- Complete the remaining 4000-level physics courses required for Physics Majors with minimum grades of C
- Complete one 4000-level or higher Physics Elective with a minimum grade of C
- 2.0 UF GPA required

### Model Semester Plan

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available from the department.

More Info (<http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/>)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and upper-division math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory ( <b>Critical Tracking</b> ; State Core Gen Ed Physical Sciences) <sup>1</sup>	4
MAC 2311	Analytic Geometry and Calculus 1 ( <b>Critical Tracking</b> ; State Core Gen Ed Mathematics) <sup>1</sup>	4
	State Core Gen Ed Composition (p. 67); Writing Requirement	3
	State Core Gen Ed Social and Behavioral Sciences (p. 67)	3
	<b>Credits</b>	<b>14</b>
<b>Semester Two</b>		
Quest 1 (Gen Ed Humanities)		3
CHM 2046	General Chemistry 2 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences) <sup>1</sup>	3
MAC 2312	Analytic Geometry and Calculus 2 ( <b>Critical Tracking</b> ; Gen Ed Mathematics) <sup>1</sup>	4
Select one:		4
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for Physics with Calculus 1 ( <b>Critical Tracking</b> ) <sup>1</sup>	
PHY 2060 & PHY 2048L	Enriched Physics with Calculus 1 and Laboratory for Physics with Calculus 1 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences) <sup>1</sup>	
Elective		1
	<b>Credits</b>	<b>15</b>
<b>Semester Three</b>		
Quest 2 (Gen Ed Biological Sciences OR Gen Ed Social and Behavioral Sciences)		3
MAC 2313	Analytic Geometry and Calculus 3 ( <b>Critical Tracking</b> ; Gen Ed Mathematics) <sup>1</sup>	4
Select one:		4
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for Physics with Calculus 2 ( <b>Critical Tracking</b> ) <sup>1</sup>	
PHY 2061 & PHY 2049L	Enriched Physics with Calculus 2 and Laboratory for Physics with Calculus 2 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences) <sup>1</sup>	
Foreign language course		4-5
	<b>Credits</b>	<b>15-16</b>

**Semester Four**

MAP 2302	Elementary Differential Equations ( <b>Critical Tracking</b> ; Gen Ed Mathematics) <sup>1</sup>	3
PHY 3101	Introduction to Modern Physics (Gen Ed Physical Sciences) <sup>1</sup>	3
State Core Gen Ed Humanities (p. 67)		3
Gen Ed Biological Sciences		3
Foreign language course		3-5
<b>Credits</b>		<b>15-17</b>

PHY 3221	Mechanics 1 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences) <sup>1</sup>	3
PHY 3513	Thermal Physics 1 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences) <sup>1</sup>	3
Gen Ed Biological Sciences OR Gen Ed Social and Behavioral Sciences (area NOT taken in semester 3)		3
Mathematics elective		3
Elective, or foreign language if 4-3-3 option		3
<b>Credits</b>		<b>15</b>

**Semester Six**

PHY 3323	Electromagnetism 1 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences) <sup>1</sup>	3
PHY 4222	Mechanics 2	3
ENC 3254	Professional Writing in the Discipline ((Recommended; Gen Ed Composition; Writing Requirement))	3
Gen Ed Humanities		3
Mathematics elective		3
<b>Credits</b>		<b>15</b>

**Semester Seven**

PHY 4324	Electromagnetism 2 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences) <sup>1</sup>	3
PHY 4604	Introductory Quantum Mechanics 1 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences) <sup>1</sup>	3
PHY 4802L	Laboratory Physics 1 ( <b>Critical Tracking</b> )	3
Elective (3000 level or higher, outside major)		4
Gen Ed Social and Behavioral Sciences		3
<b>Credits</b>		<b>16</b>

**Semester Eight**

PHY 4523	Statistical Physics ( <b>Critical Tracking</b> ) <sup>1</sup>	3
PHY 4803L	Laboratory Physics 2 ( <b>Critical Tracking</b> ) <sup>1</sup>	3
Electives		6
Physics elective ( <b>Critical Tracking</b> ; 4000 level)		3
<b>Credits</b>		<b>15</b>
<b>Total Credits</b>		<b>120</b>

<sup>1</sup> Minimum grade of C required.**Academic Learning Compact**

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

**Before Graduating Students Must**

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

<b>Code</b>	<b>Title</b>	<b>Credits</b>
PHY 2060 or PHY 3221	Enriched Physics with Calculus 1 Mechanics 1	3
PHY 3323	Electromagnetism 1	3
PHY 3513	Thermal Physics 1	3
PHY 4604	Introductory Quantum Mechanics 1	3
PHY 4802L	Laboratory Physics 1	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Identify, define and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics and quantum mechanics.
2. Identify, define and explain experimental physics and data analysis.

#### Critical Thinking

3. Formulate, solve problems and draw conclusions from data.

#### Communication

4. Effectively and clearly communicate ideas in speech and in writing in an accepted style.

### Curriculum Map

*I = Introduced; R = Reinforced; A = Assessed*

Courses	SLO 1	SLO 2	SLO 3	SLO 4
PHY 2048 or PHY 2060	I		I	
PHY 2048L	I	I	I	I
PHY 2049 or PHY 2061	I		I	
PHY 2049L	I	I	I	I
PHY 3101 or PHY 3063	I, R		I, R	R

## Medical Physics

Medical Physics applies the principles and experimental techniques of physics to medical problems. A common example is the use of different forms of radiation in medical diagnosis and treatment. This specialization prepares students for a graduate program in Medical Physics.

### About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Degrees:** Bachelor of Arts (p. 1465) | Bachelor of Science (p. 1471)
- **Specializations:** Medical Physics (BS) (p. 1477) | Nanoscience (BS) (p. 1482) | Optics (BS) (p. 1487)
- **Credits for Degree:** 120
- **Contact:** Email (advising@phys.ufl.edu?Subject=Physics%20Major)
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

### Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

### Curriculum

- Combination Degrees
- Physics
- Physics Minor

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (BS) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (BA) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

## Medical Physics

The Physics BS specialization in Medical Physics requires a minimum of 41 credits in Physics including a specific Physics elective, 3 specific courses outside of Physics (9-11 credits), and 28 other credits of related coursework. Minimum grades of C are required for coursework counted toward the major. The coursework is listed below in three different categories: Physics Required Coursework, Required Electives for the Medical Physics specialization, and Related Coursework required for all Physics BS degrees.

### Required Coursework

Code	Title	Credits
PHY 2048 or PHY 2060	Physics with Calculus 1 Enriched Physics with Calculus 1	3
PHY 2048L	Laboratory for Physics with Calculus 1	1
PHY 2049 or PHY 2061	Physics with Calculus 2 Enriched Physics with Calculus 2	3
PHY 2049L	Laboratory for Physics with Calculus 2	1
PHY 3101 or PHY 3063	Introduction to Modern Physics Enriched Modern Physics	3
PHY 3221 or PHZ 3113	Mechanics 1 Introduction to Theoretical Physics	3
PHY 3323	Electromagnetism 1	3
PHY 3513	Thermal Physics 1	3
PHY 4222	Mechanics 2	3
PHY 4324	Electromagnetism 2	3
PHY 4523	Statistical Physics	3
PHY 4604	Introductory Quantum Mechanics 1	3
PHY 4802L	Laboratory Physics 1	3
PHY 4803L	Laboratory Physics 2	3
PHZ 4710	Introduction to Biological Physics	3
<b>Total Credits</b>		<b>41</b>

### Required Course Outside of Physics | Medical Physics

Code	Title	Credits
APK 2100C	Applied Human Anatomy with Laboratory	4
ENU 4612	Nuclear Radiation Detection and Instrumentation	3
MAP 4413	Fourier Analysis	3
<b>Total Credits</b>		<b>10</b>

### Related Coursework

- Three semesters of Calculus (MAC 2311, MAC 2312, MAC 2313; 12 credits)
- One year of college-level general chemistry, including one chemistry laboratory course (CHM 2045 and CHM 2046, CHM 2045L; 7 credits)
- Differential Equations MAP 2302 (3 credits)
- Six credits minimum in approved math courses beyond MAP 2302 Differential Equations.

- Certain computer science courses may substitute for one of the math electives.
- Minimum grades of C for coursework counted toward the major

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1018).**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

## Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

## Semester 3

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

## Semester 4

- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

## Semester 5

- Complete MAP 2302 with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C (upper-division tracking)
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 6

- Complete the remaining required 3000-level physics courses with minimum grades of C
- Complete 1 of 4 courses required for the Medical Physics specialization
- 2.0 UF GPA required

## Semester 7

- Complete PHY 4802L or PHY 4803L
- Complete 2 required 4000-level physics courses with minimum grades of C in addition to PHY 4802L
- Complete 2 of 4 courses required for the Medical Physics specialization
- 2.0 UF GPA required

## Semester 8

- Complete the remaining required 4000-level physics courses with minimum grades of C
- Complete 1 4000-level or higher physics elective with a minimum grade of C
- Complete all 4 courses required for the Medical Physics specialization
- 2.0 UF GPA required

## Model Semester Plan

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed

Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department's website.

## Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

## Semester 3

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

## Semester 4

- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

## Semester 5

- Complete MAP 2302 with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C (upper-division tracking)
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 6

- Complete the remaining required 3000-level physics courses with minimum grades of C
- Complete 1 of 4 courses required for the Nanoscience specialization
- 2.0 UF GPA required

## Semester 7

- Complete PHY 4802L or PHY 4803L
- Complete 2 required 4000-level physics courses with minimum grades of C in addition to PHY 4802L
- Complete 2 of 4 courses required for the Nanoscience specialization
- 2.0 UF GPA required

## Semester 8

- Complete the remaining required 4000-level physics courses with minimum grades of C
- Complete 1 4000-level or higher physics elective with a minimum grade of C
- Complete all 4 courses required for the Nanoscience specialization
- 2.0 UF GPA required

### Model Semester Plan

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department's website.

More Info (<http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/>)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory ( <b>Critical Tracking</b> ; State Core Gen Ed Physical Sciences) <sup>1</sup>	4
MAC 2311	Analytic Geometry and Calculus 1 ( <b>Critical Tracking</b> ; State Core Gen Ed Mathematics) <sup>1</sup>	4
State Core Gen Ed Composition (p. 67); Writing Requirement		3

PHY 4222	Mechanics 2 ( <b>Critical Tracking</b> ) <sup>1</sup>	3
Gen Ed Biological OR Gen Ed Social and Behavioral Sciences (area NOT taken in semester 3)		3
Elective, or foreign language if 4-3-3 option		3
<b>Credits</b>		<b>15</b>
<b>Semester Six</b>		
EEE 3396	Solid-State Electronic Devices ( <b>Critical Tracking</b> )	3
ENC 3254	Professional Writing in the Discipline (Recommended; Gen Ed Composition; Writing Requirement)	3
PHY 4324	Electromagnetism 2 ( <b>Critical Tracking</b> ; Gen Ed Physical Science) <sup>1</sup>	3
State Core Gen Ed Humanities (p. 67)		3
Mathematics elective		3
<b>Credits</b>		<b>15</b>
<b>Semester Seven</b>		
EEE 4331 or EMA 4614	Microelectronic Fabrication Technologies ( <b>Critical Tracking</b> ) or Production of Electronic Materials	3

PHY 4604	Introductory Quantum Mechanics 1 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences) <sup>1</sup>	3
PHY 4802L	Laboratory Physics 1 ( <b>Critical Tracking</b> ) <sup>1</sup>	3
Gen Ed Social and Behavioral Sciences		3
Mathematic elective		3
<b>Credits</b>		<b>15</b>
<b>Semester Eight</b>		
PHY 4523	Statistical Physics ( <b>Critical Tracking</b> ) <sup>1</sup>	3
PHY 4803L	Laboratory Physics 2 ( <b>Critical Tracking</b> ) <sup>1</sup>	3
PHZ 4404	Introduction to Solid State Physics ( <b>Critical Tracking</b> )	3
Select one:		3-4
EEE 4222	Resonant MEMS ( <b>Critical Tracking</b> )	
EEL 4930	Special Topics in Electrical Engineering ( <b>Critical Tracking</b> )	
EGN 3353C	Fluid Mechanics ( <b>Critical Tracking</b> )	
EMA 4615	Compound Semiconductor Materials ( <b>Critical Tracking</b> )	
Gen Ed Humanities		3
<b>Credits</b>		<b>15-16</b>
<b>Total Credits</b>		<b>120</b>

<sup>1</sup> Minimum grade of C required.

## Academic Learning Compact

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

## Before Graduating Students Must

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

Code	Title	Credits
PHY 2060 or PHY 3221	Enriched Physics with Calculus 1 Mechanics 1	3
PHY 3323	Electromagnetism 1	3
PHY 3513	Thermal Physics 1	3
PHY 4604	Introductory Quantum Mechanics 1	3
PHY 4802L	Laboratory Physics 1	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

- Identify, define and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics and quantum mechanics.
- Identify, define and explain experimental physics and data analysis.

#### Critical Thinking

- Formulate, solve problems and draw conclusions from data.

#### Communication

- Effectively and clearly communicate ideas in speech and in writing in an accepted style.

## Curriculum Map

*I = Introduced; R = Reinforced; A = Assessed*

Courses	SLO 1	SLO 2	SLO 3	SLO 4
PHY 2048 or PHY 2060	I		I	
PHY 2048L	I	I	I	I

PHY 2049 or PHY 2061	I		I

PHY 3221 or PHZ 3113	R, A		R, A	R
PHY 3323	R, A		R, A	R
PHY 3513	R, A		R, A	R
PHY 4604	R, A		R, A	R
PHY 4802L	R, A	R, A	R, A	R, A

## Assessment Types

- Field test
- Report
- Presentation

## Optics

There are applications of optics and photonics in consumer equipment, telecommunications, medicine, construction, aviation, and many more fields. This broad field involves both physics and engineering. The Optics specialization prepares students for graduate programs in optics as well as employment in industry.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Degrees:** Bachelor of Arts (p. 1465) | Bachelor of Science (p. 1471)
- **Specializations:** Medical Physics (BS) (p. 1477) | Nanoscience (BS) (p. 1482) | Optics (BS) (p. 1487)
- **Credits for Degree:** 120
- **Contact:** Email ([advising@phys.ufl.edu?Subject=Physics%20Major](mailto:advising@phys.ufl.edu?Subject=Physics%20Major))
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

## Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

2001 Museum Road  
Gainesville FL 32611-8545

### Curriculum

- Combination Degrees
- Physics
- Physics Minor

A Physics major provides a wide range of career options. Many students pursue further studies in Physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (BS) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (BA) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

## Optics

The Physics BS specialization in Optics requires a minimum of 41 credits in Physics including a specific Physics elective, 3 specific courses outside of Physics (9-11 credits), and 28 other credits of related coursework. Minimum grades of C are required for coursework counted toward the major. The coursework is listed below in three different categories: Physics Required Coursework, Required Electives for the Optics specialization, and Related Coursework required for all Physics BS degrees.

### Required Coursework

Code	Title	Credits
PHY 2048 or PHY 2060	Physics with Calculus 1 Enriched Physics with Calculus 1	3
PHY 2048L	Laboratory for Physics with Calculus 1	1
PHY 2049 or PHY 2061	Physics with Calculus 2 Enriched Physics with Calculus 2	3
PHY 2049L	Laboratory for Physics with Calculus 2	1
PHY 3101 or PHY 3063	Introduction to Modern Physics Enriched Modern Physics	3
PHY 3221 or PHZ 3113	Mechanics 1 Introduction to Theoretical Physics	3
PHY 3323	Electromagnetism 1	3
PHY 3513	Thermal Physics 1	3
PHY 4222	Mechanics 2	3
PHY 4324	Electromagnetism 2	3
PHY 4523	Statistical Physics	3
PHY 4604	Introductory Quantum Mechanics 1	3
PHY 4802L	Laboratory Physics 1	3
PHY 4803L	Laboratory Physics 2	3
PHY 4424	Optics 1	3
<b>Total Credits</b>		<b>41</b>

### Required Course Outside of Physics | Optics

Code	Title	Credits
AST 3722C	Techniques of Observational Astronomy 1	3
EEL 4446	Laser Theory and Design	3
EEL 4458	Fundamentals of Photonics	3
<b>Total Credits</b>		<b>9</b>

### Related Coursework

- Three semesters of Calculus (MAC 2311, MAC 2312, MAC 2313; 12 credits)
- One year of college-level general chemistry, including one chemistry laboratory course (CHM 2045 and CHM 2046, CHM 2045L; 7 credits)
- Differential Equations MAP 2302 (3 credits)
- Six credits minimum in approved math courses beyond MAP 2302 Differential Equations
- Certain computer science courses may substitute for one of the math electives
- Minimum grades of C for coursework counted toward the major

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1018).**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

## Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

## Semester 3

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

## Semester 4

- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

## Semester 5

- Complete MAP 2302 with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C (upper-division tracking)
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 6

- Complete the remaining required 3000-level physics courses with minimum grades of C
- Complete 1 of 4 courses required for the Optics specialization
- 2.0 UF GPA required

## Semester 7

- Complete PHY 4802L or PHY 4803L
- Complete 2 required 4000-level physics courses with minimum grades of C in addition to PHY 4802L
- Complete 2 of 4 courses required for the Optics specialization
- 2.0 UF GPA required

## Semester 8

- Complete the remaining required 4000-level physics courses with minimum grades of C
- Complete 1 4000-level or higher physics elective with a minimum grade of C
- Complete all 4 courses required for the Optics specialization
- 2.0 UF GPA required

### Model Semester Plan

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department's website.

More Info (<http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/>)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

## Physics Minor

The Physics minor consists of the complete sequence in general physics, modern physics, and two 3000/4000-level courses in the Physics major course sequence. Students should consult a physics advisor and obtain the required approval no later than the beginning of the junior year.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 17 | Completed with minimum grades of C

## Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

P.O. Box 118440  
2001 Museum Road  
Gainesville FL 32611-8545

### Curriculum

- Combination Degrees
- Physics
- Physics Minor

All 3000/4000-level courses must be taken from the UF Department of Physics. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Students pursuing an astronomy major must complete six credits of physics coursework beyond what is required for the astronomy major before they will be approved for the physics minor.

The following cannot count toward this minor:

Code	Title	Credits
PHY 3840L	Building Scientific Equipment	2
PHY 4905	Individual Work	1-4
PHY 4911	Undergraduate Research in Physics	3

## Required Courses

### Select one Option

#### Option A

or PHY 3101	Introduction to Modern Physics	
Two 3000/4000-level courses in the physics major course sequence		6
Total Credits		17

# Political Campaigning Certificate

Political science and non-major students may pursue undergraduate training in campaigns and elections, earning a Political Campaigning certificate. The certificate is designed for students who may pursue careers in practical politics, including campaign management, lobbying, and issue advocacy.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 18 | Completed with minimum grades of C
- **Contact:** Email (angelamccarthy@ufl.edu)
- Student Learning Outcomes (SLOs) (<https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes>)

*Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*

## Department Information

The Department of Political Science provides a high-quality educational program for undergraduate students as well as a rigorous honors program. The department also offers a highly selective graduate education ranging from innovative MA programs to a comprehensive PhD program.  
**Website** (<https://polisci.ufl.edu/>)

### CONTACT

352.392.0262 (tel) | 352.392.8127 (fax)  
  
P.O. Box 117325  
234 ANDERSON HALL  
GAINESVILLE FL 32611-7325  
Map (<http://campusmap.ufl.edu/#/index/0007>)

### Curriculum

- Combination Degrees
- International Relations Certificate
- Political Campaigning Certificate
- Political Science
- Public Affairs Certificate

The certificate program is open to all undergraduates.

## Required Courses

Code	Title	Credits
POS 4940	Political Internship	3
Select two:		6
POS 3204	Political Behavior	
POS 4275	Modern Political Campaigns	
POS 4443	Political Parties and Elections	
POS 4463	Interest Group Politics	

Approved electives

9

**Total Credits****18**

## Approved Electives

Choose from the preceding or following list, including one or both of the remaining basic courses (POS 3204/POS 4275/POS 4443/POS 4463).

Code	Title	Credits
POS 3122	State Politics	3
POS 3173	Southern Politics	3
POS 3233	Politics and Public Opinion	3
POS 4291	Religion and Politics in the United States	3
POS 4931	Special Topics (Beyond the Beltway: Politics in States, Counties and Communities)	3
POS 4931	Special Topics (Election Law )	3
POS 4931	Special Topics (Ethics in American Politics)	3
POS 4931	Special Topics (Media and Politics)	3
POS 4931	Special Topics (Money and Politics in America)	3
POS 4931	Special Topics (Race/Poverty/Voting Rights )	3
POS 4931	Special Topics (Survey Research)	3
PUP 3323	Women in Politics	3

Students may petition the director of the political campaigning program for permission to substitute one other course for one of the courses in the electives list.

## Political Science

The Political Science major prepares students for a wide range of careers in government, non-governmental organizations, politics, law, and the private sector. Students take coursework in areas as diverse as American and comparative politics, political theory, international relations, public policy, and public administration.

### CONTACT

352.392.0262 (tel) | 352.392.8127 (fax)

P.O. Box 117325

234 ANDERSON HALL

GAINESVILLE FL 32611-7325

Map (<http://campusmap.ufl.edu/#/index/0007>)

### Curriculum

- Combination Degrees
- International Relations Certificate
- Political Campaigning Certificate
- Political Science
- Public Affairs Certificate

Political Science majors are encouraged to serve in a political internship and participate in an overseas studies program. There are also numerous opportunities for students to conduct independent research with faculty. Recent graduates serve throughout federal, state and local government, attend law and graduate school, and work in the non-profit and private sectors.

Students leave the major with an understanding of how politics and government operate, an appreciation for the values governments pursue, and the critical and analytic skills necessary for understanding the empirical and normative dimensions of the political world.

## Coursework for the Major

Majors must complete 30 credits of political science coursework, plus STA 2023, all with minimum grades of C. A minimum of 15 credits of political science courses (of the 30 required) must be completed at UF, per the department's residency requirement.

### Required Coursework

- 30 credits of political science coursework, including 3 of these 4 core courses:

Code	Title	Credits
CPO 2001	Comparative Politics (Gen Ed Social and Behavioral Sciences and International)	3
INR 2001	Introduction to International Relations (Gen Ed Social and Behavioral Sciences and International)	3
POS 2041	American Federal Government (Gen Ed Social and Behavioral Sciences)	3
POT 2002	Introduction to Political Theory (Gen Ed Humanities)	3

- The remaining political science courses may include:
  - No more than three additional credits of 1000/2000-level courses
  - Additional courses at the 3000 level or higher, including
    - No more than three credits of POS 4905
    - No more than three credits of POS 4940 (graded S/U)

### Required Coursework

- STA 2023

### Recommended Coursework

The following centers and programs are affiliated with the Department of Political Science. Many of them offer minors or certificates that complement a degree in Political Science.

### The Bob Graham Center for Public Service

A community of students, scholars, and politically engaged citizens devoted to enhanced citizenship; the training of current and future public and civic leaders who can identify problems and spearhead change; and the development of policy on issues of importance to Florida, the United States, and the global community. The center offers a minor in Public Leadership, an interdisciplinary program of study that provides students with the skills and knowledge critical to serving as effective and ethical public leaders.

More Info (p. 1534)

### More Info

The Bob Graham Center was established in 2006 with the goal of creating a community of students, scholars, and citizens who share a commitment to revitalizing the civic culture of Florida and the nation. Former Governor and U. S. Senator Bob Graham founded the Center as a place where students acquire the skills and knowledge to become informed citizens, with the expressed purpose of strengthening the nation's democratic institutions.

### The Center for African Studies

Promotes excellence in teaching and research on Africa in all disciplines at the University of Florida. In addition to undergraduate education, the center promotes and supports graduate studies as essential for the development of a continuing community of Africanist scholars. The center has over 100 affiliated teaching and research faculty in a variety of fields, including languages, the humanities, the social sciences, agriculture, business, engineering, education, fine arts, environmental studies and conservation, journalism, and law. The center offers an African Studies minor that provides

a multidisciplinary grounding in an important world area for those who want to pursue careers in a range of professions as well as for those who intend to go on to graduate school.

More Info (p. 1039)

## More Info

As a National Resource Center for African Studies, the mission of the center is to promote excellence in teaching and research on Africa in all the disciplines at the University of Florida. The Center for African Studies also disseminates knowledge about Africa to the wider community through an integrated outreach program to schools, colleges, community groups, and businesses.

## The Center for European Studies

Designed to assist in the development of area and language skills among students through fostering rich academic and cultural environments, including broad language and areas studies courses, degree options, and study abroad opportunities. It also fosters greater international awareness in the broader community through educational programs for state and local government, business organizations, K-12 students and teachers, the media and the general public. The center offers a

- European Union Studies certificate (p. 1232) and minor (p. 1233), which are designed to give students the opportunity to gain European Union expertise through multidisciplinary coursework.
- East-Central European Studies certificate (p. 1212) and minor (p. 1213), which give students the opportunity to study Eastern and Central Europe from an interdisciplinary perspective that incorporates both area and language studies.

## More Info

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

## The Center for Jewish Studies

Provides an undergraduate, interdepartmental curriculum that serves as a basis for understanding the broad spectrum of Jewish culture, religion, and civilization. The center offers both a major and minor (p. 1415) through the College of Liberal Arts and Sciences. These may serve as preparation for graduate work in Jewish studies and the rabbinate, as background for a career in Jewish education or community service, or as an area of special interest which enriches the undergraduate experience.

## More Info

The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center's curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

## **The Center for Gender, Sexualities, and Women's Research**

An interdisciplinary forum for the study of gender and sexualities, their intersections with race/ethnicity, class, and other sociocultural systems. The Center's core faculty members have expertise in gender, race/ethnicity, and sexualities/LGBTQ+ studies; feminist intersectional analysis; transnational and postcolonial feminist analysis; Chicana/o, Latina/o, Afro-Latino Studies, Haitian and Caribbean studies; and cultural and literary studies. They apply this expertise in the study of critical domains such as collective identity and activism, health and medicine, law and politics, immigration, work, leadership and business, history, literatures and cultures, media and art, and social movements. In addition, the Center has over 100 affiliate faculty members with wide-ranging expertise and course offerings. Besides the major (p. 1602) in Women's Studies, students may pursue one of three minors: Women's Studies (p. 1609), Theories and Politics of Sexuality (p. 1600), and Health Disparities in Society (p. 1344).

### **More Info**

The Department of Gender, Sexuality, and Women's Studies offers academic programs, grants graduate and undergraduate degrees, and advances research in the discipline. Faculty in the department successfully compete for national fellowships and grants, win research and teaching awards, and produce rigorous and transformative research.

## Combination Degree Program

The combination bachelor's/master's degree program is designed for superior students who have the ability to pursue an accelerated program in political science leading to the Master of Arts in Political Science. This program is not generally recommended for students considering a PhD program in Political Science at UF. Admission to the combination-degree program is highly competitive and therefore very limited numbers of students are approved for this program.

Students in the combination program may pursue the general MA in Political Science or certificates in Public Affairs or Political Campaigning. Up to 12 semester credits of approved graduate-level political science courses can be used as dual credit for both degrees. All other requirements for the bachelor's and the master's degrees must be satisfied. For more application process information, contact the undergraduate and graduate coordinators in the Department of Political Science.

- Combination Degrees

## Overseas Studies

Majors are encouraged to seek out opportunities for international study, during the summer or for the academic year. The credit generally will be applied toward the major and the degree. Contact the undergraduate coordinator about credit for study abroad. Visit the UF International Center in room 170 of the Hub for more information.

## Relevant Minors and Certificates

### International Relations Certificate

Political Science and non-major students who are interested in international relations can pursue undergraduate training in two ways: through an interdisciplinary major in International Studies that includes courses on comparative politics and international relations or through a certificate in international relations. Credits earned toward the certificate also count toward the political science major. More information can be found under interdisciplinary studies majors listing and certificate programs.

- International Relations Certificate

### Political Campaigning Certificate

The Department of Political Science offers a certificate in Political Campaigning to its undergraduate majors. The certificate is designed for students who may wish to consider pursuing careers in practical politics, including campaign management, lobbying, issue advocacy, and others. Credits earned toward the certificate also count toward the political science major. Additional information is available on the department website.

- Political Campaigning Certificate

### Public Affairs Certificate

The certificate in Public Affairs is designed for those students interested in a career in or near government. Students take courses in public administration, policy process, policy analysis and one or more substantive policy courses in foreign policy, education, health, immigration, civil rights, welfare, or environmental protection. Credits earned toward the certificate also count toward the political science major. The certificate is open to non-Political Science majors as well. Additional information is available on the department website.

- Public Affairs Certificate

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete 1 of 4 political science critical-tracking courses: CPO 2001, INR 2001, POS 2041, or POT 2002
- 2.0 UF GPA required

## Semester 2

- Complete 1 additional political science critical-tracking course or STA 2023 with a 2.25 critical-tracking GPA
- 2.0 UF GPA required

## Semester 3

- Complete 1 additional political science critical-tracking course or STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 4

- Complete 3 of 4 political science critical-tracking courses and STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 5

- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 6

- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 7

- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 8

- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Because a large number of political science courses are approved for general education social and behavioral sciences, the plan below assumes students will take at least 9 credits of GE-S courses. Students should monitor their progress toward general education in their degree audit to ensure they meet the GE-S requirement.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

<sup>1</sup> If POS 2041 not taken previously.

<sup>2</sup> One General Education option taken this term must be a Quest 2 course.

<sup>3</sup> Students are encouraged to use some electives to pursue a minor.

Academic Learning Compact

The major in political science provides an understanding of how government and politics operate in the U.S. and elsewhere. Students will develop the critical analytic and research skills to study government and politics and be able to articulate information and ideas about government and politics.

Before Graduating Students Must

- Complete 30 credits of political science coursework with minimum grades of C, including a minimum of 18 credits at the 3000/4000 levels.
- Complete an introductory statistics course.
- Complete two 3000/4000-level political science courses with a writing component, graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to  
Student Learning Outcomes (SLOs)

Content

1. Identify, describe and define basic factual information and analytical concepts concerning political systems.

Critical Thinking

2. Analyze political issues and phenomena using political science concepts, theories and methods through internships and research projects.

Communication

3. Use argument and evidence effectively to communicate original analysis of political phenomena.

## Hispanic and Latin American Languages, Literatures and Linguistics

Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

### About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Degree:** Bachelor of Arts
- **Specializations:** Spanish (p. 1566) | Portuguese (p. 1502) | Spanish and Portuguese (p. 1357)
- **Credits for Degree:** 120
- **Contact**

*To graduate with this major, students must complete all university, college, and major requirements.*

### Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

**Website** (<http://spanishandportuguese.ufl.edu/undergraduate-programs/>)

### CONTACT

### Curriculum

- Combination Degrees
- Hispanic and Latin American Languages, Literatures and Linguistics
- Portuguese
- Portuguese Minor
- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate

### Related Programs

- Latin American Studies Certificate
- Latin American Studies Minor

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

## B.A. in Portuguese

The major requires 33 credits, beginning with foundational work in Portuguese and then moving on to more advanced coursework in language, culture and literature.

Students must earn minimum grades of C for coursework to count toward the major.

*POR 3010 is an accelerated course for speakers of Spanish (or French). It fulfills the CLAS foreign language requirement but it does **not** count as a 3000-level course for the major requirements. POR 3010 will satisfy the same requirement as the POR 1130/POR 1131 sequence.*

## Required Coursework

- POR 3242
- 30 additional hours of POR or POW courses at the 3000 and 4000 levels.
  - A minimum of 12 credits must be at the 4000 level.
- Only one class in English (PRT) can count towards the major, substituting for POR/POW.
- Classes must be passed with a grade of C or better in order to be counted for the major.
- Two Individual Work courses (POW 4905) may be accepted as part of the major's requirements.
- Select courses outside the department may also count toward the major under special conditions.

## Overseas Study

The university sponsors a reasonably priced summer B program in Rio de Janeiro, Brazil. Majors and minors are encouraged to participate at the 3000/4000 level, where they will earn six credits. The program also fulfills the summer residency requirement.

## Placement

See the undergraduate coordinator for placement information, especially for transfer students and heritage speakers.

## Relevant Minors and/or Certificates

Majors may want to pursue a certificate in Latin American Studies.

## Research

Students who wish to complete a senior thesis for honors should consult Portuguese faculty at least two semesters in advance of graduation.

---

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

POR or POW or PRT 4000-level courses ( <b>Critical Tracking</b> )		9
Electives (3000 level or above, not in major)		6
	<b>Credits</b>	<b>15</b>
	<b>Total Credits</b>	<b>120</b>

<sup>1</sup> POR 3010 satisfies the CLAS language requirement, and satisfies the same requirement as the POR 1130/POR 1131 sequence.

<sup>2</sup> One General Education option taken this term must be a Quest 2 course.

## Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

## Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

**Content**

1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

**Critical Thinking**

2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

### Communication

3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

## Portuguese Minor

The Portuguese minor offers excellent career preparation for a wide variety of fields, including tourism, business, journalism, telecommunications, law, health fields, and education.

### About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 15 | Completed with minimum grades of C and no optional S/U

### Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

**Website** (<http://spanishandportuguese.ufl.edu/undergraduate-programs/>)

- Spanish and Portuguese
- Spanish for the Professions Certificate

## Related Programs

- Latin American Studies Certificate
- Latin American Studies Minor

To earn a minor in Portuguese, students must complete 15 credits of coursework at the 3000/4000 level with a POR/POW/PRT prefix. Two of the courses must be taken at the 4000 level.

Students cannot apply POR 3010 toward the minor.

A minimum of nine credits must be completed at UF. Students can apply up to three credits of POW 4905 toward the minor and they must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

## Required Courses

### Curriculum

- Psychology
- Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if

desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

## Coursework for the Major

A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

### Required Coursework

Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

### Recommended Coursework

In addition to regularly scheduled courses, the department offers six individual work courses:

Code	Title	Credits
<b>Research</b>		
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	3
PSY 4905	Individual Work	1-3
PSY 4970	Senior Thesis	1-3
<b>Teaching</b>		
PSY 4940	Introduction to Teaching in Psychology	3
<b>Community Work</b>		
PSY 4949	Internship in Psychology	1-3

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major:

Code	Title	Credits
CLP 3911	Introduction to Clinical Research	1-3
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	0-3
PSY 4905	Individual Work	1-3
PSY 4940	Introduction to Teaching in Psychology	3
PSY 4949	Internship in Psychology	0-3
PSY 4970	Senior Thesis	1-3

## Research

Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

### Academic Learning Compact

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students' understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

## Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to Student Learning Outcomes (SLOs)

### Content

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

### Critical Thinking

3. Review, interpret and analyze the literature in psychological science.

### Communication

4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

## Curriculum Map

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

### Curriculum

- Psychology
- Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

## Required Coursework

Students in the behavior analysis specialization are required to complete 36 credits of psychology coursework with minimum grades of C. At least 30 of the 36 credits must be at the 3000-level or above.

- 3 credits, introductory level: PSY 2012 (or equivalent, such as a general psychology course taken elsewhere or credit by exam for PSY 2012 via AP, IB, AICE).
- 12 credits, behavior analysis courses:
  - EAB 3002
  - EAB 3764
  - EAB 4184
  - EAB 4930
- 3 credits, laboratory course: PSY 3213L
- 4 credits, laboratory course: EAB 4714C
- 14 credits additional psychology courses: Students must choose additional 3000/4000-level psychology courses to meet the 36-credit minimum requirement (with the exception that three credits of 2000-level courses can count toward this requirement). In addition, up to nine credits of individual work courses will count toward the 36-credit minimum requirement. Students can also take designated courses in the Women's Studies as part of the 14 elective credits (WST 3323, WST 3371, WST 4704).

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

## Related Coursework

### Statistics

STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it also counts toward the CLAS requirement of 3000-level electives not in the major.

### Mathematics

Proficiency through precalculus is required. MAC 1147 (or higher course) will meet this requirement. The combination of MAC 1114 and MAC 1140 may be substituted for MAC 1147.

### Biological Science

BSC 2005 or BSC 2010 is required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome. Advising office hours (<http://www.psych.ufl.edu/%7EUndergrad/>)

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

The following critical-tracking courses are required:

- BSC 2005 or BSC 2010
- MAC 1147 or MAC 1140 and MAC 1114
- PSY 2012
- PSY 3213L
- STA 2023

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

## Semester 1

- Complete MAC 1140 or MAC 1147
- 2.4 UF GPA required

## Semester 2

- Complete PSY 2012; if MAC 1140 is taken in semester 1, MAC 1114 must be taken semester 2
- 2.6 UF GPA required

## Semester 3

- Complete 2 critical-tracking courses from BSC 2005 or BSC 2010, STA 2023 or PSY 3213L with a 2.6 critical-tracking GPA  
**Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.**
- 2.7 UF GPA required

## Semester 4

- Complete BSC 2005 or BSC 2010 and STA 2023 (if not previously taken) with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

## Semester 5

- Complete PSY 3213L (if not previously taken) with 2.75 critical-tracking GPA. Additional Psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

## Semester 6

- Complete two of the remaining EABxxx/4xxx required courses
- Complete STA 3024

## Semester 7

- Complete two of the remaining EABxxx/4xxx required courses

## Semester 8

- Complete all remaining EAB 4xxx required courses

## Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

## Curriculum

- Psychology
- Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

## Coursework for the Major

A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

## Required Coursework

Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

## Recommended Coursework

In addition to regularly scheduled courses, the department offers six individual work courses:

Code	Title	Credits
<b>Research</b>		
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	3
PSY 4905	Individual Work	1-3
PSY 4970	Senior Thesis	1-3

**Teaching**

PSY 4940	Introduction to Teaching in Psychology	3
----------	--	---

**Community Work**

PSY 4949	Internship in Psychology	1-3
----------	--------------------------	-----

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major:

Code	Title	Credits
CLP 3911	Introduction to Clinical Research	1-3
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	0-3
PSY 4905	Individual Work	1-3
PSY 4940	Introduction to Teaching in Psychology	3
PSY 4949	Internship in Psychology	0-3
PSY 4970	Senior Thesis	1-3

## Research

Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

## Behavioral and Cognitive Neuroscience

### Required Coursework

Students in the behavioral and cognitive neuroscience specialization are required to complete 36 credits of coursework with minimum grades of C. At least 22 credits must be taken in psychology.

Code	Title	Credits
<b>Introductory level</b>		
PSY 2012	General Psychology (or its equivalent, such as a general psychology course taken elsewhere or credit by exam for this course via AP, IB, AICE, etc.)	3
<b>Foundation core</b>		
Each is an introduction to the substantive areas of behavioral and cognitive neuroscience. Select one course from each area:		6
<i>Biological Bases</i>		
PSB 3340	Behavioral Neuroscience	
<i>Learning and Cognition</i>		
EXP 3604	Cognitive Psychology	
<b>Laboratory courses</b>		
PSY 3213L	Laboratory Methods in Psychology	3
Select one specialized psychology laboratory course:		4
EAB 4714C	Laboratory in Applied Behavior Analysis	
EXP 4174C	Laboratory in Sensory Processes	
PSB 4343C	Laboratory in Cognitive Neuroscience	
PSY 4905	Individual Work	
<b>Psychology courses</b>		
4000-level psychology courses with a PSB or EXP prefix or approval of the undergraduate coordinator. These courses must be taken in addition to the required laboratory course and individual work courses.		6
<b>Additional courses</b>		
Psychology courses or approved neuroscience-relevant courses outside psychology to meet the 36- credit minimum requirement <sup>1</sup>		14
<b>Total Credits</b>		<b>36</b>

- <sup>1</sup>
- 3 credits may be at the 2000 level or higher
  - The remaining 11 or more credits must be at the 3000/4000 level
  - Any neuroscience-relevant courses outside psychology must be approved by a psychology advisor before enrollment  
*Students may not take both PSB 3002 and PSB 3340 under any circumstances.*

Students who wish to transfer courses in psychology toward the major *must* see an advisor in the department for approval.

## Related Coursework

### Statistics

STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it counts as a 3000+ level elective not in the major.

### Mathematics

Proficiency is required. MAC 2311 meets this requirement.

### Biological Science

BSC 2010 and BSC 2011 are required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome.

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

These critical-tracking courses are required: BSC 2010, MAC 2311, PSY 2012, PSY 3213L, PSB 3340, and STA 2023.

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

## Semester 1

- Complete MAC 1147 or MAC 2311
- 2.4 UF GPA required

## Semester 2

- Complete MAC 2311
- Complete PSY 2012
- 2.6 UF GPA required

## Semester 3

- Complete 2 of the following critical-tracking courses with a 2.6 critical-tracking GPA: BSC 2010, PSB 3340, or PSY 3213L  
**Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.**
- 2.7 UF GPA required

## Semester 4

- Complete 1 tracking course from BSC 2010, PSB 3340, PSY 3213L or STA 2023 with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

## Semester 5

- Complete the final tracking course (BSC 2010, PSB 3340, PSY 3213L or STA 2023) with a 2.75 critical-tracking GPA. Additional psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

## Semester 6

- Complete 2 of the remaining PSY 3XXX/4XXX required courses
- Complete STA 3024

## Semester 7

- Complete 2 of the remaining PSY 3XXX/4XXX required courses
- Complete neuroscience lab: PSB 4343C, EAB 4714C, EXP 4174C

## Semester 8

- Complete all remaining PSY 3XXX/4XXX required courses and/or neuroscience relevant courses.

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). STA 3024 and approved 3000 level or above neuroscience-relevant courses outside the psychology department may count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities)		3
MAC 2311	Analytic Geometry and Calculus 1 ( <b>Critical Tracking</b> ; State Core Gen Ed Mathematics) <sup>1</sup>	4
Gen Ed Physical Sciences		3
Foreign language		4-5
	<b>Credits</b>	<b>14-15</b>

<b>Semester Four</b>		
Quest 2 (Gen Ed Biological Science, Physical Science, or Social and Behavioral Science)		3
BSC 2011	Integrated Principles of Biology 2 (Gen Ed Biological Sciences)	3
EXP 3604	Cognitive Psychology (Gen Ed Social and Behavioral Sciences)	3
STA 2023	Introduction to Statistics 1 ( <b>Critical Tracking</b> ; Gen Ed Mathematics)	3
Gen Ed Physical Sciences or Elective (if Quest 2 course is a Physical Science)		3
	<b>Credits</b>	<b>15</b>
<b>Semester Five</b>		
STA 3024	Introduction to Statistics 2 ( <b>Critical Tracking</b> ; Gen Ed Mathematics) <sup>3</sup>	3
Psychology course (3000-level or above)		3
Approved neuroscience-relevant course outside psychology		3
Electives		6
	<b>Credits</b>	<b>15</b>
<b>Semester Six</b>		
Select one:		3
Approved neuroscience-relevant course outside psychology		
Psychology course ( <b>Critical Tracking</b> ; Gen Ed Social and Behavioral Sciences; 3000 level or above)		
Psychology course ( <b>Critical Tracking</b> ; PSB or EXP prefix; 4000 level)		3
Gen Ed Composition; Writing Requirement		3
Electives (3000 level or above, not in major)		6
	<b>Credits</b>	<b>15</b>

**Semester Seven**

Select one specialized psychology laboratory elective:	4
EAB 4714C	Laboratory in Applied Behavior Analysis ( <b>Critical Tracking</b> )
EXP 4174C	Laboratory in Sensory Processes ( <b>Critical Tracking</b> )
PSB 4343C	Laboratory in Cognitive Neuroscience ( <b>Critical Tracking</b> )
PSY 4905	Individual Work ( <b>Critical Tracking</b> )
Psychology course ( <b>Critical Tracking</b> ; PSB or EXP prefix; 4000 level)	3
Electives (3000 level or above, not in major)	6
Elective	3
<b>Credits</b>	<b>16</b>

**Semester Eight**

Select 8 credits:	8
Approved neuroscience-relevant course outside psychology	
Psychology courses ( <b>Critical Tracking</b> ; 3000 level or above)	
Elective (3000 level or above, not in major)	3
Elective	4
<b>Credits</b>	<b>15</b>
<b>Total Credits</b>	<b>120</b>

- <sup>1</sup> Take MAC 1147, if needed.
- <sup>2</sup> Must be Quest 2 if not taken Semester 2 or 3.
- <sup>3</sup> Counts as a 3000-level or above elective, not in the major.

**Academic Learning Compact**

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students' understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

**Before Graduating Students Must**

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to****Student Learning Outcomes (SLOs)****Content**

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

**Critical Thinking**

3. Review, interpret and analyze the literature in psychological science.

**Communication**

4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

**Curriculum Map**

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

## Assessment Types

- Exams
- Papers

## General Psychology

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Degree:** Bachelor of Science
- **Specializations:** General Psychology (p. 1522) | Behavior Analysis (p. 1510) | Behavioral and Cognitive Neuroscience (p. 1516)
- **Credits for Degree:** 120

### Curriculum

- Psychology
- Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

## Coursework for the Major

A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

### Required Coursework

Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

### Recommended Coursework

In addition to regularly scheduled courses, the department offers six individual work courses:

Code	Title	Credits
<b>Research</b>		
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	3
PSY 4905	Individual Work	1-3
PSY 4970	Senior Thesis	1-3
<b>Teaching</b>		
PSY 4940	Introduction to Teaching in Psychology	3
<b>Community Work</b>		
PSY 4949	Internship in Psychology	1-3

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major.

Code	Title	Credits
CLP 3911	Introduction to Clinical Research	1-3
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	0-3
PSY 4905	Individual Work	1-3
PSY 4940	Introduction to Teaching in Psychology	3
PSY 4949	Internship in Psychology	0-3
PSY 4970	Senior Thesis	1-3

## Research

Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

## General Psychology

### Required Coursework

Students in the general psychology specialization are required to complete 36 credits of psychology coursework with minimum grades of C. At least 30 of the 36 credits must be at the 3000-level or above.

Code	Title	Credits
<b>Introductory level</b>		
PSY 2012	General Psychology (or equivalent, such as a general psychology course taken elsewhere or credit by exam for this course via AP, IB, AICE.)	3
<b>Foundation level core</b>		
Each of the four foundation areas is an introduction to a substantive area of psychology. Select at least one course from each:		12
<i>Biological Bases</i>		
CBH 3003	Comparative Psychology	
EXP 3104	Sensory Processes	
PSB 3002	Physiological Psychology <sup>1</sup>	
PSB 3340	Behavioral Neuroscience <sup>1</sup>	
<i>Developmental Changes</i>		
DEP 3053	Developmental Psychology	
<i>Learning and Cognition</i>		
EAB 3002	Principles of Behavior Analysis	
EAB 3764	Applied Behavior Analysis	
EXP 3604	Cognitive Psychology	
<i>Sociocultural / Individual Differences Approaches</i>		

CLP 3144	Abnormal Psychology	
PPE 3003	Psychology of Personality	
SOP 3004	Social Psychology	
<b>Laboratory course</b>		
PSY 3213L	Laboratory Methods in Psychology	3
<b>Psychology courses</b>		
4000-level courses (does not count individual work courses)		6
<b>Additional Psychology courses</b>		
3000/4000-level courses to meet the 36-credit minimum requirement (with the exception that three credits of 2000-level courses can count toward this requirement) <sup>2, 3</sup>		12
<b>Total Credits</b>		<b>36</b>

<sup>1</sup> Students may not take both PSB 3002 and PSB 3340 under any circumstances.

<sup>2</sup> In addition, up to nine credits of individual work courses will count toward the 36-credit minimum requirement.

<sup>3</sup> Two courses from the Women's Studies department can also be utilized as part of the 12 additional psychology credits (WST 3371; WST 4704, WST 3323, WST 4XXX).

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

## Related Coursework

### Statistics

STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it also counts toward the CLAS requirement of 3000-level electives not in the major.

### Mathematics

Proficiency through precalculus is required. MAC 1147 (or higher course) will meet this requirement. The combination of MAC 1114 and MAC 1140 may be substituted for MAC 1147.

### Biological Science

BSC 2005 or BSC 2010 is required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome.

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

## Related Psychology Programs

- Bachelor of Arts in Psychology, UF Online (p. 1528)

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

The following critical-tracking courses are required: BSC 2005 or BSC 2010, MAC 1147 or MAC 1140 and MAC 1114, PSY 2012, PSY 3213L, and STA 2023.

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

## Semester 1

- Complete MAC 1140 or MAC 1147
- 2.4 UF GPA required

## Semester 2

- Complete PSY 2012; if MAC 1140 is taken in semester 1, MAC 1114 must be taken semester 2
- 2.6 UF GPA required

## Semester 3

- Complete 2 critical-tracking courses from BSC 2005 or BSC 2010, STA 2023 or PSY 3213L with a 2.6 critical-tracking GPA  
**Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.**
- 2.7 UF GPA required

## Semester 4

- Complete BSC 2005 or BSC 2010 and STA 2023 (if not previously taken) with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

## Semester 5

- Complete PSY 3213L (if not previously taken) with 2.75 critical-tracking GPA. Additional Psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

## Semester 6

- Complete 2 of the remaining PSY 3XXX/4XXX required courses
- Complete STA 3024

## Semester 7

- Complete 2 of the remaining PSY 3XXX/4XXX required courses

## Semester 8

- Complete all remaining PSY 3XXX/4XXX required courses

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

## Academic Learning Compact

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students' understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

## Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

#### Critical Thinking

3. Review, interpret and analyze the literature in psychological science.

## Communication

4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

## Curriculum Map

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

## Psychology UF Online

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Arts in psychology are widely sought in business, education, and certain mental health fields. For a professional career in psychology, a graduate degree is needed.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR | Email (psych-advising@ufl.edu)
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

## Department Information

The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

### Curriculum

- Psychology
- Psychology UF Online

The psychology curriculum provides a strong background to pursue careers in psychology, business, education, or health-related fields. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science. The B.A. in psychology requires courses in four core areas within the discipline as well as elective psychology courses.

## Coursework for the Major

A B.A. in psychology consists of a minimum of 30 credits in psychology plus related coursework in biological science, mathematics, and statistics. At least 18 of the 30 credits must be taken at UF, and at least 24 of the 30 credits must be at the 3000-level or above. Courses used toward the major must be earned with minimum grades of C.

Code	Title	Credits
<b>Required Coursework</b>		
<i>Introductory Level</i>		
PSY 2012	General Psychology (or equivalent, such as a general psychology course taken elsewhere or credit by exam for this course via AP, IB, AICE)	3
<i>Foundation Level Core</i>		
Select at least one course from each of the four foundation areas:		12
CBH 3003 or PSB 3002	Comparative Psychology (Biological Bases) Physiological Psychology	
DEP 3053	Developmental Psychology (Developmental Changes)	
EAB 3002 or EXP 3604	Principles of Behavior Analysis (Learning and Cognition) Cognitive Psychology	
CLP 3144 or SOP 3004	Abnormal Psychology (Sociocultural / Individual Differences Approaches) Social Psychology	
<i>Laboratory Course</i>		
PSY 3213L	Laboratory Methods in Psychology	3
<i>Additional Psychology Courses</i>		
3000/4000-level psychology courses to meet the 30-hour minimum requirement (with the exception that three credits of 2000-level courses may count toward this requirement) <sup>1</sup>		12
<b>Related Coursework</b>		
STA 2023	Introduction to Statistics 1 (required; prerequisite for some 4000-level psychology courses)	3
Select one to achieve proficiency through precalculus:		4-5
MAC 1147	Precalculus Algebra and Trigonometry (or higher course)	
MAC 1114 & MAC 1140	Trigonometry and Precalculus Algebra	
BSC 2005	Biological Sciences	3
<b>Recommended Coursework</b>		
Select a maximum of six credits of individual work courses to count toward the major: <sup>2</sup>		0-6
PSY 4911	Undergraduate Research in Psychology	
PSY 4905	Individual Work	
PSY 4970	Senior Thesis	
PSY 4949	Internship in Psychology	
CLP 3911	Introduction to Clinical Research	
<b>Total Credits</b>		<b>40-47</b>

<sup>1</sup> In addition, up to six credits of individual work courses will count toward the 30-hour minimum requirement.

<sup>2</sup> In addition to regularly scheduled courses, the department offers four individual work courses, three involving research (PSY 4911, PSY 4905, and PSY 4970) and one involving community work (PSY 4949). Students may enroll in these courses by permission of relevant faculty supervisors.

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

The following critical-tracking courses are required:

- BSC 2005
- MAC 1147 or MAC 1140 and MAC 1114
- PSY 2012
- PSY 3213L
- STA 2023

Semester 1

- Complete MAC 1140 or MAC 1147
- 2.2 UF GPA required

Semester 2

- Complete PSY 2012; if MAC 1140 is taken in semester one, MAC 1114 must be taken semester two
- 2.3 UF GPA required

Semester 3

- 2.4 UF GPA required
- Complete 2 critical-tracking courses from BSC 2005, STA 2023 or PSY 3213L with a 2.5 critical-tracking GPA

Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.

Semester 4

- Complete BSC 2005 and STA 2023 (if not previously taken) with a 2.5 critical-tracking GPA
- 2.5 UF GPA required

Semester 5

- Complete PSY 3213L (if not previously taken) with 2.5 critical-tracking GPA
- 2.5 UF GPA required

Semester 6

- Complete 2 of the remaining PSY 3XXX/4XXX required courses

Semester 7

- Complete 2 of the remaining PSY 3XXX/4XXX required courses

Semester 8

- Complete all remaining PSY 3XXX/4XXX required courses

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities)		3
MAC 1147	Precalculus Algebra and Trigonometry ( <b>Critical Tracking</b> ; State Core Gen Ed Mathematics)	4

## Public Affairs Certificate

The Public Affairs certificate is for those interested in government careers and requires courses in public policy and public administration.

### About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 15 | Completed with minimum grades of C
- More Info (<http://polisci.ufl.edu/undergraduate/programs/public-affairs-certificate/>)
- Student Learning Outcomes (SLOs) (<https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes>)

*Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*

### Department Information

The Department of Political Science provides a high-quality educational program for undergraduate students as well as a rigorous honors program. The department also offers a highly selective graduate education ranging from innovative MA programs to a comprehensive PhD program.

**Website** (<https://polisci.ufl.edu/>)

### CONTACT

### Curriculum

- Combination Degrees
- International Relations Certificate
- Political Campaigning Certificate
- Political Science
- Public Affairs Certificate

*Credits earned toward the certificate also count toward the political science major.*

## Required Courses

Code	Title	Credits
PAD 3003	Introduction to Public Administration (a core course in public administration)	3
PUP 3002	Current Controversies in Public Policy (a core course in public policy)	3
Select three 3000/4000-level courses from one of the following:		9
The policy process (e.g., bureaucratic politics)		
A substantive policy area (e.g., health politics and policy or politics and ecology)		
<b>Total Credits</b>		<b>15</b>

Students are encouraged to serve an internship in government and to complete an honors thesis in the area of public affairs.

## Public Leadership Minor

The interdisciplinary Public Leadership minor, offered by the Bob Graham Center for Public Service, is for students interested in careers in the public and private sectors and those interested in acquiring skills to develop as civically responsible citizens. Through coursework and practical experience, students gain the skills and knowledge necessary for effective and ethical leadership careers. The minor complements a variety of majors, including the natural sciences, humanities, social sciences, journalism, and business.

### About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 21 | Completed with a minimum cumulative 3.0 GPA
- **More Info**

### Center Information

The Bob Graham Center was established in 2006 with the goal of creating a community of students, scholars, and citizens who share a commitment to revitalizing the civic culture of Florida and the nation. Former Governor and U. S. Senator Bob Graham founded the Center as a place where students acquire the skills and knowledge to become informed citizens, with the expressed purpose of strengthening the nation's democratic institutions.

220 PUGH HALL

GAINESVILLE FL 32611-2030

Map (<http://campusmap.ufl.edu/#/index/0072>)

### Curriculum

- Public Leadership Minor

Students pursuing the minor are expected to engage in the intellectual life of the Bob Graham Center for Public Service by participating in public lectures, workshops, seminars, and civic engagement opportunities the Center offers.

Students must have a 2.75 GPA for admission to the minor and should normally apply during the sophomore or junior year, though they may apply later as long as they will still be able to complete all requirements for the minor within a timely manner that does not delay graduation. Students may apply for the minor through ONE.UF (<https://one.uf.edu/login/>).

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors.

## Religion

Events at home and abroad show that religion continues to be a powerful force, with both positive and negative consequences. An undergraduate major in Religion provides students with the basic tools to understand the diversity of religious phenomena throughout the world in their proper historical, socio-political, psychological, cultural, and philosophical contexts.

### Curriculum

- Combination Degrees
- Religion
- Religion Minor

Students majoring in religion receive truly interdisciplinary training and many pursue advanced degrees in the humanities, social sciences, law, education, journalism, and social services. Religion majors have also gone on to work in non-governmental organizations, private companies, and religious communities. The religion program complements many other programs at the University of Florida, including Latin American studies, sustainability studies, Jewish studies, African studies, and Asian studies.

## Coursework for the Major

The program consists of 10 courses, which include at least one class in three of the following four areas: Asian religions; Islam; and Jewish or Christian scripture; and religion and ethics in contemporary society. In addition, all majors must complete a junior seminar on methods and theories in the study of religion and a comparative East-West capstone seminar.

The 10 courses (30 credits) for the undergraduate major in religion must be completed with minimum grades of C. These courses must be taken from the introductory, intermediate, and advanced levels of the religion curriculum and they must expose the student to both eastern and western thought.

## Required Coursework

Select at least one course from three of four groups

Code	Title	Credits
<b>Asian Religion</b>		
Select one:		3
REL 2315	Religion in Asia	
REL 2341	Introduction to Buddhism	
REL 3318	Chinese Religions	
REL 3330	Religions of India	
REL 3336	Religion in Modern India	
REL 4349	Buddhist Meditation	
<b>Islam</b>		
Select one:		3
REL 2362	Introduction to Islam	
REL 4371	Islam in Africa	
REL 4367	The History of Islam in the Modern World	
REL 4393	Islam in the Americas	
<b>Jewish or Christian Scripture</b>		
Select one:		3
REL 2210	Hebrew Scriptures	
REL 2240	New Testament	
REL 3213	Hebrew Bible as Literature	
REL 3249	The Christian Gospels	
REL 3252	Acts, Paul, and Early Christianity	
REL 3291	Gender and the Hebrew Bible	
REL 4221	The Pentateuch	
<b>Religion and Ethics in Contemporary Society</b>		
Select one:		3
REL 2071	Sustainability and Religion	
REL 3076	Cults and New Religious Movements	

REL 3082	Global Ethics	
REL 3099	Spirituality and Health Care	
REL 3108	Religion and Food	
REL 3148	Religion and Violence	
REL 3171	Ethics in America	
REL 3492	Religion Ethics and Nature	
REL 4092	Ethics, Utopias and Dystopias	
REL 3931	Junior Seminar (during the junior year)	3
4000-level courses, one of which must be the following:		6
REL 4933	The Comparative Study of Religion	
Additional Religion courses		12
<b>Total credits</b>		<b>30</b>

- Majors cannot count more than three introductory courses (2000-level, 9 credits) toward the 30 credits.
- No more than three courses (9 credits) can be in approved cognate courses from other departments.
- No more than four courses (12 credits) can be transferred from another institution.
- Every two semesters all majors must consult the undergraduate advisor.

There are no prerequisites for 2000-level courses. Detailed descriptions of current and prospective courses are available in 107 Anderson Hall and from faculty members before registration.

## Overseas Studies

The department encourages study abroad. Overseas Studies, within the UF International Center (UFIC), offers the opportunity to study in a wide range of academic and cultural settings. The office coordinates 32 semester and yearlong programs and 28 summer programs in 24 countries. Study abroad programs satisfy the general education international and diversity requirements and also may fulfill requirements for a major or minor, as well as basic distribution area requirements and UF summer residency. Interested students should contact the UF International Center in 170 Hub or the undergraduate coordinator.

More Info (<http://www.ufic.ufl.edu/>)

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- 2.0 UF GPA required

## Semester 2

- 2.0 UF GPA required

## Semester 3

- Complete 1 religion course
- 2.0 UF GPA required

## Semester 4

- Complete 1 additional religion course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 5

- Complete 1 additional religion course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 6

- Completed 2 of the remaining REL 3XXX/4XXX required courses
- 2.0 UF GPA required

## Semester 7

- Completed 2 of the remaining REL 3XXX/4XXX required courses
- 2.0 UF GPA required

## Semester 8

- Completed all remaining REL 3XXX/4XXX required courses
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

<sup>1</sup> One General Education option taken this term must be a Quest 2 course.

Academic Learning Compact

The major in religion examines religion as a significant and pervasive element in human culture. Through study of a variety of religious traditions, students learn about the history, beliefs and practices of the world’s religions. Emphasis on method and theory and religion’s comparative dimensions enables students to read and analyze current literature. Students will be able to locate and use reference tools and demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

- Achieve satisfactory evaluation of assignment from REL 3931.
- Achieve satisfactory evaluation of assignment from REL 4933.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to  
Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain religion as a significant and pervasive element in human culture.

Critical Thinking

2. Read and analyze current literature on method and theory in a study of religion.
3. Read and analyze current literature on comparative religion.

Communication

4. Effectively communicate, in speech and in writing, and disseminate the results of research in a coherent and organized manner.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Asian Religions

REL 3931	A	I, R, A	I, R, A
REL 4933	A	A	I, R, A

## Assessment Types

- Papers
- Additional assessment include the department's senior survey

## Religion Minor

The Religion minor provides the opportunity to explore various religions around the world: their scriptures, histories, beliefs, rituals, and communities. A minor in Religion provides students with tools to understand the diversity of religious phenomena throughout the world in their proper historical, socio-political, psychological, cultural, and philosophical contexts.

### Curriculum

- Combination Degrees
- Religion
- Religion Minor

The religion minor consists of five REL-prefixed religion courses. Three of these courses must be taken at the intermediate or advanced level at UF.

No more than three credits of REL 4905 will apply. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

## Required Courses

Code	Title	Credits
REL courses (2000 level)		0-6
REL courses (3000/4000 level) <sup>1</sup>		9-15

<sup>1</sup> No more than three credits of REL 4905.

## Russian

## Foreign Languages and Literatures

Students who major in Russian graduate with a solid working knowledge of the language and a thorough understanding of Russian culture and everyday life.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills, and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

## Foreign Languages and Literatures Options (p. 1234)

Students can tailor their program of study to fit their personal and career goals, be it reading Tolstoy in the original or tapping into one of the hottest emerging global markets. Majors also receive priority placement in our popular study-abroad programs in Moscow.

Completed alone or in combination with a second major, the Russian specialization of the Foreign Languages and Literatures major prepares students for a variety of careers, including law, government, national security, international relations, business, education and graduate programs in the humanities and social sciences. Beyond this, it equips students with analytical skills essential for performing effectively in today's multicultural world.

Small class sizes and an outstanding professional teaching staff ensure that students have every opportunity to learn and excel.

Students who intend to pursue the Russian specialization or a Russian minor should consult the undergraduate coordinator for Russian studies as soon as possible.

## Coursework for the Major

The Russian specialization in Foreign Languages and Literatures consists of preparatory language study at the beginning and Intermediate levels and 33 hours of advanced language, literature, and culture study in the upper division, at least 30 of which must be at the 3000/4000 level. Majors may take one 3 credit course at a lower level in Russian Literature and Culture in English with the approval of the undergraduate coordinator.

*All coursework for the major must be completed with minimum grades of C.*

<sup>1</sup> Although courses may appear in more than one group they may be counted toward only one group.

<sup>2</sup> Recommended for those planning to pursue careers requiring advanced level skills in Russian or graduate work in Russian Studies.

## Overseas Study

Students are encouraged to consider the UF summer program in Russian language and culture at Moscow State University in Russia.

## Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- 2.0 UF GPA required

## Semester 2

- 2.0 UF GPA required

*Summer A – Moscow Summer Program (8 credit hours in advanced electives) highly recommended any time after completing two semesters of Russian (RUS 1130/RUS 1131)*

## Semester 3

- Complete RUS 1130 or higher-level language course with a minimum grade of C
- 2.0 UF GPA required

## Semester 4

- Complete RUS 1131 or higher-level language course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 5

- Complete RUS 2220 or higher-level language course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 6

- Complete RUS 3400 or higher-level language course
- 2.0 UF GPA required

## Semester 7

- Complete RUS 4000
- Complete RUS 4501
- 2.0 UF GPA required

## Semester 8

- Complete RUS 4001
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course. 3000 level or above critical concentration courses outside of Russian may count toward the 3000 level or above electives outside of the major.

Beginning language is best started semester 1 and absolutely no later than semester 3, but study abroad or accredited intensive summer courses can be used to fall in with an ideal semester progression.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

## Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

## Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

#### Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

#### Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

## Curriculum Map

*I = Introduced; R = Reinforced; A = Assessed*

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A <sup>1</sup>	I, R	I	I	I, R, A
Category B <sup>2</sup>	I, R, A	I, R, A	I, R, A	

<sup>1</sup> Courses focus on the acquisition of the language(s) of specialization at the advanced level.

<sup>2</sup> Courses address literary, cultural, cinematic, historical, and/or social questions.

## Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

---

## Russian and East-European Area Studies Certificate

The Russian and East-European Area Studies certificate provides a foundation for graduate work in the field of and careers in government service. The program is based on a major in economics, foreign languages, geography, history, philosophy, political science, or religion.

### About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 24 | Completed with minimum grades of C
- More Info (<http://languages.ufl.edu/academics/lc-languages/russian-studies/>)
- Student Learning Outcomes (SLOs) (<https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes>)

*Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*

### Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

**Website** (<https://languages.ufl.edu/>)

- Russian and East-European Area Studies Certificate

For the minor, students must complete at least five Russian courses beyond the 1000 level. Up to six credits transferred from another institution may be applied toward the minor.

Students are required to take RUS 2220 and one 3000/4000 level RUT course. The remaining credits should be RUS and RUW-prefixed courses at the 3000/4000 level.

Students who place out of RUS 2220 and RUS 3240 (without transfer credits) can apply up to nine credits of RUT courses toward the minor. No more than three credits of RUS 4905 can apply.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Sociology

Sociology is the study of social life, including the significance of social relationships and institutions, the impact of social change on individuals, groups and the environment, and the causes and consequences of inequalities and disparities of all kinds. Sociology majors examine current research and public policy pertaining to healthcare, the environment, families, employment, housing, the community, education, politics, criminal justice, and the law. Upon graduation, sociology majors are skilled in evidence-based problem solving, collecting, analyzing, and presenting data, communicating and collaborating in diverse groups, thinking critically, and writing effectively.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

*To graduate with this major, students must complete all university, college, and major requirements.*

## Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department's faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

- Sociology Minor UF Online
- Sociology of Social Justice and Policy Minor
- Sociology UF Online

The Sociology major offers broad theoretical perspectives and rigorous methodologies to study social life and to analyze the causes and consequences of human behavior. In particular, sociologists examine how race, ethnicity, gender, sexual orientation, age, class, ability, geography, and other identities are used to create and maintain barriers to access, participation, opportunity, and outcome across all social institutions. Our faculty teach and conduct research on social justice and systemic inequalities; health disparities in physical and mental well-being; environmental justice and natural resource management; deviance, social control, and conflict management; gender, families, and sexualities; social and political movements; nationalism, migration, and ethnic conflict; and culture, technology, and media. Students examine the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues.

Students should listen to these interviews on the department's website from three recent sociology graduates. Their testimonials describe the varied opportunities in our major and the different career and professional paths they and other sociology majors embark on post-graduation.

More Info (<https://soccrim.clas.ufl.edu/undergraduate/sociology/>)

## Coursework for the Major

Majors are required to complete 32 credits of coursework in sociology and 3 credits of statistics with minimum grades of C. At least 23 credits of sociology must be in courses numbered 3000 or higher and at least 18 credits must be completed at UF.

To graduate, students must also pass a department exam covering fundamental sociological concepts developed by the sociology faculty.

## Required Coursework

Code	Title	Credits
SYG 2000	Principles of Sociology (sociology majors are encouraged to take this as their first class)	3
SYA 4110	Development of Sociological Thought (must be taken after 90 credits)	4
SYA 4300	Methods of Social Research (should be completed by the end of the sixth semester.) <sup>1</sup>	4
Additional sociology coursework		21
<b>Total Credits</b>		<b>32</b>

<sup>1</sup> STA 2023 is a prerequisite for SYA 4300.

Students select additional sociology courses to complete the 32-credit minimum by matching interests in different substantive areas.

Majors can only apply two other 2000-level courses besides SYG 2000, for a maximum of nine credits at the 2000 level. There are no prerequisites for 2000-level courses.

## Related Coursework

In addition to the 32 credits of sociology coursework, majors are required to complete STA 2023 Introduction to Statistics 1 with a minimum grade of C. STA 2023 must be taken no later than the end of the third semester.

## Course Details

All majors should review the department's guidelines or visit the Sociology Undergraduate Coordinator for information about the major, the plan of study worksheet, an informational handout, descriptions of current and prospective courses and other information.

## OVERSEAS STUDIES

Majors are encouraged to seek out opportunities for international study, during the summer or for the academic year. The credit generally will be applied toward the major and the degree. Contact the undergraduate coordinator about credit for study abroad. Visit the UF International Center (<https://internationalcenter.ufl.edu/>) in room 170 of the Hub for more information.

## RELEVANT MAJORS, MINORS AND/OR CERTIFICATES

With approximately 600 majors and minors in both Residential and UF Online degree programs, Sociology is one of the largest undergraduate programs at UF. Many of our majors pursue dual degrees, double majors, minors, and certificates in related disciplines, including Psychology, Criminology & Law, Political Science, Anthropology, Sustainability, History, Gender, Sexualities and Women's Studies, Latin American Studies, African American Studies, Non-Profit Organizational Leadership, Advertising, Marketing, and various foreign languages.

## EXPERIENTIAL LEARNING AND CAREER READINESS

Sociology majors participate in community internships, collaborate on faculty projects, and conduct research independently on senior thesis projects.

These experiential learning opportunities prepare our graduates to embark upon a wide range of career paths including those in public health, government, research, teaching, and community affairs. Sociology graduates pursue careers in law, medicine, and business. Others work as public policy analysts researching issues related to health and aging; social justice, environmental sustainability, and resource management; urban and community development; crime and delinquency; families and communities; and racial, ethnic, and international relations. Many seek advanced degrees in sociology, psychology, counseling, law, and business.

## Combination Degrees

The Department of Sociology and Criminology offers a combination BA/MA degree to eligible undergraduate students. Please see the graduate coordinator for more information regarding this degree option. Sociology majors may also consider various combination degrees with other departments and colleges. For example, a Master of Science in Business Administration with a concentration in management is offered through the Warrington College of Business to eligible students who have majored in sociology. Please see the undergraduate coordinator for more information about such degree options.

- Combination Degrees

## Research

The department encourages students to engage in the research process, either by conducting their own projects in collaboration with a sociology faculty member or by working with sociology faculty on their current research. These opportunities may be pursued by conducting a senior honors thesis or registering for SYA 4911 Undergraduate Research credit. Please see the undergraduate coordinator for more information and eligibility requirements.

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 sociology course
- 2.0 UF GPA required

Semester 3

- Complete 1 additional sociology course (1 of the 2 courses must be SYG 2000)
- Complete STA 2023
- 2.75 GPA required for all 3 critical-tracking courses
- 2.0 UF GPA required

Semester 4

- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 additional sociology course (1 of the 3 must be at the 3000/4000 level)
- 2.75 GPA required for all 5 critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete SYA 4300 or SYA 4110
- Complete 1 additional 2000 level or above sociology course (maximum of 2 sociology electives at the 2000 level)
- 2.0 UF GPA required

Semester 7

- Complete 2 additional 3000/4000 level sociology courses
- 2.0 UF GPA required

Semester 8

- Complete SYA 4110
- Complete all remaining 3000/4000 level sociology courses (7 total sociology elective courses/21 SY elective credits required)
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
Semester One		
SYG 2000	Principles of Sociology ( <b>Critical Tracking</b> ; State Core Gen Ed Social and Behavioral Sciences)	3
State Core Gen Ed Composition (p. 67); Writing Requirement		3
Foreign language		4-5
Elective		3

SYA 4300 Methods of Social Research ( <b>Critical Tracking</b> )	4
Elective (3000 level or above, not in major)	3
Electives	6
Gen Ed Physical Sciences	3
<b>Credits</b>	<b>16</b>

**Semester Six**

Sociology courses ( <b>Critical Tracking</b> ; 3000/4000 level)	6
Gen Ed Composition; Writing Requirement	3
Elective (3000 level or above, not in major)	3
Elective	3
<b>Credits</b>	<b>15</b>

**Semester Seven**

SYA 4110 Development of Sociological Thought ( <b>Critical Tracking</b> )	4
Sociology course ( <b>Critical Tracking</b> ; 2000 level or above)	3
Sociology course ( <b>Critical Tracking</b> ; 3000/4000 level)	3
Electives (3000 level or above, not in major)	6
<b>Credits</b>	<b>16</b>

**Semester Eight**

Sociology course ( <b>Critical Tracking</b> ; 3000/4000 level)	3
Electives (3000 level or above, not in major)	6
Electives	5
<b>Credits</b>	<b>14</b>
<b>Total Credits</b>	<b>120</b>

<sup>1</sup> In addition to SYG 2000 (GE-S), the remaining six credits of GE-S can be satisfied by sociology or non-sociology GE-S courses.

## Academic Learning Compact

The Bachelor of Arts in sociology provides students with knowledge of the basic concepts in the field, sociological perspectives on social structure, process and institutions and sociological perspectives on the relationship between individuals and society. Emphasis is on the ability to understand, analyze and interpret the sociological literature and on effectively communicating sociological concepts and research in the accepted style of presentation.

## Before Graduating Students Must

- Pass a department exam developed by the sociology faculty that covers fundamental sociological concepts.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Identify, explain and apply basic concepts in sociology.

#### Critical Thinking

2. Analyze, critique and interpret the sociological literature.
3. Define, classify and compare sociological perspectives on social structure, processes and institutions.
4. Define, classify and compare sociological perspectives on the relationship between individuals and society.

#### Communication

5. Effectively communicate in speech and in writing sociological concepts and research.

### Curriculum Map

## Sociology of Social Justice and Policy Minor

The SJP minor offers an interdisciplinary framework grounded in Sociology that allows students to examine systemic inequalities of race, gender, sexual orientation, ethnicity, class, age, mental and physical ability, geography, and other disparities as they occur across social institutions including health, law, criminal justice, families, employment, the environment, education, and housing.

## About this Program

The sociological lens offers broad theoretical perspectives and rigorous methodologies to analyze how, why, and with what consequence systemic inequalities are produced, maintained, and reproduced locally, nationally, and globally. Students pursuing an SJP minor explore the impact of systemic racism in the criminal justice and legal systems; the consequences of unequal access to health care on physical and mental well-being; the impact of environmental hazards on the health and economic opportunities of vulnerable and marginalized populations; the causes and consequences of disparities in access to equal and quality public education; and the dynamics of structural and organizational impediments to enacting change. The SJP minor introduces students to social justice scholars across the campus community, expanding networking and mentoring opportunities, exposing students to diverse ideas, methods, and theories in the area of social justice, and teaching fundamental skills and competencies for careers related to policymaking, advocacy, and research dedicated to social justice issues.

Students should listen to these interviews on the department's website from three recent sociology graduates. Their testimonials describe the varied opportunities in our major and the different career and professional paths they and other sociology majors embark on post-graduation.

More Info (<https://soccrim.clas.ufl.edu/undergraduate/sociology/>)

## REQUIREMENTS

- Students must complete a minimum of 9 credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors.
- Students must complete at least 5 courses at the 3000 level or higher and each must be at least three credits.
- A minimum of 9 credits (3 courses) must be from Sociology courses (i.e., courses that begin with the prefix SY), other than SYA4941 Internships in Sociology.
- With the approval of the Sociology Undergraduate Coordinator, students may petition to have other, relevant classes approved as substitutes within each category of electives within the minor. Such courses could include department *special topics* offerings with numbers like 3930 or 4930.
- No more than three credits of independent study (SYA 4905), research (SYA 4911) or internship (SYA 4941) may count toward the minor.

The SJP minor is not available to Sociology majors.

Code	Title	Credits
SYO 4530	Social Inequality <sup>1</sup>	3
Category A elective: Social Identities and Social Justice		3
Category B electives: Social Institutions and Social Justice; 1 of the 2 must be SY		6-7
Category C elective: Methodology, Internship or Research Practicum <sup>2</sup>		3
<b>Total Credits</b>		<b>15-16</b>

<sup>1</sup> Though SYG 2000 itself is not part of the 15-credit requirement of the SSJP minor, it is a prerequisite for SYO 4530 and for many of the upper-division Sociology electives in which students may be interested in enrolling. Students should plan ahead to ensure they have completed SYG 2000 prior to registering for SYO 4530 and any other relevant SY coursework. Please see or email ([ugadvising@soc.ufl.edu](mailto:ugadvising@soc.ufl.edu)) the Coordinator of the SSJP minor for questions related to this requirement.

<sup>2</sup> 3 credits of SYA 4905 or SYA 4911 may apply to this category as approved by the Sociology UGC.

## CATEGORY ELECTIVES

### Category A | Social Identities and Social Justice | Select one course

Code	Title	Credits
SYD 3700	Sociology of Race and Racism in the U.S.	3
SYD 4800	Sociology of Gender	3

## Sociology UF Online

Sociology is the study of social life, including the significance of social relationships and institutions, the impact of social change on individuals, groups, and the environment, and the causes and consequences of inequalities and disparities of all kinds. Sociology majors examine current research and public policy pertaining to healthcare, the environment, families, employment, housing, the community, education, politics, criminal justice, and the law. Upon graduation, sociology majors are skilled in evidence-based problem solving, collecting, analyzing, and presenting data, communicating, and collaborating in diverse groups, thinking critically, and writing effectively.

### Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department's faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

- Combination Degrees
- Criminology
- Criminology UF Online
- Sociology
- Sociology Minor
- Sociology Minor UF Online
- Sociology of Social Justice and Policy Minor
- Sociology UF Online

The Sociology major offers broad theoretical perspectives and rigorous methodologies to study social life and to analyze the causes and consequences of human behavior. In particular, sociologists examine how race, ethnicity, gender, sexual orientation, age, class, ability, geography, and other identities are used to create and maintain barriers to access, participation, opportunity, and outcome across all social institutions. Our faculty teach and conduct research on social justice and systemic inequalities; health disparities in physical and mental well-being; environmental justice and natural resource management; deviance, social control, and conflict management; gender, families, and sexualities; social and political movements; nationalism, migration, and ethnic conflict; and culture, technology, and media. Students examine the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues.

Students should listen to these interviews on the department’s website from three recent sociology graduates. Their testimonials describe the varied opportunities in our major and the different career and professional paths they and other sociology majors embark on post-graduation. More Info (<https://soccrim.clas.ufl.edu/undergraduate/sociology/>)

Coursework for the Major

Majors are required to complete 32 credits of coursework in sociology and 3 credits of statistics with minimum grades of C. At least 23 credits of sociology must be in courses numbered 3000 or higher and at least 18 credits must be completed at UF.

To graduate, students must also pass a department exam covering fundamental sociological concepts developed by the sociology faculty.

Code	Title	Credits
<b>Required Coursework</b>		
SYG 2000	Principles of Sociology (sociology majors are encouraged to take this as their first class) <sup>1</sup>	3
SYA 4110	Development of Sociological Thought (must be taken after 90 credits)	4
SYA 4300	Methods of Social Research (should be completed by the end of the sixth semester) <sup>2</sup>	4
Additional sociology coursework <sup>3</sup>		21
<b>Related Coursework</b>		
STA 2023	Introduction to Statistics 1 (must be taken no later than the end of the third semester; minimum grade of C required)	3
<b>Total Credits</b>		<b>35</b>

<sup>1</sup> Majors can only apply two other 2000-level courses besides SYG 2000, for a maximum of nine credits at the 2000 level. There are no prerequisites for 2000-level courses.

<sup>2</sup> STA 2023 is a prerequisite for SYA 4300.

<sup>3</sup> Students select additional sociology courses to complete the 32-credit minimum by matching interests in different substantive areas.

Course Details

All majors should review the department's guidelines (<http://soccrim.clas.ufl.edu/undergraduate/sociology/academics/requirements/>) for information about the major, the plan of study worksheet, an informational handout, descriptions of current and prospective courses, and other information.

## EXPERIENTIAL LEARNING AND CAREER READINESS

Sociology majors participate in community internships, collaborate on faculty projects, and conduct research independently on senior thesis projects.

These experiential learning opportunities prepare our graduates to embark upon a wide range of career paths including those in public health, government, research, teaching, and community affairs. Sociology graduates pursue careers in law, medicine, and business. Others work as public policy analysts researching issues related to health and aging; social justice, environmental sustainability and resource management; urban and community development; crime and delinquency; families and communities; and racial, ethnic, and international relations. Many seek advanced degrees in sociology, psychology, counseling, law, and business.

## RESEARCH

The department encourages students to engage in the research process, either by conducting their own projects in collaboration with a sociology faculty member or by working with sociology faculty on their current research. These opportunities may be pursued by conducting a senior honors thesis or registering for SYA 4911 Undergraduate Research credit. Please contact the undergraduate coordinator for more information and eligibility requirements.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

### Semester 1

- 2.0 UF GPA required

### Semester 2

- Complete 1 sociology course
- 2.0 UF GPA required

### Semester 3

- Complete 1 additional sociology course (1 of the 2 courses must be SYG 2000)
- Complete STA 2023
- 2.75 GPA required for all 3 critical-tracking courses
- 2.0 UF GPA required

### Semester 4

- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 5

- Complete 1 additional sociology course (1 of the 3 must be at the 3000/4000 level)
- 2.75 GPA required for all 5 critical-tracking courses
- 2.0 UF GPA required

### Semester 6

- Complete SYA 4300 or SYA 4110
- Complete 1 additional 2000 level or above sociology course (maximum of 2 sociology electives at the 2000 level)
- 2.0 UF GPA required

### Semester 7

- Complete 2 additional 3000/4000 level sociology courses
- 2.0 UF GPA required

## Semester 8

- Complete SYA 4110 or SYA 4300
- Complete all remaining 3000/4000 level sociology courses (7 total sociology elective courses/21 SY elective credits required)
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
SYG 2000	Principles of Sociology ( <b>Critical Tracking</b> ; State Core Gen Ed Social and Behavioral Sciences)	3

Elective		3
<b>Credits</b>		<b>15</b>
<b>Semester Seven</b>		
SYA 4110	Development of Sociological Thought ( <b>Critical Tracking</b> )	4
Sociology courses ( <b>Critical Tracking</b> ; 3000/4000 level)		6

Electives (3000 level or above, not in major)	6
<b>Credits</b>	<b>16</b>
<b>Semester Eight</b>	
Sociology course ( <b>Critical Tracking</b> ; 3000/4000 level)	3
Electives (3000 level or above, not in major)	6
Electives	5
<b>Credits</b>	<b>14</b>
<b>Total Credits</b>	<b>120</b>

<sup>1</sup> In addition to SYG 2000 (Gen Ed Social and Behavioral Sciences), the remaining six credits of GE-S can be satisfied by sociology or non-sociology Gen Ed Social and Behavioral Sciences courses.

## Academic Learning Compact

The Bachelor of Arts in sociology provides students with knowledge of the basic concepts in the field, sociological perspectives on social structure, process and institutions and sociological perspectives on the relationship between individuals and society. Emphasis is on the ability to understand, analyze and interpret the sociological literature and on effectively communicating sociological concepts and research in the accepted style of presentation.

## Before Graduating Students Must

- Pass a department exam developed by the sociology faculty that covers fundamental sociological concepts.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Identify, explain and apply basic concepts in sociology.

#### Critical Thinking

2. Analyze, critique and interpret the sociological literature.
3. Define, classify and compare sociological perspectives on social structure, processes and institutions.
4. Define, classify and compare sociological perspectives on the relationship between individuals and society.

#### Communication

5. Effectively communicate in speech and in writing sociological concepts and research.

## Curriculum Map

*I = Introduced; R = Reinforced; A = Assessed*

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5
SYA 4110	I, R, A	I, R, A	I, R, A	I, R, A	I, R, A
SYA 4300				I, R, A	I, R, A

### Curriculum

- Combination Degrees
- Hispanic and Latin American Languages, Literatures and Linguistics
- Portuguese
- Portuguese Minor
- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate

## Related Programs

- Latin American Studies Certificate
- Latin American Studies Minor

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

## BA in Spanish

The major requires 33 credits, beginning with foundational work in Spanish and then moves on to introductory coursework in culture, literature and linguistics. Pre-foundational coursework required to prepare the student for SPN 2240 or SPN 2340 depends on the student's background in Spanish and an appropriate placement score.

Students must earn minimum grades of C for coursework to count toward the major.

Additionally, there are separate courses designed students who speak Spanish as a heritage language (i.e., who grew up hearing or using Spanish at home).

## Required Coursework

- SPN 2240 and SPN 3300 (non-bilingual track) or SPN 2340 and SPN 3350 (bilingual track)
- SPN 3700
- At least one SPW 3000-level course, 3 credits
- An additional 21 credits of Spanish courses at the 3000/4000 levels
  - At least 12 of the 21 credits must be at the 4000 level (four courses total)
- Students who transfer credits toward the Spanish major must take at least four 4000-level courses in Spanish at UF
- No more than 3 credits of SPN 4905 may count toward the major

## Recommended Coursework

Students who have studied six semesters of Spanish or who have equivalent fluency may enroll in one-credit Spanish discussion sections that accompany selected Latin American studies courses in anthropology, art, business, philosophy, religion, sociology, etc. A maximum of three such courses may be credited toward the Spanish major and minor. Refer to the course description for SPN 3224.

More Info (<http://spanishandportuguese.ufl.edu/undergraduate-programs/>)

- SPN 3301 is the prerequisite for SPN 4420
- SPN 3700 is the prerequisite for 4000-level SPN linguistics courses
- SPN 4780 is the prerequisite for SPN 4840
- The prerequisite for 4000-level SPW courses is one SPW 3000-level course.

## Concentrations

After completing the introductory courses (SPN 3700 and SPW 3xxx), students may choose to complete their remaining upper division coursework in Hispanic Literatures or Hispanic Linguistics, or a combination of the two. Courses in the literature concentration (indicated with the prefix SPW) focus on the reading, contextualization and critical analysis of literary texts from across the Spanish-speaking world and including a wide range of periods and genres. Courses in the linguistics concentration (indicated with the prefix SPN) focus on the scientific study of the Spanish language and its structures, such as morphology, phonetics, phonology and syntax; as well as more applied linguistic areas such as psycholinguistics, bilingualism, and language acquisition.

## Overseas Study

Students pursuing a major or a minor in Spanish are strongly encouraged to spend a summer, a semester, or an academic year in a Spanish-speaking country. UF programs are encouraged because they allow for easy transfer of UF credits and courses or course equivalencies. Most financial aid applies in this case as well. Interested students should contact the undergraduate coordinator and the UF International Center, 170 Hub.

## Placement

Students with no previous study or experience in Spanish will need to complete the beginning language sequence (SPN 1130-SPN 1131) and the intermediate language sequence (SPN 2200-SPN 2201) to prepare for SPN 2240.

Students with prior study or knowledge of Spanish who wish to enroll in a Spanish course can present dual enrollment, AP, IB, or AICE scores, or can take the WebCAPE online placement test (<http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/spanish-placement/>).

Any student who has lived in a Spanish-speaking country for more than a year or who has significant Spanish-speaking experience at home or in a community must consult the coordinator of the bilingual program before enrolling in any SPN language, literature, or culture course. Heritage speakers not planning to take Spanish who wish to show proficiency should consult the Department for information on how to fulfill their foreign language proficiency requirement.

More Info (<http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/>)

## Research

Students who wish to complete a senior thesis for honors should consult Spanish faculty at least two semesters in advance of graduation.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete SPN 1130 or a higher-level Spanish course
- 2.0 UF GPA required

Semester 3

- Complete SPN 1131 or a higher-level Spanish course
- 2.0 UF GPA required

Semester 4

- Complete SPN 2200 or continue taking higher-level Spanish coursework with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete SPN 2201 or a higher-level Spanish course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete 3 of the remaining SPANISH 3xxx/4xxx required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 7

- Complete 3 of the remaining SPANISH 3xxx/4xxx required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 8

- Complete all remaining SPANISH 4xxx required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities)		3
SPN 1130	Beginning Spanish 1 ( <b>Critical Tracking</b> )	5
State Core Gen Ed Composition (p. 67); Writing Requirement		3
State Core Gen Ed Mathematics (p. 67)		3
State Core Gen Ed Social and Behavioral Sciences (p. 67)		3
<b>Credits</b>		<b>17</b>

**Semester Two**

SPN 1131	Beginning Spanish 2 ( <b>Critical Tracking</b> )	5
State Core Gen Ed Biological or Physical Sciences (p. 67)		3
Gen Ed Mathematics		3
Gen Ed Social and Behavioral Sciences		3
Elective		1
<b>Credits</b>		<b>15</b>

**Semester Three**

SPN 2200	Intermediate Spanish 1 ( <b>Critical Tracking</b> )	3
State Core Gen Ed Humanities (p. 67)		3
Science laboratory (Gen Ed Physical or Biological Sciences)		1
Gen Ed Biological or Physical Sciences (area <b>not</b> taken in semester two) <sup>1</sup>		3
Gen Ed Social and Behavioral Sciences <sup>1</sup>		3
<b>Credits</b>		<b>13</b>

**Semester Four**

SPN 2201	Intermediate Spanish 2 ( <b>Critical Tracking</b> )	3
Gen Ed Biological Sciences		3
Electives		6
Select one:		3
Gen Ed Humanities		
Elective		
<b>Credits</b>		<b>15</b>

**Semester Five**

Select one (if not taken previously):		3
SPN 2240	Intensive Communication Skills ( <b>Critical Tracking</b> ) <sup>2</sup>	
SPN 2340	Introduction to Reading and Writing Spanish for Heritage Learners ( <b>Critical Tracking</b> )	
Select one:		3
SPN 3300	Spanish Grammar and Composition 1 ( <b>Critical Tracking</b> )	
SPN 3350	Spanish Grammar and Composition for Heritage Learners ( <b>Critical Tracking</b> )	
Gen Ed Composition; Writing Requirement		3
Elective		3
Elective (3000 level or above, not in major)		3
<b>Credits</b>		<b>15</b>

**Semester Six**

SPN 3700	Introduction to Hispanic Linguistics ( <b>Critical Tracking</b> )	3
SPW course (3000 level) <sup>3</sup>		3
SPN or SPW course ( <b>Critical Tracking</b> ; 3000 level) <sup>3</sup>		3
Elective (3000 level or above, not in major)		3
Gen Ed Physical Sciences		3
<b>Credits</b>		<b>15</b>

**Semester Seven**

SPN or SPW courses ( <b>Critical Tracking</b> ; 3000/4000 level) <sup>3</sup>		6
SPN or SPW courses ( <b>Critical Tracking</b> ; 4000 level) <sup>3</sup>		3
Electives (3000 level or above, not in major)		6
<b>Credits</b>		<b>15</b>

**Semester Eight**

SPN or SPW courses ( <b>Critical Tracking</b> ; 4000 level) <sup>3</sup>		9
Electives (3000 level or above, not in major)		6
<b>Credits</b>		<b>15</b>
<b>Total Credits</b>		<b>120</b>

<sup>1</sup> One General Education option taken this term must be a Quest 2 course.

<sup>2</sup> SPN 2240 (or SPN 2340) is the first course that earns credit toward the major or minor. SPN 3300 can be taken concurrently with SPN 2240.

<sup>3</sup> Some Spanish courses may also fulfill the H and N general education requirements: SPW 3030, SPW 3031, SPW 3100 and SPW 3101, SPN 3510, and SPN 3520; SPN 3440 fulfills the S and N general education categories.

Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

Students in the Major Will Learn to  
Student Learning Outcomes (SLOs)

Content

1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Critical Thinking

2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Communication

3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4

Assessment Types

- Written paper
- Oral presentation/discussion

Spanish for the Professions Certificate

The Spanish for the Professions certificate provides the linguistic skills and cultural knowledge necessary for working in our increasingly global community, focusing specifically on the Spanish-speaking world. Coursework builds cultural background and communicative proficiency, while providing profession-specific language and experience.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 12 | Completed with minimum grades of C
- **Contact:** Email (antoniosajid@ufl.edu)
- More Info (<http://spanishandportuguese.ufl.edu/undergraduate-programs/certificate-in-spanish-for-the-professions/>)
- Student Learning Outcomes (SLOs) (<https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes>)

*Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*

## Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

### Curriculum

- Combination Degrees
- Hispanic and Latin American Languages, Literatures and Linguistics
- Portuguese
- Portuguese Minor
- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate

## Related Programs

- Latin American Studies Certificate
- Latin American Studies Minor

To be eligible to complete the certificate, students must have a minimum grade of C in SPN 3300 or SPN 3350, or equivalent background. Nine of the twelve credits must be earned in a UF program. At least nine credits of coursework must be unique to the Spanish for the Professions certificate out of all other certificates and minors.

The certificate program is open to all undergraduates.

## Required Courses

Code	Title	Credits
SPN 3414	Advanced Spanish Conversation 2	3
or SPN 4314	Advanced Spanish Composition and Structure for Heritage Learners	
SPN 3510	Culture and Civilization of Spain	3
or SPN 3520	Culture and Civilization of Spanish America	
SPN 3948	Spanish in the Community	3
Select one professional Spanish course:		3
SPN 3036	Spanish for Health Professions	
SPN 3440	Commercial Spanish	
SPN 3443	Marketing and Advertising in the Spanish-Speaking World	
SPN 3451	Spanish Translation: Bridging Cultures	
SPN 3831	Spanish for the Legal Professions	
SPN 3930	Topics in Spanish and Spanish American Culture and Civilization (Spanish for Educators) <sup>1</sup>	
<b>Total Credits</b>		<b>12</b>

<sup>1</sup> Or an alternative selected topics section approved by the undergraduate coordinator.

# Spanish Minor

The Spanish minor offers excellent preparation for a career in virtually any field, and especially in areas such as business, journalism, telecommunications, law, medicine, education, and tourism.

## About this Program

A minimum of nine credits must be completed at the University of Florida, including one 4000-level course. No more than three credits of SPN 4905 can apply.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Certain 3000/4000-level courses have prerequisites:

- For SPN 4420: SPN 3301
- For 4000-level SPN linguistics courses: SPN 3700
- For SPN 4840: SPN 4780
- For 4000-level SPW courses: one SPW 3000-level course

## Required Courses

<b>Total Credits</b>		<b>18</b>

## Statistics

Statistics, the science of learning from data, has become increasingly important as scientists, businesses, and governments rely more and more on data-driven decision-making. Statisticians work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for statisticians and their expertise in the collection and analysis of data.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Degrees:** Bachelor of Arts (p. 1576) | Bachelor of Science (p. 1581)
- **Credits for Degree:** 120
- **Contact:** Email ([dathien@stat.ufl.edu?Subject=Statistics%20Major](mailto:dathien@stat.ufl.edu?Subject=Statistics%20Major))
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

## Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

## Curriculum

- Actuarial Science Minor
- Combination Degrees
- Data Analytics Certificate
- Data Science
- Statistics
- Statistics Minor

Statistics majors learn how to design studies that effectively address the purpose of a research project and how to properly analyze the data collected in such studies. Core courses cover statistical methods applicable in a wide variety of settings (e.g., regression and design of experiments) as well as the conceptual and mathematical foundations of statistics. Other courses explore specific data types often encountered in practical settings. Statistics majors have the option to minor in actuarial science, a profession involving the statistical and financial practices of insurance.

Students who wish to major in Statistics must consult a department advisor early in their programs.

## Degrees

The College of Liberal Arts and Sciences offers the Bachelor of Science and the Bachelor of Arts in statistics.

## Bachelor of Arts

Intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

## Bachelor of Science

Intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

## Coursework for the Major

### Required Coursework for Both Degrees

The B. in Statistics requires a minimum of 42 credits in statistics and related coursework. The BS in Statistics requires a minimum of 49 credits in statistics and related coursework. It is important that the prerequisites of each class are met before the class is attempted.

Students must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 12 credit elective requirement, with the exception of MAC 2312 and MAC 2313 for the BS, where students must receive a minimum grade of B. Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313 for the BS, in which students must receive a minimum grade of B. A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and, additionally for the BS, a minimum GPA of 3.0 on MAC 2312 and MAC 2313. The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA. A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

Code Core	Title	Credits
Select one:		12
MAC 2311 & MAC 2312 & MAC 2313	Analytic Geometry and Calculus 1 and Analytic Geometry and Calculus 2 and Analytic Geometry and Calculus 3	
MAC 3472 & MAC 3473 & MAC 3474	Honors Calculus 1 and Honors Calculus 2 and Honors Calculus 3	
STA 3100	Programming With Data in R	3
STA 4210	Regression Analysis <sup>1</sup>	3
STA 4211	Design of Experiments <sup>1,2,4</sup>	3
STA 4321	Introduction to Probability <sup>1</sup>	3
STA 4322	Introduction to Statistics Theory <sup>1,3</sup>	3
STA 4504	Categorical Data Analysis	3
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> The course sequences, STA 4210-STA 4211 and STA 4321-STA 4322 should be completed by the end of the junior year.

<sup>2</sup> Prerequisite: STA 4210.

<sup>3</sup> Prerequisite: STA 4321.

<sup>4</sup> Students pursuing the major must enroll in the restricted to STA majors only section of STA 4211.

## Combination Degree Program

Superior students can earn both the bachelor's and master's degrees in a shorter time than typically would be possible by counting up to 12 credits of approved graduate courses toward both degrees. For information and application, contact the undergraduate or graduate coordinator.

## Relevant Minors and Certificates

Statistics majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies.

### Academic Learning Compact

The statistics major enables students to achieve proficiency in the fundamentals of statistical reasoning. Through study of both theoretical and applied statistics and through data analysis projects, students will gain knowledge in problem solving, statistical applications and data-based inferences. Emphasis is on developing the ability to approach real world problems and through the use of statistical methods to be able to analyze and to draw valid scientific inferences.

## Before Graduating Students Must

- Complete an exam on the fundamentals of statistics, which will be 5% of your grade in STA 4211.
- Complete a data analysis project, which will be 10% of your grade in STA 4211.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Identify, define and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

#### Critical Thinking

2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

#### Communication

3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

## Curriculum Map

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- 2.0 UF GPA required

## Semester 2

- Complete MAC 1147 or higher-level calculus
- 2.0 UF GPA required

## Semester 3

- Complete MAC 2311
- 2.0 UF GPA required

## Semester 4

- Complete MAC 2312 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 5

- Complete MAC 2313 and STA 3100 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 6

- Complete (MAS 3114 or MAS 4105) and STA 4210 and STA 4321
- 2.0 UF GPA required

## Semester 7

- Complete STA 4211 and STA 4322
- 2.0 UF GPA required

## Semester 8

- Complete STA 4504 and all remaining Statistics and Math and Sciences electives
- 2.0 UF GPA required

## Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

MAC 2312, MAC 2313, MAS 4105, and the math elective count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities)		3
MAC 2311	Analytic Geometry and Calculus 1 ( <b>Critical Tracking</b> ; State Core Gen Ed Mathematics)	4

State Core Gen Ed Biological or Physical Sciences (p. 67)	3

STA elective ( <b>Critical Tracking</b> )	3
Electives	9
<b>Credits</b>	<b>15</b>
<b>Total Credits</b>	<b>120</b>

### Academic Learning Compact

The statistics major enables students to achieve proficiency in the fundamentals of statistical reasoning. Through study of both theoretical and applied statistics and through data analysis projects, students will gain knowledge in problem solving, statistical applications and data-based inferences. Emphasis is on developing the ability to approach real world problems and through the use of statistical methods to be able to analyze and to draw valid scientific inferences.

## Before Graduating Students Must

- Complete an exam on the fundamentals of statistics, which will be 5% of your grade in STA 4211.
- Complete a data analysis project, which will be 10% of your grade in STA 4211.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Identify, define and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

#### Critical Thinking

2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

#### Communication

3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

## Curriculum Map

## Bachelor of Science

Statistics, the science of learning from data, has become increasingly important as scientists, businesses, and governments rely more and more on data-driven decision-making. Statisticians work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for statisticians and their expertise in the collection and analysis of data.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Degrees:** Bachelor of Arts (p. 1576) | Bachelor of Science (p. 1581)
- **Credits for Degree:** 120
- **Contact:** Email ([dathien@stat.ufl.edu?Subject=Statistics%20Major](mailto:dathien@stat.ufl.edu?Subject=Statistics%20Major))
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

## Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Curriculum

- Actuarial Science Minor
- Combination Degrees
- Data Analytics Certificate
- Data Science
- Statistics
- Statistics Minor

Statistics majors learn how to design studies that effectively address the purpose of a research project and how to properly analyze the data collected in such studies. Core courses cover statistical methods applicable in a wide variety of settings (e.g., regression and design of experiments) as well as the conceptual and mathematical foundations of statistics. Other courses explore specific data types often encountered in practical settings. Statistics majors have the option to minor in actuarial science, a profession involving the statistical and financial practices of insurance.

Students who wish to major in Statistics must consult a department advisor early in their programs.

Degrees

The College of Liberal Arts and Sciences offers the Bachelor of Science and the Bachelor of Arts in statistics.

Bachelor of Arts

Intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

Bachelor of Science

Intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

Coursework for the Major

Required Coursework for Both Degrees

The B. in Statistics requires a minimum of 42 credits in statistics and related coursework. The BS in Statistics requires a minimum of 49 credits in statistics and related coursework. It is important that the prerequisites of each class are met before the class is attempted.

Students must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 12 credit elective requirement, with the exception of MAC 2312 and MAC 2313 for the BS, where students must receive a minimum grade of B. Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313 for the BS, in which students must receive a minimum grade of B. A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and, additionally for the BS, a minimum GPA of 3.0 on MAC 2312 and MAC 2313. The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA. A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

Code	Title	Credits
Core		
Select one:		12
MAC 2311 & MAC 2312 & MAC 2313	Analytic Geometry and Calculus 1 and Analytic Geometry and Calculus 2 and Analytic Geometry and Calculus 3	
MAC 3472 & MAC 3473 & MAC 3474	Honors Calculus 1 and Honors Calculus 2 and Honors Calculus 3	
STA 3100	Programming With Data in R	3
STA 4210	Regression Analysis <sup>1</sup>	3
STA 4211	Design of Experiments <sup>1,2,4</sup>	3

STA 4321	Introduction to Probability <sup>1</sup>	3
STA 4322	Introduction to Statistics Theory <sup>1,3</sup>	3
STA 4504	Categorical Data Analysis	3
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> The course sequences, STA 4210-STA 4211 and STA 4321-STA 4322 should be completed by the end of the junior year.

<sup>2</sup> Prerequisite: STA 4210.

<sup>3</sup> Prerequisite: STA 4321.

<sup>4</sup> Students pursuing the major must enroll in the restricted to STA majors only section of STA 4211.

## Combination Degree Program

Superior students can earn both the bachelor's and master's degrees in a shorter time than typically would be possible by counting up to 12 credits of approved graduate courses toward both degrees. For information and application, contact the undergraduate or graduate coordinator.

## Relevant Minors and Certificates

Statistics majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies.

## Bachelor of Science

The BS is intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

### Additional Required Coursework for BS

Code	Title	Credits
<b>Core</b>		
MAS 4105	Linear Algebra 1	4
MHF 3202	Sets and Logic	3
<b>Math and Science Electives</b>		
Select two:		6
MAA 4102 or MAA 4211	Introduction to Real Analysis 1 <sup>1</sup> Real Analysis and Advanced Calculus 1	
MAA 4103 or MAA 4212	Introduction to Real Analysis 2 <sup>1</sup> Real Analysis and Advanced Calculus 2	
MAA 4402	Functions of a Complex Variable	
MAD 4401	Introduction to Numerical Analysis	
MHF 4102	Elements of Set Theory	
<b>Statistics Electives</b>		
Select two:		6
STA 4222	Sample Survey Design	
STA 4241	Statistical Learning in R	
STA 4273	Statistical Computing in R	
STA 4502	Nonparametric Statistical Methods	
STA 4702	Multivariate Statistical Methods	
STA 4712	Introduction to Survival Analysis	
STA 4821	Stochastic Processes	
STA 4853	Introduction to Time Series and Forecasting	
STA 4930	Special Topics	
<b>Total Credits</b>		<b>19</b>

<sup>1</sup> Students who aim to pursue (doctorate) graduate degrees in the field of mathematical sciences/statistics are encouraged to complete MAA 4211 and/or MAA 4212.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- 2.0 UF GPA required

## Semester 2

- Complete MAC 1147 or higher-level calculus
- 2.0 UF GPA required

## Semester 3

- Complete MAC 2311
- 2.0 UF GPA required

## Semester 4

- Complete MAC 2312 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 5

- Complete MAC 2313 and STA 3100 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 6

- Complete MHF 3202 and STA 4210 and STA 4321
- 2.0 UF GPA required

## Semester 7

- Complete MAS 4105 and STA 4211 and STA 4322
- 2.0 UF GPA required

## Semester 8

- Complete STA 4504 and all remaining Statistics and Math and Sciences electives
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

MAC 2312, MAC 2313, MAS 4105, and the math elective count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

## Sustainability Studies

A Sustainability Studies major prepares students for global citizenship with a firm grounding in the natural sciences, the social sciences, and the humanities. Students in the major explore how to maintain ecological and environmental health, create economic welfare, and pursue social justice in

a changing world. Sustainability studies students gain understanding of the ways in which these three goals are interdependent and explore how they best can be pursued over the long term on local, national, and global levels.

## About this Program

- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** Email ([advisor@advising.ufl.edu?Subject=Sustainability%20Studies%20Major](mailto:advisor@advising.ufl.edu?Subject=Sustainability%20Studies%20Major))

To graduate with this major, students must complete all university, college, and major requirements.

## Department Information

Sustainability Studies prepares students for global citizenship while providing a broad foundation of sustainability knowledge and professional skill sets. Students gain experience and put their learning to work in the capstone internship course, Sustainability in Action.

**Website** (<https://sustainability.clas.ufl.edu/>)

### Curriculum

- Sustainability Studies
- Sustainability Studies Minor

Sustainability studies investigates the means to maintain environmental health, create economic welfare, and pursue social justice in a changing world. Students gain an understanding of the ways in which these three goals are interdependent and explore how they can best be pursued in the long term at local, national, and global levels.

## Coursework

Students are required to complete 33 credits of sustainability studies coursework; 15 of these 33 credits must be at the 3000/4000 level. All courses must be completed with minimum grades of C and a minimum of 15 credits of sustainability studies courses must be completed at UF.

For more information about Sustainability Studies and listings of newly available Core Courses and Cluster Courses, please visit the program website.

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 1018).**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

Five courses required by the end of the fifth semester, selected from:

- IDS 2154; required in either semester 1 or 2
- 3 Sustainability Studies Core courses; one from each of the disciplinary areas
- 2 Sustainability Studies Cluster courses; one at the 3000 level or higher

## Semester 1

- Complete IDS 2154 or one critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

## Semester 2

- Complete IDS 2154 or one critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.5 UF GPA required

## Semester 3

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.75 UF GPA required

## Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 3.0 UF GPA required

## Semester 5

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 3.0 UF GPA required

## Semester 6

- Complete 1 additional tracking course

## Semester 7

- Complete 2 additional Cluster courses

## Semester 8

- Complete 1 Cluster course
- Complete IDS 4942

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

Cluster courses may not count towards the 3000-level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
IDS 2154	Facets of Sustainability ( <b>Critical Tracking</b> )	3
State Core Gen Ed Composition (Writing Requirement)		3
State Core Gen Ed Mathematics (pure math)		3-4
Foreign language		4-5
	<b>Credits</b>	<b>13-15</b>
<b>Semester Two</b>		
ECO 2023	Principles of Microeconomics (recommended; Gen Ed Social and Behavioral Sciences)	4
Quest 1 (Gen Ed Humanities)		3
Core course ( <b>Critical Tracking</b> )		3
Science laboratory (Gen Ed Biological or Physical Sciences)		1
Foreign language		3-5
	<b>Credits</b>	<b>14-16</b>
<b>Semester Three</b>		
ECO 2013	Principles of Macroeconomics (recommended; State Core Gen Ed Social and Behavioral Sciences (p. 67))	4
STA 2023	Introduction to Statistics 1 (recommended; Gen Ed Mathematics )	3
State Core Gen Ed Biological or Physical Sciences (p. 67) <sup>1</sup>		3
Core course ( <b>Critical Tracking</b> )		3
Elective or foreign language if 4-3-3 option		3
	<b>Credits</b>	<b>16</b>
<b>Semester Four</b>		
Quest 2 (Gen Ed Biological or Physical Sciences; area NOT taken in semester three) <sup>1</sup>		3
Gen Ed Biological Sciences or elective <sup>1,2</sup>		3
Core course ( <b>Critical Tracking</b> )		3

State Core Gen Ed Humanities (p. 67) <sup>1</sup>	3
State Core Gen Ed Social and Behavioral Sciences (p. 67) <sup>1,3</sup>	3
<b>Credits</b>	<b>15</b>
<b>Semester Five</b>	
Gen Ed Composition (Writing Requirement)	3
Cluster courses ( <b>Critical Tracking</b> )	6
Elective (3000 level or above, not in major)	3
State Core Gen Ed Physical Sciences or elective <sup>1,4</sup>	3
<b>Credits</b>	<b>15</b>
<b>Semester Six</b>	
Cluster courses ( <b>Critical Tracking</b> )	6
Elective	3
Elective (3000 level or above; not in major)	3
State Core Gen Ed Humanities (if needed) or elective <sup>1</sup>	3
<b>Credits</b>	<b>15</b>
<b>Semester Seven</b>	
Cluster courses ( <b>Critical Tracking</b> )	6
Electives	4
Electives (3000 level or above, not in major)	6
<b>Credits</b>	<b>16</b>
<b>Semester Eight</b>	
IDS 4942 Sustainability in Action (capstone course; <b>Critical Tracking</b> )	3
Electives credits	7
Electives (3000 level or above, not in major)	6
<b>Credits</b>	<b>16</b>
<b>Total Credits</b>	<b>120</b>

- <sup>1</sup> Depending on the course(s) taken, the sustainability studies core courses and cluster courses may also meet the following general education categories: biological sciences, humanities, international, physical sciences, or social and behavioral sciences. If a general education category is met through a core or cluster course, the student may substitute elective credit where the GE requirement is listed in the model semester plan.
- <sup>2</sup> If BSC 2862 taken as natural science core course for major
- <sup>3</sup> If ECO 2013 not taken.
- <sup>4</sup> If GLY 2038 taken as natural science core course for major

## Approved Cluster Courses

# APPROVED CLUSTER COURSES

## Cluster A | Ethics, Culture and Human Behavior

Code	Title	Credits
AEB 4126	Agricultural and Natural Resource Ethics (Gen Ed Humanities or Social and Behavioral Sciences)	3
AMH 3630	American Environmental History	3
ANT 3420	Consumer Culture	3
ANT 4006	Human Rights and Culture	3
ANT 4403	Environment and Cultural Behavior (Gen Ed Social and Behavioral Sciences)	3

### Academic Learning Compact

The Bachelor of Arts in sustainability studies requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

## Before Graduating Students Must

- Complete a capstone or independent research project, present your results to a committee of the program's faculty and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.

# Students in the Major Will Learn to

## Student Learning Outcomes (SLOs)

### Content

1. Define and explain sustainability scholarship, including natural scientific, social scientific and humanistic approaches.
2. Define and explain the relationship of sustainability to ethics, culture and human behavior; economics, law and policy; production systems and the built environment; ecology and environmental stewardship.

### Critical Thinking

3. Critically assess sustainability principles and practices.

### Communication

4. Effectively write and/or orally communicate a range of approaches, frameworks, principles and practices of sustainability.

## Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

# Sustainability Studies Minor

The interdisciplinary Sustainability Studies minor benefits from the teaching and research of faculty in multiple departments and colleges, and complements any major.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 18 | Completed with minimum grades of C

## Department Information

Sustainability Studies prepares students for global citizenship while providing a broad foundation of sustainability knowledge and professional skill sets. Students gain experience and put their learning to work in the capstone internship course, Sustainability in Action.

**Website** (<https://sustainability.clas.ufl.edu/>)

### CONTACT

302 ANDERSON HALL  
GAINESVILLE FL 32611-7325  
Map (<http://campusmap.ufl.edu/#/index/0007>)

Curriculum

- Sustainability Studies
- Sustainability Studies Minor

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
IDS 2154	Facets of Sustainability	3
Select five approved electives with at least one from each cluster: <sup>1</sup>		15
Cluster A: Ethics, Culture and Human Behavior		
Cluster B: Economics, Law and Policy		
Cluster C: Production Systems and the Built Environment		
Cluster D: Ecology and Environmental Stewardship		
Total Credits		18

<sup>1</sup> A minimum of three courses of no fewer than three credits each must be at the 3000 level or above.

Students may apply to enroll in IDS 4942, a 3-credit capstone course that has a service learning, internship, or integrative research project component. If accepted into this capstone course students need only complete four cluster courses (12 credits), one from each of the four clusters.

Approved Cluster Courses

Courses for each cluster include those listed as approved cluster courses (p. ) for the sustainability studies major, plus the following options:

Code	Title	Credits
Cluster A		
AMH 2631	History of Sustainability	3
ANT 2402	Anthropology of Sustainability	3
CLA 2521	Classical Antiquity and Sustainability (GE-H)	3
PSY 3626	Psychology of Sustainability (Gen Ed Humanities)	3
REL 2071	Sustainability and Religion (GE-H)	3
Cluster B		
ECO 2310	Economics of Sustainability	3
POS 2032	Politics of Sustainability (GE-S)	3
Cluster C		
No additional courses		
Cluster D		
BSC 2862	Global Change Ecology and Sustainability (GE-B)	3
GEO 2351	Geographical Sciences and Sustainability	3

Teaching English as a Second Language Certificate

The Teaching English as a Second Language (TESL) certificate is for students who want to teach English as a second language to adults, overseas or in the US.

About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 18 | Completed with minimum grades of C
- More info (<http://lin.ufl.edu/undergraduate/tesl/tesl-certificate/>)
- Student Learning Outcomes (SLOs) (<https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes>)

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Linguistics Department offers the PhD, MA (both thesis and non-thesis), BA, and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level, and a SLAT (Second Language Acquisition and Teaching) certificate at the graduate

level. We currently have almost 30 faculty (combining budgeted and affiliated personnel), well over 100 undergraduate majors, and approximately 40 graduate students.

**Website** (<https://lin.ufl.edu/>)

P.O. Box 115454

4131 TURLINGTON HALL

GAINESVILLE FL 32611-5454

Map (<http://campusmap.ufl.edu/#/index/0267>)

### Curriculum

- Combination Degrees
- Linguistics
- Linguistics Minor
- Teaching English as a Second Language Certificate
- Teaching English as a Second Language Minor

*The certificate is open to students in any undergraduate program.*

Students may earn either the TESL certificate or minor but not both.

## Required Courses

Code	Title	Credits
LIN 3010	Introduction to Linguistics <sup>1</sup>	3
LIN 3680	Modern English Structure	3
LIN 4721	Second Language Acquisition <sup>1</sup>	3
TSL 3360	Introduction to Teaching English as a Second Language	3
TSL 3378	Pronunciation for Teaching English as a Second Language	3
TSL 4940	Teaching English as a Second Language Internship <sup>2</sup>	3
<b>Total Credits</b>		<b>18</b>

<sup>1</sup> Linguistics majors may count LIN 3010 and LIN 4721 toward both the major in linguistics and the TESL certificate.

<sup>2</sup> Prerequisite: completion of at least four of the courses above. Fifth course must be taken simultaneously with TSL 4940.

## Teaching English as a Second Language Minor

The Teaching English as a Second Language (TESL) minor is intended for undergraduates who might want to work in English language programs in the United States or abroad.

### About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 15 | Completed with minimum grades of C
- **More Info**

### Department Information

The Linguistics Department offers the PhD, MA (both thesis and non-thesis), BA, and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level, and a SLAT (Second Language Acquisition and Teaching) certificate at the graduate level. We currently have almost 30 faculty (combining budgeted and affiliated personnel), well over 100 undergraduate majors, and approximately 40 graduate students.

### Curriculum

- Combination Degrees
- Linguistics
- Linguistics Minor
- Teaching English as a Second Language Certificate
- Teaching English as a Second Language Minor

All work must be completed at UF. Only LIN 3010 and LIN 4721 may count toward both a linguistics major and a TESL minor. Students may earn either the TESL certificate or minor but not both.

## Required Courses

Code	Title	Credits
LIN 3010	Introduction to Linguistics	3
LIN 3680	Modern English Structure	3
LIN 4721	Second Language Acquisition	3
TSL 3360	Introduction to Teaching English as a Second Language	3
TSL 3378	Pronunciation for Teaching English as a Second Language	3
<b>Total Credits</b>		<b>15</b>

## Theories and Politics of Sexuality Minor

The Theories and Politics of Sexuality minor is useful for anyone who is curious about the place of sexuality and the institutions and practices organized around it (marriage, reproduction, the law, etc.) in life and culture.

### About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 18 | Completed with minimum grades of C

### Department Information

The Department of Gender, Sexuality, and Women's Studies offers academic programs, grants graduate and undergraduate degrees, and advances research in the discipline. Faculty in the department successfully compete for national fellowships and grants, win research and teaching awards, and produce rigorous and transformative research.

**Website** (<http://wst.ufl.edu/>)

### CONTACT

200 USTLER HALL

GAINESVILLE FL 32611-7352

Map (<http://campusmap.ufl.edu/#/index/0014>)

### Curriculum

- Combination Degrees
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Women's Studies
- Women's Studies Minor

Students pursuing the Women's Studies major are not eligible to receive the minor in Theories and Politics of Sexuality (TPS).

- 18 credits of approved coursework
  - 3 credits of either WST 3603 or ENG 4844 (If a student wants to take both classes, one can count as an elective)
  - 15 credits of TPS approved electives as designated on the Women's Studies website. See the Courses (<https://wst.ufl.edu/courses/>) page for listings each semester.

- Students may count three credits of WST 2611 or WST 2612 or department-approved Quest courses towards their elective credits for the minor; the remaining 15 credits must be at the 3000-level or above.
- No more than three credits of internship or independent study may apply to the minor.
- All courses must be passed with minimum grades of C except internships, which are taken S/U.
- Six transfer credits can apply toward the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Each semester, classes approved for this minor will be listed on the Women's Studies courses webpage and flagged TPS.

More Info (<http://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/>)

## Required Courses

Code	Title	Credits
WST 3603	Sexualities Studies	3
or ENG 4844	Queer Theory	
Women's Studies-approved TPS electives (3000-level or above) <sup>1</sup>		15
<b>Total Credits</b>		<b>18</b>

<sup>1</sup> 3 credits of WST 2611 or WST 2612 or department-approved Quest courses may be substituted for one 3 credit 3000-level approved elective.

## Translation Studies Certificate

The Translation Studies certificate prepares students with advanced foreign language proficiency to use these skills in the global marketplace. Learn the foundations of translation theory, and apply an array of tools, methods, and approaches to translation of a variety of texts. In the capstone project, the student translates a text in their area of expertise under the supervision of area, translation, and language specialists.

### About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 9 | Completed with minimum grades of C
- Student Learning Outcomes (SLOs) (<https://public.tableau.com/app/profile/uf.oipr4918/viz/UFStudentLearningOutcomesCertificatesOnly/StudentLearningOutcomes/?publish=yes>)

*Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*

### Admission Requirements

- An A- or higher in 3<sup>rd</sup>-year (advanced) language courses in Classics, LLC or SPS
  - OR: high score of proficiency on a standardized language exam or equivalent;
- At least one writing enhanced course;
- Informal recommendation from language instructor willing to oversee capstone project;
- Informal recommendation from instructor in student's major willing to oversee capstone project.

## Required Courses

## Women's Studies

Women’s Studies explores how gender impacts people’s lives and how it connects with other social systems such as race, class, and sexuality. The program draws on interdisciplinary scholarship to deepen students’ critical thinking, analytical skills, and practice. Students take courses (<https://wst.ufl.edu/courses/courses-in-the-center-undergraduate/>) taught by award-winning faculty in the Department of Gender, Sexuality, and Women’s Studies, and may take approved courses (<https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/>) offered in departments across the university as electives. Students are encouraged to pursue opportunities in experiential learning through internships (<https://wst.ufl.edu/internships/>) and mentored research.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Degree:** Bachelor of Arts
- **Concentrations:** General Concentration | International Perspectives on Gender | Race, Power, and Social Justice | Theories and Politics of Sexuality
- **Credits for Degree:** 120
- **More info**

To graduate with this major, students must complete all university, college, and major requirements.

## Department Information

The Department of Gender, Sexuality, and Women's Studies offers academic programs, grants graduate and undergraduate degrees, and advances research in the discipline. Faculty in the department successfully compete for national fellowships and grants, win research and teaching awards, and produce rigorous and transformative research.

## Curriculum

- Combination Degrees
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Women's Studies
- Women's Studies Minor

Students may elect to follow the general concentration in the major or choose one of the optional specialized concentrations: Health Equity and Social Justice; International Perspectives on Gender; Race, Power, and Social Justice; or Theories and Politics of Sexuality. Minors are available in Women's Studies, Theories and Politics of Sexuality, and Health Disparities in Society. All the courses of study offer a rigorous academic curriculum, along with exciting experiential learning opportunities. The major culminates in an independent capstone project.

Women's Studies majors complete their degrees ready to make competitive applications to graduate and professional school, or to pursue careers in a wide variety of fields, including education, journalism, community activism, arts and entertainment, international relations, law, and health professions. Students should refer to the department website or contact the Women's Studies undergraduate coordinator ([undergrad@wst.ufl.edu](mailto:undergrad@wst.ufl.edu)) for a complete course listing.

More Info (<http://wst.ufl.edu/>)

## Coursework for the Major

The major requires 30 credits of coursework in Women's Studies core and elective courses, at least 24 credits of which must be at the 3000/4000 level. All 30 credits must be completed with minimum grades of C. Students have the option to take elective courses from a variety of departments in addition to those classes offered under the WST prefix designation.

Students are encouraged to fulfill some of the requirements with appropriate study-abroad courses and may petition the program to count courses outside of WST toward the major if they have significant (greater than 50 percent) gender, sexuality, and women's studies content. Students should use the approved plan of study (<http://wst.ufl.edu/undergraduate-studies/forms/>) worksheets to plan and track their progress through the degree. Many courses offered in other departments are approved for Women's Studies credit and a semester-by-semester list of them is maintained on the program's website.

More Info (<https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/>)

## Required Coursework

A minimum of 18 credits for the major must be taken at UF. A minimum of 24 credits for the major must be at the 3000-level or above.

Code	Title	Credits
WST 3015	Interdisciplinary Perspectives in Women's Studies	3
WST 4935	Capstone Seminar <sup>1</sup>	3
<i>Major Core Category A: Race (select one):</i>		3
AFA 3332	Black Feminist and Womanist Theory	
WST 3610	Gender, Race and Science	
WST 3703	History of American Medicine: Race, Class, Gender, and Science	
WST 4002	Data Feminisms	
WST 4383	Latinx Sexualities

<b>Total Credits</b>		<b>15</b>

<sup>1</sup> Prereq.: WST 3015

<sup>2</sup> Other WST courses and approved gender, sexuality, and women's studies-related courses from other departments.

## Combination Degree Programs

Women's Studies is a vibrant discipline that contributes to and is informed by multiple disciplines and fields of study. The undergraduate and masters level programs provide general training in critical thinking, written and oral communication, and specific training in analysis of gender and how it connects with other social systems such as race, class, and sexualities. The combination BA/MA degree offers a useful program for well-qualified students who may want to pursue further studies in a PhD program or pursue careers in a variety of fields such as social service, law, art, health, business, education, policy planning, government and nongovernment organizations, and international development. This accelerated program allows students to complete both the BA and the MA in 5 years, rather than the typical 6 years if done separately. The BA/MA program provides advanced training in research and analytic skills, which will be helpful for future employment and/or doctoral studies.

More info (<http://wst.ufl.edu/undergraduate-studies/bama-degree/>)

## Concentrations

### General Concentration

Students in the general concentration tailor their coursework for maximum exposure to the various issues covered by Gender, Sexuality, and Women's Studies scholarship.

Students will take:

1. 15 credits of core requirements comprising WST 3015, one Category A (Race) core course, one Category B (Sexualities) core course, one Category C (Transnational) core course, and WST 4935.
2. 15 credits from an approved list of electives available on the program's website (<https://wst.ufl.edu/courses/>), updated each semester.

Note:

- Elective credits may include up to 6 credits of experiential learning such as internship, undergraduate research, independent study, or honors thesis
- Elective credits may come from courses with the WST prefix (<https://wst.ufl.edu/courses/>) or approved courses from other programs (<https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/>)
- At least 24 of the required 30 credits for the major must be at the 3000-level or higher
- If the student takes 6 credits at the 2000-level or lower, at least three of the credits must have a WST prefix

### Health Equity and Social Justice (HESJ)

This concentration emphasizes scholarly ways of theorizing how gender functions with other social systems to influence health and how addressing social inequalities can promote health equity.

Students will take:

1. 15 credits of core requirements comprising WST 3015, one Category A (Race) core course, one Category B (Sexualities) core course, one Category C (Transnational) core course, and WST 4935.
2. 9 credits of approved HESJ electives from an approved list of electives available on the program's website (<https://wst.ufl.edu/courses/>), updated each semester.
3. 6 additional credits of approved WST electives which may or may not carry the HESJ designation

Note:

- Elective credits may include up to 6 credits of experiential learning such as internship, undergraduate research, independent study, or honors thesis
- Elective credits may come from courses with the WST prefix (<https://wst.ufl.edu/courses/>) or approved courses from other programs (<https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/>)
- At least 24 of the required 30 credits for the major must be at the 3000-level or higher
- If the student takes 6 credits at the 2000-level or lower, at least three of the credits must have a WST prefix

### **International Perspectives on Gender (IPG)**

This concentration emphasizes scholarly ways of theorizing experiences of people around the globe, with a transnational perspective on gender, race, nation, sexuality, and power.

Students will take:

1. 15 credits of core requirements comprising WST 3015, one Category A (Race) core course, one Category B (Sexualities) core course, one Category C (Transnational) core course, and WST 4935.
2. 9 credits of approved IPG electives (3 of which can also fulfill Core Category C requirement) from an approved list of electives available on the program's website (<https://wst.ufl.edu/courses/>), updated each semester.
3. 6 additional credits of approved WST electives which may or may not carry the IPG designation (OR 9 additional credits if one of the courses taken to fulfill #1 also fulfills #2 above); total credits for the major must add up to 30

Note:

- Elective credits may include up to 6 credits of experiential learning such as internship, undergraduate research, independent study, or honors thesis
- Elective credits may come from courses with the WST prefix (<https://wst.ufl.edu/courses/>) or approved courses from other programs (<https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/>)
- At least 24 of the required 30 credits for the major must be at the 3000-level or higher
- If the student takes 6 credits at the 2000-level or lower, at least three of the credits must have a WST prefix

### **Race, Power, and Social Justice (RPSJ)**

This concentration emphasizes scholarly ways of theorizing race and its significance in social organization and culture as it intersects with other social systems.

Students will take:

1. 15 credits of core requirements comprising WST 3015, one Category A (Race) core course, one Category B (Sexualities) core course, one Category C (Transnational) core course, and WST 4935.
2. 9 credits of approved RPSJ electives (3 of which can also fulfill Core Category A requirement) from an approved list of RPSJ electives available on the program's website (<https://wst.ufl.edu/courses/>), updated each semester.
3. 6 additional credits of approved WST electives which may or may not carry the RPSJ designation (OR 9 additional credits if one of the courses taken to fulfill #1 also fulfills #2 above); total credits for the major must add up to 30

Note:

- Elective credits may include up to 6 credits of experiential learning such as internship, undergraduate research, independent study, or honors thesis
- Elective credits may come from courses with the WST prefix (<https://wst.ufl.edu/courses/>) or approved courses from other programs (<https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/>)
- At least 24 of the required 30 credits for the major must be at the 3000-level or higher
- If the student takes 6 credits at the 2000-level or lower, at least three of the credits must have a WST prefix

### **Theories and Politics of Sexuality (TPS)**

This concentration emphasizes scholarly ways of theorizing sex, sexual identities, and the significance of sexualities in social organization and culture as they intersect with other social systems.

Students will take:

1. 15 credits of core requirements comprising WST 3015, one Category A (Race) core course, one Category B (Sexualities) core course, one Category C (Transnational) core course, and WST 4935.

2. 9 credits of approved TPS electives (3 of which can also fulfill Core Category B requirement) from an approved list of electives available on the program's website (<https://wst.ufl.edu/courses/>), updated each semester.
3. 6 additional credits of approved WST electives which may or may not carry the TPS designation (OR 9 additional credits if one of the courses taken to fulfill #1 also fulfills #2 above); total credits for the major must add up to 30

Note:

- Elective credits may include up to 6 credits of experiential learning such as internship, undergraduate research, independent study, or honors thesis
- Elective credits may come from courses with the WST prefix (<https://wst.ufl.edu/courses/>) or approved courses from other programs (<https://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/>)
- At least 24 of the required 30 credits for the major must be at the 3000-level or higher
- If the student takes 6 credits at the 2000-level or lower, at least three of the credits must have a WST prefix

## Course Details

All students, regardless of concentration, take 15 credits of required coursework:

- WST 3015 draws on various materials and methodologies to explore the social construction of women and gender as they intersect with other forms of power; 3 credits.
- One course from each major core category: Category A (Race), Category B (Sexualities), and Category C (Transnational); 9 credits total.
- WST 4935 is taken in the final year and allows students to reflect on their experience in the major and carry their interests forward through structured independent research tied to their scholarly or career interests; 3 credits.

All students also take 15 credits of electives. Students should check the specialization descriptions to see guidelines for selecting elective courses.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

Women's Studies is a flexible major without a specific gateway course or prerequisites for most upper-division courses. All classes with the WST prefix can count toward the major; additionally, we count some gender- and sexuality-related courses from other programs as well. Two 2000-level classes can count toward the major; however, at least one of those classes must have the WST prefix. Check the program's website for a semester-specific listing of approved courses.

More Info <https://wst.ufl.edu/courses/>

Students should:

- Maintain a 2.0 overall UF GPA and a 2.5 critical-tracking GPA
- Complete four Women's Studies courses by the fifth semester; at least two of them must be 3000-level or above. WST 3015 is required (WST 2611 or WST 2612 can allow progression to semester 6, if necessary); students should take WST 3015 by semester 4.
- Completing at least one Category A, B, or C class by semester 5 is highly recommended.

## Semester 1

- 2.0 UF GPA required

## Semester 2

- 2.0 UF GPA required

## Semester 3

- Complete one Women's Studies course
- 2.0 UF GPA required

## SEMESTER 4

- Complete 1 additional Women's Studies course (WST 3015 recommended) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## SEMESTER 5

- Complete 2 additional Women's Studies courses with a 2.5 critical-tracking GPA. One class must be WST 3015 if not taken yet; WST 2611 or WST 2612 could also allow progress to semester 6 (recommendation: at least one Category A, B, or C class if not taken yet). At least two of the four courses taken to date for the major must be at the 3000 level or higher.
- 2.0 UF GPA required

## SEMESTER 6

- Complete 2 additional Women's Studies courses at the 3000 or 4000 level; at least one class must be WST 3015 if not taken yet (recommendations: at least one Category A, B, or C class if not taken yet). At least four of the six courses taken to date for the major must be at the 3000-level or higher.
- 2.0 UF GPA required

## SEMESTER 7

- Complete 2 additional Women's Studies courses at the 3000 or 4000 level (recommendations: at least one Category A, B, or C class if not taken yet, WST 4935 this semester or next). At least six of the eight courses taken to date for the major must be at the 3000-level or higher.
- 2.0 UF GPA required

## SEMESTER 8

- Complete 2 additional Women's Studies courses at the 3000 level at least one Category A, B, or C class if not taken yet, WST 4935 if not taken yet. At least eight of the ten courses taken to date for the major must be at the 3000-level or higher.
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically Quest 1 or 2), although some Women's Studies courses also carry these designations. CLAS requires all students to take 18 credits of electives at the 3000-level or higher outside the major. Therefore, Women's Studies and gender-related courses that count toward your major may not also count towards the CLAS 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities)		3
State Core Gen Ed Composition (p. 67); Writing Requirement		3
State Core Gen Ed Mathematics (p. 67)		3

Reminder: only 6 credits of 2000-level courses or below can be applied to the major.	
<b>Credits</b>	<b>15</b>
<b>Total Credits</b>	<b>120</b>

<sup>1</sup> Recommended; or Category A, B, or C course; or other approved WST elective.

<sup>2</sup> One general education option taken this term must be a Quest 2 course.

## Academic Learning Compact

The Bachelor of Arts in women and gender studies provides knowledge of the core concepts of the interdisciplinary fields of gender and women's studies. It offers insights into gender's role in shaping human experience in U.S. and international contexts. Students will learn the theories behind gender and women's studies and how to interpret texts in light of those theories. They will also learn the field's research methods and they will demonstrate the ability to communicate critical perspectives in the field.

## Before Graduating Students Must

- Satisfactorily complete an internship with an outside agency, a service learning course or a research-based project submitted for evaluation to core or affiliated women's studies faculty. Assessment will be based on SLOs 1-3.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to Student Learning Outcomes (SLOs)

### Content

1. Identify the terminology and concepts central to the interdisciplinary field of gender and women's studies.

### Critical Thinking

2. Examine and interpret material using the theory and research methods of gender and women's studies and apply these ideas to current social issues.

### Communication

3. Present ideas concerning gender and women's studies in spoken and written form.

## Women's Studies Minor

Women's Studies explores the ways gender impacts people's lives as it intersects with other systems of power such as race, class, and sexuality. The minor draws on interdisciplinary scholarship to promote equity and social justice while deepening students' critical thinking and analytical skills. Students take courses taught by award-winning faculty in the Department of Gender, Sexuality, and Women's Studies, and may take approved courses offered in departments across the university as electives. There are also opportunities to engage in experiential learning through internships and mentored research. The minor is open to students from across the university, including those outside the College of Liberal Arts and Sciences.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Credits:** 18 | Completed with minimum grades of C

## Department Information

The Department of Gender, Sexuality, and Women's Studies offers academic programs, grants graduate and undergraduate degrees, and advances research in the discipline. Faculty in the department successfully compete for national fellowships and grants, win research and teaching awards, and produce rigorous and transformative research.

**Website** (<http://wst.ufl.edu/>)

## CONTACT

Email ([undergrad@wst.ufl.edu](mailto:undergrad@wst.ufl.edu)) | 352.392.3365 (tel) | 352.392.4873 (fax)

## Curriculum

- Combination Degrees
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor

- Women's Studies
- Women's Studies Minor

## Requirements

- No more than three credits of independent study or internship may apply to the minor.
- All courses must be completed with minimum grades of C except internships, which are taken S/U.
- Six transfer credits can apply toward the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.
- At least 15 credits for the minor must be at the 3000-level or above; up to 3 credits may be at the 2000-level if they have the WST prefix or are on a list of department-approved Quest courses.

Each semester, classes approved for this minor will be listed on the Women's Studies courses webpage.

More Info (<http://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor/>)

## Required Courses

Code	Title	Credits
WST 3015	Interdisciplinary Perspectives in Women's Studies	3
Women's Studies-approved electives (3000 level or above) <sup>1</sup>		15
<b>Total Credits</b>		<b>18</b>

<sup>1</sup> 3 credits of WST courses at the 2000-level or department-approved Quest courses may be substituted for one 3 credit 3000-level approved elective.

---

## Zoology

Zoology majors focus on the study of individual organisms and populations, as well as their relationships to each other and the environment, with the core foundation of evolution and ecology. Courses also emphasize the disciplines of anatomy, behavior, genetics, physiology, and other specialized fields.

## About this Program

- **College:** Liberal Arts and Sciences (p. 1008)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **More info**

*To graduate with this major, students must complete all university, college, and major requirements.*

## Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

### Curriculum

- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS

- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

Courses introduce Zoology majors to a wide variety of topics while allowing individual interests to be pursued. Advanced undergraduate students are encouraged to participate in research with faculty.

Most career opportunities require advanced studies beyond the bachelor's degree. This includes preparation for graduate studies or employment in disciplines such as zoology, ecology, conservation, and biology research; preparation for medical, dental, or veterinary programs; or preparation for secondary-school teaching.

Ultimately, the undergraduate degree in zoology will be shaped by students' coursework, laboratory experience, field work, and the instructors they encounter. These experiences will help to shape their goals as biologists with a focus on Zoology.

Majors should work both with a department advisor and a CLAS advisor. CLAS advisors will assist with degree requirements, university and college policy and course selection. Department advisors will help students select appropriate graduate programs, guide them in the admissions process, and help identify appropriate career choices.

More Info (<https://biology.ufl.edu/undergraduates/zoology/>)

## Coursework for the Major

A Zoology major consists of a minimum of 32 credits of core zoology coursework plus a minimum of 31 credits of foundation coursework in chemistry, physics, and mathematics/statistics. Courses used toward the major must be completed with minimum grades of C.

Code	Title	Credits
<b>Required Foundation Coursework</b>		
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory	4
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory	4
CHM 2210	Organic Chemistry 1	3
CHM 2211 & 2211L	Organic Chemistry 2 and Organic Chemistry Laboratory	5
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312 or STA 2023	Analytic Geometry and Calculus 2 Introduction to Statistics 1	3-4
Select one:		8-10
Option A		
PHY 2053 & 2053L	Physics 1 and Laboratory for Physics 1	
PHY 2054 & 2054L	Physics 2 and Laboratory for Physics 2	
Option B		
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for Physics with Calculus 1	
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for Physics with Calculus 2	
<b>Required Core Coursework</b>		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2	4
PCB 3063	Genetics	4
Zoology or zoology-related electives		20
Select at least three courses in zoology:		9-10
One or more 3000/4000-level ZOO course(s) offered through the Department of Biology <sup>1</sup>		
BSC 3402	Theory and Practice in the Biological Sciences	
BSC 4936	Critical Analysis of Biological Research	
PCB 4043C	General Ecology	
PCB 4674	Evolution	
PCB 4723C	Physiology and Molecular Biology of Animals	
PCB 5415C	Behavioral Ecology	

Additional zoology courses (minimum) <sup>2,3</sup>	11
<b>Total Credits</b>	<b>83-87</b>

- <sup>1</sup> Students may not apply ZOO 4232, ZOO 4905, ZOO 4911, or ZOO 4940 toward this requirement.
- <sup>2</sup> Including up to two zoology major-approved biological science courses (<https://biology.ufl.edu/undergraduates/approvedcourses/>) (3000/5000 level) outside of zoology.
- <sup>3</sup> Up to six credits of Individual Studies in Zoology will count toward this requirement:

- BOT 4911
  - BSC 4910
  - BSC 4912
  - ZOO 4905
  - ZOO 4911

Students should begin the chemistry and math sequences as soon as possible. A full year of calculus and a course in statistics (such as STA 2023) are highly recommended.

Transfer students must take at least three courses from the Department of Biology (excluding ZOO 4905, ZOO 4911, and ZOO 4940) at the University of Florida as part of the requirements for the major.

Additional Zoology Courses

Code	Title	Credits
Additional 3000/4000-level ZOO course(s) offered through the Department of Biology <sup>1,2</sup>		
Up to two zoology-major approved biological sciences courses offered outside the Department of Biology <sup>3</sup>		
BSC 3911	Entering Research in Biology	1

- <sup>1</sup> Up to six credits of Individual Studies in Zoology will count toward this requirement:

- BOT 4911
  - BSC 4910
  - BSC 4912
  - ZOO 4905
  - ZOO 4911
- <sup>2</sup> Students may not apply ZOO 4232 or ZOO 4940 toward this requirement.
- <sup>3</sup> More Info (<https://biology.ufl.edu/undergraduates/approvedcourses/>)

Relevant Minors and/or Certificates

Majors in Zoology can minor in most other disciplines, and this is a good way to organize students’ electives around areas of interest. For instance, a Zoology major can earn a minor in chemistry by adding just two chemistry courses: CHM 3400, CHM 3610, or any 4000-level CHM course. Students could also consider language and humanities minors. Note that Zoology majors cannot minor in Biology, nor can Biology majors minor in Zoology, as the curricula for the Zoology and Biology majors are too similar.

Zoology students might want to consider the UFTeach Program. There is a severe shortage of qualified high school science teachers in Florida and nationwide. Students interested in the high-demand teaching profession should see a biology department advisor or the UFTeach advisor. Students who complete the UFTeach minor in science teaching and a BS in Zoology will have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (<http://education.ufl.edu/uf-teach/>)

Research

All Zoology majors are strongly encouraged to participate in research. Research experience is valuable on many levels: it diversifies a student’s college experience; it teaches students how scientists apply the knowledge gained in the classroom to real-world questions; it gives students the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting-edge scientific questions and techniques; it enhances students’ resume/CV if they apply to graduate or professional school; and finally, it is essential in helping students determine if science is a good career choice for them.

More Info (<https://biology.ufl.edu/undergraduates/research/>)

CLAS Zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, HHMI Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Please visit Undergraduate Research for more information regarding course credit. Students who plan to enroll for course credit must contact potential research mentors before the end of drop/add. If they miss the drop/add window, they should still contact potential research mentors, if only to discuss upcoming opportunities.

More Info (<https://cur.aa.ufl.edu/>)

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete one of the following in BSC, CHM, or MAC: BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1114, MAC 1140, MAC 1147, or MAC 2311
- 2.0 UF GPA required

## Semester 2

- Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
- 2.0 UF GPA required

## Semester 3

- Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 4

- Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 5

- Complete CHM 2210 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

## Semester 6

- Complete at least one 3000/4000 level course towards the required core coursework (3000/4000 level ZOO course, PCB 3063, BSC 3402, PCB 4043C, PCB 4674, PCB 5415C, PCB 4723C, or approved biological science course)
- 2.0 UF GPA required

## Semester 7

- Complete Physics I requirement: PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
- Complete at least two 3000/4000 level courses towards the required core coursework
- 2.0 UF GPA required

## Semester 8

- Complete all remaining major course requirements.
- 2.0 UF GPA required

## Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Approved Zoology electives outside of the department may not count towards the 3000 level or above elective outside of the major requirement. CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities)		3

Semester Eight

Electives (3000 level or above, not in major, if needed)	4
Foreign language	5
Zoology course	3-5
Zoology course (or other approved biological sciences course)	3-4
Credits	15-18
Total Credits	120

<sup>1</sup> Select CHM 2211 if CHM 2210 was taken Semester 3.

Academic Learning Compact

The Bachelor of Science in zoology offers students an education in the life sciences with an emphasis on animal systems. Students gain knowledge about the diversity of life (its evolution and significance) and about the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). They will learn about the scientific method and how it facilitates the discovery of new knowledge in zoology and biology. This includes how to critically evaluate hypotheses and conclusions in science using verifiable data and how to clearly and effectively communicate the major concepts and hypotheses in zoology and biology and in an appropriate style of presentation.

Before Graduating Students Must

- Pass an assessment in the two or three 3000/5000-level zoology courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to  
Student Learning Outcomes (SLOs)

Content

1. Identify, describe and define the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
BSC 2010	I	I	I	
BSC 2011	I	I	I

## Curriculum

- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

A minimum of nine credits must be completed at UF. Individual Studies in Zoology will not count toward the minor.

Code	Title	Credits
BSC 4910	Individual Mentored Research in Biology	3
BSC 4912	Advanced Mentored Research in Biology	4
BOT 4911	Undergraduate Research in Botany	3
ZOO 4905	Individual Studies in Zoology	1-4
ZOO 4911	Undergraduate Research in Zoology	3
ZOO 4940	Practical Experience in Teaching Zoology	2

Students pursuing majors of biology, entomology, food science and human nutrition, microbiology, natural resource conservation or wildlife ecology are not eligible to receive the minor in zoology.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

## Required Courses

Code	Title	Credits
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2	4
PCB or ZOO courses from the Department of Biology <sup>1</sup>		9-10
<b>Total Credits</b>		<b>17-18</b>

<sup>1</sup> Minimum of three courses and nine credits; must include at least one ZOO course.

Not all PCB and ZOO courses are offered by the Department of Biology. Students should search "Zoology" or "Biological Sciences" on <https://one.ufl.edu/soc/> to ensure that their desired courses are in the correct department.

Excluding PCB 1050, PCB 1051, PCB 2050, PCB 2441, PCB 3134, PCB 3601C, PCB 4233, PCB 4522, PCB 4917, ZOO 4232, and any other courses not offered by the Department of Biology.

---

## Natural Resources and Environment, School of

The School of Natural Resources and Environment provides interdisciplinary environmental degree programs and develops leaders with integrated thinking about natural and social systems. The school's undergraduate curriculum spans the range of human knowledge needed to solve complex environmental problems not amenable to narrowly based solutions.

### Contact

103 Black Hall

#### Academic Advising

103 Black Hall  
352.846.1634

### Established

1995

### Degrees

Bachelor of Science in environmental science with specializations in environmental science and natural resource management, and a Bachelor of Arts in environmental science with specializations in environmental education, environmental policy and environmental policy and business.

### Internships and Career Guidance

The dean's office maintains a list of potential sources of internships. The school grants course credit for internships (S-U grades, 1-3 credits, one per semester up to a maximum of three semesters) to enable maintenance of student status.

### Programs

The school operates horizontally across UF's structure of academic disciplines, offering more than 200 courses taught in 50 departments. Faculty members from these departments are affiliated with the school.

### Scholarships

General financial aid information is available from the Office of Student Financial Affairs. Students are eligible for scholarships awarded by the College of Agricultural and Life Sciences.

More Info (<http://cals.ufl.edu/students/scholarships.php>)

### Helpful Links

- School Website (<http://snre.ufl.edu/>)
- Combination Degrees (p. 1734)
- Computer Requirement (<http://www.it.ufl.edu/policies/student-computing-requirements/>)

#### Academic Policies

### Admission Requirements

Admission requirements for freshmen and students other than first-semester freshmen are found in the College of Agricultural and Life Sciences' Academic Policies.

## School Requirements and Regulations

Students admitted to the school have full responsibility for registering for appropriate courses and fulfilling school and university requirements. During their first term in the school, students must obtain academic advising and a plan of study worksheet from 103 Black Hall.

Students should review the relevant information in this catalog each term to track and plan the progress of their academic work. Failure to understand and follow these guidelines could cause unnecessary hardship, delay and expense.

## Probation

Refer to the College of Agricultural and Life Sciences' Academic Policies.

### Degree Requirements

Graduation requires satisfactory completion of 120 credits for the BS or BA degree and a cumulative 2.00 GPA in both the upper-division and the overall UF GPA.

Graduating with Honors (p. 1717)

### Programs

## MAJORS

- Combination Degrees
- Environmental Science

## MINORS

- Environmental Science Minor

## Combination Degrees

Eligible seniors in the School of Natural Resources and Environment can also participate in a combination degree that combines a BA/BS in environmental science with a Master of Science in interdisciplinary ecology.

More Info (p. 1734)

---

## Environmental Science

Environmental Science integrates natural and social sciences to study the interrelationships between people and nature. Using an interdisciplinary approach that incorporates academic fields like ecology, hydrology, earth and soil sciences, natural resource management, ethics, as well as environmental policy and law, the Environmental Science program empowers students to analyze complex environmental issues across multiple perspectives. In doing so, Environmental Science students learn to assess causes of environmental problems and apply their knowledge to develop solutions to these problems.

## About this Program

- **College:** Agricultural and Life Sciences (p. 105)
- **School:** Natural Resources and Environment (p. 1617)
- **Degrees:** Bachelor of Arts (p. 1620) | Bachelor of Science (p. 1629)
- **Credits for Degree:** 120

P.O. Box 116455  
103 BLACK HALL

GAINESVILLE FL 32611-6455

Map (<http://campusmap.ufl.edu/#/index/0724>)

### Curriculum

- Combination Degrees
- Environmental Science
- Environmental Science Minor

The School of Natural Resources and Environment's environmental science degrees approach complex environmental issues with multidisciplinary academic knowledge and interdisciplinary perspectives to prepare graduates for jobs in environmental consulting companies, government environmental offices, land and water management agencies, or non-government organizations. SNRE's environmental science degrees are campus-wide programs, allowing students to learn from experts in multiple academic units at the University of Florida. Multiple course options are available to meet most degree requirements, giving students a large degree of flexibility in customizing their program of study to suit their individual interests with the assistance of our advising staff.

About half of Environmental Science students advance to graduate or professional degree programs. The combination of the school's broad undergraduate degree with a subsequent graduate or professional degree is highly marketable.

The school also offers a combination degree program that pairs a bachelor's degree in environmental science with a Master of Science in interdisciplinary ecology.

## Requirements and Differences Between BA and BS Degrees

Both Bachelor of Science and Bachelor of Arts degrees prepare students for a wide range of careers in environmental science. The BS places greater emphasis on the natural sciences, whereas the BA is more focused on the social sciences and their application to economics, policy, and management.

The freshmen and sophomore years lay a foundation of coursework through critical tracking classes for building later expertise. Students need to know the natural sciences of physics, chemistry, and biology. Study of microeconomics and macroeconomics is required to understand the human economy. Introductory statistics empowers students to independently evaluate quantitative data. College algebra (BA) and an introduction to calculus (BS) enable students to work with rates of change, the heart of ecological science.

Critical-Tracking Requirement	B.A.	B.S.
Biological Sciences	BSC 2010/L & BSC 2011/L (8 credits)	BSC 2010/L & BSC 2011/L (8 credits)
General Chemistry	CHM 2045/L (4 credits)	CHM 2045/L & CHM 2046/L (8 credits)
Economics	ECO 2013 & ECO 2023 (8 credits)	AEB 3103 (4 credits) or ECO 2013 & ECO 2023 (8 credits)
Mathematics	MAC 1147 (4 credits)	MAC 2311 (4 credits) or MAC 2233 (3 credits)
Physics	PHY 2004 (3 credits) or PHY 2020 (3 credits)	PHY 2004/L (4 credits) or PHY 2048/L (4 credits) or PHY 2053/L (5 credits)
Statistics	STA 2023 (3 credits)	STA 2023 (3 credits)
Public Speaking	AEC 3030C (3 credits) or SPC 2608 (3 credits)	N/A
<b>Total</b>	<b>33 credits</b>	<b>30-36 credits</b>

In addition to the critical tracking requirements, students admitted as freshmen are responsible for completing the university's general education and writing requirements.

Certain critical tracking and core courses simultaneously fulfill general education and writing requirements, and students should seek to maximize the number of overlapping courses for efficiency. For most students, all but 15 credit hours of the general education requirement are met through the B.A. and B.S. curriculum.

- Biological and Physical Science and Mathematics requirements are satisfied through critical tracking coursework
- The Social and Behavioral Science requirement is satisfied through critical tracking coursework and the civic literacy requirement. SNRE recommends POS 2041 to meet the civic literacy requirement.
- Humanities: choosing Humanities courses that simultaneously meet the International and Diversity General Education requirements is recommended. To meet the state core requirement, recommended options are ARH 2000, MUL 2010, and THE 2000. For Quest 1 courses that also include Gen Ed International or Diversity, see <http://undergrad.aa.ufl.edu/uf-quest/students/quest-courses/>.
- Additional Required: this requirement is met by critical tracking and Quest 2.
- Composition: one General Education Composition course is chosen according to placement. The required writing course ENC 3254 fulfills the remaining requirement.

- **Writing Requirement:** the General Education Composition class awards 6000 words, as does ENC 3254. The remaining 12000 words should be earned by a combination of eligible core classes and electives.

After General Education and most critical-tracking coursework is complete, students begin to take the degree's core courses (40-46 credits for the BA, 40-47 credits for the BS), providing a base of common knowledge and experience in subjects essential to Environmental Science. During the fourth year, students enroll in SNRE's capstone course that further develops and assesses critical thinking skills by confronting conflicts of ecological and economic paradigms, synthesizing across physical, biological, and social systems, and engaging diverse knowledge and views to help resolve key environmental problems.

Core Requirement	B.A.	B.S.
Foundation Courses	7 credits	7 credits
General Ecology	3-4 credits	3-4 credits
Ecology of Specific Systems	N/A	3 credits
Earth and Soil Science	3-4 credits	3-4 credits
Hydrologic Systems	3-4 credits	3-4 credits
Global Systems	3-4 credits	3-4 credits
Methods and Technology	N/A	3-4 credits
Organic Chemistry	N/A	3 credits
Natural Resource Management	3-4 credits	3-4 credits
Resource Economics	3-4 credits	N/A
Environmental Ethics	3 credits	3 credits
Environmental Policy and Law	6 credits	3-4 credits
Social Science Perspectives	3 credits	N/A
Capstone Course	3 credits	3 credits
<b>Total</b>	<b>40-46 credits</b>	<b>40-47 credits</b>

Beyond the core requirements, each student selects additional credits from a wide list of approved electives according to individual interest, allowing them to broaden their skillset or specialize in a particular aspect of environmental science.

Elective Requirement	B.A.	B.S.
Communication & Leadership	3-6 credits	N/A
Additional Skills and Concepts	6-15 credits	6-15 credits
Biological Sciences	3-12 credits	6-15 credits
Physical Sciences	N/A	3-15 credits
Human Dimensions	6-15 credits	3-9 credits

## Bachelor of Arts

Environmental Science integrates natural and social sciences to study the interrelationships between people and nature. Using an interdisciplinary approach that incorporates academic fields like ecology, hydrology, earth and soil sciences, natural resource management, ethics, as well as environmental policy and law, the Environmental Science program empowers students to analyze complex environmental issues across multiple perspectives. In doing so, Environmental Science students learn to assess causes of environmental problems and apply their knowledge to develop solutions to these problems.

## About this Program

- **College:** Agricultural and Life Sciences (p. 105)
- **School:** Natural Resources and Environment (p. 1617)
- **Degrees:** Bachelor of Arts (p. 1620) | Bachelor of Science (p. 1629)
- **Credits for Degree:** 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

## School Information

The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.

**Website** (<http://snre.ifas.ufl.edu/>)

## Curriculum

- Combination Degrees
- Environmental Science
- Environmental Science Minor

The School of Natural Resources and Environment's environmental science degrees approach complex environmental issues with multidisciplinary academic knowledge and interdisciplinary perspectives to prepare graduates for jobs in environmental consulting companies, government environmental offices, land and water management agencies, or non-government organizations. SNRE's environmental science degrees are campus-wide programs, allowing students to learn from experts in multiple academic units at the University of Florida. Multiple course options are available to meet most degree requirements, giving students a large degree of flexibility in customizing their program of study to suit their individual interests with the assistance of our advising staff.

About half of Environmental Science students advance to graduate or professional degree programs. The combination of the school's broad undergraduate degree with a subsequent graduate or professional degree is highly marketable.

The school also offers a combination degree program that pairs a bachelor's degree in environmental science with a Master of Science in interdisciplinary ecology.

## Requirements and Differences Between BA and BS Degrees

Both Bachelor of Science and Bachelor of Arts degrees prepare students for a wide range of careers in environmental science. The BS places greater emphasis on the natural sciences, whereas the BA is more focused on the social sciences and their application to economics, policy, and management.

The freshmen and sophomore years lay a foundation of coursework through critical tracking classes for building later expertise. Students need to know the natural sciences of physics, chemistry, and biology. Study of microeconomics and macroeconomics is required to understand the human economy. Introductory statistics empowers students to independently evaluate quantitative data. College algebra (BA) and an introduction to calculus (BS) enable students to work with rates of change, the heart of ecological science.

Critical-Tracking Requirement	B.A.	B.S.
Biological Sciences	BSC 2010/L & BSC 2011/L (8 credits)	BSC 2010/L & BSC 2011/L (8 credits)
General Chemistry	CHM 2045/L (4 credits)	CHM 2045/L & CHM 2046/L (8 credits)
Economics	ECO 2013 & ECO 2023 (8 credits)	AEB 3103 (4 credits) or ECO 2013 & ECO 2023 (8 credits)
Mathematics	MAC 1147 (4 credits)	MAC 2311 (4 credits) or MAC 2233 (3 credits)
Physics	PHY 2004 (3 credits) or PHY 2020 (3 credits)	PHY 2004/L (4 credits) or PHY 2048/L (4 credits) or PHY 2053/L (5 credits)
Statistics	STA 2023 (3 credits)	STA 2023 (3 credits)
Public Speaking	AEC 3030C (3 credits) or SPC 2608 (3 credits)	N/A
<b>Total</b>	<b>33 credits</b>	<b>30-36 credits</b>

In addition to the critical tracking requirements, students admitted as freshmen are responsible for completing the university's general education and writing requirements.

Certain critical tracking and core courses simultaneously fulfill general education and writing requirements, and students should seek to maximize the number of overlapping courses for efficiency. For most students, all but 15 credit hours of the general education requirement are met through the B.A. and B.S. curriculum.

- Biological and Physical Science and Mathematics requirements are satisfied through critical tracking coursework
- The Social and Behavioral Science requirement is satisfied through critical tracking coursework and the civic literacy requirement. SNRE recommends POS 2041 to meet the civic literacy requirement.
- Humanities: choosing Humanities courses that simultaneously meet the International and Diversity General Education requirements is recommended. To meet the state core requirement, recommended options are ARH 2000, MUL 2010, and THE 2000. For Quest 1 courses that also include Gen Ed International or Diversity, see <http://undergrad.aa.ufl.edu/uf-quest/students/quest-courses/>.

- Additional Required: this requirement is met by critical tracking and Quest 2.
- Composition: one General Education Composition course is chosen according to placement. The required writing course ENC 3254 fulfills the remaining requirement.
- Writing Requirement: the General Education Composition class awards 6000 words, as does ENC 3254. The remaining 12000 words should be earned by a combination of eligible core classes and electives.

After General Education and most critical-tracking coursework is complete, students begin to take the degree's core courses (40-46 credits for the BA, 40-47 credits for the BS), providing a base of common knowledge and experience in subjects essential to Environmental Science. During the fourth year, students enroll in SNRE's capstone course that further develops and assesses critical thinking skills by confronting conflicts of ecological and economic paradigms, synthesizing across physical, biological, and social systems, and engaging diverse knowledge and views to help resolve key environmental problems.

Core Requirement	B.A.	B.S.
Foundation Courses	7 credits	7 credits
General Ecology	3-4 credits	3-4 credits
Ecology of Specific Systems	N/A	3 credits
Earth and Soil Science	3-4 credits	3-4 credits

Environmental Ethics	3 credits	3 credits
Environmental Policy and Law	6 credits	3-4 credits
Social Science Perspectives	3 credits	N/A
Capstone Course	3 credits	3 credits
<b>Total</b>	<b>40-46 credits</b>	<b>40-47 credits</b>

Beyond the core requirements, each student selects additional credits from a wide list of approved electives according to individual interest, allowing them to broaden their skillset or specialize in a particular aspect of environmental science.

Elective Requirement	B.A.	B.S.
Communication & Leadership	3-6 credits	N/A
Additional Skills and Concepts	6-15 credits	6-15 credits
Biological Sciences	3-12 credits	6-15 credits
Physical Sciences	N/A	3-15 credits
Human Dimensions	6-15 credits	3-9 credits

## Bachelor of Arts

The Bachelor of Arts degree in environmental science focuses on the social sciences that connect the natural sciences and engineering to society. Emphasis is placed in the areas of environmental policy & law and resource economics, making the B.A. the preferred degree for students interested in the policy aspects of environmental consulting and public agency work or advancing to law school.

### Core Requirements for the Bachelor of Arts

Code	Title	Credits
<b>Required Foundation Courses</b>		
ENC 3254	Professional Writing in the Discipline (Gen Ed Composition)	3
EVS 3000 & 3000L	Environmental Science 1 and Environmental Science Laboratory	4
<b>Environmental Ethics</b>		
Select one:		3
AEB 4126	Agricultural and Natural Resource Ethics (Gen Ed Humanities or Social and Behavioral Sciences)	
AEC 3322	Moral Leadership in Agriculture and Natural Resources	
ANT 4403	Environment and Cultural Behavior	
EVS 4932	Special Topics in Environmental Science	
PSY 3626	Psychology of Sustainability	

REL 2104	Environmental Ethics (Gen Ed Humanities)	
REL 3492	Religion Ethics and Nature (Gen Ed Humanities)	
<b>General Ecology</b>		<b>3-4</b>
PCB 4043C or WIS 3404	General Ecology (Gen Ed Biological Sciences) Natural Resource Ecology	
<b>Earth and Soil Science</b>		
Select one:		3-4
GEO 2200 & 2200L	Dynamic Planet Earth and Dynamic Planet Earth Laboratory (Gen Ed Physical Sciences)	
GLY 2010C	Physical Geology (Gen Ed Physical Sciences, B.S. only)	
GLY 2030C	Environmental and Engineering Geology (Gen Ed Physical Sciences)	
SWS 3022 & 3022L	Introduction to Soils in the Environment and Introduction to Soils in the Environment Laboratory (Gen Ed Physical Sciences)	
<b>Global Systems</b>		
Select one:		3-4
BSC 3307C	Climate Change Biology	
GEO 3250	Climatology	
GEO 3334	Managing for a Changing Climate	
GLY 3074	Oceans and Global Climate Change	
OCE 1001	Introduction to Oceanography	
<b>Hydrologic Systems</b>		
Select one:		3-4
AOM 4643	Environmental Hydrology: Principles and Issues	
FNR 4343C	Forest Water Resources	
GEO 3280	Principles of Geographic Hydrology (Gen Ed Physical Sciences)	
GLY 3882C	Hydrogeology and Human Affairs	
SWS 4244	Wetlands	
<b>Environmental Policy and Law</b>		
Select two:		6
AEB 4123	Agricultural and Natural Resource Law	
AEB 4282	International Humanitarian Assistance (Gen Ed Social and Behavioral Sciences and International)	
AEB 4283	International Development Policy (Gen Ed Social and Behavioral Sciences)	
FNR 4660	Natural Resource Policy and Economics	
INR 4035	Rich and Poor Nations in the International System	
INR 4350	International Environmental Relations (Gen Ed Social and Behavioral Sciences and International)	
<b>Natural Resource Management</b>		
Select one:		3-4
ALS 3133	Agricultural and Environmental Quality	
EVR 3323	Introduction to Ecosystem Restoration	
FAS 4305C	Introduction to Fishery Science	
FNR 4624C	Field Operations for Management of Ecosystems	
FOR 4090	Urban Forestry	
FOR 4664	Sustainable Ecotourism Development	
GEO 3372	Conservation of Resources	
IPM 3022	Fundamentals of Pest Management	
SWS 4116	Environmental Nutrient Management (Gen Ed Physical Sciences)	
SWS 4233	Soil and Water Conservation	
SWS 4245	Water Resource Sustainability	
WIS 4523	Human Dimensions of Natural Resource Conservation	
<b>Resource Economics</b>		<b>3-4</b>
AEB 3450 or ECP 3302	Introduction to Natural Resource and Environmental Economics (Gen Ed Social and Behavioral Sciences) Environmental Economics and Resource Policy	
<b>Social Science Perspectives</b>		
Select one:		3
ANT 2402	Anthropology of Sustainability	
BCN 1582	International Sustainable Development	
IDS 2154	Facets of Sustainability	
SYD 4020	Population	
SYD 4021	U.S. Population Issues	

WST 3610	Gender, Race and Science	
<b>Required Capstone Course</b>		
EVS 4021	Critical Thinking in Environmental Science	3
<b>Total Credits</b>		<b>40-46</b>

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete 2 of 9 critical-tracking courses, excluding labs: AEC 3030C or SPC 2608, BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, ECO 2013, ECO 2023, MAC 1147, PHY 2020 or PHY 2004, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

## Semester 2

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

## Semester 3

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

## Semester 4

- Complete 2 additional critical-tracking courses
- Complete at least 1 core course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

## Semester 5

- Complete all 9 critical-tracking courses
- Complete at least 1 core course
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

## Semester 6

- Complete at least 2 core classes
- 2.0 upper division GPA required
- 2.0 UF GPA required

## Semester 7

- Complete at least 1 core course
- 2.0 upper division GPA required
- 2.0 UF GPA required

## Semester 8

- Complete EVS 4021 (capstone) and the remaining courses for the degree
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities with Diversity or International)		3
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 ( <b>Critical Tracking</b> ; State Core Gen Ed Biological and Physical Sciences)	4
MAC 1147	Precalculus Algebra and Trigonometry ( <b>Critical Tracking</b> ; State Core Gen Ed Mathematics) <sup>1</sup>	4
Gen Ed Composition (according to placement)		3
	<b>Credits</b>	<b>14</b>
<b>Semester Two</b>		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 ( <b>Critical Tracking</b> ; State Core Gen Ed Biological and Physical Sciences)	4
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory ( <b>Critical Tracking</b> ; State Core Gen Ed Biological and Physical Sciences)	4
Civic Literacy Requirement (recommended: POS 2041)		3
State Core Gen Ed Humanities with Diversity or International (p. 67)		3
	<b>Credits</b>	<b>14</b>
<b>Semester Three</b>		
Quest 2 (Gen Ed Social & Behavioral Sciences or Gen Ed Biological Sciences and Physical Sciences)		3
AEC 3030C or SPC 2608	Effective Oral Communication ( <b>Critical Tracking</b> ) or Introduction to Public Speaking	3
ECO 2013	Principles of Macroeconomics ( <b>Critical Tracking</b> ; State Core Gen Ed Social and Behavioral Sciences)	4
STA 2023	Introduction to Statistics 1 ( <b>Critical Tracking</b> ; Gen Ed Mathematics)	3
Earth and Soil Science Core course		3-4
	<b>Credits</b>	<b>16-17</b>
<b>Semester Four</b>		
ECO 2023	Principles of Microeconomics ( <b>Critical Tracking</b> ; Gen Ed Social and Behavioral Sciences)	4
ENC 3254	Professional Writing in the Discipline (Gen Ed Composition)	3
Select one:		3
PHY 2004	Applied Physics 1 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences)	
PHY 2020	Introduction to Principles of Physics ( <b>Critical Tracking</b> )	
General Ecology Core course		3-4
Environmental Policy & Law Core course		3
	<b>Credits</b>	<b>16-17</b>
<b>Semester Five</b>		
EVS 3000 & 3000L	Environmental Science 1 and Environmental Science Laboratory	4
Environmental Ethics Core course		3
Environmental Policy & Law Core course		3
Resource Economics Core course		3-4
Natural Resource Management Core course		3-4
	<b>Credits</b>	<b>16-18</b>
<b>Semester Six</b>		
Global Systems Core course		3-4
Hydrologic Systems Core course		3-4
Social Science Perspectives Core course		3

Electives for the major <sup>1</sup>		6
	<b>Credits</b>	<b>15-17</b>
<b>Semester Seven</b>		
Electives for the major <sup>1</sup>		12
Elective		3
	<b>Credits</b>	<b>15</b>
<b>Semester Eight</b>		
EVS 4021	Critical Thinking in Environmental Science ( <b>Critical Tracking</b> )	3
Electives for the major (if needed) <sup>1</sup>		11
	<b>Credits</b>	<b>14</b>
	<b>Total Credits</b>	<b>120</b>

<sup>1</sup> From Approved Electives list.

## Approved Electives

Beyond the core requirements, each student selects additional credits from a wide list of approved electives according to individual interest, allowing students to broaden their skillset or specialize in a particular aspect of environmental science.

## Elective Requirement

- Communication & Leadership 3-6 credits
- Additional Skills and Concepts 6-15 credits
- Biological Sciences 3-12 credits
- Human Dimensions 6-15 credits

Students interested in taking courses not on the master list, including requirements for pre-Veterinary and pre-Medical students, must contact the undergraduate coordinator for approval.

Students can substitute appropriate graduate courses for electives, with approval of the school and permission of the instructor. To substitute a 5000-level course or higher, the student must have senior standing and a minimum junior/senior-level GPA of 3.0.

Transfer and HSAA students may enroll in ALS 4932 Connecting with CALS (3 credits) and count the class towards their Environmental Science major as a Human Dimensions elective.

## Master List

Code	Title	Credits
<b>Communication &amp; Leadership</b>		
Select 3-6 credits		
AEC 3071	Social Media Strategy and Leadership for Agricultural and Life Sciences	3
AEC 3073	Intercultural Communication	3
AEC 3209	Instructional and Event Planning in Agricultural and Life Sciences	3
AEC 3413	Working with People: Interpersonal Leadership Skills	3
AEC 3414	Leadership Development	3
AEC 4434	Communication and Leadership in Groups and Teams	3
AEC 4465	Global Leadership	3
<b>Biological Sciences</b>		
Select 3-12 credits		
AGR 3303	Genetics	3
ALS 3153	Agricultural Ecology	3
ALS 4162	Consequences of Biological Invasions	3
ANT 3514C	Introduction to Biological Anthropology	4
BOT 2011C	Plant Diversity	4
BOT 2710C	Practical Plant Taxonomy	3
BOT 3151C	Local Flora of North Florida	3
ENY 3005	Principles of Entomology	3
& 3005L	and Principles of Entomology Laboratory	
ENY 4208	Ecology and Conservation of Pollinators	3
ENY 4161	Insect Classification	3
ENY 4210	Insects and Wildlife	3

FAS 4175	Algae Biology and Ecology	3
FAS 4270	Marine Ecological Processes	3
FNR 3131C	Dendrology/Forest Plants	3
FOR 3153C	Forest Ecology	3
FOR 3214	Fire Ecology and Management	3
& 3214L	and Fire Ecology and Management Laboratory	
FOR 4110	Ecology and Restoration of Longleaf Pine Ecosystems	3
FOR 4934	Topics in Natural Resources	1-4
GEO 4300	Environmental Biogeography	3
PCB 2441	Biological Invaders	3
PCB 3063	Genetics	4
PCB 4674	Evolution	4
PCB 3601C	Plant Ecology	3
PLP 4653C	Basic Fungal Biology	4
PLS 3004C	Principles of Plant Science	3
VME 4013	Aquatic Wildlife Health Issues	3
VME 4016	Manatee Health and Conservation	3
WIS 3402	Wildlife of Florida	4
& 3402L	and Wildlife of Florida Laboratory	
WIS 3410	The Ecology of Climate Change	3
WIS 3553C	Introduction to Conservation Genetics	4
WIS 4203C	Landscape Ecology and Conservation	3
WIS 4454	Ecology of Bird Introductions and Invasions	3
WIS 4501	Introduction to Wildlife Population Ecology	3
ZOO 4050	Animal Behavior	3
ZOO 4205C	Invertebrate Biodiversity	4
ZOO 4307C	Vertebrate Biodiversity	4
ZOO 4403C	Marine Biology	4
ZOO 4405	Sea Turtle Biology and Conservation	3
ZOO 4472C	Avian Biology	4

#### Human Dimensions

Select 6-15 credits

Any courses listed under Natural Resource Management, Environmental Ethics Core, Environmental Policy & Law Core, and Social Science Perspectives not counted towards the core requirement, as well as:

AEB 4085	Agricultural Risk Management and the Law	3
CLA 2521	Classical Antiquity and Sustainability	3
DCP 3210	Sustainable Solutions for the Built Environment	3
DCP 3220	Social and Cultural Sustainability and the Built Environment	3
FOR 3202	Society and Natural Resources	3
FYC 3401	Introduction to Social and Economic Perspectives on the Community	3
FYC 3521	Community Food Systems	3
GEA 2270	Geography of Florida	3
GEA 3500	Geography of Europe	3
GEA 3600	Geography of Africa	3
GEA 4465	Amazonia	3
GEO 2006	Natural Hazards Geography	3
GEO 2500	Global and Regional Economies	3
GEO 3315	Hungry Planet: Global Geographies of Food	3
GEO 3352	The Human Footprint on Landscape	3
GEO 3427	Plants, Health and Spirituality	3
GEO 3430	Population Geography	3
GEO 3502	Economic Geography	3
HIS 3465	The Scientific Revolution	3
PHC 4320	Environmental Concepts in Public Health	3
POS 2112	American State and Local Government	3
REL 3160	Religion and Science	3
SWS 4231C	Soil, Water and Land Use	3
SWS 4550	Soils, Water and Public Health	3
SWS 4932	Special Topics in Soil and Water Science	1-3
SYD 3395	Sociology of Globalization	3
SYO 4530	Social Inequality	3
SYA 4930	Special Study (Climate Change & Society)	3

SYA 4930	Special Study (Introduction to Conservation Criminology)	3
WOH 3404	Global History of Energy	3

**Additional Skills and Concepts**

Select 6-15 credits

<i>Business Management &amp; Finance</i>		
ACG 2021	Introduction to Financial Accounting	
AEB 3133	Principles of Agribusiness Management	
AEC 4500	Program Development and Evaluation	
BUL 4310	The Legal Environment of Business	
FIN 3403	Business Finance	
MAN 3025	Principles of Management	
<i>Economics</i>		
ECO 3101	Intermediate Microeconomics	
ECO 3203	Intermediate Macroeconomics	
ECO 3704	International Trade	
<i>Introductory GIS</i> <sup>1</sup>		
FOR 3434C	Forest Resources Information Systems	
GIS 3043C	Foundations of Geographic Information Systems	
GIS 3072C	Geographic Information Systems	
SWS 4720C	GIS in Soil and Water Science	
URP 4273	Survey of Planning Information Systems	
<i>Environmental Technology</i>		
AOM 4521	Introduction to Biofuels	
HOS 3281C	Organic and Sustainable Crop Production	
<i>Additional Math and Statistics</i>		
FOR 4934	Topics in Natural Resources	
MAC 2233	Survey of Calculus 1	
MAC 2311	Analytic Geometry and Calculus 1	
STA 3024	Introduction to Statistics 2	
STA 3100	Programming With Data in R	
<i>Methods</i>		
FNR 3410C	Natural Resource Sampling	
GIS 4021C	Aerial Photo Interpretation	
SWS 4800	Environmental Soil and Water Monitoring Techniques	
SYA 4300	Methods of Social Research	
<i>Additional Concepts</i>		
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory	
EES 3008	Energy and Environment	
EVS 4949	Environmental Science Internship	
FNR 4070C	Environmental Education Program Development	
URP 4000	Preview of Urban and Regional Planning	
GEO 2242	Extreme Weather	

<sup>1</sup> Students should not enroll in more than one of the following courses: FOR 3434C, GIS 3043C, GIS 3072C, URP 4273, SWS 4720C.

## Academic Learning Compact

Environmental science is the science of humanity's role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.

## BEFORE GRADUATING STUDENTS MUST

- Complete at least one course in each of the foundation areas.
- Complete requirements for the baccalaureate degree, as determined by faculty.

# STUDENTS IN THE MAJOR WILL LEARN TO

## Student Learning Outcomes (SLOs)

### Content

1. Apply acquired knowledge of basic terminology, concepts, methodologies, and theories in the physical and biological sciences that describe environmental systems.
2. Apply acquired knowledge of essential concepts in the social sciences that describe human activity in the environment.

### Critical Thinking

3. Develop reasoned solutions to environmental problems through application of the scientific method.

### Communication

4. Communicate knowledge, ideas, and reasoning clearly, effectively and objectively in both written and oral forms.

## Curriculum Map

*I = Introduced; R = Reinforced; A = Assessed*

Courses	SLO 1	SLO 2	SLO 3	SLO 4
ENC 3254				I
EVS 3000 and EVS 3000L	I	I	I	R
EVS 4021	A	A	A	A
Earth and Soil Sciences	R			
General Ecology	R		R	
Environmental Ethics		R		R
Environmental Policy & Law		R		R

## ASSESSMENT TYPES

- Oral presentation or written essay

## Bachelor of Science

Environmental Science integrates natural and social sciences to study the interrelationships between people and nature. Using an interdisciplinary approach that incorporates academic fields like ecology, hydrology, earth and soil sciences, natural resource management, ethics, as well as environmental policy and law, the Environmental Science program empowers students to analyze complex environmental issues across multiple perspectives. In doing so, Environmental Science students learn to assess causes of environmental problems and apply their knowledge to develop solutions to these problems.

## About this Program

- **College:** Agricultural and Life Sciences (p. 105)
- **School:** Natural Resources and Environment (p. 1617)
- **Degrees:** Bachelor of Arts (p. 1620) | Bachelor of Science (p. 1629)
- **Credits for Degree:** 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

## School Information

The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.

**Website** (<http://snre.ifas.ufl.edu/>)

**CONTACT**

GAINESVILLE FL 32611-6455

Map (<http://campusmap.ufl.edu/#/index/0724>)

**Curriculum**

- Combination Degrees
- Environmental Science
- Environmental Science Minor

The School of Natural Resources and Environment's environmental science degrees approach complex environmental issues with multidisciplinary academic knowledge and interdisciplinary perspectives to prepare graduates for jobs in environmental consulting companies, government environmental offices, land and water management agencies, or non-government organizations. SNRE's environmental science degrees are campus-wide programs, allowing students to learn from experts in multiple academic units at the University of Florida. Multiple course options are available to meet most degree requirements, giving students a large degree of flexibility in customizing their program of study to suit their individual interests with the assistance of our advising staff.

About half of Environmental Science students advance to graduate or professional degree programs. The combination of the school's broad undergraduate degree with a subsequent graduate or professional degree is highly marketable.

The school also offers a combination degree program that pairs a bachelor's degree in environmental science with a Master of Science in interdisciplinary ecology.

**Requirements and Differences Between BA and BS Degrees**

Both Bachelor of Science and Bachelor of Arts degrees prepare students for a wide range of careers in environmental science. The BS places greater emphasis on the natural sciences, whereas the BA is more focused on the social sciences and their application to economics, policy, and management.

The freshmen and sophomore years lay a foundation of coursework through critical tracking classes for building later expertise. Students need to know the natural sciences of physics, chemistry, and biology. Study of microeconomics and macroeconomics is required to understand the human economy. Introductory statistics empowers students to independently evaluate quantitative data. College algebra (BA) and an introduction to calculus (BS) enable students to work with rates of change, the heart of ecological science.

<b>Critical-Tracking Requirement</b>	<b>B.A.</b>	<b>B.S.</b>
Biological Sciences	BSC 2010/L & BSC 2011/L (8 credits)	BSC 2010/L & BSC 2011/L (8 credits)
General Chemistry	CHM 2045/L (4 credits)	CHM 2045/L & CHM 2046/L (8 credits)
Economics	ECO 2013 & ECO 2023 (8 credits)	AEB 3103 (4 credits) or ECO 2013 & ECO 2023 (8 credits)
Mathematics	MAC 1147 (4 credits)	MAC 2311 (4 credits) or MAC 2233 (3 credits)
Physics	PHY 2004 (3 credits) or PHY 2020 (3 credits)	PHY 2004/L (4 credits) or PHY 2048/L (4 credits) or PHY 2053/L (5 credits)
Statistics	STA 2023 (3 credits)	STA 2023 (3 credits)
Public Speaking	AEC 3030C (3 credits) or SPC 2608 (3 credits)	N/A
<b>Total</b>	<b>33 credits</b>	<b>30-36 credits</b>

In addition to the critical tracking requirements, students admitted as freshmen are responsible for completing the university's general education and writing requirements.

Certain critical tracking and core courses simultaneously fulfill general education and writing requirements, and students should seek to maximize the number of overlapping courses for efficiency. For most students, all but 15 credit hours of the general education requirement are met through the B.A. and B.S. curriculum.

- Biological and Physical Science and Mathematics requirements are satisfied through critical tracking coursework
- The Social and Behavioral Science requirement is satisfied through critical tracking coursework and the civic literacy requirement. SNRE recommends POS 2041 to meet the civic literacy requirement.
- Humanities: choosing Humanities courses that simultaneously meet the International and Diversity General Education requirements is recommended. To meet the state core requirement, recommended options are ARH 2000, MUL 2010, and THE 2000. For Quest 1 courses that also include Gen Ed International or Diversity, see <http://undergrad.aa.ufl.edu/uf-quest/students/quest-courses/>.

- Additional Required: this requirement is met by critical tracking and Quest 2.
- Composition: one General Education Composition course is chosen according to placement. The required writing course ENC 3254 fulfills the remaining requirement.
- Writing Requirement: the General Education Composition class awards 6000 words, as does ENC 3254. The remaining 12000 words should be earned by a combination of eligible core classes and electives.

After General Education and most critical-tracking coursework is complete, students begin to take the degree's core courses (40-46 credits for the BA, 40-47 credits for the BS), providing a base of common knowledge and experience in subjects essential to Environmental Science. During the fourth year, students enroll in SNRE's capstone course that further develops and assesses critical thinking skills by confronting conflicts of ecological and economic paradigms, synthesizing across physical, biological, and social systems, and engaging diverse knowledge and views to help resolve key environmental problems.

Core Requirement	B.A.	B.S.
Foundation Courses	7 credits	7 credits
General Ecology	3-4 credits	3-4 credits
Ecology of Specific Systems	N/A	3 credits
Earth and Soil Science	3-4 credits	3-4 credits
Hydrologic Systems	3-4 credits	3-4 credits
Global Systems	3-4 credits	3-4 credits
Methods and Technology	N/A	3-4 credits
Organic Chemistry	N/A	3 credits
Natural Resource Management	3-4 credits	3-4 credits
Resource Economics	3-4 credits	N/A
Environmental Ethics	3 credits	3 credits
Environmental Policy and Law	6 credits	3-4 credits
Social Science Perspectives	3 credits	N/A
Capstone Course	3 credits	3 credits
<b>Total</b>	<b>40-46 credits</b>	<b>40-47 credits</b>

Beyond the core requirements, each student selects additional credits from a wide list of approved electives according to individual interest, allowing them to broaden their skillset or specialize in a particular aspect of environmental science.

Elective Requirement	B.A.	B.S.
Communication & Leadership	3-6 credits	N/A
Additional Skills and Concepts	6-15 credits	6-15 credits
Biological Sciences	3-12 credits	6-15 credits
Physical Sciences	N/A	3-15 credits
Human Dimensions	6-15 credits	3-9 credits

## Bachelor of Science

Environmental Science integrates natural and social sciences to study the interrelationships between people and nature. Using an interdisciplinary approach that incorporates academic fields like ecology, hydrology, earth and soil sciences, natural resource management, ethics, as well as environmental policy and law, the Environmental Science program empowers students to analyze complex environmental issues across multiple perspectives. In doing so, Environmental Science students learn to assess causes of environmental problems and apply their knowledge to develop solutions to these problems.

The Bachelor of Science degree in environmental science emphasizes the applied sciences and the basic sciences from which they derive. The track is designed to prepare for employment or for graduate or professional school.

### Core Requirements for the Bachelor of Science

Code	Title	Credits
<b>Required Foundation Courses</b>		
ENC 3254	Professional Writing in the Discipline (Gen Ed Composition)	3
EVS 3000 & 3000L	Environmental Science 1 and Environmental Science Laboratory	4
<b>Environmental Ethics</b>		<b>3</b>
Select one:		

AEB 4126	Agricultural and Natural Resource Ethics (Gen Ed Humanities or Social and Behavioral Sciences)	
AEC 3322	Moral Leadership in Agriculture and Natural Resources	
ANT 4403	Environment and Cultural Behavior	
EVS 4932	Special Topics in Environmental Science	
PSY 3626	Psychology of Sustainability	
REL 2104	Environmental Ethics (Gen Ed Humanities)	
REL 3492	Religion Ethics and Nature (Gen Ed Humanities)	
<b>General Ecology</b>		<b>3-4</b>
PCB 4043C or WIS 3404	General Ecology (Gen Ed Biological Sciences) Natural Resource Ecology	
<b>Ecology of Specific Systems</b>		<b>3</b>
Select one:		
ALS 3153	Agricultural Ecology	
ENY 4208	Ecology and Conservation of Pollinators	
FOR 3153C	Forest Ecology	
FOR 4110	Ecology and Restoration of Longleaf Pine Ecosystems	
SWS 4303C	Soil Microbial Ecology	
WIS 4501	Introduction to Wildlife Population Ecology	
<b>Organic Chemistry</b>		<b>3</b>
Select one:		
BCH 3023	Elementary Organic and Biological Chemistry	
CHM 2200	Fundamentals of Organic Chemistry	
CHM 2210	Organic Chemistry 1	
<b>Earth and Soil Science</b>		<b>3-4</b>
Select one:		
GEO 2200 & 2200L	Dynamic Planet Earth and Dynamic Planet Earth Laboratory (Gen Ed Physical Sciences)	
GLY 2010C	Physical Geology (Gen Ed Physical Sciences, B.S. only)	
GLY 2030C	Environmental and Engineering Geology (Gen Ed Physical Sciences)	
SWS 3022 & 3022L	Introduction to Soils in the Environment and Introduction to Soils in the Environment Laboratory (Gen Ed Physical Sciences)	
<b>Global Systems</b>		<b>3-4</b>
Select one:		
BSC 3307C	Climate Change Biology	
GEO 3250	Climatology	
GLY 3074	Oceans and Global Climate Change	
OCE 1001	Introduction to Oceanography	
SWS 4223	Environmental Biogeochemistry	
<b>Hydrologic Systems</b>		<b>3-4</b>
Select one:		
AOM 4643	Environmental Hydrology: Principles and Issues	
FNR 4343C	Forest Water Resources	
GEO 3280	Principles of Geographic Hydrology (Gen Ed Physical Sciences)	
GLY 3882C	Hydrogeology and Human Affairs	
SWS 4244	Wetlands	
<b>Environmental Policy and Law</b>		<b>3-4</b>
Select one:		
AEB 4123	Agricultural and Natural Resource Law	
AEB 4282	International Humanitarian Assistance (Gen Ed Social and Behavioral Sciences and International)	
AEB 4283	International Development Policy (Gen Ed Social and Behavioral Sciences)	
ECP 3302	Environmental Economics and Resource Policy	
FNR 4660	Natural Resource Policy and Economics	
INR 4035	Rich and Poor Nations in the International System	
INR 4350	International Environmental Relations (Gen Ed Social and Behavioral Sciences and International)	
<b>Natural Resource Management</b>		<b>3-4</b>
Select one:		
ALS 3133	Agricultural and Environmental Quality	
EVR 3323	Introduction to Ecosystem Restoration	
FAS 4305C	Introduction to Fishery Science	

FNR 4624C	Field Operations for Management of Ecosystems
FOR 4664	Sustainable Ecotourism Development
GEO 3372	Conservation of Resources
IPM 3022	Fundamentals of Pest Management
SWS 4116	Environmental Nutrient Management
SWS 4233	Soil and Water Conservation
SWS 4245	Water Resource Sustainability
WIS 4523	Human Dimensions of Natural Resource Conservation

**Methods and Technology****3-4**

Select one:

<i>Introductory GIS Courses</i> <sup>1</sup>	
GIS 3043C	Foundations of Geographic Information Systems
GIS 3072C	Geographic Information Systems
SWS 4720C	GIS in Soil and Water Science
URP 4273	Survey of Planning Information Systems
<i>Introductory Artificial Intelligence Courses</i>	
ALS 3200C	AI in Agricultural and Life Sciences
EEL 3872	Artificial Intelligence Fundamentals
<i>Programming and Modeling Courses</i>	
ABE 4641	Modeling Coupled Natural-Human Systems
BSC 2891	Python Programming for Biology
GIS 4102C	GIS Programming
<i>Quantitative Analysis Courses</i>	
GEO 3162C	Introduction to Quantitative Analysis for Geographers
SWS 4180	Earth System Analysis
WIS 4601C	Quantitative Wildlife Ecology
<i>Environmental Sampling and Monitoring Courses</i>	
SWS 4800	Environmental Soil and Water Monitoring Techniques
<i>Environmental Technology Courses</i>	
ABE 4655C	Bio-Based Products from Renewable Resources
AGG 4502	Nanotechnology in Food, Agriculture, and Environment
AOM 4521	Introduction to Biofuels
HOS 3281C	Organic and Sustainable Crop Production
<b>Required Capstone Course</b>	
EVS 4021	Critical Thinking in Environmental Science

**3****Total Credits****40-47**

<sup>1</sup> Students should not enroll in more than one of the following courses: FOR 3434C, GIS 3043C, GIS 3072C, URP 4273, SWS 4720C.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

**SEMESTER 1**

- Complete 2 of 9 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, ECO 2013 and ECO 2023 or AEB 3103, MAC 2233 or MAC 2311, PHY 2004/PHY 2004L or PHY 2048/PHY 2048L or PHY 2053/PHY 2053L, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**SEMESTER 2**

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 3

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 4

- Complete 3 additional critical-tracking courses
- Complete at least 1 core course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 5

- Complete all 9 critical-tracking courses
- Complete at least 1 core course
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

SEMESTER 6

- Complete at least 2 core classes
- 2.0 upper division GPA required
- 2.0 UF GPA required

SEMESTER 7

- Complete at least 1 core course
- 2.0 upper division GPA required
- 2.0 UF GPA required

SEMESTER 8

- Complete EVS 4021 (capstone) and the remaining courses for the degree
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities with Diversity or International)		3
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 ( <b>Critical Tracking</b> ; State Core Gen Ed Biological and Physical Sciences)	4
MAC 2233 or MAC 2311	Survey of Calculus 1 ( <b>Critical Tracking</b> ; State Core Gen Ed Mathematics) or Analytic Geometry and Calculus 1	3-4
Gen Ed Composition (according to placement)		3
	<b>Credits</b>	<b>13-14</b>
<b>Semester Two</b>		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 ( <b>Critical Tracking</b> ; State Core Gen Ed Biological and Physical Sciences)	4

CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory ( <b>Critical Tracking</b> ; State Core Gen Ed Biological and Physical Sciences)	4
Civic Literacy Requirement (recommended: POS 2041)		3
State Core Gen Ed Humanities with Diversity or International (p. 67)		3
<b>Credits</b>		<b>14</b>
<b>Semester Three</b>		
Quest 2 (Gen Ed Social & Behavioral Sciences or Gen Ed Biological Sciences and Physical Sciences)		3
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences)	4
STA 2023	Introduction to Statistics 1 ( <b>Critical Tracking</b> ; Gen Ed Mathematics)	3
Earth and Soil Science Core course		3-4
<b>Credits</b>		<b>13-14</b>
<b>Semester Four</b>		
Select one:		4
ECO 2013	Principles of Macroeconomics ( <b>Critical Tracking</b> ; Gen Ed Social and Behavioral Sciences)	
AEB 3103	Principles of Food and Resource Economics (Gen Ed Social and Behavioral Sciences)	
ENC 3254	Professional Writing in the Discipline (Gen Ed Composition)	3
Select one:		4-5
PHY 2004 & 2004L	Applied Physics 1 and Laboratory for Applied Physics 1 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences)	
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for Physics with Calculus 1 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences)	
PHY 2053 & 2053L	Physics 1 and Laboratory for Physics 1 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences)	
General Ecology Core course		3-4
Organic Chemistry Core course		3
<b>Credits</b>		<b>17-19</b>
<b>Semester Five</b>		
EVS 3000 & 3000L	Environmental Science 1 and Environmental Science Laboratory	4
Select one:		3-4
ECO 2023	Principles of Microeconomics ( <b>Critical Tracking</b> ; Gen Ed Social and Behavioral Sciences)	
Elective		
Ecology of Specific Systems Core course		3
Environmental Ethics Core course		3
Hydrologic Systems Core course		3-4
<b>Credits</b>		<b>16-18</b>
<b>Semester Six</b>		
Environmental Policy & Law Core course		3-4
Global Systems Core course		3-4
Methods and Technology Core course		3-4
Natural Resource Management Core course		3-4
Elective for the major <sup>1</sup>		3
<b>Credits</b>		<b>15-19</b>
<b>Semester Seven</b>		
Electives for the major <sup>1</sup>		12
Elective		3
<b>Credits</b>		<b>15</b>
<b>Semester Eight</b>		
EVS 4021	Critical Thinking in Environmental Science ( <b>Critical Tracking</b> )	3
Electives for the major (if needed) <sup>1</sup>		14
<b>Credits</b>		<b>17</b>
<b>Total Credits</b>		<b>120</b>

<sup>1</sup> From Approved Electives list.

## Approved Electives

Beyond the core requirements, each student selects additional credits from a wide list of approved electives according to individual interest, allowing students to broaden their skillset or specialize in a particular aspect of environmental science.

## Elective Requirement

- Additional Skills and Concepts 6-15 credits
- Biological Sciences 6-15 credits
- Physical Sciences 3-15 credits
- Human Dimensions 3-9 credits

Students interested in taking courses not on the master list, including requirements for pre-Veterinary and pre-Medical students, must contact the undergraduate coordinator for approval.

Students can substitute appropriate graduate courses for electives, with approval of the school and permission of the instructor. To substitute a 5000-level course or higher, the student must have senior standing and a minimum junior/senior-level GPA of 3.0.

Transfer and HSAA students may enroll in ALS 4932 (1 credit) and count the class towards their Environmental Science major as a Human Dimensions elective.

## MASTER LIST

Code	Title	Credits
<b>Physical Sciences</b>		
Select 3-15 credits		
Any courses listed under Earth and Soil Science Core not counted towards the core requirement, as well as:		
EES 3008	Energy and Environment	
EES 4203	Phase Partitioning in the Environment	
GEO 2242	Extreme Weather	
GEO 4281	River Forms and Processes	
GLY 2100C	Historical Geology	
GLY 3083C	Fundamentals of Marine Sciences	
GLY 3105C	Evolution of Earth and Life	
GLY 4155C	Geology of Florida	
GLY 4700	Geomorphology	
GLY 4734	Coastal Morphology and Processes	
GLY 4822	Groundwater Geology	
MET 3503	Weather and Forecasting	
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for Physics with Calculus 2	
PHY 2054	Physics 2	
& 2054L	and Laboratory for Physics 2	
SWS 4504	Aquatic Toxicology: Science and Applications	
SWS 4504	Aquatic Toxicology: Science and Applications (Environmental Pedology)	
<b>Biological Sciences</b>		
Select 6-15 credits		
Any courses listed under Ecology of Specific Systems Core not counted towards the core requirement, as well as		
AGR 3303	Genetics	3
ALS 4162	Consequences of Biological Invasions	3
ANT 3514C	Introduction to Biological Anthropology	4
BOT 2011C	Plant Diversity	4
BOT 2710C	Practical Plant Taxonomy	3
BOT 3151C	Local Flora of North Florida	3

SWS 4307	Ecology of Waterborne Pathogens	3
VME 4013	Aquatic Wildlife Health Issues	3
VME 4016	Manatee Health and Conservation	3
WIS 3401	Wildlife Ecology and Management	3
WIS 3402 & 3402L	Wildlife of Florida and Wildlife of Florida Laboratory	4
WIS 3410	The Ecology of Climate Change	3
WIS 3553C	Introduction to Conservation Genetics	4
WIS 4203C	Landscape Ecology and Conservation	3
WIS 4454	Ecology of Bird Introductions and Invasions	3
ZOO 4050	Animal Behavior	3
ZOO 4205C	Invertebrate Biodiversity	4
ZOO 4307C	Vertebrate Biodiversity	4
ZOO 4403C	Marine Biology	4
ZOO 4405	Sea Turtle Biology and Conservation	3
ZOO 4472C	Avian Biology	4

#### Human Dimensions

Select 3-9 credits

Any courses listed under Natural Resource Management Core, Environmental Ethics Core, and Environmental Policy & Law Core not counted towards the core requirement, as well as:

AEC 3073	Intercultural Communication	3
ANT 2402	Anthropology of Sustainability	3
BCN 1582	International Sustainable Development	3
CLA 2521	Classical Antiquity and Sustainability	3
DCP 3210	Sustainable Solutions for the Built Environment	3
DCP 3220	Social and Cultural Sustainability and the Built Environment	3
ENV 4601	Environmental Resources Management	3
FOR 3202	Society and Natural Resources	3
FYC 3401	Introduction to Social and Economic Perspectives on the Community	3
FYC 3521	Community Food Systems	3
GEA 2270	Geography of Florida	3
GEA 3500	Geography of Europe	3
GEA 3600	Geography of Africa	3
GEA 4465	Amazonia	3
GEO 2006	Natural Hazards Geography	3
GEO 2500	Global and Regional Economies	3
GEO 3315	Hungry Planet: Global Geographies of Food	3
GEO 3352	The Human Footprint on Landscape	3
GEO 3430	Population Geography	3
GEO 3502	Economic Geography	3
HIS 3465	The Scientific Revolution	3
PHC 4320	Environmental Concepts in Public Health	3
SWS 4231C	Soil, Water and Land Use	3
SWS 4550	Soils, Water and Public Health	3
SWS 4932	Special Topics in Soil and Water Science (Forest and Soil Ecosystem Services)	1-3
SYA 4930	Special Study (Climate Change & Society)	3
SYA 4930	Special Study (Environmental Change and Environmental Justice)	3

SYA 4930	Special Study (Introduction to Conservation Criminology)	3
SYD 3395	Sociology of Globalization	3
SYD 4020	Population	3
SYD 4021	U.S. Population Issues	3
SYO 4530	Social Inequality	3
WOH 3404	Global History of Energy	3
WST 3610	Gender, Race and Science	3
WST 4930	Special Topics (Data Feminism)	3

**Additional Skills and Concepts**

Select 6-15 credits

Any courses listed under Methods and Technology not counted towards the core requirement<sup>1</sup>, as well as:

AEC 3030C	Effective Oral Communication	3
BSC 4452	Computational Tools for Research in Biology	3
CHM 2200L	Fundamentals of Organic Chemistry Laboratory	1
CHM 2211	Organic Chemistry 2	5
& 2211L	and Organic Chemistry Laboratory	
EES 4201	Water Chemistry	3
EVS 4949	Environmental Science Internship	1-3
ENV 3040C	Computational Methods in Environmental Engineering	3
ENV 4041C	Environmental Analysis	4
FNR 3410C	Natural Resource Sampling	3
FOR 3434C	Forest Resources Information Systems <sup>1</sup>	3
FOR 4934	Topics in Natural Resources	1-4
GIS 3001C	Spatial Maps and Graphs	4
GIS 4021C	Aerial Photo Interpretation	3
GIS 4324	GIS Analysis of Hazard Vulnerability	3
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAC 2234	Survey of Calculus 2	3
MAP 2302	Elementary Differential Equations	3
MET 4750	Spatial Analysis of Atmospheric Data using GIS	3
SPC 2608	Introduction to Public Speaking	3
STA 3024	Introduction to Statistics 2	3
STA 4210	Regression Analysis	3
STA 4211	Design of Experiments	3
SUR 4380	Remote Sensing	3
SYA 4300	Methods of Social Research	4
URP 4000	Preview of Urban and Regional Planning	3

<sup>1</sup> Students should not enroll in more than one of the following courses: FOR 3434C, GIS 3043C, GIS 3072C, URP 4273, SWS 4720C.**Academic Learning Compact**

Environmental science is the science of humanity's role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.

**BEFORE GRADUATING STUDENTS MUST**

- Complete at least one course in each of the foundation areas.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## STUDENTS IN THE MAJOR WILL LEARN TO

### Student Learning Outcomes (SLOs)

#### Content

1. Apply acquired knowledge of basic terminology, concepts, methodologies, and theories in the physical and biological sciences that describe environmental systems.
2. Apply acquired knowledge of essential concepts in the social sciences that describe human activity in the environment.

#### Critical Thinking

3. Develop reasoned solutions to environmental problems through application of the scientific method.

#### Communication

4. Communicate knowledge, ideas, and reasoning clearly, effectively, and objectively in both written and oral forms.

### Curriculum Map

*I = Introduced; R = Reinforced; A = Assessed*

Courses	SLO 1	SLO 2	SLO 3	SLO 4
ENC 3254				I
EVS 3000 and EVS 3000L	I	I	I	R
EVS 4021	A	A	A	A

## Environmental Science Minor

The Environmental Science minor is intended for majors in science, engineering or business, providing exposure to the major subject areas of the environmental core.

### About this Program

- **College:** Agricultural and Life Sciences (p. 105)
- **School:** Natural Resources and Environment (p. 1617)
- **Credits:** 15-17 | Completed with minimum grades of C

### School Information

The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.

**Website** (<http://snre.ifas.ufl.edu/>)

### CONTACT

Email ([ashleymartin@ufl.edu](mailto:ashleymartin@ufl.edu)) | 352.392.9230

P.O. Box 116455  
103 BLACK HALL  
GAINESVILLE FL 32611-6455

Map (<http://campusmap.ufl.edu/#/index/0724>)

### Curriculum

- Combination Degrees
- Environmental Science
- Environmental Science Minor

Students outside the School of Natural Resources and Environment can apply for admission to the minor as long as they earn 45 credits before applying. The application is available in 2020 McCarty Hall D. Students first must obtain their college's approval before submitting the completed form for processing.

Transfer work will be accepted only for PCB 4043C and an earth and soil systems course (refer to core requirements for the major). Admission consideration requires a minimum overall 2.0 GPA on all UF coursework attempted.

## Nursing, College of

The College of Nursing is recognized nationally and internationally for innovative education, dynamic programs of research and creative approaches to practice. Gator Nurses are prepared for leadership as clinicians, scientists and educators who reflect and care for a diverse society; foster interdisciplinary collaboration; and improve the health of individuals, families and communities.

Health Science Center, University of Florida

Gainesville, FL 32611-5703

### Established

1956

### Accredited

Degree programs approved by the Florida State Board of Nursing and accredited by the Commission on Collegiate Nursing Education.

### Academic Advising

Students interested in a career in nursing should contact the Office of Student Affairs for advising before they submit an application for admission.

### Degrees

Bachelor of Science in Nursing (BSN) with three track options: traditional, accelerated, and RN-BSN. The college also offers a Doctor of Nursing Practice (DNP) and a Doctor of Philosophy (PhD) in nursing science.

### Training Opportunities

The colleges of the Health Science Center and their associated healthcare delivery networks provide students access to an integrated system of community hospitals and clinics, statewide home health care, a veterans' health system and UF Health Shands Hospital. The College of Nursing maintains and participates in nursing and interdisciplinary care across the lifespan including women, children, adults, and the elderly with special emphasis on under-served and rural populations.

## Helpful Links

- College Website (<http://nursing.ufl.edu/>)
- Computer Requirement (<http://www.it.ufl.edu/policies/student-computing-requirements/>)

## Academic Policies

### Admission to the College

More Info (<https://nursing.ufl.edu/>)

Students planning to enter the Traditional BSN program must complete general education and pre-professional requirements by the end of spring semester of the sophomore year. Standards for continuation are established for nursing majors and continuing students are monitored by the college.

Degree audits identify progress toward the degree and are posted on ONE.UF (<https://one.ufl.edu/>) after the fall and spring semesters. Critical-tracking criteria are outlined in the curriculum plans.

Students who desire to change their major to nursing should do so by the completion of their first academic year.

The college's online application for admission to upper-division coursework must be made by the March 1 deadline. Students will be admitted after spring grades have been posted.

Admission evaluation factors include, but are not limited to, academic record, cumulative grade point average, performance in pre-professional courses, the extent to which the applicant exceeds minimum requirements, relevant student attributes, experiences, and career goals.

Students begin upper-division nursing studies in the fall semester of the junior year.

### Limited-Access Program

The University of Florida's baccalaureate nursing curriculum is a high-demand, limited-access program. Enrollment is limited because of the high cost for program delivery as well as limited availability of clinical learning facilities and limited availability of qualified faculty necessary to maintain appropriate faculty-to-student ratios in all clinical areas. Because of limited enrollment and the number of applications, many qualified applicants are unable to be admitted to the College of Nursing's upper-division nursing courses.

### Minimum Application Requirements for Native UF Students

- Completed 60 credits of required preprofessional and general education courses by the end of the spring semester prior to admission
- Minimum GPA of 3.0 (on a 4.0 scale) overall and for preprofessional courses
- Minimum grades of C in all required preprofessional courses
- Satisfactory completion of communication and computations requirement (Gordon Rule).
- Completion of the HESI Academic Assessment (A2) Test

### Minimum Application Requirements for Transfer Students

More Info (p. 22)

For application information, all transfer students should refer to the admission as a transfer student section of the catalog. Transfer applicants must meet all university and college-specific admission requirements. Applicants from other institutions who have satisfied minimum requirements will be considered for admission at the junior level on a space-available basis.

### Students from Florida Public Colleges

- Associate of Arts degree by the end of spring semester prior to admission
- Completed 60 credits of required preprofessional and general education courses by the end of the spring semester prior to admission
- Completed two sequential courses of foreign language in secondary school or 8-10 semester credits at the postsecondary level, or document an equivalent level of proficiency
- Minimum overall 3.0 GPA (4.0 scale) and a 3.0 GPA on all preprofessional courses
- Completion of required prerequisite courses with a grade of C
- Completion of the HESI Academic Assessment (A2) Test, application requirement

### Students from Other Universities

- Completed 60 credits of required preprofessional and general education courses by the end of the spring semester prior to admission
- Completed two sequential courses of foreign language in secondary school or 8-10 semester credits at the post-secondary level, or document an equivalent level of proficiency

- Minimum overall 3.0 GPA (4.0 scale) and a 3.0 GPA on all preprofessional courses
- Minimum grades of C in all required preprofessional courses
- Completion of the HESI Academic Assessment (A2) Test, application requirement

## College Regulations, All Students

### Before Enrolling in Nursing Courses

- Compliance with university, college and agency health policy requirements and immunizations
- Certification in basic cardiopulmonary resuscitation (CPR) for healthcare providers
- Proof of current health insurance coverage
- Criminal Background Check and Drug Screen

### Expenditures

Expenditures specific to nursing courses include, but are not limited to, specialized equipment, uniforms, laboratory fees for clinical courses and transportation for off-campus experiences.

### Health Policy

The college requires specific immunizations and periodic health screenings. Compliance with health policies is required for clinical coursework. Students are expected to be physically and mentally able to perform the essential functions of the nursing curriculum and may be requested to provide appropriate medical documentation.

## Degree Requirements

For graduation from the BSN program:

- **Traditional Track:** Completion of 120 credits, including 60 junior/senior-level credits
- **Accelerated Track:** Completion of 60 credits, post-baccalaureate
- **RN-BSN Track:** Completion of 60 credits, post AA degree or 60 transferable semester credits
- A minimum grade of C in each nursing course.
- Adherence to the standards of acceptable conduct as outlined in the American Nurses Association Code of Ethics, the Florida Nurse Practice Act, the university's Student Guide and the Undergraduate Catalog.

Graduating with Honors (p. 1717)

*Traditional Track Only*

## Licensure

Upon satisfactory completion of the baccalaureate curriculum, the graduate will be awarded the Bachelor of Science in Nursing and is academically eligible to apply for the NCLEX-RN examination for state licensure as a registered nurse.

## Accelerated Baccalaureate Degree Program

The College of Nursing offers an accelerated course of study for a baccalaureate degree in nursing. This program is for students with a baccalaureate or higher degree in another field.

The accelerated baccalaureate curriculum begins each summer and is completed in four consecutive semesters of fulltime study.

### Minimum Application Requirements

- A baccalaureate or higher degree from a nationally accredited college or university in a field other than nursing
- 3.0 GPA (on 4.0 scale), calculated on the most recent 60 credits taken toward the bachelor's degree or a cumulative 3.0 GPA toward a masters or doctoral degree

- Required prerequisite course must have been completed within the past seven years with a minimum grade of C. No more than two prerequisite courses can be in progress during the spring semester prior to admission
- 1 academic letter of reference and 1 personal letter of reference
- Resume / curriculum vitae
- Essay that responds to questions specified on the NursingCAS site

## Before Enrolling in Nursing Courses

- Compliance with college health policy requirements and immunizations
- Criminal Background Check and Drug Screen
- Certification in basic cardiopulmonary resuscitation (CPR) for healthcare providers
- Proof of current health insurance coverage
- Criminal Background Check and Drug Screen

## Expenditures

Expenditures specific to nursing courses include, but are not limited to, specialized equipment, uniforms, laboratory fees for clinical courses and transportation for off-campus experiences.

## Health Policy

The college requires specific immunizations and periodic health screenings. Compliance with health policies is required for clinical coursework. Students are expected to be physically and mentally able to perform the essential functions of the nursing curriculum and may be requested to provide appropriate medical documentation.

## Nursing

The junior/senior-level Traditional BSN program is four semesters long and provides learning experiences in a variety of clinical settings. The Accelerated BSN program (<https://admissions.nursing.ufl.edu/>) prepares students with a baccalaureate degree in another field for entrance into the nursing profession with a BSN. The RN to BSN program prepares those current Registered Nurses who have previously earned an associate degree.

### About this Program

- **College:** Nursing (p. 1641)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

*To graduate with this major, students must complete all university, college, and major requirements.*

### Department Information

The nursing education programs offered at UF address gaps in the health care system, as do the college's innovations in technological resources and initiatives linking students to diverse and international populations. The College of Nursing has a history of pioneering leadership in nursing education, having offered Florida's first nurse practitioner programs and first PhD in Nursing Science program.

### Curriculum

- Nursing
- Nursing | RN to BSN UF Online

The College of Nursing prepares baccalaureate nurses to care, lead and inspire. Nursing courses include classroom and laboratory activities correlated with supervised clinical experiences. Students may be required to travel outside of Gainesville for selected clinical experiences.

The curriculum is logically organized from simple to complex so that students acquire the cognitive, affective, and technical competencies of a professional nurse. Students are required to demonstrate competence at each semester in sequence to progress to more advanced concepts and skills. Knowledge from general education courses, nursing pre-professional courses, and introductory nursing courses is integrated and refined as student progress through increasingly complex theoretical nursing content and clinical application courses.

Courses in the first two semesters focus on foundational knowledge and principles of personalized nursing care. Students gain an understanding of the context of contemporary nursing practice, the meaning of professionalism, ethical and legal guidelines, professional values, and standards of professional nursing practice. Course content and concepts are aligned with clinical experiences to develop beginning clinical reasoning. Students acquire the knowledge, skills, and attitudes to provide evidence-based, safe, cost-effective quality care to achieve optimal health outcomes.

Courses in the final two semesters build upon prior learning and are characterized by increased complexity in content and outcomes. Students enhance clinical reasoning and critical thinking through nursing practice in a variety of settings for individuals across the lifespan, families and other groups, and communities. Learning experiences are designed to enable students to demonstrate leadership, interprofessional collaboration, and advocacy skills that improve the health of diverse individuals and populations. In the final semester, students participate in a project to develop an innovative solution for a problem or issue relevant to professional nursing.

### Progression

Students must earn minimum grades of C in all required nursing courses and maintain a minimum 2.0 GPA every semester while enrolled. Students may repeat only one required nursing course. Students earning less than a C in any required nursing course may repeat that course only once and on a space-available basis. Students who do not achieve a passing grade on their second attempt in a course will be dismissed from the nursing program. Students may withdraw only once from any required nursing course.

Students are expected to comply with college health policy requirements.

Students in the health professions are held to standards of conduct that exceed those usually expected of university students. Consequently, nursing students are required to demonstrate safe practice in the care of patients and to exercise appropriate judgment as beginning-level professionals, including appropriate demeanor and appearance. Students must adhere to the standards of conduct outlined in the American Nurses Association Code of Ethics and the Florida Nurse Practice Act in addition to the University of Florida College of Nursing handbook. Students can be removed from the nursing curriculum, and/or any college-sponsored programs or organizations, based on violation of professional conduct.

## Bachelor of Science

The junior/senior-level Traditional BSN program is four semesters long and provides learning experiences in a variety of clinical settings.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

The following recommended curriculum plan enables students to satisfy university-wide general education requirements and required preprofessional courses. The plan includes the courses and academic standards (overall GPA and preprofessional GPA) required each semester for continuation in the pre-nursing program and application for admission to the nursing major.

### Semester 1

- Complete 2 critical-tracking courses with minimum grades of C: APK 2100C, APK 2105C, DEP 3053 or EDF 3110 (recommended), HUN 2201, MCB 2000/MCB 2000L, STA 2023, 3 credits of social and behavioral science (with PSY, SOP or SYG prefix), and 3 credits of physical or biological sciences (with BSC, CHM or PHY prefix)
- 3.0 GPA required for all critical-tracking courses
- 3.0 overall GPA on work from all institutions

### Semester 2

- Complete 2 additional critical-tracking courses with minimum grades of C
- 3.1 GPA required for all critical-tracking courses
- 3.1 overall GPA on work from all institutions

### Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C
- 3.2 GPA required for all critical-tracking courses
- 3.2 overall GPA on work from all institutions

### Semester 4

- Complete all critical-tracking courses with minimum grades of C
- Complete writing requirement
- Complete all general education coursework with minimum grades of C
- Complete a total of 60 credits
- 3.3 GPA required for all critical-tracking courses
- 3.3 overall GPA on work from all institutions

### Semester 5

- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 3066C

### Semester 6

- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 3227C

## Semester 7

- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 4768C

## Semester 8

- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing exit examination in NUR 4766C

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities)		3
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 67); Writing Requirement)	3
State Core Gen Ed Mathematics, pure math (p. 67)		3

NUR 4815	Professional Nursing Transformation	3
<b>Credits</b>		<b>15</b>
<b>Total Credits</b>		<b>120</b>

<sup>1</sup> BSC, CHM, or PHY prefix.

<sup>2</sup> Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

<sup>3</sup> Requires External Nursing Skills Test exam score of 800 to pass the course.

## Academic Learning Compact

The major in nursing prepares graduates as generalists to provide holistic care that addresses the healthcare needs of diverse individuals, families, communities and populations across the lifespan. Nursing practice is built on nursing knowledge, theory and research. Graduates will translate, integrate and apply knowledge that leads to improvements in patient outcomes.

## Before Graduating Students Must

- Achieve a passing grade of C or higher in all required courses.
- Pre-licensure student must achieve a score of 850 on the Health Education Systems Incorporated (HESI) RN Exit Examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Apply critical thinking to synthesize knowledge grounded in liberal education and nursing, in the practice of professional nursing in the global community.
2. Utilize knowledge of health care regulation to advocate for policy change to improve health care systems and professional nursing practice.
3. Utilize health promotion, health maintenance, and disease prevention strategies across settings to improve the health of diverse individuals and populations across the lifespan.

#### Critical Thinking

4. Integrate evidence-based findings in decision-making in the practice of professional nursing.
5. Appraise current evidence to evaluate health care safety and quality improvement initiatives for individuals and groups.
6. Analyze information from health care technology systems to apply evidence that will guide nursing practice.
7. Illustrate the importance of advocacy in the improvements in nursing practice and throughout the healthcare system.
8. Demonstrate professional competence and values reflective of professional nursing standards and mutual respect within a global society.

#### Communication

9. Collaborate with the healthcare team and clients to provide safe and cost effective high quality health care.
10. Demonstrate professional communication, collaboration and documentation with healthcare teams to support improvement in patient health outcomes.
11. Build therapeutic alliance with patients and families to provide personalized care.

### Curriculum

- Nursing
- Nursing | RN to BSN UF Online

The baccalaureate-prepared nurse is equipped to manage complex and changing healthcare environments. Coursework focuses on development of problem solving that will broaden and strengthen the registered nurse student's preparation for professional nursing practice.

## Admission

Students must be accepted into the RN to BSN program, which is competitive. The online application for admission must be submitted by the posted deadline.

### Minimum Application Requirements

- Associate of Science degree in nursing from an ACEN (formerly NLNAC) accredited program
- Active, unencumbered Florida RN license
- An overall GPA of at least 2.8
- A minimum grade of C in all required pre-professional courses
- Resume/curriculum vita
- Two professional reference from persons familiar with the applicant's recent work
- A statement of intent, not to exceed two typed double-spaced pages, which discusses the applicant's expectations of the BSN program and the student's career goals

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 4

- Complete NUR 4636C

## Semester 5

- Complete NUR 4815

### Model Semester Plan

## Degree Requirements

- Completion of 120 credits, including 60 junior/senior-level credits
- A minimum grade of C in each nursing course
- RN to BSN students will be awarded 30 upper-level credit hours based upon current RN licensure and by satisfying the professional portfolio
- Adherence to the standards of acceptable conduct as outlined in the American Nurses Association Code of Ethics, the Florida Nurse Practice Act, the University's Student Guide and the undergraduate catalog

Course	Title	Credits
<b>Semester One</b>		
NUR 3066C	Clinical Reasoning: Health Assessment ( <b>Critical Tracking</b> )	3
NUR 3805	Professional Nursing in the Evolving Healthcare System	3
	<b>Credits</b>	<b>6</b>
<b>Semester Two</b>		
NUR 3123	Pathophysiology and Pharmacology ( <b>Critical Tracking</b> )	4
NUR 3826	Legal and Ethical Issues in Nursing	2
	<b>Credits</b>	<b>6</b>
<b>Semester Three</b>		
NUR 3169	Inquiry and Evidence in Professional Nursing Practice ( <b>Critical Tracking</b> )	3
NUR 3197	Genetics and Genomics in Health Care	2

NUR 3816	Seminar in Professional Nursing	1
<b>Credits</b>		<b>6</b>
<b>Semester Four</b>		
NUR 4108	Lead and Inspire 3: Policy and Change in Nursing Practice	3
NUR 4636C	Clinical Reasoning and Personalized Nursing Care: Population Health ( <b>Critical Tracking</b> )	4
<b>Credits</b>		<b>7</b>
<b>Semester Five</b>		
NUR 4815	Professional Nursing Transformation ( <b>Critical Tracking</b> )	3

Associate Degree		60
<b>Total for Degree</b>		<b>120</b>

### Academic Learning Compact

The major in nursing prepares graduates as generalists to provide holistic care that addresses the healthcare needs of diverse individuals, families, communities and populations across the lifespan. Nursing practice is built on nursing knowledge, theory and research. Graduates will translate, integrate and apply knowledge that leads to improvements in patient outcomes.

## Before Graduating Students Must

- Achieve a rating of satisfactory in all courses, graded according to College of Nursing rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Integrate knowledge, skills and values derived from a solid base in liberal education to deliver quality care to individuals and groups across the lifespan and across healthcare environments.

#### Critical Thinking

2. Provide leadership in the delivery of safe, high-quality healthcare to diverse individuals and groups across the lifespan and across healthcare environments.
3. Utilize current evidence to improve healthcare outcomes for clients.
4. Utilize information management and healthcare technology to improve the quality of care.
5. Analyze processes through which healthcare policies are developed and changed to influence professional nursing practice and healthcare systems.
6. Utilize wellness promotion and illness prevention strategies with individuals and groups to improve population health outcomes across the lifespan.
7. Integrate professional values in the delivery of safe, culturally-sensitive care to clients across the lifespan.

#### Communication

8. Communicate and collaborate as members of interprofessional teams to deliver safe, high-quality healthcare.

## Public Health and Health Professions, College of

The College of Public Health and Health Professions offers a diverse variety of degree programs: two bachelor's, seven master's, eight PhD and three professional degrees, as well as several certificate programs. By combining the population perspective of public health with the patient focus of our health professions disciplines, the continuum of care is covered, from prevention and treatment to rehabilitation that supports the health and well-being of communities and individuals.

### Mailing Address

P.O. Box 100185  
Health Science Center, University of Florida  
Gainesville, FL 32610-0185

## Established

1958 as the first college of health professions in the United States; renamed Public Health and Health Professions in 2003

## Location

Health Professions/Nursing/Pharmacy Complex (HPNP)  
1225 Center Drive  
Gainesville, FL 32610  
Map (<http://campusmap.ufl.edu/?loc=0212>)

## Rankings

Eight programs are ranked in the Top 20 among AAU public universities, according to U.S. News & World Report.

## Accredited

The college is accredited by the Council on Education for Public Health. In addition, all clinical programs are accredited by the appropriate national organization.

## Degrees

The college offers a Bachelor of Health Science in Communication Sciences and Disorders or Health Science, and a Bachelor of Public Health degree. The Public Health program is designed to provide students with foundational skills for both individual and community based health care. The Health Science program is designed to provide students with knowledge and skills to pursue careers in medicine, rehabilitation, therapeutic care, and communication sciences. Health Science specializations include: general health science, pre-occupational therapy, occupational therapy accelerated, pre-physical therapy, and pre-professional.

## Doctor of Occupational Therapy | OTD

The Doctor of Occupational Therapy (OTD) program prepares students to become professional-level OT practitioners who are leaders in the rapidly changing and dynamic contemporary health and human services delivery systems. The program will facilitate students' clinical knowledge and skills, professional development, leadership and advocacy skills, and advanced knowledge base to inform high quality, evidence-informed practice in occupational therapy. Students engage in projects and leadership activities that improve practice quality and advance evidence-based clinical practice.

## Academic Policies

### Admission

Admission requirements vary for the different majors; therefore, applicants should contact an academic advisor in the college to ensure appropriate academic planning.

In addition to specific GPA and coursework requirements, applicants should have evidence of service through volunteer experiences. Additional admission information may be found on the college's undergraduate programs page.

More Info (<https://undergrad.php.ufl.edu/>)

### Application Deadlines

Application deadlines and instructions may be found on the college's undergraduate programs page.

More Info (<https://undergrad.php.ufl.edu/>)

## Student Selection

Undergraduate programs are limited access. Admission to the college at the junior level is limited and selective. Satisfaction of minimum GPA and course requirements does not guarantee admission to the junior level. A student's total record, including educational objectives, courses completed, quality of academic record and application essay are considered when evaluating an applicant for admission.

## Native UF Student Admission

### Freshmen and Sophomores

Students can declare a major in one of the college's undergraduate programs upon admission to the university. However, continued progress as a junior in the major is contingent upon selection and requires completion of an application process. Progression standards include courses completed, cumulative and tracking GPAs, and academic conduct. Students apply for junior level limited access admission in their sophomore year.

### Junior-Level Admission

A formal application process is required for admission *consideration*. STUDENTS MUST SUBMIT an online program application for the major/specialization of interest and should carefully follow the instructions for the particular specialization.

Students eligible for admission consideration at the junior level must:

- Earn at least 60 semester credits of acceptable college credit with a minimum overall 3.0 GPA for all majors for all college/university-level course work
- Complete all critical-tracking coursework with the required GPA. Critical-tracking courses are listed with each major.
- Fulfill the General Education requirements described in the Academic Advising section of this catalog. Specific course sequences for each program of study indicate how to fulfill these requirements while planning careers in public health and/or discipline-specific health professions.
- Complete all writing requirements
- Submit a completed program application to the College of Public Health and Health Professions  
More Info (<https://undergrad.phhp.ufl.edu/admissions/>)
- Complete all requirements by the end of spring for Summer B admission consideration or by the end of Summer A for fall admission consideration

## Transfer Student Admission

*Meeting minimum standards as freshmen and sophomores does not guarantee admission to the junior year within the college because space is limited.*

### Application Materials

Non-UF students must apply to the University of Florida and to the College of Public Health and Health Professions for admission consideration at the junior year. These are *separate applications*. Students with questions should contact an undergraduate advisor at [advising@phhp.ufl.edu](mailto:advising@phhp.ufl.edu).

Florida public college students must have:

- Received an AA degree
- Completed all critical-tracking coursework with the required GPA
- Completed 60 semester credits of transferable college-level credit with a minimum overall GPA of 3.0
- Submitted a transfer application to UF  
More Info (<http://www.admissions.ufl.edu/start.html>)
- Submitted a program application to the College of Public Health and Health Professions

## PHHP Academic Policies

### Double Majors

PHHP does not offer a double major. However, students in the college can pursue an additional degree outside of the college. Students from other colleges can also consider a dual degree within PHHP. Permission of both colleges is required. Students are eligible to apply for a dual degree after they have completed 45 credits and before completion of 96 credits. Students must meet all requirements for both degrees.

### Minors

The college offers five minors. These minors are open to students in other colleges who meet the prerequisite and GPA requirements. The minor form and course information are available from the college website.

More Info (<https://undergrad.phhp.ufl.edu>)

- Communication Sciences and Disorders (p. 1662)
- Deaf and Hearing Sciences (p. 1668)
- Disability Science (p. 1669)

- Health Science (p. 1698)
- Public Health (p. 1703)

Specific minors are available to PHHP juniors and seniors based on the student's specialization, as noted below.

### **Communication Sciences and Disorders Students**

Deaf and hearing sciences, health science, disability science and public health minors.

### **Health Science Students**

Communication sciences and disorders and public health minors.

### **Public Health Students**

Communication sciences and disorders minors.

## **S/U Option**

The satisfactory/unsatisfactory (S/U) option is not permitted for prerequisite or major courses. However, S/U may be used for electives.

## **Academic Performance**

### **Juniors and Seniors**

Students must receive minimum grades of C in all courses required for the major. Unsatisfactory grades, defined as grades lower than a C or grades of unsatisfactory in classes graded S/U, are grounds for probation and/or dismissal from the college. In addition, dismissal from the college can result from honor code violations.

If a student in the college receives one grade of C- or lower in a college course, the student is placed on academic probation. Faculty will provide an opportunity for the student to make up material (e.g., through independent study, repeating the course, etc.). If the student receives at least a C in the course for which probation was implemented, the student will return to good academic standing. If the student receives a C- or lower while on probation, the student must withdraw from the program unless the college determines mitigating circumstances warrant a probationary extension. *If a student receives the first and second C- or lower in the same term, the college has the right to dismiss the student without first offering probation.*

If a student receives a C- or lower in a second college course, regardless of whether this occurs in the same term or a different term as the first C- or lower, the student can be required to withdraw from the program. The student has the right to petition this decision.

In order to petition the faculty committee, the student must provide the program director with a letter stating the reasons that the student should be allowed to remediate their academic performance. Upon successful petition and on a space-available basis, the student will be placed on academic probation and allowed to make up material in an appropriate manner determined by the instructor and program director (e.g., via independent study, course repetition, etc.)

If the student successfully completes the remediation requirements and receives a minimum course grade of C, the student can continue in the program. However, if the student again receives a C- or lower, the student must withdraw from the program. The college will help the student choose another major at UF, if desired, if they withdraw from a college major.

In the first two cases above, the individual instructor is responsible for assigning student grades. The program director, in consultation with the instructor and program faculty as needed, is responsible for determining if a student who appeals a dismissal will be placed on academic probation or dismissed from the program. The student will be notified in writing of the director's decision concerning academic probation or dismissal.

If the student is placed on probation, the letter will include the activities that the student must successfully complete to remedy the academic deficiencies and the timeframe in which these activities must be completed. Failure to adhere to or to meet the terms of the letter constitutes grounds for dismissal from the program. The student will be offered assistance, if desired, to select a different major.

If the student disagrees with the director's decision regarding dismissal or the terms of the probation letter, the student may appeal in writing within one week to the associate dean overseeing academic affairs. The associate dean will review both the director's decision and the student's concerns and make a determination about academic probation/dismissal. Both the student and director have the right to further appeal to the dean, who will review the case in its entirety and make the final decision.

## **Changing Majors**

Freshmen and sophomores wishing to change majors must contact a college advisor in the new major. Juniors and seniors wishing to change majors in the college must contact the program director. If a student withdraws from the major, specific permission from the program and the college must be given at the time of withdrawal for the student to be eligible to re-enter the college.

## **Health Policy**

The college requires evidence of ability to meet the physical and academic requirements of the program. Personnel in the Department of Student Health will test each student for sensitivity to tuberculosis. The Department of Student Health will verify immunization against diphtheria, rubella (German measles) and tetanus.

All students must be immunized against Hepatitis B and varicella (chicken pox) or provide the Student Health Center with medical documentation that they have had chicken pox. All students must participate in annual bloodborne pathogen training, repeat their TB test annually if observing in a clinical setting, and be HIPAA compliant.

Students registered in clinical courses must have hospitalization insurance. Full-time students are eligible for the health insurance plans sponsored by Student Government. Twelve-month coverage may be purchased at the time of registration.

## Expenses

Required immunizations and other expenses are the student's responsibility.

## Degree Requirements

Students must satisfy all college and university degree requirements for their major and specialization.

College requirements include:

- Completion of 120 semester credits with a 2.0 GPA, including 60 hours of upper-division college credit
- Completion of all core courses with minimum grades of C
- Satisfactory completion of all approved college and general electives
- Completion of a PPHP degree candidate exit survey

To graduate in the desired term, students must submit by the deadline a completed degree application to the Office of University Registrar. More Info (<https://registrar.ufl.edu/contact/>)

## Dean's List

The dean's list recognizes outstanding academic achievement at the completion of each semester. Students receiving a final grade of U or a failing grade may not be considered for the dean's list, regardless of overall grade point average. Students may request a letter confirming dean's list status from the college's dean's office.

More Info (p. 1717)

## Graduating with Honors

More Info (p. 1717)

Postbaccalaureate students are not eligible to receive honors recognition. Guidelines for completion of honors program requirements to graduate *magna cum laude* or *summa cum laude*.

More Info (<https://undergrad.pphp.ufl.edu/opportunities/honors-program/>)

## Communication Sciences and Disorders

The Communication Sciences and Disorders major includes didactic and experiential activities for students to learn foundational skills necessary for success in professions such as speech-language pathology, audiology and communication sciences, all of which require graduate degrees.

## About this Program

- **College:** Public Health and Health Professions (p. 1652)
- **Degree:** Bachelor of Health Science
- **Credits for Degree:** 120
- **Contact:**
  - Junior/Senior | 2127 HPNP Complex (<http://campusmap.ufl.edu/#/index/0212>) | 352.294.8476
  - Freshman/Sophomore | Email ([advising@phhp.ufl.edu](mailto:advising@phhp.ufl.edu)) | G-205 HPNP Complex (<http://campusmap.ufl.edu/#/index/0212>) | 352.273.6400, option 1

*To graduate with this major, students must complete all university, college, and major requirements.*

## Department Information

The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.

**Website** (<https://slhs.phhp.ufl.edu/>)

### CONTACT

352.294.8476 (tel) | 352.273.6545 (fax)

1225 Center Drive  
2150 HPNP BUILDING  
GAINESVILLE FL 32611-0174  
Map (<http://campusmap.ufl.edu/#/index/0212>)

### Curriculum

- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

*Students should follow the plan below for course choices.*

The undergraduate program exposes students to information about

1. normal aspects of speech, language, and hearing as they relate to human communication, and
2. introductory concepts pertaining to the nature, assessment, and treatment of communication disorders.

Students complement the core major courses with various elective courses that align with their academic and career interests.

Upon successful completion of the major, students receive the Bachelor of Health Science degree. The majority of undergraduate students pursue graduate or professional training in a health field (e.g., speech language pathology, audiology or other graduate degree program); however, some students seek employment immediately after completing the BHS degree program, usually in organizations with either a health or education component.

Certified clinicians (graduate degree required) often on a team that may include psychologists, teachers, families, physical and occupational therapists, physicians, nurses, dietitians and social workers to screen, diagnose and treat individuals ranging from infants to the elderly. Professionals typically work in schools, clinics, hospitals, other health organizations and/or private practice. Communication sciences and disorders professions offer a high degree of satisfaction to their practitioners by making a significant impact on people's lives. Both speech-language pathology and audiology are growing professions with competitive salaries.

## Course Requirements and Sequence

### By the End of Semester Four

To be considered for admission at the junior level, students must complete these requirements:

- Minimum overall and prerequisite GPAs of 3.0
- For transfer students, AA degree or 60 transferrable credits (including general education and major prerequisites)
- 18,000 words of the writing requirement
- These courses (or their equivalents) with minimum grades of C:
  - BSC 2005 or higher
  - Additional biological science (3 credits); APK 2105C is highly recommended

- other preferred courses include those with BSC or MCB prefix
- Physical science (3 credits); must be physics or chemistry
- Science lab (1 credit)
- PSB 3002 or DEP 3053 or CLP 3144; PSB 3002 is recommended strongly
- PSY 2012
- STA 2023

## By the End of Junior Year

Students must have completed:

- EEX 3093 with a minimum grade of C (satisfies general education diversity)
- SPA 3003, SPA 3011, SPA 3032, SPA 3101, SPA 4004, SPA 4104, SPA 4302, SPA 4400 with minimum grades of C

## By the End of the Senior Year

Students must have completed:

- 120 credits, including all prerequisites
- Remaining 9 credits of core SPA coursework (SPA 4050, SPA 4250, and SPA 4321) with minimum grades of C
- Complete 33 credits of core SPA coursework
- ENC 3254 with minimum grade of C; satisfies 6000 words of writing requirement
- PHC 4101 with minimum grade of C
- 9 credits of electives at the 3000/4000 level
- 9 credits of PHHP electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 credits of general education courses
- 2.3 GPA on all college-level coursework from all institutions

## Semester 2

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 12 additional credits of general education courses for a total of 18 credits
- 2.7 GPA on all college-level coursework from all institutions

## Semester 3

- Complete STA 2023 with minimum grade of C
- Complete 1 additional tracking psychology course (DEP 3053 or CLP 3144) or 3 credits of physical science (CHM 2045 or PHY 2004 recommended) with minimum grade of C
- Complete science lab with minimum grade of C or S
- Complete 9 additional credits of general education courses for a total of 30 credits
- 3.0 GPA on all college-level coursework from all institutions

## Semester 4

- Complete all critical-tracking courses with minimum grades of C
- Complete all general education courses except diversity
- Complete the 18,000 words of the writing requirement

- 3.0 critical-tracking GPA based on all attempts
- 3.0 GPA on all college-level coursework from all institutions

## Semester 5

- Complete EEX 3093, SPA 3011, SPA 3032, SPA 3101, and SPA 4004
- 3.0 prerequisite and overall GPA on college-level coursework from all institutions
- 2.0 UF GPA required

## Semester 6

- Complete SPA 3003, SPA 4104, SPA 4302, and SPA 4400
- 2.0 UF GPA required

## Semester 7

- Complete ENC 3254, SPA 4250, and SPA 4321
- 2.0 UF GPA required

## Semester 8

- Complete SPA 4050
- 2.0 UF GPA required

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities)		3
MAC 1105	Basic College Algebra (or higher level; State Core Gen Ed Mathematics (p. 67))	3
Select one:		3

### Academic Learning Compact

The undergraduate program provides an understanding of the expected processes involved in human communication so that students will be prepared for graduate programs where they will be immersed in dealing with atypical or pathological conditions related to speech, language, swallowing and/or hearing.

## Before Graduating Students Must

- Pass the undergraduate CSD written examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Explain fundamental theories and principles of basic acoustics, psychoacoustics, (neuro)anatomy and (neuro)physiology as they pertain to the normal development of speech, language and hearing.
2. Explain key concepts that pertain to the etiology and characteristics of speech, language and auditory disorders.
3. Describe basic concepts that pertain to the assessment and treatment of speech, language and auditory disorders.
4. Explain fundamental concepts that pertain to professional practice patterns and ethical standards.
5. Explain fundamental concepts that pertain to the relationship between aging and communication, the effect of culture on communication and modalities of communication.

6. Transcribe normal and disordered speech phonetically.
7. Explain the impact of disease and disability on the health of populations.

### Critical Thinking

8. Apply clinical problem-solving skills to defend assessment and treatment choices.

### Communication

9. Present information accurately and effectively during an oral presentation on a topic related to communication sciences or disorders.
10. Write a coherent analytical essay on a topic related to communication sciences or disorders.

## Curriculum Map

### Curriculum

- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

The minor is open to all students except those majoring in communication sciences and disorders.

Courses that are required for the CSD major do not count toward a minor in CSD if the courses are required by the student's home department.

Students applying for the minor should have a minimum 3.0 GPA and should plan the minor in consultation with the undergraduate coordinator.

## Required Courses

Code	Title	Credits
SPA 3032	Fundamentals of Hearing	3
SPA 3101	Speech Anatomy and Physiology	3
SPA 4004	Language Development	3
Approved electives		6
<b>Total Credits</b>		<b>15</b>

## Approved Electives

Code	Title	Credits
SPA 3003	Articulatory, Acoustic, and Auditory Phonetics	3
SPA 3011	Speech Acoustics	3
SPA 4104	Neural Basis of Communication	3
SPA 4250	Introduction to Speech Disorders	3
SPA 4302	Audiometry and Hearing Disorders	3
SPA 4400	Introduction to Language Disorders	3

## Communication Sciences and Disorders UF Online

The Communication Sciences and Disorders major includes didactic and experiential activities for students to learn foundational skills necessary for success in professions such as speech-language pathology, audiology and communication sciences, all of which require graduate degrees.

## About this Program

### Curriculum

- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

*Students should follow the plan below for course choices.*

The undergraduate program exposes students to information about:

1. normal aspects of speech, language, and hearing as they relate to human communication, and
2. introductory concepts pertaining to the nature, assessment, and treatment of communication disorders.

Students complement the core major courses with various elective courses that align with their academic and career interests.

Upon successful completion of the major, students receive the Bachelor of Health Science degree. The majority of undergraduate students pursue graduate or professional training in a health field (e.g., speech language pathology, audiology or other graduate degree program); however, some students seek employment immediately after completing the BHS degree program, usually in organizations with either a health or education component.

Certified clinicians (graduate degree required) often on a team that may include psychologists, teachers, families, physical and occupational therapists, physicians, nurses, dietitians and social workers to screen, diagnose and treat individuals ranging from infants to the elderly. Professionals typically work in schools, clinics, hospitals, other health organizations and/or private practice. Communication sciences and disorders professions offer a high degree of satisfaction to their practitioners by making a significant impact on people's lives. Both speech-language pathology and audiology are growing professions with competitive salaries.

## Course Requirements and Sequence

To be considered for admission at the junior level, students must complete these requirements:

- Minimum overall and pre-requisite GPAs of 3.0
- For transfer students, AA degree or 60 transferrable credits (including general education and major prerequisites)
- 18,000 words of the writing requirement

These courses (or their equivalents) with minimum grades of C:

Code	Title	Credits
BSC 2005	Biological Sciences	3
APK 2105C	Applied Human Physiology with Laboratory	4
Physical science (must be physics or chemistry)		3
Science lab		1
Select one:		3
PSB 3002	Physiological Psychology (strongly recommended)	
DEP 3053	Developmental Psychology	
CLP 3144	Abnormal Psychology	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3

### By the End of the Junior Year

Students must have completed:

- EEX 3093 with a minimum grade of C (satisfies general education diversity)
- SPA 3003, SPA 3011, SPA 3032, SPA 3101, SPA 4004, SPA 4104, SPA 4302, SPA 4400

### By the End of the Senior Year

Students must have completed:

- 120 credits, including all prerequisites
- Remaining 9 credits of core SPA coursework (SPA 4250, SPA 4321, SPA 4050) with minimum grades of C
- 33 credits of core SPA coursework with minimum grades of C
- ENC 3254 with minimum grade of C; satisfies 6000 words of writing requirement

- PHC 4101 with minimum grade of C
- 9 credits at the 3000/4000 level
- 9 credits of PHHP electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 credits of general education courses
- 2.3 GPA on all college-level coursework from all institutions

## Semester 2

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 12 additional credits of general education courses for a total of 18 credits
- 2.7 GPA on all college-level coursework from all institutions

## Semester 3

- Complete STA 2023 with minimum grade of C
- Complete 1 additional tracking psychology course (DEP 3053 or CLP 3144) or 3 credits of physical science (CHM 2045 or PHY 2004 recommended) with minimum grade of C
- Complete science lab with minimum grade of C or S
- Complete 9 additional credits of general education courses for a total of 30 credits
- 3.0 GPA on all college-level coursework from all institutions

## Semester 4

- Complete all critical-tracking courses with minimum grades of C
- Complete all general education courses except diversity
- Complete the 18,000 words of the writing requirement
- 3.0 critical-tracking GPA based on all attempts
- 3.0 GPA on all college-level coursework from all institutions

## Semester 5

- Complete EEX 3093, SPA 3011, SPA 3032, SPA 3101, SPA 4004
- 3.0 prerequisite and overall GPA on college-level coursework from all institutions
- 2.0 UF GPA required

## Semester 6

- Complete SPA 3003, SPA 4104, SPA 4302, and SPA 4400
- 2.0 UF GPA required

## Semester 7

- Complete ENC 3254, SPA 4250, and SPA 4321
- 2.0 UF GPA required

## Semester 8

- Complete PHC 4101 and SPA 4050
- 2.0 UF GPA required

## Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities)		3
MAC 1105	Basic College Algebra (State Core Gen Ed Mathematics (p. 67)) <sup>1</sup>	3

Gen Ed Composition (Writing Requirement)		3
State Core Gen Ed Humanities with International (p. 67)		3
Elective		3
<b>Credits</b>		<b>15</b>
<b>Semester Three</b>		
Quest 2 (Gen Ed Social and Behavioral Sciences)		3
Select one physical science course:		3
PHY 2020	Introduction to Principles of Physics ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences) <sup>1</sup>	
CHM 1030	Basic Chemistry Concepts and Applications 1 ( <b>Critical Tracking</b> ; Gen Ed Physical Sciences) <sup>1</sup>	
Select one advanced psychology course:		3
DEP 3053	Developmental Psychology ( <b>Critical Tracking</b> )	
CLP 3144	Abnormal Psychology ( <b>Critical Tracking</b> )	
Science Laboratory ( <b>Critical Tracking</b> ; Gen Ed Biological or Physical Sciences)		1
Electives		6
<b>Credits</b>		<b>16</b>
<b>Semester Four</b>		
APK 2105C	Applied Human Physiology with Laboratory ( <b>Critical Tracking</b> ; Gen Ed Biological Sciences)	4
Gen Ed Humanities		3
Electives		7
<b>Credits</b>		<b>14</b>
<b>Semester Five</b>		
EEX 3093	Exceptional People in School and Society ( <b>Critical Tracking</b> )	3
SPA 3011	Speech Acoustics ( <b>Critical Tracking</b> )	3
SPA 3032	Fundamentals of Hearing ( <b>Critical Tracking</b> )	3
SPA 3101	Speech Anatomy and Physiology ( <b>Critical Tracking</b> )	3
SPA 4004	Language Development	3
<b>Credits</b>		<b>15</b>
<b>Semester Six</b>		
SPA 3003	Articulatory, Acoustic, and Auditory Phonetics ( <b>Critical Tracking</b> )	3
SPA 4104	Neural Basis of Communication ( <b>Critical Tracking</b> )	3
SPA 4302	Audiometry and Hearing Disorders ( <b>Critical Tracking</b> )	3
SPA 4400	Introduction to Language Disorders ( <b>Critical Tracking</b> )	3
Elective (college-approved; 3000 level or above)		3
<b>Credits</b>		<b>15</b>
<b>Semester Seven</b>		
ENC 3254	Professional Writing in the Discipline ( <b>Critical Tracking</b> )	3
SPA 4250	Introduction to Speech Disorders ( <b>Critical Tracking</b> )	3
SPA 4321	Audiologic Rehabilitation ( <b>Critical Tracking</b> )	3
Elective (college-approved; 3000 level or above)		3

Elective (3000 level or above)		3
<b>Credits</b>		<b>15</b>
<b>Semester Eight</b>		
PHC 4101	Public Health Concepts ( <b>Critical Tracking</b> )	3
SPA 4050	Clinical Observations in Speech-Language Pathology and Audiology ( <b>Critical Tracking</b> )	3
Elective (college-approved; 3000 level or above)		3
Electives (3000 level or above)		6
<b>Credits</b>		<b>15</b>
<b>Total Credits</b>		<b>120</b>

<sup>1</sup> Or higher level course.

## Academic Learning Compact

The undergraduate program provides an understanding of the expected processes involved in human communication so that students will be prepared for graduate programs where they will be immersed in dealing with atypical or pathological conditions related to speech, language, swallowing and/or hearing.

## Before Graduating Students Must

- Pass the undergraduate CSD written examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Explain fundamental theories and principles of basic acoustics, psychoacoustics, (neuro)anatomy and (neuro)physiology as they pertain to the normal development of speech, language and hearing.
2. Explain key concepts that pertain to the etiology and characteristics of speech, language and auditory disorders.
3. Describe basic concepts that pertain to the assessment and treatment of speech, language and auditory disorders.
4. Explain fundamental concepts that pertain to professional practice patterns and ethical standards.
5. Explain fundamental concepts that pertain to the relationship between aging and communication, the effect of culture on communication and modalities of communication.
6. Transcribe normal and disordered speech phonetically.
7. Explain the impact of disease and disability on the health of populations.

#### Critical Thinking

8. Apply clinical problem-solving skills to defend assessment and treatment choices.

#### Communication

9. Present information accurately and effectively during an oral presentation on a topic related to communication sciences or disorders.
10. Write a coherent analytical essay on a topic related to communication sciences or disorders.

## Assessment Types

- Clinical analysis
- Case management reviews
- Exams
- Papers
- Presentations
- Additional assessments include:
- A summative assessment
- The undergraduate alumni survey

## Deaf and Hearing Sciences Minor

The Deaf and Hearing Sciences minor includes language courses in American Sign Language and courses to deepen awareness of the impact of hearing loss on everyday life and function. Students also gain an appreciation of the anatomy and physiology of the ear and rehabilitation approaches for individuals with hearing loss.

## About this Program

- **College:** Public Health and Health Professions (p. 1652)
- **Credits:** 17

## Department Information

The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.

### Curriculum

- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

## REQUIRED COURSES

Code	Title	Credits
ASL 1110	American Sign Language 1	4
ASL 1120	American Sign Language 2	4
SPA 3032	Fundamentals of Hearing	3
SPA 3475	Deaf Culture in America	3
SPA 4321	Audiologic Rehabilitation	3
<b>Total Credits</b>		<b>17</b>

BHS-CSD students will also be required take ASL 1130, due to overlap with their major courses.

## Disability Science Minor

The Disability Science minor provides a basic scientific foundation to understand the impact of disability on physical and psychosocial health.

### About this Program

- **College:** Public Health and Health Professions (p. 1652)
- **Credits:** 17 | Completed with minimum grades of C

*This minor is available to all juniors and seniors in PHHP's communication sciences and disorders major and to students in other colleges who meet the prerequisites. The minor is not available to Bachelor of Health Science students in health science, pre-OT or pre-public health specializations.*

All credits toward the minor must be completed at the 3000/4000-level. As long as the program director approves, the student can use up to three credits of relevant 3000-level or higher transfer coursework or electives outside the health science program to fulfill elective credits. Lower-division transfer credit is not accepted.

### Prerequisites

- Junior standing (60+ credits)
- Overall 2.75 GPA
- 2.75 prerequisite GPA based on general college biology, general psychology, abnormal/developmental/physiological psychology, physiology, and statistics (STA 2023).

### Required Courses

Code	Title	Credits
HSC 3502	Survey of Diseases and Disability	3
HSC 4558	Survey of Diseases and Disabilities 2	3
OTH 3416	Pathophysiology	3
Select one option: <sup>1</sup>		8
<i>Option A</i>		
OTH 4412 & 4412L	Musculoskeletal Anatomy and Musculoskeletal Anatomy Laboratory	
OTH 3413C	Applied Kinesiology	
<i>Option B</i>		
OTH 4418 & 4418L	The Nervous System and Disorders and The Nervous System and Disorders Laboratory	
CLP 4420	Introduction to Neuropsychology	
<b>Total Credits</b>		<b>17</b>

<sup>1</sup> Open only to Seniors.

## Health Science

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

### About this Program

- **College:** Public Health and Health Professions (p. 1652)
- **Degree:** Bachelor of Health Science
- **Specializations:** General Health Science (p. 1671) | Occupational Therapy Accelerated (p. 1677) | Pre-Occupational Therapy (p. 1682) | Pre-Physical Therapy (p. 1687) | Pre-Professional (p. 1692)
- **Credits for Degree:** 120

*To graduate with this major, students must complete all university, college, and major requirements.*

### Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

**Website** (<https://bhs.phhp.ufl.edu/>)

1225 Center Drive

3189 HPNP BUILDING

GAINESVILLE FL 32610

Map (<http://campusmap.ufl.edu/#/index/0212>)

## **Curriculum**

- Disability Science Minor
- Health Science
- Health Science Minor

## **Related Programs**

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

## **Specializations**

The college offers five specializations in the freshman and sophomore years:

### **General Health Science**

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

### **Occupational Therapy Accelerated**

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

### **Pre-Physical Therapy**

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

### **Pre-Occupational Therapy**

Offers the core health science curriculum plus prerequisites necessary for the Doctor of Occupational Therapy program at UF.

### **Pre-Professional**

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

## **Course Sequence**

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

### Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

## Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

#### Critical Thinking

6. Develop and apply critical analysis skills to contemporary health issues.

#### Communication

7. Apply effective basic communication skills for health professionals.

The college offers five specializations in the freshman and sophomore years:

### General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

### Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

### Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

### Pre-Occupational Therapy

Offers the core health science curriculum plus prerequisites necessary for the Doctor of Occupational Therapy program at UF.

### Pre-Professional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and

treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

## Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

## General Health Science

The general specialization is designed to accommodate students interested in diverse health care fields (e.g., health administration, nursing, clinical psychology).

To be on-track for the junior year, students must meet the critical-tracking criteria listed below, beginning with the first fall or spring term.

To be *considered* for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester:

Code	Title	Credits
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3
CLP 3144	Abnormal Psychology	3
or DEP 3053	Developmental Psychology	
APK 2105C	Applied Human Physiology with Laboratory	4
ENC 3453	Writing in the Health Professions	3
or ENC 2210	Technical Writing	

- The online application to the BHS program goes live as a link on the BHS website (<http://bhs.php.ufl.edu/>) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

Semester 2

- Complete STA 2023 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18, including the university writing requirement
- 2.7 cumulative GPA on work from all institutions

Semester 3

- Complete BSC 2005 or BSC 2010 with minimum grade of C
- Complete CLP 3144 or DEP 3053 with a minimum grade of C
- Complete STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Semester 4

- Complete all general education courses, including a Quest 1 course and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PPHP advisor
- Complete APK 2105C with a minimum grade of C
- Complete 60 cumulative credits
- 3.0 GPA required for all critical-tracking courses and minimum grades of C on all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Semester 5

- Complete HSA 3111 with a minimum grade of C
- Complete HSC 3502 with a minimum grade of C
- Complete PHC 4101 with a minimum grade of C

Semester 6

- Complete HSC 3057 with a minimum grade of C
- Complete HSC 4558 with a minimum grade of C
- Complete OTH 3416 with a minimum grade of C
- Complete 3 credits of College Approved Electives

Semester 7

- Complete HSC 3661 with a minimum grade of C
- Complete RCS 4415L with a minimum grade of C
- Complete HSC 4184 with a minimum grade of C

Semester 8

- Complete HSC 4608L with a minimum grade of C
- Complete HSC 4652L with a minimum grade of C
- Complete HSC 4008 with a Satisfactory grade
- Complete 9 credits of College Approved Electives

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3

Select one:		3
ENC 1101	Expository and Argumentative Writing ( <b>Critical Tracking</b> ; State Core Gen Ed Composition; Writing Requirement)

Electives (3000/4000 level)	4
<b>Credits</b>	<b>15</b>
<b>Total Credits</b>	<b>120</b>

<sup>1</sup> Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated.

## Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

## Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

#### Critical Thinking

6. Develop and apply critical analysis skills to contemporary health issues.

#### Communication

7. Apply effective basic communication skills for health professionals.

# Occupational Therapy Accelerated

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

## About this Program

- **College:** Public Health and Health Professions (p. 1652)
- **Degree:** Bachelor of Health Science
- **Specializations:** General Health Science (p. 1671) | Occupational Therapy Accelerated (p. 1677) | Pre-Occupational Therapy (p. 1682) | Pre-Physical Therapy (p. 1687) | Pre-Professional (p. 1692)
- **Credits for Degree:** 120

*To graduate with this major, students must complete all university, college, and major requirements.*

## Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

### Curriculum

- Disability Science Minor
- Health Science
- Health Science Minor

## Related Programs

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

## Specializations

The college offers five specializations in the freshman and sophomore years:

### General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

### Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

### Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

### Pre-Occupational Therapy

Offers the core health science curriculum plus prerequisites necessary for the Doctor of Occupational Therapy program at UF.

## Pre-Professional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

## Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

## Occupational Therapy Accelerated

Occupational therapy is a professional program. The Occupational Therapy Accelerated Program gives students the opportunity to learn core health science content while simultaneously completing the first-year professional-level coursework required for the doctor of occupational therapy program at UF.

Competitive applicants to the Occupational Therapy Accelerated Program will have met the following requirements:

- Applicants must be accepted into the Bachelor of Health Science Program.
- Applicants must have completed all 2000-level prerequisites required for the professional program in occupational therapy.
- A minimum cumulative 3.8 GPA for lower division (freshman and sophomore level) undergraduate college coursework.
- A minimum 3.7 GPA for all prerequisite courses with no grade lower than a C.
- All applicants are required to complete a total of 30 hours of observational hours in at least two diverse OT settings. Diverse settings are settings that service clientele are significantly different; inpatient, outpatient, long term care, school-based, elders, pediatrics, orthopedics, rehabilitation, etc.
- Applicants must submit three recommendations. One of the recommendations must be from a professional level OT. The other two should be from professionals, such as a present or former faculty member, academic advisor, or employer.
- Applicants must submit a personal statement that addresses why they selected OT as a career and how an Occupational Therapy degree relates to their immediate and long-term professional goals. They must describe how their personal, educational, and professional background will help achieve their goals.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete BSC 2005 and BSC 2005L with minimum grades of C
- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete sociology or anthropology with a minimum grade of C

- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 3.2 cumulative GPA on work from all institutions

## Semester 2

- Complete ENC 1102 with a minimum grade of C
- Complete HSC 2000 with a minimum grade of C (recommended)
- Complete PSY 2012 and HSC 3537 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 18
- Complete 28 cumulative credits
- 3.4 cumulative GPA on work from all institutions

## Semester 3

- Complete 3 additional critical-tracking courses: APK 2100C or APK 2105C, CLP 3144 and STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- Complete ENC 3453 or a substitution approved by a PHHP advisor
- Complete 42 cumulative credits
- 3.6 GPA required for all critical-tracking courses, based on all attempts
- 3.6 cumulative GPA on work from all institutions

## Semester 4

- Complete all laboratories
- Complete all general education courses, including a Quest 1 course and all state core courses
- Complete the university writing requirement
- Complete 60 cumulative credits
- Complete all critical-tracking courses with no grade below C and with a 3.7 critical-tracking GPA
- 3.8 cumulative GPA on work from all institutions

## Semester 5

- Complete HSC 3502
- Complete HSA 3111
- Complete OTH 6002
- Complete OTH 6722

## Semester 6

- Complete PHC 4101
- Complete HSC 4558
- Complete HSC 3057
- Complete HSC 4652L
- Complete OTH 6209

## Semester 7

- Complete HSC 4184
- Complete HSC 3661
- Complete RCS 4415L
- Complete OTH 6008C
- Complete OTH 6419

## Semester 8

- Complete HSC 4608L
- Complete OTH 6242
- Complete OTH 6423
- Complete OTH 6539

## Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

## Related Programs

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

## Specializations

The college offers five specializations in the freshman and sophomore years:

## General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

## Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

## Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

## Pre-Occupational Therapy

Offers the core health science curriculum plus prerequisites necessary for the Doctor of Occupational Therapy program at UF.

## Pre-Professional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

## Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

## Pre-Occupational Therapy

Occupational therapy is a graduate-level program. The preprofessional OT track within the health science program gives students the opportunity to learn core health science content while simultaneously completing 3000/4000-level prerequisite coursework required for the graduate-level occupational therapy program at UF.

To be admitted to the pre-OT track, students must have completed all 2000-level prerequisites required for the master's program in occupational therapy and have a minimum 3.0 GPA. Students who make satisfactory academic progress in their health science and pre-OT coursework receive the Bachelor of Health Science and, while admission to the OT program is not guaranteed, students in the pre-OT track have priority for admission to the graduate-level OT program.

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete BSC 2005 and BSC 2005L with minimum grades of C
- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete sociology or anthropology with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

## Semester 2

- Complete ENC 1102 with a minimum grade of C
- Complete HSC 2000 with a minimum grade of C (recommended)
- Complete PSY 2012 and HSC 3537 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 18
- Complete 28 cumulative credits
- 2.7 cumulative GPA on work from all institutions

## Semester 3

- Complete 3 additional critical-tracking courses: APK 2100C or APK 2105C, CLP 3144 and STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- Complete ENC 3453 or a substitution approved by a PHHP advisor
- Complete 42 cumulative credits
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

## Semester 4

- Complete all laboratories
- Complete all general education courses, including Quest 1, Quest 2 and all state core courses
- Complete the university writing requirement
- Complete 60 cumulative credits
- Complete all critical-tracking courses with no grade below C and with a 3.0 critical-tracking GPA
- 3.0 cumulative GPA on work from all institutions

## Semester 5

- Complete PHC 4101
- Complete HSC 3502
- Complete HSA 3111

## Semester 6

- Complete OTH 3416
- Complete HSC 4558
- Complete HSC 3057
- Complete a minimum of 3 total credits of college approved electives

## Semester 7

- Complete HSC 4184
- Complete HSC 3661
- Complete RCS 4415L

## Semester 8

- Complete HSC 4608L
- Complete HSC 4652L
- Complete a minimum of 9 total credits of college approved electives
- Completion of all coursework with a minimum of 2.0 overall GPA

## Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities)		3
Select one:		3
ENC 1101	Expository and Argumentative Writing ( <b>Critical Tracking</b> ; State Core Gen Ed Composition; Writing Requirement)

<b>Credits</b>		<b>15</b>
<b>Total Credits</b>		<b>120</b>

<sup>1</sup> Minimum grade of C required.

*Students can complete missing coursework in the summer, but all first-year tracking criteria must be completed by the end of the summer term.*

*For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated, with the exception of Introduction to Statistics, which must be completed by the end of spring term of the junior year.*

## Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

## Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

#### Critical Thinking

6. Develop and apply critical analysis skills to contemporary health issues.

#### Communication

7. Apply effective basic communication skills for health professionals.

## Curriculum Map

## Assessment Types

- Assignment
- The Bachelor of Health Science (BHS) capstone exam in the final semester
- The degree candidate's exit survey

## Pre-Physical Therapy

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

## About this Program

- **College:** Public Health and Health Professions (p. 1652)
- **Degree:** Bachelor of Health Science
- **Specializations:** General Health Science (p. 1671) | Occupational Therapy Accelerated (p. 1677) | Pre-Occupational Therapy (p. 1682) | Pre-Physical Therapy (p. 1687) | Pre-Professional (p. 1692)
- **Credits for Degree:** 120

*To graduate with this major, students must complete all university, college, and major requirements.*

## Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

## Related Programs

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

## Specializations

The college offers five specializations in the freshman and sophomore years:

## General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

## Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

## Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

## Pre-Occupational Therapy

Offers the core health science curriculum plus prerequisites necessary for the Doctor of Occupational Therapy program at UF.

## Pre-Professional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

## Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

## Pre-Physical Therapy

Physical therapy is a doctoral-level program. Listed below is the suggested undergraduate prerequisite course sequence. For a description of the program and additional information, please refer to the Department of Physical Therapy.

## Course Sequence

The following course sequence permits completion of general education requirements and UF health science and physical therapy prerequisites.

To be admitted to the pre-PT track, students must meet the health science critical-tracking criteria each semester, beginning with the first fall or spring term.

To be *considered* for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester:

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	3
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3
CLP 3144	Abnormal Psychology	3

or DEP 3053	Developmental Psychology	
APK 2105C	Applied Human Physiology with Laboratory	4
ENC 3453	Writing in the Health Professions	3
or ENC 2210	Technical Writing	

The online application to the BHS program goes live as a link on the BHS website (<http://bhs.php.ufl.edu/>) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete ENC 1101 or ENC 1102
- Complete MAC 1140 or MAC 1147 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 GPA on work from all institutions

## Semester 2

- Complete ENC 1102 with a minimum grade of C
- Complete BSC 2010 with a minimum grade of C
- Complete STA 2023 or DEP 3053 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18
- 2.7 GPA on work from all institutions

## Semester 3

- Complete APK 2105C, BSC 2010, DEP 3053, STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

## Semester 4

- Complete HSC 2000 with a minimum grade of C (recommended)
- Complete all general education courses, including a Quest 1 course and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PPHP advisor
- Complete 60 cumulative credits
- Complete all critical-tracking courses with no grades below C and with a 3.0 critical-tracking GPA
- 3.0 cumulative GPA on work from all institutions

## Semester 5

- Complete HSA 3111 with a minimum grade of C
- Complete HSC 3502 with a minimum grade of C
- Complete PHC 4101 with a minimum grade of C

## Semester 6

- Complete HSC 3057 with a minimum grade of C
- Complete HSC 4558 with a minimum grade of C

- Complete OTH 3416 with a minimum grade of C
- Complete 3 credits of College Approved Electives

## Semester 7

- Complete HSC 3661 with a minimum grade of C
- Complete RCS 4415L with a minimum grade of C
- Complete HSC 4184 with a minimum grade of C

## Semester 8

- Complete HSC 4608L with a minimum grade of C
- Complete HSC 4652L with a minimum grade of C
- Complete HSC 4008 with a Satisfactory grade
- Complete 9 credits of College Approved Electives

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

## Related Programs

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

## Specializations

The college offers five specializations in the freshman and sophomore years:

### General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

### Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

### Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

### Pre-Occupational Therapy

Offers the core health science curriculum plus prerequisites necessary for the Doctor of Occupational Therapy program at UF.

### Pre-Professional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

## Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

## Preprofessional

Students interested in health careers requiring strong basic science backgrounds, such as medicine and physician assistant programs, should enroll in the pre-professional specialization.

To be on track for the junior year, students must meet the critical-tracking criteria listed below, beginning with the first fall or spring term.

To be *considered* for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester.

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	3
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3
CLP 3144	Abnormal Psychology	3
or DEP 3053	Developmental Psychology	
APK 2105C	Applied Human Physiology with Laboratory	4
ENC 3453	Writing in the Health Professions	3
or ENC 2210	Technical Writing	

The online application to the BHS program goes live as a link on the BHS website (<http://bhs.phhp.ufl.edu/>) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete PSY 2012, and ENC 1101 or ENC 1102 with minimum grades of C
- Complete 9 credits of general education courses, including ENC 1101 or ENC 1102, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

## Semester 2

- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18
- 2.7 cumulative GPA on work from all institutions

## Semester 3

- Complete BSC 2010 and STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

## Semester 4

- Complete DEP 3053 or CLP 3144 with a minimum grade of C
- Complete APK 2105C with a minimum grade of C
- Complete all general education courses, including a Quest 1 course and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete 60 cumulative credits
- Complete all critical-tracking courses with no grades below C and with a 3.0 critical-tracking GPA
- 3.0 cumulative GPA on work from all institutions

## Semester 5

- Complete HSA 3111 with a minimum grade of C
- Complete HSC 3502 with a minimum grade of C
- Complete PHC 4101 with a minimum grade of C

## Semester 6

- Complete HSC 3057 with a minimum grade of C
- Complete HSC 4558 with a minimum grade of C
- Complete OTH 3416 with a minimum grade of C
- Complete 3 credits of College Approved Electives

## Semester 7

- Complete HSC 3661 with a minimum grade of C
- Complete RCS 4415L with a minimum grade of C
- Complete HSC 4184 with a minimum grade of C

## Semester 8

- Complete HSC 4608L with a minimum grade of C
- Complete HSC 4652L with a minimum grade of C
- Complete HSC 4008 with a Satisfactory grade
- Complete 9 credits of College Approved Electives

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities)		3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory (State Core Gen Ed Physical Sciences (p. 67))	4
Select one:		3
ENC 1101	Expository and Argumentative Writing ( <b>Critical Tracking</b> ; State Core Gen Ed Composition; Writing Requirement)	
ENC 1102	Argument and Persuasion ( <b>Critical Tracking</b> ; State Core Gen Ed Composition; Writing Requirement)	
MAC 2311	Analytic Geometry and Calculus 1 ( <b>Critical Tracking</b> ; State Core Gen Ed Mathematics)	4
	<b>Credits</b>	<b>14</b>
<b>Semester Two</b>		
Quest 2 (Gen Ed Social and Behavioral Sciences; <b>Critical Tracking</b> )		3
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 ( <b>Critical Tracking</b> ; Gen Ed Biological Sciences)	4
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (Gen Ed Physical Sciences)	4
PSY 2012	General Psychology (State Core Gen Ed Social and Behavioral Sciences (p. 67))	3
	<b>Credits</b>	<b>14</b>
<b>Summer After Semester Two</b>		
ENC 1102	Argument and Persuasion ( <b>Critical Tracking</b> ; Gen Ed Composition; Writing Requirement)	3
STA 2023	Introduction to Statistics 1 ( <b>Critical Tracking</b> ; Gen Ed Mathematics)	3
	<b>Credits</b>	<b>6</b>
<b>Semester Three</b>		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2	4
CHM 2210	Organic Chemistry 1	3

ENC 3453	Writing in the Health Professions ( <b>Critical Tracking</b> ; Writing Requirement)	3
Select one:		3
CLP 3144	Abnormal Psychology ( <b>Critical Tracking</b> ; Gen Ed Social and Behavioral Sciences)	
DEP 3053	Developmental Psychology ( <b>Critical Tracking</b> ; Gen Ed Social and Behavioral Sciences)	
<b>Credits</b>		<b>13</b>
<b>Semester Four</b>		
APK 2105C	Applied Human Physiology with Laboratory ( <b>Critical Tracking</b> ; Gen Ed Biological Sciences)	4
CHM 2211	Organic Chemistry 2	3
State Core Gen Ed Humanities (with Diversity)		3
6000-word writing course ( <b>Critical Tracking</b> ; Writing Requirement, with International)		3
Additional courses that prepare students for future professional programs are listed, but are not included in the health science program total credit count.		
CHM 2211L	Organic Chemistry Laboratory	
<b>Credits</b>		<b>13</b>
<b>Semester Five</b>		
HSA 3111	U.S. Health Care System ( <b>Critical Tracking</b> ) <sup>1</sup>	3
HSC 3502	Survey of Diseases and Disability ( <b>Critical Tracking</b> ) <sup>1</sup>	3
PHC 4101	Public Health Concepts ( <b>Critical Tracking</b> ) <sup>1</sup>	3
Select one:		4
BCH 4024	Introduction to Biochemistry and Molecular Biology	
BCH 3025	Fundamentals of Biochemistry	
Elective (3000/4000 level)		2
Additional courses that prepare students for future professional programs are listed, but are not included in the health science program total credit count.		
Select one:		
APK 2100C	Applied Human Anatomy with Laboratory	
PHY 2053 & 2053L	Physics 1 and Laboratory for Physics 1	
<b>Credits</b>		<b>15</b>
<b>Semester Six</b>		
HSC 3057	Research Methods and Issues in Health Science <sup>1</sup>	3
HSC 4558	Survey of Diseases and Disabilities 2 ( <b>Critical Tracking</b> ) <sup>1</sup>	3
OTH 3416	Pathophysiology ( <b>Critical Tracking</b> ) <sup>1</sup>	3
College Approved Elective ( <b>Critical Tracking</b> )		3
Elective (3000/4000 level)		3
Additional courses that prepare students for future professional programs are listed, but are not included in the health science program total credit count.		
Select one:		
AGR 3303	Genetics	
PHY 2054 & 2054L	Physics 2 and Laboratory for Physics 2	
<b>Credits</b>		<b>15</b>
<b>Semester Seven</b>		
HSC 3661	Therapeutic Communication Skills with Patients, Families and the Health Care Team ( <b>Critical Tracking</b> ) <sup>1</sup>	2
HSC 4184	Health Care Leadership: Skills and Styles ( <b>Critical Tracking</b> ) <sup>1</sup>	3
RCS 4415L	Therapeutic Communication Skills Laboratory ( <b>Critical Tracking</b> ) <sup>1</sup>	1
MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms	4
College Approved Elective ( <b>Critical Tracking</b> ) <sup>1</sup>		3
Elective (3000/4000 level)		2
<b>Credits</b>		<b>15</b>
<b>Semester Eight</b>		
HSC 4008	Professional Development for the Health Sciences ( <b>Critical Tracking</b> ) <sup>1</sup>	1
HSC 4608L	Critical Thinking in Health Care ( <b>Critical Tracking</b> ) <sup>1</sup>	4
HSC 4652L	Ethical and Legal Issues in the Health Professions ( <b>Critical Tracking</b> ) <sup>1</sup>	3
College Approved Elective ( <b>Critical Tracking</b> ) <sup>1</sup>		3
Electives (3000/4000 level)		4
<b>Credits</b>		<b>15</b>
<b>Total Credits</b>		<b>120</b>

<sup>1</sup> Minimum grade of C required.

*For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated.*

*The health science program requires 120 credits for degree. Students following the preprofessional guidelines will require more than 120 credits and includes all preprofessional coursework.*

## Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

## Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

#### Critical Thinking

6. Develop and apply critical analysis skills to contemporary health issues.

#### Communication

7. Apply effective basic communication skills for health professionals.

## Curriculum Map

*I = Introduced; R = Reinforced; A = Assessed*

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5	SLO 6	SLO 7
HSA 3111	I, R						
HSC 3057						I

RCS 4415L					I		I
Capstone Exam	A	A	A	A	A	A	A

## Assessment Types

- Assignment
- The Bachelor of Health Science (BHS) capstone exam in the final semester
- The degree candidate's exit survey

# Health Science Minor

The Health Science minor provides foundational knowledge and skills in the changing healthcare delivery system.

## About this Program

- **College:** Public Health and Health Professions (p. 1652)
- **Credits:** 15 | Completed with minimum grades of C

## Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Map (<http://campusmap.ufl.edu/#/index/0212>)

## Curriculum

- Disability Science Minor
- Health Science
- Health Science Minor

## Related Programs

- Public Health

*The minor is open to all juniors and seniors with majors outside the College of Public Health and Health Professions who meet the prerequisites. It is also open to communication sciences and disorders students.*

Prerequisites include junior standing (60+ credits), a 3.0 overall GPA and a 3.0 prerequisite GPA based on general college biology, general psychology, abnormal/developmental/physiological psychology, physiology and statistics (STA 2023). Students can transfer up to three credits of approved coursework.

Interested students should obtain an application and a list of current coursework.

## Required Courses

*Complete the first three courses before taking electives.*

Code	Title	Credits
HSA 3111	U.S. Health Care System (take in the fall)	3
HSC 3502	Survey of Diseases and Disability (take in the fall)	3
OTH 3416	Pathophysiology (take in the spring)	3
Approved electives		6
<b>Total Credits</b>		<b>15</b>

## Approved Electives

Code	Title	Credits
CLP 4134	Introduction to Clinical Child/Pediatric Psychology	3
CLP 4314	Introduction to Health Psychology	3
CLP 4420	Introduction to Neuropsychology	3
HSC 4558	Survey of Diseases and Disabilities 2	3
HSC 4600	Psychiatric Disorders	3
OTH 4418	The Nervous System and Disorders	3
OTH 4418L	The Nervous System and Disorders Laboratory	2

PHC 3603	Critical Issues in Public Health	3
RCS 4451	Rehabilitation Aspects of Substance Abuse	3

# Public Health

The Bachelor of Public Health (BPH) program prepares students for advanced education in public health or related fields. It also provides students with foundational public health skills to succeed in the dynamic public health workforce.

## About this Program

- **College:** Public Health and Health Professions (p. 1652)
- **Degree:** Bachelor of Public Health
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

## Department Information

Website (<https://publichealth.phphp.ufl.edu/>)

### CONTACT

1225 Center Drive  
HPNP BUILDING  
GAINESVILLE FL 32610  
Map (<http://campusmap.ufl.edu/#/index/0749>)

### Curriculum

- Artificial Intelligence in Public Health and Healthcare Certificate
- Public Health
- Public Health Minor

## Related Programs

- Health Science
- Health Science Minor

A primary goal of the public health bachelor’s degree program is to prepare students for advanced (master’s) training in the health professions and in public health specifically, considered the entry level degree for the field. Students interested in a specific area of public health have the opportunity to organize some of their electives around a cohesive public health topic. In addition, interested students have the opportunity to explore a combination-degree program in public health.

Upon successful completion of the public health program, students receive the Bachelor of Public Health degree. While the majority of students pursue graduate or professional training in public health or a related field, some students seek employment in not-for-profit and for-profit agencies, or related community health organizations after completing the B.P.H.

## Course Sequence

The public health program is designed primarily for students who want to pursue advanced degree work in public health or a related field. It is also appropriate for those who want to acquire foundational public health knowledge before continuing to graduate or professional school or who will work in a health-care setting after graduation. In order to be on track for pre-public health at the junior level, students must meet the critical-tracking criteria listed below, beginning with their first fall or spring term.

To be *considered* for admission at the junior level, students must:

• Complete these prerequisites:		
<b>Code</b>	<b>Title</b>	<b>Credits</b>
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	
STA 2023	Introduction to Statistics 1	3
Select 6 credits of social and behavioral sciences, including the following as the state core:		
PSY 2012	General Psychology	6
ENC 1101	Expository and Argumentative Writing	3

ENC 1102	Argument and Persuasion	3
ENC 2210 or ENC 3453	Technical Writing Writing in the Health Professions	3

- 3.0 overall GPA and 3.0 prerequisite GPA
- AA degree or 60 transferable college level credits
- Completion of all general education and university writing requirements
- Apply formally to the college by February 1. The college application packet (<https://bph.phphp.ufl.edu/resources-for-prospective-students/application/>) is available online. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

AP, IB, or AICE credit is accepted for any prerequisite course. Students must earn a minimum of C in any BPH prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BPH prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Students must apply by February 1 for Summer B and fall admission. All prerequisites must be completed by the end of Summer.

### Critical Tracking

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

## Semester 1

- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

## Semester 2

- Complete STA 2023 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18, and including the university writing requirement
- 2.7 cumulative GPA on work from all institutions

## Semester 3

- Complete BSC 2005 or BSC 2010 with minimum grade of C
- Complete Social and Behavioral Sciences (GE-S) with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

## Semester 4

- Complete all general education courses, including a Quest 1 course, GE-B/P, GE-S, and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete Physical or Biological Science (GE-P or B) with a minimum grade of C
- Complete 60 cumulative credits
- 3.0 critical tracking GPA and minimum grades of C on all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

## SEMESTER 5

- Complete PHC 4101 with a minimum grade of C
- Complete PHC 4094 with a minimum grade of C
- Complete PHC 3603 with a minimum grade of C
- Complete HSC 3502 with a minimum grade of C
- Complete HSA 3111 with a minimum grade of C

- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

SEMESTER 6

- Complete HSC 4558 with a minimum grade of C
- Complete HSC 3057 with a minimum grade of C
- Complete PHC 3440 with a minimum grade of C
- Complete 1 Approved college elective with a minimum grade of C
- Complete 1 Specialty elective (3000/4000) with a minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

SEMESTER 7

- Complete PHC 4024 with a minimum grade of C
- Complete PHC 4320 with a minimum grade of C
- Complete 2 Approved college electives with a minimum grade of C
- Complete 1 Specialty elective (3000/4000) with a minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

SEMESTER 8

- Complete PHC 4943 with a minimum grade of C
- Complete PHC 4117 with a minimum grade of C
- Complete 1 Specialty elective (3000/4000) with a minimum grade of C
- Complete General electives (3000/4000) with a minimum grade of C
- Complete a minimum of 6 college approved electives
- Complete 60 upper division credits
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Course	Title	Credits
<b>Semester One</b>		
Quest 1 (Gen Ed Humanities)		3
Select one:		3
ENC 1101	Expository and Argumentative Writing ( <b>Critical Tracking</b> ; State Core Gen Ed Composition; Writing Requirement)	
ENC 1102	Argument and Persuasion ( <b>Critical Tracking</b> ; State Core Gen Ed Composition; Writing Requirement)

PHC 4943	Service Learning Practicum ( <b>Critical Tracking</b> ) <sup>1</sup>	3
Specialty elective (3000/4000 level)		3
Electives (3000/4000 level)		6
<b>Credits</b>		<b>15</b>
<b>Total Credits</b>		<b>120</b>

<sup>1</sup> Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term and order indicated.

## Academic Learning Compact

Students graduating with a Bachelor of Public Health will be prepared for careers in health care systems or organizations addressing the health or more general human service needs of communities and populations. They will learn the foundational skills necessary to enter post baccalaureate academic programs in public health or complementary fields and success in the dynamic public health workforce.

## Before Graduating Students Must

- Earn minimum grades of C in all public health core courses.
- Pass a BPH capstone exam and service learning experience.
- Complete requirements for the post baccalaureate degree, as determined by the faculty and the university.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Explain the five major areas of public health (biostatistics, environmental health services, epidemiology, health services administration, and social behavioral science), and each area's contribution to public health.
2. Identify, describe, and explain the ways that social determinants of health impact disability, disease and illness in populations.

#### Critical Thinking

3. Identify, critically evaluate, and propose solutions to public health challenges.

#### Communication

4. Communicate in oral and written forms public health concepts and their relationship to policy, communities, organizations, interpersonal dynamics and individual perspectives.

### Curriculum Map

*I = Introduced; R = Reinforced; A = Assessed*

Courses	SLO 1	SLO 2	SLO 3	SLO 4

- Assignment
- The Bachelor of Health Science capstone exam
- The degree candidate's exit survey

## Public Health Minor

The Public Health minor enables preprofessional students to acquire public health knowledge that complements their career paths. The minor is designed for students going into careers other than public health who can benefit from public health knowledge in the delivery of their services. A few examples of these careers include anthropology, dentistry, environmental engineering, health education, medicine, nursing, nutritional sciences, occupational therapy, physician assistant, and psychology.

### About this Program

- **College:** Public Health and Health Professions (p. 1652)
- **Credits:** 15 | Completed with minimum grades of C

### Department Information

Website (<https://publichealth.phhp.ufl.edu/>)

#### CONTACT

1225 Center Drive

HPNP BUILDING  
GAINESVILLE FL 32610  
Map (<http://campusmap.ufl.edu/#/index/0749>)

### Curriculum

- Artificial Intelligence in Public Health and Healthcare Certificate
- Public Health
- Public Health Minor

### Related Programs

- Health Science
- Health Science Minor

*Students interested in public health careers should consider a combination-degree program rather than this minor.*

For students in the College of Public Health and Health Professions, successful completion of this minor satisfies the 9-credit college elective requirement and six credits of general elective credit. Therefore, no additional credits beyond 120 are required for graduation with a minor in public health.

Students must have completed the prerequisites for the BPH program with minimum grades of C to be considered for a minor. Prerequisites include:

- Junior status (60+ credits)
- 3.0 overall GPA
- 3.0 prerequisite GPA
- Completion of the following:

Code	Title	Credits
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3
Select one:		3
CLP 3144	Abnormal Psychology	
DEP 3053	Developmental Psychology	
Health Psychology		

Students may transfer up to three credits of approved coursework toward the minor. All remaining credits must be taken from the course list below.

Interested students should submit the required UF application to add or cancel a minor. Students also must submit a proposed *plan of study that includes courses for the minor*.

More Info (<http://bhs.phhp.ufl.edu/forms-2/>)

Application materials should be submitted to the Bachelor of Public Health office in the College of Public Health and Health Professions, HPNP 4150. Minors are considered on a space-available basis. Students within the Bachelors of Health Science program are only able to apply one of their core curriculum courses towards the public health minor.

The communication sciences and disorders program and health science program also offers minors.

More Info (<http://slhs.phhp.ufl.edu/academics/undergrad/>)

## Required Courses

Code	Title	Credits
PHC 4101	Public Health Concepts	3
Select four:		12
HSA 3111	U.S. Health Care System	
PHC 3440	Global Public Health	
PHC 3603	Critical Issues in Public Health	
PHC 4024	Applied Epidemiology	
PHC 4094	Introduction to Biostatistics for Health Science and Public Health	
PHC 4320	Environmental Concepts in Public Health	
RCS 4451	Rehabilitation Aspects of Substance Abuse	
<b>Total Credits</b>		<b>15</b>

## Counting Credits for Undergraduate or Graduate Degrees

Undergraduates who are interested in public health as a career path, but do not want to pursue the Bachelors of Public Health, should consider the Bachelors/MPH Combination Degree. This would allow courses taken in a student's senior year to count toward an MPH degree.

More Info (<http://mph.ufl.edu/>)

---

## Majors

### Index of all Majors ([http://catalog.ufl.edu/UGRD/programs/#filter=filter\\_22](http://catalog.ufl.edu/UGRD/programs/#filter=filter_22))

An academic major represents each student's principal interest and the majority of their efforts during their undergraduate studies. Each major's core curriculum covers a range of subjects that provide the student with a solid foundation in their chosen field of study.

### Declaring a Major

Upon entering UF as a freshman, students are encouraged to declare the major that they are most likely to pursue. Students may declare Exploratory if they are unsure. In their first few terms, students should take courses to explore multiple academic areas. Many students have varied interests and will graduate with minors, certificates, double majors, dual degrees and/or combination degrees.

## Exploring Areas of Interest

Exploring areas of interest early helps students determine whether they want to pursue additional academic programs. In addition, quite a few students change majors in their first or second year, so exploring multiple areas early helps students to confirm their choice of major or identify a more desirable major.

More Info (<https://www.advising.ufl.edu/exploratory/>)

## Declaring an Exploratory Category

First-year students with no major preference can declare one of three exploratory categories (humanities and letters, social and behavioral sciences, or science and engineering) for the first three fall/spring terms. Exploratory students are advised by the Academic Advising Center and affiliated with the College of Liberal Arts and Sciences. Exploratory students should be purposeful in all of their decisions, particularly when it comes to choosing classes for each semester to be sure they are taking courses to explore potential majors. They must also actively work to narrow down UF majors to one that fits their aspirations and abilities.

### Changing Majors

It's not unusual for students to change their minds about majors and career paths as they gain educational and practical experience. To help ensure that students make the best choices regarding their major and degree, UF provides guidance, information, and technical assistance. Students should proactively determine their major to obtain the degree that fits them best instead of being forced to select a major due to pending academic deadlines.

There is often little relationship between undergraduate degrees and specific types of employment. A specific major does not guarantee employment in a specific field, nor does a specific major limit employment to a specific field.

## Ways to Explore Areas of Study at UF

### Review the Undergraduate Majors

Students should search for majors that interest them and explore required courses; they should also speak to faculty or advisors in those departments.

### Use ONE.UF to Explore Majors by Subject Area, College, or Major

Current students can use What-If reports in ONE.UF (<https://one.ufl.edu/>) to discover if coursework they have taken applies toward a given major's requirements. For additional information, students should contact the department offering the degree or the advising office of the appropriate college.

More Info (<https://one.ufl.edu/>)

### Meet with an Academic Advisor

Students can discuss majors and career options with an advisor in the college affiliated with their interests.

More Info (<http://www.ufadvising.ufl.edu/>)

### Utilize the Exploratory Website

Students who are considering different majors can review advising suggestions, an exploratory timeline, resources, and tips on choosing a major.

More Info (<https://www.advising.ufl.edu/exploratory/>)

## Visit the Career Connections Center

The Career Connections Center located on the first floor of the J. Wayne Reitz Union helps students make choices about their major and career. In addition to providing individual and group career counseling, the Career Connections Center library covers everything from accounting to zoology. Many other resources to explore careers are available through the website (<https://career.ufl.edu/career-action-plan/learn-about-yourself/>), including information about career planning and numerous helpful exercises. After a tentative decision is made, the Career Connections Center helps students test their choice by participating in externships, internships, co-ops, and career fairs. More Info (<https://career.ufl.edu/>) Map (<http://campusmap.ufl.edu/?loc=0686>)

## Talk to a College or Department Representative

Students should be sure to discuss various academic programs and their potential career implications. Websites and contact information for each major can be found on its major page.

# Minors

## Index of all Minors ([http://catalog.ufl.edu/UGRD/programs/#filter=filter\\_23](http://catalog.ufl.edu/UGRD/programs/#filter=filter_23))

The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. Students can follow-up on long-time personal interests, satisfy intellectual curiosity generated by introductory courses, differentiate their program of study from those of fellow students or enhance their opportunities for employment or for admission to graduate or professional schools.

## Applying for a Minor

Students should review the information about their minor of interest in this catalog. In general, each minor page explains which students are eligible to pursue the minor, any qualifications or prerequisites necessary to be eligible for the minor and the requirements to complete the minor. Students are also encouraged to discuss the minor with the offering department.

Students interested in pursuing a minor must complete an application. Students will not be able to earn a minor if an application has not been submitted and approved. The application requires the approval of the student's college as well as the college offering the minor. Students may apply using the link below. The approval process can take some time so students are strongly encouraged to apply to pursue a minor early.

Apply for a Minor (<https://one.ufl.edu/minor/>)

# Certificates

Each certificate program must have at least nine credits that are distinct from every other certificate or minor. That is, certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors. All courses required must be completed with minimum grades of C or S in each course. The undergraduate certificate does not require completion of graduate courses.

## Applying for a Certificate Program

### Index of all Certificates ([http://catalog.ufl.edu/UGRD/programs/#filter=filter\\_24](http://catalog.ufl.edu/UGRD/programs/#filter=filter_24))

Students should review the information about their certificate of interest in this catalog. In general, each certificate page explains which students are eligible to pursue the certificate, any qualifications or prerequisites necessary to be eligible for the certificate and the requirements to complete the certificate. Students are also encouraged to discuss the certificate with the offering department.

Students interested in pursuing a certificate must first apply for program admission. After being admitted and completing the requirements, students will be able to apply to be granted the certificate through ONE.UF (<https://one.ufl.edu/>). Students who are about to graduate and who have already completed all the requirements for the certificate still must apply for admission using the button below before applying to be granted the certificate through ONE.UF. The certificate approval process can take some time so students are strongly encouraged to apply to pursue a certificate early.

Apply for a Certificate Program (<http://www.admissions.ufl.edu/start.html>)

# Academic Advising

Mission

The university is committed to quality academic advising for all students. The academic advising mission is to assist students in attaining their educational goals. New students are required to attend, and will receive advising during Preview, UF’s new student orientation. After Preview, student advising is handled by college and departmental advisors.

## University Responsibilities

The Academic Advising Center in Farrior Hall is responsible for certain university advising functions: coordinating academic advising during Preview, advising exploratory students, and providing resources and information to students interested in post-baccalaureate professional programs such as dentistry, law, medicine, and veterinary medicine.  
Map (<http://campusmap.ufl.edu/?loc=0019>) More Info (<http://www.advising.ufl.edu/>)

## College/School and Department Responsibilities

The dean of each college or school ultimately is responsible for ensuring that academic advising is available and accessible to all students within the college or school. Some colleges’ advisors are located in college-level offices, while others are located in departmental offices.  
Academic Advising Contacts at UF (<http://www.ufadvising.ufl.edu/>)

## Student Academic Responsibilities

*To graduate, students are responsible for knowing and fulfilling all university, college, and major requirements.*

All students must:

- Complete the Preview orientation program to receive academic advising before their first term of enrollment
- Maintain a GatorLink email address and read official university correspondence sent to this address
- Meet with an advisor in the appropriate college/major upon entrance to a major
- Confer with an advisor on a regular basis about options for a major if the student is undecided about a major
- Review the degree audit each semester to ensure they fully understand their remaining degree requirements
- Seek advising when experiencing academic difficulty to avoid, if possible, academic probation or off-track status, or to understand their options if on probation or off-track
- Maintain their own personal academic records, including transcripts, degree audits, evaluation of transfer work, and notes from previous advising sessions.

*Students who at any time are confused about academic requirements or their progress toward a degree are encouraged and expected to meet with an advisor.*

## Academic Progress

### Universal Tracking

Universal Tracking is the university's monitoring system that assesses progress toward the student's degree requirements. It provides feedback on the student's progress in a major, helping them find the best academic path to complete their degree. For each major, there is a model semester plan which represents an example progression for completing the degree in a timely fashion.

Each semester, students are reminded via GatorLink email and Registration Prep in ONE.UF to review their degree audit before registration for the next term. The audit fits the student's courses and grades into the degree requirements for their major, indicating the requirements that have been completed as well as showing which requirements have yet to be completed.

## Students Who Enroll During the Fall and Spring Semesters

Progress toward a degree is monitored in those semesters to ensure that students are on track. For these students, the summer terms may provide opportunities to catch up on critical-tracking courses or to improve their GPA.

## Students Who Enroll Only in the Spring and Summer Semesters

### Innovation Academy Students

Progress toward a degree is monitored in those semesters to ensure that students are on track. For these students, the Fall semester may provide opportunities to catch up on critical-tracking courses or to improve their GPA.

## Critical-Tracking Criteria

Critical-tracking criteria usually include a minimum GPA (UF or overall, depending on the academic program), completion of certain courses toward the major (critical-tracking or preprofessional courses), and a minimum GPA in the critical-tracking courses (tracking or preprofessional GPA). The critical-tracking criteria are listed on the Critical Tracking tab for each major. For many majors, critical-tracking courses are bolded in the semester plan.

### Minimum Academic Progress Under Universal Tracking During Semesters 1-5

- Students do not have to complete all of the courses in the model plan each semester to remain on track; they simply have to meet certain minimum requirements known as **critical-tracking criteria**.
- In the degree audit, a summary of critical-tracking criteria for the first five semesters as well as an area that tracks your progress through all eight semesters appears near the top of the audit.
- The critical-tracking criteria are minimum requirements for progression; students should consult their degree audit and their advisor to ensure they meet all requirements for graduation.
- All students admitted as freshmen are monitored in their first semester for the Semester 1 critical-tracking criteria, regardless of the number of credits they have earned through dual enrollment and credit by examination.
- During the first five critical tracking semesters, an **off-track** student will have a hold placed on their registration to require a meeting with an advisor to discuss the student's progress. This enables the student to determine what is necessary to get back on track, or to change to a more appropriate major.
- If a student is **off-track for two consecutive terms** in the first five critical tracking semesters, they must change to a major more appropriate to their skills, goals, and performance. After the student selects a new major, they should contact the college offering that major to schedule an appointment with an advisor to discuss changing majors.

### Off-Track Notification During Semesters 1-5

Student progress toward tracking is assessed twice a semester. An analysis of whether the student will be on track at the end of the term ('predictive' analysis) occurs in the fourth week. If a student is predicted to be off-track at the end of the term, a hold is placed on their registration requiring the student meet with an advisor to make a plan to get back on track or change majors.

If a student is predicted to be on-track during the term, but ends up off-track at the end of term, they should meet with an advisor in their college/major before the end of drop/add for the next term to make a plan to get on track or change majors.

Students should review any holds on ONE.UF (<http://one.uf.edu/>) when planning their registration for the next semester.

### How Tracking Holds Affect a Student

- Holds applied before advance registration prevent students from registering until they consult an advisor to develop an academic plan to complete the critical-tracking courses for the current major or identify a more appropriate major.
- Holds applied at the end of the semester for failure to be on track for two consecutive semesters require students to see an advisor before the next term of enrollment to select a new major and to avoid cancellation of enrollment.

### Minimum Academic Progress Under Universal Tracking During Semesters 6-8

- In the degree audit, critical-tracking criteria for semesters six through eight will appear in the "Critical Tracking Progress" area near the top of the audit only if the student has a critical tracking term of six through eight.
- The critical-tracking criteria are minimum requirements for progression; students should consult their degree audit and their advisor to ensure they meet all requirements for graduation.
- During the critical tracking semesters six through eight, an **off-track** student may have a hold placed on their record requiring them to formulate a plan for getting on track and preparing for graduation in a timely manner.
- If a student is **off-track for two consecutive terms** in during critical tracking semesters six through eight, they will be required to revise their graduation plan and undergo more intensive academic counseling to ensure they meet all academic requirements for timely graduation.

## Off-Track Notification During Semesters 6-8

Student progress toward tracking is assessed twice a semester. An analysis of whether the student will be on track at the end of the term ('predictive' analysis) occurs in the fourth week. If a student is predicted to be off-track at the end of the term, a hold may be placed on their registration requiring the student meet with an advisor to make a plan to get back on track.

## Academic Probation and Dismissal

Academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable adherence to the program of study.

A minimum grade point average of 2.0 is required to graduate from any UF undergraduate degree program. Any college may specify additional academic standards and students are responsible for observing these regulations.

### Additional Information

- Probation (p. 1771)
- Dismissal (p. 1771)
- Changing Majors (p. 1705)

## Academic Support Programs

### Academic Support, Office of | 105 Classroom Building (CBD)

The Office of Academic Support (OAS) for Undergraduate Affairs, in collaboration with faculty, staff, and our campus partners, provides programs and services to enrich the experience of UF students. Our mission is to offer supportive resources and opportunities that help students thrive and grow professionally. OAS is committed to creating an encouraging and inclusive learning community that challenges our students to achieve academic excellence. Our comprehensive academic support includes peer coaching, tutoring, general advising, and other resources to promote students' empowerment and growth as scholars. We help students set and achieve academic goals to persist, graduate, and advance in their careers.

Map (<https://campusmap.ufl.edu/#/index/0105>) More Info (<http://oas.aa.ufl.edu/>)

### Career Connections Center | Level ONE Reitz Union

The Career Connections Center (C3) is the University of Florida's comprehensive career center serving all students. The Career Connections Center supports students with all career and professional development needs during their time at University of Florida and beyond. The Career Connections Center's mission is to educate and create connections for the UF community to facilitate the holistic career development of students.

The Career Connections Center provides a variety of services, tools, and events for students. Whether students are exploring career options, developing professional skills, finding meaningful experience, or preparing for life after graduation, the Career Connections Center prepares students for work, citizenship, and life. Through the Career Pathways initiative, students can access customized information, connections, and programs to personalize their professional development experience.

Students should activate their Gator CareerLink account to learn about the range of in-person and virtual career planning services available to them, and to see which employers are actively recruiting UF candidates. On Gator CareerLink, students can also see upcoming events and workshops customized to their interests and Career Pathway.

The Career Connections Center also hosts hundreds of employers annually as they attend a variety of career events, hold on-campus interviews, present employer hosted events, and educational programs for students. Students should attend Career Showcase, the largest career fair on campus-hosted every Fall and Spring semester.

Students are encouraged to engage early and often with the Career Connections Center to enhance their University of Florida experience.

Map (<http://campusmap.ufl.edu/?loc=0686>) More Info (<https://career.ufl.edu/>)

### Center for Undergraduate Research | 202 Newell Hall

The Center for Undergraduate Research (CUR) is committed to fostering a culture of research that encourages students in all levels and disciplines to include a research component as a critical part of their undergraduate experience. CUR provides guidance to students interested in pursuing research opportunities and coordinates campus undergraduate research activities. CUR also works to expand undergraduate research opportunities across campus.

Map (<http://campusmap.ufl.edu/?loc=0013>) More Info (<http://cur.aa.ufl.edu/>)

### Dean of Students Office Campus Assistance & Resources for Empowerment (CARE)

Campus Assistance & Resources for Empowerment (CARE) provides connection, support and guidance for students as they navigate anticipated transitions and unexpected events.

CARE programs include:

- Alan and Cathy Hitchcock Field & Fork Pantry
- Case Managers
- Collegiate Veteran Success Center
- Medical Petitions

## Alan and Cathy Hitchcock Field & Fork Food Pantry

The Alan and Cathy Hitchcock Field & Fork Pantry assists members of the UF community experiencing food insecurity. The Pantry is committed to protecting its guests' privacy and providing food to those in need within our campus community.

564 Newell Drive (across from the Hub on North Lawn)  
352.294.3601

Map (<https://campusmap.ufl.edu/#/index/0476>) More Info (<https://pantry.fieldandfork.ufl.edu/>)

## Case Managers

Case Managers within CARE provide non-clinical, personalized outreach and offer one-on-one meetings, providing students a space to address academics and overall wellness needs. Students who need assistance through a variety of challenges can indicate their need for support by completing a Self-Care Referral ([https://cm.maxient.com/reportingform.php?UnivofFlorida&layout\\_id=30](https://cm.maxient.com/reportingform.php?UnivofFlorida&layout_id=30)) form. Faculty, staff, peers, and community members can refer a student of concern to case management by completing a CARE Concern ([https://cm.maxient.com/reportingform.php?UnivofFlorida&layout\\_id=10](https://cm.maxient.com/reportingform.php?UnivofFlorida&layout_id=10)). CARE Case Managers also help students understand the medical petition process.

202 Peabody Hall  
352.392.12610

Map (<http://campusmap.ufl.edu/?loc=0004>) More Info (<https://care.dso.ufl.edu/>)

## Collegiate Veterans Success Center | Fourth Floor Yon Hall

The Collegiate Veterans Success Center serves more than 1,500 student Veterans, active-duty service members, and military families at UF by providing a designated location on campus for student Veterans to study, meet with on and off campus resources, and to spend time with and support each other in a fun and relaxing space. The Collegiate Veterans Success Center at UF is also one of ninety-four universities to host the U.S. Department of Veterans Affairs' VetSuccess on Campus Counselor (VSOC). The VSOC Program serves as the on-campus face for the U.S. Department of Veterans Affairs. UF has been honored for its support services for student Veterans, active-duty service members, and military families.

418 Yon Hall  
352.294.7233

Map (<https://campusmap.ufl.edu/#/index/0158>) More Info (<https://veterans.dso.ufl.edu/>)

## Medical Petitions

If a student who has not completed their academic program, experiences an unexpected medical event that interrupts their ability to complete and or pass some or all of their classes in a given term, the medical petition process may be considered. Specific medical documentation is required and should be submitted via the Medical Petition Portal (<https://care.dso.ufl.edu/medical-petition-portal/>).

202 Peabody Hall  
352.392.12610

Map (<http://campusmap.ufl.edu/?loc=0004>) More Info (<https://www.dso.ufl.edu/care/>)

## Disability Resource Center | Reid Hall and Cypress Hall

The Disability Resource Center (DRC) in the Division of Student Life, celebrates disability identity as a valued aspect of diversity. We champion a universally accessible campus community that supports the holistic advancement of students with disabilities.

The DRC serves more than 6,200 registered students to provide access within the academic and housing environments. This may be achieved through academic accommodations as well as collaborating with faculty and staff across the University to proactively address barriers. Students are able to register online by visiting our website. DRC staff are available to consult with faculty and staff on how to best support the access needs of students with disabilities. Students and their families can schedule an inquiry appointment to learn more about the DRC.

Map (<http://campusmap.ufl.edu/?loc=0020>) More Info (<https://disability.ufl.edu/>) Appointments (<https://disability.ufl.edu/about/drc-appointments/>)

## Graduate Diversity Initiatives, Office of | 123 Grinter Hall

The Office of Graduate Diversity Initiatives (OGDI) is a function of the Graduate School dedicated to the recruitment and retention of underrepresented graduate students. This includes increasing the number of UF graduate students from underrepresented ethnic/racial populations, low-income or first-generation college students, as well as advancing and promoting professional development for all graduate students at the University of Florida. OGDI strives to provide currently enrolled graduate students with programs and services to assist and support the pursuit of a successful graduate education. OGDI provides students with social, informational, referral, mentoring, and, in some cases, financial support. Additionally, OGDI maintains

partnerships with administrative offices, academic units, research centers, student services, and organizations across campus to help students with the graduate experience. OGDl accomplishes its mission through several programs held throughout the academic year.

## Undergraduates Interested in Graduate School

OGDI aims to improve our UF undergraduates' access to information about graduate school opportunities and to assist graduate schools in identifying qualified underrepresented candidates interested in graduate studies. In this effort, OGDl maintains The University of Florida's membership to the National Name Exchange Consortium (<https://cgsnet.org/national-name-exchange/>). This consortium matches underrepresented undergraduate students interested in graduate studies to graduate schools nationwide. The name exchange seeks to increase the number of qualified minority students accepted into graduate school. OGDl also participates in several recruitment events throughout the state and beyond.

Office of Graduate Diversity Initiatives  
123 Grinter Hall  
Gainesville, FL 32611

Map (<http://campusmap.ufl.edu/?loc=0002>) More Info (<http://graduateschool.ufl.edu/about-us/offices/dgsa/ogdi/>) Email ([ogdi@aa.ufl.edu](mailto:ogdi@aa.ufl.edu))

## International Center | 170 Hub

The UF International Center (UFIC) supports and promotes international education and research across the university and provides valuable support services for all students and faculty at UF through its various units. International Student Services provides immigration and support services to international students throughout their studies at UF. Exchange Visitor Services provides administrative support for international scholars at UF. The Office for Global Learning supports integrative global opportunities for faculty and staff to facilitate global learning courses and experiences. The Office for Global Research supports faculty development of international research and training programs.

Study Abroad Services develops, administers, and coordinates study abroad programs, which are offered during spring break, summer, semester, and the entire academic-year. Students can live and study abroad while fulfilling UF degree requirements. Exchange programs enable students to pay UF tuition while studying at an international partner institution. Scholarships and financial aid can help to finance the international academic experience. Study abroad advisors work with students to find a program that fits both their personal and academic needs.

Map (<http://campusmap.ufl.edu/?loc=0032>) More Info (<https://internationalcenter.ufl.edu/>)

## McNair Scholars Program | 319 Infirmary Building

The Ronald E. McNair Scholars Achievement Program encourages undergraduate students to pursue advanced studies at the PhD level. This intense academic research program, one of the most prestigious in the country, is designed for first-generation and low-income college students, as well as students from groups underrepresented at the graduate level. There are 187 McNair programs nationally, which are funded by Federal TRIO Program grants from the U.S. Department of Education.

New scholars begin the program in May with an intensive 10-week summer research internship. During the internship, scholars conduct research with a faculty mentor, complete a research methods and writing course, receive support for the GRE, attend graduate school success seminars, and participate in team building, cultural, and scholarly activities.

McNair Scholars receive mentoring, academic support, faculty-guided research experience, a research stipend, opportunities to travel to professional conferences and prospective graduate programs, and many other benefits.

## CLAS Academic Resources

Academic Resources offers various academic resources to help students succeed in their studies. All of our tutoring services are free to current students.

The following tutoring services are available:

- Drop-in tutoring: best for students who have a few questions or want a place to study with the opportunity to ask questions of a tutor.
- Appointment tutoring: best for students who want to meet regularly with a tutor for an entire class period. These appointments meet at the same time each week of the term.
- Study Groups / SI: group tutoring which allows students to work together with a peer leader. In SI, students actively process concepts through social interaction.
- Test Reviews: large auditorium tutoring is great for an overall review of what to expect on upcoming course exams. GRE preparation workshops are also available each semester.
- Video Resources: features tutors explaining how they think about concepts and how they approach problem solving. These online resources are available any time.
- Language Studio: offers facilities and support for language learners and instructors. Activities include: language tutoring, meeting space, conversation space, and multimedia resources.

- Language proficiency test proctoring: UF students may use the to prove proficiency in a foreign language, and thus satisfy a foreign language requirement.

More Info (<https://academicresources.clas.ufl.edu/testing/flpe/>)

A study skills/learning strategies improvement program is also available. Students may work individually with a learning strategist or participate in workshops covering a variety of topics. Study skills videos are available online as well.

Academic Resources also provides tutoring in satellite centers (mathematics through Calculus 1 in LIT 215 and chemistry in TUR 1315). Tutoring schedules may be found on the website.

More Info (<https://teachingcenter.ufl.edu/>)

## University of Florida Libraries

All seven of the libraries on campus serve the entire community, and each has a special mission to be the primary support of specific colleges and degree programs. The Libraries home page offers a wealth of information about the Libraries and links to a vast array of resources.

More Info (<https://uflib.ufl.edu>)

The Marston Science Library and Library West are the largest libraries on campus. Marston offers a variety of study environments, including silent study (fourth and fifth floors), collaboration spaces (first, second, third floors), and 26 group study rooms. Student groups can reserve the multipurpose conference room for webinars or other interactive events. The first floor is also home to the Marston Makerspace, where students may utilize 3D printers, laser cutters, soldering irons, sewing machines and more for a hands-on learning environment.

Library West (Humanities and Social Sciences) offers eighteen group study rooms, a graduate student floor and carrels, an Accessibility Studio and a One Button Video Recording Studio is a "do it yourself" studio available for student use. Library West hosts 150 computer workstations as well as iMacs. Library West also has a robust Audio-Visual and tech gear lending program with hundreds of cameras (Go Pros, video, 360-degree, and DSLR) and related accessories, in addition to recording and podcasting kits, iPads, Anker portable chargers, DVD/CD-ROM players, Meeting Owl 360 cameras, and LP record players.

Other campus libraries include the Health Science Center Library, Education Library, Architecture & Fine Arts Library, Smathers Library (housing the Special and Area Studies Collections Department), and the Legal Information Center.

More Info (<https://uflib.ufl.edu>)

## University Multicultural Mentor Program

The University Multicultural Mentor Program is an opportunity open to incoming students from underrepresented populations. The program pairs each participant with a faculty/staff mentor to assist with the students' transition to college. Mentoring programs have a dramatic and positive effect on student retention, graduation rates, and faculty-student relations. This program lasts the full duration of the student's first year at UF and is administered by the Center for Inclusion and Multicultural Engagement within the Division of Student Life.

## University Writing Program | 2215 Turlington Hall

The University Writing Program (UWP) offers writing-intensive courses, workshops, and tutorial support to students and faculty. Instruction is based on the premise that writing is a skill necessary for success in all academic and professional fields.

The University Writing Program also provides one-on-one consultations on any topic related to writing in the Writing Studio. Students can make an appointment online or by contacting the UWP office.

Courses taught by writing program faculty include

Code	Title	Credits
ENC 1101	Expository and Argumentative Writing	3
ENC 1102	Argument and Persuasion	3
ENC 2305	Analytical Writing and Thinking	3
ENC 3246	Professional Communication for Engineers	3
ENC 3252	Writing for Strategic Communication	3
ENC 3254	Professional Writing in the Discipline	3
Variable topics for ENC 3254 include: Nature Writing; Travel Writing; Writing in Construction Management; Writing in the Environmental Sciences; Writing for Graphic Design; Writing in the Humanities; Writing for Non-Profits; Writing in Sustainability; Writing in Women's Studies		
ENC 3453	Writing in the Health Professions	3
ENC 3459	Writing in the Medical Sciences	3
ENC 3464	Writing in the Social Sciences	3
ENC 3465	Writing in the Law	3
ENC 3466	Writing in the Communication Sciences	3

ENC 3483	Writing in the Physical Sciences	3
ENC 4493	Peer Tutoring in Rhetoric and Writing	2

## Academic Honors

### Honors Program

#### Mission

The mission of the University of Florida Honors Program is to connect, nurture, and engage the next generation of scholars who change the world. The program does this by recruiting high achieving students from around the world; inspiring curiosity, intellectual daring and creativity; and building a lifelong community of high-achieving peers, top-notch faculty and supportive staff. The Honors Program values the power of opportunity, the strength in community, and the love of a challenge.

More Info (<http://www.honors.ufl.edu/>)

#### Honors Program Requirements

Students who have been admitted into the Honors Program starting in 2022 must complete requirements at three different milestones to progress through the University Honors Program. Milestone review will take place at the checkpoints indicated below. Students who do not meet their milestone requirements by their checkpoint review will not remain in the program. All requirements are listed in detail in the Honors Cohort in Canvas.

Students are encouraged to meet early on with their Honors advisor to develop a plan for aligning their milestone requirements with their academic and career goals.

**Milestone I: First Year Honors**

- Entrance Survey
- 2 Academic Points – Honors Course Category
- 3.5 Cumulative UF GPA
- Good Standing with Student Code of Conduct / Honor Code

Checkpoint Review: End of first spring semester at UF

More Info (<http://www.honors.ufl.edu/admissions/first-year-honors-program-fhp/>)

**Milestone II: 60 Credits Earned at UF (excludes incoming credits)**

- 2 Additional Academic Points – any category
- 2 Enrichment Points – any category

More Info (<http://www.honors.ufl.edu/admissions/university-honors-program-uhp/>)

**Milestone III: Graduation**

- Exit Survey / Final Submission Clearance
- 4 Additional Academic Points – any category
- 4 Additional Enrichment Points – any category
- “Cum Laude” Honors Distinction in the Major

Checkpoint Review: Published Honors Completion Deadline / Awarding of Undergraduate Degree

More Info (<http://www.honors.ufl.edu/info-for/current-students/completion-requirements/>)

Students who meet requirements for all three milestones will receive a notation on their official UF transcript and a medallion to wear at commencement

Students in the Honors Program have access to:

- Specialized honors courses (<http://www.honors.ufl.edu/academics/courses/>)
- Holistic academic advising and coaching (<http://www.honors.ufl.edu/academics/advising/>)
- Honors student involvement opportunities (<http://www.honors.ufl.edu/student-life/>)

In addition, students in the Honors Program have early course registration for their first 10 credits each semester. Early registration privileges are limited to students in good standing with either the FHP or UHP.

**Honor Roll**

Students will appear on the President’s Honor Roll if they achieve a perfect 4.0 GPA with at least 15 credits of graded academic course work (no S/U) in the fall or spring semester, or at least 12 credits of graded coursework in the summer semester (consisting of any combination of credits earned in Summer A, B, or C). This achievement will appear on the student’s transcript as a permanent record.

Map (<http://campusmap.ufl.edu/#/index/0031>) | Email ([help@registrar.ufl.edu](mailto:help@registrar.ufl.edu))

Students registered with the Disability Resource Center may be eligible with a reduced course load and the GPA requirement, following certification by the DRC.

More Info (<https://disability.ufl.edu/meet-the-team/>)

**Dean's List**

Students will appear on their college's Dean's List if they meet the requirements. In addition, please note the following conditions:

- S/U and internship courses are not counted in the GPA calculation for Dean's List.
- GPA value is determined to the hundredths place and cannot be rounded up (e.g., 3.495 = 3.49).
- Grades of I, NG, I\* or N\* cannot be calculated into the GPA.
- Students registered with the Disability Resource Center may be allowed to vary the number of credits required, but not the GPA requirement, following certification by the DRC.
- Students are eligible to earn the Dean's List designation only once for the entire summer semester.

### Graduating With Honors

The university offers three levels of honors: **cum laude**, **magna cum laude** and **summa cum laude**.

Please be aware that:

- GPA value is determined to the hundredths place (e.g., 3.495 = 3.49)
- Transfer credits and S/U option credits are excluded
- Postbaccalaureate students are not eligible for honors recognition

- Honors recognition is printed on the university diploma
- Students should check with an academic advisor for complete details

## Honors by College and Major

### Accounting, Fisher School of

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.2 GPA in all upper-division accounting coursework and a 3.2 upper-division GPA, which includes all courses taken after the student reaches 60 semester credits.	3.6 GPA in all upper-division accounting coursework and a 3.6 upper-division GPA, which includes all courses taken after the student reaches 60 semester credits. Completion of ACG 4970, with thesis and abstract.	3.8 GPA in all upper-division accounting coursework and a 3.8 upper-division GPA, which includes all courses taken after the student reaches 60 semester credits. Completion of ACG 4970, with thesis and abstract.

	It is possible that a student may complete a thesis and not receive a magna or summa cum laude designation.	It is possible that a student may complete a thesis and not receive a magna or summa cum laude designation.

Students must have earned an A or B in at least one semester of an approved 4911/4935 course. The distinction of magna cum laude is based on an evaluation of the thesis by the faculty advisor and second reader.

Students must have earned an A or B in at least one semester of an approved 4911/4935 course. Students' writing and research must be excellent, of nearly publishable quality. The distinction of summa cum laude is based on an evaluation of the thesis by the faculty advisor and second reader.

### Geography

#### Cum Laude

#### Magna Cum Laude

Student must earn an A in GEO 4970 or GEO 4905 and submit an honors thesis. Distinction of magna or summa cum laude is based on evaluation of the thesis by a faculty advisor and a second reader.

#### Summa Cum Laude

Student must earn an A in GEO 4970 or GEO 4905 and submit an honors thesis. Distinction of magna or summa cum laude is based on evaluation of the thesis by a faculty advisor and a second reader.

### Geology

#### Cum Laude

#### Magna Cum Laude

Students must complete two semesters of GLY 4911 with grades of B or higher and submit an honors thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

#### Summa Cum Laude

Students must complete two semesters of GLY 4911 with grades of B or higher and submit an honors thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

### History

#### Cum Laude

#### Magna Cum Laude

In the fall semester, student must pass the History Honors Seminar: Thesis Workshop while completing thesis research. Then, in the spring semester, student must enroll in HIS 4970 and write an acceptable thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis. Contact the undergraduate coordinator or history honors coordinator for information.

#### Summa Cum Laude

In the fall semester, student must pass the History Honors Seminar: Thesis Workshop while completing thesis research. Then, in the spring semester, student must enroll in HIS 4970 and write an acceptable thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis. Contact the undergraduate coordinator or history honors coordinator for information.

### Interdisciplinary Studies

#### Cum Laude

#### Magna Cum Laude

Student with a GPA of 3.5 or higher must be recommended by two members of the student's supervisory committee, including the principal supervisor, who will affirm that the student conducted an individual project in IDS 4906 (or equivalent). Distinction of magna or summa cum laude is based on faculty evaluation of the project.

#### Summa Cum Laude

Student with a GPA of 3.5 or higher must be recommended by two members of the student's supervisory committee, including the principal supervisor, who will affirm that the student conducted an individual project in IDS 4906 (or equivalent). Distinction of magna or summa cum laude is based on faculty evaluation of the project.

### Jewish Studies

#### Cum Laude

#### Magna Cum Laude

Student must enroll in JST 4970 and complete an honors project. Distinction of magna or summa cum laude is based on faculty evaluation of the project.

#### Summa Cum Laude

Student must enroll in JST 4970 and complete an honors project. Distinction of magna or summa cum laude is based on faculty evaluation of the project.

### Linguistics

#### Cum Laude

#### Magna Cum Laude

Student must complete at least three credits of LIN 4905, followed by LIN 4970. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

#### Summa Cum Laude

Student must complete at least three credits of LIN 4905, followed by LIN 4970. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

# Academic Terminology

| A (p. 1726) | B (p. 1727) | C (p. 1727) | D (p. 1728) | E (p. 1728) | F (p. 1728) | G (p. 1729) | H | I (p. 1729) | J | K | L (p. 1729) | M (p. 1729) | N | O (p. 1730) | P (p. 1730) | Q | R (p. 1731) | S (p. 1731) | T (p. 1732) | U (p. 1732) | V (p. 1732) | W (p. 1732) | X | Y | Z |

## A

### • AA Degree

Associate of Arts degree, awarded upon satisfactory completion of 60 credits (at least 36 at UF) with an overall C (2.0) average, including the general education requirement, foreign language competency, the civic literacy requirement, and the writing requirement.

More Info (p. 1777)

### • Academic Learning Compact | ALC

UF's definition for each major of the minimum communication skills, critical thinking skills and content knowledge appropriate for that major.

### • Academic Year

The annual cycle of academic terms: Summer B, Fall, Spring, Summer A, Summer C.

More Info (p. 1795)

### • Admission Requirements

The necessary minimum criteria every applicant must have to be admitted to UF. Many majors have additional requirements for admission as a junior.

More Info (p. 22)

- **Admitted**

Term used to describe students who have applied and have been accepted to the university in a degree-seeking status. Admission is not validated until the student registers for and attends classes.

More Info (p. 22)

- **Audit**

Permission to attend and to participate in a course without benefit of a grade or credit. Continuing Education Units (CEUs) may be awarded at the discretion of the instructor.

More Info (p. 1792)

## B

- **Baccalaureate**

Bachelor's degree, the traditional undergraduate degree. BA is the Bachelor of Arts degree and BS is the Bachelor of Science degree. It is awarded upon satisfactory completion of at least 120 credits with an overall C (2.0) average.

## C

- **Calendar, University**

An annual publication listing all official dates and deadlines for the academic year.

More Info (p. 1795)

- **Catalog Year**

The year during which the regulations published in a specific edition of the undergraduate catalog apply. A student's catalog year determines their academic requirements for completing a degree based upon the requirements published in the catalog in effect at the time the student begins degree-seeking enrollment.

More Info (p. 1777)

- **Certificate**

An organized concentration of study in an approved subject area. University-approved certificate programs began appearing on the student transcript in Spring 2012. Non-university approved certificate programs are not recognized on a student transcript, although individual courses are reflected.

More Info (p. 1706)

- **Classification/College**

A code indicating a student's academic level (year) and college affiliation.

More Info (p. 1794)

- **Combination Degrees**

Combination degrees allow students to double count graduate credits toward their bachelor's degree at no loss of integrity or quality of either degree.

More Info (p. 1734)

- **Common Course Numbering System**

A statewide system of course prefixes and numbers developed to facilitate the transfer of credit by identifying equivalent courses.

More Info (<http://scns.fldoe.org/>)

- **Continuing Education Unit | CEU**

Courses taken to maintain licensure in professions that require a state or professional board license.

- **Continuous Enrollment**

Undergraduate students who enroll for at least one course in one term in an academic year are continuously enrolled.

More Info (p. 1777)

- **Corequisite**

Two courses that must be taken concurrently.

- **Course Sequence**

The specified order of enrollment for a series of courses; e.g., SPN 1130, SPN 1131, SPN 2200, SPN 2201.

- **Credit**

Every course taught is designated a total number of credits. The number of credits for a class reflects approximately the total hours a student spends per week in class.

- **Critical-Tracking Criteria**

The courses required for progression in a major. These courses are in bold or otherwise noted in the undergraduate catalog and on the degree audit.

More Info (p. 1707)

- **Cum Laude**

Graduating with honors.

More Info (<http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext>)

## D

- **Deficit Record**

A combination of UF cumulative credits and UF cumulative grade point average, where the UF cumulative GPA falls below a 2.0.

More Info (p. 1772)

- **Degree Audit**

A computerized evaluation of a student's progress towards completion of a degree. See ONE.UF.

More Info (<https://one.ufl.edu/dashboard/>)

- **Dismissal**

Academic dismissal from the university denies registration privileges to students who have a cumulative GPA at or below the standard required for their cumulative UF credit hours carried. The student will be dismissed from the university and any advance registrations will be cancelled.

More Info (p. 1771)

- **Drop**

To drop a single course from a given term after the drop/add period. Students are liable for fees for a dropped course and a W is posted to the student's transcript.

More Info (p. 1778)

- **Drop/Add**

A period of time beginning with the first day of classes when students can adjust schedules by dropping or adding courses or changing sections of a course. Courses dropped by 11:59 p.m. on the last day of drop/add are not subject to fees.

More Info (p. 1778)

- **Dual Enrollment**

Simultaneous registration at two educational institutions.

More Info (p. 1748)

## E

- **Early Admission**

Admission as a freshman following completion of the junior year of high school.

More Info (p. 23)

- **Electives**

Any course not required as part of a student's degree requirements but applying to the minimum credits for the degree.

- **Enrollment**

Registration for coursework and payment of fees constitutes official enrollment.

- **Excess Hours**

Credits exceeding a state-specified threshold of credits taken toward the degree requirements. Additional tuition is assessed for credits exceeding this threshold.

More Info (p. 1780)

## F

- **FERPA**

The Family Educational Rights and Privacy Act, which affords students certain rights with respect to their education records.

More Info (p. 1786)

- **Flexible Learning**

Distance & Continuing Education (DCE) offers fully online undergraduate courses for college credit through UF Flexible Learning.

More Info (p. 1757)

## G

- **GatorLink**

A student's computer identity at UF, which consists of a username and password to allow access to secure UF sites. It also includes official UF email service, usually in the format of username@ufl.edu. All students are required to sign up for a GatorLink account and email service as official university communications are sent to this email address.

More Info (p. 1806)

- **GatorOne Card**

UF's official university photo identification. All enrolled students must have a university ID card.

More Info (p. 1806)

- **General Education Requirement**

University-wide requirement of basic studies that form the foundation of all undergraduate degree programs.

More Info (p. 65)

- **Good Standing**

Eligible to continue to register for university coursework.

More Info (p. 1771)

- **Grade Point Average | GPA**

The ratio of grade points earned to semester credits carried. The UF GPA is computed on University of Florida coursework only. The UF GPA is displayed to the hundredths place and not rounded up (i.e. 3.528 = 3.52).

More Info (p. 1789)

- **Grade Points**

The number of points attributed to a grade (A=4, B=3, etc.) times the number of credits of the course.

More Info (p. 1789)

- **Graduate Student**

A student who has earned a baccalaureate degree and who has been admitted to the Graduate School to pursue a graduate degree program (master's, specialist, engineer, doctorate).

More Info (<http://www.graduateschool.ufl.edu/>)

- **Graduation Requirements**

University-wide, college, and major-specific requirements that must be met in order to graduate from UF.

More Info (p. 1777)

## I

- **Individual Students Assessments | ISA**

The different ways in which UF will measure whether students have successfully completed the learning outcomes for a particular major. These may include a passing score on a particular test, a final project, term paper, portfolio and so on.

- **Innovation Academy | IA**

A unique undergraduate program experience, IA creates a small-college experience that focuses on delivering innovation, creativity, entrepreneurship, ethics, and leadership. IA students take courses on campus during the spring and summer, leaving the fall term free for online courses, study abroad, internships, research, community service, and/or employment. IA students follow this spring-summer on campus schedule throughout their entire degree program.

More Info (<https://innovationacademy.ufl.edu/>)

## L

- **Learning Outcomes**

What students are expected to learn by completing a particular major.

## M

- **Magna Cum Laude**

Graduating with high honors.

More Info (<http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext>)

- **Major**

A subject of academic study chosen as a field of specialization.

More Info (p. 1705)

- **Matriculation**

Initial term of enrollment and attendance at UF. Can be as an admitted, degree-seeking student, or as a non-degree student.

- **Medical Withdrawal**

Student withdraws from all courses in a given term based on medical documentation. Fees for the semester will be refunded if a successful petition is filed within six months of the end of the given term.

More Info (<https://care.dso.ufl.edu/medical-withdrawal-process/>)

- **Minor**

An officially recognized secondary concentration of study in an approved subject area, consisting of at least 15 credits of appropriate coursework. Minors are optional.

More Info (p. 1706)

## O

- **Ombuds**

The Ombuds assists all members of the university community to solve problems and conflicts. They will listen, discuss issues, answer questions, interpret policies, provide information and referrals, and help develop options for problem resolution. The Ombuds Office serves as an advocate for fairness for all members of the university community.

More Info (p. 1771)

- **On-track or Off-track**

On-track refers to students who are meeting progress requirements each term, according to their majors' critical tracking plans. Off-track refers to students who are not progressing toward their degree requirements each term.

More Info (p. 1771)

- **ONE.UF**

Enables students to access and manage their records online.

More Info (<https://one.uf.edu/>)

- **Overall GPA**

Cumulative GPA of UF coursework. GPA's are displayed to the hundredths place and not rounded up.

More Info (p. 1789)

## P

- **PaCE | Pathway to Campus Enrollment**

PaCE offers degree programs through a combination of online and residential or campus-based learning options.

More Info (<http://www.admissions.ufl.edu/pace/>)

- **Permanent Academic Record**

The complete list of a student's courses attempted, grades and credit earned, degrees awarded and any other pertinent academic information.

- **Petition**

A written request seeking a waiver of or an exception to a university regulation, policy or deadline. Petitions may be considered if the circumstances are beyond the student's control.

More Info (p. 1771)

- **Postbaccalaureate**

A student who has earned a baccalaureate degree and been admitted for continued study but who has not been admitted as a graduate or professional student.

- **Preprofessional GPA**

The grade point average achieved in the specific courses required for admission to a major (a.k.a. tracking GPA); these courses generally are completed in the first two years of study and the required GPA is often higher than 2.0.

- **Prerequisite**

A condition that must be met to establish eligibility to enroll in a program or course.

- **Prerequisite Courses**

The courses students must take and successfully complete before they can enroll in a subsequent course.

- **Probation, Academic**

Any undergraduate with less than a 2.0 cumulative UF GPA shall be placed on academic probation while a grade point deficit exists. Refer to deficit points.

More Info (p. 1771)

- **Professional Student**

A student who is admitted to pursue a credential classified as professional such as Doctor of Dental Medicine, Juris Doctor, Doctor of Medicine, Doctor of Nursing Practice, Doctor of Pharmacy, Doctor of Physical Therapy, Physician Assistant or Doctor of Veterinary Medicine degree.

## R

- **Readmission**

The procedure for a previously enrolled UF student to re-enroll in a degree-seeking status after a break in enrollment of more than three terms; a readmission fee is required.

More Info (p. 25)

- **Registration**

The process by which a student officially selects and enrolls in university coursework.

More Info (p. 1792)

- **Residence**

A student's tenure within the university and/or a specific college or school in campus-based learning opportunities.

More Info (p. 1777)

- **Residency**

Classification of students as Florida residents or non-Florida residents for tuition purposes.

More Info (p. 26)

## S

- **Schedule Adjustment**

A period of time following registration before the beginning of classes when students can adjust their course schedules.

- **Schedule of Courses**

A listing of courses offered by semester.

More Info (<https://registrar.ufl.edu/soc/>)

- **Semester**

A standard academic term (Fall, Spring, or Summer). Refer to term.

More Info (p. 1795)

- **Student**

Any individual who is attending or has attended a postsecondary educational agency or institution that maintains academic records.

- **Specialization**

A detailed set of courses and/or semester plan for graduation for an emphasis of study within a major.

- **Student Learning Outcomes | SLOs**

What students are expected to learn by completing a particular major.

- **Summa Cum Laude**

Graduating with highest honors.

More Info (<http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext>)

- **S/U Option**

A provision by which a student may elect, with college approval, to enroll in a course, the grade for which is not computed in the grade point average. Grades awarded are S (satisfactory) or U (unsatisfactory). The S grade is equivalent to a grade of C (2.0) or better. A grade of U does not grant credit for the course.

More Info (p. 1789)

- **SUS**

The State University System of Florida. The University of Florida is one of the state-supported universities and colleges in the SUS.

More Info (<http://www.flbog.edu/>)

## T

- **Term**

A period of instruction. During the Fall and Spring, the term is a standard 16-week semester. During the Summer, various shorter length periods of instruction are offered: Summer A and Summer B are six-week terms; Summer C is a 12-week term.

More Info (p. 1795)

- **Textbook Adoption**

The process by which textbook requirements are submitted by faculty and displayed online for students to see and to purchase for their courses.

- **Transcript**

An official copy of the student's complete coursework, grades, credits, and degrees earned at the University of Florida.

More Info (<https://registrar.ufl.edu/services/transcripts.html>)

- **Transfer Credit**

Coursework completed at another institution that is accepted at the University of Florida and which may be applicable toward a specific major, minor, or degree.

More Info (p. 25)

- **Transient Student**

A student of another accredited institution who receives permission to register (for one term) as a non-degree-seeking student to earn credit to transfer back to their parent institution.

## U

- **UFID**

A unique eight-digit number that serves as the primary identifier for all university records and transactions. No two people have the same number, and each person has only one UFID.

More Info (p. 1806)

- **UF Online**

Bachelor degrees and minors offered exclusively through distance learning.

More Info (<http://ufonline.ufl.edu/>)

- **Unit**

An alternate term for credit. One unit equals one credit.

- **Universal Tracking System and Audits**

UF's academic monitoring system features semester-by-semester plans for each major.

More Info (p. 1707)

## V

- **Visiting Student**

A student of another accredited institution who receives permission to register (for one term) as a non-degree-seeking student to earn credit to transfer back to their parent institution.

## W

- **What-If Report**

Exploring possible majors to determine a student's interest and to estimate whether the coursework they have completed meets any of the degree requirements for a specific major.

- **Withdraw**

To drop all courses for a given term. Students are liable for fees and a grade of W will appear on the transcript for each course.

More Info (p. 1778)

- **Writing Requirement**

The University of Florida requires all students to complete courses that involve substantial writing and meet specific criteria for a total of 24,000 words. Courses are identified by category in the schedule of courses.

More Info (p. 1766)

---

## Accelerated Degrees

### College of Dentistry's Honors Combination B.S./D.M.D. Program

Incoming freshmen who intend to pursue a career in dentistry can, through a cooperative agreement between the College of Agricultural and Life Sciences and the College of Dentistry, qualify for provisional admission to the preprofessional program leading to the DMD. This honors program helps highly motivated students complete a BS degree in Nutritional Sciences or Microbiology and Cell Science and the DMD degree.

More Info (<http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program/>)

Admission Criteria (<http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program/>)

Contact: 352.273.5955

### Medical Honors Program

An accelerated path to medical school. Students apply to this highly competitive program in the second semester of the second year of undergraduate study. If selected, they begin coursework for medical school in the third year and enter the MD program in the fourth year. After completion of the first year of medical school, students earn their BS degrees.

More Info (<http://jhmp.med.ufl.edu/>)

Admission Criteria: Apply during sophomore year

Contact: Email ([med-admissions@ufl.edu](mailto:med-admissions@ufl.edu)) | 352.273.7990

### Master of Agribusiness (MAB)

A professional degree for students who desire careers in marketing and management in agriculture, food processing and distribution, forest products and related industry where there has been strong demand for MAB graduates. Offered by the Department of Food and Resource Economics (FRE), the MAB can be completed in three semesters (Fall, Spring, and Summer). A bachelor's degree in economics or business is not required.

More Info (<http://www.fred.ifas.ufl.edu/graduate/mab/>)

Admission Criteria: Competitive GRE or GMAT score; 3.0 upper-division GPA

Contact: Email ([fregradprogram@ifas.ufl.edu](mailto:fregradprogram@ifas.ufl.edu))

### Master of Science in Management (MSM)

Provides non-business majors with the opportunity to combine the knowledge gained from other academic disciplines with functional business applications to create a dynamic skill set that is in demand by employers.

More Info (<https://warrington.ufl.edu/master-of-science-in-management/>)

Admission Criteria: Refer to website for next information session.

Contact: Email ([msm@cba.ufl.edu](mailto:msm@cba.ufl.edu)) | 352.273.0344.

### Master of Public Health

This degree offers diverse career opportunities, including identifying and tracking biohazards, keeping communities safe, investigating disease outbreaks, creating community health promotion programs, and measuring the impact of health policy on access to care.

More Info (<http://mph.ufl.edu/>)

Students are admitted to one of six concentrations:

- Biostatistics
- Environmental Health
- Epidemiology
- Public Health Management and Policy
- Public Health Practice
- Social and Behavioral Sciences

Admission Criteria: 1000 GRE and a 3.0 GPA for last 60 hours of undergraduate coursework.

Contact: Email ([shanson@php.ufl.edu](mailto:shanson@php.ufl.edu)) | 352.273.6379

---

## Combination Degrees

The Combination Degree program allows undergraduate students who qualify academically to obtain both a bachelor's and master's degree. Minimum qualifications for many programs include a 3.2 GPA and a competitive GRE score for admission to graduate school.

Available to students in any undergraduate degree program. Combination degree programs allow students to get a head start on their graduate education by taking graduate courses throughout the junior and senior undergraduate years. In most programs, 12 credit hours of graduate work will also count toward an undergraduate degree, thus reducing the time it takes to get both degrees. Students should consult their department advisors to determine whether the department offers combination degree programs and whether they qualify.

There are a number of financial considerations to keep in mind. Students are responsible for paying the difference between undergraduate and graduate tuitions. Florida Prepaid College Tuition Program participants will receive funding for the first 120 credit hours. The program will fund graduate courses taken toward the undergraduate degree at the undergraduate level. Financial aid may be available to assist with the graduate degree portion of the program.

### Advantages

- Combination degrees allow students to double count graduate credits toward their bachelor's degree at no loss of integrity or quality of either degree.
- Qualified students can obtain an undergraduate and a graduate degree in much less time than two separate degrees.
- The cost of both degrees is reduced, since at least 12 credits apply toward both degrees.
- Students have time to decide whether to pursue further graduate or professional study.
- A student's marketability is greatly enhanced; many professions now require a master's degree for entry-level positions.

## Combination Degrees by College

### All Degrees

#### Any Undergraduate Degree/Biostatistics MS

The Biostatistics Bachelors/MS program allows qualified students to earn a bachelor's degree from any degree program at UF and a master's of science degree in Biostatistics. This allows the master's degree to be attained within one year (two semesters, 24 credits). The master's of science degree in Biostatistics is designed to facilitate students' development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.

**Overlapping Credits:** 12

**Admission Criteria:** Must have at least junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; completion of 5 prerequisites with a GPA of 3.3 or better. STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.

**Contact:** 352.294.5926 | Email (<http://catalog.ufl.edu/mailto:kcason@ufl.edu>)

#### Any Undergraduate Degree/Mass Communication MA

Qualified students can pursue coursework toward a Master of Arts in Mass Communication (MAMC) with one of our online or on-campus concentrations. The College of Journalism and Communications is considered one of the nation's best. The strength of its programs, faculty, students, and alumni throughout its history has earned the college ongoing recognition as one of the best journalism and communication programs in the United States. It has developed its reputation for excellence by creating curricula that combine conceptual and theoretical instruction with skills training, so students have the opportunity to apply what they are learning in professional settings.

**Overlapping Credits:** 5-12

**Admission Criteria:** Students must meet eligibility criteria and obtain approval from their undergraduate department and the CJC graduate division through an application process. Prior coursework in communications not required. Students must plan to apply to CJC's MAMC program before completing their undergraduate degree

**Contact:** 352.273.3716 | Email ([combination@jou.ufl.edu](mailto:combination@jou.ufl.edu))

More Info (<https://www.jou.ufl.edu/combination-degree-main/>)

#### Any Undergraduate Degree/Public Health MPH

**Overlapping credits:** 15

Qualified students with any undergraduate major can pursue a Master's of Public Health degree. The MPH degree trains students to protect and improve health across all population levels. Students complete up to 15 credits of public health core courses as an undergraduate and then complete the remaining 33 credits after admission to graduate school. Upon application, students select a concentration biostatistics, environmental health, epidemiology, population health management, or social and behavioral sciences.

**Admission Criteria:** 3.2 GPA; completion of the following with a C or better: BSC 2005 or BSC 2010, PSY 2012, STA 2023.

**Contact:** 352.294.5419 | Email ([o.ardizzone@phhp.ufl.edu](mailto:o.ardizzone@phhp.ufl.edu))

More Info (<https://mph.ufl.edu/about/mph/collaborative-and-joint-mph-degrees/combination-bachelors-mph/>)

#### Any Undergraduate Degree/Urban and Regional Planning

**Overlapping Credits:** 21 (9 of the 21 hours can be taken in the home department)

**Admission Criteria:** 3.2 GPA; essays

**Contact:** 352.294.1493 | Email ([laurajd@ufl.edu](mailto:laurajd@ufl.edu))

More Info (<https://dcp.ufl.edu/urp/academics/combined-degree-program/>)

## Accounting, Fisher School of

### Accounting | 3/2 MAcc/BSAc

#### *Non-thesis only*

This is an integrated, five-year, 150-hour program that leads to the joint award of a Bachelor of Science in Accounting and a Master of Accounting. Students may pursue a general accounting curriculum or select an auditing or taxation concentration. This program is for students seeking a professional accounting career. Completion fulfills the state's requirements to take the CPA examination to practice in Florida.

Completion of the UF BSAc, when combined with the UF Master of Accounting (MAcc) program, will fulfill the State of Florida's educational requirements to take the Certified Public Accountant Examination in Florida and to obtain licensure as a CPA in Florida. CPA licensure includes other, non-educational requirements. Please note that requirements can change and may not immediately be reflected in this statement or in the program. Students should contact the Florida Board of Accountancy or visit their website (<https://nam10.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.myfloridalicense.com%2FDBPR%2Fcertified-public-accounting%2Feducation-requirements%2F&data=05%7C01%7CClarah.doyle%40warrington.ufl.edu%7Cf9efe02cf25a4b504e0908da9cb526a9%7C0d4da0f84a314d76ace60a62331e1b84%7C0%7C0%7C637994599117542156%7CUnknown%7CTWFPbGZsb3d8eyJWljoimc4wLjAwMDAiLCJQIjoiV2luMzliLCJBTEl6lk1haWwILCJXVCi6Mn0%3D%7C3000%7C%7C%7C&sdata=K7bCDM5PHRFHoDS%2Bi4JnlI5fhbvP10NWJ%2FTRYZUUvi8%3D&reserved=0>) for any questions regarding eligibility to take the CPA Exam or be licensed as a CPA in Florida. A determination as to whether the MAcc program combined with any other undergraduate program meets CPA educational requirements in Florida has not yet been made. Also, a determination has not been made whether the MAcc program, with or without the UF BSAc, meets educational requirements in any other state or jurisdiction. Consult the National Association of State Boards of Accountancy (<https://nasba.org/stateboards/>) website for information regarding CPA exam and licensure eligibility for all states and jurisdictions.

## **Business, Warrington College of**

### **Business Administration, Entrepreneurship | MSE**

**Overlapping Credits:** 2-10

Through a stimulating curriculum and transformational experiential learning opportunities, this one-year, intensive program equips promising entrepreneurs with the skills and savvy to plan, launch and sustain innovative ventures on their terms.

**Admission Criteria:** Adequate GMAT score; 3.2 minimum GPA

**Contact:** 352.273.0337 | Email (MSE@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/undergraduate-academics/combined-degrees/>)

**Business Administration, Management | MSM****Overlapping Credits:** 2-12

This degree provides nonbusiness majors the opportunity to combine knowledge from other academic disciplines with functional business applications to create a dynamic skill set in demand by employers in business and nonbusiness industries.

**Admission Criteria:** Competitive GMAT or GRE score; 3.2 minimum GPA

**Contact:** 352.273.0344 | Email (jane.mculty@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/undergraduate-academics/combined-degrees/>)

**Business Administration, Marketing | Master of Science****Overlapping credits:** 2-12

The Master of Science (M.S.) with a major in Business Administration and a concentration in Marketing is intended for students whose objective is to work in the field of marketing. Courses span the domain of marketing decision-making, from broad marketing strategy considerations to more focused decision areas such as pricing, branding, customer relationship management, and new product development.

**Admission Criteria:** 3.2 minimum GPA; Open to UF undergraduate business majors (e.g., Bachelor of Arts in Business Administration with a major in Business Administration - General Studies or Bachelor of Science in Business Administration, with a major in Finance, General Studies, Information Systems, Management, or Marketing).

**Contact:** 352.273.0668 | Email (msmarketing@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/undergraduate-academics/combined-degrees/>)

**Finance, Master of Science | MSF****Overlapping Credits:** 2-12

Students have the opportunity to study finance at the second-year MBA level. Courses cover nearly all areas of finance, including derivative securities, fixed income markets, equity valuation, international finance and real estate finance. With early application students can receive their undergraduate and graduate degrees in four years. The best time to apply is two years before the undergraduate degree would be received.

**Admission Criteria:** 465 GMAT (650+ average); 3.0 GPA (3.5+ average)

**Contact:** 352.392.9249 | Email (kelly.herring@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/master-of-science-in-finance/>)

**Information Systems | BS/MS****Non-thesis only****Overlapping Credits:** 12-16

This program develops the computing, quantitative and applications skills vital to a business problem-solving setting.

**Admission Criteria:** Competitive GMAT or GRE score; 3.0 GPA

**Contact:** 352.846.1370 | Email (chandra.hardy@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/undergraduate-academics/combined-degrees/>)

**Master of International Business | MIB****Overlapping Credits:** 2-12

This one-year degree allows UF business majors or minors to enhance their undergraduate business education with an in-depth study of global business issues and trends. The MIB program allows curriculum flexibility and incorporates practical global business components with a required one-week Global Immersion Experience course abroad and optional participation in an international exchange program.

**Admission Criteria:** Competitive GMAT or GRE score; 3.2 minimum GPA

**Contact:** 352.273.0343 | Email (mib@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/undergraduate-academics/combined-degrees/>)

**Real Estate, Master of Science | MSRE****Non-thesis only****Overlapping Credits:** 2-12

The MSRE thrives on innovation, a dynamic student body and significant interaction with high-level working professionals and nationally recognized professors. The program is a unique combination of theory and practice that will enhance the student's commercial real estate education and develop professional skills. Undergraduate students from any college/major may apply. Prior coursework in accounting, business, economics, finance or statistics is preferred but not required.

**Admission Criteria:** 465 GMAT (600+ average); 3.0 GPA (3.4+ average). Admission is based on a number of factors, including GMAT and academic record.

**Contact:** 352.273.0310 | Email (pam.demichele@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/undergraduate-academics/combined-degrees/>)

**Construction Management, M.E. Rinker, Sr. School of****Construction Management | BSCM/MSCM****Overlapping credit:** 12

The combination degree program allows qualified students to earn both a Bachelor of Science and Master of Science degrees in Construction Management at an accelerated pace. Qualified students are allowed to begin the MSCM degree course work in the Senior 1 semester and count

12 credits of graduate BCN-prefix coursework for both the BSCM and MSCM degree requirements. For additional information, contact the Director Graduate Programs and Research.

**Admission Criteria:** Competitive GRE score; 3.4 upper-division GPA; complete all 3000-level BCN courses

**Contact:** 352.273.1150 | Email (sravi@ufl.edu)

More Info (<https://dcp.ufl.edu/rinker/academics/undergraduate/construction-management/current-students/combined-degree-information/>)

## Design, Construction and Planning, College of

### Historic Preservation | BSSBE/MHP

**Overlapping Credits:** 15

Available to students in the Bachelor of Science in Sustainability and the Built Environment program.

**Admission Criteria:** 3.2 GPA

**Contact:** 352.294.1438 | Email (HPinfo@dcp.ufl.edu)

More Info (<https://dcp.ufl.edu/historic-preservation/degrees/bssbe-mhp/>)

### Interior Design | BS/MS

**Overlapping Credits:** 12

**Admission Criteria:** Competitive GRE score; 3.2 GPA

**Contact:** 352.392.0252 ext. 335 | Email (sheilabosch@ufl.edu)

More Info (<https://dcp.ufl.edu/interior/combination-degree/>)

### Landscape Architecture

**Overlapping Credits:** 9

Available to students in the Bachelor of Sustainability and the Built Environment program.

**Admission Criteria:** Competitive GRE score; 3.2 GPA

**Contact:** 352.392.6098 | Email (dpmanley@ufl.edu)

More Info (<https://dcp.ufl.edu/sbe/what/combined/bssbe-mla/>)

### Sustainability and the Built Environment | BSSBE/MISD

**Overlapping Credits:** 9

The combination degree program allows qualified students to earn both STEM degrees, a Bachelor of Science in Sustainability and the Built Environment (BSSBE) and the Master of Integrated Sustainable Development (MISD). Qualified students can start the MISD degree coursework in the senior 1 semester and count 9 credits of graduate coursework for both BSSBE and MISD degree requirements. For additional information, contact the Director of the BSSBE, or DCP advising.

**Admission Criteria:** 3.2 minimum GPA; admission to the MISD program

**Contact:** 352.294.1400 | Email (patricde@dcp.ufl.edu)

More info (<https://dcp.ufl.edu/sbe/what/graduate/>)

### Sustainability and the Built Environment/Landscape Architecture | BSSBE/MLA

**Overlapping Credits:** 9

Provides academically qualified students the opportunity to complete both the BS in Sustainability and the Built Environment (BSSBE) and the Master of Landscape Architecture (MLA). The program reduces the time to graduation by a semester or more, reduces the cost of both degrees, and enhances students' marketability for career advancement.

**Admission Criteria:** Adequate GRE score; 3.2 minimum GPA; admission to the MLA program

**Contact:** 352.294.1481

More info (<https://dcp.ufl.edu/sbe/what/combined/bssbe-mla/>)

## Engineering, College of

### Aerospace Engineering | BSAE/ME or MS

**Overlapping Credits:** 6

**Admission Criteria:** Competitive GRE score; 3.3 GPA

**Contact:** 352.392.0963 | Email (bfc@ufl.edu)

More Info (<http://www.mae.ufl.edu/current/undergraduate/4-1-bs-ms-program/>)

### Biological Engineering | BS/ME

**Admission Criteria:** 4EG; 3.30 GPA; completion of pre-engineering courses and 20 credits of the biological engineering core

**Contact:** 352.392.1864 ext. 116 | Email (rsnyder@ufl.edu)

### Biomedical Engineering | BSMSE/MS or ME; BSABE/MS or ME; BSCHE/MS or ME; BSEE/MS or ME, BME/BME, BSBME/MS

*Materials Science and Engineering, Biological Engineering, Chemical Engineering or Electrical Engineering*

**Overlapping Credits:** 9-12

**Admission Criteria:** Competitive GRE scores acceptable to the BME department; 3.3 GPA

## **Health and Human Performance, College of**

### **Applied Physiology and Kinesiology| BS /MS**

**Overlapping Credits:** 12

The program allows qualified students to earn a BS APK and an MS APK within one year of completion of the undergraduate degree (two semesters, 18 credit hours). The MS APK degree program is designed to facilitate student knowledge and applied skills across the sub disciplines of exercise physiology, biomechanics, motor control / learning, strength & conditioning, and sport psychology.

**Admission Criteria:** 3.5 UF GPA; completion of PSY 2012, MAC 1147 or MAC 2311, CHM 1025 or CHM 2045, BSC 2010 and BSC 2010L, BSC 2011 and BSC 2011L, APK 2100C, and APK 2105C with a minimum letter grade of B.

### **Health Education and Behavior | BS/MS**

*Non-thesis only*

**Overlapping Credits:** 12

**Admission Criteria:** 3.2 UF GPA

**Contact:** 352.294.1803 | Email (hebgradprogram@hhp.ufl.edu)

More Info ([https://hhp.ufl.edu/academics/bs\\_ms-heb/](https://hhp.ufl.edu/academics/bs_ms-heb/))

### **Sport Management | BSSPM/MSSPM**

**Overlapping Credits:** 12

The combination degree allows for students who meet the requirements to earn both a Bachelors of Science and Masters degree in Sport Management at an accelerated pace. Qualified students can begin taking courses in the graduate program in their junior year and they are able to count to 12 credits of graduate SPM- and HLP-prefix coursework for both the BSSM and MSSM. For more information, contact the Sport Management Graduate Coordinator or the academic advisors in the Department of Sport Management.

**Admission Criteria:** 3.2 overall GPA with a 3.0 critical-tracking GPA; completion of EME 2040, MAR 3023, SPM 2000, SPM 3204 and MAN 3025 with minimum grades of B on first attempt.

**Contact:** 352.294.1647

### **Tourism, Hospitality and Event Management | BS/MS**

**Overlapping Credits:** 9

**Admission Criteria:** Overall GPA 3.2; completion of LEI 3301, LEI 3360, HFT 2750, and LEI 2181 with a minimum grade of B on first attempt. Meet with THEM advisor to ensure eligibility. Submit the TERM/THEM/TRM combination degree application before the start of the student's junior year.

**Contact:** 352.294.1661 | Email (THEMUndergrad@hhp.ufl.edu)

## **Journalism and Communication, College of**

The College of Journalism and Communications is considered one of the nation's best. The strength of its programs, faculty, students, and alumni throughout its history has earned the college ongoing recognition as one of the best journalism and communication programs in the United States. It has developed its reputation for excellence by creating curricula that combine conceptual and theoretical instruction with skills training, so students have the opportunity to apply what they are learning in professional settings.

### **Advertising | BS Advertising/MA Mass Communication**

**Overlapping Credits:** 5-12

Qualified students can pursue coursework toward a Master of Arts in Mass Communication (MAMC) with one of our online or on-campus concentrations to fulfill up to 12 credits of professional electives required for their undergraduate degree.

**Admission Criteria:** Students must meet eligibility criteria and obtain approval from their undergraduate department and the CJC graduate division through an application process. Students must also plan to apply to CJC's MAMC program before completing their undergraduate degree.

**Contact:** 352.273.3716 | Email (combination@jou.ufl.edu)

More Info (<https://www.jou.ufl.edu/combination-degree-main/>)

### **Journalism | BS Journalism/MA Mass Communication**

**Overlapping Credits:** 5-12

Qualified students can pursue coursework toward a Master of Arts in Mass Communication (MAMC) with one of our online or on-campus concentrations to fulfill up to 12 credits of professional electives required for their undergraduate degree.

**Admission Criteria:** Students must meet eligibility criteria and obtain approval from their undergraduate department and the CJC graduate division through an application process. Students must also plan to apply to CJC's MAMC program before completing their undergraduate degree.

### **Public Relations | BS Public Relations/MA Mass Communication**

**Overlapping Credits:** 5-12

Qualified students can pursue coursework toward a Master of Arts in Mass Communication (MAMC) with one of our online or on-campus concentrations to fulfill up to 12 credits of professional electives required for their undergraduate degree.

**Admission Criteria:** Students must meet eligibility criteria and obtain approval from their undergraduate department and the CJC graduate division through an application process. Prior coursework in communications not required. Students must plan to apply to CJC's MAMC program before completing their undergraduate degree.

**Contact:** 352.273.3716 | Email ([combination@jou.ufl.edu](mailto:combination@jou.ufl.edu))

More Info (<https://www.jou.ufl.edu/combination-degree-main/>)

## **Liberal Arts and Sciences, College of**

### **Anthropology | BA or BS/MA**

**Overlapping Credits:** 12

This program allows qualified Anthropology majors seeking the BA or BS degree to earn graduate credits toward a terminal MA degree in Anthropology with a certificate. To count toward the MA degree, graduate courses taken while an undergraduate must be letter-graded with a minimum B grade. Required courses for the MA certificate may not be taken while an undergraduate.

**Admission Criteria:** Anthropology major of junior status or higher, 3.2 cumulative GPA, 3.5 upper division GPA, completion of at least three of the four required core courses (ANT 2140, ANT 2410, ANT 3514C, ANT 3620) at time of admission.

### **Biology | BS and Arts in Medicine/MA**

**Overlapping Credits:** 12

Arts in Medicine is a diverse, multidisciplinary field dedicated to transforming health and the healthcare experience through the arts. The field integrates literary, performing, and visual arts and design, and other forms of creative expression into a variety of healthcare and community settings to enhance health and well-being in diverse institutional and community contexts. The Bachelor of Science in Biology and Master of Arts in Arts in Medicine combination degree enables pre-health students to begin completing requirements towards a master's degree in Arts in Medicine while completing their undergraduate BS degree.

**Admission Criteria:** 3.2 GPA on all upper-division courses

More Info (<https://arts.ufl.edu/academics/center-for-arts-in-medicine/programs/combo-degree/>)

### **Biology/Biochemistry and Molecular Biology | BS/MS**

**Overlapping Credits:** 12

Students must identify a College of Medicine faculty member who will serve as their graduate faculty advisor. A written agreement must be approved by both the Undergraduate Coordinator in the Department of Biology and the Graduate Coordinator in the College of Medicine. To count toward the MS degree, courses must be graduate level and letter-graded.

**Admission Criteria:** 3.2 cumulative GPA, 3.3 upper division GPA, completion of all critical-tracking requirements in the Biology B.S. degree, completion of at least three semester hours of mentored research (e.g., through BSC 4910 and BSC 4912) or equivalent research experience, and completion of BCH 4024 (or equivalent).

**Contact:** 352.273.0125

### **Computer Science | BS/MS**

*Thesis or non-thesis*

**Overlapping Credits:** 12

Joint program in the colleges of Engineering and Liberal Arts and Sciences, coordinated by the Department of Computer and Information Science and Engineering. Students may combine either the BS in Computer Science offered through the College of Liberal Arts and Sciences or the BS in Computer Science offered through the College of Engineering with the MS in Computer Science (LS).

**Admission Criteria:** Junior status; Competitive GRE score; 3.3 GPA; completion of 3 of the 4: CDA 3101, CIS 3503, COP 3530, COT 3100.

**Contact:** CISE department | 352.392.1090

More Info (<https://www.cise.ufl.edu/academics/undergraduate/academic-programs/combined-bs-ms/>)

### **Economics | BA/MA**

**Overlapping Credits:** 12

This program complements undergraduate training in economics by providing more robust training with economic analysis and econometric methods. It is intended for students who wish to build strong quantitative reasoning skills and develop technical data analytic tools before pursuing a professional career. The graduate portion of this combined degree program should be viewed as a professional master's in economics. This is not a Ph.D. preparatory program.

**Admission Criteria:** Competitive GRE score; 3.25 cumulative GPA; completion of 105 credits, 12 of which must be Economics courses (i.e., ECO, ECP, or ECS prefix) taken at UF. Students are encouraged to complete ECO 4421 or STA 4210 before beginning graduate coursework.

**Contact:** Email (thomas.knight@ufl.edu)

More Info (<https://economics.clas.ufl.edu/academics/curriculum/>)

### Public Health and Health Professions, College of

#### Public Health | Any Bachelor's Degree/MPH

**Overlapping credits:** 15

Qualified students with any undergraduate major can pursue a Master's of Public Health degree. The MPH degree trains students to protect and improve health across all population levels. Students complete up to 15 credits of public health core courses as an undergraduate and then complete the remaining 33 credits after admission to graduate school. Upon application, students select a concentration biostatistics, environmental health, epidemiology, population health management, or social and behavioral sciences.

**Admission Criteria:** 3.2 GPA; completion of the following with a C or better: BSC 2005 or BSC 2010, PSY 2012, STA 2023.

**Contact:** 352.273.6094 | Email ([alkastner@phhp.ufl.edu](mailto:alkastner@phhp.ufl.edu))

**Biostatistics | Bachelors/MS****Overlapping credits: 12**

Qualified students with any undergraduate major can pursue a Master of Science degree in Biostatistics. The Master of Science degree in Biostatistics is designed to facilitate students' development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.

**Admission Criteria:** Junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; Completion of the following 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.

**Contact:** 352.294.5926 | Email (kcason@ufl.edu)

**Public Health | BS and Arts in Medicine/MA****Overlapping Credits: 12**

The Bachelor of Science in Public Health and Master of Arts in Arts in Medicine combination degree enables pre-health students to begin completing requirements towards a master's degree in Arts in Medicine while completing their undergraduate BS degree.

More Info (<http://www.admissions.ufl.edu/pdf/combdegreerequest.pdf>)

**Applying**

Meet with an academic advisor to determine the most-appropriate combination degree option. Qualified students can pursue the graduate degree outside the undergraduate major or department. Application normally occurs in the junior or senior year. If accepted, students must take the GRE the first semester of their senior year.

More Info (<https://registrar.ufl.edu/assets/pdfs/combdegreerequest.pdf>)

Financial aid is available for the graduate portion of the program. Undergraduate degree costs should be satisfied with existing financial aid such as Bright Futures and Prepaid Tuition. Bright Futures can cover the undergraduate costs of up to 12 hours of graduate courses that apply to the undergraduate degree. Each student is responsible for the difference in tuition between the undergraduate and graduate course rates. If available, the Florida Prepaid Tuition Program can fund the first 120 hours. Graduate courses that apply toward the undergraduate degree are funded at the undergraduate rate, and the student is responsible for the difference.

**FAQ****What is a combination bachelor's and master's degree program?**

Combination degrees allow students to double count graduate credits toward their bachelor's degree at no loss of integrity or quality of either degree. A combination degree program allows students to complete a specific number of graduate-level credits while enrolled as an undergraduate.

**Why should I participate in a combination degree program?**

The program allows students to take graduate coursework before they make a decision to complete a graduate degree. If the student continues in a graduate program, they'll save at least one full semester of graduate enrollment.

**At what point in the undergraduate program should I apply?**

Students can apply as early as the second semester of their sophomore year or as late as their senior year depending upon the combination degree program.

**At what point do I enroll in graduate courses?**

If approved, students can take graduate courses during their junior and senior years as specified by the particular combination degree program.

**What is required for approval?**

As an undergraduate applying for entry into a combination degree program, students must have a minimum cumulative 3.2 UF GPA (some majors require a higher GPA) and have completed all critical-tracking requirements to enroll in graduate coursework while they are completing their undergraduate degree. After students apply for admission to the Graduate School, however, they must meet the minimum cumulative GPA requirement and GRE/GMAT score the particular master program requires.

**What is required so that 12 to 21 hours of graduate coursework (depending on the major) can also count toward my master's degree?**

To apply the graduate credit to both degrees, students must be admitted to the Graduate School and receive a grade of B or higher in each course. A graduate coordinator can provide the admission requirements for a particular department.

**If I do not continue in graduate school, can the graduate coursework I complete still be used to satisfy my undergraduate degree requirements?**

Yes.

**What about my financial aid?**

Bright Futures and/or the Florida Prepaid Tuition Program will pay the undergraduate tuition rate for the graduate courses students take; each student will have to pay the difference between undergraduate and graduate course costs.

**Why would I want to pay additional tuition to enroll in graduate courses?**

If a student continues to graduate school, they will save on the tuition costs for the 12 to 21 graduate credits (depending on the major) taken while still classified as an undergraduate. Remember that graduate course costs will be partially paid by the student's undergraduate financial aid.

**How do I apply?**

Contact an undergraduate advisor and complete the combination degree application. Students will need the approval of the undergraduate coordinator, the graduate coordinator, and the dean's office of their undergraduate college.

**What do I do if I want to create my own combination degree program?**

Students should contact the coordinator in the graduate department of the new combination degree program.

**Are there other accelerated degree programs available other than combination degrees?**

Yes, there are several accelerated degree programs available.

More Info (p. 1733)

## Dual Enrollment Credit

In general, you may transfer up to 60 credits from public/state colleges as part of the credits needed for your UF degree, regardless when these credits are earned, but subject to university and college degree requirements. It is the prerogative of your college to determine how transfer credit satisfies a specific degree's course requirements.

Students are required to submit to the Office of Admissions final official transcripts from all institutions attended before or during their enrollment at UF.

More Info (p. 1793)

## Credit from Florida Public Colleges and State Universities

Courses from Florida public colleges and State University System schools generally adhere to the Statewide Course Numbering System. If the prefix (first three letters) and the last three digits of the course number are the same, the courses are considered equivalent.

More Info (p. 1811)

Equivalent courses will generally fulfill the same requirements (e.g., general education) that the UF course fulfills, including the Writing Requirement, provided the UF equivalent course awards Words towards the Writing Requirement.

More Info (p. 1768)

## Courses from Private or Out-of-State Institutions

College credit from private or out-of-state institutions earned through a dual-enrollment program may transfer to UF, but must be evaluated by your college to determine if courses completed will fulfill specific requirements.

## Exam Credit

### Award of Incoming Credits

- Credit will be awarded only once for the same course, whether from credit by examination, dual enrollment, transfer credit, or UF course credit.
- Credit awarded for acceptable dual enrollment or transfer courses takes precedence over credit by examination.
- If duplicate credit exists among AICE, AP, CLEP, or IB, the exam yielding the most credit will be awarded.

## Guidelines for Credit Awarded by AICE, AP, CLEP, DLPT, DSST, IB, or UExcel Examinations

- A maximum of 45 credit hours may be granted by combining AICE, AP, CLEP, DLPT, DSST, IB, or UExcel credit.
- Students beginning in the fall or spring term must have taken the exams and have their scores reported to the university before the end of their first term of enrollment at UF.
- Students who begin in the Summer A term must have taken the exam(s) and had their scores reported to the university before the end of their first Summer B/C term.
- Students who begin in the Summer B term must have taken the exam(s) and had their scores reported to the university before the end of their first fall term.

- If a student submits appropriate scores, UF will grant credit for the UF course(s) that most closely match the content of the exam as determined by the State of Florida. The transcript will reflect the course(s) with grades of P (for *Pass*). P grades will not be calculated into the student's GPA.
- Equivalent courses earned by examination generally fulfill the same requirements that the UF course fulfills.

## Exams

### AICE Exam Credit

Students completing approved AICE examinations with scores of A-E will earn UF credit.

Scores of E or higher on AICE French Language, German, Latin Language, and Spanish Language examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and BA programs in the College of the Arts.

The chart specifies which UF course credit students will earn depending on their score on each exam and whether the credit earned will count for general education (p. 67) and the writing requirement (p. 1766) (6,000 words).

<sup>2</sup> Writing requirement (6000 words).

## AP Exam Credit

Students completing approved AP examinations with scores of three or higher will earn UF credit.

Scores of three or higher on AP Chinese, French, German, Italian, Japanese, Latin, Russian, and Spanish language examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and BA programs in the College of the Arts.

AP Calculus Placement Scores More AP Information (<http://www.collegeboard.com/student/testing/ap/about.html>)

The UF course credit that students earn depends on their score on each AP exam and whether the credit earned will count for general education (p. 67) and the writing requirement (p. 1766) (6,000 words).

<sup>1</sup> The L000 course number has no UF course equivalent. The credit applies to the minimum credits for the degree but does not provide general education credit or count toward the major.

<sup>2</sup> Writing requirement (6000 words).

## DSST Examination

DSST (formerly DANTES Subject Standardized Tests) are credit-by-examination tests originated by the United States Department of Defense's Defense Activity for Non-Traditional Education Support (DANTES) program.

The chart specifies which UF course credit students will earn depending on their score on each DSST exam and whether the credit earned will count for general education (p. 67) requirements.

*Students may be awarded a maximum of 30 credit hours for DSST exams.*

<sup>1</sup> The L000 course number has no UF course equivalent. The credit applies to the minimum credits for the degree but does not provide credit toward general education, writing requirement, or count toward the major.

<sup>3</sup> XUF is a prefix designated for non-UF courses that may fulfill general education or other degree requirements.

## IB Exam Credit

Students will receive credit for scores of 4 or higher on both higher-level and standard-level examinations.

Scores of 4 or higher on IB French B, German B, Italian B, Latin, and Spanish B examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and BA programs in the College of the Arts.

More IB Information (<http://www.ibo.org/>)

The chart specifies which UF course credit students will earn depending on their score on each IB exam and whether the credit earned will count for general education (p. 67) and the writing requirement (p. 1766) (6,000 words).

<sup>1</sup> The L000 course number has no UF course equivalent. The credit applies to the minimum credits for the degree but does not provide credit toward general education, writing requirement, or count toward the major.

<sup>2</sup> Writing requirement (6000 words).

## UExcel Exam Credit

UExcel Examinations; Excelsior College Examinations (formerly known as Regents College Exams or the Proficiency Examination Program), are developed by Excelsior College using national committees of faculty consultants and national studies to assess how well the tests measure the performance of students in actual college courses.

More Info (<https://www.excelsior.edu/courses-and-exams/>)

The chart specifies which UF course credit students will earn depending on their score on each exam and whether the credit earned will count for general education (p. 67) and the writing requirement (p. 1766) (6,000 words).

UExcel Exam	Passing Score C	Gen Ed Credit

## Khan Academy Exam Credit

Passing Score of 90% on the Course Challenge Exam required for course credit.

Exam	Course	Comments
College Algebra	MAC 1105	State Core M

## Flexible Learning

### Distance and Continuing Education

Distance & Continuing Education (DCE) offers fully online undergraduate courses for college credit through UF Flexible Learning.

The primary purpose of this program is to provide high-quality flexible educational opportunities for students in the State University System, Florida College System, and beyond who are not currently enrolled at UF and:

- Have conflicting schedules
- Need to meet general education or writing requirement
- Need to meet course prerequisites
- Want personal enrichment

Students who are not enrolled at UF should consult an academic advisor at their institution prior to enrolling in courses to ensure transfer of the credit. DCE is not responsible for ensuring that any credit received is transferable.

UF students interested in taking a Flexible Learning course must first consult with their academic advisor. UF students may apply up to two (2) Flexible Learning courses toward a degree and must seek college dean's office approval to exceed this limit. Advisors and the DCE office will approve access to a Flexible Learning course if the student is below the two (2) course limit and meets at least one (1) of the following criteria:

- The student has a health concern
- There are circumstances preventing the student from physically being on campus and the course is not offered online
- The student requires off-calendar, flexible format solution required for scholarship, tracking, and/or graduation requirements

Students can register for these courses online.

More Info (<http://flexible.dce.ufl.edu/>)

Enrolling in Flexible Learning courses does not require a transcript of previous academic work, nor are students required to apply for, or to be admitted, to the University of Florida to earn college credit. These courses operate on an open enrollment policy and do not follow UF's academic calendar. Registrations are processed and accepted Monday-Friday, excluding UF holidays.

UF Flexible Learning courses are self-paced, allowing students to complete coursework more quickly than typical online or residential courses. Students have a maximum of sixteen (16) weeks to complete their course, but in many courses, may take as few as four (4) weeks. If the on-campus academic semester changes during this time, a non-punitive deferred grade of H will appear on the student's transcript.

When the registration process has been finalized, UF Flexible Learning will send students their expiration date. Students should take note of this date and plan their work accordingly. Any coursework not completed by this date may result in grade penalties.

If students make significant progress in their coursework but are unable to complete it due to extenuating circumstances, they are expected to contact instructor about receiving an incomplete grade.

## Contact

352.294.6300 | Email ([learn@dce.ufl.edu](mailto:learn@dce.ufl.edu))

Complete Course Listing (<http://flexible.dce.ufl.edu/courses/>)

# Placement

Placement is an assessment of a student's level of preparation in a subject. The purpose of placement is to help students enroll in the courses in which they are most likely to be successful.

- Incoming Credit and Credit by Examination Information (p. 1748)

## English Composition

*Unless students already have college credit for an English Composition course, they need to review placement requirements for these courses.*

Students will be placed based on their SAT or ACT verbal score, unless they already have college credit for an English composition course.

- Students with a 640 (or lower) on the verbal portion of the SAT and/or a 28 (or lower) on the verbal portion of the ACT must enroll in ENC 1101.
- Students with a 650 (or higher) on the verbal portion of the SAT or a 29 (or higher) on the verbal portion of the ACT may enroll in any 1000/2000-level composition course beyond ENC 1101. These students should not enroll in ENC 1101.
- **Students with college credit for English Composition (from AICE, AP, CLEP, IB, or dual enrollment)** should consult an advisor to determine which, if any, additional courses are needed to meet degree requirements.

## Mathematics

*If a student intends to pursue a science or engineering major or intends to go on to a health profession after completing the bachelor's degree, they should take these algebra, precalculus, and calculus courses. A number of business and technical majors require specific math courses. Students should check the information on their majors and health professions of interest to determine if algebra/precalculus/calculus are required.*

More Info (p. 1705)

Placement is used for the following MAC courses:

Code	Title	Credits
MAC 1105	Basic College Algebra	3
MAC 1140	Precalculus Algebra <sup>1</sup>	3
MAC 1147	Precalculus Algebra and Trigonometry (a fast-paced review of both areas)	4
MAC 2233	Survey of Calculus 1	3
MAC 2311	Analytic Geometry and Calculus 1 (typically recommended for pre-health students)	4

<sup>1</sup> The sequence MAC 1140 and MAC 1114 covers the same material as MAC 1147, but at a slower pace.

The math course(s) you take will depend on what your major requires (or if you are pre-health), whether you have incoming math credit, the math course you took last year and whether you were able to use a calculator during exams, whether you want to strengthen your foundation before moving on to new material, and your ALEKS placement score.

To determine which math course (if any) is required for a major, please check the requirements for that major (p. 1705). If a student's major requires MAC 2234 or MAC 2312 or higher, they must have credit for the prerequisite course. If a student has credit via exam or dual enrollment, consult with an academic advisor. General guidelines for using AP scores for placement appear below.

Some graduate programs in the health professions such as pharmacy, optometry, and veterinary medicine may require calculus as a prerequisite to admission. Consult the Pre-Health Pre-Requisite Course Chart (<https://www.advising.ufl.edu/pre-health/apply/prepare/academic-preparation/>) for more information.

- **If a major requires no particular math course**, students may take Gen Ed math courses such as MGF 1106 or MGF 1107 without any placement.
- **If a student needs one of the MAC courses listed above and doesn't have incoming credit, they should take the ALEKS placement exam**, and then discuss which math course should be taken with an advisor.
- **If a student has incoming math credit**, they may use that as placement into MAC courses *if the credit appears on their UF transcript or the student provides proof of credit*. However, the ALEKS placement is the best predictor of success in UF MAC courses. Even if a student has credit, they are **strongly encouraged to take ALEKS**. Taking ALEKS will assess a student's *current* knowledge base and its fit with the UF curriculum. After taking ALEKS, the student should discuss which math course they should take with an advisor.

*It can be helpful for students to take a lower course or even retake a course to strengthen their foundation before moving on to a higher class. A student's ALEKS score can help assess their current preparation. Consult with an academic advisor if unsure.*

## ALEKS

### Placement via ALEKS Score

#### Majors that Require MAC 1105, MAC 1140, MAC 1147, or MAC 2311; or for Pre-Health

ALEKS Score	May begin with the course in bold (or a lower course)
0 – 45%	<b>MAC 1105</b> ; MAC 1140; MAC 1114; MAC 2311
46 – 60%	<b>MAC 1140</b> ; MAC 1114; MAC 2311
61 – 75%	<b>MAC 1147</b> ; MAC 2311
76% and Above	<b>MAC 2311</b>

#### Majors that Require MAC 2233

ALEKS Score	May begin with the course in bold (or a lower course)
0 – 45%	<b>MAC 1105</b> ; MAC 1140; MAC 2233
46 – 60%	<b>MAC 1140</b> ; MAC 2233
61% and Above	<b>MAC 2233</b>

## Incoming Credit

### Placement via Incoming Credit

If a student has earned credit with a C or better for:

- MAC 1105: take MAC 1140 (if needed)
- MAC 1140: take MAC 1114 or MAC 2233 (if needed, course depends on major requirements)
- MAC 1147 (or both MAC 1140 and MAC 1114): take MAC 2311 if needed. *Credit must be in progress at UF, completed and on the student's UF transcript or the student must provide proof of incoming credit.*
- *It may be helpful for students to retake a course to strengthen their foundation before moving on to a higher class. This is especially true if the incoming credit course was taken more than one year ago or if the student earned a grade lower than B. A student's ALEKS score can help assess their current preparation. Consult with an academic advisor if unsure.*

### AICE, AP, or IB and other Exam Credit

Refer to Exam Credit (<https://catalog.ufl.edu/UGRD/academic-advising/exam-credit/>) to see which courses you will earn credit for based on your scores. For courses through MAC 2311, ALEKS is still the best predictor of success in MAC courses at UF, so students are encouraged to take ALEKS and follow the score guidelines. General guidelines for using AP scores for placement appear below.

**Transfer Credit**

Earning the minimum grades in prerequisite courses does not guarantee success in the next math course. The Department of Mathematics encourages students to take the ALEKS exam even if they have credit for a MAC course. Quite often, a student's skills may need review and placement assessment can provide information and specific areas for additional study.

Please read the complete information about the mathematics placement exam (<https://registrar.ufl.edu/courses/aleks.html>).

**AP Scores for Calculus****Placement via AP Scores for Calculus**

UF offers two introductory calculus courses: MAC 2233 and MAC 2311 as well as subsequent courses in both sequences. Students should consult the majors (p. 1705) section to determine which calculus course(s) may be required for their major.

**Calculus AB or BC**

AP Exam Score	Register in	Additional Information
1 or 2	MAC 1105 or MAC 1140 or MAC 1147	Students with a score of 1 or 2 on an AP Calculus exam must take the ALEKS placement exam ( <a href="https://registrar.ufl.edu/courses/aleks.html">https://registrar.ufl.edu/courses/aleks.html</a> ) to determine the course for which they are prepared. Then consult the Algebra/Precalculus placement information to determine the correct course.

**Calculus AB**

AP Exam Score	Register in	Additional Information
3	MAC 2311	Students will receive credit for MAC 2311. If the student's requirements include MAC 2312 or higher, they should retake MAC 2311.
4	MAC 2312	Students may repeat MAC 2311 or continue on to MAC 2312 (if needed for their requirements). Check with major department to determine if there is major-specific advice regarding repeating. <sup>1</sup>
5	MAC 2312	If a student needs MAC 2312, they should have appropriate background for that course. <sup>1</sup>

<sup>1</sup> Course descriptions (p. 1811)

**Calculus BC**

AP Exam Score	Register in	Additional Information
3	MAC 2311	Students will receive credit for MAC 2311. If the student's requirements include MAC 2312 or higher, they should retake MAC 2311. <sup>1</sup>
4	MAC 2312	Students will receive credit for MAC 2312. If the student's requirements include MAC 2313 or higher, they may retake MAC 2312 or go on to MAC 2313 if they are very confident of their background. Check with major department to determine if there is major-specific advice regarding repeating. <sup>1</sup>
5	MAC 2313	If a student needs MAC 2313, they should have appropriate background for that course. Check with major department to determine if there is major-specific advice regarding repeating.

<sup>1</sup> Course descriptions (p. 1811)

## General Chemistry

*If a student intends to pursue a science or engineering major or intends to go on to a health profession after completing the bachelor's degree, they should take these general chemistry courses. Students should check the information on their majors of interest to determine if general chemistry is required.*

The general chemistry sequence CHM 2045/CHM 2045L and CHM 2046/CHM 2046L meets the preprofessional requirements for many science and engineering majors. CHM 2095/CHM 2095L and CHM 2096/CHM 2046L is an alternate general chemistry sequence specifically for engineering majors.

Placement into CHM 2045 or CHM 2095 requires:

- Successful completion with a grade of C or better of MAC 1147 (or both MAC 1140 and MAC 1114) or higher

AND

- Successful completion with a grade of C or better of CHM 1025  
OR  
a 76% on the ALEKS math placement exam.

If a student enrolls in and successfully completes CHM 1025 and MAC 1147 (or MAC 1140 and MAC 1114), they can enroll in CHM 2045 or CHM 2095 the next semester. Students who enroll in CHM 1025 but do not successfully complete with a C or better cannot place into CHM 2045 using an ALEKS score of 76%. Such students will need to repeat CHM 1025 and earn a C or better to go on to CHM 2045.

**Students with credit for CHM 2045** via AP and IB scores or dual enrollment (with a minimum grade of C) should discuss their next chemistry course with an advisor. Students who wish to repeat CHM 2045, take CHM 2095 or go on to CHM 2046/CHM 2096 must have successfully completed MAC 1147, MAC 1140 and MAC 1114, or higher or the equivalent as determined by the Mathematics Department.

Students who wish to enroll in CHM 2047, the one-semester General Chemistry, and its co-requisite laboratory CHM 2047L, must meet the following conditions:

- AICE, AP, or IB credit for at least CHM 2045 and laboratory
- Approval of the Honors Program office or the Department of Chemistry.

## Foreign Languages

*College-level foreign language is required by several programs: Liberal Arts and Sciences and the BA programs in the College of the Arts have a proficiency requirement; students in Journalism and Communications may choose between foreign language proficiency or a quantitative option. Construction management majors must complete one semester of Spanish.*

### French

- Students with no prior study of French or a maximum of French 1 on their high school transcript may enroll directly in FRE 1130. No placement exam is required.
- Students with French 2 on their high school transcript may enroll directly in FRE 1134. No placement test is required.
- Students with French 3 or 4 on their high school transcript may enroll directly in FRE 2220, but are encouraged to take the WebCAPE placement test for French (<https://languages.ufl.edu/academics/llc-languages/french-studies/webcape-french-placement-test/>).
- Students who speak French at home may take the WebCAPE placement test for French (<https://languages.ufl.edu/academics/llc-languages/french-studies/webcape-french-placement-test/>) and/or speak with the undergraduate coordinator about placement.
- Students who have taken French exams via Advanced International Certificate of Education (AICE), Advanced Placement (AP), College Level Examination Program (CLEP), or International Baccalaureate (IB), should consult the French Placement and Course Equivalency (<https://languages.ufl.edu/academics/llc-languages/french-studies/placement-for-lower-division-courses/>) page to determine whether they have received credit for a French course and which course to take next.
- Students who wish to demonstrate proficiency in French in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or BA in the College of the Arts (FA) degree requirements must do one of the following:
  - Complete the terminal course in the Beginning French sequence (or higher) with a satisfactory grade
  - Earn sufficient scores on an AICE, AP, CLEP, or IB exam.
  - Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (<https://teachingcenter.ufl.edu/testing/flpe/>)

### Spanish

Students with any prior study or knowledge of Spanish who wish to enroll in a Spanish course are required to take the WebCAPE online placement test (<http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/spanish-placement/>), which is designed to help them determine the best course based on their background.

- Students who took a language other than Spanish in high school are not required to take this test. They may enroll in SPN 1130.
- Students who have taken Spanish exams via Advanced International Certificate of Education (AICE), Advanced Placement (AP), College Level Examination Program (CLEP), or International Baccalaureate (IB) are encouraged but not required to take the WebCAPE and should consult the Spanish Placement and Course Equivalency (<https://spanishandportuguese.ufl.edu/wp-content/uploads/sites/118/Spanish-Placement-Score-Charts-F21.pdf>) page to determine whether they have received credit for a Spanish course and which course to take next.
- Students who wish to demonstrate proficiency in Spanish in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or BA in the College of the Arts (FA) degree requirements must do one of the following:
  - Complete the terminal course in the Beginning Spanish sequence (or higher) with a satisfactory grade
  - Earn sufficient scores on an AICE, AP, CLEP or IB exam.
  - Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (<https://teachingcenter.ufl.edu/testing/flpe/>)

*Anyone with any prior study or knowledge of Spanish MUST provide a test score to register for a Spanish course.*

A passing grade in SPN 1131 or a higher level SPN courses successfully fulfills the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications and BA programs in the College of the Arts. Students wishing to satisfy the foreign language proficiency requirement by examination must do so through the appropriate AP, IB, or AICE Spanish scores. WebCAPE is only a placement exam.

## Other Languages

Students with a prior background in languages other than French or Spanish should consult with the department regarding placement. Students who wish to demonstrate proficiency in that language in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or BA in the College of the Arts (FA) degree requirements must do one of the following:

- Complete the terminal course in the Beginning sequence (or higher) of that language with a satisfactory grade
- Earn sufficient scores on an AICE, AP, CLEP or IB exam.
- Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (<https://teachingcenter.ufl.edu/testing/flpe/>)
- Consult the department regarding proficiency for languages not offered by the FLPE.

# Preprofessional Advising

## Pre-Health

The Pre-Health Advising Office offers resources and information to students from all UF majors who intend to pursue a graduate program in the health professions, such as medical, dental, veterinary, pharmacy, physician assistant, optometry, physical therapy, and/or occupational therapy school. Pre-health students may choose almost any major they are interested in pursuing. Pre-health students should review the detailed information on the pre-health advising website to explore and keep track of necessary steps to take throughout their time at UF in order to become competitive applicants for the professional programs to which they plan to apply.

All pre-health students are encouraged to enroll in Pre-Health Essentials, a free, non-graded Canvas course offered by the Pre-Health Advising Office. Pre-Health Essentials offers workshops and resources for pre-health students to explore and prepare for a healthcare profession.

## Pre-Health Students

Plan to complete the following courses, which are the basic prerequisites for many pre-professional graduate programs. Some health professions do not require all of these courses, and some may require more. Requirements vary from program to program, so you should carefully investigate the requirements of the institutions to which you plan to apply.

Students can find pre-health Suggested Course Timelines on the pre-health website Forms & Handouts page (<https://www.advising.ufl.edu/pre-health/pre-health-resources/forms-handouts/>). These timelines outline required and recommended pre-requisite courses for each health profession.

## Mathematics

At least two semesters of college-level mathematics; one semester of statistics (STA 2023) is required. Calculus (MAC 2311 or MAC 3472) is recommended for pre-medical students, and required for pre-pharmacy and pre-optometry students.

## General Chemistry

Code	Title	Credits
Select one of the following options:		
Option A:		
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory	5-8

CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory
Option B:	
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory
CHM 2051 & CHM 2046L	Honors General Chemistry 2 and General Chemistry 2 Laboratory
Option C:	
CHM 2095 & CHM 2045L	Chemistry for Engineers 1 and General Chemistry 1 Laboratory
CHM 2096 & CHM 2046L	Chemistry for Engineers 2 and General Chemistry 2 Laboratory
Option D	
CHM 2047 & 2047L	One-Semester General Chemistry and One-Semester General Chemistry Laboratory

## Organic Chemistry

Code	Title	Credits
Select one of the following options:		8-10
Option A:		
CHM 2210	Organic Chemistry 1	
CHM 2211	Organic Chemistry 2	
CHM 2211L	Organic Chemistry Laboratory	
Option B:		
CHM 3217	Organic Chemistry/Biochemistry 1	
CHM 3218	Organic Chemistry/Biochemistry 2	
CHM 4300L	Laboratory in Biochemistry and Molecular Biology	

## Biochemistry

One semester is required by many professional schools. BCH 4024 or CHM 3218

## Physics

Code	Title	Credits
Select one of the following options:		8-10
Option A:		
PHY 2053 & 2053L	Physics 1 and Laboratory for Physics 1	
PHY 2054 & 2054L	Physics 2 and Laboratory for Physics 2	
Option B:		
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for Physics with Calculus 1	
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for Physics with Calculus 2	
Option C:		
PHY 2060	Enriched Physics with Calculus 1	
PHY 2061	Enriched Physics with Calculus 2	
PHY 2048L	Laboratory for Physics with Calculus 1	
PHY 2049L	Laboratory for Physics with Calculus 2	

## Biology

Code	Title	Credits
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2	4

## English

At least two semesters

## Additional Course Requirements

### Pre-Medical Students

Should also take:

Code	Title	Credits
PSY 2012	General Psychology	3
SYG 2000	Principles of Sociology	3

### Pre-Dental Students

Should also take:

Code	Title	Credits
Select one of the following:		4-5
MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms (non-microbiology majors)	
MCB 3023 & 3023L	Principles of Microbiology and Principles of Microbiology Laboratory (microbiology majors)	

### Pre-Optometry Students

Should also take:

Code	Title	Credits
Select one of the following:		4-5
MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms	
MCB 3023 & 3023L	Principles of Microbiology and Principles of Microbiology Laboratory	
Also recommended:		
APK 2100C	Applied Human Anatomy with Laboratory	4
APK 2105C	Applied Human Physiology with Laboratory	4
PSY 2012	General Psychology	3

### Pre-Pharmacy Students

Should also take:

Code	Title	Credits
Select one of the following:		8-9
APK 2100C & APK 2105C	Applied Human Anatomy with Laboratory and Applied Human Physiology with Laboratory	
ZOO 3713C & PCB 4723C	Functional Vertebrate Anatomy and Physiology and Molecular Biology of Animals (acceptable for UF College of Pharmacy)	
Select one of the following:		4-5
MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms (non-microbiology majors)	
MCB 3023 & 3023L	Principles of Microbiology and Principles of Microbiology Laboratory (microbiology majors)	
Also recommended:		
ECO 2023 or ECO 2013	Principles of Microeconomics Principles of Macroeconomics	4
PHY 2053 & 2053L	Physics 1 and Laboratory for Physics 1	5
PHY 2054 & 2054L	Physics 2 and Laboratory for Physics 2	5
SPC 2608	Introduction to Public Speaking	3
PSY 2012	General Psychology	3

### Pre-Veterinary Students

Should also take:

Code	Title	Credits
Select one of the following:		4-5
MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms (non-microbiology majors)	
MCB 3023 & 3023L	Principles of Microbiology and Principles of Microbiology Laboratory (microbiology majors)	
Select one of the following:		3-4
PCB 3063 or AGR 3303	Genetics (non-microbiology majors) Genetics	
ANS 3384C	Genetics of Domestic Animals	
Also recommended:		
ANS 3006	Introduction to Animal Science	3
ANS 3440 & ANS 3006L	Principles of Animal Nutrition and Introduction to Animal Science Laboratory	5
ZOO 3713C	Functional Vertebrate Anatomy	4
PCB 4723C	Physiology and Molecular Biology of Animals	4

## Pre-Physician Assistant Course Recommendations

Code	Title	Credits
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory	4
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory	4
CHM 2210 or CHM 2200	Organic Chemistry 1 Fundamentals of Organic Chemistry	3
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2	4
APK 2100C	Applied Human Anatomy with Laboratory	4
APK 2105C	Applied Human Physiology with Laboratory	4
STA 2023	Introduction to Statistics 1	3
HSC 3537	Health and Medical Terminology	3
Select one of the following:		4-5
MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms	
MCB 3023 & 3023L	Principles of Microbiology and Principles of Microbiology Laboratory	
Also recommended:		
PSY 2012	General Psychology	3
PCB 3063	Genetics	4
CHM 2211 & 2211L	Organic Chemistry 2 and Organic Chemistry Laboratory	5
BCH 4024 or CHM 3218	Introduction to Biochemistry and Molecular Biology Organic Chemistry/Biochemistry 2	4
SPC 2608 or AEC 3030C	Introduction to Public Speaking Effective Oral Communication	3
PCB 4233	Immunology	3

## Pre-Law

UF's pre-law advisors offer students assistance as they explore their interest in law and provide guidance during the law school application process. Students are encouraged to utilize UF's pre-law resources:

- **Pre-law Website:** Review pre-law tips, timelines and resources.  
More Info (<https://www.advising.ufl.edu/pre-law/>)
- **Pre-law Listserv:** Join the listserv to receive pre-law announcements and stay connected with UF's abundant pre-law activities.  
More Info (<https://www.advising.ufl.edu/pre-law/pre-law-listserv/>)
- **Pre-law Advising:** Pre-law advisors are located in the College of Liberal Arts and Sciences Academic Advising Center (AAC) in Farrior Hall. Students may make an appointment through the AAC website or email the pre-law advisors.  
More Info (<https://www.advising.ufl.edu/>) | Email ([prelaw@advising.ufl.edu](mailto:prelaw@advising.ufl.edu))

## Choosing a Major

Pre-law students must develop analytic and problem-solving skills, critical reading abilities, writing skills, oral communication and listening abilities, research skills, and organization and priority management skills. These skills can be attained through virtually any major in combination with a wide variety of complementary electives. There is no "pre-law" major at UF; students should choose a major in which they have a true interest and select a broad, diverse, and challenging array of courses from demanding instructors in order to prepare for success in law school.

## Exploration

Pre-law students are encouraged to carefully assess their interest in and motivation for attending law school. The pre-law timeline, featured on the website, encourages you to shadow attorneys, conduct informational interviews, complete internships, and speak to admission officers to learn about law schools and the legal profession. Students should also consider studying overseas, writing an honors thesis, and getting involved in leadership opportunities. These activities will enhance the depth and value of students' undergraduate education and may also distinguish students from other top law school applicants.

---

# Student Responsibilities

## Academic Honesty

In 1995 the UF student body enacted an honor code and voluntarily committed itself to the highest standards of honesty and integrity. When students enroll at the university, they commit themselves to the standard drafted and enacted by students.

More Info (<https://sccr.dso.ufl.edu/students/student-conduct-code/>)

### Preamble

In adopting this honor code, the students of the University of Florida recognize that academic honesty and integrity are fundamental values of the university community. Students who enroll at the university commit to holding themselves and their peers to the high standard of honor required by the honor code. Any individual who becomes aware of a violation of the honor code is bound by honor to take corrective action. The quality of a University of Florida education is dependent upon community acceptance and enforcement of the honor code.

### The Honor Pledge

We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.

On all work submitted for credit by students at the university, the following pledge is either required or implied: On my honor, I have neither given nor received unauthorized aid in doing this assignment.

The university requires all members of its community to be honest in all endeavors. A fundamental principle is that the whole process of learning and pursuit of knowledge is diminished by cheating, plagiarism, and other acts of academic dishonesty. In addition, every dishonest act in the academic environment affects other students adversely, from the skewing of the grading curve to giving unfair advantage for honors or for professional or graduate school admission. Therefore, the university will take severe action against dishonest students. Similarly, measures will be taken against faculty, staff and administrators who practice dishonest or demeaning behavior.

### Student Responsibility

Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean, Student Honor Council or Student Conduct and Conflict Resolution in the Dean of Students Office.

### Faculty Responsibility

Faculty members have a duty to promote honest behavior and to avoid practices and environments that foster cheating in their classes. Teachers should encourage students to bring negative conditions or incidents of dishonesty to their attention. In their own work, teachers should practice the same high standards they expect from their students.

### Administration Responsibility

As highly visible members of our academic community, administrators should be ever vigilant to promote academic honesty and conduct their lives in an ethically exemplary manner.

## Student Conduct Code

Students enjoy the rights and privileges that accrue to membership in a university community and are subject to the responsibilities that accompany that membership. For a system of effective campus governance, it is incumbent upon all members of the campus community to notify appropriate officials of any violations of regulations and to assist in their enforcement. The university's conduct regulations, available to all students, are set forth in Florida administrative code. Questions can be directed to the Dean of Students Office.

More Info (<https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/>)

## Alcohol and Drugs

The use of alcohol and other drugs can have a negative impact on the decision making, wellbeing and safety of students, as well as lead to legal complications.

The university's principal role is to engage in education that leads to high standards and respectful conduct. When those are compromised, the university will take disciplinary action against organizations and individuals violating either the law or the unreasonable use of alcohol. It also must provide help for students who are alcohol dependent. The university will take appropriate action with students convicted of the illegal possession, use or sale of drugs.

### What the University Community Can Do to Prevent Alcohol Abuse and Drug Use

Students can help control substance use by declining to use or to condone the use of drugs and by insisting that organizations and individuals use alcohol within the bounds of the law and reasonable conduct. Students should make an effort to prevent persons who have abused alcohol or used drugs from harming themselves or others, especially while driving a motor vehicle. They should encourage those needing professional help to seek it. The same standards and regulations apply equally to faculty, staff, and administration.

## Relations between People and Groups

One of the major benefits of higher education and membership in the university community is greater knowledge of and respect for other religious, racial, and cultural groups. Indeed, genuine appreciation for individual differences and cultural diversity is essential to the environment of learning. Another major aspect of university life involves sexual relationships. Sexual attitudes or actions that are intimidating, harassing, coercive or abusive, or that invade the right to privacy of the individual are not acceptable. Only in an atmosphere of equality and respect can all members of the university community grow.

## Service to Others

An important outcome of a University of Florida education should be a commitment to serving other people. This sense of service should be encouraged throughout the institution by faculty, administration, staff, and students. Through experience in helping individuals and the community, students can put into practice the values they learn in the classroom.

## Standard of Ethical Conduct

Honesty, integrity, and caring are essential qualities of an educational institution, and the concern for values and ethics is important to the whole educational experience. Individual students, faculty, and staff members, as well as the university's formal organizations, must assume responsibility for these qualities. The concern for values and ethics should be expressed in classes, seminars, laboratories and in all aspects of university life. By definition, the university community includes members of the faculty, staff, and administration as well as students.

Education at the University of Florida is not an ethically neutral experience. The university stands for, and seeks to inculcate, high standards. Moreover, the concern for values goes well beyond the observance of rules.

A university is a place where self-expression, voicing disagreement and challenging outmoded customs and beliefs are prized and honored. However, all such expressions need to be civil, manifesting respect for others.

As a major sector in the community, students are expected to follow the university's rules and regulations that, by design, promote an atmosphere of learning. Faculty, staff, and administrators are expected to provide encouragement, leadership, and example. While the university seeks to educate and encourage, it also must restrict behavior that adversely affects others. The Standard of Ethical Conduct summarizes what is expected of the members of the university community.

---

## Study Abroad Opportunities

Study Abroad Services offers students the opportunity to study overseas in a wide range of academic and cultural settings. The office coordinates numerous year-long, semester, summer and short-term programs in more than 80 countries on all seven continents.

Credits earned in study abroad programs may count toward a major or minor and can satisfy general education, language and summer residency requirements.

## Writing Requirement

The University of Florida requires all students <sup>1</sup> to complete a writing requirement. AICE, AP, CLEP, and IB examination credit (p. 1748) as well as dual enrollment or transfer credit may count toward this requirement.

To graduate, students must complete courses that involve substantial writing for a total of 24,000 words.

Courses that count toward this requirement will be in one of three categories:

- 2: Coursework with at least 2,000 words
- 4: Coursework with at least 4,000 words
- 6: Coursework with at least 6,000 words

Some sections of qualified courses may not offer substantial writing in a particular term. In the schedule of courses (<http://www.registrar.ufl.edu/soc/>), the course sections and amount of writing credit awarded (2, 4, or 6 thousand) are identified for a given term.

The writing course grade assigned by the instructor has two components: the writing component and a course grade. Therefore, to receive writing credit, students must satisfactorily complete the writing component and receive a minimum grade of C (2.0) for the course. It is possible to not meet the writing requirement and still earn a minimum grade of C in a class, so students should review their degree audit after receiving their grade to verify receipt of credit for the writing component.

Courses intended to satisfy the writing requirement may not be taken S/U.

The writing must be evaluated on content, organization and coherence, effectiveness, style, grammar, and punctuation. Assignments must be returned to students with a grade and comments that address the students' writing skills. Consequently, feedback on all assignments should be provided by the last day of class, or if provided electronically, by the end of finals.

Evaluation of writing is based on individual work. Class notes, quizzes and in-class writing assignments or essay examinations may not be counted. Team-written documents may not be counted for credit unless clear individual sections are identified for grading, such that an individual student's writing may be evaluated and graded. Drafts cannot be counted separately from final drafts as part of the total number of words completed during the course.

Students may not take the same course multiple times to meet the writing requirement, unless the course allows for multiple registration based upon rotating course content.

All courses that require writing will not necessarily count toward the writing requirement. In writing requirement courses, students will be evaluated as described above.

<sup>1</sup> Except those transferring to UF with an AA degree from a Florida public college or an AA certificate from a Florida public state university.

---

## Academic Progress Policies

Regulations for academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable conformance to a program of study.

A minimum grade point average of 2.0 is required to graduate from any UF undergraduate degree program. Any college may specify additional academic standards and students are responsible for observing these regulations.

The probation and dismissal regulations that apply to undergraduate students also apply to postbaccalaureate students. Notations on the student's academic record shall reflect all actions taken to enforce these regulations; some of these notations can be permanent.

### Academic Standing

The University of Florida considers students to be in good standing if they are eligible to continue or to re-enroll at the university, even if on probation.

Colleges may choose not to consider students for admission and may deny continuation in a degree program if the student fails to maintain reasonable academic progress, as specified by the college or department.

Policies on academic standing, probation and dismissal are based on the possibility that a student can overcome academic difficulty and make appropriate progress toward a degree.

### Petitions

Students may file a petition for a waiver of a deadline or regulation if they can document extenuating circumstances that led to their failure to meet or conform to the deadline/regulation.

In general, petitions for waiver of an academic regulation for the current term should be directed to the school or college in which the student is enrolled. For example, petitions to drop or add after the drop/add period should be presented to the school or college. Exceptions to the course load regulation are to be presented to the school or college. Petitions approved by the school or college must be reported to the Office of the University Registrar before the action is official.

All other petitions should be presented to the Office of the University Registrar, which will refer them to the University Student Petitions Committee. Petitions pertaining to academic records approved by the committee will be reflected on the student's transcript.

Students who have graduated are not eligible to petition.

Per BOG Regulation 7.002(11), all requests for a refund of fees must be submitted to the university within six months of the close of the semester to which the refund is applicable. Any request for a refund of fees submitted outside this timeframe will not be reviewed.

Detailed information on petition procedures is available from the student's college or the Office of the University Registrar.  
More Info (<http://www.registrar.ufl.edu/currents/petitioninstructs.html>)

*A student seeking waiver of a regulation through petition must remember that no petitions committee can direct an instructor to change a grade, nor can the University Student Petitions Committee require any college or school to grant a degree by waiving any regulation.*

## Probation

The intent of academic probation is to serve formal notice that a student may not be making satisfactory progress. The conditions of academic probation are intended to specify the achievement standards required to graduate, to identify unsatisfactory academic performance at an early date, to provide occasion for counseling, and to give students whose ultimate success is in question further opportunity to demonstrate their ability to meet academic expectations.

Academic probation can occur for the following reasons:

- Students may be placed on probation by their college for failure to maintain normal academic progress in their degree program. College probation will be removed when the college determines that satisfactory academic progress has been demonstrated.
- Undergraduate students with less than a 2.0 cumulative grade point average for University of Florida coursework may be placed on academic probation.
- Academic probation will be continued for all undergraduate students as long as they have less than a 2.0 cumulative grade point average. It will be removed when the grade point average becomes 2.0 or higher. Should the grade point average fall far enough, the student will be dismissed based on Dismissal policy.

More Info (p. 1772)

## Dismissal and Suspension

Academic dismissal from the university denies registration privileges to students who have a cumulative GPA at or below what is listed in the Grade Point Deficit table (given their UF Cumulative Credits). The student will be dismissed from the university and any advance registrations will be cancelled.

- Students who are dismissed will not be permitted to enroll again unless they complete an application for readmission by the application deadline and the college approves readmission. A student who is readmitted after academic dismissal will be dismissed again if their grade point average is at or below the corresponding GPA (given their UF Cumulative Credits) indicated in the table at the end of any term.
- UF Cumulative Credits only include credits taken toward the GPA and do not include credits for courses taken S/U, credits dropped/withdrawn resulting in a W on the transcript, or credits not counting in the UF Cumulative GPA due to repeat or non-degree policy.
- An undergraduate student under any kind of dismissal or suspension at the University of Florida may earn credit toward a degree at the University of Florida by taking courses at another institution. Upon the student's reinstatement to the University of Florida, the University will accept credit from courses that fall under the Florida statewide course numbering system. A reinstated student may follow standard practice of consulting the student's degree-granting unit to consider whether credit for courses not under the state course numbering system and earned while dismissed or suspended will be accepted. Credits earned at another institution and accepted by the University of Florida will not count towards the UF GPA calculation but will factor into the student's total credit hour count towards excess hours.

## University Ombuds

When an academic regulation appears to result in undue hardship, students may petition for waiver of the regulation. If a student wishes to appeal a decision of the University Student Petitions Committee, the student must contact the Office of the Ombuds.

More Info (<http://www.ombuds.ufl.edu/>)

# Attendance Policies

## Absences

Students may only participate in classes if they are registered officially or approved to audit with evidence of having paid audit fees. The Office of the University Registrar provides official class rolls to instructors.

Students are responsible for satisfying all academic objectives as defined by the instructor. Absences count from the first-class meeting.

Acceptable reasons for absence from or failure to engage in class include illness; Title IX-related situations; serious accidents or emergencies affecting the student, their roommates, or their family; special curricular requirements (e.g., judging trips, field trips, professional conferences); military obligation; severe weather conditions that prevent class participation; religious holidays; participation in official university activities (e.g., music performances, athletic competition, debate); and court-imposed legal obligations (e.g., jury duty or subpoena). Other reasons (e.g., a job interview or club activity) may be deemed acceptable if approved by the instructor.

For all planned absences, a student in a situation that allows an excused absence from a class, or any required class activity must inform the instructor as early as possible prior to the class. For all unplanned absences because of accidents or emergency situations, students should contact their instructor as soon as conditions permit.

Students shall be permitted a reasonable amount of time to make up the material or activities covered during absence from class or inability to engage in class activities because of the reasons outlined above.

If a student does not participate in at least one of the first two class meetings of a course or laboratory in which they are registered, and they have not contacted the department to indicate their intent, the student can be dropped from the course. Students must not assume that they will be dropped, however. The department will notify students if they have been dropped from a course or laboratory.

The university recognizes the right of the instructor to make attendance mandatory and require documentation for absences (except for religious holidays), missed work, or inability to fully engage in class. After due warning, an instructor can prohibit further attendance and subsequently assign a failing grade for excessive absences.

## Religious Holidays

At the University of Florida, students and faculty work together to allow students the opportunity to observe the holy days of their faith. A student should inform the faculty member of the religious observances of their faith that will conflict with class attendance, with tests or examinations, or with other class activities prior to the class or occurrence of that test or activity. The faculty member is then obligated to accommodate that particular student's religious observances. Because students represent a myriad of cultures and many faiths, the University of Florida is not able to assure that scheduled academic activities do not conflict with the holy days of all religious groups. Accordingly, individual students should make their need for an excused absence known in advance of the scheduled activities.

The Florida Board of Education and state law govern university policy regarding observance of religious holidays.

**The following guidelines apply:**

- Students, upon prior notification to their instructors, shall be excused from class or other scheduled academic activity to observe a religious holy day of their faith.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.
- Students shall not be penalized due to absence from class or other scheduled academic activity because of religious observances.

If a faculty member is informed of or is aware that a significant number of students are likely to be absent from class because of a religious observance, the faculty member should not schedule a major exam or other academic event at that time.

A student who is to be excused from class for a religious observance is not required to provide a second party certification of the reason for the absence. Furthermore, a student who believes that they have been unreasonably denied an education benefit due to religious beliefs or practices may seek redress through the student grievance procedure.

## Illness Policy

A student who is absent from class or any required class-related activity because of illness should contact their instructor, if feasible, as early as possible prior to the missed class or activity.

Students shall be permitted a reasonable amount of time to make up the material or activities covered during an excused absence.

Students should contact their college by the deadline to drop a course for medical reasons. Students can petition the Dean of Students Office (<https://www.dso.ufl.edu/>) to drop a course for medical reasons. The university's policy regarding medical excuse (<http://shcc.ufl.edu/forms-records/excuse-notes/>) from classes is maintained by the Student Health Care Center.

## Twelve-Day Rule

Students who participate in university-sponsored athletic or scholarly activities are permitted to be absent 12 scholastic days per semester without penalty. A scholastic day is any day on which regular class work is scheduled as defined in the approved university calendar.

More Info (p. 1795)

The student or student's advisor must notify the instructor as early as possible prior to the anticipated absence to allow ample time for accommodations. Instructors must be flexible and not penalize students when re-scheduling during-term and final exams, class assignments, and other required activities and must follow the UF Attendance Policy herein and UF Examination Policies. As noted in the UF Examination Policies, during-term exams should be re-scheduled no later than before the end of the semester, while final exams no later than 90 days after the originally scheduled exam time. However, instructors are encouraged to re-schedule final and during-term exams, assignments, and other activities as soon as possible after the last day of the absence and must not penalize the student in any way.

More Info (p. 1780)

A group's schedule that requires absence of more than 12 scholastic days should be adjusted so that no student is absent from campus more than 12 scholastic days. Students who previously have been warned in writing by their instructor about the impact of absences on their individual class performance should not incur additional absences, even if they have not been absent 12 scholastic days. The student is responsible to maintain satisfactory academic performance and attendance.

# Civic Literacy Requirement

Effective Fall 2021, all students who enroll at a Florida Public Postsecondary Institution (Florida College System or State University System) after high school are required to demonstrate competency in U.S. Civic Literacy to obtain a degree.

These competencies include:

- Understanding of the basic principles of American democracy and how they are applied in our republican form of government;
- Understanding of the U.S. Constitution;
- Knowledge of the founding documents and how they have shaped the nature and functions of our institutions of self-governance; and
- Understanding of landmark Supreme Court cases and their impact on law and society.

As set out in Florida Statute 1007.25, and clarified in Board of Governor's Regulation 8.006, these competencies must be met in one of the following ways:

- Completion of AP American History in high school with a score of 4 or higher on the AP exam.
- Completion of AP American Government in high school with a score of 3 or higher on the AP exam.
- Completion of the CLEP American Government exam with a score of 50 or higher.
- Completion of POS2041 or AMH2020 at a Florida Public Postsecondary institution along with completion of the Florida Civic Literacy Exam with a score of 60 or higher (taken in High School or at a Florida Public Postsecondary Institution).
- Completion of A Level AICE US History with a score of A-E on the AICE exam along with completion of the Florida Civic Literacy Exam with a score of 60 or higher (taken in High School or at a Florida Public Postsecondary Institution).
- Completion of IB History of America with a score of 5-7 on the IB exam along with completion of the Florida Civic Literacy Exam with a score of 60 or higher (taken in High School or at a Florida Public Postsecondary Institution).

Up-to-date information on the Civic Literacy Requirement, including how to take the exam. (<http://undergrad.aa.ufl.edu/for-students/civic-literacy-requirement/>)

Students with an interest in Civic Literacy are encouraged to visit the Bob Graham Center at the University of Florida. The Bob Graham Center was established in 2006 with the goal of creating a community of students, scholars, and citizens who share a commitment to revitalizing the civic culture of Florida and the nation. Former Governor and U.S. Senator Bob Graham founded the center as a place where students can acquire the skills and

knowledge necessary to become informed citizens, with the expressed purpose of strengthening the nation's democratic institutions. Located in the middle of campus in Pugh Hall, the center stands at the cornerstone of the university's academic, intellectual, and civic life.  
More Info (<https://spark.adobe.com/page/GGDYP3dWq0kXj/>)

## Degree and Graduation Policies

### Degree Application

Students must apply for a degree by the application deadline via ONE.UF (<https://one.uf.edu/>). To submit an application, select Degree/Certificate Application from the Academics section in the left menu.

Students must apply in the term in which they expect to graduate, regardless of applications in previous terms. If the student has completed all the requirements for the degree, they will be required to graduate. Degree application deadlines are available under Dates and Deadlines.

More Info (p. 1795)

### Associate of Arts Degree | AA

Although not required, students may receive an AA degree, which is awarded by the College of Liberal Arts and Sciences. The degree must be awarded prior to or at the same time as the bachelor's degree. Students should apply for the AA degree in the semester when they are scheduled to complete the requirements. The application is available on ONE.UF (<https://one.uf.edu/>).

The Associate of Arts degree will be awarded upon satisfactory completion of:

- 60 credits; at least 36 of these credits must have been completed at UF
- General Education (Gen Ed) | UF Quest requirements (p. 65)
- Writing requirement (p. 1768)
- Civic Literacy requirement (<http://undergrad.aa.ufl.edu/for-students/civic-literacy-requirement/>)
- Foreign Language admission requirement (p. 23)

### Catalog Year

UF operates on a semester system. Spring and Fall semesters average 15 weeks of instruction, plus a week of final examinations. There are two six-week Summer terms. Semesters begin in August, January, and May. The Summer term is offered as a full term (Term C), or in two sessions as half-terms (Term A beginning in May and Term B beginning in June).

Catalog year determines the set of academic requirements that must be fulfilled for completion of a certificate or to graduate from a degree-granting program. Students complete a program under the catalog in effect at the time of their initial enrollment as a certificate or degree-seeking student at UF, a Florida public college or other Florida state institution, provided they maintain continuous enrollment (enrolling for at least one course in one term in an academic year). Students pursuing minors, dual degrees or double majors must have the same catalog year for each program. Students pursuing certificates may have separate catalog years for their certificate(s) and degree-seeking programs(s).

Students who do not maintain continuous enrollment will be assigned the catalog in effect at the time they resume enrollment. With the approval of the student's college dean's office, they may choose to graduate under the requirements of a later catalog, but the student must fulfill all graduation requirements from that alternative catalog year.

The university will make every reasonable effort to honor the curriculum requirements appropriate to each student's catalog year. However, courses and programs will sometimes be discontinued, and requirements may change as a result of curricular review or actions by accrediting associations and other agencies.

### College Dean's Certification

Students who have completed all requirements for their degree will be required to graduate. The dean certifies that all requirements have been completed and that the student has been recommended by the faculty for graduation.

### Completion Deadline to Receive a Degree

All work must be completed by the end of the final exam period for the Fall and Spring terms and by the last day of classes for the Summer terms. A minimum UF cumulative grade point average of 2.0 must be earned to qualify for the awarding of an undergraduate degree.

### Continuous Enrollment

Undergraduate students who enroll for at least one course in one term in an academic year are continuously enrolled.

## Curriculum Requirements

Students must complete all degree requirements established by the university, their college, their major and minor (if applicable); this includes completion of general education, writing requirement and the summer term enrollment requirements.

Minors are awarded only in conjunction with the receipt of a baccalaureate degree. To determine program requirements, refer to the academic advising (p. 1707) and majors (p. 1705) sections.

## Degree Certification and Graduation Date

All colleges, excluding professional programs in the colleges of Dentistry, Law, Medicine, Pharmacy, and Veterinary Medicine, will certify their graduates the Tuesday following the last day of classes for the Summer terms (subject to change due to holiday) or the Tuesday following the end of the final exam period for the Fall and Spring terms. This certification date will appear on the transcript and the diploma as the official date of graduation. Professional programs in the aforementioned colleges will use the date of their official commencement ceremony as the date of graduation. This date will appear on both the transcript and diploma as the official date of graduation, as required by professional accreditation guidelines.

## Diploma Replacement

Each diploma ordered subsequent to the student's initial degree application can result in a diploma replacement charge.

## Dual Degrees and Multiple Majors

At the discretion of UF colleges and schools, students can be permitted to pursue multiple degrees or majors.

- A student completing major and college requirements in two or more different colleges at the same time will receive two or more degrees. The transcript will list each degree and the appropriate majors.
- A student completing major and college requirements in one college and major requirements only in another college will receive a degree from the first college. The transcript will list the degree and each major.
- A student completing multiple majors that have the same degree, i.e., Bachelor of Arts or Bachelor of Science, will receive a single degree. The transcript will list the degree and each major.

## Foreign Language Requirement

As a condition of admission to the university, students must complete two sequential courses of a foreign language in secondary school, 8-10 semester credits at the postsecondary level or document an equivalent level of proficiency.

Some degrees also have additional, specific foreign language requirements. To earn a UF degree, students must meet the requirements of their major and college *in addition* to the university's foreign language requirement for admission.

## Pending Charge of Academic Dishonesty or Conduct Violation

No degree will be conferred if a charge of academic dishonesty or student conduct violation is pending and the penalty could be dismissal, expulsion, failing grade or any combination, until the charge is resolved, and degree requirements are met.

## Residence Requirements

The minimum residence requirement for the baccalaureate degree is two semesters.

- Students are required to complete the last 25% of the credits needed to satisfy the requirements of their major by taking UF courses.

## Summer Term Enrollment

All students entering a university in the State University System (SUS) institutions (<http://www.flbog.edu/universities/>) with fewer than 60 semester hours credit shall be required to earn at least nine semester credits prior to graduation by attendance at one or more summer sessions. However, students who earn six credits through UF-sponsored, UF exchange or UF-approved SUS study-abroad programs during one or two summer terms completely satisfy the summer-term enrollment requirement. Students who bring 60 or more transfer credits to UF, regardless of institution, will be exempt from completing the summer requirement at UF.

---

## Dropping Courses and Withdrawals

### Dropping Courses

Dropping is defined as removing an individual course or courses from a student's schedule/registration, but not removing all courses in a given term.

## During Drop/Add

- Courses can be dropped or added during drop/add without penalty.
- Classes that meet for the first time after drop/add closes can be dropped without penalty or fee liability if the request is submitted by the end of the next business day after the first class meeting. Students first must drop the course with their college advising office and then submit a written explanation to the Office of the University Registrar. This does not apply to laboratory sections.

## After Drop/Add but Prior to the Drop Deadline

After drop/add, students may drop a course with the approval of their college until the drop deadline listed in the academic calendar. A grade of W will appear on the transcript, and students are liable for course fees.

All drops after drop/add must be completed by the drop deadline with the student's college advising office and are subject to the following restrictions:

- Students get two drops in their first 60 credits attempted at UF. Credits attempted are defined as:
  - Credits carried excluding credits taken prior to the first term of degree-seeking enrollment, plus S/U credits, and repeats of satisfactory grades.
  - *Full-term withdrawals from all courses and dropped courses do not count in credits carried.*
- Students get two additional drops in the second 60 credits attempted. Unused drops do not carry over from the first 60 credits attempted to the second 60 credits attempted.
- Students entering UF as transfer students with an AA degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops.
- Students with disabilities who need to drop a course due to disability-related reasons are allowed to petition for additional drops.
- Students who can document extenuating circumstances may petition their college for additional drops.
- Approval to drop a course must be obtained from the student's college.

## After the Drop Deadline

- After the deadline and before the last day of classes, students may petition their college to drop a class. Typically, they will need to demonstrate an extenuating circumstance justifying approval of a drop after the deadline.
- After the last day of classes, students would need to complete a University Petition Request for a Retroactive Drop.  
More Info (<http://www.registrar.ufl.edu/currents/petitioninstructs.html>)

## Withdrawals

Withdrawal is defined as dropping *all* courses, not *individual* courses, in a term. Students who leave UF without withdrawing formally will receive failing grades for all courses.

Students should read the withdrawal instructions carefully before submitting their withdrawal online.

More Info (<http://registrar.ufl.edu/services/withdrawals.html>)

## During Drop/Add

- Students may withdraw from all courses during drop/add without penalty.

## After Drop/Add but Prior to the Withdrawal Deadline

- Students who withdraw after drop/add and before the withdrawal deadline will receive a grade of W for all classes and are liable for tuition.
- Students on university academic probation who withdraw before the Withdrawal Deadline will continue on probation until their UF cumulative GPA becomes a 2.0 or greater. Students on Admissions Committee probation must meet the terms of their probation. Students on college probation should check with their college/departmental advisor about college-specific requirements.
- Students considering petitioning for a medical withdrawal or retroactive medical withdrawal should contact the Dean of Students Office for additional information about the process.  
More Info (<https://care.dso.ufl.edu/medical-petition-portal/>)

## After the Withdrawal Deadline

- Students who wish to withdraw after the withdrawal deadline and before the last day of classes may petition their college. Typically, the student will need to demonstrate an extenuating circumstance justifying approval of a withdrawal after the deadline.
- After the last day of classes, students would need to complete a University Petition Request for a Retroactive Withdrawal.  
More Info (<http://www.registrar.ufl.edu/currents/petitioninstructs.html>)

## Withdrawal Due to Military Service

Per Florida Statute 1004.07, any student enrolled in a postsecondary course or courses at a state university shall not incur academic or financial penalties by virtue of performing military service on behalf of our country. These students shall be permitted the option of completing the course(s) at

a later date without penalty or withdrawing from the course(s) with a full refund of fees paid. (Refer to refund of fees (p. 1780) information in the fees and fiscal section of the catalog). If the student chooses to withdraw, the record shall reflect that the withdrawal is due to active military service.

## National Guard Troops Ordered into Active Service

Per Florida Statute 250.482, if a member of the Florida National Guard is ordered into active service, no private or public employer and no employing or appointing authority of this state, its counties, municipalities, political subdivisions, public colleges, or universities shall discharge, reprimand or in any other way penalize such member because of their absence by reason of state active duty.

---

## Examination Policies and Reading Days

### Final Exams

Final exams are determined by course meeting times, except for certain large courses.

- No student is required to take more than three final exams in one day.
- If two exams are scheduled at the same time, assembly exams take priority over time-of-class exams.
- When two assembly exams (multiple sections and enrollment over 300) or two time-of-class exams (single sections and/or enrollment under 300) conflict, the course with the higher number will take priority. Instructors giving make-up exams will make the necessary adjustments.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a final exam is within 60 days of the originally scheduled final exam date; however, students in their graduation semester may require expedited accommodations to ensure graduation as scheduled.

### During-Term Exams

- During-term examinations are held during regular class times or during assembly exam periods, which are Monday through Friday from 8:20 am to 10:10 pm (periods E2-E3) for the Fall and Spring terms and Monday through Friday from 7:00 am to 9:45 pm (periods E1-E2) for the Summer terms.
- If other classes are scheduled during an exam time, instructors must provide make-up class work for students who miss class because of an assembly exam.
- When two exams conflict, assembly exams (multiple sections and enrollment over 300) take precedence over non-assembly exams (single sections and/or enrollment under 300). If two assembly exams conflict, the course with the higher number will take priority. Likewise, if two non-assembly exams conflict, the higher number will again take priority. Instructors giving make-up exams will make the necessary adjustments.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a during-term exam is before the end of the semester in which the student is enrolled in the class.

### Reading Days

The two days before the start of examinations in the fall and spring semesters, generally a Thursday and Friday, are designated reading days. No classes or exams are held on these days; instead, students are encouraged to use these days for study and review.

There are no reading days in the summer terms because examinations are given during regular class periods.

### Excused Absences

Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. For assignments and during-term exams, a reasonable amount of time is within the term in which the student is enrolled in the class. For final exams, a reasonable amount of time is within 60 days after the originally scheduled final exam date; however, students in their graduation semester may require expedited accommodations to ensure graduation as scheduled.

---

## Fees and Fiscal Information

### Admission Tuition Deposit

The \$200 admission deposit (UF-3.0376 Regulations of the University of Florida) paid by the individual shall be applied toward payment of that individual's tuition upon enrollment. The admission deposit shall **not** be reimbursed to an individual who does not enroll in the term offered for admission and who does not withdraw their acceptance of admission prior to the applicable deadline as published in the University Record. The deposit is waived for those individuals who have provided documentation that they have received an application fee waiver because of economic need as determined by the College Board, American College Testing Program, Law School Admissions Council, the American Association of Medical Colleges Fee Assistance Program or the American Association of Dental Schools Application Service.

## Registration and Tuition and Fees Liability

Registration shall be defined as consisting of two components (UF-3.037 Regulations of the University of Florida):

1. formal enrollment in one or more credit courses approved and scheduled by the university; and
2. tuition and fee payments, or other appropriate arrangements for tuition and fee payment (deferment or third-party billing) for the courses in which the student is enrolled as of the end of the drop/add period.

Registration must be completed on or before the date specified in the university calendar. Students are not authorized to attend class unless they are on the class roll or have been approved to audit. Unauthorized class attendance will result in fee liability.

### Fee Liability

All students are liable for all tuition and fees associated with all courses for which the student is registered at the end of the drop/add period (UF-3.037 Regulations of the University of Florida). The fee payment deadline is 3:30 p.m. of the last day of the second week of classes.

## Assessment of Tuition and Fees

Tuition shall be assessed to students for enrollment in credit courses (UF-3.0375 Regulations of the University of Florida).

Students can calculate and pay their own tuition and fees on the secure ONE.UF portal.

More Info (<https://one.uf.edu/dashboard/>)

Students can estimate their tuition and fees on the University Bursar website.

More Info (<http://www.fa.ufl.edu/bursar/current-students/>)

Lack of written notification of the tuition and fee debt does not negate the student's responsibility to pay by the published deadline.

For purposes of discussion, the word *term* refers to the fall semester, the spring semester and any of the summer semesters.

## Assessment of Student Fees

### Activity and Service Fee

All students must pay an activity and service fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0372, Regulations of the University of Florida)

### Athletic Fee

All students must pay an athletic fee that is assessed on a per credit-hour or semiannual basis. Half-time graduate research and teaching assistants enrolled for eight (8) or more credit hours during the Fall or Spring Semester and all other students enrolled for nine (9) or more credit hours are eligible to purchase football tickets at the student rate. (UF-3.0372, Regulations of the University of Florida)

### Audit Fee

Tuition and fees for audited courses are assessed at the applicable resident or non-resident per credit-hour cost. (UF-3.0376, Regulations of the University of Florida)

### Diploma Replacement Fee

Each diploma ordered after a student's initial degree application can result in a diploma replacement charge, variable, not to exceed \$10.00 per item. (UF-3.0376, Regulations of the University of Florida)

### Distance Learning Fee

Online courses may be assessed a per credit hour amount. (1009.24, Florida Statutes)

### Health Fee

All students must pay a health fee that is assessed on a per credit-hour or semiannual basis. The health fee is not part of any health insurance a student may purchase. (UF-3.0372, Regulations of the University of Florida.)

### Material and Supply and Equipment Use Fee

Material and supply fees are assessed for certain courses to offset the cost of materials or supply items consumed in the course of instruction. A list of approved courses and fees is published in the Schedule of Courses each semester. (UF-3.0374 Regulations of the University of Florida)

More Info (<http://www.registrar.ufl.edu/soc/>)

The equipment use fee program allows units to charge for courses that use equipment in the educational process, which is used to prepare students for their careers or professions and is used for instructional purposes only with direct use by students. Material and supply and equipment use fee information is available from the academic departments or from the schedule of courses (Florida Statutes 1009.24).

## Off-Campus Educational Activities

The president or the president's designee will establish fees for off-campus course offerings when the location results in specific identifiable increased costs to the university. These fees will be in addition to the regular tuition and fees charged to students enrolling in these courses on campus. The additional fees charged are for the purpose of recovering the increased costs resulting from off campus vis-a-vis on campus offerings. As used herein, *off campus* refers to locations other than main campus, branch campuses and centers. (UF-3.0376, Regulations of the University of Florida)

## Registration for Zero Credits

The student is assessed the applicable resident or non-resident per credit-hour cost as set forth in Regulation UF-3.0375, for one credit hour. (UF-3.0376, Regulations of the University of Florida)

## Technology Fee

All students must pay a technology fee that is assessed on a per credit-hour or semiannual basis. (UF-3.3075, Regulations of the University of Florida)

## Transcript Fee

An official transcript may be purchased on the Registrar website or your ONE.UF (<https://one.uf.edu/>) account for a charge. (UF-3.0376, Regulations of the University of Florida)

More Info (<https://registrar.ufl.edu/services/transcripts/>)

## Transportation Access Fee

All students must pay a transportation access fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0372, Regulations of the University of Florida)

*All charges may be subject to change without notice.*

## Repeat Course Fee

Beginning Fall 1997, any undergraduate course numbered 1000-4999 at the university for which a student registers three or more times will be subject to a repeat course fee at 100 percent of the full cost of instruction, calculated annually. (Section 1009.285, Florida Statutes)

All students, regardless of classification or residency status, will be assessed the fee in addition to the tuition costs. (UF-3.0375, Regulations of the University of Florida)

## Excess Hours Fee

All credit hours for courses taken at the state university from which the student is seeking a baccalaureate degree. (UF-3.0375, Regulations of the University of Florida)

Pursuant to Section 1009.286, Florida Statutes, an additional student payment for credit hours exceeding baccalaureate degree program completion requirements at state universities.

More Info ([http://www.leg.state.fl.us/statutes/?App\\_mode=Display\\_Statute&URL=1000-1099/1009/Sections/1009.286.html](http://www.leg.state.fl.us/statutes/?App_mode=Display_Statute&URL=1000-1099/1009/Sections/1009.286.html))

## Payment of Tuition and Fees

Tuition and fees are payable on the dates listed in the academic calendar. Deadlines are enforced.

More info (p. 1795)

Tuition and fee payments are processed by **University Bursar**. Payments sent via U.S. mail must be received in the university cashier's office by the established fee payment deadline. An on time payment for the tuition and fees deadline date is a receipt date, not a postmark date.

More Info (<http://www.fa.ufl.edu/bursar/current-students/payments/>)

According to university policy, university cashiers will accept checks only for the amount due in payment of tuition and fees, accounts receivable, loans and other student debts. Checks from international countries must be payable through a United States bank in U.S. dollars. The university can refuse two-party checks, altered checks and checks that will not photocopy. The university does not have the authority to waive late payment fees unless extraordinary circumstances warrant such a waiver or the university is primarily responsible for the delinquency. (UF 3.0022, University of Florida Regulations)

**Pay for tuition and fees and other charges at ONE.UF.**

More Info (<https://one.uf.edu/dashboard/>)

## Payment Options

- Electronic check; there is no service charge for the electronic check payments.
- Credit and debit cards: MasterCard, Discover, American Express, or Visa will include a 2.6 percent service charge for tuition and fees and accounts receivable charges (e.g., laser print, library fines, parking decals, etc.).
- International Payment via Convera is a wire transfer; provides a competitive rate of exchange for many international currencies.

- In person payments: check, money order, or cashier's check. International paper checks or demand drafts must be drawn on a U.S. bank in U.S. dollars and amounts cannot be greater than the amount due. Any payment that is more than the amount due will not be refunded and will automatically be applied to a future debt.
- Cash is not an available payment options.

## Returned Payments

Returned electronic checks or paper checks will be charged a service fee of \$25.00 if the returned payment is less than \$50.00; \$30.00 if the returned payment is \$50.01 - \$299.99 and \$40.00 if the returned payment is \$300.00 or more. Payments for returned electronic check payments, returned paper checks and the returned service fee must be paid by money order or cashier's check.

A \$10.00 service fee will be charged if the bank information provided for the electronic check payment is inaccurate for electronic funds transfer. Payment for this type of return does not require a money order or a cashier's check.

*All financial obligations to the university will be applied on the basis of age of the debt. The oldest debt will be paid first.*

## Late Registration and Late Payment Fees

### Late Registration Fee

Any student who fails to register prior to the late registration date published in the academic calendar will be subject to the late registration fee of \$100.00. (UF-3.037, Regulations of the University of Florida)

More Info (p. 1795)

### Late Payment Fee

Any student who fails to pay all tuition and fees due or to make appropriate arrangements for tuition and fee payment (deferment or third party billing) by the fee payment deadline published in the academic calendar will be subject to a late payment fee of \$100.00. (UF-3.037, Regulations of the University of Florida)

More Info (p. 1795)

### Waiver of Late Fees

A student who believes that a late fee should not be assessed because of university error or extraordinary circumstances that prevented all conceivable means of compliance by the deadline may petition for a waiver. Late registration fee: Office of the University Registrar; Late payment fee: University Bursar. The university reserves the right to require documentation to substantiate these circumstances.

## Deferment of Tuition and Fees

Deferment extends the deadline for payment of tuition and fees for a specific term. A tuition and fee deferment is granted based on information from Student Financial Affairs (financial aid deferments) or the Office of the University Registrar (veterans). Refer questions on eligibility to the appropriate office. A tuition and fee deferment must be established by the tuition fee payment deadline for each term. A tuition and fee deferment is provided to students in the following circumstances:

- Students receiving benefits from state or federal financial assistance programs (1009.27, Florida Statutes).
- Students receiving veterans or other educational benefits under Chapter 30, Chapter 31, Chapter 32, Chapter 33, Chapter 34, Chapter 35, Chapter 1606 or Title 10, U.S.C.; or
- Students for whom formal arrangements have been made with the university for payment by an acceptable third-party sponsor.

A \$100.00 late payment fee will be assessed if a student fails to pay all tuition and fees due by the deferment deadline.

## Deadlines

*Deadlines are enforced.*

The university does not have the authority to waive late payment fees unless extraordinary circumstances warrant such waiver or the university is primarily responsible for the delinquency.

## Waiver or Exemption of Tuition and Fees

UF may waive tuition and fees as follows:

- Any dependent child of a special risk member killed in the line of duty, pursuant to Chapter 112.19, Florida Statutes.
- A student enrolled through the Florida Linkage Institutes Program is entitled to a waiver of the non-resident tuition and fees pursuant to 288.8175 Florida Statutes.
- Intern supervisors for institutions within the State University System may be given one non-transferable certificate (fee waiver) for each full academic term during which the person serves as an intern supervisor, pursuant to 1009.26, Florida Statutes.
- Persons 60 years of age or older who are Florida residents, pursuant to Chapter 1009.26, Florida Statutes.

- A student who is or was at the time he or she reached 18 years of age in the custody of a relative or non-relative under s. 39.5085 or s. 39.6225 or who was adopted from the Department of Children and Families after May 5, 1997. Such exemption includes fees associated with enrollment in applied academics for adult education instruction. The exemption remains valid until the student reaches 28 years of age after May 5, 1997, pursuant to Chapter 1009.25, Florida Statutes.
- A student who lacks a fixed, regular, and adequate nighttime residence or whose primary nighttime residence is a public or private shelter designed to provide temporary residence, a public or private transitional living program, or a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings. This includes a student who would otherwise meet the requirements of this paragraph, as determined by a college or university, but for their residence in college or university dormitory housing.
- Purple Heart recipients pursuant to Chapter 1009.26, Florida Statutes.
- Apply for enrollment in an institution of higher education within 24 months after high school graduation; and submit an official Florida high school transcript as evidence of attendance and graduation, may have the non-Florida resident fee waived as provided by Chapter 1009.26, Florida Statutes.
- Non-Florida resident fee for a veteran; C.W. "Bill" Young Veteran Tuition Waiver, pursuant to Chapter 1009.26, Florida Statutes.
- Active-duty military, pursuant to sections 1009.2(10) and 1009.26(14), Florida Statutes.

The non-Florida student financial aid fee may not be waived for students receiving an out-of-state tuition and fee waiver.

## Non-Payment of Tuition and Fees

The university shall temporarily suspend further academic progress of any student who has not paid the entire balance of their tuition and fee liability by the established deadlines. This will be accomplished by placing a financial hold on the student's record, which will prevent the student from receiving grades, transcripts and/or diploma, and the student's registration will be denied for future terms until the account has been satisfied. (UF-3.037 Regulations of the University of Florida)

Students who have not paid any portion of their tuition and fee liability by the established university payment deadline will be withdrawn from all courses. Students will continue to be held fee liable for these courses, but will not be allowed to attend these courses until payment is made in full and the student has been re-registered.

To re-register for courses, students must submit a Current Term Re-Enrollment Request petition to the Office of the University Registrar. Students who re-register after being withdrawn for non-payment of tuition and fees will be subject to both late registration and late payment fees.

## Refund of Tuition and Fees

The following circumstances may constitute a tuition and fees refund (UF 3.0371 Regulations of the University of Florida):

- If notice of withdrawal from the University is approved prior to the end of the drop/add period and written documentation is received from the student
- Credits dropped during drop/add period
- Courses cancelled by the university
- Involuntary call to active military duty
- Death of the student or member of the immediate family (parent, spouse, child, sibling)
- Illness of the student of such severity or duration, as confirmed in writing by a physician, that completion of the semester is precluded
- Exceptional circumstances, upon approval of the university president or his designee

A refund of 25 percent of the total fees paid (less late fees) is available for withdrawal of enrollment of all courses from the university prior to the deadlines listed in the academic calendar.

More Info (p. 1795)

Refunds are issued by University Bursar and will be applied against any university debts. The university reserves the right to set minimum amounts for which refunds will be produced for overpayments on student accounts.

Tuition refunds due to cancellation, withdrawal or termination of attendance for students receiving financial aid will first be refunded to the appropriate financial aid programs. If the student is a recipient of federal financial aid, such as Grad Plus Loan, Pell Grant, TEACH Grant, Supplemental Educational Opportunity Grant (SEOG), Perkins Loan, Federal Direct Stafford Loans or PLUS loans, federal rules require that any unearned portion of the federal aid must be returned to the U.S. Department of Education.

## Direct Deposit Requirement

Due to the university's continuing support for sustainable practices, as well as the costs associated with producing, mailing, and tracking undelivered checks, direct deposit is now required for the delivery of refunds, whether financial aid or student overpayments. This electronic method will deposit any overpayments to the student's checking account. Students must give authorization on ONE.UF (<https://one.uf.edu/dashboard/>), select the Campus Finances (Bursar) card > Related Links > Sign up for Direct Deposit to have financial aid or overpayments electronically credited to a U.S. bank or other U.S. financial institution checking account.

## Florida Prepaid Tuition College Program

The Florida Prepaid College Program is a state of Florida administered program that provides Florida families affordable means to save for their children's future college education.

At the University of Florida, students with a Florida Prepaid account will **not** have to show their Florida Prepaid documentation. University Bursar works directly from an electronic file provided by the Florida Prepaid College Program. University Bursar matches that file to the names and social security numbers of enrolled UF students to determine eligibility and available credits that can be billed to the program. If Prepaid is not showing on the student's ONE.UF record the first week of classes, contact the University Bursar at 352.392.9545.

More Info (<https://one.uf.edu/dashboard/>)

University Bursar will automatically bill the Florida Prepaid Program for the tuition and applicable fees of eligible students. The program will be billed each term that a student is registered at UF and continues to have credits available.

Florida Prepaid Program has a variety of plans. However, no plan pays 100 percent of tuition and fees. Listed below are fees that are not covered by a prepaid plan and must be paid by the fee payment deadline each term to avoid assessment of a \$100.00 late payment fee:

- Distance learning fees
- Equipment fees
- Excess credit hour surcharge fees
- Late payment fees
- Late registration fees
- Material and supply fees
- Repeat course surcharge
- Transportation access fees
- Test fees
- Technology fees

### Opting out of Florida Prepaid

Eligible students can choose to decline the use of the prepaid plan online for a **fall**, **spring**, or **summer** term.

#### Opt out of Florida Prepaid at ONE.UF.

More Info (<https://one.uf.edu/dashboard/>)

The option to *opt out* online for the current term must be completed prior the day prior to the tuition deadline. The online *opt out* option is not available on the fee payment deadline day; therefore, students choosing to *opt out* on the deadline day or those who need to cancel an online selection must contact the University Bursar at 352.392.9545 or Ask Bursar Help (<https://uf.tfaforms.net/125/>).

*Students must **opt out** each term they decline to use their prepaid plan. Only one academic term will be available online to **opt out** any given time.*

### Florida Prepaid and Financial Aid

Students participating in the Florida Prepaid College Program who are also expecting to receive financial aid (i.e., Bright Futures, Pell, student loans, other scholarships/grants) will have the Florida Prepaid applied first to tuition and applicable fees. Financial aid received will be disbursed and applied to outstanding charges, which may include tuition and fees not covered by the program. Any excess financial aid that remains after debts have been paid will be refunded to the student or if there is a Plus loan this will be refunded to the student or parent.

### Study Abroad Programs and Distance Learning

Students participating in any study abroad program or receiving instruction through flexible learning, also can bill the Florida Prepaid College Program.

Students must contact the following departments for assistance with billing the Florida Prepaid program:

#### Study Abroad Programs

UF International Center, Study Abroad Services

170 HUB Stadium Road

Gainesville, FL 32611

352.273.1539

#### Flexible Learning Courses

Distance Learning

2124 NE Waldo Road, Suite 1101

Gainesville, FL 32609

352.392.2137

Additional questions regarding the UF Florida Prepaid billing process?  
Call University Bursar at 352.392.9545 or Ask Bursar Help (<https://uf.tfaforms.net/125/>)

Questions about the Florida Prepaid Program?  
Call 1.800.552.4723 (552.GRAD)

## General Fiscal Information

Students can pay on their ONE.UF account the exact amount of tuition and fees and/or other amounts owed the university. The online payment system accepts the following payment methods: American Express, MasterCard, Discover, or Visa credit cards and electronic checks from checking accounts and international payments via wire transfer.  
More Info (<https://one.uf.edu/dashboard/>)

Students can also pay at the University Bursar office with personal checks, cashier's checks and money orders, which can be placed in the 24-hour drop box located outside 113 Criser Hall. Payments on all financial obligations to the university will be applied on the basis of age of the debt. The oldest debt will be paid first.

*University Bursar does not accept cash or debit card payments and does not cash checks or make cash refunds.*

It is the student's responsibility to maintain a correct current address in the UF directory.

**Address changes** should be made online at ONE.UF.  
More Info (<https://one.uf.edu/dashboard/>)

## Past-Due Student Accounts

All student accounts are payable at the University Bursar office or on ONE.UF at the time such charges are incurred. Graduating students with outstanding financial obligations will have a hold placed on their records withholding release of a diploma, transcript and other university services until the debt is satisfied.  
More Info (<https://one.uf.edu/dashboard/>)

University regulations prohibit the following for any student whose account with the university is delinquent until the debt has been satisfied:

- Registration
- Release of transcript, diploma, grades or schedules
- Loans
- The use of UF facilities and/or services
- Admission to UF functions and athletic events

Delinquent accounts, including those debts for which the student's records have a financial hold, may require payment by cashier's check or money order.

Delinquent debts may be placed with a billing agent, reported to a credit bureau and referred to collection agencies without further notice or litigated, at which time additional collection costs will be assessed in accordance with UF-3.0376, Regulations of the University of Florida. All payments received are applied to the oldest debt first.

---

## FERPA and Confidentiality of Student Records

The university ensures the confidentiality of student records in accordance with the provisions of various federal, state, and university regulations, including the Family Educational Rights and Privacy Act of 1974 (FERPA), as amended, also known as the Buckley Amendment. The statutes and regulations also provide certain rights to students concerning their education records.

### FERPA Student Rights

*The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records.*

## FERPA rights include

**The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.**

A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where

the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

### **The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.**

A student who wishes to ask the University to amend a record should write the University official responsible for the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

### **The right to provide written consent before the University discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent.**

FERPA authorizes disclosure without consent in several situations, including but not limited to the following:

- A) The University may disclose education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisor, academic or research, or support staff position; a person or entity with whom the University has contracted as its agent to provide a service instead of using University employees or officials; a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibilities for the University.
- B) Upon request, the University may disclose education records without consent to an official of another school in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.
- C) Directory information (<https://directory.ufl.edu/>) may be released freely unless the student files the appropriate form requesting that certain public information not be released. This form is available in the Office of the University Registrar.

### **The right to file a complaint with the U. S. Department of Education concerning alleged failures by the University of Florida to comply with the requirements of FERPA.**

The name and address of the office that administers FERPA is:

US Department of Education  
Student Privacy Policy Office  
400 Maryland Avenue, SW  
Washington, DC 20202-8520

Release of student record information is generally not permitted at the University of Florida without the express, written consent of the student. There are, however, some important exceptions.

**Directory Information** is defined as the student's name, class and college, local and permanent addresses, listed telephone number, email address, enrollment status, most recent previous educational institution attended, dates of attendance at the University of Florida, majors, minors, certificates, concentrations and degrees earned, nature and place of employment at the University, honors and awards received, publication titles, participation in officially recognized or registered activities and sports, and weight and height of members of athletic teams.

Under FERPA, the university may release directory information without a student's prior consent, unless the student tells the university not to release this information, by placing what is known as a privacy hold. Please note that selecting the "Do not publish" option in the UF directory is not the same as placing a privacy hold under FERPA. In order to place a privacy hold, the student must complete a Request for Restriction of Directory Information (Full Privacy Hold). This form is available by contacting the Office of the University Registrar by phone (352.392.1374) or email ([help@registrar.ufl.edu](mailto:help@registrar.ufl.edu)).

Two important details regarding placing a privacy hold on a student's record:

- The university receives many inquiries for directory information from a variety of sources outside the institution, including friends, parents, relatives, prospective employers, the news media, honor societies, and other members of the public. A privacy hold will preclude the release of such information, even to those people.
- A privacy hold applies to all elements of directory information in a student's student record. The Office of the University Registrar does not apply the privacy hold differentially to the various directory information data elements. A request for a privacy hold will result in all data elements being withheld. Changes made by the online student directory will not be reflected on the student's academic record.

A copy of FERPA, more details (<http://www.registrar.ufl.edu/ferpa.html>) about student rights and any university policies related to the FERPA are available from the Office of the University Registrar. Please refer any questions concerning FERPA to [help@registrar.ufl.edu](mailto:help@registrar.ufl.edu) or 352.392.2244.

## Confidentiality of Student Records

**Directory Information** that can be released to the public is limited to:

- Student name
- Class and college
- Local and permanent addresses
- Listed telephone number
- Email address
- Enrollment status
- Most recent previous educational institution attended
- Dates of attendance at the University of Florida
- Majors
- Minors
- Certificates
- Specializations
- Degree earned
- Nature and place of employment at the university
- Honors and awards received
- Publication titles
- Participation in officially recognized or registered activities and sports
- Weight and height of university athletes

The Office of the University Registrar routinely releases directory information to the public. Directory information may also be released by other university departments and/or employees. Currently enrolled students who want to restrict directory information must contact the Office of the University Registrar (<https://registrar.ufl.edu/contact/>) for assistance.

Student **educational records may be released** without the student's consent to school officials who have a legitimate educational interest in accessing the records. *School officials* shall include:

- An employee, agent or officer of the university or State University System of Florida in an administrative, supervisory, academic, research or support staff position;
- Persons serving on university committees, boards and/or councils; and
- Persons employed by or under contract to the university to perform a special task, such as an attorney or an auditor.

*Legitimate educational interest* shall mean any authorized interest or activity undertaken in the name of the university for which access to an educational record is necessary or appropriate to the operation of the university or to the proper performance of the educational mission of the university.

The university also may disclose information from the student's educational record without their consent to individuals or entities permitted such access under applicable federal and state law.

Students have the right to review their own educational records for information and to determine accuracy. A photo I.D., other equivalent documentation or personal recognition by the custodian of record will be required before access is granted. Parents of dependent students, as defined by the Internal Revenue Service, have these same rights upon presentation of proof of the student's dependent status. Each spring when the catalog is published, students are notified of their FERPA rights.

If a student believes the university has not maintained the confidentiality of their educational record as required by law, they may file a complaint by contacting:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue SW  
Washington, D.C. 20202-5901

---

# Grades and Grading Policies

## Grades

### Grades and Grade Points

The Office of the University Registrar records student grades.

The word *credit* refers to one semester hour, generally representing one hour per week of lecture or two or more hours per week of laboratory work.

### Passing Grades and Grade Points

#### Credit Earned Prior to May 11, 2009 | Summer A

Passing Grade	Grade Points
A	4.0
B+	3.5
B	3.0
C+	2.5
C	2.0
D+	1.5
D	1
S	0

### Passing Grades and Grade Points

#### Credit Earned Effective May 11, 2009 | Summer A

Passing Grade	Grade Points
A	4.0
A-	3.67
B+	3.33
B	3.0
B-	2.67
C+	2.33
C	2.0
C-	1.67
D+	1.33
D	1.0
D-	.67
S	0

*The degree-granting college may require a specific minimum grade in particular courses.*

### Failing Grades and Grade Points

Failing Grade, Zero Grade Points, Counted in GPA	Grade Points
E	0
WF	0
I	0
NG	0

### Non-Punitive Grades and Grade Points

Non-Punitive Grade, Zero Grade Points, Not Counted in GPA	Grade Points
W	0
H	0
I*	0

N*	0
U	0

## Definitions

**E:** Failure

**H:** Deferred grade assigned only in approved sequential courses or flexible learning

**I\* / I:** Incomplete

**N\* / NG:** No grade reported

**S:** Satisfactory

**U:** Unsatisfactory

**W:** Withdrew

**WF:** Withdrew failing

## I\*, N\* and I, NG Grades

I\* or N\* grades recorded on the student record indicate the non-punitive initial-term receipt of an I or NG. A grade of I\* or N\* is not considered a failing grade for the term in which it is received, and it is not computed in the grade point average. However, if the I\* or N\* has not been changed after 150 days, it will be counted as a failing grade and used in computation of a student's grade point average.

For purposes of determining grade point average after the initial receipt of an I\* or N\* grade, the three summer terms are considered collectively as a single term. I\* and N\* grades are not assigned to graduating students; they receive failing grades of I or NG.

An incomplete grade may be assigned at the discretion of the instructor as an interim grade for a course in which the student has completed a major portion of the course with a passing grade, been unable to complete course requirements before the end of the term because of extenuating circumstances, and obtained agreement from the instructor and arranged for resolution of the incomplete grade. Instructors are not required to assign incomplete grades.

**If make-up work requires classroom or laboratory attendance in a subsequent term, students must not register for the course again.** Instead, they should audit the course and pay course fees.

If the make-up work does not require classroom or laboratory attendance, the student and their instructor should decide on an appropriate plan and deadline for completing the course.

When the course is completed, the instructor will initiate the change of grade. **These procedures cannot be used to repeat a course for a different grade.** An I grade should not be assigned to a student who never attended class; instead, instructors should assign a failing grade.

## W and WF Grades

Courses dropped after drop/add and before the withdrawal deadline will be graded W. WF grades are no longer issued by the university, but in previous years they reflect courses dropped after the withdrawal deadline.

More Info (p. 1778)

## Satisfactory/Unsatisfactory Grade Option | S/U

Subject to college degree program and department guidelines, students can take elective coursework and earn grades of S (satisfactory) or U (unsatisfactory). **A grade of S is equal to a C (2.0) or better.** Grades earned under the S/U option do not carry grade point values and are not computed in the University of Florida grade point average. Courses with a grade of S will count as credits earned in a degree program. Such grades are included in the student's permanent academic record and are reflected on the transcript. **After the S/U option is approved, the grade cannot revert to a letter grade.**

*Other academic institutions and agencies may interpret a grade of U as a failing grade.*

If a student chooses the S/U option they must be in good standing and not on university academic probation. To elect the S/U option, students must obtain the approvals indicated on the form. Students can elect the S/U option for one course only each term; this option is in addition to courses that are taught only on an S/U basis. Courses taken to fulfill the general education and the writing requirement cannot be taken S/U.

For fall, spring and summer C terms, the S/U option deadline is Friday of the third week of classes. For summer A and summer B terms, the deadline is Wednesday of the second week of classes.

## H Grades

An H grade, which signifies a deferred grade assignment, is normally assigned at the end of a term when a specific course's class calendar differs from the traditional course calendar. Now that UF flexible learning courses have been incorporated into the student records system, H grades will also be assigned to students who cannot complete their flexible learning course requirements before the end of the traditional grade cycle.

While H grades for traditional courses become punitive at a date determined by the college, H grades for flexible learning coursework generally become punitive 32 weeks after course enrollment. However, any grade of H received by a degree candidate will become punitive (and calculated as a failing grade) at degree certification.

### Grading Policies

## Grade Point Averaging

The term *average* refers to the grade point average (GPA) for work completed in the current or most recent academic program attended at the University of Florida. Grades received at other institutions are NOT averaged with grades received at the University of Florida for the purpose of meeting university GPA requirements. Other agencies and honorary societies will compute averages in accordance with their own standards and policies. Averages are determined by computing the ratio of grade points to semester credits attempted.

## Calculating the Grade Point Average

- Multiply grade value by the number of credits for total grade points.
- Divide the total number of grade points by the number of credits carried. (S/U option grades are not calculated in the GPA.)
- The GPA value is displayed to the hundredths place and not rounded up (i.e., 3.248 = 3.24).

## Dismissal for Insufficient GPA

Just as a sufficient GPA is critical for academic success, an insufficient GPA could lead to dismissal from the university. Students must maintain a minimum GPA based on their cumulative UF credits to avoid dismissal and cancellation of advanced registrations.

More Info (p. 1772)

### Grade Values for Conversion

Grades	Grade Points
A	4.0
A-	3.67
B+	3.33
B	3.0
B-	2.67
C+	2.33
C	2.0
C-	1.67
D+	1.33
D	1.0
D-	.67
E	0
WF	0
I	0
NG	0
S/U	0

To see calculations based upon former grade values, please refer to the 2009-10 undergraduate catalog (<http://www.registrar.ufl.edu/catalog0910/policies/regulationgrades.html>).

## Repeat Coursework

University of Florida coursework that is repeated is counted in the computation of your UF grade point average as many times as grades for that course are recorded, although credits will be awarded only once.

When you earn a C (2.0) or higher in a course, you will not be allowed to repeat that course. Any exceptions to this policy must be made via an approved petition to the student's college.

If you entered UF with credit for Advanced Placement (AP) or International Baccalaureate (IB) courses and you then repeat and pass the equivalent course at UF, you will receive a grade for the UF course and no credit for the prior work.

Grades received at other institutions will not be averaged with grades received at the University of Florida. Repeat coursework taken at the University of Florida will result in calculation of the UF grade in the UF grade point average only, with credit earned only once.

## Outcomes when Repeated Coursework involves Transfer Coursework

### Coursework taken at another institution, then repeated at UF

Only UF grade computed in GPA; credit earned only once.

### Coursework taken at UF, then repeated at another institution

Only UF grade computed in GPA; credit earned only once.

### Coursework taken and repeated at another institution

No grades will be calculated into the UF GPA and credit is awarded only once.

Repeat course equivalencies are identified based on the state's common course taxonomy. Refer to the statewide course numbering system (p. 1811) for the definition of course equivalencies.

Colleges may not accept grade points and credits earned from lower-level courses if they are taken after the student has received credit/grades for advanced courses or exam credit in the same field.

## Grade Changes

Grade changes will be accepted and processed by the Office of the University Registrar for one calendar year after the term in which the course was attempted.

Any grade changes submitted after the deadline must be accompanied by additional supporting information or documentation justifying the extension and submitted to the appropriate college dean. If the dean approves the exception, they will forward an authorized grade change form to the Office of the University Registrar.

One calendar year is specified as the published grades due date of the same semester in the following year.

This policy does not apply to grades of I or I\*, which designate a grade of incomplete.

---

## Registration Policies

### Course Load Requirements

The minimum full-time load for undergraduate students is 12 credits, including summer term. Postbaccalaureate students are considered undergraduates.

*Students with disabilities may be eligible for a reduced course load accommodation. This accommodation allows students full-time status at 11 credits or below.*

Any questions regarding enrollment requirements for specific purposes, such as insurance or veterans' benefits should contact the relevant entity. Students receiving financial aid should refer to Financial Aid's enrollment requirements for complete information.

More Info (<http://www.sfa.ufl.edu/receiving/enrollment-requirements/>)

University regulations allow a maximum load of 18 credits. Some colleges have differing maximum loads; refer to the college sections for specific information.

With college approval you may register for less than the minimum or more than the maximum load. After drop/add, you cannot drop below the minimum load without successfully petitioning your college dean.

Simultaneous enrollment in flexible learning courses or extension work at another college or university is counted when computing the maximum course load but not the minimum course load.

### Non-Degree Registration

Non-degree enrollment is restricted to participants in special programs, off-campus programs, online course offerings, university-affiliated exchange programs, and high school/college dual-credit enrollment. Special regulations govern high school/college dual enrollment for academically advanced students in Florida high schools. Non-degree enrollment is generally limited to the summer terms.

More Info (<https://registrar.ufl.edu/registration/visiting-students/non-degree/>)

Undergraduate students who have been denied admission to UF for any term are not eligible for non-degree registration. If a student previously attended UF in a degree-seeking status and did not subsequently earn a bachelor's degree, they are not eligible for non-degree registration.

Non-degree enrollment is subject to the availability of faculty, space, and facilities. No application for admission is required.

## UF Students Attending Other Schools

Normally, UF students are not permitted to register at another institution for a course or its equivalent that is offered at UF.

More Info (<https://registrar.ufl.edu/registration/visiting-students.html>)

## Visiting Students Attending UF

Undergraduate students in good standing at another accredited collegiate institution can enroll full time at UF as non-degree transient students on a space-available basis to complete work to transfer back to the parent institution.

More Info (<https://registrar.ufl.edu/registration/visiting-students.html>)

UF will not evaluate work previously completed, and it is the student's responsibility to secure approvals required by the parent institution. Certification to Social Security and Veterans Administration programs also is the responsibility of the student, who must request each institution furnish records.

Non-degree students are subject to the following restrictions:

- Non-degree students must meet State of Florida immunization requirements.
- Course enrollment requires the approval of the college at the beginning of each term. The college of enrollment has the authority to terminate a non-degree enrollment before registration for any term. Generally, non-degree registration is for one term only. Standard non-degree seeking students must apply for each term they wish to enroll in courses as a non-degree student.
- Registration is not permitted until the last three days of the Fall/Spring drop/add period and must be completed by the end of drop/add; failure to register by that deadline will result in a late registration fee.
- Registration is not permitted until the first day of the Summer drop/add period and must be completed by the end of drop/add; failure to register by that deadline will result in a late registration fee.
- The same grading system is applicable to degree and non-degree students. Non-degree credit may be applicable to a UF degree upon subsequent admission to degree status and determination of appropriate application of such credit in the student's degree program. Authorization to enroll as a non-degree student in no way implies future approval for admission as a degree-seeking student.
- Non-degree enrollment status will be denied to any student under suspension or dismissal from a postsecondary institution or not in good standing at any institution previously enrolled, including UF, even if the student has subsequently attended another institution. Non-degree students are subject to other regulations and restrictions imposed by the college or department in which they wish to enroll.
- Non-degree students taking courses at the university will be required to register for and to attend classes under the university calendar. Non-degree students must pay appropriate UF fees based on course level, number of credits and residency status.

## Auditing Courses

Auditing a course is approved on a space-available basis. In addition to paying tuition and fees, the student must obtain approvals from both the instructor and dean of the college offering the course. Immunizations also are required, regardless of on-campus or online offering status.

More Info (<https://registrar.ufl.edu/registration/audit/>)

Audited courses are reflected on the academic transcript with a grade value of AUD.

Students auditing a course to complete course requirements should refer to Grades and Grading Policies.

More Info (p. 1789)

## Transfer Credit

Credit is awarded for college-level coursework completed at a U.S. institution of higher education accredited by one of the following institutional accreditors or its equivalent from a foreign institution:

- Western Association of Schools and Colleges, Accrediting Commission for Community and Junior Colleges (ACCJC)
- New England Commission of Higher Education (NECHE)
- Higher Learning Commission (HLC)
- Middle States Commission on Higher Education (MSCHE)
- Northwest Commission on Colleges and Universities (NWCCU)
- Southern Association of Colleges and Schools Commission on Colleges (SACSCOC)
- WASC Senior College and University Commission

Courses must be similar in nature and content to courses in the UF undergraduate curriculum to be transferred. Courses that are remedial, technical, vocational, or doctrinal in nature are not transferable to an undergraduate degree. It is the prerogative of the student's UF college to determine how transfer credits apply to a degree. Students should expect to receive 60 transfer credits with an AA degree from a Florida public community/state college.

Junior/senior-level (courses numbered 3000-4000) course requirements for the major must be completed at UF or, with permission of the student's UF college, at another accredited baccalaureate degree-granting institution. Refer to Residence Requirements for additional policy regarding graduation requirements.

More Info (p. 1777)

Students are required to submit final official transcripts from all institutions attended before or during their enrollment at UF.

*Failure to declare attendance at another institution can invalidate admission to UF and any credits or degrees earned.*

---

## Student Classifications

Classification	Explanation
Non-degree	Special transient students, qualified high school students, students seeking only a certificate, and other non-degree students permitted to register at UF
Freshman	Students with fewer than 30 credits earned
Sophomore	Students who have earned 30 credits and who have fewer than 60 credits
Junior	Students who have earned 60 credits and have fewer than 90 credits
Senior	Students who have earned 90 credits or more
Fifth Year	Students who have earned 120 credits or more and who are candidates for a degree in a program that normally requires 10 semesters
Post-Bac Undergraduate	Degree-holding students who have been admitted to postbaccalaureate status
Graduate-7	Graduate students seeking a first master's degree
Graduate-8	Graduate students who have earned a master's degree, or who have earned 36 or more credits while seeking a graduate degree, who have not been admitted to doctoral candidacy
Graduate-9	Graduate students who have been admitted to doctoral candidacy

---

## Transcript Policies

The Office of the University Registrar maintains all students' academic records. At the end of each term of enrollment, students can view their grades, cumulative credits earned, grade points, probationary status and degrees earned, if any, on ONE.UF.

More Info (<https://one.uf.edu/>)

The University of Florida transcript is the comprehensive record of courses taken at UF, credit earned by examination, university-level honors, certifications and certificates, and degrees awarded. The student's legal name will appear on the transcript as it appears on their university record.

Transcripts can be ordered online on ONE.UF. Payment must accompany each transcript order; transcripts cannot be ordered by telephone, mail, fax, or email. Current and former students will need a valid GatorLink account (with an active username and password) to order an official transcript or to view and print an unofficial copy of their UF transcripts on ONE.UF. The unofficial copy of the UF transcript may not be accepted by other institutions or potential employers.

More Info (<https://one.uf.edu/>)

The university maintains the right to withhold release of a transcript if a student has an outstanding financial obligation to the university. To reflect a complete academic record for undergraduate, graduate, and professional students, the university will issue complete transcripts only. Transcripts do not differentiate between degrees or courses taken in a classroom or online format.

---

## Dates and Deadlines

All deadlines are effective at **11:59 p.m.** on the last date unless indicated otherwise. If submitting a form to the Office of the University Registrar, use the Secure Upload Portal.

More Info (<https://registrar.ufl.edu/forms/>)

*All dates and deadlines may be subject to change.*

# Student Life

## Student Services

### Division of Student Life

The University of Florida Division of Student Life cultivates a comprehensively excellent student experience that prepares Gators to engage, transform, and thrive in an evolving global community.

The Office of the Vice President for Student Life, located in 135 Tigert Hall, has administrative responsibility for:

- Career Resource Center
- Center for Inclusion & Multicultural Engagement
- Center for New Student & Family Programs
- Counseling and Wellness Center
- David and Wanda Brown Center for Leadership & Service
- Dean of Students Office
- Disability Resource Center
- GatorWell Health Promotion Services
- Housing and Residence Life
- J. Wayne Reitz Union
- Machen Florida Opportunity Scholars Program
- Off Campus Life
- Recreational Sports
- Student Activities & Involvement
- Student Government Advising & Operations
- Sorority & Fraternity Life
- Student Legal Services

More Info (<http://www.ufsa.ufl.edu/>) Map (<http://campusmap.ufl.edu/?loc=0026>)

## Campus Facilities

### Newell Hall

Originally built in 1909, Newell Hall is the 3rd oldest building on campus. The facility was renovated to create a state-of-the-art active learning environment for both undergraduate and graduate students. It provides a high-tech, collaborative environment with open plan study rooms to foster a creative environment focused on innovation, flexibility, and accessibility.

Map (<http://campusmap.ufl.edu/?loc=0013>)

### Reitz Student Union

The Reitz Union is the University of Florida's student union. The Reitz Union offers programs and services that create a unique Gator student experience. The facility is home to the Arts & Crafts Center, Game Room, hotel, art gallery, Office of Event Services. It is also home to the Brown Center for Leadership & Service, the Career Connections Center, the Center for Inclusion & Multicultural Engagement, GatorWell Health Promotion Services, Machen Florida Opportunity Scholars, Student Activities and Involvement, Sorority & Fraternity Life, Student Government, Student Legal Services, UF Bookstore, Reitz Union Barbershop, Wells Fargo, SG Bike Repair, study spaces, meeting rooms, dance studios, lounge spaces and more.

More Info (<https://union.ufl.edu/>) Map (<http://campusmap.ufl.edu/?loc=0686>)

### Ben Hill Griffin Stadium

Ben Hill Griffin Stadium, or *The Swamp*, is widely recognized as one of the toughest environments for a visiting team in all of college football. Several facelifts after the stadium's original construction in 1930 have made Florida Field at Ben Hill Griffin Stadium a state-of-the-art facility. *The Swamp* is the largest stadium in the state of Florida.

More Info (<https://floridagators.com/facilities/?id=1>) Map (<http://campusmap.ufl.edu/?loc=0157>)

### Florida Museum of Natural History

The Florida Museum of Natural History is the largest natural history/anthropology museum in the Southeast and one of the top 10 in the nation. Its research collections contain nearly 6.5 million specimens.

More Info (<http://www.flmnh.ufl.edu/>) Map (<http://campusmap.ufl.edu/?loc=0181>)

### Harn Museum of Art

The Samuel P. Harn Museum of Art, with 18,000 square feet of exhibit space, is one of the largest museums in the Southeast. The Curtis M. Phillips Center for the Performing Arts attracts world-class symphony orchestras, Broadway plays, operas, and large-scale ballet productions to Gainesville.

More Info (<http://harn.ufl.edu/>) Map (<http://campusmap.ufl.edu/?loc=0309>)

### O'Connell Center

The Stephen C. O'Connell Center covers three acres and is used by the university for classes, intercollegiate sports, general recreation, and a variety of other entertainment events. An Olympic-sized swimming pool, dance studio, gymnastics studio, martial arts room, free style weight room, Nautilus center, track, badminton, volleyball courts, and practice basketball court are located in and around the perimeter of the 12,000-seat main arena.

The versatility of this facility permits as many as eight recreational activities to be conducted simultaneously. All recreational, educational and entertainment facilities within the O'Connell Center have been designed to accommodate persons with disabilities.

More Info (<http://oconnellcenter.ufl.edu/>) Map (<http://campusmap.ufl.edu/?loc=0094>)

## Campus Safety and Security

**Contact:** Email ([wbarber@ufl.edu?Subject=Campus%20Safety%20and%20Security](mailto:wbarber@ufl.edu?Subject=Campus%20Safety%20and%20Security)) | 352.273.3309

The University of Florida is one of the largest institutions of higher education in the nation. The university community is not unlike many other municipalities, and as such, has the same safety and security concerns as Anytown, USA.

The University of Florida Police Department (UFPD) recognizes that it must maintain the safest and most secure environment possible for all students, faculty and staff, and campus visitors. The UFPD has the utmost concern for personal and property safety, but with an open campus environment, safety becomes a shared responsibility.

The UFPD is a state of Florida and nationally accredited law enforcement agency. There are more than 90 fully certified and sworn officers who patrol the UF campus and its surrounding properties 24 hours per day, every day. The department has its own Criminal Investigations Division employing highly trained detectives to investigate any reported crime on campus. The officers of the Uniformed Patrol Division are highly trained campus law enforcement professionals who are equipped with the most contemporary crime-fighting techniques and tools. The Community Services Division is proactive in providing everyone in the campus community with the very latest information regarding personal and property protection through classes, programs and documents.

More Info (<http://www.police.ufl.edu/>) Map (<http://campusmap.ufl.edu/?loc=0027>)

## Career Connections Center

The Career Connections Center (C3) is the University of Florida's comprehensive career services operation responsible for providing world class career and professional development for all students. As the # 2 Career Center in the country according to Best Colleges, the C3 prepares students for

contributions in work, citizenship, and life. The center supports the overall student experience starting during student orientation and moving beyond graduation.

The C3's mission is to educate and create connections for the University of Florida community to facilitate the holistic career development of students. The center provides a variety of services, tools, networks, and events for UF students and alumni. Whether exploring career options, developing professional skills, finding meaningful experience, or preparing for life after graduation, the C3 is there to help students on their unique journey. Through the university's Career Pathways initiative, students can access customized information, connections, and programs to personalize their professional development experience and community.

The Career Connections Center is a UF tradition. We recommend that UF students engage early and often with the Career Connections Center to enhance their University of Florida experience and post-graduation success.

More Info (<https://career.ufl.edu/>) Map (<http://campusmap.ufl.edu/?loc=0686>)

### **Visit the Career Connections Center to:**

- Assess skills and interests to help select a major
- Explore various career options
- Secure internships and other work experience before graduating
- Conduct mock interviews
- Prepare for graduate school
- Start a full-time job search
- Create a Gator CareerLink to find internships and full-time positions

More Info (<https://career.ufl.edu/>)

## **Counseling and Wellness Center**

As the primary provider of mental health services on campus, the Counseling and Wellness Center (CWC) offers high quality counseling care, including brief consultation assessments, commonly referred as triage, and on-call counseling services by CWC's Consultation and Referral Team (CART). The CWC's CART team is located on the 4<sup>th</sup> floor of Peabody Hall, right in the heart of campus.

At CWC's second location at 3190 Radio Road, our clinical team provides group counseling, limited individual counseling, workshops, training, case management, and outreach and consultation services. CWC's Outreach and Consultation program offers a wide range of developmental, supportive, and preventative services to UF students that include the Gator-2-Gator the AWARE Ambassadors and the peer support Gator-2-Gator programs.

CWC services are available to all currently enrolled undergraduate and graduate students and their spouses/partners who have paid the health fee. All the Center's programs and services are designed to help students develop the personal awareness and skills necessary to take advantage of the educational opportunities at the university.

More Info (<http://www.counseling.ufl.edu/cwc/>) Map (<http://campusmap.ufl.edu/?loc=0081>)

## **Dean of Students**

The Dean of Students Office in 202 Peabody Hall provides programs and services to support students' academic success and personal development.

More Info (<http://www.dso.ufl.edu/>) Map (<http://campusmap.ufl.edu/?loc=0004>)

## **U Matter, We Care**

At UF, every Gator counts. U Matter, We Care serves as UF's umbrella program for UF's caring culture and provides students in distress with support and coordination of the wide variety of appropriate resources. Families, faculty, and students can contact U Matter, We Care seven days a week for assistance for students in distress.

Email ([umatter@ufl.edu](mailto:umatter@ufl.edu))

## **Emergency Response**

Coordinates the university's response to student emergencies and crises. Assistance for students in distress is available 7 days a week.

## **New Student and Family Programs**

Organizes first-year experience and new student programs including new student orientation.

## **Student Conduct and Conflict Resolution**

Administers the university's student conduct code and academic honesty guidelines.

## **Medical Withdrawals**

Conducts the petitions process for students who withdraw from the university for medical reasons.

### Collegiate Veterans Success Center

As a Veteran Friendly Campus, it is important to provide a place for student veterans where veterans can meet, study, and spend time in a safe and relaxing environment. Ranked among the top centers for veterans in the country, the veteran's success center looks to provide ongoing support for those who have served in our armed forces.

### Disability Resource Center

The Disability Resource Center (DRC) in the Dean of Students Office utilizes knowledge and expertise in the fields of disability and higher education to create an inclusive environment by:

- Acting as a resource for students with physical, learning, sensory, or psychological disabilities;
- Facilitating and providing support for reasonable accommodations for students in order to afford equal access to academic courses, programs, and activities;
- Providing services to address the impact of disabilities on student performance and success in and out of the classroom;
- Empowering students to articulate their strengths and advocate for their accommodations;
- Creating opportunities to educate the campus community on disability laws, trends, universal design, programs, and services.

The DRC serves more than 2,300 registered students through classroom accommodations, support groups, a testing center that proctors 10,000 tests annually, and one-to-one skills coaching. DRC staff are available to provide individual strategy sessions and consultation with students, faculty, and families. Email or call to schedule an appointment.

**Contact:** Email ([DRCaccessuf@ufsa.ufl.edu](mailto:DRCaccessuf@ufsa.ufl.edu)) | 352.392.8565

More Info (<https://disability.ufl.edu/>) Map (<http://campusmap.ufl.edu/?loc=0020>)

### Florida Fresh Dining

Florida Fresh Dining at the University of Florida is the official food service provider for the university and offers several meal plans (<https://dineoncampus.com/UF/meal-plan-options/>).

More Info (<https://dineoncampus.com/uf/>)

### GatorLink | Gator 1 Card | UFID

#### GatorLink

GatorLink establishes a unique computer identity for every student. The GatorLink account provides access to all online services and creates the UF "username@ufl.edu" email address.

More Info (<http://helpdesk.ufl.edu/self-help/new-gator-resources/gatorlink/>)

*All students must maintain and regularly check their GatorLink email as this is where all official university communications are sent.*

#### Gator 1 Card

The Gator 1 card is the official university photo ID. The ID Card Services office is located on the ground floor of the UF Bookstore and Welcome Center complex on Museum Road.

More Info ([http://www.gator1card.ufl.edu/Gator1C\\_info.asp](http://www.gator1card.ufl.edu/Gator1C_info.asp))

All enrolled students, faculty and staff must have this card to:

- Enter CIRCA computer labs, university libraries, the infirmary, recreation centers.
- Sign up for intramural sports activities.
- Participate in the textbook deferment program at the UF Bookstore.
- Purchase tickets to university events.
- Vote in student government elections.
- Purchase food on campus with a Gator Dining or prepaid vending account.
- Use laundry facilities in some residence halls.
- Use as an ATM/debit card when activated through Wells Fargo Bank.

More Info (<https://www.wellsfargo.com/student/banking/campuscard/>)

#### UFID

UFID is an eight-digit number that serves as the primary identifier for all university records and transactions. Like a social security number, no two people will have the same number, and each person has only one. The UFID is assigned by the university, not chosen like a PIN. All students, faculty and staff have UFIDs, and the number is printed on the Gator 1 card.

More Info (<http://identity.it.ufl.edu/process/uf-identifier/>)

## Housing and Residence Education

Welcome to #WhereGatorsLive at the University of Florida. On-campus living means students are in on all the action and seconds away from everything as they get involved, build the path to their successful future, and make connections that will last a lifetime. UF Housing offers 26 different residence halls for undergraduate students and 6 different villages for graduate students and their families. Explore the options.

More Info (<http://www.housing.ufl.edu/>) Map (<http://campusmap.ufl.edu/?loc=0753>)

### Beginning Freshmen

Freshmen entering the university will be offered a housing agreement based on the term they were admitted. Residence hall contracts are available for the academic year (Summer B/Fall/Spring, Fall/Spring, Spring/Summer, and the Summer terms).

Applying for campus housing does not guarantee an offer of residence hall space. If space is available, admitted students will receive an email link to the online residence hall contract process. To secure campus housing, the student must complete a contract, sign it, and submit the advance rent payment by the deadline.

- Residence Halls (<https://www.housing.ufl.edu/housing/>)
- Apply for Housing (<http://www.housing.ufl.edu/apply/>)
- Transfer Student Information (<https://housing.ufl.edu/living-options/apply/incoming-students/>)
- Villages (<https://housing.ufl.edu/living-options/?housing-type=family-housing>)
- Off-campus Housing Information (<http://www.offcampus.ufl.edu/>)

## Student Financial Aid and Scholarships

The Office of Student Financial Aid and Scholarships (SFA) in S107 Criser Hall administers financial aid programs. SFA awards aid according to financial need.

More Info (<http://www.sfa.ufl.edu/>)

### Financial Aid

Financial aid is money provided to students and their families as gift aid (scholarships, grants) or self-help programs (loans and/or work) to help pay college costs. Financial aid can be awarded singly (one type of aid) or as a package.

More Info (<http://www.sfa.ufl.edu/programs/>)

### Grants

Grants are awarded based on financial need. The largest grant program at UF is the Federal Pell Grant. Other grants include Federal Supplemental Educational Opportunity Grants, Teacher Education Assistance for College and Higher Education (TEACH) Grant, Florida Student Assistance Grants, UF Excellence Grant, UF Undergraduate Grant and UF Graduate Grants.

More Info (<http://www.sfa.ufl.edu/programs/grants/>)

### Scholarships

Scholarships are awarded based on academic performance and /or financial need. Most scholarships are awarded through the SFA and individual UF colleges. SFA administers a limited number of scholarships from private donors.

More Info (<http://www.sfa.ufl.edu/programs/scholarships/>)

### Student Employment

Federal Work-Study jobs may be awarded by SFA to students with demonstrated financial need as part of an aid package. Other job programs, such as OPS employment, do not require financial need and are open to any student with the desire to work who meets the basic criteria of half-time enrollment and a 2.0 GPA. Student jobs usually are 15-20 hours a week and pay at least minimum wage.

More Info (<http://www.sfa.ufl.edu/programs/employment/>)

### Loans

Loan programs include Federal Direct loans, Federal Direct Unsubsidized loans, Federal Direct PLUS loans, and UF institutional loans. These programs offer long-term, low-interest loans that must be repaid when the borrower graduates, withdraws, or drops to less than half-time enrollment. Parents of dependent undergraduate students can take out educational loans through the Federal Direct PLUS loan program.

More Info (<http://www.sfa.ufl.edu/programs/loans/>)

### When to Apply

The Free Application for Federal Student Aid (FAFSA) is available October 1 each year. Although SFA cannot award financial aid until students have been admitted to UF, they should apply for aid as soon as possible on or after October 1.

- How to Apply for Financial Aid (<http://www.sfa.ufl.edu/applying/>)
- Enrollment Requirements for Financial Aid (<http://www.sfa.ufl.edu/receiving/enrollment-requirements/>)
- How to Apply for Student Employment (<http://www.sfa.ufl.edu/programs/employment/>)

## Financial Aid Academic Progress Requirements

UF students receiving financial aid are required to be in good standing and to maintain satisfactory academic progress.

More Info (<http://www.sfa.ufl.edu/additional/academic-progress/>)

## Recreational Sports

With an active student body and an abundance of Florida sunshine, recreation is a big part of life on campus. The university offers more than 60 intramural and club sports, personal training, a midnight fun run, a lake and one of the best fitness facilities in the country. So, no matter a student's interest or skill level, there's always a great way to get involved with other Gators.

RecSports offers experiences that enrich the lives of University of Florida students through excellence in facilities, fitness, sport, adventure, and play. RecSports is committed to fostering leaders, encouraging lifelong healthy lifestyles and maintaining welcoming and safe environments, including student activities and programs, campus recreation facilities, aquatics, Lake Wauburg and more.

More Info (<http://www.recsports.ufl.edu/>) Locations (<http://recsports.ufl.edu/locations/>)

## Student Health Care Center

More Info (<http://shcc.ufl.edu/>) Map (<http://campusmap.ufl.edu/?loc=0018>)

### General Information and Helpful Links

*Appointments, Hours and Locations, Excuse Notes, Fees for Services, and more.*

The Student Health Care Center (SHCC), established in 1906, is an accredited outpatient clinic staffed by licensed, board-certified medical providers who pride themselves on keeping UF's students, faculty, and staff healthy through a variety of primary and specialty care services, including general medical care, immunizations, dermatology, massage therapy, nutrition, occupational medicine, physical therapy, sports medicine, travel, women's health and workers compensation. The SHCC also conducts the annual campus flu shot campaign.

More Info (<http://shcc.ufl.edu/services/primary-care/flu/>)

All registered UF students paying the tuition-included health fee may access SHCC services. If a student takes time off (for example, no summer classes), they must pay the per-semester optional health fee to receive care, which covers the costs associated with most SHCC office visits but is not considered health insurance. Items not covered by the health fee that patients are financially responsible for include, but are not limited to, health insurance, hospital visits, external community providers/facilities, physicals, procedures, X-rays, lab tests, medical equipment, prescriptions, non-prescription medications, vaccinations, massage, and physical therapy.

In addition to university-sponsored insurance plans, the SHCC can direct-bill many private insurance companies for covered medical charges. Visit the SHCC's Health Insurance Options for more information on private insurance usage and verification, as well as current university-sponsored insurance details.

More Info (<http://shcc.ufl.edu/fees-and-insurance/health-insurance-options/>)

## UF Bookstore and Welcome Center

### Bookstore

The University of Florida Bookstores are in the UF Welcome Center on Museum Road just next to the student union, in the Health Science Center and in the College of Veterinary Medicine. UF Bookstores offer new and used textbooks, school supplies, gifts, and clothing. Bookstore programs include textbook reservations and a 50% guaranteed book buyback.

More Info (<http://www.bsd.ufl.edu/bookstore/>) Map (<http://campusmap.ufl.edu/?loc=0886>)

### Welcome Center

The UF Welcome Center is within the main UF Bookstore next to the Reitz Union. The Welcome Center is maintained by the Office of Admissions and is the university's front door to visitors, providing weekday and Saturday information sessions and walking tours of campus.

More Info (<http://www.admissions.ufl.edu/visit.html>)

---

## Courses

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

About Courses

Statewide Course Numbering System

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida’s Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and 27 participating non-public institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions. More Info (<https://flscns.fldoe.org/>)

Each participating institution controls the title, credit and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated numbers is referred to as the *SCNS taxonomy*. Descriptions of the content of courses are referred to as *statewide course profiles*.

Example of Course Identifier

Prefix	Level Code (1st digit)	Century Digit (2nd digit)	Decade Digit (3rd digit)	Unit Digit (4th digit)	Lab Code
ENC	1	1	0	1	
English Composition	Lower (Freshman) Level at this institution	Freshman Composition	Freshman Composition Skills	Freshman Composition Skills 1	No laboratory component in this course

## General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and the same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in *Exceptions to the General Rule for Equivalency*.

For example, a freshman composition skills course is offered by 59 different postsecondary institutions. Each institution uses ENC\_101 to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, ENC means English Composition, the century digit 1 represents Freshman Composition, the decade digit 0 represents Freshman Composition Skills and the unit digit 1 represents Freshman Composition Skills 1.

In the sciences and certain other areas, a C or L after the course number is known as a lab indicator. The C represents a combined lecture and laboratory course that meets in the same place at the same time. The L represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at the community college is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101.

Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent.

*Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter credits often transfers as 2.67 semester credits.*

## About the Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

## Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states: Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions.

Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions and participating non-public postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or non-public control of the previous institution.

The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

## Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

- Courses not offered by the receiving institution
- For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question
- Courses in the \_900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses and Dissertations.
- College preparatory and vocational preparatory courses
- Graduate courses
- Internships, apprenticeships, practica, clinical experiences and study abroad courses with numbers other than those ranging from 900-999.

- Applied courses in the performing arts (Art, Dance, Interior Design, Music and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

## Courses at Non-regionally Accredited Institutions

The SCNS makes available on its home page (in the Latest News box) a report entitled Courses at Non-regionally Accredited Institutions that contains a comprehensive listing of all non-public institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly.

More Info (<https://flscns.fldoe.org/>)

For questions about the SCNS and appeals regarding course credit transfer decisions should be directed to the Office of Admissions in S107L Criser Hall or,

## School Information

Accounting at UF traces its roots back to 1923 when the first accounting course was offered. Today, as one of the nation's few free-standing accounting schools, the Fisher School of Accounting has cultivated a distinctive identity at the University of Florida and among the nation's top business programs.

**Grading Scheme:** Letter Grade

Contemporary study of development issues in Africa, their challenges and possible solutions; theme based and includes economic development, agriculture and the environment, social issues and gender equality, and democracy and political development.

**AFS 3352 Culture, Health and Arts in Sub-Saharan Africa 3 Credits**

**Grading Scheme:** Letter Grade

Explores Sub-Saharan African cultures, health issues and belief systems related to health and the arts. Also provides a framework to better understand health and health care systems in other cultures.

**Prerequisite:** junior standing or 6 credits minimum from AFH 2000 or AFS 2002 or AFS 4905 or AFS 4935 or HUM 2420 or HUM 2424.

**AFS 3800 Childhood in African Literature and Cinema 3 Credits**

**Grading Scheme:** Letter Grade

Explores African conceptions of childhood through the mediums of literature and film; examines how childhood is represented in diverse African cultures.

**AFS 3930 Special Topics in African Studies 3 Credits**

**Grading Scheme:** Letter Grade

Selected variable topics in African Studies.

**Prerequisite:** Junior standing or higher or AFS 2002 with minimum grade of C.

**AFS 4240 The African Family 3 Credits**

**Grading Scheme:** Letter Grade

Understanding African societies south of the Sahara through the study of the functions, roles and meanings of households and families. Emphasizes diversity within and commonalities among the myriad forms of African families.

**AFS 4315 Critical Issues in Contemporary Africa 3 Credits**

**Grading Scheme:** Letter Grade

Upper-division seminar that discusses perspectives on conflict resolution, corruption, economic development, environmental management, food security, governance, international assistance and public health in contemporary Africa. In addition, enhances skills in analysis, discussion and debate.

**AFS 4330 Women and Politics in Africa 3 Credits**

**Grading Scheme:** Letter Grade

Introduces historical and contemporary roles of women in African political systems, from local to national governance.

**AFS 4340 Community Conservation and Rural Development in Africa 3 Credits**

**Grading Scheme:** Letter Grade

Examines the practicalities and theoretical foundations of community conservation in Africa, with particular attention to the relationship between conservation and rural development issues. Main themes include property rights, governance and local-global relations.

**AFS 4345 Political Economy of Conservation in Africa 3 Credits**

**Grading Scheme:** Letter Grade

Analyzes effectiveness of diverse approaches to natural resource preservation and uses. Case studies are primarily from southern and eastern Africa and readings focus on political and economic aspects of conservation strategies.

**AFS 4365 Urban Africa Today 3 Credits**

**Grading Scheme:** Letter Grade

Interdisciplinary seminar incorporates scholarship from anthropology, geography, history, political science, sociology, and urban planning to understand African cities, their rapid growth, and their future development.

**Prerequisite:** junior standing or 6 credits minimum from AFS 2002 or AFS 3300 or AFS 4260 or AFS 4315 or AFS 4330 or AFS 4350 or AFS 4935.

**AFS 4905 Individual Work 1-9 Credits**

**Grading Scheme:** Letter Grade

Individual study and research for topics not covered in other courses.

**AFS 4911 Undergraduate Research in African Studies 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

**AFS 4935 African Studies Interdisciplinary Seminar 3 Credits**

**Grading Scheme:** Letter Grade

Seminar on a selected interdisciplinary theme.

**Prerequisite:** junior or senior standing, or instructor permission.

**AFS 4940 African Studies Internship 1-3 Credits**

**Grading Scheme:** S/U

Complements an Africa-related internship experience through guided reflection, critical analysis, synthesis, and discussion.

**Prerequisite:** junior standing or higher and undergraduate coordinator approval.

**AHM 1130 Beginning Amharic 1 5 Credits**

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading, and writing.

**AHM 1131 Beginning Amharic 2 5 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** AHM 1130 with minimum grade of C, or the equivalent.

**AHM 2200 Intermed Amharic 1 3 Credits**

**Grading Scheme:** Letter Grade

Intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** AHM 1131 with minimum grade of C, or the equivalent.

**AHM 2201 Intermediate Amharic 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of intermediate study.

**Prerequisite:** AHM 2200 with minimum grade of C, or the equivalent.

**AHM 3410 Advanced Amharic 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures.

**Prerequisite:** AHM 2201 with minimum grade of C, or the equivalent.

**AHM 3411 Advanced Amharic 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study.

**Prerequisite:** AHM 3410 with minimum grade of C or the equivalent.

**AKA 1130 Beginning Akan 1 5 Credits**

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading and writing.

**AKA 1131 Beginning Akan 2 5 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** AKA 1130 with minimum grade of C or the equivalent.

**AKA 2200 Intermediate Akan 1 3 Credits**

**Grading Scheme:** Letter Grade

Intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** AKA 1131 with minimum grade of C, or the equivalent.

**AKA 2201 Intermediate Akan 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of intermediate study.

**Prerequisite:** AKA 2200 with minimum grade of C, or the equivalent.

**AKA 3410 Advanced Akan 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures.

**Prerequisite:** AKA 2201 with minimum grade of C, or the equivalent.

**AKA 3411 Advanced Akan 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study.

**Prerequisite:** AKA 3410 with minimum grade of C, or the equivalent.

**ARA 1130 Beginning Arabic 1 5 Credits**

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading, and writing.

**ARA 1131 Beginning Arabic 2 5 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** ARA 1130 with minimum grade of C or the equivalent.

**ARA 2220 Intermediate Arabic 1 4 Credits**

**Grading Scheme:** Letter Grade

Continuation of the study of standard Arabic language. Develops reading, writing, listening and speaking skills and helps with comprehension of written and audio texts. Students can use their knowledge of the Arabic language to clearly express their personal views in a meaningful and well-structured language.

**Prerequisite:** ARA 1131 with minimum grade of C or the equivalent.

**ARA 2221 Intermediate Arabic 2 4 Credits**

**Grading Scheme:** Letter Grade

Continues the study of Arabic language at the intermediate level. Emphasizes developing reading comprehension, writing, listening and speaking, and vocabulary and grammar.

**Prerequisite:** ARA 1131 with minimum grade of C or the equivalent.

**ARA 3410 Advanced Arabic 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures.

**Prerequisite:** ARA 2221 with minimum grade of C or the equivalent.

**ARA 3411 Advanced Arabic 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study.

**Prerequisite:** ARA 3410 with minimum grade of C or the equivalent.

**HUM 2420 African Humanities 3 Credits**

**Grading Scheme:** Letter Grade

A general education course similar in philosophy and purpose to the basic sequence. Content selected from the philosophies, literature, arts and music of various African countries and regions. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**HUM 2424 African Cultures and Literatures 3 Credits**

**Grading Scheme:** Letter Grade

A culturally based study of folktales, proverbs, drama, poetry and novels; and how these forms are used to portray African arts and ideas. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**SSA 3730 Language in African Society 3 Credits**

**Grading Scheme:** Letter Grade

The role of language in the development of African societies. Language and nation building. (S and N)

**Attributes:** General Education - International, General Education - Social Science

**SSA 4930 Special Topics in African Studies 3 Credits**

**Grading Scheme:** Letter Grade

Variable topics dealing with specific issues in African studies.

**SST 2501 African Elements in the Americas 3 Credits**

**Grading Scheme:** Letter Grade

Traces African influence in the Americas from the arrival of Africans on the continent until the present.

**SWA 1130 Beginning Swahili 1 5 Credits**

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading and writing.

**SWA 1131 Beginning Swahili 2 5 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** SWA 1130 with minimum grade of C, or S, or the equivalent.

**SWA 2200 Intermediate Swahili 1 3 Credits**

**Grading Scheme:** Letter Grade

Intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** SWA 1131 with minimum grade of C or S, or the equivalent.

**SWA 2201 Intermediate Swahili 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** SWA 2200 with minimum grade of C or S, or the equivalent.

**SWA 3410 Advanced Swahili 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures.

**Prerequisite:** SWA 2201 with minimum grade of C, or the equivalent.

**SWA 3411 Advanced Swahili 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study of the four skills with attention to more complex structures.

**Prerequisite:** SWA 3410 with minimum grade of C, or S, or the equivalent.

**WOL 1130 Beginning Wolof 1 5 Credits**

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading and writing.

**WOL 1131 Beginning Wolof 2 5 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** WOL 1130 with minimum grade of C, or the equivalent.

**WOL 2200 Intermediate Wolof 1 3 Credits**

**Grading Scheme:** Letter Grade

Intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** WOL 1131 with minimum grade of C, or the equivalent.

**WOL 2201 Intermediate Wolof 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of intermediate study.

**Prerequisite:** WOL 2200 with minimum grade of C, or the equivalent.

**WOL 3410 Advanced Wolof 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures.

**Prerequisite:** WOL 2201 with minimum grade of C, or the equivalent.

**WOL 3411 Advanced Wolof 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study of the four skills with attention to more complex structures.

**Prerequisite:** WOL 3410 with minimum grade of C, or the equivalent.

**YOR 1130 Beginning Yoruba 1 5 Credits**

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading and writing.

**YOR 1131 Beginning Yoruba 2 5 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** YOR 1130 with minimum grade of C or S, or the equivalent.

**YOR 2200 Intermediate Yoruba 1 3 Credits**

**Grading Scheme:** Letter Grade

Intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** YOR 1131 with minimum grade of C or S, or the equivalent.

**YOR 2201 Intermediate Yoruba 2 3 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** YOR 2200 with minimum grade of C or S, or the equivalent.

**YOR 3410 Advanced Yoruba 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures.

**Prerequisite:** YOR 2201 with minimum grade of C, or the equivalent.

**YOR 3411 Advanced Yoruba 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study of the four skills with attention to more complex structures.

**Prerequisite:** YOR 3410 with minimum grade of C, or the equivalent.

---

## African | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## DEPARTMENT INFORMATION

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

## Courses

### General

#### HUM 2420 African Humanities 3 Credits

**Grading Scheme:** Letter Grade

A general education course similar in philosophy and purpose to the basic sequence. Content selected from the philosophies, literature, arts and music of various African countries and regions. (H and N)

**Attributes:** General Education - Humanities, General Education - International

#### HUM 2424 African Cultures and Literatures 3 Credits

**Grading Scheme:** Letter Grade

A culturally based study of folktales, proverbs, drama, poetry and novels; and how these forms are used to portray African arts and ideas. (H and N)

**Attributes:** General Education - Humanities, General Education - International

#### SSA 3730 Language in African Society 3 Credits

**Grading Scheme:** Letter Grade

The role of language in the development of African societies. Language and nation building. (S and N)

**Attributes:** General Education - International, General Education - Social Science

**SSA 4905 Individual Work 1-5 Credits**

**Grading Scheme:** Letter Grade

For those who seek independent work not offered in another course.

**Prerequisite:** department permission.

**SSA 4930 Special Topics in African Studies 3 Credits**

**Grading Scheme:** Letter Grade

Variable topics dealing with specific issues in African studies.

**SST 2501 African Elements in the Americas 3 Credits**

**Grading Scheme:** Letter Grade

Traces African influence in the Americas from the arrival of Africans on the continent until the present.

**SST 3500 Africa through Film & Media 4 Credits**

**Grading Scheme:** Letter Grade

Explore the African continent through film and media to provide a critical analysis of issues of (mis)/representation of Africans in selected moving images and printed materials both in Africa and in diaspora.

**Prerequisite:** LIT 2000 or IDS 1161.

**SST 4502 African Oral Literature 3 Credits**

**Grading Scheme:** Letter Grade

An overview of African oral literature, introduces methodological and theoretical problems, and examines the sociopolitical and cultural relevance of the literature.

**Prerequisite:** instructor permission.

## **Akan**

**AKA 1130 Beginning Akan 1 5 Credits**

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading and writing.

**AKA 1131 Beginning Akan 2 5 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** AKA 1130 with minimum grade of C or the equivalent.

**AKA 2200 Intermediate Akan 1 3 Credits**

**Grading Scheme:** Letter Grade

Intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** AKA 1131 with minimum grade of C, or the equivalent.

**AKA 2201 Intermediate Akan 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of intermediate study.

**Prerequisite:** AKA 2200 with minimum grade of C, or the equivalent.

**AKA 3410 Advanced Akan 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures.

**Prerequisite:** AKA 2201 with minimum grade of C, or the equivalent.

**AKA 3411 Advanced Akan 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study.

**Prerequisite:** AKA 3410 with minimum grade of C, or the equivalent.

## **Amharic**

**AHM 1130 Beginning Amharic 1 5 Credits**

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading, and writing.

**AHM 1131 Beginning Amharic 2 5 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** AHM 1130 with minimum grade of C, or the equivalent.

**AHM 2200 Intermed Amharic 1 3 Credits**

**Grading Scheme:** Letter Grade

Intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** AHM 1131 with minimum grade of C, or the equivalent.

**AHM 2201 Intermediate Amharic 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of intermediate study.

**Prerequisite:** AHM 2200 with minimum grade of C, or the equivalent.

**AHM 3410 Advanced Amharic 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures.

**Prerequisite:** AHM 2201 with minimum grade of C, or the equivalent.

**AHM 3411 Advanced Amharic 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study.

**Prerequisite:** AHM 3410 with minimum grade of C or the equivalent.

## Swahili

**SSW 3303 Swahili Oral Literature 3 Credits**

**Grading Scheme:** Letter Grade

Introduces various genres of Swahili oral literatures and shows their importance, relevance and function within Swahili culture.

**SWA 1130 Beginning Swahili 1 5 Credits**

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading and writing.

**SWA 1131 Beginning Swahili 2 5 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** SWA 1130 with minimum grade of C, or S, or the equivalent.

**SWA 2200 Intermediate Swahili 1 3 Credits**

**Grading Scheme:** Letter Grade

Intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** SWA 1131 with minimum grade of C or S, or the equivalent.

**SWA 2201 Intermediate Swahili 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** SWA 2200 with minimum grade of C or S, or the equivalent.

**SWA 3410 Advanced Swahili 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures.

**Prerequisite:** SWA 2201 with minimum grade of C, or the equivalent.

**SWA 3411 Advanced Swahili 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study of the four skills with attention to more complex structures.

**Prerequisite:** SWA 3410 with minimum grade of C, or S, or the equivalent.

**SWA 4905 Individual Study 1-5 Credits**

**Grading Scheme:** Letter Grade

For those who seek independent work not offered in another course.

**Prerequisite:** instructor permission.

**SWW 4100 Readings in Swahili 3 Credits**

**Grading Scheme:** Letter Grade

## Wolof

**WOL 1130 Beginning Wolof 1 5 Credits**

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading and writing.

**WOL 1131 Beginning Wolof 2 5 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** WOL 1130 with minimum grade of C, or the equivalent.

**WOL 2200 Intermediate Wolof 1 3 Credits**

**Grading Scheme:** Letter Grade

Intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** WOL 1131 with minimum grade of C, or the equivalent.

**WOL 2201 Intermediate Wolof 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of intermediate study.

**Prerequisite:** WOL 2200 with minimum grade of C, or the equivalent.

**WOL 3410 Advanced Wolof 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures.

**Prerequisite:** WOL 2201 with minimum grade of C, or the equivalent.

**WOL 3411 Advanced Wolof 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study of the four skills with attention to more complex structures.

**Prerequisite:** WOL 3410 with minimum grade of C, or the equivalent.

## **Yoruba**

**SSA 3730 Language in African Society 3 Credits**

**Grading Scheme:** Letter Grade

The role of language in the development of African societies. Language and nation building. (S and N)

**Attributes:** General Education - International, General Education - Social Science

**YOR 1130 Beginning Yoruba 1 5 Credits**

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading and writing.

**YOR 1131 Beginning Yoruba 2 5 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** YOR 1130 with minimum grade of C or S, or the equivalent.

**YOR 2200 Intermediate Yoruba 1 3 Credits**

**Grading Scheme:** Letter Grade

Intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** YOR 1131 with minimum grade of C or S, or the equivalent.

**YOR 2201 Intermediate Yoruba 2 3 Credits**

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** YOR 2200 with minimum grade of C or S, or the equivalent.

**YOR 3410 Advanced Yoruba 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures.

**Prerequisite:** YOR 2201 with minimum grade of C, or the equivalent.

**YOR 3411 Advanced Yoruba 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study of the four skills with attention to more complex structures.

**Prerequisite:** YOR 3410 with minimum grade of C, or the equivalent.

**YOR 4905 Individual Study 1-5 Credits**

**Grading Scheme:** Letter Grade

For those who seek independent work not offered in another course.

**Prerequisite:** instructor permission.

**YOT 3500 Yoruba Diaspora in the New World 3 Credits****Grading Scheme:** Letter Grade

Introduction to the scope and importance of Yoruban culture in the New World and its role and significance in the resilience of African cultures in North America, South America and the Caribbean. (WR)

**Prerequisite:** HUM 2420, HUM 2424, or instructor permission.**Attributes:** Satisfies 6000 Words of Writing Requirement**YRW 4130 Readings in Yoruba Literature 3 Credits****Grading Scheme:** Letter Grade

Reading skills and the analysis of literature in the original language.

**Prerequisite:** YOR 3411 or the equivalent.

---

## Agricultural and Biological Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

### Curriculum

- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

---

## Courses

**ABE 2012C Introduction to Biological Engineering 3 Credits****Grading Scheme:** Letter Grade

Introduces the process of design along with approaches to solving engineering problems, manipulations and presentations of engineering data and applied engineering concepts. (WR)

**Prerequisite:** MAC 2311.**Attributes:** Satisfies 2000 Words of Writing Requirement**ABE 2062 Biology for Engineers 3 Credits****Grading Scheme:** Letter Grade

Principles and engineering applications of biology. Principles and applications of biochemistry, genetics, microbial systems, animal systems, ecological systems and global systems. (B) (WR)

**Attributes:** General Education - Biological Science, Satisfies 6000 Words of Writing Requirement

**ABE 3000C Applications in Biological Engineering 3 Credits**

**Grading Scheme:** Letter Grade

Overview of the research and applications of biological engineering, such as bioprocessing, biotechnology, transport processes, biosensors, bioremediation, biological materials and biomedicine.

**Prerequisite:** BSC 2010 or equivalent.

**ABE 3212C Land and Water Resources Engineering 4 Credits**

**Grading Scheme:** Letter Grade

Introduces hydrology, flow through porous media, flood routing, grade control structures and erosion control.

**Prerequisite:** ENV 3040C or CGN 3421 or (COP 2271 and COP 2271L) and MAP 2302.

**ABE 3612C Heat and Mass Transfer in Biological Systems 4 Credits**

**Grading Scheme:** Letter Grade

Transport phenomena, steady and unsteady-state heat conduction, radiation, free and forced convection, mass transfer, psychometrics and thermodynamics of biological processes.

**Corequisite:** ENV 3040C or CGN 3421 or ESI 4327C or (COP 2271 and COP 2271L).

**ABE 3652C Physical and Rheological Properties of Biological Materials 3 Credits**

**Grading Scheme:** Letter Grade

Theory and use of physical and rheological properties of biological materials in agricultural engineering applications.

**Prerequisite:** CHM 2045 and MAC 2313 and PHY 2048.

**ABE 4008 Control Methods in SmartAg Systems 3 Credits**

**Grading Scheme:** Letter Grade

Design, analysis, simulation, and programming modern control methods for applications in production agriculture, biological and food engineering, land and water resources. Learn theoretical concepts, application programming, and simulation techniques using classical and modern control approaches, fuzzy logic, neural networks, and other intelligent learning algorithms.

**Prerequisite:** MAP 2302 and PHY 2048;

**Corequisite:** EGM 3400.

**ABE 4033 Fundamentals and Applications of Biosensors 3 Credits**

**Grading Scheme:** Letter Grade

Provides a broad introduction to the field of biosensors, as well as an in-depth and quantitative view of biosensor design and performance analysis. Fundamental application of biosensor theory will be demonstrated, including: recognition, transduction, signal acquisition, and post processing/data analysis.

**Prerequisite:** MAP 2302 and BSC 2010 and CHM 2200.

**ABE 4034 Remote Sensing in Engineering: Science, Sensors and Applications 3 Credits**

**Grading Scheme:** Letter Grade

Develop an understanding of remote sensing theory, systems and applications using information obtained from the visible/near infrared, thermal infrared and microwave regions of the EM spectrum.

**Prerequisite:** MAP 2302 or the equivalent.

**ABE 4042C Biological Engineering Design 1 2 Credits**

**Grading Scheme:** Letter Grade

Design of engineered agricultural and biological systems and devices. Problem definition analysis, synthesis, project management, economic, environmental and social impacts. Individual and team projects.

**ABE 4043C Biological Engineering Design 2 2 Credits**

**Grading Scheme:** Letter Grade

Senior capstone design project.

**Prerequisite:** senior standing (4EG), ABE 4042C and two courses in area of specialization.

**ABE 4171 Power and Machines for Biological Systems 3 Credits**

**Grading Scheme:** Letter Grade

Design and specification of power and machine elements applied to agricultural, biological and land and water resources or food engineering; fundamentals of power units, design of machine elements and power transmission.

**Prerequisite:** EGM 3520 and (EGM 3400 or EGM 3401).

**ABE 4231C Irrigation and Drainage Engineering 4 Credits**

**Grading Scheme:** Letter Grade

Irrigation and drainage systems design, including pump sizing and specification, water distribution systems, plant water requirement, drainage systems and flood control.

**Prerequisite:** ABE 3212C.

**ABE 4413C Post-Harvest Operations Engineering 3 Credits****Grading Scheme:** Letter Grade

Engineering principles and practices of post-harvest operations for the maintenance of quality of agricultural products. Design of systems and facilities.

**Prerequisite:** ABE 3612C.**ABE 4641 Modeling Coupled Natural-Human Systems 3 Credits****Grading Scheme:** Letter Grade

Explore approaches to modeling coupled natural-human systems, drawing from both natural and social sciences. Topics include regime shift from dynamical systems and basic concepts from game theory and social-ecological system literature. These are combined in models that operationalize a conceptual framework. With guidance, develop models for final projects.

**Prerequisite:** MAC 2312 or equivalent.**ABE 4655C Bio-Based Products from Renewable Resources 3 Credits****Grading Scheme:** Letter Grade

Provides the knowledge for the production of fuels, chemicals, and materials from renewable resources; includes the fundamental principles and practical applications of bio-based products: biorefinery and biobased products overview, fundamental concepts in understanding biorefinery and biobased products; materials, chemical platforms, and fuels from biomass.

**Prerequisite:** (CHM 2045 or CHM 2095) and (CHM 2046 or CHM 2096) or equivalent general chemistry courses or instructor permission.**ABE 4662 Quantification of Biological Processes 3 Credits****Grading Scheme:** Letter Grade

Quantitative description and analysis of biological processes pertaining to microbes, plants, animals and ecosystems. Biological transport phenomena, bioenergetics, enzyme kinetics, metabolism, bioregulation, circulatory and muscle systems, agroecosystems. Analytical and experimental laboratory for development of quantitative skills.

**Prerequisite:** (ABE 2062 or BSC 2010) and (EGN 3353C or CWR 3201).**ABE 4812 Food and Bioprocess Engineering Unit Operations 4 Credits****Grading Scheme:** Letter Grade

Analysis of thermal freezing, evaporation, dehydration, contact equilibrium and mechanical separation processes as governed by the reaction kinetics and rheology of processed foods.

**Prerequisite:** ABE 3612C or CWR 3201 or EGN 3353C.**ABE 4905 Individual Study in Biological Engineering 1-4 Credits****Grading Scheme:** Letter Grade

Selected problems of projects in the student's major field of engineering study.

**Prerequisite:** recommendation of department chair.**ABE 4912 Integrated Product and Processing Design 1 in Biological Engineering 3 Credits****Grading Scheme:** Letter Grade

First part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes on time and within budget.

**ABE 4913 Integrated Product and Process Design 2 in Biological Engineering 3 Credits****Grading Scheme:** Letter Grade

Second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes on time and within budget.

**Prerequisite:** ABE 4912.**ABE 4931 Professional Issues in Agricultural and Biological Engineering 1 Credit****Grading Scheme:** Letter Grade

Current developments in agricultural and biological engineering, principles of agricultural and biological engineering practice and professional standards and ethics.

**ABE 4932 Special Topics 1-4 Credits****Grading Scheme:** Letter Grade

Variable subjects provide content for the study of agricultural engineering topics not offered in other courses.

**Prerequisite:** instructor permission.**ABE 4935 Writing Grant Proposals for Scholarships and Fellowships 2 Credits****Grading Scheme:** Letter Grade

Introduces seniors in the Agricultural and Biological Engineering department to opportunities for obtaining scholarships, fellowships, internships, and teaching/research assistantships from federal funding agencies; includes funding sources and opportunities, provide guidelines for proposal writing. Requires preparing a proposal.

**Prerequisite:** Senior standing, must be pursuing a degree within the Agricultural and Biological Engineering department, and instructor permission.

**ABE 4949 Work Experience in Biological Engineering 1-3 Credits****Grading Scheme:** S/U

Work experience in the biological engineering industry with advisor approval. (S-U)

**Prerequisite:** Advisor approval**EGN 4912 Engineering Directed Independent Research 0-3 Credits****Grading Scheme:** S/U

Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

---

## Agricultural and Life Sciences | General

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Courses

**AGG 3501 Environment, Food and Society 3 Credits****Grading Scheme:** Letter Grade

Global issues and trends in population growth, natural resource (soil, water and plant genetic biodiversity) utilization, climate change and potential impacts of current trends on agriculture, natural resources, global food security and sustainability. (B)

**Attributes:** General Education - Biological Science**AGG 4502 Nanotechnology in Food, Agriculture, and Environment 3 Credits****Grading Scheme:** Letter Grade

Application of nanotechnology in crop production, food processing and preservation, and environmental remediation; behavior of engineered nanoparticles in plant, soil and the environment, and environmental toxicology and regulations of engineered nanoparticles.

**Prerequisite:** SWS 3022.**ALS 2410 Challenge 2050: Global Uncertainty 3 Credits****Grading Scheme:** Letter Grade

Explores questions in human well-being and sustainability building a foundation for addressing global challenges associated with global population. Transdisciplinary experts lead diverse and innovative discussions, complex adaptive problem solving; and the integration of economic, environmental, food, health, and social system perspectives.

**Prerequisite:** arrange with advisor and department permission.**ALS 2931 Agricultural Honors 1-4 Credits****Grading Scheme:** Letter Grade

Various courses offered. (WR)

**Prerequisite:** refer to the department.**Attributes:** Satisfies 6000 Words of Writing Requirement**ALS 3030C Urban Agriculture 3 Credits****Grading Scheme:** Letter Grade

Work with faculty and guest field experts to explore the concepts, issues, and opportunities for urban agricultural sustainability, and on the development and implementation of demonstrations of community urban agricultural projects. Culminates in a group presentation for campus and community stakeholders.

**Prerequisite:** sophomore standing or higher.**ALS 3110 Home and Community Gardening: Collegiate Master Gardener 3 Credits****Grading Scheme:** Letter Grade

The Florida Master Gardener Program trains UF/IFAS Extension volunteers to provide horticultural education to residents and communities. Receive training to become a Master Gardener and learn horticulture, Integrated Pest Management, plant pathology, and garden planning. This online class is composed of digital lectures, discussions, and hands-on activities.

**Prerequisite:** (BSC 2005 or BSC 2010) and HOS 1014 or instructor permission.**ALS 3133 Agricultural and Environmental Quality 3 Credits****Grading Scheme:** Letter Grade

Analysis of effects of agriculture on environmental quality; emphasis on agricultural wastes and practices; potential for using agricultural systems for disposal of other wastes; effects of pollution on the agricultural environment. (P)

**Attributes:** General Education - Physical Science

**ALS 3153 Agricultural Ecology 3 Credits****Grading Scheme:** Letter Grade

Introduces the study of ecology from an agricultural perspective. Emphasizes ecological principles with examples and applications from agriculture.

**ALS 3200C AI in Agricultural and Life Sciences 3 Credits****Grading Scheme:** Letter Grade

Artificial intelligence (AI) is used to solve problems in research and industry. This course provides students with understanding of and practical hands-on experience building and using AI systems. Students will obtain the skills and knowledge they need to use AI to solve real-world problems in agricultural and life sciences.

**Prerequisite:** (BSC 2891 or STA 2023 or STA 3032 or EEL 3872) with minimum grades of C.**ALS 3415 Challenge 2050: Developing Tools for Changing the World 3 Credits****Grading Scheme:** Letter Grade

The global population is projected to exceed 9 billion by the year 2050. Challenge 2050 requires innovative development of transdisciplinary solutions to complex, global issues. This course explores individual and team-based skills, competencies, and dispositions necessary to addressing the complex adaptive issues surrounding the challenge.

**Prerequisite:** ALS 2410.**ALS 3923 Honors Orientation 1 Credit****Grading Scheme:** Letter Grade

Introduces the CALS honors program and develop the skills needed to complete a creative, scholarly project and an honors thesis. A variety of guest speakers, in-class and outside activities, discussion, writing and oral presentation are used to accomplish the learning objectives.

**Prerequisite:** must be enrolled in CALS upper-division honors program.**ALS 3940 Challenge 2050: the Experience 3 Credits****Grading Scheme:** Letter Grade

Emphasizes trust building, accompaniment, and community development experiences within developing global contexts. Uses immersion experience to gain an understanding for concerns relating to population fluctuation, including issues related to economics, environment, food, health, and social systems. International immersion facilitates applying sustainable practices in developing areas.

**Prerequisite:** ALS 2410.**ALS 4161 Exotic Species and Biosecurity Issues 3 Credits****Grading Scheme:** Letter Grade

Studies U.S. policies and programs affecting agricultural biosecurity as applied to current agricultural and extension and regulatory programs.

Emphasis is on policies and procedures used to detect and report non-indigenous species. Students will develop the analytical capabilities to assess the consequences of agricultural biosecurity threats.

**Prerequisite:** BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.**ALS 4162 Consequences of Biological Invasions 3 Credits****Grading Scheme:** Letter Grade

Non-native species invasions and environmental effects of these invaders. Students will develop analytical capabilities to assess the consequences of biological invasions.

**Prerequisite:** BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.**ALS 4163 Challenges in Plant Resource Protection 3 Credits****Grading Scheme:** Letter Grade

Applied training in the regulatory aspects of plant protection, using real-world case studies, scenarios and issues.

**Prerequisite:** BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.**Corequisite:** HOS 3020C or ENY 3005/ENY 3005L or PLP 3002C.**ALS 4210 Controlled Environment Plant Production 3 Credits****Grading Scheme:** Letter Grade

Foundational information on the principles of controlled environment plant production, including the interactions between plants and their microenvironments, climate control technologies and strategies, and economic principles and analysis methods.

**Prerequisite:** junior or senior standing.**ALS 4404 International Studies 1-15 Credits****Grading Scheme:** Letter Grade

Supervised study abroad.

**Prerequisite:** sophomore standing and minimum 18 years old.**ALS 4419 Challenge 2050: Creating Solutions 1 Credit****Grading Scheme:** Letter Grade

Through this capstone experience course, students demonstrate and apply knowledge, skills, and dispositions in assigned transdisciplinary teams. Students complete a comprehensive proposal for a developmental initiative focused on addressing the 2050 Challenge of sustaining a global population.

**Prerequisite:** ALS 2410.

**ALS 4900 Supervised Extension Experience in Agricultural and Life Sciences 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**ALS 4905 Individual Study in Agricultural and Life Sciences 1-3 Credits****Grading Scheme:** Letter Grade

Individual study in agricultural and life sciences.

**Prerequisite:** permission of dean and instructor.**ALS 4911 Supervised Research in Agricultural and Life Sciences 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic research in agricultural and life sciences under faculty supervision. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**ALS 4914 Project Team Research: Building Skills in Agrobiology 3 Credits****Grading Scheme:** Letter Grade

Hands-on experience in addressing a real-world problem faced by an agricultural industry partner. Production of a detailed plan, project design, and preliminary data for evaluating and solving the problem. Offered every term.

**Prerequisite:** Junior standing or higher.**ALS 4915 Honors Thesis Research in Agricultural and Life Sciences 0-3 Credits****Grading Scheme:** S/U

Independent research in agricultural and life sciences leading to an honors thesis. Student are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.**ALS 4932 Special Topics 1-3 Credits****Grading Scheme:** Letter Grade

Variable subjects provide content for the study of agricultural topics not offered in other courses.

**ALS 4936 CALS Leadership Institute Seminar 1 2 Credits****Grading Scheme:** Letter Grade

Discussion-based seminar provides an introduction to leadership studies and personal leadership development. Exploration of personal leadership characteristics through various assessments and the development of a personal leadership development plan.

**Prerequisite:** admission to the CALS Leadership Institute Program.**ALS 4937 CALS Leadership Institute Seminar 2 2 Credits****Grading Scheme:** Letter Grade

Discussion-based seminar provides an introduction to group and organizational leadership in local and global contexts. Personal assessment of strengths and further application of developed personal leadership plan to a global vision are included.

**Prerequisite:** ALS 4936.**ALS 4938 CALS Leadership Institute International Service and Learning Experience 2 Credits****Grading Scheme:** Letter Grade

This seminar focuses on an international service and learning experience as a context for application of course content previously covered in the program. A compilation of documentation supporting leadership growth and reflection serve as closure to leadership institute.

**Prerequisite:** ALS 4936.**ALS 4941 Full-time Practical Work Experience in Agriculture 1-4 Credits****Grading Scheme:** S/U

Variable subjects provide content for the study of agricultural topics not offered in other courses. (S-U)

**Prerequisite:** prior arrangement with advisor and dean's office.**ALS 4950 Challenge 2050: Taking Action 2-6 Credits****Grading Scheme:** Letter Grade

Through supervised practical training, in conjunction with academic assignments at professional organizations, the Taking Action internship provides the opportunity to professionally examine and engage the global challenges associated with Challenge 2050.

**Prerequisite:** maintain GPA of 3.0, must be in good standing and must have completed the Challenge 2050 Global Challenge certificate with 3.0 average.

---

## Agricultural Education and Communication

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The UF/IFAS Department of Agricultural Education and Communication is a group of faculty, staff and students committed to connecting people with agriculture through agricultural communication, education, leadership development and Extension education.

**Website** (<https://aec.ifas.ufl.edu/>)

### Curriculum

- Agricultural and Natural Resource Communication Minor
- Agricultural Curriculum and Development Minor
- Agricultural Education and Communication
- Combination Degrees
- Extension Education Minor
- Leadership Minor

---

## Courses

### AEC 3030C Effective Oral Communication 3 Credits

**Grading Scheme:** Letter Grade

Strategies and techniques for effective presentations in the food, agricultural and natural resource professions. Emphasis on oral and visual techniques for formal and informal situations including leadership and group settings.

### AEC 3033C Research and Business Writing in Agricultural and Life Sciences 3 Credits

**Grading Scheme:** Letter Grade

Establishes the importance of effective communication to success in both the educational and professional environments; emphasizes writing as a primary form of communication; examines the elements of effective written communication in organizational and scholarly areas; and explores the causes of ineffective writing and ways to correct them. (WR)

**Prerequisite:** Junior or senior standing.

**Attributes:** Satisfies 6000 Words of Writing Requirement

### AEC 3065 Issues in Agricultural and Life Sciences 3 Credits

**Grading Scheme:** Letter Grade

Methods used to effectively communicate, inform, and influence policy decisions about agricultural and life sciences issues.

**Prerequisite:** Sophomore standing or higher.

### AEC 3070C Digital Media Production in Agricultural and Life Sciences 3 Credits

**Grading Scheme:** Letter Grade

Introduces the history and incorporation of electronic media used in agricultural and natural resources sciences. Hands-on learning of electronic media technology as it relates to agriculture is emphasized.

### AEC 3071 Social Media Strategy and Leadership for Agricultural and Life Sciences 3 Credits

**Grading Scheme:** Letter Grade

Learn how, when, and why to use various social media tools. Also learn to measure the effectiveness of these tools in reaching audiences with agricultural and life science messages.

**Prerequisite:** Sophomore standing or higher.

### AEC 3073 Intercultural Communication 3 Credits

**Grading Scheme:** Letter Grade

Basic culturally coded communication behaviors, such as cultural values and beliefs, attitudes and verbal and non-verbal behavior, are examined to identify basic differences among individuals from diverse cultural backgrounds. Special emphasis on cultural communication issues in the agricultural and natural resources sciences are addressed. (S and N OR S and D)

**Attributes:** General Education - Diversity, General Education - International, General Education - Social Science

**AEC 3209 Instructional and Event Planning in Agricultural and Life Sciences 3 Credits**

**Grading Scheme:** Letter Grade

Instructional methodology that focuses on the selection and use of innovative teaching, presentation, meeting planning and evaluation strategies for teaching agricultural subjects in various educational settings.

**AEC 3313 Development and Role of Extension Education 3 Credits**

**Grading Scheme:** Letter Grade

Extension philosophy, programs, methods and leadership principles, and history of federal, state and local leadership in the development of the cooperative extension service.

**AEC 3322 Moral Leadership in Agriculture and Natural Resources 3 Credits**

**Grading Scheme:** Letter Grade

Explores ethical and moral foundations for organizational and personal practice within the context of agriculture, natural resources, and beyond; gain a greater understanding for the intersection between morality and ethics, effective decision-making, and applied organizational ethics.

**Prerequisite:** junior standing or higher.

**AEC 3410 Fostering Innovation through Leadership 3 Credits**

**Grading Scheme:** Letter Grade

By studying key leadership theories and models students will develop the basic skills and knowledge necessary to move an innovation from creation to implementation. Using specifically designed experiences, students will be able to think critically about leadership's direct application to innovation and change.

**Corequisite:** Enrollment in the Innovation Academy.

**AEC 3413 Working with People: Interpersonal Leadership Skills 3 Credits**

**Grading Scheme:** Letter Grade

Identifies and defines leadership in terms of intrapersonal and interpersonal skills.

**AEC 3414 Leadership Development 3 Credits**

**Grading Scheme:** Letter Grade

An understanding of the dynamic interactions of personal characteristics, technical skills, interpersonal influence, commitment, goals and power necessary for effective organizational leader and follower behaviors.

**AEC 4031 The Communication Process in Agricultural and Life Sciences 3 Credits**

**Grading Scheme:** Letter Grade

Survey of basic communication concepts as they apply to agriculture and natural resource industries. (WR)

**Attributes:** Satisfies 6000 Words of Writing Requirement

**AEC 4035 Communication Practices for Agricultural and Life Sciences 3 Credits**

**Grading Scheme:** Letter Grade

This course provides students the opportunity to master a variety of writing styles used in corporate and mass media settings. Emphasis is placed on mastery of writing skills. (WR)

**Prerequisite:** AEC 3070C and (AEC 4031 or JOU 3101) with minimum grades of C.

**AEC 4036 Advanced Agricultural Communication Production 3 Credits**

**Grading Scheme:** Letter Grade

Provides directed experience in the following areas of agricultural communication: video production, graphic design, visual composition, desktop publishing and multimedia development.

**Prerequisite:** AEC 3070C.

**AEC 4052 Communication Campaign Strategies in Agricultural and Life Sciences 3 Credits**

**Grading Scheme:** Letter Grade

Examines the role of communication in agriculture, focusing on strategies and methods for agricultural information transfer.

**Prerequisite:** AEC 4031 with a minimum grade of C.

**AEC 4200 Teaching Methods in Agricultural Education 3 Credits**

**Grading Scheme:** Letter Grade

Focuses on the selection and use of teaching strategies, methods/ approaches and techniques; evaluating learning; managing learning environments; and classroom management for teaching agricultural subjects in formal educational settings.

**Prerequisite:** AEC 4323 and AEC 4228.

**AEC 4202 Curriculum Development and Assessment Techniques in Emerging Agricultural Technologies 3 Credits**

**Grading Scheme:** Letter Grade

Introduces new and emerging areas in food agriculture and natural resource sciences. Emphasizes appropriate teaching techniques, curricula, and resources.

**Prerequisite:** AEC 4200.

**AEC 4224 Special Methods in Teaching Agricultural Education 3 Credits**

**Grading Scheme:** Letter Grade

Emphasizes supervised agricultural experience programs, record keeping, and related FFA awards. Classroom management techniques, discipline and liability issues are also discussed.

**Prerequisite:** AEC 4202.

**AEC 4228 Laboratory Practices in Teaching Agricultural Education 3 Credits**

**Grading Scheme:** Letter Grade

Laboratory practices in teaching mechanics and other operative skills, conducting field and laboratory classes and providing space and teaching facilities.

**Prerequisite:** Junior or senior standing.

**AEC 4323 Development and Philosophy of Agricultural Education 3 Credits**

**Grading Scheme:** Letter Grade

Analyzes evolving concepts and philosophies of agricultural education programs by emphasizing the history, legislation, and principles underlying organization and practice.

**Prerequisite:** Junior or senior standing.

**AEC 4417 Leadership for Personal and Organizational Change 3 Credits**

**Grading Scheme:** Letter Grade

To prepare students for addressing complex personal and organizational issues related to leading change.

**Prerequisite:** AEC 3414.

**AEC 4434 Communication and Leadership in Groups and Teams 3 Credits**

**Grading Scheme:** Letter Grade

Focuses on leadership and communication in groups and teams. Topics include: what makes effective groups and teams, processes of groups and teams, relationships of members, and improving group/team performance.

**AEC 4465 Global Leadership 3 Credits**

**Grading Scheme:** Letter Grade

Integrated, practical, and dynamic framework for students to develop global literacy and leadership competencies. (N and S)

**Prerequisite:** AEC 3413 or AEC 3414.

**Attributes:** General Education - International, General Education - Social Science

**AEC 4500 Program Development and Evaluation 3 Credits**

**Grading Scheme:** Letter Grade

In-depth analysis of the development and evaluation of human and community resource programs based on programming theories, concepts and research. Emphasizes dimensions of responsive communities, determination of community needs and goals.

**AEC 4504 Curriculum and Program Planning for Agricultural Education 3 Credits**

**Grading Scheme:** Letter Grade

Principles and practices used in designing courses of instruction for effective teaching and total program development.

**AEC 4900 Supervised Extension in Agricultural Education and Communication 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic extension experiences in agricultural education and communication under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**AEC 4905 Individual Study 1-5 Credits**

**Grading Scheme:** Letter Grade

Topics and special problems selected from fields such as 4-H and FFA work, demonstrations, farm and home management, rural development, pre-school planning and post-school evaluation and planning.

**Prerequisite:** instructor permission.

**AEC 4911 Supervised Research in Agricultural Education and Communication 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic research in Agricultural Education and Communication under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**AEC 4915 Honors Thesis Research in Agricultural Education and Communication 0-3 Credits**

**Grading Scheme:** S/U

Independent research in Agricultural Education and Communication leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

**AEC 4930 Communication and Leadership Development Capstone Experience 1 Credit**

**Grading Scheme:** Letter Grade

Integrates content and skills that communication and leadership development students have learned in their prerequisite courses.

**Prerequisite:** AEC 4031 and AEC 3070C and AEC 3413 and AEC 3414;

**Corequisite:** Senior standing.

**AEC 4932 Special Topics in Agricultural Education and Communication 1-3 Credits**

**Grading Scheme:** Letter Grade

Special topics in Agricultural Education and Communication.

**Prerequisite:** Sophomore standing or higher.

**AEC 4941 Agricultural Education Internship 1-9 Credits**

**Grading Scheme:** Letter Grade

Practical experience in agricultural training and development through agricultural education organizations, agribusiness and natural resources education, and/or agricultural and outreach programming.

**Prerequisite:** junior or senior standing; AEC or TCH major.

**AEC 4942 Agricultural Education Internship 6-9 Credits**

**Grading Scheme:** Letter Grade

Individual capstone internship within a school-based setting where students observe, participate in, and lead educational instruction, curricula development, assessment of school-based student learning, supervision, and assist in advising a student leadership organization.

**Prerequisite:** senior standing and successful completion of all three portions of the Florida Teacher Certification Examination (FTCE) - General Knowledge, Professional Education and Agriculture 6-12.

**AEC 4943 Leadership Development Internship 2-6 Credits**

**Grading Scheme:** Letter Grade

An individual program whereby students are apprenticed to officials to gain practical experience in agricultural organizations, industry and/or the county extension program.

**Prerequisite:** 15 credits of communication and leadership courses with no grade below C. Nine credits must include AEC 3070C, AEC 4031, and AEC 3413 or AEC 4434.

**AEC 4944 Cooperative Extension Internship 4-6 Credits**

**Grading Scheme:** Letter Grade

The cooperative extension internship provides students the opportunity to develop practical on-the-job supervised experience in cooperative extension, primarily at the county level.

**Prerequisite:** senior standing, AEC 3313; minimum 2.0 GPA.

**AEC 4946 Comm and Lead Dev Internship 2-6 Credits**

**Grading Scheme:** Letter Grade

An individual program whereby students are apprenticed to officials to gain practical experience in agricultural organizations, industry, extension, reporting, writing, editing, photography, graphics, broadcasting, advertising or public relations.

**Prerequisite:** AEC 3070C with minimum grade of C and AEC 3414 with minimum grade of C, or AEC 3413 with minimum grade of C and AEC 4031 with minimum grade of C.

**AEC 4948 Agricultural Communication Internship 2-6 Credits**

**Grading Scheme:** Letter Grade

An individual program whereby students gain supervised experience in agricultural communications including reporting, writing, editing, photography, graphics, broadcasting, advertising or public relations.

**Prerequisite:** 15 credits of communication and leadership courses with no grade below C. Nine credits must include AEC 3070C, AEC 4031, and AEC 3413 or AEC 4434.

**ALS 2410 Challenge 2050: Global Uncertainty 3 Credits**

**Grading Scheme:** Letter Grade

Explores questions in human well-being and sustainability building a foundation for addressing global challenges associated with global population.

Transdisciplinary experts lead diverse and innovative discussions, complex adaptive problem solving; and the integration of economic, environmental, food, health, and social system perspectives.

**Prerequisite:** arrange with advisor and department permission.

**ALS 3415 Challenge 2050: Developing Tools for Changing the World 3 Credits**

**Grading Scheme:** Letter Grade

The global population is projected to exceed 9 billion by the year 2050. Challenge 2050 requires innovative development of transdisciplinary solutions to complex, global issues. This course explores individual and team-based skills, competencies, and dispositions necessary to addressing the complex adaptive issues surrounding the challenge.

**Prerequisite:** ALS 2410.

**ALS 3940 Challenge 2050: the Experience 3 Credits****Grading Scheme:** Letter Grade

Emphasizes trust building, accompaniment, and community development experiences within developing global contexts. Uses immersion experience to gain an understanding for concerns relating to population fluctuation, including issues related to economics, environment, food, health, and social systems. International immersion facilitates applying sustainable practices in developing areas.

**Prerequisite:** ALS 2410.**ALS 4419 Challenge 2050: Creating Solutions 1 Credit****Grading Scheme:** Letter Grade

Through this capstone experience course, students demonstrate and apply knowledge, skills, and dispositions in assigned transdisciplinary teams. Students complete a comprehensive proposal for a developmental initiative focused on addressing the 2050 Challenge of sustaining a global population.

**Prerequisite:** ALS 2410.**ALS 4932 Special Topics 1-3 Credits****Grading Scheme:** Letter Grade

Variable subjects provide content for the study of agricultural topics not offered in other courses.

**ALS 4950 Challenge 2050: Taking Action 2-6 Credits****Grading Scheme:** Letter Grade

Through supervised practical training, in conjunction with academic assignments at professional organizations, the Taking Action internship provides the opportunity to professionally examine and engage the global challenges associated with Challenge 2050.

**Prerequisite:** maintain GPA of 3.0, must be in good standing and must have completed the Challenge 2050 Global Challenge certificate with 3.0 average.

---

## Agricultural Operations Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Courses

**AEB 4085 Agricultural Risk Management and the Law 3 Credits****Grading Scheme:** Letter Grade

Develops an understanding of the basic concepts of common and statutory law. Identifies and addresses current legal issues of importance at the personal and professional levels. Develops an understanding of risk and the solutions for managing risk and relates the concepts of risk management and law in limiting exposure to legal liability.

**ALS 3133 Agricultural and Environmental Quality 3 Credits****Grading Scheme:** Letter Grade

Analysis of effects of agriculture on environmental quality; emphasis on agricultural wastes and practices; potential for using agricultural systems for disposal of other wastes; effects of pollution on the agricultural environment. (P)

**Attributes:** General Education - Physical Science**AOM 2520 Global Sustainable Energy: Past, Present and Future 3 Credits****Grading Scheme:** Letter Grade

Explore the global history of energy sources; investigate new energy sources and analyze international solutions to future needs.

**AOM 3220 Agricultural Construction and Maintenance 3 Credits****Grading Scheme:** Letter Grade

Selection and use of materials and tools used in planning, constructing and maintaining buildings. Students will participate in class lectures and hands-on laboratory activities to build full-scale projects involving framing, plumbing, electrical, windows, etc. Building codes and building science are combined to provide an introduction to the changing world of construction.

**AOM 3333 Pesticide Application Techniques 3 Credits****Grading Scheme:** Letter Grade

Equipment and methods used to apply pesticides in agriculture. Emphasizes techniques used to avoid misapplication, a common cause of pesticide failures.

**AOM 3734 Irrigation Principles and Practices in Florida 3 Credits**

**Grading Scheme:** Letter Grade

Irrigation practice related to Florida agriculture. The course deals with irrigation system characteristics, management, maintenance and economics.

**Prerequisite:** MAC 1147.

**AOM 4060 Agri-food Systems Innovation 3 Credits**

**Grading Scheme:** Letter Grade

Explore the role of innovation in food systems from a reverse chain perspective. Gain knowledge of the food system framework from a multilevel (i.e., individual, organizational, etc.) perspective, identify current, innovative business and technological practices, as well as present and think critically about future trends in food.

**Prerequisite:** (Any AOM, ABE, or PKG course) or (junior standing or higher).

**AOM 4062 Principles of Food Engineering 4 Credits**

**Grading Scheme:** Letter Grade

The functional requirements and principles of operation of systems for handling and processing food and agricultural products.

**Prerequisite:** MAC 1147 and 3 credits of physics.

**AOM 4314C Power and Machinery Management 3 Credits**

**Grading Scheme:** Letter Grade

Functional requirements, operating principles, performance, safety and economic application of agricultural power units and field machines for citrus, vegetable and field crop production.

**AOM 4434 Precision Agriculture 3 Credits**

**Grading Scheme:** Letter Grade

Principles and applications of technologies supporting precision farming and planning for natural resource data management. Global positioning systems (GPS), geographic information systems (GIS), variable rate technologies (VRT), data layering of independent variables, automated guidance, Internet, information access and computer software for management.

**Prerequisite:** junior standing or higher.

**AOM 4444C Electrical Power and Instrumentation for Agricultural Operations Management 3 Credits**

**Grading Scheme:** Letter Grade

Fundamental concepts of electricity, power, instrumentation, computer control operations and selected transducers. Foundation to aid in management of agricultural processing operations.

**AOM 4455 Agricultural Operations and Systems 3 Credits**

**Grading Scheme:** Letter Grade

Quantitative and managerial techniques for management and planning of technical resources in agriculture. Applications of queuing theory, project scheduling, optimization and expert decision systems.

**Prerequisite:** MAC 1147 and a computer course.

**AOM 4461 Sustainable Agricultural Systems 3 Credits**

**Grading Scheme:** Letter Grade

Minimizing energy and costs in agricultural and natural resource systems and industries. Students explore ways to enhance sustainable systems by improving efficiency. Topics include agricultural machinery, pumps, motors, fans, refrigeration, lights and construction methods.

**Prerequisite:** senior standing and PHY 2004 or the equivalent.

**AOM 4521 Introduction to Biofuels 3 Credits**

**Grading Scheme:** Letter Grade

An overview of biofuel production related to technologies and feedstocks, economics of producing biofuels and impact on the environment and the local economy. Dealing specifically with liquid and gaseous biofuels and bioenergy produced from renewable resources, it provides a summary of the past, present and future production technologies and applications.

**Prerequisite:** BSC 2010 and PHY 2004 and CHM 2045 or the equivalents.

**AOM 4642 Environmental Systems for Agricultural Structures 3 Credits**

**Grading Scheme:** Letter Grade

Effects of the environment on plant and animal production, processing operations and quality of stored produce. Selection of building materials and sizing of components of environmental systems in agricultural structures to enhance more efficient agricultural production, processing and storage.

**Prerequisite:** MAC 1147 and 3 credits of physics.

**AOM 4643 Environmental Hydrology: Principles and Issues 3 Credits**

**Grading Scheme:** Letter Grade

This is a basic course in environmental hydrology intended for agricultural and natural resource managers. The first half of the course covers scientific principles of the hydrologic cycle while the second half investigates case studies of current water quality and water management issues.

**AOM 4900 Supervised Extension Experience in Agricultural Operations Management 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic extension experiences in agricultural operations management under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**AOM 4905 Special Problems in Agricultural Operations Management 1-4 Credits****Grading Scheme:** Letter Grade

Selected problems or projects in the student's major field of mechanized study.

**Prerequisite:** permission of department chair or advisor.**AOM 4911 Supervised Research in Agricultural Education and Communication 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic research in Agricultural Education and Communication under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**AOM 4915 Honors Thesis Research in Agricultural Operations Management 0-3 Credits****Grading Scheme:** S/U

Independent research in agricultural operations management leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.**AOM 4932 Special Topics in Agricultural Operations Management 1-4 Credits****Grading Scheme:** Letter Grade

Variable topics provide content for the study of mechanized agriculture topics not offered in other courses.

**Prerequisite:** instructor permission.**AOM 4933 Professional Practices in Agricultural Operations Management 1 Credit****Grading Scheme:** Letter Grade

Professionalism and interfacing of technical skills. Topics include ethics, continuing education, placement skills and professional development in agricultural operations management.

**Prerequisite:** junior standing in agricultural operations management.**AOM 4941 Full-Time Practical Work Experience in Agricultural Operations Management 1-4 Credits****Grading Scheme:** S/U

## Agronomy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Department of Agronomy's vision is to improve and sustain food production while conserving natural resources and promoting healthy and active lives by creating and disseminating knowledge in the plant sciences. The department's mission is to achieve excellence in the science of using plants for food, feed, fuel, fiber and turf, as well as in the management of weed species, through research, teaching, and outreach programs that serve the people of Florida, our nation, and the world.

## Courses

### **AGG 3501 Environment, Food and Society 3 Credits**

**Grading Scheme:** Letter Grade

Global issues and trends in population growth, natural resource (soil, water and plant genetic biodiversity) utilization, climate change and potential impacts of current trends on agriculture, natural resources, global food security and sustainability. (B)

**Attributes:** General Education - Biological Science

### **AGR 3303 Genetics 3 Credits**

**Grading Scheme:** Letter Grade

The science and physical basis of inheritance, genes as units of heredity and development, and the qualitative and quantitative aspects of genetic variation. (B)

**Prerequisite:** basic course in biology, botany or zoology.

**Attributes:** General Education - Biological Science

### **AGR 4212 Alternative Cropping Systems 3 Credits**

**Grading Scheme:** Letter Grade

Examines alternative cropping systems, focusing on issues of sustainability, against a backdrop of trends occurring in conventional agriculture.

### **AGR 4214C Applied Field Crop Production 3 Credits**

**Grading Scheme:** Letter Grade

Students will plant and manage a group of field crops. Experience in soil sampling, interpretation of nutrient and nematode test results, fertilization, pest control and harvesting are gained. Students will submit a term report.

### **AGR 4231C Forage Science and Range Management 4 Credits**

**Grading Scheme:** Letter Grade

Scientific and technological developments in the selection, production and utilization of forage crops, and in the development and management of grazing areas. (B)

**Attributes:** General Education - Biological Science

### **AGR 4304 Plant Chromosomes and Genomes 3 Credits**

**Grading Scheme:** Letter Grade

Concepts of plant DNA organization in chromosome structure, the principles and technologies of cytogenetics, the plant genomic DNA structure and function, concepts of transcriptome, the plant genomic databases, the DNA sequencing technologies and the basic tools for nucleotide sequence analysis.

**Prerequisite:** AGR 3303 or PCB 3063.

### **AGR 4320 Plant Breeding 3 Credits**

**Grading Scheme:** Letter Grade

The science and technology of plant improvement.

**Prerequisite:** AGR 3303 or PCB 3063.

### **AGR 4512 Physiology and Ecology of Crops 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the fundamental processes of crop plants, as well as the environmental and physical limitations to crop growth, development and yield. Focus is on physiology and ecology of agronomic crop plants. (B)

**Prerequisite:** AGR 3005 or the equivalent.

**Attributes:** General Education - Biological Science

### **AGR 4900 Supervised Extension in Agronomy 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic extension experiences in agronomy under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

### **AGR 4905 Individual Study 1-3 Credits**

**Grading Scheme:** Letter Grade

Scientific study of individual problems in crop production, weed science, genetics or plant breeding.

**Prerequisite:** minimum of one course in agronomy and instructor permission.

### **AGR 4911 Supervised Research in Agronomy 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic research in Agronomy under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

### **AGR 4915 Honors Thesis Research in Agronomy 0-3 Credits**

**Grading Scheme:** S/U

Independent research in agronomy leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

**AGR 4932 Agronomy Topics 1-3 Credits****Grading Scheme:** Letter Grade

Critical review of selected topics in specific agronomic areas.

**ALS 4914 Project Team Research: Building Skills in Agrobiology 3 Credits****Grading Scheme:** Letter Grade

Hands-on experience in addressing a real-world problem faced by an agricultural industry partner. Production of a detailed plan, project design, and preliminary data for evaluating and solving the problem. Offered every term.

**Prerequisite:** Junior standing or higher.**PCB 2441 Biological Invaders 3 Credits****Grading Scheme:** Letter Grade

Introduces plants and animals that are invading Florida and the U.S. Why biological invaders are second only to habitat destruction as threats to natural ecosystems, what makes some species invasive, how to control or prevent invasions, where international commerce may be regulated, and who is affected by such issues. (B)

**Attributes:** General Education - Biological Science**PLS 2003C Plants That Feed the World 3 Credits****Grading Scheme:** Letter Grade

Introduces 25 of humankind's most important food crop plants with emphasis on soil and climatic adaptations, major producers and consumers, nutritional attributes, processing needs and types of products. Students will see the plants and seeds, and the food and industrial products of the crop plants under study. This is an introductory course for majors and non-majors who have no previous academic experience with food crop plants. (B)

**Attributes:** General Education - Biological Science**PLS 3004C Principles of Plant Science 3 Credits****Grading Scheme:** Letter Grade

Introduces the principles and practices of plant production systems. An overview of plant evolution, anatomy, physiology, improvement, pest, water and nutrient management as applied to a variety of plant production systems.

**Prerequisite:** BOT 2010C or BSC 2010.**Attributes:** General Education - Biological Science**PLS 4601C Principles of Weed Science 3 Credits****Grading Scheme:** Letter Grade

Introduces basic and applied aspects of weed science. Topics include weed biology and ecology, herbicide physiology and weed control techniques. The lab covers weed identification, herbicide application technology and other aspects of weed science.

**PLS 4613 Aquatic Weed Control 3 Credits****Grading Scheme:** Letter Grade

Florida's aquatic weed problems and methods of chemical, biological, mechanical and physical weed control. Topics include plant biology/ecology, herbicide residue, lake reclamation, fish-plant interactions and laws regulating aquatic weed control.

**Prerequisite:** refer to the department.**PLS 4941 Practical Work Experience 1-3 Credits****Grading Scheme:** S/U

Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student's field of study. One month of full-time work is required for each credit.

**Prerequisite:** Plant Science major of junior standing or higher.

---

## Animal Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Department of Animal Sciences creates new solutions to tomorrow's problems in the areas of teaching, research, and extension, by integrating the most modern technologies available with personal expertise and attention to the needs of both students and industry.

## Courses

### ALS 4932 Special Topics 1-3 Credits

**Grading Scheme:** Letter Grade

Variable subjects provide content for the study of agricultural topics not offered in other courses.

### ANS 2002 The Meat We Eat 3 Credits

**Grading Scheme:** Letter Grade

Consumer-oriented elective covering meat as a food, its inspection for wholesomeness, meat grading, identification, processing, selection, preparation, and serving. Emphasizes preparation of economical, nutritious and palatable meals centered on meat. (B)

**Attributes:** General Education - Biological Science

### ANS 2005 The Role of Animals in Human History 3 Credits

**Grading Scheme:** Letter Grade

Surveys the importance of animals through human history, from the Stone Age to the present. The domestication of dogs, cats, major farm animals and some less familiar, such as camels, reindeer, and buffalo and the role they played in different societies and cultures across human history. (H, N)

**Attributes:** General Education - Humanities, General Education - International

### ANS 2090 Survey of Veterinary Professions 2 Credits

**Grading Scheme:** Letter Grade

Introduces careers in the veterinary medicine profession with discussions related to career exploration, career preparation, and the procedure of job placement.

### ANS 2615C Introduction to livestock and meat evaluation 3 Credits

**Grading Scheme:** Letter Grade

Basic elements of live animal evaluation, selection and carcass evaluation.

### ANS 3006 Introduction to Animal Science 3 Credits

**Grading Scheme:** Letter Grade

Role of beef cattle, dairy cattle, swine, sheep, poultry, and horses in serving humans. Introduces anatomy and physiology of digestion, growth, reproduction, and the application of genetics to livestock improvement.

### ANS 3006L Introduction to Animal Science Laboratory 1 Credit

**Grading Scheme:** Letter Grade

Laboratory experiences designed to accompany ANS 3006; must be registered for ANS 3006 concurrently or have already completed the lecture course.

**Corequisite:** ANS 3006 for AL majors only.

### ANS 3008 Livestock Behavior and Welfare 3 Credits

**Grading Scheme:** Letter Grade

Introduces basic principles and applications of animal behavior, including approaches to improve animal welfare through an understanding of animal behavior. Examples are drawn from a wide range of species, but the focus is on applying concepts to understand the behavior and welfare of livestock.

**Prerequisite:** sophomore or junior standing.

### ANS 3043 Growth and Development of Farm Animals 3 Credits

**Grading Scheme:** Letter Grade

An integration of the physiological, genetic, and nutritional bases of animal growth, development, and body composition with application to livestock production.

**Prerequisite:** BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L and ANS3006C or equivalents and AL major.

### ANS 3216 Introduction to Equine Science 3 Credits

**Grading Scheme:** Letter Grade

For those with an interest in equine sciences but with limited equine experience. Principles of equine selection, care, and utilization.

**ANS 3217C Equine Health Management 2 Credits**

**Grading Scheme:** Letter Grade

Principles and practices for planning, implementing, and maintaining equine herd health.

**Prerequisite:** ANS 3006 and AL-equine major.

**ANS 3239L Techniques in Equine Science 2 Credits**

**Grading Scheme:** Letter Grade

Introduces the knowledge, horseback, and management skills required for proper daily horse care and conditioning. Designed for those seeking employment requiring basic horse care skills and for novice horse owners.

**Prerequisite:** ANS 3216 and AL major.

**ANS 3246L Beef Production Practicum 2 Credits**

**Grading Scheme:** Letter Grade

Participate in beef cattle production systems under close supervision of faculty and staff; gain knowledge of best management practices regarding cattle handling, tractor, and equipment use, as well as cattle hauling by participating in experiential learning opportunities.

**Prerequisite:** sophomore or junior standing;

**Corequisite:** ANS 4243.

**ANS 3250L Dairy Cattle Practicum 2 Credits**

**Grading Scheme:** Letter Grade

Practical application of the principles of biology and management of dairy cattle. Topics include milking procedures, behavior, cattle handling, records, and computer applications in dairy production; body condition, lameness and hygiene scoring; dairy farm evaluation; on-farm practica and field trips.

**Corequisite:** ANS 3251.

**ANS 3251 Biology and Management of Dairy Cattle 2 Credits**

**Grading Scheme:** Letter Grade

Biology of dairy cattle and the interrelationship between biology and management. Topics include anatomy and physiology, nutrition, reproduction, genetics, behavior, diseases, dairy products, housing, management, economics, and the environmental impact of dairy production.

**ANS 3319C Reproductive Physiology and Endocrinology in Domestic Animals 4 Credits**

**Grading Scheme:** Letter Grade

Principles of reproduction in avian and mammalian farm animals including factors related to the estrous cycle, pregnancy, lactation, semen-production, artificial insemination, pregnancy diagnosis, and environmental factors affecting reproduction.

**Prerequisite:** ANS 3006 and BSC 2010 and BSC 2010L or equivalents.

**ANS 3384C Genetics of Domestic Animals 3 Credits**

**Grading Scheme:** Letter Grade

Basic principles of Mendelian, population, and quantitative genetics as applied to improvement of domestic animals. Selection, inbreeding, and crossbreeding strategies for genetic improvement of livestock.

**Prerequisite:** ANS 3006 and BSC 2011 and BSC 2011L or equivalents.

**ANS 3404C Food Animal Nutrition and Feeding 4 Credits**

**Grading Scheme:** Letter Grade

Studies the basic nutrient requirements of food animals, primarily beef cattle and swine, at specific stages of growth, production, and reproduction; and how scientific methods and experimentation are applied to animal nutrition.

**Prerequisite:** ANS 3440.

**ANS 3405 Equine Nutrition and Feeding Management 2 Credits**

**Grading Scheme:** Letter Grade

The influence of growth, reproduction, and work on the nutrient requirements of horses and the application of that information to the planning of life cycle feeding programs.

**Prerequisite:** ANS 3440.

**ANS 3440 Principles of Animal Nutrition 4 Credits**

**Grading Scheme:** Letter Grade

The nutrients required by animals, their functions interrelationships, and processes of utilization; feedstuff composition and their use in diet and ration formulation.

**Prerequisite:** CHM 2045 and CHM 2045L, or equivalent.

**ANS 3613C Value determination of meat animals 3 Credits**

**Grading Scheme:** Letter Grade

Principles and procedures involved in evaluation, grading, and economic value determination of meat animals and the carcasses they produce.

**Prerequisite:** Junior or Senior standing.

**ANS 3634C Meats 3 Credits**

**Grading Scheme:** Letter Grade

Integrated studies of the science and technology involved in the utilization of meat animals for food with focus on animal growth, carcass cutability, wholesomeness, palatability, and merchandising of red meat.

**ANS 3934 Careers in the Livestock Industry 2 Credits**

**Grading Scheme:** Letter Grade

Careers in the livestock industry. Interactive exposure to employment opportunities in the animal sciences.

**ANS 3943C Practicum: Weanling Behavior Modification 2 Credits**

**Grading Scheme:** Letter Grade

This practicum examines equine behavioral modification methods that emphasize a balanced approach for developing an adaptable, responsive young weanling horse using reasonable, achievable training methods.

**Prerequisite:** Junior or Senior status.

**ANS 4079C Relationship of Form to Function in Horses 3 Credits**

**Grading Scheme:** Letter Grade

Principles of conformation and performance evaluation of horses. Studies the anatomy, physiology, and dynamics of the horse as it affects athletic potential and performance.

**Prerequisite:** ANS 3043 or (APK 2100C and APK 2105C).

**ANS 4212L Techniques in Farrier Science 1-2 Credits**

**Grading Scheme:** Letter Grade

How to evaluate and to trim the horse's hoof and to develop a working knowledge of corrective farrier techniques.

**ANS 4218C Horse Psychology and Training 2 Credits**

**Grading Scheme:** Letter Grade

Horse behavior, instinct and senses as they relate to training. Principles of training the young foal; ground work, liberty training, and starting the young yearling under saddle; and principles of performance training.

**Prerequisite:** ANS 3006 and ANS 3440.

**ANS 4231 Practicum in Horse Management and Training Technique 1 Credit**

**Grading Scheme:** Letter Grade

Practicum in horse management and training technique

**ANS 4234 Horse Enterprise Management 2 Credits**

**Grading Scheme:** Letter Grade

Management principles essential to the planning and operation of commercial horse enterprises.

**Prerequisite:** AEB 3133 and AGR 4231C and ANS 3217C and ANS 3319C and ANS 3384C and ANS 3405 and ANS 3440.

**ANS 4240C Discovery of Sustainable Cattle Systems 2 Credits**

**Grading Scheme:** Letter Grade

Multidisciplinary experiential learning focused on development of sustainable practices through comprehension and critique of cattle production systems. Encompasses multiple aspects related to cattle systems, including agronomy, human and animal health and nutrition, sociology, and soil science. A key element is the hands-on learning experience where students select a project to carry out on one of the UF/IFAS beef or dairy units.

**Prerequisite:** ANS 3006.

**ANS 4241C Intermediate Horse Training 3 Credits**

**Grading Scheme:** Letter Grade

Continue the training of a recently started under-saddled horse, exhibit horse to potential buyers, and produce annual performance horse sale.

**Prerequisite:** ANS 4218C.

**ANS 4243 Beef Cow-Calf Management 5 Credits**

**Grading Scheme:** Letter Grade

Development and implementation of management programs for commercial cow-calf and purebred beef cattle enterprises.

**Prerequisite:** AEB 3133 and AGR 4231C and ANS 3319C and ANS 3384C and ANS 3404C and ANS 3440.

**ANS 4245 Beef Background and Feedlot Management 2 Credits**

**Grading Scheme:** Letter Grade

Management, marketing, and utilization of beef cattle after weaning. Spring break field trip required.

**Prerequisite:** AEB 3133 and AGR 4231C and ANS 3440 and ANS 3404C and ANS 3613L and ANS 3634C.

**ANS 4318C Equine Reproductive Management 3 Credits**

**Grading Scheme:** Letter Grade

Equine reproduction to include anatomy, the estrous cycle, hormones and pharmacologic manipulation, gametogenesis, embryonic and fetal development, parturition, foal care, assisted technologies, and management strategies.

**Prerequisite:** ANS 3319C.

**ANS 4320C Applied Ruminant Reproductive Management 4 Credits**

**Grading Scheme:** Letter Grade

In-depth assessment and application of bovine reproductive management practices that affect the efficiency of reproduction including managerial, physiological, biological, and economical.

**Prerequisite:** ANS 3319C.

**ANS 4382 Equine Genetics 2 Credits****Grading Scheme:** Letter Grade

Examines the underlying mechanisms and inheritance of a number of traits in the horse; includes the impact of domestication on the genome, relationships between breeds, coat color, genetic disease and complex traits of performance and behavior.

**Prerequisite:** ANS 3384C.**ANS 4383 Genetic analyses of complex traits in livestock 3 Credits****Grading Scheme:** Letter Grade

Comprehensive examination of principles of livestock inheritance, QTL mapping strategies and functional genomic approaches used for genomic selection and improvement programs in farm animals.

**Prerequisite:** ANS 3384C or equivalent.**ANS 4388 Canine and Feline Genetics 3 Credits****Grading Scheme:** Letter Grade

Lectures, seminars, and lab exercises on application of genetic principles to canine and feline characteristics provide an in-depth understanding of how these traits are inherited and analyzed. Information on new genomic technologies and their impact on studying specific traits, including coat color and genetic disorders, are discussed.

**Prerequisite:** ANS 3384C or AGR 3303 or PCB 3063 or equivalent.**ANS 4389L Molecular Techniques in Domestic Animal Genetics 2 Credits****Grading Scheme:** Letter Grade

Studies the principles of basic domestic animal molecular biology techniques and provides hands-on experience through laboratory exercises.

**Prerequisite:** ANS 3384C.**ANS 4605 Animal and Products Evaluation 1 Credit****Grading Scheme:** Letter Grade

Intensive training in animal and animal products evaluation.

**Prerequisite:** instructor permission.**ANS 4623C Pork Production 3 Credits****Grading Scheme:** Letter Grade

Principles of modern pork production, including all aspects of swine production management systems (breeding systems, disease control, applied economics, housing, marketing, pork quality, and nutrition in a systems approach), relative to the US/Global pork supply.

**Prerequisite:** ANS 3440 and ANS 3319C and (ANS 3613L or ANS 4604C).**ANS 4635C Meat Processing 3 Credits****Grading Scheme:** Letter Grade

Basic principles of the use of muscle as food, process technology, meat inspection, regulations, quality control procedures, and marketing aspects.

**Prerequisite:** ANS 3006 or FOS 3042.**ANS 4701 Physiology of the Mammary Gland and Lactation 2 Credits****Grading Scheme:** Letter Grade

Insight into the endocrinology and physiology of the defining characteristics of mammals: the mammary gland and lactation, focusing on the anatomy and development of the mammary gland with an overview of the biochemical, cellular and molecular processes controlling lactation emphasizing on livestock species.

**Prerequisite:** BSC 2011 and BSC 2011L and ANS 3319C and AG senior.**ANS 4900 Supervised Extension Experience in Animal Sciences 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic extension experiences in animal sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**ANS 4905 Problems in Animal Science 1-3 Credits****Grading Scheme:** Letter Grade

Qualified students are assigned a problem involving care and management of livestock or the investigation of a current topic in animal science.

**Prerequisite:** instructor permission.**ANS 4911 Supervised Research in Animal Sciences 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic research in animal sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**ANS 4915 Honors Thesis Research in Animal Sciences 0-3 Credits****Grading Scheme:** S/U

Independent research in animal sciences leading to an honors thesis, mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

**ANS 4931 Senior Seminar 1 Credit**

**Grading Scheme:** Letter Grade

Oral presentation and papers on issues facing the livestock industry.

**Prerequisite:** AL senior.

**ANS 4932 Special Topics in Animal Sciences 1-3 Credits**

**Grading Scheme:** Letter Grade

Special topics in Animal Sciences.

**Prerequisite:** Sophomore standing or higher.

**ANS 4941 Full-Time Practical Work Experience in Animal Science 2-8 Credits**

**Grading Scheme:** S/U

Credit is earned on the basis of one hour per month of employment. (S-U)

**Prerequisite:** prior arrangement with advisor.

**ATE 2511 Companion Animal Biology and Management 3 Credits**

**Grading Scheme:** Letter Grade

Principles and practices of proper selection, care, nutrition, genetics, reproduction, and training of companion animals, with emphasis on dogs, cats, and selected bird species.

**VME 4103 Livestock Health/Disease Prevention 2 Credits**

**Grading Scheme:** Letter Grade

The principal diseases of livestock and practical methods for their prevention and control.

**Prerequisite:** instructor permission.

---

## Anthropology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural, archaeological, biological and linguistic anthropology.

## Courses

### **AFS 2002 The African Experience: An Introduction to African Studies 3 Credits**

**Grading Scheme:** Letter Grade

Introductory study of African society and culture that examines the richness, diversity, and time-depth of African civilizations. (S and N)

**Attributes:** General Education - International, General Education - Social Science

### **ANT 1215 Indigenous Values 3 Credits**

**Grading Scheme:** Letter Grade

The relation of Culture and Nature through the worldviews of indigenous people, who understand that their lives are part of, and inseparable from, the natural world. Through a variety of lectures, readings, films, and writing assignments, students explore how indigenous values offer insight on improving the quality of human futures.

**Prerequisite:** Restricted to undergraduate degree-seeking students.

**Attributes:** Quest 1, General Education - Humanities, Satisfies 4000 Words of Writing Requirement

### **ANT 2000 General Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the four subfields of anthropology (sociocultural, biological, linguistic and archaeology) through analyses of the cultural, social and biological dimensions of human variation. Appropriate first course for students considering major or minor in anthropology as well as non-majors fulfilling general education requirement. (S)

**Attributes:** General Education - Social Science

### **ANT 2140 Introduction to World Archaeology 3 Credits**

**Grading Scheme:** Letter Grade

Global study of human culture from its origins to the present through the recovery, description, and analysis of archaeological remains.

**Attributes:** General Education - Humanities, General Education - International

### **ANT 2149 Lost Tribes and Sunken Continents 3 Credits**

**Grading Scheme:** Letter Grade

Examines the claims of popular writers in archaeology that mysterious archaeological sites, statues, etc. were influenced by outer space visitors. Problems of diffusion: discussed include Stonehenge, pyramids, Easter Island, Maya spaceships, Atlantis and Mu, Nazca Lines and other archaeological mysteries. (H)

**Attributes:** General Education - Humanities

### **ANT 2301 Human Sexuality and Culture 3 Credits**

**Grading Scheme:** Letter Grade

Examines cultural, biological, and archaeological aspects of human sexuality through time and space, while evaluating sexuality ideas to societal discourse. Investigates personal and cross-cultural views on sexuality, presenting gender identity, sexual orientation, relationships, and sexual ethics. Appropriate for those seeking an integrative approach to human sexuality. (S and D) (WR)

**Attributes:** General Education - Diversity, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

### **ANT 2402 Anthropology of Sustainability 3 Credits**

**Grading Scheme:** Letter Grade

Application of the sustainability concept to the study of human interactions with the biophysical environment across space and time. Focuses on human perceptions of and interactions with their biotic surroundings and the myriad linkages between biological, cultural and linguistic diversity.

### **ANT 2410 Cultural Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

The nature of culture. The content of cultures; languages, subsistence, economic structures, art and religion in human societies. The integration of culture. (S and D)

**Attributes:** General Education - Diversity, General Education - Social Science

### **ANT 2464 Things Your Doctor Never Told You: Intro to Medical Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the field of medical anthropology including key theoretical and empirical areas. Covers how experiences of sickness and health are shaped by cultural context, how culture and biology intersect to shape global and local inequalities in health, and how healing practices and policies are embedded in political, economic, and historical context. Covers topics from diabetes to global pandemics. Applies anthropological perspective to addressing practical health matters globally.

**Attributes:** General Education - International, General Education - Social Science

### **ANT 2490 Digital Cultures and Communities 3 Credits**

**Grading Scheme:** Letter Grade

Explores 'the digital' in an anthropological and cross-cultural context. Examines the range of ways digital technologies are reshaping identity, intimacy, community, economy, and politics, and how social scientists conduct research online.

**ANT 2700 Introduction to Applied Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

The utility and application of anthropological theories, methods and knowledge for the solution of specific human problems, including discrimination, hunger, disease and underdevelopment. (S and D)

**Attributes:** General Education - Diversity, General Education - Social Science

**ANT 3020 Humans and Animals 3 Credits**

**Grading Scheme:** Letter Grade

Examines the complex and multiple relationships that people have with animals, including social, economic, and symbolic connections. Draws on insights from cultural anthropology, archaeology, biological anthropology, and research from multiple other disciplines to explore humans' unique interdependencies with other animals.

**Prerequisite:** Sophomore standing in CLAS or other college.

**ANT 3080 Science & Ethics in Daily Life 3 Credits**

**Grading Scheme:** Letter Grade

Introduces bioethical issues of topics that are encountered in everyday life through the popular media, such as genetic testing and genome modification, and animal experimentation and cognition. Will provide students with an understanding of the scientific basis of the bioethical issues in order to develop informed opinions.

**Prerequisite:** Sophomore standing

**ANT 3141 Development of World Civilization 3 Credits**

**Grading Scheme:** Letter Grade

Discussion of archeological evidence for the development of civilization in its regional variants from the earliest beginning to the dawn of written history. Analyzes causes of cultural development in Old and New World Centers. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**ANT 3153 North American Archaeology 3 Credits**

**Grading Scheme:** Letter Grade

Interpretive survey of the ancient indigenous history of North America and archaeological approaches to its investigation.

**Attributes:** General Education - Humanities, Satisfies 6000 Words of Writing Requirement

**ANT 3162 Aztec Civilization 3 Credits**

**Grading Scheme:** Letter Grade

Detailed examination of Aztec culture and society at 1500 AD from ethnohistorical and archaeological evidence, including family life; social, political and economic organization; warfare; religion; and relationships with neighboring peoples. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**ANT 3164 The Inca and Their Ancestors 3 Credits**

**Grading Scheme:** Letter Grade

Evolution of the Inca Empire is traced back archaeologically through earlier Andean states and societies to the beginning of native civilization. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**ANT 3181 Anthropological Museology 3 Credits**

**Grading Scheme:** Letter Grade

The history and purpose of anthropological museums in the formation of the discipline and the modern role of the museum in both anthropological education and research.

**ANT 3186 Introduction to Zooarchaeology 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the identification, analysis and interpretation of animal remains from archaeological sites. Methods of quantification and skeletal measurements to understand technology and human behavior are addressed. Topics include identification of subsistence patterns, coastal economies, animal domestication, taphonomy, environmental inferences from faunal remains and historical use of subsistence resources.

**Prerequisite:** one course in archaeology.

**ANT 3241 Anthropology of Religion 3 Credits**

**Grading Scheme:** Letter Grade

Cross-cultural survey of beliefs and practices dealing with the supernatural, magic, and religion. Conceptualization of the supernatural. Sacred specialists, their function, and social position. Theories of comparative religion in light of anthropological data. (S and D)

**Attributes:** General Education - Diversity, General Education - Social Science

**ANT 3302 Global Gender Issues 3 Credits**

**Grading Scheme:** Letter Grade

Cross-cultural perspective on how gendered meanings and practices structure society and shape the life experiences of people globally. Topics include biology, gender, and sexual identity; social constructions of parenthood; reproduction, kinship, and the household; colonialism and development; religion, ritual, and personhood; gender in domestic and public spaces. (S and D)

**Attributes:** General Education - Diversity, General Education - Social Science

**ANT 3364 Peoples and Cultures of China 3 Credits****Grading Scheme:** Letter Grade

A comprehensive introduction to the diversity and change of Chinese culture and society based on ethnographic studies, theoretical analysis, and historical survey by Western as well as Chinese scholars. (S and N) (WR)

**Attributes:** General Education - International, General Education - Social Science, Satisfies 2000 Words of Writing Requirement**ANT 3390 Visual Anthropology 3 Credits****Grading Scheme:** Letter Grade

Uses photography and film as tools and products of social science. Ways of describing, analyzing and presenting behavior and cultural ideas through visual means. Projects and laboratory work with visual anthropology. (WR)

**Prerequisite:** basic knowledge of photography or instructor permission.**Attributes:** Satisfies 6000 Words of Writing Requirement**ANT 3420 Consumer Culture 3 Credits****Grading Scheme:** Letter Grade

Examination of the cultural bases for the consumption of commodities in modern society, employing anthropological concepts and social science methods. Primary emphasis is on the social relationships enacted between people and the things they live with. (S)

**Prerequisite:** sophomore standing or higher.**Attributes:** General Education - Social Science**ANT 3451 Race and Racism 3 Credits****Grading Scheme:** Letter Grade

Survey of the race concept from the perspectives of cultural and biological anthropology. Examines patterns of human biological variation, traces history of race concept and explores experiences of racism in cross-cultural perspective. (S and D) (WR)

**Attributes:** General Education - Diversity, General Education - Social Science, Satisfies 6000 Words of Writing Requirement**ANT 3467 Food and Culture 3 Credits****Grading Scheme:** Letter Grade

The role of food in human culture through time and in different geographical settings. Among topics considered are the biological basis of human diet and how it differs from other primates; how food habits develop and change as a result of cultural interaction; and the ritual and religious uses of food. Diets of traditional cultures and the effects of modernization on diet and health are examined.

**ANT 3478 Global Health Culture 3 Credits****Grading Scheme:** Letter Grade

Examines the ways in which diverse societies in the United States and abroad construct illness and health experiences, balance healing traditions with multiple forms of medical practice and integrate the human experiences of illness, recovery and death with the technical world of biomedicine.

**Prerequisite:** sophomore standing or higher.**Attributes:** General Education - International, General Education - Social Science**ANT 3514C Introduction to Biological Anthropology 4 Credits****Grading Scheme:** Letter Grade

Introduces the subfield of anthropology that focuses on the natural history of humankind. Through lecture and laboratory, the course surveys a range of materials that focus on the diversity of the Order Primates with emphasis on human and primate variation, adaptation and evolution. (B)

**Attributes:** General Education - Biological Science**ANT 3515 Human Evolutionary Anatomy 3 Credits****Grading Scheme:** Letter Grade

Survey of human anatomy from evolutionary and embryological perspectives. The phylogenetic and functional basis for human form. Anatomical principles underlying developmental and functional disorders are explored through clinical and comparative examples.

**Prerequisite:** ANT 3514C or (BSC 2010 and BSC 2011) or PCB 4674.**ANT 3520 Skeleton Keys: Forensic Identification 3 Credits****Grading Scheme:** Letter Grade

Survey of forensic anthropology, an applied field of biological anthropology, focusing the wider scope of skeletal biology on problems of medicolegal significance, primarily in determining personal identity and cause of death from human remains.

**ANT 3555 The Primates 3 Credits****Grading Scheme:** Letter Grade

Foundational overview of the world's primates and the discipline of primatology. Key elements include primate taxonomy, distribution, behavior, ecology, and conservation. Recommended precursor to all other primate courses in the department.

**ANT 3620 Language and Culture 3 Credits****Grading Scheme:** Letter Grade

The role of speech in individual, social and cultural settings. Linguistic basis of thought and perception. Mythological studies and analysis.

Bilingualism, biculturalism and minority language politics in current perspective. (S and N) (WR)

**Attributes:** General Education - International, General Education - Social Science

**ANT 3703 Business Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

How to get a field-specific job: writing resumes, job interviews, and social science methods and their applications. Provides a general overview of the business anthropology field.

**ANT 3860 Writing in Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

Professional writing in the discipline of anthropology. (C) (WR)

**Prerequisite:** Junior standing or higher in anthropology.

**Attributes:** General Education - Composition, Satisfies 6000 Words of Writing Requirement

**ANT 3930 Junior Topics Class in Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

This course is designed for junior level students to explore special topics classes in the various subfields of anthropology.

**ANT 4006 Human Rights and Culture 3 Credits**

**Grading Scheme:** Letter Grade

Examines the nature of human rights cross-culturally, focusing on the history of the concept, universalism vs. particularism, religion, gender, race, regionalism, and modern human rights conventions.

**ANT 4034 History of Anthropological Theory 3 Credits**

**Grading Scheme:** Letter Grade

The history and development of anthropological theory. Methods in anthropological research. Directed reading of major theoretical publications. (S) (WR)

**Prerequisite:** one cultural anthropology course or instructor permission.

**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**ANT 4110 Archaeological Theory 3 Credits**

**Grading Scheme:** Letter Grade

Survey of the theoretical and methodological tenets of anthropological archaeology; critical review of archaeological theories, past and present; relation of archaeology to anthropology. (S)

**Prerequisite:** one course in archeology and/or anthropology, or instructor permission.

**Attributes:** General Education - Social Science

**ANT 4111 Digital Methods in Archaeology 3 Credits**

**Grading Scheme:** Letter Grade

Focus on acquiring and using digital data in archaeology. Addresses questions of what digital data are, where they come from, and what they are used for, as well as how archaeologists collect, manipulate, and display digital data. Surveys digital methods of archaeological documentation and exploration through hands-on practice and critical discussion of published case studies.

**Prerequisite:** ANT 2140.

**ANT 4112 Ideology and Symbolic Approaches in Archaeology 3 Credits**

**Grading Scheme:** Letter Grade

Critically examines the development of thought in archaeology that goes beyond a materialist interpretation of culture. This seminar explores questions of causality and the role of mind and culture as a mediator between the environment and political, economic and social structures.

**Prerequisite:** instructor permission.

**ANT 4113 Experimental Archaeology 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the principles and applications of experimental archaeology, drawing on a broad range of case studies that illustrate the numerous experimental methods that archaeologists have used to solve analytic or interpretive problems.

**Prerequisite:** instructor permission.

**ANT 4114 Principles of Archaeology 3 Credits**

**Grading Scheme:** Letter Grade

Basic principles of archaeological science. Field and laboratory techniques (site survey, mapping, excavation, artifact analysis, dating). Foundational methods to interpret archaeological data to understand cultural and natural processes in the past. Legal and ethical issues of heritage management and stewardship of the archaeological record. (WR)

**Prerequisite:** ANT 2140 or ANT 3141.

**ANT 4117 Archaeological Data Analysis and Visualization 3 Credits**

**Grading Scheme:** Letter Grade

Introduces students to the basic quantitative methods required to describe and analyze archaeological data. Asks students to practice using statistical techniques to explore archaeological questions. Emphasizes not only statistical methods, but also 1) how to construct and critically evaluate arguments grounded in quantitative data, and 2) how to explore, analyze, and display data in the open-source R statistical environment.

**Prerequisite:** ANT 2140.

**ANT 4147C Environmental Archaeology 3 Credits**

**Grading Scheme:** Letter Grade

Theory and case studies in environmental archaeology, integrating zooarchaeology, archaeobotany and geoarchaeology, are used to interpret past human interactions with the natural environment.

**Prerequisite:** instructor permission.

**ANT 4168 Maya Civilization 3 Credits**

**Grading Scheme:** Letter Grade

In-depth study of the pre-Hispanic Maya civilization based on archaeological and epigraphic information. Includes methods for constructing knowledge of this civilization and discussion of current controversies.

**Prerequisite:** ANT 2140 or ANT 3141 or instructor permission.

**ANT 4180L Laboratory Training in Archaeology 1-3 Credits**

**Grading Scheme:** Letter Grade

Processing of data recovered in field excavations; includes cleaning, identification, cataloguing, classification, drawing, analysis, responsibilities of data reporting.

**Prerequisite:** an introductory-level archeology course.

**ANT 4193 Ethnoarchaeology 3 Credits**

**Grading Scheme:** Letter Grade

A seminar that draws on case studies to examine the theoretical and methodological approaches to ethnoarchaeology. Students will apply these approaches in field exercises.

**Prerequisite:** instructor permission.

**ANT 4194 A Critical Archaeology of Time 3 Credits**

**Grading Scheme:** Letter Grade

Seminar that draws on case studies to explore problems at the intersection of measured time in archaeology, and the practice and reckoning of time in mostly non-Western societies.

**Prerequisite:** instructor permission.

**ANT 4213 Global Humankind 3 Credits**

**Grading Scheme:** Letter Grade

Advanced analysis of experiences and strategies for tackling classic dilemmas of the human condition in interconnected cultural works. Examination of how basic lifestyle decisions and actions are experienced locally and their global consequences. Anthropological theories and concepts are discussed in tandem with case studies from around the world.

**Prerequisite:** one 2000 or 3000 level ANT course or instructor permission.

**ANT 4266 Economic Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

A consideration of economic philosophies and the behavioral bases of formal economic theories. Cross-cultural studies of production, distribution and consumption, money and the acquisition of goods. The latest materials from cultural ecology, Marxism, formalism, substantivism and discourse centered approaches are reviewed. (S) (WR)

**Prerequisite:** one anthropology course or instructor permission.

**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**ANT 4273 Anthropology of Law 3 Credits**

**Grading Scheme:** Letter Grade

An examination of legal systems cross-culturally with a focus on the interrelationship of law with culture, society, economics and politics.

**ANT 4274 Political Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

The problem of identifying political behavior. Natural leadership in bands, tribes and small groups. Acephalous societies and republican structures. Kingship and early despotic states. Theories of bureaucracy. (S)

**Prerequisite:** an introductory course in the social sciences, or instructor permission.

**Attributes:** General Education - Social Science

**ANT 4336 The Peoples of Brazil 3 Credits**

**Grading Scheme:** Letter Grade

Ethnology of Brazil; historical, geographic, and socioeconomic material is covered and representative monographs from the various regions of Brazil are read. The contribution of the Indian, Portuguese and African to modern Brazilian culture. (S and N) (WR)

**Attributes:** General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**ANT 4352 Peoples of Africa 3 Credits**

**Grading Scheme:** Letter Grade

An anthropological survey of the culture, history and ethnographic background of the peoples of Africa. A basis for appreciation of current problems of acculturation, nationalism, and cultural survival and change among African peoples. (S and N) (WR)

**Attributes:** General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**ANT 4354 The Anthropology of Modern Africa 3 Credits**

**Grading Scheme:** Letter Grade

Study of continuity and change in contemporary African societies with special reference to cultural and ethnic factors in modern nations. (S and N) (WR)

**Attributes:** General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**ANT 4366 Family, Gender and Population in China 3 Credits**

**Grading Scheme:** Letter Grade

This seminar examines the processes by which the family system, gender relations, and population configuration interact with each other to become powerful forces in shaping contemporary China's political, social and economic conditions. (S and N)

**Prerequisite:** instructor permission.

**Attributes:** General Education - International, General Education - Social Science

**ANT 4392 Peoples of the Arctic 3 Credits**

**Grading Scheme:** Letter Grade

An anthropological survey of the culture, history and ethnographic background of the circumpolar Arctic. An investigation of the problems of acculturation, human ecology, cultural survival and self-determination of Northern Indigenous Peoples.

**Prerequisite:** ANT 2140.

**ANT 4394 Hospital Ethnography: Theory, Method, and Ethics 3 Credits**

**Grading Scheme:** Letter Grade

Serves as a primer in the burgeoning area of hospital ethnography, covering its roots, how it continues to evolve, and methodological and ethical issues unique to doing ethnography in clinical settings, through journal articles and monographs. Uses course texts to analyze how hospital ethnography enables insight into broader public policy issues related to topics such as governance, accountability, gender equity, and sectarian conflict. Students produce content for website on best practices.

**Prerequisite:** (ANT 2000 or ANT 2410) and (ANT 3478 or ANT 4462).

**ANT 4403 Environment and Cultural Behavior 3 Credits**

**Grading Scheme:** Letter Grade

The interaction of people and their environment as mediated by cultural institutions. Levels of socioeconomic adaptation in hunting and gathering, pastoral and agricultural societies. Warfare and ritual as ecological mechanisms. (S) (WR)

**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**ANT 4462 Culture and Medicine 3 Credits**

**Grading Scheme:** Letter Grade

A survey of the field of medical anthropology and its interdisciplinary context. The course examines contemporary approaches and the development of an applied field concerned with human sickness and healing.

**ANT 4468 Health and Disease in Human Evolution 3 Credits**

**Grading Scheme:** Letter Grade

Review of pathology as evidenced in fossil and archaeological records. Interpretation of disease in a biocultural context.

**Prerequisite:** ANT 3514C, or instructor permission.

**ANT 4484 Anthropology of Pregnancy, Birth, and Early Childhood Development 3 Credits**

**Grading Scheme:** Letter Grade

Uses a medical anthropological lens to examine variability in health among pregnant mothers and early childhood development cross-culturally, drawing on critical and biocultural accounts. Focuses on several aspects of maternal health including reproductive ecology and fetal growth, birth experience, reproductive loss, breastfeeding, and early childhood development.

**Prerequisite:** ANT 2410 and ANT 3478 or ANT 4462.

**ANT 4495 Ethnographic Methods 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the basic theoretical, methodological, ethical and practical concerns in the making of ethnography. In addition to readings and discussions, students will conduct a micro-project to gain hands-on experience in ethnography. (S)

**Prerequisite:** ANT 2000.

**Attributes:** General Education - Social Science

**ANT 4525 Human Osteology and Osteometry 3 Credits**

**Grading Scheme:** Letter Grade

Human skeletal identification for the physical anthropologist and archaeologist. Techniques for estimated age at death, race and sex from human skeletal remains. The measurement of human skeleton for comparative purposes. (B)

**Prerequisite:** ANT 3514C and instructor permission.

**Attributes:** General Education - Biological Science

**ANT 4530 Genetic Perspectives on Human Diversity 3 Credits**

**Grading Scheme:** Letter Grade

Course examines current applications of molecular data to questions of human evolution and genetics, based on most recent journal articles.

**Prerequisite:** BSC 2011 or instructor permission.

**ANT 4531 Molecular Genetics of Disease 3 Credits**

**Grading Scheme:** Letter Grade

Examines molecular genetics of human disease. Discusses a range of diseases from single-gene recessive defects to complex diseases.

**Prerequisite:** BSC 2011 or instructor permission.

**ANT 4539 Evolutionary Medicine 3 Credits**

**Grading Scheme:** Letter Grade

Examines the intersection of evolution, culture, and environment as influencing factors on the emergence and existence of human diseases and pathogens using interdisciplinary methods, but focusing on Darwinian (evolutionary medicine) examination of illness. Students will explore, assess, and solve real world problems through critical-thinking assignments that solidify understanding of the scientific method.

**Prerequisite:** ANT 3514C or BSC 2011/2011L.

**ANT 4552 Primate Behavior 3 Credits**

**Grading Scheme:** Letter Grade

Deals with concepts of primate behavior, including ecology, diversity, and sociality. Investigates the interconnection of ecology and behavior, with implications for the origins of human behavior. Gain practical skills in conducting scientific methods collecting primate behavioral data and be guided in a stepwise process.

**Prerequisite:** ANT 3555 or ANT 3514C, or permission from instructor.

**Attributes:** Satisfies 6000 Words of Writing Requirement

**ANT 4554C Primate Evolution 3 Credits**

**Grading Scheme:** Letter Grade

Survey of primate evolution from Paleocene through Miocene epochs. Methods of paleontological inference. Emphasis on problems of taxonomy, phylogeny, biogeography and functional morphology in the fossil record.

**Prerequisite:** ANT 3514C or instructor permission.

**ANT 4586 Human Evolution 3 Credits**

**Grading Scheme:** Letter Grade

This course surveys the evidence for the evolution of humankind. Emphasis is placed on the late Miocene to Pleistocene human fossil record and its interpretation. Basic principles of geology, systematics, evolutionary theory, functional morphology, and phylogenetic reconstruction are introduced and used to aid in understanding the human fossil and archaeological records. (B)

**Prerequisite:** ANT 3514C or the equivalent.

**Attributes:** General Education - Biological Science

**ANT 4740 Introduction to Forensic Science 3 Credits**

**Grading Scheme:** Letter Grade

Basic concepts and topics in forensic science, medicine and criminalistics. Also provides basic understanding of the fundamental concepts of scientific methodology.

**ANT 4824 Field Sessions in Archaeology 6 Credits**

**Grading Scheme:** Letter Grade

Excavation of archaeological sites, recording of data, laboratory handling and analysis of specimens, and study of the theoretical principles which underlie field methods and artifact analysis.

**Prerequisite:** 6 credits of anthropology or instructor permission.

**ANT 4851 Digital Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

Investigation into how our emerging digital environment is affecting humans and societies. The study of digital technologies in comparative cultural contexts. Analysis of digital technology as a form of material culture. Introduction to theoretical perspectives on digital phenomena and the applications of these technologies in anthropology and other disciplines.

**Prerequisite:** one 2000 or 3000 level ANT, LAS, or AFS course or instructor permission.

**ANT 4852 Applying GIS in Archaeological Research 3 Credits**

**Grading Scheme:** Letter Grade

Examines use of Geographic Information Systems (GIS) for management and analysis of geospatial data in anthropology, experimenting with methods and critically examining case studies. Covers both methodology (collecting data in the field, using publicly-available data; integrating and querying them in a GIS) and theory (the nature of spatial data; scales and topics of analysis). Also examines selected case studies and considers critiques that have been leveled at GIS and spatial analysis.

**Prerequisite:** ANT 2140.

**ANT 4905 Individual Work 1-5 Credits**

**Grading Scheme:** Letter Grade

Individual, supervised research on a specific topic in anthropology.

**Prerequisite:** instructor permission.

**ANT 4907 Research Projects in Anthropology 1-5 Credits**

**Grading Scheme:** Letter Grade

For students undertaking directed research in supplementary or regular coursework or on special problems.

**Prerequisite:** instructor permission.

**ANT 4911 Undergraduate Research in Anthropology 0-3 Credits**

**Grading Scheme:** Letter Grade

Course provides firsthand, supervised research in Anthropology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Anthropology.

**ANT 4914 Department Honors in Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

Open to students meeting department honors criteria and normally taken in the senior year. Students will develop special interests and write an essay based upon this research.

**Prerequisite:** undergraduate coordinator permission.

**ANT 4930 Special Topics in Anthropology 3-5 Credits**

**Grading Scheme:** Letter Grade

Rotating content in anthropology.

**Prerequisite:** 10 credits in anthropology or instructor permission. With permission, can be repeated with change in content up to 9 credits.

**ANT 4931 Capstone in Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

Capstone course for anthropology majors focusing on the integration of core knowledge from the subfields of anthropology and their application to historical and contemporary topics. Explores application of anthropological knowledge for both pre-professional development and non-professional careers.

**Prerequisite:** Senior standing in anthropology.

**ANT 4956 Overseas Studies in Cultural Anthropology 3-9 Credits**

**Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved UF study abroad program can be recorded on the UF transcript and counted toward graduation.

**Prerequisite:** undergraduate advisor permission.

---

## Applied Physiology and Kinesiology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Department of Applied Physiology & Kinesiology (APK) studies the immediate and lasting effects of exercise and its use in performance enhancement and disease prevention and rehabilitation.

**Website** (<http://hhp.ufl.edu/about/departments/apk/>)

### Curriculum

- Applied Physiology and Kinesiology

## Courses

**APK 1002 Body Basics: An Introduction to Human Anatomy and Physiology 3 Credits**

**Grading Scheme:** Letter Grade

This introductory integrated anatomy and physiology course covers a broad range of basic biological and physiology concepts in the context of the human body. The presented concepts provide a basis for understanding the relations between structure and function from the chemical to organismal levels.

**APK 2100C Applied Human Anatomy with Laboratory 4 Credits****Grading Scheme:** Letter Grade

Study of general anatomy of the human body from a systematic approach. Understanding anatomical terminology, gross structures, and locations of different body structures are primary concerns. Cells, tissues and organs of the integumentary, skeletal, muscular, nervous, circulatory, respiratory, digestive, urinary and reproductive systems are emphasized. (B)

**Attributes:** General Education - Biological Science**APK 2105C Applied Human Physiology with Laboratory 4 Credits****Grading Scheme:** Letter Grade

Introduces body functions at the cellular, tissue, organ and systems level with emphasis on the mechanisms of operation. Designed for students interested in pursuing study in the health professions. (B)

**Prerequisite:** sophomore standing or higher.**Attributes:** General Education - Biological Science**APK 3110C Physiology of Exercise and Training 3 Credits****Grading Scheme:** Letter Grade

Survey in exercise physiology which provides an overview of the acute and chronic responses to exercise. Particular attention is placed on understanding muscle bioenergetics and metabolism as well as the cardiopulmonary responses to exercise. Special topics include exercise testing, training technologies and exercise in hot and cold environments.

**Prerequisite:** APK 2105C or (BSC X094+L or BSC X086+L or PET X322+L or PCB 3703C) with minimum grades of C; junior standing or above; Applied Physiology & Kinesiology majors only.**APK 3113C Principles of Strength and Conditioning 3 Credits****Grading Scheme:** Letter Grade

For those interested in becoming certified personal trainers (NSCA-PT) or certified strength and conditioning specialists (CSCS) through the National Strength and Conditioning Association.

**Prerequisite:** APK 2100C and (APK 2105C or BSC X094+L or BSC X086+L or PET X322+L or ZOO 3733C and PCB 3703C) with minimum grades of C.**APK 3163 Sport Nutrition 3 Credits****Grading Scheme:** Letter Grade

Addresses the aspects of nutrition that are related to exercise performance. Emphasis is on bioenergetic systems, nutrient components, nutritional and body composition assessments, ergogenic aids and diet modifications for physically active individuals and athletes.

**Prerequisite:** HUN 2201 and (APK 2105C or BSC X094+L or BSC X086+L or PET X322+L or PCB 3703C).**APK 3200 Motor Learning 3 Credits****Grading Scheme:** Letter Grade

Provides background for understanding, analyzing and teaching skills in sports and dance. Attention to specific aspects of psychomotor developments and theoretical models of skill acquisition.

**Prerequisite:** junior standing or higher and Applied Physiology and Kinesiology major.**APK 3220C Biomechanical Basis of Movement 3 Credits****Grading Scheme:** Letter Grade

Fundamentals of kinematics and kinetics related to human movement. Basics of biomechanics applied to the concepts of injury prevention and performance improvement. Overview of various biomechanical data collection and analysis.

**Prerequisite:** ((APK 2100C or BSC X094+L or BSC X086+L or PET X322+L or ZOO 3733X) and MAC 1140 or MAC 1147 or MAC 2311 or MAC 2312 with a minimum grade of C) OR (PHY 2048 or PHY 2053 with a minimum grade of C).**APK 3400 Introduction to Sport Psychology 3 Credits****Grading Scheme:** Letter Grade

Provides an understanding of the science and practice of sport psychology from both a theoretical and applied perspective. The primary emphasis is on the educational and performance enhancement roles of the field with little discussion of clinical issues.

**Prerequisite:** junior or senior standing.**APK 3405 Exercise Psychology 3 Credits****Grading Scheme:** Letter Grade

Introduces exercise psychology. Topics include the effects of exercise on psychological well-being, exercise adherence and intervention from both theoretical and applied perspectives.

**Prerequisite:** junior or senior standing.**APK 4050 Research Methods 3 Credits****Grading Scheme:** Letter Grade

Provides an understanding of basic research methods and techniques used in applied physiology and kinesiology. Students will demonstrate their knowledge of the course materials by analyzing, interpreting and summarizing research writing in professional journals and by planning a research study.

**Prerequisite:** APK major with 3, 4, 6 or 7 classification.

**APK 4101 Fundamentals of Skeletal Muscle 3 Credits**

**Grading Scheme:** Letter Grade

Provides a comprehensive background of skeletal muscle properties, focusing on key aspects of function at the protein, cellular, and whole organ level. Major topics include muscle contraction and force generation, fuel sources and energy utilization, growth and development, and an introduction to pathology.

**Prerequisite:** (APK 2105C or BSC X094+L or BSC X086+L or PET X322+L or PCB 3703C with a minimum grade of B) and junior standing or higher.

**APK 4103C Kinetic Anatomy 3 Credits**

**Grading Scheme:** Letter Grade

Provides in-depth coverage of musculoskeletal anatomy as a foundation for learning components of simple and complex motor tasks; emphasizes proper execution and analysis of joint movement and common exercises.

**Prerequisite:** (APK 2100C or BSC X094+L or BSC X086+L or PET X322+L or ZOO 3733C) and APK 3220C.

**APK 4112 Advanced Exercise Physiology 3 Credits**

**Grading Scheme:** Letter Grade

Provides a detailed understanding of acute and chronic responses to exercise. Particular attention is placed upon understanding the physiological responses to exercise at both a systems and cellular level. Emphasis is placed on muscle contractile properties, muscle bioenergetics and the endocrine responses to exercise.

**Prerequisite:** APK 3110C with minimum grade of C.

**APK 4115 Neuromuscular Aspects of Exercise 3 Credits**

**Grading Scheme:** Letter Grade

Provides an in-depth analysis of muscle structure and function; how muscles produce movement; adaptation of muscle to resistance training, endurance training and various manipulations used in rehabilitations; adaptation of muscle to disuse; and muscle responses to injury.

**Prerequisite:** APK 3110C with minimum grade of C.

**APK 4120 Clinical Exercise Physiology 3 Credits**

**Grading Scheme:** Letter Grade

Provides an understanding of recent advances in exercise physiology and exercise prescription for clinical populations. Particular attention is placed upon the study of acute and chronic responses to exercise in patients with cardiac, pulmonary, metabolic and musculoskeletal diseases.

**Prerequisite:** APK 3110C with minimum grade of C.

**APK 4125C Physical Fitness Assessment and Exercise Prescription 3 Credits**

**Grading Scheme:** Letter Grade

Techniques of assessing physical fitness using traditional and state of the art processes. Techniques of prescribing exercise programs based upon assessments of physical parameters. Supervised practical lab experiences in assessment and prescription in a clinical setting.

**Prerequisite:** APK 3110C with minimum grade of C and Health and Human Performance major.

**APK 4144 Movement Neuroscience 3 Credits**

**Grading Scheme:** Letter Grade

Covers both anatomical and physiological aspects of movement-related components of the nervous system from a functional perspective. Topics include: neuronal signaling; somatosensation; proprioception; nociception; vision and eye movements; audition; lower vs. upper motor neurons; cortical, basal ganglia and cerebellar regulation of movement; and posture.

**Prerequisite:** (APK 2100C and APK 2105C or BSCX094+L or BSCX086+L or PETX322+L or ZOO 3733c and PCB 3703c with minimum grades of C) and (sophomore standing or higher) and Applied Physiology and Kinesiology major.

**APK 4905C Variable Topics in Exercise and Sport Sciences 1-6 Credits**

**Grading Scheme:** Letter Grade

Offered upon request to meet special interests that are not adequately provided in other courses.

**Prerequisite:** department chair permission.

**APK 4912 Undergraduate Research 0-5 Credits**

**Grading Scheme:** S/U

Provides APK students the opportunity for involvement in supervised research experiences. "Research" is operationally defined here as mentored, but self-directed work that enables students to explore an issue of interest to them and to communicate the results to others. (S-U)

**APK 4940C Internship 12 Credits**

**Grading Scheme:** S/U

Internship in applied physiology and kinesiology. (S-U)

**Prerequisite:** department permission.

**APK 4943 Teaching Experience in APK 0-1 Credits**

**Grading Scheme:** S/U

Experience teaching as an undergraduate assistant; responsibilities meet the needs of the particular course and instructor, including, but not limited to, giving short lectures, holding study/discussion sections, grading, and helping with exam/quiz/assignment preparation and proctoring. (S-U)

**Prerequisite:** instructor permission.

**ATR 2010C Prevention and Care of Athletic Injuries 3 Credits**

**Grading Scheme:** Letter Grade

Prevention of athletic injuries, including protective equipment, safe facilities and proper supervision of practice and contests. Recognition, referral and follow-up of injuries in athletics. Legal implications of athletic training.

**Prerequisite:** APK 2100C or BSCX094+L or BSCX086+L or PETX322+L or ZOO 3733c and Applied Physiology and Kinesiology major.

**ATR 3102 Principles of Athletic Training 4 Credits**

**Grading Scheme:** Letter Grade

Provides the student with knowledge of basic principles of athletic training, including prevention, recognition and treatment of athletic injuries.

Addresses the proper application of protective equipment, bracing/wrapping/taping techniques utilized by athletic trainers and introduces emergency management skills appropriate for sport.

**Prerequisite:** admission to the athletic training specialization.

**ATR 4018 Professionalism and Communication in Sports Healthcare 3 Credits**

**Grading Scheme:** Letter Grade

Foundational knowledge in professionalism, inter-professional cooperation, cultural competence, client interactions, and basic legal concepts related to sport and exercise.

**Prerequisite:** APK majors with junior standing.

**ATR 4112C Emergency Management of Athletic Trauma 3 Credits**

**Grading Scheme:** Letter Grade

Learn to recognize, assess, treat, and refer traumatic injury and acute emergent illness.

**Prerequisite:** Athletic Training major.

**ATR 4212C Athletic Injury Assessment: Upper Extremity 4 Credits**

**Grading Scheme:** Letter Grade

Provides background information to conduct a thorough initial evaluation of upper extremity injuries commonly sustained by the physically active population.

**Prerequisite:** ATR 3102 with minimum grade of C and admission to the athletic training specialization.

**ATR 4213C Athlete Injury Assessment: Lower Extremity 4 Credits**

**Grading Scheme:** Letter Grade

Provides background information to conduct a thorough initial evaluation of lower extremity injuries commonly sustained by the physically active population.

**Prerequisite:** ATR 4212C with minimum grade of C.

**ATR 4302C Therapeutic Modalities in Athletic Training 4 Credits**

**Grading Scheme:** Letter Grade

Introduces physiological principles, concepts and operational procedures of contemporary therapeutic modalities as they relate to the care and treatment of athletic injuries.

**Prerequisite:** ATR 3102 with minimum grade of C and admission to the athletic training specialization.

**ATR 4314C Rehabilitation Techniques in Athletic Training 4 Credits**

**Grading Scheme:** Letter Grade

Introduces the concepts and principles of a comprehensive rehabilitation program including determination of therapeutic goals and objectives, selection of therapeutic exercises, methods of evaluating and recording rehabilitation progress, development of criteria for progress and return to competition and the physiological effects of trauma/wound healing and inactivity/immobilization.

**Prerequisite:** ATR 4302C with minimum grade of C.

**ATR 4315 Functional Sport Conditioning 3 Credits**

**Grading Scheme:** Letter Grade

Enhances knowledge in design and implementation of functional exercise techniques as it relates to injury rehabilitation. Nutritional considerations for the injured athlete and proper design of the pre and post event meal planning for optimal performance and recovery are also covered.

**Prerequisite:** ATR 4314C.

**ATR 4432 Clinical Pathology and Pharmacology 3 Credits**

**Grading Scheme:** Letter Grade

Provides a thorough understanding of injury, illness and/or disease of various body systems; addresses specific understanding of medical diagnostics, interventions (including pharmacology) and participation considerations for the athletic population.

**Prerequisite:** ATR 4822 with minimum grade of C.

**ATR 4512 Athletic Training Administration 3 Credits**

**Grading Scheme:** Letter Grade

In-depth background of the standards, policies and practices of organization, supervision and administration of athletic training programs.

**Prerequisite:** ATR 4832 with minimum grade of C; athletic training seniors only.

**ATR 4812 Athletic Training Clinical Experience 1 4 Credits**

**Grading Scheme:** Letter Grade

Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.

**Prerequisite:** ATR 3102 with minimum grade of C and admission to the athletic training specialization.

**ATR 4822 Athletic Training Clinical Experience 2 4 Credits**

**Grading Scheme:** Letter Grade

Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.

**Prerequisite:** ATR 4812 with minimum grade of C.

**ATR 4832 Athletic Training Clinical Experience 3 4 Credits**

**Grading Scheme:** Letter Grade

Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.

**Prerequisite:** ATR 4822 with minimum grade of C.

**ATR 4842 Athletic Training Clinical Experience 4 4 Credits**

**Grading Scheme:** Letter Grade

Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.

**Prerequisite:** ATR 4832 with minimum grade of C.

**BSC 3096 Human Physiology 3 Credits**

**Grading Scheme:** Letter Grade

Functioning of human tissues, organs and organ systems, emphasizing the physical, chemical and mechanistic bases of normal physiology and the integrated function of the human body. Also introduces pathophysiological changes associated with human diseases.

**Prerequisite:** (CHM 1031 or CHM 2046 or CHM 2047) and BSC 2011.

**HLP 4933 Variable International Topics 1-6 Credits**

**Grading Scheme:** Letter Grade

Provides the opportunity to study in a wide range of cultural settings.

**PET 4948C Practicum in Exercise and Sport Sciences 1-5 Credits**

**Grading Scheme:** Letter Grade

Practical experience in such specialty areas as adult fitness programs, health clubs, exercise testing laboratories, clinical laboratories and athletic training rooms. May include senior thesis with oral defense.

**Prerequisite:** department chair permission.

---

## Arabic | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

**Website** (<https://languages.ufl.edu/>)

- Arabic
- Arabic Language and Literature Minor
- Chinese
- Combination Degrees
- Dual Languages
- East Asian Languages and Literatures Minor
- Foreign Languages and Literatures
- French and Francophone Studies
- French and Francophone Studies Minor
- German
- German Minor
- German Minor UF Online
- Hebrew
- Hebrew Minor
- Italian
- Italian Studies Minor
- Japanese
- Russian
- Russian and East-European Area Studies Certificate
- Russian Minor

---

## Courses

### ABT 3130 Arabic Literary Heritage 1 3 Credits

**Grading Scheme:** Letter Grade

A survey of classical Arabic literature in translation. Covers pre-Islamic poetry and early Islamic poetry, Omayyad, Abbasid and Andalusian literatures. All readings in English. (H and N) (WR)

**Attributes:** General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

### ABT 3500 Arabic Culture 3 Credits

**Grading Scheme:** Letter Grade

Introduction to Arabic culture with special reference to art, literature, religion and society. Emphasis on Arab contributions to philosophy, medicine, mathematics and architecture. All readings in English. (H and N) (WR)

**Attributes:** General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

### ABT 4131 The Qur'an as Literature 3 Credits

**Grading Scheme:** Letter Grade

Approaches the Qur'an from a literary standpoint by examining its history, structure, style, major themes, and impact on Arabic literature, Islamic thought, and Muslim culture.

**Prerequisite:** ARA 1131 or ABT 3500 or REL 2000 or REL 2362 or REL 4361 or senior standing.

### ARA 1130 Beginning Arabic 1 5 Credits

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading, and writing.

### ARA 1131 Beginning Arabic 2 5 Credits

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** ARA 1130 with minimum grade of C or the equivalent.

### ARA 2220 Intermediate Arabic 1 4 Credits

**Grading Scheme:** Letter Grade

Continuation of the study of standard Arabic language. Develops reading, writing, listening and speaking skills and helps with comprehension of written and audio texts. Students can use their knowledge of the Arabic language to clearly express their personal views in a meaningful and well-structured language.

**Prerequisite:** ARA 1131 with minimum grade of C or the equivalent.

**ARA 2221 Intermediate Arabic 2 4 Credits**

**Grading Scheme:** Letter Grade

Continues the study of Arabic language at the intermediate level. Emphasizes developing reading comprehension, writing, listening and speaking, and vocabulary and grammar.

**Prerequisite:** ARA 1131 with minimum grade of C or the equivalent.

**ARA 3241 Spoken Arabic 3 Credits**

**Grading Scheme:** Letter Grade

Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.

**Prerequisite:** ARA 2221.

**ARA 3410 Advanced Arabic 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures.

**Prerequisite:** ARA 2221 with minimum grade of C or the equivalent.

**ARA 3411 Advanced Arabic 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study.

**Prerequisite:** ARA 3410 with minimum grade of C or the equivalent.

**ARA 3510 The Arab Woman 3 Credits**

**Grading Scheme:** Letter Grade

Examines the role and status of Arab women in their respective societies; specifically examines the internal dynamic of Arab culture that influences the role of the Arab woman. (H and N OR S and N) (WR)

**Attributes:** General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**ARA 4400 Fourth Year Arabic 1 3 Credits**

**Grading Scheme:** Letter Grade

Development to an advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic.

**Prerequisite:** ARA 3411 or the equivalent.

**ARA 4401 Fourth Year Arabic 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of ARA 4400. Development of a more advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic.

**Prerequisite:** ARA 4400 or the equivalent.

**ARA 4420 Arabic through the Texts 3 Credits**

**Grading Scheme:** Letter Grade

For advanced students of Arabic. Teaches the more complex grammar, idiomatic expressions and sophisticated stylistic forms of the language.

Required for the Arabic minor.

**Prerequisite:** ARA 3410.

**ARA 4822 Arabic Sociolinguistics 3 Credits**

**Grading Scheme:** Letter Grade

Focus on the relationship between language and society in the Arab world. An examination of the different varieties of Arabic and the relation between linguistic variation and other social variables, such as ethnicity, religion, urbanization, social class, gender, power and ideology.

**Prerequisite:** ARA 1131 or LIN 3010.

**ARA 4850 Structure of Standard Arabic 3 Credits**

**Grading Scheme:** Letter Grade

Describes and analyzes the sound system, word structure, and sentence structure of Arabic.

**Prerequisite:** ARA 1131 or LIN 3010.

**ARA 4905 Individual Study 1-5 Credits**

**Grading Scheme:** Letter Grade

For those who seek independent work not offered in another course.

**Prerequisite:** instructor permission.

**ARA 4930 Special Topics 3 Credits**

**Grading Scheme:** Letter Grade

One of the core courses in the Middle Eastern languages and cultures major offered through interdisciplinary studies. Also useful for students in linguistics, religion, Arabic, Hebrew, and Jewish studies.

**Prerequisite:** one year of Hebrew or equivalent, one year of Arabic or equivalent, LIN 3010 or equivalent, or instructor permission.

**ARA 4956 Overseas Studies 1 1-15 Credits****Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

**Prerequisite:** undergraduate advisor permission.

---

## Architecture

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The School of Architecture recognizes design as a synthesis of thinking, analyzing and making — an iterative process that engages, issues of space, historical precedent, sustainability, ecology, urbanity, landscape, built-form, and construction toward innovation. The School of Architecture is uniquely positioned to respond to these issues by deploying studio based design methodologies in collaboration with a new generation of experts in engineering, ecology, business, anthropology, energy, fine arts, medicine, and construction.

## Courses

**ARC 1000 Architecture and Humanity 3 Credits****Grading Scheme:** Letter Grade

Introduces the issues and opportunities derived through actively engaging the sustainable and ethical design of the environments in which we live: urban, landscape and architectural. (H)

**Attributes:** General Education - Humanities**ARC 1002C Introduction to Architecture 3 Credits****Grading Scheme:** Letter Grade

An introduction to the principles of architectural design. The course includes project-based exercises, lectures, and discussions.

**ARC 1101 Places and Spaces 3 Credits****Grading Scheme:** Letter Grade

Places and Spaces examines the manner in which humankind has shaped its world while framing particular relationships with Nature. Places and Spaces asks: what does it mean to make a mark upon the land? What does it mean to dwell, and what do the Places we inhabit mean to us?

**Prerequisite:** Restricted to degree-seeking undergraduates.**Attributes:** Quest 1, General Education - Humanities, General Education - International**ARC 1301 Architectural Design 1 4 Credits****Grading Scheme:** Letter Grade

Introduces interfacing communication skills with design thinking. Emphasizes awareness and understanding of basic organization ideas in design.

**Prerequisite:** (architecture or interior design or landscape architecture major) or college advising center permission.**ARC 1302 Architectural Design 2 4 Credits****Grading Scheme:** Letter Grade

An analysis course that uses the study of architectural precedent as a foundation for the development of communication and design skills.

**Prerequisite:** ARC 1301.

**ARC 1701 Architectural History 1 3 Credits**

**Grading Scheme:** Letter Grade

General survey of social, political, and cultural factors that have generated art and architecture. (H and N) (WR)

**Prerequisite:** architecture major.

**Attributes:** General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

**ARC 1702 Architectural History 2 3 Credits**

**Grading Scheme:** Letter Grade

A survey of the history of architecture from 1400 to 1850. Lectures examine the effects of social, political, material, technological and cultural forces on the design and construction of the built environment and explore the role of the architect in civil society. Emphasizes the theoretical positions of the architects and architectural schools. (H and N)

**Prerequisite:** architecture major.

**Corequisite:** ARC 1301 or ARC 4072.

**Attributes:** General Education - Humanities, General Education - International

**ARC 1720 Survey of Architecture History 3 Credits**

**Grading Scheme:** Letter Grade

A survey of monumental buildings and their embodied architectural intentions from the pre-historical ages to the current age. Demonstrating interactive relationships between form and idea in architecture throughout history across cultural and regional differences. (H and N) (WR)

**Prerequisite:** non-architecture majors only.

**Attributes:** General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

**ARC 2180 Introduction to Digital Architecture 3 Credits**

**Grading Scheme:** Letter Grade

Introduces computer-aided design programs currently utilized by professional practices.

**Prerequisite:** architecture majors only;

**Corequisite:** ARC 2303 or ARC 4071.

**ARC 2201 Theory of Architecture 1 3 Credits**

**Grading Scheme:** Letter Grade

Critical study of the processes that influence the form and image of architecture with an emphasis on an understanding of ordering principles and concepts of how space and architecture systems are interrelated. (H)

**Prerequisite:** architecture major.

**Corequisite:** ARC 2303 or ARC 4071.

**Attributes:** General Education - Humanities

**ARC 2303 Architectural Design 3 5 Credits**

**Grading Scheme:** Letter Grade

Studio course explores the influence of history and culture on design decision-making.

**Prerequisite:** ARC 1302.

**ARC 2304 Architectural Design 4 5 Credits**

**Grading Scheme:** Letter Grade

Explores context as a generator of architectural design ideas. Contemporary cultural influences also are examined and incorporated in the design process.

**Prerequisite:** ARC 2303.

**ARC 2461 Materials and Methods of Construction 1 3 Credits**

**Grading Scheme:** Letter Grade

The nature of materials used in construction. Criteria for evaluation and selection related to design decision-making.

**Prerequisite:** architecture major.

**Corequisite:** ARC 2304.

**ARC 2490C Intro to Building Technologies 3 Credits**

**Grading Scheme:** Letter Grade

This is the first course in a multiple-course sequence that addresses the relationship between building technologies and design thinking. This class will introduce fundamental concepts of materials and methods relative to building design and construction. It will also offer digital design modules that will develop problem-solving and representational skills.

**Corequisite:** ARC 2303.

**ARC 2491C Integrated Building Tech 1 3 Credits**

**Grading Scheme:** Letter Grade

As the second course in a multi-year integrated building technology sequence, there will be an emphasis on further developing components of materials and methods, digital design and on the introduction of environmental design that will increase the student's understanding of the impact of context and building technologies on design decisions.

**Prerequisite:** ARC 2490C;

**Corequisite:** ARC 2304.

**ARC 3181 Advanced Topics in Digital Architecture 3 Credits**

**Grading Scheme:** Letter Grade

Continued investigation of computer-aided design programs currently utilized by professional practices.

**Prerequisite:** ARC 2180.

**ARC 3291 Special Studies in Architecture 1-6 Credits**

**Grading Scheme:** Letter Grade

Special studies in architecture adjusted to individual needs of undergraduate students.

**Prerequisite:** completion of lower division in architecture and recommendation of advisor.

**ARC 3320 Architectural Design 5 6 Credits**

**Grading Scheme:** Letter Grade

Architectural design and its relationship to regional contextual influences are investigated through a range of projects which vary in scale and complexity.

**Prerequisite:** ARC 2304.

**ARC 3321 Architectural Design 6 6 Credits**

**Grading Scheme:** Letter Grade

Architectural design within a large scale urban context. Theory, methodology and evolution of urban form in response to social, cultural, economic and technological forces.

**Prerequisite:** ARC 3320.

**ARC 3463 Materials and Methods of Construction 2 3 Credits**

**Grading Scheme:** Letter Grade

Methods of assembling and selecting materials; detailed systems of construction are investigated.

**Corequisite:** ARC 4323 or ARC 4073.

**ARC 3492C Integrated Building Tech 2 6 Credits**

**Grading Scheme:** Letter Grade

As the third course in a multi-year integrated building technology sequence, there will be an emphasis on further developing components of environmental design, materials and methods, and building structures, in addition to a digital design module that will concurrently develop student abilities to problem solve and represent ideas.

**Prerequisite:** ARC 2491C;

**Corequisite:** ARC 3320.

**ARC 3493C Integrated Building Tech 3 6 Credits**

**Grading Scheme:** Letter Grade

As the fourth course in a multi-year integrated building technology sequence, there will be an emphasis on further developing components of environmental design, materials and methods, and digital design skills that will allow students to apply their knowledge to mid-rise buildings of increasing complexity.

**Prerequisite:** ARC 3492C;

**Corequisite:** ARC 3321.

**ARC 3503 Introduction to Architectural Structures 3 Credits**

**Grading Scheme:** Letter Grade

A foundation course that investigates principles of structural behavior in withstanding gravity and lateral forces; consider structural layout, load distribution and preliminary design techniques; and examines contemporary structural systems through case studies emphasizing trussed, framed, funicular and shell structural systems.

**Prerequisite:** PHY 2004 or PHY 2053;

**Corequisite:** ARC 3320 or ARC 4073.

**ARC 3610 Environmental Technology 1 3 Credits**

**Grading Scheme:** Letter Grade

Principles and practices relating to control of the thermal/atmospheric environment and to plumbing in buildings.

**Corequisite:** ARC 3321 or ARC 4074.

**ARC 3743 Architectural History 3 3 Credits**

**Grading Scheme:** Letter Grade

A survey of the history of architecture from 1850 to present. Lectures examine the effects of social, political, material, technological and cultural forces on the design and construction of the built environment and explore the role of the architect in civil society. Emphasizes the theoretical positions of the architects and architectural schools.

**Prerequisite:** architecture major.

**Corequisite:** ARC 3320.

**ARC 3880 Sustainable Architecture 3 Credits**

**Grading Scheme:** Letter Grade

How environmentalism informs architectural discourses and how discourses on the built environment and urbanism impact environmentalism globally.

**Prerequisite:** junior standing or higher or instructor permission.

**ARC 4071 Core Studio 1 6 Credits**

**Grading Scheme:** Letter Grade

Introduces a variety of design techniques, including design theory, three-dimensional development and spatial relationships.

**ARC 4072 Core Studio 2 6 Credits**

**Grading Scheme:** Letter Grade

Continuation of core studio sequence with increased emphasis on manipulation of architectural elements.

**Prerequisite:** ARC 4071.

**ARC 4073 Core Studio 3 6 Credits**

**Grading Scheme:** Letter Grade

Continuation of core studio sequence with studio projects related to program development, structural integration, energy analysis and introduction to mechanical integration systems.

**Prerequisite:** ARC 4072.

**ARC 4074 Core Studio 4 6 Credits**

**Grading Scheme:** Letter Grade

Continuation of core studio sequence with increased emphasis on complex building types.

**Prerequisite:** ARC 4073.

**ARC 4220 Architectural Theory 2 3 Credits**

**Grading Scheme:** Letter Grade

Investigates the theoretical, historical and ideological ideas in architecture that took place during the early decades of the twentieth century.

**Corequisite:** ARC 4322 or ARC 6241.

**ARC 4310C Building Information Modeling 3 Credits**

**Grading Scheme:** Letter Grade

Emerging technology in building information modeling (BIM) in the context of architectural design development and documentation. Theoretical and technological evolution of different typologies of software with hands-on experience designing and modeling with BIM software.

**Prerequisite:** ARC 2180.

**ARC 4322 Architectural Design 7 6 Credits**

**Grading Scheme:** Letter Grade

Emphasizes the notion of control over architectural design processes needed to arrive at solutions that respond to needs through appropriate use of program development and construction technology. Course emphasizes the complete building as a final product and focuses on the urban and suburban housing project.

**Prerequisite:** ARC 3321.

**ARC 4323 Architectural Design 8 6 Credits**

**Grading Scheme:** Letter Grade

Architecture designs focus on architectural detail and articulation. An investigation of landscape provides the context for this study.

**Prerequisite:** ARC 4322.

**ARC 4494C Integrated Building Tech 4 3 Credits**

**Grading Scheme:** Letter Grade

Emphasizes the development of structures, materials, and methods, and environmental design skills that apply to high-rise, long-span, and large-scale building design. Provides focus to both the technical knowledge of macro-scale design-drivers and the detail implications of structure, environmental performance, and building assemblies.

**Prerequisite:** ARC 3493C Integrated Building Technology 3;

**Corequisite:** ARC 4322 Architecture Design 7.

**ARC 4511 Structural Modeling 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the fundamentals of structural modeling including building information modeling (BIM), digital design, and approximate systems analysis and detailing for architectural structures. Students will learn how to efficiently implement building information modeling to organize, coordinate and communicate information to convey data necessary for structural systems.

**Prerequisite:** ARC 3503.

**ARC 4620 Environmental Technology 2 3 Credits**

**Grading Scheme:** Letter Grade

Fundamentals of architectural lighting, acoustics, electrical power distribution and building communications.

**Corequisite:** ARC 4322 or ARC 6241.

**ARC 4684 LEED for Sustainable Design and Construction 3 Credits****Grading Scheme:** Letter Grade

Campus projects demonstrate design and construction of high performance buildings and application of green building technologies. Economics and market development associated with the application of green building rating systems, with a focus on LEED. Successful completion helps prepare for LEED V4 Green Associate exam credentials.

**Prerequisite:** junior standing or higher.**ARC 4882 Vernacular Architecture and Sustainability 3 Credits****Grading Scheme:** Letter Grade

Investigates vernacular architecture in the discourse of architectural sustainability with an emphasis on the way that vernacular architecture has been constructed, represented and consumed in the environmental histories of architecture.

**Prerequisite:** junior standing or higher or instructor permission.**ARC 4930 Special Topics Seminar in Architecture 1-6 Credits****Grading Scheme:** Letter Grade

Miscellaneous topics in architecture and related fields.

**Prerequisite:** junior standing or higher or instructor permission.**ARC 4941 Architectural Education 2 Credits****Grading Scheme:** Letter Grade

Provides an awareness of curriculum development, project preparation, program/project presentation, constructive criticism and evaluation techniques.

**Prerequisite:** ARC 3321.**ARC 4950 Vicenza Institute of Architecture: Italian Language and Culture 3 Credits****Grading Scheme:** Letter Grade

Taught through the Vicenza Institute of Architecture, located in Vicenza, Italy. It is intended for architecture students participating in the VIA program. The course establishes a basic level of competency in Italian language and culture as it relates to the architectural goals of the VIA program.

**Prerequisite:** ARC 3321.**ARC 4951 Vicenza Institute of Architecture: Architectural Design Studio 6 Credits****Grading Scheme:** Letter Grade

Architectural design examining the regional contextual relationships found in northern Italy as well as central and southern Europe. Design exercises focus on the immediate relationships of European urban space, ideas of building program and the potential development of architectural details and material systems.

**Prerequisite:** ARC 3321.**ARC 4952 Vicenza Institute of Architecture: Analytical Sketching 3 Credits****Grading Scheme:** Letter Grade

Introduces sketching as an analytical skill in understanding constructed space within the context of Italy's Veneto region as well as central and southern Europe.

**Prerequisite:** ARC 3321.

---

## Art + Art History

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## School Information

The School of Art + Art History nurtures a culture of critical inquiry in our scholarly and creative work. We empower each individual with knowledge, skills, and insight to engage thoughtfully with our changing world.

## Curriculum

- Art Education Certificate
- Art History
- Art History Minor
- Art Minor
- Art | BA
- Art | BFA
- Ceramics Certificate
- Graphic Design
- Graphic Design Certificate

---

All studio art and photography courses, except where noted as non-major courses, are restricted to majors in the School of Art and Art History. Non-majors wishing to register for 2000-level courses need to consult with the undergraduate advisor to determine possibilities of enrolling in art courses. Each semester the school offers non-major courses in ceramics and some other media.

## Courses

### ARE 2045 Introduction to Teaching Art 3 Credits

**Grading Scheme:** Letter Grade

Overview of the art-teaching field. Study of rationales for teaching art, contemporary art teaching practices, community art experiences and alternative career options.

### ARE 2456 Digital Media in Art Education 3 Credits

**Grading Scheme:** Letter Grade

Introduces pre-service art teachers to computer applications in the fields of art and art education. Can substitute for EME 2040.

**Prerequisite:** art education major.

### ARE 4242 Teaching Art: the Study of Practice 3 Credits

**Grading Scheme:** Letter Grade

Studies art-teaching practices in the public schools. Emphasizes art curriculum, planning, art instructional strategies, art room management and methods of evaluation in art.

**Prerequisite:** junior standing or higher and art education major.

### ARE 4243 Principles of Teaching Art 3 Credits

**Grading Scheme:** Letter Grade

Investigates the contemporary issues in art, education and society that impact teaching art in public schools. Theoretical perspectives and practical strategies are explored for developing content and teaching approaches. (H) (WR)

**Prerequisite:** junior standing or higher and art education major.

**Attributes:** General Education - Humanities, Satisfies 4000 Words of Writing Requirement

### ARE 4314 Art Education for Elementary Schools 2-3 Credits

**Grading Scheme:** Letter Grade

Helps the preparing classroom teacher develop a basic knowledge of art and the teaching of art at the elementary level.

**Prerequisite:** second-semester standing in the elementary ProTeach program;

**Corequisite:** ProTeach field experience in the fall and spring semesters.

### ARE 4934C Student Teaching Seminar 1 Credit

**Grading Scheme:** Letter Grade

Addresses various issues and problems associated with student teaching with an emphasis on teaching methods, classroom management and assessment as they arise in actual classroom practice.

**Prerequisite:** senior standing and art major.

**Corequisite:** ARE 4940.

### ARE 4940 Student Teaching in Art Education 4-12 Credits

**Grading Scheme:** S/U

Student-teaching classroom experience in art.

**Prerequisite:** minimum 2.5 GPA and art education major.

### ARH 1003 Masterpieces of Art 3 Credits

**Grading Scheme:** Letter Grade

Provides an appreciation and foundation in visual literacy and introduces students to the special character of the visual arts and to a vocabulary critical to analysis and interpretation of the masterworks of art.

**ARH 2000 Art Appreciation: American Diversity and Global Arts 3 Credits****Grading Scheme:** Letter Grade

Introduces the visual arts from a global perspective with an emphasis on diversity in the United States. (H and D)

**Attributes:** General Education - Diversity, General Education - Humanities**ARH 2002 Introduction to Art: the Artistic Experience 3 Credits****Grading Scheme:** Letter Grade

Introduces the artistic experience through the examination of different ideas, approaches and purposes of art. Not counted toward the major. (H and N)

**Attributes:** General Education - Humanities, General Education - International**ARH 2050 Introduction to the Principles and History of Art 1 3 Credits****Grading Scheme:** Letter Grade

Principles of art and relation of styles to cultural context. Introductory study of art and architecture from ancient times to the end of the Middle Ages. (H and N)

**Attributes:** General Education - Humanities, General Education - International**ARH 2051 Introduction to the Principles and History of Art 2 3 Credits****Grading Scheme:** Letter Grade

Continuation of ARH 2050. Art and architecture from the Renaissance to the present. (H and N)

**Attributes:** General Education - Humanities, General Education - International**ARH 2500 Non-Western Art 3 Credits****Grading Scheme:** Letter Grade

The visual arts seen in the cultural context of Sub-Saharan Africa, the Pacific, Native America, India, China and Japan; prehistoric to recent. (H and N)

**Attributes:** General Education - Humanities, General Education - International**ARH 2510 Introduction to African Art 3 Credits****Grading Scheme:** Letter Grade

Introduces African art by highlighting its diversity and complexity and examines essential methodology to contextualize works of art from across the continent, from ancient history to contemporary times. Critically examines what constitutes the producer, location, object, and temporality of African art and their significance to the broader discipline of art history.

**ARH 2531 Introduction to Asian Art 3 Credits****Grading Scheme:** Letter Grade

Introduces asian art through selected topics, monuments, and specimens of its fine arts and material culture. Also introduces the distinctive artistic traditions of China, Korea, Japan, and India, as well as their historical background, interaction and innovation, similarities and differences, to reach a better understanding of asian art.

**ARH 2613 Introduction to Latin American Art 3 Credits****Grading Scheme:** Letter Grade

Introduces the art of ancient, colonial, and modern Latin America, tracing artistic legacies over 4000 years. Begins with overview of ancient art of Mesoamerica and the Andes, followed by consideration of art of the colonial era. Then addresses art of modern and contemporary Latin America, including Brazil and the Caribbean.

**Attributes:** General Education - Humanities**ARH 2930 Special Topics in Art History 3 Credits****Grading Scheme:** Letter Grade

Special topics in art history. (H)

**Attributes:** General Education - Humanities**ARH 3115 Egyptian and Near Eastern Art 3 Credits****Grading Scheme:** Letter Grade

The art and architecture of Egypt and the Near East from the beginning of civilization until the Persian period. (H and N)

**Prerequisite:** ARH 2050 and (art major or art history minor).**Attributes:** General Education - Humanities, General Education - International**ARH 3130 Greek Art 3 Credits****Grading Scheme:** Letter Grade

The art and architecture of ancient Crete and Greece through the Hellenistic age. (H and N)

**Prerequisite:** (ARH 2050 or CLA 3700) and (art major or art history minor).**Attributes:** General Education - Humanities, General Education - International**ARH 3171 Etruscan and Roman Art 3 Credits****Grading Scheme:** Letter Grade

The art and architecture of the Italian peninsula from the Etruscan period through the Roman Empire. (H and N)

**Prerequisite:** (ARH 2050 or CLA 3700) and (art major or art history minor).**Attributes:** General Education - Humanities, General Education - International

**ARH 3357 Global Baroque Art 3 Credits**

**Grading Scheme:** Letter Grade

Studies Baroque and Rococo art from a global perspective, considering how and why the style appeared in so many regions (even those with no Roman and/or Renaissance heritage) and what its distinct meanings were. Also examines the origins of the concepts of the Baroque and Rococo.

**Prerequisite:** ARH 2050 or ARH 2051.

**ARH 3412 Art in the Age of Revolution 3 Credits**

**Grading Scheme:** Letter Grade

Topics in the late 18th and early 19th century European art, including Neo-Classicism and Romanticism. Works of art are considered in the cultural, political, social and aesthetic contexts in which they were made. Emphasizes the politics of style during this period of revolution and resection. (H) (WR)

**Prerequisite:** ARH 2051 or art major or art history minor.

**Attributes:** General Education - Humanities, Satisfies 2000 Words of Writing Requirement

**ARH 3413 The Beginnings of Modernism 3 Credits**

**Grading Scheme:** Letter Grade

The visual arts in Europe in the second half of the 19th century, focusing on the emergence of an avant-garde and formulation of a modernist aesthetic with reference to industrialized, urban culture, especially in Paris. Addresses Realism, Impressionism and Post-Impressionism. (H) (WR)

**Prerequisite:** ARH 2051 or art major or art history minor.

**Attributes:** General Education - Humanities, Satisfies 2000 Words of Writing Requirement

**ARH 3513 Art, Culture and Power in Africa 3 Credits**

**Grading Scheme:** Letter Grade

Explores the many ways in which power operates through objects in Africa. It examines the symbolic and literal power of royal regalia; the religious/spiritual power of objects used in ritual contexts; and the power that surrounds objects as they are transformed into commodities in international art markets. (WR)

**ARH 3522 Contemporary African Art 3 Credits**

**Grading Scheme:** Letter Grade

Examines contemporary African artistic production and its reception in international markets.

**Prerequisite:** (School of Art + Art History major or minor) or instructor permission.

**ARH 3523 Clothing and Textiles in Africa 3 Credits**

**Grading Scheme:** Letter Grade

Examines the techniques, styles, and cultural contexts of textiles and other elements of dress in Africa, past and present.

**Prerequisite:** (School of Art + Art History major or minor) or instructor permission.

**ARH 3525 The Arts of West Africa 3 Credits**

**Grading Scheme:** Letter Grade

A survey of the traditional arts of the Western Sudan and the Guinea coast. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**ARH 3526 The Arts of Central Africa 3 Credits**

**Grading Scheme:** Letter Grade

Surveys the traditional arts of the equatorial forests, the savannahs to the south of them and portions of Eastern and Southern Africa. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**ARH 3552 Chinese Art and Archaeology 2000 BCE 3 Credits**

**Grading Scheme:** Letter Grade

Art and material culture from the Neolithic to the Tang Dynasty: palaces and tombs, religious art and the rise of new media and technologies. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**ARH 3555 Late Imperial and Modern Chinese Art, 1907 - present 3 Credits**

**Grading Scheme:** Letter Grade

The arts and culture of China from five Dynasties to the present in all media, including architecture, painting, sculpture and luxury crafts. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**ARH 3562 Text and Image in Chinese Art 3 Credits**

**Grading Scheme:** Letter Grade

Studies general art historical theories on the dialectics of text and image into Chinese art history by examining the origins, the early development, and the relationship between the word and image, picture and narrative, diagram and text, and other visual and verbal arts in traditional and modern China.

**Prerequisite:** sophomore standing or higher.

**ARH 3585 The Arts of Oceania 3 Credits**

**Grading Scheme:** Letter Grade

Surveys the visual arts of Oceania (Polynesia, Micronesia, Melanesia) within the context of the cultures that produced them. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**ARH 3610 American Art 3 Credits****Grading Scheme:** Letter Grade

Architecture, painting, sculpture, and decorative arts in Anglo-America from their 17th century beginnings to the end of the 19th century. (H) (WR)

**Prerequisite:** ARH 2051 and (art major or art history minor).**Attributes:** General Education - Humanities, Satisfies 2000 Words of Writing Requirement**ARH 3614 Indigenous Arts of the Colonial Americas 3 Credits****Grading Scheme:** Letter Grade

Examines art created by indigenous people in the Americas during the colonial period, i.e., the centuries postdating 1492. While keeping in mind the European (as well as African and Asian) influences on this art, the course looks at indigenous artworks from native perspectives within their historical contexts of colonialism

**Prerequisite:** Any ARH 2000-level course.**ARH 3620 American Art 1876-1945 3 Credits****Grading Scheme:** Letter Grade

Focuses on painting and sculpture as well as architecture, photography and visual culture. (H) (WR)

**Prerequisite:** ARH 2051 or art major or art history minor.**Attributes:** General Education - Humanities, Satisfies 2000 Words of Writing Requirement**ARH 3622 Introduction to African-American Art 4 Credits****Grading Scheme:** Letter Grade

Introduces the study and appreciation of African-American art.

**Prerequisite:** ARH 2051 or art major or art history minor.**ARH 3631 African American Art 1600 to Present 3 Credits****Grading Scheme:** Letter Grade

Survey of visual arts produced by people of African descent in North America from colonial era to present. (H and D) (WR)

**Prerequisite:** ARH 2051 or art major or art history minor.**Attributes:** General Education - Diversity, General Education - Humanities, Satisfies 2000 Words of Writing Requirement**ARH 3652 Ancient Andean Art 3 Credits****Grading Scheme:** Letter Grade

Art and architecture of Pre-Columbian Lower Central and South America focusing on the Andean Indian civilizations. (H and N)

**Attributes:** General Education - Humanities, General Education - International**ARH 3653 MesoAmerican Art 3 Credits****Grading Scheme:** Letter Grade

Art and architecture of Pre-Columbian civilizations of Mexico and the Maya area from 3000 B.C. until the Spanish Conquest in A.D. 1521. (H and N) (WR)

**Attributes:** General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement**ARH 3661 Latin American Art 3 Credits****Grading Scheme:** Letter Grade

The architecture, painting, sculpture and important minor arts of colonial and modern Latin America. (H and N)

**Prerequisite:** ARH 2051 and (art major or art history minor).**Attributes:** General Education - Humanities, General Education - International**ARH 3664 Colonial Art of New Spain 3 Credits****Grading Scheme:** Letter Grade

Examines the colonial art of Mexico and other territories within the Spanish Viceroyalty of New Spain. Focused on the viceregal period (1535-1821), the course also considers art from the periods of European contact and Spanish conquest and concludes with art from the independence period.

**Prerequisite:** ARH 2051 and (art major or art history minor).**ARH 3665 Colonial Andean Art 3 Credits****Grading Scheme:** Letter Grade

Examines the colonial art of Peru, Ecuador, Bolivia and other territories within the Spanish Viceroyalty of Peru. Focused on the viceregal period (1542-1824), the course also considers art from the periods of European contact and Spanish conquest and concludes with art from the independence period.

**Prerequisite:** ARH 2051 and (art major or art history minor).**ARH 3678 Modern and Contemporary Art from Latin America 3 Credits****Grading Scheme:** Letter Grade

Introduces the modern and contemporary art of latin america with topics such as the emergence and establishment of a modern canon, experimentations in surrealism, neo-concretism, conceptual art, and performance.

**Prerequisite:** sophomore standing or higher.

**ARH 3727 History of American Illustration 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the history of illustration in America from the colonial period to the present. In addition to presenting major illustrators, the course provides artistic, technological and cultural contexts for understanding the functions and meaning of illustration at different historical moments.

**Prerequisite:** ARH 2051 recommended.

**ARH 3800 Criticism of Art 3 Credits**

**Grading Scheme:** Letter Grade

Reviews principal theories in the history of criticism. Analysis and evaluation of works of art. Problems in the criticism of contemporary art. Required for art history majors. (H)

**Prerequisite:** (ARH 2050 and ARH 2051) and (art major or art history minor).

**Attributes:** General Education - Humanities

**ARH 3810 Methods of Research in Art History 3 Credits**

**Grading Scheme:** Letter Grade

Provides sophomore and junior art history majors with a foundational overview of the methods and theories of art history and a practical roadmap for researching and writing an art history paper.

**Prerequisite:** ARH 2050 and ARH 2051 and (Bachelor of Arts or Art History Minor).

**ARH 3871 Gender, Representation and the Visual Arts, 1600-1900 3 Credits**

**Grading Scheme:** Letter Grade

Considers historical and theoretical issues posed for visual media by attention to issues of gender, with particular emphasis on women artists. (H and D) (WR)

**Prerequisite:** ARH 2051 or instructor permission.

**Attributes:** General Education - Diversity, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

**ARH 4112 Artistic Exchange from Baghdad to Toledo, 632-1453 3 Credits**

**Grading Scheme:** Letter Grade

Examines art created by diverse communities centered on the Mediterranean in the long Middle Ages. Focuses particularly on artworks that were produced for or subject to cultural exchange via travel, trade, diplomatic gift, or plunder; and on sites of cultural contact such as Al-Andalus, Norman Sicily, and eastern Anatolia.

**Prerequisite:** ARH 2050.

**ARH 4135 Greek Sculpture 3 Credits**

**Grading Scheme:** Letter Grade

Greek sculpture from its beginnings in the Geometric period through the Hellenistic period. (H and N)

**Prerequisite:** (ARH 2050 or CLA 3700) and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International

**ARH 4155 Romans & Barbarians 3 Credits**

**Grading Scheme:** Letter Grade

Complicates traditional center/periphery and insider/outsider dichotomies by examining both Roman depictions of "Barbarians" in text and image from the Republic through Late Antiquity, and Barbarian depictions of Romans. Examines art from monumental sculpture to small objects such as coins, paying particular attention to dress and its representation as a field of meaning.

**Prerequisite:** ARH 2050.

**ARH 4200 Early Medieval and Byzantine Art 3 Credits**

**Grading Scheme:** Letter Grade

The art and architecture of Europe and the Mediterranean region from approximately the 4th to the 14th centuries A.D. (H and N)

**Prerequisite:** ARH 2050 and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International

**ARH 4251 Romanesque and Gothic Art 3 Credits**

**Grading Scheme:** Letter Grade

Art and architecture of Europe during the Romanesque and Gothic periods. (H and N)

**Prerequisite:** ARH 2050 and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International

**ARH 4304 Italian Renaissance Architecture 3 Credits**

**Grading Scheme:** Letter Grade

The architecture of the Italian Renaissance from the mid-14th century through the mid-16th century. (H and N)

**Prerequisite:** ARH 2050 and ARH 2051 and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International

**ARH 4310 Early Renaissance Art in Italy 3 Credits**

**Grading Scheme:** Letter Grade

Italian art from 1200 to 1500. Emphasis upon painting and sculpture. (H and N)

**Prerequisite:** ARH 2050 and ARH 2051 and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International

**ARH 4312 Late Renaissance Art in Italy 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of ARH 4310. Italian art and architecture from 1460 to 1590. Emphasis on painting and sculpture. (H and N)

**Prerequisite:** ARH 2050 and ARH 2051 and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International

**ARH 4331 Renaissance Art in Northern Europe 3 Credits**

**Grading Scheme:** Letter Grade

Sources and development of late 14th, 15th and 16th century art outside Italy. Emphasis on painting and prints. (H and N)

**Prerequisite:** ARH 2050 and ARH 2051 and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International

**ARH 4332 The Religious Image in the Renaissance and Reformation 3 Credits**

**Grading Scheme:** Letter Grade

Art produced for devotional and liturgical use in the 15th and 16th centuries with particular attention to the period debate over the proper role for images in worship and society. Addresses altar pieces, personal devotion, pilgrimage, iconoclasm and the Reformation.

**Prerequisite:** ARH 2050 and ARH 2051 and (art major or art history minor).

**ARH 4350 Baroque Art in Europe 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of ARH 4311-4331. European art and architecture in the 17th and 18th centuries. Emphasis on painting and sculpture. (H and N)

**Prerequisite:** ARH 2050 and ARH 2051 and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International

**ARH 4352 Baroque Rome 3 Credits**

**Grading Scheme:** Letter Grade

Examines sculptors, painters and architects working in Rome between the period of 1564 and 1750 and considers the art of Bernini, Caravaggio and Borromini and many more major artists who made Rome the art capital of the world in the seventeenth century.

**Prerequisite:** ARH 2050 and ARH 2051 and (art major or art history minor).

**ARH 4356 French Art of the Ancien Regime 1650-1780 3 Credits**

**Grading Scheme:** Letter Grade

Deals with major artists, artistic movements, works and issues in art theory and criticism in Europe from the late 17th century to the 1780s. Special emphasis is given to painting in France and to the reaction against the Rococo. (H and N) (WR)

**Prerequisite:** ARH 2051 and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International, Satisfies 4000 Words of Writing Requirement

**ARH 4359 Eighteenth Century European Art Seminar 3 Credits**

**Grading Scheme:** Letter Grade

Topics in 18th century European art.

**Prerequisite:** ARH 2051 and (art major or art history minor).

**ARH 4370 European Decorative Arts 1400-1600 3 Credits**

**Grading Scheme:** Letter Grade

Tapestry, ceramics, glass, metalwork, furniture and interior design considered in the cultural, social and economic context of Renaissance, Baroque and Enlightenment Europe. Examines role of objects in the arrangement and use of spaces designed for daily and ceremonial life.

**Prerequisite:** ARH 2051 and (art major or art history minor).

**ARH 4450 Early Twentieth Century Art 3 Credits**

**Grading Scheme:** Letter Grade

European and American art from Post-Impressionism to 1945. Emphasis on painting and sculpture. (H)

**Prerequisite:** ARH 2051 and (art major or art history minor).

**Attributes:** General Education - Humanities

**ARH 4453 Mid-Twentieth Century Art 3 Credits**

**Grading Scheme:** Letter Grade

Emphasis on international art from the 1940s through the 1960s. (H)

**Prerequisite:** ARH 2051 and (art major or art history minor).

**Attributes:** General Education - Humanities

**ARH 4457 Global Surrealisms 3 Credits**

**Grading Scheme:** Letter Grade

Explores the history of surrealism, considering the birth of the movement in Paris in 1924, its global spread throughout the early- and mid-twentieth century, and its legacies on contemporary art today. Learn how various surrealist artistic strategies were adapted and developed in different transnational contexts and consider how surrealism's political commitments traverse and expand past national boundaries.

**Prerequisite:** 6 ARH credits or senior standing.

**ARH 4471 Late Twentieth Century Art 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of mid-twentieth century art (ARH 4453). International art and American diversity in art from about 1970 to the present.

**Prerequisite:** ARH 2051 and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International

**ARH 4514 Arts of Southern Africa 3 Credits**

**Grading Scheme:** Letter Grade

Focuses on diverse regions, time periods and genres in the visual arts in southern Africa, with particular attention to the arts of South Africa. It explores art in archaeological contexts, arts associated with indigenous cultures, art that emerged out of encounters with European cultures and contemporary arts. (H and N)

**ARH 4533 Asian Monuments and Heritage Conservation 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the theories and basic issues in the studies of monuments in Asian art. Course provides a solid grounding in both the theories and practices of heritage conservation so that students can reach a better understanding of the artistic, social and political elements in the making of monuments.

**ARH 4559 Archaeology of Death in Ancient China 3 Credits**

**Grading Scheme:** Letter Grade

Explores death-ritual and burial in China's classical period (800 BCE-200 CE) from archaeology's comparative perspective. It offers an interdisciplinary approach to the religious dimensions of mortuary practices in the Warring States, Qin and Han China.

**ARH 4710 History of Photography 3 Credits**

**Grading Scheme:** Letter Grade

Surveys major technical, stylistic, and critical directions in photography from the 19th century to the present. (H and N)

**Prerequisite:** ARH 2051 and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International

**ARH 4744 History of Art Film and Video 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the history of art, film and video art practices in the 20th century.

**Prerequisite:** ARH 2051.

**ARH 4861 Colonialism, Collecting, and the Visual Documentation of the Past 3 Credits**

**Grading Scheme:** Letter Grade

Examine the histories of archaeology and collecting from the nineteenth century to today; study the visual documentation of the past before and after the invention of photography and digital imaging technologies.

**Prerequisite:** ARH 2050.

**ARH 4870 Gender and Sexuality in the Avant-Garde 3 Credits**

**Grading Scheme:** Letter Grade

Explores issues of gender and sexuality across the historical avant-gardes in Europe and North America. Students learn about the work of various women and queer-identified artists, and consider how issues of gender, race, and sexuality inform its production and reception.

**Prerequisite:** 6 ARH credits or senior standing.

**ARH 4882 Art and Colonialism: Focus on Africa 3 Credits**

**Grading Scheme:** Letter Grade

What does visual art reveal about European and African experiences of colonial rule? Along with the famous history of African arts influence on European modern art, this course investigates the African response to colonial power and addresses contemporary manifestations of this history in the postcolonial museum worlds of Europe and Africa.

**Prerequisite:** ARH 2500 or (junior status or higher with an Art History major or African Studies minor).

**ARH 4905 Individual Study 1-3 Credits**

**Grading Scheme:** Letter Grade

With consent of faculty, students can take this course under special circumstances: student needs a specific course for the degree and the class is not offered or student (senior) wishes to explore an area of inquiry in greater depth after completing all 3000-level courses in their major.

**Prerequisite:** art or art history major and department permission.

**ARH 4930 Special Topics in Art History 1-3 Credits**

**Grading Scheme:** Letter Grade

Rotating special topics in art history.

**Prerequisite:** ARH 2050 or ARH 2051 and (art major or art history minor).

**ARH 4931 Art History Seminar 3 Credits**

**Grading Scheme:** Letter Grade

In-depth discussion of selected field of art, either a period and area or a topic. Analysis of art-historical writings through class presentations and written papers. Offered by members of the art history faculty on alternating basis.

**Prerequisite:** ARH 2050 and ARH 2051 and (art major or art history minor).

**ARH 4940 Internship 3 Credits**

**Grading Scheme:** S/U

Supervised practical experience with an art, graphic design or museum facility according to an approved program. Special seminar and evaluation sessions with faculty advisor and art facility manager. (S-U)

**Prerequisite:** arrangement with art advisor and chair and dean permission.

**ART 1010C Non-Major Photography: Imaging Society, Culture and Diversity in America 3 Credits**

**Grading Scheme:** Letter Grade

In this course for non-majors, students use photographs they make to spur discussions about how photography shapes U.S. culture, diversity, and history. Through hands-on projects, critical readings, online lectures, quizzes and small-group discussions, students develop skills to create and understand engaging and conceptually rich photography.

**ART 1803C Workshop for Art Research and Practice: WARP 6 Credits**

**Grading Scheme:** Letter Grade

Interdisciplinary, team-taught introductory course pairing studio experiences in a wide variety of media with introduction to concepts, theories and practices in contemporary art. In-depth exploration of creative processes, artistic integrity and the nature of artistic meaning.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design..

**ART 2013C Space Studio 3 Credits**

**Grading Scheme:** Letter Grade

A project-based studio foundation course for spatial investigations where students will explore methods for defining space, conceptualizing space, three-dimensional design strategies, form development and an overview of concepts that shape the contemporary artists understandings of form and space.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design

**ART 2030C Introduction to Painting 3 Credits**

**Grading Scheme:** Letter Grade

Investigates the visual language of painting and introduces the fine arts major to techniques and concepts relevant to painting including a comprehensive study of lights and darks, color.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2305C Perceptual Drawing 3 Credits**

**Grading Scheme:** Letter Grade

Introduces descriptive drawing. Basic theories of observation and depiction including perspective and chiaroscuro.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2330C Figure Drawing 1 3 Credits**

**Grading Scheme:** Letter Grade

Introduction to drawing the human figure from a live model using a variety of art materials, techniques, and artistic approaches. The purpose of this course is to help students obtain the basic skill of drawing the human form, including anatomy, observation of the human form and fundamental exercises in gesture, contour, outline, and tonal modeling.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2353C Drawing Studio 3 Credits**

**Grading Scheme:** Letter Grade

Development of drawing, design, philosophical and critical skills for making observational and expressive works in drawing media.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2374C Drawing: Movement and Motion 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the principles of visual movement in 2D art as well as the depiction of figurative gesture in drawing.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2401C Printmaking: Color Theory 3 Credits**

**Grading Scheme:** Letter Grade

Basic monoprint technique, methods and materials. Color theory as applied to printmaking and other art media.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2468C Printmaking: Figure Ground 3 Credits**

**Grading Scheme:** Letter Grade

Explores figure ground theory as related to 2D visual design and picture making. Basic skills in relief printing and Linocut-woodcut.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2500C Painting: Investigations in Black and White 3 Credits**

**Grading Scheme:** Letter Grade

The organization of lights and darks in design and pictorial applications. Basic painting techniques in oil, acrylic and gouache.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2501C Painting: Investigations in Color 3 Credits**

**Grading Scheme:** Letter Grade

Investigates color interaction and its role in pictorial composition. Exploration of color and light as well as the expressive use of color in painting.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2503C Painting from Observation 3 Credits**

**Grading Scheme:** Letter Grade

Exercises and projects in seeing and painting. Emphasis on depicting of form, space and light.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2620C Net Art 3 Credits**

**Grading Scheme:** Letter Grade

Explores practical and theoretical issues related to the Internet as a medium for making art rather than as a tool for delivering information.

Emphasizes the creation of dynamic and interactive experiences on the web that integrate video, graphics, animation, sound, image, and typography.

**Prerequisite:** ART 1803C and (BFA Art or BA Art or BFA Graphic Design).

**ART 2680C Time Studio 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the concepts of time-based, participatory art practice through animation, video, sound, performance, and installation. Students create artwork that explores linear and non-linear narrative, seriality, context, embodiment, virtuality, and networks. Aesthetic, technical, historical, and conceptual issues within the context of contemporary art and theory will be addressed through lectures, demonstrations, exercises, projects, screenings, research, and readings.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2701C Sculpture: Shaping Form and Space 3 Credits**

**Grading Scheme:** Letter Grade

Investigates the co-shaping of form and space in full three dimensions. Emphasis on additive and subtractive processes.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2702C Sculpture: Gravity and Buoyancy 3 Credits**

**Grading Scheme:** Letter Grade

Based on objects that float, inflate or suspend; examines weight, mass, and space as artistic phenomena and includes instruction in appropriate construction techniques.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2704C Figurative Ceramics 3 Credits**

**Grading Scheme:** Letter Grade

Introduces figure sculpture and life modeling using fired clay; techniques include building, surfacing and firing. Includes perceptual studies from model and concept development, centering on using the figure as a vehicle for personal expression. Class format includes slide and video presentations, a life model sequence and critiques.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2750C Ceramics for Non-Majors 3 Credits**

**Grading Scheme:** Letter Grade

A studio based introductory course that teaches ceramic art through techniques of handforming.

**ART 2752C Throwing: Skills and Concepts 3 Credits**

**Grading Scheme:** Letter Grade

Introduces wheel throwing, pottery from, functional design and aesthetics.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2757C Ceramics: 3D Concepts 3 Credits**

**Grading Scheme:** Letter Grade

Introduces three-dimensional form and design concepts using fired clay; includes hand-forming techniques, an introduction to glazing (fired color) and electric kiln firing.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2770C Ceramics for Non-Majors: Wheel Throwing 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the making of functional vessels on the potters wheel as expressive art. Focuses on throwing skills and three-dimensional design concepts related to the functional ceramic vessel and creative problem-solving. Provided technical information supports an understanding of forming, surfacing, glazing, and firing.

**ART 2773C Ceramics: Skills and Concepts - Sculpture 3 Credits**

**Grading Scheme:** Letter Grade

Introduces ceramic sculpture, sculpture techniques and processes using fired clay supported by design and idea development. Modeling and carving, slab fabrication and coil-building, color and surfacing through glazing and firing support, creative expression and communication of personal ideas.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2777C Ceramics Skills and Concepts: Vessel 3 Credits**

**Grading Scheme:** Letter Grade

Introduces conceptualization and expression of personal ideas using the vessel as an art form: functional design and aesthetics, formation and communication of personal ideas through design, clay as a material, technical handbuilding and wheel throwing forming methods, surfacing methods, and firing of work.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2825C Perceptual Studio 3 Credits**

**Grading Scheme:** Letter Grade

Questions and expands an understanding of seeing and how seeing is informed by physical, psychological, and ideological systems. Emphasizes experimentation and research focused on contemporary art and 2D design practices and theories to strengthen visual organization through hand, lens, and digital processes.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2826C The Culture of the Image 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the critical processes by which images acquire meaning, and how artists and artworks produce knowledge. Provides an overview of visual representation that facilitates understanding of the issues involved in the production, distribution, and reception of images.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major.

**ART 2930C Special Topics in Art 3 Credits**

**Grading Scheme:** Letter Grade

Rotating special topics in studio art and studio practice.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**ART 2934C Special Topics in Studio Art for Non-Art Majors 3 Credits**

**Grading Scheme:** Letter Grade

Rotating topics in introductory studio art and studio practice for non-art majors. This course cannot count toward degree requirements for any majors in the School of Art + Art History.

**Prerequisite:** non-art major or non-art history major.

**ART 2936C Rotating Topics in Drawing for Non-Art Majors 3 Credits**

**Grading Scheme:** Letter Grade

Use dynamic drawing techniques and approaches to explore contemporary art and connections across disciplines.

**Prerequisite:** non-art major or non-art history major.

**ART 3043C Interdisciplinary Mixed Media: Painting, Drawing, Photo 3 Credits**

**Grading Scheme:** Letter Grade

Inter-media mixed media dissolves the normal boundaries between painting, drawing, and photography. Students identify a core idea or sensibility that is the essence of who they are as an artist and then are required to work in at least the three media: painting, drawing, and photography.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3310C Color Drawing 3 Credits**

**Grading Scheme:** Letter Grade

Explores color theory and color usages in drawing. Emphasis on techniques, strategies and materials.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3311C Thematic Projects in Drawing 3 Credits**

**Grading Scheme:** Letter Grade

Intermediate-level emphasis of conceptual strategies and image construction through the lens of themes in film, literature, and art using color drawing media.

**Prerequisite:** (ART 2353C or ART 2305C or ART 2374C or ART 2330C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

**ART 3332C Figure Drawing 2 3 Credits**

**Grading Scheme:** Letter Grade

Comprehensive study of the figure from observation of live models. Study of anatomy, composition and conceptual strategies.

**Prerequisite:** ART 2330C Figure Drawing 1 and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

**ART 3380C Experimental Drawing 3 Credits**

**Grading Scheme:** Letter Grade

Exposure to unfamiliar materials and techniques both antique and modern. Invention strategies and contemporary motivating factors explored.

**Prerequisite:** (ART 2353C or ART 2305C or ART 2374C or ART 2330C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

**ART 3381C Sketch Journal: Uses and Development 3 Credits**

**Grading Scheme:** Letter Grade

Historic and contemporary uses of sketch journals. Exploration of notation, studies, invention and conceptualization in sketchbook drawing techniques.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3420C Printmaking: Lithography 3 Credits**

**Grading Scheme:** Letter Grade

Studio and print shop training in lithographic technique, including plate and stone methods. Emphasis on continued conceptual development.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3433C Screen Printing 3 Credits**

**Grading Scheme:** Letter Grade

Explores screen printing techniques utilizing drawn and photo-generated stencil processes.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3442C Printmaking: Intaglio 3 Credits**

**Grading Scheme:** Letter Grade

Studio training in this basic printmaking process including dry point, etching and color intaglio. Continued emphasis on artistic inquiry.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3462C Print Photo Intaglio 3 Credits**

**Grading Scheme:** Letter Grade

Application of film and digital photography to printmaking media utilizing intaglio printmaking.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3504C Painting: Structure and Transformation 3 Credits**

**Grading Scheme:** Letter Grade

Examines form and structure theory in painting and its application in development of idea and painterly process.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3521C Site-Specific Painting Studio 3 Credits**

**Grading Scheme:** Letter Grade

Explores the relationship between painting and architecture as well as developments in the field of unheroic or provisional painting.

**Prerequisite:** (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

**ART 3522C Painting: Exploring the Series 3 Credits**

**Grading Scheme:** Letter Grade

Development of idea through the creation of series, groups and suites.

**Prerequisite:** (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

**ART 3560C Figure Painting 3 Credits**

**Grading Scheme:** Letter Grade

The human figure serves as a formal and expressive motif as well as a departure point for creating individual painting statements.

**Prerequisite:** (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

**ART 3561C Projects in Painting: Experiments in Media 3 Credits**

**Grading Scheme:** Letter Grade

Students contract with their instructor to create a body of work in painting, experimenting with materials and methods related to disciplines in painting.

**Prerequisite:** (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

**ART 3615C Digital Art and Animation 2 3 Credits**

**Grading Scheme:** Letter Grade

Explores 3D modeling techniques and tools; Students will learn advanced animation techniques using 3D software that builds upon skills acquired from Digital Art and Animation 1.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3616C Digital Art and Animation 1 3 Credits**

**Grading Scheme:** Letter Grade

Explores time-based computer art including animation, interactive and Internet-based projects.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3670C From Fractals to Algorithms: Artmaking in the Age of Artificial Intelligence 3 Credits**

**Grading Scheme:** Letter Grade

This interdisciplinary course embarks on a journey of artmaking through the history of how fractals went from tools of ancient biomimicry for artmaking, sacred buildings, and governing societies to the fractal morphogenesis of AI, data-mining, and machine learning.

**Prerequisite:** Must be a BA, BFA in Art or Graphic Design major and must have passed sophomore portfolio review.

**ART 3711C Sculpture: Materials and Methods 3 Credits**

**Grading Scheme:** Letter Grade

Problems in sculptural form and composition with work in plaster, clay, metal and other materials.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3712C Sculpture: Concepts and Strategies 3 Credits**

**Grading Scheme:** Letter Grade

Continues the emphasis on sculptural materials such as mixed media, metal fabrication, and casting.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3730C Machine Sculpture 3 Credits**

**Grading Scheme:** Letter Grade

Explores the boundaries of physical and electronic media including the use of sound, light, computers and motion in sculpture.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3734C Sculpture Metals 3 Credits**

**Grading Scheme:** Letter Grade

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3764C Ceramic Sculpture 1 3 Credits**

**Grading Scheme:** Letter Grade

Investigates the intermediate level of technical, conceptual and aesthetic issues involved with sculpting using ceramic materials. Students will learn to use sculptural form to convey ideas based on contemporary culture. Projects focus on the use of low-fire materials, image development and glaze electric fired to enhance sculpture.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3768C Ceramic Sculpture 2 3 Credits**

**Grading Scheme:** Letter Grade

Investigates the intermediate level in experimental sculpture processes using fired clay, plaster and latex mold-making as well as technical and aesthetic explorations with large scale works. Historical and contemporary precedents of ceramic sculpture are presented. Concept development and expression through sculptural form are core elements in the course.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3783C Ceramic Design 3 Credits**

**Grading Scheme:** Letter Grade

Investigates the intermediate level of technical, aesthetic, and conceptual issues in ceramics. Study the formulation of clay and preparation of glaze materials with an emphasis on personalized expression through the ceramic design process.

**Prerequisite:** ART 2752C and must be (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

**ART 3807C Interdisciplinary Studio 3 Credits**

**Grading Scheme:** Letter Grade

Critical thinking, problem solving, and creative activity in collaboration and cross media art-making.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3842C Performance and Installation 3 Credits**

**Grading Scheme:** Letter Grade

Explores the complex relationships among object, body, site, space, and architecture using various visual media in the creation of installation and performance art.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3857C Professional Practices 3 Credits**

**Grading Scheme:** Letter Grade

An introduction to creative professional practices including research proposals, exhibition planning, website development, graduate school applications and more. Integrating on campus resources, students will be introduced to the skills sets necessary for developing a sustainable career in visual art.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3870C Reinterpreting Global Masterpieces: Recontextualizing Masterworks from the Harn Museum of Art 3 Credits**

**Grading Scheme:** Letter Grade

Studies masterpieces from the Harn through observation and research investigating intentions, meanings, and technical processes. Examines why and how various cultures developed unique styles and approaches. Students reinterpret global masterpieces through choice of media and processes to create new artworks inspired by existing cultural objects.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3892 Art and Theory 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the study of art theory, focusing on its applications to the analysis, contextualization, and production of art, film, and popular culture.

**Prerequisite:** Must be a BFA Art or BA Art or BFA Graphic Design major, and must have passed sophomore portfolio review.

**ART 3930C Special Topics in Studio Art for Non-Art Majors 3 Credits**

**Grading Scheme:** Letter Grade

Rotating topics in studio art and studio practice for juniors and seniors not majoring in art. This course cannot count toward any major within the School of Art and Art History.

**Prerequisite:** junior or senior level.

**ART 3959C Video Art 3 Credits**

**Grading Scheme:** Letter Grade

Explores video with an emphasis on editing and building a personal vocabulary through the electronic image.

**Prerequisite:** ART 2680C and must be a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

**ART 4312C Advanced Drawing 6 Credits**

**Grading Scheme:** Letter Grade

Emphasizes individual and creative expression.

**Prerequisite:** ART 3310C and ART 3332C and ART 3380C and ART 3381C.

**ART 4402C Advanced Printmaking 3-6 Credits**

**Grading Scheme:** Letter Grade

Advanced problems in creative printmaking.

**Prerequisite:** ART 3442C, ART 3420C and ART 3443C.

**ART 4505C Advanced Painting 6 Credits**

**Grading Scheme:** Letter Grade

Emphasizes individual creative expression.

**Prerequisite:** ART 3522C and ART 3560C and ART 3561C.

**ART 4612C Digital Media Workshop 3 Credits**

**Grading Scheme:** Letter Grade

Bridges the study of digital media and broadly envisioned professional practices in the field. Emphasis on portfolio and project development for transition to advanced study or professional, expressive or applied practices in integrated media.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 4630C Video Art: Advanced Projects 3 Credits**

**Grading Scheme:** Letter Grade

Focuses on the completion of larger scale student-directed projects with a special emphasis on pre-production planning and advanced editing techniques.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 4631C Computer Art: Advanced Projects 6 Credits**

**Grading Scheme:** Letter Grade

Advanced work in computer-mediated art, including animation and interactive works in both the physical and virtual domain, with special emphasis on completion of larger scale student-directed projects.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 4639C Advanced Experiments in Art and Technology 3 Credits**

**Grading Scheme:** Letter Grade

Special topics course that explores new forms of digital media production. Topics reflect emerging forms of digital media.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 4642C Digital Fabrication 3 Credits**

**Grading Scheme:** Letter Grade

Interdisciplinary studio combines in-depth analysis of the role of the physical object in diverse conceptual art practices with project-based experimentation using rapid prototyping and manufacturing technologies.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 4645C Sensors and Electronics-Based Art 3 Credits**

**Grading Scheme:** Letter Grade

Physical computing HCI (human computer interaction) explores how devices respond to and interact with human physical action. Students will create artwork that explores physical interfaces beyond mouse/keyboard/screen interactions through the use of microcontrollers and sensors.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 4659C Experiments in ARTificial Intelligence 3 Credits**

**Grading Scheme:** Letter Grade

Learn about the history and theory of AI in computing from a scientific, mythological, and material viewpoint; and investigate this from a theoretical position that is deeply critical, yet simultaneously analytical regarding its potential. Gain a literate understanding of AI and learn “heuretically” through the act of making. Materially engage AI as a medium to produce artworks using AI methodologies and tools.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 4710C Advanced Sculpture 6 Credits**

**Grading Scheme:** Letter Grade

Advanced problems in sculptural form with development of processes and techniques.

**Prerequisite:** ART 3711C and ART 3712C.

**ART 4760C Advanced Ceramics 3-6 Credits**

**Grading Scheme:** Letter Grade

Focuses on advanced technical and creative concepts with emphasis on developing personal work and professional practices preparation.

**Prerequisite:** ART 3783C and ART 3764C and ART 3768C.

**ART 4828C Senior Studio 3 Credits**

**Grading Scheme:** Letter Grade

Senior Studio is designed to support students to articulate, challenge, and refine their individual art practices in a mentored open studio environment.

**Prerequisite:** Must be a Senior BFA Art or BA Art major and must have passed sophomore portfolio review and be in final year of study.

**ART 4848C Installation Using Digital Processes 3 Credits**

**Grading Scheme:** Letter Grade

Explores site specificity and intervention in 3D space through installation, using digital media to understand concepts such as sequence, narration, scoring, interactivity, motion and recursion.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 4858C Presentation of Practices 3 Credits**

**Grading Scheme:** Letter Grade

Provides a platform for presenting research/creative work in public forums and venues. Also provides a framework to understand the professional best practice expectations and develop the skills necessary in planning, creating, documenting, publicizing, and exhibiting/presenting creative work.

**Prerequisite:** Must be a Senior BFA Art or BA Art major and must have passed sophomore portfolio review and be in final year of study;

**Corequisite:** ART 4828C.

**ART 4883C Making and Meaning 3 Credits**

**Grading Scheme:** Letter Grade

Explores the creation of art in combination with non-art related research. Develop a deeper connection with created artwork and discover how the act of making can reveal both intentions and underlying motives.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 4905C Individual Study 1-3 Credits**

**Grading Scheme:** Letter Grade

With consent of faculty, students can take this course for special circumstances: student needs a specific course for the degree and the class is not offered or student (senior) wishes to explore an area of inquiry in greater depth after completing all 3000-level courses in their major.

**Prerequisite:** senior-level art major and arrangement by and permission of the art advisor and director.

**ART 4930C Special Topics in Studio Practice 1-6 Credits**

**Grading Scheme:** Letter Grade

Rotating special topics in studio art and studio practice.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 4940 Internship 3 Credits**

**Grading Scheme:** S/U

Supervised practical experience with an art, graphic design or museum facility according to an approved program. Special seminar and evaluation sessions with faculty advisor and art facility manager. (S-U)

**Prerequisite:** arrangement with art advisor and chair and dean permission.

**ART 4955C Senior Project 1-3 Credits**

**Grading Scheme:** Letter Grade

Visual verification of artistic qualifications for BFA degree. Preparations and activities (exhibition, portfolio, installation, etc.) to be determined in consultation with faculty advisor.

**Prerequisite:** senior-level art major.

**DIG 1000C Workshop in Fundamental Digital Technologies 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the language and applications of digital media. Expect to achieve competency level in the basic use of technology through application and process.

**Prerequisite:** Art major.

**DIG 2021 Foundations of Digital Culture 3 Credits**

**Grading Scheme:** Letter Grade

Interdisciplinary overview of the technological and cultural developments that continue to shape the modern world. Student research covers topics including telecommunications, digital and analog technologies, video games, computer-generated entertainment and the rise of social media. (WR)

**Attributes:** Satisfies 4000 Words of Writing Requirement

**DIG 2131C Digital Imaging 3 Credits**

**Grading Scheme:** Letter Grade

Emphasizes the aesthetic and conceptual practices of image making using digital media. An exploration of a range of processes, concepts and theories including scanning, printing, image manipulation and color correction. Course emphasizes color theory and its application to image construction and expression.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**DIG 2282C Time-based Media 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the basic practices of time-based media, including animation and video with emphasis on narrative, planning of action and sequencing of images. Fundamental components include basic production techniques, project planning, linear and nonlinear narrative and the integration of various media to explore the possibilities of time-based experiences.

**Prerequisite:** ART 1803C.

**DIG 2930 Special Topics: Foundations of Digital Culture 3 Credits**

**Grading Scheme:** Letter Grade

In-depth examination of the technological and cultural underpinnings that shape current electronic media including video games, the internet, computer-animated movies, and virtual reality.

**DIG 3110C Imaging Processes 3 Credits**

**Grading Scheme:** Letter Grade

**DIG 3481C Imaging Processes 3 Credits**

**Grading Scheme:** Letter Grade

**DIG 3482C Interactivity/Coding 3 Credits**

**Grading Scheme:** Letter Grade

**GRA 1113C Design Studies 3 Credits**

**Grading Scheme:** Letter Grade

Individual and socio-cultural perceptions of design shape human experiences. As such, design is never neutral. Three guiding questions shape critical discussions, collaborative design thinking activities, and investigative studio making in this course. What is design? How does design work? Who is design for? With a global range of designs and designers as case studies, this course investigates how 21c. design might re-imagine itself as a powerful force in shaping equitable, sustainable futures.

**Prerequisite:** Graphic Design Major.

**GRA 1831C Design Technologies 3 Credits**

**Grading Scheme:** Letter Grade

This course introduces the contemporary graphic design praxis and its specializations through technologies and tools for collaboration, exploration, and production. In addition, this course emphasizes critical making and training to offer an overview of possibilities and develop an essential graphic design toolkit that considers access, equity, inclusion, and context. Our goal is for students to fall in love with the field(s), the processes, and the possibilities.

**Prerequisite:** Graphic Design Major (BFA).

**GRA 2111C Visual Methods and Processes 3 Credits**

**Grading Scheme:** Letter Grade

Emphasizes design process, methodologies and communication theories that foster the relationship between content and meaning. Course includes experiences in visual analysis, symbol conceptualization, figure-ground, spatial concepts and compositional dynamics and an introduction to semiotics, design principles and design methods.

**Prerequisite:** ART 1803C or provisional Graphic Design certificate students.

**GRA 2208C Typography 1: Letterform 3 Credits**

**Grading Scheme:** Letter Grade

Explores the expressive potential of letter form as visual art. Emphasizes shaping and spacing forms into meaningful communications.

**Prerequisite:** ART 1803C or provisional Graphic Design certificate students.

**GRA 3138C Graphic Design Practice 3 Credits**

**Grading Scheme:** Letter Grade

Create and integrate concept, form, processes, and technologies in order to develop systems-based, practice-oriented solutions to a range of problems. The results of research and design work will be synthesized to develop a final presentation and portfolio.

**Prerequisite:** GRA 2111C and GRA 2208C with grades of B or better and enrollment in the Graphic Design certificate.

**GRA 3193C Design: Visualization and Creativity 3 Credits**

**Grading Scheme:** Letter Grade

Creative thinking and form making in design. Emphasizes visual invention and compositional dynamics.

**Prerequisite:** GRA 2111C and GRA 2208C and a BFA Graphic Design major and must have passed sophomore portfolio review.

**GRA 3194C Technologies and Processes 3 Credits**

**Grading Scheme:** Letter Grade

Training in tools and materials of graphic design, including printing processes, computer and video processes, photographic and electronic media.

**Prerequisite:** GRA 3209C and GRA 3193C and BFA Graphic Design major and must have passed sophomore portfolio review.

**GRA 3198C Image, Form and Meaning 3 Credits**

**Grading Scheme:** Letter Grade

Emphasizes development of concepts, metaphors, narratives and visual translations. Projects in line art, screen process, photography, and color.

**Prerequisite:** GRA 3209C and GRA 3193C and BFA Graphic Design major and must have passed sophomore portfolio review.

**GRA 3209C Typography 2: Composition 3 Credits**

**Grading Scheme:** Letter Grade

Explores the visual organization and integration of typographic information with images in printed documents. Emphasizes nomenclature, mechanical processes, design, and historical contexts.

**Prerequisite:** GRA 2111C and GRA 2208C and a BFA Graphic Design major and must have passed sophomore portfolio review.

**GRA 3816C Design Thinking 3 Credits**

**Grading Scheme:** Letter Grade

Design thinking is interdisciplinary, human-centered, collaborative, contextual, and iterative. It offers an exceptionally dynamic framework to approach idea generation, creative investigation, and divergent thinking. Learn principles of design thinking through exercises, brainstorming, sketching, case studies, and presentations.

**Prerequisite:** GRA 2111C and GRA 2208C with minimum grades of B and enrollment in the Graphic Design certificate.

**GRA 4165 Graphic Design History I 3 Credits**

**Grading Scheme:** Letter Grade

Investigates the diverse cultural functions and critical definitions of graphic design across places and times prior to the twentieth century. Introduces broad stylistic movements common to western Europe and North America, and interrogates and re-writes received definitions of graphic design which exclude globally diverse artifacts, designers, practices, and users.

**Prerequisite:** ARH 2050 and ARH 2051.

**GRA 4186C Senior Design Studio 3 Credits**

**Grading Scheme:** Letter Grade

Emphasizes self-directed design, research and study leading to the development and realization of complex design projects. Public dissemination of final projects.

**Prerequisite:** GRA 4196C and GRA 4197C and a BFA Graphic Design major of senior standing.

**GRA 4187C Design Workshop 3 Credits**

**Grading Scheme:** Letter Grade

Bridges the study of design and professional practice. Emphasis on practical graphic design issues applied to real-world experiences.

**Prerequisite:** GRA 4196C and GRA 4197C and a BFA Graphic Design major of senior standing.

**GRA 4196C Design: Ideas and Styles 3 Credits**

**Grading Scheme:** Letter Grade

Special emphasis on history and theories of graphic design including innovations and contemporary issues.

**Prerequisite:** GRA 3198C and GRA 3194C and a BFA Graphic Design major of senior standing.

**GRA 4197C Graphic Design: Visual Systems in Design 3 Credits**

**Grading Scheme:** Letter Grade

Self-directed complex and integrated design projects.

**Prerequisite:** GRA 3198C and GRA 3194C and Graphic Design major of senior standing.

**GRA 4905 Directed Study 0-9 Credits**

**Grading Scheme:** Letter Grade

This is an elective, self-directed course for the advanced student to investigate a topical area of study in graphic design not provided in the regularly offered courses. Coursework is conducted based on a proposal and plan developed by the student and faculty supervisor, with departmental approval.

**Prerequisite:** Junior standing or above, with departmental approval.

**GRA 4923C Design and Professional Practice Studio 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study in graphic design and professional practices of design in business and multidisciplinary learning experiences. Students repeating this course will have demonstrated excellence during the first semester, been selected for their leadership abilities and assigned advanced roles in the studio environment.

**Prerequisite:** (BFA Graphic Design and passed sophomore portfolio review) or via department application process.

**GRA 4930 Special Topics in Graphic Design 1-6 Credits**

**Grading Scheme:** Letter Grade

Advanced study of issues and topics in graphic design beyond those in the regular curriculum.

**Prerequisite:** Graphic Design Major and must have passed sophomore portfolio review or permission of instructor.

**GRA 4940 Graphic Design Internship 0-6 Credits**

**Grading Scheme:** S/U

0-6 credits repeatable for credit. Graphic/communication design professional practice and related experience as defined by program guidelines.

**Prerequisite:** Graphic Design major, employer approval, and faculty sponsor approval.

**GRA 4953C Senior Project in Design 1 Credit**

**Grading Scheme:** Letter Grade

Emphasizes the development of a personal website to showcase the student's professional portfolio, design philosophy and credentials. Students will be required to launch a website with a proprietary URL on a commercial server prior to completing the course. Students are evaluated on the appropriateness and completion level of the website as well as their conceptual, formal and technical development.

**Prerequisite:** BFA Graphic Design major of senior standing;

**Corequisite:** GRA 4187C and GRA 4186C.

**IDC 3500C Programming for Artists 3 Credits**

**Grading Scheme:** Letter Grade

Introduces understanding interactivity as an art form, providing an in-depth exploration of the tools, theories and applications of interactive media as they are used for creative inquiry, research and production.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**PGY 2101C Visual Literacy: Photography 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the practices, theories and histories of photography. Acquisition of basic darkroom skills and key elements of contemporary theoretical approaches to visual art. (H)

**Prerequisite:** ART 1803C.

**Attributes:** General Education - Humanities

**PGY 2441C Photography: Images, Order and Idea 3 Credits**

**Grading Scheme:** Letter Grade

Use of non-traditional light-sensitive processes to explore aspects of image manipulation.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**PGY 2442C Photography: Figure and Ground 3 Credits**

**Grading Scheme:** Letter Grade

Light and shape aspects of photographic images; theories of space and 2D composition; and basic camera and darkroom techniques.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design.

**PGY 3410C Photography: Color 3 Credits**

**Grading Scheme:** Letter Grade

Consideration of the use and technique of color photography. Covers cameras, films, and darkroom developing techniques.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**PGY 3444C Photography: Black and White 3 Credits****Grading Scheme:** Letter Grade

Fundamentals of photography, operation of the camera and developing, printing, and enlarging. Principles of photography as a means of personal expression.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**PGY 3820C Photography: Digital 3 Credits****Grading Scheme:** Letter Grade

Studio methods and techniques in creating still images using electronic digital technology.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**PGY 4156C Large Format Photography 3 Credits****Grading Scheme:** Letter Grade

Advanced study in artificial lighting, color balancing of mixed light sources, view camera techniques to control distortion, focus and painting with light.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**PGY 4420C Advanced Photography 6 Credits****Grading Scheme:** Letter Grade

Use of the camera as a medium of individual creative expression. Experimental projects in black and white and color photography.

**Prerequisite:** PGY 3410C, PGY 3421C, PGY 3444C, PGY 3820C, and senior-level art major.

## Astronomy and Astrophysics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Department of Astronomy is home to a vibrant community actively engaged in research, education, and outreach. The department's faculty are involved in a wide range of research programs (<https://www.astro.ufl.edu/research/>) using world-class resources including an in-house design-through-fabrication instrumentation program (<https://www.astro.ufl.edu/instrumentation/past-current-projects/>), partner level access to the Gran Telescope Canarias (<https://www.astro.ufl.edu/research/telescopes/>), the HiPerGator-2 (<https://www.astro.ufl.edu/research/computing/>) supercomputer, and more.

- Astronomy Minor

---

## Courses

**AST 1002 Discovering the Universe 3 Credits****Grading Scheme:** Letter Grade

An elementary, largely nonmathematical survey of our universe of stars, planets and galaxies. Acquaints the student with the development of astronomy as a human activity with how we know as well as what we know. Primarily for those not majoring in physical science or mathematics. (P)

**Attributes:** General Education - Physical Science

**AST 1022L Astronomy Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Introduces experimental work in astronomy including scheduled laboratory exercises during the day in the teaching lab and evening observational astronomy at the on campus teaching observatory. (P)

**Attributes:** General Education - Physical Science

**AST 2000 Cosmology 3 Credits**

**Grading Scheme:** Letter Grade

Overview of cosmology, the study of the large-scale structure and history of the universe, in four components: ideas about the universe as a whole predating the twentieth century; ideas from twentieth century physics that impact modern cosmology; stars, black holes, galaxies and quasars as probes of the universe; and the Hot Big Bang Model.

**AST 2003 Introduction to the Solar System 3 Credits**

**Grading Scheme:** Letter Grade

Survey of the solar system including the sun, planets, satellites, asteroids, meteorites and comets. (P)

**Prerequisite:** simple algebra.

**Attributes:** General Education - Physical Science

**AST 2037 Life in the Universe 3 Credits**

**Grading Scheme:** Letter Grade

The origin of life on Earth and the possibility of life elsewhere. A multidisciplinary approach is followed. Conditions for life to form and the likelihood that such conditions may exist elsewhere in the universe are discussed. Also considered are schemes proposed for the search for extraterrestrial intelligence (SETI). (P)

**Attributes:** General Education - Physical Science

**AST 2730 Introduction to Python for Physical Sciences 4 Credits**

**Grading Scheme:** Letter Grade

Learn syntax, capabilities, and foundations of Python and basic numerical methods to address physical problems with a computational approach. Covers basics of dataset manipulation, algorithm development, and plotting.

**AST 3018 Astronomy and Astrophysics 1 3 Credits**

**Grading Scheme:** Letter Grade

First part of a two part sequence. Survey of astronomy and astrophysics for physical science, engineering, or mathematics majors. Covers gravitation, orbits and tides; the Moon's phases and eclipses; light and spectra; the solar system; and a few historical milestones. (P)

**Prerequisite:** (PHY 2048 or PHY 2060) and (MAC 2311 or MAC 3472).

**Corequisite:** PHY 2049.

**Attributes:** General Education - Physical Science

**AST 3019 Astronomy and Astrophysics 2 3 Credits**

**Grading Scheme:** Letter Grade

Second part of a two part sequence. Survey of astronomy and astrophysics for physical science, engineering or mathematics majors. Covers compact objects; the Solar System; exoplanets; the Milky Way and galaxies; cosmology and relativity.

**Prerequisite:** (PHY 2048 or PHY 2060) and (MAC 2311 or MAC 3472).

**Corequisite:** PHY 2049.

**Attributes:** General Education - Physical Science

**AST 3043 History of Astronomy through Newton 3 Credits**

**Grading Scheme:** Letter Grade

Astronomy from its beginnings through Newton. Emphasis is on the works of Ptolemy, Copernicus, Kepler, Galileo and Newton. (H or P, and N)

**Attributes:** General Education - Humanities, General Education - International, General Education - Physical Science

**AST 3722C Techniques of Observational Astronomy 1 3 Credits**

**Grading Scheme:** Letter Grade

First part of the AST 3722C-4723C sequence. The fundamental principles and techniques used in planning, making, reducing and analyzing modern astronomical observations. Includes classroom lectures and discussion, indoor laboratory work, data analysis and outdoor night observations.

Introduces numerical treatment of observations, CCD imaging, digital imaging processing and astronomical spectroscopy.

**Corequisite:** AST 3018.

**AST 4211 Essentials of Astrophysics 3 Credits**

**Grading Scheme:** Letter Grade

Foundation and background on topics in astrophysics, including broadening mechanisms of spectral lines, equations of state of gases, thermodynamics, radiation sources, radiative transport, kinetic theory of gases and stellar structure.

**Prerequisite:** AST 3018, AST 3019 and a working knowledge of calculus.

**AST 4300 Galactic Astronomy 3 Credits****Grading Scheme:** Letter Grade

Intensive introduction to the fundamental properties of the Milky Way and its system of satellite galaxies. Course is intended for astronomy majors and natural science students. Topics include the ages, chemical abundances and kinematics of field stars and star clusters, the properties of the interstellar medium and its role in star formation, the dark matter content and models of the Milky Way's physical structure.

**Prerequisite:** AST 3018, AST 3019 and a working knowledge of calculus.

**AST 4402 Galaxies and Cosmology 3 Credits****Grading Scheme:** Letter Grade

An investigation into the properties of galaxies and their distribution in space. Some cosmological implications of this distribution are discussed. Intended for astronomy majors and advanced students of other mathematical sciences.

**Prerequisite:** AST 3018, AST 3019 and a working knowledge of calculus.

**AST 4723C Techniques of Observational Astronomy 2 3 Credits****Grading Scheme:** Letter Grade

Second part of a sequence. The fundamental principles and techniques used in planning, making, reducing, and analyzing modern astronomical observations. Includes classroom lectures and discussion, indoor laboratory work, data analysis, and outdoor night observations. Introduces numerical treatment of observations, CCD imaging, digital imaging processing, and astronomical spectroscopy.

**Prerequisite:** AST 3722C.

**AST 4905 Individual Work 1-3 Credits****Grading Scheme:** Letter Grade

Assigned reading or research for qualified undergraduates.

**Prerequisite:** AST 3018 and AST 3019, or two years of college physics and instructor permission.

**AST 4911 Undergraduate Research in Astronomy 0-3 Credits****Grading Scheme:** Letter Grade

Provides firsthand, supervised research in Astronomy. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Astronomy.

**AST 4930 Special Topics 1-3 Credits****Grading Scheme:** Letter Grade

Lecture, seminar or laboratory sessions covering selected topics of current interest in astronomy.

**Prerequisite:** instructor permission.

**PHZ 3152 Advanced Computational Techniques 3 Credits****Grading Scheme:** Letter Grade

Advanced Computational Techniques in Astronomy and Physics. Advanced techniques in computational methods in the natural sciences and numerical analysis. Includes version controlling and programming in distributed environments; grid construction and convergence techniques; numerical differentiation; linear algebra; root finding; differential equations; Monte Carlo simulations; open source project development.

**Prerequisite:** MAC 2312 or equivalent.

---

## Biochemistry and Molecular Biology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

The department offers a full program of courses for the undergraduate student preparing for advanced degrees in the biological, agricultural and life sciences and for professional school.

The major course offering, BCH 4024, is designed to provide students with a general background in biochemistry and molecular biology for professional school or advanced studies in specialized areas.

The department offers an independent interdisciplinary major in biochemistry and molecular biology, in cooperation with the College of Liberal Arts and Sciences, to those undergraduates with strong interests in cell processes, molecular biology, metabolism or physical or structural biochemistry (See Biochemistry and Molecular Biology entry under Majors).

Undergraduate students in other majors who are interested in a research career in biochemistry and molecular biology should take BCH 4024 as early in their undergraduate program as possible. Students interested in supplementing these didactic course offerings with laboratory research experience can register for BMS 4905 after obtaining department approval. Further information on such research opportunities, advanced study and early admission can be obtained from the undergraduate studies coordinator.

Students with interests in medicine or other health sciences may also choose to enroll in the interdisciplinary major program and should contact the assistant dean for preprofessional education in the College of Medicine at the end of the sophomore year or at the beginning of the junior year.

## Courses

### **BCH 2911 Science for Life 1 Credit**

**Grading Scheme:** Letter Grade

This weekly research course introduces students to the many research opportunities available in the bench, field, clinical, and computer labs across all STEM and Health disciplines on campus. Each week, three faculty members discuss their research focus, how and why they study the systems they do, and the broader impacts of their work. These brief presentations are designed to offer students a deeper awareness of UF's interdisciplinary research and how undergraduates can be involved.

**Prerequisite:** College-level science or engineering course.

### **BCH 4024 Introduction to Biochemistry and Molecular Biology 4 Credits**

**Grading Scheme:** Letter Grade

Introduces physical biochemistry, intermediary metabolism and molecular biology. Topics include a survey of structure, chemistry and function of proteins and nucleic acids, enzyme kinetics and mechanisms of catalysis; a survey of the pathways of carbohydrate, lipid and nitrogen metabolism and their metabolic control; regulation of gene expression at the level of DNA, RNA and protein synthesis.

**Prerequisite:** CHM 2211 or CHM 3217, or instructor permission.

### **BCH 4905 Biochemistry Senior Research 1-7 Credits**

**Grading Scheme:** Letter Grade

Laboratory investigations of biochemical problems of current interest. Senior thesis required.

**Prerequisite:** CHM 2210, CHM 2211, and CHM 3217 or the equivalent, BCH 4024 and interdisciplinary major status.

---

## Biology | Botany | Zoology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

## Biology

### **BOT 4650 Plant Symbiosis 3 Credits**

**Grading Scheme:** Letter Grade

Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.

**Prerequisite:** BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

### **BOT 4851C Medical and Forensic Plant Biology 3 Credits**

**Grading Scheme:** Letter Grade

Basic plant taxonomy, systematics, phytochemicals, uses of plants by animals and various human cultures, and in the development of modern medicine and drug development. Uses of plant tissues and products in forensic investigations will also be discussed.

**Prerequisite:** BSC 2011 with a minimum grade of B.

### **BSC 1920 First Year Introduction: Biology at UF 1 Credit**

**Grading Scheme:** S/U

Introduces the field of biology and the academic resources specific to this discipline at UF. Discussions of the nature and practice of scientific research, laboratory safety, advising and career resources for biologists. Developments in the instructor's area of expertise are used to illustrate key subjects. (S-U)

**Prerequisite:** biology, botany, zoology or exploring science and engineering majors only.

### **BSC 2005 Biological Sciences 3 Credits**

**Grading Scheme:** Letter Grade

A comprehensive introduction to living systems, including the scientific basis of biology, cell structure and function, genetic mechanisms, animal and plant anatomy and physiology, and ecology and evolutionary processes. Recommended for students not majoring in the natural sciences. (B)

**Attributes:** General Education - Biological Science

### **BSC 2005L Laboratory in Biological Sciences 1 Credit**

**Grading Scheme:** Letter Grade

A laboratory for students who need experience in a nonprofessionally oriented laboratory or for those who need laboratory experience to satisfy requirements for graduation. (B)

**Attributes:** General Education - Biological Science

### **BSC 2010 Integrated Principles of Biology 1 3 Credits**

**Grading Scheme:** Letter Grade

General Biology Core: the first of a two-semester sequence that prepares students for advanced biological sciences courses and allied fields. Studies the origin of life systems; of biological molecules and organization of living things at the subcellular, cellular and organismic levels; and of the activities of living forms in obtaining and utilizing energy and materials in growth, maintenance and reproduction. (B)

**Prerequisite:** Degree-seeking students only.

**Attributes:** General Education - Biological Science

### **BSC 2010L Integrated Principles of Biology Laboratory 1 1 Credit**

**Grading Scheme:** Letter Grade

Laboratory experiments designed to accompany BSC 2010. Students should register for BSC 2010 and 2010L concurrently. (B)

**Prerequisite:** Degree-seeking students only.

**Corequisite:** BSC 2010 or the equivalent.

**Attributes:** General Education - Biological Science

### **BSC 2011 Integrated Principles of Biology 2 3 Credits**

**Grading Scheme:** Letter Grade

General Biology Core: the second of a two-semester sequence that prepares students for advanced biological sciences courses and allied fields.

Examination in living things of the principles of information storage, transmission and utilization at the cell, organism and population levels; of the mechanisms of evolutionary change in the diversification of living things and their life styles; of population growth and regulation; and of energy flow and biogeochemical cycling in the biosphere. (B)

**Prerequisite:** BSC 2010 or the equivalent. Degree-seeking students only.

**Attributes:** General Education - Biological Science

### **BSC 2011L Integrated Principles of Biology Laboratory 2 1 Credit**

**Grading Scheme:** Letter Grade

Laboratory experiments designed to accompany BSC 2011. Students should register for BSC 2011 and 2011L concurrently. (B)

**Prerequisite:** Degree-seeking students only.

**Corequisite:** BSC 2011 or the equivalent.

**Attributes:** General Education - Biological Science

**BSC 2862 Global Change Ecology and Sustainability 3 Credits****Grading Scheme:** Letter Grade

Examines key issues in sustainability and global environmental change from an ecological perspective. Major themes include impacts of climate change on terrestrial ecological communities; feedback between the terrestrial biosphere and the atmosphere; and implications of climate change for the sustainability of natural and managed ecosystems. (B)

**Attributes:** General Education - Biological Science**BSC 2930 Special Topics 1-4 Credits****Grading Scheme:** Letter Grade

Special topics in general biology.

**BSC 3096 Human Physiology 3 Credits****Grading Scheme:** Letter Grade

Functioning of human tissues, organs and organ systems, emphasizing the physical, chemical and mechanistic bases of normal physiology and the integrated function of the human body. Also introduces pathophysiological changes associated with human diseases.

**Prerequisite:** (CHM 1031 or CHM 2046 or CHM 2047) and BSC 2011.**BSC 3307C Climate Change Biology 4 Credits****Grading Scheme:** Letter Grade

Climate change and its impacts on biological communities, feedbacks from the biosphere to the climate system and human impacts on the carbon cycle. Emphasis on the response of vegetation to climate change and rising atmospheric CO<sub>2</sub> concentrations and the role of terrestrial ecosystems in regulating climate via the carbon cycle.

**Prerequisite:** BSC 2011 and BSC 2011L with minimum grades of C.**BSC 3911 Entering Research in Biology 1 Credit****Grading Scheme:** Letter Grade

A weekly seminar course that prepares students entering research and complements students' mentored research experience. Students get feedback on securing a research lab/mentor, share their research experiences and get feedback on their projects. Guest speakers on Biology careers and graduate/professional school admissions invited to class.

**Prerequisite:** BSC 2010/L and BSC 2011/L.**BSC 4055 Climate Change and Human Systems 3 Credits****Grading Scheme:** Letter Grade

Principles derived from basic medical science, ecology, and relevant social sciences describe the major factors of climate change and their effects on human systems relevant to economy, wellness, energy systems, and food security. Natural science and the scientific method provide the basis for understanding sustainability science as a framework for mitigation and adaptation of the disruption of the Earth System and impacts on the biosphere and human systems.

**Prerequisite:** BSC 2011 and BSC 2011L with minimum grades of C.**BSC 4452 Computational Tools for Research in Biology 3 Credits****Grading Scheme:** Letter Grade

Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.

**Prerequisite:** junior standing or higher.**BSC 4821C Evolutionary Biogeography 3 Credits****Grading Scheme:** Letter Grade

How to interpret biological data sets in a biogeographical context. Topics and methods in historical and ecological biogeography are discussed.

**Prerequisite:** BSC 2011 and BSC 2011L with minimum grades of C.**BSC 4892 AI in Biology 3 Credits****Grading Scheme:** Letter Grade

Examines how AI has rapidly become ubiquitous in daily life and been applied to diverse areas of Biology. Focuses on machine learning approaches as well as deep learning methods, including transformers. Covers machine learning methods for tabular data, computer vision, transfer learning, natural language processing, and transformer-based architectures. Classes typically applied coding with Jupyter Notebooks on HiPerGator. Prior Python coding experience required.

**Prerequisite:** BSC 4452 or BSC 6451 or BSC 2891 or Instructor permission (Python programming experience.)**BSC 4910 Individual Mentored Research in Biology 0-3 Credits****Grading Scheme:** Letter Grade

Qualified students work with a supervising instructor on a research project in biology.

**Prerequisite:** BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.**Corequisite:** BSC 3911.**BSC 4912 Advanced Mentored Research in Biology 0-4 Credits****Grading Scheme:** Letter Grade

Advanced students work with a supervising instructor on a research project in biology. May be repeated for full credit.

**Prerequisite:** BSC 3911 and BSC 4910 with minimum grades of C.

**BSC 4930 Special Topics in Biology 1-4 Credits**

**Grading Scheme:** Letter Grade

Special topics of current interest in biology.

**Prerequisite:** (BSC 2011 and BSC 2011L) or equivalent with minimum grades of C.

**BSC 4936 Critical Analysis of Biological Research 2 Credits**

**Grading Scheme:** Letter Grade

Critical analysis of current life sciences research through online discussions of research seminars and peer reviewed scientific publications.

**Prerequisite:** senior standing in biology, botany or zoology.

**BSC 4956 Overseas Studies 1-15 Credits**

**Grading Scheme:** Letter Grade

**IDS 1703 Frontiers of AI 1 Credit**

**Grading Scheme:** Letter Grade

Explore artificial intelligence (AI) and how it is used to solve real-world problems in a wide variety of disciplines. Presentations will be from faculty who study AI technologies in science, art, medicine, business, and more, and will equip students to think about how AI can be applied to their areas of interest. Intended for students from any major/discipline, no technical experience needed.

**ISC 2400L Cross-Disciplinary Laboratory 1 3 Credits**

**Grading Scheme:** Letter Grade

First course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2010L, CHM 2045L and PHY 2053L.

**Prerequisite:** high school algebra or equivalent. Degree-seeking students only.

**ISC 2401L Cross-Disciplinary Laboratory 2 3 Credits**

**Grading Scheme:** Letter Grade

Second course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2046L and PHY 2054L.

**Prerequisite:** ISC 2400L and MAC 1147 or equivalent;

**Corequisite:** BSC 2010 and CHM 2045 or CHM 2047 or CHM 2095.

**ISC 3523 Integrative Biomedical Science 3 Credits**

**Grading Scheme:** Letter Grade

Introduces biomedical science as the application of the natural sciences to medicine. Focuses on integration of biological and biochemical sciences, chemical and physical sciences, and social and behavioral sciences in the context of health. Activities promote skills in problem-solving, critical analysis, and quantitative reasoning.

**Prerequisite:** BSC 2011 and (CHM 2211 or CHM 2213 or CHM 3217) and (PHY 2048 or PHY 2053 or PHY 2060) and (MAC 2311 or STA 2023) and (PSY 2012 or SYG 2000).

**PCB 3109 Cancer Biology 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the dysregulation of cellular processes in cancer cells including the mechanisms of action of anti-cancer drugs.

**PCB 3402 Disease Ecology and Evolution 3 Credits**

**Grading Scheme:** Letter Grade

Understand how ecological patterns and evolutionary processes shape host-pathogen interactions and learn basic metrics to study infection and disease, as well as the opportunity to analyze data and interpret patterns. Use primary literature to discuss topics such as: emerging pathogens in plants, animals, and humans; evolution of host defenses; disease-diversity relationships; microbiomes and dysbiosis; herd immunity; and the one health concept.

**Prerequisite:** BSC2010.

**PCB 4085 Genetical Ethics 1 Credit**

**Grading Scheme:** Letter Grade

Presentation and critical discussion of new genetic discoveries and discoveries in the context of society. Includes policy, historical, and legal perspectives. Covers responsible conduct of research.

**Prerequisite:** PCB 3063 or AGR 3303.

**PCB 4460 Biodiversity and Ecology Field Immersion 4 Credits**

**Grading Scheme:** Letter Grade

Five-week intensive study of the earth's rich biodiversity. Emphasizes comparative study of form and function, and of complexity and diversity in phylogenetic and environmental contexts. Focuses on the study of living organisms in the laboratory and field in diverse habitats. Focal organisms and settings rotate according to instructor and semester.

**Prerequisite:** BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L.

**PCB 4542 Synthetic Biology and Comparative Genomics 3 Credits**

**Grading Scheme:** Letter Grade

Synthetic biology merges genetics and engineering to redesign and fabricate existing biological systems and design and fabricate unnatural biological systems, with a strong focus on the use of comparisons among existing organisms to understand the results of synthetic biology experiments.

**Prerequisite:** BSC 2010 with a C or better and (PCB 3063 or AGR 3303 or PCB 4522).

**PCB 4553 Population Genetics 4 Credits**

**Grading Scheme:** Letter Grade

Population and quantitative genetics, including the theory of gene frequency dynamics within and between populations, and deterministic and stochastic processes in evolution.

**Prerequisite:** BSC 2011 and 2011L with minimum grades of C.

**PCB 4562 Epigenetics and Human Disease 3 Credits**

**Grading Scheme:** Letter Grade

Introduction of epigenetic processes and epigenetic basis of human disease through lectures and in-class group activities, with focus on epigenetic modifications, chromatin remodeling, long-range chromatin interactions, dosage compensation, genomic imprinting, pluripotent stem cells, epigenetic reprogramming, and how knowledge of epigenetic processes leads to understanding and treatment of human disease.

**Prerequisite:** BSC 2011 and PCB 3063, with minimum grades of C.

**PCB 4917 Molecular Biology Lab Immersion 4 Credits**

**Grading Scheme:** Letter Grade

Perform authentic research employing techniques of molecular biology in an intensive 5 week format. Each semester the instructor chooses a general area of research and set of techniques for projects. Design hypotheses, plan and carry out experiments, and analyze data.

**Prerequisite:** BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of B.

**ZOO 4050 Animal Behavior 3 Credits**

**Grading Scheme:** Letter Grade

Scientific study of the mechanistic and evolutionary causes of animal behavior. Topics include communication, foraging and anti-predator behavior, spatial behavior, aggressive behavior, mating behavior, parental care, and social behaviors.

**Prerequisite:** BSC 2011 and BSC 2011L with minimum grades of C.

**ZOO 4405 Sea Turtle Biology and Conservation 3 Credits**

**Grading Scheme:** Letter Grade

Biology of sea turtles and their roles in marine ecosystems, current major issues in sea turtle biology, and challenges in their conservation and management.

**Prerequisite:** BSC 2010 and BSC 2011 with a minimum grade of C.

**ZOO 4462C Herpetology 4 Credits**

**Grading Scheme:** Letter Grade

A broad introduction to the biology of amphibians and reptiles, including their evolution, systematics, diversity, ecology, behavior, physiology, anatomy, and natural history. Laboratory sections provide hands-on experience with amphibians and reptiles from Florida and internationally.

**Prerequisite:** BSC 2011 and BSC 2011L.

**ZOO 4485 Marine Mammal Biology 3-4 Credits**

**Grading Scheme:** Letter Grade

Provides an understanding of the marine mammals (cetaceans, pinnipeds, sirenians, sea otters and the polar bear), including evolutionary biology, physiology (locomotion, diving, thermoregulation, osmoregulation, reproduction), ecology (foraging/feeding behavior, distribution and habitat use, population dynamics), and conservation and management. Appropriate for advanced undergraduates.

**Prerequisite:** BSC 2011 and BSC 2011L.

## Botany

**BCH 3023 Elementary Organic and Biological Chemistry 3 Credits**

**Grading Scheme:** Letter Grade

Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.

**Prerequisite:** CHM 2046 or CHM 2047.

**BOT 2010C Introductory Botany 3 Credits**

**Grading Scheme:** Letter Grade

Structures and functions of cells, tissues and organs of flowering plants. Students with credit in BSC 2005 or BSC 2010 cannot register for this course; they should take BOT 2011C. (B)

**Attributes:** General Education - Biological Science

**BOT 2011C Plant Diversity 4 Credits**

**Grading Scheme:** Letter Grade

Survey of major plant groups with regard to structure, life histories and uses accompanied by a laboratory showing the diversity of plants in the world. (B)

**Prerequisite:** introductory college biology/botany course or the equivalent.

**Attributes:** General Education - Biological Science

**BOT 2710C Practical Plant Taxonomy 3 Credits**

**Grading Scheme:** Letter Grade

Introduces plant taxonomy including principles of systematic botany, nomenclature and classification, but emphasizing identification. Student will be able to identify the common ferns, fern allies, gymnosperms and flowering plants of field and garden.

**BOT 2800C Plants in Human Affairs 3 Credits**

**Grading Scheme:** Letter Grade

The role of plants in the development of civilization and the influence of plants on world history, politics, economics and culture. A survey of useful and harmful plants and plant products. (B)

**Attributes:** General Education - Biological Science

**BOT 3151C Local Flora of North Florida 3 Credits**

**Grading Scheme:** Letter Grade

Laboratory observation of the gross features of vascular plants and practice in the use of keys to identify plants. Elementary ecology of principal types of plant communities in northern Florida. Field trips.

**BOT 3503 Physiology and Molecular Biology of Plants 3 Credits**

**Grading Scheme:** Letter Grade

The chemical organization, cellular organization, metabolism, nutrition, growth and molecular biology of the higher plants.

**Prerequisite:** (BOT 2010C or BSC 2005 or BSC 2010) and CHM 2046 and CHM 2046L.

**Corequisite:** BOT 3503L; laboratory may be taken in subsequent term.

**BOT 3503L Physiology and Molecular Biology of Plants Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

Laboratory experiments to accompany BOT 3503.

**Corequisite:** BOT 3503.

**BOT 4053 Practical Experience in Teaching Botany 2 Credits**

**Grading Scheme:** Letter Grade

Participation in teaching one 3000-level botany course with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance.

**Prerequisite:** generally, senior standing with recommendations from two faculty members, including the course instructor.

**BOT 4650 Plant Symbiosis 3 Credits**

**Grading Scheme:** Letter Grade

Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.

**Prerequisite:** BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

**BOT 4905 Individual Studies in Botany 2-4 Credits**

**Grading Scheme:** Letter Grade

Qualified students and an instructor choose a particular problem for study.

**Prerequisite:** 8 credits of botany.

**BOT 4911 Undergraduate Research in Botany 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research in Botany. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Botany.

**BOT 4935 Special Topics 1-4 Credits**

**Grading Scheme:** Letter Grade

Special topics in botany.

**BOT 4956 Overseas Studies 1-15 Credits**

**Grading Scheme:** Letter Grade

Overseas Studies

**PCB 3023 Essential Cell Biology 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the basic concepts of molecular cell biology in prokaryotic and eukaryotic systems including experimental strategies and methodology. This course is intended for those interested in plants.

**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent.

### **PCB 3601C Plant Ecology 3 Credits**

**Grading Scheme:** Letter Grade

Principles of ecology at scales ranging from individual plants to landscapes. Emphasis is on species, ecosystems and environmental programs in Florida.

**Prerequisite:** introductory college biology or botany.

## **Zoology**

### **AST 2037 Life in the Universe 3 Credits**

**Grading Scheme:** Letter Grade

The origin of life on Earth and the possibility of life elsewhere. A multidisciplinary approach is followed. Conditions for life to form and the likelihood that such conditions may exist elsewhere in the universe are discussed. Also considered are schemes proposed for the search for extraterrestrial intelligence (SETI). (P)

**Attributes:** General Education - Physical Science

### **BSC 3402 Theory and Practice in the Biological Sciences 2 Credits**

**Grading Scheme:** Letter Grade

Presents the scientific method, in its many formulations, from historical, philosophical and sociological perspectives. Explores generation and presentation of data, formulation of hypotheses and theories and dissemination of results. Also examines the ethical implication of biological research.

### **GLY 3603C Paleontology 4 Credits**

**Grading Scheme:** Letter Grade

Investigation of the history of life on earth, including aspects of invertebrate and vertebrate paleontology, micropaleontology and paleobotany.

**Prerequisite:** refer to the department.

### **PCB 3063 Genetics 4 Credits**

**Grading Scheme:** Letter Grade

The fundamental properties of inheritance in eukaryotic organisms emphasizing examples in man. Basic concepts are developed for the nature, organization, transmission, expression, recombination and function of genetic materials and principles are derived for genetically characterizing populations.

**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C and general chemistry.

### **PCB 3713C Cellular and Systems Physiology 4 Credits**

**Grading Scheme:** Letter Grade

How cells, organs, and higher level systems are integrated and coordinated in the functions of humans and other animals. Emphasizes the use of model organisms, mathematical models, and the physical sciences to understand the mechanistic basis of normal physiology and dysfunction.

**Prerequisite:** BSC 2010 and (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096) and (PHY 2048 or PHY 2060), all with minimum grades of C.

**Corequisite:** PHY 2049 or PHY 2061.

### **PCB 4043C General Ecology 4 Credits**

**Grading Scheme:** Letter Grade

Ecological processes and organization in terrestrial and aquatic habitats. Laboratory and field exercises emphasize techniques of ecological analysis.

**Prerequisite:** BSC 2011 and 2011L, or equivalent, with minimum grades of C.

### **PCB 4674 Evolution 4 Credits**

**Grading Scheme:** Letter Grade

Processes and mechanisms of evolution, including population genetics, speciation, patterns of evolution and molecular evolution.

**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C;

**Corequisite:** one semester of calculus; PCB 3063 recommended.

### **PCB 4712 Comparative Biomechanics 3 Credits**

**Grading Scheme:** Letter Grade

Reviews physical principles governing the form and function of organisms.

**Prerequisite:** (BSC 2011 and BSC 2011L or equivalent with minimum grades of C) and PHY 2048 and PHY 2053L and PCB 4674 and ZOO 3713C.

### **PCB 4723C Physiology and Molecular Biology of Animals 4 Credits**

**Grading Scheme:** Letter Grade

Processes and mechanisms of maintenance, activity, and integration in animals with emphasis on vertebrates. Laboratory experience in quantitative methods and techniques of physiological investigation.

**Prerequisite:** BSC 2011 and (CHM 2046 or CHM 2047) with a minimum grades of C. Recommended: ((PHY 2053 and PHY 2054) or (PHY 2060 and PHY 2061)) and PCB 3063 and PCB 4674.

### **ZOO 3513C Animal Behavior 4 Credits**

**Grading Scheme:** Letter Grade

The causes, origins and evolution of animal behavior emphasizing field observations and experiments on the behavior of a variety of animal groups.

**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674.

**ZOO 3603C Evolutionary Developmental Biology 4 Credits**

**Grading Scheme:** Letter Grade

Analysis of embryonic development, underlying genetic mechanisms and how these processes have driven the evolutionary diversification of animal body plans.

**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

**ZOO 3713C Functional Vertebrate Anatomy 4 Credits**

**Grading Scheme:** Letter Grade

The form and function of chordates accompanied by laboratory work dealing with a selected series of chordates.

**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

**ZOO 4205C Invertebrate Biodiversity 4 Credits**

**Grading Scheme:** Letter Grade

Comparative biology of invertebrates, emphasizing morphology, evolution, ecology and life history.

**Prerequisite:** BSC 2011 and BSC 2011L with minimum grades of C.

**ZOO 4307C Vertebrate Biodiversity 4 Credits**

**Grading Scheme:** Letter Grade

Comparative biology of vertebrates, emphasizing morphology, evolution, ecology and behavior.

**Prerequisite:** BSC 2011 and (BSC 2011L or ISC 2401L) with minimum grades of C.

**ZOO 4403C Marine Biology 4 Credits**

**Grading Scheme:** Letter Grade

Survey of major marine taxa, systematics of local marine fauna and flora, with familiarization of the marine environment. Laboratory emphasizes field work and independent projects.

**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

**ZOO 4472C Avian Biology 4 Credits**

**Grading Scheme:** Letter Grade

The basic biological characteristics of birds, which, as exceptionally unique flying vertebrates, are confronted with a spectrum of problems in terms of anatomy, physiology, behavior, migration and population ecology.

**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674 (recommended).

**ZOO 4905 Individual Studies in Zoology 1-4 Credits**

**Grading Scheme:** Letter Grade

Qualified students and the instructor concerned may choose a particular topic or problem for study.

**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

**ZOO 4911 Undergraduate Research in Zoology 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

**ZOO 4926 Special Topics in Zoology 1-4 Credits**

**Grading Scheme:** Letter Grade

Lectures, conferences or laboratory sessions covering selected topics of current interest in zoology.

**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

**ZOO 4940 Practical Experience in Teaching Zoology 2 Credits**

**Grading Scheme:** S/U

Participation in teaching approved zoology courses with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance. Cannot be used to satisfy minimum hour requirement for zoology major. (S-U)

**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, one zoology laboratory-based course, senior status and instructor permission.

**ZOO 4956 Overseas Studies 1-18 Credits**

**Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

**Prerequisite:** BSC 2011 and BSC 2011L with minimum grades of C and undergraduate advisor permission.

---

## Biomedical Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The J. Crayton Pruitt Family Department of Biomedical Engineering (BME) is part of the Herbert Wertheim College of Engineering and is a prime resource for biomedical engineering education, training, research, and technology development. BME is an ever-evolving field that uses and applies engineering principles to the study of biology and medicine in order to improve health care.

### Curriculum

- Biomedical Engineering
- Combination Degrees

---

## Courses

### **BME 1008 Introduction to Biomedical Engineering 1 Credit**

**Grading Scheme:** Letter Grade

Introduction to and overview of biomedical engineering. Lectures are given by faculty expert in an area of biomedical engineering. The goal is to give beginning students an appreciation for the breadth of the field and to guide them in making curriculum, major and career choices.

### **BME 1930 Special Topics in Biomedical Engineering 1-4 Credits**

**Grading Scheme:** Letter Grade

Selected topics in biomedical engineering.

### **BME 2202 Engineering Statics and Dynamics in Biological Systems 3 Credits**

**Grading Scheme:** Letter Grade

Principles of engineering statics and dynamics as they relate to biological systems. Topics include vector mathematics, summation of forces and moments in static equilibrium, equations of motion, dynamics of particles and rigid bodies, concepts of work, energy, and momentum, introduction to deformable bodies. All topics are discussed in the context of biological systems.

**Prerequisite:** PHY 2049, and MAC 2313.

### **BME 3012 Clinically-Inspired Engineering Design 3 Credits**

**Grading Scheme:** Letter Grade

Through exposure to real clinical problems, learn to communicate with medical professionals in order to identify unmet needs, to develop prototypes and initial concepts for clinical problems, and to critically evaluate potential solutions for clinical problems.

**Prerequisite:** BME 3060 and PCB 3713C with minimum grades of C;

**Corequisite:** BME 3101 and EGM 2511.

### **BME 3053C Computer Applications for BME 2 Credits**

**Grading Scheme:** Letter Grade

Computer programming lab and lecture utilizes Matlab to analyze biomedical measurements.

**Prerequisite:** COP 2271 and COP 2271L or equivalent and MAC 2312, with minimum grades of C.

### **BME 3060 Biomedical Fundamentals 3 Credits**

**Grading Scheme:** Letter Grade

Working specifically within the framework of biomedical engineering applications, provides the engineering fundamentals of the conservation laws of mass, energy, charge, and momentum.

**Prerequisite:** (CHM 2046 or CHM 2096) and MAC 2313 with minimum grades of C.

**Corequisite:** PHY 2049, MAP 2302, and BME 1008.

**BME 3101 Biomedical Materials 3 Credits****Grading Scheme:** Letter Grade

Restoration of physiological function by engineering biomaterials for biological environment, covering principles underlying use and design of medical implants and matrices/scaffolds. Strong emphasis on transition from engineering material to biological tissue, including molecular and cellular interactions with biomaterials, tissue and organ regeneration, and design of intact, biodegradable, and bioreplaceable materials.

**Prerequisite:** BME 3060 with minimum grade of C and (CHM 3217 or (CHM2210 and CHM2211) with minimum grades of C).

**BME 3219 Engineering Analysis of Musculoskeletal Biomechanics 3 Credits****Grading Scheme:** Letter Grade

Introduction to musculoskeletal biomechanics and quantitative movement analysis with emphasis on engineering approaches. Students learn how to apply experimental and computational methods to evaluate the human body as a biomechanical system. Topics include rigidbody kinematics, dynamics, motion capture, external force measurement, electromyography, and mechanical properties of muscles and tendons.

**Prerequisite:** COP 2271 (or equivalent) & EGM 2511. Only Matlab or C++ programming languages will be accepted for COP 2271. Engineering majors only.

**BME 3234 Mechanical Behavior of Biological Tissues and Systems 3 Credits****Grading Scheme:** Letter Grade

Focuses on understanding the mechanical behavior of biological tissues and systems by evaluating structure-function relationships, stress-strain relationships, and the mechanical complexity of biological systems; introduces the basics of viscoelastic behavior as it applies to biological tissues.

**Prerequisite:** BME 3060 with minimum grade of C and EGM 2511.

**BME 3323L Cellular Engineering Laboratory 3 Credits****Grading Scheme:** Letter Grade

The cellular engineering laboratory teaches the fundamentals of cell culture for use in biomedical engineering investigations. Acquire skills in cell culture, quantitative analyses, notebook keeping, report writing, and oral presentation.

**Prerequisite:** PCB 3713C;

**Corequisite:** BME 4311 or instructor permission.

**BME 3508 Biosignals and Systems 3 Credits****Grading Scheme:** Letter Grade

Basic theory and techniques of biosignals and systems. Topics include sampling, noise in biological signals, signal averaging of noisy biological signals, Fourier analysis and filtering.

**Prerequisite:** (EEL 3003 or EEL 3111C) and MAC 2313 with a minimum grade of C.

**BME 3941 Internship Experience in Biomedical Engineering 0-3 Credits****Grading Scheme:** S/U

Engineering work experience under the supervision of an engineer.

**Prerequisite:** Biomedical Engineering major.

**BME 4160 Magnetic Biomaterials 3 Credits****Grading Scheme:** Letter Grade

Consists of classroom lectures on fundamental concepts in magnetism and magnetic micro and nano-materials and their applications in biomedicine. Participants present a critical review of recent literature in the field and lead a group discussion on a specific, recent paper.

**Prerequisite:** PHY 2048 and CHM 2046 or CHM 2096 with minimum grades of C.

**BME 4311 Molecular Biomedical Engineering 3 Credits****Grading Scheme:** Letter Grade

Introduces the fundamentals of molecular biology for biomedical engineers. Designed for juniors or seniors majoring in biomedical engineering to learn the nomenclature and current state of knowledge of the eukaryotic cell and its related structures. Topics include protein structure and function, enzymes, the structure and nature of DNA and the cellular structure and function of various cellular organelles. Learn about energy and the function of mitochondria and chloroplast, cellular communication and the function of the extracellular matrix.

**Prerequisite:** BSC 2010 and (CHM 3217 or CHM 2210) and PCB 3713C with minimum grades of C.

**BME 4361 Neural Engineering 3 Credits****Grading Scheme:** Letter Grade

Applying engineering to neuroscience; includes such diverse areas as neural tissue engineering, models of neural function, and neural interface technology. Focuses mainly in the context of neural interfaces and prosthetics, from basic neural physiology and models of neural mechanisms to advanced neural interfaces currently in development or produced commercially.

**Prerequisite:** BME 3508 or EEL 3135.

**BME 4409 Quantitative Physiology 3 Credits****Grading Scheme:** Letter Grade

A junior/senior level physiology course. Quantitative modeling of organ system physiology of the nervous system, the cardiovascular system and the respiratory system are discussed and students work on quantitative problems.

**Prerequisite:** PCB 3713C, BME 3053C, BME 3060, and BME 3508 with minimum grades of C.

**BME 4503 Biomedical Instrumentation 3 Credits****Grading Scheme:** Letter Grade

Covers engineering and medical bases of application, measurement and processing of signals to and from living systems. Biomedical transducers for measurements of movement, biopotentials, pressure, flow, concentrations and temperature are discussed, as well as treatment devices such as ventilators and infusion pumps.

**Prerequisite:** MAC 2313 and MAP 2302 and PHY 2049 and (EEL 3003 or EEL 3111C) with minimum grades of C.**Corequisite:** BME 3508.**BME 4503L Biomedical Instrumentation Laboratory 1 Credit****Grading Scheme:** Letter Grade

Laboratory for BME 4503.

**Prerequisite:** MAC 2313 and MAP 2302 and PHY 2049 and (EEL 3003 or EEL 3111C) with minimum grades of C;**Corequisite:** BME 3508 and BME 4503.**BME 4531 Medical Imaging 3 Credits****Grading Scheme:** Letter Grade

Medical imaging technologies from a biomedical engineering perspective. The physics, mathematics, instrumentation and clinical applications of all common medical imaging modalities, including x-ray radiography, computed tomography (CT), ultrasound imaging, positron emission tomography (PET) and magnetic resonance imaging (MRI) are discussed. Emerging imaging modalities, including optical imaging, fluorescence imaging and photoacoustic imaging are also introduced.

**Prerequisite:** MAC 2313, MAP 2302, PHY 2049, BME 3053C, and BME 3508 with minimum grades of C.**BME 4621 Biomolecular Thermodynamics and Kinetics 3 Credits****Grading Scheme:** Letter Grade

Principles of thermodynamics and kinetics from a biomolecular perspective. The mathematics, analysis, and applications of classical thermodynamics, statistical thermodynamics, and reaction kinetics are introduced in the context of molecular interactions, binding equilibria, metabolism, and biomolecular transport common to living systems.

**Prerequisite:** CHM 3217 or (CHM 2210 and CHM 2211), with minimum grades of C, and BME 3060 and (BME 4311 or BCH 4024).**BME 4632 Biomedical Transport Phenomena 3 Credits****Grading Scheme:** Letter Grade

Introduces and applies the concepts of momentum, mass, and thermal energy transport in the context of problems of interest in biomedical sciences and engineering. Macroscopic and microscopic analysis of momentum, mass, and thermal energy transport problems in biomedical systems.

**Prerequisite:** BME 3060 with minimum grade of C.**BME 4648 Biomaterials for Drug Delivery 3 Credits****Grading Scheme:** Letter Grade

Focuses on the principles of engineering controlled release systems, and integrates topics in polymer chemistry, biomaterials, pharmacokinetics/pharmacodynamics, and mass transport phenomena.

**Prerequisite:** BME 3060 with a minimum grade of C.**Corequisite:** BME 4632**BME 4760 Biomedical Data Science 3 Credits****Grading Scheme:** Letter Grade

Covers the biomedical applications of data science techniques, which include pre-processing techniques, machine learning data analysis, and data visualization techniques.

**Prerequisite:** BME 3053C and COP 2271 and COP 2271L and (STA 2023 or STA 3032).**BME 4882 Senior Design, Professionalism and Ethics 1 3 Credits****Grading Scheme:** Letter Grade

Design of custom strategies to address real-life issues in the development of biocompatible and biomimetic devices for biotechnology or biomedical applications. Teams work with a client in the development of projects that incorporate various aspects of biomedical engineering including instrumentation, biomechanics, biotransport, tissue engineering and others. Emphasizes formal engineering design principles; overview of intellectual properties, engineering ethics, risk analysis, safety in design and FDA regulations are reviewed. Part 1 focuses on design.

**Prerequisite:** BME 3012 and senior standing.**BME 4883 Senior Design, Professionalism and Ethics 2 3 Credits****Grading Scheme:** Letter Grade

Design of custom strategies to address real-life issues in the development of biocompatible and biomimetic devices for biotechnology or biomedical applications. Teams work with a client in the development of projects that incorporate various aspects of biomedical engineering including instrumentation, biomechanics, biotransport, tissue engineering and others. Emphasizes formal engineering design principles; overview of intellectual properties, engineering ethics, risk analysis, safety in design and FDA regulations are reviewed. Part 2 focuses on implementation and testing.

**Prerequisite:** BME 4882 and (ENC 3246 with minimum grade of C) and senior standing.**BME 4931 Special Topics in Biomedical Engineering 1-4 Credits****Grading Scheme:** Letter Grade

Selected topics in biomedical engineering.

**EGN 1935 Special Topics in Freshman Engineering 1-3 Credits****Grading Scheme:** Letter Grade

Laboratory, lectures or conferences cover selected topics in engineering.

**EGN 4912 Engineering Directed Independent Research 0-3 Credits****Grading Scheme:** S/U

Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**EGS 1005 Prep for Success 1-4 Credits****Grading Scheme:** S/U

Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)

**Prerequisite:** EG student.

## Courses

Please note that a complete list of all courses offered by the Department of Biology can be found here (p. 1894).

**BCH 3023 Elementary Organic and Biological Chemistry 3 Credits****Grading Scheme:** Letter Grade

Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.

**Prerequisite:** CHM 2046 or CHM 2047.

**BOT 2010C Introductory Botany 3 Credits**

**Grading Scheme:** Letter Grade

Structures and functions of cells, tissues and organs of flowering plants. Students with credit in BSC 2005 or BSC 2010 cannot register for this course; they should take BOT 2011C. (B)

**Attributes:** General Education - Biological Science

**BOT 2011C Plant Diversity 4 Credits**

**Grading Scheme:** Letter Grade

Survey of major plant groups with regard to structure, life histories and uses accompanied by a laboratory showing the diversity of plants in the world. (B)

**Prerequisite:** introductory college biology/botany course or the equivalent.

**Attributes:** General Education - Biological Science

**BOT 2710C Practical Plant Taxonomy 3 Credits**

**Grading Scheme:** Letter Grade

Introduces plant taxonomy including principles of systematic botany, nomenclature and classification, but emphasizing identification. Student will be able to identify the common ferns, fern allies, gymnosperms and flowering plants of field and garden.

**BOT 2800C Plants in Human Affairs 3 Credits**

**Grading Scheme:** Letter Grade

The role of plants in the development of civilization and the influence of plants on world history, politics, economics and culture. A survey of useful and harmful plants and plant products. (B)

**Attributes:** General Education - Biological Science

**BOT 3151C Local Flora of North Florida 3 Credits**

**Grading Scheme:** Letter Grade

Laboratory observation of the gross features of vascular plants and practice in the use of keys to identify plants. Elementary ecology of principal types of plant communities in northern Florida. Field trips.

**BOT 3503 Physiology and Molecular Biology of Plants 3 Credits**

**Grading Scheme:** Letter Grade

The chemical organization, cellular organization, metabolism, nutrition, growth and molecular biology of the higher plants.

**Prerequisite:** (BOT 2010C or BSC 2005 or BSC 2010) and CHM 2046 and CHM 2046L.

**Corequisite:** BOT 3503L; laboratory may be taken in subsequent term.

**BOT 3503L Physiology and Molecular Biology of Plants Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

Laboratory experiments to accompany BOT 3503.

**Corequisite:** BOT 3503.

**BOT 4053 Practical Experience in Teaching Botany 2 Credits**

**Grading Scheme:** Letter Grade

Participation in teaching one 3000-level botany course with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance.

**Prerequisite:** generally, senior standing with recommendations from two faculty members, including the course instructor.

**BOT 4650 Plant Symbiosis 3 Credits**

**Grading Scheme:** Letter Grade

Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.

**Prerequisite:** BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

**BOT 4905 Individual Studies in Botany 2-4 Credits**

**Grading Scheme:** Letter Grade

Qualified students and an instructor choose a particular problem for study.

**Prerequisite:** 8 credits of botany.

**BOT 4911 Undergraduate Research in Botany 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research in Botany. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Botany.

**BOT 4935 Special Topics 1-4 Credits**

**Grading Scheme:** Letter Grade

Special topics in botany.

**BOT 4956 Overseas Studies 1-15 Credits**

**Grading Scheme:** Letter Grade

Overseas Studies

**PCB 3023 Essential Cell Biology 3 Credits****Grading Scheme:** Letter Grade

Introduces the basic concepts of molecular cell biology in prokaryotic and eukaryotic systems including experimental strategies and methodology. This course is intended for those interested in plants.

**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent.**PCB 3601C Plant Ecology 3 Credits****Grading Scheme:** Letter Grade

Principles of ecology at scales ranging from individual plants to landscapes. Emphasis is on species, ecosystems and environmental programs in Florida.

**Prerequisite:** introductory college biology or botany.

## Courses

**GEB 2015 Introduction to Business 1 Credit****Grading Scheme:** Letter Grade

Introduces the business world by focusing on various disciplines within business and management. Also introduces personal and professional development opportunities that enhance career preparedness.

**GEB 2951 Special Projects 1-3 Credits****Grading Scheme:** S/U

Projects related to business as approved by the college. (S-U)

**GEB 3017 Leading Organizations 4 Credits****Grading Scheme:** Letter Grade

Provides a Strategic Foundation for Leadership Practice in a Variety of Professions. Increases the Capacity to Lead With and Without Authority, Across Boundaries, and From Any Political or Organizational Position.

**Prerequisite:** MAN 3025.

**GEB 3035 Effective Career Management in Business 4 Credits****Grading Scheme:** Letter Grade

Systematically designed course based on the cognitive information processing theory for career problem solving and decision-making. Delivered via modularized multimedia instructional materials. The course is designed to inform students about career planning and management interventions and to accommodate students at different levels of decidedness about their career aspirations.

**GEB 3213 Professional Writing in Business 3 Credits****Grading Scheme:** Letter Grade

Teaches business students fundamental written communication skills focusing on those areas central to professional writing in business. (C) (WR)

**Attributes:** General Education - Composition, Satisfies 6000 Words of Writing Requirement

**GEB 3218 Professional Speaking in Business 3 Credits****Grading Scheme:** Letter Grade

Teaches fundamental oral communication skills necessary for succeeding in a business setting including presentations and speeches, interpersonal skills and interviewing.

**GEB 3219 Writing and Speaking in Business 4 Credits****Grading Scheme:** Letter Grade

Online content teaches business students the fundamentals of both written and spoken communication, enabling them to express their ideas effectively and efficiently and to prepare them for the demands of the business workspace. (C) (WR)

**Attributes:** General Education - Composition, Satisfies 6000 Words of Writing Requirement

**GEB 3373 International Business 4 Credits****Grading Scheme:** Letter Grade

Exposes the business environments (culture, politics, laws and economics) encountered in other parts of the world; to the tools and skills necessary to analyze the potential of other countries as locations for production, distribution and marketing; to how managing and integrating international operations in many parts of the world differs from the domestic focus of many business courses; and to the broad perspective required of successful managers working in international business.

**Prerequisite:** MAN 3025 and MAR 3023.

**GEB 3523 Business Case Analysis 2 Credits****Grading Scheme:** Letter Grade

Introduces case analysis and prepares students for national and international case competitions.

**GEB 4905 Individual Work 1-4 Credits****Grading Scheme:** Letter Grade

Reading and/or research in business administration.

**GEB 4906 Independent Study 1-4 Credits****Grading Scheme:** S/U

Reading and research in business administration. (S-U)

**GEB 4911 Undergraduate Research in Business 0-4 Credits****Grading Scheme:** Letter Grade

Provides an opportunity for firsthand, supervised research in business. Projects may involve inquiry, design, investigation, scholarship, discovery, or application in business.

**GEB 4930 Special Topics 1-4 Credits****Grading Scheme:** Letter Grade

Variable content provides an opportunity for in-depth study of topics not offered in other courses and topics of special current significance.

**Prerequisite:** department permission.

**GEB 4932 Professional Development Module 2 Credits****Grading Scheme:** Letter Grade

Presents techniques for outstanding presentation and public speaking skills. Includes a significant service learning component whereby students apply presentation techniques developed in the classroom via business-oriented instruction in the K-12 school system.

**GEB 4941 Internship in Business Administration 1-4 Credits****Grading Scheme:** S/U

Applied work in business administration that requires several papers and reports. (S-U)

**Prerequisite:** undergraduate programs director permission.

**GEB 4956 International Studies in Business 1-18 Credits****Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

**Prerequisite:** admission to an approved UF study abroad program and undergraduate programs director permission.

**GEB 4970 Honors Thesis 1 Credit****Grading Scheme:** S/U

A thesis is required for the awarding of the magna cum laude or summa cum laude designation. To qualify for the thesis option, students will normally have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator of the student's major department) and must have at least the 3.6 grade point average required for magna cum laude designation at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's major department. (S-U)

**Prerequisite:** senior standing and 3.6 UF GPA.

---

## Career Development Program

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<http://registrar.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

**SLS 1501 College Study Skills 1 1-3 Credits****Grading Scheme:** Letter Grade

A developmental course designed to assist students who may be having difficulty in their college-level coursework or those who simply wish to improve basic skills essential for college success. The course begins with an individual self-assessment followed by topics such as motivation, time management, active reading, memory, note taking and test taking. Students will also develop a career portfolio for their final lesson.

**SLS 2301 Career Planning 1 Credit****Grading Scheme:** Letter Grade**SLS 2302 Job Strategies 1 Credit****Grading Scheme:** Letter Grade

Interactive course covering all aspects of a successful job search, long-term career planning and success in the professional environment. Enrollment is restricted to juniors and seniors.

---

## Chemical Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The work of the Department of Chemical Engineering is not restricted to the chemical industry, chemical changes or chemistry. Instead, modern chemical engineers are concerned with all the physical, chemical, and biological changes of matter that can produce an economic product or result that is useful to humankind.

  - Combination Degrees
-

## Courses

**ABE 2062 Biology for Engineers 3 Credits**

**Grading Scheme:** Letter Grade

Principles and engineering applications of biology. Principles and applications of biochemistry, genetics, microbial systems, animal systems, ecological systems and global systems. (B) (WR)

**Attributes:** General Education - Biological Science, Satisfies 6000 Words of Writing Requirement

**BME 3406 Introduction to Biomolecular Engineering 3 Credits**

**Grading Scheme:** Letter Grade

Introduces bio-related careers in chemical engineering and emphasizes the link between biology and chemical engineering as well as the interface between them.

**Prerequisite:** Sophomore Standing or Chemical Engineering Major

**Corequisite:** CHM 2045 or CHM 2095 or CHM 2050

**BME 4220 Biomolecular Cell Mechanics 3 Credits**

**Grading Scheme:** Letter Grade

Covers the biomolecular basis of cell mechanics and cell motility, emphasizing quantitative models and systems-biology approaches.

**BME 4321 Dynamics of Cellular Processes 3 Credits**

**Grading Scheme:** Letter Grade

Confocal florescence microscopy, techniques for imaging macromolecular dynamics and interactions inside living cells, models of intracellular diffusion, models of ligand-receptor binding, interplay between binding and transport, modeling and analysis of experiments. Examples from literature include mRNA transport, nuclear pore dynamics, cytoskeletal dynamics, imaging motor proteins and transcription factor dynamics.

**Prerequisite:** a course on kinetics and/or transport, or instructor permission.

**COT 3502 Computer Model Formulation 4 Credits**

**Grading Scheme:** Letter Grade

Solutions of scientific and engineering problems using digital computers. Formulation of models for describing physical processes, numerical analysis and computer programming. (M)

**Prerequisite:** ECH 3023 and MAP 2302 and MAC 2313.

**ECH 3023 Material and Energy Balances 4 Credits**

**Grading Scheme:** Letter Grade

Formulation and solution of material and energy balances utilizing physical/chemical properties of matter as applied to analyzing unit operations systems.

**Prerequisite:** CHM 2046 or (MAC 2312 and PHY 2048).

**Corequisite:** PHY 2049, MAC 2313 and MAP 2302.

**ECH 3101 Process Thermodynamics 3 Credits**

**Grading Scheme:** Letter Grade

Introduces fundamental principles of classical thermodynamics. Applications to modeling and analysis of physical and chemical processes undergoing change.

**Prerequisite:** COT 3502 and ECH 3264.

**ECH 3203 Fluid and Solid Operations 3 Credits**

**Grading Scheme:** Letter Grade

Characteristics of laminar and turbulent flow, mechanical energy balance, flow through packed beds and fluidization of solids, design of pumping systems and piping networks and metering of fluids.

**Prerequisite:** COT 3502 and ECH 3264.

**ECH 3223 Energy Transfer Operations 3 Credits**

**Grading Scheme:** Letter Grade

Steady state conduction in solids and heterogeneous materials, transient conduction, convection heat transfer, heat transfer during boiling and condensation, radiation heat transfer, design of heat-transfer equipment and heat exchange networks.

**Prerequisite:** COT 3502 and ECH 3264.

**ECH 3264 Elementary Transport Phenomena 3 Credits**

**Grading Scheme:** Letter Grade

Flux law and conservation equations of mass, energy and momentum; steady and unsteady states as applied to physical and chemical processing; macroscopic and microscopic analysis.

**Prerequisite:** ECH 3023 and MAP 2302 and MAC 2313.

**ECH 4123 Phase and Chemical Equilibria 3 Credits**

**Grading Scheme:** Letter Grade

Application of thermodynamic principles to systems of variable composition including the study of phase and chemical equilibria.

**Prerequisite:** ECH 3101 and ECH 3203 and ECH 3223.

**ECH 4224L Fluid and Energy Transfer Operations Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

Laboratory work in unit operations involving heat and momentum transfer. (WR)

**Prerequisite:** ECH 3101 and ECH 3203 and ECH 3223 and STA 3032 or STA 2023;

**Corequisite:** ECH 4714 and ENC 3246.

**Attributes:** Satisfies 6000 Words of Writing Requirement

**ECH 4323 Process Control Theory 3 Credits**

**Grading Scheme:** Letter Grade

The analysis and automatic control of process systems in chemical engineering.

**Prerequisite:** COT 3502 or ECH 3023 or MAP 2302;

**Corequisite:** ECH 4323L.

**ECH 4323L Chemical Engineering Laboratory 5 1 Credit**

**Grading Scheme:** Letter Grade

Laboratory work associated with ECH 4323.

**Corequisite:** ECH 4323.

**ECH 4403 Separation and Mass Transfer Operations 3 Credits**

**Grading Scheme:** Letter Grade

Theory, design, and evaluation of diffusional and staged mass transfer processes including distillation, absorption and extraction, leaching, and membrane separations. Computer-aided design methods.

**Prerequisite:** ECH 3101 and ECH 3203 and ECH 3223.

**ECH 4404L Separation and Mass Transfer Operations Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

Laboratory work in unit operations involving mass transfer. (WR)

**Prerequisite:** ECH 4403 and ECH 4224L and ECH 4714.

**Attributes:** Satisfies 6000 Words of Writing Requirement

**ECH 4504 Chemical Kinetics and Reactor Design 4 Credits**

**Grading Scheme:** Letter Grade

Homogeneous and heterogeneous reaction kinetic modeling and data analysis. Analysis and design of ideal batch, mixed, plug and recycle reactors. Heterogeneous catalysis and reactor design.

**Prerequisite:** ECH 3264 and ECH 4123.

**ECH 4524 Heterogeneous Chemical Kinetics Reactor Design 2 Credits**

**Grading Scheme:** Letter Grade

Theories of catalytic reactions of adsorbed species at solid surfaces, development of rate expressions with heat and mass transport properties through porous catalyst materials for design of heterogeneous chemical reactors.

**Prerequisite:** ECH 4504.

**ECH 4604 Process Economics and Optimization 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the principles of process economics including specifications and costing of equipment, operations costing and economic evaluation of processes.

**Prerequisite:** ECH 3203 and ECH 3223;

**Corequisite:** ECH 4403.

**ECH 4644 Process Design 3 Credits**

**Grading Scheme:** Letter Grade

Preliminary design of conventional chemical processes including process specifications, siting and layout, equipment sizing, utility and manpower needs, safety and hazard analysis, environmental considerations and economic evaluation. Planning techniques for detailed engineering, construction and startup.

**Prerequisite:** ECH 4403 and ECH 4504 and ECH 4604 and ECH 4824.

**ECH 4714 Chemical Process Safety 3 Credits**

**Grading Scheme:** Letter Grade

Laboratory and process safety analysis which emphasizes prevention and mitigation. Application of chemical engineering principles to assessing hazards and risk.

**Prerequisite:** ECH 3101, ECH 3203 and ECH 3223.

**ECH 4824 Materials of Chemical Engineering 2 Credits**

**Grading Scheme:** Letter Grade

Relations between microscopic structure and macroscopic mechanical, thermal and electrical properties of organic and inorganic solids. Engineering applications, including corrosion.

**Prerequisite:** ECH 3264

**ECH 4827 Processing of Complex Fluids 3 Credits**

**Grading Scheme:** Letter Grade

Principles involved in quantitative adoption of chemical engineering unit operations and unit processes for the analysis and design of systems involving complex fluids.

**Prerequisite:** (ECH 3203 and ECH 3223 and ECH 4123 and ECH 4824) or instructor permission.

**ECH 4905 Special Problems in Chemical Engineering 1-6 Credits**

**Grading Scheme:** Letter Grade

Study of chemical engineering problems identified by the student and instructor.

**ECH 4912 Integrated Product and Process Design 1 3 Credits**

**Grading Scheme:** Letter Grade

The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic product and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.

**Prerequisite:** senior standing.

**ECH 4913 Integrated Product and Process Design 2 3 Credits**

**Grading Scheme:** Letter Grade

The second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic product and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.

**Prerequisite:** senior standing.

**ECH 4934 Professional Seminar 1 Credit**

**Grading Scheme:** Letter Grade

Discussion of issues associated with development of a professional career in chemical engineering. Topics include ethics presented in a case study format, legal and ethical issues associated with intellectual property, interviewing strategies and presentation skills.

**Prerequisite:** Chemical Engineering major.

**ECH 4944 Practical Work in Chemical Engineering 1-5 Credits**

**Grading Scheme:** Letter Grade

One term industrial employment, including extra work according a pre-approved outline. Practical engineering work under industrial supervision as set forth in college regulations.

**Prerequisite:** Engineering major.

**ECH 4948 Internship Work Experience 0-3 Credits**

**Grading Scheme:** S/U

Practical internship work experience under approved industrial supervision, as set forth in college regulations. 0-3 credits, repeatable (S-U). However, a maximum of 3 credits from ECH4948 and ECH 4949 can count towards the Chemical Engineering degree. For example, a student who has earned 1 credit of ECH 4949, can only have 2 credits of ECH 4948 count towards the degree.

**Prerequisite:** Engineering major.

**ECH 4949 Co-op Work Experience 0-3 Credits**

**Grading Scheme:** S/U

Practical co-op work experience under approved industrial supervision, as set forth in college regulations. 0-3 credits, repeatable (S-U). However, a maximum of 3 credits from ECH4949 and ECH 4948 can count towards the Chemical Engineering degree. For example, a student who has earned 1 credit of ECH 4948, can only have 2 credits of ECH 4949 count towards the degree.

**Prerequisite:** Engineering major.

**EGN 1935 Special Topics in Freshman Engineering 1-3 Credits**

**Grading Scheme:** Letter Grade

Laboratory, lectures or conferences cover selected topics in engineering.

**EGN 4912 Engineering Directed Independent Research 0-3 Credits**

**Grading Scheme:** S/U

Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**EGS 1005 Prep for Success 1-4 Credits**

**Grading Scheme:** S/U

Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)

**Prerequisite:** EG student.

---

# Chemistry

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Department of Chemistry is a comprehensive department granting bachelor's, master's, and PhD degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic, and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in PhD production and is among the top 20 in bachelor's graduates.

---

## Introduction to General Chemistry

CHM 1025, a two-credit course, is offered for students who wish to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence (CHM 2045/CHM 2045L, CHM 2046/CHM 2046L). A chemistry placement exam is offered online on ONE.UF (<https://one.uf.edu/>). The score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

### General Chemistry

For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their general chemistry studies without interruption.

The following general chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence that meets preprofessional requirements in the College of Nursing and some majors in the College of Agricultural and Life Sciences.
- CHM 1020 is a terminal general education course that explores chemistry in terms of consumer products. This course meets preprofessional requirements in certain areas of the College of Agricultural and Life Sciences.
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the standard general chemistry sequence. This sequence meets the preprofessional requirement for a broad range of science and engineering majors. Students are presumed to have a good background in high school chemistry and mathematics (through MAC 1147) and are expected to pass the chemistry placement exam offered online on ONE.UF (<https://one.uf.edu/>) before registering for CHM 2045.
- CHM 2047/CHM 2047L is a one-semester program for entering students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
- CHM 2051 General Chemistry Honors is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.

### Attendance Requirement

Students missing the first session of a laboratory, which includes the required safety instruction, will not be allowed to start late.

## Courses

### CHM 1020 Chemistry for the Liberal Arts 3 Credits

**Grading Scheme:** Letter Grade

Provides non-science majors with a basic understanding of the substances and chemical transformations central to our lives. Introduces chemical concepts and principles help the student better understand the role and impact of modern chemistry in society. (P)

**Attributes:** General Education - Physical Science

**CHM 1025 Introduction to Chemistry 2 Credits****Grading Scheme:** Letter Grade

Introductory readiness course in general chemistry for those with weak yet satisfactory backgrounds in high school chemistry and algebra. (P)

**Corequisite:** MAC 1147 or the equivalent.**Attributes:** General Education - Physical Science**CHM 1030 Basic Chemistry Concepts and Applications 1 3 Credits****Grading Scheme:** Letter Grade

The first half of the CHM 1030/CHM 1031 sequence. A terminal sequence for non-science students that presents chemistry from a medical/nursing perspective. Topics in inorganic chemistry and properties of both ionic and covalent compounds. (P)

**Prerequisite:** high school algebra.**Attributes:** General Education - Physical Science**CHM 1031 Basic Chemistry Concepts and Applications 2 3 Credits****Grading Scheme:** Letter Grade

The second half of CHM 1030/CHM 1031 sequence. Topics in organic chemistry and biochemistry. (P)

**Prerequisite:** CHM 1030.**Attributes:** General Education - Physical Science**CHM 2045 General Chemistry 1 3 Credits****Grading Scheme:** Letter Grade

The first semester of the CHM 2045/CHM 2045L and CHM 2046/CHM 2046L sequence. Stoichiometry, atomic and molecular structure, the states of matter, reaction rates and equilibria. A minimum grade of C is required to progress to CHM 2046. (P)

**Prerequisite:** CHM 1025 with a minimum grade of C, or a passing score on Chem placement plus no attempt of CHM 1025 w/grade <C or W, and MAC 1147, or MAC 1140 plus MAC 1114, or higher MAC course with a minimum grade of C.**Attributes:** General Education - Physical Science**CHM 2045L General Chemistry 1 Laboratory 1 Credit****Grading Scheme:** Letter Grade

Laboratory experiments designed to reflect the topics presented in CHM 2045. (P)

**Prerequisite:** CHM 1025 with a minimum grade of C, or a passing score on Chem placement plus no attempt of CHM 1025 w/grade <C or W, and MAC 1147, or MAC 1140 plus MAC 1114, or higher MAC course with a minimum grade of C.**Attributes:** General Education - Physical Science**CHM 2046 General Chemistry 2 3 Credits****Grading Scheme:** Letter Grade

The second semester of the CHM 2045/CHM 2045L and CHM 2046/CHM 2046L sequence. Students who completed CHM 2045 or equivalent at another institution should consult a chemistry advisor before registering for this course. Acids and bases, additional aspects of chemical equilibria, thermodynamics, electrochemistry, complex ions and descriptive chemistry. (P)

**Prerequisite:** CHM 2045 with a grade of C or better and [MAC 1147 or (MAC 1140 and MAC 1114)] or (MAC 2### or MAC 3### or MAC 4###).**Attributes:** General Education - Physical Science**CHM 2046L General Chemistry 2 Laboratory 1 Credit****Grading Scheme:** Letter Grade

Laboratory experiments designed to reflect the topics presented in CHM 2046. (P)

**Prerequisite:** CHM 2045L AND (MAC 1147 or (MAC 1140 and MAC 1114) or MAC 23##) AND (CHM 2045 or CHM 2095 or CHM 2050).**Attributes:** General Education - Physical Science**CHM 2047 One-Semester General Chemistry 4 Credits****Grading Scheme:** Letter Grade

Designed for entering (not transfer) students who wish to move more quickly into advanced coursework. Electronic structure and bonding, gases, liquids, solids, kinetics, equilibria, acids and bases, thermodynamics, oxidation-reduction, metals and non-metals.

**Prerequisite:** AP, IB or high honors high school chemistry courses and a high score on the chemistry placement exam.**Corequisite:** CHM 2047L.**CHM 2047L One-Semester General Chemistry Laboratory 1 Credit****Grading Scheme:** Letter Grade

Laboratory experiments designed to accompany CHM 2047.

**Corequisite:** CHM 2047.**CHM 2050 Honors General Chemistry 1 for Majors 3 Credits****Grading Scheme:** Letter Grade

First semester of the CHM 2050/2045L and CHM 2051/2046L sequence. Stoichiometry, atomic and molecular structure, the states of matter, reaction rates and equilibria.

**Prerequisite:** (MAC1147 or equivalent college credit) and (passing grade in CHM1025 or passing ALEKS score unless non-passing CHM1025 grade is on record) and Chemistry major;**Corequisite:** CHM 2045L.

**CHM 2051 Honors General Chemistry 2 3 Credits****Grading Scheme:** Letter Grade

Second semester of the CHM 2045/CHM 2045L and CHM 2051/CHM 2046L sequence. Open to students with superior performance in CHM 2045 or its equivalent. Acids and bases, additional aspects of chemical equilibria, thermodynamics, electrochemistry, complex ions, descriptive chemistry and instructor-chosen topics. (P)

**Prerequisite:** CHM 2045, CHM 2045L and instructor permission.**Corequisite:** CHM 2046L.**Attributes:** General Education - Physical Science**CHM 2054L Accelerated General Chemistry Laboratory 2 Credits****Grading Scheme:** Letter Grade

A cross-disciplinary, inquiry-based curriculum that focuses on major themes and concepts in chemistry with an emphasis on their application in modern, quantitative life sciences research. Equivalent to CHM 2045L and CHM 2046L or CHM 2047L.

**Prerequisite:** CHM 2050 minimum grade of B+, or CHM 2095 minimum grade of B+, or CHM 2045 minimum grade of B+, or a score of 5 in AP Chem or 6 in IB Chem, and MAC1147, or MAC1140 plus MAC1114, or higher MAC course minimum grade of C.**CHM 2095 Chemistry for Engineers 1 3 Credits****Grading Scheme:** Letter Grade

The first semester of the CHM 2095/CHM 2096 sequence. Topics include stoichiometry, energy and thermodynamics, atomic and molecular structure, the states of matter, reaction rates and introduces chemical equilibria. All topics are taught in an engineering case-study context. (P)

**Prerequisite:** Engineering major, and CHM 1025 with a minimum grade of C, or a passing score on Chem placement plus no attempt of CHM 1025 w/ grade LT C or W, and MAC 1147, or MAC 1140 plus MAC 1114, or higher MAC course w/a minimum grade of C;**Corequisite:** CHM 2045L.**Attributes:** General Education - Physical Science**CHM 2095L Chemistry Lab 1 for Engineers 1 Credit****Grading Scheme:** Letter Grade

Laboratory experiments designed to complement CHM 2095.

**CHM 2096 Chemistry for Engineers 2 3 Credits****Grading Scheme:** Letter Grade

Second in a two-semester sequence. Topics include chemical equilibria, acid-base and solubility equilibria, entropy, free energy, electrochemical devices, solution dynamics, and descriptive inorganic and organic chemistry. All topics taught in an engineering case-study context. (P)

**Prerequisite:** CHM 2045 or CHM 2095 with a minimum grade of C and College of Engineering student.**Attributes:** General Education - Physical Science**CHM 2096L Chemistry Lab 2 for Engineers 1 Credit****Grading Scheme:** Letter Grade

Laboratory experiments designed to complement CHM 2096.

**Prerequisite:** (CHM 2045 or CHM 2095) and (CHM 2045L or CHM 2095L) with minimum grades of C and ENG college;**Corequisite:** CHM 2096.**CHM 2200 Fundamentals of Organic Chemistry 3 Credits****Grading Scheme:** Letter Grade

An elementary course embracing the more important aspects of organic chemistry. Intended for students in programs requiring only one semester of organic chemistry. Not intended for pre-med, pre-dentistry or pre-vet students.

**Prerequisite:** CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096, or the equivalent.**CHM 2200L Fundamentals of Organic Chemistry Laboratory 1 Credit****Grading Scheme:** Letter Grade

Organic laboratory experiments to accompany CHM 2200.

**Corequisite:** CHM 2200.**CHM 2210 Organic Chemistry 1 3 Credits****Grading Scheme:** Letter Grade

The first half of the CHM 2210/CHM 2211 sequence intended for majors and preprofessional students. A study of the structures, syntheses and reactions of organic compounds.

**Prerequisite:** CHM 2046 or CHM 2096 or CHM 2047 or CHM 2051.**CHM 2211 Organic Chemistry 2 3 Credits****Grading Scheme:** Letter Grade

The second half of the CHM 2210/CHM 2211 sequence intended for majors and preprofessional students. A study of the structures, syntheses and reactions of organic compounds.

**Prerequisite:** CHM 2210 or CHM 2212 with a minimum grade of C;**Corequisite:** CHM 2211L.

**CHM 2211L Organic Chemistry Laboratory 2 Credits****Grading Scheme:** Letter Grade

Organic laboratory experiments designed to accompany CHM 2210/CHM 2211 or CHM 3217/CHM 3218.

**Prerequisite:** (CHM 2210 or CHM 2212 with a minimum grade of C) or CHM 3217.**CHM 2212 Organic Chemistry 1 for Majors 3 Credits****Grading Scheme:** Letter Grade

First half of the CHM 2212/CHM 2213 sequence for chemistry majors. A study of structures, synthesis, and reactions of organic compounds, with emphasis on mechanism and spectroscopy.

**Prerequisite:** (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096) and chemistry major.**CHM 2213 Organic Chemistry 2 for Majors 3 Credits****Grading Scheme:** Letter Grade

Second half of the CHM 2212/CHM 2213 sequence is for chemistry majors. Study of structures, synthesis, and reactions of organic compounds, with emphasis on mechanism and spectroscopy.

**Prerequisite:** (CHM 2210 or CHM 2212 with a minimum grade of C) and chemistry major.**Corequisite:** CHM 2211L.**CHM 3120 Introduction to Analytical Chemistry 3 Credits****Grading Scheme:** Letter Grade

Principles involved in quantitative analysis. Topics include acid-base equilibria and titrations, precipitation and complex formation, oxidation reduction and statistical treatment of data. Introduces spectrochemical and electrochemical methods of analysis and chemical separations.

**Prerequisite:** (CHM 2046 or CHM 2047 or CHM 2051) and (CHM 2046L or CHM 2047L).**CHM 3120L Analytical Chemistry Laboratory 1 Credit****Grading Scheme:** Letter Grade

Laboratory experiments designed to accompany CHM 3120.

**Corequisite:** CHM 3120 or equivalent.**CHM 3217 Organic Chemistry/Biochemistry 1 4 Credits****Grading Scheme:** Letter Grade

A rigorous, one-semester overview of the structure, properties and reactions of organic compounds. This is the first half of a two-semester sequence in biochemistry. Students are expected to take CHM 3218 after completing CHM 3217.

**Prerequisite:** (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096 or CHM 2046C) and (CHM 2046L or CHM 2047L or ISC 2401L).**CHM 3218 Organic Chemistry/Biochemistry 2 4 Credits****Grading Scheme:** Letter Grade

Introduces the basic concepts of biochemistry and molecular biology from the structural and mechanistic perspective of organic chemistry.

**Prerequisite:** CHM 3217 or CHM 2211, or instructor permission.**CHM 3400 Physical Chemistry for the Biosciences 3 Credits****Grading Scheme:** Letter Grade

Thermodynamics, electrochemistry, transport, chemical kinetics and molecular structure with emphasis on biological systems.

**Prerequisite:** (MAC 2312 or MAC 2512 or MAC 3473) and (CHM 2200 or CHM 2210 or CHM 2212), and two semesters of college physics; background in analytical chemistry recommended.**CHM 3610 Inorganic Chemistry 3 Credits****Grading Scheme:** Letter Grade

Basic theoretical concepts involved in inorganic chemistry. Periodic trends, chemical bonding, structure and reactivity.

**Prerequisite:** CHM 2211 or CHM 2213 or CHM 3217.**CHM 3610L Inorganic Chemistry Laboratory 2 Credits****Grading Scheme:** Letter Grade

Synthesis and characterization of inorganic and organometallic compounds.

**Prerequisite:** CHM 2211L and CHM 3120L, or instructor permission.**CHM 4034 Advanced Biochemistry and Chemical Biology 4 Credits****Grading Scheme:** Letter Grade

Secondary metabolism and biosynthetic pathways, bioinorganic chemistry, protein folding and trafficking, cellular signaling, replication and translation from a chemist's perspective. Applications in bioanalytical chemistry and in molecular and cell biology.

**Prerequisite:** CHM 3218 or BCH 4024.**CHM 4130 Instrumental Analysis 3 Credits****Grading Scheme:** Letter Grade

Concepts of instrumentation for chemical analysis. In-depth examination of spectrochemical and electrochemical methods and chemical separations.

**Prerequisite:** (CHM 2211 or CHM 2213 or CHM 3217) and CHM 3120 and (MAC 2312 or MAC 2512 or MAC 3473) and (PHY 2053 or PHY 2048 or PHY 2060).**Corequisite:** PHY 2054 or equivalent.

**CHM 4130L Instrumental Analysis Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

Laboratory experiments designed to accompany CHM 4130.

**Prerequisite:** (CHM 2211 or CHM 2213 or CHM 3217) and CHM 3120 and CHM 3120L and (MAC 2312 or MAC 2512 or MAC 3473) and (PHY 2053 or PHY 2048 or PHY 2060).

**Corequisite:** CHM 4130

**CHM 4143C Electronics and Instrumentation 3 Credits**

**Grading Scheme:** Letter Grade

Principles of operation of instrumentation, optimization of instrumental conditions, and interpretation of instrumental data for qualitative and quantitative analysis. Application of electronic principles necessary to code for automated electronic measurements in chemical research.

**Prerequisite:** CHM 4130, or CHM 3400 and CHM 4413L or permission of instructor.

**CHM 4230 Organic Spectroscopy 2 Credits**

**Grading Scheme:** Letter Grade

Characterization and identification of organic compounds by spectral methods including IR, UV, NMR and mass spectrometry.

**Prerequisite:** CHM 2211 or CHM 2213 or CHM 3217

**CHM 4272 The Organic Chemistry of Polymers 2 Credits**

**Grading Scheme:** Letter Grade

Classification of polymerization types and mechanisms from a mechanistic/organic point of view. The structure of synthetic and natural polymers and polyelectrolytes. Reactions of polymers and practical synthetic methods of polymer preparation.

**Prerequisite:** CHM 2200, CHM 2211, CHM 2213 and CHM 3217, or the equivalent.

**CHM 4300L Laboratory in Biochemistry and Molecular Biology 2 Credits**

**Grading Scheme:** Letter Grade

Introduces experimental techniques in biochemistry, especially those used in DNA isolation and manipulation, protein purification and enzyme kinetic studies.

**Prerequisite:** CHM 2211L and either CHM 3218, or CHM 2211 and BCH 4024.

**CHM 4304 Chemical Aspects of Cellular Control 3 Credits**

**Grading Scheme:** Letter Grade

Control of information, materials and energy within cellular systems. Examples taken from the biochemistry of plants, bacteria and higher organisms.

**Prerequisite:** (CHM 3218 or CHM 2211) and BCH 4024.

**CHM 4308 Introduction to Enzyme Mechanism 3 Credits**

**Grading Scheme:** Letter Grade

Principles of enzyme structure, isolation and purification and principles of the physical chemistry of enzyme/substrate interactions. Overview of concepts of biological catalysis, including transition state theory, descriptions and examples of mechanisms of biochemical catalysis, survey of co-factors, and catalytic antibodies, ribozyme structure and catalysis.

**Prerequisite:** BCH 4024 or CHM 3218;

**Corequisite:** CHM 3400 or CHM 4411.

**CHM 4411 Physical Chemistry: Thermodynamics and Kinetics 4 Credits**

**Grading Scheme:** Letter Grade

Gas laws, kinetic theory, classical and statistical thermodynamics and applications to solutions, phase equilibria, chemical equilibria and electrochemistry.

**Prerequisite:** one year of general chemistry and one year of physics;

**Corequisite:** MAC 2313; background in analytical and organic chemistry recommended.

**CHM 4411L Physical Chemistry Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

A series of laboratory experiments designed to accompany CHM 4411.

**Prerequisite:** CHM 3120L;

**Corequisite:** CHM 4411.

**CHM 4412 Physical Chemistry: Chemical Bonding and Spectroscopy 4 Credits**

**Grading Scheme:** Letter Grade

Introduces quantum theory, atomic and molecular structure, chemical bonding and spectra, chemical reaction rate laws and mechanisms, and statistical and collision theories of reaction rates.

**Prerequisite:** (CHM 2046 or CHM 2046C or CHM 2047 or CHM 2051 or CHM 2096) and (PHY 2049 or PHY 2054 or PHY 2061).

**Corequisite:** MAC 2313.

**CHM 4413L Biophysical Chemistry Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

Laboratory experiments to demonstrate basic concepts of the physical chemistry of biological systems.

**Prerequisite:** CHM 2211L and CHM 3120L;

**Corequisite:** CHM 3400.

**CHM 4611 Advanced Inorganic Chemistry 3 Credits****Grading Scheme:** Letter Grade

Introduces advanced concepts of modern inorganic chemistry. Major themes include application of group theory to structure and bonding, molecular orbital treatment of reactivity, fundamental organometallic chemistry and introduces vibrational and electronic spectroscopy.

**Prerequisite:** CHM 3120 and CHM 3610;**Corequisite:** CHM 4412.**CHM 4671 Bioinorganic Chemistry 3 Credits****Grading Scheme:** Letter Grade

From an inorganic perspective, introduces the structure and function of a variety of metalloproteins and metalloenzymes, concentrating on systems containing transition metals. Emphasizes the role that metal ion(s) play in the function of the biomolecules.

**Prerequisite:** CHM 3610 and (CHM 3218 or BCH 4024).**CHM 4905 Individual Problems 1-3 Credits****Grading Scheme:** Letter Grade

Double registration permitted. An assigned reading program or development of an assigned experimental problem.

**Prerequisite:** permission of faculty member supervising the work.**CHM 4910 Undergraduate Research 0-3 Credits****Grading Scheme:** Letter Grade

Laboratory or literature investigations of chemical problems of current interest.

**Prerequisite:** permission of faculty member supervising the work.**CHM 4930 Special Topics 1-4 Credits****Grading Scheme:** Letter Grade

Special Topics

**CHM 4940 Supervised Teaching 1-2 Credits****Grading Scheme:** Letter Grade

Supervised teaching, usually at the general chemistry level. Required is a superior record at UF in the course in which the student will assist and evidence that the student's own progress will not be delayed.

**Prerequisite:** instructor permission.**CHM 4956 Overseas Studies 1-15 Credits****Grading Scheme:** Letter Grade**IDH 3931 Interdisciplinary Junior Honors 1-3 Credits****Grading Scheme:** Letter Grade

Special topics restricted to those in the university-wide honors program. (WR)

**Attributes:** Satisfies 6000 Words of Writing Requirement**ISC 2400L Cross-Disciplinary Laboratory 1 3 Credits****Grading Scheme:** Letter Grade

First course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2010L, CHM 2045L and PHY 2053L.

**Prerequisite:** high school algebra or equivalent. Degree-seeking students only.**ISC 2401L Cross-Disciplinary Laboratory 2 3 Credits****Grading Scheme:** Letter Grade

Second course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2046L and PHY 2054L.

**Prerequisite:** ISC 2400L and MAC 1147 or equivalent;**Corequisite:** BSC 2010 and CHM 2045 or CHM 2047 or CHM 2095.**ISC 3523C Research Methods 3 Credits****Grading Scheme:** Letter Grade

The tools scientists use to solve scientific problems, including use of experiments to answer scientific questions, design of experiments to reduce systematic and random errors, use of statistics to interpret experimental results and deal with sampling errors, mathematical modeling of scientific phenomena and oral presentation of scientific work.

**Prerequisite:** UFTeach Step 1 and one year of college biology, chemistry or physics.

## Chinese | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

## Courses

### CHI 1130 Beginning Chinese 1 5 Credits

**Grading Scheme:** Letter Grade

Beginning study covering four skills: listening, speaking, reading and writing. Materials are designed for learners with no prior exposure to the language. Those with native background or education for four years or more in a Chinese speaking country must take a placement test before enrolling in any Chinese language class.

### CHI 1131 Beginning Chinese 2 5 Credits

**Grading Scheme:** Letter Grade

Continued study of the four skills with additional vocabulary and grammar.

**Prerequisite:** CHI 1130 with minimum grade of C, or S, or the equivalent.

### CHI 2230 Intermediate Chinese 1 5 Credits

**Grading Scheme:** Letter Grade

Intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** CHI 1131 with minimum grade of C, or S, or the equivalent.

**CHI 2231 Intermediate Chinese 2 5 Credits**

**Grading Scheme:** Letter Grade

Continuation of intermediate study of the four skills with new vocabulary and grammar.

**Prerequisite:** CHI 2230 with minimum grade of C, or S, or the equivalent.

**CHI 2340 Chinese for Heritage Learners 1 4 Credits**

**Grading Scheme:** Letter Grade

For those with significant bilingual speaking and listening backgrounds. Emphasis is on recognition of the characters and writing, and pronunciation and speaking.

**CHI 2341 Chinese for Heritage Learners 2 4 Credits**

**Grading Scheme:** Letter Grade

To consolidate the foundation built in Chinese for Heritage Learners 1, to expand vocabulary and to introduce more complex grammatical structures. Emphasis is on reading and writing. Those who successfully complete CHI 2341 are eligible for CHI 3410.

**CHI 3403 Chinese Calligraphy 3 Credits**

**Grading Scheme:** Letter Grade

Introductory study of the origin, composition, development, variations and aesthetic styles of Chinese characters with laboratory sessions for appreciating and practicing calligraphic skills. (H and N)

**Prerequisite:** (CHI 2231 or JPN 2231 or CHI 3410 or JPN 3410 or CHI 3411 or JPN 3411 or CHW 4120 or CHW 4130 or CHW 4140 or JPW 4130 or JPW 4131) or instructor permission.

**Attributes:** General Education - Humanities, General Education - International

**CHI 3410 Advanced Chinese 1 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of the four skills with attention to more complex structures. (S and N)

**Prerequisite:** CHI 2231 with minimum grade of C, or S, or the equivalent.

**Attributes:** General Education - International, General Education - Social Science

**CHI 3411 Advanced Chinese 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of advanced study of the four skills with attention to more complex structures. (S and N)

**Prerequisite:** CHI 3410 with minimum grade of C, or S, or the equivalent.

**Attributes:** General Education - International, General Education - Social Science

**CHI 3440 Business Chinese 3 Credits**

**Grading Scheme:** Letter Grade

Development of language skills and protocol issues used in Chinese business environments. Acquire vocabulary, phrases, and sentence patterns essential for business transactions and develop oral presentations, business cards, and resumes.

**Prerequisite:** completion of second-year Chinese required, or by permission.

**CHI 4050 Fourth Year Chinese 1 3 Credits**

**Grading Scheme:** Letter Grade

Introduces and analyzes the documentary prose style used in Chinese newspapers and media. By studying a variety of short texts students develop skill in listening, speaking, reading and writing about issues commonly encountered in Chinese newspaper editorials and in television news programs, debate roundtables, or TV documentaries.

**Prerequisite:** CHI 3411 or equivalent with a minimum grade of C.

**CHI 4051 Fourth Year Chinese 2 3 Credits**

**Grading Scheme:** Letter Grade

Solidifies and improves students' knowledge of advanced Chinese through literature as a continuation of CHI 4050. Emphasizes formulating strategies to learn the difference between written language and spoken language and approaches meaningful writing with an eye toward careful examination of authentic writing samples.

**Prerequisite:** CHI 4050

**CHI 4850 Structure of Chinese 3 Credits**

**Grading Scheme:** Letter Grade

Introduction to phonological, grammatical and discourse structures of Mandarin Chinese, with an emphasis on its contrastive aspects with the English language. (S and N)

**Prerequisite:** CHI 1131 with minimum grade of C or LIN 3010, or instructor permission.

**Attributes:** General Education - International, General Education - Social Science

**CHI 4905 Individual Study 1-5 Credits**

**Grading Scheme:** Letter Grade

For those who seek independent work not offered in another course. Includes all individual study courses offered by the Chinese section.

**CHI 4911 Undergraduate Research in Language or Linguistics 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

**CHI 4930 Special Topics in Chinese Studies 3 Credits**

**Grading Scheme:** Letter Grade

Variable topics dealing with specific issues in Chinese studies.

**CHI 4935 Senior Thesis 3 Credits**

**Grading Scheme:** Letter Grade

Select a Chinese faculty member to act as director for an independent research project that culminates in the preparation of an honors thesis.

**Prerequisite:** minimum 3.5 GPA and instructor permission.

**CHI 4940 Internship 1-6 Credits**

**Grading Scheme:** Letter Grade

Gain practical experience that enhances classroom learning.

**CHI 4956 Overseas Studies 1-18 Credits**

**Grading Scheme:** Letter Grade

**CHT 3110 Chinese Literary Heritage 3 Credits**

**Grading Scheme:** Letter Grade

Introduces pre-modern Chinese literature in translation. Topics chosen from classical poetry, short stories, novels and drama. Emphasis is on the interplay between orthodox values and the folk tradition. All readings in English. (H and N) (WR)

**Attributes:** General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

**CHT 3123 Pre-Modern Chinese Fiction in Translation 3 Credits**

**Grading Scheme:** Letter Grade

Pre-modern Chinese narrative from its philosophical and historical origins to the fiction at the turn of the 20th century. Emphasizes the 16th and 17th centuries when Chinese vernacular fiction flourished. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**CHT 3124 Modern Chinese Fiction in Translation 3 Credits**

**Grading Scheme:** Letter Grade

A survey of modern Chinese fiction in translation. Samples are from the early 20th century through the contemporary era and include writers of the early Republic, the P.R.C. and Taiwan. Focus is on fiction as a vehicle for social change. All readings in English. (H and N) (WR)

**Attributes:** General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

**CHT 3302 Tales of the Strange in Medieval Chinese Literature 3 Credits**

**Grading Scheme:** Letter Grade

Introduces traditional Chinese tales of the strange and primary sources that contributed to their development. Also covers cross-cultural literary theories of the fantastic and uncanny; interdisciplinary literary, discourse, and narrative theories; and three common medieval Chinese worldviews.

**Prerequisite:** One CHI or CHT or CHW course.

**CHT 3391 Chinese Film and Media 4 Credits**

**Grading Scheme:** Letter Grade

Examination of Chinese cinema and other forms of media such as television, music and print culture in a broad sociopolitical and historical context.

An interdisciplinary approach with a diversity of readings and multimedia tools incorporated into discussions.

**Prerequisite:** One ENG, CHI, CHT, or CHW course, or instructor permission.

**CHT 3500 Chinese Culture 3 Credits**

**Grading Scheme:** Letter Grade

Introduction to Chinese culture with emphasis on its philosophy, language, society, art and people as a whole. All readings in English. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**CHT 3511 Chinese Martial Arts Fiction 3 Credits**

**Grading Scheme:** Letter Grade

An overview of Chinese martial arts fiction from earliest times to the present day. Discusses the literary pleasure of watching violence, the relationship between violence and the law, gender ambiguity of woman warriors, the imperial and (trans)national order of martial arts narrative, and the moral and physical economy of vengeance.

**Prerequisite:** Semester 2 OR Successful Completion of 12 credit hours.

**CHT 3513 Taoism and Chinese Culture 3 Credits**

**Grading Scheme:** Letter Grade

Introduction to the general history and culture of Taoism in ancient and modern China: its thoughts, belief systems, cultural influences, practices and rituals.

**CHT 3523 Hong Kong, Taiwan, and the New Global Cinema 4 Credits**

**Grading Scheme:** Letter Grade

Overview of Sinophone film in Hong Kong, Taiwan, and the broader sphere of Chinese diaspora. Addresses film history, culture, and aesthetics.

**Prerequisite:** CHI 1130 or ENG 1400 or ENG 2300 or instructor permission.

**CHT 4111 Dream of the Red Chamber 3 Credits**

**Grading Scheme:** Letter Grade

Explores the intellectual and social life of traditional China through the 18th century epic novel, *Story of the Stone*. Also studies interpretive theories of the novel, both Chinese and Western. All readings are in English. (H and N OR S and N) (WR)

**Prerequisite:** CHI 3500 or CHT 3110, or instructor permission.

**Attributes:** General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**CHT 4603 Journey to the West 3 Credits**

**Grading Scheme:** Letter Grade

Exploration of traditional Chinese religious culture, cultural history and literacy expression through a 100 chapter novel known as *Journey to the West*, or *Monkey*.

**Prerequisite:** one course in Chinese culture or instructor permission.

**CHT 4911 Undergraduate Research in English Translation 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

**CHW 4120 Classical Chinese 1 3 Credits**

**Grading Scheme:** Letter Grade

Introduction to classical Chinese prose with texts drawn mainly from early histories and philosophical writings (500 BC - AD 100). Emphasis on reading comprehension, grammar analysis and translation.

**Prerequisite:** CHI 2231 with minimum grade of C or instructor permission.

**CHW 4121 Classical Chinese 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of CHW 4120 focusing on classical Chinese prose with texts drawn from early historical and philosophical texts to belles lettres of the medieval era and later periods. Emphasis on reading comprehension, grammar analysis and translation.

**Prerequisite:** CHW 4120 or instructor permission.

**CHW 4130 Readings in Chinese Literature 3 Credits**

**Grading Scheme:** Letter Grade

Introduces advanced language students to a sampling of Chinese writers. Materials chosen from classic or modern/contemporary Chinese literature rotated across semesters. All readings in Chinese. (H and N)

**Prerequisite:** CHI 3410 or the equivalent.

**Attributes:** General Education - Humanities, General Education - International

**CHW 4140 Newspaper Chinese 3 Credits**

**Grading Scheme:** Letter Grade

Development of ability to understand and translate the documentary prose style used in Chinese newspapers and academic journals. Introduces literary function words and grammar structures, with comparison to the vernacular. Most readings in the simplified character form used in the PRC; all readings in Chinese. Applications for research on modern China.

**Prerequisite:** CHI 3410 or instructor permission.

**CHW 4911 Undergraduate Research in Target Language 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

## Courses

### **CCE 4015 Civil Engineering Estimating 3 Credits**

**Grading Scheme:** Letter Grade

Design of systems for estimating and cost control of man-machine productivity for civil engineering projects. Analysis of cost factors required for optimization of engineering-investment efficiency.

**Prerequisite:** CGN 4160.

### **CCE 4204 Construction Equipment, Methods and Management 3 Credits**

**Grading Scheme:** Letter Grade

Theory and practice of construction operations, equipment utilization and construction methods. Analysis of costs. Optimizing crew and equipment. Heavy equipment costs. New emphasis on planning and executing a construction project.

**Prerequisite:** junior standing or higher or instructor permission.

**Corequisite:** CGN 4101.

### **CCE 4811 Construction Engineering Design 3 Credits**

**Grading Scheme:** Letter Grade

Simulation of comprehensive construction project involving all phases of planning, scheduling and control from start to finish, which involves making major decisions. Oral presentation at the end of course.

**Prerequisite:** CGN 4160 and EIN 3354.

### **CEG 4011 Soil Mechanics 4 Credits**

**Grading Scheme:** Letter Grade

Physical properties of soils, compaction, flow of water through soil, distribution of stress within soil and consolidation. Laboratory.

**Prerequisite:** EGM 3520.

### **CEG 4012 Geotechnical Engineering 3 Credits**

**Grading Scheme:** Letter Grade

Subsurface exploration settlements analysis, slope stability, earth pressure and an introduction to foundation design.

**Prerequisite:** CEG 4011.

### **CEG 4104 Retaining Wall and Embankment Design 3 Credits**

**Grading Scheme:** Letter Grade

The application of soil mechanics to the design and analysis of various types of retaining structures and earthen embankments.

**Prerequisite:** CEG 4012.

### **CEG 4111 Foundation Engineering Design 3 Credits**

**Grading Scheme:** Letter Grade

Comprehensive design of geotechnical system, focusing on design of complete project and utilizing CAD programs. Designs, drawings and oral presentations through group effort.

**Prerequisite:** CEG 4012.

### **CES 3102 Mechanics of Engineering Structures 4 Credits**

**Grading Scheme:** Letter Grade

Introduces structural load, equilibrium, shear and bending moment diagrams, structural analysis software, classical methods for displacement determination, method of consistent deformations, slope deflection method, moment distribution method.

**Prerequisite:** EGM 3520.

### **CES 4605 Analysis and Design in Steel 3 Credits**

**Grading Scheme:** Letter Grade

Elastic and plastic theories of design, design of members subjected to tension, compression, flexure and torsion. Design of connections and rigid frames.

**Prerequisite:** CES 3102 and CGN 3501C and Engineering major.

### **CES 4702 Analysis and Design in Reinforced Concrete 3 Credits**

**Grading Scheme:** Letter Grade

Ultimate strength analysis and design of reinforced beams and columns, working stress design for flexure, design of footings and retaining walls.

**Prerequisite:** CES 3102 and CGN 3501C and Engineering major.

### **CGN 2002 Introduction to Civil Engineering 1 Credit**

**Grading Scheme:** Letter Grade

Introduces the broad field of civil engineering.

**CGN 3421 Computer Methods in Civil Engineering 3 Credits**

**Grading Scheme:** Letter Grade

Review of computer programming. Numerical methods as applied to civil engineering problems and civil engineering software.

**Prerequisite:** COP 2271

**CGN 3501C Civil Engineering Materials 4 Credits**

**Grading Scheme:** Letter Grade

Studies the principal materials used for engineering purposes with special attention to mechanical properties and their importance to the engineer.

Hands-on experience in testing of civil engineering materials.

**Corequisite:** EGM 3520.

**CGN 3510 Introduction to Sustainable Engineering 3 Credits**

**Grading Scheme:** Letter Grade

Overview of the principles of sustainability as they relate to civil and environmental engineering issues. Discussions and projects facilitate a basic understanding of the production-consumption model and life cycle assessment.

**Prerequisite:** Engineering major.

**CGN 3710 Experimentation and Instrumentation in Civil Engineering 3 Credits**

**Grading Scheme:** Letter Grade

Fundamentals and applications of measuring systems commonly used in civil engineering. Topics include recording techniques, strain, force, displacement, flow, temperature, humidity and PH measurements.

**Prerequisite:** PHY 2049.

**CGN 4101 Civil Engineering Cost Analysis 3 Credits**

**Grading Scheme:** Letter Grade

Analysis of civil engineering proposals, utilizing time-value and related factors. Feasibility and optimum life comparisons. Utility rate derivation, utility/cost method.

**Prerequisite:** 3EG classification or instructor permission.

**CGN 4160 Civil Engineering Practice 3 Credits**

**Grading Scheme:** Letter Grade

Fundamentals of civil engineering professional practice: project management, construction delivery processes, business concepts, public policy, administration, and leadership.

**Prerequisite:** EGM 2511 or equivalent.

**Corequisite:** CGN 2328.

**CGN 4503 Pavement Design 3 Credits**

**Grading Scheme:** Letter Grade

Function and material requirements of different elements of flexible and rigid pavement systems; characterization of soils, materials, traffic loads, and environment for design; flexible and rigid pavement design; new developments.

**Prerequisite:** CGN 3501C.

**CGN 4600 Public Works Engineering and Management Practices 3 Credits**

**Grading Scheme:** Letter Grade

Public works profession, organization, administration and management of operating divisions with emphasis on role of engineer.

**CGN 4806 Transportation-Water-Materials Design 3 Credits**

**Grading Scheme:** Letter Grade

Simulation of a design project experience through the completion and presentation of a comprehensive roadway project design. Students work in multi-disciplinary groups to complete a system design that includes traffic, materials, hydrologic and geotechnical considerations.

**Prerequisite:** senior standing.

**CGN 4905 Special Problems in Civil Engineering 1-4 Credits**

**Grading Scheme:** Letter Grade

Selected problems or projects in the student's major field of engineering study.

**Prerequisite:** undergraduate coordinator permission.

**CGN 4910 Structures-Geotechnical-Construction Comprehensive System Design 3 Credits**

**Grading Scheme:** Letter Grade

Simulation of a design office experience through the completion and presentation of a comprehensive building design. Students work in multi-disciplinary groups to complete a system design that includes structural, geotechnical and construction management considerations.

**Prerequisite:** instructor permission.

**CGN 4949 Co-op Work Experience 1 Credit**

**Grading Scheme:** S/U

Co-op work experience in a related field.

**Prerequisite:** Engineering major.

**CWR 3201 Hydrodynamics 4 Credits**

**Grading Scheme:** Letter Grade

Classification and properties of fluids, hydrostatics, and conservation of mass, momentum and energy in fluid flow. Potential flow, similitude and physical modeling. Laminar and turbulent pipe flow. Introduces turbomachines.

**Prerequisite:** MAP 2302 with minimum grade of C and EGM 2511.

**CWR 4202 Hydraulics 3 Credits**

**Grading Scheme:** Letter Grade

Fundamental equations for pipe and open conduit flow. Development of design oriented formulas for pipes and open channels. Introduces hydrology.

**Prerequisite:** CWR 3201 or instructor permission.

**CWR 4306 Urban Stormwater Systems Design 3 Credits**

**Grading Scheme:** Letter Grade

Surface-water system design including: time of concentration, peak runoff rate, open-channel flow, gravity storm sewer, culvert, stormwater pumping, filtration systems, hydrograph generation, flood routing, site layout, site grading and permitting.

**Corequisite:** CWR 4202.

**CWR 4542 Water Resources Engineering 3 Credits**

**Grading Scheme:** Letter Grade

Study of water resources engineering applications including hydrology and statistics, groundwater, hydraulic machinery, dams and reservoirs, water quality, water quality modeling, water and waste-water treatment and water law and institutions.

**Prerequisite:** CWR 4202.

**EGN 4912 Engineering Directed Independent Research 0-3 Credits**

**Grading Scheme:** S/U

Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**EGS 1005 Prep for Success 1-4 Credits**

**Grading Scheme:** S/U

Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)

**Prerequisite:** EG student.

**ENV 4514C Water and Wastewater Treatment 3 Credits**

**Grading Scheme:** Letter Grade

Design of water and wastewater treatment units.

**TTE 4004C Transportation Engineering 4 Credits**

**Grading Scheme:** Letter Grade

Overview of the significance of highway transportation to the social and economic underpinnings of society. Introduces road vehicle performance, geometric design of highways, traffic flow and queuing theory, highway capacity and level of service analysis, traffic control and analysis at signalized intersections, and travel demand and traffic forecasting.

**Prerequisite:** 3EG classification.

**TTE 4106 Urban Transportation Planning 3 Credits**

**Grading Scheme:** Letter Grade

Overview of the four-step urban transportation planning process; includes analytical techniques for estimating future travel demand and state-of-the-art approaches.

**Prerequisite:** TTE 4004C.

**TTE 4201 Traffic Engineering 3 Credits**

**Grading Scheme:** Letter Grade

General review of the fundamentals of traffic engineering with emphasis on field studies and data analysis.

**Prerequisite:** TTE 4004C.

**TTE 4203 Highway Capacity Analysis 3 Credits**

**Grading Scheme:** Letter Grade

Provide students with detailed instruction on the procedures defined within the 2010 Highway Capacity Manual (HCM), including analytical chapters for uninterrupted and interrupted flow.

**Prerequisite:** TTE 4004C.

**TTE 4300 Transportation Systems Analysis 3 Credits**

**Grading Scheme:** Letter Grade

Systems analysis in transportation planning and engineering, including supply, demand, equilibrium, evaluation and decision analysis.

**Prerequisite:** TTE 4004C.

**TTE 4824 Transportation Facility Design 3 Credits****Grading Scheme:** Letter Grade

Simulates a comprehensive design of a transportation facility, specifically an arterial-freeway interchange. Utilizes state and national-level design manuals in preparation of standard plans. Applies the theoretical background gained in supporting classes, in areas such as traffic analysis, roadway design, roadway drainage and pavement design. Some review of this material is provided, as well as introduction of several new concepts. Emphasizes teamwork skills and technical communication skills.

**Prerequisite:** TTE 4004C.

---

## Classics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

## Courses

**CLA 1812 Medicine, Science, and the Dawn of Reason 3 Credits****Grading Scheme:** Letter Grade

This interdisciplinary course invites students to examine the passage of humanity into the era of Reason and the Development of Medical Science and Ethics. As part of the "Nature and Culture" theme, it presents a historical narrative on the passage of humanity from superstition to the era of scientific inquiry

**Prerequisite:** Restricted to undergraduate degree-seeking students**Attributes:** Quest 1, General Education - Humanities, Satisfies 2000 Words of Writing Requirement**CLA 2100 The Glory That Was Greece 3 Credits****Grading Scheme:** Letter Grade

A broad cultural view of the classical Greek world. Greek sources are read in translation. (H and N)

**Attributes:** General Education - Humanities, General Education - International**CLA 2120 The Grandeur That Was Rome 3 Credits****Grading Scheme:** Letter Grade

Provides a multi-faceted introduction to the culture of Rome. Primary source material is read in translation. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**CLA 2521 Classical Antiquity and Sustainability 3 Credits****Grading Scheme:** Letter Grade

Examines classical antiquity, applying methods and theories of sustainability to explore the impact of the ancient Greeks and Romans on their environment and focusing on the distribution of wealth, social stratification, land use and classical representations of the natural world. (H)

**Attributes:** General Education - Humanities**CLA 3111 Athens in Topography and Monuments 3 Credits****Grading Scheme:** Letter Grade

Explores the topography and monuments of ancient Athens to understand social, historical, economic and religious institutions.

**Attributes:** General Education - Humanities, General Education - International**CLA 3114 Greece Today and Yesterday 3 Credits****Grading Scheme:** Letter Grade

An interdisciplinary course examining various aspects of ancient and modern Greek life and culture. (H and N) (WR)

**Attributes:** General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement**CLA 3151 Pompeii: An Archaeological Laboratory 3 Credits****Grading Scheme:** Letter Grade

Studies the material remains of a Roman town through an examination of the excavated finds: architecture, wall-paintings and inscriptions. (H and N)

**Attributes:** General Education - Humanities, General Education - International**CLA 3160 Ancient Egypt 3 Credits****Grading Scheme:** Letter Grade

Studies the civilization, culture and monuments of ancient Egypt from prehistoric times to the New Kingdom and Late period. (H and N)

**Attributes:** General Education - Humanities, General Education - International**CLA 3161 Introduction to Hieroglyphics 3 Credits****Grading Scheme:** Letter Grade

A beginner's course in Egyptian hieroglyphics of the Middle Kingdom. Also designed for students with no former instruction in ancient languages.

**Prerequisite:** CLA 3160.**CLA 3433 The Athenian Democracy 3 Credits****Grading Scheme:** Letter Grade

Studies ancient Athens from c.650-322 BCE, with attention to the political, social and cultural institutions of the democracy, drawing on primary sources and modern theory to explain democratic changes from the archaic to the classical period. (H)

**Attributes:** General Education - Humanities**CLA 3434 Classical Greece 3 Credits****Grading Scheme:** Letter Grade

Studies the social, political and cultural developments of classical Greece from the Persian Wars to the death of Alexander (500-322 BCE). (H)

**Attributes:** General Education - Humanities**CLA 3500 Sport and Recreation in the Ancient World 3 Credits****Grading Scheme:** Letter Grade

Examines literary and archaeological sources to determine the social, economic, political and cultural importance of games in the ancient Mediterranean world from the time of Homer to the fall of the Roman Empire.

**Prerequisite:** sophomore standing or higher.**CLA 3504 Gender and Sexuality in Classical Antiquity 3 Credits****Grading Scheme:** Letter Grade

Explores perceptions of the masculine and feminine in Ancient Greece and Rome, discussing these stereotypes in their political, social, economic and cultural contexts. (H)

**Attributes:** General Education - Humanities, Satisfies 6000 Words of Writing Requirement**CLA 3700 Classical Archaeology 3 Credits****Grading Scheme:** Letter Grade

Illustrated lectures on archaeology, its process of discovery and methods. History of major archaeological exploration in Mediterranean lands compared with extant literary information. (H and N)

**Attributes:** General Education - Humanities, General Education - International**CLA 3791 The Ancient City: Greek Cities 3 Credits****Grading Scheme:** Letter Grade

Development of the cities of classical Greece from Minoan centers through Byzantium. All aspects of city life are covered: design, building techniques, culture and ideas. (H and N) (WR)

**Attributes:** General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

**CLA 3793 The Ancient City: Roman Cities 3 Credits**

**Grading Scheme:** Letter Grade

Studies the cities of the Roman Empire from the founding of Rome to the establishment of Constantinople as the Eastern capital. Emphasis on life in imperial Rome and in European and North African cities. (H and N) (WR)

**Attributes:** General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

**CLA 3811 AI in Antiquity and Today 3 Credits**

**Grading Scheme:** Letter Grade

Examines AI's origins in ancient Greece and compares it to AI's acceptance and use in modern society. Pairs discussion of Greek and Roman philosophical and other literary texts on the soul and identity and the boundaries between the natural and artificial with emerging societal issues related to AI, including gender, racism, and slavery.

**Prerequisite:** Students must be sophomore standing or data science majors or classics majors or minors or have taken a 2000-level classics course (CLA 2100 or CLA 2120).

**Attributes:** General Education - Humanities, General Education - International, Satisfies 4000 Words of Writing Requirement

**CLA 3930 Special Topics in Classical Civilization 3 Credits**

**Grading Scheme:** Letter Grade

Examines various aspects of Greek and Roman culture based on the ancient sources, literary and archaeological. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**CLA 4905 Individual Study 1-4 Credits**

**Grading Scheme:** Letter Grade

Reading, conference and reports. All work in will be in translation.

**Prerequisite:** instructor permission.

**CLA 4911 Undergraduate Research in Classical Civilization 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research in Classical Civilization. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Classical Civilization.

**CLA 4931 Classics Capstone Seminar 3 Credits**

**Grading Scheme:** Letter Grade

Introduces scholarly literature on a significant topic in classics. Students will write a research paper showing proper use of primary and secondary sources on the topic.

**Prerequisite:** classics major with at least 18 credits of CLA and/or CLT courses and at least 8 credits of Latin or Ancient Greek.

**CLA 4956 Overseas Studies 1 1-15 Credits**

**Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

**Prerequisite:** undergraduate advisor permission.

**CLT 2044 English Vocabulary from Greek and Latin 3 Credits**

**Grading Scheme:** Letter Grade

Historical study of the origins, development and lexicography of English vocabulary with emphasis on elements derived from Greek and Latin. (H)

**Attributes:** General Education - Humanities

**CLT 3123 Survey of Roman Literature 3 Credits**

**Grading Scheme:** Letter Grade

Critical study of the development of Roman literature. Includes readings from Plautus, Cicero, Catullus, Vergil, Ovid and Tacitus, read in translation. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**CLT 3291 Greek Drama 3 Credits**

**Grading Scheme:** Letter Grade

The classical Greek theater, archaeological remains of important theaters and selected plays of Aeschylus, Sophocles, Euripides, Aristophanes and Menander. All works are read in translation. (H and N) (WR)

**Attributes:** General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

**CLT 3340 Ancient Greek and Roman Epic 3 Credits**

**Grading Scheme:** Letter Grade

Examines the origin and development of the ancient Greek and Roman epic traditions in the political and social context of the Mediterranean region and Near East from the first millennium BCE through the first century CE. (H)

**Attributes:** General Education - Humanities

**CLT 3370 Myths of the Greeks and Romans 3 Credits**

**Grading Scheme:** Letter Grade

Development, importance and influence of Graeco-Roman mythology. The main Greek and Latin literary sources are read in translation. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**CLT 3371 Religions of the Graeco-Roman World 3 Credits**

**Grading Scheme:** Letter Grade

Development, importance and influence of Greek and Roman religion and cult practice. The main literary and epigraphical sources are read in translation. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**CLT 3421 Classics and Science Fiction 3 Credits**

**Grading Scheme:** Letter Grade

Studies science fiction's origins in Greek and Roman texts to investigate the influence of Greco-Roman literature on modern works of science fiction.

**Prerequisite:** CLA 2100 or CLA 2120 or CLT 2044.

**CLT 3510 Ancient World in Film 4 Credits**

**Grading Scheme:** Letter Grade

Examines film and television characterizations of the ancient world and how these accord with the facts as we know them through historical and archaeological evidence. Viewing of selected movies along with background readings, lectures and discussion. (H)

**Attributes:** General Education - Humanities

**CLT 3531 Legendary Rome 3 Credits**

**Grading Scheme:** Letter Grade

The myths and history associated with Rome's early foundation stories and examination of works of literature about Rome's foundation in their political, social and cultural contexts.

**CLT 3930 Special Topics in Classical Literature 3 Credits**

**Grading Scheme:** Letter Grade

Examines various aspects of Greek and Roman literature with focus on special genres (e.g., historiography), periods (e.g., the age of Augustus) or subjects (e.g., slavery). (H)

**Attributes:** General Education - Humanities

**CLT 4905 Individual Study 1-4 Credits**

**Grading Scheme:** Letter Grade

Reading, conference and reports. All works are read in translation.

**Prerequisite:** instructor permission.

**GMT 3513 Greece in the European Context in the 20th Century 3 Credits**

**Grading Scheme:** Letter Grade

Overview of Greek politics, society and culture in the 20th century.

**GMT 4110 The Literature of Byzantium 3 Credits**

**Grading Scheme:** Letter Grade

Overview of major genres of Byzantine literature (Patristic literature, oratory, historiography, chronicle, hagiography, hymnography, epic poetry) from the years CE 330-1453. (H) (WR)

**Prerequisite:** instructor permission.

**Attributes:** General Education - Humanities, Satisfies 6000 Words of Writing Requirement

**GMT 4911 Undergraduate Research in Modern Greek Language and Literature 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

**GRE 1120 Beginning Ancient Greek 1 4 Credits**

**Grading Scheme:** Letter Grade

The basics of ancient Greek grammar, morphology, syntax and vocabulary.

**GRE 1121 Beginning Ancient Greek 2 4 Credits**

**Grading Scheme:** Letter Grade

The basics of ancient Greek grammar, morphology, syntax and translation, with special attention to irregular verbs.

**Prerequisite:** GRE 1120 or GRE 1130.

**GRE 1130 Accelerated Beginning Ancient Greek 1 5 Credits**

**Grading Scheme:** Letter Grade

This course and its sequel, GRE 1131, constitute the basic sequence for development of overall skill in the language.

**GRE 1131 Accelerated Beginning Ancient Greek 2 5 Credits**

**Grading Scheme:** Letter Grade

Continuation of the basic sequence for development of overall skill in the language.

**Prerequisite:** GRE 1130 or the equivalent.

**GRK 1130 Beginning Modern Greek 1 5 Credits**

**Grading Scheme:** Letter Grade

This course and its sequel, GRK 1131, constitute the basic sequence for development of overall skill in the language.

**GRK 1131 Beginning Modern Greek 2 5 Credits**

**Grading Scheme:** Letter Grade

Continuation of the basic sequence for development of overall skill in the language.

**Prerequisite:** GRK 1130 or the equivalent.

**GRK 2200 Intermediate Modern Greek 1 3 Credits**

**Grading Scheme:** Letter Grade

Readings in modern Greek literature, history and culture. (H and N)

**Prerequisite:** GRK 1131 or the equivalent.

**Attributes:** General Education - Humanities, General Education - International

**GRK 2201 Intermediate Modern Greek 2 3 Credits**

**Grading Scheme:** Letter Grade

Additional readings in modern Greek literature, history and culture. (H and N)

**Prerequisite:** GRK 2200 or the equivalent.

**Attributes:** General Education - Humanities, General Education - International

**GRK 4300 Modern Greek Literature Since 1830 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of representative modern Greek prose, poetry and drama in the original from independence (1830) to the present. The course combines the study of the modern Greek language with readings, analysis and discussion of major literary works.

**Prerequisite:** GRK 2201 or the equivalent.

**GRK 4905 Individual Work in Modern Greek 1-4 Credits**

**Grading Scheme:** Letter Grade

For advanced students who seek independent work not offered in another course. Must be arranged individually with Greek faculty.

**Prerequisite:** GRK 1131.

**GRW 2211 Intermediate Greek Prose 3 Credits**

**Grading Scheme:** Letter Grade

Readings selected from Attic Greek prose authors designed to aid students in the transition from grammar to connected prose passages.

**Prerequisite:** GRE 1121 or GRE 1131 or the equivalent.

**GRW 2240 New Testament Greek 3 Credits**

**Grading Scheme:** Letter Grade

Reviews grammar and forms. Readings from several books of the New Testament. (H and N)

**Prerequisite:** some knowledge of Greek and instructor permission.

**Attributes:** General Education - Humanities, General Education - International

**GRW 3102 Survey of Greek Literature 2 3 Credits**

**Grading Scheme:** Letter Grade

Studies representative texts from various periods of Greek literature. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**GRW 3301 Greek Drama 3 Credits**

**Grading Scheme:** Letter Grade

Selected plays of Aeschylus, Sophocles or Euripides.

**Prerequisite:** one 2000-level Greek course or the equivalent.

**GRW 3501 Plato 3 Credits**

**Grading Scheme:** Letter Grade

Studies Plato's Meno and Apology. (H and N)

**Prerequisite:** GRE 1131 or the equivalent.

**Attributes:** General Education - Humanities, General Education - International

**GRW 4330 Greek Lyric Poetry 3 Credits**

**Grading Scheme:** Letter Grade

Translation and analysis of Greek lyric poetry, from Archilochus to Bacchylides. (H and N)

**Prerequisite:** two 3000-level Greek courses or the equivalent.

**Attributes:** General Education - Humanities, General Education - International

**GRW 4340 Homer and Greek Epic 3 Credits**

**Grading Scheme:** Letter Grade

Translation and analysis of selections from Homer's Iliad and Odyssey. (H and N)

**Prerequisite:** two 3000-level Greek courses or the equivalent.

**Attributes:** General Education - Humanities, General Education - International

**GRW 4380 Greek Historians 3 Credits**

**Grading Scheme:** Letter Grade

Translation and analysis of selections of Herodotus, Thucydides, Xenophon and Plutarch. (H and N)

**Prerequisite:** two 3000-level Greek courses or the equivalent.

**Attributes:** General Education - Humanities, General Education - International

**GRW 4700 Greek Orators 3 Credits**

**Grading Scheme:** Letter Grade

Translation and analysis of selections from Lysias, Demosthenes and Isocrates. (H and N)

**Prerequisite:** two 3000-level Greek courses or the equivalent.

**Attributes:** General Education - Humanities, General Education - International

**GRW 4905 Individual Work 1-4 Credits**

**Grading Scheme:** Letter Grade

Reading, conference and reports.

**Prerequisite:** GRE 1131 or the equivalent.

**GRW 4911 Undergraduate Research in Greek Language and Literature 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

**GRW 4930 Studies in Greek Literature 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study of a particular author, genre, period or subject.

**Prerequisite:** one 3000-level course in ancient Greek.

**LAT 1101 Beginning Latin 2 3 Credits**

**Grading Scheme:** Letter Grade

The second part of the sequence for those with little or no background in Latin.

**Prerequisite:** LAT 1120 with minimum grade of C or S, or the equivalent.

**LAT 1104 Beginning Latin 3 3 Credits**

**Grading Scheme:** Letter Grade

The third part of the sequence for students with little background in high-school Latin.

**Prerequisite:** LAT 1101 with minimum grade of C or S, or the equivalent.

**LAT 1120 Beginning Latin 1 4 Credits**

**Grading Scheme:** Letter Grade

The first of a 3-semester sequence for students with little or no background in Latin. Others enrolling in the course will be required to take it for an S-U grade.

**LAT 1130 Accelerated Beginning Latin 1 5 Credits**

**Grading Scheme:** Letter Grade

This course and its sequel, LAT 1131, constitute the basic sequence for development of overall skill in the language. Students are expected to have little or no background in Latin. Others enrolling in the course will be required to take it for an S-U grade.

**LAT 1131 Accelerated Beginning Latin 2 5 Credits**

**Grading Scheme:** Letter Grade

Continuation of the basic sequence for development of overall skill in the language.

**Prerequisite:** LAT 1130 with minimum grade of C, or S, or the equivalent.

**LIT 2000 Introduction to Literature 3 Credits**

**Grading Scheme:** Letter Grade

Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)

**Prerequisite:** ENC 1101

**Attributes:** General Education - Humanities

**LNW 2321 Introduction to Vergil 3 Credits**

**Grading Scheme:** Letter Grade

Readings in Vergil's Eclogues, Georgics and/or the Aeneid, with emphasis on introducing Vergilian style, diction poetic techniques and basic genre differences. Review of Latin grammar and syntax. (H)

**Prerequisite:** LAT 1104 or LAT 1131 or two years of high school Latin.

**Attributes:** General Education - Humanities

**LNW 2560 Readings in Latin Literature 3 Credits**

**Grading Scheme:** Letter Grade

Examines various aspects of Roman life through readings in Latin literature (with a focus on either special subjects, authors, genres or periods) and a review of Latin grammar. (H)

**Prerequisite:** LAT 1104 or LAT 1131 or two years of high school Latin or instructor permission.

**Attributes:** General Education - Humanities

**LNW 2630 Latin Love Poetry 3 Credits**

**Grading Scheme:** Letter Grade

Translation and interpretation of selected poems of Catullus and a thorough review of Latin grammar. (H and N)

**Prerequisite:** LAT 1104 or LAT 1131 or two years of high school Latin, or instructor permission.

**Attributes:** General Education - Humanities, General Education - International

**LNW 3220 The Ancient Novel 3 Credits**

**Grading Scheme:** Letter Grade

Readings from Petronius, Apuleius or the Historia Apollonii Regis Tyri. (H and N)

**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.

**Attributes:** General Education - Humanities, General Education - International

**LNW 3310 Roman Drama 3 Credits**

**Grading Scheme:** Letter Grade

Translation and analysis of the comedies of Plautus and Terence or the tragedies of Seneca. (H)

**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.

**Attributes:** General Education - Humanities

**LNW 3320 Roman Elegy and Lyric 3 Credits**

**Grading Scheme:** Letter Grade

Selected poems of Catullus, Horace, Tibullus, Propertius or Ovid. (H and N)

**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.

**Attributes:** General Education - Humanities, General Education - International

**LNW 3360 Roman Satire 3 Credits**

**Grading Scheme:** Letter Grade

Translation and analysis of the Roman satirists Horace, Persius, Juvenal or Martial. (H and N)

**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.

**Attributes:** General Education - Humanities, General Education - International

**LNW 3380 The Roman Historians 3 Credits**

**Grading Scheme:** Letter Grade

Readings in Latin from one of the Roman historians: Sallust, Caesar, Livy or Tacitus. (H and N)

**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.

**Attributes:** General Education - Humanities, General Education - International

**LNW 3490 Medieval Latin 3 Credits**

**Grading Scheme:** Letter Grade

Readings from Medieval Latin 350 - 1200 A.D. (H and N)

**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.

**Attributes:** General Education - Humanities, General Education - International

**LNW 3644 Cicero 3 Credits**

**Grading Scheme:** Letter Grade

Essays, speeches and letters of Cicero. (H and N)

**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.

**Attributes:** General Education - Humanities, General Education - International

**LNW 3660 Vergil and Roman Epic 3 Credits**

**Grading Scheme:** Letter Grade

Translation and analysis of selections from Vergil's Aeneid in the light of his epic techniques and the spirit of the Augustan Age. (H and N)

**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.

**Attributes:** General Education - Humanities, General Education - International

**LNW 3930 Studies in Latin Literature 3 Credits****Grading Scheme:** Letter Grade

A rotating topics course providing in-depth study of a particular author (e.g., Suetonius), genre (e.g., didactic poetry) or period (e.g., The Silver Age).

**Prerequisite:** one 2000-level Latin course, advanced placement or equivalent high school study.**LNW 4905 Special Study in Latin 1-4 Credits****Grading Scheme:** Letter Grade

Readings, conferences and reports.

**Prerequisite:** LAT 1104, LAT 1131, LAT 2200 or the equivalent.**LNW 4911 Undergraduate Research in Latin Language and Literature 0-3 Credits****Grading Scheme:** Letter Grade

Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

---

## Clinical and Health Psychology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Courses

**CLP 2001 Personal Growth 3 Credits****Grading Scheme:** Letter Grade

Introduces the concepts and techniques in psychology that apply to personal growth and development. All students have the opportunity to participate in research projects or alternative experiences. (S)

**Attributes:** General Education - Social Science**CLP 3144 Abnormal Psychology 3 Credits****Grading Scheme:** Letter Grade

The varieties of disordered experience and conduct, and their contribution to an understanding of more effective personal and social adjustment.

Includes the neuroses, psychoses and psychosomatic and conduct disturbances. (S)

**Prerequisite:** PSY 2012.**Attributes:** General Education - Social Science**CLP 3911 Introduction to Clinical Research 1-3 Credits****Grading Scheme:** S/U

Hands-on, faculty-supervised research experience in an area of interest to the student. Introduces current research techniques, including the design and development of clinical research projects and data analysis. Three hours of laboratory work or other research activity (e.g., literature searches, grant preparation, recruitment of study participants, etc.) are required for each semester credit. (S-U)

**CLP 4110 Eating Disorders 3 Credits****Grading Scheme:** Letter Grade

Overview of the causes and treatments associated with the full range of recognized eating disorders, including anorexia, bulimia and binge eating disorder, as well as a variety of subclinical forms of problematic eating behaviors and their surrounding factors and issues.

**Prerequisite:** PSY 2012.**CLP 4134 Introduction to Clinical Child/Pediatric Psychology 3 Credits****Grading Scheme:** Letter Grade

Survey and exploration of the science and practice of clinical child/pediatric psychology, including application of clinical science to problems faced by children and their families. Course also emphasizes assessment and intervention methodologies related to child behavior and health.

**Prerequisite:** PSY 2012 and CLP 3144, and STA 2023.**CLP 4302 Introduction to Clinical Psychology 3 Credits****Grading Scheme:** Letter Grade

Survey and exploration of contemporary roles of clinical psychologists. Course also emphasizes the integration of science and practice when solving problems of individuals, families and groups.

**Prerequisite:** PSY 2012 and CLP 3144 and STA 2023 and (communication sciences and disorders or health science majors or health science minor).

**CLP 4314 Introduction to Health Psychology 3 Credits**

**Grading Scheme:** Letter Grade

Survey and exploration of the science and practice of clinical health psychology. Course also emphasizes application of the biopsychosocial model of health and illness to health promotion, disease prevention and the treatment and rehabilitation of existing illness and disability.

**Prerequisite:** PSY 2012 and CLP 3144 and (three additional credits in psychology or health science or statistics) and (communication sciences and disorders or health science majors or health science minor).

**CLP 4420 Introduction to Neuropsychology 3 Credits**

**Grading Scheme:** Letter Grade

Survey and exploration of the science and practice of clinical neuropsychology. Course also emphasizes discussion of major neuropsychological disorders and the mechanisms underlying higher cognitive function.

**Prerequisite:** PSY 2012 and CLP 3144 and (three additional credits in psychology or health science or statistics).

**CLP 4421C Clinical and Behavioral Neuroanatomy and Lab 4 Credits**

**Grading Scheme:** Letter Grade

Provides students with lecture and laboratory study of the human central nervous system and behaviors. Students will gain knowledge for engaging in basic clinical problem solving by laying a foundation of neurophysiological and neuroanatomical principles.

**Prerequisite:** APK 2105C, Health Science majors, or instructor approval.

---

## Computer and Information Science & Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

**Curriculum**

- Combination Degrees
- Computer and Information Science and Engineering Minor
- Computer and Information Science and Engineering Minor UF Online
- Computer Science UF Online
- Computer Science | CLAS
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science

---

Bachelor's degree programs are currently available through the College of Liberal Arts and Sciences and the Herbert Wertheim College of Engineering. A minor in computer and information science, master's degree programs and a PhD program also are available.

*There are strict limitations on the use of CGS and survey courses in the programs offered by the department.*

College of Engineering degree program in computer engineering: Refer to the Herbert Wertheim College of Engineering section of the catalog for degree requirements; this program is offered by the CISE department.

The Herbert Wertheim College of Engineering offers two degrees in computer engineering: the CEN degree (computer engineering: software option) is offered by the CISE department and the CEE degree (computer engineering: hardware option) is offered by the ECE department.  
More Info (<https://catalog.ufl.edu/ugrad/current/engineering/majors/computer-engineering.aspx>)

The college also offers a computer science degree program through the CISE department.  
More Info (<https://catalog.ufl.edu/ugrad/current/engineering/majors/computer-science.aspx>)

College of Liberal Arts and Sciences degree program in computer science: refer to the College of Liberal Arts and Sciences section of the catalog for degree requirements.

## Courses

### **CAP 3020 Theory and Practice of Multimedia Production 3 Credits**

**Grading Scheme:** Letter Grade

Combines the traditional media production pipeline and software engineering processes to synthesize an approach geared for the production of works incorporating both artistic and computational elements.

**Prerequisite:** CAP 3027.

### **CAP 3027 Introduction to Digital Arts and Sciences 3 Credits**

**Grading Scheme:** Letter Grade

Synergy between art and computing through a programming-oriented exploration of fundamental concepts in multimedia.

**Prerequisite:** COP 3504 or COP 3503.

### **CAP 3032 Interactive Modeling and Animation 1 3 Credits**

**Grading Scheme:** Letter Grade

Introduces programming and data structures for interactive two-dimensional multimedia applications. Representing form and transforms in two dimensions, capturing user actions and driving application behavior interactively. Graphical interfaces, image processing, automata and basic artificial intelligence.

**Prerequisite:** MAC 1147 or equivalent.

### **CAP 3034 Introduction to Computer-Aided Animation 3 Credits**

**Grading Scheme:** Letter Grade

Introduces topics related to computer-aided animation. Rigging for forward and inverse kinematics. Skin weighting. Morph targets. Expression-driven animation, rigid-body and particle simulation.

**Prerequisite:** MAC 1147 or equivalent.

### **CAP 3220 Introduction to Computer-Aided Modeling 3 Credits**

**Grading Scheme:** Letter Grade

Introduces topics related to computer-aided modeling. Polygonal mesh, NURBS and subdivision surface meshes. Materials and shading networks. Lighting, shadows and rendering.

**Prerequisite:** MAC 1147 or equivalent.

### **CAP 4053 Artificial Intelligence for Computer Games 3 Credits**

**Grading Scheme:** Letter Grade

Examines the use of A.I. in computer games. Topics include general A.I. knowledge, path finding, movement, tactics and planning, strategy, state machines, learning, dialogue, and emotions.

**Prerequisite:** COP 3530.

### **CAP 4112 Generating Expressiveness in Intelligent Agents and Avatars 3 Credits**

**Grading Scheme:** Letter Grade

Methods to create expressiveness in physical and virtual agents; anthropomorphism and interactivity in human-robot interaction; intent versus intelligence; affect, emotion, and personality; expressiveness in human-like agents versus nonhuman-like agents; uncanny valley effect.

**Prerequisite:** COP 3530.

### **CAP 4136 Malware Reverse Engineering 3 Credits**

**Grading Scheme:** Letter Grade

Introduction to the theory and practice of software reverse engineering applied to the analysis of malicious software (malware). Students will learn techniques of static and dynamic analysis to help identify the full spectrum of the behavior of code that is presented without documentation or source code and to identify possible remediation and avoidance techniques. The course will use a large number of software tools employed by malware and computer forensic analysts.

**Prerequisite:** CDA 3101 or instructor permission.

**CAP 4613 Deep Learning for Computer Graphics 3 Credits****Grading Scheme:** Letter Grade

This undergraduate course covers deep learning basics, related math and the fundamental theory and application of AI algorithms most popular in the field of computer graphics. Programming assignments will help students develop GPU programming skills while implementing concepts learned in lectures and readings using deep learning APIs on a GPU cluster. Convolutional neural networks (CNNs) for colorizing black and white movies is an example.

**Prerequisite:** COP 3530 or MAS 3114 or 4105.**CAP 4621 Artificial Intelligence and Heuristics 3 Credits****Grading Scheme:** Letter Grade

Introduces artificial intelligence concepts. Heuristic search, clause form logic, knowledge representation, reasoning and inference, overview of computer vision, planning, natural language, Lisp and Prolog. (M)

**Prerequisite:** COP 3530.**CAP 4641 Natural Language Processing 3 Credits****Grading Scheme:** Letter Grade

Introduction to the essential concepts, principles, and techniques of Natural Language Processing (NLP). Practical application and theoretical concepts are examined. Topics include information extraction, language construction, grammars, disambiguation, as well as system modeling, classification, and evaluation.

**Prerequisite:** COP 3530.**CAP 4730 Computational Structures in Computer Graphics 3 Credits****Grading Scheme:** Letter Grade

Studies the major topics in computer graphics: display and output technology, two and three dimensional manipulations; space curves and surfaces, hidden surface removal and shading models.

**Prerequisite:** COP 3530.**CAP 4770 Introduction to Data Science 3 Credits****Grading Scheme:** Letter Grade

Introduces the basics of data science including programming for data analytics, file management, relational databases, classification, clustering, and regression; lays the foundation for big data applications ranging from social networks to medical and business informatics.

**Prerequisite:** COP 3530.**CAP 4773 Projects Data Science 3 Credits****Grading Scheme:** Letter Grade**CDA 3101 Introduction to Computer Organization 3 Credits****Grading Scheme:** Letter Grade

Organization of computing systems. Logical basis of computer structure. Machine representation of instructions and data, flow of control, and basic machine instructions. Assembly language programming. (M)

**Prerequisite:** (COP 3504 or COP 3503) and (MAC 2233 or MAC 2311 or MAC 3472) and COT 3100.**CDA 4102 Computer Architecture 3 Credits****Grading Scheme:** Letter Grade

Introduces computer architecture and system organization including virtual memory supports cache, pipeline, vector processing, multiprocessor and RISC architecture.

**Prerequisite:** CDA 3101 and COP 3530.**CDA 4630 Embedded Systems 3 Credits****Grading Scheme:** Letter Grade

Design of efficient and trustworthy embedded and cyber-physical systems consisting of hardware, software, firmware, sensors, and actuators. Covers fundamental issues related to modeling and specification, design space exploration, hardware-software partitioning, synthesis and compilation, real-time operating systems, and application-specific optimizations targeting area, power, performance, temperature, energy, and security.

**Prerequisite:** CDA 3101 with minimum grade of C.**CEN 3031 Introduction to Software Engineering 3 Credits****Grading Scheme:** Letter Grade

Topics include software planning, specifications, coding, testing and maintenance. Gain experience in the team approach to large system development. (M)

**Prerequisite:** COP 3530.**CEN 3907C Computer Engineering Design 1 3 Credits****Grading Scheme:** Letter Grade

Reinforce basic computer engineering skills; design, produce, and report on a computer engineering project, meeting defined specifications and using a structured design methodology and project management.

**Prerequisite:** CEN 3031 and EEL 3744C with minimum grades of C.**Corequisite:** COP 4600

**CEN 3908C Computer Engineering Design 2 3 Credits**

**Grading Scheme:** Letter Grade

Selected capstone design projects involving engineering applications in the various areas of computer engineering. Must be taken prior to the semester of graduation.

**Prerequisite:** CEN 3907C with minimum grade of C and senior standing.

**CEN 3913 Computer and Information Science and Engineering Design 1 3 Credits**

**Grading Scheme:** Letter Grade

Preparatory skills are developed for CISE Design 2 for Computer Engineering students. Teams design, produce and report on a software prototype, meeting defined specifications and using a structured design methodology and project management.

**Prerequisite:** CEN 3031.

**CEN 4072 Software Testing and Verification 3 Credits**

**Grading Scheme:** Letter Grade

Concepts, principles and techniques of software testing and verification. Strengths and limitations of black-box and white-box testing methods; techniques for proving the correctness of programs.

**Prerequisite:** CEN 3031.

**CEN 4721 Human-Computer Interaction 3 Credits**

**Grading Scheme:** Letter Grade

Studies the major topics in the study, planning and design of the interaction between people and computers. Topics include interface design (principles, theories and guidelines), virtual environments, interactive devices and collaboration.

**Prerequisite:** COP 3530.

**CEN 4722 User Experience Design 3 Credits**

**Grading Scheme:** Letter Grade

Introduces methods and tools used in User Experience Design (UXD): the early stages of software design focused on meeting user needs. Key concepts include user research, contextual design, design thinking, ideation, iterative design, prototyping, and design documentation. Projects utilize software tools used in the industry.

**Prerequisite:** COP 3530.

**CEN 4725 Natural User Interaction 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the design, development and evaluation of Natural User Interaction (NUI) technologies (e.g., non-keyboard and mouse technologies such as touchscreen interaction, gesture interaction, speech interaction, etc.). Discussion of the hardware-to-software NUI pipeline and key considerations when developing NUI software, including existing platforms, toolkits and APIs used to create NUI software.

**Prerequisite:** COP 3530 with minimum grade of C.

**CEN 4914 Computer and Information Science and Engineering Design 2 3 Credits**

**Grading Scheme:** Letter Grade

Involves completing a significant CEN-related project. Coordinate with the instructor and a project advisor, prepare a detailed technical report and deliver an oral presentation.

**Prerequisite:** CEN 3913.

**CGS 2032 Math, Art and Computing 3 Credits**

**Grading Scheme:** Letter Grade

Introduces interdisciplinary computer science topics. Logic, discrete structures, algorithms and automata. Exploration of topics relating mathematics and computing to art, music and nature. (M)

**Prerequisite:** MAC 1147.

**Attributes:** General Education - Mathematics

**CGS 3063 Computers and Modern Society 3 Credits**

**Grading Scheme:** Letter Grade

Impact of computers on society. Discussion includes specific cases from many areas, but does not include problem solution. Does not teach how to use the computer but gives an understanding of the implications of computers. (S) (WR)

**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**CGS 3065 Legal and Social Issues in Computing 3 Credits**

**Grading Scheme:** Letter Grade

Explores the history, the myth, the ethics, the law and the risks of computer-based technology in modern society. Emphasizes critical analysis of hypotheticals and case studies. Published material is supplemented with online references.

**Prerequisite:** previous experience in Unix environment.

**CGS 4144 Introduction to Bioinformatic Algorithms 3 Credits****Grading Scheme:** Letter Grade

Uses Compeau and Pevzner's active learning approach from their textbook, Bioinformatics Algorithms, to cover fundamental topics in genomics, machine learning, and biological data science, striking a unique balance between practical challenges in modern biology and fundamental algorithmic ideas.

**Prerequisite:** COT 3100 and COP 3503 with minimum grades of C.**CGS 4853C Introduction to Web Development and Design 3 Credits****Grading Scheme:** Letter Grade

Introduces HTML and CSS topics such as text configuration, color configuration, and page layout, with an enhanced focus on the topics of design, accessibility, and Web standards. The text relates both the necessary hard skills (such as HTML5, CSS, and JavaScript) and soft skills (design, e-commerce, and promotion strategies) considered fundamental to contemporary web development. Students will experience developing and designing a web application.

**Prerequisite:** COP 3502 and COP 3503.**CIS 4204 Penetration Testing: Ethical Hacking 3 Credits****Grading Scheme:** Letter Grade

Introduces principles and techniques associated with the cybersecurity practice known as penetration testing or ethical hacking. Covers planning, reconnaissance, scanning, exploitation, post-exploitation, and result reporting. Discover how system vulnerabilities can be exploited and learn to avoid such problems.

**Prerequisite:** COP 3530.**CIS 4213 Enterprise Security 3 Credits****Grading Scheme:** Letter Grade

Provides an introduction to the real-world aspects of defending an enterprise network. Students will gain hands-on experience performing system security tasks and handling incidents. The class begins with a basic introduction to enterprise cybersecurity, the attack sequence, and managing cybersecurity. Then lecture, homework and lab activities cover the center for internet security's twenty essential security controls.

**Prerequisite:** COP 3530.**CIS 4301 Information and Database Systems 1 3 Credits****Grading Scheme:** Letter Grade

First part of a two-course sequence that studies the essential concepts, principles and techniques of modern database systems. Topics include modeling and querying of data using conceptual data models as well as the development of a database application. (M)

**Prerequisite:** (COP 3504 or COP 3503) and COT 3100.**CIS 4360 Computer and Information Security 3 Credits****Grading Scheme:** Letter Grade

Covers systematic threat and risk assessment; programmed threats and controls in hardware, software, and human procedures; security policies, models, and mechanisms; theoretical limitations and practical implementations; certification and accreditation standards; and case study reviews. Includes projects.

**Prerequisite:** COP 4600 or equivalent.**CIS 4362 Introduction to Cryptology 3 Credits****Grading Scheme:** Letter Grade

Introduces classical and modern cryptography and cryptanalysis, including symmetric and asymmetric (public key) ciphers. Covers cryptographic hash functions, block and stream ciphers, as well as differential and linear cryptanalysis. Reviews applications of cryptography, cryptographic standards and protocols, and analyzes case studies of failed implementations.

**Prerequisite:** COT 3100 or the equivalent.**CIS 4715 CS Teaching & Learning 0-1 Credits****Grading Scheme:** Letter Grade

Covers basic pedagogy, especially as it relates to computer science and engineering, and covers three fundamental elements in education: learning environment, educational theory, and educational practice as approached to engineering-specific training.

**Prerequisite:** COP 3502.**CIS 4905 Individual Study in CISE 1-4 Credits****Grading Scheme:** Letter Grade

Problems in different areas of computer science.

**CIS 4912C Integrated Product and Process Design 1 3 Credits****Grading Scheme:** Letter Grade

First part of a two-course sequence where teams of engineering and business students partner with industry sponsors to design and build authentic products and processes. Working closely with an industry liaison engineer and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills. Weekly workshop activities adapt lecture topics to individual projects. Learn firsthand how to develop products and processes that meet customer requirements on time and within budget.

**Prerequisite:** CDA 3101, COP 3530, COT 3100 and instructor permission.

**CIS 4913C Integrated Product and Process Design 2 3 Credits****Grading Scheme:** Letter Grade

Second part of a sequence where teams of engineering and business students partner with industry sponsors to design and build authentic products and processes.

**Prerequisite:** CIS 4912C.**CIS 4914 Senior Project 3 Credits****Grading Scheme:** Letter Grade

Involves completing a significant CISE-related project. Coordinate with the instructor and a project advisor, prepare a detailed technical report and deliver an oral presentation. (M)

**Prerequisite:** senior CISE standing and approved project proposal.**CIS 4930 Special Topics in CISE 1-4 Credits****Grading Scheme:** Letter Grade

Variable content provides an opportunity for in-depth study of topics not offered elsewhere and of topics of current significance.

**Prerequisite:** COP 3503C or COP 3504C or instructor permission.**CIS 4940 Practical Work 1 Credit****Grading Scheme:** S/U

One term practical software engineering work under industrial supervision as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)

**CIS 4949 Co-Op Work in CISE 1 Credit****Grading Scheme:** S/U

Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)

**CIS 4956 Overseas Studies 1 1-15 Credits****Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

**Prerequisite:** undergraduate advisor permission.**CNT 4007 Computer Network Fundamentals 3 Credits****Grading Scheme:** Letter Grade

Fundamental concepts, principles, and standards of computer networks. Introduces topics in top-down approach, starting with the application layer in the OSI system architecture with a stronger focus on application, transport, and network layers.

**Prerequisite:** COP 3530.**Corequisite:** COP 4600.**CNT 4520 Introduction to Mobile Networking 3 Credits****Grading Scheme:** Letter Grade

Fundamental concepts of emerging mobile networks architecture, systematic analysis of effects of mobility on network performance, synthetic and data-driven mobility modeling and simulation, behavior analysis in mobile networks, mobile service and application structure, development, implementation, and evaluation. Topics include architecture, geographic routing and query resolution in ad hoc networks, sensor networks, Internet of Things, and vehicular networks.

**Prerequisite:** COP 3502C or COP 3503C or above.**CNT 4731 Multimedia Networking Principles 3 Credits****Grading Scheme:** Letter Grade

Design and analysis of multimedia networking. Major effort is devoted on multimedia elements, and their impact on higher-level protocols at the application- and transport-layer.

**Prerequisite:** CNT 4007 with minimum grade of C.**COP 2271 Computer Programming for Engineers 2 Credits****Grading Scheme:** Letter Grade

Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem solving skills; directed toward technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the demands of the departments in the college. Several languages may be taught each semester, no more than one per section. Those required to learn a specific language must enroll in the correct section. (M)

**Prerequisite:** MAC 2312 with minimum grade of C.**COP 2800 Computer Programming Using JAVA 3 Credits****Grading Scheme:** Letter Grade

In-depth treatment of computer programming using JAVA. Problems related to a variety of disciplines are solved. Introduces the basic concepts of software and hardware; develop a variety of stand-alone applications and applets. For non-CISE majors only.

**Prerequisite:** MAC 1147 or the equivalent.

**COP 3013 Programming Language Survey 1-3 Credits**

**Grading Scheme:** Letter Grade

Introduces a specific programming language which may vary according to section. Course may be repeated for different programming languages. Covers variables, basic control structures, procedures, arithmetic, and syntax for the language, as well as some language-specific features. No prior knowledge of programming is needed.

**Prerequisite:** MAC 1147; cannot be taken after COP 3502C

**COP 3275 Computer Programming Using C 3 Credits**

**Grading Scheme:** Letter Grade

Solve problems related to a variety of disciplines; introduces the basic concepts of software and hardware. (M)

**Prerequisite:** MAC 1147 or the equivalent.

**COP 3502C Programming Fundamentals 1 4 Credits**

**Grading Scheme:** Letter Grade

First course of a two-semester introductory sequence for those planning further study in computer science, digital arts and sciences or computer engineering. Concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity.

**Corequisite:** MAC 2311.

**COP 3503C Programming Fundamentals 2 4 Credits**

**Grading Scheme:** Letter Grade

Second course of a two-semester introductory sequence for those planning further study in computer science, digital arts and sciences or computer engineering. Concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity.

**Prerequisite:** (COP 3502 with a minimum grade of C or an AP exam in computer science with a minimum grade of 4) and MAC 2311 with a minimum grade of C.

**COP 3504C Advanced Programming Fundamentals for CIS Majors 4 Credits**

**Grading Scheme:** Letter Grade

Fast-paced introduction to computer science for those with prior programming experience. Explores major concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity.

**Prerequisite:** (MAC 2311 or MAC 3472) and programming experience.

**COP 3530 Data Structures and Algorithm 3 Credits**

**Grading Scheme:** Letter Grade

Algorithm development using pseudo languages, basic program structures, program design techniques, storage and manipulation of basic data structures like arrays, stacks, queues, sorting and searching and string processing. Linked linear lists. Trees and multilinked structures. (M)

**Prerequisite:** (COP 3504 or COP 3503) and COT 3100 and (MAC 2234 or MAC 2312 or MAC 2512 or MAC 3473), all with a minimum grade of C.

**COP 4020 Programming Language Concepts 3 Credits**

**Grading Scheme:** Letter Grade

Introduces programming language principles, including language constructs, design goals, run-time structures, implementation techniques and exposure to a wide variety of programming paradigms.

**Prerequisite:** COP 3530.

**COP 4331 Object-oriented Programming 3 Credits**

**Grading Scheme:** Letter Grade

Fundamental conceptual models for programming languages illustrated with specific programming languages and application problems. Specific topics include class and object models, inheritance among classes, objects and static and dynamic systems and implementations.

**Prerequisite:** COP 3530.

**COP 4533 Algorithm Abstraction and Design 3 Credits**

**Grading Scheme:** Letter Grade

Covers algorithmic concepts and their use rooted in practical application and computer science theory. Topics include algorithmic paradigms, limits of computing, and algorithm time complexity classes.

**Prerequisite:** COP 3530.

**COP 4554 Programming Language Inquiry 1-3 Credits**

**Grading Scheme:** Letter Grade

In-depth, thorough examination of specific programming languages, which may vary according to section. Course may be repeated for different languages. Topics include memory allocation and management, language-specific variables, and control mechanics. Knowledge and experience in programming is needed prior to taking this course. As such, the basic elements of programming will not be covered, but instead advanced programming constructs and topics in the language.

**Prerequisite:** COP 3503C.

**COP 4600 Operating Systems 3 Credits****Grading Scheme:** Letter Grade

Design and implementation of various components of a modern operating system, including I/O programming, interrupt handling, process and resource management, computer networks and distributed systems. (M)

**Prerequisite:** CDA 3101 and COP 3530; knowledge of C or C++ recommended.**COP 4620 Translators and Translator Writing Systems 3 Credits****Grading Scheme:** Letter Grade

Translation of languages, scanning and parsing techniques. Translator writing systems. The implementation of a compiler. (M)

**Prerequisite:** COP 3530.**COP 4720 Information and Database Systems 2 3 Credits****Grading Scheme:** Letter Grade

Part two of a two-course sequence. Provides a basic understanding of the internals of a modern database system. Topics include data storage, indexing, query processing and advanced concepts such as database tuning, alternate data models and emerging applications. (M)

**Prerequisite:** CIS 4301 and COP 3530.**COT 3100 Applications of Discrete Structures 3 Credits****Grading Scheme:** Letter Grade

Covers the mathematics of discrete events; i.e., events that involve distinct elements, finite structures of distinct elements or finite sampled versions of continuous phenomena (such as movement). (M)

**Prerequisite:** (MAC 2311 or MAC 3472) and (COP 3502 or equivalent), all with a minimum grades of C;**Corequisite:** COP 3504 or COP 3503.**Attributes:** General Education - Mathematics**COT 4501 Numerical Analysis: a Computational Approach 3 Credits****Grading Scheme:** Letter Grade

Numerical integration, nonlinear equations, linear and nonlinear systems of equations, differential equations and interpolation.

**Prerequisite:** (COP 3504 or COP 3503) and MAS 3114.**EGN 4912 Engineering Directed Independent Research 0-3 Credits****Grading Scheme:** S/U

Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**EGS 1005 Prep for Success 1-4 Credits****Grading Scheme:** S/U

Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)

**Prerequisite:** EG student.**IDC 4710 Virtual Reality for the Social Good 3 Credits****Grading Scheme:** Letter Grade

Multidisciplinary approach to solving pressing social problems by blending social science practices with innovative technology. Explore effective messaging perspectives, virtual social spaces, and virtual reality technologies to create a compelling story for a social good issue. Open to all juniors and seniors, regardless of major or prior experience.

**Prerequisite:** Junior or above.

---

## Construction Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## School Information

The mission of the M. E. Rinker, Sr. School of Construction Management is to be the center of excellence for construction. The Rinker School will pursue this by promoting professional and ethical behavior in education and practice, advancing the industry by creating new knowledge through research and scholarly activities, educating individuals in principles, knowledge, and skills required to be successful in their professional careers, and providing service and transferring knowledge to the citizens of Florida, the construction industry, professional societies, the nation, and the world.

**Website** (<https://dcp.ufl.edu/rinker/>)

## Curriculum

- Combination Degrees
- Construction Management
- Construction Management Certificate
- Emergency Management Certificate
- Emergency Medical Services Management Certificate
- Fire and Emergency Services UF Online
- Senior Fire Officer Certificate

---

## Courses

### **BCN 1001 Introduction to Construction Management 1 Credit**

**Grading Scheme:** S/U

Familiarizes pre-construction students with the nature and functioning of the construction industry and the building construction curriculum. Emphasizes the specific safety regulations pertaining to the construction industry. (S-U)

### **BCN 1210 Construction Materials 3 Credits**

**Grading Scheme:** Letter Grade

Sources, properties and uses of construction materials.

### **BCN 1251C Construction Drawing 3 Credits**

**Grading Scheme:** Letter Grade

Provides basic working knowledge of architectural graphics, practice in instrumental drawing and experience in free hand sketching.

### **BCN 1582 International Sustainable Development 3 Credits**

**Grading Scheme:** Letter Grade

An overview of international trends in reducing the environmental impacts of land development and construction. Surveys best practices in a dozen countries around the world. (N and S)

**Attributes:** General Education - International, General Education - Social Science

### **BCN 2405C Construction Mechanics 4 Credits**

**Grading Scheme:** Letter Grade

Introduces the evaluation of structural behavior as it relates to buildings, the properties of structural materials and the structural behavior of load-resisting members. Primarily for building construction majors.

**Prerequisite:** PHY 2004 and PHY 2004L.

### **BCN 3012 History of Construction 3 Credits**

**Grading Scheme:** Letter Grade

Traces Western building technology from prehistoric man to the present. Development of the art and science of building. (H and N)

**Attributes:** General Education - Humanities, General Education - International

### **BCN 3027C Principles of Construction Management 3 Credits**

**Grading Scheme:** Letter Grade

Examines the role of various players involved in the construction and the administration of a construction project. Importance of ethical conduct in all aspects of construction business and operations. Development of advanced writing and presentation skills for construction professionals.

**Prerequisite:** junior standing or higher or instructor permission.

### **BCN 3223C Soils and Concrete 3 Credits**

**Grading Scheme:** Letter Grade

Studies the construction process to include soils, demolition, earth-moving equipment, foundations, concrete mix design and concrete placement techniques. Includes field visits and soils and concrete laboratories.

**Prerequisite:** BCN 1210 and BCN 2405C and BCN 3224C.

### **BCN 3224C Construction Techniques 3 Credits**

**Grading Scheme:** Letter Grade

Studies the vertical construction process to include wooden platform frame construction, cast-in-place and pre-cast concrete construction and steel erection. Included are masonry construction, interior and exterior finishes, vertical transportation systems, roofing and other building components.

**Prerequisite:** BCN 1210 and BCN 1251C.

**BCN 3240C Equipment and Methods for Heavy/Highway Construction 3 Credits**

**Grading Scheme:** Letter Grade

Theory and practice of equipment utilization and construction methods. Analysis of costs through production rates. Optimizing crew and equipment. Labor and heavy equipment production. Earthwork (sitework) execution methods and inspection.

**Prerequisite:** junior standing or higher.

**BCN 3255C Graphic Communication in Construction 3 Credits**

**Grading Scheme:** Letter Grade

Studies construction communication tools, including the use of computer-aided drafting (applications of 4-D modeling in construction), blueprint reading, free hand sketching, model building, piece-based simulations and the Internet.

**Prerequisite:** BCN 1251C.

**BCN 3281C Construction Methods Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

Construction aspects of surveying with field and classroom exercises in the use of transit, level, chain and related equipment.

**BCN 3431C Structures 3 Credits**

**Grading Scheme:** Letter Grade

Examines the material properties, code requirements, analysis and construction procedures for steel and reinforced concrete structures.

**BCN 3521C Electrical Systems 2 Credits**

**Grading Scheme:** Letter Grade

Principles and practices of electrical systems, including code provisions and cost estimations.

**BCN 3611C Construction Estimating 1 3 Credits**

**Grading Scheme:** Letter Grade

Classification of work, quantity survey techniques and basic estimating principles applied to simple construction projects.

**Prerequisite:** BCN 3027C and BCN 3224C and BCN 3255C.

**BCN 3700 Construction Contracts 3 Credits**

**Grading Scheme:** Letter Grade

Function of the construction industry, construction contracting practices and construction contracts and delivery methods.

**Prerequisite:** BCN 3027C.

**BCN 3730 Construction, Safety, Health and the Environment 3 Credits**

**Grading Scheme:** Letter Grade

Construction safety issues, concerns, requirements and procedures. The analysis includes costs, planning, administration, inspection, prevention, loss control and drug-free workplace. Understanding of the major health issues encountered on construction sites. Appreciation for the need to be environmentally responsible.

**BCN 4105 Sustainable Housing: Putting the 3 E's into Residential Practice 3 Credits**

**Grading Scheme:** Letter Grade

Sustainability is more than just building green; it's the balance and intersection of "the 3 e's" environment, economics, and social equity. Examine approaches to advancing sustainable housing in ways that postindustrial residential planning and building practices have thus far neglected to address.

**Prerequisite:** junior standing or higher.

**BCN 4237 Roofing Systems 3 Credits**

**Grading Scheme:** Letter Grade

Studies and analyzes building various roof systems including design, materials, installation, inspection and maintenance. Includes damp-proofing and waterproofing techniques.

**BCN 4252 Introduction to Building Information Modeling 3 Credits**

**Grading Scheme:** Letter Grade

Learn current Building Information Modeling (BIM) software to identify design errors and improve the construction process.

**Prerequisite:** BCN 3255C.

**BCN 4423C Temporary Structures 3 Credits**

**Grading Scheme:** Letter Grade

Studies the temporary structures that contractors have to build in order to construct the primary structure. This includes formwork, scaffolding and equipment for hoisting materials, personnel and erecting structures.

**Prerequisite:** BCN 3431C and senior standing.

**BCN 4510C Mechanical Systems 4 Credits**

**Grading Scheme:** Letter Grade

Principles and practices of building piping systems, hydraulics and pumps, comfort conditioning systems for building, heating and refrigeration equipment, building code considerations, plan reading and cost estimation.

**Prerequisite:** senior standing.

**BCN 4594 Building Energy Modeling 3 Credits**

**Grading Scheme:** Letter Grade

As energy becomes a more precious commodity, it is crucial to design and operate high performance buildings. A solid foundation of energy engineering and sustainability principles is essential to achieving these higher performance standards.

**Prerequisite:** junior standing or higher.

**BCN 4612C Construction Estimating 2 3 Credits**

**Grading Scheme:** Letter Grade

Analysis and determination of cost of construction operations including applicable indirect and overhead costs and the preparation of bid proposals for commercial construction projects. A cost-control system is introduced and implemented with sample field-generated problems.

**Prerequisite:** BCN 3611C and senior standing.

**BCN 4709C Construction Project Management 3 Credits**

**Grading Scheme:** Letter Grade

Understanding the various forms of project delivery methods (Design-Bid-Build, Design-Build, and Construction Management) and the underlying principles for choosing the appropriate system. Recognizing the complexity of the preconstruction process including conceptual estimating and scheduling, life cycle costing, constructability reviews, value engineering, risk management and special contract requirements. Understanding management and administration of a construction project.

**Prerequisite:** BCN 4612C and senior standing.

**BCN 4712C Leadership and Management in Construction 3 Credits**

**Grading Scheme:** Letter Grade

Leadership and management principles for construction professionals with a major emphasis on the diverse workforce, ethical issues in construction and the development of negotiation and conflict-resolution skills.

**Prerequisite:** senior standing.

**BCN 4720 Construction Planning and Control 3 Credits**

**Grading Scheme:** Letter Grade

Computer application of cost and manpower estimates as construction scheduling and management techniques.

**Prerequisite:** BCN 3611C and senior standing.

**BCN 4723 Design-Build Delivery Methods 3 Credits**

**Grading Scheme:** Letter Grade

Theory and practice of design-build contract delivery method. Includes an explanation of the history of design-build, the advantages and disadvantages of design-build as a delivery method and a thorough analysis of the major components of design and construction.

**Prerequisite:** junior standing or higher.

**BCN 4753 Construction Finance 3 Credits**

**Grading Scheme:** Letter Grade

Basic principles and applications of construction finance with an emphasis on the acquisition and management of construction loans, mortgages and construction accounting.

**Prerequisite:** senior standing.

**BCN 4787C Construction Capstone Project 3 Credits**

**Grading Scheme:** Letter Grade

A construction project is simulated with each student being responsible for designing, developing, estimating, scheduling, contracting and administering the work for the completion of a small commercial, residential or light industrial project.

**Prerequisite:** BCN 4612C and BCN 4720 and BCN 4753 and senior standing.

**BCN 4880 Management of Heavy/Highway Construction 3 Credits**

**Grading Scheme:** Letter Grade

Theory and practice of construction planning, methods and project management. Project control from conception through the construction phase: procurement of design professional, prime contractor, subcontractor, construction manager, project/program manager. Also includes definition of and delineation between each entity, construction contract types, delivery systems, heavy/highway plans reading, quality assurance/quality control, nuances of planning and bidding a unit price project, and project administration.

**Prerequisite:** junior standing or higher.

**BCN 4905 Special Studies in Construction 1-4 Credits**

**Grading Scheme:** Letter Grade

Special areas of study in construction adjusted to the needs of individual students. Enrollment upon recommendation of director only.

**BCN 4949 Construction Management Internship 3 Credits**

**Grading Scheme:** S/U

Minimum two-term employment in construction management. Requires advance approval. Internship work reports and oral presentation also required. (S-U)

**BCN 4956 International Studies in Construction 1-4 Credits****Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation. The course focus is on the construction industry in the host country. Course content varies and may address various construction issues including local construction techniques, construction materials and the influence on construction of the local culture, traditions, architecture, history and political climate.

**EMS 1055 Emergency Medical Responder 3 Credits****Grading Scheme:** Letter Grade

Introduces a basic understanding of pre-hospital emergency medicine; explore issues in patient assessment, distinguishing medical scenarios from trauma scenarios, taking appropriate actions and precautionary measures to ensure patient safety, and treating a patient's injuries within the scope of their certification.

**EMS 1055L Lab for Emergency Medical Responder 1 Credit****Grading Scheme:** Letter Grade

Practical applications of pre-hospital emergency medicine, including medical and trauma skills, basic anatomy, and physiology as related to EMR requirements. Practice the skills learned in the Emergency Medical Responder course. Offered only on UF main campus.

**EMS 4315 Analytical Approaches to EMS 3 Credits****Grading Scheme:** Letter Grade

Focuses on the practice and principles of emergency medical services systems management, including effective daily operations within an EMS organization. Topics include purpose of analysis; analysis in parallel professions; problem identification; foundational analysis; data collection; financial analysis; cost-benefit analysis; policy and impact analysis; and project development.

**Prerequisite:** junior or senior standing.**FES 2941 Emergency Management Internship 3 Credits****Grading Scheme:** S/U

Gain experience in an emergency management situation to identify and apply best practices in the development of preparation, planning, responding, recovering, and mitigating disasters; participate in supervised disaster management work activities that provide experiential learning in emergency management.

**FES 3004 Political and Legal Foundations of Fire Protection 3 Credits****Grading Scheme:** Letter Grade

Examines the legal aspects of fire service and the political and social impacts of legal issues; reviews the American legal system and covers legal and political issues involving employment and personnel matters, administration and operations, and planning and code enforcement with regard to the fire service.

**Prerequisite:** junior standing or higher.**FES 3015 Principles of Fire and Emergency Services Management 3 Credits****Grading Scheme:** Letter Grade

Fundamentals of management underlying the solution of problems of organization and operation of fire and emergency services agencies. (S) (WR)

**Prerequisite:** junior standing or higher.**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement**FES 3153 FES Communication and Informational Technology 3 Credits****Grading Scheme:** Letter Grade

Communications systems used in fire and emergency services such as high frequency voice/data, Internets and Intranets, satellite communications, GPS and GIS. An introduction, examination, equipment assessment, implementation program and maintenance management module are provided for each system covered.

**Prerequisite:** junior standing or higher.**FES 3223 Foundations of EMS 3 Credits****Grading Scheme:** Letter Grade

Covers the design and operation of EMS systems, service delivery, and echelons of care. The history of EMS, interface of public and private organizations and review of the various personnel who comprise these systems, will be examined in relation to their impact on the health care delivery system.

**Prerequisite:** junior standing or higher.**FES 3227 Ambulance Operations 3 Credits****Grading Scheme:** Letter Grade

Overview of the application of management principles to the provision of medical transport services. Includes an analysis of the economic, geographic, temporal, and clinical characteristics of ambulance demand, the key processes for providing transport services, and an evaluation of industry best practices.

**Prerequisite:** junior standing or higher.

**FES 3233 EMS Safety and Risk Management 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the risk management principles of an EMS agency. Emphasizes safety from the perspective of the field provider.

**Prerequisite:** junior standing or higher.

**FES 3263 Public Safety Educator 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the EMS professional to the education system as it relates to EMS education. Explores issues in curriculum development, teaching, program direction, and development.

**Prerequisite:** junior or senior standing.

**FES 3284 Management of Emergency Medical Services 3 Credits**

**Grading Scheme:** Letter Grade

Personnel and resource management issues in providing emergency medical services function. Quality assurance, utilization review techniques, and practices and techniques for delivery of services and distribution of resources are included.

**Prerequisite:** junior standing.

**FES 3285 Advanced Leadership Issues in Emergency Medical Services 3 Credits**

**Grading Scheme:** Letter Grade

Organizational development issues in providing emergency medical services function in the fire-based, hospital-based and third-service environments. Establishing and directing emergency medical services' work teams is also covered.

**Prerequisite:** junior standing.

**FES 3533 Community Risk Reduction for Emergency Services 3 Credits**

**Grading Scheme:** Letter Grade

Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.

**Prerequisite:** junior or senior standing.

**FES 3720 Strategic Planning for FES 3 Credits**

**Grading Scheme:** Letter Grade

Provides the conceptual framework for the development of a strategic plan for emergency management, fire protection, and emergency medical service. Also provides guidance through the process of the needs, resources, and capabilities of the organization and how to establish a plan to achieve improved performance.

**Prerequisite:** junior standing.

**FES 3753 Fire and Emergency Services Financial Management 3 Credits**

**Grading Scheme:** Letter Grade

Planning, developing, presenting, funding and implementing a budget for a fire and emergency services agency. Additional topics include special taxing districts, bond issues and fund-raising campaigns.

**Prerequisite:** junior standing.

**FES 3780 Analytical Approaches to Fire Protection 3 Credits**

**Grading Scheme:** Letter Grade

Examines the tools and techniques of rational decision making in fire and emergency services agencies, including data collection, statistics, probability, decision analysis, utility modeling, resource allocation, and cost benefit analysis.

**Prerequisite:** junior or senior standing.

**FES 3782 Applications of Fire Research 3 Credits**

**Grading Scheme:** Letter Grade

Examines methodology for analyzing fire-related research; provides a framework for independent research in fire dynamics, fire test standards, fire safety, fire modeling, structural fire safety, life-safety, firefighter safety, automatic detection and suppression, risk analysis and loss control, applied research, and fire-related research trends.

**Prerequisite:** junior or senior standing.

**FES 3803 Multi-Agency Incident Command 3 Credits**

**Grading Scheme:** Letter Grade

Managing complex incidents that may require response from fire-rescue, emergency medical services, law enforcement and/or other public safety sectors. Use of the incident management system is emphasized.

**Prerequisite:** junior standing.

**FES 3815 Command and Control at Catastrophic Fire-Rescue Incidents 3 Credits**

**Grading Scheme:** Letter Grade

Incident command at multiple-alarm incidents, emphasizing rapid fireground decision-making, safety, personnel accountability and communications. Settings for scenarios include multi-family occupancies, hotels, high-rises, healthcare facilities and large retail centers.

**Prerequisite:** junior standing.

**FES 3822 Disaster Policy in Emergency Management 3 Credits**

**Grading Scheme:** Letter Grade

Describes the functional demands that emergency managers should be aware of in crafting effective emergency management plans, policies, and programs. Addresses how public policy choices impact emergency planning and the consequences of a disaster event. Emphasizes the emergency planning process.

**Prerequisite:** junior or senior standing.

**FES 4003 Fire and Emergency Services Administration 3 Credits**

**Grading Scheme:** Letter Grade

Demonstrates the importance of persuasion and influence, budgeting, anticipation of challenges and change, and management tools for analyzing and solving problems; explores how the leadership of a fire and emergency services department develops internal and external cooperation to achieve the department's mission.

**Prerequisite:** junior or senior standing.

**FES 4014 Foundations of Emergency Management 3 Credits**

**Grading Scheme:** Letter Grade

Examines the history and the principles establishing Emergency Management in the United States. Describes the "Four Phases of Emergency Management," relates processes to codes and laws governing Emergency Management, and examines Emergency Management and the terrorist threat.

**Prerequisite:** junior or senior standing.

**FES 4023 Fire and Emergency Services Ethical Practices and Leadership 3 Credits**

**Grading Scheme:** Letter Grade

The role of agency leadership and its impact on the continuing professionalization of the fire and emergency services. Examines traditional and evolving definitions, practices and skills in leadership behavior, including discussions of power, influence, ethics and organizational behavior.

**Prerequisite:** senior standing.

**FES 4034 Regulatory Issues in Fire and Emergency Services 3 Credits**

**Grading Scheme:** Letter Grade

Introduces safety, health and environmental regulations on the state and federal levels that impact the delivery of fire and emergency services. OSHA, EPA and NFPA regulatory requirements are introduced along with methods and techniques to implement compliance programs.

**Prerequisite:** FES 4003 and senior standing.

**FES 4045 Fire and Emergency Services Human Resource Management 3 Credits**

**Grading Scheme:** Letter Grade

Major human resource management functional areas for fire and emergency services agencies. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.

**Prerequisite:** FES 3015 and senior standing.

**FES 4055 Fire and Emergency Services Public Relations 3 Credits**

**Grading Scheme:** Letter Grade

Implementation of principles and methods in advocating factual claims and policy proposals: propositional analysis, evidence as demonstration, effective reasoning processes and ethics in controversy. Also focuses on public speaking and presentations, especially in the areas of technology, defense of budgets and political leadership.

**Prerequisite:** senior standing.

**FES 4224 Management of Mass Casualty Incidents 3 Credits**

**Grading Scheme:** Letter Grade

Covers systematic approaches to triage, treatment and transport in response to large-scale emergency medical services incidents. Resource planning and coordination with hospital systems is also emphasized.

**Prerequisite:** senior standing.

**FES 4226 EMS Special Operations 3 Credits**

**Grading Scheme:** Letter Grade

Discusses the various special roles in which EMS personnel may serve, such as hazardous materials, water rescue, and technical rescue.

**Prerequisite:** junior or senior standing.

**FES 4234 EMS Community Risk Reduction 3 Credits**

**Grading Scheme:** Letter Grade

Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.

**Prerequisite:** junior or senior standing.

**FES 4244 Legal, Political, and Regulatory in EMS 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the EMS professional to the legal aspects of Emergency Medical Services. Explores issues in malpractice, consent and refusal of treatment, OSHA, employment issues, and risk management. EMS students gain insights into the legal liabilities in Emergency Medical Services.

**Prerequisite:** junior or senior standing.

**FES 4274 Quality Management and Research in Emergency Services 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the EMS professional to benefits of quality improvement, the history of quality in EMS, measuring quality, and the uses of quality in EMS.

**Prerequisite:** junior or senior standing.

**FES 4585 Management of Fire Prevention Programs 3 Credits**

**Grading Scheme:** Letter Grade

Planning, promoting and executing fire prevention functions, including an emphasis on legal responsibilities, needs assessments, negotiation and planning activities.

**Prerequisite:** senior standing.

**FES 4685 Fire Investigation and Analysis 3 Credits**

**Grading Scheme:** Letter Grade

Examines the technical, investigative, legal, and social aspects of arson, including principles of incendiary fire analysis and detection, environmental and psychological factors of arson, legal considerations, intervention, and mitigation strategies.

**Prerequisite:** senior standing.

**FES 4804 Disaster Recovery and Mitigation 3 Credits**

**Grading Scheme:** Letter Grade

Provides the opportunity to understand real world disaster response efforts through academic study and interactive applied activities. Topics include the Incident Command System (ICS), Emergency Operations Center (EOC) management, Resource Management (RM), and Command-Communications-Coordination (C3).

**Prerequisite:** junior or senior standing.

**FES 4820 Critical Incident Management for Emergency Managers 3 Credits**

**Grading Scheme:** Letter Grade

Examines disaster planning and emergency management. Focuses on the four phases of planning, mitigation, response, and preparedness. Includes FEMA and federal government NIMS ICS-700 and ICS-800 certifications.

**Prerequisite:** junior or senior standing.

**FES 4825 Disaster Planning and Control 3 Credits**

**Grading Scheme:** Letter Grade

Examines concepts and principles of community risk assessment, planning and response to fires and natural and human-caused disasters, including National Incident Management System-Incident Command Systems (NIMS ICS), mutual aid and automatic response, training and preparedness, communications, civil disturbances, terrorist threats/incidents, hazardous materials planning, mass casualty incidents, earthquake preparedness, and disaster mitigation and recovery.

**Prerequisite:** Senior standing.

**FES 4835 Natural Disaster Phenomena in Florida 3 Credits**

**Grading Scheme:** Letter Grade

Natural disasters prevalent in Florida: past, present, and future, including hurricanes, flooding, freezes, and agricultural emergencies. Also addresses planning, operations, mitigation, recovery, and evaluation concerns.

**Prerequisite:** junior or senior standing.

**FES 4884 Introduction to Terrorism in Emergency Management 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the fundamental concepts, theories, principles, and practice of terrorism and terrorist events.

**Prerequisite:** junior or senior standing.

**FES 4905 Special Studies in Fire and Emergency Services 1-3 Credits**

**Grading Scheme:** Letter Grade

Special areas of study in fire and emergency services adjusted to the needs of individual students.

**Prerequisite:** instructor permission.

**FES 4935 Current Issues in Fire and Emergency Services 3 Credits**

**Grading Scheme:** Letter Grade

Information and direction for fire service administrators on current legislative, legal, labor and/or technology concerns facing fire and emergency services agencies.

**Prerequisite:** senior standing.

**FFP 4507 Management of Fire-Related Human Behavior 3 Credits****Grading Scheme:** Letter Grade

Focuses on human behavior in emergencies; examines research on human behavior, systems models, life-safety education, and building design, exploring a best-practice building life-safety system in terms of psychology and sociology joined with engineering and education to produce best outcomes of human survivability in emergencies.

**Prerequisite:** Junior or Senior standing.

## Courses

**CCJ 3024 Advanced Principles of Criminal Justice 3 Credits****Grading Scheme:** Letter Grade

Advanced overview of criminal law, criminal procedure and criminological theory. Emphasis on the components of the criminal justice system: the police, the prosecutorial and defense functions, the judiciary and the field of corrections. This course is required of all majors. (S)

**Attributes:** General Education - Social Science**CCJ 3701 Research Methods in Criminology 4 Credits****Grading Scheme:** Letter Grade

Advanced research design and data analysis. Study of experimental and non-experimental research designs; probability and nonprobability sampling techniques; construction of scales; and indexes and methods of bivariate and multivariate data analysis. Previous completion of an introductory course in statistics is recommended but not required. (S) (WR)

**Attributes:** General Education - Social Science, Satisfies 4000 Words of Writing Requirement

**CCJ 4014 Criminological Theory 3 Credits**

**Grading Scheme:** Letter Grade

Advanced study and critical appraisal of various theories of crime causation, including an examination of biological, psychological, economic and sociological perspectives on the etiology of crime.

**Prerequisite:** CCJ 3024 and criminology major of junior standing or higher.

**CCJ 4032 Media & Crime 3 Credits**

**Grading Scheme:** Letter Grade

Analyzes the relationship between media and crime justice including media's role in constructing images about criminals, police, victims, inmates, and courts. Discusses media-based perceptions of reality and justice policy and practice influences. Appropriate for students in criminology, journalism, public relations, and pre-law.

**Prerequisite:** CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

**CCJ 4661 Terrorism 3 Credits**

**Grading Scheme:** Letter Grade

Presents international terrorism as legitimate threat to society, with changing contexts, laws, and tactics. Explores oppressive movements which ignite violent acts. Introduces counter-terrorism best practices in criminal justice and analyzes violent terror attacks criminologically. Promotes emergency management, criminal justice, and intelligence work careers.

**Prerequisite:** CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

**CCJ 4905 Individual Work 1-3 Credits**

**Grading Scheme:** Letter Grade

Qualified students and the instructor will develop a course of study or investigation designed to extend available coursework. A formal written report is required. Course can be repeated, but no more than three credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university.

**Prerequisite:** CCJ 3024, 3LS or 4LS major, and instructor permission.

**CCJ 4911 Undergraduate Research in Criminology 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research in Criminology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Criminology.

**CCJ 4934 Contemporary Issues in Criminal Justice 3 Credits**

**Grading Scheme:** Letter Grade

A variable topic seminar that examines current issues, techniques and problems in criminal justice.

**Prerequisite:** CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

**CCJ 4940 Practicum 1-3 Credits**

**Grading Scheme:** S/U

Supervised experience in a criminal justice agency. Course can be repeated, but no more than three credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university. (S-U)

**Prerequisite:** CCJ 3024, 3LS or 4LS major, and instructor permission.

**CCJ 4970 Senior Thesis 3 Credits**

**Grading Scheme:** Letter Grade

Qualified students submit a formal research proposal, carry out individual research under the supervision of a faculty member and prepare a formal written report of the research to a faculty committee. Course can be repeated, but no more than six credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university.

**Prerequisite:** CCJ 3024 and director permission.

**CJC 4010 Introduction to Corrections 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the field of penology and corrections. Consideration is given to conflicting philosophies of punishment; criminological theory as it applies to the field of corrections; the selectivity of the process through which offenders move before their involvement in correctional programs; alternative correctional placements; and empirical assessments of the short-term and long-term consequences of involvement in correctional programs. (S)

**Corequisite:** CCJ 3024 and 3LS or 4LS major.

**Attributes:** General Education - Social Science

**CJE 3011 Careers in Criminal Justice 3 Credits**

**Grading Scheme:** Letter Grade

Advanced overview of professions available within the criminal justice system. Emphasis on the development of job seeking skills and strategies; local, state, federal and global employment opportunities; law and graduate school processes; building cultural competence and global perspectives.

**Prerequisite:** CCJ 3024 with a minimum grade of C.

**CJE 3114 Introduction to Law Enforcement 3 Credits****Grading Scheme:** Letter Grade

The role of the police in the criminal justice system of a democratic society. Topics include the organization of police work, discretion and the role of law enforcement in a socio-legal context.

**Corequisite:** CCJ 3024 and 3LS or 4LS major.**CJJ 4010 Juvenile Justice 3 Credits****Grading Scheme:** Letter Grade

Examines the development, change and operation of the American juvenile justice system. Emphasizes the nature of juvenile law and the methods of dealing with youthful offenders. (S)

**Prerequisite:** CCJ 3024 and 2LS major or higher.**Attributes:** General Education - Social Science**CJL 2000 Law and the Legal Process 3 Credits****Grading Scheme:** Letter Grade

Understanding the law as it relates to everyday encounters with the legal system. Actual legal cases may be studied to analyze how disputes are resolved by application of legal principles to factual situations, whether justice was served by the decision and the potential implications of the decision on future cases. (S)

**Attributes:** General Education - Social Science**CJL 3038 Law and Society 3 Credits****Grading Scheme:** Letter Grade

Introduces the scholarly study of law from a multidisciplinary, liberal arts perspective. Examines legal ideas, legal institutions and the legal process with emphasis on the study of criminal behavior and the American criminal justice process.

**CJL 4037 Psychology and Law 3 Credits****Grading Scheme:** Letter Grade

Application of behavioral science research and practice to the legal system. Topics include psychologists and the legal system; lawyers' socialization, training and ethics; legality, morality and justice; forensic assessment; the insanity defense; competence in the legal system; eyewitness identification; jury selection; theories of crime; and punishment and sentencing.

**Prerequisite:** CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.**CJL 4050 Juvenile Law 3 Credits****Grading Scheme:** Letter Grade

Examines the juvenile justice system, including delinquency, dependency and laws that apply especially to juveniles. Studies operation of the Florida juvenile code and the relationship between children and society.

**Prerequisite:** CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.**CJL 4110 Criminal Law 3 Credits****Grading Scheme:** Letter Grade

Studies substantive criminal law, including historical development, the tension between social and legal definitions of crime, the basic dimensions of criminality, the specific elements of major crimes and the nature of criminal sanctions. (S)

**Attributes:** General Education - Social Science**CJL 4410 Criminal Procedure 3 Credits****Grading Scheme:** Letter Grade

Studies constitutional rights of the accused in criminal proceedings. Focuses on analysis of case materials involving the law of arrest, search and seizure, the use of confessions, fair trial and the prohibition of cruel and unusual punishments.

**Prerequisite:** CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.**IDH 2931 Honors Seminar 3 Credits****Grading Scheme:** Letter Grade

Special topics restricted to those in the university-wide Honors Program. (WR)

**Attributes:** Satisfies 6000 Words of Writing Requirement

## Courses

### CZE 1130 Introduction to Czech Language and Culture 1 5 Credits

**Grading Scheme:** Letter Grade

CZE 1130 and its sequel, CZE 1131, offer a comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

### CZE 1131 Introduction to Czech Language and Culture 2 5 Credits

**Grading Scheme:** Letter Grade

Continuation of series. A comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

**Prerequisite:** CZE 1130 with minimum grade of C, or S, or the equivalent.

### CZE 2200 Intermediate Czech 1 3 Credits

**Grading Scheme:** Letter Grade

Builds reading and writing skills while continuing to develop conversational ability and listening comprehension. Using a communicative approach, provides an overview of Czech grammar.

**Prerequisite:** CZE 1131 with minimum grade of C, or S, or the equivalent.

**CZE 2201 Intermediate Czech 2 3 Credits****Grading Scheme:** Letter Grade

Continuation of intermediate study. Goal is to further develop speaking, listening, reading and writing skills.

**Prerequisite:** CZE 2200 with minimum grade of C, or S, or the equivalent.**CZT 3564 Modern Czech Culture and Society 3 Credits****Grading Scheme:** Letter Grade

Overview of Czech literature, film, music, pop culture and visual arts as they were shaped by the events from 1918 to the present. (H and N)

**Attributes:** General Education - Humanities, General Education - International

---

## Dial Center for Written and Oral Communication

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

### Center Information

The William and Grace Dial Center for Written and Oral Communication assists in preparing University of Florida students to speak and write effectively using the major conventions governing the presentation of knowledge in their chosen disciplines. Additionally, the students gain an understanding of the importance of communicating information from within their discipline to general audiences.

**Website** (<https://cwoc.ufl.edu/>)**CONTACT**Email ([dialcenter@cwoc.ufl.edu](mailto:dialcenter@cwoc.ufl.edu)) | 352.392.5421 (tel) | 352.392.5420 (fax)

## Courses

**COM 1000 Introduction to Communication Studies 3 Credits****Grading Scheme:** Letter Grade

Introduces various theoretical perspectives for understanding human communication. (S)

**Attributes:** General Education - Social Science**COM 3125 Organizational Communication 3 Credits****Grading Scheme:** Letter Grade

Explores the processes, practices and difficulties of communication among large groups engaged principally in the work environment. Examines organizational structures, patterns of communication, task and social roles, extrinsic influences and methods of producing intrinsic motivation and innovation.

**COM 3225 Global and Cultural Issues in Health Communication 3 Credits****Grading Scheme:** Letter Grade

Explores the complex associations among communication and the many contexts, issues, and relationships surrounding health and well-being in the world. Investigates cultural, historical, social, and ethical meanings of health and illness. Considers issues in global health, culture, and communication in health care initiatives.

**Prerequisite:** sophomore standing or higher.**COM 3252 Biology of Human Communication 3 Credits****Grading Scheme:** Letter Grade

Focuses on the interaction between the body and communication behavior. Examines how physiology affects communication, and how communication affects physiology.

**Prerequisite:** COM 1000 or SPC 2300.

**COM 3462 Interpersonal Conflict Management 3 Credits**

**Grading Scheme:** Letter Grade

Introduces fundamental communication skills, principles, theories and research relevant to effective conflict management in a variety of interpersonal contexts and relationships.

**Prerequisite:** COM 1000 or SPC 2300 or instructor permission.

**COM 3465 Conflict Management and Negotiation in the Professions 3 Credits**

**Grading Scheme:** Letter Grade

Introduces fundamental concepts and skills relevant to effective communication in business and professional conflicts. Topics include conflict management, ADR, and interpersonal, organizational, community and international negotiation. Emphasizes helping students to understand and improve the conflict management and negotiation skills required in their professional careers.

**Prerequisite:** COM 1000 or SPC 2608 or instructor permission.

**COM 3491 Resilience & Communication 3 Credits**

**Grading Scheme:** Letter Grade

Focuses on the role of communication in human resilience, with emphasis given to social, interpersonal, and intrapersonal processes and outcomes relevant to the construction of resilience and resilience narratives.

**Prerequisite:** COM 1000 or SPC 2300

**COM 3943 Internship in Comm Studies 0-3 Credits**

**Grading Scheme:** S/U

A variable web-based course designed to complement a student's internship experience through guided reflection, critical analysis, synthesis, and discussion.

**Prerequisite:** One COM or SPC course with a minimum grade of C and Communication Studies minor.

**COM 4013 Family Communication 3 Credits**

**Grading Scheme:** Letter Grade

Provides students with an understanding of how communication functions to develop, maintain, enrich, or limit family relationships.

**Prerequisite:** COM 1000 or SPC 2300 or instructor permission.

**COM 4022 Health Communication 3 Credits**

**Grading Scheme:** Letter Grade

Surveys theory, research and practice of communication in the contexts of healthcare and health promotion. (WR)

**Attributes:** Satisfies 6000 Words of Writing Requirement

**COM 4706 Language and Power 3 Credits**

**Grading Scheme:** Letter Grade

Explores the role of language in articulating, maintaining, and subverting power relations in society. Drawing from Communication Studies and Applied Linguistics, the course provides the tools to uncover, describe, and critically analyze the various strategic biases in language that create and reinforce power asymmetries in society.

**Prerequisite:** COM 1000 or SPC 2300 for Communication Studies minor; LIN3010 for LIN major; with instructor permission.

**Attributes:** General Education - Diversity, General Education - Social Science

**COM 4911 Undergraduate Research in Communication Studies 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research in Communication Studies. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Communication Studies.

**COM 4930 Special Topics in Communication 3 Credits**

**Grading Scheme:** Letter Grade

Seminar study of theory and research in a specific area of communication.

**Prerequisite:** COM 1000 or equivalent.

**LIS 2001 Introduction to Library and Internet Research 1 Credit**

**Grading Scheme:** Letter Grade

Learn how to conduct solid and reliable library research. Critical thinking skills are used to find, evaluate and use relevant scholarly resources in a variety of disciplines. This dynamic, hands-on course emphasizes creative thinking and media production tools while exploring the social responsibilities of using digital age information.

**SPC 2300 Introduction to Interpersonal Communication 3 Credits**

**Grading Scheme:** Letter Grade

Studies how two people interact with one another and how factors such as listening skills, gender and culture influence that communication. (S)

**Attributes:** General Education - Social Science

**SPC 2351 Listening 3 Credits**

**Grading Scheme:** Letter Grade

Theory and practice in responsible, participatory listening. Also includes principles of listening for literal comprehension and critical evaluation of ideas in response to various spoken and nonverbal messages.

**SPC 2594 Intercollegiate Forensics 1 Credit**

**Grading Scheme:** Letter Grade

Participation in intercollegiate debate and individual speaking.

**Prerequisite:** satisfactory completion of one semester of intercollegiate forensics participation at UF.

**SPC 2608 Introduction to Public Speaking 3 Credits**

**Grading Scheme:** Letter Grade

Theory and practice presenting public speeches, determining communication purpose(s) and adapting to organization, evidence, language and other message characteristics for designated audiences.

**SPC 3331 Nonverbal Communication 3 Credits**

**Grading Scheme:** Letter Grade

Surveys theory and research in nonverbal communication including eye behavior, facial expressions, gestures and vocal cues.

**Prerequisite:** COM 1000.

**SPC 3513 Argumentation 3 Credits**

**Grading Scheme:** Letter Grade

Implementation of principles and methods advocating factual claims and policy proposals. Also discusses propositional analysis, evidence as demonstration, effecting reasoning processes to become experimental for listeners and ethics in controversy.

**Prerequisite:** SPC 2608 or instructor permission.

**SPC 3602 Advanced Public Speaking 3 Credits**

**Grading Scheme:** Letter Grade

Studies principles and methods of selected forms of public speaking for various purposes, audiences and contexts.

**Prerequisite:** SPC 2608 or equivalent.

**SPC 4301 Advanced Interpersonal Communication 3 Credits**

**Grading Scheme:** Letter Grade

Analysis of interpersonal communication in various professional and social settings shown through case studies, role plays and discussion that all illustrate how emotions and social expectations shape communication.

**Prerequisite:** SPC 2300 or instructor permission.

**SPC 4425 Small Group Communication 3 Credits**

**Grading Scheme:** Letter Grade

Communication in small groups with emphasis in practical applications, skill development and current research and theory.

**Prerequisite:** COM 1000.

**SPC 4710 Patterns of Intercultural Communication 3 Credits**

**Grading Scheme:** Letter Grade

Explores practices and difficulties of communication between and among people of contrasting cultures. Includes investigation of theory and research by which intercultural communication problems can be mitigated. (N and S) (WR)

**Prerequisite:** COM 1000 or equivalent.

**Attributes:** General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**SPC 4905 Directed Individual Study in Communication Studies 1-3 Credits**

**Grading Scheme:** Letter Grade

Directed individual study in communication studies designed for the advanced student who wants to pursue an in-depth area of study not provided in regularly offered courses. Directed individual study could involve independent readings or individual projects under faculty guidance.

**Prerequisite:** instructor permission.

**SPC 4911 Undergraduate Research in Speech Communication 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research in speech communication. Projects may involve inquiry, design, investigation, scholarship, discovery, or application in speech communication.

---

## Digital Worlds Institute

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Digital Worlds Institute is on the cutting edge of digital arts and sciences — both in research initiatives and innovative approach to education. The institute is a recognized leader in combining arts, communications, engineering and science, with a focus on advanced media systems.

- Digital Arts and Sciences Minor
- Digital Arts and Sciences Minor UF Online
- Digital Arts and Sciences UF Online
- Digital Arts and Sciences | Bachelor of Arts

---

## Courses

### DIG 2005 Introduction to Digital Technologies 3 Credits

**Grading Scheme:** Letter Grade

Comprehensive introduction to fundamental digital technologies and computing concepts; covers history of computing, binary arithmetic, Boolean logic, file formats, computer architecture, databases, networking, security/privacy, and ethics.

### DIG 2021 Foundations of Digital Culture 3 Credits

**Grading Scheme:** Letter Grade

Interdisciplinary overview of the technological and cultural developments that continue to shape the modern world. Student research covers topics including telecommunications, digital and analog technologies, video games, computer-generated entertainment and the rise of social media. (WR)

**Attributes:** Satisfies 4000 Words of Writing Requirement

### DIG 2121 Principles of Digital Visualization 3 Credits

**Grading Scheme:** Letter Grade

Develops appreciation and basic fluency in the application of visual and design literacy into emergent forms of digital media. Historical and theoretical perspectives inform hands-on learning across topics including pre-visualization and storyboarding in static and time-based media, and the critical analysis of contemporary and iconic visual storytelling.

### DIG 2430 Digital Storyboarding 3 Credits

**Grading Scheme:** Letter Grade

Storyboards, essential to production pipelines in the digital media field, help visual storytellers plan out and organize the sequence of events in a story. Explore various methodologies and fundamental techniques for effectively translating a written script or screenplay to the digital screen via the storyboarding process.

### DIG 2632 Creating Mobile Games 3 Credits

**Grading Scheme:** Letter Grade

Introduces designing mobile video games with simple drag and drop programming and basic asset creation. Covers the essential principles of design and development needed to create effective arcade-style games. Provides a solid foundation in the technical skills needed to create multi-platform mobile games.

### DIG 2930 Special Topics: Foundations of Digital Culture 3 Credits

**Grading Scheme:** Letter Grade

In-depth examination of the technological and cultural underpinnings that shape current electronic media including video games, the internet, computer-animated movies, and virtual reality.

### DIG 2931C Special Topics in Digital Media 1-3 Credits

**Grading Scheme:** Letter Grade

Special topics course to address contemporary digital arts and sciences issues. This flexible pedagogic mechanism provides DAS a dimension of vitality that compliments theory-based offerings with an up-to-the-minute examination of emergent cultural and technological events and developments.

**Prerequisite:** instructor permission.

**DIG 3097 Entrepreneurship in New Media 3 Credits****Grading Scheme:** Letter Grade

Using an interdisciplinary approach, acquire fluency in techniques of idea generation, innovation, internet startups, video games, mobile applications, promotion and branding, company boot strapping, and business plan creation. Focuses on developing creative and business skills applicable to new media startups.

**Prerequisite:** Digital Arts and Sciences BA major.**DIG 3124 Principles of Interaction & Usability 3 Credits****Grading Scheme:** Letter Grade

Introduces the principles of interaction and usability for digital interfaces and systems. Focuses on identifying end users' needs and providing tailored solutions through interaction design, cognitive and emotional aspects of digital interfaces, visual aesthetics, data gathering, prototyping, and evaluation.

**Prerequisite:** Digital Arts and Sciences major.**DIG 3305C 3D Digital Animation Techniques 3 Credits****Grading Scheme:** Letter Grade

Introduces the foundations of creating 3D digital environments and animations; implement industry-standard animation principles and practices, including reference-centric animation and polygonal modeling.

**Prerequisite:** DAR major and DIG 3313C with minimum grade of C..**DIG 3313C 2D Digital Animation Techniques 3 Credits****Grading Scheme:** Letter Grade

Introduces foundational knowledge of animation in a 2D space; learn how to design and implement character, abstract, and shape animation.

**Prerequisite:** Digital Arts and Sciences BA major.**DIG 3329 3D Modeling and Texturing 3 Credits****Grading Scheme:** Letter Grade

This course covers industry-standard polygon and curve-based modeling tools for creating efficient 3D models and stylistic textures. Additionally, students will master key concepts and become fluent in terminology essential to 3D modeling.

**Prerequisite:** Digital Arts and Sciences major and DIG 3305C with minimum grade of C.**DIG 3433 Digital Storytelling 3 Credits****Grading Scheme:** Letter Grade

Develops a framework for integrating participation and storytelling as the foundation of interactivity. Explores how story is incorporated into contemporary interactive platforms such as games and other digital media, including virtual worlds, video blogs and social networks.

**Prerequisite:** Digital Arts and Sciences BA major with junior standing or higher.**DIG 3506 Interdisciplinary Design Methods for Digital Arts and Sciences 2 Credits****Grading Scheme:** Letter Grade

Comprehensive overview of industry and academy standard design methods and processes. Interdisciplinary design practices from process-focused fields like interaction design, human-centered design, design research and computer-supported collaborative work. Construction and delivery of needs analyses, audience analyses, and design documents, and iterative design practices including rapid prototyping, user-testing, real-time research, conceptual design and agile development. Students will use one of these design frameworks to take a DAS design prototype from conceptualization to user-testing.

**Prerequisite:** Digital Arts and Sciences BA major with junior standing or higher.**DIG 3521 Project Methodologies 3 Credits****Grading Scheme:** Letter Grade

Introduces skills for successfully planning and managing digital projects. Focuses on the production of digital games, animation, and digital audio/video to learn about management life cycle, project parameters, matrix management challenges, effective project management tools and techniques, interpersonal skills, and the role of a project manager.

**Prerequisite:** Digital Arts and Sciences major.**DIG 3525C DAS Design and Production Studio 1 3 Credits****Grading Scheme:** Letter Grade

Provides digital imaging and design foundations in visualization. Also offers an introduction to the foundation of interface tools in industry standard digital imaging software.

**Prerequisite:** Digital Arts and Sciences BA major.**DIG 3526C DAS Design and Production Studio 2 3 Credits****Grading Scheme:** Letter Grade

Working within an interdisciplinary digital arts and sciences (DAS) design and production studio environment, students will focus on network and Internet-based technologies, delivery systems and content generation. Students will participate in the creation of two major collaborative group projects or one major semester-long project.

**Prerequisite:** Digital Arts and Sciences BA major and DIG 3525C with minimum grade of C.

**DIG 3588C Digital Portfolio 1-3 Credits****Grading Scheme:** Letter Grade

Provides technical and design skills for the creation of a digital portfolio with interactive media suitable for distribution, including DVD and a portfolio website. Also covers techniques for using and linking social media, digital branding and personal marketing.

**Prerequisite:** Digital Arts and Sciences BA major of junior standing or higher.

**DIG 3623 Playable Patterns: Science Storytelling with AI & Games 3 Credits****Grading Scheme:** Letter Grade

From random number generators to flocking algorithms, designing the automated parts of a game involves finding elegant, concise, and believable ways of modeling the real world. A look to nature and the history of computational poetics to learn to design machine intelligence that inspires audiences interacting with new stories.

**Prerequisite:** DAR major.

**DIG 3691 Blockchain Innovation in Digital Arts and Sciences 3 Credits****Grading Scheme:** Letter Grade

Comprehensive survey of relevant topics in blockchain and its impact on digital arts and sciences; provides an overview of the technology behind blockchain and explores current and potential real-world applications in arts, digital entrepreneurship, and creativity.

**Prerequisite:** Digital Arts and Sciences B.A. major with junior standing or higher.

**DIG 3713 Game Content Production 1 3 Credits****Grading Scheme:** Letter Grade

Provides both theoretical and practical knowledge and essential technical skills for the conceptualization and digital visualization of video game assets. Covers the principles and practical applications of industry-standard software suites. Emphasizes developing strong foundational skills, compelling conceptual ideas, and self-motivated problem solving.

**Prerequisite:** Digital Arts and Sciences BA major.

**DIG 3715 Game Content Production 2 3 Credits****Grading Scheme:** Letter Grade

Elaborates on concepts, processes, and technical practices introduced in DIG 3713C; use game design fundamentals to craft effective digital games. Detailed examination of conceptual techniques in game design and their use in DAS design practice; comparative introduction of frameworks for game design; technical components of 2D and 3D game design.

**Prerequisite:** Digital Arts and Sciences major and DIG 3713 with minimum grade of C.

**DIG 3873 Game Systems Development 1 3 Credits****Grading Scheme:** Letter Grade

This course will introduce the fundamental principles of game development and programming language. Students will become familiar with input output, variables, arithmetic operations, if-else conditional statement and their use in game development. Students will also learn about the basic understanding of object-oriented programming (OOP) within the industry.

**Prerequisite:** Digital Arts and Sciences BA major.

**DIG 3878 Game Systems Development 2 3 Credits****Grading Scheme:** Letter Grade

This course will cover fundamental principles of game engine programming such as basic collision detection, input detection, instantiate, destroy game object, and others. The student will also learn how to use game engines to develop various applications such as personal computer (PC) and mobile games, augmented/virtual reality projects, and others.

**Prerequisite:** DIG 3873 with minimum grade of C.

**DIG 4154 Writing for Interactive Media 3 Credits****Grading Scheme:** Letter Grade

Provides in-depth analysis and opportunity to hone writing skills needed in the creation and development of interactive digital media. Students will investigate approaches for generating high-quality writing and the blend between development, planning, technical and creative writing through writing the documents to support a digital media project's development and production.

**Prerequisite:** Digital Arts and Sciences BA major of senior standing.

**DIG 4171C Digital Tools for Arts and Humanities 3 Credits****Grading Scheme:** Letter Grade

Study of digital applications, games, tools, and social networks to enhance research in the arts and humanities; examines and expands on current theoretical discussions, applications, and methodologies. An interdisciplinary group project embraces collaborative research and offers hands-on experience with digital tools.

**Prerequisite:** Junior level or higher

**DIG 4184C Motion Design 3 Credits****Grading Scheme:** Letter Grade

Introduces motion graphics fundamentals, design principles, and techniques, including visual rhythm, kinetic typography, multiplanar effects, and established and emerging industry techniques. Also explores the use of motion graphics in live-action video, including but not limited to commercial, broadcast, corporate, training, tradeshow, main title, and social media content.

**Prerequisite:** DIG3526C and DIG3305C with minimum grades of C and a Digital Arts and Sciences major.

**DIG 4185 Experience Design for Social Engagement 3 Credits****Grading Scheme:** Letter Grade

Explore user experience (UX) design and user engagement, and address social challenges (e.g. sustainability, accessibility, minority concerns) in individual and group projects. Identify target user needs, develop solutions, create a prototype application, and undertake user testing by applying UX theories, experience design history, and user-centered design principles.

**Prerequisite:** DIG 3124 with a minimum grade of C or better a Digital Arts and Sciences major.

**DIG 4255C Audio Design for Digital Production 3 Credits****Grading Scheme:** Letter Grade

Professional techniques for the creation of audio content for variety of applications in the digital arts and sciences. Software tools for conversion, storing, processing and retrieval of sound in a variety of digital formats. Fundamentals of loop-based audio design, sampling and work with an industry standard software with linear and interactive digital media.

**Prerequisite:** Digital Arts and Sciences BA major of senior standing.

**DIG 4283 Music and Sound Design for Digital Media 3 Credits****Grading Scheme:** Letter Grade

Investigates techniques, tools and current research in music and sound design for digital media for DAR and DAS non-music majors.

**DIG 4306C Advanced Digital Animation Techniques 3 Credits****Grading Scheme:** Letter Grade

Practical principles and techniques of 3D software environments for animation. Includes triangular mesh design and editing, splines (NURBS), shading techniques and lighting, different camera projection models, rendering techniques, and efficient use of GPU for photo realistic real-time 3D animation.

**Prerequisite:** (Digital Arts and Sciences BA major and DIG 3305C with minimum grade of C) or instructor permission.

**DIG 4354 3D Character Animation 3 Credits****Grading Scheme:** Letter Grade

Techniques for 3D character animations. Practice character development, pipeline management, procedural framework simulation, and basic rigging alongside studies of motion picture animation. Master industry-standard tools to animate basic 3D objects, 3D bipedal motion, and key-framing.

**Prerequisite:** DAR major and DIG 4306C with minimum grade of C.

**DIG 4361C Advanced 2D Digital Animation Techniques 3 Credits****Grading Scheme:** Letter Grade

Develop advanced industry-standard practices in digital 2D animation. Within a collaborative environment, create a 30 second film in order to learn the production pipeline, time management, and task allocation while demonstrating advanced animation techniques.

**Prerequisite:** DIG 3313C with minimum grade of C and Digital Arts and Sciences B.A. major.

**DIG 4527C Game Design and Production 3 Credits****Grading Scheme:** Letter Grade

Interdisciplinary approach to game design and production. Emphasizes rapid prototyping, agile design, collaboration, and project management in a relatively short development cycle. Work on idea pitches, write concept proposals, and work to develop a video game.

**Prerequisite:** Digital Arts and Sciences major and (DIG 3715 and DIG 3878 with minimum grades of C).

**DIG 4540C Production of Immersive Environments 3 Credits****Grading Scheme:** Letter Grade

Projects cover the foundational knowledge of immersive technologies such as AR and VR; provides hands-on experience developing a fully functioning immersive experience prototype.

**Prerequisite:** DIG 3305C and DIG 3878 with minimum grades of C and Digital Arts and Sciences B.A. major with junior standing or higher.

**DIG 4552 Advanced Design & Production Studio 3 Credits****Grading Scheme:** Letter Grade

Course provides students with both conceptual understanding and practical applications of the evolving ecosystem of time-based digital media creation and production tools and techniques. Work incorporates both physical and virtual studio environments.

**Prerequisite:** Digital Arts and Sciences major and DIG 3526C with minimum grade of C

**DIG 4634 Wearable and Mobile App Development 3 Credits****Grading Scheme:** Letter Grade

Examines software development protocols for wearable and mobile electronics such as head-mounted displays, watches, and cellphones. Studies several embedded input/output interfaces, including position and orientation sensors, hand trackers, holographic, and stereoscopic displays. Materials are practiced by developing prototype software applications for such devices.

**Prerequisite:** DIG 3878 with minimum grade of C.

**DIG 4841 Senior Project Research 3 Credits****Grading Scheme:** Letter Grade

Focuses on identifying effective pre-production research techniques, as well as goal-setting and problem-solving strategies, and integrating them into a coherent project-management practice. Apply understanding of these principles to formulate an appropriate and successful DAS senior project proposal.

**Prerequisite:** DAR major and senior standing.

**DIG 4905 Independent Study 1-4 Credits**

**Grading Scheme:** Letter Grade

Independent study of special or individual DIG projects and issues, under faculty supervision.

**Prerequisite:** consent of faculty member supervising the study.

**DIG 4917 Undergraduate Research in DAS 0-3 Credits**

**Grading Scheme:** S/U

Provides research experience at the intersection of digital arts and sciences. Research assistants work directly with faculty to explore and produce various research in interactive tools and technologies. Accelerate professional development as both a researcher and digital artist.

**Prerequisite:** Junior level or higher.

**DIG 4930 Special Topics in DAS 1-4 Credits**

**Grading Scheme:** Letter Grade

Special Topics provides upper-level DAS students with a comprehensive study of current/significant topics in the digital arts and sciences. Special Topics allows faculty to offer courses in emergent technologies, theories, and methodologies not already included in the curriculum, and provide students with the knowledge and skills necessary in these areas.

**Prerequisite:** Digital Arts and Sciences major.

**DIG 4932 Colloquium in Digital Arts and Sciences 1 Credit**

**Grading Scheme:** S/U

Seminars explores current affairs in the field of digital arts and sciences. Research, communicate, and analyze the contemporary trends in digital arts and sciences.

**Prerequisite:** DAR major and senior standing.

**DIG 4940 Internship 1-3 Credits**

**Grading Scheme:** S/U

Internship encourages reflection on position, company, industry, and experience. After completing the assignments, students should be able to articulate the role internship had in their career development.

**Prerequisite:** DAR major.

**DIG 4942 Undergraduate Course Assistant 0-3 Credits**

**Grading Scheme:** S/U

Provides hands-on experience teaching digital arts and sciences at the college level. Under the supervision of a faculty member, lab assistants help prepare and discuss course materials, work with students during office hours, and play a critical role in facilitating learning.

**Prerequisite:** DAR major and junior or higher standing.

**DIG 4944C Production Practicum 0-3 Credits**

**Grading Scheme:** S/U

Production Practicum will provide DAS students hands-on experience producing and executing real-world digital media projects. Students will participate in many production roles, collaborating with peers and clients in a professional studio environment. In the process, students will accelerate their professional development as a producer within the digital arts and sciences.

**Prerequisite:** Junior level or higher.

**DIG 4970 Senior Project in DAS 2-3 Credits**

**Grading Scheme:** Letter Grade

Successful completion of this capstone experience demonstrates mastery of requisite knowledge, technical acumen, and problem solving skills in the digital arts and sciences. May be either an individual or team-based project.

**Prerequisite:** senior status enrolled in the BA in DAS program.

---

## Economics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad.

- Economics Minor

---

**Courses****ECO 2013 Principles of Macroeconomics 4 Credits**

**Grading Scheme:** Letter Grade

The nature of economics, economic concepts and institutions; growth, unemployment and inflation; money and banking; economic policies; and the international economy. (S)

**Attributes:** General Education - Social Science

**ECO 2023 Principles of Microeconomics 4 Credits**

**Grading Scheme:** Letter Grade

Theories of production, determination of prices and distribution of income in regulated and unregulated industries. Attention is also given to industrial relations, monopolies and comparative economic systems. (S)

**Attributes:** General Education - Social Science

**ECO 2310 Economics of Sustainability 3 Credits**

**Grading Scheme:** Letter Grade

Examines issues of environmental sustainability from an economic perspective. Discusses economic treatment of renewable and nonrenewable resources, land constraints, and global climate change. Identifies potential policy solutions grounded in economic theory.

**ECO 3101 Intermediate Microeconomics 4 Credits**

**Grading Scheme:** Letter Grade

Nature, scope, and purpose of economic analysis. Examines the theory of consumer behavior, production, costs, firm behavior, and the allocation of resources.

**Prerequisite:** (ECO 2023 and (MAC 2233 or higher level calculus course)) or AEB 3103

**ECO 3203 Intermediate Macroeconomics 4 Credits**

**Grading Scheme:** Letter Grade

Theoretical determinants of aggregate employment, income, expenditures and the price level. Keynesian and neoclassical models are analyzed.

**Prerequisite:** ECO 2013 and ECO 2023 and (MAC 2233 or higher level calculus course).

**ECO 3430 Economic Analysis of Data 4 Credits**

**Grading Scheme:** Letter Grade

Introduces prominent big economic datasets. Presents common practices for identifying inconsistencies and cleaning data. Describes several data basic visualization tools within various software packages. Incorporates hand-on experience with economic data analysis.

**Prerequisite:** ECO 2013 and ECO 2023 and STA 2023 (or higher level STA course).

**ECO 3532 Public Choice 4 Credits**

**Grading Scheme:** Letter Grade

Role of voters, special interests, legislators and the bureaucracy in determining government expenditure, taxation and other economic policies.

Economic models of voting and the structure of governments.

**Prerequisite:** ECO 2023.

**ECO 3704 International Trade 4 Credits**

**Grading Scheme:** Letter Grade

Theory of international trade and commercial policy. Current issues in international trade, comparative advantage, scale economics, the economics of tariff and non-tariff barriers. International factor movements and multinational firms. Political economy of trade restrictions, strategic trade policy and trade negotiations.

**Prerequisite:** ECO 2013 and ECO 2023.

**ECO 3713 International Macroeconomics 4 Credits****Grading Scheme:** Letter Grade

Macroeconomic theory of an open economy. Current monetary issues of the world economy. The international monetary system, exchange rate determination, balance of payments adjustment mechanism, international financial institutions and their policies. Macroeconomic policies and national income determination in an open economy.

**Prerequisite:** ECO 2013 and (ECO 2023 or AEB 3103).**ECO 4104 Economics of Competitive Strategy 4 Credits****Grading Scheme:** Letter Grade

Focuses on identification and analysis of competitive strategies in expanding markets. Draws on strategic management, the economics of technological change and RD investments, and dynamic game theory, to address challenges faced by firms. Examines demand-based network externalities, the dynamics of pricing rivalry, industry evolution, RD strategies entry and exit decisions.

**Prerequisite:** ECO 2013 and ECO 2023 and (ECO 3101 or ECP 3703) and (MAC 2233 or higher).**ECO 4213 Monetary Economics 4 Credits****Grading Scheme:** Letter Grade

An integrated examination of how banks impact the money supply, monetary policy and financial markets. Topics include: the historical features of money; banking and money supply; goals and tools of monetary policy; and banks as financial intermediaries.

**Prerequisite:** ECO 2013 and ECO 2023.**ECO 4270 Economic Growth 4 Credits****Grading Scheme:** Letter Grade

Examines global history of economic growth and development. Introduces classical and modern theories of economic growth. Develops mainstream models of exogenous and endogenous growth. Compares insights from these models to real-world data.

**Prerequisite:** (MAC 2233 or higher) and (ECO 3101 or ECP 3703)**ECO 4400 Game Theory and Applications 4 Credits****Grading Scheme:** Letter Grade

Introduces modern game theory, including the formal theory of Nash equilibrium and solutions techniques. Applications include strategic barriers of entry; cooperative behavior in oligopoly, auctions and bidding strategies; and durable goods sales.

**Prerequisite:** ECO 2023 and (MAC 2233 or MAC 2234 or MAC 2311 or MAC 2312 or MAC 2313) and (ECO 3101 or ECP 3703).**ECO 4401 Mathematical Economics 4 Credits****Grading Scheme:** Letter Grade

Introduces fundamental mathematical tools employed in economic analysis. Covers comparative static analysis, introduces linear algebra, constrained and unconstrained optimization, and dynamic analysis using differential and difference equations. Examines applications from a wide range of subfields in economics, including consumer theory, macroeconomics, economic growth, and environmental economics.

**Prerequisite:** (ECO 2013 and ECO 2023 and ECO 3101) or (ECO 3203 and MAC 2233 or higher).**ECO 4421 Econometrics 4 Credits****Grading Scheme:** Letter Grade

Introduces concepts and methods used in empirical economic research. Emphasizes practical use of basic econometric techniques to estimate economic relationships and evaluate policy. Covers topics needed to plan and implement empirical projects, and understand potential problems with the empirical analyses of others.

**Prerequisite:** STA 2023 and (MAC 2233 or higher) and (ECO 3101 or ECP 3703).**ECO 4422 Econometrics 2 4 Credits****Grading Scheme:** Letter Grade

Introduces advanced concepts and methods employed in empirical economic analysis. Focuses on identification of causality using regression techniques. Examines regression discontinuity and difference-in-differences identification strategies.

**Prerequisite:** ECO 4421 OR (STA 4210 AND ECO 3101) OR (STA 4210 AND ECP 3703).**ECO 4504 Public Economics 4 Credits****Grading Scheme:** Letter Grade

Market failures and the role of the government in providing goods and services, like education and infrastructure, in a market economy. The role of the government in the provision of various types of social insurance like health insurance, social security and welfare. The effects of taxes on economic behavior.

**Prerequisite:** ECO 2013 and ECO 2023 and (MAC 2233 or higher) and (ECO 3101 or ECP 3703).**ECO 4905 Individual Work 1-4 Credits****Grading Scheme:** Letter Grade

For advanced undergraduate students who need to supplement regular coursework by individual studies under guidance. Counted as a free elective credit only.

**Prerequisite:** senior standing, 10 credits of economics and department permission.

**ECO 4934 Special Topics 1-4 Credits**

**Grading Scheme:** Letter Grade

Variable content providing an opportunity for the study in-depth of topics not offered in other courses.

**Prerequisite:** ECO 2013 and ECO 2023.

**ECO 4935 Empirical Research in Economics Seminar 4 Credits**

**Grading Scheme:** Letter Grade

After getting some background in economic empirical methodology, statistics, and statistical software and discussing some representative empirical papers, each economics student develops an empirical model and subjects it to statistical testing, helped by several class presentations.

**Prerequisite:** ECO 2013 and ECO 2023.

**ECO 4941 Internship in Economics 1-3 Credits**

**Grading Scheme:** S/U

Applied work in economics. Requires several papers and reports. Counted as a free-elective credit only. (S-U)

**Prerequisite:** department permission.

**ECO 4956 International Studies in Economics 1-4 Credits**

**Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

**ECO 4970 Honors Thesis 1-4 Credits**

**Grading Scheme:** S/U

A thesis is required for the awarding of the magna cum laude or summa cum laude designations. To qualify, students will normally have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator of the student's major department) and must have at least the grade point average (3.6) required for the magna cum laude designation at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator for the student's major department. Counted as a free-elective credit only. (S-U)

**Prerequisite:** 90 credits earned and 3.6 UF GPA.

**ECP 3006 Economics of Sports 4 Credits**

**Grading Scheme:** Letter Grade

Examines the business of sports using economic theory as a framework for analysis. Topics covered include the economics of sports leagues, labor negotiations and arbitration, pricing decisions, discrimination, corruption in sports, gambling, sports memorabilia and antitrust policy.

**Prerequisite:** ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).

**ECP 3203 Labor Economics 4 Credits**

**Grading Scheme:** Letter Grade

Determinants of demand for labor and labor supply. Labor market equilibrium and changes in the equilibrium due to changes in unionization, public policies, technology and trade. Study of the effects of skill, job amenities and discrimination on wage differentials.

**Prerequisite:** ECO 3101 or ECP 3703

**ECP 3302 Environmental Economics and Resource Policy 4 Credits**

**Grading Scheme:** Letter Grade

Relations between environmental quality, resource utilization, and economic institutions and policy. Examines alternative strategies and policies in solving the problems of environmental quality and resource scarcity.

**Prerequisite:** ECO 2023. Credit will not be awarded for both ECP 3302 and AEB 3450.

**ECP 3403 Industrial Organization 4 Credits**

**Grading Scheme:** Letter Grade

Examines the structure of markets and the behavior of firms operating in imperfectly competitive markets. Develops models of imperfectly competitive markets and compares the insights and predictions from each. Investigates firms' strategic profit-maximizing decisions regarding prices, product differentiation, market entry and exit, and product promotion.

**Prerequisite:** ECO 2023, (MAC 2233 or higher level calculus course), and (ECO 3101 or ECP 3703)

**ECP 3510 Economics of Education 4 Credits**

**Grading Scheme:** Letter Grade

Uses economic concepts to analyze the education system and education policy options. Topics covered include class size, No Child Left Behind legislation, public vs. private schools, and vouchers.

**Prerequisite:** ECO 2023.

**ECP 3530 Health Care Economics 4 Credits**

**Grading Scheme:** Letter Grade

Analysis of health care markets, employing efficiency and equity criteria. Evaluation of current health care policies and their effects on cost, access and quality. Topics covered include the production of and demand for health and medical care; information asymmetries between patients, doctors, and payers; health insurance coverage; the effects of managed care (including HMOs) on competition, efficiency, and quality; training and practice of physicians; hospitals; prescription drug pricing; government regulations; Medicare and Medicaid; health care reform.

**Prerequisite:** ECO 2023.

**ECP 3703 Managerial Economics 4 Credits****Grading Scheme:** Letter Grade

Analysis of the firm's decisions regarding prices, outputs and inputs, advertising, etc. under various market conditions. Reliance is placed upon both theories and applications.

**Prerequisite:** ECO 2023 and MAC 2233 or higher. Credit will not be awarded ECO 3101 and ECP 3703.

**ECP 4403 Government Regulation of Business 4 Credits****Grading Scheme:** Letter Grade

The evolution, statutory foundation and methods of governmental regulation. Antitrust regulation of competitive practices.

**Prerequisite:** ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).

**ECP 4451 Law and Economics 4 Credits****Grading Scheme:** Letter Grade

Analyzes the interaction between law and economics, and evolution of legal rules; efficiency of alternative rules on pollution and public goods, enforcement of contracts, deterrence of crime, and protection of consumers; and efficiency versus fairness.

**Prerequisite:** ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).

**ECS 3403 Economic Development of Latin America 4 Credits****Grading Scheme:** Letter Grade

A critical assessment of Latin American political economy and economic development. Topics covered include economic history from the colonial period forward; commodity price cycles and balance of payment fluctuations; import substitution industrialization; international indebtedness; trade liberalization; inflation stabilization policies; poverty eradication difficulties.

**Prerequisite:** ECO 2013 and ECO 2023.

**ECS 4013 Economic Development 4 Credits****Grading Scheme:** Letter Grade

Examines different theories of economic growth and development of low-income and middle-income countries. Covers microeconomic and macroeconomic models relevant to understanding development and analyzing various policy proposals. Analyzes history and empirical evidence of global economic growth and development.

**Prerequisite:** ECO 2013, ECO 2023, MAC 2233 or higher, and ECO 3101

**ECS 4110 Africa in the Global Economy 4 Credits****Grading Scheme:** Letter Grade

Examines the African continent position globally, looking both at the challenges as well as at the options available to African nations to get a fair and better deal in the global economy. Main topics: international trade and global value chains; WTO rules and negotiations especially with regard to agriculture; aid to Africa; economic reforms, the World Bank and IMF; the debt crisis; migration and African Diaspora.

**Prerequisite:** ECO 2013 and ECO 2023. Students with credit for ECS 4111 will not get credit for ECS 4110.

**ECS 4111 African Economic Development 4 Credits****Grading Scheme:** Letter Grade

Deals with the most pressing issues facing Sub-Saharan African countries in their quest for socio-economic development. Although the main focus is on contemporary issues and forthcoming challenges, we will also turn to more or less recent historical facts whenever necessary to shed light on the present. Main topics are economic growth, politics and institutions, international trade, agricultural and industrial development, poverty and inequality, access to basic social services, the environment and gender issues.

**Prerequisite:** ECO 2013 and ECO 2023. Students with credit for ECS 4110 will not get credit for ECS 4111.

---

## Education | School of Human Development and Organizational Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Courses

**EDA 4930 Special Topics 1-3 Credits****Grading Scheme:** Letter Grade

Topics vary.

**EDF 3110 Human Growth and Development 3 Credits****Grading Scheme:** Letter Grade

A life span survey of human growth and development beginning at conception and ending with death. Students will have the opportunity to apply general principles in appropriate educational settings. (S)

**Attributes:** General Education - Social Science

**EDF 3115 Child Development for Inclusive Education 3 Credits**

**Grading Scheme:** Letter Grade

Examines psychological theories and research on typical and atypical development and their application in general education classrooms that include children with sensory, mental, emotional, and learning disabilities and gifted and talented children.

**EDF 3132 The Young Adolescent 3 Credits**

**Grading Scheme:** Letter Grade

Development of the young adolescent between the ages of ten and fifteen.

**EDF 3135 The Adolescent 3 Credits**

**Grading Scheme:** Letter Grade

The special role that the adolescent plays in total development. Emphasis is on the psychological development of the adolescent in the school.

**Prerequisite:** junior standing or higher or department permission.

**EDF 3210 Educational Psychology 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the application of psychology to the problems of education in a variety of educational settings. It examines the theoretical and applied aspects of learning, motivation, human development, personality, and measurement and evaluation. (S) (WR)

**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**EDF 3423 Educational Research Design 3 Credits**

**Grading Scheme:** Letter Grade

Addresses the Basic Tenets of Educational Research Design, Including Quantitative, Qualitative, and Mixed-Method Approaches to Investigating Educational Phenomena; Learn the Information Needed to Understand the Educational Research Process.

**Prerequisite:** Junior status or higher.

**EDF 3935 Special Topics 1-3 Credits**

**Grading Scheme:** Letter Grade

Topics vary.

**Prerequisite:** department permission.

**EDF 4140 Cognition in Education 3 Credits**

**Grading Scheme:** Letter Grade

Examines cognitive science that explains learning in educational contexts. Specifically, reviewing memory, attention, thinking, and problem solving in classroom or applied settings. Pays special attention to the connections between research and everyday phenomena; designed to help students apply course material to enhance their lives.

**Prerequisite:** EDF 3210

**EDF 4430 Measurement and Evaluation in Education 3 Credits**

**Grading Scheme:** Letter Grade

The basic principles and methods of measurement, evaluation and test construction.

**Prerequisite:** Junior status or higher.

**EDF 4440 Program Evaluation in Educational Settings 3 Credits**

**Grading Scheme:** Letter Grade

Overview to the skills and methods required to assess the effectiveness and impact of educational programs and institutions. First presents program evaluation in the broader setting of the social sciences, followed by evaluation readings and activities tailored specifically to educational settings.

**Prerequisite:** Junior status or higher.

**EDF 4470 Survey Research Methods in Education 3 Credits**

**Grading Scheme:** Letter Grade

Overview of the theory and application of survey research methods, with special emphasis on conducting survey research in educational settings.

Presents the full process of survey research, including design, implementation, analysis, and data management.

**Prerequisite:** Junior status or higher

**EDF 4905 Individual Work 1-3 Credits**

**Grading Scheme:** Letter Grade

For juniors or seniors who wish to explore areas of inquiry in psychological, social, or philosophical foundations of education, or research or measurement, under faculty guidance.

**EDG 4910 Education Undergraduate Research 0-3 Credits**

**Grading Scheme:** S/U

Supports mentored scholarship work that enables individual students to engage in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery or application depending on the topic. (S-U)

**EDH 3410 Introduction to Education Policy 3 Credits**

**Grading Scheme:** Letter Grade

Introduces education policy and analysis that explores the history and purpose of education policy, key federal and state policies impacting K12 and higher education, and theoretical and conceptual approaches to policy analysis.

**Prerequisite:** EDF 3604.

**EDP 3211 Cognitive and Educational Science in AI 3 Credits**

**Grading Scheme:** Letter Grade

This course examines cognitive and education science concepts that underpin the field of Artificial Intelligence. Additionally, this course explores how AI is currently integrated into educational contexts. This course will enhance students' conceptual understanding of what makes AI tools work and increase their ability to use those tools in an increasingly AI-rich educational environment. This is not a programming course; you do not need to have advanced AI or computer science knowledge

**Prerequisite:** EDF 3210 or EDF 3110 or EDF 4140 or PSY 2012 or EXP 3604 and fundamental knowledge of cognition or education theories.

**MHS 3930 Special Topics 1-3 Credits**

**Grading Scheme:** Letter Grade

Topics vary.

**MHS 4900 Individual Work 2-4 Credits**

**Grading Scheme:** Letter Grade

Topics vary.

**Prerequisite:** department permission.

**SDS 3340 Career and Life Span Planning 3 Credits**

**Grading Scheme:** Letter Grade

Presentations, discussions and experiential activities for making effective life plans and adjustments are covered.

**SDS 3430 Family and Community Involvement in Education 3 Credits**

**Grading Scheme:** Letter Grade

Examines existing models and practices for enhancing family-school-community interaction with emphasis on communication, conflict resolution and climate-building skill development.

**SDS 3462 Introduction to Trauma and Crisis 3 Credits**

**Grading Scheme:** Letter Grade

Develop knowledge about trauma and crisis and increase awareness of the effects of trauma on individuals, families, groups, and communities, and the process of recovery. Also develop knowledge about careers affiliated with assisting survivors of trauma and crisis through their recovery. Students will disclose personal reflections related to the information covered in the course on trauma and crisis.

**Prerequisite:** Junior standing.

**Corequisite:** Trauma training is relevant to many careers. Students will learn about psychological trauma, crisis intervention, and careers associated with helping people who have experienced trauma. This course is open to all majors.

**SDS 3480 Student Development in a University Setting 2 Credits**

**Grading Scheme:** Letter Grade

Available to selected undergraduate students only. Examines factors affecting student growth and development in the university setting, current problems facing students, and the use of group processes and leadership training in solving problems and facilitating growth.

**SDS 3481 Alcohol and Drug Abuse 2 Credits**

**Grading Scheme:** Letter Grade

General information of effects and problems associated with alcohol and other drug abuse.

**SDS 3482 Stress and Anxiety Management 3 Credits**

**Grading Scheme:** Letter Grade

Overview of theories and methods of stress and anxiety control and reduction.

**SDS 4410 Interpersonal Communication Skills 3 Credits**

**Grading Scheme:** Letter Grade

The application of basic principles of interpersonal communication with emphasis on the affective dimensions. Attention is given to using basic counseling strategies and psychological techniques as an aid to effective communication.

---

## Education | School of Special Education, School Psychology and Early Childhood Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Courses

### **EDF 2085 Teaching Diverse Populations 3 Credits**

**Grading Scheme:** Letter Grade

Surveys educational demographics, foundations of prejudice, elements of culture, political and philosophical roots of diversity and commonality, exceptionalities, and barriers to cultural understanding and diversity in the classroom. A minimum of 30 hours of field experience is required with 15 hours in a diverse setting. See also: EDF 1005 and EME 2040. (D and S)

**Attributes:** General Education - Diversity, General Education - Social Science

### **EDF 3122 The Young Child 3 Credits**

**Grading Scheme:** Letter Grade

Studies growth and development during infancy and early childhood. Laboratory includes observation and participation in nursery school and kindergarten.

### **EDF 3433 Introduction to Educational Measurement and Evaluation 2 Credits**

**Grading Scheme:** Letter Grade

Surveys principles and methods of educational measurement with an emphasis on evaluation and diagnosis of students in school settings.

**Prerequisite:** STA 2023; knowledge of descriptive statistics, correlation and regression; inferential statistics and tests on means; and department permission for freshmen and sophomores.

### **EDG 4910 Education Undergraduate Research 0-3 Credits**

**Grading Scheme:** S/U

Supports mentored scholarship work that enables individual students to engage in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery or application depending on the topic. (S-U)

### **EEC 3012 Intro to Early Childhood Educa 3 Credits**

**Grading Scheme:** Letter Grade

Overview of the profession of early childhood education for all children from age 3 through grade 3, including legal bases, ethical guidelines, professional expectations, historical and cultural perspectives, organization, programming, developmentally appropriate principles and evidence-based practices. Considerations for diversity guide all aspects of the course.

**Prerequisite:** Early Childhood Education majors only. Junior and Senior Status.

### **EEC 3023 Science of Early Childhood Development and Learning 3 Credits**

**Grading Scheme:** Letter Grade

Explore the science of early childhood health, well-being, development, and learning from transdisciplinary, child- and family-centered, and developmental equity perspectives. Uses an eco-bio-developmental model to frame and integrate early childhood principles and practices. Applies the 3Rs (relationships, repetitions, and routines) of early childhood.

**Prerequisite:** junior standing or higher.

### **EEC 3213 Language and Literacy Development in Early Childhood 3 Credits**

**Grading Scheme:** Letter Grade

Understand the foundations of language and literacy development in young children, from age 3 to grade 3. Includes a focus on the development of oral language, vocabulary, phonological awareness, and word-reading skills.

**Prerequisite:** admission to B.S. in Early Childhood Studies.

### **EEC 3402 Families as a Context for Early Childhood Development and Learning 3 Credits**

**Grading Scheme:** Letter Grade

Learn how the family unit functions within an ecological context for early childhood development and learning. Connections between the child, family, and broader supports for family capacity building will be identified through a developmental equity lens in order to enhance family partnerships.

**Prerequisite:** junior standing or higher.

### **EEC 3404 Families, Diversity and Multicultural Considerations in Early Childhood 3 Credits**

**Grading Scheme:** Letter Grade

The role of family and influence of community on development and learning of young children in diverse society.

### **EEC 3411 Foundations of EC Systems and Supports 3 Credits**

**Grading Scheme:** Letter Grade

Gain foundational knowledge about the transdisciplinary field of early childhood studies through exploring the intersections among health/mental health, early care and education, and family support systems. Emphasizes practices used within and across these systems to support thriving children (birth to 5-years old) and their families.

**Prerequisite:** junior standing or higher.

**EEC 3421 Early Childhood Math, Science, and Technology 6 Credits****Grading Scheme:** Letter Grade

Techniques and methods for teaching preschool to third grade mathematics and science with appropriate technology integration. Topics include processes of problem solving, reasoning, communication, and inquiry related to instruction and teaching methodology. Appropriate use of technology to amplify the learning experience and develop digital citizens and computational thinkers.

**Prerequisite:** junior/senior-level EMR in Unified Early Childhood Education.**EEC 3704 Supporting Early Childhood Learning and Development 3 Credits****Grading Scheme:** Letter Grade

Learn about organizing frameworks that guide practices to support learning and development for children ages birth to five years old. Emphasizes learning and development in the early childhood years with attention to practices, policies, and structural supports to address cultural, language, and ability diverse young children.

**Prerequisite:** junior standing or higher.**EEC 3731 Supporting Early Childhood Health and Wellbeing 3 Credits****Grading Scheme:** Letter Grade

Learn how the ecobiodevelopmental framework applies to young children's health and well-being. Identify levels of need related to health and well-being of young children and transdisciplinary coordinated services and supports that are available to support young children's health and well-being.

**Prerequisite:** junior standing or higher.**EEC 3941 Practicum in Early Childhood Education 1-3 Credits****Grading Scheme:** S/U

Field experience in pre-service early childhood education.

**Prerequisite:** enrollment in Unified Early Childhood PROTEACH.**EEC 4215 Early Childhood Science and Social Studies 3 Credits****Grading Scheme:** Letter Grade

Integrated curriculum course for science and social studies from the perspective of constructivist theory. Designed to promote understanding of similarities in ways in which children construct basic science and social studies concepts.

**Prerequisite:** junior/senior-level EMR in Unified Early Childhood Education.**EEC 4247 Integrated Humanities, Social Studies, and the Arts 3 Credits****Grading Scheme:** Letter Grade

This integrated curriculum course develops students' understanding of appropriate curriculum and instruction in social studies, humanities and arts for children preschool through grade 3. Emphasis is on content and methods to meet goals in each of the three areas, as well as meaningful interdisciplinary learning experiences that meet multiple goals.

**Prerequisite:** Early Childhood Education majors only. Junior and Senior Status.**EEC 4252 Inclusive Early Childhood Curriculum, Teaching and Assessment I 3 Credits****Grading Scheme:** Letter Grade

This course will develop students' understanding of appropriate curriculum, teaching and assessment for young children in preschool through grade 3, across the developmental domains and academic disciplines. This course is the first in a two-course sequence.

**EEC 4253 Inclusive EC Curriculum II 3 Credits****Grading Scheme:** Letter Grade

This course will develop students' skills in implementing appropriate curriculum, teaching and assessment for young children in preschool through grade 3, across the developmental domains and academic disciplines. This course is the second in a two-course sequence.

**Prerequisite:** Students admitted to the early childhood education program and EEC 4252.**EEC 4712 Social-Emotional Learning and Behavior Support in Early Childhood 4 Credits****Grading Scheme:** Letter Grade

Multi-tiered model approach to use of developmentally appropriate and evidence-based practices for promoting children's social-emotional learning, self-responsibility and self-regulation in early childhood programs. Practices build from focus on development of positive relationships, to environmental arrangements, to specific teaching practices, to use of individualized interventions based on functional assessment.

**Prerequisite:** Early Childhood Education majors only. Junior and Senior Status.**EEC 4942 Practicum in Early Literacy 3 Credits****Grading Scheme:** Letter Grade

Provides an opportunity to practice and demonstrate competence in early literacy assessment, instruction, and intervention in an early childhood classroom setting. Apply literacy knowledge and skills with PreK-Grade 3 students. Includes both small-group and whole-class instruction.

**Prerequisite:** Early Childhood Education majors only, Junior and Senior Status.**EEC 4945 Internship in Early Childhood 3-6 Credits****Grading Scheme:** Letter Grade

Students demonstrate application of knowledge and skills acquired throughout their educator preparation program in a supervised early childhood setting.

**Prerequisite:** Early Childhood Education major and permission of department.

**EEX 2000 Impact of Disabilities: Home, Community and Workplace 3 Credits**

**Grading Scheme:** Letter Grade

How disabilities impact the lives of individuals who have disabling conditions and how the presence of individuals with disabilities enhances diversity in a variety of settings. The impact of disabilities in home, community and work environments. Physical, cognitive and emotional/behavioral disabilities are considered. (D and S)

**Attributes:** General Education - Diversity, General Education - Social Science

**EEX 3012 Introduction to Special Education 3 Credits**

**Grading Scheme:** Letter Grade

Overview of special education characteristics and definitions of disabilities, the referral process and service delivery models. Information on the history of, legal basis for and contemporary issues in special education.

**EEX 3062 Early Childhood Special Education Curriculum 3 Credits**

**Grading Scheme:** Letter Grade

Content knowledge in developing and implementing individualized educational programs for the pre-kindergarten child with disabilities, including developmentally appropriate curriculum; methods, interventions strategies, teaming approaches, inclusion and mainstreaming issues; and approaches and techniques for serving the child and the family.

**EEX 3070 Teachers and Learners in the Inclusive School 3 Credits**

**Grading Scheme:** Letter Grade

Characteristics of, identification of and teaching practices for exceptional children in mainstream education. Designed for general education majors, both elementary and secondary.

**Prerequisite:** junior standing or higher.

**EEX 3093 Exceptional People in School and Society 3 Credits**

**Grading Scheme:** Letter Grade

Persons with disabilities and people from other diverse groups and the services they need from school and society for success. Consideration of the abilities, causes and educational implications. May not be taken in lieu of EDF 2085. (D and S)

**Attributes:** General Education - Diversity, General Education - Social Science

**EEX 3097 Social Perspectives on Disability 3 Credits**

**Grading Scheme:** Letter Grade

Covers issues relevant to people with disabilities, their families and others with whom they have contact through community, employment or other settings. Specifically, historical views of people with disabilities and current disability-related issues are examined. Provides a framework for understanding disabilities and disability-related issues within cultural contexts.

**Prerequisite:** EEX 2000 or EEX 3093.

**EEX 3226 Assessment in Early Childhood Special Education 3 Credits**

**Grading Scheme:** Letter Grade

Use of informal and formal evaluation techniques to develop individualized educational programs for young children with disabilities and individualized family support plans for infants and toddlers with disabilities and their families. An emphasis is the implementation of a multidisciplinary team approach in the assessment of young children.

**EEX 3257 Core Teaching Strategies 3 Credits**

**Grading Scheme:** Letter Grade

Helps pre-service teachers develop instruction that provides diverse learners meaningful access to the school curriculum, and assist them in becoming self-regulated learners.

**EEX 3616 Core Classroom Management Strategies 3 Credits**

**Grading Scheme:** Letter Grade

Helps pre-service teachers learn classroom management strategies that develop a positive classroom community for students with disabilities and other diverse learners. They will learn organizational and management strategies to assist students in managing their behavior.

**EEX 4064 Educational Programming for Infants and Toddlers with Disabilities 3 Credits**

**Grading Scheme:** Letter Grade

Overview of issues, trends and best practices in the education of infants and toddlers who are at-risk or disabled (birth to three).

**EEX 4280 Disabilities in Community and Employment 3 Credits**

**Grading Scheme:** Letter Grade

In-depth look at aspects of the community and work experiences for adults with disabilities and the individuals who interact with them. Effective practices that foster accepting and supportive environments that ensure successful life outcomes are discussed.

**Prerequisite:** EEX 2000 or EEX 3093.

**EEX 4294 Differentiated Instruction 3 Credits**

**Grading Scheme:** Letter Grade

Provides preservice teachers with information and expertise related to instruction to that effectively meets the academic needs of all students in inclusive settings.

**EEX 4520 Disabilities: Legal Aspects and Policies 3 Credits**

**Grading Scheme:** Letter Grade

Development and enactment of laws and policies designed to protect the rights of persons with disabilities. Examines The Americans with Disabilities Act as well as other significant legislation contributing to policies affecting this population. Examines disability legislation/policy on local, state, national, and international levels.

**Prerequisite:** EEX 2000 or EEX 3093.

**EEX 4754 Family Focused Involvement in Early Childhood Special Education 3 Credits**

**Grading Scheme:** Letter Grade

Professional skills working with families of young children with disabilities, including understanding of family systems theory, assessing family strengths and needs, developing individual family support plans (IFSP) or individual educational plan (IEP), and enhancing communication and counseling skills. Understanding families from diverse cultures.

**EEX 4790 Multicultural Issues in Early Childhood Special Education 3 Credits**

**Grading Scheme:** Letter Grade

Cultural and linguistic diversity among young children with disabilities and their families.

**EEX 4810 Seminar on Disability 3 Credits**

**Grading Scheme:** Letter Grade

Identify and analyze current disability issues and literature on the integration of individuals with disabilities in the workplace, post-secondary education, community, and adult life. Students complete a culminating activity investigating a disability topic or applying disability-related knowledge to their academic discipline or anticipated professional practice.

**Prerequisite:** EEX 3097 or EEX 4280 or EEX 4520.

**EEX 4837 Practicum Early Child 3 Credits**

**Grading Scheme:** S/U

**EEX 4905 Individual Study 1-6 Credits**

**Grading Scheme:** Letter Grade

In-depth study of a problem that relates to preparation as a special education teacher. The project must be approved and supervised by department faculty. (WR)

**Prerequisite:** undergraduates only.

**Attributes:** Satisfies 6000 Words of Writing Requirement

**EPD 4033 Child Youth Mult Disa 1-3 Credits**

**Grading Scheme:** Letter Grade

**LIN 3710 Language Acquisition 3 Credits**

**Grading Scheme:** Letter Grade

Child language development and use as it influences classroom practice and literacy development. Study of oral language development of children from birth through age eight.

**Prerequisite:** junior/senior-level EMR in Unified Early Childhood Education.

**SLS 1510 Developing Academic Skills 2 Credits**

**Grading Scheme:** Letter Grade

Equips students with the tools that enable them to become independent learners with focus on testing and study skills, library research, and organized composition skills; introduces analytical thinking.

**SPS 3004 Psychology in the Schools 3 Credits**

**Grading Scheme:** Letter Grade

This course introduces undergraduate students to the practice and profession of school psychology. The foundations of school psychology practice are explored including, assessment and intervention in academic, social, emotional, and behavioral domains. The course emphasizes school psychologists' promotion of social justice and equity for all students in school settings.

**Prerequisite:** PSY 2012 or SYG 2000 or EDF1005 or EDF 3110 or EEX 3093 and junior standing or higher.

## Courses

### ARE 4940 Student Teaching in Art Education 4-12 Credits

**Grading Scheme:** S/U

Student-teaching classroom experience in art.

**Prerequisite:** minimum 2.5 GPA and art education major.

### EDE 3941 Clinical Rotations Across Diverse Elementary School Contexts 2 Credits

**Grading Scheme:** Letter Grade

Engage in clinical rotations across diverse elementary school contexts and participate in seminars with university supervisors. Students will apply, extend, and reflect on the concepts, questions, theories, and models studied in university-based teacher preparation courses.

**Prerequisite:** Elementary Education major.

### EDE 4905 Individual Study 1-3 Credits

**Grading Scheme:** Letter Grade

In-depth study of a problem that relates to teacher preparation. The project must be approved and supervised by a department faculty member.

### EDE 4940 Internship in Elementary Education 1-6 Credits

**Grading Scheme:** S/U

Teacher candidates will gain competence in the planning for, teaching, and assessment of diverse students in school settings. Candidates collaborate with a mentor teacher to practice using various models of co-teaching and a variety of equity pedagogy instructional strategies to support the learning of all students.

**Prerequisite:** Elementary Education major.

### EDE 4942 Integrated Teaching in Elementary Education 2 Credits

**Grading Scheme:** S/U

This field component is an intensive experience completed during the integrated semester in language arts and social studies in the inclusive classrooms. (S-U)

**Prerequisite:** EEX 3070;

**Corequisite:** EEX 4905

### EDF 1005 Introduction to Education 3 Credits

**Grading Scheme:** Letter Grade

Overview of education, teaching and schools; a survey of historical, philosophical and social foundations; and an orientation to professional education and the code of ethics. Thirty hours of field experience is required. This is the first of three prerequisite core courses for those who plan to be teachers.

EDF 2085 and EME 2040 continue the sequence.

**EDF 3083 International and Comparative Education 3 Credits**

**Grading Scheme:** Letter Grade

Examines the political, economic, and cultural contexts of schooling in various parts of the world; introduces theoretical perspectives and comparative methods for interpreting the significance of educational policies and practices in light of globalization.

**Prerequisite:** EDF 3604.

**EDF 3514 History of Education in the United States 3 Credits**

**Grading Scheme:** Letter Grade

The development of American schools and major problems in American education; emphasizes the relationships among the schools, intellectual movements and social institutions. (H)

**Attributes:** General Education - Humanities

**EDF 3604 Social Foundations of Education 3 Credits**

**Grading Scheme:** Letter Grade

Educative effects of social structures and social values and the issues involved in appraising these effects, including the resulting social demands upon schools.

**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**EDF 3609 Sociological and Historical Foundations of Education 3 Credits**

**Grading Scheme:** Letter Grade

A sociological and historical analysis of schooling in American society. Aims of education are examined in relation to social structures, institutions and values; subcultures; social stratification; school law; and democracy and the sociology of the teaching profession.

**Prerequisite:** junior standing or higher or department permission.

**EDF 4633 Anti-Black Racism in Education 3 Credits**

**Grading Scheme:** Letter Grade

Engage in the active process of identifying and eliminating racism in educational spaces by changing systems, organizational structures, policies and practices, and attitudes by using an antiracist approach. Through antiracist readings and strategies, learn to interrogate and dismantle racism, white supremacy, power, and privilege within educational institutions, classrooms, and teaching practices.

**Prerequisite:** EDF 3604.

**EDF 4930 Schools on Screen: American Education in Popular Media 3 Credits**

**Grading Scheme:** Letter Grade

Explores how the movies and television have portrayed educators and students over time; investigates the ways in which those representations have helped to shape popular impressions of American schooling.

**Prerequisite:** EDF 3604.

**EDG 2021 Critical Issues in Education 1 Credit**

**Grading Scheme:** Letter Grade

Explores the broad field of education in a variety of traditional and nontraditional contexts. Introduces enduring issues in educational systems in the US and examines organizations and career fields focused on addressing these issues.

**EDG 3343 Equity Pedagogy Instructional Strategies 3 Credits**

**Grading Scheme:** Letter Grade

An overview of how to plan instruction using Universal Design for Learning and Culturally and Linguistically Sustaining Pedagogy. These foundational approaches to instruction will help future teachers focus on the strengths of learners who come from diverse backgrounds, particularly those with a range of abilities, as they design learning environments to meet students' needs.

**Prerequisite:** Elementary Education major.

**EDG 3623 Equity Pedagogy Foundations 3 Credits**

**Grading Scheme:** Letter Grade

Explores the foundational concepts of race, class, ability, and sexuality as they impact schools and the children served in them. Students will examine the ways their own history and experiences have shaped their view of schools, schooling, and the children they will teach throughout their careers as educators.

**Prerequisite:** Elementary Education major.

**EDG 4003 Global Issues in K-12 Education 3 Credits**

**Grading Scheme:** Letter Grade

Overview of current global issues and strategies for incorporating them into the K-college curriculum.

**EDG 4048 Studying Equity Pedagogy 3 Credits**

**Grading Scheme:** Letter Grade

Teacher candidates will engage in the process of teacher inquiry as they focus on becoming an antiracist teacher and cultivating skills to advocate for themselves, their students, and the profession of teaching.

**Prerequisite:** Elementary Education major.

**EDG 4078 Experiential Learning in Education 3 Credits****Grading Scheme:** S/U

Provides an opportunity to engage in experiential learning, as demonstrated by service learning, internship, undergraduate research, study abroad, school or industry liaison projects, or other projects approved by the instructor. Requires 150 hours in an approved experience.

**Prerequisite:** EDG 2021.**EDG 4203 Elementary and Secondary Curriculum 3 Credits****Grading Scheme:** Letter Grade

Purposes, organization, curriculum and issues of elementary and secondary schools and roles of educators.

**EDG 4442 Rethinking Discipline and Classroom Management 3 Credits****Grading Scheme:** Letter Grade

Exploring classroom management as it currently exists in schools, developing the skills to work within this system while simultaneously challenging and disrupting common practices that have adversely affected many school children including Black and Brown students, students whose first language is not English, immigrant students, students with ability differences, LGBTQ students, and students who live in poverty.

**Prerequisite:** Elementary Education major.**EDG 4703 Equity Pedagogy Applications 3 Credits****Grading Scheme:** Letter Grade

The application of pedagogical frameworks (Universal Design for Learning and Culturally and Linguistically Sustaining Pedagogy) in the implementation and assessment of instruction in the elementary classroom. Teacher candidates will examine minoritized identities (i.e., race, ability, gender and sexuality, etc.) and the ways these identities intersect with one another to impact how children experience schools and schooling.

**Prerequisite:** Elementary Education major.**EDG 4905 Individual Study 1-6 Credits****Grading Scheme:** Letter Grade

Individual Study

**EDG 4910 Education Undergraduate Research 0-3 Credits****Grading Scheme:** S/U

Supports mentored scholarship work that enables individual students to engage in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery or application depending on the topic. (S-U)

**EDG 4930 Special Topics 1-4 Credits****Grading Scheme:** Letter Grade

Topics vary.

**EDG 4931 Senior Seminar Education Sciences 2 Credits****Grading Scheme:** Letter Grade

Capstone course in the Education Sciences major for students to reflect on their Experiential Learning placement and the entire degree program to identify professional competencies to address critical issues in education and explore career services as they prepare for jobs and/or graduate school.

**Prerequisite:** EDG 2021.**EME 2040 Introduction to Educational Technology 3 Credits****Grading Scheme:** Letter Grade

Introduces computer productivity (word processing, databases, spreadsheets, painting, drawing, layouts); multimedia (media design, digital video, presentation); communications (internet, Eric); educational software (computer-aided instruction, public domain software); interactive media (linked environments, one-to-many, presentations using electronic tools); reference materials (electronic encyclopedia, atlases, clip art, libraries, internet); instructional applications (techniques); and ethical.

**EME 3044 Issues and Trends in Educational Technology 3 Credits****Grading Scheme:** Letter Grade

Introduces the field of educational technology and its history and allows an exploration of current topics and trends in educational technology research and application.

**Prerequisite:** EME 2040.**EME 3319 Design and Development of Educational Multimedia 3 Credits****Grading Scheme:** Letter Grade

Introduces the principles, methods, and tools for the design and development of multimedia applications, including incorporation of sound, animation, still images, video, and other media in educational technology.

**Prerequisite:** EME 2040.**EME 3813 Technology-Enhanced Learning Environments 3 Credits****Grading Scheme:** Letter Grade

Analyzes how people learn in technology-enhanced environments, outlines how the design of technology-enhanced systems can support or undermine learning, and considers critical issues for instructors, designers, and learners in the digital age.

**Prerequisite:** EME 2040.

**EME 4010 Distance Education Research and Practice 3 Credits**

**Grading Scheme:** Letter Grade

Examines the concepts, technologies, and issues related to the analysis, design, development, implementation, policy-making, and evaluation of distance education courses and programs. Create an online module based on design principles and quality guidelines.

**Prerequisite:** EME 2040.

**EME 4320 Instructional Development for Teaching and Learning 3 Credits**

**Grading Scheme:** Letter Grade

Design and develop instructional materials using emerging technologies. Topics include programming, authoring packages, design principles, and development procedures. Development includes web-based and mobile-based authoring and programming activities.

**Prerequisite:** EME 4673.

**EME 4401 Integrating Technology in the Elementary Curriculum 3 Credits**

**Grading Scheme:** Letter Grade

Prepares elementary majors to effectively use technology in teaching and learning.

**Prerequisite:** Admission to Elementary Education or Education Sciences degree programs.

**EME 4406 Integrating Technology into the Secondary Curriculum 3 Credits**

**Grading Scheme:** Letter Grade

Gain experience with curriculum design and course development, which assumes use of technology.

**EME 4673 Introduction to Instructional Design 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the processes, methods, and techniques involved with systematic design on instruction. Topics include needs assessment, goal analysis, learner and context analysis, performance objectives, assessment instruments, instructional strategies, development procedures, formative and summative evaluation.

**Prerequisite:** EME 2040.

**ESE 4340C Effective Teaching and Classroom Management in Secondary Education 3 Credits**

**Grading Scheme:** Letter Grade

Basic strategies for curriculum planning, instruction, classroom organization and student behavior management.

**ESE 4905 Individual Study 1-4 Credits**

**Grading Scheme:** Letter Grade

In-depth study of a problem that relates to preparation as secondary education teachers. The project must be approved and supervised by a department faculty member.

**LAE 3005 Children's Literature 3 Credits**

**Grading Scheme:** Letter Grade

Introduces genres of children's literature, critical response theory, strategies for critically evaluating books for instructional and aesthetic purposes, and strategies for generating personal, critical and aesthetic responses to literature from diverse and inclusive student populations.

**LAE 4314 Language Arts for Diverse Learners 3 Credits**

**Grading Scheme:** Letter Grade

Analysis of content, materials, and methods for teaching language arts in an inclusive elementary school classroom.

**Prerequisite:** Admission to the Elementary Education major.

**LAE 4604 Language Arts for Diverse Learners in Early Education 3 Credits**

**Grading Scheme:** Letter Grade

Focuses on the early developmental levels of writing and different definitions of writing, including writing as composing, writing as spelling/encoding and writing as handwriting. Addresses instructional strategies appropriate for teaching young children to write and explores instructional approaches from different theoretical perspectives.

**Prerequisite:** RED 3309.

**MAE 2364 Explorations Teaching Secondary Mathematics and Science 3 Credits**

**Grading Scheme:** Letter Grade

Introduces prospective teachers to teaching secondary mathematics and science (grades 6-12).

**MAE 3312 Mathematics Content for Elementary Teachers 3 Credits**

**Grading Scheme:** Letter Grade

Analysis of the content and methods necessary to effectively teach content from the number, algebra, and geometry strands of mathematics in the inclusive elementary classroom. Provides pre-service teachers with the underlying content and pedagogical content knowledge necessary to effectively teach mathematics.

**Prerequisite:** Elementary Education major.

**MAE 4310 Teaching Mathematics in the Inclusive Elementary School 3 Credits****Grading Scheme:** Letter Grade

Analyzes content, materials and methods of teaching mathematics in the inclusive elementary classroom. Prepares the future teacher of mathematics for facilitation of instruction to meet the needs of all children, including children with disabilities.

**Prerequisite:** Admission to the Elementary Education major.**MAE 4310L Teaching Elementary Mathematics Lab 1 Credit****Grading Scheme:** Letter Grade

An inquiry-based math lab to accompany MAE4310. Focused on hands-on activities related to foundational concepts in elementary mathematics, with an emphasis on family/community experiences, equity and social justice issues, and relationships to science, technology, engineering, and/or the arts.

**Prerequisite:** Elementary Education Major;**Corequisite:** MAE 4310.**MUE 4940 Student Teaching in Music Education 9-10 Credits****Grading Scheme:** S/U

Student teaching in selected classrooms of public schools. Special seminars and continuous evaluation of teaching experiences. (S-U)

**Prerequisite:** Music major.**RED 3210 Teaching Word Identification and Fluency in Elementary Reading 3 Credits****Grading Scheme:** Letter Grade

Examine theory and practice for teaching reading in the elementary grades, K-6. Emphasis is on the word recognition and fluency strand within reading development. The purpose of this course is to provide students with theoretical and practical knowledge and experiences to build literacy teaching skills for elementary school.

**Prerequisite:** admission to Elementary Education program.**RED 3211 Teaching Language and Meaning Construction in Elementary Reading 3 Credits****Grading Scheme:** Letter Grade

Examine theory and practice for teaching reading in the elementary grades, K-6. Emphasis is on the language and comprehension strand within reading development. The purpose of this course is to provide students with theoretical and practical knowledge and experiences to build literacy teaching skills for elementary school.

**Prerequisite:** admission to the Elementary Education program.**RED 3307 Teaching Reading in Primary Grades 3 Credits****Grading Scheme:** Letter Grade

Studies constructivist theory of how children learn and the sociopsycholinguistic theory of language learning. Focuses on how children construct knowledge about and learn to use written language.

**RED 3309 Emergent Literacy and Beginning Reading Instruction 3 Credits****Grading Scheme:** Letter Grade

Provides students with knowledge to support emergent literacy in young children and teaching beginning reading in the early primary grades. Designed to provide students with theoretical and practical knowledge and experiences that prepare them to teach in a variety of applicable educational settings.

**Prerequisite:** LIN 3710.**RED 3312 Content Area Literacy 3 Credits****Grading Scheme:** Letter Grade

Studies the fundamental knowledge necessary to teach basic reading skills in the elementary school classroom.

**RED 4324 Reading in the Intermediate Grades 3 Credits****Grading Scheme:** Letter Grade

Theory and practice for teaching reading in grades 3-6; develop expertise in literacy strategy and instruction in the classroom. Instruction is always embedded in the context of current educational policies. Become familiar with current research on reading, recent educational policy development, and issues of teaching in a diverse society.

**Prerequisite:** Formal admission to the upper division Unified Elementary ProTeach program.**RED 4844 Practicum in Reading 2 Credits****Grading Scheme:** Letter Grade

Demonstrate knowledge and skill in implementing evidence-based instructional practices in reading in a field placement. Students will collect and analyze assessment data, plan instruction based on information from data, implement effective instruction, and monitor students' progress.

**Prerequisite:** RED 3307.**SCE 4113L Elementary Science Content 3 Credits****Grading Scheme:** Letter Grade

Overview of integrated science content essential for developing K-6 science curriculum. The course includes science-specific pedagogy and translation of the science content knowledge into grade specific activities aligned with the national science content standards for K-12 and the Next Generation Sunshine State Standards.

**Prerequisite:** Elementary education majors

**SCE 4310 Elementary Science Methods for the Inclusive Classroom 3 Credits**

**Grading Scheme:** Letter Grade

Materials and methodology related to teaching the concepts and processes of science. Prepares pre-service teachers to teach science concepts and processes to all children, including those with disabilities.

**Prerequisite:** Admission to the Elementary Education major.

**SCE 4310L Elementary Science Methods Lab 1 Credit**

**Grading Scheme:** Letter Grade

An inquiry-based science lab to accompany SCE4310. Focused on learning lab procedures and safety practices, conducting scientific investigations, and deepening understanding of core science concepts required to teach science to elementary children.

**Prerequisite:** Elementary Education major;

**Corequisite:** SCE 4310.

**SMT 3100 Knowing and Learning in Mathematics and Science Teaching 3 Credits**

**Grading Scheme:** Letter Grade

Investigates theories of knowing and learning in mathematics and science and implications for teaching secondary mathematics and science. (S)

**Prerequisite:** sophomore standing or higher.

**Attributes:** General Education - Social Science

**SMT 3301C Classroom Interactions in Mathematics and Science Education 3 Credits**

**Grading Scheme:** Letter Grade

Overview of principles for teaching middle and secondary school mathematics or science through an exploration of the role of content, pedagogy, curriculum and technology as they promote learning and impact equity.

**Prerequisite:** MAE 2364 and SMT 3100 with minimum grades of C.

**SMT 3664 Project-Based Instruction in Math and Science Education 3 Credits**

**Grading Scheme:** Letter Grade

Overview of project-based instruction as an investigative and collaborative teaching approach in mathematics and science education.

**Prerequisite:** MAE 2364;

**Corequisite:** SMT 3100

**SMT 4104 Informal STEM Practice 3 Credits**

**Grading Scheme:** Letter Grade

This course is for students who are interested in learning about informal STEM education, including that practiced at museums, science centers, aquaria, zoos, and parks. The online portion will involve weekly lectures, readings, and discussions. The internship may occur at any approved physical or virtual venue of the student's choosing.

**Prerequisite:** SMT 3100.

**SMT 4940 Research Internship in STEM Education 3 Credits**

**Grading Scheme:** Letter Grade

This course is designed for advanced undergraduate students who are interested in gaining experience in STEM educational research. The course consists of a seminar and an internship. The seminar will involve weekly readings, learning activities and discussions. The course also includes an internship that is sponsored by a faculty member.

**Prerequisite:** Junior standing.

**SMT 4945 Apprenticeship in Secondary Mathematics and Science Teaching 4-6 Credits**

**Grading Scheme:** Letter Grade

UFTeach capstone experience which applies previously learned techniques and theoretical perspectives of mathematics or science education within a secondary school classroom setting.

**Prerequisite:** MAE 2364 AND SMT 3100.

**SSE 4312 Social Studies for Diverse Learners 3 Credits**

**Grading Scheme:** Letter Grade

Studies goals, methods and evaluation procedures for social studies curriculum in elementary schools (K - 6).

**TSL 3323 ESOL and Reading for Teachers 3 Credits**

**Grading Scheme:** Letter Grade

Develop an understanding of literacy teaching and learning, with a dual focus on native speakers of English and English language learners; focuses on methods and materials used to support the development of proficient and critical adolescent readers in academic content areas.

**TSL 3520 ESOL Foundations: Language and Culture in Classrooms 3 Credits**

**Grading Scheme:** Letter Grade

Examines issues of language and culture relevant to school-age learners of English as a Second Language (ESOL).

**TSL 4100 ESOL Curriculum, Methods and Assessment 3 Credits****Grading Scheme:** Letter Grade

Extends the understanding of ways that language and culture affect second-language learners' participation and learning in elementary classrooms. Create appropriate and challenging curriculum content, materials and assessments to create meaningful and equitable learning environments for native English speakers and second-language learners.

**Prerequisite:** TSL 3520.**TSL 4324 ESOL Strategies for Content Area Teachers 3 Credits****Grading Scheme:** Letter Grade

Overview of the issues relevant to ESOL learners and develops the skills to teach ESOL students in content area classes.

---

## Electrical and Computer Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

Electrical engineers study electricity and design electrical systems that solve problems—how to make your smartphones smarter; how to make your refrigerator run more efficiently; coming up with the optimal temperature to heat pizza in your microwave; designing the audio and visual technology that brings movies to life.

**Curriculum**

- Combination Degrees
- Computer Engineering
- Electrical Engineering
- Electrical Engineering Minor

---

Although not specifically stated in each course description, the prerequisites for all courses, except those required by other departments, may include classification as an electrical engineering student in good standing. In order to use a course as a prerequisite for an EEE/EEL-prefixed course, a minimum grade of C is required in the prerequisite course.

## Courses

**CEN 3907C Computer Engineering Design 1 3 Credits****Grading Scheme:** Letter Grade

Reinforce basic computer engineering skills; design, produce, and report on a computer engineering project, meeting defined specifications and using a structured design methodology and project management.

**Prerequisite:** CEN 3031 and EEL 3744C with minimum grades of C.

**Corequisite:** COP 4600

**CEN 3908C Computer Engineering Design 2 3 Credits****Grading Scheme:** Letter Grade

Selected capstone design projects involving engineering applications in the various areas of computer engineering. Must be taken prior to the semester of graduation.

**Prerequisite:** CEN 3907C with minimum grade of C and senior standing.

**EEE 3308C Electronic Circuits 1 4 Credits**

**Grading Scheme:** Letter Grade

Fundamentals of electronic circuits and systems. Laboratory.

**Prerequisite:** EEL 3111C with minimum grade of C.

**EEE 3396 Solid-State Electronic Devices 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the principles of semiconductor electron device operation. Laboratory.

**Prerequisite:** EEL 3008.

**EEE 3773 Introduction to Machine Learning 4 Credits**

**Grading Scheme:** Letter Grade

Covers introductory topics in pattern recognition and machine learning and use of these methods towards a variety of real world applications. The focus of this course is to be introduced to basic machine learning concepts and how to use associated state-of-the-art machine learning tools.

**Prerequisite:** EEL 3135.

**EEE 4210 Introduction to Biophotonics 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the principles of optics, lasers and biology, the interaction of light with cells and tissues, and various optical imaging, sensing and activation techniques and their applications in biomedicine.

**Prerequisite:** EEL 3003 or EEL 3111C with minimum grade of C.

**EEE 4222 Resonant MEMS 3 Credits**

**Grading Scheme:** Letter Grade

Fundamentals of resonant micro-electro-mechanical systems (resonant MEMS) and their applications.

**Prerequisite:** EEE 3396C with a minimum grade of C or instructor permission.

**EEE 4260 Bioelectrical Systems 3 Credits**

**Grading Scheme:** Letter Grade

Covers the theoretical and quantitative perspective of bioelectrical signals reflecting the activity of the brain, the muscles, and the heart. Examines bases of modeling, measuring, processing and analyzing bioelectrical signals and systems, as well as common clinical applications. Laboratory.

**EEE 4306 Electronic Circuits 2 3 Credits**

**Grading Scheme:** Letter Grade

Design-oriented continuation of EEE 3308C; feedback, op amp circuits and applications, digital electronics.

**Prerequisite:** EEE 3308C and EEL 3008 and EEL 3112 with minimum grades of C.

**EEE 4310 VLSI Circuits and Technology 1 3 Credits**

**Grading Scheme:** Letter Grade

Introduction to VLSI circuit technology and manufacturing. Fabrication, device models, layout, parasitics, and simple gate circuits.

**Prerequisite:** EEE 3308C and EEL 3701C.

**EEE 4329 Future of Microelectronics Technology 3 Credits**

**Grading Scheme:** Letter Grade

Surveys state-of-the-art microelectronics technology and prospects for future technologies. Topics include nanoscale MOSFETs, strained Si, high-k gate dielectrics, carbon nanotubes, molecular electronics and single-electron devices.

**Prerequisite:** EEE 3396C or equivalent.

**EEE 4331 Microelectronic Fabrication Technologies 3 Credits**

**Grading Scheme:** Letter Grade

Principles of microelectronic device fabrication. Emphasis on the fundamentals of microfabrication processing and microelectronic device process flows.

**Prerequisite:** EEE 3396C.

**EEE 4373 Radio Frequency Integrated Circuits 1 3 Credits**

**Grading Scheme:** Letter Grade

Fundamental RF theory (such as resonant circuits, matching, noise and transmission lines), radio operation and design of key RF circuit blocks (such as amplifiers, mixers, and oscillators).

**Prerequisite:** EEE 3308C.

**EEE 4404 Mixed Signal IC Testing I 3 Credits**

**Grading Scheme:** Letter Grade

Fundamentals of testing IC devices and systems: test specifications, parametric training, measurement accuracy, test hardware, sampling theory, digital signal processing based testing, and calibrations. Circuit analysis and design with analog and mixed-signal systems. Labs on testing passive components, LDOs, Op-amps, DACS/ADCs, Mixed-Signal ICs Labview and the National Instruments Savage Tester.

**Prerequisite:** EEE 3308C and EEL 3701C with minimum grades of C.

**EEE 4414 Modern Memory Device Technologies 3 Credits****Grading Scheme:** Letter Grade

State-of-the-art volatile and nonvolatile memory device technologies and their limitations. Emerging memory device technologies, including those that could be adopted by industry in the next decades due to their potential performance, density, power and cost advantages.

**Prerequisite:** EEE 3396C**EEE 4420 Introduction to Nanodevices 3 Credits****Grading Scheme:** Letter Grade

Physical principles of modern solid-state devices and their applications, quantum mechanics and fundamentals of nanoelectronics.

**Prerequisite:** EEE 3396C.**EEE 4511C Real Time Digital Signal Processing Applications 4 Credits****Grading Scheme:** Letter Grade

Real world digital signal processing (DSP) tasks are presented and solved in a lab environment that utilizes a Floating Point DSP and a development simulation and hardware emulation tool. Laboratory.

**Prerequisite:** EEL 3135 and EEL 3744C.**EEE 4701 Automated Hardware/Software Verification 3 Credits****Grading Scheme:** Letter Grade

Develop modeling, formal specification, and automated verification skills for analyzing complex hardware and/Or software systems. Hands-on experience with model checking tools.

**Prerequisite:** EEL 3744C or equivalent and COP 3530 or equivalent.**EEE 4714 Introduction to Hardware Security and Trust 3 Credits****Grading Scheme:** Letter Grade

Fundamentals of hardware security and trust for integrated circuits. Cryptographic hardware, invasive and non-invasive attacks, side-channel attacks, physically unclonable functions (PUFs), true random number generation (TRNG), watermarking of Intellectual Property (IP) blocks, FPGA security, counterfeit detection, hardware Trojan detection, and prevention in IP cores and integrated circuits.

**Prerequisite:** EEL 4712C with minimum grade of C.**EEE 4720 Acoustics 3 Credits****Grading Scheme:** Letter Grade

Governing equations for wave theory of sound; Character of plane acoustic waves and 3-D acoustic fields; Sound transmission/reflection at an interface between two media; Waves transmission/attenuation inducts; Low frequency approximations (lumped-element modeling) and transducers; sources of sound.

**Prerequisite:** MAP 2302 and (EEL 3111C or EEL 3003) with minimum grades of C or instructor permission.**EEE 4740 Physical Attacks and Inspection of Electronics 3 Credits****Grading Scheme:** Letter Grade

Focuses on the physical inspections, physical attacks, reverse engineering, counterfeit detection, etc. of electronics from the device to system level using advanced microscopy, failure analysis techniques combined with image analysis and machine learning. In additions, students will also learn about the associated countermeasures.

**Prerequisite:** EEL3112 with a minimum grade of C.**EEE 4773 Fundamentals of Machine Learning 3 Credits****Grading Scheme:** Letter Grade

Overview of machine intelligence and the role of machine learning in a variety of real-world problems. Probability and statistics to handle uncertain data. Topics covered include: learning models from data in both a supervised and unsupervised fashion, linear models and non- linear models for classification, and linear dimensionality reduction.

**Prerequisite:** EEL 3135 and EEL 3850 with minimum grades of C.**EEE 4800 Neural Signals, Systems, and Technology 3 Credits****Grading Scheme:** Letter Grade

Biophysical principles of neural signaling; characterization of neural circuits and systems; technology design principles for interfacing with biological neural systems; overview of clinical and consumer applications for neurotechnology and artificial intelligence.

**Prerequisite:** EEL 3850 with a minimum grade of C.**EEL 3000 Introduction to Electrical Engineering 2 Credits****Grading Scheme:** Letter Grade

Introduces the profession of electrical engineering. Presents career development and enhancement, professional codes of conduct, ethics, entrepreneurship, intellectual property, professional societies. Projects provide hands-on experience with soldering, MATLAB programming, and microcontrollers.

**Prerequisite:** MAC 2311 with minimum grade of C or appropriate AP/IB score and Electrical Engineering majors only.**EEL 3008 Physics of Electrical Engineering 3 Credits****Grading Scheme:** Letter Grade

Introduces the fundamental physics underlying components and devices and their application to electronics, power, and wireless.

**Prerequisite:** EEL 3111C and MAC 2313 and MAP 2302.

**EEL 3111C Circuits 1 4 Credits**

**Grading Scheme:** Letter Grade

Basic analysis of DC and AC electric circuits. Laboratory.

**Prerequisite:** MAC 2312 and PHY 2049.

**EEL 3112 Circuits 2 3 Credits**

**Grading Scheme:** Letter Grade

Continuous-time signals and linear systems: Fourier series and transforms, frequency, response, Laplace transform and system function, analog filters; emphasis on electrical circuits. Sampling.

**Prerequisite:** EEL 3000 and EEL 3111C and EEL 3135 and EGN 2020C and MAP 2302, all with minimum grades of C.

**EEL 3135 Introduction to Signals and Systems 4 Credits**

**Grading Scheme:** Letter Grade

Continuous-time and discrete-time signal analysis including Fourier series and discrete-time and discrete Fourier transforms; sampling; discrete-time linear system analysis with emphasis on FIR and IIR systems: impulse response, frequency response, and system function; MATLAB-based programming for Signals and Systems.

**Prerequisite:** MAC 2313 and (EEL 3834 or COP 3503Cor COP 3504C or COP 2274) all with minimum grades of C.

**EEL 3211C Basic Electric Energy Engineering 4 Credits**

**Grading Scheme:** Letter Grade

Analysis and modeling of power system components. Magnetic circuits, energy conservation, transformers, and AC and DC rotating machines. Laboratory.

**Prerequisite:** EEL 3008.

**EEL 3402 Remote Sensing in Engineering: Science, Sensors and Applications 3 Credits**

**Grading Scheme:** Letter Grade

Remote sensing theory, systems and applications using information obtained from the visible/near infrared, thermal infrared and microwave regions of the EM spectrum.

**Prerequisite:** MAP 2302 or equivalent.

**EEL 3472 Fundamentals of Electromagnetic Fields 3 Credits**

**Grading Scheme:** Letter Grade

Transmission lines, vector analysis, electrostatics, magnetostatics, time-varying fields, plane waves.

**Prerequisite:** EEL 3008.

**EEL 3701C Digital Logic and Computer Systems 4 Credits**

**Grading Scheme:** Letter Grade

Overview of logic design, algorithms, computer organization and assembly language programming and computer engineering technology. Laboratory.

**Prerequisite:** Knowledge of a programming language.

**EEL 3834 Programming for Electrical Engineering 1 3 Credits**

**Grading Scheme:** Letter Grade

Develops computer skills and the art of writing sound computer programs using examples and exercises relevant to electrical and computer engineering.

**EEL 3850 Data Science for ECE 4 Credits**

**Grading Scheme:** Letter Grade

Analysis, processing, simulation, and reasoning of data. Includes data conditioning and plotting, linear algebra, statistical methods, probability, simulation, and experimental design.

**Prerequisite:** MAC 2312 and (EEL 3834 or COP 3503 or COP 3504C or COP 2274), all with minimum grades of C.

**EEL 3923C Electrical Engineering Design 1 3 Credits**

**Grading Scheme:** Letter Grade

Teams design, produce, and report on a hardware prototype, meeting defined specifications and using a structured design methodology. Includes project management, hardware prototyping, and project reporting.

**Prerequisite:** (EEE 3308C and EEL 3112 and EEL 3701C with minimum grades of C) and 2 courses from breadth elective list.

**EEL 4242C Power Electronic Circuits 3 Credits**

**Grading Scheme:** Letter Grade

Circuit topologies, analysis, design and simulation of electronic circuits such as power supplies, and motor drives.

**Prerequisite:** EEL 3308.

**EEL 4248 Fundamentals of RF and Power Electronic Devices 3 Credits**

**Grading Scheme:** Letter Grade

Introduces important semiconductor device technologies for high speed electronics, power electronics, and energy harvesting applications.

**Prerequisite:** EEE 3396C.

**EEL 4251 Power System Analysis 3 Credits**

**Grading Scheme:** Letter Grade

Development of power system equivalents by phase network analysis, load flow, symmetrical components, sequence networks, and fault analysis.

**Prerequisite:** EEL 3211C.

**EEL 4271 Power System Protection 3 Credits**

**Grading Scheme:** Letter Grade

Power systems protection analytical methodologies and algorithms. Analyzes different methods for equipment and systems protection and discusses wide-area monitoring techniques, which allow real-time operation and control. Introduces cyber-physical security approaches for the smart grid and realizes numerical construction of protection methods considering realistic engineering hypothesis.

**Prerequisite:** EEL 4251 or instructor permission.

**EEL 4287 Smart Grid for Sustainable Energy 3 Credits**

**Grading Scheme:** Letter Grade

Survey of power grid operations and markets for students with interest in power systems and/or sustainable energy. Characteristics of traditional and new energy resources; how resources impact the grid; control on many time-scales; how the power grid and power markets of tomorrow will differ from those of today.

**Prerequisite:** EEL 4657C.

**EEL 4403 Computational Photography 3 Credits**

**Grading Scheme:** Letter Grade

Fundamentals of computational photography, sensing, imaging and illumination.

**Prerequisite:** EEL 3135 with a minimum grade of C.

**EEL 4412 Applied Magnetism and Magnetic Materials 3 Credits**

**Grading Scheme:** Letter Grade

Introduces magnetism, magnetic materials, and magnetic devices; offers a balance of theory and application from an applied engineering perspective.

**Prerequisite:** EEL 3008 or instructor permission.

**EEL 4421 RF/Microwave Passive Circuits 3 Credits**

**Grading Scheme:** Letter Grade

Radio frequency (RF)/microwave passive components and circuits such as transmission lines, waveguides, couplers, filters, and resonators.

**Prerequisite:** EEL 3472C with a minimum grade of C.

**EEL 4440 Optical Communication Systems 3 Credits**

**Grading Scheme:** Letter Grade

Introduces electromagnetic waves, dielectric waveguides and fibers, propagation characteristics of fibers, characterization methods, LEDs and laser diodes, photodetector optical receivers and communication systems.

**Prerequisite:** EEL 3396C and EEL 3472C.

**EEL 4446 Laser Theory and Design 3 Credits**

**Grading Scheme:** Letter Grade

Studies the field of semiconductor optoelectronics and the physics of optoelectronic devices including the interaction of photons with electrons and holes in a semiconductor leading to the realization of optoelectronic devices such as photon amplifiers, LEDs, diode lasers, electro-absorption modulators, and detectors, including their design and application-specific characteristics.

**Prerequisite:** EEL 3008 or instructor permission.

**EEL 4458 Fundamentals of Photonics 3 Credits**

**Grading Scheme:** Letter Grade

Reviews electromagnetic fields and waves, energy bands in semiconductors, p-n junctions and optical properties of semiconductors. Fundamentals of optical modulators and waveguides and photonic applications.

**Prerequisite:** EEL 3472C and EEL 3396C.

**EEL 4461 Antenna Systems 3 Credits**

**Grading Scheme:** Letter Grade

Electromagnetic field theory and its application to antenna design.

**Prerequisite:** EEL 3472C.

**EEL 4473 Electromagnetic Fields and Applications 3 Credits**

**Grading Scheme:** Letter Grade

Rigorously develops the properties of electric and magnetic fields. Maxwell's Equations form the foundation for understanding the fundamental nature and application-driven aspect of static and dynamic fields and their derivation from scalar and vector potentials. Fields in media is examined along with energy considerations and propagation effects.

**Prerequisite:** EEL 3472C.

**EEL 4495 Lightning 3 Credits**

**Grading Scheme:** Letter Grade

Introduces lightning discharge processes. Electromagnetics relevant to lightning measurements. Applications for determining lightning charge, current, location and characteristics. Lightning protection.

**Prerequisite:** EEL 3472C.

**EEL 4514C Communication Systems and Components 4 Credits**

**Grading Scheme:** Letter Grade

Theory of communication and applications to radio, television, telephone, satellite, cellular telephone, spread spectrum and computer communication systems. Laboratory.

**Prerequisite:** EEL 3112 (with minimum grade of C) and EEL 3850 (with minimum grade of C).

**EEL 4516 Noise in Devices and Communication Systems 3 Credits**

**Grading Scheme:** Letter Grade

Origin, characterization and measurement of random noise. Calculation of signal-to-noise ratios and probability of errors in communication systems.

**Corequisite:** EEL 4514C.

**EEL 4523 Audio Engineering 3 Credits**

**Grading Scheme:** Letter Grade

Introduces audio and sound engineering that includes the underlying theory of acoustics, electronics and signal processing; demonstrates modern audio engineering practice as applied to music, home audio, recording and sound reinforcement.

**Prerequisite:** EEL 3111C or EEL 3003, or instructor permission.

**EEL 4540 Introduction to Radar 3 Credits**

**Grading Scheme:** Letter Grade

Basic principles of cw and pulsed radar; angle, range, and Doppler tracking; accuracy and resolution; signal design.

**Prerequisite:** EEL 4514C.

**EEL 4598 Computer Communications 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the principles and practice of computer networking, emphasizing data communication, and the lower layers of the OSI and TCP/IP protocol architectures.

**Prerequisite:** (EEL 3834 or COP 3503C or COP 3504C or COP 2274 or equivalent), all with minimum grades C and junior standing or higher.

**EEL 4599 Wireless and Mobile Networks 3 Credits**

**Grading Scheme:** Letter Grade

Senior-level study of wireless and mobile networks. Investigates telecommunication architectures and protocols for wireless sensor networks and wireless embedded systems; Wi-Fi and wireless local area networks; mobile ad-hoc networks; next generation cellular systems and satellite networks.

**Prerequisite:** EEL 3701C.

**EEL 4610 State Variable Methods in Linear Systems 3 Credits**

**Grading Scheme:** Letter Grade

Development of state-variable approach to linear continuous-time and discrete-time systems with emphasis on the design of feedback control systems.

**Prerequisite:** EEL 4657C.

**EEL 4657C Linear Control Systems 4 Credits**

**Grading Scheme:** Letter Grade

Theory and design of linear control systems. Laboratory.

**Prerequisite:** EEL 3112 (with minimum grade of C) and EEL 3850 (with minimum grade of C)..

**EEL 4665C Intelligent Machines Design Laboratory 4 Credits**

**Grading Scheme:** Letter Grade

Design simulation, fabrication, assembly and testing of intelligent robotic machines. Laboratory.

**Prerequisite:** (EEL 3744C or EML 3005) or instructor permission.

**EEL 4712C Digital Design 4 Credits**

**Grading Scheme:** Letter Grade

Advanced modular logic design, design languages, finite state machines and binary logic. Laboratory.

**Prerequisite:** EEL 3701C.

**EEL 4713C Digital Computer Architecture 4 Credits**

**Grading Scheme:** Letter Grade

The use of electronic digital modules to design computers. Includes the organization and operation of computers, hardware/software trade-offs and design of computer interfacing. Laboratory.

**Prerequisite:** EEL 3701C and EEL 4712C.

**EEL 4720 Reconfigurable Computing 3 Credits**

**Grading Scheme:** Letter Grade

Fundamental concepts at advanced undergraduate level in reconfigurable computing based upon advanced technologies in field-programmable logic devices. Topics include general concepts, device architectures, design tools, metrics and kernels, system architectures and application case studies.

**Prerequisite:** EEL 4712C.

**EEL 4732 Advanced Systems Programming 3 Credits**

**Grading Scheme:** Letter Grade

Develop a deep understanding of operating system concepts and systems programming fundamentals and gain hands-on experience in systems programming by using Pthreads as well as implementing Linux device drivers and testing/verifying systems code for deadlock and race-freedom.

**Prerequisite:** EEL 3701C and (EEL 3834 or COP 3503C or COP 3504C or COP 2274) and COP 4600, all with a minimum grades of C.

**EEL 4736 Principles of Computer System Design 3 Credits**

**Grading Scheme:** Letter Grade

Broadly introduces the main principles and abstractions for engineering hardware and software systems. Includes in-depth studies of their use on computer systems across a variety of designs, be it an operating system, a client/server application, a database server or a fault-tolerant disk cluster.

**Prerequisite:** EEL 4712C and (EEL 3834 or COP 3503C or COP 3504C or COP 2274 or equivalent), all with minimum grades of C.

**EEL 4744C Microprocessor Applications 4 Credits**

**Grading Scheme:** Letter Grade

Experience in the elements of microprocessor-based systems, hardware interfacing and software design for their application. Laboratory.

**Prerequisite:** EEL 3701C (with minimum grade of C) and (EEL 3834 or COP 3503C or COP 3504C or COP 2274 or equivalent with minimum grades of C).

**EEL 4745C Microprocessor Applications 2 4 Credits**

**Grading Scheme:** Letter Grade

Implementation of a Real-Time Operating System on an ARM Cortex M processor to create more robust and complex microprocessor applications.

Introduction to IoT applications.

**Prerequisite:** EEL 3744C with minimum grade of C and proficiency in programming in C.

**EEL 4750 Foundations of Digital Signal Processing 3 Credits**

**Grading Scheme:** Letter Grade

Analysis and design of digital filters for discrete signal processing, spectral analysis and fast Fourier transform.

**Prerequisite:** EEL 3135.

**EEL 4837 Programming for Electrical Engineering 2 3 Credits**

**Grading Scheme:** Letter Grade

Fundamentals of data structures and algorithms, including lists, queues, stacks, divide-and-conquer, dynamic programming, trees, tables, graphs and recursive techniques. The role of specific data structures in electrical engineering applications.

**Prerequisite:** EEL 3834 or COP 2274 or COP 3503C or COP 3504C or equivalent, all with minimum grades of C.

**EEL 4853 Cross Layered System Security 3 Credits**

**Grading Scheme:** Letter Grade

Develop an understanding of the principles of computer security, as it crosses layers of abstraction (application, operating system, hardware, and network). Learn the challenges of building secure computer systems with examples and hands-on assignments. Current research on these challenges will be discussed. Students will review and present conference papers.

**Prerequisite:** (EEL 3834 or COP 3503C or COP 3504C or COP 2274 or equivalent) and (EEL 4736 or equivalent), all with a minimum grades of C.

**EEL 4905 Individual Problems in Electrical Engineering 1-4 Credits**

**Grading Scheme:** Letter Grade

Selected problems or projects in the student's major field of engineering study.

**EEL 4912 Integrated Product and Process Design 1 3 Credits**

**Grading Scheme:** Letter Grade

First part of two in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.

**Prerequisite:** EEE 3308C and EEL 3701C.

**EEL 4913 Integrated Product and Process Design 2 3 Credits**

**Grading Scheme:** Letter Grade

Second part of two in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.

**Prerequisite:** EEL 4912.

**EEL 4924C Electrical Engineering Design 2 3 Credits**

**Grading Scheme:** Letter Grade

Selected design projects involving engineering applications in the various areas of electrical engineering. Laboratory.

**Prerequisite:** EEL 3923C and two breadth electives and one depth elective.

**EEL 4930 Special Topics in Electrical Engineering 1-4 Credits**

**Grading Scheme:** Letter Grade

Special courses covering selected topics in electrical engineering.

**EEL 4948 Practical Work in Electrical and Computer Engineering 3 Credits**

**Grading Scheme:** S/U

One term industrial employment, including extra work according to a pre-approved outline. Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.

**Prerequisite:** EEL 3111C and EEL 3701C and sophomore standing or consent of undergraduate coordinator/supervising faculty mentor. Must have a full time internship defined as working for a minimum of 40 hours per week for a minimum of 10 weeks (400 hours).

**EEL 4949 Co-op Work Experience 1 Credit**

**Grading Scheme:** S/U

Practical co-op engineering work under approved industrial supervision.

**Prerequisite:** Engineering major.

**EGN 1935 Special Topics in Freshman Engineering 1-3 Credits**

**Grading Scheme:** Letter Grade

Laboratory, lectures or conferences cover selected topics in engineering.

**EGN 4912 Engineering Directed Independent Research 0-3 Credits**

**Grading Scheme:** S/U

Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**EGS 1005 Prep for Success 1-4 Credits**

**Grading Scheme:** S/U

Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)

**Prerequisite:** EG student.

---

## Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Courses

**CGN 2328 Technical Drawing and Visualization 3 Credits**

**Grading Scheme:** Letter Grade

Two- and three-dimensional graphical methods of visualizing and communicating features of projects for construction involving parcel boundaries, topography, drainage, site modeling, site development, structures, buildings and objects using both traditional and computer-aided drafting and design techniques.

**Prerequisite:** minimum 2EG classification.

**CGS 2531 Problem Solving Using Computer Software 3 Credits**

**Grading Scheme:** Letter Grade

Problem-solving introduction and thorough exploration of word processing, spreadsheet management, data analysis, graphical display of data, and multimedia presentations. The problem-solving approach also aids students in their specific majors through software applications requiring major-specific professional communication skills in written, graphical, and presentation forms. (M)

**Attributes:** General Education - Mathematics

**COP 2271 Computer Programming for Engineers 2 Credits****Grading Scheme:** Letter Grade

Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem solving skills; directed toward technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the demands of the departments in the college. Several languages may be taught each semester, no more than one per section. Those required to learn a specific language must enroll in the correct section. (M)

**Prerequisite:** MAC 2312 with minimum grade of C.**COP 2271L Computer Programming for Engineers Laboratory 1 Credit****Grading Scheme:** Letter Grade

Optional laboratory for COP 2271. Required for ISE majors. (M)

**Prerequisite:** MAC 2312;**Corequisite:** COP 2271.**COP 2273 Python Programming for Engineers 3 Credits****Grading Scheme:** Letter Grade

Introduction for those who have little experience in programming and have been looking to obtain hands-on learning experience in the Python programming language. Encourages developing problem solving and computational thinking skills in an engineering field and emphasizes a reasonably high degree of mathematics.

**Prerequisite:** MAC 2311 with a C grade or better.**COP 2274 C++ Programming for Engineers 3 Credits****Grading Scheme:** Letter Grade

Introductory course for those who have little experience in programming and have been looking to obtain a hands-on learning experience to the C++ programming language. Developing problem solving and computational thinking skills in an engineering field is encouraged in this course and emphasized with a reasonably high degree of mathematics.

**Corequisite:** MAC 2311.**EEL 3003 Elements of Electrical Engineering 3 Credits****Grading Scheme:** Letter Grade

Introduces the theory and practice of electrical engineering for those not majoring in electrical engineering. Discusses circuits, machines, electronics and systems.

**Prerequisite:** MAC 2313 and PHY 2049.**EEL 3872 Artificial Intelligence Fundamentals 3 Credits****Grading Scheme:** Letter Grade

Overview of Artificial Intelligence (AI), approaching the concept from its origins to expectations for the future; focuses on various AI technologies, how to build Machine Learning models, and how to apply AI tools to solve real world problems. Some concepts are types of AI and Machine Learning, Hacking and the IoT, AI today and its outlook for the future.

**Prerequisite:** Junior status or above.**EGM 3400 Elements of Dynamics 2 Credits****Grading Scheme:** Letter Grade

Dynamics of particles and rigid bodies for rectilinear translation, curvilinear motion, rotation and plane motion. Also includes principles of work and energy, and impulse and momentum.

**Prerequisite:** EGM 2511 and (MAC 2313 with a minimum grade of C).**EGN 1935 Special Topics in Freshman Engineering 1-3 Credits****Grading Scheme:** Letter Grade

Laboratory, lectures or conferences cover selected topics in engineering.

**EGN 2020C Engineering Design & Society 2 Credits****Grading Scheme:** Letter Grade

Introduction to emphasizing the human-centered design process to address societal challenges. Explore solid modeling, introductory programming, sensors, data acquisition, and 3D printing as maker tools for engineering prototyping. In a team environment, utilize multidisciplinary approaches, project management, and written and oral communication skills to create societal-based designs.

**Attributes:** General Education - Physical Science**EGN 4641 Engineering Entrepreneurship 3 Credits****Grading Scheme:** Letter Grade

Engineering Entrepreneurship introduces engineering students to the concepts and practices of technological entrepreneurial thinking and entrepreneurship. Using lectures, case studies, business plans and student presentations, the course teaches life skills in entrepreneurial thought and action that students can utilize when starting technology companies or executing research and development projects in large companies.

**Prerequisite:** junior standing or higher.

**EGN 4643 Engineering Innovation 3 Credits****Grading Scheme:** Letter Grade

Engineering Innovation introduces students to the concepts of innovative thinking and innovation practices. Using lectures, case studies, team exercises and guest speakers, the course teaches life skills in innovative thought and action that students can use in careers ranging from starting companies to executing research and development projects in large companies.

**Prerequisite:** junior standing or higher.**EGN 4912 Engineering Directed Independent Research 0-3 Credits****Grading Scheme:** S/U

Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**EGN 4932 Special Topics 1-4 Credits****Grading Scheme:** Letter Grade

Covers selected, rotating topics in engineering.

**EGN 4940 NSF Fellowship Preparation 1 Credit****Grading Scheme:** Letter Grade

Overview of fellowship preparation pertaining to intellectual merit and broader impacts.

**EGN 4949 Engineering Internship/Co-op 1-3 Credits****Grading Scheme:** S/U

Practical Internship/Co-Op Work Experience Under Approved Industrial Supervision.

**Prerequisite:** Engineering major.**EGN 4951 Integrated Product and Process Design 1 3 Credits****Grading Scheme:** Letter Grade

A two-semester-course sequence in which multidisciplinary teams of engineering students partner with industry sponsors to design and build authentic products and processes—on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.

**Prerequisite:** prereqs are the same as the equivalent departmental capstone courses;**Corequisite:** coreqs are the same as the equivalent departmental capstone courses.**EGN 4952 Integrated Product and Process Design 2 3 Credits****Grading Scheme:** Letter Grade

A two-semester-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes—on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.

**Prerequisite:** EGN 4951.**EGN 4956 International Studies in Engineering 1-4 Credits****Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

**Prerequisite:** admission to an approved UF study abroad program and undergraduate programs director permission through advising form.**EGS 1006 Introduction to Engineering 1 Credit****Grading Scheme:** Letter Grade

Introduces the 11 departments that offer undergraduate degrees at UF. Students break into groups of 20, rotating weekly through each department. During these visits, students participate in hands-on experiments to help them make informed decisions about career alternatives.

**EGS 2036 Fundamentals of the New Engineer 1 Credit****Grading Scheme:** Letter Grade

Fundamentals of the New Engineer introduces students to key attributes of 21st century engineering leaders and innovators. Student learn concepts and practice of engineering leadership and innovation through study of the "Attributes of a New Engineer"; Creativity, Leadership, Integrity, Professional Excellence, and Service to the Global Community.

**EGS 4034 Engineering Ethics and Professionalism 1 Credit****Grading Scheme:** Letter Grade

Provides an interactive study of ethical theory and the development of professionalism; review case studies of ethical conflicts in engineering practice. Also covers engineering codes of ethics to resolve theoretical situations through application of ethical codes.

**Prerequisite:** Undergraduate engineering or computer science (CLAS) students and junior level or above.

**EGS 4038 Engineering Leadership 3 Credits****Grading Scheme:** Letter Grade

Engineering Leadership introduces engineering graduate students to the concepts, theory and practice of engineering leadership; effective written and oral communications and presentations; engineering leadership characteristics, individual differences and self-awareness; developing and building teams; managing change, conflicts, and crises; and understanding real-world ethics and core values.

**Prerequisite:** junior or senior standing.**EGS 4100 Divergent Thinking 3 Credits****Grading Scheme:** Letter Grade

Acquire divergent thinking skills to support the engineering design process. Emphasizes the importance of practices such as observing, questioning, learning, and experimenting; Stresses cultivating an openness to new experiences In order to generate ideas and devise solutions to complex design problems.

**Prerequisite:** junior or senior level standing.**EGS 4625 Fundamentals of Engineering Project Management 3 Credits****Grading Scheme:** Letter Grade

Provides a comprehensive understanding of how to plan, optimize, and efficiently manage projects (or tasks) to implement products, services, or developments. Includes building the structure, processes, components, and linkages with a team for successful project delivery within schedule, budget, and quality requirements.

**Prerequisite:** Engineering student of junior standing or higher.**EGS 4627 Applied Engineering Project Management 3 Credits****Grading Scheme:** Letter Grade

Applied Engineering Project Management expands on foundational project management practices to include complex as well as new project delivery concepts. Topics include project acquisition; negotiation skills; advanced risk planning and management; program management; project life cycle models and their applicability; and diagnostics and remedies for problem projects.

**Prerequisite:** EGS 4625 or equivalent, with instructor permission.**EGS 4680 Advanced Engineering Leadership Development 3 Credits****Grading Scheme:** Letter Grade

Further develops the leadership framework and capabilities; involves a case study-based instructional approach that reviews and applies strategic leadership concepts and knowledge critical to the success of engineering-based companies that operate in a highly uncertain and volatile business environment.

**Prerequisite:** EGS 4038 or instructor permission.**EML 3007 Elements of Thermodynamics and Heat Transfer 3 Credits****Grading Scheme:** Letter Grade

Applications of first and second laws of thermodynamics to closed and open systems. Steady one-dimensional conduction, lumped parameter analysis, convection, radiation. Intended for non-mechanical engineering students.

**Prerequisite:** CHM 2045 and MAC 2313 and PHY 2048.

## English

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Department of English fosters a dynamic nexus of critical thinking, writing, and making. English offers students innovative opportunities for individual and collaborative learning through BA, MFA, and PhD programs. Students work with a variety of materials, including: global Anglophone literature, African American literature, children's literature, comics, critical theory, digital modes, film and media. In-house journals and media reflect the scholarly, creative, and interdisciplinary work done by the department. Active across campus through its affiliations, English produces next-generation arts and humanities.

## Courses

### AML 2070 Survey of American Literature 3 Credits

**Grading Scheme:** Letter Grade

Introduces some of the major writers, issues and forms found in the history of American literature. The instructor determines the breadth and focus of this survey. (C or H) (WR)

**Prerequisite:** ENC 1101 or test score equivalent.

**Attributes:** General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

### AML 2410 Issues in American Literature and Culture 3 Credits

**Grading Scheme:** Letter Grade

Introduces some of the most important issues that arise in the study of American literature and culture. The instructor determines the breadth and focus of the topic. (C or H) (WR)

**Prerequisite:** ENC 1101 or test score equivalent.

**Attributes:** General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

### AML 3041 American Literatures 2 3 Credits

**Grading Scheme:** Letter Grade

Selected texts from 1865 to the present, in diverse historical and cultural contexts, usually organized around a theme or several themes.

### AML 3284 Surveys in American Women's Literatures 3 Credits

**Grading Scheme:** Letter Grade

Surveys traditions in American women's writings, covering a wide range of texts or focusing on a single theme, genre, period, literary movement or cultural tradition. Topics may include women's writings about feminism, family, work, nationalism or social justice; women's autobiography, poetry, experimental prose or domestic fiction; 19-century literature by women, contemporary women's poetry or colonial women's writing; realist, postmodern or sentimental fiction by American women; African American, New England, Native American, Southern or working-class writing; Chicano, Latina or lesbian literary traditions. Refer to department website.

### AML 3285 Variable Surveys of American Literatures 3 Credits

**Grading Scheme:** Letter Grade

The rich cultural traditions found in American literature. Topics may include gay and lesbian, Jewish American, Chicano/a, Latino/a, Native American, Southern and other literatures. Refer to department website.

### AML 3605 African-American Literature 1 3 Credits

**Grading Scheme:** Letter Grade

Surveys the development of African-American literature from its beginning to 1945.

### AML 3607 African-American Literature 2 3 Credits

**Grading Scheme:** Letter Grade

Surveys the development of African-American Literature from 1945 to the present.

### AML 3673 Asian-American Studies 3 Credits

**Grading Scheme:** Letter Grade

Variable topics or survey focus on the major issues, movements or themes in the study of Asian-American literature and culture from the beginnings to the present. Topics may include Kung Fu films, cultural nationalism and feminism, model minorities, Angel Island literature, Asian-Americans in film and media, and several major authors. Consult department website.

### AML 4170 Studies in American Literary Forms 3 Credits

**Grading Scheme:** Letter Grade

Study of genre, such as the novel, detective novel, political novel, historical novel, utopian fiction or Western; drama; short story; sermon traditions; African-American cultural forms, African-American folklore; long poem, lyric, philosophical poem, oral poetry; nature writing, autobiography, captivity narrative; narratives of exploration; political oratory; postmodernism; coming-out stories; humor. Refer to department website.

### AML 4213 Studies in American Literature and Culture Before 1800 3 Credits

**Grading Scheme:** Letter Grade

Variable topics focus on one or more of the major issues, movements, forms or themes in the study of American literature and culture before 1800. Topics may include narratives of exploration and encounter, Puritan and/or Enlightenment writings, captivity and slave narratives, traditions of spiritual autobiography, post-colonial approaches to colonial rhetoric and poetry, and/or in-depth studies of selected writers. Refer to department website.

**AML 4225 Studies in Nineteenth-Century American Literature and Culture 3 Credits****Grading Scheme:** Letter Grade

Variable topics focus on the major issues, movements, forms or themes in the study of American literature and culture before 1900. Topics may include the American Renaissance, literature and abolition, African American novels and poetry, romance and romanticism, race and sexuality, the rise of the short story, realism, naturalism, representations of the city, representations of the South, tropes such as the Noble Savage or the American Girl, and/or in-depth studies of selected writers. Refer to department website.

**AML 4242 Studies in Twentieth-Century American Literature and Culture 3 Credits****Grading Scheme:** Letter Grade

Variable topics focus on one or more of the major issues, movements, forms or themes in the study of 20th-century American literature and culture. Topics may include Modernism, Post-Modernism, the Harlem Renaissance, Depression-era literature, American writers in Paris, consumer society, American fiction since 1945, poetry, Civil Rights literature, rhetorics of imperialism, and/or several major authors. Refer to department website.

**AML 4282 Studies of Genders and Sexualities in American Literature and Culture 3 Credits****Grading Scheme:** Letter Grade

Variable topics focus on one or more of the major issues, movements, forms or themes in the study of American literature and culture. Topics may include masculinity and femininity in literature, lesbian possibilities in popular culture, feminism and womanism, traditions of gay self-representation. Refer to department website.

**AML 4311 Major Figures of American Literature and Culture 3 Credits****Grading Scheme:** Letter Grade

In-depth focus on one major author, such as Dickinson, Twain, Faulkner, Hurston, or Morrison. Refer to department website.

**AML 4453 Studies in American Literature and Culture 3 Credits****Grading Scheme:** Letter Grade

Variable topics examine issues, movements, forms or themes that cross traditional period boundaries. Topics may include the city and the country in American fiction, Southern masculinity, reading and literacy in America, representations of class and religion in American literature, the body and technology, American regionalisms, the Pragmatist tradition, and nature and eco-criticism in American letters. Refer to department website.

**AML 4685 Race and Ethnicity 3 Credits****Grading Scheme:** Letter Grade

Variable topics examine issues, movements, forms or themes related to race and ethnicity in American literature. Topics may include Pacific Rim cultures in America, Chicano-Latino literature, the Black Arts Movement, constructing Native America, border-crossing and migration, post-war Jewish fiction, literature and the psychology of prejudice, comparative representations of racial and ethnic experience, representing whiteness, literatures of assimilation and multi-racial identities.

**CRW 1101 Beginning Fiction Writing 3 Credits****Grading Scheme:** Letter Grade

Beginning writing fiction workshop. Starts with the basics and students read a lot of fiction (you can't be a fiction writer without reading shelves of fiction). Students write stories and their fiction is discussed in workshop. (C) (WR)

**Prerequisite:** ENC 1101 or test score equivalency.**Attributes:** General Education - Composition, Satisfies 6000 Words of Writing Requirement**CRW 1301 Beginning Poetry Writing 3 Credits****Grading Scheme:** Letter Grade

Workshop concentrates on the basics of reading and writing poetry (in order to write you have to read, and in order to be a reader you have to be a critic). Students write poems and some are discussed in workshop. (C) (WR)

**Prerequisite:** ENC 1101 or test score equivalency.**Attributes:** General Education - Composition, Satisfies 6000 Words of Writing Requirement**CRW 2100 Fiction Writing 3 Credits****Grading Scheme:** Letter Grade

Continues instruction in basic techniques of voice, plot and character, while introducing advanced ones. Students read a lot of good stories and write a few themselves. Samuel Johnson said, "No man but a blockhead ever wrote, except for money." Juniors or seniors who have not taken CRW 1101 or CRW 1301 must have strong composition skills. (C) (WR)

**Prerequisite:** CRW 1101 or junior/senior standing.**Attributes:** General Education - Composition, Satisfies 6000 Words of Writing Requirement**CRW 2300 Poetry Writing 3 Credits****Grading Scheme:** Letter Grade

Writing poetry may become an addiction. This workshop continues with matter-of-fact techniques and some fancy ones as well. Students write poems and read some difficult and thrilling poetry of the past and present. By the end, students may be able to say, with Humpty Dumpty, I can explain all the poems that ever were invented - and a good many that haven't been invented just yet. Juniors or seniors who have not taken CRW 1101 or CRW 1301 must have strong composition skills. (C) (WR)

**Prerequisite:** CRW 1301 or junior/senior standing.**Attributes:** General Education - Composition, Satisfies 6000 Words of Writing Requirement

**CRW 3110 Advanced Seminar in Fiction Writing 3 Credits**

**Grading Scheme:** Letter Grade

Small workshop for students who have made their way out of beginner's workshops with sanity intact. Now the work gets more difficult, more deranged and more delightful. Emerson said, "People do not deserve to have good writing, they are so pleased with bad." Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.

**Prerequisite:** CRW 2100.

**CRW 3310 Advanced Seminar in Poetry Writing 3 Credits**

**Grading Scheme:** Letter Grade

More reeling and writhing," as Lewis Carroll said. An intense workshop for a small group of poets who have stared at the Pacific with a wild surmise. Like Balboa - or was it Cortez? Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.

**Prerequisite:** CRW 1301 or CRW 2300.

**CRW 4905 Senior Advanced Workshop in Fiction Writing 3 Credits**

**Grading Scheme:** Letter Grade

For students who want to trouble the literary editors and readers of the future. Many members of this class have gone on to graduate school in writing. Ants eat everything that is written, said an explorer. This is a workshop for ants. Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.

**Prerequisite:** CRW 3110.

**CRW 4906 Senior Advanced Workshop in Poetry Writing 3 Credits**

**Grading Scheme:** Letter Grade

George I said, "I hate all Boets and Bainters." For battle-scarred veterans of previous workshops who now want the full treatment, this is a small workshop for serious poets who want to write their names in water, as long as they are also in the Norton Anthology. Students often go from this class into MFA programs in poetry. Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.

**Prerequisite:** CRW 3310.

**ENC 1136 Multimodal Writing and Digital Literacy 3 Credits**

**Grading Scheme:** Letter Grade

Teaches digital literacy and digital creativity. Compose and convey creative, well-researched, carefully crafted information through digital platforms and multimodal documents. Also promotes digital writing and research as central to academic, civic, and personal expression.

**Attributes:** General Education - Composition, Satisfies 6000 Words of Writing Requirement

**ENC 1145 Topics for Composition 3 Credits**

**Grading Scheme:** Letter Grade

Instruction in expository-argumentative writing related to one special topic selected by the instructor. Readings include variable genres from different disciplines. (C or H) (WR)

**Prerequisite:** ENC 1101 or test score equivalency.

**Attributes:** General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

**ENC 2210 Technical Writing 3 Credits**

**Grading Scheme:** Letter Grade

Surveys the forms and methods of communication used in business, industry and government, including nonformal and formal reports, letters, resumes and proposals. (C) (WR)

**Prerequisite:** ENC 1101 or test score equivalency.

**Attributes:** General Education - Composition, Satisfies 6000 Words of Writing Requirement

**ENC 3250 Professional Communication 3 Credits**

**Grading Scheme:** Letter Grade

Professional writing course relevant in business, industry, government and other institutional settings. Covers major elements of organizational communication with emphasis on composition of letters and memos, reports, proposals and manuals. (WR)

**Prerequisite:** junior or senior standing and two 1000- or 2000-level English courses.

**Attributes:** Satisfies 6000 Words of Writing Requirement

**ENC 3310 Advanced Exposition 3 Credits**

**Grading Scheme:** Letter Grade

Advanced composition course in methods of exposition: definition, classification, comparison and contrast, analysis, illustration and identification. (WR)

**Prerequisite:** junior/senior standing and two 1000/2000-level English courses.

**Attributes:** Satisfies 6000 Words of Writing Requirement

**ENC 3312 Advanced Argumentative Writing 3 Credits**

**Grading Scheme:** Letter Grade

Advanced composition concerned with the writing of argument and critical analysis. (WR)

**Prerequisite:** junior/senior standing and two 1000/2000-level English courses.

**Attributes:** Satisfies 6000 Words of Writing Requirement

**ENC 3414 Hypermedia 3 Credits**

**Grading Scheme:** Letter Grade

The study and production of digital media, with emphasis on the World Wide Web.

**ENC 4212 Professional Editing 3 Credits**

**Grading Scheme:** Letter Grade

How to perform different levels of editing on a range of professional texts, including both printed and online texts as well as both technical and literary ones.

**Prerequisite:** ENC 3250 or ENC 2210, and instructor permission.

**ENC 4260 Advanced Professional Writing 3 Credits**

**Grading Scheme:** Letter Grade

Administrative communication, professional papers, research reports, proposals and other major professional documents, depending on the needs of the students who must have developed communication skills. (WR)

**Prerequisite:** ENC 2210 or ENC 3250, or instructor permission.

**Attributes:** Satisfies 6000 Words of Writing Requirement

**ENC 4956 Overseas Studies 1-15 Credits**

**Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

**Prerequisite:** undergraduate advisor permission.

**ENG 1131 Writing through Media 4 Credits**

**Grading Scheme:** Letter Grade

The media studies equivalent of ENC 1102, Writing about Literature. Explores the practices of literacy in the context of popular culture, including cinema, television, advertising, popular fiction and journalism. (C or H) (WR)

**Prerequisite:** ENC 1101 or test score equivalent.

**Attributes:** General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

**ENG 1400 Introduction to Popular Film 3 Credits**

**Grading Scheme:** Letter Grade

Designed for non-majors seeking humanities credit in the areas of film and popular culture. Introduces the study of contemporary movies through attention to film form and structure, film genres and attention to popular culture. Students are expected to see new movies off campus. (H)

**Attributes:** General Education - Humanities

**ENG 2300 Film Analysis 4 Credits**

**Grading Scheme:** Letter Grade

Introduces thinking and writing about the cinema by means of film theory and history. (C or H) (WR)

**Prerequisite:** ENC 1101 or test score equivalent.

**Attributes:** General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

**ENG 2935 English: College Honors 1 3 Credits**

**Grading Scheme:** Letter Grade

Writing about novels, short stories, film and cultural studies primarily by American and British authors. Text and assignments are chosen to match the abilities of honor students. (C or H) (WR)

**Attributes:** General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

**ENG 3010 The Theory and Practice of Modern Criticism 3 Credits**

**Grading Scheme:** Letter Grade

An intensive introductory study of 20th-century theory.

**ENG 3011 The Theorists 3 Credits**

**Grading Scheme:** Letter Grade

Studies one or more theorists, contemporary or historical.

**ENG 3063 Advanced Grammar: Analysis and Application 3 Credits**

**Grading Scheme:** Letter Grade

An extensive and sophisticated study of grammar, as well as a practical appreciation of its rhetorical purposes.

**ENG 3113 The Movies as Narrative Art 4 Credits**

**Grading Scheme:** Letter Grade

Examines movies as a mode of storytelling by emphasizing the difference between verbal and visual narration, and relation to contemporary thought and values.

**ENG 3115 Introduction to Film: Criticism and Theory 4 Credits**

**Grading Scheme:** Letter Grade

Introduces the principal theoretical and critical issues raised by the first century of the cinema.

**ENG 3121 History of Film, Part 1 4 Credits**

**Grading Scheme:** Letter Grade

History of film from its beginnings to the introduction of sound.

**ENG 3122 History of Film, Part 2 4 Credits**

**Grading Scheme:** Letter Grade

History of film from the introduction of sound to 1960.

**ENG 3125 History of Film, Part 3 4 Credits**

**Grading Scheme:** Letter Grade

History of film from 1960 to the present.

**ENG 4015 Psychological Approaches to Literature 3 Credits**

**Grading Scheme:** Letter Grade

Use of various psychological concepts to the application of literary study. Refer to department website.

**ENG 4060 History of the English Language 3 Credits**

**Grading Scheme:** Letter Grade

Origins of the English language and its development from Old English to the present. Students should have completed an introductory linguistics course (LIN 2000, LIN 2001 or LIN 3010). Refer to department website.

**ENG 4130 Race and Ethnicity in Film 4 Credits**

**Grading Scheme:** Letter Grade

Critical and historical study of films and videos by and about people of color in the Americas, Africa, Australia and Europe.

**ENG 4133 Film Studies 4 Credits**

**Grading Scheme:** Letter Grade

Variable topics provide in-depth study of film genres, notable film directors, and other significant topics on subjects related to film.

**ENG 4134 Women and Film 4 Credits**

**Grading Scheme:** Letter Grade

Studies the roles and function of women in mainstream and alternative cinema, including study of feminist film criticism and theories of gender.

**ENG 4135 National Cinemas 4 Credits**

**Grading Scheme:** Letter Grade

Variable topics study of the films of historically important national cinemas, such as American, French, German, Italian, Russian, Japanese.

**ENG 4136 Film and Video Production 4 Credits**

**Grading Scheme:** Letter Grade

Seminar on the independent and experimental uses of small-format film and video production.

**ENG 4139 Television and Electronic Culture 4 Credits**

**Grading Scheme:** Letter Grade

Explores the development of new modes of thought, forms of art, popular culture, and social practices based on the electronic technology of video and computers.

**ENG 4146 Advanced Film and Video Production 4 Credits**

**Grading Scheme:** Letter Grade

Variable topics focus on one or more advanced aspects of film and video production, including such topics as editing of film and video or the production of 16mm films.

**Prerequisite:** ENG 4136.

**ENG 4310 Film Genres Directors 4 Credits**

**Grading Scheme:** Letter Grade

**ENG 4844 Queer Theory 3 Credits**

**Grading Scheme:** Letter Grade

Overview of major concerns, methodologies and texts in queer theory, illuminating the theoretical insights, assumptions and implications of various constructions of gender, sex and sexuality.

**ENG 4905 Independent Study 1-3 Credits**

**Grading Scheme:** Letter Grade

For advanced students who desire to supplement the regular courses by independent reading or research under guidance.

**Prerequisite:** instructor and/or department permission.

**ENG 4910 Topics in Collaborative Research 3 Credits**

**Grading Scheme:** Letter Grade

Provides supervised research in English in a group context, with emphasis on collaborative learning using variable content and methods.

**Prerequisite:** Six credits of English at the 1000/2000 level, or department permission.

**ENG 4911 Undergraduate Research in English 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research in English. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English.

**ENG 4936 Honors Seminar 3 Credits**

**Grading Scheme:** Letter Grade

Open to English majors who have maintained an overall junior/senior level GPA of 3.5. Small seminar classes study topics in English and American literature or film.

**Prerequisite:** undergraduate coordinator and/or department permission.

**ENG 4940 English Internship 1-3 Credits**

**Grading Scheme:** S/U

Admission requires a written proposal of appropriate work experience from the student and a written acceptance for employment from the employer, including designation of a supervisor. Successful completion requires a written summation of the work experience from the student and a written evaluation of performance by the supervisor. (S-U)

**Prerequisite:** 12 credits of 3000/4000-level work in English and undergraduate coordinator permission.

**ENG 4953 Department Seminar 3 Credits**

**Grading Scheme:** Letter Grade

Seminar offered on a space-available basis allowing department majors to develop their individual programs of study while focusing on a common topic.

**Prerequisite:** English major and 9 credits of 3000/4000-level work in English.

**ENG 4970 Honors Thesis Project 3 Credits**

**Grading Scheme:** Letter Grade

Student selects an English faculty member to act as director for an independent research project that culminates in preparation of an honors thesis. An abstract and one copy of the thesis must be delivered to 101 Academic Advising Center by the semester deadline specified by the Honors Office.

**Prerequisite:** completion of one semester of ENG 4936; undergraduate coordinator permission. Open to English honors students.

**ENL 2012 Survey of English Literature: Medieval to 1750 3 Credits**

**Grading Scheme:** Letter Grade

Introduces some of the major writers, issues and forms found in the history of the period. The instructor determines the breadth and focus of this survey. (C or H) (WR)

**Prerequisite:** ENC 1101 or test score equivalent.

**Attributes:** General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

**ENL 2022 Survey of English Literature: 1750 to the Present 3 Credits**

**Grading Scheme:** Letter Grade

Introduces some of the major writers, issues and forms found in the history of the period. The instructor determines the breadth and focus of this survey. (C or H) (WR)

**Prerequisite:** ENC 1101 or test score equivalent.

**Attributes:** General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

**ENL 2330 Introduction to Shakespeare 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the pleasure and wisdom of Shakespeare's plays. Various approaches are used: movie versions of the plays, staging of scenes from the plays and discussion. (H)

**Prerequisite:** ENC 1101 or test score equivalent.

**Attributes:** General Education - Humanities

**ENL 2930 Special Topics 3 Credits**

**Grading Scheme:** Letter Grade

Variable topics focus on major issues and themes in British literature and culture.

**Prerequisite:** ENC 1101 or equivalent.

**ENL 3112 The British Novel: 18th Century 3 Credits**

**Grading Scheme:** Letter Grade

Covers a wide range of eighteenth-century British novelists, from Aphra Behn, Daniel Defoe, and Samuel Richardson to Henry Fielding, Frances Burney, and Jane Austen. The instructor determines the breadth and focus of each course; refer to department website.

**Prerequisite:** Six credits of English at the 1000/2000 level.

**ENL 3122 The British Novel: 19th Century 3 Credits**

**Grading Scheme:** Letter Grade

Includes works by such novelists as Austen, Dickens, Gaskell, Brontë, Eliot, Hardy. The instructor determines the breadth and focus of each course; refer to department website.

**ENL 3132 The English Novel: 20th Century 3 Credits**

**Grading Scheme:** Letter Grade

Includes works by such writers as Conrad, Lawrence, Joyce, Forster, Woolf, Greene and Waugh.

**ENL 3154 Twentieth-Century British Poetry 3 Credits**

**Grading Scheme:** Letter Grade

General study of the most prominent British poets of the 20th Century with particular emphasis on Yeats, Lawrence, Graves, Eliot, Sitwell, Dylan Thomas and Ted Hughes.

**ENL 3210 Medieval English Literature 3 Credits**

**Grading Scheme:** Letter Grade

Surveys representative works of the Middle English period such as Sir Gawain and the Green Knight, Pearl, Malory's Morte D'Arthur and selections from medieval drama, lyric poetry, mystical writings and writings by and about women.

**ENL 3230 The Age of Dryden and Pope 3 Credits**

**Grading Scheme:** Letter Grade

Selections from the best works of such writers as Dryden, Congreve, Addison, Swift and Pope.

**ENL 3234 The Long Eighteenth Century: Themes and Interpretation 3 Credits**

**Grading Scheme:** Letter Grade

Rotating topics courses on eighteenth-century British literature, with an emphasis on themes rather than genres. These include but are not limited to literature's engagement with social issues, material history, and the history of ideas. The instructor determines the breadth and focus of this course; refer to department website.

**Prerequisite:** 6 credits of English at the 1000/2000 level, or department permission.

**ENL 3235 The Long Eighteenth Century: Imaginative Genres 3 Credits**

**Grading Scheme:** Letter Grade

Rotating topics courses on eighteenth-century British literature, focusing on imaginative genres; especially genres other than the novel, such as drama, poetry, and non-novelistic prose fiction. The instructor determines the breadth and focus of this course; refer to department website.

**Prerequisite:** 6 credits of English at the 1000/2000 level, or department permission.

**ENL 3240 The Romantic Period 3 Credits**

**Grading Scheme:** Letter Grade

**ENL 3251 Victorian Literature 3 Credits**

**Grading Scheme:** Letter Grade

Selections from Tennyson, Browning, C. Bronte, Wilde, G.M. Hopkins and Arnold. Examines the beliefs and paradoxes of Victorian culture through the poetry, fiction, drama, visual arts and critical theory of representative figures. Investigates the social and cultural assumptions which underlie the artists' approaches to their themes as well as the themes themselves. Refer to department website.

**ENL 3350 Age of Johnson 3 Credits**

**Grading Scheme:** Letter Grade

**ENL 4220 Renaissance Literature: 16th Century 3 Credits**

**Grading Scheme:** Letter Grade

Variable topics in Tudor literature and culture, 1485-1603. Focuses on or combine topics such as the development of literary genres; the works of single or paired authors; the social institutions and material conditions of textual production; thematically organized studies of cultural relations between literary and nonliterary texts; issues of gender, religion, nationhood and race; and writing in the emergence of an English literature. Refer to department website.

**ENL 4221 Renaissance Literature: 17th Century 3 Credits**

**Grading Scheme:** Letter Grade

Variable topics in Stuart Literature and Culture, 1603-1700. Focuses on or combine topics such as the progress of literary genres; the works of single or paired authors; the social institutions and material conditions of textual production; thematically organized studies of cultural relations between literary and nonliterary texts; issues of gender, religion, nationhood and race; and writing in the era before, during and after the English Revolution. Refer to department website.

**ENL 4273 Twentieth Century British Literature 3 Credits****Grading Scheme:** Letter Grade

Variable topics on major works of drama, poetry or prose from twentieth-century Britain. Refer to department website.

**ENL 4303 Major Figures of British Literature and Culture 3 Credits****Grading Scheme:** Letter Grade

In-depth focus on one or two major cultural figures, such as Marlowe, Austen, Scott, Eliot, Dickens, Yeats, Smith, Ishiguro, Kureishi, etc.

**Prerequisite:** Prerequisite to all 3000/4000-level courses are six credits of English at the 1000/2000 level or department permission.**ENL 4311 Chaucer 3 Credits****Grading Scheme:** Letter Grade

Reading and critical study of Chaucer's poetry with emphasis on the Canterbury Tales and Troilus and Criseyde, in addition to some attention to the minor works.

**ENL 4333 Shakespeare 3 Credits****Grading Scheme:** Letter Grade

Studies selections from Shakespeare. Topics include tracing Shakespeare's dramatic career, concentrating on one or several genres including histories, comedies, tragedies and romances; developing the history of Shakespeare reception; approaching Shakespeare through performance, including acting and directing; and approaching Shakespeare through feminist, materialist or psychoanalytic methods.

**LIN 4400 Introduction to Morphology 3 Credits****Grading Scheme:** Letter Grade

Theory of word structure, derivation and inflection, with examples and problems from a variety of languages. Includes the position of morphology in grammar, the relationship between morphology and grammar, typology, cultural and conceptual categories, and predictions of various theories of morphology. May be taught in conjunction with a graduate class that bears the same title.

**Prerequisite:** LIN 3010 and LIN 3460.**LIT 2000 Introduction to Literature 3 Credits****Grading Scheme:** Letter Grade

Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)

**Prerequisite:** ENC 1101**Attributes:** General Education - Humanities**LIT 2110 Survey of World Literature: Ancient to Renaissance 3 Credits****Grading Scheme:** Letter Grade

Introduces some of the major writers, issues and forms found in the history of the period. The instructor determines the breadth and focus of this survey. (C or H, and N) (WR)

**Prerequisite:** ENC 1101 or test score equivalent.**Attributes:** General Education - Composition, General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement**LIT 2120 Survey of World Literature: 17th Century to Modern 3 Credits****Grading Scheme:** Letter Grade

Introduces some of the major writers, issues and forms found in history of the period. The instructor determines the breadth and focus of this survey. (C or H, and N) (WR)

**Prerequisite:** ENC 1101 or test score equivalent.**Attributes:** General Education - Composition, General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement**LIT 3003 The Forms of Narrative 3 Credits****Grading Scheme:** Letter Grade

A close reading and critical analysis of representative forms and styles of narrative, to improve the student's ability to study narrative structures and theories of narrative. Refer to department website.

**LIT 3031 Studies in Poetry 3 Credits****Grading Scheme:** Letter Grade

Variable topics provide in-depth study of genre such as the lyric, epic or sonnet, or of developments in periods of literature such as the medieval, American or African. Emphasis on refining the ability to read and analyze texts carefully and accurately. Refer to department website.

**LIT 3041 Studies in Drama 3 Credits****Grading Scheme:** Letter Grade

Variable topics provide in-depth study of genre such as comedy or tragedy, or of developments in periods such as the Elizabethan, Jacobean or Restoration. Refer to department website.

**LIT 3043 Studies in Modern Drama 3 Credits****Grading Scheme:** Letter Grade

Representative selections from continental, British and American playwrights. Refer to department website.

**LIT 3173 Jewish Literature 3 Credits**

**Grading Scheme:** Letter Grade

Variable topics in the Jewish literary experience, from the biblical narrative and classical tales to Yiddish and Hebrew literature, the modern European novel, and American Jewish fiction. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**LIT 3362 The Age of the Avant-Garde 3 Credits**

**Grading Scheme:** Letter Grade

Examines the revolutionary experimentalist aspects of modern and contemporary culture, such as cubism, surrealism, structuralism, and conceptualism.

**LIT 3374 The Bible as Literature 3 Credits**

**Grading Scheme:** Letter Grade

Literary analysis from the Hebrew and Christian Bibles, with emphasis upon poetry and narrative. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**LIT 3383 Women in Literature 3 Credits**

**Grading Scheme:** Letter Grade

Critical and thematic study of women in literature that may include fiction, poetry or drama in English, American or world literature. Refer to department website. (D and H)

**Attributes:** General Education - Diversity, General Education - Humanities

**LIT 3400 Interdisciplinary Topics in Literature 3 Credits**

**Grading Scheme:** Letter Grade

Interdisciplinary variable-topics study of the vital relationship between literature and other creative arts, other humanistic disciplines or the sciences and technology. Refer to department website.

**LIT 4188 World English Language Literatures 3 Credits**

**Grading Scheme:** Letter Grade

Variable topics focus on one or more of the diverse English language literary traditions, including those of Ireland, Scotland, India, Nigeria, the Caribbean, Canada and Australia. Refer to department website.

**LIT 4192 Caribbean Literature in English 3 Credits**

**Grading Scheme:** Letter Grade

Variable topics focus on the critical and analytical study of representative Caribbean authors writing in English. Refer to department website.

**LIT 4194 African Literature in English 3 Credits**

**Grading Scheme:** Letter Grade

Critical and analytical study of representative Black-African authors writing in English, notably Achebe, Awoonor, Ngugi, Aidoo, Soyinka, Armah, Ekwensi, Mphahlele and p'Bitek'. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**LIT 4233 Postcolonial Literature, Culture and Theory 3 Credits**

**Grading Scheme:** Letter Grade

Variable topics explore the issues, questions and themes raised in the rich literature, culture and theory that emerge as a response to and in contestation of the experiences of the colonial and postcolonial worlds. Refer to department website.

**LIT 4305 Comics Studies 4 Credits**

**Grading Scheme:** Letter Grade

Variable topics provide an opportunity for the in-depth study of comics genres, notable comics writers and illustrators and other significant topics on related subjects.

**LIT 4322 The Folktale 3 Credits**

**Grading Scheme:** Letter Grade

Reading folktales, myths and legends, particularly those told orally by ethnic, indigenous and emigrant cultures within the USA. Attention is paid to critical theory and the scholarly study of the folktale. In addition, the use of the folktale by creative writers and teachers is discussed.

**LIT 4331 Children's Literature 3 Credits**

**Grading Scheme:** Letter Grade

Designed to arouse a genuine interest in children's books and to aid the student in obtaining a critical knowledge of the literature.

**LIT 4332 Literature for Young Children 3 Credits**

**Grading Scheme:** Letter Grade

Explores kinds and qualities of literature for the younger child, examining the child's first experience with literature in oral forms, then moving on to picture and story books and poetry.

**LIT 4333 Literature for the Adolescent 3 Credits**

**Grading Scheme:** Letter Grade

Studies the types of literature read by adolescents, with emphasis upon the criteria for the choice of good books and upon developing a familiarity with the many books available.

**LIT 4334 Golden Age of Children's Literature 3 Credits****Grading Scheme:** Letter Grade

Origins and evolution of the Anglo-American tradition in literature for young readers, 1720-1920, with an emphasis on the Victorian era. Authors may include Defoe, Scott, Cooper, Dickens, Alcott, Twain and Stevenson.

**LIT 4483 Issues and Methods in Cultural Studies 3 Credits****Grading Scheme:** Letter Grade

Introduces the issues and methodology used in cultural studies. Students will be encouraged to explore a number of methods by which culture is analyzed, understood and disseminated. Refer to department website.

**LIT 4554 Feminist Theories 3 Credits****Grading Scheme:** Letter Grade

Introduces a variety of analytic, theoretical and interpretive approaches under the general rubric feminist theory. Course concentrates on current issues in literary and cultural studies, but also discusses other disciplines as well.

**LIT 4930 Variable Topics in Literature and Language 3 Credits****Grading Scheme:** Letter Grade

Proseminar of variable content providing an opportunity for the in-depth study of various topics such as the literature of war and peace, of death and of courtly love. Refer to department website.

**RED 1343 Reading and Writing Content Area 1-7 Credits****Grading Scheme:** Letter Grade

Covers the fundamentals of beginning college writing and critical reading skills.

**SPC 3602 Advanced Public Speaking 3 Credits****Grading Scheme:** Letter Grade

Studies principles and methods of selected forms of public speaking for various purposes, audiences and contexts.

**Prerequisite:** SPC 2608 or equivalent.**SPC 4680 Rhetorical Criticism 3 Credits****Grading Scheme:** Letter Grade

Critical analyses of rhetorical elements and processes in oratorical and non-oratorical forms.

---

## Entomology and Nematology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Entomology and Nematology Department prepares students for exciting careers in a variety of fields. Entomology and Nematology majors can enter medical, dental, or veterinary school; progress to graduate study in any of several biological sciences such as ecology, nematology, entomology, horticulture, or zoology; or move directly to a variety of careers in fields such as pest management, ecotourism, or biosecurity.

## Courses

### **ALS 2931 Agricultural Honors 1-4 Credits**

**Grading Scheme:** Letter Grade

Various courses offered. (WR)

**Prerequisite:** refer to the department.

**Attributes:** Satisfies 6000 Words of Writing Requirement

### **ALS 3153 Agricultural Ecology 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the study of ecology from an agricultural perspective. Emphasizes ecological principles with examples and applications from agriculture.

### **ALS 4161 Exotic Species and Biosecurity Issues 3 Credits**

**Grading Scheme:** Letter Grade

Studies U.S. policies and programs affecting agricultural biosecurity as applied to current agricultural and extension and regulatory programs.

Emphasis is on policies and procedures used to detect and report non-indigenous species. Students will develop the analytical capabilities to assess the consequences of agricultural biosecurity threats.

**Prerequisite:** BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.

### **ALS 4162 Consequences of Biological Invasions 3 Credits**

**Grading Scheme:** Letter Grade

Non-native species invasions and environmental effects of these invaders. Students will develop analytical capabilities to assess the consequences of biological invasions.

**Prerequisite:** BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.

### **ALS 4163 Challenges in Plant Resource Protection 3 Credits**

**Grading Scheme:** Letter Grade

Applied training in the regulatory aspects of plant protection, using real-world case studies, scenarios and issues.

**Prerequisite:** BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.

**Corequisite:** HOS 3020C or ENY 3005/ENY 3005L or PLP 3002C.

### **ENY 1001 Bugs and People 3 Credits**

**Grading Scheme:** Letter Grade

Introduction for lower-division students who want to learn popular information about insects and associated organisms.

**Attributes:** General Education - Biological Science, General Education - International

### **ENY 2040 The Insects 3 Credits**

**Grading Scheme:** Letter Grade

Introduces insect biology, insect-organism interaction and insect association with man. Features discussion of basic biological principles using insects as examples. (B)

**Attributes:** General Education - Biological Science

### **ENY 2041C Practical Beekeeping 3 Credits**

**Grading Scheme:** Letter Grade

Establish colonies of european-derived honey bees and manage them to be healthy and productive;A hybrid approach combines online lectures and in-person field experiences.

### **ENY 2890 Using Insect Research to Understand the Nature of Scientific Engagement 3 Credits**

**Grading Scheme:** Letter Grade

A classroom undergraduate research experience (CURE) which bridges the divide between the classroom and the science laboratory and prepares for advanced opportunities in entomological science. become part of an entomology research team, collecting publishable data on insect evolution, ecology, and systematics.

### **ENY 3005 Principles of Entomology 2 Credits**

**Grading Scheme:** Letter Grade

Introduces principles of insect study, including insect structure, insect development, evolutionary insect history and its ecological significance. (B)

**Corequisite:** ENY 3005L.

**Attributes:** General Education - Biological Science

**ENY 3005L Principles of Entomology Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Provides practical laboratory experience working with insects, dissecting insects and preparing lab reports. Insect collection is required. (B)

**Corequisite:** ENY 3005.

**Attributes:** General Education - Biological Science

**ENY 3007C Life Science 3 Credits**

**Grading Scheme:** Letter Grade

Introduces insects and their interactions with man and the environment.

**ENY 3222C Biology and Identification of Urban Pests 3 Credits**

**Grading Scheme:** Letter Grade

Biology, behavior, ID and damage recognition of insect and vertebrate pests.

**Prerequisite:** ENY 3005 and ENY 3005L.

**ENY 3225C Principles of Urban Pest Management 3 Credits**

**Grading Scheme:** Letter Grade

Methods of controlling household, structural and occasional pests with emphasis placed on cockroaches, termites and fleas.

**Prerequisite:** ENY 3005 and ENY 3005L.

**ENY 3228 Urban Vertebrate Pest Management 2 Credits**

**Grading Scheme:** Letter Grade

The biology, ecology, health risks, exclusions and control of vertebrate pests in the urban environment.

**ENY 3451C Insect Behavior 3 Credits**

**Grading Scheme:** Letter Grade

Provides a theoretical and empirical overview of insect behavior, ranging from physiology underlying behavior to the evolution of behavioral diversity.

Focuses on recent and current research on insect behavior, the diversity of approaches for studying it, and how this knowledge can be applied to solve human challenges.

**Prerequisite:** ENY 1001 or ENY 2040 or ENY 3005 or BSC 2005 or BSC 2010, or instructor permission.

**ENY 3510C Turf and Ornamental Entomology 3 Credits**

**Grading Scheme:** Letter Grade

Biology, identification and management of arthropods that infect turfgrass and ornamental plants in urban landscape and in nurseries and greenhouses.

**ENY 3563 Introduction to Tropical Entomology 3 Credits**

**Grading Scheme:** Letter Grade

Natural history, ecology and behavior of tropical insects in natural and agroecosystems. Designed for students without previous experience in tropics.

**Prerequisite:** ENY 3005 and ENY 3005L.

**ENY 3564L Tropical Entomology Field Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

A 10-day trip to a tropical country to study the insect faunas of natural and agroecosystems. Each student is assigned a field project.

**Prerequisite:** ENY 3563.

**ENY 3830 Spider Biology 2 Credits**

**Grading Scheme:** Letter Grade

Introduces the biology of spiders and their relatives, with an emphasis on their ecology, behavior, and evolution. Learn to identify the members of approximately 20 common spider families as well as several common Florida species.

**Prerequisite:** sophomore standing.

**ENY 3830L Spider Biology Lab 1 Credit**

**Grading Scheme:** Letter Grade

Provides practical experience working with spiders, including field collection techniques, identification curation of spider specimens, and observing spider behavior. Spider collection is required.

**Prerequisite:** Sophomore standing or above

**Corequisite:** ENY 3830 or ZOO 4926

**ENY 4161 Insect Classification 3 Credits**

**Grading Scheme:** Letter Grade

Classification of major families of adult insects with emphasis on their identification, habitat and niche. A properly curated collection is required. (B)

**Prerequisite:** ENY 3005 and ENY 3005L.

**Attributes:** General Education - Biological Science

**ENY 4201 Insect Ecology 3 Credits**

**Grading Scheme:** Letter Grade

This course is an introduction to ecological concepts with emphasis on insects. The relationships of insects with their biotic and physical environments, along with the roles of insects in nature, will be emphasized. The basics of ecological research will be covered.

**Prerequisite:** BSC 2005 with a minimum grade of C or BSC 2010 with a minimum grade of C.

**ENY 4201L Insect Ecology Lab 1 Credit**

**Grading Scheme:** Letter Grade

Introduces ecological methods and analysis with emphasis on insects. Emphasizes methods to explore relationships of insects with their biotic and physical environments, along with the roles of insects in nature. Also covers the basics of ecological research.

**Prerequisite:** (BSC 2005 and BSC 2005L) or (BSC 2010 and BSC 2010L), all with minimum grades of C.

**Corequisite:** ENY 4201.

**ENY 4202 Ecology of Vector-Borne Disease 2 Credits**

**Grading Scheme:** Letter Grade

Introduces critical components of vector-borne disease systems and basic concepts inherent to disease ecology. Focuses on vector-borne diseases of humans and wildlife and how aspects of the environment and host/vector biology influence disease transmission. Topics include epidemiology, transmission models, and emerging diseases.

**Prerequisite:** BSC 2010 or equivalent.

**ENY 4208 Ecology and Conservation of Pollinators 3 Credits**

**Grading Scheme:** Letter Grade

Examines interactions between animals and the plants that they pollinate, current threats to pollinator populations, and the conservation of pollinators worldwide; explore these topics through readings, discussion, and a field research project.

**Prerequisite:** BSC 2010 and BSC 2010L or equivalents with minimum grades of C-, and junior standing or higher.

**ENY 4210 Insects and Wildlife 3 Credits**

**Grading Scheme:** Letter Grade

Introduces insects and other arthropods and their relationships with wild vertebrate animals.

**Prerequisite:** BSC 2005 or BSC 2010.

**ENY 4221 Termite Biology and Control 2 Credits**

**Grading Scheme:** Letter Grade

Taxonomy, identification, behavior, ecology and methods of control for the economically important termites in the New World.

**ENY 4230 Urban Pesticide Application 1-6 Credits**

**Grading Scheme:** Letter Grade

Practical work experience in urban pesticide application; study pest management problems on campus and in residences.

**Prerequisite:** ENY 3005 and ENY 3005L.

**ENY 4453 Behavioral Ecology and Systematics 3 Credits**

**Grading Scheme:** Letter Grade

Introduces behavioral ecology and systematics of insects. (B)

**Prerequisite:** ENY 3005 and ENY 3005L.

**Attributes:** General Education - Biological Science

**ENY 4455C Social Insects 3 Credits**

**Grading Scheme:** Letter Grade

Introduces social wasps, bees, ants and termites: their natural history; social behavior; division of labor, caste differentiation, evolution, identification and rearing. Laboratory involves live insects.

**ENY 4571 Honey Bee Biology 3 Credits**

**Grading Scheme:** Letter Grade

Provides an in-depth look into the fascinating world of honey bee biology. Explore topics including honey bee sociality, taxonomy, biogeography, behavior, anatomy, physiology, reproduction, nutrition and genetics. Additionally, these topics will be discussed via the paradigm of the honey bee superorganism.

**Prerequisite:** BSC 2005 or BSC 2010.

**ENY 4573 Beekeeping I 3 Credits**

**Grading Scheme:** Letter Grade

Examines the biology of honey bees and the craft of apiculture by exploring the life cycle of honey bees, biogeography, and evolution of beekeeping. Discusses equipment, techniques, management practices, pollination ecology, economic practices, and current issues within beekeeping.

**Prerequisite:** BSC 2005 or BSC 2010.

**ENY 4574 Beekeeping II 3 Credits****Grading Scheme:** Letter Grade

Provide more depth on topics introduced in ENY 4573, including beekeeping styles, colony stressors, and yearly management. Also explores issues affecting the beekeeping industry including integrated pest management, pests/diseases, African bees, commercial pollination, queen production, bee removals, and pesticides.

**Prerequisite:** ENY 4573.**ENY 4590C Mosquito Identification 3 Credits****Grading Scheme:** Letter Grade

Intensive, hands-on training on morphological features and the identification of adult and larval mosquito species that occur in North America.

**Prerequisite:** junior standing or higher.**ENY 4592 Mosquito Biology 3 Credits****Grading Scheme:** Letter Grade

This modular course covers six critical areas of mosquito biology; classification, natural history and ecology, physiology, population dynamics, mosquito-borne diseases and control of mosquitoes. Students will understand the fundamental processes governing mosquitoes and mosquito-borne diseases.

**Prerequisite:** junior standing or higher.**ENY 4660 Medical and Veterinary Entomology 2 Credits****Grading Scheme:** Letter Grade

Presents the major insect, mite and tick vectors of disease to man and animals. Topics includes arthropod-transmitted diseases, the interaction between pathogens and the arthropod vector, and the mechanical damage that a parasite inflicts on its host. (B)

**Prerequisite:** ENY 3005 and ENY 3005L.**Attributes:** General Education - Biological Science**ENY 4660L Medical and Veterinary Entomology Laboratory 1 Credit****Grading Scheme:** Letter Grade

Identifying mosquitoes, ticks, lice, fleas and other disease vectors. Insect collection required. (B)

**Corequisite:** ENY 4660.**Attributes:** General Education - Biological Science**ENY 4701 Forensic Entomology 3 Credits****Grading Scheme:** Letter Grade

The role of arthropods in decomposition, in criminal and civil investigations and the increasing importance of science on society. Material and discussions deal with death and some may consider course images and concepts disturbing.

**ENY 4823 Molecular Biology of Insects and Nematodes 3 Credits****Grading Scheme:** Letter Grade

Provides foundation knowledge of molecular biology, with emphasis on scientific discoveries from insects and nematodes. Presents information on the current innovations and trends of molecular technologies (e.g. high throughput sequencing, different types of omics, genome editing by CRISPR).

**Prerequisite:** BSC 2005, BSC 2010, ABE 2062, AGR 3303, ANS 3006, BCH 4024, ENY 2040, ENY 3005 or equivalent, or instructor permission.**ENY 4900 Supervised Extension Experience in Entomology and Nematology 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic extension experiences in entomology and nematology under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**ENY 4905 Problems in Entomology 1-5 Credits****Grading Scheme:** Letter Grade

Problems in any field of specialization in entomology and nematology.

**Prerequisite:** ENY 3005 and the basic course in selected specialization.**ENY 4911 Supervised Research in Entomology 0-3 Credits****Grading Scheme:** Letter Grade

Firsthand, authentic research in entomology under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

**ENY 4915 Honors Thesis Research in Entomology 0-3 Credits****Grading Scheme:** S/U

Independent research in entomology leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.**ENY 4932 Special Topics in Entomology and Nematology 1-3 Credits****Grading Scheme:** Letter Grade

Special topics in Entomology and Nematology.

**Prerequisite:** sophomore standing or higher.

**IPM 3022 Fundamentals of Pest Management 3 Credits**

**Grading Scheme:** Letter Grade

**IPM 4114 Insect Pest and Vector Management 3 Credits**

**Grading Scheme:** Letter Grade

Covers the principles and practices used in pest and vector management, and also emphasizes the arthropod pests affecting crop and ornamental plants, humans and livestock.

**Prerequisite:** Introductory course in entomology.

**IPM 4254 Landscape Integrated Pest Management: Ornamentals and Turf 3 Credits**

**Grading Scheme:** Letter Grade

Landscape pest pressure is influenced by many factors. The development of sound integrated pest management plans for landscapes focuses on identification of abiotic factors, weeds, insects, mites, pathogens and nematodes that occur on Florida landscape ornamentals, turfgrass and palms.

**Prerequisite:** ENY 3005 or NEM 3002 or PLP 3002C.

**NEM 3002 Principles of Nematology 3 Credits**

**Grading Scheme:** Letter Grade

Introduces nematology, including studies of morphology, life histories and control of the major nematode parasites of plants. Also includes studies of the bionomics of certain soil nematodes and nematode parasites of vertebrates and arthropods. (B)

**Attributes:** General Education - Biological Science

**NEM 4905 Problems in Nematology 1-4 Credits**

**Grading Scheme:** Letter Grade

Selected problems for study, research or discussion in nematology.

**NEM 4911 Supervised Research in Nematology 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic research in nematology under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**NEM 4915 Honors Thesis Research in Nematology 0-3 Credits**

**Grading Scheme:** S/U

Independent research in nematology leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

**PMA 4570C Field Techniques in IPM 2 Credits**

**Grading Scheme:** Letter Grade

**Prerequisite:** IPM 3022.

---

## Environmental Engineering Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The broad undergraduate environmental engineering curriculum of EES has earned the department a ranking as a leading undergraduate program. The ABET-accredited engineering bachelor's degree is comprehensively based on physical, chemical, and biological principles to solve environmental problems affecting air, land, and water resources. An advising scheme including select faculty, led by the undergraduate coordinator, guides each student through the program.

## Curriculum

- Combination Degrees
- Environmental Engineering

---

## Courses

### EES 3008 Energy and Environment 3 Credits

**Grading Scheme:** Letter Grade

Consideration of the energy basis for man and nature including principles of energy analysis, systems ecology and public policy. (P)

**Attributes:** General Education - Physical Science

### EES 3206 Environmental Chemistry 4 Credits

**Grading Scheme:** Letter Grade

Provides the fundamental knowledge needed to solve pollution problems specific to environmental systems by focusing primarily on thermodynamic equilibrium and kinetic principles associated with both natural and engineered systems.

**Prerequisite:** (CHM 2046 or CHM 2096) and MAC 2311.

### EES 4005C Ecological Engineering 3 Credits

**Grading Scheme:** Letter Grade

Application of ecological and engineering principles to natural resource management and problem solving.

**Prerequisite:** CHM 2046 or CHM 2096;

**Corequisite:** EES 4203.

### EES 4050 Environmental Planning and Design 3 Credits

**Grading Scheme:** Letter Grade

Principles and practices of environmental planning. Planning for and designing sustainable communities and regions. Exploration of quantitative methods for the evaluation of environmental impacts and analysis of carrying capacity of economic development. Exploration of theories of spatial and temporal organization of systems of humanity and nature.

### EES 4102 Wastewater Microbiology 2 Credits

**Grading Scheme:** Letter Grade

General concepts in microbiology and cell biology with major emphasis on the role of microorganisms in polluted environments. (B)

**Prerequisite:** CHM 2046.

**Attributes:** General Education - Biological Science

### EES 4201 Water Chemistry 3 Credits

**Grading Scheme:** Letter Grade

Kinetics and equilibrium of aqueous chemistry including acid-base, complexation, precipitation and redox equilibria. (P)

**Prerequisite:** CHM 2046 or CHM 2096 and MAC 2311 or MAC 2233.

**Attributes:** General Education - Physical Science

### EES 4203 Phase Partitioning in the Environment 4 Credits

**Grading Scheme:** Letter Grade

A study of the fate of organic pollutants in the environment through application of principles of organic chemistry and chemical thermodynamics, including phase partitioning between environmental media.

**Prerequisite:** CHM 2046 or CHM 2096.

### EES 4316 Industrial Ecology 3 Credits

**Grading Scheme:** Letter Grade

Linkage of industrial activity with environmental and social sciences. Corporate environmental management and environmental ethics. Resources, laws and economics. Environmental account. Industrial products and processes and life cycle assessments. Case studies of corporate environmental policies.

### EES 4401 Public Health Engineering 3 Credits

**Grading Scheme:** Letter Grade

Application of engineering principles to protect public health. Areas covered include water supply, waste treatment, air pollution, radiological health, occupational health, milk and food sanitation, vector control, solid wastes, and housing hygiene. (P)

**Attributes:** General Education - Physical Science

### EGN 4912 Engineering Directed Independent Research 0-3 Credits

**Grading Scheme:** S/U

Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**EGS 1005 Prep for Success 1-4 Credits**

**Grading Scheme:** S/U

Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)

**Prerequisite:** EG student.

**EMA 4535 Sustainable Nanotechnology 3 Credits**

**Grading Scheme:** Letter Grade

Increase in production and use of engineered nanomaterials (ENMs) raises concerns on their potential impacts on the environment and human health. The sustainable development of nanotechnology requires knowledge of life cycle and environmental fate/implications of ENMs. Focuses on linkages between ENMs properties and environmental implications.

**Prerequisite:** CHM 2046 or CHM 2047 or CHM 2096.

**ENV 2003 Introduction to Environmental Engineering 1 Credit**

**Grading Scheme:** S/U

Introduction to topics in environmental engineering, including water and air quality, sustainable materials management, and ecosystems.

**Prerequisite:** Environmental Engineering Sciences major.

**ENV 3000 Core 2: Fundamentals of Environmental Engineering 4 Credits**

**Grading Scheme:** Letter Grade

Fundamentals of environmental engineering, including water, air, materials, and ecological resources. Environmental laws and regulations that motivate environmental engineering practice. Theoretical approaches for quantifying fundamental environmental processes, interactions, impact, and risks. Build knowledge and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.

**Prerequisite:** ENV 3001.

**ENV 3001 Core 1: Introduction to Environmental Systems 4 Credits**

**Grading Scheme:** Letter Grade

Introduces environmental systems, including water, air, materials, and ecological resources with motivating case studies across topics and fundamental definitions, laws, and theories in environmental engineering sciences. Build a knowledge base and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.

**Prerequisite:** PHY 2048 & (CHM 2045 or CHM 2095) & MAC 2312 & EVE\_BS.

**ENV 3040C Computational Methods in Environmental Engineering 3 Credits**

**Grading Scheme:** Letter Grade

Numerical modeling techniques and their application to environmental engineering. Use of personal computers and spreadsheets to solve numerical models. Solution techniques include numerical methods and their implementation using R.

**Prerequisite:** COP 2271; any language.

**ENV 3930 Engineering Ethics and Environmental Justice 2 Credits**

**Grading Scheme:** Letter Grade

Intended for undergraduates majoring in environmental engineering. Lectures and discussion on topics in ethics and environmental justice as related to environmental engineering.

**Attributes:** General Education - Humanities

**ENV 4009 Core 5: Environmental Engineering Practice 4 Credits**

**Grading Scheme:** Letter Grade

Utilize fundamental and applied concepts in environmental engineering practice, including applications of ecological engineering, air pollution control, waste facilities design, and advanced water treatment processes. Build a knowledge base and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.

**Prerequisite:** ENV 4454.

**ENV 4041C Environmental Analysis 4 Credits**

**Grading Scheme:** Letter Grade

Theory and laboratory techniques for the analysis of air and water pollutants and basic concepts of ecosystems structure and analysis.

**Prerequisite:** CHM 2046 or CHM 2096.

**ENV 4101 Elements of Atmospheric Pollution 3 Credits**

**Grading Scheme:** Letter Grade

Sources, effects and regulation of air pollutants. Meteorology and dispersion of pollutants. Sampling and analysis of gaseous and particulate air pollutants. Photochemical air pollution and mobile sources. (P)

**Prerequisite:** EES 4203 and PHY 2049.

**Attributes:** General Education - Physical Science

**ENV 4121 Air Pollution Control Design 3 Credits**

**Grading Scheme:** Letter Grade

Principles of particulate and gaseous emission control; design and operation of particulate and gas control equipment to meet federal emission standards.

**Prerequisite:** ENV 4101.

**ENV 4300 Solid Waste Containment Design 3 Credits**

**Grading Scheme:** Letter Grade

Design fundamentals of solid and hazardous waste landfills, waste piles, monofills and surface impoundments. Regulations, site requirements, sizing, liner design, leachate and gas management system design, operations and closure.

**Prerequisite:** ENV 4351;

**Corequisite:** ENV 4561 or CWR 4202.

**ENV 4351 Solid and Hazardous Waste Management 4 Credits**

**Grading Scheme:** Letter Grade

Generation of solid and hazardous wastes. Collection, methods, equipment, costs and disposal. Rules, regulations and management systems for proper control of solid and hazardous wastes. Evaluation of engineering systems to minimize costs and regulatory problems. (P)

**Prerequisite:** EES 4201.

**Attributes:** General Education - Physical Science

**ENV 4353 Solid Waste Systems Design 3 Credits**

**Grading Scheme:** Letter Grade

A capstone design experience focusing on the design of solid waste management systems such as landfills, waste-to-energy facilities, compost operations, recycling facilities and hazardous waste treatment/storage/disposal facilities.

**Prerequisite:** ENV 4351.

**ENV 4405 Nutrient Control and Water Reuse 3 Credits**

**Grading Scheme:** Letter Grade

Biological and physicochemical processes for advanced treatment of municipal wastewater. Reuse guidelines and applications.

**ENV 4411 Stormwater Control Systems 3 Credits**

**Grading Scheme:** Letter Grade

Chemical, physical, biological and hydrologic aspects of rainfall runoff and control through unit operations and processes (UOPs). Stormwater physical and chemical loads. Interactions between hydrologic processes, water chemistry, sediment transport, infrastructure materials and UOPs for treatment and reuse.

**Prerequisite:** EES 4201 or instructor permission.

**ENV 4430 Water Treatment Process Design 3 Credits**

**Grading Scheme:** Letter Grade

Design of selected water treatment processes including disinfection, air stripping, adsorption, ion exchange and membrane processes.

**Prerequisite:** ENV 4514C and EES 4201.

**ENV 4432 Potable Water System Design 3 Credits**

**Grading Scheme:** Letter Grade

Design of conventional water treatment operations, including reactor design, coagulation, flocculation, mixing, sedimentation, filtration, softening, disinfection and sludge management.

**Prerequisite:** EES 4201 and ENV 4514C.

**ENV 4453 Core 3: Processes in Environmental Engineering 4 Credits**

**Grading Scheme:** Letter Grade

Theoretical and applied knowledge in environmental engineering processes across the air, water, and solid phases. Quantitative tools for describing materials and energy flows and transformations. Build a knowledge base and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.

**Prerequisite:** ENV 3000.

**ENV 4454 Core 4: Environmental Engineering Applications 4 Credits**

**Grading Scheme:** Letter Grade

Application of fundamental concepts and laws to design, assess, and predict outcomes in environmental engineering systems handling water, air, materials, and ecosystems. Build a knowledge base and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.

**Prerequisite:** ENV 4453.

**ENV 4501 Environmental Hydrology 1 3 Credits**

**Grading Scheme:** Letter Grade

Surface and atmospheric hydrology. Hydrologic processes controlling streamflow events. Practical application to stormwater management.

**Prerequisite:** ENV 3040C and (STA 3032 or STA 2023) and (CWR 3201 or EGN 3353C).

**ENV 4506 Environmental Hydrology 2 3 Credits**

**Grading Scheme:** Letter Grade

Subsurface hydrology. Properties of porous media governing flow and chemical transport in the subsurface. Environmental site evaluation methods.

**Prerequisite:** ENV 3040C and (CWR 3201 or EGN 3353C).

**ENV 4514C Water and Wastewater Treatment 3 Credits**

**Grading Scheme:** Letter Grade

Design of water and wastewater treatment units.

**ENV 4532 Wastewater System Design 3 Credits**

**Grading Scheme:** Letter Grade

Detailed design and layout of gravity wastewater collection systems, pumping facilities, force mains, and a wastewater treatment plant. Emphasis on the preparation of design drawings and estimating costs.

**Prerequisite:** ENV 4514C;

**Corequisite:** ENV 4561 or CWR 4202.

**ENV 4545 Environmental Hydrology 4 Credits**

**Grading Scheme:** Letter Grade

Atmospheric, surface, subsurface hydrology and interactions as part of the water cycle. Properties of natural and anthropogenic surfaces and porous media governing flow and transport.

**Prerequisite:** (ENV 3040C or CGN 3421) and (CWR 3201 or EGN 3353C).

**ENV 4601 Environmental Resources Management 3 Credits**

**Grading Scheme:** Letter Grade

Theory and application of engineering economics and systems analysis to the design of environmental management systems.

**Prerequisite:** ENV 3001.

**ENV 4892 Environmental Engineering Design 1 3 Credits**

**Grading Scheme:** Letter Grade

First semester of a two-semester capstone design experience where environmental engineering seniors work in teams on an actual project. Projects encourage creativity, innovation, curiosity, and educational foundation to solve complex real-world problems.

**Prerequisite:** ENV 4453.

**ENV 4893 Environmental Engineering Design 2 3 Credits**

**Grading Scheme:** Letter Grade

Second semester of the capstone design experience where environmental engineering seniors work in teams on an actual project. Projects encourage creativity, innovation, curiosity, and educational foundation to solve complex real-world problems.

**Prerequisite:** ENV 4892.

**ENV 4905 Individual Studies in Environmental Engineering Sciences 1-4 Credits**

**Grading Scheme:** Letter Grade

Selected problems or projects in the student's major field of study.

**ENV 4912 Integrated Product and Process Design 1: Environmental Engineering Sciences 3 Credits**

**Grading Scheme:** Letter Grade

The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.

**Prerequisite:** ENV 4514C;

**Corequisite:** ENV 4121 or ENV 4351.

**ENV 4913 Integrated Product and Process Design 2: Environmental Engineering Sciences 3 Credits**

**Grading Scheme:** Letter Grade

The second part of the sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.

**Prerequisite:** ENV 4912.

**ENV 4932 Special Problems in Environmental Engineering Sciences 1-4 Credits**

**Grading Scheme:** Letter Grade

Special problems in environmental engineering science.

**ENV 4949 Environmental Engineering Internship/Co-op 1-3 Credits**

**Grading Scheme:** S/U

Practical internship/co-op work experience under approved industrial supervision. (S/U)

**Prerequisite:** Engineering major.

### Curriculum

- Environmental Horticulture Management Certificate
- Environmental Horticulture Minor
- Horticultural Therapy Certificate

---

## Courses

### BCH 3023 Elementary Organic and Biological Chemistry 3 Credits

**Grading Scheme:** Letter Grade

Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.

**Prerequisite:** CHM 2046 or CHM 2047.

### EVR 3323 Introduction to Ecosystem Restoration 4 Credits

**Grading Scheme:** Letter Grade

Restoration theory and planning, disturbed land reclamation, woodland/wetland/river restoration, invasive species, community involvement, and monitoring, and emphasizes plant selection, establishment and maintenance.

**Corequisite:** BOT 2010C or BSC 2010, or instructor permission.

### HOS 2002C Introductory Medicinal Plants 3 Credits

**Grading Scheme:** Letter Grade

Survey series of plants across the globe used in traditional and modern medicines to improve human health; learn about ethnobotany, several examples of plant-derived drugs and their metabolite classes at a basic level for non-experts along with underlying scientific evidence. Hands-on-activities demonstrate medicinal properties of plant extracts and tours of medicinal plants around UF main campus and greenhouses to experience live plants.

### HOS 3305 Introduction to Plant Molecular Biology 3 Credits

**Grading Scheme:** Letter Grade

Introduces plant molecular biology and genetic engineering, emphasizing plant genes and genomes, transformation of plants and basic molecular biology.

**Prerequisite:** APB 2150 or BOT 2010C or BSC 2010.

### LDE 3410C Residential Landscape Design 3 Credits

**Grading Scheme:** Letter Grade

Basics of residential landscape design including preparation, evaluation and implementation of simple landscape plans. Emphasizes the use of ornamental plants for functional and aesthetic improvement of home environments. Expect to attend one or two Saturday field trips.

**Prerequisite:** junior standing or higher.

**LDE 4404C Advanced Residential Landscape Design 3 Credits**

**Grading Scheme:** Letter Grade

Sustainable landscape design concepts and practices to create regenerative and resilient residential landscapes that demonstrate advanced design skills and knowledge.

**Prerequisite:** LDE 3410C or LAA 2360C.

**ORH 1030 Plants, Gardening and You 1 Credit**

**Grading Scheme:** Letter Grade

A non-majors overview of environmental horticulture that emphasizes the art and science of growing, installing and maintaining plants used to enhance and improve the human environment indoors and outdoors. Gain familiarity with the science and the industries associated with environmental horticulture.

**ORH 1283 Survey of Orchids 1 Credit**

**Grading Scheme:** Letter Grade

Overview of the complexities of the orchid family, how selected genera are produced and the potential these plants offer to commercial nursery operators and hobbyists for profit or enjoyment.

**ORH 2752 Sensory Gardening 2 Credits**

**Grading Scheme:** Letter Grade

Hands-on, multidisciplinary approach to environmental horticulture delivered through the context of the human senses. Class activities, assignments, and projects enhance awareness and understanding of how horticulture relates to the natural and built world, as well as the ways in which people perceive those worlds.

**ORH 3222C Turfgrass Culture 4 Credits**

**Grading Scheme:** Letter Grade

Comparisons of turfgrass for their landscape and recreational uses. Covers growth characteristics, method of propagation, and basic management requirements, including control of important pest problems.

**Prerequisite:** (BOT 2010C or BSC 2010) and CHM 1025.

**ORH 3253C Introductory Nursery Management 4 Credits**

**Grading Scheme:** Letter Grade

Introduces the principles of planning, organizing and managing nursery operations. Emphasizes interactions between growing medium components, plant nutrition and irrigation. Nursery layout, growing structures, materials requirements and business practices are covered. Weekend field trips may be required.

**ORH 3324 Palm Short Course 1 Credit**

**Grading Scheme:** Letter Grade

Overview of how palm plants grow and how to diagnose and interpret problems with palm plants.

**Prerequisite:** BOT 2010C or instructor permission.

**ORH 3513 Environmental Plant Identification and Use 2 Credits**

**Grading Scheme:** Letter Grade

Identification, growth characteristics, culture and use of common landscape and greenhouse plants. Materials include trees, shrubs, vines, ground covers, lawn grasses and floriculture crops. Emphasizes temperate plants. Taught off campus.

**Corequisite:** ORH 3513L.

**ORH 3513C Environmental Plant Identification and Use 3 Credits**

**Grading Scheme:** Letter Grade

Combines lecture and laboratory for identification, growth characteristics, culture and use of common landscape and greenhouse plants. Materials include trees, shrubs, vines, ground covers, lawn grasses and floriculture crops. Emphasizes temperate plants. Taught on UF campus. (B)

**Attributes:** General Education - Biological Science

**ORH 3513L Environmental Plant Identification and Use Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Introductory, upper-division environmental laboratory course. Identify commonly used landscape plants, their use and their characteristics. Taught off campus.

**Corequisite:** ORH 3513.

**ORH 3773 Public Gardens 2 Credits**

**Grading Scheme:** Letter Grade

Operation and management of public gardens, including community and amusement parks, nature preserves, botanical gardens, arboreta, and zoological gardens. Explore issues relevant to principles and practices of management and psychological and sociological benefits of gardens and green spaces.

**Prerequisite:** ORH 3513C.

**ORH 3773L Public Gardens Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

First-hand observation and evaluation of public gardens and parks to illustrate the management of such, as was discussed in ORH 3773. Consists of field trips to various botanical gardens, zoos and amusement parks.

**Corequisite:** ORH 3773.

**ORH 3815C Florida Native Landscaping 3 Credits**

**Grading Scheme:** Letter Grade

An upper-division, environmental horticulture course designed to introduce students with a plant science background to the nomenclature, effective utilization and design elements of plants native to Florida.

**Prerequisite:** junior standing.

**ORH 4223 Golf and Sports Turf Management 2 Credits**

**Grading Scheme:** Letter Grade

Strategies involved in golf course and athletic field operations, including development of management cultural practices, adherence to environment regulations, personnel management and budgeting. Students may be expected to attend Saturday field trips.

**Prerequisite:** ORH 3222C.

**ORH 4236C Ornamental Landscape Management 3 Credits**

**Grading Scheme:** Letter Grade

Provide foundational knowledge and the skills needed to successfully manage and maintain residential and commercial landscapes. Additionally, provides students with a greater understanding of the landscape management industry and familiarizes students with sustainable landscape management techniques.

**Prerequisite:** ORH 3222C.

**ORH 4242C Arboriculture 4 Credits**

**Grading Scheme:** Letter Grade

Introduces urban trees: biology, management requirements, design of urban spaces for trees, site modifications and construction techniques, tree selection, installation techniques, establishing trees in adverse sites, tree pruning and related tree management practices. A written tree management plan is required.

**Prerequisite:** ORH 3513C.

**ORH 4256 Nutritional Management of Nursery Crops 3 Credits**

**Grading Scheme:** Letter Grade

Techniques for determining, interpreting and managing the nutritional status of container grown greenhouse and nursery crops. Includes water quality, substrate physical and chemical parameters, irrigation and fertilization practices.

**ORH 4264 Greenhouse and Nursery Crop Culture 3 Credits**

**Grading Scheme:** Letter Grade

Principles and practices used for commercial production of economically important environmental horticulture crops.

**ORH 4264L Greenhouse and Nursery Crop Culture Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Advanced hands-on laboratory growing a wide range of greenhouse plants through the application of crop cultural practices discussed in lecture.

**Prerequisite:** ORH 3513C;

**Corequisite:** ORH 4264.

**ORH 4280 Orchidology 3 Credits**

**Grading Scheme:** Letter Grade

Principles and practices involved in the production of orchid plants and flowers, including nomenclature, breeding, seed culture, harvesting and handling.

**Prerequisite:** BOT 2011C or BSC 2011.

**ORH 4804 Annual and Perennial Gardening 2 Credits**

**Grading Scheme:** Letter Grade

Identification, selection, use and management of annuals, perennials, vines, ornamental grasses and ground covers in the landscape. Hands-on care for plants in the outdoor laboratory. Learn the irrigation, fertilization, pruning and cultural needs of these popular plants. Laboratory complements lecture.

**Prerequisite:** BOT 2010C or BSC 2010.

**ORH 4804C Annual and Perennial Gardening 3 Credits**

**Grading Scheme:** Letter Grade

Identification, selection, use and management of annuals, perennials, vines, ornamental grasses and ground covers in the landscape. Hands-on care for plants in the outdoor laboratory. Learn the irrigation, fertilization, pruning and cultural needs of these popular plants. Laboratory complements lecture.

**Prerequisite:** Junior standing.

**ORH 4804L Annual and Perennial Gardening Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Taxonomy of ornamental landscape annuals and perennials. Site evaluation, diagnostics, preparation, installation and maintenance of the color portion of commercial and residential landscaping.

**Prerequisite:** BOT 2010C or BSC 2010;

**Corequisite:** ORH 4804.

**ORH 4848 Landscape Plant Establishment 2 Credits**

**Grading Scheme:** Letter Grade

Techniques for selecting and installing plants, building decks and patios, walls, trellises, landscape lighting, irrigation, water gardens and other landscape elements. Prepare balance sheets, bid specifications and contracts and perform landscape installations from completed landscape plants.

**ORH 4900 Supervised Extension Experience in Environmental Horticulture 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**ORH 4905 Independent Study of Environmental Horticulture 1-5 Credits**

**Grading Scheme:** Letter Grade

Three topics for independent study: a research investigation and review of literature, drafting of proposal, conducting an experiment, collection of data, summation and interpretation of results and preparation of a report; a library or studio assignment, including analysis of several sources of information on a specific topic with a written evaluation and list of conclusions; or assist in teaching a laboratory of selected courses in environmental horticulture.

**ORH 4911 Supervised Research in Environmental Horticulture 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic research in environmental horticulture under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**ORH 4915 Honors Thesis Research in Environmental Horticulture 0-3 Credits**

**Grading Scheme:** S/U

Independent research in environmental horticulture leading to an honors thesis. Student are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

**ORH 4932 Special Topics in Environmental Horticulture 1-4 Credits**

**Grading Scheme:** Letter Grade

Topics of current interest concerning environmental plants.

**ORH 4933 Professional Seminar in Environmental Horticulture 1 Credit**

**Grading Scheme:** Letter Grade

A senior-level course for students seeking career opportunities in environmental horticulture. Special emphasis is placed on the expectations of and the relevant issues facing the landscape plant production, landscape management and turfgrass industries. Field trips and attendance at selected commercial trade shows are mandatory.

**Prerequisite:** AEC 3030C and AEC 3033C and ORH 3513C.

**ORH 4941 Practical Work Experience 1-3 Credits**

**Grading Scheme:** S/U

Practical work must be a new experience and related to student's field of study. A written and oral report is required. (S-U)

**Prerequisite:** previous arrangement with advisor and department chair and dean permission.

**PLS 3080 Introduction to Horticultural Therapy 3 Credits**

**Grading Scheme:** Letter Grade

Examine the profession and practice of horticultural therapy including its history, current state, and relevant literature and theories. Explore peopleplant relationships, therapeutic methods and benefits, and populations served, as well as being introduced to existing programs and the role of therapeutic gardens.

**Prerequisite:** sophomore standing or higher.

**PLS 3223 Plant Propagation 2 Credits**

**Grading Scheme:** Letter Grade

Principles, practices and physiological aspects of the propagation of horticultural and agronomic crops by cuttage, graftage, seedage, micropropagation and other methods.

**Prerequisite:** BOT 2010C or BSC 2010;

**Corequisite:** PLS 3223L.

**PLS 3223L Plant Propagation Laboratory 1 Credit****Grading Scheme:** Letter Grade

Methods of propagating by seeds, bulbs, divisions, layering, cuttings, budding, grafting and micropropagation in a hands-on environment.

**Prerequisite:** BOT 2010C or BSC 2010.**PLS 4081 Techniques in Horticultural Therapy 3 Credits****Grading Scheme:** Letter Grade

Examine the effectiveness of horticultural therapy across a diverse range of client populations, programs, and environments, and the physical, cognitive, and psychosocial implications. Explore therapeutic, vocational, and social modalities employing plants, as well as task analysis, activity analysis and tool and site adaptations.

**Prerequisite:** PLS 3080 with a minimum grade of C.**PLS 4082 Program Management in Horticultural Therapy 3 Credits****Grading Scheme:** Letter Grade

Learn to develop, manage, and evaluate horticultural therapy programs in diverse environments. Explore strategies for program proposals and funding, along with recruitment of clients and required regulations and documentation. Discuss staff and volunteer management, as well as plant materials, gardens, and other program resources.

**Prerequisite:** PLS 3080 and PLS 4081 with minimum grades of C.**PLS 4105 Genome Editing and Plant Biotechnology 3 Credits****Grading Scheme:** Letter Grade

Plant biotechnology is one of the most prolific and influential areas of the plant sciences. This upper level undergraduate course will be focused on modern biotechnological tools and applications that have resulted in great advances for agriculture and society.

**Prerequisite:** PLS 3004C and AGR 3303.**PLS 4242C Micropropagation of Horticultural Crops 4 Credits****Grading Scheme:** Letter Grade

Lectures and laboratory exercises emphasizing the practical application of plant tissue culture for the clonal propagation of horticultural crops. Emphasis on aseptic technique, culture methodology and micropropagation systems development.

**Prerequisite:** ORH 3513C recommended.**PLS 4941 Practical Work Experience 1-3 Credits****Grading Scheme:** S/U

Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student's field of study. One month of full-time work is required for each credit.

**Prerequisite:** Plant Science major of junior standing or higher.**PLS 4950 Plant Science Capstone 3 Credits****Grading Scheme:** Letter Grade

Identify a problem or topic in plant sciences and develop a poster presentation about this problem or topic. This course discusses the following topics: how to develop a hypothesis, how to complete a reliable literature review, the importance of peer review and how to present results and findings.

**Prerequisite:** PLS 3004C and PLS 4941 One year of employment experience in plant science may be substituted for PLS 4941 with instructor permission.

---

## Environmental Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.

**Website** (<http://snre.ifas.ufl.edu/>)

## Courses

### **BCH 3023 Elementary Organic and Biological Chemistry 3 Credits**

**Grading Scheme:** Letter Grade

Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.

**Prerequisite:** CHM 2046 or CHM 2047.

### **EVR 3323 Introduction to Ecosystem Restoration 4 Credits**

**Grading Scheme:** Letter Grade

Restoration theory and planning, disturbed land reclamation, woodland/wetland/river restoration, invasive species, community involvement, and monitoring, and emphasizes plant selection, establishment and maintenance.

**Corequisite:** BOT 2010C or BSC 2010, or instructor permission.

### **HOS 2002C Introductory Medicinal Plants 3 Credits**

**Grading Scheme:** Letter Grade

Survey series of plants across the globe used in traditional and modern medicines to improve human health; learn about ethnobotany, several examples of plant-derived drugs and their metabolite classes at a basic level for non-experts along with underlying scientific evidence. Hands-on-activities demonstrate medicinal properties of plant extracts and tours of medicinal plants around UF main campus and greenhouses to experience live plants.

### **HOS 3305 Introduction to Plant Molecular Biology 3 Credits**

**Grading Scheme:** Letter Grade

Introduces plant molecular biology and genetic engineering, emphasizing plant genes and genomes, transformation of plants and basic molecular biology.

**Prerequisite:** APB 2150 or BOT 2010C or BSC 2010.

### **LDE 3410C Residential Landscape Design 3 Credits**

**Grading Scheme:** Letter Grade

Basics of residential landscape design including preparation, evaluation and implementation of simple landscape plans. Emphasizes the use of ornamental plants for functional and aesthetic improvement of home environments. Expect to attend one or two Saturday field trips.

**Prerequisite:** junior standing or higher.

### **LDE 4404C Advanced Residential Landscape Design 3 Credits**

**Grading Scheme:** Letter Grade

Sustainable landscape design concepts and practices to create regenerative and resilient residential landscapes that demonstrate advanced design skills and knowledge.

**Prerequisite:** LDE 3410C or LAA 2360C.

### **ORH 1030 Plants, Gardening and You 1 Credit**

**Grading Scheme:** Letter Grade

A non-majors overview of environmental horticulture that emphasizes the art and science of growing, installing and maintaining plants used to enhance and improve the human environment indoors and outdoors. Gain familiarity with the science and the industries associated with environmental horticulture.

### **ORH 1283 Survey of Orchids 1 Credit**

**Grading Scheme:** Letter Grade

Overview of the complexities of the orchid family, how selected genera are produced and the potential these plants offer to commercial nursery operators and hobbyists for profit or enjoyment.

### **ORH 2752 Sensory Gardening 2 Credits**

**Grading Scheme:** Letter Grade

Hands-on, multidisciplinary approach to environmental horticulture delivered through the context of the human senses. Class activities, assignments, and projects enhance awareness and understanding of how horticulture relates to the natural and built world, as well as the ways in which people perceive those worlds.

**ORH 3222C Turfgrass Culture 4 Credits**

**Grading Scheme:** Letter Grade

Comparisons of turfgrass for their landscape and recreational uses. Covers growth characteristics, method of propagation, and basic management requirements, including control of important pest problems.

**Prerequisite:** (BOT 2010C or BSC 2010) and CHM 1025.

**ORH 3253C Introductory Nursery Management 4 Credits**

**Grading Scheme:** Letter Grade

Introduces the principles of planning, organizing and managing nursery operations. Emphasizes interactions between growing medium components, plant nutrition and irrigation. Nursery layout, growing structures, materials requirements and business practices are covered. Weekend field trips may be required.

**ORH 3324 Palm Short Course 1 Credit**

**Grading Scheme:** Letter Grade

Overview of how palm plants grow and how to diagnose and interpret problems with palm plants.

**Prerequisite:** BOT 2010C or instructor permission.

**ORH 3513 Environmental Plant Identification and Use 2 Credits**

**Grading Scheme:** Letter Grade

Identification, growth characteristics, culture and use of common landscape and greenhouse plants. Materials include trees, shrubs, vines, ground covers, lawn grasses and floriculture crops. Emphasizes temperate plants. Taught off campus.

**Corequisite:** ORH 3513L.

**ORH 3513C Environmental Plant Identification and Use 3 Credits**

**Grading Scheme:** Letter Grade

Combines lecture and laboratory for identification, growth characteristics, culture and use of common landscape and greenhouse plants. Materials include trees, shrubs, vines, ground covers, lawn grasses and floriculture crops. Emphasizes temperate plants. Taught on UF campus. (B)

**Attributes:** General Education - Biological Science

**ORH 3513L Environmental Plant Identification and Use Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Introductory, upper-division environmental laboratory course. Identify commonly used landscape plants, their use and their characteristics. Taught off campus.

**Corequisite:** ORH 3513.

**ORH 3773 Public Gardens 2 Credits**

**Grading Scheme:** Letter Grade

Operation and management of public gardens, including community and amusement parks, nature preserves, botanical gardens, arboreta, and zoological gardens. Explore issues relevant to principles and practices of management and psychological and sociological benefits of gardens and green spaces.

**Prerequisite:** ORH 3513C.

**ORH 3773L Public Gardens Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

First-hand observation and evaluation of public gardens and parks to illustrate the management of such, as was discussed in ORH 3773. Consists of field trips to various botanical gardens, zoos and amusement parks.

**Corequisite:** ORH 3773.

**ORH 3815C Florida Native Landscaping 3 Credits**

**Grading Scheme:** Letter Grade

An upper-division, environmental horticulture course designed to introduce students with a plant science background to the nomenclature, effective utilization and design elements of plants native to Florida.

**Prerequisite:** junior standing.

**ORH 4223 Golf and Sports Turf Management 2 Credits**

**Grading Scheme:** Letter Grade

Strategies involved in golf course and athletic field operations, including development of management cultural practices, adherence to environment regulations, personnel management and budgeting. Students may be expected to attend Saturday field trips.

**Prerequisite:** ORH 3222C.

**ORH 4236C Ornamental Landscape Management 3 Credits**

**Grading Scheme:** Letter Grade

Provide foundational knowledge and the skills needed to successfully manage and maintain residential and commercial landscapes. Additionally, provides students with a greater understanding of the landscape management industry and familiarizes students with sustainable landscape management techniques.

**Prerequisite:** ORH 3222C.

**ORH 4242C Arboriculture 4 Credits**

**Grading Scheme:** Letter Grade

Introduces urban trees: biology, management requirements, design of urban spaces for trees, site modifications and construction techniques, tree selection, installation techniques, establishing trees in adverse sites, tree pruning and related tree management practices. A written tree management plan is required.

**Prerequisite:** ORH 3513C.

**ORH 4256 Nutritional Management of Nursery Crops 3 Credits**

**Grading Scheme:** Letter Grade

Techniques for determining, interpreting and managing the nutritional status of container grown greenhouse and nursery crops. Includes water quality, substrate physical and chemical parameters, irrigation and fertilization practices.

**ORH 4264 Greenhouse and Nursery Crop Culture 3 Credits**

**Grading Scheme:** Letter Grade

Principles and practices used for commercial production of economically important environmental horticulture crops.

**ORH 4264L Greenhouse and Nursery Crop Culture Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Advanced hands-on laboratory growing a wide range of greenhouse plants through the application of crop cultural practices discussed in lecture.

**Prerequisite:** ORH 3513C;

**Corequisite:** ORH 4264.

**ORH 4280 Orchidology 3 Credits**

**Grading Scheme:** Letter Grade

Principles and practices involved in the production of orchid plants and flowers, including nomenclature, breeding, seed culture, harvesting and handling.

**Prerequisite:** BOT 2011C or BSC 2011.

**ORH 4804 Annual and Perennial Gardening 2 Credits**

**Grading Scheme:** Letter Grade

Identification, selection, use and management of annuals, perennials, vines, ornamental grasses and ground covers in the landscape. Hands-on care for plants in the outdoor laboratory. Learn the irrigation, fertilization, pruning and cultural needs of these popular plants. Laboratory complements lecture.

**Prerequisite:** BOT 2010C or BSC 2010.

**ORH 4804C Annual and Perennial Gardening 3 Credits**

**Grading Scheme:** Letter Grade

Identification, selection, use and management of annuals, perennials, vines, ornamental grasses and ground covers in the landscape. Hands-on care for plants in the outdoor laboratory. Learn the irrigation, fertilization, pruning and cultural needs of these popular plants. Laboratory complements lecture.

**Prerequisite:** Junior standing.

**ORH 4804L Annual and Perennial Gardening Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Taxonomy of ornamental landscape annuals and perennials. Site evaluation, diagnostics, preparation, installation and maintenance of the color portion of commercial and residential landscaping.

**Prerequisite:** BOT 2010C or BSC 2010;

**Corequisite:** ORH 4804.

**ORH 4848 Landscape Plant Establishment 2 Credits**

**Grading Scheme:** Letter Grade

Techniques for selecting and installing plants, building decks and patios, walls, trellises, landscape lighting, irrigation, water gardens and other landscape elements. Prepare balance sheets, bid specifications and contracts and perform landscape installations from completed landscape plants.

**ORH 4900 Supervised Extension Experience in Environmental Horticulture 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**ORH 4905 Independent Study of Environmental Horticulture 1-5 Credits**

**Grading Scheme:** Letter Grade

Three topics for independent study: a research investigation and review of literature, drafting of proposal, conducting an experiment, collection of data, summation and interpretation of results and preparation of a report; a library or studio assignment, including analysis of several sources of information on a specific topic with a written evaluation and list of conclusions; or assist in teaching a laboratory of selected courses in environmental horticulture.

**ORH 4911 Supervised Research in Environmental Horticulture 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic research in environmental horticulture under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**ORH 4915 Honors Thesis Research in Environmental Horticulture 0-3 Credits****Grading Scheme:** S/U

Independent research in environmental horticulture leading to an honors thesis. Student are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

**ORH 4932 Special Topics in Environmental Horticulture 1-4 Credits****Grading Scheme:** Letter Grade

Topics of current interest concerning environmental plants.

**ORH 4933 Professional Seminar in Environmental Horticulture 1 Credit****Grading Scheme:** Letter Grade

A senior-level course for students seeking career opportunities in environmental horticulture. Special emphasis is placed on the expectations of and the relevant issues facing the landscape plant production, landscape management and turfgrass industries. Field trips and attendance at selected commercial trade shows are mandatory.

**Prerequisite:** AEC 3030C and AEC 3033C and ORH 3513C.

**ORH 4941 Practical Work Experience 1-3 Credits****Grading Scheme:** S/U

Practical work must be a new experience and related to student's field of study. A written and oral report is required. (S-U)

**Prerequisite:** previous arrangement with advisor and department chair and dean permission.

**PLS 3080 Introduction to Horticultural Therapy 3 Credits****Grading Scheme:** Letter Grade

Examine the profession and practice of horticultural therapy including its history, current state, and relevant literature and theories. Explore people/plant relationships, therapeutic methods and benefits, and populations served, as well as being introduced to existing programs and the role of therapeutic gardens.

**Prerequisite:** sophomore standing or higher.

**PLS 3223 Plant Propagation 2 Credits****Grading Scheme:** Letter Grade

Principles, practices and physiological aspects of the propagation of horticultural and agronomic crops by cuttage, graftage, seedage, micropropagation and other methods.

**Prerequisite:** BOT 2010C or BSC 2010;

**Corequisite:** PLS 3223L.

**PLS 3223L Plant Propagation Laboratory 1 Credit****Grading Scheme:** Letter Grade

Methods of propagating by seeds, bulbs, divisions, layering, cuttings, budding, grafting and micropropagation in a hands-on environment.

**Prerequisite:** BOT 2010C or BSC 2010.

**PLS 4081 Techniques in Horticultural Therapy 3 Credits****Grading Scheme:** Letter Grade

Examine the effectiveness of horticultural therapy across a diverse range of client populations, programs, and environments, and the physical, cognitive, and psychosocial implications. Explore therapeutic, vocational, and social modalities employing plants, as well as task analysis, activity analysis and tool and site adaptations.

**Prerequisite:** PLS 3080 with a minimum grade of C.

**PLS 4082 Program Management in Horticultural Therapy 3 Credits****Grading Scheme:** Letter Grade

Learn to develop, manage, and evaluate horticultural therapy programs in diverse environments. Explore strategies for program proposals and funding, along with recruitment of clients and required regulations and documentation. Discuss staff and volunteer management, as well as plant materials, gardens, and other program resources.

**Prerequisite:** PLS 3080 and PLS 4081 with minimum grades of C.

**PLS 4105 Genome Editing and Plant Biotechnology 3 Credits****Grading Scheme:** Letter Grade

Plant biotechnology is one of the most prolific and influential areas of the plant sciences. This upper level undergraduate course will be focused on modern biotechnological tools and applications that have resulted in great advances for agriculture and society.

**Prerequisite:** PLS 3004C and AGR 3303.

**PLS 4242C Micropropagation of Horticultural Crops 4 Credits**

**Grading Scheme:** Letter Grade

Lectures and laboratory exercises emphasizing the practical application of plant tissue culture for the clonal propagation of horticultural crops. Emphasis on aseptic technique, culture methodology and micropropagation systems development.

**Prerequisite:** ORH 3513C recommended.

**PLS 4941 Practical Work Experience 1-3 Credits**

**Grading Scheme:** S/U

Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student's field of study. One month of full-time work is required for each credit.

**Prerequisite:** Plant Science major of junior standing or higher.

**PLS 4950 Plant Science Capstone 3 Credits**

**Grading Scheme:** Letter Grade

Identify a problem or topic in plant sciences and develop a poster presentation about this problem or topic. This course discusses the following topics: how to develop a hypothesis, how to complete a reliable literature review, the importance of peer review and how to present results and findings.

**Prerequisite:** PLS 3004C and PLS 4941 One year of employment experience in plant science may be substituted for PLS 4941 with instructor permission.

### Curriculum

- East-Central European Studies Minor
- European Union Studies Certificate
- European Union Studies Minor
- Medieval and Early Modern Studies | IDS

---

## Courses

**EUS 2001 European Experience: a Humanities Perspective 3 Credits**

**Grading Scheme:** Letter Grade

Introductory interdisciplinary study of contemporary Europe from an arts and humanities perspective. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**EUS 2003 European Experience: a Social Science Perspective 3 Credits**

**Grading Scheme:** Letter Grade

Introductory interdisciplinary study of contemporary Europe from a social science perspective. (N and S)

**Attributes:** General Education - International, General Education - Social Science

**EUS 2131 Spices, Dumplings, and Coffee: Food Customs in Europe 3 Credits**

**Grading Scheme:** Letter Grade

Studies agriculture, geography, and culture from the perspective of food production, customs, and health in European countries.

**EUS 3030 Greece During the Second World War 3 Credits**

**Grading Scheme:** Letter Grade

A broad history of Greece during WWII, including the German occupation of Greece, the resistance movement in Greece, and the fate of Greece immediately following the end of WWII.

**Prerequisite:** Sophomore standing or higher.

**EUS 3031 Athens through History 3 Credits**

**Grading Scheme:** Letter Grade

Introduces students to the history of Athens from its earliest settlement in the Bronze Age up to the present day and explore the Athens' contribution to western society.

**Prerequisite:** Sophomore-standing or higher.

**EUS 3036 The Balkans: History, Culture, Politics 3 Credits**

**Grading Scheme:** Letter Grade

Introduction to the history, politics, and the culture of the Balkans from the late 1700s to modern times. Focuses on the history of the countries of former Yugoslavia, Greece, Bulgaria, and Romania.

**Prerequisite:** Sophomore standing or higher.

**EUS 3090 Professional Development: Going Global 1 Credit**

**Grading Scheme:** Letter Grade

Explores fellowships, internships, graduate schools, and career pathways for students interested in European and international jobs more broadly.

**Prerequisite:** sophomore standing or higher.

**EUS 3100 European Cinema 4-12 Credits**

**Grading Scheme:** Letter Grade

A study of films of one or more of the historically important national cinemas in Europe. The course is taught in English.

**EUS 3110 Culture and Society in Europe 1-4 Credits**

**Grading Scheme:** Letter Grade

Examines central issues in one or more of the various cultures and societies in Europe.

**EUS 3111 Greece and Turkey: Myths and Misconceptions 3 Credits**

**Grading Scheme:** Letter Grade

Examines the major political, historical, and cultural aspects of the animosity between Greeks and Turks. Aims to dispel common myths and misconceptions.

**Prerequisite:** sophomore standing or higher.

**EUS 3112 Soccer Culture Europe 3 Credits**

**Grading Scheme:** Letter Grade

Examines how soccer reflects and shapes continental, national, political, and social culture of modern Europe.

**Prerequisite:** Sophomore-standing or higher.

**EUS 3113 History of Turks 3 Credits**

**Grading Scheme:** Letter Grade

Broad historical study of the Turks in world history. Emphasizes the Ottoman Turks, the Young Turks, and various upheavals in Turkey alongside social and cultural topics including gender, daily life, workers, and migrations.

**Prerequisite:** sophomore standing or higher or instructor approval.

**EUS 3115 Istanbul, Not Constantinople: A Global City 3 Credits**

**Grading Scheme:** Letter Grade

Examines Istanbul as a global city in historical perspective, including pre-modern political, religious, and military exchanges, modern cultural norms and politics, and the individuals who have shaped the city throughout history.

**Prerequisite:** Sophomore standing or higher.

**EUS 3130 The Other Europe and European Identity 3 Credits**

**Grading Scheme:** Letter Grade

Examines the construction of "European Identity" in relation to groups, regions, and religions which have been posited as Europe's "Other." Introduces a multidisciplinary analytical framework for understanding stereotypes and collective identity.

**Prerequisite:** Sophomore standing or higher.

**EUS 3135 Urban Cultures in Europe 3 Credits**

**Grading Scheme:** Letter Grade

Interdisciplinary introduction to the construction of urban spaces in Europe, from the 19th century through today. Examines how urban space structures social and cultural experience.

**Prerequisite:** Sophomore Standing or higher.

**EUS 3140 Culture in Crisis: the European Avant-Garde between the Wars 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the ideology and aesthetics of the major movements of the 20th century avant-garde, focusing on developments in Paris, Berlin, Prague and Moscow. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**EUS 3142 Islam and Turkey 3 Credits**

**Grading Scheme:** Letter Grade

Explores what Islam is and what Turks believe that it is. Also explores Islamic sources, Turkish conversions, Turkish mysticism, and Islamist politics. Explains these topics through the prism of original sources and emphasizes ways cultural forces contribute to the making of modern Islam.

**Prerequisite:** sophomore standing or higher or instructor permission.

**EUS 3220 Secret Police under Communism 3 Credits**

**Grading Scheme:** Letter Grade

Overview of the secret-police forces and the political use of terror in the Central-European countries of Germany, Hungary, Czechoslovakia, Poland, Romania, and Bulgaria between 1945 and 1990.

**Prerequisite:** instructor permission.

**EUS 3221 Socialist Control and Resistance in Eastern Europe After 1945 3 Credits**

**Grading Scheme:** Letter Grade

Explores the political, intellectual, social and cultural history of Eastern Europe from 1945 to 1990 and discusses ways in which the Soviet leadership manipulated the governing and legal systems of the Eastern European Communist countries.

**Prerequisite:** Sophomore standing or higher, or instructor permission.

**EUS 3400 Migration in Europe 3 Credits**

**Grading Scheme:** Letter Grade

Examines migration in Europe, examining topics ranging from the first modern refugee crisis in the aftermath of World War I and the Russian Revolution to contemporary debates about immigration in the European Union.

**Prerequisite:** instructor permission.

**EUS 3900 Directed Readings in European Studies 1 Credit**

**Grading Scheme:** Letter Grade

Rotating readings on a country, region, or current issue in Europe.

**Prerequisite:** sophomore standing or higher.

**EUS 3930 Undergraduate Seminar in European Studies 3 Credits**

**Grading Scheme:** Letter Grade

Intermediate rotating topics course on various European issues. (H)

**Prerequisite:** department permission.

**Attributes:** General Education - Humanities

**EUS 3937 Applied European Language 1 Credit**

**Grading Scheme:** Letter Grade

An enhancement section designed to accompany and complement area studies courses offered in other departments. Readings and discussions are in a continental European language to enable students to develop specific vocabulary and fluency related to the content of the companion course and to provide them with an international perspective on the issues of the main course.

**Prerequisite:** instructor permission.

**EUS 3938 European Less Commonly Taught Languages 1-4 Credits**

**Grading Scheme:** Letter Grade

Rotating topics course to facilitate language instruction for European lesser/least commonly taught languages. Instruction is in a European language to enable students to develop relevant competencies in speaking, writing, listening, and comprehension.

**Prerequisite:** placement test or instructor permission.

**EUS 4210 Politics and Institutions of the European Union 3 Credits**

**Grading Scheme:** Letter Grade

History of institutions and theoretical interpretations of European Union (EU) from its origins to present, including some general European history and background of EU's member status.

**Prerequisite:** instructor permission.

**EUS 4211 European Union and Its Enlargement 3 Credits**

**Grading Scheme:** Letter Grade

Examines the European Union's enlargement process and politics, and on the domestic politics of the applicant countries.

**Prerequisite:** Sophomore standing or higher.

**EUS 4212 European Economic Integration: Politics and Policy 3 Credits**

**Grading Scheme:** Letter Grade

Examines the political economy of European Union (EU) economic integration from an interdisciplinary perspective.

**Prerequisite:** three EUS-prefixed credits and instructor permission.

**EUS 4213 Turkey and the EU: History, Present and the Future 3 Credits**

**Grading Scheme:** Letter Grade

The dynamics and developments in Turkish politics with regard to Turkey's EU path. Understand the challenges the EU faces at present with Turkey, as this country's candidacy highlights the unresolved issues facing a more integrated EU.

**Prerequisite:** Sophomore standing or higher.

**EUS 4214 European Union in Crisis 3 Credits**

**Grading Scheme:** Letter Grade

Critical and historical approach to the meaning and implication of recent crises in the European Union (EU) by establishing the common occurrence of crises in the history of the EU, examining the unique challenges posed by each crisis, and discussing the future of EU integration following recent crises.

**Prerequisite:** Sophomore standing or higher.

**EUS 4905 Individual Work 1-3 Credits**

**Grading Scheme:** Letter Grade

Reading and discussions in advanced topics of European studies.

**EUS 4911 Undergraduate Research in European Studies 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

**EUS 4930 Special Topics in European Studies 3 Credits**

**Grading Scheme:** Letter Grade

Advanced variable-topics course on European issues.

**Prerequisite:** three EUS-prefixed credits or instructor permission.

**EUS 4932 Jean Monnet Special Seminar: the EU Today 1-3 Credits**

**Grading Scheme:** Letter Grade

Advanced variable topics on current European Union issues from multiple disciplinary perspectives, and taught by visiting EU scholar(s).

**Prerequisite:** 3 credits of a 3000-level or higher EUS-prefix course, or instructor permission.

**EUS 4940 Internship in European Studies 3 Credits**

**Grading Scheme:** Letter Grade

Internship with an organization, company, institution, or government entity with 60% or more focus on Europe. Up to three credits of internship credit can be used toward the European Union or East-Central European Studies minor or certificate.

**Prerequisite:** sophomore standing or higher.

**EUS 4944 Seminar in European Union Studies 3 Credits**

**Grading Scheme:** Letter Grade

Advanced topics related to the European Union.

**Prerequisite:** 3 credits of EUS-prefix courses or instructor permission.

**EUS 4950 Overseas Study in Europe 1-6 Credits**

**Grading Scheme:** Letter Grade

Advanced course on European issues taught during study abroad in Europe.

**Prerequisite:** three EUS-prefixed credits or instructor permission.

**HNG 1130 Beginning Hungarian 1 5 Credits**

**Grading Scheme:** Letter Grade

This course and its sequel, HNG 1131, constitute the basic sequence in Hungarian.

**HNG 1131 Beginning Hungarian 2 5 Credits**

**Grading Scheme:** Letter Grade

Second semester of basic sequence in Hungarian.

**Prerequisite:** HNG 1130 with minimum grade of C, or S, or the equivalent.

**HNG 1180 Elementary Hungarian: Review and Progress 1 3 Credits**

**Grading Scheme:** Letter Grade

Alternative to HNG 1130, for students who have some experience in Hungarian. Reviews basic grammar and improves reading, writing and listening skills.

**HNG 1182 Elementary Hungarian: Review and Progress 2 3 Credits**

**Grading Scheme:** Letter Grade

An accelerated one-semester coverage of HNG 1130 and HNG 1131 for students with some experience in Hungarian.

**Prerequisite:** instructor permission.

**HNG 2201 Intermediate Hungarian II 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of intermediate study. Goal is to further develop speaking, listening, reading, and writing skills.

**Prerequisite:** HNG 2220 or placement test.

**HNG 2220 Intermediate Hungarian I 3 Credits**

**Grading Scheme:** Letter Grade

Build on Hungarian language skills, including reading, writing, speaking, and listening.

**Prerequisite:** HNG 1131 or placement test.

**TUR 1130 Beginning Turkish 1 5 Credits**

**Grading Scheme:** Letter Grade

This course and its sequel, TUR 1131, constitute the introductory sequence in Turkish.

**TUR 1131 Beginning Turkish 2 5 Credits**

**Grading Scheme:** Letter Grade

Second semester of the introductory sequence in Turkish.

**Prerequisite:** TUR 1130 with minimum grade of C.

**TUR 1180 Intensive Beginning Turkish 5 Credits**

**Grading Scheme:** Letter Grade

An intensive introduction to Turkish, using the proficiency method. This course is equivalent to, and substitute for, the UF's first-year Turkish sequence (TUR 1130 / TUR 1131).

**Prerequisite:** instructor permission.

**TUR 2220 Intermediate Turkish 1 4 Credits**

**Grading Scheme:** Letter Grade

Intermediate study of speaking, reading, writing and listening comprehension skills with new vocabulary and grammar.

**Prerequisite:** TUR 1131 or placement test.

**TUR 2221 Intermediate Turkish 2 4 Credits**

**Grading Scheme:** Letter Grade

Improves speaking, reading, writing and listening skills by building upon language principles introduced in TUR 2220.

**Prerequisite:** TUR 2220 or placement test.

**TUR 2300 Intensive Intermediate Turkish 5 Credits**

**Grading Scheme:** Letter Grade

Immersive intermediate study of Turkish. Equivalent to, and substitute for, the second-year sequence of TUR 2220 / TUR 2221. Classes meet daily; see the weekly schedule of topics.

**Prerequisite:** (TUR 1130 and TUR 1131) or instructor approval.

## Courses

### **FYC 3001 Principles of Family, Youth and Community Sciences 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the study and practice of family, youth and community sciences. Presents analytic concepts used in the study of family, youth and community sciences. Emphasizes the vulnerabilities and needs of U.S. children, youth, families and communities, and describes human services that maximize human potential and minimize personal and societal costs. Introduces the roles and skills of the human service professional. (S)

**Prerequisite:** PSY 2012 or SYG 2000.

**Attributes:** General Education - Social Science

### **FYC 3005 Introduction to Personal and Family Financial Planning 3 Credits**

**Grading Scheme:** Letter Grade

Management of personal and family financial resources throughout the life span. A study of individual and family finances as related to planning, credit, saving, investment, insurance, taxes, housing costs, transportation costs, retirement, and estate planning.

**Prerequisite:** sophomore standing or higher.

### **FYC 3101 Parenting and Family Development 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the challenges and changes associated with parenthood. Includes strategies, skills and resources for understanding parenting. Also addresses diverse family types and parenting risks.

**Prerequisite:** FYC 3112.

### **FYC 3112 Contemporary Family Problems and Interventions 3 Credits**

**Grading Scheme:** Letter Grade

The major social and family problems contemporary families face, including poverty, violence and care of dependent elders. Emphasizes family strengths and resiliency as well as social programs that help families withstand and overcome difficulties. Emphasizes the role of society, race and gender in constructing family problems.

**Prerequisite:** PSY 2012 or SYG 2000.

**Corequisite:** FYC 3001.

### **FYC 3115 Human Services 3 Credits**

**Grading Scheme:** Letter Grade

In-depth look at human services that assist children and families, with focus on income support, child protection, adoption and family support programs offered through human services agencies. Emphasizes professional development of helping skills for working directly with children and families.

**Prerequisite:** FYC 3001.

### **FYC 3201 Foundations of Youth Development 3 Credits**

**Grading Scheme:** Letter Grade

Introduces youth development principles utilizing an ecological framework, including major theories relevant to domains of development. Then, major physical, cognitive, social and emotional changes experienced by youth in middle childhood through adolescence are explored. Application of youth development principles in context of family, school and community are also emphasized.

**Corequisite:** FYC 3001.

### **FYC 3401 Introduction to Social and Economic Perspectives on the Community 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the study of community in American society. Addresses the theoretical underpinnings of the concept of community and explores changes that have affected urban and rural communities. (S)

**Corequisite:** FYC 3001.

**Attributes:** General Education - Social Science

### **FYC 3521 Community Food Systems 3 Credits**

**Grading Scheme:** Letter Grade

Examines theory and practice in food and agriculture from a social science perspective within the context of sustainable community food systems.

**Prerequisite:** junior standing or higher.

**FYC 4003 Personal and Family Financial Counseling 3 Credits**

**Grading Scheme:** Letter Grade

Examines family economics and resource management issues and impact on the well-being of family across the major transitions of the family life-cycle. The complex process of financial decision-making and the role of the financial counselor are addressed.

**Prerequisite:** FYC 3005.

**FYC 4114 Ethical Issues in Family, Youth and Community Sciences 3 Credits**

**Grading Scheme:** Letter Grade

Ethics and ethical decision-making by professionals working individuals and their families is addressed. Emphasizes ethical issues related to family relationships and family life.

**Prerequisite:** junior standing or higher.

**FYC 4126 Urban and Rural America in Transition 3 Credits**

**Grading Scheme:** Letter Grade

Communities in America are being confronted with a number of significant changes. Such shifts are not felt in the same manner across various regions or communities in the U.S. Explore current and emerging issues that have differential consequences for urban and rural areas in this country.

**Prerequisite:** SYG 2000, FYC 3001 and FYC 3401 with minimum grades of C; FYC majors only.

**FYC 4202 Youth and Family Relations 3 Credits**

**Grading Scheme:** Letter Grade

Youth within the family system. Reviews basic theory and research on youth development and how it is intertwined with family development, family processes and extended family systems. Students also work with youth and their families.

**Prerequisite:** FYC 3001.

**FYC 4204 Positive Youth Development for the Youth Professional 3 Credits**

**Grading Scheme:** Letter Grade

This course prepares youth development professionals to provide direct service to youth and emerging adults in non-formal settings. Emphasis is placed on the application of positive youth development principles, practices, and professional skills.

**Prerequisite:** FYC 3001 with minimum grade of C, and FYC 3201 with minimum grade of C, and FYC 4212 with minimum grade of C.

**FYC 4210 Children: Trauma & Resiliency 3 Credits**

**Grading Scheme:** Letter Grade

Evolving research on the developing child and the neurobiology of trauma has dramatically changed our understanding of adverse childhood experiences and its impact on the growing child. This course focuses on both areas: the nature of childhood trauma and intervention in an ecological context.

**Prerequisite:** FYC 3112.

**FYC 4212 Contemporary Youth Problems and Solutions 3 Credits**

**Grading Scheme:** Letter Grade

Youth development and its ecology, emphasizing the challenges and issues facing adolescents/ youth, and the creation of communities that foster positive youth development and resiliency. Includes theoretical, methodological, empirical and practical issues regarding youth development issues and solutions. Also examines the ecology of youth development, focusing on the dynamics of interactions and reciprocal relationships between youth and various systems of the environment.

**Prerequisite:** (FYC 3001 and FYC 3201 and SYG 2000 with minimum grades of C) and Family, Youth and Community Sciences major.

**FYC 4301 Engaging Communities for Decision Making and Action 3 Credits**

**Grading Scheme:** Letter Grade

Survey citizens and analyze data of scientific, technological, environmental, and societal issues at the community level. Implement and evaluate methodologically correct research that aids in the resolution of issues and improves decision-making skills as they relate to community issues.

**FYC 4408 Organizational Leadership for Nonprofits 3 Credits**

**Grading Scheme:** Letter Grade

Examines the challenges for nonprofit leaders, incorporating leadership theories as they apply to these organizations. Provides the leadership skills needed to lead nonprofit organizations.

**Prerequisite:** Junior or senior standing.

**FYC 4409 Working with Nonprofit Organizations in Community Settings 3 Credits**

**Grading Scheme:** Letter Grade

Overview of nonprofit organizations, their functions and purpose, how they are organized and operate, and the basic structure of an incorporated nonprofit.

**Prerequisite:** junior or senior standing.

**FYC 4410 Fund Raising for Community Nonprofit Organizations 3 Credits**

**Grading Scheme:** Letter Grade

Contemporary fund raising practices in the nonprofit sector applied to community organizations.

**Prerequisite:** junior standing;

**Corequisite:** FYC 4409.

**FYC 4426 Risk Management in Nonprofit Organizations 3 Credits**

**Grading Scheme:** Letter Grade

Foundation in the theory, principles and techniques associated with risk management. Topics include the nature and purpose of risk management; the general risk management exposures facing nonprofit organizations; and risk financing strategies for nonprofits.

**Prerequisite:** junior standing;

**Corequisite:** FYC 4409.

**FYC 4427 Non-Governmental Organizations 3 Credits**

**Grading Scheme:** Letter Grade

Explores the nature, role, operations and impacts of non-governmental organizations (NGOs) across the globe. Provides a foundation in understanding NGOs within the geographical, social, political and economic realities under which they operate. Lectures, reading assignments, student presentations and a group project are designed for a better understanding of NGO operations.

**Prerequisite:** junior or senior standing.

**FYC 4428 Human Resource Management for Nonprofits 3 Credits**

**Grading Scheme:** Letter Grade

Presents the various HRM activities such as recruitment, testing, selection, performance management, labor relations, volunteer management, compensation and training, for more effective management. Experiential exercises are used to simulate personnel/HRM tasks and issues that managers face in nonprofit organizations, such as conflict and leadership.

**Prerequisite:** junior or senior standing;

**Corequisite:** FYC4409.

**FYC 4503 Methods of Family Life Education 3 Credits**

**Grading Scheme:** Letter Grade

Educational techniques for family life educators and human science providers who help individuals and families address key issues of development and human relationships at each stage of the life cycle.

**Prerequisite:** (FYC 3101 and FYC 3201) or SYG 2430.

**FYC 4622 Planning and Evaluating Family, Youth and Community Science Programs 3 Credits**

**Grading Scheme:** Letter Grade

Basic philosophy, theory and process of planning and evaluating family, youth and community programs.

**Prerequisite:** FYC 3001.

**FYC 4660 Family Policy 3 Credits**

**Grading Scheme:** Letter Grade

Understanding how professionals can influence family policy and the impact of government policies on families.

**Prerequisite:** FYC 3112.

**FYC 4801 Applied Social Research Methods 4 Credits**

**Grading Scheme:** Letter Grade

Understand and apply the principles of social science research methods. Learn a variety of research methods and have hands-on experience with data collection and analysis.

**Prerequisite:** FYC 3001 with minimum grade of C or STA 2023.

**FYC 4803 Advanced Social Research Methods 3 Credits**

**Grading Scheme:** Letter Grade

Design, implement, and interpret social research as part of an advanced team. Collaboratively conduct original social research under faculty supervision and produce a manuscript suitable for submission to a scholarly outlet.

**Prerequisite:** FYC 4801 and Instructor approval.

**FYC 4900 Supervised Extension Experience in Family, Youth and Community Sciences 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**FYC 4905 Individual Study in Family, Youth and Community Sciences 1-3 Credits**

**Grading Scheme:** Letter Grade

Selected topics and problems related to family, youth and community sciences and the student's specific area of interest.

**FYC 4911 Supervised Research in Family, Youth and Community Sciences 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic research in family, youth and community sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**FYC 4915 Honors Thesis Research in Family, Youth and Community Sciences 0-3 Credits**

**Grading Scheme:** S/U

Independent research in family, youth and community sciences leading to an honors thesis. Students are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

**FYC 4930 Personal and Family Financial Planning Capstone 3 Credits**

**Grading Scheme:** Letter Grade

Critical thinking and decision making about personal and family financial management in the context of the financial planning process. Analyze and prioritize goals and make recommendations for a client in household accounting, taxes, investments, risk management, retirement planning and estate planning.

**Prerequisite:** FYC 4004, FYC 4007 and FYC 4102.

**FYC 4931 Family, Youth, and Community Sciences Professional Development 3 Credits**

**Grading Scheme:** Letter Grade

Provides a professional development experience for students in FYCS including: search for employment during their final semesters of undergraduate study and information regarding graduate education and research possibilities. Emphasis is placed on career placement, graduate education, practicum readiness, professional business etiquette and elements for a successful transition to the workforce.

**Prerequisite:** FYC 3001 and FYC 3112 and FYC 3201 and FYC 3401.

**FYC 4932 Special Topics in Family, Youth, and Community Science 1-3 Credits**

**Grading Scheme:** Letter Grade

Special topics in Family, Youth, and Community Science.

**Prerequisite:** Sophomore standing.

**FYC 4941 Practicum in Family, Youth and Community Sciences 3-6 Credits**

**Grading Scheme:** Letter Grade

Supervised field work experience in a human/community services agency and a professional seminar to discuss student progress, workplace experiences, and the intersectionality of current topics and issues in society as they relate to families, youth, and communities. Required course assignments aid in processing and assessing the practicum experience and relate to professional issues and responsibilities.

**Prerequisite:** FYC 3001 and FYC 3112 and FYC 3115 and FYC 4114 and FYC 3201 and FYC 3401 and FYC 4622 and FYC 4801 and FYC 4931.

**FYC 4950 UF in Ireland Field Study 3 Credits**

**Grading Scheme:** Letter Grade

Explore Irish culture through observation, participation, and reflection on a variety of Irish cultural experiences; participate, summarize, and report on a capstone project.

**Prerequisite:** 1 entry-level youth development course (FYC 3001, FYC 3201, EDF 3110, EDF 3132, EDF 3135, or PSY 2012).

**FYC 4951 Youth Development, Service-Learning and Irish Culture 3 Credits**

**Grading Scheme:** Letter Grade

Provides a transformative experiential learning experience in the context of youth development and Irish culture in Ireland. This course will facilitate youth development, service-learning, and cultural learning opportunities, along with collaborating with community-based organizations working to solve local issues and enhance community engagement. Part of a UF study Abroad Program.

**Prerequisite:** 1 entry-level youth development course (FYC 3001, FYC 3201, EDF 3110, EDF 3132, EDF 3135, or PSY 2012).

## Film and Media Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Courses

**ANT 3390 Visual Anthropology 3 Credits**

**Grading Scheme:** Letter Grade

Uses photography and film as tools and products of social science. Ways of describing, analyzing and presenting behavior and cultural ideas through visual means. Projects and laboratory work with visual anthropology. (WR)

**Prerequisite:** basic knowledge of photography or instructor permission.

**Attributes:** Satisfies 6000 Words of Writing Requirement

**ARH 4471 Late Twentieth Century Art 3 Credits**

**Grading Scheme:** Letter Grade

Continuation of mid-twentieth century art (ARH 4453). International art and American diversity in art from about 1970 to the present.

**Prerequisite:** ARH 2051 and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International

**ARH 4710 History of Photography 3 Credits**

**Grading Scheme:** Letter Grade

Surveys major technical, stylistic, and critical directions in photography from the 19th century to the present. (H and N)

**Prerequisite:** ARH 2051 and (art major or art history minor).

**Attributes:** General Education - Humanities, General Education - International

**ART 3842C Performance and Installation 3 Credits**

**Grading Scheme:** Letter Grade

Explores the complex relationships among object, body, site, space, and architecture using various visual media in the creation of installation and performance art.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 3959C Video Art 3 Credits**

**Grading Scheme:** Letter Grade

Explores video with an emphasis on editing and building a personal vocabulary through the electronic image.

**Prerequisite:** ART 2680C and must be a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

**ART 4630C Video Art: Advanced Projects 3 Credits**

**Grading Scheme:** Letter Grade

Focuses on the completion of larger scale student-directed projects with a special emphasis on pre-production planning and advanced editing techniques.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**ART 4631C Computer Art: Advanced Projects 6 Credits**

**Grading Scheme:** Letter Grade

Advanced work in computer-mediated art, including animation and interactive works in both the physical and virtual domain, with special emphasis on completion of larger scale student-directed projects.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**EME 4401 Integrating Technology in the Elementary Curriculum 3 Credits**

**Grading Scheme:** Letter Grade

Prepares elementary majors to effectively use technology in teaching and learning.

**Prerequisite:** Admission to Elementary Education or Education Sciences degree programs.

**ENG 3113 The Movies as Narrative Art 4 Credits**

**Grading Scheme:** Letter Grade

Examines movies as a mode of storytelling by emphasizing the difference between verbal and visual narration, and relation to contemporary thought and values.

**ENG 3115 Introduction to Film: Criticism and Theory 4 Credits**

**Grading Scheme:** Letter Grade

Introduces the principal theoretical and critical issues raised by the first century of the cinema.

**ENG 3121 History of Film, Part 1 4 Credits**

**Grading Scheme:** Letter Grade

History of film from its beginnings to the introduction of sound.

**ENG 3122 History of Film, Part 2 4 Credits**

**Grading Scheme:** Letter Grade

History of film from the introduction of sound to 1960.

**ENG 3125 History of Film, Part 3 4 Credits**

**Grading Scheme:** Letter Grade

History of film from 1960 to the present.

**ENG 4130 Race and Ethnicity in Film 4 Credits**

**Grading Scheme:** Letter Grade

Critical and historical study of films and videos by and about people of color in the Americas, Africa, Australia and Europe.

**ENG 4133 Film Studies 4 Credits**

**Grading Scheme:** Letter Grade

Variable topics provide in-depth study of film genres, notable film directors, and other significant topics on subjects related to film.

**ENG 4134 Women and Film 4 Credits**

**Grading Scheme:** Letter Grade

Studies the roles and function of women in mainstream and alternative cinema, including study of feminist film criticism and theories of gender.

**ENG 4135 National Cinemas 4 Credits**

**Grading Scheme:** Letter Grade

Variable topics study of the films of historically important national cinemas, such as American, French, German, Italian, Russian, Japanese.

**ENG 4136 Film and Video Production 4 Credits**

**Grading Scheme:** Letter Grade

Seminar on the independent and experimental uses of small-format film and video production.

**ENG 4139 Television and Electronic Culture 4 Credits**

**Grading Scheme:** Letter Grade

Explores the development of new modes of thought, forms of art, popular culture, and social practices based on the electronic technology of video and computers.

**FRT 3520 French Cinema 4-8 Credits**

**Grading Scheme:** Letter Grade

Critical, theoretical and historical study of French cinema. Topics will be announced. Content may include key directors, 1930s cinema, nostalgia and masculinity in 1980s films, World War II cinema, and Colonial and Postcolonial cinema. Open to French majors and non-majors and is taught in English. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**IDS 4906 Interdisciplinary Thesis Research 1-12 Credits**

**Grading Scheme:** Letter Grade

Research accommodation for thesis. (WR)

**Corequisite:** refer to the department.

**Attributes:** Satisfies 6000 Words of Writing Requirement

**ITT 3521 Italian Cinema 4 Credits**

**Grading Scheme:** Letter Grade

Critical and historical study of Italian film and directors. Topics may vary. (H and N)

**Attributes:** General Education - Humanities, General Education - International

**JPT 3391 Introduction to Japanese Film 4 Credits**

**Grading Scheme:** Letter Grade

Introduces the formal and historical features of Japanese film that have given it a unique position in film history. Emphasizes formal and critical analysis as well as the intellectual stakes of studying non-western film.

**LIT 3362 The Age of the Avant-Garde 3 Credits**

**Grading Scheme:** Letter Grade

Examines the revolutionary experimentalist aspects of modern and contemporary culture, such as cubism, surrealism, structuralism, and conceptualism.

**PGY 3410C Photography: Color 3 Credits**

**Grading Scheme:** Letter Grade

Consideration of the use and technique of color photography. Covers cameras, films, and darkroom developing techniques.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**PGY 3444C Photography: Black and White 3 Credits**

**Grading Scheme:** Letter Grade

Fundamentals of photography, operation of the camera and developing, printing, and enlarging. Principles of photography as a means of personal expression.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**PGY 3820C Photography: Digital 3 Credits**

**Grading Scheme:** Letter Grade

Studio methods and techniques in creating still images using electronic digital technology.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

**PGY 4420C Advanced Photography 6 Credits**

**Grading Scheme:** Letter Grade

Use of the camera as a medium of individual creative expression. Experimental projects in black and white and color photography.

**Prerequisite:** PGY 3410C, PGY 3421C, PGY 3444C, PGY 3820C, and senior-level art major.

**TPA 3217 Introduction to Lighting and Sound 4 Credits**

**Grading Scheme:** Letter Grade

Introduces electricity and technical skills basic to lighting and sound technology.

**TPP 3103 Acting 2: Analysis and Application 2 Credits****Grading Scheme:** Letter Grade

Experimentation with scripted material: scene study, analysis, audition and performance.

**Prerequisite:** TPP 2110 with a minimum grade of C and Theatre or Theatre Performance major.**TPP 3311 Directing 3 Credits****Grading Scheme:** Letter Grade

Practical application of theoretical concepts of directing applied to scene study.

**Prerequisite:** refer to the department.

## Courses

**FIN 2951 Special Projects 1-3 Credits****Grading Scheme:** S/U

Projects related to finance as approved by the college. (S-U)

**FIN 3124 Introduction to Financial Planning & Wealth Management 4 Credits****Grading Scheme:** Letter Grade

An examination of the financial planning process, professional conduct and regulation, and education planning. Students analyze personal financial information, construct financial statements, develop financial strategies, and understand the components of a written financial plan.

**Prerequisite:** FIN 3403.**FIN 3403 Business Finance 4 Credits****Grading Scheme:** Letter Grade

The acquisition and management of funds by business. A minimum grade of B is required in FIN 3403 to register for required finance major courses.

**Prerequisite:** (ACG 2021 and junior standing) or (ACG 2021 and ECO 2023 and sophomore standing).

**FIN 4128 Financial Plan Development 4 Credits**

**Grading Scheme:** Letter Grade

Capstone course in financial planning. Covers retirement needs, individual, corporate, and government retirement plans, plus group benefits plans. Examines professional issues in financial planning, including ethical considerations, regulation and certification requirements, written and oral communication skills, and professional responsibility. Students develop a comprehensive financial plan.

**Prerequisite:** RMI 3011 and FIN 3124;

**Corequisite:** FIN 4132.

**FIN 4132 Estate & Tax Planning 4 Credits**

**Grading Scheme:** Letter Grade

A focus on the fundamentals of estate planning, including the transfers of wealth by gift or at death. Trusts, guardianships and post mortem planning are covered. Also covers the taxation of income by federal government, focusing on the planning and preparation of federal tax returns around estate planning.

**Prerequisite:** FIN 3124.

**FIN 4243 Debt and Money Markets 4 Credits**

**Grading Scheme:** Letter Grade

Examines financial markets, the institutions and instruments associated with debt funds, and the determinants of the general level and structure of interest rates.

**Prerequisite:** (FIN 3403 with a minimum grade of B) and (ACG 2021 and ACG 2071 with minimum grades of C).

**FIN 4403 Honors Finance 2 Credits**

**Grading Scheme:** Letter Grade

Variable topics providing opportunity for in-depth study of topics not offered in other courses.

**Prerequisite:** FIN 3403 with grade of A.

**FIN 4414 Financial Management 4 Credits**

**Grading Scheme:** Letter Grade

An integrative examination of theory and practice of managerial finance, financing and investing decisions as affected by risk, timing and financial markets.

**Prerequisite:** FIN 4243 and FIN 4504.

**FIN 4453 Financial Modeling 4 Credits**

**Grading Scheme:** Letter Grade

Demonstrates how intricate financial spreadsheet models, along with other modeling tools, can be developed and applied in value creating activities for businesses such as securities modeling, financial statement cash flow modeling, and derivatives modeling.

**Prerequisite:** FIN 3403 with a minimum grade of B and (ACG 2021 and ACG 2071 with minimum grades of C).

**FIN 4504 Equity and Capital Markets 4 Credits**

**Grading Scheme:** Letter Grade

Examines financial markets, the institutions and instruments associated with equity funds, the mechanics and mathematics of stock prices, security analysis, and the factors influencing stock values.

**Prerequisite:** (FIN 3403 with a minimum grade of B) and (ACG 2021 and ACG 2071 with minimum grades of C).

**FIN 4533 Financial Derivatives 2 Credits**

**Grading Scheme:** Letter Grade

The course defines the main kind of derivatives, shows how they are used to achieve various hedging and speculating objectives, introduces a framework for pricing derivatives and studies several applications of derivative-pricing techniques outside derivative markets.

**Prerequisite:** FIN 4504 or FIN 4243

**FIN 4905 Independent Research 1-4 Credits**

**Grading Scheme:** Letter Grade

A written report or reports will be required.

**Prerequisite:** senior standing, previous work in the area of research and department permission.

**FIN 4934 Special Topics 1-4 Credits**

**Grading Scheme:** Letter Grade

Special topics in entrepreneurship related fields of study.

**FIN 4956 International Studies in Finance 1-4 Credits**

**Grading Scheme:** Letter Grade

This course provides a mechanism by which coursework taken at a foreign university as part of an approved study abroad program can be recorded on the transcript and counted toward UF graduation.

**FIN 4970 Honors Thesis 1 Credit****Grading Scheme:** S/U

A thesis is required for award of magna cum laude or summa cum laude designation. To qualify for the thesis option, students normally will have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator) and must have at least the 3.6 GPA required for high honors at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's major department. (S-U)

**Prerequisite:** 90 credits earned and a 3.6 UF GPA.**REE 2951 Special Projects 1-3 Credits****Grading Scheme:** S/U

Projects related to business real estate as approved by the college. (S-U)

**REE 3043 Real Estate Analysis 4 Credits****Grading Scheme:** Letter Grade

Principles of real estate decision making within the context of our economic, social, legal and political-government systems.

**Prerequisite:** ACG 2021 or AEB 3133 or AEB 3144 or BCN 4753.**REE 4303 Real Estate Investment Decision Making 4 Credits****Grading Scheme:** Letter Grade

Explores real estate investment and the demands, skills and challenges of decision-making for those who make such investments.

**Prerequisite:** REE 3043 with a minimum grade of C.**REE 4905 Independent Research 1-4 Credits****Grading Scheme:** Letter Grade

A written report or reports will be required.

**Prerequisite:** senior standing, previous work in the area selected for research and instructor and department chair permissions.**REE 4970 Honors Thesis 1 Credit****Grading Scheme:** S/U

A thesis is required for award of magna cum laude or summa cum laude designation. To qualify for the thesis option, students normally will have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator) and must have at least the 3.6 GPA required for high honors at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's major department. (S-U)

**Prerequisite:** 90 credits earned and a 3.6 UF GPA.**RMI 3011 Risk Management and Insurance 4 Credits****Grading Scheme:** Letter Grade

Identification of various types of risks; principles underlying selection of appropriate means of handling risks; introduction to life, health, property, liability and other area of insurance.

**Prerequisite:** ACG 2021 or ECO 2013 or ECO 2023.

---

## Fine Arts

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

## Courses

### ARH 1040 Gaming War & Peace in the United States and South Africa 3 Credits

**Grading Scheme:** Letter Grade

Uses role-playing games to investigate conflict and its resolution by simulating the revolutionary chaos in New York (1775–76) and constitutional negotiations for post-apartheid South Africa (1993). Examines the role of the arts in remembering conflict, focusing on monuments.

**Prerequisite:** Restricted to degree-seeking undergraduates.

**Attributes:** Quest 1, General Education - Humanities, General Education - International

### ART 2620C Net Art 3 Credits

**Grading Scheme:** Letter Grade

Explores practical and theoretical issues related to the Internet as a medium for making art rather than as a tool for delivering information.

Emphasizes the creation of dynamic and interactive experiences on the web that integrate video, graphics, animation, sound, image, and typography.

**Prerequisite:** ART 1803C and (BFA Art or BA Art or BFA Graphic Design).

### ART 4639C Advanced Experiments in Art and Technology 3 Credits

**Grading Scheme:** Letter Grade

Special topics course that explores new forms of digital media production. Topics reflect emerging forms of digital media.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

### DIG 3110C Imaging Processes 3 Credits

**Grading Scheme:** Letter Grade

### GRA 4166 Graphic Design History II 3 Credits

**Grading Scheme:** Letter Grade

Investigates the diverse cultural functions and critical definitions of graphic design across places and times in the twentieth and twenty-first centuries.

Introduces broad stylistic movements common to western Europe and North America; interrogates and re-writes a received definition of graphic design which excludes globally diverse artifacts, designers, practices, and users.

**Prerequisite:** GRA 4165.

### HUM 2592 Introduction to the Arts in Medicine in a Global Context 3 Credits

**Grading Scheme:** Letter Grade

Explores the field of arts in medicine in a global context, focusing on the many ways that the arts can be used to enhance health and wellbeing in healthcare or community settings and the relationship of culture to healing practices, systems, and health literacy in various regions of the world.

### HUM 2930 Special Topics in Fine Arts 1-3 Credits

**Grading Scheme:** Letter Grade

Variable topics course exploring the interaction between various arts and between the arts and other disciplines.

### HUM 3351 Visual Arts in Medicine 3 Credits

**Grading Scheme:** Letter Grade

Explore the intersections of the visual arts and health and investigate how the visual arts can support health and well-being. Acquire fundamental research and communication skills for scholarly discussion of arts in health as well as practical application.

**Prerequisite:** HUM 2592

### HUM 3523 Music and Health 3 Credits

**Grading Scheme:** Letter Grade

Review music therapy and music in health research to assess, orally and in scholarly writing, how music can be utilized to enhance well-being, the intersections between music and psychology/cognition/human behavior, as well as health maintenance issues and medical challenges of performing artists.

**Prerequisite:** Junior standing or above or instructor permission.

**HUM 3598L Applied Theater for Health II: Collective Creation Lab 3 Credits****Grading Scheme:** Letter Grade

Apply knowledge acquired in Applied Theater for Health I to create an original project or workshop on a chosen health topic. Collaborate to research, develop, and conduct theater for health workshops in partnership with a community or campus organization.

**Prerequisite:** HUM 3599.**HUM 3940L Arts in Medicine Practicum 1 2 Credits****Grading Scheme:** Letter Grade

Provides basic to intermediate-level mentored practice in the arts in healthcare in a clinical or community environment. Emphasizes a primary discipline while deepening the understanding of the practice through documentation self-assessment and a culminating paper.

**Prerequisite:** (Certificate plan of Visual Arts in Medicine or Dance in Medicine or Music in Medicine) and HUM 2592 and (DAN 3775 or HUM 3523 or HUM 3351).**HUM 4594 Music in Medicine Capstone 3 Credits****Grading Scheme:** Letter Grade

Culminating course in the Music in Medicine certificate. Conduct a thorough literature review and develop a capstone proposal and project related to the intersections of music and health in healthcare or community settings to assess, orally and in scholarly writing, and how music can be utilized to enhance wellbeing.

**Prerequisite:** HUM 3940L.**HUM 4912 Fine Arts Undergraduate Research 0-3 Credits****Grading Scheme:** S/U

Provides an opportunity for firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or creative application, depending on the topic. Projects are supervised by an advising faculty member or a grad student working under faculty supervision. (S-U)

**HUM 4930 Special Topics in Fine Arts 1-3 Credits****Grading Scheme:** Letter Grade

An upper division general fine arts special/rotating topics on various subjects in the arts.

**Prerequisite:** junior standing or higher.**HUM 4956 Overseas Studies in Fine and Performing Arts 1-18 Credits****Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved study-abroad program can be recorded on the transcript and counted toward UF graduation.

**Prerequisite:** undergraduate advisor permission.**IDC 3500C Programming for Artists 3 Credits****Grading Scheme:** Letter Grade

Introduces understanding interactivity as an art form, providing an in-depth exploration of the tools, theories and applications of interactive media as they are used for creative inquiry, research and production.

**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

## Courses

### FES 2941 Emergency Management Internship 3 Credits

**Grading Scheme:** S/U

Gain experience in an emergency management situation to identify and apply best practices in the development of preparation, planning, responding, recovering, and mitigating disasters; participate in supervised disaster management work activities that provide experiential learning in emergency management.

### FES 3004 Political and Legal Foundations of Fire Protection 3 Credits

**Grading Scheme:** Letter Grade

Examines the legal aspects of fire service and the political and social impacts of legal issues; reviews the American legal system and covers legal and political issues involving employment and personnel matters, administration and operations, and planning and code enforcement with regard to the fire service.

**Prerequisite:** junior standing or higher.

### FES 3015 Principles of Fire and Emergency Services Management 3 Credits

**Grading Scheme:** Letter Grade

Fundamentals of management underlying the solution of problems of organization and operation of fire and emergency services agencies. (S) (WR)

**Prerequisite:** junior standing or higher.

**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement

### FES 3153 FES Communication and Informational Technology 3 Credits

**Grading Scheme:** Letter Grade

Communications systems used in fire and emergency services such as high frequency voice/data, Internets and Intranets, satellite communications, GPS and GIS. An introduction, examination, equipment assessment, implementation program and maintenance management module are provided for each system covered.

**Prerequisite:** junior standing or higher.

### FES 3223 Foundations of EMS 3 Credits

**Grading Scheme:** Letter Grade

Covers the design and operation of EMS systems, service delivery, and echelons of care. The history of EMS, interface of public and private organizations and review of the various personnel who comprise these systems, will be examined in relation to their impact on the health care delivery system.

**Prerequisite:** junior standing or higher.

### FES 3227 Ambulance Operations 3 Credits

**Grading Scheme:** Letter Grade

Overview of the application of management principles to the provision of medical transport services. Includes an analysis of the economic, geographic, temporal, and clinical characteristics of ambulance demand, the key processes for providing transport services, and an evaluation of industry best practices.

**Prerequisite:** junior standing or higher.

### FES 3233 EMS Safety and Risk Management 3 Credits

**Grading Scheme:** Letter Grade

Introduces the risk management principles of an EMS agency. Emphasizes safety from the perspective of the field provider.

**Prerequisite:** junior standing or higher.

### FES 3263 Public Safety Educator 3 Credits

**Grading Scheme:** Letter Grade

Introduces the EMS professional to the education system as it relates to EMS education. Explores issues in curriculum development, teaching, program direction, and development.

**Prerequisite:** junior or senior standing.

**FES 3284 Management of Emergency Medical Services 3 Credits****Grading Scheme:** Letter Grade

Personnel and resource management issues in providing emergency medical services function. Quality assurance, utilization review techniques, and practices and techniques for delivery of services and distribution of resources are included.

**Prerequisite:** junior standing.**FES 3285 Advanced Leadership Issues in Emergency Medical Services 3 Credits****Grading Scheme:** Letter Grade

Organizational development issues in providing emergency medical services function in the fire-based, hospital-based and third-service environments. Establishing and directing emergency medical services' work teams is also covered.

**Prerequisite:** junior standing.**FES 3533 Community Risk Reduction for Emergency Services 3 Credits****Grading Scheme:** Letter Grade

Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.

**Prerequisite:** junior or senior standing.**FES 3720 Strategic Planning for FES 3 Credits****Grading Scheme:** Letter Grade

Provides the conceptual framework for the development of a strategic plan for emergency management, fire protection, and emergency medical service. Also provides guidance through the process of the needs, resources, and capabilities of the organization and how to establish a plan to achieve improved performance.

**Prerequisite:** junior standing.**FES 3753 Fire and Emergency Services Financial Management 3 Credits****Grading Scheme:** Letter Grade

Planning, developing, presenting, funding and implementing a budget for a fire and emergency services agency. Additional topics include special taxing districts, bond issues and fund-raising campaigns.

**Prerequisite:** junior standing.**FES 3780 Analytical Approaches to Fire Protection 3 Credits****Grading Scheme:** Letter Grade

Examines the tools and techniques of rational decision making in fire and emergency services agencies, including data collection, statistics, probability, decision analysis, utility modeling, resource allocation, and cost benefit analysis.

**Prerequisite:** junior or senior standing.**FES 3782 Applications of Fire Research 3 Credits****Grading Scheme:** Letter Grade

Examines methodology for analyzing fire-related research; provides a framework for independent research in fire dynamics, fire test standards, fire safety, fire modeling, structural fire safety, life-safety, firefighter safety, automatic detection and suppression, risk analysis and loss control, applied research, and fire-related research trends.

**Prerequisite:** junior or senior standing.**FES 3803 Multi-Agency Incident Command 3 Credits****Grading Scheme:** Letter Grade

Managing complex incidents that may require response from fire-rescue, emergency medical services, law enforcement and/or other public safety sectors. Use of the incident management system is emphasized.

**Prerequisite:** junior standing.**FES 3815 Command and Control at Catastrophic Fire-Rescue Incidents 3 Credits****Grading Scheme:** Letter Grade

Incident command at multiple-alarm incidents, emphasizing rapid fireground decision-making, safety, personnel accountability and communications. Settings for scenarios include multi-family occupancies, hotels, high-rises, healthcare facilities and large retail centers.

**Prerequisite:** junior standing.**FES 3822 Disaster Policy in Emergency Management 3 Credits****Grading Scheme:** Letter Grade

Describes the functional demands that emergency managers should be aware of in crafting effective emergency management plans, policies, and programs. Addresses how public policy choices impact emergency planning and the consequences of a disaster event. Emphasizes the emergency planning process.

**Prerequisite:** junior or senior standing.

**FES 4003 Fire and Emergency Services Administration 3 Credits**

**Grading Scheme:** Letter Grade

Demonstrates the importance of persuasion and influence, budgeting, anticipation of challenges and change, and management tools for analyzing and solving problems; explores how the leadership of a fire and emergency services department develops internal and external cooperation to achieve the department's mission.

**Prerequisite:** junior or senior standing.

**FES 4014 Foundations of Emergency Management 3 Credits**

**Grading Scheme:** Letter Grade

Examines the history and the principles establishing Emergency Management in the United States. Describes the "Four Phases of Emergency Management," relates processes to codes and laws governing Emergency Management, and examines Emergency Management and the terrorist threat.

**Prerequisite:** junior or senior standing.

**FES 4023 Fire and Emergency Services Ethical Practices and Leadership 3 Credits**

**Grading Scheme:** Letter Grade

The role of agency leadership and its impact on the continuing professionalization of the fire and emergency services. Examines traditional and evolving definitions, practices and skills in leadership behavior, including discussions of power, influence, ethics and organizational behavior.

**Prerequisite:** senior standing.

**FES 4034 Regulatory Issues in Fire and Emergency Services 3 Credits**

**Grading Scheme:** Letter Grade

Introduces safety, health and environmental regulations on the state and federal levels that impact the delivery of fire and emergency services. OSHA, EPA and NFPA regulatory requirements are introduced along with methods and techniques to implement compliance programs.

**Prerequisite:** FES 4003 and senior standing.

**FES 4045 Fire and Emergency Services Human Resource Management 3 Credits**

**Grading Scheme:** Letter Grade

Major human resource management functional areas for fire and emergency services agencies. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.

**Prerequisite:** FES 3015 and senior standing.

**FES 4055 Fire and Emergency Services Public Relations 3 Credits**

**Grading Scheme:** Letter Grade

Implementation of principles and methods in advocating factual claims and policy proposals: propositional analysis, evidence as demonstration, effective reasoning processes and ethics in controversy. Also focuses on public speaking and presentations, especially in the areas of technology, defense of budgets and political leadership.

**Prerequisite:** senior standing.

**FES 4224 Management of Mass Casualty Incidents 3 Credits**

**Grading Scheme:** Letter Grade

Covers systematic approaches to triage, treatment and transport in response to large-scale emergency medical services incidents. Resource planning and coordination with hospital systems is also emphasized.

**Prerequisite:** senior standing.

**FES 4226 EMS Special Operations 3 Credits**

**Grading Scheme:** Letter Grade

Discusses the various special roles in which EMS personnel may serve, such as hazardous materials, water rescue, and technical rescue.

**Prerequisite:** junior or senior standing.

**FES 4234 EMS Community Risk Reduction 3 Credits**

**Grading Scheme:** Letter Grade

Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.

**Prerequisite:** junior or senior standing.

**FES 4244 Legal, Political, and Regulatory in EMS 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the EMS professional to the legal aspects of Emergency Medical Services. Explores issues in malpractice, consent and refusal of treatment, OSHA, employment issues, and risk management. EMS students gain insights into the legal liabilities in Emergency Medical Services.

**Prerequisite:** junior or senior standing.

**FES 4274 Quality Management and Research in Emergency Services 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the EMS professional to benefits of quality improvement, the history of quality in EMS, measuring quality, and the uses of quality in EMS.

**Prerequisite:** junior or senior standing.

**FES 4585 Management of Fire Prevention Programs 3 Credits****Grading Scheme:** Letter Grade

Planning, promoting and executing fire prevention functions, including an emphasis on legal responsibilities, needs assessments, negotiation and planning activities.

**Prerequisite:** senior standing.**FES 4685 Fire Investigation and Analysis 3 Credits****Grading Scheme:** Letter Grade

Examines the technical, investigative, legal, and social aspects of arson, including principles of incendiary fire analysis and detection, environmental and psychological factors of arson, legal considerations, intervention, and mitigation strategies.

**Prerequisite:** senior standing.**FES 4804 Disaster Recovery and Mitigation 3 Credits****Grading Scheme:** Letter Grade

Provides the opportunity to understand real world disaster response efforts through academic study and interactive applied activities. Topics include the Incident Command System (ICS), Emergency Operations Center (EOC) management, Resource Management (RM), and Command-Communications-Coordination (C3).

**Prerequisite:** junior or senior standing.**FES 4820 Critical Incident Management for Emergency Managers 3 Credits****Grading Scheme:** Letter Grade

Examines disaster planning and emergency management. Focuses on the four phases of planning, mitigation, response, and preparedness. Includes FEMA and federal government NIMS ICS-700 and ICS-800 certifications.

**Prerequisite:** junior or senior standing.**FES 4825 Disaster Planning and Control 3 Credits****Grading Scheme:** Letter Grade

Examines concepts and principles of community risk assessment, planning and response to fires and natural and human-caused disasters, including National Incident Management System-Incident Command Systems (NIMS ICS), mutual aid and automatic response, training and preparedness, communications, civil disturbances, terrorist threats/incidents, hazardous materials planning, mass casualty incidents, earthquake preparedness, and disaster mitigation and recovery.

**Prerequisite:** Senior standing.**FES 4835 Natural Disaster Phenomena in Florida 3 Credits****Grading Scheme:** Letter Grade

Natural disasters prevalent in Florida: past, present, and future, including hurricanes, flooding, freezes, and agricultural emergencies. Also addresses planning, operations, mitigation, recovery, and evaluation concerns.

**Prerequisite:** junior or senior standing.**FES 4884 Introduction to Terrorism in Emergency Management 3 Credits****Grading Scheme:** Letter Grade

Introduces the fundamental concepts, theories, principles, and practice of terrorism and terrorist events.

**Prerequisite:** junior or senior standing.**FES 4905 Special Studies in Fire and Emergency Services 1-3 Credits****Grading Scheme:** Letter Grade

Special areas of study in fire and emergency services adjusted to the needs of individual students.

**Prerequisite:** instructor permission.**FES 4935 Current Issues in Fire and Emergency Services 3 Credits****Grading Scheme:** Letter Grade

Information and direction for fire service administrators on current legislative, legal, labor and/or technology concerns facing fire and emergency services agencies.

**Prerequisite:** senior standing.

---

## Fisheries and Aquatic Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Courses

### FAS 2024 Sustainable Fisheries 3 Credits

**Grading Scheme:** Letter Grade

Fish biology, ecology, and habitats relevant to fisheries on both a global and regional (Florida) scale. Follows the fisheries occurring from cold mountain rivers to the depths of the oceans, with special topics (e.g., artificial reefs, fisheries bycatch, and aquaculture). Intended for non-science and science majors.

**Attributes:** General Education - Biological Science

### FAS 4014 Aquaculture I 3 Credits

**Grading Scheme:** Letter Grade

Overview of the field of aquaculture, including water quality, production systems, nutrition, spawning, and the common fish and invertebrate groups cultured in the United States. Entirely web-based with narrated PowerPoint lectures followed by readings and other resources for each learning topic. Includes weekly topics in asynchronous class discussions.

**Prerequisite:** Junior or senior standing.

### FAS 4105C Field Ecology of Aquatic Organisms 3 Credits

**Grading Scheme:** Letter Grade

Field-oriented approach which introduces the diverse aquatic habitats found in Florida, their associated flora and fauna, and serves as an introduction to the management issues facing state and federal conservation agencies. Gain an understanding of plant and animal community structure across a range of ponds, lakes, rivers, and nearshore coastal systems. Requires extensive field trips which take approximately 75% of the total class time.

**Prerequisite:** Junior or senior standing.

### FAS 4202C Biology of Fishes 4 Credits

**Grading Scheme:** Letter Grade

The general biology of fishes, with emphasis on trends in their evolution, integrative and sensory biology, physiology, feeding ecology, reproduction, growth and population dynamics as they relate to fisheries.

**Prerequisite:** BSC 2011 and BSC 2011L.

### FAS 4270 Marine Ecological Processes 3 Credits

**Grading Scheme:** Letter Grade

The ecology of marine organisms and habitats with focus on how general ecological principles, and those unique to the marine environment, drive patterns and processes.

**Prerequisite:** BSC 2010 and BSC 2011 or equivalent.

### FAS 4271C Invasion Ecology of Aquatic Animals 3 Credits

**Grading Scheme:** Letter Grade

Comprehensive overview of invasion ecology which highlights aspects related to aquatic animals, including ecological concepts and debates underlying this developing field; biology and life history of nonnative aquatic animals, including characteristics of successful invaders; risk analysis methodology; and the conservation and regulatory implications of nonnative aquatic species.

**Prerequisite:** junior standing or higher.

### FAS 4274 Freshwater Ecology 3 Credits

**Grading Scheme:** Letter Grade

Provides an understanding of the concepts in freshwater ecology which are important for controlling the traits, distribution, and abundance of aquatic organisms. Focuses on the major groups of organisms found in freshwater habitats, the physical and chemical properties that are important for structuring freshwater communities, and the ecological processes that affect freshwater communities and ecosystems.

### FAS 4304C Spatial Sciences for Marine Environmental Characterization 4 Credits

**Grading Scheme:** Letter Grade

Exploration of the geospatial technologies, concepts, and methods required to acquire, analyze, and manage geographic data used in a context of marine habitat mapping. Emphasizes understanding and appreciation of maps as a mean of communication between stakeholders with different backgrounds and expertise.

**Prerequisite:** Junior standing.

### FAS 4305C Introduction to Fishery Science 3 Credits

**Grading Scheme:** Letter Grade

Principles of fish management in freshwater and marine systems. Includes field and laboratory techniques for aquatic habitat and fishery resource assessment, aquaculture practices and consideration of contemporary issues pertinent to sport and commercial uses of renewable fisheries resources.

**Prerequisite:** refer to the department.

**FAS 4364 Marine Adaptations: Environmental Physiology 3 Credits****Grading Scheme:** Letter Grade

Focuses on the responses of species and habitats to stressors encountered in the marine environment, such as the physiological responses to salinity, hypoxia, ocean acidification, thermal stress, pollutants, nitrogen stress, UV radiation, and noise. Explore these physiological stressors as drivers of marine ecological processes in a wide array of marine habitats, as well as societal, economic, and management implications.

**Prerequisite:** BSC 2010 and BSC 2011 or equivalent; courses in animal physiology and ecology are recommended.

**FAS 4405 Aquariums, Water and Aquaculture 3 Credits****Grading Scheme:** Letter Grade

Culture methods of fish and shellfish, species selection, biological and environmental principles, case histories and future trends.

**Prerequisite:** BSC 2010 and BSC 2010L, or instructor permission.

**FAS 4501C Field Ecology of Aquatic Organisms 3 Credits****Grading Scheme:** Letter Grade

This field-oriented course is intended to introduce students to the diverse aquatic habitats found in Florida, their associated flora and fauna, and serve as an introduction to the management issues facing state and federal conservation agencies. Students will gain an understanding of plant and animal community structure across a range of ponds, lakes, rivers, and nearshore coastal systems. Extensive field trips are required and comprise approximately 75% of the total class time.

**Prerequisite:** Junior or senior standing.

**FAS 4900 Supervised Extension Experience in Fisheries and Aquatic Sciences 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic Extension experiences in fisheries and aquatic sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**FAS 4905 Individual Study 1-4 Credits****Grading Scheme:** Letter Grade

Individual study of a selected topic in fisheries and aquatic sciences as contracted with the instructor at the start of the term.

**Prerequisite:** instructor permission.

**FAS 4911 Supervised Research in Fisheries and Aquatic Sciences 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic research in fisheries and aquatic sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**FAS 4915 Honors Thesis Research in Fisheries and Aquatic Sciences 0-3 Credits****Grading Scheme:** S/U

Independent research in fisheries and aquatic sciences leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

**FAS 4932 Topics in Fisheries and Aquatic Sciences 1-4 Credits****Grading Scheme:** Letter Grade

Selected topics in fisheries biology, aquaculture and associated aquatic sciences not offered in other courses.

**Prerequisite:** instructor permission.

**FAS 4933 Seminar in Fisheries and Aquatic Sciences 1 Credit****Grading Scheme:** Letter Grade

Introduces contemporary topics in the field of fisheries and aquatic sciences and develops listening and writing skills.

**PEN 1136 Openwater Scuba Diving 2 Credits****Grading Scheme:** Letter Grade

Beginning scuba diving including compass navigation, openwater diving environment, dive preparation and five openwater dives. Payment of required additional course fees and successful completion results in national certification as Openwater Scuba Diver.

**Prerequisite:** swim test.

**PEN 2138C Advanced Scuba Diving 3 Credits****Grading Scheme:** Letter Grade

Provides advanced SCUBA training. Topics include physics, physiology, decompression, and oceanography/ecology. Pool sessions cover rescue, double cylinders, full facemasks, night/limited visibility techniques, search, recovery, salvage techniques, and underwater task loading. Completion results in NAUI certification in Advanced SCUBA, Enriched Air Nitrox, SCUBA Rescue, First Aid, CPR, and Oxygen Provider.

**Prerequisite:** PEN 1136 or equivalent.

**PEN 3135C Scuba Leadership I 1 Credit**

**Grading Scheme:** Letter Grade

This 4-week course provides high-level recreational SCUBA training as well as introductory professional leadership level training in accordance with National Association of Underwater Instructors (NAUI) Divemaster standards. This course is taught consecutively following PEN 3139C and is a prerequisite for PEN 4145C and part of the progression for NAUI professional Instructor certification.

**Prerequisite:** PEN 2138C or instructor approval.

**Corequisite:** The 10-week Master Diver is required in order to take the following 4-week Scuba Leadership I. Students can take the 10-week Master Diver without subsequently taking Scuba Leadership I.

**PEN 3139C Master Scuba Diver 3 Credits**

**Grading Scheme:** Letter Grade

This 10-week course provides high-level recreational SCUBA training in accordance with National Association of Underwater Instructors (NAUI) Master Diver standards. This course is a prerequisite for PEN 4145C. Successful students can earn NAUI Master Diver credentials.

**Prerequisite:** PEN 2138C or instructor approval(see qualifications section of syllabus).

**PEN 4145C Scuba Leadership II: Research Divemaster 3 Credits**

**Grading Scheme:** Letter Grade

This 15-week advanced course builds upon the professional leadership level training of Scuba Leadership 1 in accordance with National Association of Underwater Instructors (NAUI) Divemaster standards. This includes gear repair and maintenance, planning and leading dives, conducting discover scuba sessions, and assisting with instruction. This course is part of the progression for NAUI professional Instructor certification.

**Prerequisite:** PEN 3135C and PEN 3139C.

**PLS 4613 Aquatic Weed Control 3 Credits**

**Grading Scheme:** Letter Grade

Florida's aquatic weed problems and methods of chemical, biological, mechanical and physical weed control. Topics include plant biology/ecology, herbicide residue, lake reclamation, fish-plant interactions and laws regulating aquatic weed control.

**Prerequisite:** refer to the department.

---

## Food and Resource Economics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

## Courses

### **AEB 2014 Economic Issues, Food and You 3 Credits**

**Grading Scheme:** Letter Grade

The role of agriculture and economics: the how's and why's of their influence on food prices and the world food situation, the environment, natural resources and government policy; and economic issues, including inflation and money. (S)

**Prerequisite:** not for FRE majors.

**Attributes:** General Education - Social Science

### **AEB 2451 Economics of Resource Use 3 Credits**

**Grading Scheme:** Letter Grade

Introduces how economists value the environment and regulations designed to protect our natural resources from overuse and degradation. (S)

**Attributes:** General Education - Social Science

### **AEB 3103 Principles of Food and Resource Economics 4 Credits**

**Grading Scheme:** Letter Grade

Introduces the field of food and resource economics, the principles of economics as applied to agriculture, and the economic problems of the agricultural industry and the individual farmer. (S)

**Prerequisite:** MAC 2233/MAC 2311 or higher.

**Attributes:** General Education - Social Science

### **AEB 3114L Introduction to Agricultural Computer Applications 1 Credit**

**Grading Scheme:** Letter Grade

Introduces computer application with specific emphasis on applications used in agricultural businesses. Specific applications include spreadsheets, databases, word processing and DOS.

### **AEB 3122 Financial Planning for Agribusiness 3 Credits**

**Grading Scheme:** Letter Grade

Introduces basic financial and managerial decision-making for small agribusinesses.

### **AEB 3133 Principles of Agribusiness Management 3 Credits**

**Grading Scheme:** Letter Grade

Introduces agribusiness management principles, application of economic principles, budgeting techniques, and principles of strategy in agribusiness from management in the United States, particularly Florida. Emphasizes the financial and tax management strategies and the requirements imposed on agribusiness management by local, state and federal government regulatory agencies.

### **AEB 3144 Introduction to Agricultural Finance 3 Credits**

**Grading Scheme:** Letter Grade

Basic financial statements, investment frameworks and theories of financial intermediation as applied to agricultural firms, along with an overview of financial institutions that provide capital to agriculture.

**Prerequisite:** AEB 3122 or ACG 2071.

### **AEB 3281 Agricultural Macroeconomics 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the world economy from a macroeconomic perspective that focuses on the links that arise from international trade and capital flows in the agricultural sector.

**Prerequisite:** ECO 2013.

### **AEB 3300 Agricultural and Food Marketing 3 Credits**

**Grading Scheme:** Letter Grade

Examines agricultural and food marketing from a system and individual firm perspective. Explores problems and issues associated with marketing functions and institutions at the industry level and with objectives and strategies of farms and agribusiness firms that market agricultural commodities and food products.

**Prerequisite:** AEB 3103 or AEB 2014 or ECO 2023 or ECO 2013.

### **AEB 3315 Futures Markets and Risk Management in Agriculture 3 Credits**

**Grading Scheme:** Letter Grade

Basic elements and principles of agricultural commodity marketing with emphasis on the futures industry. Includes use of futures markets for speculating and risk management for agriculture and finance. Participation in a computerized futures trading game is required.

### **AEB 3341 Selling Strategically 3 Credits**

**Grading Scheme:** Letter Grade

Introduces professional selling techniques for all products with special emphasis given to food and agricultural products, technical systems and services.

**AEB 3450 Introduction to Natural Resource and Environmental Economics 3 Credits**

**Grading Scheme:** Letter Grade

Introduces natural and environmental resource economics. Emphasizes understanding economic concepts such as resource scarcity, market failure, externality, property rights and common property resources and their application to studies of forest, land, water, energy and coastal resources.

**Prerequisite:** AEB 3103 or ECO 2023. Credit cannot be received for both AEB 3450 and ECP 3302.

**AEB 3510 Quantitative Methods in Food and Resource Economics 3 Credits**

**Grading Scheme:** Letter Grade

Develops understanding of finite mathematical tools used in economics and business decision making. Topics include linear equations, matrix algebra and calculus. Lectures and problems show how these tools are used to examine economic, financial and managerial problems.

**Prerequisite:** (AEB 3103 or ECO 2023) and (MAC 2233 or MAC 2311).

**AEB 3550 Agricultural Data Analysis in Food and Resource Economics 3 Credits**

**Grading Scheme:** Letter Grade

Introduces analysis of agricultural data. Incorporates statistical and agricultural economic theory into the analysis of agricultural problems. Knowledge in use of spreadsheets is assumed.

**Prerequisite:** AEB 3103 and AEB 3510 and STA 2023.

**AEB 3671 Comparative World Agriculture 3 Credits**

**Grading Scheme:** Letter Grade

Studies the business and economic situations of the food and agriculture sector around the world. Focuses on the historical development, the current situation and the future outlook of the food and agriculture sector. (N and S)

**Attributes:** General Education - International, General Education - Social Science

**AEB 3935 Food and Resource Economics Seminar 1 Credit**

**Grading Scheme:** Letter Grade

Introduces the Department of Food and Resource Economics and career opportunities for its graduates.

**AEB 4085 Agricultural Risk Management and the Law 3 Credits**

**Grading Scheme:** Letter Grade

Develops an understanding of the basic concepts of common and statutory law. Identifies and addresses current legal issues of importance at the personal and professional levels. Develops an understanding of risk and the solutions for managing risk and relates the concepts of risk management and law in limiting exposure to legal liability.

**AEB 4123 Agricultural and Natural Resource Law 3 Credits**

**Grading Scheme:** Letter Grade

Legal aspects of agricultural rights, responsibilities and problems. Topics include agricultural estate and income taxation, zoning and land use planning, Capper-Volstead Act, international agricultural agreements, agricultural labor and consumer protection.

**AEB 4126 Agricultural and Natural Resource Ethics 3 Credits**

**Grading Scheme:** Letter Grade

Examines the political, economic, environmental and ethical value issues involved in agricultural practices and policies, including agricultural research. (H or S) (WR)

**Prerequisite:** junior or senior standing.

**Attributes:** General Education - Humanities, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**AEB 4138 Advanced Agribusiness Management 3 Credits**

**Grading Scheme:** Letter Grade

Integration of finance and management to solve problems faced by agricultural firms and agribusinesses. In addition to lectures, students will work in small groups to identify and to analyze case studies from agricultural and rural businesses.

**Prerequisite:** AEB 3103 and AEB 3144 and agribusiness major.

**AEB 4242 International Trade Policy in Agriculture 3 Credits**

**Grading Scheme:** Letter Grade

Explores the role of international trade policy in agriculture and examines the effects of trade policies on domestic and international prices, consumption, production, trade and government revenues. Addresses impact of current trade issues on the agricultural sector. (S)

**Prerequisite:** AEB 3103 or ECO 2023.

**Attributes:** General Education - Social Science

**AEB 4282 International Humanitarian Assistance 3 Credits**

**Grading Scheme:** Letter Grade

Emergency assistance to developing countries to minimize losses and affect recovery. Includes legal/ethical bases; program designs promoting recovery, rather than dependence; cultural issues, including gender; and technical aspects. (N and S)

**Attributes:** General Education - International, General Education - Social Science

**AEB 4283 International Development Policy 3 Credits**

**Grading Scheme:** Letter Grade

Studies how factors such as poverty, population, technology, resources, trade and the environment affect man's effort to develop. The roles of the public and private sectors are discussed as well as the process of policy formulation and implementation. Emphasizes the agricultural sector and its role in process of economic development, especially in countries where problems of hunger, demographic pressure and poverty are pervasive. (S)

**Prerequisite:** AEB 3103 or AEB 2014 or ECO 2013 or ECO 2023.

**Attributes:** General Education - Social Science

**AEB 4306 Agricultural Marketing Strategies 2 3 Credits**

**Grading Scheme:** Letter Grade

The strategic process of formulating and implementing marketing strategies unique to the agriculture industry.

**Prerequisite:** instructor permission.

**AEB 4309 Food Wholesaling and Retail Marketing 3 Credits**

**Grading Scheme:** Letter Grade

Food industry trends, issues and opportunities that exist in the U.S. and the world. Guest lecturers and recent trade publications provide students with a command of wholesaling and retail food management.

**AEB 4325 Contemporary Issues in Agribusiness Management 3 Credits**

**Grading Scheme:** Letter Grade

A capstone course utilizing economic concepts to address the interaction between the political process that legislates domestic agricultural, environmental and international trade policy, micro and macro economic principles, private business decisions taken by firms in response to public policies, and ethical considerations in developing and implementing public policy.

**Corequisite:** AEB 4138 or AEB 4342.

**AEB 4334 Agricultural Price Analysis and Consumer Behavior 3 Credits**

**Grading Scheme:** Letter Grade

Quantitative measurement of factors affecting agricultural and resource prices; seasonal and cyclical fluctuations; index measures of price and quantity variables; theory and application of consumer behavior principles.

**Prerequisite:** AEB 3103 and AEB 3550.

**AEB 4342 Agribusiness and Food Marketing Management 3 Credits**

**Grading Scheme:** Letter Grade

Application of marketing and management principles to agribusiness and food marketing problems faced by managers. Emphasis on case problems, group projects, oral presentations and written assignments.

**Prerequisite:** AEB 3133 and FRE major in the agribusiness specialization.

**AEB 4343 International Agribusiness Marketing 3 Credits**

**Grading Scheme:** Letter Grade

Problems, issues, regulations, policies and procedures unique to the global agribusiness marketing of perishable and storable agricultural commodities and food products. Combines firm-level agribusiness marketing concepts with international agribusiness marketing and export management applications. (S)

**Prerequisite:** AEB 3300.

**Attributes:** General Education - Social Science

**AEB 4374 Advanced Agricultural Microeconomics 3 Credits**

**Grading Scheme:** Letter Grade

Rigorous training in the fundamental mathematical models underlying the basic microeconomics principles; an in-depth analysis of key microeconomics concepts including consumer and producer theory, risk and uncertainty game theory, and asymmetric information. Uses mathematical and graphical methods to help illustrate the different concepts.

**Prerequisite:** AEB 3550.

**AEB 4380 Agricultural Marketing Strategies 3 Credits**

**Grading Scheme:** Letter Grade

The decision-making activities necessary to launch a new agricultural product successfully. The marketing plan development for this course follows the guidelines of the National Agri-Marketing Association Marketing Competition.

**Prerequisite:** instructor permission.

**AEB 4424 Human Resources Management in Agribusiness 3 Credits**

**Grading Scheme:** Letter Grade

Issues involved in the strategic and effective management of human resources in agribusiness. Human resource management concepts and techniques designed to improve agribusiness organizational teamwork, productivity, performance and enterprise success. Course explores the unique aspects of labor management and includes application through use of case problems, triad and video techniques.

**AEB 4673 International Agricultural Trade 3 Credits****Grading Scheme:** Letter Grade

Examines the economic forces associated with trade in food and agricultural products between the U.S. and other countries. Applies economics principles and analytical techniques to international agricultural trade and multi-national markets.

**Prerequisite:** AEB 3103 and AEB 3510.**AEB 4900 Supervised Extension Experience in Food and Resource Economics 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic extension experiences in agricultural and life sciences under faculty member supervision. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**AEB 4905 Special Problems in Food and Resource Economics 1-3 Credits****Grading Scheme:** Letter Grade

Individual study in selected problem areas of interest to the student and agreeable to the instructor.

**Prerequisite:** instructor permission.**AEB 4911 Supervised Research in Food and Resource Economics 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic research in food and resource economics under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**AEB 4915 Honors Thesis Research in Food and Resource Economics 0-3 Credits****Grading Scheme:** S/U

Independent research in food and resource economics leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.**AEB 4931 Special Topics in Food and Resource Economics 1-3 Credits****Grading Scheme:** Letter Grade

Lectures, conferences or laboratory covering specially selected topics in food and resource economics.

**Prerequisite:** instructor permission.**AEB 4941 Full-Time Practical Work Experience in Food and Resource Economics 1-3 Credits****Grading Scheme:** S/U

Practical work must be a new experience and related to the field of study. (S-U)

**Prerequisite:** previous arrangement with advisor and undergraduate coordinator and dean permissions.**AEB 4951 Survey of Agricultural Economics 1 Credit****Grading Scheme:** Letter Grade

Trains students to think on their feet with respect to topics in the agricultural economics discipline. While individual courses tend to focus on a particular set of skills, this course enhances the student's ability to access the range of skills they acquired in past courses.

**Prerequisite:** instructor permission.**ALS 4932 Special Topics 1-3 Credits****Grading Scheme:** Letter Grade

Variable subjects provide content for the study of agricultural topics not offered in other courses.

---

## Food Science and Human Nutrition

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.uf.edu/soc/>)*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## Department Information

The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. FSHN has nearly 25 full-time faculty members, 80 graduate assistants, and 600 undergraduate students. The department's programs are accredited by the Institute of Food Technologists (IFT) (<http://www.ift.org/>) and the Academy of Nutrition and Dietetics (<http://www.eatright.org/>). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.

Map (<http://campusmap.ufl.edu/#/index/0475>)

**Curriculum**

- Dietetics
- Food Science
- Food Science Minor
- Nutritional Sciences
- Nutritional Sciences Minor

---

**Courses****BCH 3025 Fundamentals of Biochemistry 4 Credits**

**Grading Scheme:** Letter Grade

Introducing biochemistry with emphasis on intermediary metabolism.

**Prerequisite:** CHM 2200 and CHM 2200L (or preferably CHM 2210, CHM 2211 and CHM 2211L) with minimum grades of C.

**DIE 3310 Community Nutrition 2 Credits**

**Grading Scheme:** Letter Grade

Role of nutrition in promoting, maintaining and improving health in the community. Investigation of traditional aspects of the emerging health delivery systems, as well as entrepreneurial ventures in wellness. Study the financial, legislative, political, sociological, and scientific aspects of public and community health.

**Prerequisite:** (HUN 2201 and Dietetics major) or instructor permission.

**DIE 4125 Food Systems Management 3 Credits**

**Grading Scheme:** Letter Grade

The management of human resources, food, equipment and facilities to provide a quality product and service to customers in a food service operation.

**Prerequisite:** FOS 3042.

**DIE 4125L Food Systems Management Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

The application of principles of food systems management, including purchasing, production, service, sanitation and safety.

**Prerequisite:** DIE majors only;

**Corequisite:** DIE 4125.

**DIE 4245 Medical Nutrition Therapy Applications: Part 1 3 Credits**

**Grading Scheme:** Letter Grade

Part one of a 2-semester sequence focusing on application of the nutrition care planning process. Includes development of nutrition assessment skills and formulation of nutrition care plans for simulated patients, including those requiring enteral and parenteral nutrition.

**Prerequisite:** HUN 2201 and Dietetics major.

**Corequisite:** HUN 4445 and (APK 2105C or PCB 4723C) and (BCH 3025 or BCH 4024).

**DIE 4246 Medical Nutrition Therapy Applications: Part 2 3 Credits**

**Grading Scheme:** Letter Grade

Part two of a 2-semester sequence that focuses on attainment of knowledge to make nutrition diagnoses, to develop and implement effective nutrition intervention strategies and to identify appropriate monitoring and evaluation plans for patients with common chronic diseases and disorders.

**Prerequisite:** HUN 4445 and DIE 4245 and (APK 2105C or PCB 4723C).

**Corequisite:** HUN 4446.

**DIE 4436 Nutrition Counseling and Communication 2 Credits**

**Grading Scheme:** Letter Grade

Application of principles of group dynamics and group and interpersonal counseling skills in dietetics practice settings. Provides hands-on experiences in counseling and in oral and written communication.

**Prerequisite:** HUN 2201 and HUN 3403 and Dietetic major.

**DIE 4505 Dietetics Seminar 1 Credit**

**Grading Scheme:** Letter Grade

Capstone course for dietetic majors; focuses on professional issues, including ethics, legislative issues, advocating and marketing the profession.

**Prerequisite:** Agricultural and Life Sciences senior and Dietetic major.

**DIE 4543 Supervised Extension Experience in Dietetics 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic extension experiences in dietetics under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**DIE 4905 Problems in Dietetics 1-5 Credits**

**Grading Scheme:** Letter Grade

Individual research work in various phases of dietetics.

**DIE 4911 Supervised Research in Dietetics 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic research in dietetics under faculty member supervision. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**DIE 4915 Honors Thesis Research in Dietetics 0-3 Credits**

**Grading Scheme:** S/U

Independent research in dietetics leading to an honors thesis. Student is mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

**DIE 4934 Topics in Dietetics 1-3 Credits**

**Grading Scheme:** Letter Grade

Lectures, conference, laboratory or clinical experience covering selected topics in dietetics.

**FOS 2001 Man's Food 3 Credits**

**Grading Scheme:** Letter Grade

Discussion of current nutrition and food science topics concerning nutritional quality and safety of foods as they relate to one's health. For science and non-science students. (B)

**Attributes:** General Education - Biological Science

**FOS 3042 Introductory Food Science 3 Credits**

**Grading Scheme:** Letter Grade

Commodities selected for human consumption and the methods used by food technologists to prolong shelf life, retard spoilage and ensure quality. Principles upon which the various processing methodologies are based. (B)

**Attributes:** General Education - Biological Science

**FOS 3060 Life After Graduation 1 Credit**

**Grading Scheme:** S/U

Overview of available opportunities for Food Science students after graduation, and tips and advice on how to be successful after graduation. Intended for all Food Science majors, especially those preparing to graduate within the academic year.

**Prerequisite:** junior or senior standing.

**FOS 4202 Food Safety and Sanitation 2 Credits**

**Grading Scheme:** Letter Grade

Lectures, discussions, demonstrations and field trips concerning microbial, chemical and biological safety of food, principles of sanitation for the food processing, food service and retail food industries.

**Prerequisite:** MCB 2000 and MCB 2000L, or the equivalent.

**FOS 4222 Food Microbiology 3-4 Credits**

**Grading Scheme:** Letter Grade

Sources and types of biological contamination and its control during harvesting, processing and storage of foods; food fermentation; biotechnology sanitation; HACCP methods used to examine foods for microbial content.

**Prerequisite:** MCB 2000 or MCB 2010 or MCB 2013 or MCB 3020 or MCB 3023.

**FOS 4222L Food Microbiology Laboratory 2 Credits**

**Grading Scheme:** Letter Grade

Methods to enumerate microorganisms in foods.

**Prerequisite:** MCB 2000L or MCB 3020L; concurrent or previous registration in FOS 4222.

**FOS 4223 Food and Environmental Virology 2 Credits**

**Grading Scheme:** Letter Grade

An emerging topic in the field of microbial food safety, food virology explores the role of viruses as human pathogens; their interactions with bacteria; transmission to food, water, and contact surfaces; detection; and prevention strategies. Through this course, students can develop a competency framework within their discipline.

**Prerequisite:** MCB 2000/MCB 2000L or MCB 3020/MCB 3020L or FOS4222.

**FOS 4290 Principles of Food Safety Systems 2 Credits**

**Grading Scheme:** Letter Grade

This course is designed to cover 1) current issues in food supply chain including security and safety in domestic and international food industry, 2) various food safety control systems, 3) principles of HACCP and FSMA Preventive controls. The course also provides hands-on practice in developing a food safety plan.

**Prerequisite:** FOS 3042.

**FOS 4310L Experimental Foods Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Demonstrations and illustrations of the chemical and physical properties of foods. Shows the effects of processing, ingredients and storage on food quality and nutrient retention.

**Corequisite:** FOS 4311.

**FOS 4311 Food Chemistry 3 Credits**

**Grading Scheme:** Letter Grade

Relationship of composition to the properties of foods and the changes which occur during processing, storage and utilization.

**Prerequisite:** CHM 2200 or (CHM 2210 and CHM 2211).

**Corequisite:** FOS 4310L or FOS 4311L; biochemistry recommended but not required.

**FOS 4311L Food Chemistry Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Laboratory covering the relationship of composition to the properties of foods and the changes which occur during processing, storage and utilization.

**Prerequisite:** CHM 2200L or CHM 2211L;

**Corequisite:** FOS 4311.

**FOS 4318 Flavor Chemistry 3 Credits**

**Grading Scheme:** Letter Grade

Learn how flavor chemicals impact sensory perception of food; discuss flavor compounds used in foods, their production, isolation, analysis, and specific attributes.

**Prerequisite:** (CHM 2045 and CHM 2046) and CHM 2200 or (CHM 2210 and CHM 2211), all with grades of C.

**FOS 4321C Food Analysis 4 Credits**

**Grading Scheme:** Letter Grade

Principles and practice of physical and chemical methods for analyzing foods. (P)

**Prerequisite:** (CHM 2200 and CHM 2200L) or (CHM 2210 and CHM 2211 and CHM 2211L).

**Attributes:** General Education - Physical Science

**FOS 4410C Introduction to Unit Operations in Food Processing 4 Credits**

**Grading Scheme:** Letter Grade

Introduces the fundamentals of food processing for non-engineering students. Applies primary concepts in context of the field of food science, including Engineering Units, Food Properties, Microbial Death, Conduction, Phase Changes, Convection, Heat Exchangers, Steady-State-Heat-Transfer, Extrusion, Unsteady-State-Heat-Transfer, and Radiation.

**Prerequisite:** MAC 2311 and PHY 2053.

**FOS 4427C Principles of Food Processing 4 Credits**

**Grading Scheme:** Letter Grade

Principles of processing foods: cooling, freezing, heating, dehydrating, concentrating, irradiating, fermenting and the use of chemicals.

**Prerequisite:** FOS 4410C.

**FOS 4435C Food Product Development 3 Credits**

**Grading Scheme:** Letter Grade

Capstone course integrating food science and related disciplines to value-added food products using traditional and novel commodity, ingredient and process combinations. Class projects emphasize technology, safety, health/nutrition, legal, quality and economic/ marketing considerations.

**Prerequisite:** 4AG - FOS majors only.

**FOS 4522C Seafood Technology 3 Credits**

**Grading Scheme:** Letter Grade

Processing principles and methods of preparation of various seafood products and control of product quality.

**Prerequisite:** CHM 2045.

**FOS 4722C Quality Control in Food Systems 3 Credits**

**Grading Scheme:** Letter Grade

Measurement and control of the major quality parameters of foods, including sensory, color and texture.

**Prerequisite:** STA 2023.

**FOS 4731 Government Regulations and the Food Industry 2 Credits**

**Grading Scheme:** Letter Grade

Government laws regulating food wholesomeness; food handling, processing and distribution under sanitary conditions; food ingredients and labeling of food products.

**Prerequisite:** FOS 3042 or Food Science major or instructor permission.

**FOS 4905 Special Problems in Food Science 1-5 Credits**

**Grading Scheme:** Letter Grade

Individual research work in various phases of food science.

**FOS 4906 Supervised Extension Experience in Food Science 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**FOS 4911 Supervised Research in Food Science 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic research in food science under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**FOS 4915 Honors Thesis Research in Food Science 0-3 Credits**

**Grading Scheme:** S/U

Independent research in food science leading to an honors thesis. Student is mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

**FOS 4936 Topics in Food Science 1-3 Credits**

**Grading Scheme:** Letter Grade

Lectures, conferences or laboratory covering specially selected topics in food science.

**FOS 4941 Full-Time Practical Work Experience in Food Science 1-3 Credits**

**Grading Scheme:** S/U

One-term employment in industry, including extra work according to a pre-approved outline. Practical work under industrial supervision as set forth in College of Agricultural and Life Sciences regulations. (S-U)

**Prerequisite:** previous arrangement with advisor and department permission; FSHN majors only.

**HUN 2201 Fundamentals of Human Nutrition 3 Credits**

**Grading Scheme:** Letter Grade

The properties, functions, requirements, interrelationships and metabolism of nutrients. (B)

**Prerequisite:** BSC 2007 or BSC 2005 or BSC 2010 or CHM 1025 or CHM 2045 or APK 2100C or APK 2105C or CHM 1030.

**Attributes:** General Education - Biological Science

**HUN 3403 Nutrition through the Life Cycle 2 Credits**

**Grading Scheme:** Letter Grade

Nutritional needs and concerns throughout stages of the life cycle including pregnancy and lactation, infancy, adolescence, adulthood, and aging; socioeconomic, cultural and psychological influences on food and nutrition behavior.

**Prerequisite:** HUN 2201.

**HUN 4221 Nutrition and Metabolism 3 Credits**

**Grading Scheme:** Letter Grade

Metabolic relationships of nutrients with emphasis upon their functions in biochemical and physiological processes as well as variations in requirements in response to stress. Meets requirements of the American Dietetic Association.

**Prerequisite:** (BCH 3025 or BCH 4024) and (PCB 4723C or APK 2105C) and (HUN 3403 and HUN 4445).

**HUN 4445 Nutrition and Disease: Part 1 2 Credits**

**Grading Scheme:** Letter Grade

Part one of a two-semester sequence that focuses on the biochemical and pathophysiological bases of disease/conditions that require specialized nutrition support/medical nutrition therapy.

**Prerequisite:** HUN 2201 and CHM 2211;

**Corequisite:** APK 2105C or PCB 4723C, BCH 3025 or BCH 4024.

**HUN 4446 Nutrition and Disease: Part 2 3 Credits****Grading Scheme:** Letter Grade

Part two of the sequence that focuses on the biochemical and pathophysiological bases of disease/conditions that require specialized nutrition support/medical nutrition therapy.

**Prerequisite:** HUN 4445 and (BCH 3025 or BCH 4024) and (PCB 4723C or APK 2105C).**Corequisite:** DIE 4246.**HUN 4813C Laboratory Techniques in Molecular Nutrition 3 Credits****Grading Scheme:** Letter Grade

Laboratory techniques relevant to the study of nutrition, ranging from biochemistry, molecular biology, genomics and bioinformatics.

**Prerequisite:** CHM 2211 and CHM 2211L;**Corequisite:** BCH 3025 or BCH 4024.**HUN 4903 Supervised Extension Experience in Nutritional Sciences 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**HUN 4905 Special Problems in Human Nutrition 1-5 Credits****Grading Scheme:** Letter Grade

Individual research work in various phases of nutrition.

**HUN 4911 Supervised Research in Nutritional Sciences 0-3 Credits****Grading Scheme:** S/U

Firsthand, authentic research in nutritional sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**HUN 4915 Honors Thesis Research in Nutritional Sciences 0-3 Credits****Grading Scheme:** S/U

Independent research in nutritional sciences leading to an honors thesis. Student is mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.**HUN 4936 Topics in Human Nutrition 1-3 Credits****Grading Scheme:** Letter Grade

Lectures or laboratory covering selected topics in human nutrition.

**Prerequisite:** instructor permission.**HUN 4941 Full Time Practical Work Experience in Human Nutrition 1-3 Credits****Grading Scheme:** S/U

One-term employment in industry or the health field according to a pre-approved outline. Practical work under supervision as set forth in College of Agricultural and Life Sciences regulations. (S-U)

**Prerequisite:** previous arrangement with advisor and department permission; FSHN majors only.

## Forest, Fisheries, and Geomatics Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (<https://one.ufl.edu/soc/>)

*Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.*

## School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (<http://sfrc.ufl.edu/fish/>), Forest Resources and Conservation (<http://sfrc.ufl.edu/forest/>), and Geomatics (<http://sfrc.ufl.edu/geomatics/>). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

---

**Courses****FAS 4175 Algae Biology and Ecology 3 Credits****Grading Scheme:** Letter Grade

The biology and ecology of aquatic algae, including evolution, classification, structure, photosynthesis, growth, and reproduction. Emphasis on the ecological role of algae in different aquatic ecosystems (e.g. open ocean, estuaries, coral reefs, rocky intertidal), their impacts (e.g. harmful algae blooms, food webs), and their applications (e.g. food, biochemical).

**Prerequisite:** BSC 2010 and BSC 2010L, or equivalent.**FNR 3020 Professional Practice in Natural Resources 1 Credit****Grading Scheme:** Letter Grade

Prepare for professional success by emphasizing careers involving fieldwork. Addresses securing the student's first position (resume, interviewing, etc.), professional ethics and practice (ethical frameworks, work-life balance, etc.), and avenues for advancement (references, professional organizations, etc.). Intended for Forest Resources and Conservation, Natural Resource Conservation and related majors.

**Prerequisite:** junior College of Agricultural and Life Sciences student with a major of Forest Resources and Conservation or Natural Resource Conservation.**FNR 3131C Dendrology/Forest Plants 3 Credits****Grading Scheme:** Letter Grade

Provides a basic understanding of the classification, nomenclature, morphology, ecological relationships, associations and uses of the major forest tree and shrub species of North America.

**Prerequisite:** refer to the department.**FNR 3410C Natural Resource Sampling 3 Credits****Grading Scheme:** Letter Grade

Basic concepts of sampling. Design of cost-effective sample surveys. Sampling methodology applicable to natural resources: simple random, stratified, systematic, multi-phase and multi-stage. Cluster sampling, ratio, regression and difference estimation. Line transects. Computer simulation of sampling methods. Introduces remote sensing, geographic information and global positioning systems.

**Prerequisite:** STA 2023.**FNR 4070C Environmental Education Program Development 3 Credits****Grading Scheme:** Letter Grade

Applies a comprehensive approach to program development, from needs assessment to evaluation, to non-formal environmental opportunities. Analyzes existing and developing programs and emphasizes the role of participation and indicators in meeting environmental objectives. Requires field trips.

**Prerequisite:** junior standing or higher.**FNR 4343C Forest Water Resources 3 Credits****Grading Scheme:** Letter Grade

Watershed hydrology, balances and models. Water quality parameters, processes and loading. Ecosystem and watershed functions. Watershed resources management.

**Prerequisite:** SWS 3022 and SWS 3022L, or the equivalent.**FNR 4461 Spatial Models and Decision Analysis 3 Credits****Grading Scheme:** Letter Grade

Concepts and applications of environmental modeling in a spatial context using descriptive and prescriptive tools and spatial reasoning.

**Prerequisite:** FOR 3434C or the equivalent, basic statistics or instructor permission.

**FNR 4623C Integrated Natural Resource Management 3 Credits****Grading Scheme:** Letter Grade

Integrative approach to the study of forest resource management for the production of multiple products, such as timber, recreation, wildlife, rangeland, utilizing the case study approach.

**Prerequisite:** FOR 3162C**FNR 4624C Field Operations for Management of Ecosystems 3 Credits****Grading Scheme:** Letter Grade

Covers the common operations utilized by natural resource managers to manipulate ecosystems to reach a goal (commodity production, ecological enhancement, aesthetics, recreational opportunities, etc.). Addresses the use of heavy machinery, herbicides and prescribed fire; and the regulations, contracting markets and safety concerns governing each.

**Prerequisite:** FOR 3153C and FNR 3410C or WIS 4954C or FOR 3162C.**FNR 4660 Natural Resource Policy and Economics 3 Credits****Grading Scheme:** Letter Grade

Factors in evolution of forest, range, and wildlife natural resources administration and policies in the United States; policy components; policy formation implementation, change processes; and economic criteria for evaluating the effectiveness of policies.

**Prerequisite:** junior standing or higher.**FNR 4950L Natural Resource Conservation Capstone 3 Credits****Grading Scheme:** S/U

Provides students in the Natural Resource Conservation (NRC) major with an opportunity to plan and carry out a capstone experience which integrates the knowledge and expertise that they have gained through their undergraduate curriculum.

**Prerequisite:** Senior Standing and Natural Resource Conservation Major.**FOR 2662 Forests for the Future 3 Credits****Grading Scheme:** Letter Grade

Examines current environmental issues that impact individual, community and institutional decisions about North American forest resources. Each issue is reviewed with a framework that uses human behavior, policy options and media messages. Students are expected to understand the issues and to discuss and analyze the major social and ecological variables affecting each issue. (S) (WR)

**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement**FOR 3004 Forests, Conservation and People 3 Credits****Grading Scheme:** Letter Grade

A general background course for non-FRC students interested in management, use and conservation of forest resources. Topics include resource description, historical perspectives, current issues, forest biology and management principles. (B)

**Attributes:** General Education - Biological Science**FOR 3153C Forest Ecology 3 Credits****Grading Scheme:** Letter Grade

Ecological principles and their application to the management of forests; major sections include tree population, forest community dynamics and ecosystem processes. (B)

**Attributes:** General Education - Biological Science**FOR 3162C Silviculture 4 Credits****Grading Scheme:** Letter Grade

Principles governing establishment, treatment and control of forest stands; natural and artificial regeneration systems; intermediate cuttings and cultural operations.

**Prerequisite:** FOR 3153C.**FOR 3200C Foundations of Natural Resources and Conservation 1 Credit****Grading Scheme:** Letter Grade

Overview of current and historical views of forest conservation, utilization and policy; principles of forest biology, ecology, Silviculture and management relevant to future courses and careers; basic field research, communications and computer skills.

**Prerequisite:** 3FY or instructor permission.**FOR 3202 Society and Natural Resources 3 Credits****Grading Scheme:** Letter Grade

Local-to-global and individual-to-institutional perspectives on natural resource values, sustainability, diversity, and social change with consideration of potential paths for working with complex human and natural resource systems. (S)

**Attributes:** General Education - Social Science**FOR 3214 Fire Ecology and Management 2 Credits****Grading Scheme:** Letter Grade

Detailed study of the role, occurrence and function of wildland fires in natural ecosystems and the use of prescribed burning to simulate those functions. Key topics include factors that influence natural fires, effects of fires on the environment, management and control of wildfires, and the use of prescribed burning. Students will plan and conduct several prescribed burns.

**Prerequisite:** FOR 3153C or PCB 3034C or PCB 4043C, or the equivalent.

**FOR 3214L Fire Ecology and Management Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Laboratory to assess, design and participate in the application of prescribed fire in forest ecosystem research and management.

**Corequisite:** FOR 3214 encouraged strongly.

**FOR 3342C Tree Biology 3 Credits**

**Grading Scheme:** Letter Grade

Studies tree structure and function with relationships to forest environments and forestry practices.

**Prerequisite:** BOT 2010C or BSC 2011.

**FOR 3430C Forest Mensuration 3 Credits**

**Grading Scheme:** Letter Grade

Forest resource measurements, log and tree content estimation, forest inventory techniques, and stand growth and yield.

**Prerequisite:** FNR 3410C or the equivalent.

**FOR 3434C Forest Resources Information Systems 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the concepts, principles and applications of geographic information systems, remote sensing and global positioning systems that emphasize applications in forest resource management.

**FOR 4060 Global Forests 3 Credits**

**Grading Scheme:** Letter Grade

Overview of important international issues and developments related to forest resource use and tree management systems in a wide variety of contexts.

**Prerequisite:** 4FY or higher.

**FOR 4090C Urban Forestry 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the nature, scope and components of the urban forest, including biology, culture, protection and aspects of management, planning and policy.

**Prerequisite:** 4FY or higher.

**FOR 4110 Ecology and Restoration of Longleaf Pine Ecosystems 3 Credits**

**Grading Scheme:** Letter Grade

History, structure, importance, ecology, restoration and management techniques, ownership patterns and policy implications.

**Prerequisite:** FOR 3153C or PCB 3034C or PCB 4043C, or the equivalent.

**FOR 4621 Forest Economics and Management 3 Credits**

**Grading Scheme:** Letter Grade

Principles of forest management for timber, non-timber and timberland valuation: decision analysis, management plans, forest regulation and harvest scheduling.

**Prerequisite:** FOR 3162C and ECO 2023, or the equivalents.

**FOR 4624C Forest Health Management 3 Credits**

**Grading Scheme:** Letter Grade

Integrated, tree- and forest-oriented study of forest health emphasizing the ecological and economic roles of the biotic agents and abiotic factors that incite dysfunction and the biological and ecological basis for the maintenance of forest health through integrated management of these agents and the forest.

**Prerequisite:** 4 FY or higher.

**FOR 4664 Sustainable Ecotourism Development 3 Credits**

**Grading Scheme:** Letter Grade

Interdisciplinary and applicable study of the tools and techniques managers and planners use to provide sustainable ecotourism opportunities in Florida and worldwide. Topics include integrating ecotourism with other resource uses, landscape level ecotourism planning, sustainable community development, minimizing and monitoring ecotourism impacts, and creating a diversity of ecotourism opportunities.

**FOR 4900 Supervised Extension Experience in Forest Resources and Conservation 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**FOR 4905 Individual Study in Natural Resources 1-4 Credits**

**Grading Scheme:** Letter Grade

Individual study of a selected topic related to forest resources and conservation as contracted with the instructor at the start of the term.

**FOR 4911 Supervised Research in Forest Resources and Conservation 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic research in forest resources and conservation under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**FOR 4915 Honors Thesis Research 0-3 Credits****Grading Scheme:** S/U**FOR 4934 Topics in Natural Resources 1-4 Credits****Grading Scheme:** Letter Grade

Topics in forestry, wood science, range, recreation, wildlife and fisheries. Topics include special issues and in-depth study of topics not in other courses.

**FOR 4941 Internship in Natural Resources 1-4 Credits****Grading Scheme:** S/U

Supervision by a faculty member and a post-internship report are required. (S-U)

**Prerequisite:** undergraduate coordinator permission.

**SUR 4345 Marine Geomatics 3 Credits****Grading Scheme:** Letter Grade

Six-week course on the technologies, concepts, and methods required to acquire, analyze, and manage geographic data used in seafloor mapping and imaging. Provides background on the capabilities and limitations of different data collection systems, as well as for the other types of sensors necessary to collect accurate information. Topics include marine positioning, underwater acoustics, sonars, hydrographic standards, multibeam echosounder systems, and hydrographic survey design.

**Prerequisite:** Junior or senior standing.

## Courses

### **FRE 1130 Beginning French 1 5 Credits**

**Grading Scheme:** Letter Grade

Beginning French 1 and Beginning French 2 constitute the basic sequence in French for the development of overall skill in the language. Open to those with little or no background in French.

### **FRE 1131 Beginning French 2 5 Credits**

**Grading Scheme:** Letter Grade

Continuation of the basic sequence in French for the development of overall skill in the language. Open to those with little or no background in French.

**Prerequisite:** FRE 1130 or FRE 1180 with minimum grade of C, or S, or the equivalent as proven by placement test score.

### **FRE 1134 Accelerated French Review 5 Credits**

**Grading Scheme:** Letter Grade

Provides a rapid review of basic communicative French as preparation for intermediate French. For those with previous French study but insufficient placement scores to move to the 2000 level.

**Prerequisite:** Two years of high school French or equivalent.

### **FRE 1180 Elementary French: Review and Progress 3 Credits**

**Grading Scheme:** Letter Grade

For those who have previous experience in French but who are not yet prepared for advanced elementary work in the language. FRE 1180 confirms overall language skill in preparation for FRE 1131.

### **FRE 2220 Intermediate French 1 4 Credits**

**Grading Scheme:** Letter Grade

Devoted to grammar review and composition as well as to the advancement of spoken proficiency, FRE 2220 and its sequel, FRE 2221, develop reading and writing skills in French.

**Prerequisite:** FRE 1131 or FRE 1134 or FRE 1182.

### **FRE 2221 Intermediate French 2 4 Credits**

**Grading Scheme:** Letter Grade

Continued grammar review. Emphasizes practice in reading and developing vocabulary. Selected readings in French and Francophone fiction.

**Prerequisite:** FRE 2220.

### **FRE 2274 Intensive French Abroad 6 Credits**

**Grading Scheme:** Letter Grade

An immersion language course integrating the experience, observations and impressions of students living abroad with a French family (site announced annually). Emphasis on development of language proficiency and cultural awareness. Class meets 12 hours a week. Enhances speaking, reading, writing proficiency and the ability to communicate with native speakers.

**Prerequisite:** FRE 1131 with minimum grade of C, or S, or the equivalent as proven by placement test score.

### **FRE 3070 Accelerated Introduction to French 5 Credits**

**Grading Scheme:** Letter Grade

An accelerated introduction to French. Assumes no previous knowledge of French. Offers a four-skill introduction to the language for those who have completed intermediate level study in another Romance language.

### **FRE 3224 Applied French 1-5 Credits**

**Grading Scheme:** Letter Grade

French-language reading and discussion section designed to accompany and complement areas of diverse content offered in other departments. Readings and discussions are in French to develop specific vocabulary and fluency related to the content of the companion course, as well as to provide an international perspective on the issues of the main course. (N)

**Prerequisite:** FRE 2242 or instructor permission; 3 credits can count toward the major or minor.

**FRE 3300 Grammar and Composition 3 Credits****Grading Scheme:** Letter Grade

Systematic examination of French grammar. Practice of writing at several levels (summary of texts, descriptions, compositions). Textual analysis of literary and journalistic materials. First course of major sequence.

**Prerequisite:** FRE 2221 or equivalent, or AP score of 5, or IB score of 6 and above, or WebCAPE test.**FRE 3320 Composition and Stylistics 3 Credits****Grading Scheme:** Letter Grade

Develops advanced writing skills through the stylistic study of literary and journalistic texts. Writing assignments focus on development of a variety of skills, including summaries, literary analyses, argumentative essays, etc. Aspects of French grammar are highlighted along with analytical terms and key vocabulary from texts.

**Prerequisite:** FRE 3300 or the equivalent.**FRE 3410 French Conversation and Interaction 3 Credits****Grading Scheme:** Letter Grade

Develops and refines oral and comprehension skills relating to different domains. New vocabulary ranging from the colloquial to the most refined of discourses enables students to recognize and use words and expressions in the proper context; material enables students to move from discussions about themselves to situations they are likely to encounter in daily life abroad, through interviewing techniques and professional interaction.

**Prerequisite:** FRE 2221.**FRE 3440 Commercial French 3 Credits****Grading Scheme:** Letter Grade

Introduction to business practices in France with particular emphasis on active use of business vocabulary and salient cultural differences. Major topics include written business communication, financial institutions, trade and advertising. (S and N)

**Prerequisite:** FRE 2221 or the equivalent.**Attributes:** General Education - International, General Education - Social Science**FRE 3442 Contemporary French Commerce 3 Credits****Grading Scheme:** Letter Grade

Continues the acquisition of business language with special attention paid to technical readings, marketing, case studies and the role of France in the European Union. Emphasis is also placed on oral communication skills and contrasting U.S. and French business culture.

**Prerequisite:** FRE 3300 or instructor permission.**FRE 3500 France through the Ages 3 Credits****Grading Scheme:** Letter Grade

A study of France within context of the principal historical events that have formed and transformed the nation state, its mentality and its cultural production. Special attention is given to the significant political, intellectual, religious, social and artistic currents that have marked France and its image from ancient times to the present. (H and N)

**Prerequisite:** FRE 2221 or the equivalent.**Attributes:** General Education - Humanities, General Education - International**FRE 3502 Francophone Cultures 3 Credits****Grading Scheme:** Letter Grade

A study of the cultures of countries or regions where French is used as the (or one of the) official language(s) or, in a less official capacity, by a segment of the population. Study of some of the historical, conceptual, practical and problematic aspects of Francophonie. Also concentrates on one specific area (the Caribbean or West Africa or Quebec, etc., on a rotating basis). Literary samples are included. (H and N)

**Prerequisite:** FRE 2221 or the equivalent.**Attributes:** General Education - Humanities, General Education - International**FRE 3564 Contemporary French Culture 3 Credits****Grading Scheme:** Letter Grade

An overview of contemporary France that may include the study of politics, economics, education and the arts as well as ideas of national and ethnic identity and France's place in the EU. (H and N)

**Prerequisite:** FRE 2221 or the equivalent.**Attributes:** General Education - Humanities, General Education - International**FRE 3780L Corrective Phonetics 3 Credits****Grading Scheme:** Letter Grade

A survey of the units of speech cast in practical terms and organized by classes of sounds with particular emphasis on rhythm, vowels, nasalization, diphthongs and the complex phenomena that occur at word transitions in French. Taught in French, in an audio laboratory, with the instructor as monitor and with a manual designed for individualized instruction.

**Prerequisite:** FRE 2221 or the equivalent.

### **FRE 4411 French Communication 2 Credits**

**Grading Scheme:** Letter Grade

Focuses on oral practice with emphasis on oral communication and exchanges. It is designed to improve students' fluency in French and build/expand on their skills. Fosters possibilities to communicate across disciplines and engage with current affairs through news segment, radio and tv podcasts and other media. Topics may include ecology, climate change, the environment, geopolitics, global fashion industry, health, intercultural exchanges, music.

**Prerequisite:** FRE 3410 or the equivalent.

### **FRE 4420 Writing in French 3 Credits**

**Grading Scheme:** Letter Grade

Advanced writing course that provides a systematic study (or review) of French syntax, vocabulary and style with the help of drill sessions. Also may include some training in literary translation. A number of quizzes and written compositions.

**Prerequisite:** FRE 3320 or instructor permission.

### **FRE 4501 The French Language in the Americas 3 Credits**

**Grading Scheme:** Letter Grade

Examination of the presence of French in the Americas. Topics covered include: the origin of French in the Americas, language practices of Francophone communities, linguistic characteristics of the varieties of French, the effect of language contact on language behavior and representations and identity issues. Focus varies from year to year.

**Prerequisite:** FRE 3320.

### **FRE 4780 Introduction to French Phonetics and Phonology 3 Credits**

**Grading Scheme:** Letter Grade

An introduction to French phonological processes, providing explanatory evidence for the production of speech sounds, for the classification of sounds, for their interrelationship with one another (gliding, nasalization, assimilation), for morphological and syllable structure, for specifically French phenomena such as liaison, elision, final consonant drop, schwa drop, and for the relationship of morphology to phonology, especially in the verb system.

**Prerequisite:** FRE 3320; LIN 3010 recommended.

### **FRE 4822 Sociolinguistics of French 3 Credits**

**Grading Scheme:** Letter Grade

Sociolinguistic issues in the French-speaking world: language variation, discourse analysis, attitudes toward varieties of French and contact with speakers of other languages.

**Prerequisite:** FRE 3320; LIN 3010 recommended.

### **FRE 4850 Introduction to the Structure of French 3 Credits**

**Grading Scheme:** Letter Grade

Explores the French language as a system of communication and mental representation. Analyzes the morphological, syntactic and semantic aspects of contemporary French, and emphasizes the historical, psychological and sociological dimension of linguistic investigation.

**Prerequisite:** FRE 3320; LIN 3010 recommended.

### **FRE 4905 Individual Work 1-4 Credits**

**Grading Scheme:** Letter Grade

For advanced major and minors who seek independent work not offered in another course. Must be arranged individually with French faculty.

**Prerequisite:** department permission; only three credits can count toward the minor or major.

### **FRE 4906 Honors Thesis 1-3 Credits**

**Grading Scheme:** Letter Grade

Directed research leading to a 30-40 page essay on a topic approved by the thesis director; registration for two semesters is highly recommended. Not a substitute for a required course in the French major.

**Prerequisite:** 3.5 minimum GPA.

### **FRE 4911 Undergraduate Research in Language or Linguistics 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

### **FRE 4930 Revolving Topics in French Studies 1-5 Credits**

**Grading Scheme:** Letter Grade

Variable topics dealing with specific issues in French studies.

**Prerequisite:** FRE 3320 and FRW 3100 or FRE 3101, or the equivalent.

### **FRE 4956 Overseas Studies 1-18 Credits**

**Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

**Prerequisite:** undergraduate advisor permission.

**FRT 2460 French Texts and Contexts 3 Credits****Grading Scheme:** Letter Grade

Selected readings in English translation of major works of French literature. For those with no knowledge of French, not for credit in the major. (H and N) (WR)

**Attributes:** General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement**FRT 2930 Special Topics in French Literature and Culture 3 Credits****Grading Scheme:** Letter Grade

Rotating topics in French literature and culture; taught in English.

**FRT 3004 Monuments and Masterpieces of France 3 Credits****Grading Scheme:** Letter Grade

Study of selected masterpieces of French literature, in English translation. Works to be considered as they relate to history and as they can be read in strictly literary terms. Topic varies from year to year.

**Prerequisite:** sophomore standing or higher.**FRT 3520 French Cinema 4-8 Credits****Grading Scheme:** Letter Grade

Critical, theoretical and historical study of French cinema. Topics will be announced. Content may include key directors, 1930s cinema, nostalgia and masculinity in 1980s films, World War II cinema, and Colonial and Postcolonial cinema. Open to French majors and non-majors and is taught in English. (H and N)

**Attributes:** General Education - Humanities, General Education - International**FRT 3561 Women in French Literature and/or Cinema 3-4 Credits****Grading Scheme:** Letter Grade

Introduction to the rich heritage of feminist traditions in France and Francophone countries through an exploration of women writers and thinkers (filmmakers, theorists), primarily of the 19th and 20th centuries. Selected topics include L'écriture féminine (Writing the Feminine), autobiographical writing by French and Francophone women, women in French cinema and representations of women in French film and literature. Read, discuss and analyze a broad spectrum of primary and secondary sources from a feminist viewpoint. (H and N OR S and N)

**Attributes:** General Education - Humanities, General Education - International, General Education - Social Science**FRT 4523 European Identities, European Cinemas 4 Credits****Grading Scheme:** Letter Grade

Provides knowledge of different cultures, languages and identities that make up contemporary European cinemas.

**FRT 4911 Undergraduate Research in English Translation 0-3 Credits****Grading Scheme:** Letter Grade

Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

**FRT 4956 Overseas Studies 3 Credits****Grading Scheme:** Letter Grade

Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

**Prerequisite:** undergraduate advisor permission.**FRW 3100 Introduction to French Literature 1 3 Credits****Grading Scheme:** Letter Grade

Overview of French Medieval, Renaissance and classical literature and culture, with major literary, intellectual and historical trends through study of representative works from each period. Emphasizes close reading of texts to train students to read critically and to familiarize them with major authors, genres and interpretations. (H and N)

**Prerequisite:** FRE 2221 or the equivalent.**Attributes:** General Education - Humanities, General Education - International**FRW 3101 Introduction to French Literature 2 3 Credits****Grading Scheme:** Letter Grade

Selected readings of outstanding authors of prose fiction, poetry and theatre from the 18th to the 20th century. Provides the historical context for major literary movements and authors, and trains students to read and write critically. Generally organized thematically. (H and N)

**Prerequisite:** FRE 2221 or the equivalent.**Attributes:** General Education - Humanities, General Education - International**FRW 3930 Rotating Topics in French and Francophone Literature 3 Credits****Grading Scheme:** Letter Grade

Selected topics in French literature.

**Prerequisite:** FRE 3320 or instructor permission.

**FRW 4212 Readings in 17th Century French Prose 3 Credits**

**Grading Scheme:** Letter Grade

Selected readings with an emphasis on the history of ideas, the moralistes and culture in the early modern period. Texts include Descartes, Cyrano de Bergerac, Pascal, Fontenelle, La Rochefoucauld, La Fayette, La Bruyere and Svign.

**Prerequisite:** FRE 3320 and (FRW 3100 or FRW 3101), or the equivalent.

**FRW 4273 Readings in 18th Century French Literature 3 Credits**

**Grading Scheme:** Letter Grade

Rotating topics exploring the fiction, theatre or intellectual prose of the Enlightenment. Special emphasis placed on the cultural climate and productions of the ancient regime.

**Prerequisite:** FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

**FRW 4281 Readings in the 20th Century French Novel 3 Credits**

**Grading Scheme:** Letter Grade

Examination of representative novels in 20th century French literature from Proust to the New Novel and beyond. Emphasis may include study of genre, narrative techniques, literary modernism and major themes. Combines an historical approach with close textual readings. Authors frequently studied include Proust, Gide, Malraux, Cline, Camus, Sartre, Robbe-Grillet, Butor, Sarraute and Duras.

**Prerequisite:** FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

**FRW 4310 Seventeenth Century French Drama 3 Credits**

**Grading Scheme:** Letter Grade

Theory and practice of dramaturgy in the classical period as reflected in plays of Corneille, Moliere and Racine. Close textual analysis to disengage aesthetic and ideological problematics posed by each play.

**FRW 4324 Readings in 20th and 21st c. French theater 3 Credits**

**Grading Scheme:** Letter Grade

A study of selected plays (by Anouilh, Beckett, Césaire, Duras, Genet, Ionesco, Jarry, Réza, Sarraute, Sartre, etc.), dramatic techniques and stage performances in 20th and 21st century French and Francophone theater.

**Prerequisite:** FRE 3330 or FRW 3100 or FRW 3101, or the equivalent.

**FRW 4350 Modern French Poetry from Baudelaire to the Present 3 Credits**

**Grading Scheme:** Letter Grade

Combines an historical approach with close readings of poetic texts; also introduces a number of theoretical and critical writings. Although traditional poetic texts are studied, the works of less frequently taught poets are also presented.

**Prerequisite:** FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

**FRW 4391 Concepts of French Cinema 4 Credits**

**Grading Scheme:** Letter Grade

A critical and historical study of the representation of gender and ethnicity in French cinema.

**Prerequisite:** FRE 3300.

**FRW 4532 Survey of French Romantic Literature 3 Credits**

**Grading Scheme:** Letter Grade

A rotating topics tracing the development and the main tenets of 19th century French Romanticism. Concentrates on various themes and genres, including poetry, theater and the novel as well as the socioeconomic and cultural matrices that fostered the movement. Emphasizes the relationship between literature and the visual arts, constructions of gendered, cultural and artistic subjectivities, exoticism (spatial, temporal and mystical voyages) and representations of Paris and French society. Beginning with pre-Romantic authors, moves on to Lamartine, Stendhal, Hugo, Vigny, Balzac, Sand, Musset, Desbordes-Valmore, Nerval and Baudelaire.

**Prerequisite:** FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

**FRW 4552 Introduction to Realism and Naturalism 3 Credits**

**Grading Scheme:** Letter Grade

Rotating topics trace the development and the main tenets of latter 19th century literary, artistic and cultural productions. Concentrates on various themes and genres, including poetry, theatre and the novel as well as the socioeconomic and cultural matrices that fostered movements arising between 1850 and the fin de siècle. Specific attention may be devoted to definitions of Realism, Naturalism and Symbolism; representations of modern life and the industrialization of the literary market; the infiltration of scientific and mechanistic thought into literary productions (poetry or prose); and representations of women and the female body, of Paris and Parisian society.

**Prerequisite:** FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

**FRW 4762 Readings in Francophone Literatures and Cultures (excluding the Caribbean and Sub-Saharan Africa) 3 Credits**

**Grading Scheme:** Letter Grade

Rotating topics in the literatures and cultures of the Francophone world, including North America (Quebec), Europe (Belgium, Switzerland and regional France), Asia (Vietnam, Indian Ocean) and the Middle East.

**Prerequisite:** FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

**FRW 4770 African and Caribbean Literatures 3 Credits****Grading Scheme:** Letter Grade

The production of Sub-Saharan African writers from its inception to the present through examination of representative works and figures, genres (epics, poetry, drama, novels), discourses and critics that inform the productions. Particular attention is paid to historical, political and cultural issues that figure in the development and orientation of African literature in French. Occasional inclusion of Caribbean literature for purpose of comparison.

**Prerequisite:** FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

**FRW 4822 Introduction to French Critical Theory 3 Credits****Grading Scheme:** Letter Grade

Review and comparative analysis of approaches to literature from Romanticism to Deconstructionism. Reading and writing are examined through the eyes of Sainte-Beuve, Taine, Lanson, Bachelard, the Geneva School, Ricoeur, Bataille, Blanchot, Barthes, Foucault, Genette, Lacan, Kristeva, Todorov, Derrida and others.

**Prerequisite:** FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

**FRW 4911 Undergraduate Research in Target Language 0-3 Credits****Grading Scheme:** Letter Grade

Provides firsthand, supervised research in Target Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Target Language.

**FRW 4932 Senior Seminar in French Literature 3 Credits****Grading Scheme:** Letter Grade

Rotating topics for French majors and minors in the senior year. Topics rotate given research interests or field of specialization of the teaching faculty. Recent topics have included La Posie du Voyage; L'Ecriture Fminine; Le Discontinu chez La Rochefoucauld et La Bruyre; Charles Baudelaire: pote/critique de la vie moderne; Qu'est-ce que la Rvolte?

**Prerequisite:** FRE 3320 and FRW 3100 or FRW 3101.

## Courses

### **WST 2111 BE A SOCIAL JUSTICE ACTIVIST: #ACTIVISM, INTERSECTIONALITY AND SOCIAL MOVEMENT ORGANIZING 3 Credits**

**Grading Scheme:** Letter Grade

Engages social science research and activist materials to examine how people are trying to create social change. Includes attention to social change efforts mindful of intersecting inequalities. Provides students an opportunity to consider how they might engage in social change efforts themselves.

**Prerequisite:** Any Quest 1 course with a minimum grade of C.

**Attributes:** Quest 2, General Education - Diversity, General Education - Social Science

### **WST 2322 Introduction to Health Disparities 3 Credits**

**Grading Scheme:** Letter Grade

Examination of the multifaceted issue of health disparities based upon race and ethnicity, gender, socioeconomic status, education, sexuality, disability, physical and mental health, geography and other factors. Related issues include social determinants of health, cultural competency, health literacy, advocacy, social justice and health equity. (S and D)

**Attributes:** General Education - Diversity, General Education - Social Science

### **WST 2611 Humanities Perspectives on Gender and Sexuality 3 Credits**

**Grading Scheme:** Letter Grade

Close readings of cultural representations (in literature, the visual arts, movies, television, the Internet, etc.) facilitates the understanding of intersecting categories of identity such as gender, sexuality, class and race. Examines how such categories operate in everything from novels to YouTube to the evening news. (H and D) (WR)

**Attributes:** General Education - Diversity, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

### **WST 2612 Social Science Perspectives on Gender and Sexuality 3 Credits**

**Grading Scheme:** Letter Grade

The social construction of gender, sexuality, race, class and other identity categories. Readings focus on individuals, families and cultural groups, mainly in the U.S. but with attention to other nations. Subjects as intimate as the body and violence and as pervasive as politics and the law are included. The course emphasizes differences in daily life experiences of health care, education, sports and religion. Finally, it examines the potential of movements for social change. (S and D) (WR)

**Attributes:** General Education - Diversity, General Education - Social Science, Satisfies 4000 Words of Writing Requirement

### **WST 3015 Interdisciplinary Perspectives in Women's Studies 3 Credits**

**Grading Scheme:** Letter Grade

Drawing on materials and methodologies from a variety of disciplines, this class explores the diverse experiences of women in past eras and in the present, and in the U.S. and abroad. Required for the women's studies major and minor. (H or S, and D) (WR)

**Attributes:** General Education - Diversity, General Education - Humanities, General Education - Social Science, Satisfies 4000 Words of Writing Requirement

### **WST 3323 Gender, Bodies, and Health 3 Credits**

**Grading Scheme:** Letter Grade

Examines how gender is "worn" on the female body. Adopting a feminist interdisciplinary approach, explores three themes: cisgender female biology in social context, bodily practices concerning food and exercise, and disease (i.e., cancer). Examines intersections of gender, race, class, and disability, and role of activism/policy changes in improving people's health.

**Prerequisite:** sophomore standing or higher.

### **WST 3325 Violence Against Women 3 Credits**

**Grading Scheme:** Letter Grade

Approaches all forms of violence against women as a continuum and challenges assumptions regarding violence against women with empirical evidence. Adopts an intersectional approach to fully understand violence against women. Explores the transnational dimensions of violence against women and local specificities.

**Prerequisite:** sophomore standing or higher.

### **WST 3335 Women and Gender Analysis through American Film: 1950-Present 3 Credits**

**Grading Scheme:** Letter Grade

Traces how film and Hollywood cinema represent women, gender, and feminism over the past sixty years. Analyzes the relationship of film and the sociology and history of feminist movements. Addresses intersections of race, gender, sexual orientation, age, and class found in American cinema. (C, D, and H) (WR)

**Prerequisite:** Sophomore standing or instructor permission.

**Attributes:** General Education - Diversity, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

### **WST 3371 Women, Leadership & Diversity in the Global Environment 3 Credits**

**Grading Scheme:** Letter Grade

Examines leadership concepts in general, and for women in particular. Covers leadership strategies in a historical framework, leadership dilemmas in various industries (locally and globally), and experiential and case-study based leadership.

**Prerequisite:** Sophomore standing or instructor permission.

**WST 3415 Transnational Feminism 3 Credits****Grading Scheme:** Letter Grade

Women and feminism in a transnational perspective, focusing on various theories and movements engendered by women in contemporary national contexts. The course examines development, reproductive politics and women's health. (S and N)

**Attributes:** General Education - International, General Education - Social Science**WST 3603 Sexualities Studies 3 Credits****Grading Scheme:** Letter Grade

The interdisciplinary study of sexualities covering diverse theories of sexualities and desire, and how these theories are socially constructed and regulated. Central to the class are the connections between sexualities and other social locators such as race, ethnicity, gender, social class, age and ability or disability.

**Prerequisite:** sophomore standing or instructor permission.**WST 3610 Gender, Race and Science 3 Credits****Grading Scheme:** Letter Grade

Feminist theories of nature, science and technology, and how gender and race are critical to the origins of science, the making of scientists and the politics of contemporary practice.

**WST 3663 Gender and Food Politics 3 Credits****Grading Scheme:** Letter Grade

Survey of the gendered history of food and foodways from the early 17th century to the modern period; may be taught with a service learning component.

**Prerequisite:** Sophomore standing.**WST 3703 History of American Medicine: Race, Class, Gender, and Science 3 Credits****Grading Scheme:** Letter Grade

Overview of the development of the medical profession in the US with attention to ways that class, gender, and race have shaped the idea of "scientific medicine.

**Prerequisite:** Sophomore standing or departmental permission.**WST 3800 Sexual Ethics 3 Credits****Grading Scheme:** Letter Grade

Approaches sexual ethics as ways we integrate care, respect, mutuality, and reciprocity into sexual practices. Critically interrogates socio-cultural discourses about sex/gender/sexuality and their contexts. Explores how gender, race, sexuality, and class construct sexual expectations and how sexual autonomy can be negotiated in contexts of unequal social structures and relations.

**Prerequisite:** sophomore standing or higher.**WST 3930 Special Interdisciplinary Topics in Women's Studies 1-4 Credits****Grading Scheme:** Letter Grade

Variable topics from different fields of study in gender/ women's studies based on a feminist approach. Topics can include gender issues in education, women's autobiography and women's health issues.

**WST 4002 Data Feminisms 3 Credits****Grading Scheme:** Letter Grade

Draws from critical data and algorithm studies and feminist science and technology studies to develop critical tools of inquiry needed to approach data within a context of racialized, gendered, colonial, and classed systems of power. Combines practical data workshops with critical readings to analyze data across key uses in domains such as healthcare, security apparatuses, carceral systems, and digital infrastructures.

**Prerequisite:** sophomore standing or higher.**WST 4326 Women and Therapy 3 Credits****Grading Scheme:** Letter Grade

Survey of the development of mental health interventions from the 19th century to the present, with attention to women as patients, practitioners, and consumers.

**Prerequisite:** Any WST 3000 level course or PPE 3003 or CLP 3144**WST 4349 Ecofeminism 3 Credits****Grading Scheme:** Letter Grade

A holistic framework for understanding the connections between environmental, feminist and social justice issues. This course critically analyzes positions within ecofeminist theory. (WR)

**Prerequisite:** Sophomore standing.**Attributes:** Satisfies 4000 Words of Writing Requirement**WST 4383 Latinx Sexualities 3 Credits****Grading Scheme:** Letter Grade

Introduces the interdisciplinary field of Latina/o sexuality studies from an understanding of Latinx sexualities as complex processes in flux. Engages Latinx sexualities through transnational histories, memoirs and testimonios, artworks, literature, music, film, and video to understand how Latinx sexual identities and practices are shaped.

**Prerequisite:** Sophomore Standing.

**WST 4384 LGBTQ+ Movements and Critiques 3 Credits**

**Grading Scheme:** Letter Grade

Using examples of many forms of US LGBTQ+ social movement work, and critiques thereof, addresses the core questions: What is an LGBTQ+ movement? Are LGBTQ+, Queer, and Trans movements still relevant and possible today? Explores and examines these questions by reading and discussing research on how US LGBTQ+ movement work has been (and is) done, and critiqued, as well as how certain forms of it has been erased, elided, and (mis)understood.

**Prerequisite:** sophomore standing or higher.

**WST 4630 Gender, Culture, and Place 3 Credits**

**Grading Scheme:** Letter Grade

How are the experiences of gender and sexuality configured by geography, location and the built environment? How do gender relations and sexual practices define and give meaning to space and place? This class explores these questions through interdisciplinary consideration of the gendered relationships that unfold in significant spaces and places in the U.S. and the world.

**WST 4641 Lesbian and Gay Studies 3 Credits**

**Grading Scheme:** Letter Grade

Overview of lesbian and gay studies, including a portrait of the field, challenges, core debates and possible future directions of such research.

**Prerequisite:** instructor permission.

**WST 4704 Discrimination and Health 3 Credits**

**Grading Scheme:** Letter Grade

Examines discrimination and health from a variety of perspectives. Explores links of discrimination experiences with health behaviors and outcomes, discrimination in healthcare settings, and routes to improving health at individual, group, and legislative levels. Addresses multiple forms of discrimination (e.g., race, sex, class, sexual orientation/gender identity) and their intersections.

**Prerequisite:** PSY 2012 or any WST course or Sophomore standing.

**WST 4905 Independent Study in Women's Studies 1-3 Credits**

**Grading Scheme:** Letter Grade

For advanced undergraduate students who want to supplement regular courses with independent reading or research.

**WST 4911 Undergraduate Research in Women's Studies 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

**WST 4930 Special Topics 1-6 Credits**

**Grading Scheme:** Letter Grade

Lectures and seminars covering selected topics of current interest in women's studies and/or gender studies.

**Prerequisite:** instructor permission.

**WST 4935 Capstone Seminar 3 Credits**

**Grading Scheme:** Letter Grade

This capstone course, required for all majors, is the culmination of the women's studies major. It explores past and present scholarship to reaffirm the interdisciplinary nature of the field and to highlight relationships among feminist theory, intellectual practice and social change. The bulk of the semester is devoted to an independent writing project on the student's selected topic.

**Prerequisite:** WST 3015.

**WST 4940 Internship 1-3 Credits**

**Grading Scheme:** S/U

Practical experience in the community with a local agency, group or business involved in women's issues. (S-U)

**Prerequisite:** instructor and program director permission.

**WST 4941C Practicum in Health Disparities 3 Credits**

**Grading Scheme:** Letter Grade

Capstone experience for seniors enrolled in the health disparities in society minor. Students are matched with preceptors from community agencies that work with underserved, disadvantaged and disenfranchised populations. Students will learn about the agency and its organizational culture while applying concepts of cultural competence, linguistic appropriateness and health disparities.

**Prerequisite:** WST 2322 and Health Disparities in Society minor.

**WST 4956 Overseas Studies 1-15 Credits**

**Grading Scheme:** Letter Grade

This course provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

**Prerequisite:** advisor permission.

**WST 4970 Women's/Gender Studies Honors Thesis 3 Credits****Grading Scheme:** Letter Grade

For students pursuing an honors thesis in Women's Studies, in accordance with the protocols established by the Women's Studies and honors programs. Students design and pursue an independent research project with guidance from an advisor.

**Prerequisite:** WST 4935 and Women's Studies major.

## Courses

**GEA 1000 Geography for a Changing World 3 Credits****Grading Scheme:** Letter Grade

The spatial organization of society. Emphasizes the political regions of the world. (S and N)

**Attributes:** General Education - International, General Education - Social Science**GEA 1050 Prisoners of Geography: 10 Maps That Explain Everything About the World 3 Credits****Grading Scheme:** Letter Grade

Introduces the ways in which international affairs can be understood through geographical factors: not just the physical landscape (the natural barriers of mountains or connections of river networks, for example), but also climate, demographics, biogeography, environment, cultural regions, and access to natural resources. Utilizing maps, works to explain and understand complex geopolitical landscapes that shape our world in an ever more complex, chaotic, and interlinked manner.

**GEA 2270 Geography of Florida 3 Credits**

**Grading Scheme:** Letter Grade

Geographic conditions and human adjustments in the major regions in Florida. The natural environment, population, routes of communication, industries, resources and strategic location in their geographical and historical aspects. (WR)

**Attributes:** Satisfies 6000 Words of Writing Requirement

**GEA 3405 Geography of Latin America 3 Credits**

**Grading Scheme:** Letter Grade

Examines the interconnecting land, life and welfare throughout Latin America. (WR)

**Attributes:** Satisfies 6000 Words of Writing Requirement

**GEA 3500 Geography of Europe 3 Credits**

**Grading Scheme:** Letter Grade

Comprehensive and systematic survey of the population, natural resources, geographic regions and potentialities of Europe and the significance of this region in the economic and political affairs of the world. (N and S)

**Attributes:** General Education - International, General Education - Social Science

**GEA 3600 Geography of Africa 3 Credits**

**Grading Scheme:** Letter Grade

Comprehensive and systematic survey of the population, natural resources, geographic regions and potentialities of Africa and the significance of this region in the economic and political affairs of the world. (S and N) (WR)

**Attributes:** General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**GEA 4465 Amazonia 3 Credits**

**Grading Scheme:** Letter Grade

The biophysical basis of natural resource management, cultural diversity and economic development in Amazonia. Appreciating the complexity and variability of soils, vegetation, aquatic ecosystems and climate in the region offers clues for understanding human settlement and development as well as the potential and limitations of the rich natural resource base. (S and N)

**Attributes:** General Education - International, General Education - Social Science

**GEA 4911 Undergraduate Research in Regional Geography 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research in Regional Geography. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Regional Geography.

**GEO 2002 Why Geography Matters: More Than Ever 3 Credits**

**Grading Scheme:** Letter Grade

Introduces global transformations of all kinds: intense climate change significant weather extremes; unprecedented terrorist attacks; costly wars in Iraq Afghanistan; a terrible overlooked conflict in Equatorial Africa; an economic crisis threatening the stability of the international system. Presents these events their interconnections. Places our turbulent world in a more understandable light.

**GEO 2006 Natural Hazards Geography 3 Credits**

**Grading Scheme:** Letter Grade

Examines global weather, climate, and geophysical hazard events through geographic lens of human-environment interactions to understand how disasters emerge not only due to extreme events but from complex social, cultural, psychological, political, and economic forces. Discusses historical, recent, and ongoing hazard events to connect theory to individual and shared experiences.

**Attributes:** General Education - International, General Education - Social Science

**GEO 2200 Dynamic Planet Earth 3 Credits**

**Grading Scheme:** Letter Grade

Studies the development and distribution of landforms, climates, minerals, soils and water resources. Interrelationships among the physical environment and regional patterns formed by these elements are analyzed against man's utilization of them. (P)

**Attributes:** General Education - Physical Science

**GEO 2200L Dynamic Planet Earth Laboratory 1 Credit**

**Grading Scheme:** Letter Grade

Laboratory in physical geography, for lab science credit. (P)

**Corequisite:** GEO 2200 or GEO 2201.

**Attributes:** General Education - Physical Science

**GEO 2242 Extreme Weather 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the science of weather (what we get short term) and climate (what we expect long term) and current scientific developments in such areas as extreme weather prediction, global climate change and improved forecasting of events. (P)

**Attributes:** General Education - Physical Science

**GEO 2351 Geographical Sciences and Sustainability 3 Credits****Grading Scheme:** Letter Grade

Examines the most critical environmental issues facing the world today; emphasizes the sustainability of both human and physical systems in the 21st century utilizing cutting edge geographic technologies: spatial analysis, GIS and satellite imagery.

**Prerequisite:** any Biological Sciences or Physical Sciences general education course.**GEO 2410 Social Geography 3 Credits****Grading Scheme:** Letter Grade

Introduces geography as a social science. Various social concepts presented from a spatial perspective. (S and D)

**Attributes:** General Education - Diversity, General Education - Social Science**GEO 2411 Geographies of Race 3 Credits****Grading Scheme:** Letter Grade

Addresses geography as a colonial discipline. Introduces works on race that included plans to control, extract resources from, and convert non-European populations. Engages research on race and ethnicity produced in the field of geography. Analyzes the field's imperial roots and progress thematically in the context of contemporary approaches to the study of racialized communities. Presents approaches to the study of race, racism and resistance in the field of geography

**GEO 2420 People, Place, and Culture 3 Credits****Grading Scheme:** Letter Grade

Introduces cultural geography with an emphasis upon the development and spatial arrangement of the major societies of the modern world. (S and N)

**Attributes:** General Education - International, General Education - Social Science**GEO 2426 Pop Music and Culture: a Geographic Perspective 3 Credits****Grading Scheme:** Letter Grade

Examines the geographic origins, development and diffusion of contemporary pop music and the regional dynamics of pop music culture from the 1950s to present. (S)

**Attributes:** General Education - Social Science**GEO 2500 Global and Regional Economies 3 Credits****Grading Scheme:** Letter Grade

Contemporary perspectives, themes and research in economic geography, focusing on issues and problems associated with regional and global economic and demographic change. Regional variations and disparities in growth and development are analyzed and policy implications discussed. (S) (WR)

**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement**GEO 3162C Introduction to Quantitative Analysis for Geographers 4 Credits****Grading Scheme:** Letter Grade

Introduces elementary geographical data analysis, including spatial measurement, spatial statistics and spatial forecasting. Students apply statistical concepts and the use of spreadsheet computer software. (P)

**Prerequisite:** STA 2023 or instructor permission.**Attributes:** General Education - Physical Science**GEO 3222 Sea Level Science 3 Credits****Grading Scheme:** Letter Grade

Explains how sea level changes in space and time. Topics include methods for measuring sea level, the causes of sea level change such as tides, storms, and climate, future projections of sea level change, and resulting impacts.

**Prerequisite:** GEO 2200 or GLY 2010C or instructor permission.**GEO 3250 Climatology 3 Credits****Grading Scheme:** Letter Grade

Genesis of regional climates and their global distribution. Emphasis on world regional climatology. Secondary topics include applied climatology and climate change. (P)

**Prerequisite:** MET 1010 or GEO 2200 or GEO 2242.**Attributes:** General Education - Physical Science**GEO 3280 Principles of Geographic Hydrology 4 Credits****Grading Scheme:** Letter Grade

Examines the effects of physical geography on the land-based portion of the hydrologic cycle at the regional and basin scales. Includes discussion of precipitation, infiltration and runoff. (P)

**Prerequisite:** GEO 2200 or instructor permission;**Corequisite:** GEO 3162C.**Attributes:** General Education - Physical Science

**GEO 3315 Hungry Planet: Global Geographies of Food 3 Credits**

**Grading Scheme:** Letter Grade

Studies the biological structure, means of survival, propagation and distribution of plants, with emphasis on their relationship to the culture and diffusion of man throughout the world and his part in their development and improvement. (B)

**Attributes:** General Education - Biological Science

**GEO 3334 Managing for a Changing Climate 3 Credits**

**Grading Scheme:** Letter Grade

Interdisciplinary survey of climate variability and change. Topics include the physical science basis for climate change, sectoral analysis of climate impacts, adaptation, and mitigation options. Active learning, discussions, and roleplaying facilitate understanding of critical issues facing the human and natural world.

**Prerequisite:** Any P, B General Education Course

**Attributes:** General Education - International, General Education - Physical Science

**GEO 3341 Extreme Floods 3 Credits**

**Grading Scheme:** Letter Grade

Examines the world's most extreme floods from the Pleistocene through present due to various causes. Discusses physical and human aspects of flood warning, preparedness, response and recovery throughout the world. (N and P)

**Attributes:** General Education - International, General Education - Physical Science

**GEO 3343 Extreme Droughts 3 Credits**

**Grading Scheme:** Letter Grade

Examines droughts, particularly hydrologic droughts and drying rivers, and declining water resources. Assesses biophysical, socio-economic consequences when the quantity or quality of water is limited and/or decreasing through case studies in different environments (rivers, lakes, groundwater, etc.) and countries through data analysis and projects.

**Prerequisite:** Junior or senior standing.

**GEO 3352 The Human Footprint on Landscape 3 Credits**

**Grading Scheme:** Letter Grade

Studies human-environment relationships from a primarily geographic perspective, focusing on the human forces that shape landscapes.

**GEO 3372 Conservation of Resources 3 Credits**

**Grading Scheme:** Letter Grade

Surveys natural resources and a study of wise and wasteful practices of these resources. Satisfies resource certification for social studies teachers.

**Prerequisite:** sophomore standing or higher or instructor permission.

**GEO 3427 Plants, Health and Spirituality 3 Credits**

**Grading Scheme:** Letter Grade

Issues and controversies surrounding organic food, genetically-modified crops, medicinal plants, plants used to achieve altered states of consciousness and the importance of ornamental plants as inspiration for artists and in worship.

**GEO 3430 Population Geography 3 Credits**

**Grading Scheme:** Letter Grade

Geographical analysis of populations, including population description, distribution, change and characteristics; demographic processes; and the consequences of development, conflict and population control diseases. (S)

**Attributes:** General Education - Social Science

**GEO 3452 Introduction to Medical Geography 3 Credits**

**Grading Scheme:** Letter Grade

Medical geography deals with human-environment interactions and the influence of these interactions on public health. Provides a broad and comprehensive survey of geographic approaches in medical studies. (B)

**Prerequisite:** sophomore standing or higher; entry-level knowledge of statistics (STA 2023 or GEO 3162C or equivalent) recommended.

**Attributes:** General Education - Biological Science

**GEO 3454 Peoples and Plagues 3 Credits**

**Grading Scheme:** Letter Grade

Introduces emerging infectious diseases (EIDs) in the context of previous outbreaks, focusing on geography, origin, and management response. Explores basic models of infectious diseases processes, transmission cycle, and life-histories of host-vector systems, and the ecological and landscape conditions that favor emergence.

**Prerequisite:** sophomore standing.

**GEO 3502 Economic Geography 3 Credits**

**Grading Scheme:** Letter Grade

A comprehensive geographical survey of major economic activities such as agriculture, forestry, fishing, mining, manufacturing and commerce. Emphasizes the study of the characteristics of distribution and the regional patterns of these activities. (S) (WR)

**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**GEO 3602 Urban and Business Geography 3 Credits**

**Grading Scheme:** Letter Grade

Empirical and theoretical spatial analysis of the various economic, population and social facets within and between urban settlements.

**Prerequisite:** sophomore standing or instructor permission.

**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**GEO 3611 Housing, People and Places in a Spatially Diverse America 3 Credits**

**Grading Scheme:** Letter Grade

Examines the housing, people and places that comprise the diverse contemporary human settlement patterns in the U.S. Topics focus on the quality of life found in the housing and neighborhoods of these urban and rural landscapes. (S and D)

**Attributes:** General Education - Diversity, General Education - Social Science

**GEO 3803 Geography of Alcohol 3 Credits**

**Grading Scheme:** Letter Grade

Origins and fission of alcoholic beverages and associated crops on a global scale.

**GEO 3930 Special Topics 3 Credits**

**Grading Scheme:** Letter Grade

Rotating topics in geography.

**GEO 4024C Terrorism and Space 4 Credits**

**Grading Scheme:** Letter Grade

Critically discusses the dual concerns for geography as an influence on and a source of terrorism. Presents the origins of contemporary terrorism as well as the various motivations of ideologically-oriented, ethno-nationalist, and religious organizations. Examines how a spatial approach can contribute to better understand the diffusion of terrorist organizations across the world, with a particular focus on Africa.

**Prerequisite:** Any course with a GIS prefix.

**GEO 4033 Climate Change and Health 3 Credits**

**Grading Scheme:** Letter Grade

Presents the science of climate change and impacts on health. Discussion builds on core concepts of climate change science to examine a variety of topics from acute impacts such as heat waves and other weather extremes to chronic conditions like degraded air quality. Mitigation and adaptation strategies are also discussed.

**Prerequisite:** GEO 2200 or GEO 2242 or MET 1010 or permission of instructor.

**GEO 4034 Weather, Climate, and Society 3 Credits**

**Grading Scheme:** Letter Grade

Investigates social vulnerability to hazards, disasters, and climate change through perspectives and experiences of vulnerable population segments who often bear brunt of losses yet exhibit remarkable flexibility and creativity in coping and adapting to environmental risks. Introduces census data and spatial analysis to understand geographies of social vulnerability

**Prerequisite:** GEO 2006 or GEO 2200 or GEO 2242 or GEO 2420 or GEO 2410 or GEO 3430.

**GEO 4167C Intermediate Quantitative Analysis for Geographers 3 Credits**

**Grading Scheme:** Letter Grade

Surveys various multivariate techniques commonly used to analyze geographic data. Emphasis on hypothesis testing, inference, multiple regression, analysis of variance and cluster analysis. Introduces time-series regression and grouped estimation procedures, factor analysis, probit/logit modeling and trend-surface interpolation. (WR)

**Prerequisite:** GEO 3162C or the equivalent.

**Attributes:** Satisfies 6000 Words of Writing Requirement

**GEO 4169 Spatial Econometrics and Modeling 3 Credits**

**Grading Scheme:** Letter Grade

Introduces regression models capable of dealing with spatial auto-correlation; develop statistical models and estimate with computer software.

**Prerequisite:** GEO 4167C or equivalent.

**GEO 4170 Communicating Science in the Geosciences 3 Credits**

**Grading Scheme:** Letter Grade

Examines techniques to communicate scientific knowledge and research to non-science audiences. Topics include quantitative and qualitative research methods, using narrative, discussing data and statistics, risk communication, and communicating with journalists and politicians. Readings, discussions, and projects facilitate understanding of best practices when communicating to people making evidence-based decisions.

**Prerequisite:** Any Gen Ed Biological or Physical Sciences course.

**GEO 4281 River Forms and Processes 3 Credits**

**Grading Scheme:** Letter Grade

Examines the nature and variety of fluvial processes and the origin and modification of fluvial landforms. Includes discussion of environmental changes in rivers and human activities in drainage basins.

**Prerequisite:** GEO 2200 or GLY 2010C, or instructor permission.

**GEO 4285 Water, Risk, and Extreme Events 3 Credits**

**Grading Scheme:** Letter Grade

Investigates techniques for evaluating the risks of extreme events related to water in our environment. Presents data and methodologies for estimating the rarity of phenomena including excessive rainfall totals, high and low river levels, coastal storm surge and waves, and drought.

**Prerequisite:** GEO 3162C or STA 3032 or permission of instructor.

**Attributes:** Satisfies 6000 Words of Writing Requirement

**GEO 4300 Environmental Biogeography 3 Credits**

**Grading Scheme:** Letter Grade

Description and explanation of spatial patterns of biodiversity and the underlying biophysical factors of human-environment interactions. Investigates past and present distributions of organisms and how patterns of environmental variation influence organisms. How biogeography is used to design nature reserves and how forecasting climate change may affect organisms and explain human adaptations to environmental variability.

**Prerequisite:** Any Gen. Ed. P or B course.

**GEO 4306C Geography of Vector-borne Diseases 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the spatial epidemiology of vector-borne diseases (VBDs) and geospatial methods for monitoring, mapping and modeling them. Provides hands-on experiences for mapping and modeling risk of VBDs via GIS-based labs.

**Prerequisite:** GEO 3452 or GIS 3043 or permission of the instructor.

**GEO 4554 Regional Development 3 Credits**

**Grading Scheme:** Letter Grade

The problems of regional development and regional growth within the context of economic, political and spatial relationships. (S) (WR)

**Prerequisite:** junior or senior standing.

**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**GEO 4612 Shelter and Care Options for U.S. Elderly 3 Credits**

**Grading Scheme:** Letter Grade

Examines the strengths, weaknesses and demand for housing and care alternatives addressing the needs of both active and frail American elderly persons.

**Prerequisite:** refer to the department.

**GEO 4700 Transportation Geography 3 Credits**

**Grading Scheme:** Letter Grade

Introduces the history and evolution of transportation systems, and essential concepts, theories, and topics in transportation geography, such as spatial organization, economic foundations, urban form, major modes, globalization, and environmental impacts. Also covers network representation of transportation systems, basic network measures, and challenges for transportation geography.

**Prerequisite:** Sophomore standing or higher.

**GEO 4905 Individual Work 1-5 Credits**

**Grading Scheme:** Letter Grade

Qualified students and the instructor concerned may choose a particular topic or problem for study.

**Prerequisite:** undergraduates only with 9 credits of geography and instructor permission.

**GEO 4911 Undergraduate Research in Geography 0-3 Credits**

**Grading Scheme:** Letter Grade

Provides firsthand, supervised research in Geography. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Geography.

**GEO 4930 Senior Seminar 1 Credit**

**Grading Scheme:** Letter Grade

Integrates geographic concepts for graduating seniors; provides introduction to professional geography for students entering the job market.

**Prerequisite:** geography seniors only.

**GEO 4938 Selected Topics in Geography 1-4 Credits**

**Grading Scheme:** Letter Grade

Rotating geography topics.

**GEO 4944 Internship 1-10 Credits**

**Grading Scheme:** Letter Grade

Experimental learning in position with city, county, regional and state government agencies.

**Prerequisite:** senior standing.

**GEO 4970 Honors Thesis 3 Credits**

**Grading Scheme:** Letter Grade

Completion of an honors thesis that meets department specifications during the semester in which the student is enrolled.

**Prerequisite:** senior standing and participation in department honors program.

**GIS 2002 The Digital Earth 3 Credits****Grading Scheme:** Letter Grade

Focuses on how the Earth's surface is visualized, explored, and analyzed in digital formats (e.g. maps, satellite images, aerial photos). Provides an introduction to fundamental concepts of digital geographic data to understand the Earth environment and human society based on the vast quantities of geographic information in our ever-changing world.

**GIS 2114 The World & Big Data 3 Credits****Grading Scheme:** Letter Grade

Data drives today's world and over 80% of that data is geographic. Increasing volume and varying formats of these geospatial big datasets have posed new challenges. Introduces relevant concepts (e.g., 5 V's) and techniques (e.g., cloud computing) of big (spatial) data as well as its applications in the real world. Hands-on experiences with Volunteered Geographic Information (VGI), analyzing geotagged tweets, and visualizing spatial datasets.

**GIS 3001C Spatial Maps and Graphs 4 Credits****Grading Scheme:** Letter Grade

Analyzes cartographic problems with exercises in techniques of presentation, including map projections and symbols and problems in statistical representation by graphic methods.

**Prerequisite:** sophomore standing or above.**GIS 3043C Foundations of Geographic Information Systems 4 Credits****Grading Scheme:** Letter Grade

Geographic Information Systems (GIS) as the technology for creation, modification, display and analysis of spatial information. Develops knowledge of GIS, competence in geographic databases and familiarity with computer software and hardware.

**Prerequisite:** sophomore standing or above.**GIS 3420C GIS Models for Public Health 3 Credits****Grading Scheme:** Letter Grade

Focuses on the design of GIS-based models to address health and healthcare issues. Topics include a conceptual framework, landscape epidemiology models, disease diffusion models, health accessibility, human health behavior and location-allocation of health services. Laboratory section provides hands-on experience applying these models with GIS tools.

**Prerequisite:** (GIS 3043 or equivalent) & (STA 2023 or GEO 3162C or equivalent) or (Instructor permission)**GIS 4021C Aerial Photo Interpretation 3 Credits****Grading Scheme:** Letter Grade

Principles of aerial photography, identification and interpretation of physical and cultural features, sketching and simple map-making, and uses of aerial photography.

**Prerequisite:** GEO 2200 or instructor permission.**GIS 4037 Digital Image Processing 4 Credits****Grading Scheme:** Letter Grade

Introduces the theory and application of digital imagery data in geographical research with a hands-on, lab-based approach.

**Prerequisite:** Junior or Senior Standing.**GIS 4102C GIS Programming 3 Credits****Grading Scheme:** Letter Grade

Introduces basic programming concepts; instruction in popular programming languages for geospatial processing, applications, and modeling in ArcGIS environment.

**Prerequisite:** GIS 3043C or equivalent.**GIS 4113 Introduction to Spatial Networks 3 Credits****Grading Scheme:** Letter Grade

Many phenomena of interest in physical, social and cyber environments can be thought of as networks within geographic context. Teaches methods for analyzing these spatial networks, and introduces their applications in geography, transportation, hydrology, epidemiology, social science, etc.
