primary and secondary research to assess environmental situations, setting objectives, budgeting, media, creative, ethics and social responsibility.
Prerequisite: ADV 3008 with a minimum grade of C.

ADV 4800 Advertising Campaigns 3 Credits
Grading Scheme: Letter Grade
An advanced advertising course requiring the student to prepare and produce a complete general advertising campaign. Emphasis is placed on production methods, costs, research and media analysis.
Prerequisite: 4JM ADV; minimum grades of C or better in ADV 4101 and ADV 4300.

ADV 4801 Creative Advertising Competitions 1-3 Credits
Grading Scheme: Letter Grade
Create either a competitive creative campaign for a real-world client or participate in a creative advertising competition. Hone creative skills and learn to prepare professional pitches or presentations.
Prerequisite: ENC 3254

ADV 4905 Individual Problems 1-3 Credits
Grading Scheme: Letter Grade
The student and instructor will choose a problem or project which provides the student experience in his or her major field.
Prerequisite: 3JM ADV; at least 10 credits of 3000/4000-level advertising courses and department permission.

ADV 4910 Advertising Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Mentored but self-directed work enables individuals or small groups to explore an issue of interest to them and to communicate their results to others. Depending on the topic, projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: ADV 3500 with a minimum grade of C.

ADV 4930 Special Study in Advertising 2-3 Credits
Grading Scheme: Letter Grade
Variable advertising-related topics not covered in other advertising courses.
Prerequisite: 3JM ADV.

ADV 4931 Seminar: Ethics and Problems in Advertising 3 Credits
Grading Scheme: Letter Grade
Major concepts and issues in the effects of advertising on society, culture, and the economy with emphasis on ethical systems and ethical decision making.
Prerequisite: 3JM ADV; minimum grade of C in MMC 3203

ADV 4940 Advertising Internship 1-4 Credits
Grading Scheme: S/U
Complete an internship in advertising or related field with supervised on-the-job training. Requires 65 hours of work per credit, weekly progress reports, a summary report, and a supervisor’s evaluation.
Prerequisite: ADV major; 2.50 minimum professional GPA; minimum grades of C in ADV 3008 and MAR 3023; one completed advertising-related course as needed; and department permission.

ADV 4941 Advanced Advertising Internship 1-3 Credits
Grading Scheme: Letter Grade
A structured internship program that is approved by the department as an immersion experience related to the field of advertising. Requires 65 hours of work per credit hour and submission of electronic portfolio including a culminating project from the internship.
Prerequisite: 4JM ADV; 2.50 minimum professional GPA; minimum grades of C in ADV 3008, MAR 3023 and ENC 3254; and department permission.

COM 3251C STEM Research and Application 3 Credits
Grading Scheme: Letter Grade
This course provides an immersive experience to understand fundamental aspects of translational health communication research. Students will learn through structured readings, class discussions and applications, and guest lectures. Special attention will be paid to communicating your health/science research to diverse audiences.
Prerequisite: Junior level standing.

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major; 2JM, or 3JM classification, or instructor approval.

MMC 2100 Writing for Mass Communication 3 Credits
Grading Scheme: Letter Grade
A preprofessional course designed to provide fundamental instruction and practice in writing as a basis for upper-division courses in advertising, journalism and public relations. Stresses the basic similarities in writing for all mass media. (WR)
Prerequisite: Journalism and Communications major and 6 credits of English.
Attributes: Satisfies 6000 Words of Writing Requirement

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.
MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: Journalism and Communications major of junior standing or higher.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: Journalism and Communications major of sophomore standing or higher and (ADV 3008 or MMC 1009 or MMC 2604 or PUR 3000 or RTV 3001 with minimum grade of C).

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans, and study social media strategies.
Prerequisite: sophomore standing or higher.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: junior standing or higher.

VIC 3001 Sight, Sound and Motion 4 Credits
Grading Scheme: Letter Grade
Visual literacy is a prerequisite for success in most areas of mass communication. Teaches fundamentals of design across print, web, and multimedia platforms. Also emphasizes how visual forms convey messages to readers.
Prerequisite: sophomore standing.

Curriculum
• African Studies Minor

Courses

AFS 2002 The African Experience: An Introduction to African Studies 3 Credits
Grading Scheme: Letter Grade
Introductory study of African society and culture that examines the richness, diversity, and time-depth of African civilizations. (S and N)
Attributes: General Education - International, General Education - Social Science

AFS 3300 Poverty and Development in Africa 3 Credits
Grading Scheme: Letter Grade
Contemporary study of development issues in Africa, their challenges and possible solutions; theme based and includes economic development, agriculture and the environment, social issues and gender equality, and democracy and political development.

AFS 3352 Culture, Health and Arts in Sub-Saharan Africa 3 Credits
Grading Scheme: Letter Grade
Explores Sub-Saharan African cultures, health issues and belief systems related to health and the arts. Also provides a framework to better understand health and health care systems in other cultures.

AFS 3500 History of Islam in Africa 3 Credits
Grading Scheme: Letter Grade
Introduces the role of Islam in African history, with particular attention to the religion’s place in economic and political systems.

AFS 3800 Culture, Health and Arts in Sub-Saharan Africa 3 Credits
Grading Scheme: Letter Grade
Explores African conceptions of childhood through the mediums of literature and film; examines how childhood is represented in diverse African cultures.

AFS 3930 Special Topics in African Studies 3 Credits
Grading Scheme: Letter Grade
Selected variable topics in African Studies.

AFS 4240 The African Family 3 Credits
Grading Scheme: Letter Grade
Examines lives of Africans and formation of African communities in contemporary Western settings. Also addresses the relationship between Africans in the contemporary Diaspora and their home communities in Africa.

AFS 4315 Critical Issues in Contemporary Africa 3 Credits
Grading Scheme: Letter Grade
Upper-division seminar that discusses perspectives on conflict resolution, corruption, economic development, environmental management, food security, governance, international assistance and public health in contemporary Africa. In addition, enhances skills in analysis, discussion and debate.

AFS 4330 Women and Politics in Africa 3 Credits
Grading Scheme: Letter Grade
Introduces historical and contemporary roles of women in African political systems, from local to national governance.
AFS 4335 Women in Africa 3 Credits
Grading Scheme: Letter Grade
Explores issues of gender, development and culture through memoirs, ethnographies, narratives and films about women in Africa.
Prerequisite: junior or senior standing.

AFS 4340 Community Conservation and Rural Development in Africa 3 Credits
Grading Scheme: Letter Grade
Examines the practicalities and theoretical foundations of community conservation in Africa, with particular attention to the relationship between conservation and rural development issues. Main themes include property rights, governance and local-global relations.

AFS 4345 Political Economy of Conservation in Africa 3 Credits
Grading Scheme: Letter Grade
Analyzes effectiveness of diverse approaches to natural resource preservation and uses. Case studies are primarily from southern and eastern Africa and readings focus on political and economic aspects of conservation strategies.

AFS 4350 HIV / AIDS in Africa 3 Credits
Grading Scheme: Letter Grade
Utilizes the social science literature on AIDS in Africa to explore the social, economic and broad cultural impacts of the epidemic.

AFS 4365 Urban Africa Today 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary seminar incorporates scholarship from anthropology, geography, history, political science, sociology, and urban planning to understand African cities, their rapid growth, and their future development.
Prerequisite: junior standing or 6 credits minimum from AFS 2002 or AFS 3300 or AFS 4260 or AFS 4315 or AFS 4330 or AFS 4350 or AFS 4935.

AFS 4905 Individual Work 1-9 Credits
Grading Scheme: Letter Grade
Individual study and research for topics not covered in other courses.

AFS 4911 Undergraduate Research in African Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

AFS 4935 African Studies Interdisciplinary Seminar 3 Credits
Grading Scheme: Letter Grade
Seminar on a selected interdisciplinary theme.
Prerequisite: junior or senior standing, or instructor permission.

AFS 4940 African Studies Internship 1-3 Credits
Grading Scheme: S/U
Complements an Africa-related internship experience through guided reflection, critical analysis, synthesis, and discussion.
Prerequisite: junior standing or higher and undergraduate coordinator approval.

African-American Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information
The African American Studies program is one of the fastest growing majors at UF. The degree program provides students with a variety of innovative courses by applying creative cultural methods of teaching while examining the African American experience.

Curriculum
• African-American Studies
• African-American Studies Minor

Courses
AFA 2000 Introduction to African-American Studies 3 Credits
Grading Scheme: Letter Grade
An integrated interdisciplinary exploration of selected themes and representative materials in the African-American experience in North America, emphasizing continuity and change. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AFA 3110 Key Issues in African-American and Black-Atlantic Thought 3 Credits
Grading Scheme: Letter Grade
The leading voices of resistance and social change that have influenced African-American intellectual history, black public consciousness, political action and social theory. (H and D) (WR).
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AFA 3240 The African Diaspora 3 Credits
Grading Scheme: Letter Grade
Overview of transnational fields of cultural contact, power and competing economic interests in which the African Diaspora developed. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

AFA 3303 The Wire 3 Credits
Grading Scheme: Letter Grade
Critically examine various themes presented in the television show, The Wire. Major topics include the illegal drug trade, race and ethnicity, sexuality, public policy and politics, K-12 education, and the news media.
Prerequisite: AFA 2000.
Attributes: General Education - Diversity, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

AFA 3332 Black Feminist and Womanist Theory 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary survey of African-American and Afro-descendant women's contributions to feminist theory. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement
AFA 3333 Black Power Movement 3 Credits  
Grading Scheme: Letter Grade  
An examination of the Black Power Movement, including major themes, roots in previous black organizing, associated groups and figures, and its influence on present society and activism.  
Prerequisite: AFA 2000.  
AFA 3350 Black Masculinity 3 Credits  
Grading Scheme: Letter Grade  
Integrated interdisciplinary exploration of selected themes and resources that represent the Black Masculine experience in North America, emphasizing continuity and change. (C, H, D, and E6)  
Prerequisite: AFA 2000  
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 6000 Words of Writing Requirement  
AFA 3354 Race, Religion and Rebellion 3 Credits  
Grading Scheme: Letter Grade  
Examination of the interplay of religion, race and rebellion in the organization and execution of the various revolts, insurrections and social movements of black people in the U.S. from the slavery period through the Civil Rights and Black Power Eras.  
Prerequisite: AFA 2000  
AFA 3356 African American Religion 3 Credits  
Grading Scheme: Letter Grade  
Explores the African American religious experience from the beginning of the African sojourn here in North America until the present.  
Prerequisite: AFA 2000  
AFA 3357 Civil Rights and Religion 3 Credits  
Grading Scheme: Letter Grade  
Examination of the role of religion in the African American Civil Rights Movement from the 1950s through the 1980s.  
Prerequisite: AFA 2000.  
AFA 3360 Archaeology of African-American Life and Culture 3 Credits  
Grading Scheme: Letter Grade  
Historical overview of African-American archaeology, including important cases, key figures, major issues and development of the field. (S) (WR)  
Attributes: General Education - Social Science, Satisfies 2000 Words of Writing Requirement  
AFA 3363 The Black Experience: Psychological Perspectives 3 Credits  
Grading Scheme: Letter Grade  
An interdisciplinary course examining themes, premises and theories presented by major psychological theorists in their depictions and accounts of the behavior of Black people in America; the growth of Black psychology. (S and D) (WR)  
Prerequisite: AFA 2000.  
Attributes: General Education - Diversity, General Education - Social Science, Satisfies 6000 Words of Writing Requirement  
AFA 3371 History of Hip Hop 3 Credits  
Grading Scheme: Letter Grade  
Examines the blossoming of Hip Hop as a musical genre and as a cultural and political youth movement from the 1970s to the present, extending from its origins in New York city to the rest of the nation and the world.  
Prerequisite: AFA 2000.  
AFA 3850 Research Methods in African-American History 3 Credits  
Grading Scheme: Letter Grade  
Research methods in African-American history. (H and N OR S and N)  
Prerequisite: AFA 2000 or instructor permission.  
Attributes: General Education - Humanities, General Education - International, General Education - Social Science  
AFA 3915C Mentoring At-Risk Youth 3 Credits  
Grading Scheme: Letter Grade  
A community service-learning course that develops mentoring and critical-thinking skills through instruction, analysis and service. (S and N) (WR)  
Prerequisite: AFA 2000 or instructor permission.  
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement  
AFA 3930 Special Topics in African-American Studies 3 Credits  
Grading Scheme: Letter Grade  
Lectures and seminars covering selected topics of current interests in African-American studies.  
Prerequisite: junior or senior standing, or instructor permission.  
AFA 4135 Theories of Black America 3 Credits  
Grading Scheme: Letter Grade  
A multi-disciplinary examination of some of the important theories and concepts used to explain Black social, political and cultural behavior in the United States for the past 150 years.  
Prerequisite: AFA 2000.  
Attributes: General Education - Diversity, General Education - Social Science  
AFA 4225 Blacks in Florida 3 Credits  
Grading Scheme: Letter Grade  
Addresses the history and themes of Blacks in Florida between 1492 and 1975.  
Prerequisite: AFA 2000 or instructor permission.  
AFA 4352 Black Hair Politics 3 Credits  
Grading Scheme: Letter Grade  
Provides a comprehensive interdisciplinary examination of the history, sociology, psychology and economics of Black hair. Students will explore the textures, styles and meanings of Black hair as they relate to identity and power in society.  
Prerequisite: AFA 2000.  
AFA 4430 Black Lives Matter 3 Credits  
Grading Scheme: Letter Grade  
Examination of the particular historical, geographical, cultural, social, and political ways in which race was, and continues to be configured and deployed in the United States.  
Prerequisite: AFA 2000.  
AFA 4905 Individual Study 1-5 Credits  
Grading Scheme: Letter Grade  
Directed individual reading or research on topics in African-American studies.  
Prerequisite: director permission.  
AFA 4931 Special Topics 3 Credits  
Grading Scheme: Letter Grade  
Selected topics in African-American studies.  
Prerequisite: AFA 2000.  
AFA 4936 African-American Studies Senior Integrative Seminar 3 Credits  
Grading Scheme: Letter Grade  
Examination of bibliographic resources and analysis of theory, method and special problems in the field of African-American studies.  
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement
Courses

**ABE 2012C Introduction to Biological Engineering 3 Credits**
Grading Scheme: Letter Grade
Introduces the process of design along with approaches to solving engineering problems, manipulations and presentations of engineering data and applied engineering concepts. (WR)
Prerequisite: MAC 2311.
Attributes: Satisfies 2000 Words of Writing Requirement

**ABE 2062 Biology for Engineers 3 Credits**
Grading Scheme: Letter Grade
Principles and engineering applications of biology. Principles and applications of biochemistry, genetics, microbial systems, animal systems, ecological systems and global systems. (B) (WR)
Attributes: General Education - Biological Science, Satisfies 6000 Words of Writing Requirement

**ABE 3000C Applications in Biological Engineering 3 Credits**
Grading Scheme: Letter Grade
Overview of the research and applications of biological engineering, such as bioprocessing, biotechnology, transport processes, biosensors, bioremediation, biological materials and biomedicine.
Prerequisite: BSC 2010 or equivalent.

**ABE 3212C Land and Water Resources Engineering 4 Credits**
Grading Scheme: Letter Grade
Introduces hydrology, flow through porous media, flood routing, grade control structures and erosion control.
Prerequisite: ENV 3040C and MAP 2302.
Corequisite: CWR 3201 or EGN 3353C.

**ABE 3612C Heat and Mass Transfer in Biological Systems 4 Credits**
Grading Scheme: Letter Grade
Transport phenomena, steady and unsteady-state heat conduction, radiation, free and forced convection, mass transfer, psychometrics and thermodynamics of biological processes.
Corequisite: ENV 3040C or CGN 3421 or ESI 4327C or (COP 2271 and COP 2271L).

**ABE 3652C Physical and Rheological Properties of Biological Materials 3 Credits**
Grading Scheme: Letter Grade
Theory and use of physical and rheological properties of biological materials in agricultural engineering applications.
Prerequisite: CHM 2045 and MAC 2313 and PHY 2048.

**ABE 4008 Control Methods in SmartAg Systems 3 Credits**
Grading Scheme: Letter Grade
Design, analysis, simulation, and programming modern control methods for applications in production agriculture, biological and food engineering, land and water resources. Learn theoretical concepts, application programming, and simulation techniques using classical and modern control approaches, fuzzy logic, neural networks, and other intelligent learning algorithms.
Prerequisite: MAP 2302 and PHY 2048;
Corequisite: EGM 3400.

**ABE 4033 Fundamentals and Applications of Biosensors 3 Credits**
Grading Scheme: Letter Grade
Provides a broad introduction to the field of biosensors, as well as an in-depth and quantitative view of biosensor design and performance analysis. Fundamental application of biosensor theory will be demonstrated, including: recognition, transduction, signal acquisition, and post processing/data analysis.
Prerequisite: MAP 2302 and BSC 2100 and CHM 2200.
ABE 4034 Remote Sensing in Engineering: Science, Sensors and Applications 3 Credits  
Grading Scheme: Letter Grade  
Develop an understanding of remote sensing theory, systems and applications using information obtained from the visible/near infrared, thermal infrared and microwave regions of the EM spectrum.  
Prerequisite: MAP 2302 or the equivalent.

ABE 4042C Biological Engineering Design 1 2 Credits  
Grading Scheme: Letter Grade  
Design of engineered agricultural and biological systems and devices. Problem definition analysis, synthesis, project management, economic, environmental and social impacts. Individual and team projects.

ABE 4043C Biological Engineering Design 2 2 Credits  
Grading Scheme: Letter Grade  
Senior capstone design project.  
Prerequisite: senior standing (4EG), ABE 4042C and two courses in area of specialization.

ABE 4171 Power and Machines for Biological Systems 3 Credits  
Grading Scheme: Letter Grade  
Design and specification of power and machine elements applied to agricultural, biological and land and water resources or food engineering; fundamentals of power units, design of machine elements and power transmission.  
Prerequisite: EGM 3520 and (EGM 3400 or EGM 3401).

ABE 4231C Irrigation and Drainage Engineering 4 Credits  
Grading Scheme: Letter Grade  
Irrigation and drainage systems design, including pump sizing and specification, water distribution systems, plant water requirement, drainage systems and flood control.  
Prerequisite: ABE 3212C.

ABE 4413C Post-Harvest Operations Engineering 3 Credits  
Grading Scheme: Letter Grade  
Engineering principles and practices of post-harvest operations for the maintenance of quality of agricultural products. Design of systems and facilities.  
Prerequisite: ABE 3612C.

ABE 4614 Modeling Coupled Natural-Human Systems 3 Credits  
Grading Scheme: Letter Grade  
Explore approaches to modeling coupled natural-human systems, drawing from both natural and social sciences. Topics include regime shift from dynamical systems and basic concepts from game theory and social-ecological system literature. These are combined in models that operationalize a conceptual framework. With guidance, develop models for final projects.  
Prerequisite: MAC 2312 or equivalent.

ABE 4655C Bio-Based Products from Renewable Resources 3 Credits  
Grading Scheme: Letter Grade  
Provides the knowledge for the production of fuels, chemicals, and materials from renewable resources; includes the fundamental principles and practical applications of bio-based products: biorefinery and biobased products overview, fundamental concepts in understanding biorefinery and biobased products; materials, chemical platforms, and fuels from biomass.  
Prerequisite: (CHM 2045 or CHM 2095) and (CHM 2046 or CHM 2096) or equivalent general chemistry courses or instructor permission.

ABE 4662 Quantification of Biological Processes 3 Credits  
Grading Scheme: Letter Grade  
Quantitative description and analysis of biological processes pertaining to microbes, plants, animals and ecosystems. Biological transport phenomena, bioenergetics, enzyme kinetics, metabolism, bioregulation, circulatory and muscle systems, agroecosystems. Analytical and experimental laboratory for development of quantitative skills.  
Prerequisite: (ABE 2062 or BSC 2010) and (EGN 3353C or CWR 3201).

ABE 4812 Food and Bioprocess Engineering Unit Operations 4 Credits  
Grading Scheme: Letter Grade  
Analysis of thermal freezing, evaporation, dehydration, contact equilibrium and mechanical separation processes as governed by the reaction kinetics and rheology of processed foods.  
Prerequisite: ABE 3612C or CWR 3201 or EGN 3353C.

ABE 4905 Individual Study in Biological Engineering 1-4 Credits  
Grading Scheme: Letter Grade  
Selected problems of projects in the student's major field of engineering study.  
Prerequisite: recommendation of department chair.

ABE 4912 Integrated Product and Processing Design 1 in Biological Engineering 3 Credits  
Grading Scheme: Letter Grade  
First part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes on time and within budget.

ABE 4913 Integrated Product and Process Design 2 in Biological Engineering 3 Credits  
Grading Scheme: Letter Grade  
Second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes on time and within budget.  
Prerequisite: ABE 4912.

ABE 4931 Professional Issues in Agricultural and Biological Engineering 1 Credit  
Grading Scheme: Letter Grade  
Current developments in agricultural and biological engineering, principles of agricultural and biological engineering practice and professional standards and ethics.

ABE 4932 Special Topics 1-4 Credits  
Grading Scheme: Letter Grade  
Variable subjects provide content for the study of agricultural engineering topics not offered in other courses.  
Prerequisite: instructor permission.

ABE 4935 Writing Grant Proposals for Scholarships and Fellowships 2 Credits  
Grading Scheme: Letter Grade  
Introduces seniors in the Agricultural and Biological Engineering department to opportunities for obtaining scholarships, fellowships, internships, and teaching/research assistantships from federal funding agencies; includes funding sources and opportunities, provide guidelines for proposal writing. Requires preparing a proposal.  
Prerequisite: Senior standing, must be pursuing a degree within the Agricultural and Biological Engineering department, and instructor permission.
Agricultural and Life Sciences | General

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

**ALS 2410 Challenge 2050: Global Uncertainty 3 Credits**
*Grading Scheme*: Letter Grade
Explores questions in human well-being and sustainability building a foundation for addressing global challenges associated with global population. Transdisciplinary experts lead diverse and innovative discussions, complex adaptive problem solving; and the integration of economic, environmental, food, health, and social system perspectives.
*Prerequisite*: arrange with advisor and department permission.

**ALS 2931 Agricultural Honors 1-4 Credits**
*Grading Scheme*: Letter Grade
Various courses offered. (WR)
*Prerequisite*: refer to the department.
*Attributes*: Satisfies 6000 Words of Writing Requirement

**ALS 3030C Urban Agriculture 3 Credits**
*Grading Scheme*: Letter Grade
Work with faculty and guest field experts to explore the concepts, issues, and opportunities for urban agricultural sustainability, and on the development and implementation of demonstrations of community urban agricultural projects. Culminates in a group presentation for campus and community stakeholders.
*Prerequisite*: sophomore standing or higher.

**ALS 3133 Agricultural and Environmental Quality 3 Credits**
*Grading Scheme*: Letter Grade
Analysis of effects of agriculture on environmental quality; emphasis on agricultural wastes and practices; potential for using agricultural systems for disposal of other wastes; effects of pollution on the agricultural environment. (P)
*Attributes*: General Education - Physical Science

**ALS 3153 Agricultural Ecology 3 Credits**
*Grading Scheme*: Letter Grade
Introduces the study of ecology from an agricultural perspective. Emphasizes ecological principles with examples and applications from agriculture.

**ALS 3415 Challenge 2050: Developing Tools for Changing the World 3 Credits**
*Grading Scheme*: Letter Grade
The global population is projected to exceed 9 billion by the year 2050. Challenge 2050 requires innovative development of transdisciplinary solutions to complex, global issues. This course explores individual and team-based skills, competencies, and dispositions necessary to addressing the complex adaptive issues surrounding the challenge.
*Prerequisite*: ALS 2410.

**ALS 3923 Honors Orientation 1 Credit**
*Grading Scheme*: Letter Grade
Introduces the CALS honors program and develop the skills needed to complete a creative, scholarly project and an honors thesis. A variety of guest speakers, in-class and outside activities, discussion, writing and oral presentation are used to accomplish the learning objectives.
*Prerequisite*: must be enrolled in CALS upper-division honors program.

**ALS 3940 Challenge 2050: the Experience 3 Credits**
*Grading Scheme*: Letter Grade
Emphasizes trust building, accompaniment, and community development experiences within developing global contexts. Uses immersion experience to gain an understanding for concerns relating to population fluctuation, including issues related to economics, environment, food, health, and social systems. International immersion facilitates applying sustainable practices in developing areas.
*Prerequisite*: ALS 2410.

**ALS 4404 International Studies 1-15 Credits**
*Grading Scheme*: Letter Grade
Supervised study abroad.
*Prerequisite*: sophomore standing and minimum 18 years old.

**ALS 4419 Challenge 2050: Creating Solutions 1 Credit**
*Grading Scheme*: Letter Grade
Through this capstone experience course, students demonstrate and apply knowledge, skills, and dispositions in assigned transdisciplinary teams. Students complete a comprehensive proposal for a developmental initiative focused on addressing the 2050 Challenge of sustaining a global population.
*Prerequisite*: ALS 2410.

**ALS 4900 Supervised Extension Experience in Agricultural and Life Sciences 0-3 Credits**
*Grading Scheme*: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**ALS 4905 Individual Study in Agricultural and Life Sciences 1-3 Credits**
*Grading Scheme*: Letter Grade
Individual study in agricultural and life sciences.
*Prerequisite*: permission of dean and instructor.

**ALS 4911 Supervised Research in Agricultural and Life Sciences 0-3 Credits**
*Grading Scheme*: S/U
Firsthand, authentic research in agricultural and life sciences under faculty supervision. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
ALS 4915 Honors Thesis Research in Agricultural and Life Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in agricultural and life sciences leading to an honors thesis. Student are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.

ALS 4936 CALS Leadership Institute Seminar 1 2 Credits
Grading Scheme: Letter Grade
Discussion-based seminar provides an introduction to leadership studies and personal leadership development. Exploration of personal leadership characteristics through various assessments and the development of a personal leadership development plan.
Prerequisite: admission to the CALS Leadership Institute Program.

ALS 4937 CALS Leadership Institute Seminar 2 2 Credits
Grading Scheme: Letter Grade
Discussion-based seminar provides an introduction to group and organizational leadership in local and global contexts. Personal assessment of strengths and further application of developed personal leadership plan to a global vision are included.
Prerequisite: ALS 4936.

ALS 4938 CALS Leadership Institute International Service and Learning Experience 2 Credits
Grading Scheme: Letter Grade
This seminar focuses on an international service and learning experience as a context for application of course content previously covered in the program. A compilation of documentation supporting leadership growth and reflection serve as closure to leadership institute.
Prerequisite: ALS 4936.

ALS 4941 Full-time Practical Work Experience in Agriculture 1-4 Credits
Grading Scheme: S/U
Variable subjects provide content for the study of agricultural topics not offered in other courses. (S-U)
Prerequisite: prior arrangement with advisor and dean's office.

ALS 4950 Challenge 2050: Taking Action 2-6 Credits
Grading Scheme: Letter Grade
Through supervised practical training, in conjunction with academic assignments at professional organizations, the Taking Action internship provides the opportunity to professionally examine and engage the global challenges associated with Challenge 2050.
Prerequisite: maintain GPA of 3.0, must be in good standing and must have completed the Challenge 2050 Global Challenge certificate with 3.0 average.

MCB 4782 Extremophiles 3 Credits
Grading Scheme: Letter Grade
The evolution, physiology, biochemistry, and molecular biology of extremophiles with emphasis on archaea and their viruses. Discuss principles of energy metabolism at the limits of life. Highlights research that incorporates cutting-edge techniques and biotechnology applications for using extremophiles to solve real world problems.
Prerequisite: CHM 2211 and ((MCB 3020 and MCB 3020L) or (MCB 3023 and MCB 3023L)).

Agricultural Education and Communication
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information
The UF/IFAS Department of Agricultural Education and Communication is a group of faculty, staff and students committed to connecting people with agriculture through agricultural communication, education, leadership development and Extension education.

Map (http://campusmap.ufl.edu/#/index/0012)

Curriculum
- Agricultural and Natural Resource Communication Minor
- Agricultural Curriculum and Development Minor
- Agricultural Education and Communication
- Combination Degrees
- Extension Education Minor
- Leadership Minor

Courses
AEC 3030C Effective Oral Communication 3 Credits
Grading Scheme: Letter Grade
Strategies and techniques for effective presentations in the food, agricultural and natural resource professions. Emphasis on oral and visual techniques for formal and informal situations including leadership and group settings.

AEC 3033C Research and Business Writing in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Establishes the importance of effective communication to success in both the educational and professional environments; emphasizes writing as a primary form of communication; examines the elements of effective written communication in organizational and scholarly areas; and explores the causes of ineffective writing and ways to correct them. (WR)
Prerequisite: Junior or senior standing.
Attributes: Satisfies 6000 Words of Writing Requirement
AEC 3065 Issues in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Methods used to effectively communicate, inform, and influence policy decisions about agricultural and life sciences issues.
Prerequisite: Sophomore standing or higher.

AEC 3070C Digital Media Production in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Introduces the history and incorporation of electronic media used in agricultural and natural resources sciences. Hands-on learning of electronic media technology as it relates to agriculture is emphasized.

AEC 3071 Social Media Strategy and Leadership for Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Learn how, when, and why to use various social media tools. Also learn to measure the effectiveness of these tools in reaching audiences with agricultural and life science messages.
Prerequisite: Sophomore standing or higher.

AEC 3073 Intercultural Communication 3 Credits
Grading Scheme: Letter Grade
Basic culturally coded communication behaviors, such as cultural values and beliefs, attitudes and verbal and non-verbal behavior, are examined to identify basic differences among individuals from diverse cultural backgrounds. Special emphasis on cultural communication issues in the agricultural and natural resources sciences are addressed. (S and N OR S and D)
Attributes: General Education - Diversity, General Education - International, General Education - Social Science

AEC 3209 Instructional and Event Planning in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Instructional methodology that focuses on the selection and use of innovative teaching, presentation, meeting planning and evaluation strategies for teaching agricultural subjects in various educational settings.

AEC 3313 Development and Role of Extension Education 3 Credits
Grading Scheme: Letter Grade
Extension philosophy, programs, methods and leadership principles, and history of federal, state and local leadership in the development of the cooperative extension service.

AEC 3322 Moral Leadership in Agriculture and Natural Resources 3 Credits
Grading Scheme: Letter Grade
Explores ethical and moral foundations for organizational and personal practice within the context of agriculture, natural resources, and beyond; gain a greater understanding for the intersection between morality and ethics, effective decision-making, and applied organizational ethics.
Prerequisite: junior standing or higher.

AEC 3410 Fostering Innovation through Leadership 3 Credits
Grading Scheme: Letter Grade
By studying key leadership theories and models students will develop the basic skills and knowledge necessary to move an innovation from creation to implementation. Using specifically designed experiences, students will be able to think critically about leadership's direct application to innovation and change.
Corequisite: Enrollment in the Innovation Academy.

AEC 3413 Working with People: Interpersonal Leadership Skills 3 Credits
Grading Scheme: Letter Grade
Identifies and defines leadership in terms of intrapersonal and interpersonal skills.

AEC 3414 Leadership Development 3 Credits
Grading Scheme: Letter Grade
An understanding of the dynamic interactions of personal characteristics, technical skills, interpersonal influence, commitment, goals and power necessary for effective organizational leader and follower behaviors.

AEC 4031 The Communication Process in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Survey of basic communication concepts as they apply to agriculture and natural resource industries. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

AEC 4035 Communication Practices for Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
This course provides students the opportunity to master a variety of writing styles used in corporate and mass media settings. Emphasis is placed on mastery of writing skills. (WR)
Prerequisite: AEC 3070C and (AEC 4031 or JOU 3101) with minimum grades of C.
Attributes: Satisfies 6000 Words of Writing Requirement

AEC 4036 Advanced Agricultural Communication Production 3 Credits
Grading Scheme: Letter Grade
Provides directed experience in the following areas of agricultural communication: video production, graphic design, visual composition, desktop publishing and multimedia development.
Prerequisite: AEC 3070C.

AEC 4052 Communication Campaign Strategies in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Examines the role of communication in agriculture, focusing on strategies and methods for agricultural information transfer.
Prerequisite: AEC 4031 with a minimum grade of C.

AEC 4200 Teaching Methods in Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Focuses on the selection and use of teaching strategies, methods/approaches and techniques; evaluating learning; managing learning environments; and classroom management for teaching agricultural subjects in formal educational settings.

AEC 4202 Curriculum Development and Assessment Techniques in Emerging Agricultural Technologies 3 Credits
Grading Scheme: Letter Grade
Introduces new and emerging areas in food agriculture and natural resource sciences. Emphasizes appropriate teaching techniques, curricula, and resources.
Prerequisite: AEC 4200.

AEC 4224 Special Methods in Teaching Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Emphasizes supervised agricultural experience programs, record keeping, and related FFA awards. Classroom management techniques, discipline and liability issues are also discussed.
Prerequisite: AEC 4200 and AEC 4323.
AEC 4228 Laboratory Practices in Teaching Agricultural Education 3
Credits
Grading Scheme: Letter Grade
Laboratory practices in teaching mechanics and other operative skills, conducting field and laboratory classes and providing space and teaching facilities.
Prerequisite: AEC 4200, AEC 3323 and AOM 3220.

AEC 4323 Development and Philosophy of Agricultural Education 3
Credits
Grading Scheme: Letter Grade
Analyzes evolving concepts and philosophies of agricultural education programs by emphasizing the history, legislation, and principles underlying organization and practice.
Prerequisite: Junior or senior standing.

AEC 4417 Leadership for Personal and Organizational Change 3 Credits
Grading Scheme: Letter Grade
To prepare students for addressing complex personal and organizational issues related to leading change.
Prerequisite: AEC 3414.

AEC 4434 Communication and Leadership in Groups and Teams 3 Credits
Grading Scheme: Letter Grade
Focuses on leadership and communication in groups and teams. Topics include: what makes effective groups and teams, processes of groups and teams, relationships of members, and improving group/team performance.

AEC 4465 Global Leadership 3 Credits
Grading Scheme: Letter Grade
Integrated, practical, and dynamic framework for students to develop global literacy and leadership competencies. (N and S)
Prerequisite: AEC 3413 or AEC 3414.
Attributes: General Education - International, General Education - Social Science

AEC 4500 Program Development and Evaluation 3 Credits
Grading Scheme: Letter Grade
In-depth analysis of the development and evaluation of human and community resource programs based on programming theories, concepts and research. Emphasizes dimensions of responsive communities, determination of community needs and goals.

AEC 4504 Curriculum and Program Planning for Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Principles and practices used in designing courses of instruction for effective teaching and total program development.

AEC 4900 Supervised Extension in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in Agricultural Education and Communication under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

AEC 4911 Supervised Research in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in Agricultural Education and Communication under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

AEC 4915 Honors Thesis Research in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Independent research in Agricultural Education and Communication leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

AEC 4930 Communication and Leadership Development Capstone Experience 1 Credit
Grading Scheme: Letter Grade
Integrates content and skills that communication and leadership development students have learned in their prerequisite courses.
Prerequisite: AEC 4031 and AEC 3070C and AEC 3413 and AEC 3414;
Corequisite: Senior standing.

AEC 4932 Special Topics in Agricultural Education and Communication 1-3 Credits
Grading Scheme: Letter Grade
Special topics in Agricultural Education and Communication.
Prerequisite: Sophomore standing or higher.

AEC 4941 Agricultural Education Internship 1-9 Credits
Grading Scheme: Letter Grade
Practical experience in agricultural training and development through agricultural education organizations, agribusiness and natural resources education, and/or agricultural and outreach programming.
Prerequisite: junior or senior standing; AEC or TCH major.

AEC 4942 Agricultural Education Internship 6-9 Credits
Grading Scheme: Letter Grade
An individual capstone internship within a school-based setting where students observe, participate in, and lead educational instruction, curricula development, assessment of school-based student learning, supervision, and assist in advising a student leadership organization.
Prerequisite: senior standing and successful completion of all three portions of the Florida Teacher Certification Examination (FTCE) - General Knowledge, Professional Education and Agriculture 6-12.

AEC 4943 Leadership Development Internship 2-6 Credits
Grading Scheme: Letter Grade
An individual program whereby students are apprenticed to officials to gain practical experience in agricultural organizations, industry and/or the county extension program.
Prerequisite: 15 credits of communication and leadership courses with no grade below C. Nine credits must include AEC 3070C, AEC 4031, and AEC 3413 or AEC 4434.

AEC 4944 Cooperative Extension Internship 4-6 Credits
Grading Scheme: Letter Grade
The cooperative extension internship provides students the opportunity to develop practical on-the-job supervised experience in cooperative extension, primarily at the county level.
Prerequisite: senior standing, AEC 3313; minimum 2.0 GPA.
AEC 4946 Comm and Lead Dev Internship 2-6 Credits
Grading Scheme: Letter Grade
An individual program whereby students are apprenticed to officials to gain practical experience in agricultural organizations, industry, extension, reporting, writing, editing, photography, graphics, broadcasting, advertising or public relations.
Prerequisite: AEC 3070C with minimum grade of C and AEC 3414 with minimum grade of C, or AEC 4031 with minimum grade of C.

AEC 4948 Agricultural Communication Internship 2-6 Credits
Grading Scheme: Letter Grade
An individual program whereby students gain supervised experience in agricultural communications including reporting, writing, editing, photography, graphics, broadcasting, advertising or public relations.
Prerequisite: 15 credits of communication and leadership courses with no grade below C. Nine credits must include AEC 3070C, AEC 4031, and AEC 4434.

ALS 2410 Challenge 2050: Global Uncertainty 3 Credits
Grading Scheme: Letter Grade
Explores questions in human well-being and sustainability building a foundation for addressing global challenges associated with global population. Transdisciplinary experts lead diverse and innovative discussions, complex adaptive problem solving; and the integration of economic, environmental, food, health, and social system perspectives.
Prerequisite: arrange with advisor and department permission.

ALS 3415 Challenge 2050: Developing Tools for Changing the World 3 Credits
Grading Scheme: Letter Grade
The global population is projected to exceed 9 billion by the year 2050. Challenge 2050 requires innovative development of transdisciplinary solutions to complex, global issues. This course explores individual and team-based skills, competencies, and dispositions necessary to addressing the complex adaptive issues surrounding the challenge.
Prerequisite: ALS 2410.

ALS 3940 Challenge 2050: the Experience 3 Credits
Grading Scheme: Letter Grade
Emphasizes trust building, accompaniment, and community development experiences within developing global contexts. Uses immersion experience to gain an understanding for concerns relating to population fluctuation, including issues related to economics, environment, food, health, and social systems. International immersion facilitates applying sustainable practices in developing areas.
Prerequisite: ALS 2410.

ALS 4419 Challenge 2050: Creating Solutions 1 Credit
Grading Scheme: Letter Grade
Through this capstone experience course, students demonstrate and apply knowledge, skills, and dispositions in assigned transdisciplinary teams. Students complete a comprehensive proposal for a developmental initiative focused on addressing the 2050 Challenge of sustaining a global population.
Prerequisite: ALS 2410.

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.

ALS 4950 Challenge 2050: Taking Action 2-6 Credits
Grading Scheme: Letter Grade
Through supervised practical training, in conjunction with academic assignments at professional organizations, the Taking Action internship provides the opportunity to professionally examine and engage the global challenges associated with Challenge 2050.
Prerequisite: maintain GPA of 3.0, must be in good standing and must have completed the Challenge 2050 Global Challenge certificate with 3.0 average.

PLS 3080 Introduction to Horticultural Therapy 3 Credits
Grading Scheme: Letter Grade
Examine the profession and practice of horticultural therapy including its history, current state, and relevant literature and theories. Explore peopleplant relationships, therapeutic methods and benefits, and populations served, as well as being introduced to existing programs and the role of therapeutic gardens.
Prerequisite: sophomore standing or higher.

Agricultural Operations Management

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

AEB 4085 Agricultural Risk Management and the Law 3 Credits
Grading Scheme: Letter Grade
Develops an understanding of the basic concepts of common and statutory law. Identifies and addresses current legal issues of importance at the personal and professional levels. Develops an understanding of risk and the solutions for managing risk and relates the concepts of risk management and law in limiting exposure to legal liability.

ALS 3133 Agricultural and Environmental Quality 3 Credits
Grading Scheme: Letter Grade
Analysis of effects of agriculture on environmental quality; emphasis on agricultural wastes and practices; potential for using agricultural systems for disposal of other wastes; effects of pollution on the agricultural environment. (P)
Attributes: General Education - Physical Science

AOM 2520 Global Sustainable Energy: Past, Present and Future 3 Credits
Grading Scheme: Letter Grade
Explore the global history of energy sources; investigate new energy sources and analyze international solutions to future needs.

AOM 3220 Agricultural Construction and Maintenance 3 Credits
Grading Scheme: Letter Grade
Selection and use of materials and tools used in planning, constructing and maintaining buildings. Students will participate in class lectures and hands-on laboratory activities to build full-scale projects involving framing, plumbing, electrical, windows, etc. Building codes and building science are combined to provide an introduction to the changing world of construction.
AOM 3333 Pesticide Application Techniques 3 Credits  
Grading Scheme: Letter Grade  
Equipment and methods used to apply pesticides in agriculture. Emphasizes techniques used to avoid misapplication, a common cause of pesticide failures.

AOM 3734 Irrigation Principles and Practices in Florida 3 Credits  
Grading Scheme: Letter Grade  
Irrigation practice related to Florida agriculture. The course deals with irrigation system characteristics, management, maintenance and economics.  
Prerequisite: MAC 1147.

AOM 4060 Agri-food Systems Innovation 3 Credits  
Grading Scheme: Letter Grade  
Explore the role of innovation in food systems from a reverse chain perspective. Gain knowledge of the food system framework from a multilevel (i.e., individual, organizational, etc.) perspective, identify current, innovative business and technological practices, as well as present and think critically about future trends in food.  
Prerequisite: (Any AOM, ABE, or PKG course) or (junior standing or higher).

AOM 4062 Principles of Food Engineering 4 Credits  
Grading Scheme: Letter Grade  
The functional requirements and principles of operation of systems for handling and processing food and agricultural products.  
Prerequisite: MAC 1147 and 3 credits of physics.

AOM 4314C Power and Machinery Management 3 Credits  
Grading Scheme: Letter Grade  
Functional requirements, operating principles, performance, safety and economic application of agricultural power units and field machines for citrus, vegetable and field crop production.

AOM 4434 Precision Agriculture 3 Credits  
Grading Scheme: Letter Grade  
Principles and applications of technologies supporting precision farming and planning for natural resource data management. Global positioning systems (GPS), geographic information systems (GIS), variable rate technologies (VRT), data layering of independent variables, automated guidance, Internet, information access and computer software for management.  
Prerequisite: junior standing or higher.

AOM 4444C Electrical Power and Instrumentation for Agricultural Operations Management 3 Credits  
Grading Scheme: Letter Grade  
Fundamental concepts of electricity, power, instrumentation, computer control operations and selected transducers. Foundation to aid in management of agricultural processing operations.

AOM 4455 Agricultural Operations and Systems 3 Credits  
Grading Scheme: Letter Grade  
Quantitative and managerial techniques for management and planning of technical resources in agriculture. Applications of queuing theory, project scheduling, optimization and expert decision systems.  
Prerequisite: MAC 1147 and a computer course.

AOM 4461 Sustainable Agricultural Systems 3 Credits  
Grading Scheme: Letter Grade  
Minimizing energy and costs in agricultural and natural resource systems and industries. Students explore ways to enhance sustainable systems by improving efficiency. Topics include agricultural machinery, pumps, motors, fans, refrigeration, lights and construction methods.  
Prerequisite: senior standing and PHY 2004 or the equivalent.

AOM 4521 Introduction to Biofuels 3 Credits  
Grading Scheme: Letter Grade  
An overview of biofuel production related to technologies and feedstocks, economics of producing biofuels and impact on the environment and the local economy. Dealing specifically with liquid and gaseous biofuels and bioenergy produced from renewable resources, it provides a summary of the past, present and future production technologies and applications.  
Prerequisite: BSC 2010 and PHY 2004 and CHM 2045 or the equivalents.

AOM 4642 Environmental Systems for Agricultural Structures 3 Credits  
Grading Scheme: Letter Grade  
Effects of the environment on plant and animal production, processing operations and quality of stored produce. Selection of building materials and sizing of components of environmental systems in agricultural structures to enhance more efficient agricultural production, processing and storage.  
Prerequisite: MAC 1147 and 3 credits of physics.

AOM 4643 Environmental Hydrology: Principles and Issues 3 Credits  
Grading Scheme: Letter Grade  
This is a basic course in environmental hydrology intended for agricultural and natural resource managers. The first half of the course covers scientific principles of the hydrologic cycle while the second half investigates case studies of current water quality and water management issues.

AOM 4900 Supervised Extension Experience in Agricultural Operations Management 0-3 Credits  
Grading Scheme: S/U  
Firsthand, authentic extension experiences in agricultural operations management under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.  
(S-U)

AOM 4905 Special Problems in Agricultural Operations Management 1-4 Credits  
Grading Scheme: Letter Grade  
Selected problems or projects in the student's major field of mechanized study.  
Prerequisite: permission of department chair or advisor.

AOM 4911 Supervised Research in Agricultural Education and Communication 0-3 Credits  
Grading Scheme: S/U  
Firsthand, authentic research in Agricultural Education and Communication under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.  
(S-U)

AOM 4915 Honors Thesis Research in Agricultural Operations Management 0-3 Credits  
Grading Scheme: S/U  
Independent research in agricultural operations management leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.  
(S-U)

AOM 4932 Special Topics in Agricultural Operations Management 1-4 Credits  
Grading Scheme: Letter Grade  
Variable topics provide content for the study of mechanized agriculture topics not offered in other courses.  
Prerequisite: instructor permission.
AOM 4933 Professional Practices in Agricultural Operations Management
1 Credit
Grading Scheme: Letter Grade
Professionalism and interfacing of technical skills. Topics include ethics, continuing education, placement skills and professional development in agricultural operations management.
Prerequisite: junior standing in agricultural operations management.

AOM 4941 Full-Time Practical Work Experience in Agricultural Operations Management 1-4 Credits
Grading Scheme: S/U

Agronomy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Agronomy's vision is to improve and sustain food production while conserving natural resources and promoting healthy and active lives by creating and disseminating knowledge in the plant sciences. The department's mission is to achieve excellence in the science of using plants for food, feed, fuel, fiber and turf, as well as in the management of weed species, through research, teaching, and outreach programs that serve the people of Florida, our nation, and the world.

Curriculum
  • Agroecology and Sustainable Food Systems Certificate
  • Combination Degrees
  • Gateway to Agroecology Certificate
  • Golf and Sports Turf Management Minor
  • Plant Science

Courses

AGG 3501 Environment, Food and Society 3 Credits
Grading Scheme: Letter Grade
Global issues and trends in population growth, natural resource (soil, water and plant genetic biodiversity) utilization, climate change and potential impacts of current trends on agriculture, natural resources, global food security and sustainability. (B)
Attributes: General Education - Biological Science

AGR 3303 Genetics 3 Credits
Grading Scheme: Letter Grade
The science and physical basis of inheritance, genes as units of heredity and development, and the qualitative and quantitative aspects of genetic variation. (B)
Prerequisite: basic course in biology, botany or zoology.
Attributes: General Education - Biological Science

AGR 4212 Alternative Cropping Systems 3 Credits
Grading Scheme: Letter Grade
Examines alternative cropping systems, focusing on issues of sustainability, against a backdrop of trends occurring in conventional agriculture.

AGR 4214C Applied Field Crop Production 3 Credits
Grading Scheme: Letter Grade
Students will plant and manage a group of field crops. Experience in fertilization, pest control and harvesting are gained. Students will submit a term report.

AGR 4231C Forage Science and Range Management 4 Credits
Grading Scheme: Letter Grade
Scientific and technological developments in the selection, production and utilization of forage crops, and in the development and management of grazing areas. (B)
Attributes: General Education - Biological Science

AGR 4304 Plant Chromosomes and Genomes 3 Credits
Grading Scheme: Letter Grade
Concepts of plant DNA organization in chromosome structure, the principles and technologies of cytogenetics, the plant genomic DNA structure and function, concepts of transcriptome, the plant genomic databases, the DNA sequencing technologies and the basic tools for nucleotide sequence analysis.
Prerequisite: AGR 3303 or PCB 3063.

AGR 4320 Plant Breeding 3 Credits
Grading Scheme: Letter Grade
The science and technology of plant improvement.
Prerequisite: AGR 3303 or PCB 3063.

AGR 4512 Physiology and Ecology of Crops 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental processes of crop plants, as well as the environmental and physical limitations to crop growth, development and yield. Focus is on physiology and ecology of agronomic crop plants. (B)
Prerequisite: AGR 3005 or the equivalent.
Attributes: General Education - Biological Science

AGR 4900 Supervised Extension in Agronomy 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agronomy under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

AGR 4905 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
Scientific study of individual problems in crop production, weed science, genetics or plant breeding.
Prerequisite: minimum of one course in agronomy and instructor permission.
PLS 4601C Principles of Weed Science 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces basic and applied aspects of weed science. Topics include weed biology and ecology, herbicide physiology and weed control techniques. The lab covers weed identification, herbicide application technology and other aspects of weed science.

PLS 4613 Aquatic Weed Control 3 Credits  
**Grading Scheme:** Letter Grade  
Florida's aquatic weed problems and methods of chemical, biological, mechanical and physical weed control. Topics include plant biology/ecology, herbicide residue, lake reclamation, fish-plant interactions and laws regulating aquatic weed control.  
**Prerequisite:** refer to the department.

PLS 4941 Practical Work Experience 1-3 Credits  
**Grading Scheme:** S/U  
Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student’s field of study. One month of full-time work is required for each credit.  
**Prerequisite:** Plant Science major of junior standing or higher.

Akan | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  
More Info [here](http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Courses

AKA 1130 Beginning Akan 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.

AKA 1131 Beginning Akan 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: AKA 1130 with minimum grade of C, or the equivalent.

AKA 2200 Intermediate Akan 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: AKA 1131 with minimum grade of C, or the equivalent.

AKA 2201 Intermediate Akan 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: AKA 2200 with minimum grade of C, or the equivalent.

AKA 3410 Advanced Akan 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: AKA 2201 with minimum grade of C, or the equivalent.

AKA 3411 Advanced Akan 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: AKA 3410 with minimum grade of C, or the equivalent.

Courses

AHM 1130 Beginning Amharic 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.

AHM 1131 Beginning Amharic 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: AHM 1130 with minimum grade of C, or the equivalent.

AHM 2200 Intermed Amharic 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: AHM 1131 with minimum grade of C, or the equivalent.
AHM 2201 Intermediate Amharic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: AHM 2200 with minimum grade of C, or the equivalent.

AHM 3410 Advanced Amharic 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: AHM 2201 with minimum grade of C, or the equivalent.

AHM 3411 Advanced Amharic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: AHM 3410 with minimum grade of C or the equivalent.

Animal Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Animal Sciences creates new solutions to tomorrow’s problems in the areas of teaching, research, and extension, by integrating the most modern technologies available with personal expertise and attention to the needs of both students and industry.

Map (http://campusmap.ufl.edu/#/index/0459)

Curriculum
- Animal Genetics Certificate
- Animal Sciences
- Combination Degrees

Courses

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.

ANS 2002 The Meat We Eat 3 Credits
Grading Scheme: Letter Grade
Consumer-oriented elective covering meat as a food, its inspection for wholesomeness, meat grading, identification, processing, selection, preparation, and serving. Emphasizes preparation of economical, nutritious and palatable meals centered on meat. (B)
Attributes: General Education - Biological Science

ANS 2005 The Role of Animals in Human History 3 Credits
Grading Scheme: Letter Grade
Surveys the importance of animals through human history, from the Stone Age to the present. The domestication of dogs, cats, major farm animals and some less familiar, such as camels, reindeer, and buffalo and the role they played in different societies and cultures across human history. (H, N)
Attributes: General Education - Humanities, General Education - International

ANS 2615C Meat Selection and Grading 2 Credits
Grading Scheme: Letter Grade
Grading and classifying beef, pork, and lamb carcasses and cuts.

ANS 3006 Introduction to Animal Science 3 Credits
Grading Scheme: Letter Grade
Role of beef cattle, dairy cattle, swine, sheep, poultry, and horses in serving humans. Introduces anatomy and physiology of digestion, growth, reproduction, and the application of genetics to livestock improvement.

ANS 3006L Introduction to Animal Science Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiences designed to accompany ANS 3006; must be registered for ANS 3006 concurrently or have already completed the lecture course.
Corequisite: ANS 3006 for AL majors only.

ANS 3008 Livestock Behavior and Welfare 3 Credits
Grading Scheme: Letter Grade
Introduces basic principles and applications of animal behavior, including approaches to improve animal welfare through an understanding of animal behavior. Examples are drawn from a wide range of species, but the focus is on applying concepts to understand the behavior and welfare of livestock.
Prerequisite: sophomore or junior standing.

ANS 3043 Growth and Development of Farm Animals 3 Credits
Grading Scheme: Letter Grade
An integration of the physiological, genetic, and nutritional bases of animal growth, development, and body composition with application to livestock production.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L and ANS3006C or equivalents and AL major.

ANS 3079L Relationship of Form to Function in Horses 2 Credits
Grading Scheme: Letter Grade
Principles of conformation and performance evaluation of horses. Studies the anatomy, physiology, and dynamics of the horse as it affects athletic potential and performance.

ANS 3216 Introduction to Equine Science 3 Credits
Grading Scheme: Letter Grade
For those with an interest in equine sciences but with limited equine experience. Principles of equine selection, care, and utilization.

ANS 3217C Equine Health Management 2 Credits
Grading Scheme: Letter Grade
Principles and practices for planning, implementing, and maintaining equine herd health.
Prerequisite: ANS 3006 and AL-equine major.
ANS 3239L Techniques in Equine Science 2 Credits
Grading Scheme: Letter Grade
Introduces the knowledge, horseback, and management skills required for proper daily horse care and conditioning. Designed for those seeking employment requiring basic horse care skills and for novice horse owners.
Prerequisite: ANS 3216 and AL major.

ANS 3246L Beef Production Practicum 2 Credits
Grading Scheme: Letter Grade
Participate in beef cattle production systems under close supervision of faculty and staff; gain knowledge of best management practices regarding cattle handling, tractor, and equipment use, as well as cattle hauling by participating in experiential learning opportunities.
Prerequisite: sophomore or junior standing;
Corequisite: ANS 4243.

ANS 3250L Dairy Cattle Practicum 2 Credits
Grading Scheme: Letter Grade
Practical application of the principles of biology and management of dairy cattle. Topics include milking procedures, behavior, cattle handling, records, and computer applications in dairy production; body condition, lameness and hygiene scoring; dairy farm evaluation; on-farm practica and field trips.
Corequisite: ANS 3251.

ANS 3251 Biology and Management of Dairy Cattle 2 Credits
Grading Scheme: Letter Grade
Biology of dairy cattle and the interrelationship between biology and management. Topics include anatomy and physiology, nutrition, reproduction, genetics, behavior, diseases, dairy products, housing, management, economics, and the environmental impact of dairy production.

ANS 3319C Reproductive Physiology and Endocrinology in Domestic Animals 4 Credits
Grading Scheme: Letter Grade
Principles of reproduction in avian and mammalian farm animals including factors related to the estrous cycle, pregnancy, lactation, semen-production, artificial insemination, pregnancy diagnosis, and environmental factors affecting reproduction.
Prerequisite: ANS 3006 and BSC 2010 and BSC 2010L or equivalents.

ANS 3384C Genetics of Domestic Animals 3 Credits
Grading Scheme: Letter Grade
Basic principles of Mendelian, population, and quantitative genetics as applied to improvement of domestic animals. Selection, inbreeding, and crossbreeding strategies for genetic improvement of livestock.
Prerequisite: ANS 3006 and BSC 2011 and BSC 2011L or equivalents.

ANS 3404C Food Animal Nutrition and Feeding 3 Credits
Grading Scheme: Letter Grade
Studies the basic nutrient requirements of food animals, primarily beef cattle and swine, at specific stages of growth, production, and reproduction; and how scientific methods and experimentation are applied to animal nutrition.
Prerequisite: ANS 3440.

ANS 3405 Equine Nutrition and Feeding Management 2 Credits
Grading Scheme: Letter Grade
The influence of growth, reproduction, and work on the nutrient requirements of horses and the application of that information to the planning of life cycle feeding programs.
Prerequisite: ANS 3440.

ANS 3440 Principles of Animal Nutrition 4 Credits
Grading Scheme: Letter Grade
The nutrients required by animals, their functions interrelationships, and processes of utilization; feedstuff composition and their use in diet and ration formulation.
Prerequisite: CHM 2045 and CHM 2045L, or equivalent.

ANS 3613L Livestock and Meat Evaluation 2 Credits
Grading Scheme: Letter Grade
Basic principles of livestock evaluation, grading, and pricing of meat animals, carcasses and meat cuts.
Prerequisite: ANS 3006.

ANS 3634C Meats 3 Credits
Grading Scheme: Letter Grade
Integrated studies of the science and technology involved in the utilization of meat animals for food with focus on animal growth, carcass cutability, wholesomeness, palatability, and merchandising of red meat.

ANS 3934 Careers in the Livestock Industry 2 Credits
Grading Scheme: Letter Grade
Careers in the livestock industry. Interactive exposure to employment opportunities in the animal sciences.

ANS 4212L Techniques in Farrier Science 1-2 Credits
Grading Scheme: Letter Grade
How to evaluate and to trim the horse's hoof and to develop a working knowledge of corrective farrier techniques.

ANS 4218L Horse Psychology and Training 3 Credits
Grading Scheme: Letter Grade
Horse behavior, instinct and senses as they relate to training. Principles of training the young foal; ground work, liberty training, and starting the young yearling under saddle; and principles of performance training.

ANS 4231 Practicum in Horse Management and Training Technique 1 Credit
Grading Scheme: Letter Grade
Practicum in horse management and training technique

ANS 4234 Horse Enterprise Management 2 Credits
Grading Scheme: Letter Grade
Management principles essential to the planning and operation of commercial horse enterprises.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3217C and ANS 3319C and ANS 3384C and ANS 3405 and ANS 3440.

ANS 4241 Intermediate Horse Training 2 Credits
Grading Scheme: Letter Grade
Continue the training of a recently started under-saddled horse, exhibit horse to potential buyers, and produce annual sealed bid sale.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3217C and ANS 3319C and ANS 3384C and ANS 3405 and ANS 3440.

ANS 4243 Beef Cow-Calf Management 5 Credits
Grading Scheme: Letter Grade
Development and implementation of management programs for commercial cow-calf and purebred beef cattle enterprises.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3319C and ANS 3384C and ANS 3404C and ANS 3440.

ANS 4245C Beef Background and Feedlot Management 2 Credits
Grading Scheme: Letter Grade
Management, marketing, and utilization of beef cattle after weaning. Spring break field trip required.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3440 and ANS 3404C and ANS 3613L and ANS 3634C.
ANS 4318C Equine Reproductive Management 3 Credits  
**Grading Scheme:** Letter Grade  
Equine reproduction to include anatomy, the estrous cycle, hormones and pharmacologic manipulation, gametogenesis, embryonic and fetal development, parturition, foal care, assisted technologies, and management strategies.  
**Prerequisite:** ANS 3319C.

ANS 4320C Applied Ruminant Reproductive Management 4 Credits  
**Grading Scheme:** Letter Grade  
In-depth assessment and application of bovine reproductive management practices that affect the efficiency of reproduction including managerial, physiological, biological, and economical.  
**Prerequisite:** ANS 3319C.

ANS 4382 Equine Genetics 2 Credits  
**Grading Scheme:** Letter Grade  
Examines the underlying mechanisms and inheritance of a number of traits in the horse; includes the impact of domestication on the genome, relationships between breeds, coat color, genetic disease and complex traits of performance and behavior.  
**Prerequisite:** ANS 3384C.

ANS 4383 Genetic analyses of complex traits in livestock 3 Credits  
**Grading Scheme:** Letter Grade  
Comprehensive examination of principles of livestock inheritance, QTL mapping strategies and functional genomic approaches used for genomic selection and improvement programs in farm animals.  
**Prerequisite:** ANS 3384C or equivalent.

ANS 4388 Canine and Feline Genetics 3 Credits  
**Grading Scheme:** Letter Grade  
Lectures, seminars, and lab exercises on application of genetic principles to canine and feline characteristics provide an in-depth understanding of how these traits are inherited and analyzed. Information on new genomic technologies and their impact on studying specific traits, including coat color and genetic disorders, are discussed.  
**Prerequisite:** ANS 3384C or ANS 3303 or PCB 3063 or equivalent.

ANS 4389L Molecular Techniques in Domestic Animal Genetics 2 Credits  
**Grading Scheme:** Letter Grade  
Studies the principles of basic domestic animal molecular biology techniques and provides hands-on experience through laboratory exercises.  
**Prerequisite:** ANS 3384C.

ANS 4605 Animal and Products Evaluation 1 Credit  
**Grading Scheme:** Letter Grade  
Intensive training in animal and animal products evaluation.  
**Prerequisite:** instructor permission.

ANS 4623C Pork Production 3 Credits  
**Grading Scheme:** Letter Grade  
Principles of modern pork production, including all aspects of swine production management systems (breeding systems, disease control, applied economics, housing, marketing, pork quality, and nutrition in a systems approach), relative to the US/Global pork supply.  
**Prerequisite:** ANS 3440 and ANS 3319C and (ANS 3613L or ANS 4604C).

ANS 4635C Meat Processing 3 Credits  
**Grading Scheme:** Letter Grade  
Basic principles of the use of muscle as food, process technology, meat inspection, regulations, quality control procedures, and marketing aspects.  
**Prerequisite:** ANS 3006 or FOS 3042.

ANS 4701 Physiology of the Mammary Gland and Lactation 2 Credits  
**Grading Scheme:** Letter Grade  
Insight into the endocrinology and physiology of the defining characteristics of mammals: the mammary gland and lactation, focusing on the anatomy and development of the mammary gland with an overview of the biochemical, cellular and molecular processes controlling lactation emphasizing on livestock species.  
**Prerequisite:** BSC 2011 and BSC 2011L and ANS 3319C and AG senior.

ANS 4900 Supervised Extension Experience in Animal Sciences 0-3 Credits  
**Grading Scheme:** S/U  
Firsthand, authentic extension experiences in animal sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

ANS 4905 Problems in Animal Science 1-3 Credits  
**Grading Scheme:** Letter Grade  
Qualified students are assigned a problem involving care and management of livestock or the investigation of a current topic in animal science.  
**Prerequisite:** instructor permission.

ANS 4911 Supervised Research in Animal Sciences 0-3 Credits  
**Grading Scheme:** S/U  
Firsthand, authentic research in animal sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

ANS 4915 Honors Thesis Research in Animal Sciences 0-3 Credits  
**Grading Scheme:** S/U  
Independent research in animal sciences leading to an honors thesis, mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)  
**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ANS 4931 Senior Seminar 1 Credit  
**Grading Scheme:** Letter Grade  
Oral presentation and papers on issues facing the livestock industry.  
**Prerequisite:** AL senior.

ANS 4932 Special Topics in Animal Sciences 1-3 Credits  
**Grading Scheme:** Letter Grade  
Special topics in Animal Sciences.  
**Prerequisite:** Sophomore standing or higher.

ANS 4941 Full-Time Practical Work Experience in Animal Science 2-8 Credits  
**Grading Scheme:** S/U  
Credit is earned on the basis of one hour per month of employment. (S-U)  
**Prerequisite:** prior arrangement with advisor.

ATE 2511 Companion Animal Biology and Management 3 Credits  
**Grading Scheme:** Letter Grade  
Principles and practices of proper selection, care, nutrition, genetics, reproduction, and training of companion animals, with emphasis on dogs, cats, and selected bird species.

VME 4103 Livestock Health/Disease Prevention 2 Credits  
**Grading Scheme:** Letter Grade  
The principal diseases of livestock and practical methods for their prevention and control.  
**Prerequisite:** instructor permission.
Anthropology
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information
Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural (http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/), archaeological (http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/), biological (http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/) and linguistic (http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/) anthropology.

Curriculum
- American Indian and Indigenous Studies | IDS
- Anthropology
- Anthropology Minor
- Anthropology Minor UF Online
- Anthropology UF Online
- Medical Anthropology Certificate

Courses

AFS 2002 The African Experience: An Introduction to African Studies
3 Credits
Grading Scheme: Letter Grade
Introductory study of African society and culture that examines the richness, diversity, and time-depth of African civilizations. (S and N)
Attributes: General Education - International, General Education - Social Science

ANT 2000 General Anthropology
3 Credits
Grading Scheme: Letter Grade
Introduces the four subfields of anthropology (sociocultural, biological, linguistic and archaeology) through analyses of the cultural, social and biological dimensions of human variation. Appropriate first course for students considering major or minor in anthropology as well as non-majors fulfilling general education requirement. (S)
Attributes: General Education - Social Science

ANT 2140 Introduction to World Archaeology
3 Credits
Grading Scheme: Letter Grade
The global study of human culture from its origins to the present through the recovery, description and analysis of archaeological remains.

ANT 2149 Lost Tribes and Sunken Continents
3 Credits
Grading Scheme: Letter Grade
Examines the claims of popular writers in archaeology that mysterious archaeological sites, statues, etc. were influenced by outer space visitors. Problems of diffusion: discussed include Stonehenge, pyramids, Easter Island, Maya spaceships, Atlantis and Mu, Nazca Lines and other archaeological mysteries. (H)
Attributes: General Education - Humanities

ANT 2301 Human Sexuality and Culture
3 Credits
Grading Scheme: Letter Grade
Examines cultural, biological, and archaeological aspects of human sexuality through time and space, while evaluating sexuality ideas to societal discourse. Investigates personal and cross-cultural views on sexuality, presenting gender identity, sexual orientation, relationships, and sexual ethics. Appropriate for those seeking an integrative approach to human sexuality. (S and D) (WR)
Attributes: General Education - Diversity, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 2402 Anthropology of Sustainability
3 Credits
Grading Scheme: Letter Grade
Application of the sustainability concept to the study of human interactions with the biophysical environment across space and time. Focuses on human perceptions of and interactions with their biotic surroundings and the myriad linkages between biological, cultural and linguistic diversity.

ANT 2410 Cultural Anthropology
3 Credits
Grading Scheme: Letter Grade
The nature of culture. The content of cultures; languages, subsistence, economic structures, art and religion in human societies. The integration of culture. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

ANT 2464 Things Your Doctor Never Told You: Intro to Medical Anthropology
3 Credits
Grading Scheme: Letter Grade
Introduces the field of medical anthropology including key theoretical and empirical areas. Covers how experiences of sickness and health are shaped by cultural context, how culture and biology intersect to shape global and local inequalities in health, and how healing practices and policies are embedded in political, economic, and historical context. Covers topics from diabetes to global pandemics. Applies anthropological perspective to addressing practical health matters globally.

ANT 2490 Digital Cultures and Communities
3 Credits
Grading Scheme: Letter Grade
Explores ‘the digital’ in an anthropological and cross-cultural context. Examines the range of ways digital technologies are reshaping identity, intimacy, community, economy, and politics, and how social scientists conduct research online.
ANT 2700 Introduction to Applied Anthropology 3 Credits
Grading Scheme: Letter Grade
The utility and application of anthropological theories, methods and knowledge for the solution of specific human problems, including discrimination, hunger, disease and underdevelopment. (S and D)
Attributes: General Education · Diversity, General Education · Social Science

ANT 3020 Humans and Animals 3 Credits
Grading Scheme: Letter Grade
Examines the complex and multiple relationships that people have with animals, including social, economic, and symbolic connections. Draws on insights from cultural anthropology, archaeology, biological anthropology, and research from multiple other disciplines to explore humans' unique interdependencies with other animals.
Prerequisite: Sophomore standing in CLAS or other college.

ANT 3080 Science & Ethics in Daily Life 3 Credits
Grading Scheme: Letter Grade
Introduces bioethical issues of topics that are encountered in everyday life through the popular media, such as genetic testing and genome modification, and animal experimentation and cognition. Will provide students with an understanding of the scientific basis of the bioethical issues in order to develop informed opinions.
Prerequisite: Sophomore standing

ANT 3141 Development of World Civilization 3 Credits
Grading Scheme: Letter Grade
Discussion of archeological evidence for the development of civilization in its regional variants from the earliest beginning to the dawn of written history. Analyzes causes of cultural development in Old and New World Centers. (H and N)
Attributes: General Education · Humanities, General Education · International

ANT 3153 North American Archaeology 3 Credits
Grading Scheme: Letter Grade
Interpretive survey of the ancient indigenous history of North America and archaeological approaches to its investigation.
Attributes: General Education · Humanities, Satisfies 6000 Words of Writing Requirement

ANT 3162 Aztec Civilization 3 Credits
Grading Scheme: Letter Grade
Detailed examination of Aztec culture and society at 1500 AD from ethnohistorical and archaeological evidence, including family life; social, political and economic organization; warfare; religion; and relationships with neighboring peoples. (H and N)
Attributes: General Education · Humanities, General Education · International

ANT 3164 The Inca and Their Ancestors 3 Credits
Grading Scheme: Letter Grade
Evolution of the Inca Empire is traced back archaeologically through earlier Andean states and societies to the beginning of native civilization. (H and N)
Attributes: General Education · Humanities, General Education · International

ANT 3181 Anthropological Museology 3 Credits
Grading Scheme: Letter Grade
The history and purpose of anthropological museums in the formation of the discipline and the modern role of the museum in both anthropological education and research.

ANT 3186 Introduction to Zooarchaeology 3 Credits
Grading Scheme: Letter Grade
Introduces the identification, analysis and interpretation of animal remains from archaeological sites. Methods of quantification and skeletal measurements to understand technology and human behavior are addressed. Topics include identification of subsistence patterns, coastal economies, animal domestication, taphonomy, environmental inferences from faunal remains and historical use of subsistence resources.
Prerequisite: one course in archaeology.

ANT 3241 Anthropology of Religion 3 Credits
Grading Scheme: Letter Grade
Cross-cultural survey of beliefs and practices dealing with the supernatural, magic, and religion. Conceptualization of the supernatural. Sacred specialists, their function, and social position. Theories of comparative religion in light of anthropological data. (S and D)
Attributes: General Education · Diversity, General Education · Social Science

ANT 3302 Global Gender Issues 3 Credits
Grading Scheme: Letter Grade
Cross-cultural perspective on how gendered meanings and practices structure society and shape the life experiences of people globally. Topics include biology, gender, and sexual identity; social constructions of parenthood; reproduction, kinship, and the household; colonialism and development; religion, ritual, and personhood; gender in domestic and public spaces. (S and D)
Attributes: General Education · Diversity, General Education · Social Science

ANT 3341 Race and Racism 3 Credits
Grading Scheme: Letter Grade
A comprehensive introduction to the diversity and change of Chinese culture and society based on ethnographic studies, theoretical analysis, and historical survey by Western as well as Chinese scholars. (S and N) (WR)
Attributes: General Education · International, General Education · Social Science, Satisfies 2000 Words of Writing Requirement

ANT 3364 Peoples and Cultures of China 3 Credits
Grading Scheme: Letter Grade
Ways of describing, analyzing and presenting behavior and cultural ideas through visual means. Projects and laboratory work with visual anthropology. (WR)
Prerequisite: basic knowledge of photography or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

ANT 3420 Consumer Culture 3 Credits
Grading Scheme: Letter Grade
Examination of the cultural bases for the consumption of commodities in modern society, employing anthropological concepts and social science methods. Primary emphasis is on the social relationships enacted between people and the things they live with. (S)
Prerequisite: sophomore standing or higher.
Attributes: General Education · Social Science

ANT 3451 Race and Racism 3 Credits
Grading Scheme: Letter Grade
Survey of the race concept from the perspectives of cultural and biological anthropology. Examines patterns of human biological variation, traces history of race concept and explores experiences of racism in cross-cultural perspective. (S and D) (WR)
Attributes: General Education · Diversity, General Education · Social Science, Satisfies 6000 Words of Writing Requirement
ANT 3467 Food and Culture 3 Credits
Grading Scheme: Letter Grade
The role of food in human culture through time and in different geographical settings. Among topics considered are the biological basis of human diet and how it differs from other primates; how food habits develop and change as a result of cultural interaction; and the ritual and religious uses of food. Diets of traditional cultures and the effects of modernization on diet and health are examined.

ANT 3478 Global Health Culture 3 Credits
Grading Scheme: Letter Grade
Examines the ways in which diverse societies in the United States and abroad construct illness and health experiences, balance healing traditions with multiple forms of medical practice and integrate the human experiences of illness, recovery and death with the technical world of biomedicine.
Prerequisite: sophomore standing or higher.
Attributes: General Education - International, General Education - Social Science

ANT 3514C Introduction to Biological Anthropology 4 Credits
Grading Scheme: Letter Grade
Introduces the subfield of anthropology that focuses on the natural history of humankind. Through lecture and laboratory, the course surveys a range of materials that focus on the diversity of the Order Primates with emphasis on human and primate variation, adaptation and evolution. (B)
Attributes: General Education - Biological Science

ANT 3515 Human Evolutionary Anatomy 3 Credits
Grading Scheme: Letter Grade
Survey of human anatomy from evolutionary and embryological perspectives. The phylogenetic and functional basis for human form. Anatomical principles underlying developmental and functional disorders are explored through clinical and comparative examples.
Prerequisite: ANT 3514C or (BSC 2010 and BSC 2011) or PCB 4674.

ANT 3520 Skeleton Keys: Forensic Identification 3 Credits
Grading Scheme: Letter Grade
Survey of forensic anthropology, an applied field of biological anthropology, focusing the wider scope of skeletal biology on problems of medicolegal significance, primarily in determining personal identity and cause of death from human remains.

ANT 3555 The Primates 3 Credits
Grading Scheme: Letter Grade

ANT 3620 Language and Culture 3 Credits
Grading Scheme: Letter Grade
The role of speech in individual, social and cultural settings. Linguistic basis of thought and perception. Mythological studies and analysis. Bilingualism, biculturalism and minority language politics in current perspective. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science

ANT 3703 Business Anthropology 3 Credits
Grading Scheme: Letter Grade
How to get a field-specific job: writing resumes, job interviews, and social science methods and their applications. Provides a general overview of the business anthropology field.

ANT 3860 Writing in Anthropology 3 Credits
Grading Scheme: Letter Grade
Professional writing in the discipline of anthropology. (C) (WR)
Prerequisite: Junior standing or higher in anthropology.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ANT 3930 Junior Topics Class in Anthropology 3 Credits
Grading Scheme: Letter Grade
This course is designed for junior level students to explore special topics classes in the various subfields of anthropology.

ANT 4006 Human Rights and Culture 3 Credits
Grading Scheme: Letter Grade
Examines the nature of human rights cross-culturally, focusing on the history of the concept, universalism vs. particularism, religion, gender, race, regionalism, and modern human rights conventions.

ANT 4034 History of Anthropological Theory 3 Credits
Grading Scheme: Letter Grade
The history and development of anthropological theory. Methods in anthropological research. Directed reading of major theoretical publications. (S) (WR)
Prerequisite: one cultural anthropology course or instructor permission.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4110 Archaeological Theory 3 Credits
Grading Scheme: Letter Grade
Survey of the theoretical and methodological tenets of anthropological archaeology; critical review of archaeological theories, past and present; relation of archaeology to anthropology. (S)
Prerequisite: one course in archeology and/or anthropology, or instructor permission.
Attributes: General Education - Social Science

ANT 4112 Ideology and Symbolic Approaches in Archaeology 3 Credits
Grading Scheme: Letter Grade
Critically examines the development of thought in archaeology that goes beyond a materialist interpretation of culture. This seminar explores questions of causality and the role of mind and culture as a mediator between the environment and political, economic and social structures.
Prerequisite: instructor permission.

ANT 4113 Experimental Archaeology 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and applications of experimental archaeology, drawing on a broad range of case studies that illustrate the numerous experimental methods that archaeologists have used to solve analytic or interpretive problems.
Prerequisite: instructor permission.

ANT 4114 Principles of Archaeology 3 Credits
Grading Scheme: Letter Grade
Basic principles of archaeological science. Field and laboratory techniques (site survey, mapping, excavation, artifact analysis, dating). Foundational methods to interpret archaeological data to understand cultural and natural processes in the past. Legal and ethical issues of heritage management and stewardship of the archaeological record.
Prerequisite: ANT 2140 or ANT 3141.
ANT 4147C Environmental Archaeology 3 Credits
Grading Scheme: Letter Grade
Theory and case studies in environmental archaeology, integrating zooarchaeology, archaeobotany and geoarchaeology, are used to interpret past human interactions with the natural environment.
Prerequisite: instructor permission.

ANT 4168 Maya Civilization 3 Credits
Grading Scheme: Letter Grade
In-depth study of the pre-Hispanic Maya civilization based on archaeological and epigraphic information. Includes methods for constructing knowledge of this civilization and discussion of current controversies.
Prerequisite: ANT 2140 or ANT 3141 or instructor permission.

ANT 4180L Laboratory Training in Archaeology 1-3 Credits
Grading Scheme: Letter Grade
Processing of data recovered in field excavations; includes cleaning, identification, cataloguing, classification, drawing, analysis, responsibilities of data reporting.
Prerequisite: an introductory-level archeology course.

ANT 4193 Ethnoarchaeology 3 Credits
Grading Scheme: Letter Grade
A seminar that draws on case studies to examine the theoretical and methodological approaches to enthnoarchaeology. Students will apply these approaches in field exercises.
Prerequisite: instructor permission.

ANT 4194 A Critical Archaeology of Time 3 Credits
Grading Scheme: Letter Grade
Seminar that draws on case studies to explore problems at the intersection of measured time in archaeology, and the practice and reckoning of time in mostly non-Western societies.
Prerequisite: instructor permission.

ANT 4213 Global Humankind 3 Credits
Grading Scheme: Letter Grade
Advanced analysis of experiences and strategies for tackling classic dilemmas of the human condition in interconnected cultural works. Examination of how basic lifestyle decisions and actions are experienced locally and their global consequences. Anthropological theories and concepts are discussed in tandem with case studies from around the world.
Prerequisite: one 2000 or 3000 level ANT course or instructor permission.

ANT 4266 Economic Anthropology 3 Credits
Grading Scheme: Letter Grade
A consideration of economic philosophies and the behavioral bases of formal economic theories. Cross-cultural studies of production, distribution and consumption, money and the acquisition of goods. The latest materials from cultural ecology, Marxism, formalism, substantivism and discourse centered approaches are reviewed. (S) (WR)
Prerequisite: one anthropology course or instructor permission.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4273 Anthropology of Law 3 Credits
Grading Scheme: Letter Grade
An examination of legal systems cross-culturally with a focus on the interrelationship of law with culture, society, economics and politics.

ANT 4274 Political Anthropology 3 Credits
Grading Scheme: Letter Grade
The problem of identifying political behavior. Natural leadership in bands, tribes and small groups. Apeelonous societies and republican structures. Kingship and early despotic states. Theories of bureaucracy. (S)
Prerequisite: an introductory course in the social sciences, or instructor permission.
Attributes: General Education - Social Science

ANT 4336 The Peoples of Brazil 3 Credits
Grading Scheme: Letter Grade
Ethnology of Brazil; historical, geographic, and socioeconomic material is covered and representative monographs from the various regions of Brazil are read. The contribution of the Indian, Portuguese and African to modern Brazilian culture. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4352 Peoples of Africa 3 Credits
Grading Scheme: Letter Grade
An anthropological survey of the culture, history and ethnographic background of the peoples of Africa. A basis for appreciation of current problems of acculturation, nationalism, and cultural survival and change among African peoples. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4354 The Anthropology of Modern Africa 3 Credits
Grading Scheme: Letter Grade
Study of continuity and change in contemporary African societies with special reference to cultural and ethnic factors in modern nations. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4366 Family, Gender and Population in China 3 Credits
Grading Scheme: Letter Grade
This seminar examines the processes by which the family system, gender relations, and population configuration interact with each other to become powerful forces in shaping contemporary China's political, social and economic conditions. (S and N)
Prerequisite: instructor permission.
Attributes: General Education - International, General Education - Social Science

ANT 4392 Peoples of the Arct 3 Credits
Grading Scheme: Letter Grade
An anthropological survey of the culture, history and ethnographic background of the circumpolar Artic. An investigation of the problems of acculturation, human ecology, cultural survival and self-determination of Northern Indigenous Peoples.
Prerequisite: ANT 2140.

ANT 4403 Environment and Cultural Behavior 3 Credits
Grading Scheme: Letter Grade
The interaction of people and their environment as mediated by cultural institutions. Levels of socioeconomic adaptation in hunting and gathering, pastoral and agricultural societies. Warfare and ritual as ecological mechanisms. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement
ANT 4462 Culture and Medicine 3 Credits
Grading Scheme: Letter Grade
A survey of the field of medical anthropology and its interdisciplinary context. The course examines contemporary approaches and the development of an applied field concerned with human sickness and healing.

ANT 4468 Health and Disease in Human Evolution 3 Credits
Grading Scheme: Letter Grade
Review of pathology as evidenced in fossil and archaeological records. Interpretation of disease in a biocultural context.
Prerequisite: ANT 3514C, or instructor permission.

ANT 4484 Anthropology of Pregnancy, Birth, and Early Childhood Development 3 Credits
Grading Scheme: Letter Grade
Uses a medical anthropological lens to examine variability in health among pregnant mothers and early childhood development cross-culturally, drawing on critical and biocultural accounts. Focuses on several aspects of maternal health including reproductive ecology and fetal growth, birth experience, reproductive loss, breastfeeding, and early childhood development.
Prerequisite: ANT 2410 and ANT 3478 or ANT 4462.

ANT 4495 Ethnographic Methods 3 Credits
Grading Scheme: Letter Grade
Introduces the basic theoretical, methodological, ethical and practical concerns in the making of ethnography. In addition to readings and discussions, students will conduct a micro-project to gain hands-on experience in ethnography. (S)
Prerequisite: ANT 2000.
Attributes: General Education - Social Science

ANT 4525 Human Osteology and Osteometry 3 Credits
Grading Scheme: Letter Grade
Human skeletal identification for the physical anthropologist and archaeologist. Techniques for estimated age at death, race and sex from human skeletal remains. The measurement of human skeleton for comparative purposes. (B)
Prerequisite: ANT 3514C and instructor permission.
Attributes: General Education - Biological Science

ANT 4530 Seminar in Molecular Anthropology 3 Credits
Grading Scheme: Letter Grade
Course examines current applications of molecular data to questions of human evolution and genetics, based on most recent journal articles.
Prerequisite: BSC 2011 or instructor permission.

ANT 4531 Molecular Genetics of Disease 3 Credits
Grading Scheme: Letter Grade
Examines molecular genetics of human disease. Discusses a range of diseases from single-gene recessive defects to complex diseases.
Prerequisite: BSC 2011 or instructor permission.

ANT 4552 Primate Behavior 3 Credits
Grading Scheme: Letter Grade
Deals with the taxonomy, distribution and ecology of primates. The range of primate behavior for each major taxonomic group is explored. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

ANT 4554C Primate Evolution 3 Credits
Grading Scheme: Letter Grade
Prerequisite: ANT 3514C or instructor permission.

ANT 4586 Human Evolution 3 Credits
Grading Scheme: Letter Grade
This course surveys the evidence for the evolution of humankind. Emphasis is placed on the late Miocene to Pleistocene human fossil record and its interpretation. Basic principles of geology, systematics, evolutionary theory, functional morphology, and phylogenetic reconstruction are introduced and used to aid in understanding the human fossil and archaeological records. (B)
Prerequisite: ANT 3514C or the equivalent.
Attributes: General Education - Biological Science

ANT 4740 Introduction to Forensic Science 3 Credits
Grading Scheme: Letter Grade
Basic concepts and topics in forensic science, medicine and criminalistics. Also provides basic understanding of the fundamental concepts of scientific methodology.

ANT 4824 Field Sessions in Archaeology 6 Credits
Grading Scheme: Letter Grade
Excavation of archaeological sites, recording of data, laboratory handling and analysis of specimens, and study of the theoretical principles which underlie field methods and artifact analysis.
Prerequisite: 6 credits of anthropology or instructor permission.

ANT 4851 Digital Anthropology 3 Credits
Grading Scheme: Letter Grade
Investigation into how our emerging digital environment is affecting humans and societies. The study of digital technologies in comparative cultural contexts. Analysis of digital technology as a form of material culture. Introduction to theoretical perspectives on digital phenomena and the applications of these technologies in anthropology and other disciplines.
Prerequisite: one 2000 or 3000 level ANT, LAS, or AFS course or instructor permission.

ANT 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Individual, supervised research on a specific topic in anthropology.
Prerequisite: instructor permission.

ANT 4907 Research Projects in Anthropology 1-5 Credits
Grading Scheme: Letter Grade
For students undertaking directed research in supplementary or regular coursework or on special problems.
Prerequisite: instructor permission.

ANT 4911 Undergraduate Research in Anthropology 0-3 Credits
Grading Scheme: Letter Grade
Course provides firsthand, supervised research in Anthropology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Anthropology.

ANT 4914 Department Honors in Anthropology 3 Credits
Grading Scheme: Letter Grade
Open to students meeting department honors criteria and normally taken in the senior year. Students will develop special interests and write an essay based upon this research.
Prerequisite: undergraduate coordinator permission.
ANT 4930 Special Topics in Anthropology 3-5 Credits
Grading Scheme: Letter Grade
Rotating content in anthropology.
Prerequisite: 10 credits in anthropology or instructor permission. With permission, can be repeated with change in content up to 9 credits.

ANT 4931 Capstone in Anthropology 3 Credits
Grading Scheme: Letter Grade
Capstone course for anthropology majors focusing on the integration of core knowledge from the subfields of anthropology and their application to historical and contemporary topics. Explores application of anthropological knowledge for both pre-professional development and non-professional careers.
Prerequisite: Senior standing in anthropology.

ANT 4956 Overseas Studies in Cultural Anthropology 3-9 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved UF study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

Applied Physiology and Kinesiology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Applied Physiology & Kinesiology (APK) studies the immediate and lasting effects of exercise and its use in performance enhancement and disease prevention and rehabilitation.
Website (http://hhp.ufl.edu/about/departments/apk/)

Curriculum

• Applied Physiology and Kinesiology

Courses

APK 2100C Applied Human Anatomy with Laboratory 4 Credits
Grading Scheme: Letter Grade
Study of general anatomy of the human body from a systematic approach. Understanding anatomical terminology, gross structures, and locations of different body structures are primary concerns. Cells, tissues and organs of the integumentary, skeletal, muscular, nervous, circulatory, respiratory, digestive, urinary and reproductive systems are emphasized. (B)
Attributes: General Education - Biological Science

APK 2105C Applied Human Physiology with Laboratory 4 Credits
Grading Scheme: Letter Grade
Introduces body functions at the cellular, tissue, organ and systems level with emphasis on the mechanisms of operation. Designed for students interested in pursuing study in the health professions. (B)
Prerequisite: sophomore standing or higher.
Attributes: General Education - Biological Science

APK 3110C Physiology of Exercise and Training 3 Credits
Grading Scheme: Letter Grade
Survey in exercise physiology which provides an overview of the acute and chronic responses to exercise. Particular attention is placed on understanding muscle bioenergetics and metabolism as well as the cardiopulmonary responses to exercise. Special topics include exercise testing, training technologies and exercise in hot and cold environments.
Prerequisite: APK 2105C or (BSC X094+L or BSC X086+L or PET X322+L or PCB 3703C) with minimum grades of C; junior standing or above; Applied Physiology & Kinesiology majors only.

APK 3113C Principles of Strength and Conditioning 3 Credits
Grading Scheme: Letter Grade
For those interested in becoming certified personal trainers (NSCA-PT) or certified strength and conditioning specialists (CSCS) through the National Strength and Conditioning Association.
Prerequisite: APK 2100C and (APK 2105C or BSC X094+L or BSC X086+L or PET X322+L or ZOO 3733C and PCB 3703C) with minimum grades of C.

APK 3163 Sport Nutrition 3 Credits
Grading Scheme: Letter Grade
Addresses the aspects of nutrition that are related to exercise performance. Emphasis is on bioenergetic systems, nutrient components, nutritional and body composition assessments, ergogenic aids and diet modifications for physically active individuals and athletes.
Prerequisite: HUN 2201 and (APK 2105C or BSC X094+L or BSC X086+L or PET X322+L or PCB 3703C).

APK 3200 Motor Learning 3 Credits
Grading Scheme: Letter Grade
Provides background for understanding, analyzing and teaching skills in sports and dance. Attention to specific aspects of psychomotor developments and theoretical models of skill acquisition.
Prerequisite: junior standing or higher and Applied Physiology and Kinesiology major.

APK 3220C Biomechanical Basis of Movement 3 Credits
Grading Scheme: Letter Grade
Prerequisite: (APK 2100C or BSC X094+L or BSC X086+L or PET X322+L or ZOO 3733C and MAC 1140 with a minimum grade of C) OR (PHY 2048 or PHY 2053 with a minimum grade of C).

APK 3220C Biomechanical Basis of Movement 3 Credits
Grading Scheme: Letter Grade
Prerequisite: (APK 2100C or BSC X094+L or BSC X086+L or PET X322+L or ZOO 3733C and MAC 1140 with a minimum grade of C) OR (PHY 2048 or PHY 2053 with a minimum grade of C).

APK 3400 Introduction to Sport Psychology 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of the science and practice of sport psychology from both a theoretical and applied perspective. The primary emphasis is on the educational and performance enhancement roles of the field with little discussion of clinical issues.
Prerequisite: junior or senior standing.

APK 3405 Exercise Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces exercise psychology. Topics include the effects of exercise on psychological well-being, exercise adherence and intervention from both theoretical and applied perspectives.
Prerequisite: junior or senior standing.
APK 4050 Research Methods 3 Credits  
Grading Scheme: Letter Grade  
Provides an understanding of basic research methods and techniques used in applied physiology and kinesiology. Students will demonstrate their knowledge of the course materials by analyzing, interpreting and summarizing research writing in professional journals and by planning a research study.  
Prerequisite: APK major with 3, 4, 6 or 7 classification.

APK 4101 Fundamentals of Skeletal Muscle 3 Credits  
Grading Scheme: Letter Grade  
Provides a comprehensive background of skeletal muscle properties, focusing on key aspects of function at the protein, cellular, and whole organ level. Major topics include muscle contraction and force generation, fuel sources and energy utilization, growth and development, and an introduction to pathology.  
Prerequisite: (APK 2100C or BSCX094+L or BSCX086+L or PETX322+L or PCB 3703C with a minimum grade of B) and junior standing or higher.

APK 4103C Kinetic Anatomy 3 Credits  
Grading Scheme: Letter Grade  
Provides in-depth coverage of musculoskeletal anatomy as a foundation for learning components of simple and complex motor tasks; emphasizes proper execution and analysis of joint movement and common exercises.  
Prerequisite: (APK 2100C or BSCX094+L or BSCX086+L or PETX322+L or PCB 3703C and APK 3220C).

APK 4112 Advanced Exercise Physiology 3 Credits  
Grading Scheme: Letter Grade  
Provides a detailed understanding of acute and chronic responses to exercise. Particular attention is placed upon understanding the physiological responses to exercise at both a systems and cellular level. Emphasis is placed on muscle contractile properties, muscle bioenergetics and the endocrine responses to exercise.  
Prerequisite: APK 3110C with minimum grade of C.

APK 4115 Neuromuscular Aspects of Exercise 3 Credits  
Grading Scheme: Letter Grade  
Provides an in-depth analysis of muscle structure and function; how muscles produce movement; adaptation of muscle to resistance training, endurance training and various manipulations used in rehabilitations; adaptation of muscle to disuse; and muscle responses to injury.  
Prerequisite: APK 3110C with minimum grade of C.

APK 4120 Clinical Exercise Physiology 3 Credits  
Grading Scheme: Letter Grade  
Provides an understanding of recent advances in exercise physiology and exercise prescription for clinical populations. Particular attention is placed upon the study of acute and chronic responses to exercise in patients with cardiac, pulmonary, metabolic and musculoskeletal diseases.  
Prerequisite: APK 3110C with minimum grade of C.

APK 4125C Physical Fitness Assessment and Exercise Prescription 3 Credits  
Grading Scheme: Letter Grade  
Techniques of assessing physical fitness using traditional and state of the art processes. Techniques of prescribing exercise programs based upon assessments of physical parameters. Supervised practical lab experiences in assessment and prescription in a clinical setting.  
Prerequisite: APK 3110C with minimum grade of C and Health and Human Performance major.

APK 4144 Movement Neuroscience 3 Credits  
Grading Scheme: Letter Grade  
Covers both anatomical and physiological aspects of movement-related components of the nervous system from a functional perspective. Topics include: neuronal signaling; somatosensation; proprioception; nociception; vision and eye movements; audition; lower vs. upper motor neurons; cortical, basal ganglia and cerebellar regulation of movement; and posture.  
Prerequisite: (APK 2100C and APK 2105C or BSCX094+L or BSCX086+L or PETX322+L or ZOO 3733c and PCB 3703c with minimum grades of C) and (sophomore standing or higher) and Applied Physiology and Kinesiology major.

APK 4905C Variable Topics in Exercise and Sport Sciences 1-6 Credits  
Grading Scheme: Letter Grade  
Offered upon request to meet special interests that are not adequately provided in other courses.  
Prerequisite: department chair permission.

APK 4912 Undergraduate Research 0-5 Credits  
Grading Scheme: S/U  
Provides APK students the opportunity for involvement in supervised research experiences. "Research" is operationally defined here as mentored, but self-directed work that enables students to explore an issue of interest to them and to communicate the results to others. (S-U)

APK 4940C Internship 12 Credits  
Grading Scheme: S/U  
Internship in applied physiology and kinesiology. (S-U)  
Prerequisite: department permission.

APK 4943 Teaching Experience in APK 1 Credit  
Grading Scheme: S/U  
Experience teaching as an undergraduate assistant; responsibilities meet the needs of the particular course and instructor, including, but not limited to, giving short lectures, holding study/discussion sections, grading, and helping with exam/quiz/assignment preparation and proctoring. (S-U)  
Prerequisite: instructor permission.

ATR 2010C Prevention and Care of Athletic Injuries 3 Credits  
Grading Scheme: Letter Grade  
Prevention of athletic injuries, including protective equipment, safe facilities and proper supervision of practice and contests. Recognition, referral and follow-up of injuries in athletics. Legal implications of athletic training.  
Prerequisite: APK 2100C or BSCX094+L or BSCX086+L or PETX322+L or ZOO 3733c and Applied Physiology and Kinesiology major.

ATR 3102 Principles of Athletic Training 4 Credits  
Grading Scheme: Letter Grade  
Provides the student with knowledge of basic principles of athletic training, including prevention, recognition and treatment of athletic injuries. Addresses the proper application of protective equipment, bracing/wrapping/taping techniques utilized by athletic trainers and introduces emergency management skills appropriate for sport.  
Prerequisite: admission to the athletic training specialization.

ATR 4018 Professionalism and Communication in Sports Healthcare 3 Credits  
Grading Scheme: Letter Grade  
Foundational knowledge in professionalism, inter-professional cooperation, cultural competence, client interactions, and basic legal concepts related to sport and exercise.  
Prerequisite: APK majors with junior standing.
ATR 4112C Emergency Management of Athletic Trauma 3 Credits  
**Grading Scheme:** Letter Grade  
Learn to recognize, assess, treat, and refer traumatic injury and acute emergent illness.  
**Prerequisite:** Athletic Training major.

ATR 4212C Athletic Injury Assessment: Upper Extremity 4 Credits  
**Grading Scheme:** Letter Grade  
Provides background information to conduct a thorough initial evaluation of upper extremity injuries commonly sustained by the physically active population.  
**Prerequisite:** ATR 3102 with minimum grade of C and admission to the athletic training specialization.

ATR 4213C Athletic Injury Assessment: Lower Extremity 4 Credits  
**Grading Scheme:** Letter Grade  
Provides background information to conduct a thorough initial evaluation of lower extremity injuries commonly sustained by the physically active population.  
**Prerequisite:** ATR 4212C with minimum grade of C.

ATR 4302C Therapeutic Modalities in Athletic Training 4 Credits  
**Grading Scheme:** Letter Grade  
Introduces physiological principles, concepts and operational procedures of contemporary therapeutic modalities as they relate to the care and treatment of athletic injuries.  
**Prerequisite:** ATR 3102 with minimum grade of C and admission to the athletic training specialization.

ATR 4314C Rehabilitation Techniques in Athletic Training 4 Credits  
**Grading Scheme:** Letter Grade  
Introduces the concepts and principles of a comprehensive rehabilitation program including determination of therapeutic goals and objectives, selection of therapeutic exercises, methods of evaluating and recording rehabilitation progress, development of criteria for progress and return to competition and the physiological effects of trauma/wound healing and inactivity/immobilization.  
**Prerequisite:** ATR 4302C with minimum grade of C.

ATR 4315 Functional Sport Conditioning 3 Credits  
**Grading Scheme:** Letter Grade  
Enhances knowledge in design and implementation of functional exercise techniques as it relates to injury rehabilitation. Nutritional considerations for the injured athlete and proper design of the pre and post event meal planning for optimal performance and recovery are also covered.  
**Prerequisite:** ATR 4314C.

ATR 4432 Clinical Pathology and Pharmacology 3 Credits  
**Grading Scheme:** Letter Grade  
Provides a thorough understanding of injury, illness and/or disease of various body systems; addresses specific understanding of medical diagnostics, interventions (including pharmacology) and participation considerations for the athletic population.  
**Prerequisite:** ATR 4822 with minimum grade of C.

ATR 4512 Athletic Training Administration 3 Credits  
**Grading Scheme:** Letter Grade  
In-depth background of the standards, policies and practices of organization, supervision and administration of athletic training programs.  
**Prerequisite:** ATR 4832 with minimum grade of C; athletic training seniors only.

ATR 4812 Athletic Training Clinical Experience 1 4 Credits  
**Grading Scheme:** Letter Grade  
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.  
**Prerequisite:** ATR 3102 with minimum grade of C and admission to the athletic training specialization.

ATR 4822 Athletic Training Clinical Experience 2 4 Credits  
**Grading Scheme:** Letter Grade  
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.  
**Prerequisite:** ATR 4812 with minimum grade of C.

ATR 4832 Athletic Training Clinical Experience 3 4 Credits  
**Grading Scheme:** Letter Grade  
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.  
**Prerequisite:** ATR 4832 with minimum grade of C.

ATR 4842 Athletic Training Clinical Experience 4 4 Credits  
**Grading Scheme:** Letter Grade  
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.  
**Prerequisite:** ATR 4832 with minimum grade of C.

BSC 3096 Human Physiology 3 Credits  
**Grading Scheme:** Letter Grade  
Functioning of human tissues, organs and organ systems, emphasizing the physical, chemical and mechanistic bases of normal physiology and the integrated function of the human body. Also introduces pathophysiological changes associated with human diseases.  
**Prerequisite:** CHM 1031 or CHM 2046 or CHM 2047 and BSC 2011.

HLP 4933 Variable International Topics 1-6 Credits  
**Grading Scheme:** Letter Grade  
Provides the opportunity to study in a wide range of cultural settings.

PET 4948C Practicum in Exercise and Sport Sciences 1-5 Credits  
**Grading Scheme:** Letter Grade  
Practical experience in such specialty areas as adult fitness programs, health clubs, exercise testing laboratories, clinical laboratories and athletic training rooms. May include senior thesis with oral defense.  
**Prerequisite:** department chair permission.

SPM 4154 Managing Organizations in Sport 3 Credits  
**Grading Scheme:** Letter Grade  
Managerial principles and techniques are discussed applicable to a multitude of sport organizations. It addresses the four functions of management, strategy, organizational structure, resource management, and leadership theories.  
**Prerequisite:** MAN 3025 and SPM 2000 with minimum grades of C.
Arabic | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Courses

ABT 3130 Arabic Literary Heritage 1 3 Credits

Grading Scheme: Letter Grade

A survey of classical Arabic literature in translation. Covers pre-Islamic poetry and early Islamic poetry, Omayyad, Abbasid and Andalusian literatures. All readings in English. (H and N) (WR)

Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ABT 3500 Arabic Culture 3 Credits

Grading Scheme: Letter Grade

Introduction to Arabic culture with special reference to art, literature, religion and society. Emphasis on Arab contributions to philosophy, medicine, mathematics and architecture. All readings in English. (H and N) (WR)

Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ABT 4131 The Qur'an as Literature 3 Credits

Grading Scheme: Letter Grade

Approaches the Qur'an from a literary standpoint by examining its history, structure, style, major themes, and impact on Arabic literature, Islamic thought, and Muslim culture.

Prerequisite: ARA 1131 or ABT 3500 or REL 2000 or REL 2362 or REL 4361 or senior standing.

ARA 1130 Beginning Arabic 1 5 Credits

Grading Scheme: Letter Grade

Beginning study covering four skills: listening, speaking, reading, and writing.

ARA 1131 Beginning Arabic 2 5 Credits

Grading Scheme: Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

Prerequisite: ARA 1130 with minimum grade of C or the equivalent.

ARA 2220 Intermediate Arabic 1 4 Credits

Grading Scheme: Letter Grade

Continuation of the study of standard Arabic language. Develops reading, writing, listening and speaking skills and helps with comprehension of written and audio texts. Students can use their knowledge of the Arabic language to clearly express their personal views in a meaningful and well-structured language.

Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 2221 Intermediate Arabic 2 4 Credits

Grading Scheme: Letter Grade

Continues the study of Arabic language at the intermediate level. Emphasizes developing reading comprehension, writing, listening and speaking, and vocabulary and grammar.

Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 2240 Spoken Arabic 3 Credits

Grading Scheme: Letter Grade

Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.

Prerequisite: ARA 1131.
ARA 3241 Spoken Arabic 3 Credits  
**Grading Scheme:** Letter Grade  
Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.  
**Prerequisite:** ARA 2221.

ARA 3410 Advanced Arabic 1 3 Credits  
**Grading Scheme:** Letter Grade  
Advanced study of the four skills with attention to more complex structures.  
**Prerequisite:** ARA 2221 with minimum grade of C or the equivalent.

ARA 3411 Advanced Arabic 2 3 Credits  
**Grading Scheme:** Letter Grade  
Continuation of advanced study.  
**Prerequisite:** ARA 3410 with minimum grade of C or the equivalent.

ARA 3510 The Arab Woman 3 Credits  
**Grading Scheme:** Letter Grade  
Examines the role and status of Arab women in their respective societies; specifically examines the internal dynamics of Arab culture that influences the role of the Arab woman. (H and N OR S and N) (WR)  
**Attributes:** General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ARA 4400 Fourth Year Arabic 1 3 Credits  
**Grading Scheme:** Letter Grade  
Development to an advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic. (H and N)  
**Prerequisite:** ARA 3411 or the equivalent.  
**Attributes:** General Education - Humanities, General Education - International

ARA 4401 Fourth Year Arabic 2 3 Credits  
**Grading Scheme:** Letter Grade  
Continuation of ARA 4400. Development of a more advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic. (H and N)  
**Prerequisite:** ARA 4400 or the equivalent.  
**Attributes:** General Education - Humanities, General Education - International

ARA 4420 Arabic through the Texts 3 Credits  
**Grading Scheme:** Letter Grade  
For advanced students of Arabic. Teaches the more complex grammar, idiomatic expressions and sophisticated stylistic forms of the language. Required for the Arabic minor.  
**Prerequisite:** ARA 3410.

ARA 4822 Arabic Sociolinguistics 3 Credits  
**Grading Scheme:** Letter Grade  
Focuses on the relationship between language and society in the Arab world. An examination of the different varieties of Arabic and the relation between linguistic variation and other social variables, such as ethnicity, religion, urbanization, social class, gender, power and ideology.  
**Prerequisite:** ARA 1131 or LIN 3010.

ARA 4850 Structure of Standard Arabic 3 Credits  
**Grading Scheme:** Letter Grade  
Describes and analyzes the sound system, word structure, and sentence structure of Arabic.  
**Prerequisite:** ARA 1131 or LIN 3010.

ARA 4905 Individual Study 1-5 Credits  
**Grading Scheme:** Letter Grade  
For those who seek independent work not offered in another course.  
**Prerequisite:** instructor permission.

ARA 4911 Undergraduate Research in Arabic Studies 0-3 Credits  
**Grading Scheme:** S/U  
Supervised research in Language, literature, culture, and/or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application.  
**Prerequisite:** (Foreign Languages and Literatures - Arabic Specialization Major OR Foreign Languages and Literatures - Dual Languages Major OR Arabic Language and Literature Minor) AND Junior Standing.

ARA 4915 Honors Thesis 3 Credits  
**Grading Scheme:** S/U  
Directed research leading to an honors thesis on a topic approved by the thesis director. Not a substitute for a required course in Foreign Languages and Literatures - Arabic Specialization or Minor in Arabic Studies.  
**Prerequisite:** minimum 3.5 GPA and instructor permission.

ARA 4930 Special Topics 3 Credits  
**Grading Scheme:** Letter Grade  
One of the core courses in the Middle Eastern languages and cultures major offered through interdisciplinary studies. Also useful for students in linguistics, religion, Arabic, Hebrew and Jewish studies.  
**Prerequisite:** one year of Hebrew or equivalent, one year of Arabic or equivalent, LIN 3010 or equivalent, or instructor permission.

ARA 4956 Overseas Studies 1 1-15 Credits  
**Grading Scheme:** Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  
**Prerequisite:** undergraduate advisor permission.

---

**Architecture**

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.  
More Info (http://registrar.ufl.edu/soc/)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

**Department Information**

The School of Architecture recognizes design as a synthesis of thinking, analyzing and making — an iterative process that engages, issues of space, historical precedent, sustainability, ecology, urbanity, landscape, built-form, and construction toward innovation. The School of Architecture is uniquely positioned to respond to these issues by deploying studio based design methodologies in collaboration with a new generation of experts in engineering, ecology, business, anthropology, energy, fine arts, medicine, and construction.

P.O. BOX 115702  
331 ARCHITECTURE BUILDING
Courses

ARC 1000 Architecture and Humanity 3 Credits
Grading Scheme: Letter Grade
Introduces the issues and opportunities derived through actively engaging the sustainable and ethical design of the environments in which we live: urban, landscape and architectural. (H)
Attributes: General Education - Humanities

ARC 1301 Architectural Design 1 4 Credits
Grading Scheme: Letter Grade
Introduces interfacing communication skills with design thinking. Emphasizes awareness and understanding of basic organization ideas in design.
Prerequisite: (architecture or interior design or landscape architecture major) or college advising center permission.

ARC 1302 Architectural Design 2 4 Credits
Grading Scheme: Letter Grade
An analysis course that uses the study of architectural precedent as a foundation for the development of communication and design skills.
Prerequisite: ARC 1301.

ARC 1701 Architectural History 1 3 Credits
Grading Scheme: Letter Grade
General survey of social, political, and cultural factors that have generated art and architecture. (H and N) (WR)
Prerequisite: architecture major.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ARC 1702 Architectural History 2 3 Credits
Grading Scheme: Letter Grade
A survey of the history of architecture from 1400 to 1850. Lectures examine the effects of social, political, material, technological and cultural forces on the design and construction of the built environment and explore the role of the architect in civil society. Emphasizes the theoretical positions of the architects and architectural schools. (H and N)
Prerequisite: architecture major.
Corequisite: ARC 1301 or ARC 4072.
Attributes: General Education - Humanities, General Education - International

ARC 1720 Survey of Architecture History 3 Credits
Grading Scheme: Letter Grade
A survey of monumental buildings and their embodied architectural intentions from the pre-historical ages to the current age. Demonstrating interactive relationships between form and idea in architecture throughout history across cultural and regional differences. (H and N) (WR)
Prerequisite: non-architecture majors only.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ARC 2180 Introduction to Digital Architecture 3 Credits
Grading Scheme: Letter Grade
Introduces computer-aided design programs currently utilized by professional practices.
Prerequisite: architecture majors only;
Corequisite: ARC 2303 or ARC 4071.

ARC 2201 Theory of Architecture 13 Credits
Grading Scheme: Letter Grade
Critical study of the processes that influence the form and image of architecture with an emphasis on an understanding of ordering principles and concepts of how space and architecture systems are interrelated. (H)
Prerequisite: architecture major.
Corequisite: ARC 2303 or ARC 4071.
Attributes: General Education - Humanities

ARC 2303 Architectural Design 3 5 Credits
Grading Scheme: Letter Grade
Studio course explores the influence of history and culture on design decision-making.
Prerequisite: ARC 1302.

ARC 2304 Architectural Design 4 5 Credits
Grading Scheme: Letter Grade
Explores context as a generator of architectural design ideas. Contemporary cultural influences also are examined and incorporated in the design process.
Prerequisite: ARC 2303.

ARC 2461 Materials and Methods of Construction 1 3 Credits
Grading Scheme: Letter Grade
The nature of materials used in construction. Criteria for evaluation and selection related to design decision-making.
Prerequisite: architecture major.
Corequisite: ARC 2304.

ARC 2490C Intro to Building Technologies 3 Credits
Grading Scheme: Letter Grade
This is the first course in a multiple-course sequence that addresses the relationship between building technologies and design thinking. This class will introduce fundamental concepts of materials and methods relative to building design and construction. It will also offer digital design modules that will develop problem-solving and representational skills.
Corequisite: ARC 2303.

ARC 2491C Integrated Building Tech 1 3 Credits
Grading Scheme: Letter Grade
As the second course in a multi-year integrated building technology sequence, there will be an emphasis on further developing components of materials and methods, digital design and on the introduction of environmental design that will increase the student's understanding of the impact of context and building technologies on design decisions.
Prerequisite: ARC 2490C;
Corequisite: ARC 2304.

ARC 3181 Advanced Topics in Digital Architecture 3 Credits
Grading Scheme: Letter Grade
Continued investigation of computer-aided design programs currently utilized by professional practices.
Prerequisite: ARC 2180.
ARC 3291 Special Studies in Architecture 1-6 Credits  
Grading Scheme: Letter Grade  
Special studies in architecture adjusted to individual needs of undergraduate students.  
Prerequisite: completion of lower division in architecture and recommendation of advisor.

ARC 3320 Architectural Design 5 6 Credits  
Grading Scheme: Letter Grade  
Architectural design and its relationship to regional contectural influences are investigated through a range of projects which vary in scale and complexity.  
Prerequisite: ARC 2304.

ARC 3321 Architectural Design 6 6 Credits  
Grading Scheme: Letter Grade  
Architectural design within a large scale urban context. Theory, methodology and evolution of urban form in response to social, cultural, economic and technological forces.  
Prerequisite: ARC 3320.

ARC 3463 Materials and Methods of Construction 2 3 Credits  
Grading Scheme: Letter Grade  
Methods of assembling and selecting materials, detailed systems of construction are investigated.  
Corequisite: ARC 4323 or ARC 4073.

ARC 3492C Integrated Building Tech 2 6 Credits  
Grading Scheme: Letter Grade  
As the third course in a multi-year integrated building technology sequence, there will be an emphasis on further developing components of environmental design, materials and methods, and building structures, in addition to a digital design module that will concurrently develop student abilities to problem solve and represent ideas.  
Prerequisite: ARC 2491C;  
Corequisite: ARC 3320.

ARC 3493C Integrated Building Tech 3 6 Credits  
Grading Scheme: Letter Grade  
As the fourth course in a multi-year integrated building technology sequence, there will be an emphasis on further developing components of environmental design, materials and methods, and digital design skills that will allow students to apply their knowledge to mid-rise buildings of increasing complexity.  
Prerequisite: ARC 3492C;  
Corequisite: ARC 3321.

ARC 3503 Introduction to Architectural Structures 3 Credits  
Grading Scheme: Letter Grade  
A foundation course that investigates principles of structural behavior in withstanding gravity and lateral forces; consider structural layout, load distribution and preliminary design techniques; and examines contemporary structural systems through case studies emphasizing trussed, framed, funicular and shell structural systems.  
Prerequisite: PHY 2004 or PHY 2053;  
Corequisite: ARC 3320 or ARC 4073.

ARC 3610 Environmental Technology 1 3 Credits  
Grading Scheme: Letter Grade  
Principles and practices relating to control of the thermal/atmospheric environment and to plumbing in buildings.  
Corequisite: ARC 3321 or ARC 4074.

ARC 3743 Architectural History 3 3 Credits  
Grading Scheme: Letter Grade  
A survey of the history of architecture from 1850 to present. Lectures examine the effects of social, political, material, technological and cultural forces on the design and construction of the built environment and explore the role of the architect in civil society. Emphasizes the theoretical positions of the architects and architectural schools.  
Prerequisite: architecture major.  
Corequisite: ARC 3320.

ARC 3880 Sustainable Architecture 3 Credits  
Grading Scheme: Letter Grade  
How environmentalism informs architectural discourses and how discourses on the built environment and urbanism impact environmentalism globally.  
Prerequisite: junior standing or higher or instructor permission.

ARC 4071 Core Studio 1 6 Credits  
Grading Scheme: Letter Grade  
Introduces a variety of design techniques, including design theory, three-dimensional development and spatial relationships.

ARC 4072 Core Studio 2 6 Credits  
Grading Scheme: Letter Grade  
Continuation of core studio sequence with increased emphasis on manipulation of architectural elements.  
Prerequisite: ARC 4071.

ARC 4073 Core Studio 3 6 Credits  
Grading Scheme: Letter Grade  
Continuation of core studio sequence with工作室 projects related to program development, structural integration, energy analysis and introduction to mechanical integration systems.  
Prerequisite: ARC 4072.

ARC 4074 Core Studio 4 6 Credits  
Grading Scheme: Letter Grade  
Continuation of core studio sequence with increased emphasis on complex building types.  
Prerequisite: ARC 4073.

ARC 4220 Architectural Theory 2 3 Credits  
Grading Scheme: Letter Grade  
Investigates the theoretical, historical and ideological ideas in architecture that took place during the early decades of the twentieth century.  
Corequisite: ARC 4322 or ARC 6241.

ARC 4310C Building Information Modeling 3 Credits  
Grading Scheme: Letter Grade  
Emerging technology in building information modeling (BIM) in the context of architectural design development and documentation. Theoretical and technological evolution of different typologies of software with hands-on experience designing and modeling with BIM software.  
Prerequisite: ARC 2180.

ARC 4322 Architectural Design 7 6 Credits  
Grading Scheme: Letter Grade  
Emphasizes the notion of control over architectural design processes needed to arrive at solutions that respond to needs through appropriate use of program development and construction technology. Course emphasizes the complete building as a final product and focuses on the urban and suburban housing project.  
Prerequisite: ARC 3321.
ARC 4323 Architectural Design 8 6 Credits
Grading Scheme: Letter Grade
Architecture designs focus on architectural detail and articulation. An investigation of landscape provides the context for this study.
Prerequisite: ARC 4322.

ARC 4494C Integrated Building Tech 4 3 Credits
Grading Scheme: Letter Grade
Emphasizes the development of structures, materials, and methods, and environmental design skills that apply to high-rise, long-span, and large-scale building design. Provides focus to both the technical knowledge of macro-scale design-drivers and the detail implications of structure, environmental performance, and building assemblies.
Prerequisite: ARC 3493C Integrated Building Technology 3;
Corequisite: ARC 4322 Architecture Design 7.

ARC 4511 Structural Modeling 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamentals of structural modeling including building information modeling (BIM), digital design, and approximate systems analysis and detailing for architectural structures. Students will learn how to efficiently implement building information modeling to organize, coordinate and communicate information to convey data necessary for structural systems.
Prerequisite: ARC 3503.

ARC 4620 Environmental Technology 2 3 Credits
Grading Scheme: Letter Grade
Fundamentals of architectural lighting, acoustics, electrical power distribution and building communications.
Corequisite: ARC 4322 or ARC 6241.

ARC 4684 LEED for Sustainable Design and Construction 3 Credits
Grading Scheme: Letter Grade
Campus projects demonstrate design and construction of high performance buildings and application of green building technologies. Economics and market development associated with the application of green building rating systems, with a focus on LEED. Successful completion helps prepare for LEED V4 Green Associate exam credentials.
Prerequisite: junior standing or higher.

ARC 4882 Vernacular Architecture and Sustainability 3 Credits
Grading Scheme: Letter Grade
Investigates vernacular architecture in the discourse of architectural sustainability with an emphasis on the way that vernacular architecture has been constructed, represented and consumed in the environmental histories of architecture.
Prerequisite: junior standing or higher or instructor permission.

ARC 4930 Special Topics Seminar in Architecture 1-6 Credits
Grading Scheme: Letter Grade
Miscellaneous topics in architecture and related fields.
Prerequisite: junior standing or higher or instructor permission.

ARC 4941 Architectural Education 2 Credits
Grading Scheme: Letter Grade
Provides an awareness of curriculum development, project preparation, program/project presentation, constructive criticism and evaluation techniques.
Prerequisite: ARC 3321.

ARC 4950 Vicenza Institute of Architecture: Italian Language and Culture 3 Credits
Grading Scheme: Letter Grade
Taught through the Vicenza Institute of Architecture, located in Vicenza, Italy. It is intended for architecture students participating in the VIA program. The course establishes a basic level of competency in Italian language and culture as it relates to the architectural goals of the VIA program.
Prerequisite: ARC 3321.

ARC 4951 Vicenza Institute of Architecture: Architectural Design Studio 6 Credits
Grading Scheme: Letter Grade
Architectural design examining the regional contextual relationships found in northern Italy as well as central and southern Europe. Design exercises focus on the immediate relationships of European urban space, ideas of building program and the potential development of architectural details and material systems.
Prerequisite: ARC 3321.

ARC 4952 Vicenza Institute of Architecture: Analytical Sketching 3 Credits
Grading Scheme: Letter Grade
Introduces sketching as an analytical skill in understanding constructed space within the context of Italy’s Veneto region as well as central and southern Europe.
Prerequisite: ARC 3321.

---

**Art + Art History**

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

### School Information

The School of Art + Art History nurtures a culture of critical inquiry in our scholarly and creative work. We empower each individual with knowledge, skills, and insight to engage thoughtfully with our changing world.

**Curriculum**

- Art Education Certificate
- Art History
- Art History Minor
- Art Minor
- Art | BA
- Art | BFA
- Ceramics Certificate
Courses

ARE 2045 Introduction to Teaching Art 3 Credits
Grading Scheme: Letter Grade
Overview of the art-teaching field. Study of rationales for teaching art, contemporary art teaching practices, community art experiences and alternative career options.

ARE 2456 Digital Media in Art Education 3 Credits
Grading Scheme: Letter Grade
Introduces pre-service art teachers to computer applications in the fields of art and art education. Can substitute for EME 2040.
Prerequisite: art education major.

ARE 4242 Teaching Art: the Study of Practice 3 Credits
Grading Scheme: Letter Grade
Studies art-teaching practices in the public schools. Emphasizes art curriculum, planning, art instructional strategies, art room management and methods of evaluation in art.
Prerequisite: junior standing or higher and art education major.

ARE 4243 Principles of Teaching Art 3 Credits
Grading Scheme: Letter Grade
Investigates the contemporary issues in art, education and society that impact teaching art in public schools. Theoretical perspectives and practical strategies are explored for developing content and teaching approaches. (H) (WR)
Prerequisite: junior standing or higher and art education major.
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

ARE 4314 Art Education for Elementary Schools 2-3 Credits
Grading Scheme: Letter Grade
Helps the preparing classroom teacher develop a basic knowledge of art and the teaching of art at the elementary level.
Prerequisite: second-semester standing in the elementary ProTeach program;
Corequisite: ProTeach field experience in the fall and spring semesters.

ARE 4934C Student Teaching Seminar 1 Credit
Grading Scheme: Letter Grade
Addresses various issues and problems associated with student teaching with an emphasis on teaching methods, classroom management and assessment as they arise in actual classroom practice.
Prerequisite: senior standing and art major.
Corequisite: ARE 4940.

ARE 4940 Student Teaching in Art Education 4-12 Credits
Grading Scheme: S/U
Student-teaching classroom experience in art.
Prerequisite: minimum 2.5 GPA and art education major.

ARH 1003 Masterpieces of Art 3 Credits
Grading Scheme: Letter Grade
Provides an appreciation and foundation in visual literacy and introduces students to the special character of the visual arts and to a vocabulary critical to analysis and interpretation of the masterworks of art.

ARH 2000 Art Appreciation: American Diversity and Global Arts 3 Credits
Grading Scheme: Letter Grade
Introduces the visual arts from a global perspective with an emphasis on diversity in the United States. (H and D)
Attributes: General Education - Diversity, General Education - Humanities

ARH 2002 Introduction to Art: the Artistic Experience 3 Credits
Grading Scheme: Letter Grade
Introduces the artistic experience through the examination of different ideas, approaches and purposes of art. Not counted toward the major. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 2050 Introduction to the Principles and History of Art 1 3 Credits
Grading Scheme: Letter Grade
Principles of art and relation of styles to cultural context. Introductory study of art and architecture from ancient times to the end of the Middle Ages. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 2051 Introduction to the Principles and History of Art 2 3 Credits
Grading Scheme: Letter Grade
Continuation of ARH 2050. Art and architecture from the Renaissance to the present. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 2500 Non-Western Art 3 Credits
Grading Scheme: Letter Grade
The visual arts seen in the cultural context of Sub-Saharan Africa, the Pacific, Native America, India, China and Japan; prehistoric to recent. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 2531 Introduction to Asian Art 3 Credits
Grading Scheme: Letter Grade
Introduces asian art through selected topics, monuments, and specimens of its fine arts and material culture. Also introduces the distinctive artistic traditions of China, Korea, Japan, and India, as well as their historical background, interaction and innovation, similarities and differences, to reach a better understanding of asian art.

ARH 2532 Introduction to Asian Art 3 Credits
Grading Scheme: Letter Grade
Introduces asian art through selected topics, monuments, and specimens of its fine arts and material culture. Also introduces the distinctive artistic traditions of China, Korea, Japan, and India, as well as their historical background, interaction and innovation, similarities and differences, to reach a better understanding of asian art.

ARH 2533 Introduction to Asian Art 3 Credits
Grading Scheme: Letter Grade
Introduces asian art through selected topics, monuments, and specimens of its fine arts and material culture. Also introduces the distinctive artistic traditions of China, Korea, Japan, and India, as well as their historical background, interaction and innovation, similarities and differences, to reach a better understanding of asian art.

ARH 2613 Introduction to Latin American Art 3 Credits
Grading Scheme: Letter Grade
Introduces the art of ancient, colonial, and modern Latin America, tracing artistic legacies over 4000 years. Begins with overview of ancient art of Mesoamerica and the Andes, followed by consideration of art of the colonial era. Then addresses art of modern and contemporary Latin America, including Brazil and the Caribbean.
Attributes: General Education - Humanities

ARH 2930 Special Topics in Art History 3 Credits
Grading Scheme: Letter Grade
Special topics in art history. (H)
Attributes: General Education - Humanities
ARH 3115 Egyptian and Near Eastern Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of Egypt and the Near East from the beginning of civilization until the Persian period. (H and N)
Prerequisite: ARH 2050 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 3130 Greek Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of ancient Crete and Greece through the Hellenistic age. (H and N)
Prerequisite: (ARH 2050 or CLA 3700) and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 3171 Etruscan and Roman Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of the Italian peninsula from the Etruscan period through the Roman Empire. (H and N)
Prerequisite: (ARH 2050 or CLA 3700) and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 3357 Global Baroque Art 3 Credits
Grading Scheme: Letter Grade
Studies Baroque and Rococo art from a global perspective, considering how and why the style appeared in so many regions (even those with no Roman and/or Renaissance heritage) and what its distinct meanings were. Also examines the origins of the concepts of the Baroque and Rococo.
Prerequisite: ARH 2050 or ARH 2051.

ARH 3412 Art in the Age of Revolution 3 Credits
Grading Scheme: Letter Grade
Topics in the late 18th and early 19th century European art, including Neo-Classicism and Romanticism. Works of art are considered in the cultural, political, social and aesthetic contexts in which they were made. Emphasizes the politics of style during this period of revolution and resection. (H) (WR)
Prerequisite: ARH 2051 or art major or art history minor.
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ARH 3413 The Beginnings of Modernism 3 Credits
Grading Scheme: Letter Grade
The visual arts in Europe in the second half of the 19th century, focusing on the emergence of an avant-garde and formulation of a modernist aesthetic with reference to industrialized, urban culture, especially in Paris. Addresses Realism, Impressionism and Post-Impressionism. (H) (WR)
Prerequisite: ARH 2051 or art major or art history minor.
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ARH 3513 Art, Culture and Power in Africa 3 Credits
Grading Scheme: Letter Grade
Explores the many ways in which power operates through objects in Africa. It examines the symbolic and literal power of royal regalia; the religious/spiritual power of objects used in ritual contexts; and the power that surrounds objects as they are transformed into commodities in international art markets. (WR)

ARH 3522 Contemporary African Art 3 Credits
Grading Scheme: Letter Grade
Examines contemporary African artistic production and its reception in international markets.
Prerequisite: (School of Art + Art History major or minor) or instructor permission.

ARH 3523 Clothing and Textiles in Africa 3 Credits
Grading Scheme: Letter Grade
Examines the techniques, styles, and cultural contexts of textiles and other elements of dress in Africa, past and present.
Prerequisite: (School of Art + Art History major or minor) or instructor permission.

ARH 3525 The Arts of West Africa 3 Credits
Grading Scheme: Letter Grade
A survey of the traditional arts of the Western Sudan and the Guinea coast. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 3526 The Arts of Central Africa 3 Credits
Grading Scheme: Letter Grade
Surveys the traditional arts of the equatorial forests, the savannahs to the south of them and portions of Eastern and Southern Africa. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 3552 Chinese Art and Archaeology 2000 BCE 3 Credits
Grading Scheme: Letter Grade
Art and material culture from the Neolithic to the Tang Dynasty: palaces and tombs, religious art and the rise of new media and technologies. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 3555 Late Imperial and Modern Chinese Art, 1907 - present 3 Credits
Grading Scheme: Letter Grade
The arts and culture of China from five Dynasties to the present in all media, including architecture, painting, sculpture and luxury crafts. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 3562 Text and Image in Chinese Art 3 Credits
Grading Scheme: Letter Grade
Studies general art historical theories on the dialectics of text and Image into Chinese art history by examining the origins, the early development, and the relationship between the word and image, picture and narrative, diagram and text, and other visual and verbal arts in traditional and modern China.
Prerequisite: sophomore standing or higher.

ARH 3585 The Arts of Oceania 3 Credits
Grading Scheme: Letter Grade
Surveys the visual arts of Oceania (Polynesia, Micronesia, Melanesia) within the context of the cultures that produced them. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 3586 Text and Image in Chinese Art 3 Credits
Grading Scheme: Letter Grade
Studies general art historical theories on the dialectics of text and Image into Chinese art history by examining the origins, the early development, and the relationship between the word and image, picture and narrative, diagram and text, and other visual and verbal arts in traditional and modern China.
Prerequisite: sophomore standing or higher.

ARH 3585 The Arts of Oceania 3 Credits
Grading Scheme: Letter Grade
Surveys the visual arts of Oceania (Polynesia, Micronesia, Melanesia) within the context of the cultures that produced them. (H and N)
Attributes: General Education - Humanities, General Education - International
ARH 3601 American Art 3 Credits  
**Grading Scheme:** Letter Grade  
**Architecture, painting, sculpture, and decorative arts in Anglo-America from their 17th century beginnings to the end of the 19th century. (H) (WR)**  
**Prerequisite:** ARH 2051 and (art major or art history minor).  
**Attributes:** General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ARH 3614 Indigenous Arts of the Colonial Americas 3 Credits  
**Grading Scheme:** Letter Grade  
Examines art created by indigenous people in the Americas during the colonial period, i.e., the centuries postdating 1492. While keeping in mind the European (as well as African and Asian) influences on this art, the course looks at indigenous artworks from native perspectives within their historical contexts of colonialism.  
**Prerequisite:** Any ARH 2000-level course.

ARH 3620 American Art 1876-1945 3 Credits  
**Grading Scheme:** Letter Grade  
Focuses on painting and sculpture as well as architecture, photography and visual culture. (H) (WR)  
**Prerequisite:** ARH 2051 or art major or art history minor.  
**Attributes:** General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ARH 3622 Introduction to African-American Art 4 Credits  
**Grading Scheme:** Letter Grade  
Introduces the study and appreciation of African-American art.  
**Prerequisite:** ARH 2051 or art major or art history minor.

ARH 3631 African American Art 1600 to Present 3 Credits  
**Grading Scheme:** Letter Grade  
Survey of visual arts produced by people of African descent in North America from colonial era to present. (H and D) (WR)  
**Prerequisite:** ARH 2051 or art major or art history minor.  
**Attributes:** General Education - Diversity, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ARH 3652 Ancient Andean Art 3 Credits  
**Grading Scheme:** Letter Grade  
Art and architecture of Pre-Columbian Lower Central and South America focusing on the Andean Indian civilizations. (H and N)  
**Attributes:** General Education - Humanities, General Education - International

ARH 3653 MesoAmerican Art 3 Credits  
**Grading Scheme:** Letter Grade  
Art and architecture of Pre-Columbian civilizations of Mexico and the Maya area from 3000 B.C. until the Spanish Conquest in A.D. 1521. (H and N) (WR)  
**Attributes:** General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

ARH 3661 Latin American Art 3 Credits  
**Grading Scheme:** Letter Grade  
The architecture, painting, sculpture and important minor arts of colonial and modern Latin America. (H and N)  
**Prerequisite:** ARH 2051 and (art major or art history minor).  
**Attributes:** General Education - Humanities, General Education - International

ARH 3664 Colonial Art of New Spain 3 Credits  
**Grading Scheme:** Letter Grade  
Examines the colonial art of Mexico and other territories within the Spanish Viceroyalty of New Spain. Focused on the viceregal period (1535-1821), the course also considers art from the periods of European contact and Spanish conquest and concludes with art from the independence period.  
**Prerequisite:** ARH 2051 and (art major or art history minor).

ARH 3665 Colonial Andean Art 3 Credits  
**Grading Scheme:** Letter Grade  
Examines the colonial art of Peru, Ecuador, Bolivia and other territories within the Spanish Viceroyalty of Peru. Focused on the viceregal period (1542-1824), the course also considers art from the periods of European contact and Spanish conquest and concludes with art from the independence period.  
**Prerequisite:** ARH 2051 and (art major or art history minor).

ARH 3678 Modern and Contemporary Art from Latin America 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces the modern and contemporary art of Latin America with topics such as the emergence and establishment of a modern canon, experimentations in surrealism, neo-concretism, conceptual art, and performance.  
**Prerequisite:** sophomore standing or higher.

ARH 3727 History of American Illustration 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces the history of illustration in America from the colonial period to the present. In addition to presenting major illustrators, the course provides artistic, technological and cultural contexts for understanding the functions and meaning of illustration at different historical moments.  
**Prerequisite:** ARH 2051 recommended.

ARH 3800 Criticism of Art 3 Credits  
**Grading Scheme:** Letter Grade  
Reviews principal theories in the history of criticism. Analysis and evaluation of works of art. Problems in the criticism of contemporary art. Required for art history majors. (H)  
**Prerequisite:** (ARH 2050 and ARH 2051) and (art major or art history minor).  
**Attributes:** General Education - Humanities

ARH 3810 Methods of Research in Art History 3 Credits  
**Grading Scheme:** Letter Grade  
Provides sophomore and junior art history majors with a foundational overview of the methods and theories of art history and a practical roadmap for researching and writing an art history paper.  
**Prerequisite:** ARH 2050 and ARH 2051 and (Bachelor of Arts or Art History Minor).

ARH 3871 Gender, Representation and the Visual Arts, 1600-1900 3 Credits  
**Grading Scheme:** Letter Grade  
Considers historical and theoretical issues posed for visual media by attention to issues of gender, with particular emphasis on women artists. (H and D) (WR)  
**Prerequisite:** ARH 2051 or instructor permission.  
**Attributes:** General Education - Diversity, General Education - Humanities, Satisfies 2000 Words of Writing Requirement
ARH 4112 Artistic Exchange from Baghdad to Toledo, 632-1453 3 Credits
Grading Scheme: Letter Grade
Examines art created by diverse communities centered on the Mediterranean in the long Middle Ages. Focuses particularly on artworks that were produced for or subject to cultural exchange via travel, trade, diplomatic gift, or plunder; and on sites of cultural contact such as Al-Andalus, Norman Sicily, and eastern Anatolia.
Prerequisite: ARH 2050.

ARH 4135 Greek Sculpture 3 Credits
Grading Scheme: Letter Grade
Greek sculpture from its beginnings in the Geometric period through the Hellenistic period. (H and N)
Prerequisite: (ARH 2050 or CLA 3700) and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4200 Early Medieval and Byzantine Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of Europe and the Mediterranean region from approximately the 4th to the 14th centuries A.D. (H and N)
Prerequisite: ARH 2050 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4251 Romanesque and Gothic Art 3 Credits
Grading Scheme: Letter Grade
Art and architecture of Europe during the Romanesque and Gothic periods. (H and N)
Prerequisite: ARH 2050 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4304 Italian Renaissance Architecture 3 Credits
Grading Scheme: Letter Grade
The architecture of the Italian Renaissance from the mid-14th century through the mid-16th century. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4310 Early Renaissance Art in Italy 3 Credits
Grading Scheme: Letter Grade
Italian art from 1200 to 1500. Emphasis upon painting and sculpture. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4312 Late Renaissance Art in Italy 3 Credits
Grading Scheme: Letter Grade
Continuation of ARH 4310. Italian art and architecture from 1460 to 1590. Emphasis on painting and sculpture. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4331 Renaissance Art in Northern Europe 3 Credits
Grading Scheme: Letter Grade
Sources and development of late 14th, 15th and 16th century art outside Italy. Emphasis on painting and prints. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4332 The Religious Image in the Renaissance and Reformation 3 Credits
Grading Scheme: Letter Grade
Art produced for devotional and liturgical use in the 15th and 16th centuries with particular attention to the period debate over the proper role for images in worship and society. Addresses altar pieces, personal devotion, pilgrimage, iconoclasm and the Reformation.
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).

ARH 4350 Baroque Art in Europe 3 Credits
Grading Scheme: Letter Grade
Continuation of ARH 4311-4331. European art and architecture in the 17th and 18th centuries. Emphasis on painting and sculpture. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4352 Baroque Rome 3 Credits
Grading Scheme: Letter Grade
Examines sculptors, painters and architects working in Rome between the period of 1564 and 1750 and considers the art of Bernini, Caravaggio and Borromini and many more major artists who made Rome the art capital of the world in the seventeenth century.
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).

ARH 4356 French Art of the Ancien Regime 1650-1780 3 Credits
Grading Scheme: Letter Grade
Deals with major artists, artistic movements, works and issues in art theory and criticism in Europe from the late 17th century to the 1780s. Special emphasis is given to painting in France and to the reaction against the Rococo. (H and N) (WR)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International, Satisfies 4000 Words of Writing Requirement

ARH 4359 Eighteenth Century European Art Seminar 3 Credits
Grading Scheme: Letter Grade
Topics in 18th century European art.
Prerequisite: ARH 2051 and (art major or art history minor).

ARH 4370 European Decorative Arts 1400-1600 3 Credits
Grading Scheme: Letter Grade
Tapestry, ceramics, glass, metalwork, furniture and interior design considered in the cultural, social and economic context of Renaissance, Baroque and Enlightenment Europe. Examines role of objects in the arrangement and use of spaces designed for daily and ceremonial life.
Prerequisite: ARH 2051 and (art major or art history minor).

ARH 4450 Early Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
European and American art from Post-Impressionism to 1945. Emphasis on painting and sculpture. (H)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities
ARH 4453 Mid-Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
Emphasis on international art from the 1940s through the 1960s. (H)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities

ARH 4457 Global Surrealisms 3 Credits
Grading Scheme: Letter Grade
Explores the history of surrealism, considering the birth of the movement in Paris in 1924, its global spread throughout the early- and mid-twentieth century, and its legacies on contemporary art today. Learn how various surrealist artistic strategies were adapted and developed in different transnational contexts and consider how surrealism's political commitments traverse and expand past national boundaries.
Prerequisite: 6 ARH credits or senior standing.

ARH 4471 Late Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
Continuation of mid-twentieth century art (ARH 4453). International art and American diversity in art from about 1970 to the present.
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4514 Arts of Southern Africa 3 Credits
Grading Scheme: Letter Grade
Focuses on diverse regions, time periods and genres in the visual arts in southern Africa, with particular attention to the arts of South Africa. It explores art in archaeological contexts, arts associated with indigenous cultures, art that emerged out of encounters with European cultures and contemporary arts. (H and N)

ARH 4533 Asian Monuments and Heritage Conservation 3 Credits
Grading Scheme: Letter Grade
Introduces the theories and basic issues in the studies of monuments in Asian art. Course provides a solid grounding in both the theories and practices of heritage conservation so that students can reach a better understanding of the artistic, social and political elements in the making of monuments.

ARH 4559 Archaeology of Death in Ancient China 3 Credits
Grading Scheme: Letter Grade
Explores death-ritual and burial in China's classical period (800 BCE-200 CE) from archaeology's comparative perspective. It offers an interdisciplinary approach to the religious dimensions of mortuary practices in the Warring States, Qin and Han China.

ARH 4710 History of Photography 3 Credits
Grading Scheme: Letter Grade
Surveys major technical, stylistic, and critical directions in photography from the 19th century to the present. (H and N)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4744 History of Art Film and Video 3 Credits
Grading Scheme: Letter Grade
Introduces the history of art, film and video art practices in the 20th century.
Prerequisite: ARH 2051.

ARH 4861 Colonialism, Collecting, and the Visual Documentation of the Past 3 Credits
Grading Scheme: Letter Grade
Examine the histories of archaeology and collecting from the nineteenth century to today; study the visual documentation of the past before and after the invention of photography and digital imaging technologies.
Prerequisite: ARH 2050.

ARH 4870 Gender and Sexuality in the Avant-Garde 3 Credits
Grading Scheme: Letter Grade
Explores issues of gender and sexuality across the historical avant-gardes in Europe and North America. Students learn about the work of various women and queer-identified artists, and consider how issues of gender, race, and sexuality inform its production and reception.
Prerequisite: 6 ARH credits or senior standing.

ARH 4882 Art and Colonialism: Focus on Africa 3 Credits
Grading Scheme: Letter Grade
What does visual art reveal about European and African experiences of colonial rule? Along with the famous history of African arts influence on European modern art, this course investigates the African response to colonial power and addresses contemporary manifestations of this history in the postcolonial museum worlds of Europe and Africa.
Prerequisite: ARH 2500 or (junior status or higher with an Art History major or African Studies minor).

ARH 4905 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
With consent of faculty, students can take this course under special circumstances: student needs a specific course for the degree and the class in not offered or student (senior) wishes to explore an area of inquiry in greater depth after completing all 3000-level courses in their major.
Prerequisite: art or art history major and department permission.

ARH 4930 Special Topics in Art History 1-3 Credits
Grading Scheme: Letter Grade
Rotating special topics in art history.
Prerequisite: ARH 2050 or ARH 2051 and (art major or art history minor).

ARH 4931 Art History Seminar 3 Credits
Grading Scheme: Letter Grade
In-depth discussion of selected field of art, either a period and area or a topic. Analysis of art-historical writings through class presentations and written papers. Offered by members of the art history faculty on alternating basis.
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).

ARH 4940 Internship 3 Credits
Grading Scheme: S/U
Supervised practical experience with an art, graphic design or museum facility according to an approved program. Special seminar and evaluation sessions with faculty advisor and art facility manager. (S-U)
Prerequisite: arrangement with art advisor and chair and dean permission.

ART 1010C Non-Major Photography: Imaging Society, Culture and Diversity in America 3 Credits
Grading Scheme: Letter Grade
In this course for non-majors, students use photographs they make to spur discussions about how photography shapes U.S. culture, diversity, and history. Through hands-on projects, critical readings, online lectures, quizzes and small-group discussions, students develop skills to create and understand engaging and conceptually rich photography.

</thead>
<tbody>
<tr>
<td>ART 1803C</td>
<td>Workshop for Art Research and Practice: WARP 6 Credits</td>
<td>Interdisciplinary, team-taught introductory course pairing studio experiences in a wide variety of media with introduction to concepts, theories and practices in contemporary art. In-depth exploration of creative processes, artistic integrity and the nature of artistic meaning.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2013C</td>
<td>Space Studio 3 Credits</td>
<td>A project-based studio foundation course for spatial investigations where students will explore methods for defining space, conceptualizing space, three-dimensional design strategies, form development and an overview of concepts that shape the contemporary artists' understandings of form and space.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2030C</td>
<td>Introduction to Painting 3 Credits</td>
<td>Investigates the visual language of painting and introduces the fine arts major to techniques and concepts relevant to painting including a comprehensive study of lights and darks, color.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2305C</td>
<td>Perceptual Drawing 3 Credits</td>
<td>Introduces descriptive drawing. Basic theories of observation and depiction including perspective and chiaroscuro.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2330C</td>
<td>Figure Drawing 1 3 Credits</td>
<td>Introduces drawing the male and female figure from a live model using a variety of art materials, techniques and artistic approaches.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2353C</td>
<td>Drawing Studio 3 Credits</td>
<td>Development of drawing, design, philosophical and critical skills for making observational and expressive works in drawing media.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2374C</td>
<td>Drawing: Movement and Motion 3 Credits</td>
<td>Introduces the principles of visual movement in 2D art as well as the depiction of figurative gesture in drawing.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2401C</td>
<td>Printmaking: Color Theory 3 Credits</td>
<td>Basic monoprint technique, methods and materials. Color theory as applied to printmaking and other art media.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2468C</td>
<td>Printmaking: Figure Ground 3 Credits</td>
<td>Explores figure ground theory as related to 2D visual design and picture making. Basic skills in relief printing and Linocut-woodcut.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2500C</td>
<td>Painting: Investigations in Black and White 3 Credits</td>
<td>The organization of lights and darks in design and pictorial applications. Basic painting techniques in oil, acrylic and gouache.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2501C</td>
<td>Painting: Investigations in Color 3 Credits</td>
<td>Investigates color interaction and its role in pictorial composition. Exploration of color and light as well as the expressive use of color in painting.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>

<td>ART 2503C</td>
<td>Painting from Observation 3 Credits</td>
<td>Exercises and projects in seeing and painting. Emphasis on depicting of form, space and light.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2620C</td>
<td>Net Art 3 Credits</td>
<td>Explores practical and theoretical issues related to the Internet as a medium for making art rather than as a tool for delivering information. Emphasizes the creation of dynamic and interactive experiences on the web that integrate video, graphics, animation, sound, image, and typography.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> ART 1803C and (BFA Art or BA Art or BFA Graphic Design).</td>
<td></td>
</tr>
<tr>
<td>ART 2680C</td>
<td>Time Studio 3 Credits</td>
<td>Introduces the concepts of time-based, participatory art practice through animation, video, sound, performance, and installation. Students create artwork that explores linear and non-linear narrative, seriality, context, embodiment, virtuality, and networks. Aesthetic, technical, historical, and conceptual issues within the context of contemporary art and theory will be addressed through lectures, demonstrations, exercises, projects, screenings, research, and readings.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2701C</td>
<td>Sculpture: Shaping Form and Space 3 Credits</td>
<td>Investigates the co-shaping of form and space in full three dimensions. Emphasis on additive and subtractive processes.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2702C</td>
<td>Sculpture: Gravity and Buoyancy 3 Credits</td>
<td>Based on objects that float, inflate or suspend; examines weight, mass, and space as artistic phenomena and includes instruction in appropriate construction techniques.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2704C</td>
<td>Figurative Ceramics 3 Credits</td>
<td>Introduces figure sculpture and life modeling using fired clay; techniques include building, surfacing and firing. Includes perceptual studies from model and concept development, centering on using the figure as a vehicle for personal expression. Class format includes slide and video presentations, a life model sequence and critiques.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2750C</td>
<td>Ceramics for Non-Majors 3 Credits</td>
<td>A studio based introductory course that teaches ceramic art through techniques of handforming.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
<tr>
<td>ART 2752C</td>
<td>Throwing: Skills and Concepts 3 Credits</td>
<td>Introduces wheel throwing, pottery from, functional design and aesthetics.</td>
<td>Letter Grade</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Prerequisite:</strong> Must be BFA Art or BA Art or BFA Graphic Design.</td>
<td></td>
</tr>
</tbody>
</table>
ART 2757C Ceramics: 3D Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces three-dimensional form and design concepts using fired clay; includes hand-forming techniques, an introduction to glazing (fired color) and electric kiln firing.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.
ART 2770C Ceramics for Non-Majors: Wheel Throwing 3 Credits
Grading Scheme: Letter Grade
Introduces the making of functional vessels on the potters wheel as expressive art. Focuses on throwing skills and three-dimensional design concepts related to the functional ceramic vessel and creative problem-solving. Provided technical information supports an understanding of forming, surfacing, glazing, and firing.
ART 2777C Ceramics Skills and Concepts - Sculpture 3 Credits
Grading Scheme: Letter Grade
Introduces ceramic sculpture, sculpture techniques and processes using fired clay supported by design and idea development. Modeling and carving, slab fabrication and coil-building, color and surfacing through glazing and firing support, creative expression and communication of personal ideas.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.
ART 2777C Ceramics Skills and Concepts: Vessel 3 Credits
Grading Scheme: Letter Grade
Introduces conceptualization and expression of personal ideas using the vessel as an art form: functional design and aesthetics, formation and communication of personal ideas through design, clay as a material, technical handbuilding and wheel throwing forming methods, surfacing methods, and firing of work.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.
ART 2825C Perceptual Studio 3 Credits
Grading Scheme: Letter Grade
Questions and expands an understanding of seeing and how seeing is informed by physical, psychological, and ideological systems. Emphasizes experimentation and research focused on contemporary art and 2D design practices and theories to strengthen visual organization through hand, lens, and digital processes.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.
ART 2826C The Culture of the Image 3 Credits
Grading Scheme: Letter Grade
Introduces the critical processes by which images acquire meaning, and how artists and artworks produce knowledge. Provides an overview of visual representation that facilitates understanding of the issues involved in the production, distribution, and reception of images.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major.
ART 2930C Special Topics in Art 3 Credits
Grading Scheme: Letter Grade
Rotating special topics in studio art and studio practice.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.
ART 2934C Special Topics in Studio Art for Non-Art Majors 3 Credits
Grading Scheme: Letter Grade
Rotating topics in introductory studio art and studio practice for non-art majors. This course cannot count toward degree requirements for any majors in the School of Art + Art History.
Prerequisite: non-art major or non-art history major.
ART 2936C Rotating Topics in Drawing for Non-Art Majors 3 Credits
Grading Scheme: Letter Grade
Use dynamic drawing techniques and approaches to explore contemporary art and connections across disciplines.
Prerequisite: non-art major or non-art history major.
ART 3043C Interdisciplinary Mixed Media: Painting, Drawing, Photo 3 Credits
Grading Scheme: Letter Grade
Inter-media mixed media dissolves the normal boundaries between painting, drawing, and photography. Students identify a core idea or sensibility that is the essence of who they are as an artist and then are required to work in at least the three media: painting, drawing, and photography.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
ART 3310C Color Drawing 3 Credits
Grading Scheme: Letter Grade
Explores color theory and color usages in drawing. Emphasis on techniques, strategies and materials.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
ART 3311C Thematic Projects in Drawing 3 Credits
Grading Scheme: Letter Grade
Intermediate-level emphasis of conceptual strategies and image construction through the lens of themes in film, literature, and art using color drawing media.
Prerequisite: (ART 2353C or ART 2305C or ART 2374C or ART 2330C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.
ART 3332C Figure Drawing 2 3 Credits
Grading Scheme: Letter Grade
Comprehensive study of the figure from observation of live models. Study of anatomy, composition and conceptual strategies.
Prerequisite: ART 2330C Figure Drawing 1 and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.
ART 3380C Experimental Drawing 3 Credits
Grading Scheme: Letter Grade
Exposure to unfamiliar materials and techniques both antique and modern. Invention strategies and contemporary motivating factors explored.
Prerequisite: (ART 2353C or ART 2305C or ART 2374C or ART 2330C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.
ART 3381C Sketch Journal: Uses and Development 3 Credits
Grading Scheme: Letter Grade
Historic and contemporary uses of sketch journals. Exploration of notation, studies, invention and conceptualization in sketchbook drawing techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
ART 3420C Printmaking: Lithography 3 Credits
Grading Scheme: Letter Grade
Studio and print shop training in lithographic technique, including plate and stone methods. Emphasis on continued conceptual development.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
ART 3433C Screen Printing 3 Credits  
Grading Scheme: Letter Grade  
Explores screen printing techniques utilizing drawn and photo-generated stencil processes.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3442C Printmaking: Intaglio 3 Credits  
Grading Scheme: Letter Grade  
Studio training in this basic printmaking process including dry point, etching and color intaglio. Continued emphasis on artistic inquiry.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3462C Print Photo Intaglio 3 Credits  
Grading Scheme: Letter Grade  
Application of film and digital photography to printmaking media utilizing intaglio printmaking.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3504C Painting: Structure and Transformation 3 Credits  
Grading Scheme: Letter Grade  
Examines form and structure theory in painting and its application in development of idea and painterly process.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3521C Site-Specific Painting Studio 3 Credits  
Grading Scheme: Letter Grade  
Explores the relationship between painting and architecture as well as developments in the field of unheroic or provisional painting.  
Prerequisite: (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3522C Painting: Exploring the Series 3 Credits  
Grading Scheme: Letter Grade  
Development of idea through the creation of series, groups and suites.  
Prerequisite: (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3560C Figure Painting 3 Credits  
Grading Scheme: Letter Grade  
The human figure serves as a formal and expressive motif as well as a departure point for creating individual painting statements.  
Prerequisite: (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3561C Projects in Painting: Experiments in Media 3 Credits  
Grading Scheme: Letter Grade  
Students contract with their instructor to create a body of work in painting, experimenting with materials and methods related to disciplines in painting.  
Prerequisite: (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3615C Digital Art and Animation 2 3 Credits  
Grading Scheme: Letter Grade  
Explores 3D modeling techniques and tools; Students will learn advanced animation techniques using 3D software that builds upon skills acquired from Digital Art and Animation 1.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3616C Digital Art and Animation 1 3 Credits  
Grading Scheme: Letter Grade  
Explores time-based computer art including animation, interactive and Internet-based projects.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3711C Sculpture: Materials and Methods 3 Credits  
Grading Scheme: Letter Grade  
Problems in sculptural form and composition with work in plaster, clay, metal and other materials.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3712C Sculpture: Concepts and Strategies 3 Credits  
Grading Scheme: Letter Grade  
Continues the emphasis on sculptural materials such as mixed media, metal fabrication, and casting.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3730C Machine Sculpture 3 Credits  
Grading Scheme: Letter Grade  
Explores the boundaries of physical and electronic media including the use of sound, light, computers and motion in sculpture.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3734C Sculpture Metals 3 Credits  
Grading Scheme: Letter Grade  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3764C Ceramic Sculpture 1 3 Credits  
Grading Scheme: Letter Grade  
Investigates the intermediate level of technical, conceptual and aesthetic issues involved with sculpting using ceramic materials. Students will learn to use sculptural form to convey ideas based on contemporary culture. Projects focus on the use of low-fire materials, image development and glaze electric fired to enhance sculpture.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3768C Ceramic Sculpture 2 3 Credits  
Grading Scheme: Letter Grade  
Investigates the intermediate level in experimental sculpture processes using fired clay, plaster and latex mold-making as well as technical and aesthetic explorations with large scale works. Historical and contemporary precedents of ceramic sculpture are presented. Concept development and expression through sculptural form are core elements in the course.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
ART 3783C Ceramic Design 3 Credits
Grading Scheme: Letter Grade
Investigates the intermediate level of technical, aesthetic, and conceptual issues in ceramics. Study the formulation of clay and preparation of glaze materials with an emphasis on personalized expression through the ceramic design process.
Prerequisite: ART 2752C and must be (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3784C Vessel Aesthetic 2 3 Credits
Grading Scheme: Letter Grade
Investigates the intermediate level of technical, aesthetic and conceptual issues in pottery. Students study the formulation and use of color in glaze materials. Emphasis on personalized expression through vessel surface techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3807C Interdisciplinary Studio 3 Credits
Grading Scheme: Letter Grade
Critical thinking, problem solving, and creative activity in collaboration and cross media art-making.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3842C Performance and Installation 3 Credits
Grading Scheme: Letter Grade
Explores the complex relationships among object, body, site, space, and architecture using various visual media in the creation of installation and performance art.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3857C Professional Practices 3 Credits
Grading Scheme: Letter Grade
An introduction to creative professional practices including research proposals, exhibition planning, website development, graduate school applications and more. Integrating on campus resources, students will be introduced to the skills sets necessary for developing a sustainable career in visual art.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3870C Interdisciplinary Studio 3 Credits
Grading Scheme: Letter Grade
Studies masterpieces from the Harn through observation and research investigating intensions, meanings, and technical processes. Examines why and how various cultures developed unique styles and approaches. Students reinterpret global masterpieces through choice of media and must have passed sophomore portfolio review.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3892 Art and Theory 3 Credits
Grading Scheme: Letter Grade
Introduces the study of art theory, focusing on its applications to the analysis, contextualization, and production of art, film, and popular culture.
Prerequisite: Must be a BFA Art or BA Art or BFA Graphic Design major, and must have passed sophomore portfolio review.

ART 3930C Special Topics in Studio Art for Non-Art Majors 3 Credits
Grading Scheme: Letter Grade
Rotating topics in studio art and studio practice for juniors and seniors not majoring in art. This course cannot count toward any major within the School of Art and Art History.
Prerequisite: junior or senior level.

ART 3959C Video Art 3 Credits
Grading Scheme: Letter Grade
Explores video with an emphasis on editing and building a personal vocabulary through the electronic image.
Prerequisite: ART 2680C and must be a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 4312C Advanced Drawing 6 Credits
Grading Scheme: Letter Grade
Emphasizes individual and creative expression.
Prerequisite: ART 3310C and ART 3332C and ART 3380C and ART 3381C.

ART 4402C Advanced Printmaking 3-6 Credits
Grading Scheme: Letter Grade
Advanced problems in creative printmaking.
Prerequisite: ART 3442C, ART 3420C and ART 3443C.

ART 4505C Advanced Painting 6 Credits
Grading Scheme: Letter Grade
Emphasizes individual creative expression.
Prerequisite: ART 3522C and ART 3560C and ART 3561C.

ART 4612C Digital Media Workshop 3 Credits
Grading Scheme: Letter Grade
Bridges the study of digital media and broadly envisioned professional practices in the field. Emphasis on portfolio and project development for transition to advanced study or professional, expressive or applied practices in integrated media.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4630C Video Art: Advanced Projects 3 Credits
Grading Scheme: Letter Grade
Focuses on the completion of larger scale student-directed projects with a special emphasis on pre-production planning and advanced editing techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4631C Computer Art: Advanced Projects 6 Credits
Grading Scheme: Letter Grade
Advanced work in computer-mediated art, including animation and interactive works in both the physical and virtual domain, with special emphasis on completion of larger scale student-directed projects.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4639C Advanced Experiments in Art and Technology 3 Credits
Grading Scheme: Letter Grade
Special topics course that explores new forms of digital media production. Topics reflect emerging forms of digital media.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
ART 4642C Digital Fabrication 3 Credits  
Grading Scheme: Letter Grade  
Interdisciplinary studio combines in-depth analysis of the role of the physical object in diverse conceptual art practices with project-based experimentation using rapid prototyping and manufacturing technologies.  
Prerequisite: Must have passed sophomore portfolio review.

ART 4645C Sensors and Electronics-Based Art 3 Credits  
Grading Scheme: Letter Grade  
Physical computing HCI (human computer interaction) explores how devices respond to and interact with human physical action. Students will create artwork that explores physical interfaces beyond mouse/keyboard/screen interactions through the use of microcontrollers and sensors.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4710C Advanced Sculpture 6 Credits  
Grading Scheme: Letter Grade  
Advanced problems in sculptural form with development of processes and techniques.  
Prerequisite: ART 3711C and ART 3712C.

ART 4760C Advanced Ceramics 3-6 Credits  
Grading Scheme: Letter Grade  
Focuses on advanced technical and creative concepts with emphasis on developing personal work and professional practices preparation.  
Prerequisite: ART 3783C and ART 3764C and ART 3768C and ART 3784C.

ART 4828C Senior Studio 3 Credits  
Grading Scheme: Letter Grade  
Senior Studio is designed to support students to articulate, challenge, and refine their individual art practices in a mentored open studio environment.  
Prerequisite: Must be a Senior BFA Art or BA Art major and must have passed sophomore portfolio review and be in final year of study.

ART 4848C Installation Using Digital Processes 3 Credits  
Grading Scheme: Letter Grade  
Explores site specificity and intervention in 3D space through installation, using digital media to understand concepts such as sequence, narration, scoring, interactivity, motion and recursion.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4858C Presentation of Practices 3 Credits  
Grading Scheme: Letter Grade  
Provides a platform for presenting research/creative work in public forums and venues. Also provides a framework to understand the professional best practice expectations and develop the skills necessary in planning, creating, documenting, publicizing, and exhibiting/presenting creative work.  
Prerequisite: Must be a Senior BFA Art or BA Art major and must have passed sophomore portfolio review and be in final year of study;  
Corequisite: ART 4828C.

ART 4883C Making and Meaning 3 Credits  
Grading Scheme: Letter Grade  
Explores the creation of art in combination with non-art related research. Develop a deeper connection with created artwork and discover how the act of making can reveal both intentions and underlying motives.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4905C Individual Study 1-3 Credits  
Grading Scheme: Letter Grade  
With consent of faculty, students can take this course for special circumstances: student needs a specific course for the degree and the class is not offered or student (senior) wishes to explore an area of inquiry in greater depth after completing all 3000-level courses in their major.  
Prerequisite: senior-level art major and arrangement by and permission of the art advisor and director.

ART 4930C Special Topics in Studio Practice 1-6 Credits  
Grading Scheme: Letter Grade  
Rotating special topics in studio art and studio practice.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4940 Internship 3 Credits  
Grading Scheme: S/U  
Supervised practical experience with an art, graphic design or museum facility according to an approved program. Special seminar and evaluation sessions with faculty advisor and art facility manager. (S-U)  
Prerequisite: arrangement with art advisor and chair and dean permission.

ART 4955C Senior Project 1-3 Credits  
Grading Scheme: Letter Grade  
Visual verification of artistic qualifications for BFA degree. Preparations and activities (exhibition, portfolio, installation, etc.) to be determined in consultation with faculty advisor.  
Prerequisite: senior-level art major.

DIG 2021 Foundations of Digital Culture 3 Credits  
Grading Scheme: Letter Grade  
Interdisciplinary overview of the technological and cultural developments that continue to shape the modern world. Student research covers topics including telecommunications, digital and analog technologies, video games, computer-generated entertainment and the rise of social media. (WR)  
Attributes: Satisfies 4000 Words of Writing Requirement

DIG 2131C Digital Imaging 3 Credits  
Grading Scheme: Letter Grade  
Emphasizes the aesthetic and conceptual practices of image making using digital media. An exploration of a range of processes, concepts and theories including scanning, printing, image manipulation and color correction. Course emphasizes color theory and its application to image construction and expression.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

DIG 2282C Time-based Media 3 Credits  
Grading Scheme: Letter Grade  
Introduces the basic practices of time-based media, including animation and video with emphasis on narrative, planning of action and sequencing of images. Fundamental components include basic production techniques, project planning, linear and nonlinear narrative and the integration of various media to explore the possibilities of time-based experiences.  
Prerequisite: ART 1803C.
DIG 2930 Special Topics: Foundations of Digital Culture 3 Credits  
Grading Scheme: Letter Grade  
In-depth examination of the technological and cultural underpinnings that shape current electronic media including video games, the internet, computer-animated movies, and virtual reality.

DIG 3110C Imaging Processes 3 Credits  
Grading Scheme: Letter Grade

DIG 3481C Imaging Processes 3 Credits  
Grading Scheme: Letter Grade

DIG 3482C Interactivity/Coding 3 Credits  
Grading Scheme: Letter Grade

GRA 2111C Visual Methods and Processes 3 Credits  
Grading Scheme: Letter Grade  
Emphasizes design process, methodologies and communication theories that foster the relationship between content and meaning. Course includes experiences in visual analysis, symbol conceptualization, figure-ground, spatial concepts and compositional dynamics and an introduction to semiotics, design principles and design methods.  
Prerequisite: ART 1803C or provisional Graphic Design certificate students.

GRA 2208C Typography 1: Letterform 3 Credits  
Grading Scheme: Letter Grade  
Explores the expressive potential of letter form as visual art. Emphasizes shaping and spacing forms into meaningful communications.  
Prerequisite: ART 1803C or provisional Graphic Design certificate students.

GRA 3138C Graphic Design Practice 3 Credits  
Grading Scheme: Letter Grade  
Create and integrate concept, form, processes, and technologies in order to develop systems-based, practice-oriented solutions to a range of problems. The results of research and design work will be synthesized to develop a final presentation and portfolio.  
Prerequisite: GRA 2111C and GRA 2208C with grades of B or better and enrollment in the Graphic Design certificate.

GRA 3193C Design: Visualization and Creativity 3 Credits  
Grading Scheme: Letter Grade  
Creative thinking and form making in design. Emphasizes visual invention and compositional dynamics.  
Prerequisite: GRA 2111C and GRA 2208C and a BFA Graphic Design major and must have passed sophomore portfolio review.

GRA 3194C Technologies and Processes 3 Credits  
Grading Scheme: Letter Grade  
Training in tools and materials of graphic design, including printing processes, computer and video processes, photographic and electronic media.  
Prerequisite: GRA 3209C and GRA 3193C and BFA Graphic Design major and must have passed sophomore portfolio review.

GRA 3198C Image, Form and Meaning 3 Credits  
Grading Scheme: Letter Grade  
Emphasizes development of concepts, metaphors, narratives and visual translations. Projects in line art, screen process, photography, and color.  
Prerequisite: GRA 3209C and GRA 3193C and BFA Graphic Design major and must have passed sophomore portfolio review.

GRA 3209C Typography 2: Composition 3 Credits  
Grading Scheme: Letter Grade  
Explores the visual organization and integration of typographic information with images in printed documents. Emphasizes nomenclature, mechanical processes, design, and historical contexts.  
Prerequisite: GRA 2111C and GRA 2208C and a BFA Graphic Design major and must have passed sophomore portfolio review.

GRA 3816C Design Thinking 3 Credits  
Grading Scheme: Letter Grade  
Design thinking is interdisciplinary, human-centered, collaborative, contextual, and iterative. It offers an exceptionally dynamic framework to approach idea generation, creative investigation, and divergent thinking. Learn principles of design thinking through exercises, brainstorming, sketching, case studies, and presentations.  
Prerequisite: GRA 2111C and GRA 2208C with minimum grades of B and enrollment in the Graphic Design certificate.

GRA 4186C Senior Design Studio 3 Credits  
Grading Scheme: Letter Grade  
This is an elective, self-directed course for the advanced student to investigate a topical area of study in graphic design not provided in the regularly offered courses. Coursework is conducted based on a proposal and plan developed by the student and faculty supervisor, with departmental approval.  
Prerequisite: Junior standing or above, with departmental approval.

GRA 4905 Directed Study 0-9 Credits  
Grading Scheme: Letter Grade  
This is an elective, self-directed course for the advanced student to investigate a topical area of study in graphic design not provided in the regularly offered courses. Coursework is conducted based on a proposal and plan developed by the student and faculty supervisor, with departmental approval.  
Prerequisite: Junior standing or above, with departmental approval.
GRA 4930 Special Topics in Graphic Design 1-6 Credits
Grading Scheme: Letter Grade
Advanced study of issues and topics in graphic design beyond those in the regular curriculum.
Prerequisite: Graphic Design Major and must have passed sophomore portfolio review or permission of instructor.

GRA 4940 Graphic Design Internship 0-6 Credits
Grading Scheme: S/U
0-6 credits repeatable for credit. Graphic/communication design professional practice and related experience as defined by program guidelines.
Prerequisite: Graphic Design major, employer approval, and faculty sponsor approval.

GRA 4953C Senior Project in Design 1 Credit
Grading Scheme: Letter Grade
Emphasizes the development of a personal website to showcase the student's professional portfolio, design philosophy and credentials. Students will be required to launch a website with a proprietary URL on a commercial server prior to completing the course. Students are evaluated on the appropriateness and completion level of the website as well as their conceptual, formal and technical development.
Prerequisite: BFA Graphic Design major of senior standing;
Corequisite: GRA 4187C and GRA 4186C.

HUM 2500 A Taste of the Arts: Behind the Scenes 3 Credits
Grading Scheme: Letter Grade
Online course develops basic art vocabulary and aesthetic tools in visual arts, theatre, dance and music. View rehearsals and installations and learn about the back-stage preparations involved in creating arts exhibitions and performances from actors, artists, designers, producers, and other arts professionals. For non-arts majors who want to develop cultural awareness that will accentuate any major and career. (H)
Attributes: General Education - Humanities

HUM 2510 Design for Understanding the Visual and Performing Arts 3 Credits
Grading Scheme: Letter Grade
Analysis of the basic elements and concepts of the visual arts, music, theater, and the dance to establish a fundamental base from which decisions can be made about what one sees, hears, and feels. Understanding, appreciation, and literacy in the arts are developed and are strengthened by participating in arts experiences. (H) (WR)
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

IDC 3500C Programming for Artists 3 Credits
Grading Scheme: Letter Grade
Introduces understanding interactivity as an art form, providing an in-depth exploration of the tools, theories and applications of interactive media as they are used for creative inquiry, research and production.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 2101C Visual Literacy: Photography 3 Credits
Grading Scheme: Letter Grade
Introduces the practices, theories and histories of photography. Acquisition of basic darkroom skills and key elements of contemporary theoretical approaches to visual art. (H)
Prerequisite: ART 1803C.
Attributes: General Education - Humanities

PGY 2441C Photography: Images, Order and Idea 3 Credits
Grading Scheme: Letter Grade
Use of non-traditional light-sensitive processes to explore aspects of image manipulation.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

PGY 2442C Photography: Figure and Ground 3 Credits
Grading Scheme: Letter Grade
Light and shape aspects of photographic images; theories of space and 2D composition; and basic camera and darkroom techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

PGY 3410C Photography: Color 3 Credits
Grading Scheme: Letter Grade
Consideration of the use and technique of color photography. Covers cameras, films, and darkroom developing techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 3444C Photography: Black and White 3 Credits
Grading Scheme: Letter Grade
Fundamentals of photography, operation of the camera and developing, printing, and enlarging. Principles of photography as a means of personal expression.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 3820C Photography: Digital 3 Credits
Grading Scheme: Letter Grade
Studio methods and techniques in creating still images using electronic digital technology.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 4156C Large Format Photography 3 Credits
Grading Scheme: Letter Grade
Advanced study in artificial lighting, color balancing of mixed light sources, view camera techniques to control distortion, focus and painting with light.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 4420C Advanced Photography 6 Credits
Grading Scheme: Letter Grade
Use of the camera as a medium of individual creative expression. Experimental projects in black and white and color photography.
Prerequisite: PGY 3410C, PGY 3421C, PGY 3444C, PGY 3820C, and senior-level art major.

Astronomy and Astrophysics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Astronomy is home to a vibrant community actively engaged in research, education, and outreach. The department's faculty are involved in a wide range of research programs (https://

GAINESVILLE FL 32611-2055
Map (http://campusmap.ufl.edu/#/index/0038)

**Curriculum**

- Astronomy and Astrophysics
- Astronomy Minor

---

**Courses**

**AST 1002 Discovering the Universe 3 Credits**

**Grading Scheme:** Letter Grade

An elementary, largely nonmathematical survey of our universe of stars, planets and galaxies. Acquaints the student with the development of astronomy as a human activity with how we know as well as what we know. Primarily for those not majoring in physical science or mathematics. (P)

**Attributes:** General Education - Physical Science

**AST 1022L Astronomy Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Introduces experimental work in astronomy including scheduled laboratory exercises during the day in the teaching lab and evening observational astronomy at the on campus teaching observatory. (P)

**Attributes:** General Education - Physical Science

**AST 2000 Cosmology 3 Credits**

**Grading Scheme:** Letter Grade

Overview of cosmology, the study of the large-scale structure and history of the universe, in four components: ideas about the universe as a whole predating the twentieth century; ideas from twentieth century physics that impact modern cosmology; stars, black holes, galaxies and quasars as probes of the universe; and the Hot Big Bang Model.

**AST 2003 Introduction to the Solar System 3 Credits**

**Grading Scheme:** Letter Grade

Survey of the solar system including the sun, planets, satellites, asteroids, meteorites and comets. (P)

**Prerequisite:** simple algebra.

**Attributes:** General Education - Physical Science

**AST 2037 Life in the Universe 3 Credits**

**Grading Scheme:** Letter Grade

The origin of life on Earth and the possibility of life elsewhere. A multidisciplinary approach is followed. Conditions for life to form and the likelihood that such conditions may exist elsewhere in the universe are discussed. Also considered are schemes proposed for the search for extraterrestrial intelligence (SETI). (P)

**Attributes:** General Education - Physical Science

**AST 3018 Astronomy and Astrophysics 1 3 Credits**

**Grading Scheme:** Letter Grade

First part of a two part sequence. Survey of astronomy and astrophysics for physical science, engineering or mathematics majors. Covers gravitation, orbits and tides; the Moon’s phases and eclipses; light and spectra; the solar system; and a few historical milestones. (P)

**Prerequisite:** (PHY 2048 or PHY 2060) and (MAC 2311 or MAC 3472).

**Corequisite:** PHY 2049.

**Attributes:** General Education - Physical Science

**AST 3019 Astronomy and Astrophysics 2 3 Credits**

**Grading Scheme:** Letter Grade

Second part of a two part sequence. Survey of astronomy and astrophysics for physical science, engineering or mathematics majors. Covers compact objects; the Solar System; exoplanets; the Milky Way and galaxies; cosmology and relativity.

**Prerequisite:** (PHY 2048 or PHY 2060) and (MAC 2311 or MAC 3472).

**Corequisite:** PHY 2049.

**Attributes:** General Education - Physical Science

**AST 3043 History of Astronomy through Newton 3 Credits**

**Grading Scheme:** Letter Grade

Astronomy from its beginnings through Newton. Emphasis is on the works of Ptolemy, Copernicus, Kepler, Galileo and Newton. (H or P, and N)

**Attributes:** General Education - Humanities, General Education - International, General Education - Physical Science

**AST 3722C Techniques of Observational Astronomy 1 3 Credits**

**Grading Scheme:** Letter Grade

First part of the AST 3722C-4723C sequence. The fundamental principles and techniques used in planning, making, reducing and analyzing modern astronomical observations. Includes classroom lectures and discussion, indoor laboratory work; data analysis and outdoor night observations. Introduces numerical treatment of observations, CCD imaging, digital imaging processing and astronomical spectroscopy.

**Corequisite:** AST 3018.

**AST 4211 Essentials of Astrophysics 3 Credits**

**Grading Scheme:** Letter Grade

Foundation and background on topics in astrophysics, including broadening mechanisms of spectral lines, equations of state of gases, thermodynamics, radiation sources, radiative transport, kinetic theory of gases and stellar structure.

**Prerequisite:** AST 3018, AST 3019 and a working knowledge of calculus.

**AST 4300 Galactic Astronomy 3 Credits**

**Grading Scheme:** Letter Grade

Intensive introduction to the fundamental properties of the Milky Way and its system of satellite galaxies. Course is intended for astronomy majors and natural science students. Topics include the ages, chemical abundances and kinematics of field stars and star clusters, the properties of the interstellar medium and its role in star formation, the dark matter content and models of the Milky Way’s physical structure.

**Prerequisite:** AST 3018, AST 3019 and a working knowledge of calculus.

**AST 4402 Galaxies and Cosmology 3 Credits**

**Grading Scheme:** Letter Grade

An investigation into the properties of galaxies and their distribution in space. Some cosmological implications of this distribution are discussed. Intended for astronomy majors and advanced students of other mathematical sciences.

**Prerequisite:** AST 3018, AST 3019 and a working knowledge of calculus.
Biochemistry and Molecular Biology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

The department offers a full program of courses for the undergraduate student preparing for advanced degrees in the biological, agricultural and life sciences and for professional school.

The major course offering, BCH 4024, is designed to provide students with a general background in biochemistry and molecular biology for professional school or advanced studies in specialized areas.

The department offers an independent interdisciplinary major in biochemistry and molecular biology, in cooperation with the College of Liberal Arts and Sciences, to those undergraduates with strong interests in cell processes, molecular biology, metabolism or physical or structural biochemistry (See Biochemistry and Molecular Biology entry under Majors).

Undergraduate students in other majors who are interested in a research career in biochemistry and molecular biology should take BCH 4024 as early in their undergraduate program as possible. Students interested in supplementing these didactic course offerings with laboratory research experience can register for BMS 4905 after obtaining department approval. Further information on such research opportunities, advanced study and early admission can be obtained from the undergraduate studies coordinator.

Students with interests in medicine or other health sciences may also choose to enroll in the interdisciplinary major program and should contact the assistant dean for preprofessional education in the College of Medicine at the end of the sophomore year or at the beginning of the junior year.

Courses

BCH 4024 Introduction to Biochemistry and Molecular Biology 4 Credits
Grading Scheme: Letter Grade
Introduces physical biochemistry, intermediary metabolism and molecular biology. Topics include a survey of structure, chemistry and function of proteins and nucleic acids, enzyme kinetics and mechanisms of catalysis; a survey of the pathways of carbohydrate, lipid and nitrogen metabolism and their metabolic control; regulation of gene expression at the level of DNA, RNA and protein synthesis.
Prerequisite: CHM 2211 or CHM 3217, or instructor permission.

BCH 4905 Biochemistry Senior Research 1-7 Credits
Grading Scheme: Letter Grade
Laboratory investigations of biochemical problems of current interest. Senior thesis required.
Prerequisite: CHM 2210, CHM 2211, and CHM 3217 or the equivalent, BCH 4024 and interdisciplinary major status.

Biochemistry and Molecular Biology

AST 4723C Techniques of Observational Astronomy 2 3 Credits
Grading Scheme: Letter Grade
Second part of a sequence. The fundamental principles and techniques used in planning, making, reducing, and analyzing modern astronomical observations. Includes classroom lectures and discussion, indoor laboratory work, data analysis, and outdoor night observations. Introduces numerical treatment of observations, CCD imaging, digital imaging processing, and astronomical spectroscopy.
Prerequisite: AST 3722C.

AST 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Assigned reading or research for qualified undergraduates.
Prerequisite: AST 3018 and AST 3019, or two years of college physics and instructor permission.

AST 4911 Undergraduate Research in Astronomy 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Astronomy. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Astronomy.

AST 4930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or laboratory sessions covering selected topics of current interest in astronomy.
Prerequisite: instructor permission.

PHZ 3152 Advanced Computational Techniques 3 Credits
Grading Scheme: Letter Grade
Advanced Computational Techniques in Astronomy and Physics. Advanced techniques in computational methods in the natural sciences and numerical analysis. Includes version controlling and programming in distributed environments; grid construction and convergence techniques; numerical differentiation; linear algebra; root finding; differential equations; Monte Carlo simulations; open source project development.
Prerequisite: MAC 2312 or equivalent.

Biology | Botany | Zoology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

Courses

Biology

BOT 4650 Plant Symbiosis 3 Credits
Grading Scheme: Letter Grade
Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and co-speciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

BOT 4851C Medical and Forensic Plant Biology 3 Credits
Grading Scheme: Letter Grade
Basic plant taxonomy, systematics, phytochemicals, uses of plants by animals and various human cultures, and in the development of modern medicine and drug development. Uses of plant tissues and products in forensic investigations will also be discussed.
Prerequisite: BSC 2011 with a minimum grade of B.

BSC 1920 First Year Introduction: Biology at UF 1 Credit
Grading Scheme: S/U
Introduces the field of biology and the academic resources specific to this discipline at UF. Discussions of the nature and practice of scientific research, laboratory safety, advising and career resources for biologists. Developments in the instructor’s area of expertise are used to illustrate key subjects. (S-U)
Prerequisite: biology, botany, zoology or exploring science and engineering majors only.

BSC 2005 Biological Sciences 3 Credits
Grading Scheme: Letter Grade
A comprehensive introduction to living systems, including the scientific basis of biology, cell structure and function, genetic mechanisms, animal and plant anatomy and physiology, and ecology and evolutionary processes. Recommended for students not majoring in the natural sciences. (B)
Attributes: General Education - Biological Science

BSC 2005L Laboratory in Biological Sciences 1 Credit
Grading Scheme: Letter Grade
A laboratory for students who need experience in a nonprofessionally oriented laboratory or for those who need laboratory experience to satisfy requirements for graduation. (B)
Attributes: General Education - Biological Science

BSC 2010 Integrated Principles of Biology 1 3 Credits
Grading Scheme: Letter Grade
General Biology Core: the first of a two-semester sequence that prepares students for advanced biological sciences courses and allied fields. Studies the origin of life systems; of biological molecules and organization of living things at the subcellular, cellular and organismic levels; and of the activities of living forms in obtaining and utilizing energy and materials in growth, maintenance and reproduction. (B)
Prerequisite: Degree-seeking students only.
Attributes: General Education - Biological Science

BSC 2010L Integrated Principles of Biology Laboratory 1 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany BSC 2010. Students should register for BSC 2010 and 2010L concurrently. (B)
Prerequisite: Degree-seeking students only.
Corequisite: BSC 2010 or the equivalent.
Attributes: General Education - Biological Science

BSC 2011 Integrated Principles of Biology 2 3 Credits
Grading Scheme: Letter Grade
General Biology Core: the second of a two-semester sequence that prepares students for advanced biological sciences courses and allied fields. Examination in living things of the principles of information storage, transmission and utilization at the cell, organism and population levels; of the mechanisms of evolutionary change in the diversification of living things and their life styles; of population growth and regulation; and of energy flow and biogeochemical cycling in the biosphere. (B)
Prerequisite: BSC 2010 or the equivalent. Degree-seeking students only.
Attributes: General Education - Biological Science

BSC 2011L Integrated Principles of Biology Laboratory 2 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany BSC 2011. Students should register for BSC 2011 and 2011L concurrently. (B)
Prerequisite: Degree-seeking students only.
Corequisite: BSC 2011 or the equivalent.
Attributes: General Education - Biological Science

BSC 2044L Accelerated, Integrated Principles of Biology Laboratory 2 Credits
Grading Scheme: Letter Grade
A cross-disciplinary, inquiry-based curriculum that focuses on major themes and concepts in biology with an emphasis on their physical and chemical foundations and applications in quantitative research. Equivalent to BSC 2010L and BSC 2011L.
Corequisite: BSC 2010 or the equivalent.

BSC 2862 Global Change Ecology and Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines key issues in sustainability and global environmental change from an ecological perspective. Major themes include impacts of climate change on terrestrial ecological communities; feedback between the terrestrial biosphere and the atmosphere; and implications of climate change for the sustainability of natural and managed ecosystems. (B)
Attributes: General Education - Biological Science

BSC 2930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in general biology.
BSC 3096 Human Physiology 3 Credits  
Grading Scheme: Letter Grade  
Functioning of human tissues, organs and organ systems, emphasizing the physical, chemical and mechanistic bases of normal physiology and the integrated function of the human body. Also introduces pathophysiological changes associated with human diseases.  
Prerequisite: (CHM 1031 or CHM 2046 or CHM 2047) and BSC 2011.  

BSC 3307C Climate Change Biology 4 Credits  
Grading Scheme: Letter Grade  
Climate change and its impacts on biological communities, feedbacks from the biosphere to the climate system and human impacts on the carbon cycle. Emphasis on the response of vegetation to climate change and rising atmospheric CO2 concentrations and the role of terrestrial ecosystems in regulating climate via the carbon cycle.  
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.  

BSC 3422C Principles of the Biotechnology Industry 2 Credits  
Grading Scheme: Letter Grade  
Introduces practices, skills, and careers in the biotechnology industry; provides an applied understanding of regulatory compliance, product development, process development, manufacture, testing, and release-for-sale of biomedical products. Learn the profiles of major departments and participate in simulated departmental roles through lecture and hands-on laboratory applications.  
Prerequisite: BSC 2011 and BSC 2011L and CHM 2046 and CHM 2046L.  

BSC 3911 Entering Research in Biology 1 Credit  
Grading Scheme: Letter Grade  
A weekly seminar course that prepares students entering research and complements students’ mentored research experience. Students get feedback on securing a research lab/mentor, share their research experiences and get feedback on their projects. Guest speakers on Biology careers and graduate/professional school admissions invited to class.  
Prerequisite: BSC 2010/L and BSC 2011/L.  

BSC 4452 Computational Tools for Research in Biology 3 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4821C Evolutionary Biogeography 3 Credits  
Grading Scheme: Letter Grade  
How to interpret biological data sets in a biogeographical context. Topics and methods in historical and ecological biogeography are discussed.  
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.  

BSC 4910 Individual Mentored Research in Biology 0-3 Credits  
Grading Scheme: Letter Grade  
Qualified students work with a supervising instructor on a research project in biology.  
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.  
Corequisite: BSC 3911.  

BSC 4912 Advanced Mentored Research in Biology 0-4 Credits  
Grading Scheme: Letter Grade  
Advanced students work with a supervising instructor on a research project in biology. May be repeated for full credit.  
Prerequisite: BSC 3911 and BSC 4910 with minimum grades of C.  

BSC 4930 Special Topics in Biology 1-4 Credits  
Grading Scheme: Letter Grade  
Special topics of current interest in biology.  
Prerequisite: (BSC 2011 and BSC 2011L) or equivalent with minimum grades of C.  

BSC 4936 Critical Analysis of Biological Research 2 Credits  
Grading Scheme: Letter Grade  
Critical analysis of current life sciences research through online discussions of research seminars and peer reviewed scientific publications.  
Prerequisite: senior standing in biology, botany or zoology.  

BSC 4956 Overseas Studies 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces practices, skills, and careers in the biotechnology industry; provides an applied understanding of regulatory compliance, product development, process development, manufacture, testing, and release-for-sale of biomedical products. Learn the profiles of major departments and participate in simulated departmental roles through lecture and hands-on laboratory applications.  
Prerequisite: BSC 2011 and BSC 2011L and CHM 2046 and CHM 2046L.  

BSC 4985 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.  

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher. 

BSC 4990 Special Topics in Biology 1-15 Credits  
Grading Scheme: Letter Grade  
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.  
Prerequisite: junior standing or higher.
PCB 4085 Genetical Ethics 1 Credit  
**Grading Scheme:** Letter Grade  
Presentation and critical discussion of new genetic discoveries and discoveries in the context of society. Includes policy, historical, and legal perspectives. Covers responsible conduct of research.  
**Prerequisite:** PCB 3063 or AGR 3303.

PCB 4460 Biodiversity and Ecology Field Immersion 4 Credits  
**Grading Scheme:** Letter Grade  
Five-week intensive study of the earth's rich biodiversity. Emphasizes comparative study of form and function, and of complexity and diversity in phylogenetic and environmental contexts. Focuses on the study of living organisms in the laboratory and field in diverse habitats. Focal organisms and settings rotate according to instructor and semester.  
**Prerequisite:** BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L.

PCB 4553 Population Genetics 4 Credits  
**Grading Scheme:** Letter Grade  
Population and quantitative genetics, including the theory of gene frequency dynamics within and between populations, and deterministic and stochastic processes in evolution.  
**Prerequisite:** BSC 2011 and 2011L with minimum grades of C.

PCB 4917 Molecular Biology Lab Immersion 4 Credits  
**Grading Scheme:** Letter Grade  
Perform authentic research employing techniques of molecular biology in an intensive 5 week format. Each semester the instructor chooses a general area of research and set of techniques for projects. Design hypotheses, plan and carry out experiments, and analyze data.  
**Prerequisite:** BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of B.

ZOO 4050 Animal Behavior 3 Credits  
**Grading Scheme:** Letter Grade  
Scientific study of the mechanistic and evolutionary causes of animal behavior. Topics include communication, foraging and anti-predator behavior, spatial behavior, aggressive behavior, mating behavior, parental care, and social behaviors.  
**Prerequisite:** BSC 2011 and BSC 2011L with minimum grades of C.

ZOO 4405 Sea Turtle Biology and Conservation 3 Credits  
**Grading Scheme:** Letter Grade  
Biology of sea turtles and their roles in marine ecosystems, current major issues in sea turtle biology, and challenges in their conservation and management.  
**Prerequisite:** BSC 2010 and BSC 2011 with a minimum grade of C.

ZOO 4462C Herpetology 4 Credits  
**Grading Scheme:** Letter Grade  
A broad introduction to the biology of amphibians and reptiles, including their evolution, systematics, diversity, ecology, behavior, physiology, anatomy, and natural history. Laboratory sections provide hands-on experience with amphibians and reptiles from Florida and internationally.  
**Prerequisite:** BSC 2011 and BSC 2011L.

**Botany**  
**BCH 3023 Elementary Organic and Biological Chemistry 3 Credits**  
**Grading Scheme:** Letter Grade  
Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.  
**Prerequisite:** CHM 2046 or CHM 2047.

**BCH 3023 Elementary Organic and Biological Chemistry 3 Credits**  
**Grading Scheme:** Letter Grade  
Structures and functions of cells, tissues and organs of flowering plants. Students with credit in BSC 2005 or BSC 2010 cannot register for this course; they should take BOT 2011C.  
**Attributes:** General Education - Biological Science

**BOT 2011C Plant Diversity 4 Credits**  
**Grading Scheme:** Letter Grade  
Survey of major plant groups with regard to structure, life histories and uses accompanied by a laboratory showing the diversity of plants in the world.  
**Prerequisite:** introductory college biology/botany course or the equivalent.  
**Attributes:** General Education - Biological Science

**BOT 2710C Practical Plant Taxonomy 3 Credits**  
**Grading Scheme:** Letter Grade  
The role of plants in the development of civilization and the influence of plants on world history, politics, economics and culture. A survey of useful and harmful plants and plant products.  
**Attributes:** General Education - Biological Science

**BOT 2800C Plants in Human Affairs 3 Credits**  
**Grading Scheme:** Letter Grade  
Laboratory observation of the gross features of vascular plants and practice in the use of keys to identify plants. Elementary ecology of principal types of plant communities in northern Florida. Field trips.

**BOT 3053 Physiology and Molecular Biology of Plants 3 Credits**  
**Grading Scheme:** Letter Grade  
The chemical organization, cellular organization, metabolism, nutrition, growth and molecular biology of the higher plants.  
**Prerequisite:** (BOT 2010C or BSC 2005 or BSC 2010) and CHM 2046 and CHM 2046L.  
**Corequisite:** BOT 3503L; laboratory may be taken in subsequent term.

**BOT 3151C Local Flora of North Florida 3 Credits**  
**Grading Scheme:** Letter Grade  
Survey of major plant groups with regard to structure, life histories and uses accompanied by a laboratory showing the diversity of plants in the world.  
**Attributes:** General Education - Biological Science

**BOT 3501C Local Flora of North Florida 3 Credits**  
**Grading Scheme:** Letter Grade  
Survey of major plant groups with regard to structure, life histories and uses accompanied by a laboratory showing the diversity of plants in the world.  
**Attributes:** General Education - Biological Science

**BOT 3503 Physiology and Molecular Biology of Plants 3 Credits**  
**Grading Scheme:** Letter Grade  
The chemical organization, cellular organization, metabolism, nutrition, growth and molecular biology of the higher plants.  
**Prerequisite:** (BOT 2010C or BSC 2005 or BSC 2010) and CHM 2046 and CHM 2046L.  
**Corequisite:** BOT 3503L; laboratory may be taken in subsequent term.

**BOT 3503L Physiology and Molecular Biology of Plants Laboratory 2 Credits**  
**Grading Scheme:** Letter Grade  
Laboratory experiments to accompany BOT 3503.

**BOT 4053 Practical Experience in Teaching Botany 2 Credits**  
**Grading Scheme:** Letter Grade  
Participation in teaching one 3000-level botany course with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance.  
**Prerequisite:** generally, senior standing with recommendations from two faculty members, including the course instructor.
BOT 4621 Plant Geography 2 Credits
Grading Scheme: Letter Grade
Patterns in the distribution of plants around the earth and factors that influence plant geography. Topics include similarities of plant communities in different parts of the world, common distribution patterns among individual taxa, and methods for inferring biogeographic history and predicting future changes in plant distribution.
Prerequisite: (BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C) or instructor permission.

BOT 4650 Plant Symbiosis 3 Credits
Grading Scheme: Letter Grade
Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

BOT 4905 Individual Studies in Botany 2-4 Credits
Grading Scheme: Letter Grade
Qualified students and an instructor choose a particular problem for study.
Prerequisite: 8 credits of botany.

BOT 4911 Undergraduate Research in Botany 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Botany. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Botany.

BOT 4935 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in botany.

BOT 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Overseas Studies

PCB 3023 Essential Cell Biology 3 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts of molecular cell biology in prokaryotic and eukaryotic systems including experimental strategies and methodology. This course is intended for those interested in plants.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent.

PCB 3034C Introduction to Ecology 4 Credits
Grading Scheme: Letter Grade
Basic principles of ecology as they apply to environmental problems including major terrestrial and aquatic ecosystems of Florida.
Prerequisite: introductory college biology.

PCB 3601C Plant Ecology 3 Credits
Grading Scheme: Letter Grade
Principles of ecology at scales ranging from individual plants to landscapes. Emphasis is on species, ecosystems and environmental programs in Florida.
Prerequisite: introductory college biology or botany.

Zoology
AST 2037 Life in the Universe 3 Credits
Grading Scheme: Letter Grade
The origin of life on Earth and the possibility of life elsewhere. A multidisciplinary approach is followed. Conditions for life to form and the likelihood that such conditions may exist elsewhere in the universe are discussed. Also considered are schemes proposed for the search for extraterrestrial intelligence (SETI). (P)
Attributes: General Education - Physical Science

BSC 3402 Theory and Practice in the Biological Sciences 2 Credits
Grading Scheme: Letter Grade
Presents the scientific method, in its many formulations, from historical, philosophical and sociological perspectives. Explores generation and presentation of data, formulation of hypotheses and theories and dissemination of results. Also examines the ethical implication of biological research.

GLY 3603C Paleontology 4 Credits
Grading Scheme: Letter Grade
Investigation of the history of life on earth, including aspects of invertebrate and vertebrate paleontology, micropaleontology and paleobotany.
Prerequisite: refer to the department.

PCB 3063 Genetics 4 Credits
Grading Scheme: Letter Grade
The fundamental properties of inheritance in eukaryotic organisms emphasizing examples in man. Basic concepts are developed for the nature, organization, transmission, expression, recombination and function of genetic materials and principles are derived for genetically characterizing populations.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C and general chemistry.

PCB 3713C Cellular and Systems Physiology 4 Credits
Grading Scheme: Letter Grade
How cells, organs, and higher level systems are integrated and coordinated in the functions of humans and other animals. Emphasizes the use of model organisms, mathematical models, and the physical sciences to understand the mechanistic basis of normal physiology and dysfunction.
Prerequisite: BSC 2010 and (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096) and (PHY 2048 or PHY 2060), all with minimum grades of C.
Corequisite: PHY 2049 or PHY 2061.

PCB 4043C General Ecology 4 Credits
Grading Scheme: Letter Grade
Ecological processes and organization in terrestrial and aquatic habitats. Laboratory and field exercises emphasize techniques of ecological analysis.
Prerequisite: BSC 2011 and 2011L, or equivalent, with minimum grades of C.

PCB 4674 Evolution 4 Credits
Grading Scheme: Letter Grade
Processes and mechanisms of evolution, including population genetics, speciation, patterns of evolution and molecular evolution.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C;
Corequisite: one semester of calculus; PCB 3063 recommended.
PCB 4712 Comparative Biomechanics 3 Credits
Grading Scheme: Letter Grade
Reviews physical principles governing the form and function of organisms.
Prerequisite: (BSC 2011 and BSC 2011L or equivalent with minimum grades of C) and PHY 2048 and PHY 2053L and PCB 4674 and ZOO 3713C.

PCB 4723C Physiology and Molecular Biology of Animals 4 Credits
Grading Scheme: Letter Grade
Processes and mechanisms of maintenance, activity, and integration in animals with emphasis on vertebrates. Laboratory experience in quantitative methods and techniques of physiological investigation.
Prerequisite: BSC 2011 and (CHM 2046 or CHM 2047) with a minimum grades of C. Recommended: ((PHY 2053 and PHY 2054) or (PHY 2060 and PHY 2061)) and PCB 3063 and PCB 4674.

ZOO 3513C Animal Behavior 4 Credits
Grading Scheme: Letter Grade
The causes, origins and evolution of animal behavior emphasizing field observations and experiments on the behavior of a variety of animal groups.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674.

ZOO 3603C Evolutionary Developmental Biology 4 Credits
Grading Scheme: Letter Grade
Analysis of embryonic development, underlying genetic mechanisms and how these processes have driven the evolutionary diversification of animal body plans.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 3713C Functional Vertebrate Anatomy 4 Credits
Grading Scheme: Letter Grade
The form and function of chordates accompanied by laboratory work dealing with a selected series of chordates.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 4205C Invertebrate Biodiversity 4 Credits
Grading Scheme: Letter Grade
Comparative biology of invertebrates, emphasizing morphology, evolution, ecology and life history.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

ZOO 4307C Vertebrate Biodiversity 4 Credits
Grading Scheme: Letter Grade
Comparative biology of vertebrates, emphasizing morphology, evolution, ecology and behavior.
Prerequisite: BSC 2011 and (BSC 2011L or ISC 2401L) with minimum grades of C.

ZOO 4403C Marine Biology 4 Credits
Grading Scheme: Letter Grade
Survey of major marine taxa, systematics of local marine fauna and flora, with familiarization of the marine environment. Laboratory emphasizes field work and independent projects.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 4472C Avian Biology 4 Credits
Grading Scheme: Letter Grade
The basic biological characteristics of birds, which, as exceptionally unique flying vertebrates, are confronted with a spectrum of problems in terms of anatomy, physiology, behavior, migration and population ecology.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674 (recommended).

ZOO 4905 Individual Studies in Zoology 1-4 Credits
Grading Scheme: Letter Grade
Qualified students and the instructor concerned may choose a particular topic or problem for study
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

ZOO 4911 Undergraduate Research in Zoology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ZOO 4926 Special Topics in Zoology 1-4 Credits
Grading Scheme: Letter Grade
Lectures, conferences or laboratory sessions covering selected topics of current interest in zoology.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

ZOO 4940 Practical Experience in Teaching Zoology 2 Credits
Grading Scheme: S/U
Participation in teaching approved zoology courses with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance. Cannot be used to satisfy minimum hour requirement for zoology major. (S-U)
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, one zoology laboratory-based course, senior status and instructor permission.

ZOO 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C and undergraduate advisor permission.

Biomedical Engineering
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information
The J. Crayton Pruitt Family Department of Biomedical Engineering (BME) is part of the Herbert Wertheim College of Engineering and is a prime resource for biomedical engineering education, training, research, and technology development. BME is an ever-evolving field that uses and applies engineering principles to the study of biology and medicine in order to improve health care.
BME 1008 Introduction to Biomedical Engineering 1 Credit
Grading Scheme: Letter Grade
Introduction to and overview of biomedical engineering. Lectures are given by faculty expert in an area of biomedical engineering. The goal is to give beginning students an appreciation for the breadth of the field and to guide them in making curriculum, major and career choices.

BME 1930 Special Topics in Biomedical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in biomedical engineering.

BME 3012 Clinically-Inspired Engineering Design 3 Credits
Grading Scheme: Letter Grade
Through exposure to real clinical problems, learn to communicate with medical professionals in order to identify unmet needs, to develop prototypes and initial concepts for clinical problems, and to critically evaluate potential solutions for clinical problems.
Prerequisite: BME 3060 and PCB 3713C with minimum grades of C;
Corequisite: BME 3101 and EGM 2511.

BME 3053C Computer Applications for BME 2 Credits
Grading Scheme: Letter Grade
Computer programming lab and lecture utilizes Matlab to analyze biomedical measurements.
Prerequisite: COP 2271 and COP 2271L or equivalent and MAC 2312, with minimum grade of C.

BME 3060 Biomedical Fundamentals 3 Credits
Grading Scheme: Letter Grade
Working specifically within the framework of biomedical engineering applications, provides the engineering fundamentals of the conservation laws of mass, energy, charge, and momentum.
Prerequisite: (CHM 2046 or CHM 2096) and MAC 2313 with minimum grades of C.
Corequisite: PHY 2049, MAP 2302, and BME 1008.

BME 3101 Biomedical Materials 3 Credits
Grading Scheme: Letter Grade
Restoration of physiological function by engineering biomaterials for biological environment, covering principles underlying use and design of medical implants and matrices/scaffolds. Strong emphasis on transition from engineering material to biological tissue, including molecular and cellular interactions with biomaterials, tissue and organ regeneration, and design of intact, biodegradable, and bioreplaceable materials.
Prerequisite: BME 3060 with minimum grade of C and CHM 3217.

BME 3109 Engineering Analysis of Musculoskeletal Biomechanics 3 Credits
Grading Scheme: Letter Grade
Introduction to musculoskeletal biomechanics and quantitative movement analysis with emphasis on engineering approaches. Students learn how to apply experimental and computational methods to evaluate the human body as a biomechanical system. Topics include rigidbody kinematics, dynamics, motion capture, external force measurement, electromyography, and mechanical properties of muscles and tendons.
Prerequisite: COP 2271 (or equivalent) & EGM 2511. Only Matlab or C++ programming languages will be accepted for COP 2271. Engineering majors only.

BME 3234 Mechanical Behavior of Biological Tissues and Systems 3 Credits
Grading Scheme: Letter Grade
Focuses on understanding the mechanical behavior of biological tissues and systems by evaluating structure-function relationships, stress-strain relationships, and the mechanical complexity of biological systems; introduces the basics of viscoelastic behavior as it applies to biological tissues.
Prerequisite: BME 3060 with minimum grade of C and EGM 2511.

BME 3323L Cellular Engineering Laboratory 3 Credits
Grading Scheme: Letter Grade
The cellular engineering laboratory teaches the fundamentals of cell culture for use in biomedical engineering investigations. Acquire skills in cell culture, quantitative analyses, notebook keeping, report writing, and oral presentation.
Prerequisite: PCB 3713C;
Corequisite: BME 4311 or instructor permission.

BME 3508 Biosignals and Systems 3 Credits
Grading Scheme: Letter Grade
Basic theory and techniques of biosignals and systems. Topics include sampling, noise in biological signals, signal averaging of noisy biological signals, Fourier analysis and filtering.
Prerequisite: (EEL 3003 or EEL 3111C) and MAC 2313 with a minimum grade of C.

BME 3941 Internship Experience in Biomedical Engineering 0-3 Credits
Grading Scheme: S/U
Engineering work experience under the supervision of an engineer.
Prerequisite: Biomedical Engineering major.

BME 4160 Magnetic Biomaterials 3 Credits
Grading Scheme: Letter Grade
Consists of classroom lectures on fundamental concepts in magnetism and magnetic micro and nano-materials and their applications in biomedicine. Participants present a critical review of recent literature in the field and lead a group discussion on a specific, recent paper.
Prerequisite: PHY 2048 and CHM 2046 or CHM 2096 with minimum grades of C.
BME 4311 Molecular Biomedical Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamentals of molecular biology for biomedical engineers. Designed for juniors or seniors majoring in biomedical engineering to learn the nomenclature and current state of knowledge of the eukaryotic cell and its related structures. Topics include protein structure and function, enzymes, the structure and nature of DNA and the cellular structure and function of various cellular organelles. Learn about energy and the function of mitochondria and chloroplast, cellular communication and the function of the extracellular matrix.
Prerequisite: BSC 2010 and (CHM 3217 or CHM 2211) and PCB 3713C with minimum grades of C.

BME 4361 Neural Engineering 3 Credits
Grading Scheme: Letter Grade
Applying engineering to neuroscience; includes such diverse areas as neural tissue engineering, models of neural function, and neural interface technology. Focuses mainly in the context of neural interfaces and prosthetics, from basic neural physiology and models of neural mechanisms to advanced neural interfaces currently in development or produced commercially.
Prerequisite: BME 3508 or EEL 3135.

BME 4409 Quantitative Physiology 3 Credits
Grading Scheme: Letter Grade
A junior/senior level physiology course. Quantitative modeling of organ system physiology of the nervous system, the cardiovascular system and the respiratory system are discussed and students work on quantitative problems.
Prerequisite: PCB 3713C, BME 3053C, BME 3060, and BME 3508 with minimum grades of C.

BME 4503 Biomedical Instrumentation 3 Credits
Grading Scheme: Letter Grade
Covers engineering and medical bases of application, measurement and processing of signals to and from living systems. Biomedical transducers for measurements of movement, biopotentials, pressure, flow, concentrations and temperature are discussed, as well as treatment devices such as ventilators and infusion pumps.
Prerequisite: MAC 2313 and MAP 2302 and PHY 2049 and (EEL 3003 or EEL 3111C) with minimum grades of C.
Corequisite: BME 3508.

BME 4503L Biomedical Instrumentation Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory for BME 4503.
Prerequisite: MAC 2313 and MAP 2302 and PHY 2049 and (EEL 3003 or EEL 3111C) with minimum grades of C.
Corequisite: BME 3508 and BME 4503.

BME 4531 Medical Imaging 3 Credits
Grading Scheme: Letter Grade
Medical imaging technologies from a biomedical engineering perspective. The physics, mathematics, instrumentation and clinical applications of all common medical imaging modalities, including x-ray radiography, computed tomography (CT), ultrasound imaging, positron emission tomography (PET) and magnetic resonance imaging (MRI) are discussed. Emerging imaging modalities, including optical imaging, fluorescence imaging and photoacoustic imaging are also introduced.
Prerequisite: MAC 2313, MAP 2302, PHY 2049, BME 3053C, and BME 3508 with minimum grades of C.

BME 4621 Biomolecular Thermodynamics and Kinetics 3 Credits
Grading Scheme: Letter Grade
Principles of thermodynamics and kinetics from a biomolecular perspective. The mathematics, analysis, and applications of classical thermodynamics, statistical thermodynamics, and reaction kinetics are introduced in the context of molecular interactions, binding equilibria, metabolism, and biomolecular transport common to living systems.
Prerequisite: CHM 3217 or (CHM 2210 and CHM 2211), with minimum grades of C, and BME 3060 and BME 4311

BME 4632 Biomedical Transport Phenomena 3 Credits
Grading Scheme: Letter Grade
Introduces and applies the concepts of momentum, mass, and thermal energy transport in the context of problems of interest in biomedical sciences and engineering. Macroscopic and microscopic analysis of momentum, mass, and thermal energy transport problems in biomedical systems.
Prerequisite: BME 3060 with minimum grade of C.

BME 4648 Biomaterials for Drug Delivery 3 Credits
Grading Scheme: Letter Grade
Focuses on the principles of engineering controlled release systems, and integrates topics in polymer chemistry, biomaterials, pharmacokinetics/pharmacodynamics, and mass transport phenomena.
Prerequisite: BME 3060 with a minimum grade of C.
Corequisite: BME 4632

BME 4760 Biomedical Data Science 3 Credits
Grading Scheme: Letter Grade
Covers the biomedical applications of data science techniques, which include pre-processing techniques, machine learning data analysis, and data visualization techniques.
Prerequisite: BME 3053C and COP 2271 and COP 2271L and (STA 2023 or STA 3032).

BME 4882 Senior Design, Professionalism and Ethics 1 3 Credits
Grading Scheme: Letter Grade
Design of custom strategies to address real-life issues in the development of biocompatible and biomimetic devices for biotechnology or biomedical applications. Teams work with a client in the development of projects that incorporate various aspects of biomedical engineering including instrumentation, biomechanics, biotransport, tissue engineering and others. Emphasizes formal engineering design principles; overview of intellectual properties, engineering ethics, risk analysis, safety in design and FDA regulations are reviewed. Part 1 focuses on design.
Prerequisite: BME 3012 and senior standing.

BME 4883 Senior Design, Professionalism and Ethics 2 3 Credits
Grading Scheme: Letter Grade
Design of custom strategies to address real-life issues in the development of biocompatible and biomimetic devices for biotechnology or biomedical applications. Teams work with a client in the development of projects that incorporate various aspects of biomedical engineering including instrumentation, biomechanics, biotransport, tissue engineering and others. Emphasizes formal engineering design principles; overview of intellectual properties, engineering ethics, risk analysis, safety in design and FDA regulations are reviewed. Part 2 focuses on implementation and testing.
Prerequisite: BME 4882 and (ENC 3246 with minimum grade of C) and senior standing.

BME 4931 Special Topics in Biomedical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in biomedical engineering.
EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

Botany

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Courses

Please note that a complete list of all courses offered by the Department of Biology can be found here (p. 1206).

BCH 3023 Elementary Organic and Biological Chemistry 3 Credits
Grading Scheme: Letter Grade
Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.
Prerequisite: CHM 2046 or CHM 2047.

BOT 2010C Introductory Botany 3 Credits
Grading Scheme: Letter Grade
Structures and functions of cells, tissues and organs of flowering plants. Students with credit in BSC 2005 or BSC 2010 cannot register for this course; they should take BOT 2011C. (B)
Attributes: General Education - Biological Science

BOT 2011C Plant Diversity 4 Credits
Grading Scheme: Letter Grade
Survey of major plant groups with regard to structure, life histories and uses accompanied by a laboratory showing the diversity of plants in the world. (B)
Prerequisite: introductory college biology/botany course or the equivalent.
Attributes: General Education - Biological Science

BOT 2710C Practical Plant Taxonomy 3 Credits
Grading Scheme: Letter Grade
Introduces plant taxonomy including principles of systematic botany, nomenclature and classification, but emphasizing identification. Student will be able to identify the common ferns, fern allies, gymnosperms and flowering plants of field and garden.

BOT 2800C Plants in Human Affairs 3 Credits
Grading Scheme: Letter Grade
Survey of major plant groups with regard to structure, life histories and uses accompanied by a laboratory showing the diversity of plants in the world. (B)
Attributes: General Education - Biological Science

BOT 3053L Physiology and Molecular Biology of Plants Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments to accompany BOT 3503.
Corequisite: BOT 3503.

BOT 4053 Practical Experience in Teaching Botany 2 Credits
Grading Scheme: Letter Grade
Participation in teaching one 3000-level botany course with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance.
Prerequisite: generally, senior standing with recommendations from two faculty members, including the course instructor.
BOT 4621 Plant Geography 2 Credits
Grading Scheme: Letter Grade
Patterns in the distribution of plants around the earth and factors that influence plant geography. Topics include similarities of plant communities in different parts of the world, common distribution patterns among individual taxa, and methods for inferring biogeographic history and predicting future changes in plant distribution.
Prerequisite: (BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C) or instructor permission.

BOT 4650 Plant Symbiosis 3 Credits
Grading Scheme: Letter Grade
Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

BOT 4905 Individual Studies in Botany 2-4 Credits
Grading Scheme: Letter Grade
Qualified students and an instructor choose a particular problem for study.
Prerequisite: 8 credits of botany.

BOT 4911 Undergraduate Research in Botany 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Botany. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Botany.

BOT 4935 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in botany.

BOT 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Overseas Studies

PCB 3023 Essential Cell Biology 3 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts of molecular cell biology in prokaryotic and eukaryotic systems including experimental strategies and methodology. This course is intended for those interested in plants.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent.

PCB 3034C Introduction to Ecology 4 Credits
Grading Scheme: Letter Grade
Basic principles of ecology as they apply to environmental problems including major terrestrial and aquatic ecosystems of Florida.
Prerequisite: introductory college biology.

PCB 3601C Plant Ecology 3 Credits
Grading Scheme: Letter Grade
Principles of ecology at scales ranging from individual plants to landscapes. Emphasis is on species, ecosystems and environmental programs in Florida.
Prerequisite: introductory college biology or botany.

Business

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

School Information

One of the nation’s top-ranked undergraduate public business schools, the Heavener School of Business offers bachelor’s degrees in Finance, General Business, Management, Information Systems & Operations Management, and Marketing to more than 4,500 students.

- Business Administration | General Business | BSBA UF Online
- Business Administration | General Studies | BABA
- Business Administration | General Studies | BABA UF Online
- Combination Degrees
- Wealth Management Minor

Courses

GEB 2015 Introduction to Business 1 Credit
Grading Scheme: Letter Grade
Introduces the business world by focusing on various disciplines within business and management. Also introduces personal and professional development opportunities that enhance career preparedness.

GEB 2951 Special Projects 1-3 Credits
Grading Scheme: S/U
Projects related to business as approved by the college. (S-U)

GEB 3017 Leading Organizations 4 Credits
Grading Scheme: Letter Grade
Provides a Strategic Foundation for Leadership Practice in a Variety of Professions. Increases the Capacity to Lead With and Without Authority, Across Boundaries, and From Any Political or Organizational Position.
Prerequisite: MAN 3025.

GEB 3035 Effective Career Management in Business 4 Credits
Grading Scheme: Letter Grade
Systematically designed course based on the cognitive information processing theory for career problem solving and decision-making. Delivered via modularized multimedia instructional materials. The course is designed to inform students about career planning and management interventions and to accommodate students at different levels of decidedness about their career aspirations.
GEB 3219 Writing and Speaking in Business 4 Credits
Grading Scheme: Letter Grade
Online content teaches business students the fundamentals of both written and spoken communication, enabling them to express their ideas effectively and efficiently and to prepare them for the demands of the business workspace. (C) (WR)
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

GEB 3373 International Business 4 Credits
Grading Scheme: Letter Grade
Exposes the business environments (culture, politics, laws and economics) encountered in other parts of the world; to the tools and skills necessary to analyze the potential of other countries as locations for production, distribution and marketing; to how managing and integrating international operations in many parts of the world differs from the domestic focus of many business courses; and to the broad perspective required of successful managers working in international business.
Prerequisite: MAN 3025 and MAR 3023.

GEB 3523 Business Case Analysis 2 Credits
Grading Scheme: Letter Grade
Introduces case analysis and prepares students for national and international case competitions.

GEB 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Reading and/or research in business administration.

GEB 4906 Independent Study 1-4 Credits
Grading Scheme: S/U
Reading and research in business administration. (S-U)

GEB 4911 Undergraduate Research in Business 0-4 Credits
Grading Scheme: Letter Grade
Provides an opportunity for firsthand, supervised research in business. Projects may involve inquiry, design, investigation, scholarship, discovery, or application in business.

GEB 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for in-depth study of topics not offered in other courses and topics of special current significance.
Prerequisite: department permission.

GEB 4932 Professional Development Module 2 Credits
Grading Scheme: Letter Grade
Presents techniques for outstanding presentation and public speaking skills. Includes a significant service learning component whereby students apply presentation techniques developed in the classroom via business-oriented instruction in the K-12 school system.

GEB 4941 Internship in Business Administration 1-4 Credits
Grading Scheme: S/U
Applied work in business administration that requires several papers and reports. (S-U)
Prerequisite: undergraduate programs director permission.

GEB 4956 International Studies in Business 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved UF study abroad program and undergraduate programs director permission.

GEB 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for the awarding of the magna cum laude or summa cum laude designation. To qualify for the thesis option, students will normally have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator of the student’s major department) and must have at least the 3.6 grade point average required for magna cum laude designation at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student’s major department. (S-U)
Prerequisite: senior standing and 3.6 UF GPA.

Career Development Program
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

SLS 1501 College Study Skills 1 1-3 Credits
Grading Scheme: Letter Grade
A developmental course designed to assist students who may be having difficulty in their college-level coursework or those who simply wish to improve basic skills essential for college success. The course begins with an individual self-assessment followed by topics such as motivation, time management, active reading, memory, note taking and test taking. Students will also develop a career portfolio for their final lesson.

SLS 2301 Career Planning 1 Credit
Grading Scheme: Letter Grade
SLS 2302 Job Strategies 1 Credit
Grading Scheme: Letter Grade
Interactive course covering all aspects of a successful job search, long-term career planning and success in the professional environment. Enrollment is restricted to juniors and seniors.

Chemical Engineering
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)
Department Information
The work of the Department of Chemical Engineering is not restricted to the chemical industry, chemical changes or chemistry. Instead, modern chemical engineers are concerned with all the physical, chemical, and biological changes of matter that can produce an economic product or result that is useful to mankind.

Map (http://campusmap.ufl.edu/#/index/0958)

Curriculum
• Biomolecular Engineering Minor
• Chemical Engineering
• Combination Degrees

Courses
ABE 2062 Biology for Engineers 3 Credits
Grading Scheme: Letter Grade
Principles and engineering applications of biology. Principles and applications of biochemistry, genetics, microbial systems, animal systems, ecological systems and global systems. (B) (WR)
Attributes: General Education - Biological Science, Satisfies 6000 Words of Writing Requirement

BME 3406 Introduction to Biomolecular Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces chemical engineering students interested in bio-related careers to the chemical engineering discipline. Emphasizes the link between biology and chemical engineering and the interface between them.
Prerequisite: ABE 2062 or ECH 2062.

BME 4220 Biomolecular Cell Mechanics 3 Credits
Grading Scheme: Letter Grade
Covers the biomolecular basis of cell mechanics and cell motility, emphasizing quantitative models and systems-biology approaches.

BME 4321 Dynamics of Cellular Processes 3 Credits
Grading Scheme: Letter Grade
Confocal fluorescence microscopy, techniques for imaging macromolecular dynamics and interactions inside living cells, models of intracellular diffusion, models of ligand-receptor binding, interplay between binding and transport, modeling and analysis of experiments. Examples from literature include mRNA transport, nuclear pore dynamics, cytoskeletal dynamics, imaging motor proteins and transcription factor dynamics.
Prerequisite: a course on kinetics and/or transport, or instructor permission.

COT 3502 Computer Model Formulation 4 Credits
Grading Scheme: Letter Grade
Solutions of scientific and engineering problems using digital computers. Formulation of models for describing physical processes, numerical analysis and computer programming. (M)
Prerequisite: ECH 3023 and MAP 2302 and MAC 2313.

ECH 3023 Material and Energy Balances 4 Credits
Grading Scheme: Letter Grade
Formulation and solution of material and energy balances utilizing physical/chemical properties of matter as applied to analyzing unit operations systems.
Prerequisite: CHM 2046 or (MAC 2312 and PHY 2048).
Corequisite: PHY 2049, MAC 2313, MAP 2302, and ECH 4934.

ECH 3101 Process Thermodynamics 3 Credits
Grading Scheme: Letter Grade
Introduces fundamental principles of classical thermodynamics. Applications to modeling and analysis of physical and chemical processes undergoing change.
Prerequisite: COT 3502 and ECH 3264.

ECH 3203 Fluid and Solid Operations 3 Credits
Grading Scheme: Letter Grade
Characteristics of laminar and turbulent flow, mechanical energy balance, flow through packed beds and fluidization of solids, design of pumping systems and piping networks and metering of fluids.
Prerequisite: COT 3502 and ECH 3264.

ECH 3223 Energy Transfer Operations 3 Credits
Grading Scheme: Letter Grade
Steady state conduction in solids and heterogeneous materials, transient conduction, convection heat transfer, heat transfer during boiling and condensation, radiation heat transfer, design of heat-transfer equipment and heat exchange networks.
Prerequisite: COT 3502 and ECH 3264.

ECH 3264 Elementary Transport Phenomena 3 Credits
Grading Scheme: Letter Grade
Flux law and conservation equations of mass, energy and momentum; steady and unsteady states as applied to physical and chemical processing; macroscopic and microscopic analysis.
Prerequisite: ECH 3023 and MAP 2302 and MAC 2313.

ECH 4123 Phase and Chemical Equilibria 3 Credits
Grading Scheme: Letter Grade
Application of thermodynamic principles to systems of variable composition including the study of phase and chemical equilibria.
Prerequisite: ECH 3101 and ECH 3203 and ECH 3223.

ECH 4224L Fluid and Energy Transfer Operations Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory work in unit operations involving heat and momentum transfer. (WR)
Prerequisite: ECH 3101 and ECH 3203 and ECH 3223 and STA 3032 or STA 2023;
Corequisite: ECH 4714 and ENC 3246.
Attributes: Satisfies 6000 Words of Writing Requirement

ECH 4323 Process Control Theory 3 Credits
Grading Scheme: Letter Grade
The analysis and automatic control of process systems in chemical engineering.
Prerequisite: COT 3502 or ECH 3023 or MAP 2302;
Corequisite: ECH 4323L.
ECH 4323L Chemical Engineering Laboratory 5 1 Credit
Grading Scheme: Letter Grade
Laboratory work associated with ECH 4323.
Corequisite: ECH 4323.

ECH 4403 Separation and Mass Transfer Operations 3 Credits
Grading Scheme: Letter Grade
Theory, design, and evaluation of diffusional and staged mass transfer processes including distillation, absorption and extraction, leaching, and membrane separations. Computer-aided design methods.
Prerequisite: ECH 3101 and ECH 3203 and ECH 3223.

ECH 4404L Separation and Mass Transfer Operations Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory work in unit operations involving mass transfer. (WR)
Prerequisite: ECH 4403 and ECH 4224L and ECH 4714.
Attributes: Satisfies 6000 Words of Writing Requirement

ECH 4504 Chemical Kinetics and Reactor Design 4 Credits
Grading Scheme: Letter Grade
Homogeneous and heterogeneous reaction kinetic modeling and data analysis. Analysis and design of ideal batch, mixed, plug and recycle reactors. Heterogeneous catalysis and reactor design.
Prerequisite: ECH 3264 and ECH 4123.

ECH 4524 Heterogeneous Chemical Kinetics Reactor Design 2 Credits
Grading Scheme: Letter Grade
Theories of catalytic reactions of adsorbed species at solid surfaces, development of rate expressions with heat and mass transport properties through porous catalyst materials for design of heterogeneous chemical reactors.
Prerequisite: ECH 4504.

ECH 4604 Process Economics and Optimization 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of process economics including specifications and costing of equipment, operations costing and economic evaluation of processes.
Prerequisite: ECH 3203 and ECH 3223;
Corequisite: ECH 4403.

ECH 4644 Process Design 3 Credits
Grading Scheme: Letter Grade
Preliminary design of conventional chemical processes including process specifications, siting and layout, equipment sizing, utility and manpower needs, safety and hazard analysis, environmental considerations and economic evaluation. Planning techniques for detailed engineering, construction and startup.
Prerequisite: ECH 4403 and ECH 4504 and ECH 4604 and ECH 4824.

ECH 4714 Chemical Process Safety 3 Credits
Grading Scheme: Letter Grade
Laboratory and process safety analysis which emphasizes prevention and mitigation. Application of chemical engineering principles to assessing hazards and risk.
Prerequisite: ECH 3101, ECH 3203 and ECH 3223.

ECH 4824 Materials of Chemical Engineering 2 Credits
Grading Scheme: Letter Grade
Relations between microscopic structure and macroscopic mechanical, thermal and electrical properties of organic and inorganic solids. Engineering applications, including corrosion.
Prerequisite: ECH 4123.

ECH 4827 Processing of Complex Fluids 3 Credits
Grading Scheme: Letter Grade
Principles involved in quantitative adoption of chemical engineering unit operations and unit processes for the analysis and design of systems involving complex fluids.
Prerequisite: (ECH 3203 and ECH 3223 and ECH 4123 and ECH 4824) or instructor permission.

ECH 4905 Special Problems in Chemical Engineering 1-6 Credits
Grading Scheme: Letter Grade
Study of chemical engineering problems identified by the student and instructor.

ECH 4912 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic product and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: senior standing.

ECH 4913 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
The second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic product and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: senior standing.

ECH 4934 Professional Seminar 1 Credit
Grading Scheme: Letter Grade
Discussion of issues associated with development of a professional career in chemical engineering. Topics include ethics presented in a case study format, legal and ethical issues associated with intellectual property, interviewing strategies and presentation skills.
Prerequisite: Chemical Engineering major.

ECH 4944 Practical Work in Chemical Engineering 1-5 Credits
Grading Scheme: Letter Grade
One term industrial employment, including extra work according to an approved outline. Practical engineering work under industrial supervision as set forth in college regulations.
Prerequisite: Engineering major.

ECH 4948 Internship Work Experience 0-3 Credits
Grading Scheme: S/U
Practical internship work experience under approved industrial supervision, as set forth in college regulations. 0-3 credits, repeatable (S-U). However, a maximum of 3 credits from ECH4948 and ECH 4949 can count towards the Chemical Engineering degree. For example, a student who has earned 1 credit of ECH 4949, can only have 2 credits of ECH 4948 count towards the degree.
Prerequisite: Engineering major.
Introduction to General Chemistry

CHM 1025, a two-credit course, is offered for students who wish to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence (CHM 2045/CHM 2045L, CHM 2046/CHM 2046L). A chemistry placement exam is offered online on ONE.UF (https://one.uf.edu/). The score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

General Chemistry

For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their general chemistry studies without interruption.

The following general chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence that meets preprofessional requirements in the College of Nursing and some majors in the College of Agricultural and Life Sciences.
- CHM 1020 is a terminal general education course that explores chemistry in terms of consumer products. This course meets preprofessional requirements in certain areas of the College of Agricultural and Life Sciences.
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the standard general chemistry sequence. This sequence meets the preprofessional requirement for a broad range of science and engineering majors. Students are presumed to have a good background in high school chemistry and mathematics (through MAC 1147) and are expected to pass the chemistry placement exam offered online on ONE.UF (https://one.uf.edu/) before registering for CHM 2045.
- CHM 2047/CHM 2047L is a one-semester program for entering students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
- CHM 2051 General Chemistry Honors is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.

Attendance Requirement

Students missing the first session of a laboratory, which includes the required safety instruction, will not be allowed to start late.

Courses

CHM 1020 Chemistry for the Liberal Arts 3 Credits
Grading Scheme: Letter Grade
Provides non-science majors with a basic understanding of the substances and chemical transformations central to our lives. Introduces chemical concepts and principles help the student better understand the role and impact of modern chemistry in society. (P)
Attributes: General Education - Physical Science

CHM 1025 Introduction to Chemistry 2 Credits
Grading Scheme: Letter Grade
Introductory readiness course in general chemistry for those with weak yet satisfactory backgrounds in high school chemistry and algebra. (P)
Corequisite: MAC 1147 or the equivalent.
Attributes: General Education - Physical Science
CHM 1030 Basic Chemistry Concepts and Applications 1 3 Credits
Grading Scheme: Letter Grade
The first half of the CHM 1030/CHM 1031 sequence. A terminal sequence for non-science students that presents chemistry from a medical/nursing perspective. Topics in inorganic chemistry and properties of both ionic and covalent compounds. (P)
Prerequisite: high school algebra.
Attributes: General Education - Physical Science

CHM 1031 Basic Chemistry Concepts and Applications 2 3 Credits
Grading Scheme: Letter Grade
The second half of CHM 1030/CHM 1031 sequence. Topics in organic chemistry and biochemistry. (P)
Prerequisite: CHM 1030.
Attributes: General Education - Physical Science

CHM 2045 General Chemistry 1 3 Credits
Grading Scheme: Letter Grade
The first semester of the CHM 2045/CHM 2045L and CHM 2046/CHM 2046L sequence. Stoichiometry, atomic and molecular structure, the states of matter, reaction rates and equilibria. A minimum grade of C is required to progress to CHM 2046. (P)
Prerequisite: CHM 1025 with a minimum grade of C, or a passing score on Chem placement plus no attempt of CHM 1025 w/grade <C or W, and MAC 1147, or MAC 1140 plus MAC 1114, or higher MAC course with a minimum grade of C.
Attributes: General Education - Physical Science

CHM 2045L General Chemistry 1 Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to reflect the topics presented in CHM 2045. (P)
Prerequisite: CHM 1025 with a minimum grade of C, or a passing score on Chem placement plus no attempt of CHM 1025 w/grade <C or W, and MAC 1147, or MAC 1140 plus MAC 1114, or higher MAC course with a minimum grade of C.
Attributes: General Education - Physical Science

CHM 2046 General Chemistry 2 3 Credits
Grading Scheme: Letter Grade
The second semester of the CHM 2045/CHM 2045L and CHM 2046/CHM 2046L sequence. Students who completed CHM 2045 or equivalent at another institution should consult a chemistry advisor before registering for this course. Acids and bases, additional aspects of chemical equilibria, thermodynamics, electrochemistry, complex ions and descriptive chemistry. (P)
Prerequisite: CHM 2045 with a grade of C or better and [MAC 1147 or (MAC 1140 and MAC 1114)] or (MAC 2### or MAC 3### or MAC 4###).
Attributes: General Education - Physical Science

CHM 2046L General Chemistry 2 Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to reflect the topics presented in CHM 2046. (P)
Prerequisite: CHM 2045L AND (MAC 1147 or (MAC 1140 and MAC 1114) or MAC 23#) AND (CHM 2045 or CHM 2095 or CHM 2050).
Attributes: General Education - Physical Science

CHM 2047 One-Semester General Chemistry 4 Credits
Grading Scheme: Letter Grade
Designed for entering (not transfer) students who wish to move more quickly into advanced coursework. Electronic structure and bonding, gases, liquids, solids, kinetics, equilibria, acids and bases, thermodynamics, oxidation-reduction, metals and non-metals. 
Prerequisite: AP, IB or high honors high school chemistry courses and a high score on the chemistry placement exam.
Corequisite: CHM 2047L.

CHM 2047L One-Semester General Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany CHM 2047.
Corequisite: CHM 2047.

CHM 2050 Honors General Chemistry 1 for Majors 3 Credits
Grading Scheme: Letter Grade
First semester of the CHM 2050/2045L and CHM 2051/2046L sequence. Stoichiometry, atomic and molecular structure, the states of matter, reaction rates and equilibria.
Prerequisite: (MAC1147 or equivalent college credit) and (passing grade in CHM1025 or passing ALEKS score unless non-passing CHM1025 grade is on record) and Chemistry major;
Corequisite: CHM 2045L.

CHM 2051 Honors General Chemistry 2 3 Credits
Grading Scheme: Letter Grade
Second semester of the CHM 2045/CHM 2045L and CHM 2051/CHM 2046L sequence. Open to students with superior performance in CHM 2045 or its equivalent. Acids and bases, additional aspects of chemical equilibria, thermodynamics, electrochemistry, complex ions, descriptive chemistry and instructor-chosen topics. (P)
Prerequisite: CHM 2045, CHM 2045L and instructor permission.
Corequisite: CHM 2046L.
Attributes: General Education - Physical Science

CHM 2054L Accelerated General Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
A cross-disciplinary, inquiry-based curriculum that focuses on major themes and concepts in chemistry with an emphasis on their application in modern, quantitative life sciences research. Equivalent to CHM 2045L and CHM 2046L or CHM 2047L.
Prerequisite: CHM 2050 minimum grade of B+, or CHM 2095 minimum grade of B+, or CHM 2045 minimum grade of B+, or a score of 5 in AP Chem or 6 in IB Chem, and MAC1147, or MAC1140 plus MAC1114, or higher MAC course minimum grade of C.

CHM 2095 Chemistry for Engineers 3 Credits
Grading Scheme: Letter Grade
Designed for entering (not transfer) students who wish to move more quickly into advanced coursework. Electronic structure and bonding, gases, liquids, solids, kinetics, equilibria, acids and bases, thermodynamics, oxidation-reduction, metals and non-metals. 
Prerequisite: AP, IB or high honors high school chemistry courses and a high score on the chemistry placement exam.
Corequisite: CHM 2047L.

CHM 2095L Chemistry Lab 1 for Engineers 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to complement CHM 2095.
CHM 2096 Chemistry for Engineers 2 3 Credits
Grading Scheme: Letter Grade
Second in a two-semester sequence. Topics include chemical equilibria, acid-base and solubility equilibria, entropy, free energy, electrochemical devices, solution dynamics, and descriptive inorganic and organic chemistry. All topics taught in an engineering case-study context. (P)
Prerequisite: CHM 2045 or CHM 2095 with a minimum grade of C and College of Engineering student.
Attributes: General Education - Physical Science

CHM 2096L Chemistry Lab 2 for Engineers 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to complement CHM 2096.
Prerequisite: (CHM 2045 or CHM 2095) and (CHM 2045L or CHM 2095L) with minimum grades of C and ENG college;
Corequisite: CHM 2096.

CHM 2200 Fundamentals of Organic Chemistry 3 Credits
Grading Scheme: Letter Grade
An elementary course embracing the more important aspects of organic chemistry. Intended for students in programs requiring only one semester of organic chemistry. Not intended for pre-med, pre-dentistry or pre-vet students.
Prerequisite: CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096, or the equivalent.

CHM 2200L Fundamentals of Organic Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Organic laboratory experiments to accompany CHM 2200.
Corequisite: CHM 2200.

CHM 2210 Organic Chemistry 1 3 Credits
Grading Scheme: Letter Grade
The first half of the CHM 2210/CHM 2211 sequence intended for majors and preprofessional students. A study of the structures, syntheses and reactions of organic compounds.
Prerequisite: CHM 2046 or CHM 2047 or CHM 2047L or CHM 2051.

CHM 2211 Organic Chemistry 2 3 Credits
Grading Scheme: Letter Grade
The second half of the CHM 2210/CHM 2211 sequence intended for majors and preprofessional students. A study of the structures, syntheses and reactions of organic compounds.
Prerequisite: CHM 2210 or CHM 2212 with a minimum grade of C;
Corequisite: CHM 2211L.

CHM 2211L Organic Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
Organic laboratory experiments designed to accompany CHM 2210/CHM 2211 or CHM 3217/CHM 3218.
Prerequisite: (CHM 2210 or CHM 2212 with a minimum grade of C) or CHM 3217.

CHM 2212 Organic Chemistry 1 for Majors 3 Credits
Grading Scheme: Letter Grade
First half of the CHM 2212/CHM 2213 sequence for chemistry majors. A study of structures, synthesis, and reactions of organic compounds, with emphasis on mechanism and spectroscopy.
Prerequisite: (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096) and chemistry major.

CHM 2213 Organic Chemistry 2 for Majors 3 Credits
Grading Scheme: Letter Grade
Second half of the CHM 2212/CHM 2213 sequence is for chemistry majors. Study of structures, synthesis, and reactions of organic compounds, with emphasis on mechanism and spectroscopy.
Prerequisite: (CHM 2210 or CHM 2212 with a minimum grade of C) and chemistry major.
Corequisite: CHM 2211L.

CHM 3120 Introduction to Analytical Chemistry 3 Credits
Grading Scheme: Letter Grade
Principles involved in quantitative analysis. Topics include acid-base equilibria and titrations, precipitation and complex formation, oxidation reduction and statistical treatment of data. Introduces spectrochemical and electrochemical methods of analysis and chemical separations.
Prerequisite: (CHM 2046 or CHM 2047 or CHM 2051) and (CHM 2046L or CHM 2047L).

CHM 3120L Analytical Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany CHM 3120.
Corequisite: CHM 3120 or equivalent.

CHM 3217 Organic Chemistry/Biochemistry 1 4 Credits
Grading Scheme: Letter Grade
A rigorous, one-semester overview of the structure, properties and reactions of organic compounds. This is the first half of a two-semester sequence in biochemistry. Students are expected to take CHM 3218 after completing CHM 3217.
Prerequisite: (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096 or CHM 2046C) and (CHM 2046L or CHM 2046L or CHM 2047L or CHM 2047L).

CHM 3218 Organic Chemistry/Biochemistry 2 4 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts of biochemistry and molecular biology from the structural and mechanistic perspective of organic chemistry.
Prerequisite: CHM 3217 or CHM 2211, or instructor permission.

CHM 3400 Physical Chemistry for the Biosciences 3 Credits
Grading Scheme: Letter Grade
Thermodynamics, electrochemistry, transport, chemical kinetics and molecular structure with emphasis on biological systems.
Prerequisite: (MAC 2312 or MAC 2512 or MAC 3473) and (CHM 2200 or CHM 2210 or CHM 2212), and two semesters of college physics; background in analytical chemistry recommended.

CHM 3610 Inorganic Chemistry 3 Credits
Grading Scheme: Letter Grade
Basic theoretical concepts involved in inorganic chemistry. Periodic trends, chemical bonding, structure and reactivity.
Prerequisite: CHM 2211 or CHM 2213 or CHM 3217.

CHM 3610L Inorganic Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
Synthesis and characterization of inorganic and organometallic compounds.
Prerequisite: CHM 2211L and CHM 3120L, or instructor permission.

CHM 4034 Advanced Biochemistry and Chemical Biology 4 Credits
Grading Scheme: Letter Grade
Secondary metabolism and biosynthetic pathways, bioinorganic chemistry, protein folding and trafficking, cellular signaling, replication and translation from a chemist's perspective. Applications in bioanalytical chemistry and in molecular and cell biology.
Prerequisite: CHM 3218 or BCH 4024.
CHM 4130 Instrumental Analysis 3 Credits
Grading Scheme: Letter Grade
Concepts of instrumentation for chemical analysis. In-depth examination of spectrochemical and electrochemical methods and chemical separations.
Prerequisite: (CHM 2211 or CHM 2213 or CHM 3217) and CHM 3120 and (MAC 2312 or MAC 2512 or MAC 3473) and (PHY 2053 or PHY 2048 or PHY 2060).
Corequisite: PHY 2054 or equivalent.

CHM 4130L Instrumental Analysis Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany CHM 4130.
Prerequisite: (CHM 2211 or CHM 2213 or CHM 3217) and CHM 3120 and CHM 3120L and (MAC 2312 or MAC 2512 or MAC 3473) and (PHY 2053 or PHY 2048 or PHY 2060).
Corequisite: CHM 4130

CHM 4143C Electronics and Instrumentation 3 Credits
Grading Scheme: Letter Grade
Principles of operation of instrumentation, optimization of instrumental conditions, and interpretation of instrumental data for qualitative and quantitative analysis. Application of electronic principles necessary to code for automated electronic measurements in chemical research.
Prerequisite: CHM 4130, or CHM 3400 and CHM 4413L or permission of instructor.

CHM 4230 Organic Spectroscopy 2 Credits
Grading Scheme: Letter Grade
Characterization and identification of organic compounds by spectral methods including IR, UV, NMR and mass spectrometry.
Prerequisite: CHM 2211 or CHM 2213 or CHM 3217

CHM 4272 The Organic Chemistry of Polymers 2 Credits
Grading Scheme: Letter Grade
Prerequisite: CHM 2200, CHM 2211, CHM 2213 and CHM 3217, or the equivalent.

CHM 4300L Laboratory in Biochemistry and Molecular Biology 2 Credits
Grading Scheme: Letter Grade
Introduces experimental techniques in biochemistry, especially those used in DNA isolation and manipulation, protein purification and enzyme kinetic studies.
Prerequisite: CHM 2211L and either CHM 3218, or CHM 2211 and BCH 4024.

CHM 4304 Chemical Aspects of Cellular Control 3 Credits
Grading Scheme: Letter Grade
Control of information, materials and energy within cellular systems. Examples taken from the biochemistry of plants, bacteria and higher organisms.
Prerequisite: (CHM 3218 or CHM 2211) and BCH 4024.

CHM 4308 Introduction to Enzyme Mechanism 3 Credits
Grading Scheme: Letter Grade
Principles of enzyme structure, isolation and purification and principles of the physical chemistry of enzyme/substrate interactions. Overview of concepts of biological catalysis, including transition state theory, descriptions and examples of mechanisms of biochemical catalysis, survey of co-factors, and catalytic antibodies, ribozyme structure and catalysis.
Prerequisite: BCH 4024 or CHM 3218;
Corequisite: CHM 4300 or CHM 4411.

CHM 4411 Physical Chemistry: Thermodynamics and Kinetics 4 Credits
Grading Scheme: Letter Grade
Gas laws, kinetic theory, classical and statistical thermodynamics and applications to solutions, phase equilibria, chemical equilibria and electrochemistry.
Prerequisite: one year of general chemistry and one year of physics;
Corequisite: MAC 2313; background in analytical and organic chemistry recommended.

CHM 4411L Physical Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
A series of laboratory experiments designed to accompany CHM 4411.
Prerequisite: CHM 3120L;
Corequisite: CHM 4411.

CHM 4412 Physical Chemistry: Chemical Bonding and Spectroscopy 4 Credits
Grading Scheme: Letter Grade
Introduces quantum theory, atomic and molecular structure, chemical bonding and spectra, chemical reaction rate laws and mechanisms, and statistical and collision theories of reaction rates.
Prerequisite: (CHM 2046 or CHM 2046C or CHM 2047 or CHM 2051 or CHM 2096) and (PHY 2049 or PHY 2054 or PHY 2061).
Corequisite: MAC 2313.

CHM 4413L Biophysical Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments to demonstrate basic concepts of the physical chemistry of biological systems.
Prerequisite: CHM 2211L and CHM 3120L;
Corequisite: CHM 4413.

CHM 4611 Advanced Inorganic Chemistry 3 Credits
Grading Scheme: Letter Grade
Introduces advanced concepts of modern inorganic chemistry. Major themes include application of group theory to structure and bonding, molecular orbital treatment of reactivity, fundamental organometallic chemistry and introduces vibrational and electronic spectroscopy.
Prerequisite: CHM 3120 and CHM 3610;
Corequisite: CHM 4412.

CHM 4671 Bioinorganic Chemistry 3 Credits
Grading Scheme: Letter Grade
From an inorganic perspective, introduces the structure and function of a variety of metalloproteins and metalloenzymes, concentrating on systems containing transition metals. Emphasizes the role that metal ion(s) play in the function of the biomolecules.
Prerequisite: CHM 3610 and (CHM 3218 or BCH 4024).

CHM 4905 Individual Problems 1-3 Credits
Grading Scheme: Letter Grade
Double registration permitted. An assigned reading program or development of an assigned experimental problem.
Prerequisite: permission of faculty member supervising the work.
CHM 4910 Undergraduate Research 0-3 Credits
Grading Scheme: Letter Grade
Laboratory or literature investigations of chemical problems of current interest.
Prerequisite: permission of faculty member supervising the work.

CHM 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special Topics

CHM 4940 Supervised Teaching 1-2 Credits
Grading Scheme: Letter Grade
Supervised teaching, usually at the general chemistry level. Required is a superior record at UF in the course in which the student will assist and evidence that the student’s own progress will not be delayed.
Prerequisite: instructor permission.

CHM 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade

IDH 3931 Interdisciplinary Junior Honors 1-3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide honors program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

ISC 2400L Cross-Disciplinary Laboratory 1 3 Credits
Grading Scheme: Letter Grade
First course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2010L, CHM 2045L and PHY 2053L.
Prerequisite: high school algebra or equivalent. Degree-seeking students only.

ISC 2401L Cross-Disciplinary Laboratory 2 3 Credits
Grading Scheme: Letter Grade
Second course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2046L and PHY 2054L.
Prerequisite: ISC 2400L and MAC 1147 or equivalent;
Corequisite: BSC 2010 and CHM 2045 or CHM 2047 or CHM 2095.

ISC 3523C Research Methods 3 Credits
Grading Scheme: Letter Grade
The tools scientists use to solve scientific problems, including use of experiments to answer scientific questions, design of experiments to reduce systematic and random errors, use of statistics to interpret experimental results and deal with sampling errors, mathematical modeling of scientific phenomena and oral presentation of scientific work.
Prerequisite: UFTeach Step 1 and one year of college biology, chemistry or physics.

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Courses
CHI 1130 Beginning Chinese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing. Materials are designed for learners with no prior exposure to the language. Those with native background or education for four years or more in a Chinese speaking country must take a placement test before enrolling in any Chinese language class.

CHI 1131 Beginning Chinese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: CHI 1130 with minimum grade of C, or S, or the equivalent.

Chinese | Languages, Literatures, and Cultures
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)
CHI 2230 Intermediate Chinese 1 5 Credits  
**Grading Scheme:** Letter Grade  
Intermediate study of the four skills with new vocabulary and grammar.  
**Prerequisite:** CHI 1131 with minimum grade of C, or S, or the equivalent.

CHI 2231 Intermediate Chinese 2 5 Credits  
**Grading Scheme:** Letter Grade  
Continuation of intermediate study of the four skills with new vocabulary and grammar.  
**Prerequisite:** CHI 2230 with minimum grade of C, or S, or the equivalent.

CHI 2340 Chinese for Heritage Learners 1 4 Credits  
**Grading Scheme:** Letter Grade  
For those with significant bilingual speaking and listening backgrounds. Emphasis is on recognition of the characters and writing, and pronunciation and speaking.

CHI 2341 Chinese for Heritage Learners 2 4 Credits  
**Grading Scheme:** Letter Grade  
To consolidate the foundation built in Chinese for Heritage Learners 1, to expand vocabulary and to introduce more complex grammatical structures. Emphasis is on reading and writing. Those who successfully complete CHI 2341 are eligible for CHI 3410.

CHI 3403 Chinese Calligraphy 3 Credits  
**Grading Scheme:** Letter Grade  
Introductory study of the origin, composition, development, variations and aesthetic styles of Chinese characters with laboratory sessions for appreciating and practicing calligraphic skills. (H and N)  
**Prerequisite:** (CHI 2231 or JPN 2231 or CHI 3410 or JPN 3410 or CHI 3411 or JPN 3411 or CHW 4120 or CHW 4130 or CHW 4140 or JPW 4130 or JPW 4131) or instructor permission.

CHI 3410 Advanced Chinese 1 3 Credits  
**Grading Scheme:** Letter Grade  
Advanced study of the four skills with attention to more complex structures. (S and N)  
**Prerequisite:** CHI 2231 with minimum grade of C, or S, or the equivalent.

CHI 3411 Advanced Chinese 2 3 Credits  
**Grading Scheme:** Letter Grade  
Continuation of advanced study of the four skills with attention to more complex structures. (S and N)  
**Prerequisite:** CHI 3410 with minimum grade of C, or S, or the equivalent.

CHI 3440 Business Chinese 3 Credits  
**Grading Scheme:** Letter Grade  
Development of language skills and protocol issues used in Chinese business environments. Acquire vocabulary, phrases, and sentence patterns essential for business transactions and develop oral presentations, business cards, and resumes.  
**Prerequisite:** completion of second-year Chinese required, or by permission.

CHI 4050 Fourth Year Chinese 1 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces and analyzes the documentary prose style used in Chinese newspapers and media. By studying a variety of short texts students develop skill in listening, speaking, reading and writing about issues commonly encountered in Chinese newspaper editorials and in television news programs, debate roundtables, or TV documentaries.  
**Prerequisite:** CHI 3411 or equivalent with a minimum grade of C.

CHI 4051 Fourth Year Chinese 2 3 Credits  
**Grading Scheme:** Letter Grade  
Solidifies and improves students' knowledge of advanced Chinese through literature as a continuation of CHI 4050. Emphasizes formulating strategies to learn the difference between written language and spoken language and approaches meaningful writing with an eye toward careful examination of authentic writing samples.  
**Prerequisite:** CHI 4050

CHI 4850 Structure of Chinese 3 Credits  
**Grading Scheme:** Letter Grade  
Introduction to phonological, grammatical and discourse structures of Mandarin Chinese, with an emphasis on its contrastive aspects with the English language. (S and N)  
**Prerequisite:** CHI 1131 with minimum grade of C or LIN 3010, or instructor permission.

CHI 4905 Individual Study 1-5 Credits  
**Grading Scheme:** Letter Grade  
For those who seek independent work not offered in another course. Includes all individual study courses offered by the Chinese section.

CHI 4911 Undergraduate Research in Language or Linguistics 0-3 Credits  
**Grading Scheme:** Letter Grade  
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

CHI 4930 Special Topics in Chinese Studies 3 Credits  
**Grading Scheme:** Letter Grade  
Variable topics dealing with specific issues in Chinese studies.

CHI 4935 Senior Thesis 3 Credits  
**Grading Scheme:** Letter Grade  
Select a Chinese faculty member to act as director for an independent research project that culminates in the preparation of an honors thesis.  
**Prerequisite:** minimum 3.5 GPA and instructor permission.

CHI 4940 Internship 1-6 Credits  
**Grading Scheme:** Letter Grade  
Gain practical experience that enhances classroom learning.

CHI 4956 Overseas Studies 1-18 Credits  
**Grading Scheme:** Letter Grade

CHT 3110 Chinese Literary Heritage 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces pre-modern Chinese literature in translation. Topics chosen from classical poetry, short stories, novels and drama. Emphasis is on the interplay between orthodox values and the folk tradition. All readings in English. (H and N) (WR)  
**Attributes:** General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement
CHT 3123 Pre-Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
Premodern Chinese narrative from its philosophical and historical origins to the fiction at the turn of the 20th century. Emphasizes the 16th and 17th centuries when Chinese vernacular fiction flourished. (H and N)
Attributes: General Education - Humanities, General Education - International

CHT 3124 Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
A survey of modern Chinese fiction in translation. Samples are from the early 20th century through the contemporary era and include writers of the early Republic, the P.R.C. and Taiwan. Focus is on fiction as a vehicle for social change. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 3391 Chinese Film and Media 4 Credits
Grading Scheme: Letter Grade
Examination of Chinese cinema and other forms of media such as television, music and print culture in a broad sociopolitical and historical context. An interdisciplinary approach with a diversity of readings and multimedia tools incorporated into discussions.
Prerequisite: One ENG, CHI, CHT, or CHW course, or instructor permission.

CHT 3500 Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Chinese culture with emphasis on its philosophy, language, society, art and people as a whole. All readings in English. (H and N)
Attributes: General Education - Humanities, General Education - International

CHT 3513 Taoism and Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the general history and culture of Taoism in ancient and modern China: its thoughts, belief systems, cultural influences, practices and rituals.

CHT 3523 Hong Kong, Taiwan, and the New Global Cinema 4 Credits
Grading Scheme: Letter Grade
Overview of Sinophone film in Hong Kong, Taiwan, and the broader sphere of Chinese diaspora. Addresses film history, culture, and aesthetics.
Prerequisite: CHI 1130 or ENG 1400 or ENG 2300 or instructor permission.

CHT 4111 Dream of the Red Chamber 3 Credits
Grading Scheme: Letter Grade
Explores the intellectual and social life of traditional China through the 18th century epic novel, Story of the Stone. Also studies interpretive theories of the novel, both Chinese and Western. All readings are in English. (H and N OR S and N) (WR)
Prerequisite: CHI 3500 or CHT 3110, or instructor permission.
Attributes: General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

CHT 4603 Journey to the West 3 Credits
Grading Scheme: Letter Grade
Exploration of traditional Chinese religious culture, cultural history and literacy expression through a 100 chapter novel known as Journey to the West, or Monkey.
Prerequisite: one course in Chinese culture or instructor permission.

CHT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

CHW 4120 Classical Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduction to classical Chinese prose with texts drawn mainly from early histories and philosophical writings (500 BC - AD 100). Emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: CHI 2231 with minimum grade of C or instructor permission.

CHW 4121 Classical Chinese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of CHW 4120 focusing on classical Chinese prose with texts drawn from early historical and philosophical texts to belles lettres of the medieval era and later periods. Emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: CHW 4120 or instructor permission.

CHW 4130 Readings in Chinese Literature 3 Credits
Grading Scheme: Letter Grade
Introduces advanced language students to a sampling of Chinese writers. Materials chosen from classic or modern/contemporary Chinese literature rotated across semesters. All readings in Chinese. (H and N)
Prerequisite: CHI 3410 or the equivalent.

CHW 4140 Newspaper Chinese 3 Credits
Grading Scheme: Letter Grade
Development of ability to understand and translate the documentary prose style used in Chinese newspapers and academic journals. Introduces literary function words and grammar structures, with comparison to the vernacular. Most readings in the simplified character form used in the PRC; all readings in Chinese. Applications for research on modern China.
Prerequisite: CHI 3410 or instructor permission.

CHW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in the target language. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

Civil and Coastal Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Website (https://www.essie.ufl.edu/civil-coastal-engineering/)
Curriculum
• Civil Engineering
• Combination Degrees
Courses

CCE 4015 Civil Engineering Estimating 3 Credits
Grading Scheme: Letter Grade
Prerequisite: CGN 4160.

CCE 4204 Construction Equipment, Methods and Management 3 Credits
Grading Scheme: Letter Grade
Theory and practice of construction operations, equipment utilization and construction methods. Analysis of costs. Optimizing crew and equipment. Heavy equipment costs. New emphasis on planning and executing a construction project.
Prerequisite: junior standing or higher or instructor permission.
Corequisite: CGN 4101.

CCE 4811 Construction Engineering Design 3 Credits
Grading Scheme: Letter Grade
Simulation of comprehensive construction project involving all phases of planning, scheduling and control from start to finish, which involves making major decisions. Oral presentation at the end of course.
Prerequisite: CGN 4160 and (CGN 4101 or EIN 3354).

CEG 4011 Soil Mechanics 4 Credits
Grading Scheme: Letter Grade
Physical properties of soils, compaction, flow of water through soil, distribution of stress within soil and consolidation. Laboratory.
Prerequisite: EGM 3520.

CEG 4012 Geotechnical Engineering 3 Credits
Grading Scheme: Letter Grade
Subsurface exploration settlements analysis, slope stability, earth pressure and an introduction to foundation design.
Prerequisite: CEG 4011.

CEG 4104 Retaining Wall and Embankment Design 3 Credits
Grading Scheme: Letter Grade
The application of soil mechanics to the design and analysis of various types of retaining structures and earthen embankments.
Prerequisite: CEG 4012.

CEG 4111 Foundation Engineering Design 3 Credits
Grading Scheme: Letter Grade
Comprehensive design of geotechnical system, focusing on design of complete project and utilizing CAD programs. Designs, drawings and oral presentations through group effort.
Prerequisite: CEG 4012.

CES 3102 Mechanics of Engineering Structures 4 Credits
Grading Scheme: Letter Grade
Introduces structural load, equilibrium, shear and bending moment diagrams, structural analysis software, classical methods for displacement determination, method of consistent deformations, slope deflection method, moment distribution method.
Prerequisite: EGM 3520.

CES 4605 Analysis and Design in Steel 3 Credits
Grading Scheme: Letter Grade
Elastic and plastic theories of design, design of members subjected to tension, compression, flexure and torsion. Design of connections and rigid frames.
Prerequisite: CES 3102 and CGN 3501C and Engineering major.

CES 4608 Advanced Steel Design 3 Credits
Grading Scheme: Letter Grade
Advanced topics in the design of steel structural building systems, advanced column and beam design, base plate design, moment amplification, second-order analysis, bracing considerations, beam-columns, interaction equations, connection design, composite design, plate girders.
Prerequisite: CES 4605 and Engineering major.

CES 4702 Analysis and Design in Reinforced Concrete 3 Credits
Grading Scheme: Letter Grade
Ultimate strength analysis and design of reinforced beams and columns, working stress design for flexure, design of footings and retaining walls.
Prerequisite: CES 3102 and CGN 3501C and Engineering major.

CES 4704 Advanced Reinforced Concrete Design 3 Credits
Grading Scheme: Letter Grade
Advanced topics in the design of concrete building systems. Long columns and frames, floor and roof systems, including two-way slabs, continuous beams, spandrel beams, torsion, foundations, introduces pre-stressed concrete.
Prerequisite: CES 4702 and Engineering major.

CGN 2002 Introduction to Civil Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the broad field of civil engineering.

CGN 3421 Computer Methods in Civil Engineering 3 Credits
Grading Scheme: Letter Grade
Review of computer programming. Numerical methods as applied to civil engineering problems and civil engineering software.
Prerequisite: COP 2271.

CGN 3501C Civil Engineering Materials 4 Credits
Grading Scheme: Letter Grade
Studies the principal materials used for engineering purposes with special attention to mechanical properties and their importance to the engineer. Hands-on experience in testing of civil engineering materials.
Corequisite: EGM 3520.

CGN 3510 Introduction to Sustainable Engineering 3 Credits
Grading Scheme: Letter Grade
Overview of the principles of sustainability as they relate to civil and environmental engineering issues. Discussions and projects facilitate a basic understanding of the production-consumption model and life cycle assessment.
Prerequisite: Engineering major.

CGN 3710 Experimentation and Instrumentation in Civil Engineering 3 Credits
Grading Scheme: Letter Grade
Fundamentals and applications of measuring systems commonly used in civil engineering. Topics include recording techniques, strain, force, displacement, flow, temperature, humidity and PH measurements.
Prerequisite: PHY 2049.

CGN 4101 Civil Engineering Cost Analysis 3 Credits
Grading Scheme: Letter Grade
Prerequisite: 3EG classification or instructor permission.
CWR 4160 Civil Engineering Practice 3 Credits
Grading Scheme: Letter Grade
Fundamentals of civil engineering professional practice: project management, construction delivery processes, business concepts, public policy, administration and leadership.
Prerequisite: EGM 2511 or equivalent.
Corequisite: CGN 3501C.

CGN 4503 Pavement Design 3 Credits
Grading Scheme: Letter Grade
Function and material requirements of different elements of flexible and rigid pavement systems; characterization of soils, materials, traffic loads, and environment for design; flexible and rigid pavement design; new developments.
Prerequisite: CGN 3501C.

CGN 4600 Public Works Engineering and Management Practices 3 Credits
Grading Scheme: Letter Grade
Public works profession, organization, administration and management of operating divisions with emphasis on role of engineer.

CGN 4806 Transportation-Water-Materials Design 3 Credits
Grading Scheme: Letter Grade
Simulation of a design project experience through the completion and presentation of a comprehensive roadway project design. Students work in multi-disciplinary groups to complete a system design that includes traffic, materials, hydrologic and geotechnical considerations.
Prerequisite: senior standing.

CGN 4905 Special Problems in Civil Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student’s major field of engineering study.
Prerequisite: undergraduate coordinator permission.

CGN 4910 Structures-Geotechnical-Construction Comprehensive System Design 3 Credits
Grading Scheme: Letter Grade
Simulation of a design office experience through the completion and presentation of a comprehensive building design. Students work in multi-disciplinary groups to complete a system design that includes structural, geotechnical and construction management considerations.
Prerequisite: instructor permission.

CGN 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Co-op work experience in a related field.

CWR 3201 Hydrodynamics 4 Credits
Grading Scheme: Letter Grade
Classification and properties of fluids, hydrostatics, and conservation of mass, momentum and energy in fluid flow. Potential flow, similitude and physical modeling. Laminar and turbulent pipe flow. Introduces turbomachines.
Prerequisite: EGM 2511 (with minimum grade of C) and MAP 2302 (with minimum grade of C).

CWR 4114 Surface Hydrology 3 Credits
Grading Scheme: Letter Grade
Occurrence and distribution of water by natural processes, including atmospheric thermodynamics, precipitation, runoff, infiltration, water losses, flood routing and catchment characteristics, analysis and methods of runoff prediction.
Prerequisite: CWR 4202.

CWR 4202 Hydraulics 3 Credits
Grading Scheme: Letter Grade
Fundamental equations for pipe and open conduit flow. Development of design oriented formulas for pipes and open channels. Introduces hydrology.
Prerequisite: CWR 3201 or instructor permission.

CWR 4306 Urban Stormwater Systems Design 3 Credits
Grading Scheme: Letter Grade
Surface-water system design including: time of concentration, peak runoff rate, open-channel flow, gravity storm sewer, culvert, stormwater pumping, filtration systems, hydrograph generation, flood routing, site layout, site grading and permitting.
Corequisite: CWR 4202.

CWR 4542 Water Resources Engineering 3 Credits
Grading Scheme: Letter Grade
Study of water resources engineering applications including hydrology and statistics, groundwater, hydraulic machinery, dams and reservoirs, water quality, water quality modeling, water and waste-water treatment and water law and institutions.
Prerequisite: CWR 4202.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1 Credit
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

ENV 4514C Water and Wastewater Treatment 3 Credits
Grading Scheme: Letter Grade
Design of water and wastewater treatment units.

TTE 4004C Transportation Engineering 4 Credits
Grading Scheme: Letter Grade
Overview of the significance of highway transportation to the social and economic underpinnings of society. Introduces road vehicle performance, geometric design of highways, traffic flow and queuing theory, highway capacity and level of service analysis, traffic control and analysis at signalized intersections, and travel demand and traffic forecasting.
Prerequisite: 3EG classification.

TTE 4106 Urban Transportation Planning 3 Credits
Grading Scheme: Letter Grade
Overview of the four-step urban transportation planning process; includes analytical techniques for estimating future travel demand and state-of-the-art approaches.
Prerequisite: TTE 4004C.

TTE 4201 Traffic Engineering 3 Credits
Grading Scheme: Letter Grade
General review of the fundamentals of traffic engineering with emphasis on field studies and data analysis.
Prerequisite: TTE 4004C.
Classics

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies. Website (http://classics.ufl.edu/)

Curriculum
• Classical Studies
• Classical Studies Minor
• Greek Studies Minor

Courses

CLA 2100 The Glory That Was Greece 3 Credits
Grading Scheme: Letter Grade
A broad cultural view of the classical Greek world. Greek sources are read in translation. (H and N) Attributes: General Education - Humanities, General Education - International

CLA 2120 The Grandeur That Was Rome 3 Credits
Grading Scheme: Letter Grade
Provides a multi-faceted introduction to the culture of Rome. Primary source material is read in translation. (H and N) Attributes: General Education - Humanities, General Education - International

CLA 2521 Classical Antiquity and Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines classical antiquity, applying methods and theories of sustainability to explore the impact of the ancient Greeks and Romans on their environment and focusing on the distribution of wealth, social stratification, land use and classical representations of the natural world. (H) Attributes: General Education - Humanities

CLA 3111 Athens in Topography and Monuments 3 Credits
Grading Scheme: Letter Grade
Explores the topography and monuments of ancient Athens to understand social, historical, economic and religious institutions. Attributes: General Education - Humanities, General Education - International

CLA 3114 Greece Today and Yesterday 3 Credits
Grading Scheme: Letter Grade
An interdisciplinary course examining various aspects of ancient and modern Greek life and culture. (H and N) (WR) Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CLA 3151 Pompeii: An Archaeological Laboratory 3 Credits
Grading Scheme: Letter Grade
Studies the material remains of a Roman town through an examination of the excavated finds: architecture, wall-paintings and inscriptions. (H and N) Attributes: General Education - Humanities, General Education - International

CLA 3160 Ancient Egypt 3 Credits
Grading Scheme: Letter Grade
Studies the civilization, culture and monuments of ancient Egypt from prehistoric times to the New Kingdom and Late period. (H and N) Attributes: General Education - Humanities, General Education - International

CLA 3161 Introduction to Hieroglyphics 3 Credits
Grading Scheme: Letter Grade
A beginner’s course in Egyptian hieroglyphics of the Middle Kingdom. Also designed for students with no former instruction in ancient languages. Prerequisite: CLA 3160.
CLA 3433 The Athenian Democracy 3 Credits
Grading Scheme: Letter Grade
Studies ancient Athens from c.650-322 BCE, with attention to the political, social and cultural institutions of the democracy, drawing on primary sources and modern theory to explain democratic changes from the archaic to the classical period. (H)
Attributes: General Education - Humanities

CLA 3434 Classical Greece 3 Credits
Grading Scheme: Letter Grade
Studies the social, political and cultural developments of classical Greece from the Persian Wars to the death of Alexander (500-322 BCE). (H)
Attributes: General Education - Humanities

CLA 3500 Sport and Recreation in the Ancient World 3 Credits
Grading Scheme: Letter Grade
Examines literary and archaeological sources to determine the social, economic, political and cultural importance of games in the ancient Mediterranean world from the time of Homer to the fall of the Roman Empire.
Prerequisite: sophomore standing or higher.

CLA 3504 Gender and Sexuality in Classical Antiquity 3 Credits
Grading Scheme: Letter Grade
Explores perceptions of the masculine and feminine in Ancient Greece and Rome, discussing these stereotypes in their political, social, economic and cultural contexts. (H)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

CLA 3700 Classical Archaeology 3 Credits
Grading Scheme: Letter Grade
Illustrated lectures on archaeology, its process of discovery and methods. History of major archaeological exploration in Mediterranean lands compared with extant literary information. (H and N)
Attributes: General Education - Humanities, General Education - International

CLA 3791 The Ancient City: Greek Cities 3 Credits
Grading Scheme: Letter Grade
Development of the cities of classical Greece from Minoan centers through Byzantium. All aspects of city life are covered: design, building techniques, culture and ideas. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CLA 3793 The Ancient City: Roman Cities 3 Credits
Grading Scheme: Letter Grade
Studies the cities of the Roman Empire from the founding of Rome to the establishment of Constantinople as the Eastern capital. Emphasis on life in imperial Rome and in European and North African cities. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CLA 3930 Special Topics in Classical Civilization 3 Credits
Grading Scheme: Letter Grade
Examines various aspects of Greek and Roman culture based on the ancient sources, literary and archaeological. (H and N)
Attributes: General Education - Humanities, General Education - International

CLA 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports. All work in will be in translation.
Prerequisite: instructor permission.

CLA 4911 Undergraduate Research in Classical Civilization 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Classical Civilization. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Classical Civilization.

CLA 4931 Classics Capstone Seminar 3 Credits
Grading Scheme: Letter Grade
Introduces scholarly literature on a significant topic in classics. Students will write a research paper showing proper use of primary and secondary sources on the topic.
Prerequisite: classics major with at least 18 credits of CLA and/or CLT courses and at least 8 credits of Latin or Ancient Greek.

CLA 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

CLT 2044 English Vocabulary from Greek and Latin 3 Credits
Grading Scheme: Letter Grade
Historical study of the origins, development and lexicography of English vocabulary with emphasis on elements derived from Greek and Latin. (H)
Attributes: General Education - Humanities

CLT 3123 Survey of Roman Literature 3 Credits
Grading Scheme: Letter Grade
Critical study of the development of Roman literature. Includes readings from Plautus, Cicero, Catullus, Vergil, Ovid and Tacitus, read in translation. (H and N)
Attributes: General Education - Humanities, General Education - International

CLT 3291 Greek Drama 3 Credits
Grading Scheme: Letter Grade
The classical Greek theater, archaeological remains of important theaters and selected plays of Aeschylus, Sophocles, Euripides, Aristophanes and Menander. All works are read in translation. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CLT 3340 Ancient Greek and Roman Epic 3 Credits
Grading Scheme: Letter Grade
Examines the origin and development of the ancient Greek and Roman epic traditions in the political and social context of the Mediterranean region and Near East from the first millennium BCE through the first century CE. (H)
Attributes: General Education - Humanities

CLT 3370 Myths of the Greeks and Romans 3 Credits
Grading Scheme: Letter Grade
Development, importance and influence of Graeco-Roman mythology. The main Greek and Latin literary sources are read in translation. (H and N)
Attributes: General Education - Humanities, General Education - International

CLT 3371 Religions of the Graeco-Roman World 3 Credits
Grading Scheme: Letter Grade
Development, importance and influence of Greek and Roman religion and cult practice. The main literary and epigraphical sources are read in translation. (H and N)
Attributes: General Education - Humanities, General Education - International
CLT 3421 Classics and Science Fiction 3 Credits
Grading Scheme: Letter Grade
Studies science fiction's origins in Greek and Roman texts to investigate the influence of Greco-Roman literature on modern works of science fiction.
Prerequisite: CLA 2100 or CLA 2120 or CLT 2044.

CLT 3510 Ancient World in Film 4 Credits
Grading Scheme: Letter Grade
Examines film and television characterizations of the ancient world and how these accord with the facts as we know them through historical and archaeological evidence. Viewing of selected movies along with background readings, lectures and discussion. (H)
Attributes: General Education - Humanities

CLT 3531 Legendary Rome 3 Credits
Grading Scheme: Letter Grade
The myths and history associated with Rome's early foundation stories and examination of works of literature about Rome's foundation in their political, social and cultural contexts.

CLT 3930 Special Topics in Classical Literature 3 Credits
Grading Scheme: Letter Grade
Examines various aspects of Greek and Roman literature with focus on special genres (e.g., historiography), periods (e.g., the age of Augustus) or subjects (e.g., slavery). (H)
Attributes: General Education - Humanities

CLT 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports. All works are read in translation.
Prerequisite: instructor permission.

GMT 3513 Greece in the European Context in the 20th Century 3 Credits
Grading Scheme: Letter Grade
Overview of Greek politics, society and culture in the 20th century.

GMT 4110 The Literature of Byzantium 3 Credits
Grading Scheme: Letter Grade
Overview of major genres of Byzantine literature (Patristic literature, oratory, historiography, chronicle, hagiography, hymnography, epic poetry) from the years CE 330-1453. (H) (WR)
Prerequisite: instructor permission.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

GMT 4911 Undergraduate Research in Modern Greek Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

GRE 1120 Beginning Ancient Greek 1 4 Credits
Grading Scheme: Letter Grade
The basics of ancient Greek grammar, morphology, syntax and vocabulary.

GRE 1121 Beginning Ancient Greek 2 4 Credits
Grading Scheme: Letter Grade
The basics of ancient Greek grammar, morphology, syntax and translation, with special attention to irregular verbs.
Prerequisite: GRE 1120 or GRE 1130.

GRE 1130 Accelerated Beginning Ancient Greek 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, GRE 1131, constitute the basic sequence for development of overall skill in the language.

GRE 1131 Accelerated Beginning Ancient Greek 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: GRE 1130 or the equivalent.

GRK 1130 Beginning Modern Greek 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, GRK 1131, constitute the basic sequence for development of overall skill in the language.

GRK 1131 Beginning Modern Greek 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: GRK 1130 or the equivalent.

GRK 2200 Intermediate Modern Greek 1 3 Credits
Grading Scheme: Letter Grade
Readings in modern Greek literature, history and culture. (H and N)
Prerequisite: GRK 1131 or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRK 2201 Intermediate Modern Greek 2 3 Credits
Grading Scheme: Letter Grade
Additional readings in modern Greek literature, history and culture. (H and N)
Prerequisite: GRK 2200 or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRK 2202 Intermediate Modern Greek 3 3 Credits
Grading Scheme: Letter Grade
Additional study of representative modern Greek prose, poetry and drama in the original from independence (1830) to the present. The course combines the study of the modern Greek language with readings, analysis and discussion of major literary works.
Prerequisite: GRK 2201 or the equivalent.

GRK 4905 Individual Work in Modern Greek 1-4 Credits
Grading Scheme: Letter Grade
For advanced students who seek independent work not offered in another course. Must be arranged individually with Greek faculty.
Prerequisite: GRK 1131.

GRW 2211 Intermediate Greek Prose 3 Credits
Grading Scheme: Letter Grade
Readings selected from Attic Greek prose authors designed to aid students in the transition from grammar to connected prose passages.
Prerequisite: GRE 1121 or GRE 1131 or the equivalent.

GRW 2240 New Testament Greek 3 Credits
Grading Scheme: Letter Grade
Reviews grammar and forms. Readings from several books of the New Testament. (H and N)
Prerequisite: some knowledge of Greek and instructor permission.
Attributes: General Education - Humanities, General Education - International

GRW 3102 Survey of Greek Literature 2 3 Credits
Grading Scheme: Letter Grade
Studies representative texts from various periods of Greek literature. (H and N)
Attributes: General Education - Humanities, General Education - International
GRW 3301 Greek Drama 3 Credits  
Grading Scheme: Letter Grade  
Selected plays of Aeschylus, Sophocles or Euripides.  
Prerequisite: one 2000-level Greek course or the equivalent.

GRW 3501 Plato 3 Credits  
Grading Scheme: Letter Grade  
Studies Plato’s Meno and Apology. (H and N)  
Prerequisite: GRE 1131 or the equivalent.  
Attributes: General Education - Humanities, General Education - International

GRW 4330 Greek Lyric Poetry 3 Credits  
Grading Scheme: Letter Grade  
Translation and analysis of Greek lyric poetry, from Archilochus to Bacchylides. (H and N)  
Prerequisite: two 3000-level Greek courses or the equivalent.  
Attributes: General Education - Humanities, General Education - International

GRW 4340 Homer and Greek Epic 3 Credits  
Grading Scheme: Letter Grade  
Translation and analysis of selections from Homer’s Iliad and Odyssey. (H and N)  
Prerequisite: two 3000-level Greek courses or the equivalent.  
Attributes: General Education - Humanities, General Education - International

GRW 4380 Greek Historians 3 Credits  
Grading Scheme: Letter Grade  
Translation and analysis of selections of Herodotus, Thucydides, Xenophon and Plutarch. (H)  
Prerequisite: two 3000-level Greek courses or the equivalent.  
Attributes: General Education - Humanities, General Education - International

GRW 4700 Greek Orators 3 Credits  
Grading Scheme: Letter Grade  
Translation and analysis of selections from Lysias, Demosthenes and Isocrates. (H and N)  
Prerequisite: two 3000-level Greek courses or the equivalent.  
Attributes: General Education - Humanities, General Education - International

GRW 4905 Individual Work 1-4 Credits  
Grading Scheme: Letter Grade  
Reading, conference and reports.  
Prerequisite: GRE 1131 or the equivalent.

GRW 4911 Undergraduate Research in Greek Language and Literature 0-3 Credits  
Grading Scheme: Letter Grade  
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

GRW 4930 Studies in Greek Literature 3 Credits  
Grading Scheme: Letter Grade  
Advanced study of a particular author, genre, period or subject.  
Prerequisite: one 3000-level course in ancient Greek.

LAT 1101 Beginning Latin 2 3 Credits  
Grading Scheme: Letter Grade  
The second part of the sequence for those with little or no background in Latin.  
Prerequisite: LAT 1120 with minimum grade of C or S, or the equivalent.

LAT 1104 Beginning Latin 3 3 Credits  
Grading Scheme: Letter Grade  
The third part of the sequence for students with little background in high-school Latin.  
Prerequisite: LAT 1101 with minimum grade of C or S, or the equivalent.

LAT 1120 Beginning Latin 1 4 Credits  
Grading Scheme: Letter Grade  
The first of a 3-semester sequence for students with little or no background in Latin. Others enrolling in the course will be required to take it for an S-U grade.

LAT 1130 Accelerated Beginning Latin 1 5 Credits  
Grading Scheme: Letter Grade  
This course and its sequel, LAT 1131, constitute the basic sequence for development of overall skill in the language. Students are expected students to have little or no background in Latin. Others enrolling in the course will be required to take it for an S-U grade.

LAT 1131 Accelerated Beginning Latin 2 5 Credits  
Grading Scheme: Letter Grade  
Continuation of the basic sequence for development of overall skill in the language.  
Prerequisite: LAT 1130 with minimum grade of C, or S, or the equivalent.

LIT 2000 Introduction to Literature 3 Credits  
Grading Scheme: Letter Grade  
Examines the important role literature has played in individuals’ lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)  
Prerequisite: ENC 1101  
Attributes: General Education - Humanities

LNW 2321 Introduction to Vergil 3 Credits  
Grading Scheme: Letter Grade  
Readings in Vergil's Eclogues, Georgics and/or the Aeneid, with emphasis on introducing Vergilian style, diction poetic techniques and basic genre differences. Review of Latin grammar and syntax. (H)  
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin.  
Attributes: General Education - Humanities

LNW 2560 Readings in Latin Literature 3 Credits  
Grading Scheme: Letter Grade  
Examines various aspects of Roman life through readings in Latin literature (with a focus on either special subjects, authors, genres or periods) and a review of Latin grammar. (H)  
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin or instructor permission.  
Attributes: General Education - Humanities

LNW 2630 Latin Love Poetry 3 Credits  
Grading Scheme: Letter Grade  
Translation and interpretation of selected poems of Catullus and a thorough review of Latin grammar. (H and N)  
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin, or instructor permission.  
Attributes: General Education - Humanities, General Education - International
LNW 3220 The Ancient Novel 3 Credits
**Grading Scheme:** Letter Grade
Readings from Petronius, Apuleius or the Historia Apollonii Regis Tyri. (H and N)
**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.
**Attributes:** General Education - Humanities, General Education - International

LNW 3310 Roman Drama 3 Credits
**Grading Scheme:** Letter Grade
Translation and analysis of the comedies of Plautus and Terence or the tragedies of Seneca. (H)
**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.
**Attributes:** General Education - Humanities

LNW 3320 Roman Elegy and Lyric 3 Credits
**Grading Scheme:** Letter Grade
Selected poems of Catullus, Horace, Tibullus, Propertius or Ovid. (H and N)
**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.
**Attributes:** General Education - Humanities, General Education - International

LNW 3360 Roman Satire 3 Credits
**Grading Scheme:** Letter Grade
Translation and analysis of the Roman satirists Horace, Persius, Juvenal or Martial. (H and N)
**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.
**Attributes:** General Education - Humanities, General Education - International

LNW 3380 The Roman Historians 3 Credits
**Grading Scheme:** Letter Grade
Readings in Latin from one of the Roman historians: Sallust, Caesar, Livy or Tacitus. (H and N)
**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.
**Attributes:** General Education - Humanities, General Education - International

LNW 3490 Medieval Latin 3 Credits
**Grading Scheme:** Letter Grade
Readings from Medieval Latin 350 - 1200 A.D. (H and N)
**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.
**Attributes:** General Education - Humanities, General Education - International

LNW 3614 Cicero 3 Credits
**Grading Scheme:** Letter Grade
Essays, speeches and letters of Cicero. (H and N)
**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.
**Attributes:** General Education - Humanities, General Education - International

LNW 3660 Vergil and Roman Epic 3 Credits
**Grading Scheme:** Letter Grade
Translation and analysis of selections from Vergil's Aeneid in the light of his epic techniques and the spirit of the Augustan Age. (H and N)
**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.
**Attributes:** General Education - Humanities, General Education - International

LNW 3930 Studies in Latin Literature 3 Credits
**Grading Scheme:** Letter Grade
A rotating topics course providing in-depth study of a particular author (e.g., Suetonius), genre (e.g., didactic poetry) or period (e.g., The Silver Age).
**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 4905 Special Study in Latin 1-4 Credits
**Grading Scheme:** Letter Grade
Readings, conferences and reports.
**Prerequisite:** LAT 1104, LAT 1131, LAT 2200 or the equivalent.

Clinical and Health Psychology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

**Courses**

CLP 2001 Personal Growth 3 Credits
**Grading Scheme:** Letter Grade
Introduces the concepts and techniques in psychology that apply to personal growth and development. All students have the opportunity to participate in research projects or alternative experiences. (S)
**Attributes:** General Education - Social Science

CLP 3144 Abnormal Psychology 3 Credits
**Grading Scheme:** Letter Grade
The varieties of disordered experience and conduct, and their contribution to an understanding of more effective personal and social adjustment. Includes the neuroses, psychoses and psychosomatic and conduct disturbances. (S)
**Prerequisite:** PSY 2012.
**Attributes:** General Education - Social Science
CLP 3911 Introduction to Clinical Research 1-3 Credits
Grading Scheme: S/U
Hands-on, faculty-supervised research experience in an area of interest to the student. Introduces current research techniques, including the design and development of clinical research projects and data analysis. Three hours of laboratory work or other research activity (e.g., literature searches, grant preparation, recruitment of study participants, etc.) are required for each semester credit. (S-U)

CLP 4110 Eating Disorders 3 Credits
Grading Scheme: Letter Grade
Overview of the causes and treatments associated with the full range of recognized eating disorders, including anorexia, bulimia and binge eating disorder, as well as a variety of subclinical forms of problematic eating behaviors and their surrounding factors and issues.
Prerequisite: PSY 2012.

CLP 4134 Introduction to Clinical Child/Pediatric Psychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of the science and practice of clinical child/pediatric psychology, including application of clinical science to problems faced by children and their families. Course also emphasizes assessment and intervention methodologies related to child behavior and health.
Prerequisite: PSY 2012 and CLP 3144, and STA 2023.

CLP 4160 Advanced Abnormal Psychology 3 Credits
Grading Scheme: Letter Grade
Detailed coverage of the origins, treatments and controversies associated with select forms of emotional distress or mental illness. Includes theoretical and empirical contributions to understanding select mood disorders, anxiety disorders, substance disorders, and psychotic disorders, among others.
Prerequisite: PSY 2012 and CLP 3144.

CLP 4302 Introduction to Clinical Psychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of contemporary roles of clinical psychologists. Course also emphasizes the integration of science and practice when solving problems of individuals, families and groups.
Prerequisite: PSY 2012 and CLP 3144 and STA 2023 and (communication sciences and disorders or health science majors or health science minor).

CLP 4314 Introduction to Health Psychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of the science and practice of clinical health psychology. Course also emphasizes application of the biopsychosocial model of health and illness to health promotion, disease prevention and the treatment and rehabilitation of existing illness and disability.
Prerequisite: PSY 2012 and CLP 3144 and (three additional credits in psychology or health science or statistics) and (communication sciences and disorders or health science majors or health science minor).

CLP 4420 Introduction to Neuropsychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of the science and practice of clinical neuropsychology. Course also emphasizes discussion of major neuropsychological disorders and the mechanisms underlying higher cognitive function.
Prerequisite: PSY 2012 and CLP 3144 and (three additional credits in psychology or health science or statistics).

Computer & Information Science & Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Department Information

The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

Curriculum
• Combination Degrees
• Computer and Information Science and Engineering Minor
• Computer and Information Science and Engineering Minor UF Online
• Computer Science UF Online
• Computer Science | CLAS
• Computer Science | Herbert Wertheim College of Engineering
• Digital Arts and Sciences | Bachelor of Science

Bachelor's degree programs are currently available through the College of Liberal Arts and Sciences and the Herbert Wertheim College of Engineering. A minor in computer and information science, master's degree programs and a Ph.D. program also are available.

There are strict limitations on the use of CGS and survey courses in the programs offered by the department.

College of Engineering degree program in computer engineering: Refer to the Herbert Wertheim College of Engineering section of the catalog for degree requirements; this program is offered by the CISE department.

The Herbert Wertheim College of Engineering offers two degrees in computer engineering: the CEN degree (computer engineering: software option) is offered by the CISE department and the CEE degree (computer engineering: hardware option) is offered by the ECE department.

The college also offers a computer science degree program through the CISE department.
College of Liberal Arts and Sciences degree program in computer science: refer to the College of Liberal Arts and Sciences section of the catalog for degree requirements.

Courses

**CAP 3020 Theory and Practice of Multimedia Production 3 Credits**

**Grading Scheme:** Letter Grade

Combines the traditional media production pipeline and software engineering processes to synthesize an approach geared for the production of works incorporating both artistic and computational elements.

**Prerequisite:** CAP 3027.

**CAP 3027 Introduction to Digital Arts and Sciences 3 Credits**

**Grading Scheme:** Letter Grade

Synergy between art and computing through a programming-oriented exploration of fundamental concepts in multimedia.

**Prerequisite:** COP 3504 or COP 3503.

**CAP 3032 Interactive Modeling and Animation 1 3 Credits**

**Grading Scheme:** Letter Grade

Introduces programming and data structures for interactive two-dimensional multimedia applications. Representing form and transforms in two dimensions, capturing user actions and driving application behavior interactively. Graphical interfaces, image processing, automata and basic artificial intelligence.

**Prerequisite:** MAC 1147 or equivalent.

**CAP 3034 Introduction to Computer-Aided Animation 3 Credits**

**Grading Scheme:** Letter Grade

**Prerequisite:** MAC 1147 or equivalent.

**CAP 3220 Introduction to Computer-Aided Modeling 3 Credits**

**Grading Scheme:** Letter Grade

**Prerequisite:** MAC 1147 or equivalent.

**CAP 4053 Artificial Intelligence for Computer Games 3 Credits**

**Grading Scheme:** Letter Grade

Concepts, theory and various applications for knowledge-based (expert) systems, reasoning schemes, knowledge representation, knowledge-based system tools, building knowledge bases, knowledge acquisition, reasoning under certainty and inexact reasoning.

**Prerequisite:** COP 3503.

**CAP 4613 Deep Learning for Computer Graphics 3 Credits**

**Grading Scheme:** Letter Grade

This undergraduate course covers deep learning basics, related math and the fundamental theory and application of AI algorithms most popular in the field of computer graphics. Programming assignments will help students develop GPU programming skills while implementing concepts learned in lectures and readings using deep learning APIs on a GPU cluster. Convolutional neural networks (CNNs) for colorizing black and white movies is an example.

**Prerequisite:** COP 3530 or MAS 3114 or 4105.

**CAP 4621 Artificial Intelligence and Heuristics 3 Credits**

**Grading Scheme:** Letter Grade

Introduces artificial intelligence concepts. Heuristic search, clause form logic, knowledge representation, reasoning and inference, overview of computer vision, planning, natural language, Lisp and Prolog. (M)

**Prerequisite:** COP 3530.

**CAP 4641 Natural Language Processing 3 Credits**

**Grading Scheme:** Letter Grade

Introduction to the essential concepts, principles, and techniques of Natural Language Processing (NLP). Practical application and theoretical concepts are examined. Topics include information extraction, language construction, grammars, disambiguation, as well as system modeling, classification, and evaluation.

**Prerequisite:** COP 3530.

**CAP 4680 Knowledge-Based System: Theory and Practice 3 Credits**

**Grading Scheme:** Letter Grade

Studies the major topics in computer graphics: display and output technology, two and three dimensional manipulations; space curves and surfaces, hidden surface removal and shading models.

**Prerequisite:** COP 3530.

**CAP 4730 Computational Structures in Computer Graphics 3 Credits**

**Grading Scheme:** Letter Grade

Introduces artificial intelligence concepts. Heuristic search, clause form logic, knowledge representation, reasoning and inference, overview of computer vision, planning, natural language, Lisp and Prolog. (M)

**Prerequisite:** COP 3530.

**CAP 4770 Introduction to Data Science 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the basics of data science including programming for data analytics, file management, relational databases, classification, clustering, and regression; lays the foundation for big data applications ranging from social networks to medical and business informatics.

**Prerequisite:** COP 3530.

**CAP 4773 Projects Data Science 3 Credits**

**Grading Scheme:** Letter Grade

Organization of computing systems. Logical basis of computer structure. Machine representation of instructions and data, flow of control, and basic machine instructions. Assembly language programming. (M)

**Prerequisite:** (COP 3504 or COP 3503) and (MAC 2233 or MAC 2311 or MAC 3472) and COT 3100.
CDA 4102 Computer Architecture 3 Credits
Grading Scheme: Letter Grade
Introduces computer architecture and system organization including virtual memory supports cache, pipeline, vector processing, multiprocessor and RISC architecture.
Prerequisite: CDA 3101 and COP 3530.

CDA 4630 Embedded Systems 3 Credits
Grading Scheme: Letter Grade
Design of efficient and trustworthy embedded and cyber-physical systems consisting of hardware, software, firmware, sensors, and actuators. Covers fundamental issues related to modeling and specification, design space exploration, hardware-software partitioning, synthesis and compilation, real-time operating systems, and application-specific optimizations targeting area, power, performance, temperature, energy, and security.
Prerequisite: CDA 3101 with minimum grade of C.

CEN 3031 Introduction to Software Engineering 3 Credits
Grading Scheme: Letter Grade
Topics include software planning, specifications, coding, testing and maintenance. Gain experience in the team approach to large system development. (M)
Prerequisite: COP 3530.

CEN 3907C Computer Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Reinforce basic computer engineering skills; design, produce, and report on a computer engineering project, meeting defined specifications and using a structured design methodology and project management.
Prerequisite: CEN 3031 and EEL 3744C with minimum grades of C.

CEN 3908C Computer Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Selected capstone design projects involving engineering applications in the various areas of computer engineering. Must be taken prior to the semester of graduation.
Prerequisite: CEN 3907C with minimum grade of C and senior standing.

CEN 3913 Computer and Information Science and Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Preparatory skills are developed for CISE Design 2 for Computer Engineering students. Teams design, produce and report on a software prototype, meeting defined specifications and using a structured design methodology and project management.
Prerequisite: CEN 3031.

CEN 4072 Software Testing and Verification 3 Credits
Grading Scheme: Letter Grade
Concepts, principles and techniques of software testing and verification. Strengths and limitations of black-box and white-box testing methods; techniques for proving the correctness of programs.
Prerequisite: CEN 3031.

CEN 4721 Human-Computer Interaction 3 Credits
Grading Scheme: Letter Grade
Studies the major topics in the study, planning and design of the interaction between people and computers. Topics include interface design (principles, theories and guidelines), virtual environments, interactive devices and collaboration.
Prerequisite: COP 3530.

CEN 4722 User Experience Design 3 Credits
Grading Scheme: Letter Grade
Introduces methods and tools used in User Experience Design (UXD): the early stages of software design focused on meeting user needs. Key concepts include user research, contextual design, design thinking, ideation, iterative design, prototyping, and design documentation. Projects utilize software tools used in the industry.
Prerequisite: COP 3530.

CEN 4725 Natural User Interaction 3 Credits
Grading Scheme: Letter Grade
Introduces the design, development and evaluation of Natural User Interaction (NUI) technologies (e.g., non-keyboard and mouse technologies such as touchscreen interaction, gesture interaction, speech interaction, etc.). Discussion of the hardware-to-software NUI pipeline and key considerations when developing NUI software, including existing platforms, toolkits and APIs used to create NUI software.
Prerequisite: COP 3530 with minimum grade of C.

CEN 4914 Computer and Information Science and Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Involves completing a significant CEN-related project. Coordinate with the instructor and a project advisor, prepare a detailed technical report and deliver an oral presentation.
Prerequisite: CEN 3913.

CGS 2032 Math, Art and Computing 3 Credits
Grading Scheme: Letter Grade
Introduces interdisciplinary computer science topics. Logic, discrete structures, algorithms and automata. Exploration of topics relating mathematics and computing to art, music and nature. (M)
Prerequisite: MAC 1147.
Attributes: General Education - Mathematics

CGS 3063 Computers and Modern Society 3 Credits
Grading Scheme: Letter Grade
Impact of computers on society. Discussion includes specific cases from many areas, but does not include problem solution. Does not teach how to use the computer but gives an understanding of the implications of computers. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

CGS 3065 Legal and Social Issues in Computing 3 Credits
Grading Scheme: Letter Grade
Explores the history, the myth, the ethics, the law and the risks of computer-based technology in modern society. Emphasizes critical analysis of hypotheticals and case studies. Published material is supplemented with online references.
Prerequisite: previous experience in Unix environment.

CIS 2354 Introduction to Cybersecurity 3 Credits
Grading Scheme: Letter Grade
Introduces many issues in cybersecurity including ubiquity of processors and communications in modern society, vulnerabilities of computers, networks, data, and embedded systems; privacy, risk management, social engineering, various attacks on computers and networked systems, attacks on user authentication systems. Expect weekly discussion of current topics.
CIS 4204 Penetration Testing: Ethical Hacking 3 Credits  
Grading Scheme: Letter Grade  
Introduces principles and techniques associated with the cybersecurity practice known as penetration testing or ethical hacking. Covers planning, reconnaissance, scanning, exploitation, post-exploitation, and result reporting. Discover how system vulnerabilities can be exploited and learn to avoid such problems.  
Prerequisite: COP 3530.

CIS 4213 Enterprise Security 3 Credits  
Grading Scheme: Letter Grade  
Provides an introduction to the real-world aspects of defending an enterprise network. Students will gain hands-on experience performing system security tasks and handling incidents. The class begins with a basic introduction to enterprise cybersecurity, the attack sequence, and managing cybersecurity. Then lecture, homework and lab activities cover the center for internet security’s twenty essential security controls.  
Prerequisite: COP 3530.

CIS 4301 Information and Database Systems 1 3 Credits  
Grading Scheme: Letter Grade  
First part of a two-course sequence that studies the essential concepts, principles and techniques of modern database systems. Topics include modeling and querying of data using conceptual data models as well as the development of a database application. (M)  
Prerequisite: (COP 3504 or COP 3503) and COT 3100.

CIS 4360 Computer and Information Security 3 Credits  
Grading Scheme: Letter Grade  
Covers systematic threat and risk assessment; programmed threats and controls in hardware, software, and human procedures; security policies, models, and mechanisms; theoretical limitations and practical implementations; certification and accreditation standards; and case study reviews. Includes projects.  
Prerequisite: COP 4600 or equivalent.

CIS 4362 Introduction to Cryptology 3 Credits  
Grading Scheme: Letter Grade  
Introduces classical and modern cryptography and cryptanalysis, including symmetric and asymmetric (public key) ciphers. Covers cryptographic hash functions, block and stream ciphers, as well as differential and linear cryptanalysis. Reviews applications of cryptography, cryptographic standards and protocols, and analyzes case studies of failed implementations.  
Prerequisite: COT 3100 or the equivalent.

CIS 4715 CS Teaching & Learning 0-1 Credits  
Grading Scheme: Letter Grade  
Covers basic pedagogy, especially as it relates to computer science and engineering, and covers three fundamental elements in education: learning environment, educational theory, and educational practice as approached to engineering-specific training.  
Prerequisite: COP 3502.

CIS 4905 Individual Study in CISE 1-4 Credits  
Grading Scheme: Letter Grade  
Problems in different areas of computer science.

CIS 4912C Integrated Product and Process Design 1 3 Credits  
Grading Scheme: Letter Grade  
First part of a two-course sequence where teams of engineering and business students partner with industry sponsors to design and build authentic products and processes. Working closely with an industry liaison engineer and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills. Weekly workshop activities adapt lecture topics to individual projects. Learn firsthand how to develop products and processes that meet customer requirements on time and within budget.  
Prerequisite: CDA 3101, COP 3530, COT 3100 and instructor permission.

CIS 4913C Integrated Product and Process Design 2 3 Credits  
Grading Scheme: Letter Grade  
Second part of a sequence where teams of engineering and business students partner with industry sponsors to design and build authentic products and processes.  
Prerequisite: CIS 4912C.

CIS 4914 Senior Project 3 Credits  
Grading Scheme: Letter Grade  
Involves completing a significant CISE-related project. Coordinate with the instructor and a project advisor, prepare a detailed technical report and deliver an oral presentation. (M)  
Prerequisite: senior CISE standing and approved project proposal.

CIS 4930 Special Topics in CISE 1-4 Credits  
Grading Scheme: Letter Grade  
Variable content provides an opportunity for in-depth study of topics not offered elsewhere and of topics of current significance.  
Prerequisite: COP 3503 or instructor permission.

CIS 4940 Practical Work 1 Credit  
Grading Scheme: S/U  
One term practical software engineering work under industrial supervision as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)

CIS 4949 Co-Op Work in CISE 1 Credit  
Grading Scheme: S/U  
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)

CIS 4956 Overseas Studies 1 1-15 Credits  
Grading Scheme: Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  
Prerequisite: undergraduate advisor permission.

CNT 4007 Computer Network Fundamentals 3 Credits  
Grading Scheme: Letter Grade  
Fundamental concepts, principles, and standards of computer networks. Introduces topics in top-down approach, starting with the application layer in the OSI system architecture with a stronger focus on application, transport, and network layers.  
Prerequisite: COP 4600.
CNT 4409 Network and System Security 3 Credits
Grading Scheme: Letter Grade
Examines networked threats and vulnerabilities; trust, identification, authentication, and authorization in networked and distributed systems; secure network protocols and standards; certification of network products; firewall configurations, intrusion detection, and anomaly detection; security flaws in network protocols and distributed applications. Includes projects.
Prerequisite: CNT 4007C and COP 4600 or equivalent.

CNT 4731 Multimedia Networking Principles 3 Credits
Grading Scheme: Letter Grade
Design and analysis of multimedia networking. Major effort is devoted on multimedia elements, and their impact on higher-level protocols at the application- and transport-layer.
Prerequisite: CNT 4007 with minimum grade of C.

COP 2271 Computer Programming for Engineers 2 Credits
Grading Scheme: Letter Grade
Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem solving skills; directed toward technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the demands of the departments in the college. Several languages may be taught each semester, no more than one per section. Those required to learn a specific language must enroll in the correct section. (M)
Prerequisite: MAC 2312 with minimum grade of C.

COP 2800 Computer Programming Using JAVA 3 Credits
Grading Scheme: Letter Grade
In-depth treatment of computer programming using JAVA. Problems related to a variety of disciplines are solved. Introduces the basic concepts of software and hardware; develop a variety of stand-alone applications and applets. For non-CISE majors only.
Prerequisite: MAC 1147 or the equivalent.

COP 3229 Computer Programming Using C++ 3 Credits
Grading Scheme: Letter Grade
Prerequisite: COP 3504 or COP 3503.

COP 3275 Computer Programming Using C 3 Credits
Grading Scheme: Letter Grade
Solve problems related to a variety of disciplines; introduces the basic concepts of software and hardware. (M)
Prerequisite: MAC 1147 or the equivalent.

COP 3502C Programming Fundamentals 1 4 Credits
Grading Scheme: Letter Grade
First course of a two-semester introductory sequence for those planning further study in computer science, digital arts and sciences or computer engineering. Concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity.
Corequisite: MAC 2311.

COP 3503C Programming Fundamentals 2 4 Credits
Grading Scheme: Letter Grade
Second course of a two-semester introductory sequence for those planning further study in computer science, digital arts and sciences or computer engineering. Concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity.
Prerequisite: (COP 3502 with a minimum grade of C or an AP exam in computer science with a minimum grade of 4) and MAC 2311 with a minimum grade of C.

COP 3504C Advanced Programming Fundamentals for CIS Majors 4 Credits
Grading Scheme: Letter Grade
Fast-paced introduction to computer science for those with prior programming experience. Explores major concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity.
Prerequisite: (MAC 2311 or MAC 3472) and programming experience.

COP 3530 Data Structures and Algorithm 3 Credits
Grading Scheme: Letter Grade
Algorithm development using pseudo languages, basic program structures, program design techniques, storage and manipulation of basic data structures like arrays, stacks, queues, sorting and searching and string processing. Linked linear lists. Trees and multilinked structures. (M)
Prerequisite: (COP 3504 or COP 3503) and COT 3100 and (MAC 2234 or MAC 2312 or MAC 2512 or MAC 3473), all with a minimum grade of C.

COP 4020 Programming Language Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces programming language principles, including language constructs, design goals, run-time structures, implementation techniques and exposure to a wide variety of programming paradigms.
Prerequisite: COP 3530.

COP 4331 Object-oriented Programming 3 Credits
Grading Scheme: Letter Grade
Fundamental conceptual models for programming languages illustrated with specific programming languages and application problems. Specific topics include class and object models, inheritance among classes, objects and static and dynamic systems and implementations.
Prerequisite: COP 3530.

COP 4533 Algorithm Abstraction and Design 3 Credits
Grading Scheme: Letter Grade
Covers algorithmic concepts and their use rooted in practical application and computer science theory. Topics include algorithmic paradigms, limits of computing, and algorithm time complexity classes.
Prerequisite: COP 3530.

COP 4600 Operating Systems 3 Credits
Grading Scheme: Letter Grade
Design and implementation of various components of a modern operating system, including I/O programming, interrupt handling, process and resource management, computer networks and distributed systems. (M)
Prerequisite: CDA 3101 and COP 3530; knowledge of C or C++ recommended.

COP 4620 Translators and Translator Writing Systems 3 Credits
Grading Scheme: Letter Grade
Translation of languages, scanning and parsing techniques. Translator writing systems. The implementation of a compiler. (M)
Prerequisite: COP 3530.
COP 4720 Information and Database Systems 2 3 Credits
Grading Scheme: Letter Grade
Part two of a two-course sequence. Provides a basic understanding of the internals of a modern database system. Topics include data storage, indexing, query processing and advanced concepts such as database tuning, alternate data models and emerging applications. (M)
Prerequisite: CIS 4301 and COP 3530.

COT 3100 Applications of Discrete Structures 3 Credits
Grading Scheme: Letter Grade
Covers the mathematics of discrete events; i.e., events that involve distinct elements, finite structures of distinct elements or finite sampled versions of continuous phenomena (such as movement). (M)
Prerequisite: (MAC 2311 or MAC 3472) and (COP 3502 or equivalent), all with a minimum grades of C,
Corequisite: COP 3504 or COP 3503.
Attributes: General Education - Mathematics

COT 4501 Numerical Analysis: a Computational Approach 3 Credits
Grading Scheme: Letter Grade
Numerical integration, nonlinear equations, linear and nonlinear systems of equations, differential equations and interpolation.
Prerequisite: (COP 3504 or COP 3503) and MAS 3114.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: EG student.

IDC 4710 Virtual Reality for the Social Good 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary approach to solving pressing social problems by blending social science practices with innovative technology. Explore effective messaging perspectives, virtual social spaces, and virtual reality technologies to create a compelling story for a social good issue. Open to all juniors and seniors, regardless of major or prior experience.
Prerequisite: Junior or above.

Construction Management

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

 Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

School Information

The mission of the M. E. Rinker, Sr. School of Construction Management is to be the center of excellence for construction. The Rinker School will pursue this by promoting professional and ethical behavior in education and practice, advancing the industry by creating new knowledge through research and scholarly activities, educating individuals in principles, knowledge, and skills required to be successful in their professional careers, and providing service and transferring knowledge to the citizens of Florida, the construction industry, professional societies, the nation, and the world.

Curriculum
• Combination Degrees
• Construction Management
• Construction Management Certificate
• Emergency Management Certificate
• Emergency Medical Services Management Certificate
• Fire and Emergency Services UF Online
• Senior Fire Officer Certificate

Courses

BCN 1001 Introduction to Construction Management 1 Credit
Grading Scheme: S/U
Familiarizes pre-construction students with the nature and functioning of the construction industry and the building construction curriculum. Emphasizes the specific safety regulations pertaining to the construction industry. (S-U)

BCN 1210 Construction Materials 3 Credits
Grading Scheme: Letter Grade
Sources, properties and uses of construction materials.

BCN 1251C Construction Drawing 3 Credits
Grading Scheme: Letter Grade
Provides basic working knowledge of architectural graphics, practice in instrumental drawing and experience in free hand sketching.

BCN 1582 International Sustainable Development 3 Credits
Grading Scheme: Letter Grade
An overview of international trends in reducing the environmental impacts of land development and construction. Surveys best practices in a dozen countries around the world. (N and S)
Attributes: General Education - International, General Education - Social Science

BCN 2405C Construction Mechanics 4 Credits
Grading Scheme: Letter Grade
Introduces the evaluation of structural behavior as it relates to buildings, the properties of structural materials and the structural behavior of load-resisting members. Primarily for building construction majors.
Prerequisite: PHY 2004 and PHY 2004L.

BCN 3012 History of Construction 3 Credits
Grading Scheme: Letter Grade
Traces Western building technology from prehistoric man to the present. Development of the art and science of building. (H and N)
Attributes: General Education - Humanities, General Education - International

Until otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.
BCN 3027C Principles of Construction Management 3 Credits  
Grading Scheme: Letter Grade  
Examines the role of various players involved in the construction and the administration of a construction project. Importance of ethical conduct in all aspects of construction business and operations. Development of advanced writing and presentation skills for construction professionals.  
Prerequisite: junior standing or higher or instructor permission.

BCN 3223C Soils and Concrete 3 Credits  
Grading Scheme: Letter Grade  
Studies the construction process to include soils, demolition, earth-moving equipment, foundations, concrete mix design and concrete placement techniques. Includes field visits and soils and concrete laboratories.  
Prerequisite: BCN 1210 and BCN 2405C and BCN 3224C.

BCN 3224C Construction Techniques 3 Credits  
Grading Scheme: Letter Grade  
Studies the vertical construction process to include wooden platform frame construction, cast-in-place and pre-cast concrete construction and steel erection. Included are masonry construction, interior and exterior finishes, vertical transportation systems, roofing and other building components.  
Prerequisite: BCN 1210 and BCN 1251C.

BCN 3240C Equipment and Methods for Heavy/Highway Construction 3 Credits  
Grading Scheme: Letter Grade  
Prerequisite: junior standing or higher.

BCN 3255C Graphic Communication in Construction 3 Credits  
Grading Scheme: Letter Grade  
Studies construction communication tools, including the use of computer-aided drafting (applications of 4-D modeling in construction), blueprint reading, free hand sketching, model building, piece-based simulations and the Internet.  
Prerequisite: BCN 1251C.

BCN 3281C Construction Methods Laboratory 2 Credits  
Grading Scheme: Letter Grade  
Construction aspects of surveying with field and classroom exercises in the use of transit, level, chain and related equipment.

BCN 3431C Structures 3 Credits  
Grading Scheme: Letter Grade  
Examines the material properties, code requirements, analysis and construction procedures for steel and reinforced concrete structures.

BCN 3521C Electrical Systems 2 Credits  
Grading Scheme: Letter Grade  
Principles and practices of electrical systems, including code provisions and cost estimations.

BCN 3611C Construction Estimating 1 3 Credits  
Grading Scheme: Letter Grade  
Classification of work, quantity survey techniques and basic estimating principles applied to simple construction projects.  
Prerequisite: BCN 3027C and BCN 3224C and BCN 3255C.

BCN 3700 Construction Contracts 3 Credits  
Grading Scheme: Letter Grade  
Function of the construction industry, construction contracting practices and construction contracts and delivery methods.  
Prerequisite: BCN 3027C.

BCN 3730 Construction, Safety, Health and the Environment 3 Credits  
Grading Scheme: Letter Grade  
Construction safety issues, concerns, requirements and procedures. The analysis includes costs, planning, administration, inspection, prevention, loss control and drug-free workplace. Understanding of the major health issues encountered on construction sites. Appreciation for the need to be environmentally responsible.

BCN 4105 Sustainable Housing: Putting the 3 E's into Residential Practice 3 Credits  
Grading Scheme: Letter Grade  
Sustainability is more than just building green; it’s the balance and intersection of “the 3 e’s:” environment, economics, and social equity. Examine approaches to advancing sustainable housing in ways that postindustrial residential planning and building practices have thus far neglected to address.  
Prerequisite: junior standing or higher.

BCN 4237 Roofing Systems 3 Credits  
Grading Scheme: Letter Grade  
Studies and analyzes building various roof systems including design, materials, installation, inspection and maintenance. Includes damp-proofing and waterproofing techniques.

BCN 4252 Introduction to Building Information Modeling 3 Credits  
Grading Scheme: Letter Grade  
Learn current Building Information Modeling (BIM) software to identify design errors and improve the construction process.  
Prerequisite: BCN 3255C.

BCN 4423C Temporary Structures 3 Credits  
Grading Scheme: Letter Grade  
Studies the temporary structures that contractors have to build in order to construct the primary structure. This includes formwork, scaffolding and equipment for hoisting materials, personnel and erecting structures.  
Prerequisite: BCN 3431C and senior standing.

BCN 4510C Mechanical Systems 4 Credits  
Grading Scheme: Letter Grade  
Principles and practices of building piping systems, hydraulics and pumps, comfort conditioning systems for building, heating and refrigeration equipment, building code considerations, plan reading and cost estimation.  
Prerequisite: senior standing.

BCN 4594 Building Energy Modeling 3 Credits  
Grading Scheme: Letter Grade  
As energy becomes a more precious commodity, it is crucial to design and operate high performance buildings. A solid foundation of energy engineering and sustainability principles is essential to achieving these higher performance standards.  
Prerequisite: junior standing or higher.

BCN 4612C Construction Estimating 2 3 Credits  
Grading Scheme: Letter Grade  
Analysis and determination of cost of construction operations including applicable indirect and overhead costs and the preparation of bid proposals for commercial construction projects. A cost-control system is introduced and implemented with sample field-generated problems.  
Prerequisite: BCN 3611C and senior standing.
BCN 4709C Construction Project Management 3 Credits
**Grading Scheme:** Letter Grade
Understanding the various forms of project delivery methods (Design-Bid-Build, Design-Build, and Construction Management) and the underlying principles for choosing the appropriate system. Recognizing the complexity of the preconstruction process including conceptual estimating and scheduling, life cycle costing, constructability reviews, value engineering, risk management and special contract requirements. Understanding management and administration of a construction project.
**Prerequisite:** BCN 4612C and senior standing.

BCN 4712C Leadership and Management in Construction 3 Credits
**Grading Scheme:** Letter Grade
Leadership and management principles for construction professionals with a major emphasis on the diverse workforce, ethical issues in construction and the development of negotiation and conflict-resolution skills.
**Prerequisite:** senior standing.

BCN 4720 Construction Planning and Control 3 Credits
**Grading Scheme:** Letter Grade
Computer application of cost and manpower estimates as construction scheduling and management techniques.
**Prerequisite:** BCN 3611C and senior standing.

BCN 4723 Design-Build Delivery Methods 3 Credits
**Grading Scheme:** Letter Grade
Theory and practice of design-build contract delivery method. Includes an explanation of the history of design-build, the advantages and disadvantages of design-build as a delivery method and a thorough analysis of the major components of design and construction.
**Prerequisite:** junior standing or higher.

BCN 4753 Construction Finance 3 Credits
**Grading Scheme:** Letter Grade
Basic principles and applications of construction finance with an emphasis on the acquisition and management of construction loans, mortgages and construction accounting.
**Prerequisite:** senior standing.

BCN 4787C Construction Capstone Project 3 Credits
**Grading Scheme:** Letter Grade
A construction project is simulated with each student being responsible for designing, developing, estimating, scheduling, contracting and administering the work for the completion of a small commercial, residential or light industrial project.
**Prerequisite:** BCN 4612C and BCN 4720 and BCN 4753 and senior standing.

BCN 4880 Management of Heavy/Highway Construction 3 Credits
**Grading Scheme:** Letter Grade
Theory and practice of construction planning, methods and project management. Project control from conception through the construction phase: procurement of design professional, prime contractor, subcontractor, construction manager, project/program manager. Also includes definition of and delineation between each entity, construction contract types, delivery systems, heavy/highway plans reading, quality assurance/quality control, nuances of planning and bidding a unit price project, and project administration.
**Prerequisite:** junior standing or higher.

BCN 4905 Special Studies in Construction 1-4 Credits
**Grading Scheme:** Letter Grade
Special areas of study in construction adjusted to the needs of individual students. Enrollment upon recommendation of director only.

BCN 4949 Construction Management Internship 3 Credits
**Grading Scheme:** S/U
Minimum two-term employment in construction management. Requires advance approval. Internship work reports and oral presentation also required. (S-U)

BCN 4956 International Studies in Construction 1-4 Credits
**Grading Scheme:** Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation. The course focus is on the construction industry in the host country. Course content varies and may address various construction issues including local construction techniques, construction materials and the influence on construction of the local culture, traditions, architecture, history and political climate.

EMS 1055 Emergency Medical Responder 3 Credits
**Grading Scheme:** Letter Grade
Introduces a basic understanding of pre-hospital emergency medicine; explore issues in patient assessment, distinguishing medical scenarios from trauma scenarios, taking appropriate actions and precautionary measures to ensure patient safety, and treating a patient's injuries within the scope of their certification.

EMS 1055L Lab for Emergency Medical Responder 1 Credit
**Grading Scheme:** Letter Grade
Practical applications of pre-hospital emergency medicine, including medical and trauma skills, basic anatomy, and physiology as related to EMR requirements. Practice the skills learned in the Emergency Medical Responder course. Offered only on UF main campus.

EMS 4315 Analytical Approaches to EMS 3 Credits
**Grading Scheme:** Letter Grade
Focuses on the practice and principles of emergency medical services systems management, including effective daily operations within an EMS organization. Topics include purpose of analysis; analysis in parallel professions; problem identification; foundational analysis; data collection; financial analysis; cost-benefit analysis; policy and impact analysis; and project development.
**Prerequisite:** junior or senior standing.

FES 2941 Emergency Management Internship 3 Credits
**Grading Scheme:** S/U
Gain experience in an emergency management situation to identify and apply best practices in the development of preparation, planning, responding, recovering, and mitigating disasters; participate in supervised disaster management work activities that provide experiential learning in emergency management.

FES 3004 Political and Legal Foundations of Fire Protection 3 Credits
**Grading Scheme:** Letter Grade
Examines the legal aspects of fire service and the political and social impacts of legal issues; reviews the American legal system and covers legal and political issues involving employment and personnel matters, administration and operations, and planning and code enforcement with regard to the fire service.
FES 3015 Principles of Fire and Emergency Services Management 3 Credits  
**Grading Scheme:** Letter Grade  
Fundamentals of management underlying the solution of problems of organization and operation of fire and emergency services agencies. (S) (WR)  
**Prerequisite:** junior standing or higher.  
**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement

FES 3033 Fire and Emergency Services Labor Issues 3 Credits  
**Grading Scheme:** Letter Grade  
Determinants of demand for labor and labor supply. Labor market equilibrium and changes in the equilibrium due to changes in unionization, public policies and technology. Study of the effects of skill, job amenities and discrimination on wage differentials. A review of PERC, FSLA and unions is included.  
**Prerequisite:** junior standing or higher.

FES 3153 FES Communication and Informational Technology 3 Credits  
**Grading Scheme:** Letter Grade  
Communications systems used in fire and emergency services such as high frequency voice/data, Internets and Intranets, satellite communications, GPS and GIS. An introduction, examination, equipment assessment, implementation program and maintenance management module are provided for each system covered.  
**Prerequisite:** junior standing or higher.

FES 3223 Foundations of EMS 3 Credits  
**Grading Scheme:** Letter Grade  
Covers the design and operation of EMS systems, service delivery, and echelons of care. The history of EMS, interface of public and private organizations and review of the various personnel who comprise these systems, will be examined in relation to their impact on the health care delivery system.  
**Prerequisite:** junior standing or higher.

FES 3227 Ambulance Operations 3 Credits  
**Grading Scheme:** Letter Grade  
Overview of the application of management principles to the provision of medical transport services. Includes an analysis of the economic, geographic, temporal, and clinical characteristics of ambulance demand, the key processes for providing transport services, and an evaluation of industry best practices.  
**Prerequisite:** junior standing or higher.

FES 3233 EMS Safety and Risk Management 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces the risk management principles of an EMS agency. Emphasizes safety from the perspective of the field provider.  
**Prerequisite:** junior standing or higher.

FES 3263 Public Safety Educator 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces the EMS professional to the education system as it relates to EMS education. Explores issues in curriculum development, teaching, program direction, and development.  
**Prerequisite:** junior or senior standing.

FES 3284 Management of Emergency Medical Services 3 Credits  
**Grading Scheme:** Letter Grade  
Personnel and resource management issues in providing emergency medical services function. Quality assurance, utilization review techniques, and practices and techniques for delivery of services and distribution of resources are included.  
**Prerequisite:** junior standing.

FES 3285 Advanced Leadership Issues in Emergency Medical Services 3 Credits  
**Grading Scheme:** Letter Grade  
Organizational development issues in providing emergency medical services function in the fire-based, hospital-based and third-service environments. Establishing and directing emergency medical services’ work teams is also covered.  
**Prerequisite:** junior standing.

FES 3533 Community Risk Reduction for Emergency Services 3 Credits  
**Grading Scheme:** Letter Grade  
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.  
**Prerequisite:** junior or senior standing.

FES 3720 Strategic Planning for FES 3 Credits  
**Grading Scheme:** Letter Grade  
Provides the conceptual framework for the development of a strategic plan for emergency management, fire protection, and emergency medical service. Also provides guidance through the process of the needs, resources, and capabilities of the organization and how to establish a plan to achieve improved performance.  
**Prerequisite:** junior standing.

FES 3753 Fire and Emergency Services Financial Management 3 Credits  
**Grading Scheme:** Letter Grade  
Planning, developing, presenting, funding and implementing a budget for a fire and emergency services agency. Additional topics include special taxing districts, bond issues and fund-raising campaigns.  
**Prerequisite:** junior standing.

FES 3755 Fire and Emergency Services Capital Equipment and Facilities 3 Credits  
**Grading Scheme:** Letter Grade  
Procedures for the acquisition, utilization and disposition of fire and emergency services apparatus and station facilities. Specification and purchasing of apparatus are included. An examination of facility siting, building design and land acquisition and financing is conducted. Additional material addresses special capital purchases such as communications, safety and operational equipment.  
**Prerequisite:** FES 3753 and junior standing.

FES 3780 Analytical Approaches to Fire Protection 3 Credits  
**Grading Scheme:** Letter Grade  
Examines the tools and techniques of rational decision making in fire and emergency services agencies, including data collection, statistics, probability, decision analysis, utility modeling, resource allocation, and cost benefit analysis.  
**Prerequisite:** junior or senior standing.

FES 3782 Applications of Fire Research 3 Credits  
**Grading Scheme:** Letter Grade  
Examines methodology for analyzing fire-related research; provides a framework for independent research in fire dynamics, fire test standards, fire safety, fire modeling, structural fire safety, life-safety, firefighter safety, automatic detection and suppression, risk analysis and loss control, applied research, and fire-related research trends.  
**Prerequisite:** junior or senior standing.
**FES 3803 Multi-Agency Incident Command 3 Credits**  
**Grading Scheme:** Letter Grade  
Managing complex incidents that may require response from fire-rescue, emergency medical services, law enforcement and/or other public safety sectors. Use of the incident management system is emphasized.  
**Prerequisite:** junior standing.

**FES 3815 Command and Control at Catastrophic Fire-Rescue Incidents 3 Credits**  
**Grading Scheme:** Letter Grade  
Incident command at multiple-alarm incidents, emphasizing rapid fireground decision-making, safety, personnel accountability and communications. Settings for scenarios include multi-family occupancies, hotels, high-rises, healthcare facilities and large retail centers.  
**Prerequisite:** junior standing.

**FES 3822 Disaster Policy in Emergency Management 3 Credits**  
**Grading Scheme:** Letter Grade  
Describes the functional demands that emergency managers should be aware of in crafting effective emergency management plans, policies, and programs. Addresses how public policy choices impact emergency planning and the consequences of a disaster event. Emphasizes the emergency planning process.  
**Prerequisite:** junior or senior standing.

**FES 3823 Fire and Emergency Services Integrated Operations 3 Credits**  
**Grading Scheme:** Letter Grade  
The broad issues involved in comprehensive emergency management at the local level. The emergency management cycle of preparedness, mitigation, response and recovery is emphasized as are the legal, operational and administrative aspects of state and federal interface.  
**Prerequisite:** junior standing.

**FES 4003 Fire and Emergency Services Administration 3 Credits**  
**Grading Scheme:** Letter Grade  
Demonstrates the importance of persuasion and influence, budgeting, anticipation of challenges and change, and management tools for analyzing and solving problems; explores how the leadership of a fire and emergency services department develops internal and external cooperation to achieve the department's mission.  
**Prerequisite:** junior or senior standing.

**FES 4014 Foundations of Emergency Management 3 Credits**  
**Grading Scheme:** Letter Grade  
**Prerequisite:** junior or senior standing.

**FES 4023 Fire and Emergency Services Ethical Practices and Leadership 3 Credits**  
**Grading Scheme:** Letter Grade  
The role of agency leadership and its impact on the continuing professionalization of the fire and emergency services. Examines traditional and evolving definitions, practices and skills in leadership behavior, including discussions of power, influence, ethics and organizational behavior.  
**Prerequisite:** senior standing.

**FES 4034 Regulatory Issues in Fire and Emergency Services 3 Credits**  
**Grading Scheme:** Letter Grade  
Introduces safety, health and environmental regulations on the state and federal levels that impact the delivery of fire and emergency services. OSHA, EPA and NFPA regulatory requirements are introduced along with methods and techniques to implement compliance programs.  
**Prerequisite:** FES 4003 and senior standing.

**FES 4045 Fire and Emergency Services Human Resource Management 3 Credits**  
**Grading Scheme:** Letter Grade  
Major human resource management functional areas for fire and emergency services agencies. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.  
**Prerequisite:** FES 3015 and senior standing.

**FES 4055 Fire and Emergency Services Public Relations 3 Credits**  
**Grading Scheme:** Letter Grade  
Implementation of principles and methods in advocating factual claims and policy proposals: prepositional analysis, evidence as demonstration, effective reasoning processes and ethics in controversy. Also focuses on public speaking and presentations, especially in the areas of technology, defense of budgets and political leadership.  
**Prerequisite:** senior standing.

**FES 4224 Management of Mass Casualty Incidents 3 Credits**  
**Grading Scheme:** Letter Grade  
Covers systematic approaches to triage, treatment and transport in response to large-scale emergency medical services incidents. Resource planning and coordination with hospital systems is also emphasized.  
**Prerequisite:** senior standing.

**FES 4226 EMS Special Operations 3 Credits**  
**Grading Scheme:** Letter Grade  
Discusses the various special roles in which EMS personnel may serve, such as hazardous materials, water rescue, and technical rescue.  
**Prerequisite:** junior or senior standing.

**FES 4234 EMS Community Risk Reduction 3 Credits**  
**Grading Scheme:** Letter Grade  
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.  
**Prerequisite:** junior or senior standing.

**FES 4244 Legal, Political, and Regulatory in EMS 3 Credits**  
**Grading Scheme:** Letter Grade  
Introduces the EMS professional to the legal aspects of Emergency Medical Services. Explores issues in malpractice, consent and refusal of treatment, OSHA, employment issues, and risk management. EMS students gain insights into the legal liabilities in Emergency Medical Services.  
**Prerequisite:** junior or senior standing.

**FES 4274 Quality Management and Research in Emergency Services 3 Credits**  
**Grading Scheme:** Letter Grade  
Introduces the EMS professional to benefits of quality improvement, the history of quality in EMS, measuring quality, and the uses of quality in EMS.  
**Prerequisite:** junior or senior standing.
FES 4585 Management of Fire Prevention Programs 3 Credits  
Grading Scheme: Letter Grade  
Planning, promoting and executing fire prevention functions, including an emphasis on legal responsibilities, needs assessments, negotiation and planning activities.  
Prerequisite: senior standing.  

FES 4685 Fire Investigation and Analysis 3 Credits  
Grading Scheme: Letter Grade  
Examines the technical, investigative, legal, and social aspects of arson, including principles of incendiary fire analysis and detection, environmental and psychological factors of arson, legal considerations, intervention, and mitigation strategies.  
Prerequisite: senior standing.  

FES 4804 Disaster Recovery and Mitigation 3 Credits  
Grading Scheme: Letter Grade  
Provides the opportunity to understand real world disaster response efforts through academic study and interactive applied activities. Topics include the Incident Command System (ICS), Emergency Operations Center (EOC) management, Resource Management (RM), and Command-Communications-Coordination (C3).  
Prerequisite: junior or senior standing.  

FES 4820 Critical Incident Management for Emergency Managers 3 Credits  
Grading Scheme: Letter Grade  
Examines disaster planning and emergency management. Focuses on the four phases of planning, mitigation, response, and preparedness. Includes FEMA and federal government NIMS ICS-700 and ICS-800 certifications.  
Prerequisite: junior or senior standing.  

FES 4825 Disaster Planning and Control 3 Credits  
Grading Scheme: Letter Grade  
Examines concepts and principles of community risk assessment, planning and response to fires and natural and human-caused disasters, including National Incident Management System—Incident Command Systems (NIMS ICS), mutual aid and automatic response, training and preparedness, communications, civil disturbances, terrorist threats/incidents, hazardous materials planning, mass casualty incidents, earthquake preparedness, and disaster mitigation and recovery.  
Prerequisite: FES 3823 and junior or senior standing.  

FES 4835 Natural Disaster Phenomena in Florida 3 Credits  
Grading Scheme: Letter Grade  
Natural disasters prevalent in Florida: past, present, and future, including hurricanes, flooding, freezes, and agricultural emergencies. Also addresses planning, operations, mitigation, recovery, and evaluation concerns.  
Prerequisite: junior or senior standing.  

FES 4844 Introduction to Terrorism in Emergency Management 3 Credits  
Grading Scheme: Letter Grade  
Introduces the fundamental concepts, theories, principles, and practice of terrorism and terrorist events.  
Prerequisite: junior or senior standing.  

FES 4905 Special Studies in Fire and Emergency Services 1-3 Credits  
Grading Scheme: Letter Grade  
Special areas of study in fire and emergency services adjusted to the needs of individual students.  
Prerequisite: instructor permission.  

FES 4935 Current Issues in Fire and Emergency Services 3 Credits  
Grading Scheme: Letter Grade  
Information and direction for fire service administrators on current legislative, legal, labor and/or technology concerns facing fire and emergency services agencies.  
Prerequisite: senior standing.  

FFP 4507 Management of Fire-Related Human Behavior 3 Credits  
Grading Scheme: Letter Grade  
Focuses on human behavior in emergencies; examines research on human behavior, systems models, life-safety education, and building design, exploring a best-practice building life-safety system in terms of psychology and sociology joined with engineering and education to produce best outcomes of human survivability in emergencies.  
Prerequisite: Junior or Senior standing.

**Criminology**

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

**Department Information**

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department’s faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

Courses

CCJ 3024 Advanced Principles of Criminal Justice 3 Credits
Grading Scheme: Letter Grade
Advanced overview of criminal law, criminal procedure and criminological theory. Emphasis on the components of the criminal justice system: the police, the prosecutorial and defense functions, the judiciary and the field of corrections. This course is required of all majors. (S)
Attributes: General Education - Social Science

CCJ 3701 Research Methods in Criminology 4 Credits
Grading Scheme: Letter Grade
Advanced research design and data analysis. Study of experimental and non-experimental research designs; probability and nonprobability sampling techniques; construction of scales; and indexes and methods of bivariate and multivariate data analysis. Previous completion of an introductory course in statistics is recommended but not required. (S) (WR)
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.
Attributes: General Education - Social Science, Satisfies 4000 Words of Writing Requirement

CCJ 4014 Criminological Theory 3 Credits
Grading Scheme: Letter Grade
Advanced study and critical appraisal of various theories of crime causation, including an examination of biological, psychological, economic and sociological perspectives on the etiology of crime.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4032 Media & Crime 3 Credits
Grading Scheme: Letter Grade
Analyzes the relationship between media and crime including media's role in constructing images about criminals, police, victims, inmates, and courts. Discusses media-based perceptions of reality and justice policy and practice influences. Appropriate for students in criminology, journalism, public relations, and pre-law.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4044 White-Collar Crime 3 Credits
Grading Scheme: Letter Grade
Examines individual criminality in the course of one's occupation and the crimes of organizations and corporations. Studies the societal reaction to these upper class illegalities. (S) (WR)
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

CCJ 4661 Terrorism 3 Credits
Grading Scheme: Letter Grade
Presents international terrorism as legitimate threat to society, with changing contexts, laws, and tactics. Explores oppressive movements which ignite violent acts. Introduces counter-terrorism best practices in criminal justice and analyzes violent terror attacks criminologically. Promotes emergency management, criminal justice, and intelligence work careers.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Qualified students and the instructor will develop a course of study or investigation designed to extend available coursework. A formal written report is required. Course can be repeated, but no more than three credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university.
Prerequisite: CCJ 3024, 3LS or 4LS major, and instructor permission.

CCJ 4911 Undergraduate Research in Criminology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Criminology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Criminology.

CCJ 4934 Contemporary Issues in Criminal Justice 3 Credits
Grading Scheme: Letter Grade
A variable topic seminar that examines current issues, techniques and problems in criminal justice.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4940 Practicum 1-3 Credits
Grading Scheme: S/U
Supervised experience in a criminal justice agency. Course can be repeated, but no more than six credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university. (S-U)
Prerequisite: CCJ 3024, 3LS or 4LS major, and instructor permission.

CCJ 4970 Senior Thesis 3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Criminology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Criminology. A variable topic seminar that examines current issues, techniques and problems in criminal justice.
Prerequisite: CCJ 3024 and director permission.

CJC 4010 Introduction to Corrections 3 Credits
Grading Scheme: Letter Grade
Introduces the field of penology and corrections. Consideration is given to conflicting philosophies of punishment; criminological theory as it applies to the field of corrections; the selectivity of the process through which offenders move before their involvement in correctional programs; alternative correctional placements; and empirical assessments of the short-term and long-term consequences of involvement in correctional programs. (S)
Corequisite: CCJ 3024 and 3LS or 4LS major.
Attributes: General Education - Social Science

CJE 3011 Careers in Criminal Justice 3 Credits
Grading Scheme: Letter Grade
Advanced overview of professions available within the criminal justice system. Emphasis on the development of job seeking skills and strategies; local, state, federal and global employment opportunities; law and graduate school processes; building cultural competence and global perspectives.
Prerequisite: CCJ 3024 with a minimum grade of C.
CJE 3114 Introduction to Law Enforcement 3 Credits
Grading Scheme: Letter Grade
The role of the police in the criminal justice system of a democratic society. Topics include the organization of police work, discretion and the role of law enforcement in a socio-legal context.
Corequisite: CCJ 3024 and 3LS or 4LS major.

CJE 4144 Private Security and Control 3 Credits
Grading Scheme: Letter Grade
Understanding the role of private security in the prevention of crime. Examines deviance against the assets of formal organizations and their employees, such as business corporations, retail stores and educational institutions.
Prerequisite: CCJ 3024 with a minimum grade of C and Liberal Arts and Sciences major of junior standing or higher.

CJJ 4010 Juvenile Justice 3 Credits
Grading Scheme: Letter Grade
Examines the development, change and operation of the American juvenile justice system. Emphasizes the nature of juvenile law and the methods of dealing with youthful offenders. (S)
Prerequisite: CCJ 3024 and 2LS major or higher.
Attributes: General Education - Social Science

CJJ 4020 Criminal Procedure 3 Credits
Grading Scheme: Letter Grade
Studies constitutional rights of the accused in criminal proceedings. Focuses on analysis of case materials involving the law of arrest, search and seizure, the use of confessions, fair trial and the prohibition of cruel and unusual punishments.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

IDH 2931 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide Honors Program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

Czech | Languages, Literatures, and Cultures

**CZE 1130 Introduction to Czech Language and Culture 1** 5 Credits
**Grading Scheme:** Letter Grade
CZE 1130 and its sequel, CZE 1131, offer a comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, and writing. Prerequisite: CZE 1130 with minimum grade of C, or S, or the equivalent.

**CZE 1131 Introduction to Czech Language and Culture 2** 5 Credits
**Grading Scheme:** Letter Grade
Continuation of series. A comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, and writing. Prerequisite: CZE 1130 with minimum grade of C, or S, or the equivalent.

**CZE 2200 Intermediate Czech 1** 3 Credits
**Grading Scheme:** Letter Grade
Builds reading and writing skills while continuing to develop conversational ability and listening comprehension. Using a communicative approach, provides an overview of Czech grammar. Prerequisite: CZE 1131 with minimum grade of C, or S, or the equivalent.

**CZE 2201 Intermediate Czech 2** 3 Credits
**Grading Scheme:** Letter Grade
Continuation of intermediate study. Goal is to further develop speaking, listening, reading, and writing skills. Prerequisite: CZE 2200 with minimum grade of C, or S, or the equivalent.

**CZT 3564 Modern Czech Culture and Society** 3 Credits
**Grading Scheme:** Letter Grade
Overview of Czech literature, film, music, pop culture and visual arts as they were shaped by the events from 1918 to the present. (H and N) Attributes: General Education - Humanities, General Education - International

**Courses**

**COM 1000 Introduction to Communication Studies** 3 Credits
**Grading Scheme:** Letter Grade
Introduces various theoretical perspectives for understanding human communication. Attributes: General Education - Social Science

**COM 3125 Organizational Communication** 3 Credits
**Grading Scheme:** Letter Grade
Explores the processes, practices and difficulties of communication among large groups engaged principally in the work environment. Examines organizational structures, patterns of communication, task and social roles, extrinsic influences and methods of producing intrinsic motivation and innovation.

**COM 3225 Global and Cultural Issues in Health Communication** 3 Credits
**Grading Scheme:** Letter Grade
Explores the complex associations among communication and the many contexts, issues, and relationships surrounding health and well-being in the world. Investigates cultural, historical, social, and ethical meanings of health and illness. Considers issues in global health, culture, and communication in health care initiatives. Prerequisite: sophomore standing or higher.

**COM 3252 Biology of Human Communication** 3 Credits
**Grading Scheme:** Letter Grade
Examines the interaction between the body and communication behavior. Examines how physiology affects communication, and how communication affects physiology. Prerequisite: COM 1000 or SPC 2300.

**COM 3462 Interpersonal Conflict Management** 3 Credits
**Grading Scheme:** Letter Grade
Introduces fundamental communication skills, principles, theories and research relevant to effective conflict management in a variety of interpersonal contexts and relationships. Prerequisite: COM 1000 or SPC 2300 or instructor permission.

**COM 3465 Conflict Management and Negotiation in the Professions** 3 Credits
**Grading Scheme:** Letter Grade
Introduces fundamental concepts and skills relevant to effective communication in business and professional conflicts. Topics include conflict management, ADR, and interpersonal, organizational, community and international negotiation. Emphasizes helping students to understand and improve the conflict management and negotiation skills required in their professional careers. Prerequisite: COM 1000 or SPC 2608 or instructor permission.

**Center Information**

The William and Grace Dial Center for Written and Oral Communication assists in preparing University of Florida students to speak and write effectively using the major conventions governing the presentation of knowledge in their chosen disciplines. Additionally, the students gain an understanding of the importance of communicating information from within their discipline to general audiences.
COM 3491 Resilience & Communication 3 Credits
Grading Scheme: Letter Grade
Focusses on the role of communication in human resilience, with emphasis given to social, interpersonal, and intrapersonal processes and outcomes relevant to the construction of resilience and resilience narratives.
Prerequisite: COM 1000 or SPC 2300

COM 3943 Internship in Comm Studies 0-3 Credits
Grading Scheme: S/U
A variable web-based course designed to complement a student's internship experience through guided reflection, critical analysis, synthesis, and discussion.
Prerequisite: One COM or SPC course with a minimum grade of C and Communication Studies minor.

COM 4013 Family Communication 3 Credits
Grading Scheme: Letter Grade
Provides students with an understanding of how communication functions to develop, maintain, enrich, or limit family relationships.
Prerequisite: COM 1000 or SPC 2300 or instructor permission.

COM 4022 Health Communication 3 Credits
Grading Scheme: Letter Grade
Surveys theory, research and practice of communication in the contexts of healthcare and health promotion. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

COM 4706 Language and Power 3 Credits
Grading Scheme: Letter Grade
Explores the role of language in articulating, maintaining, and subverting power relations in society. Drawing from Communication Studies and Applied Linguistics, the course provides the tools to uncover, describe, and critically analyze the various strategic biases in language that create and reinforce power asymmetries in society.
Prerequisite: COM 1000 or SPC 2300 for Communication Studies minor; LIN3010 for LIN major; with instructor permission.
Attributes: General Education - Diversity, General Education - Social Science

COM 4911 Undergraduate Research in Communication Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Communication Studies. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Communication Studies.
Prerequisite: COM 1000 or equivalent.
Attributes: General Education - Social Science

COM 4930 Special Topics in Communication 3 Credits
Grading Scheme: Letter Grade
Seminar study of theory and research in a specific area of communication.
Prerequisite: COM 1000 or equivalent.

LIS 2001 Introduction to Library and Internet Research 1 Credit
Grading Scheme: Letter Grade
Learn how to conduct solid and reliable library research. Critical thinking skills are used to find, evaluate and use relevant scholarly resources in a variety of disciplines. This dynamic, hands-on course emphasizes creative thinking and media production tools while exploring the social responsibilities of using digital age information.

SPC 2300 Introduction to Interpersonal Communication 3 Credits
Grading Scheme: Letter Grade
Studies how two people interact with one another and how factors such as listening skills, gender and culture influence that communication. (S)
Attributes: General Education - Social Science

SPC 2351 Listening 3 Credits
Grading Scheme: Letter Grade
Theory and practice in responsible, participatory listening. Also includes principles of listening for literal comprehension and critical evaluation of ideas in response to various spoken and nonverbal messages.

SPC 2594 Intercollegiate Forensics 1 Credit
Grading Scheme: Letter Grade
Participation in intercollegiate debate and individual speaking.
Prerequisite: satisfactory completion of one semester of intercollegiate forensics participation at UF.

SPC 2608 Introduction to Public Speaking 3 Credits
Grading Scheme: Letter Grade
Theory and practice presenting public speeches, determining communication purpose(s) and adapting to organization, evidence, language and other message characteristics for designated audiences.

SPC 3331 Nonverbal Communication 3 Credits
Grading Scheme: Letter Grade
Surveys theory and research in nonverbal communication including eye behavior, facial expressions, gestures and vocal cues.
Prerequisite: COM 1000.

SPC 3513 Argumentation 3 Credits
Grading Scheme: Letter Grade
Implementation of principles and methods advocating factual claims and policy proposals. Also discusses propositional analysis, evidence as demonstration, effecting reasoning processes to become experimental for listeners and ethics in controversy.
Prerequisite: SPC 2608 or instructor permission.

SPC 3602 Advanced Public Speaking 3 Credits
Grading Scheme: Letter Grade
Studies principles and methods of selected forms of public speaking for various purposes, audiences and contexts.
Prerequisite: SPC 2608 or equivalent.

SPC 4301 Advanced Interpersonal Communication 3 Credits
Grading Scheme: Letter Grade
Analysis of interpersonal communication in various professional and social settings shown through case studies, role plays and discussion that all illustrate how emotions and social expectations shape communication.
Prerequisite: SPC 2300 or instructor permission.

SPC 4425 Small Group Communication 3 Credits
Grading Scheme: Letter Grade
Theory and practice in responsible, participatory listening. Also includes principles of listening for literal comprehension and critical evaluation of ideas in response to various spoken and nonverbal messages.

SPC 4710 Patterns of Intercultural Communication 3 Credits
Grading Scheme: Letter Grade
Explores practices and difficulties of communication between and among people of contrasting cultures. Includes investigation of theory and research by which intercultural communication problems can be mitigated. (N and S) (WR)
Prerequisite: COM 1000 or equivalent.
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement
Courses

DIG 2005 Introduction to Digital Technologies 3 Credits
Grading Scheme: Letter Grade
Comprehensive introduction to fundamental digital technologies and computing concepts; covers history of computing, binary arithmetic, Boolean logic, file formats, computer architecture, databases, networking, security/privacy, and ethics.

DIG 2021 Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary overview of the technological and cultural developments that continue to shape the modern world. Student research covers topics including telecommunications, digital and analog technologies, video games, computer-generated entertainment and the rise of social media. (WR)
Attributes: Satisfies 4000 Words of Writing Requirement

DIG 2121 Principles of Digital Visualization 3 Credits
Grading Scheme: Letter Grade
Develops appreciation and basic fluency in the application of visual and design literacy into emergent forms of digital media. Historical and theoretical perspectives inform hands-on learning across topics including pre-visualization and storyboarding in static and time-based media, and the critical analysis of contemporary and iconic visual storytelling.

DIG 2632 Creating Mobile Games 3 Credits
Grading Scheme: Letter Grade
Introduces designing mobile video games with simple drag and drop programming and basic asset creation. Covers the essential principles of design and development needed to create effective arcade-style games. Provides a solid foundation in the technical skills needed to create multi-platform mobile games.

DIG 2930 Special Topics: Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
In-depth examination of the technological and cultural underpinnings that shape current electronic media including video games, the internet, computer-animated movies, and virtual reality.

DIG 2931C Special Topics in Digital Media 1-3 Credits
Grading Scheme: Letter Grade
Special topics course to address contemporary digital arts and sciences issues. This flexible pedagogic mechanism provides DAS a dimension of vitality that compliments theory-based offerings with an up-to-the-minute examination of emergent cultural and technological events and developments.
Prerequisite: instructor permission.

DIG 2930 Special Topics: Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
In-depth examination of the technological and cultural underpinnings that shape current electronic media including video games, the internet, computer-animated movies, and virtual reality.

DIG 3097 Entrepreneurship in New Media 3 Credits
Grading Scheme: Letter Grade
Using an interdisciplinary approach, acquire fluency in techniques of idea generation, innovation, internet startups, video games, mobile applications, promotion and branding, company boot strapping, and business plan creation. Focuses on developing creative and business skills applicable to new media startups.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3124 Principles of Interaction & Usability 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of interaction and usability for digital interfaces and systems. Focuses on identifying end users' needs and providing tailored solutions through interaction design, cognitive and emotional aspects of digital interfaces, visual aesthetics, data gathering, prototyping, and evaluation.
Prerequisite: Digital Arts and Sciences major.

DIG 3305C 3D Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Introduces the foundations of creating 3D digital environments and animations; implement industry-standard animation principles and practices, including reference-centric animation and polygonal modeling.
Prerequisite: DAR major and DIG 3313C with minimum grade of C.
DIG 3313C 2D Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Introduces foundational knowledge of animation in a 2D space; learn how
to design and implement character, abstract, and shape animation.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3329 3D Modeling and Texturing 3 Credits
Grading Scheme: Letter Grade
This course covers industry-standard polygon and curve-based modeling
tools for creating efficient 3D models and stylistic textures. Additionally,
students will master key concepts and become fluent in terminology
essential to 3D modeling.
Prerequisite: Digital Arts and Sciences major and DIG 3305C with
minimum grade of C.

DIG 3433 Digital Storytelling 3 Credits
Grading Scheme: Letter Grade
Develops a framework for integrating participation and storytelling as
the foundation of interactivity. Explores how story is incorporated into
contemporary interactive platforms such as games and other digital
media, including virtual worlds, video blogs and social networks.
Prerequisite: Digital Arts and Sciences and DIG 3305C with
minimum grade of C.

DIG 3506 Interdisciplinary Design Methods for Digital Arts and Sciences
2 Credits
Grading Scheme: Letter Grade
Comprehensive overview of industry and academy standard design
methods and processes. Interdisciplinary design practices from process-
focused fields like interaction design, human-centered design, design
research and computer-supported collaborative work. Construction and
delivery of needs analyses, audience analyses, and design documents,
and iterative design practices including rapid prototyping, user-testing,
real-time research, conceptual design and agile development. Students
will use one of these design frameworks to take a DAS design prototype
from conceptualization to user-testing.
Prerequisite: Digital Arts and Sciences BA major with junior standing or
higher.

DIG 3521 Project Methodologies 3 Credits
Grading Scheme: Letter Grade
Introduces skills for successfully planning and managing digital projects.
Focuses on the production of digital games, animation, and digital
audio/video to learn about management life cycle, project parameters,
matrix management challenges, effective project management tools and
techniques, interpersonal skills, and the role of a project manager.
Prerequisite: Digital Arts and Sciences major.

DIG 3525C DAS Design and Production Studio 1 3 Credits
Grading Scheme: Letter Grade
Provides digital imaging and design foundations in visualization. Also
offers an introduction to the foundation of interface tools in industry
standard digital imaging software.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3526C DAS Design and Production Studio 2 3 Credits
Grading Scheme: Letter Grade
Working within an interdisciplinary digital arts and sciences (DAS) design
and production studio environment, students will focus on network and
Internet-based technologies, delivery systems and content generation.
Students will participate in the creation of two major collaborative group
projects or one major semester-long project.
Prerequisite: Digital Arts and Sciences BA major and DIG 3525C with
minimum grade of C.

DIG 3588C Digital Portfolio 1-3 Credits
Grading Scheme: Letter Grade
Provides technical and design skills for the creation of a digital portfolio
with interactive media suitable for distribution, including DVD and a
portfolio website. Also covers techniques for using and linking social
media, digital branding and personal marketing.
Prerequisite: Digital Arts and Sciences BA major of junior standing or
higher.

DIG 3691 Blockchain Innovation in Digital Arts and Sciences 3 Credits
Grading Scheme: Letter Grade
Comprehensive survey of relevant topics in blockchain and its impact on
digital arts and sciences; provides an overview of the technology behind
blockchain and explores current and potential real-world applications in
arts, digital entrepreneurship, and creativity.
Prerequisite: Digital Arts and Sciences B.A. major with junior standing or
higher.

DIG 3713 Game Content Production 1 3 Credits
Grading Scheme: Letter Grade
Provides both theoretical and practical knowledge and essential technical
skills for the conceptualization and digital visualization of video game
assets. Covers the principles and practical applications of industry-
standard software suites. Emphasizes developing strong foundational
skills, compelling conceptual ideas, and self-motivated problem solving.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3715 Game Content Production 2 3 Credits
Grading Scheme: Letter Grade
Elaborates on concepts, processes, and technical practices introduced in
DIG 3713C; use game design fundamentals to craft effective digital
games. Detailed examination of conceptual techniques in game design
and their use in DAS design practice; comparative introduction of
frameworks for game design; technical components of 2D and 3D game
design.
Prerequisite: Digital Arts and Sciences major and DIG 3713 with minimum
grade of C.

DIG 3873 Game Systems Development 1 3 Credits
Grading Scheme: Letter Grade
This course will introduce the fundamental principles of game
development and programming language. Students will become familiar
with input output, variables, arithmetic operations, if-else conditional
statement and their use in game development. Students will also learn
about the basic understanding of object-oriented programming (OOP)
within the industry.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3878 Game Systems Development 2 3 Credits
Grading Scheme: Letter Grade
This course will cover fundamental principles of game engine
programming such as basic collision detection, input detection,
instantiate, destroy game object, and others. The student will also
learn how to use game engines to develop various applications such as
personal computer (PC) and mobile games, augmented/virtual reality
projects, and others.
Prerequisite: DIG 3873 with minimum grade of C.
DIG 4154 Writing for Interactive Media 3 Credits
Grading Scheme: Letter Grade
Provides in-depth analysis and opportunity to hone writing skills needed in the creation and development of interactive digital media. Students will investigate approaches for generating high-quality writing and the blend between development, planning, technical and creative writing through writing the documents to support a digital media project’s development and production.
Prerequisite: Digital Arts and Sciences BA major of senior standing.

DIG 4171C Digital Tools for Arts and Humanities 3 Credits
Grading Scheme: Letter Grade
Study of digital applications, games, tools, and social networks to enhance research in the arts and humanities; examines and expands on current theoretical discussions, applications, and methodologies. An interdisciplinary group project embraces collaborative research and offers hands-on experience with digital tools.
Prerequisite: Junior level or higher

DIG 4255C Audio Design for Digital Production 3 Credits
Grading Scheme: Letter Grade
Professional techniques for the creation of audio content for variety of applications in the digital arts and sciences. Software tools for conversion, storing, processing and retrieval of sound in a variety of digital formats. Fundamentals of loop-based audio design, sampling and work with an industry standard software with linear and interactive digital media.
Prerequisite: Digital Arts and Sciences BA major of senior standing.

DIG 4283 Music and Sound Design for Digital Media 3 Credits
Grading Scheme: Letter Grade
Investigates techniques, tools and current research in music and sound design for digital media for DAR and DAS non-music majors.

DIG 4306C Advanced Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Practical principles and techniques of 3D software environments for animation. Includes triangular mesh design and editing, splines (NURBS), shading techniques and lighting, different camera projection models, rendering techniques, and efficient use of GPU for photo realistic real-time 3D animation.
Prerequisite: (Digital Arts and Sciences BA major and DIG 3305C with minimum grade of C) or instructor permission.

DIG 4354 3D Character Animation 3 Credits
Grading Scheme: Letter Grade
Techniques for 3D character animations. Practice character development, pipeline management, procedural framework simulation, and basic rigging alongside studies of motion picture animation. Master industry-standard tools to animate basic 3D objects, 3D bipedal motion, and key-framing.
Prerequisite: DAR major and DIG 4306C with minimum grade of C.

DIG 4361C Advanced 2D Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Develop advanced industry-standard practices in digital 2D animation. Within a collaborative environment, create a 30 second film in order to learn the production pipeline, time management, and task allocation while demonstrating advanced animation techniques.
Prerequisite: DIG 3313C with minimum grade of C and Digital Arts and Sciences B.A. major.

DIG 4527C Game Design and Production 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary approach to game design and production. Emphasizes rapid prototyping, agile design, collaboration, and project management in a relatively short development cycle. Work on idea pitches, write concept proposals, and work to develop a video game.
Prerequisite: Digital Arts and Sciences major and (DIG 3715 and DIG 3878 with minimum grades of C).

DIG 4540C Production of Immersive Environments 3 Credits
Grading Scheme: Letter Grade
Projects cover the foundational knowledge of immersive technologies such as AR and VR; provides hands-on experience developing a fully functioning immersive experience prototype.
Prerequisite: DIG 3305C and DIG 3878 with minimum grades of C and Digital Arts and Sciences B.A. major with junior standing or higher.

DIG 4552 Advanced Design & Production Studio 3 Credits
Grading Scheme: Letter Grade
Course provides students with both conceptual understanding and practical applications of the evolving ecosystem of time-based digital media creation and production tools and techniques. Work incorporates both physical and virtual studio environments.
Prerequisite: Digital Arts and Sciences major and DIG 3526C with minimum grade of C.

DIG 4634 Wearable and Mobile App Development 3 Credits
Grading Scheme: Letter Grade
Examines software development protocols for wearable and mobile electronics such as head-mounted displays, watches, and cellphones. Studies several embedded input/output interfaces, including position and orientation sensors, hand trackers, holographic, and stereoscopic displays. Materials are practiced by developing prototype software applications for such devices.
Prerequisite: DIG 3878 with minimum grade of C.

DIG 4841 Undergraduate Research Forum 3 Credits
Grading Scheme: Letter Grade
Seminar focuses on collaborative interdisciplinary research in the digital arts and sciences. Develop, refine, and present research projects and process related to traditional and contemporary industry concerns, practices, and trajectories.
Prerequisite: DAR major and senior standing.

DIG 4905 Independent Study 1-4 Credits
Grading Scheme: Letter Grade
Independent study of special or individual DIG projects and issues, under faculty supervision.
Prerequisite: consent of faculty member supervising the study.

DIG 4917 Undergraduate Research in DAS 0-3 Credits
Grading Scheme: S/U
Provides research experience at the intersection of digital arts and sciences. Research assistants work directly with faculty to explore and produce various research in interactive tools and technologies. Accelerate professional development as both a researcher and digital artist.
Prerequisite: Junior level or higher.
DIG 4930 Special Topics in DAS 1-4 Credits  
**Grading Scheme:** Letter Grade  
Special Topics provides upper-level DAS students with a comprehensive study of current/significant topics in the digital arts and sciences. Special Topics allows faculty to offer courses in emergent technologies, theories, and methodologies not already included in the curriculum, and provide students with the knowledge and skills necessary in these areas.  
**Prerequisite:** Digital Arts and Sciences major.

DIG 4932 Colloquium in Digital Arts and Sciences 1 Credit  
**Grading Scheme:** S/U  
Seminars explores current affairs in the field of digital arts and sciences. Research, communicate, and analyze the contemporary trends in digital arts and sciences.  
**Prerequisite:** DAR major and senior standing.

DIG 4940 Internship 1-3 Credits  
**Grading Scheme:** S/U  
Internship encourages reflection on position, company, industry, and experience. After completing the assignments, students should be able to articulate the role internship had in their career development.  
**Prerequisite:** DAR major.

DIG 4942 Undergraduate Course Assistant 0-3 Credits  
**Grading Scheme:** S/U  
Provides hands-on experience teaching digital arts and sciences at the college level. Under the supervision of a faculty member, lab assistants help prepare and discuss course materials, work with students during office hours, and play a critical role in facilitating learning.  
**Prerequisite:** DAR major and junior or higher standing.

DIG 4944C Production Practicum 0-3 Credits  
**Grading Scheme:** S/U  
Production Practicum will provide DAS students hands-on experience producing and executing real-world digital media projects. Students will participate in many production roles, collaborating with peers and clients in a professional studio environment. In the process, students will accelerate their professional development as a producer within the digital arts and sciences.  
**Prerequisite:** Junior level or higher.

DIG 4970 Senior Project in DAS 2-3 Credits  
**Grading Scheme:** Letter Grade  
Successful completion of this capstone experience demonstrates mastery of requisite knowledge, technical acumen, and problem solving skills in the digital arts and sciences. May be either an individual or team-based project.  
**Prerequisite:** senior status enrolled in the BA in DAS program.

**Department Information**  
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

**Courses**  
DUT 1130 Beginning Dutch 1 5 Credits  
**Grading Scheme:** Letter Grade  
DUT 1130 and its sequel, DUT 1131, constitute the basic sequence in Dutch for the development of overall skill in the language. Open to those with little or no background in Dutch.  

DUT 1131 Beginning Dutch 2 5 Credits  
**Grading Scheme:** Letter Grade  
Continuation of the basic sequence in Dutch for the development of overall skill in the language. Open to those with little or no background in Dutch.  
**Prerequisite:** DUT 1130 with minimum grade of C, or S, or the equivalent.

Department Information

The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad. Website (https://economics.clas.ufl.edu/)

Curriculum
- Combination Degrees
- Economics
- Economics Minor

Courses

ECO 2013 Principles of Macroeconomics 4 Credits
Grading Scheme: Letter Grade
The nature of economics, economic concepts and institutions; growth, unemployment and inflation; money and banking; economic policy; and the international economy. (S)
Attributes: General Education - Social Science

ECO 2023 Principles of Microeconomics 4 Credits
Grading Scheme: Letter Grade
Theories of production, determination of prices and distribution of income in regulated and unregulated industries. Attention is also given to industrial relations, monopolies and comparative economic systems. (S)
Attributes: General Education - Social Science

ECO 2310 Economics of Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines issues of environmental sustainability from an economic perspective. Discusses economic treatment of renewable and nonrenewable resources, land constraints, and global climate change. Identifies potential policy solutions grounded in economic theory.

ECO 3101 Intermediate Microeconomics 4 Credits
Grading Scheme: Letter Grade
Nature, scope and purpose of economic analysis. Examines the theory of consumer behavior, production, costs, firm behavior and the allocation of resources. (S)
Prerequisite: (ECO 2023 and (MAC 2233 or higher level calculus course)) or AEB 3103
Attributes: General Education - Social Science

ECO 3203 Intermediate Macroeconomics 4 Credits
Grading Scheme: Letter Grade
Theoretical determinants of aggregate employment, income, expenditures and the price level. Keynesian and neoclassical models are analyzed.
Prerequisite: ECO 2013 and ECO 2023 and (MAC 2233 or higher level calculus course).

ECO 3532 Public Choice 4 Credits
Grading Scheme: Letter Grade
Role of voters, special interests, legislators and the bureaucracy in determining government expenditure, taxation and other economic policies. Economic models of voting and the structure of governments. (S)
Prerequisite: ECO 2023.
Attributes: General Education - Social Science

ECO 3704 International Trade 4 Credits
Grading Scheme: Letter Grade
Prerequisite: ECO 2013 and ECO 2023.

ECO 3713 International Macroeconomics 4 Credits
Grading Scheme: Letter Grade
Macroeconomic theory of an open economy. Current monetary issues of the world economy. The international monetary system, exchange rate determination, balance of payments adjustment mechanism, international financial institutions and their policies. Macroeconomic policies and national income determination in an open economy.
Prerequisite: ECO 2013 and (ECO 2023 or AEB 3103).

ECO 4104 Economics of Competitive Strategy 4 Credits
Grading Scheme: Letter Grade
Focuses on identification and analysis of competitive strategies in expanding markets. Draws on strategic management, the economics of technological change and RD investments, and dynamic game theory, to address challenges faced by firms. Examines demand-based network externalities, the dynamics of pricing rivalry, industry evolution, RD strategies entry and exit decisions.
Prerequisite: ECO 2013 and ECO 2023 and (ECO 3101 or ECP 3703) and (MAC 2233 or higher).

ECO 4213 Monetary Economics 4 Credits
Grading Scheme: Letter Grade
An integrated examination of how banks impact the money supply, monetary policy and financial markets. Topics include: the historical features of money; banking and money supply; goals and tools of monetary policy; and banks as financial intermediaries.
Prerequisite: ECO 2013 and ECO 2023.
ECO 4270 Economic Growth 4 Credits  
**Grading Scheme:** Letter Grade  
Examines global history of economic growth and development. Introduces classical and modern theories of economic growth. Develops mainstream models of exogenous and endogenous growth. Compares insights from these models to real-world data.  
**Prerequisite:** (MAC 2233 or higher) and (ECO 3101 or ECP 3703)

ECO 4400 Game Theory and Applications 4 Credits  
**Grading Scheme:** Letter Grade  
Introduces modern game theory, including the formal theory of Nash equilibrium and solutions techniques. Applications include strategic barriers of entry, cooperative behavior in oligopoly, auctions and bidding strategies, and durable goods sales.  
**Prerequisite:** ECO 2023 and (MAC 2233 or MAC 2234 or MAC 2311 or MAC 2312 or MAC 2213) and (ECO 3101 or ECP 3703).

ECO 4401 Mathematical Economics 4 Credits  
**Grading Scheme:** Letter Grade  
Introduces fundamental mathematical tools employed in economic analysis. Covers comparative static analysis, introduces linear algebra, constrained and unconstrained optimization, and dynamic analysis using differential and difference equations. Examines applications from a wide range of subfields in economics, including consumer theory, macroeconomics, economic growth, and environmental economics.  
**Prerequisite:** (ECO 2013 and ECO 2023 and ECO 3101) or (ECO 3203 and MAC 2233 or higher).

ECO 4421 Econometrics 4 Credits  
**Grading Scheme:** Letter Grade  
Introduces concepts and methods used in empirical economic research. Emphasizes practical use of basic econometric techniques to estimate economic relationships and evaluate policy. Covers topics needed to plan and implement empirical projects, and understand potential problems with the empirical analyses of others.  
**Prerequisite:** STA 2023 and (MAC 2233 or higher) and (ECO 3101 or ECP 3703).

ECO 4422 Econometrics 2 4 Credits  
**Grading Scheme:** Letter Grade  
**Prerequisite:** ECO 4421 OR (STA 4210 AND ECO 3101) OR (STA 4210 AND ECP 3703).

ECO 4504 Public Economics 4 Credits  
**Grading Scheme:** Letter Grade  
Market failures and the role of the government in providing goods and services, like education and infrastructure, in a market economy. The role of the government in the provision of various types of social insurance like health insurance, social security and welfare. The effects of taxes on economic behavior.  
**Prerequisite:** ECO 2013 and ECO 2023 and (MAC 2233 or higher) and (ECO 3101 or ECP 3703).

ECO 4905 Individual Work 1-4 Credits  
**Grading Scheme:** Letter Grade  
For advanced undergraduate students who need to supplement regular coursework by individual studies under guidance. Counted as a free elective credit only.  
**Prerequisite:** senior standing, 10 credits of economics and department permission.

ECO 4934 Special Topics 1-4 Credits  
**Grading Scheme:** Letter Grade  
Variable content providing an opportunity for the study in-depth of topics not offered in other courses.  
**Prerequisite:** ECO 2013 and ECO 2023.

ECO 4935 Empirical Research in Economics Seminar 4 Credits  
**Grading Scheme:** Letter Grade  
After getting some background in economic empirical methodology, statistics, and statistical software and discussing some representative empirical papers, each economics student develops an empirical model and subjects it to statistical testing, helped by several class presentations.  
**Prerequisite:** ECO 2013 and ECO 2023.

ECO 4941 Internship in Economics 1-3 Credits  
**Grading Scheme:** S/U  
Applied work in economics. Requires several papers and reports. Counted as a free-elective credit only. (S-U)  
**Prerequisite:** department permission.

ECO 4956 International Studies in Economics 1-4 Credits  
**Grading Scheme:** Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  
**ECO 4970 Honors Thesis 1-4 Credits  
**Grading Scheme:** S/U  
A thesis is required for the awarding of the magna cum laude or summa cum laude designations. To qualify, students will normally have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator of the student’s major department) and must have at least the grade point average (3.6) required for the magna cum laude designation at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator for the student's major department. Counted as a free-elective credit only. (S-U)  
**Prerequisite:** 90 credits earned and 3.6 UF GPA.

ECP 3006 Economics of Sports 4 Credits  
**Grading Scheme:** Letter Grade  
Examines the business of sports using economic theory as a framework for analysis. Topics covered include the economics of sports leagues, labor negotiations and arbitration, pricing decisions, discrimination, corruption in sports, gambling, sports memorabilia and antitrust policy.  
**Prerequisite:** ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).

ECP 3203 Labor Economics 4 Credits  
**Grading Scheme:** Letter Grade  
Determinants of demand for labor and labor supply. Labor market equilibrium and changes in the equilibrium due to changes in unionization, public policies, technology and trade. Study of the effects of skill, job amenities and discrimination on wage differentials. (S)  
**Prerequisite:** ECO 3101 or ECP 3703

**Attributes:** General Education - Social Science

ECP 3302 Environmental Economics and Resource Policy 4 Credits  
**Grading Scheme:** Letter Grade  
The relations between environmental quality, resource utilization, and economic institutions and policy. Examines alternative strategies and policies in solving the problems of environmental quality and resource scarcity. (S)  
**Prerequisite:** ECO 2023. Credit will not be awarded for both ECP 3302 and AEB 3450.

**Attributes:** General Education - Social Science
ECP 3403 Industrial Organization 4 Credits
Grading Scheme: Letter Grade
Examines the structure of markets and the behavior of firms operating in imperfectly competitive markets. Develops models of imperfectly competitive markets and compares the insights and predictions from each. Investigates firms' strategic profit-maximizing decisions regarding prices, product differentiation, market entry and exit, and product promotion.
Prerequisite: ECO 2023, (MAC 2233 or higher level calculus course), and (ECO 3101 or ECP 3703)

ECP 3510 Economics of Education 4 Credits
Grading Scheme: Letter Grade
Uses economic concepts to analyze the education system and education policy options. Topics covered include class size, No Child Left Behind legislation, public vs. private schools, and vouchers.
Prerequisite: ECO 2023.

ECP 3530 Health Care Economics 4 Credits
Grading Scheme: Letter Grade
Analysis of health care markets, employing efficiency and equity criteria. Evaluation of current health care policies and their effects on cost, access and quality. Topics covered include the production of and demand for health and medical care; information asymmetries between patients, doctors, and payers; health insurance coverage; the effects of managed care (including HMOs) on competition, efficiency, and quality; training and practice of physicians; hospitals; prescription drug pricing; government regulations; Medicare and Medicaid; health care reform.
Prerequisite: ECO 2023.

ECP 3703 Managerial Economics 4 Credits
Grading Scheme: Letter Grade
Analysis of the firm's decisions regarding prices, outputs and inputs, advertising, etc. under various market conditions. Reliance is placed upon both theories and applications.
Prerequisite: ECO 2023 and MAC 2233 or higher. Credit will not be awarded ECO 3101 and ECP 3703.

ECP 4403 Government Regulation of Business 4 Credits
Grading Scheme: Letter Grade
The evolution, statutory foundation and methods of governmental regulation. Antitrust regulation of competitive practices. (S)
Prerequisite: ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).
Attributes: General Education - Social Science

ECP 4451 Law and Economics 4 Credits
Grading Scheme: Letter Grade
Analyzes the interaction between law and economics, and evolution of legal rules; efficiency of alternative rules on pollution and public goods, enforcement of contracts, deterrence of crime, and protection of consumers; and efficiency versus fairness.
Prerequisite: ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).

ECS 4013 Economic Development 4 Credits
Grading Scheme: Letter Grade
Examines different theories of economic growth and development of low-income and middle-income countries. Covers microeconomic and macroeconomic models relevant to understanding development and analyzing various policy proposals. Analyzes history and empirical evidence of global economic growth and development.
Prerequisite: ECO 2013, ECO 2023, MAC 2233 or higher, and ECO 3101

ECS 4110 Africa in the Global Economy 4 Credits
Grading Scheme: Letter Grade
Examines the African continent position globally, looking both at the challenges as well as at the options available to African nations to get a fair and better deal in the global economy. Main topics: international trade and global value chairs; WTO rules and negotiations especially with regard to agriculture; aid to Africa; economic reforms, the World Bank and IMF; the debt crisis; migration and African Diaspora.
Prerequisite: ECO 2013 and ECO 2023. Students with credit for ECS 4111 will not get credit for ECS 4110.

ECS 4111 African Economic Development 4 Credits
Grading Scheme: Letter Grade
Deals with the most pressing issues facing Sub-Saharan African countries in their quest for socio-economic development. Although the main focus is on contemporary issues and forthcoming challenges, we will also turn to more or less recent historical facts whenever necessary to shed light on the present. Main topics are economic growth, politics and institutions, international trade, agricultural and industrial development, poverty and inequality, access to basic social services, the environment and gender issues.
Prerequisite: ECO 2013 and ECO 2023. Students with credit for ECS 4110 will not get credit for ECS 4111.

Education | School of Human Development and Organizational Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Courses

EDA 4930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Topics vary.

EDF 3110 Human Growth and Development 3 Credits
Grading Scheme: Letter Grade
A life span survey of human growth and development beginning at conception and ending with death. Students will have the opportunity to apply general principles in appropriate educational settings. (S)
Attributes: General Education - Social Science
EDF 3115 Child Development for Inclusive Education 3 Credits
Grading Scheme: Letter Grade
Examines psychological theories and research on typical and atypical development and their application in general education classrooms that include children with sensory, mental, emotional, and learning disabilities and gifted and talented children.

EDF 3132 The Young Adolescent 3 Credits
Grading Scheme: Letter Grade
Development of the young adolescent between the ages of ten and fifteen.

EDF 3135 The Adolescent 3 Credits
Grading Scheme: Letter Grade
The special role that the adolescent plays in total development. Emphasis is on the psychological development of the adolescent in the school.
Prerequisite: junior standing or higher or department permission.

EDF 3210 Educational Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces the application of psychology to the problems of education in a variety of educational settings. It examines the theoretical and applied aspects of learning, motivation, human development, personality, and measurement and evaluation. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

EDF 3423 Educational Research Design 3 Credits
Grading Scheme: Letter Grade
Prerequisite: EDF 1005.

EDF 3935 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Topics vary.
Prerequisite: department permission.

EDF 4140 Cognition in Education 3 Credits
Grading Scheme: Letter Grade
Examines cognitive science that explains learning in educational contexts. Specifically, reviewing memory, attention, thinking, and problem solving in classroom or applied settings. Pays special attention to the connections between research and everyday phenomena; designed to help students apply course material to enhance their lives.
Prerequisite: EDF 3210

EDF 4430 Measurement and Evaluation in Education 3 Credits
Grading Scheme: Letter Grade
The basic principles and methods of measurement, evaluation and test construction.
Prerequisite: junior standing or higher or department permission.

EDF 4440 Program Evaluation in Educational Settings 3 Credits
Grading Scheme: Letter Grade
Overview to the skills and methods required to assess the effectiveness and impact of educational programs and institutions. First presents program evaluation in the broader setting of the social sciences, followed by evaluation readings and activities tailored specifically to educational settings.
Prerequisite: EDF 3423.

EDF 4470 Survey Research Methods in Education 3 Credits
Grading Scheme: Letter Grade
Overview of the theory and application of survey research methods, with special emphasis on conducting survey research in educational settings. Presents the full process of survey research, including design, implementation, analysis, and data management.
Prerequisite: EDF 3423.

EDF 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
For juniors or seniors who wish to explore areas of inquiry in psychological, social, or philosophical foundations of education, or research or measurement, under faculty guidance.

EDG 4910 Education Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Supports mentored scholarship work that enables individual students to engage in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery or application depending on the topic. (S-U)

EDH 3410 Introduction to Education Policy 3 Credits
Grading Scheme: Letter Grade
Introduces education policy and analysis that explores the history and purpose of education policy, key federal and state policies impacting K12 and higher education, and theoretical and conceptual approaches to policy analysis.
Prerequisite: EDF 3604.

MHS 3930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Topics vary.
Prerequisite: department permission.

SDS 3340 Career and Life Span Planning 3 Credits
Grading Scheme: Letter Grade
Presentations, discussions and experiential activities for making effective life plans and adjustments are covered.
Prerequisite: EDF 3604.

SDS 3430 Family and Community Involvement in Education 3 Credits
Grading Scheme: Letter Grade
Examines existing models and practices for enhancing family-school-community interaction with emphasis on communication, conflict resolution and climate-building skill development.
Prerequisite: EDF 3604.

SDS 3480 Student Development in a University Setting 2 Credits
Grading Scheme: Letter Grade
Available to selected undergraduate students only. Examines factors affecting student growth and development in the university setting, current problems facing students, and the use of group processes and leadership training in solving problems and facilitating growth.
Prerequisite: EDF 3604.

SDS 3481 Alcohol and Drug Abuse 2 Credits
Grading Scheme: Letter Grade
General information of effects and problems associated with alcohol and other drug abuse.
Prerequisite: EDF 3604.

MHS 4900 Individual Work 2-4 Credits
Grading Scheme: Letter Grade
Topics vary.
Prerequisite: department permission.

MHS 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
For juniors or seniors who wish to explore areas of inquiry in psychological, social, or philosophical foundations of education, or research or measurement, under faculty guidance.

MHS 4910 Education Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Supports mentored scholarship work that enables individual students to engage in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery or application depending on the topic. (S-U)
SDS 4410 Interpersonal Communication Skills 3 Credits
Grading Scheme: Letter Grade
The application of basic principles of interpersonal communication with emphasis on the affective dimensions. Attention is given to using basic counseling strategies and psychological techniques as an aid to effective communication.

**Education | School of Special Education, School Psychology and Early Childhood Studies**

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

**Courses**

EDF 2085 Teaching Diverse Populations 3 Credits
Grading Scheme: Letter Grade
Surveys educational demographics, foundations of prejudice, elements of culture, political and philosophical roots of diversity and commonality, exceptionalities, and barriers to cultural understanding and diversity in the classroom. A minimum of 30 hours of field experience is required with 15 hours in a diverse setting. See also: EDF 1005 and EME 2040. (D and S)

Attributes: General Education - Diversity, General Education - Social Science

EDF 3122 The Young Child 3 Credits
Grading Scheme: Letter Grade
Studies growth and development during infancy and early childhood. Laboratory includes observation and participation in nursery school and kindergarten.

EDF 3433 Introduction to Educational Measurement and Evaluation 2 Credits
Grading Scheme: Letter Grade
Surveys principles and methods of educational measurement with an emphasis on evaluation and diagnosis of students in school settings.

Prerequisite: STA 2023; knowledge of descriptive statistics, correlation and regression; inferential statistics and tests on means; and department permission for freshmen and sophomores.

EDG 4910 Education Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Supports mentored scholarship work that enables individual students to engage in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery or application depending on the topic. (S-U)

EEC 3012 Intro to Early Childhood Educa 3 Credits
Grading Scheme: Letter Grade
Overview of the profession of early childhood education for all children from age 3 through grade 3, including legal bases, ethical guidelines, professional expectations, historical and cultural perspectives, organization, programming, developmentally appropriate principles and evidence-based practices. Considerations for diversity guide all aspects of the course.

Prerequisite: Early Childhood Education majors only. Junior and Senior Status.

EEC 3213 Language and Literacy Development in Early Childhood 3 Credits
Grading Scheme: Letter Grade
Understand the foundations of language and literacy development in young children, from age 3 to grade 3. Includes a focus on the development of oral language, vocabulary, phonological awareness, and word-reading skills.

Prerequisite: admission to B.S. in Early Childhood Studies.

EEC 3404 Families, Diversity and Multicultural Considerations in Early Childhood 3 Credits
Grading Scheme: Letter Grade
The role of family and influence of community on development and learning of young children in diverse society.

EEC 3421 Early Childhood Math, Science, and Technology 6 Credits
Grading Scheme: Letter Grade
Techniques and methods for teaching preschool to third grade mathematics and science with appropriate technology integration. Topics include processes of problem solving, reasoning, communication, and inquiry related to instruction and teaching methodology. Appropriate use of technology to amplify the learning experience and develop digital citizens and computational thinkers.

Prerequisite: junior/senior-level EMR in Unified Early Childhood Education.

EEC 3941 Practicum in Early Childhood Education 1-3 Credits
Grading Scheme: S/U
Field experience in pre-service early childhood education.

Prerequisite: enrollment in Unified Early Childhood PROTEACH.

EEC 4215 Early Childhood Science and Social Studies 3 Credits
Grading Scheme: Letter Grade
Integrated curriculum course for science and social studies from the perspective of constructivist theory. Designed to promote understanding of similarities in ways in which children construct basic science and social studies concepts.

Prerequisite: junior/senior-level EMR in Unified Early Childhood Education.

EEC 4247 Int. Soc Studies, Hum, Arts 3 Credits
Grading Scheme: Letter Grade
This integrated curriculum course develops students’ understanding of appropriate curriculum and instruction in social studies, humanities and arts for children preschool through grade 3. Emphasis is on content and methods to meet goals in each of the three areas, as well as meaningful interdisciplinary learning experiences that meet multiple goals.

Prerequisite: Early Childhood Education majors only. Junior and Senior Status.
EEC 4252 Inclusive Early Childhood Curriculum, Teaching and Assessment I 3 Credits
Grading Scheme: Letter Grade
This course will develop students’ understanding of appropriate curriculum, teaching and assessment for young children in preschool through grade 3, across the developmental domains and academic disciplines. This course is the first in a two-course sequence.

EEC 4253 Inclusive EC Curriculum II 3 Credits
Grading Scheme: Letter Grade
This course will develop students’ skills in implementing appropriate curriculum, teaching and assessment for young children in preschool through grade 3, across the developmental domains and academic disciplines. This course is the second in a two-course sequence.

Prerequisite: Students admitted to the early childhood education program and EEC 4252.

EEC 4712 Social-Emotional Learning and Behavior Support in Early Childhood 4 Credits
Grading Scheme: Letter Grade
Multi-tiered model approach to use of developmentally appropriate and evidence-based practices for promoting children's social-emotional learning, self-responsibility and self-regulation in early childhood programs. Practices build from focus on development of positive relationships, to environmental arrangements, to specific teaching practices, to use of individualized interventions based on functional assessment.

Prerequisite: Early Childhood Education majors only. Junior and Senior Status.

EEC 4942 Practicum in Early Literacy 3 Credits
Grading Scheme: Letter Grade
Provides an opportunity to practice and demonstrate competence in early literacy assessment, instruction, and intervention in an early childhood classroom setting. Apply literacy knowledge and skills with PreK-Grade 3 students. Includes both small-group and whole-class instruction.

Prerequisite: Early Childhood Education majors only. Junior and Senior Status.

EEC 4945 Internship in Early Childhood 3-6 Credits
Grading Scheme: S/U
Students demonstrate application of knowledge and skills acquired throughout their educator preparation program in a supervised early childhood setting.

Prerequisite: Early Childhood Education major and permission of department.

EEX 2000 Impact of Disabilities: Home, Community and Workplace 3 Credits
Grading Scheme: Letter Grade
How disabilities impact the lives of individuals who have disabling conditions and how the presence of individuals with disabilities enhances diversity in a variety of settings. The impact of disabilities in home, community and work environments. Physical, cognitive and emotional/behavioral disabilities are considered. (D and S)

Attributes: General Education - Diversity, General Education - Social Science

EEX 3012 Introduction to Special Education 3 Credits
Grading Scheme: Letter Grade
Overview of special education characteristics and definitions of disabilities, the referral process and service delivery models. Information on the history of, legal basis for and contemporary issues in special education.

EEX 3062 Early Childhood Special Education Curriculum 3 Credits
Grading Scheme: Letter Grade
Content knowledge in developing and implementing individualized educational programs for the pre-kindergarten child with disabilities, including developmentally appropriate curriculum; methods, interventions strategies, teaming approaches, inclusion and mainstreaming issues; and approaches and techniques for serving the child and the family.

EEX 3070 Teachers and Learners in the Inclusive School 3 Credits
Grading Scheme: Letter Grade
Characteristics of, identification of and teaching practices for exceptional children in mainstream education. Designed for general education majors, both elementary and secondary.

Prerequisite: junior standing or higher.

EEX 3093 Exceptional People in School and Society 3 Credits
Grading Scheme: Letter Grade
Persons with disabilities and people from other diverse groups and the services they need from school and society for success. Consideration of the abilities, causes and educational implications. May not be taken in lieu of EDF 2085. (D and S)

Attributes: General Education - Diversity, General Education - Social Science

EEX 3097 Social Perspectives on Disability 3 Credits
Grading Scheme: Letter Grade
Covers issues relevant to people with disabilities, their families and others with whom they have contact through community, employment or other settings. Specifically, historical views of people with disabilities and current disability-related issues are examined. Provides a framework for understanding disabilities and disability-related issues within cultural contexts.

Prerequisite: EEX 2000 or EEX 3093.

EEX 3226 Assessment in Early Childhood Special Education 3 Credits
Grading Scheme: Letter Grade
Use of informal and formal evaluation techniques to develop individualized educational programs for young children with disabilities and individualized family support plans for infants and toddlers with disabilities and their families. An emphasis is the implementation of a multidisciplinary team approach in the assessment of young children.

EEX 3257 Core Teaching Strategies 3 Credits
Grading Scheme: Letter Grade
